LETTER TO SHAREHOLDERS

To Shareholders:

Income for fiscal year 2007 was Ps. 107. 1 million that is 11% increase with respect to the previous year. After several years of sustained growth we have been able to consolidate the profits of all our business lines, placing us in an excellent position to start a new path for future growth. This situation is clearly shown in the uninterrupted growth of the EBITDA that increase 8.5% as related to the previous year. As a consequence of this improvement and as a part of our investment strategy we have completed certain acquisitions and developments in several Company segments.

Year 2006 concluded with an increase of the economic activity of 8.4% and a growth of 7.9% is awaited for year 2007. Consequently, the economy grew uninterrupted during 49 months, exceeding by 17.9% the maximum levels of year 1998 and by 50.3% the floor of the year 2002 crisis. Future projections indicate a significant rhythm of economic expansion estimating that the income policy will continue being strongly expansive as there are no signs of deceleration of the key consumption variables. Also, salary and retirement increases are projected as well as higher consumption credits. Private consumption grew 8.2% during the year this being higher to the GDP increase.

On the other hand, the construction industry was one of the most important boosters of the economy as from year 2003 with growth rates that duplicated those of the GDP. Investments of the sector were 62% of the total gross investment of year 2006 and it is currently expanding at moderate rates with the higher level registered in July 2006. It is awaited that by the end of year 2007 the growth rate will be in line with the GDP, which is 7.5% approximately. We are optimistic as regards the industry projections as the sector continues a good growing level.

In respect of the shopping center segment, in line with our regional expansion strategy, we have acquired two real estates in the city of Cordoba the second most important city in the country. In July 2006 the acquisition of the Villa Cabrera Shopping Center was completed, this being a shopping center covering 35,000 square meters of surface area, including 106 shopping stores, 12 movie theatres and parking lot for 1,500 vehicles, placed in the Villa Cabrera quarter one of highest acquisition power districts in the city of Cordoba. In November 2006, we were awarded through a public bidding the building known as Edificio Ex-Escuela Gobernador Vicente de Olmos, covering 5,147 square meters of surface area on which a part of the Patio Olmos commercial center is placed with four commercial plants and two underground parking lots.

On the other hand, we have started developing a large new commercial center in the city of Buenos Aires that will be placed in the crossing of the General Paz Avenue and the Panamericana highway in the Saavedra district. This business will allow us to consolidate the market share we currently have in the city of Buenos Aires. The project includes the construction of a shopping mall, an hypermarket, several movie theatres and an office and/or residential building allowing us to capture people with a very good acquisition power living in the Northern area of Greater Buenos Aires. Panamerican Mall S.A. (PAMSA), a recently incorporated company in which our Alto Palermo S.A. (APSA) subsidiary holds 80% share, is in charge of developing this project.

The offices segment continues a significant recovery path. The consistent lack of locative offer and the increasing demand of the last year have put an upward pressure on the rental values. The class A and AAA office segment is placed on the market in vacancy levels under 4% and rental values of 30 US\$/square meters and 35 US\$/square meters¹, approximately, which are pre-crisis levels. We believe that this scenario is highly positive for the Company. In respect of the impact on the recovery of our profits, as these are mostly 36 months rental contracts, the effect will only show progressively during the coming fiscal years.

Also in this segment, important acquisitions were completed during the year. We have subscribed a purchase option for the Edificio República, one of the most emblematic in the city having been designed by the worldwide known architect César Pelli. This is a 20-storey building totaling a gross locative area of 19,800 square meters of class AAA offices. We have also acquired the Edificio Bouchard Plaza, which is known as Edificio La Nación, this also being a 20-storey class AAA office building covering a gross locative area of 33,324 square meters, located in Buenos Aires city downtown. In addition, we have purchased commercial stores and parking lots in the Edificio Dock del Plata a class AAA building covering a gross locative area of

Table of Contents

7,921 square meters located in the very exclusive area of Puerto Madero. With all these acquisitions, the Company's rentable area of AAA and A offices has increased by 70% placing our share in this segment of the market in 20%.

In respect of our sales and real estate development business unit, in addition to our projects directed to the higher income segment, we have started focusing on other lesser income segments of the market. We believe that the salary adjustments and the improving situation of mortgage loans will tend to generate a larger access to the real estate property by such lesser income segments.

A lesser number of plots were bartered during the current year in respect of the previous one since our intention is to start our own new development by participating in a company that was incorporated for such purpose. The decision to keep the plots in our stock for their development was shown in lesser income and in the EBITDA of this business unit in year 2007. However, thanks to this decision it is awaited that a significant increase will occur in the results and EBITDA of future years. If we analyze the growth of EBITDA in total segments, excluding this business unit, the increase in respect of the previous year was 27.3%, which is much higher to 8.5% if we included. This would show the significant growth in the other segments that was not entirely shown in the global indicators due to the change of operating modality in the business unit.

During the year we have moved forward with the Torres Renoir project in Puerto Madero, which is a two tower building project aimed at a high income segment. The progress level of the first tower is 78% and 4.5% for the second one. We have continued developing the Caballito Nuevo project, a residential complex of two 34-storey buildings directed to a medium income segment.

Also during the current year we have acquired two adjacent buildings in the Vicente López district, our project being to develop a very important entrepreneurial real estate. We are currently beginning the construction of the show-room for the future marketing of the buildings.

In respect of the urbanization of the 70 hectares estate located 10 minutes far from the Government House, the first development stages have started. This project is being developed through our recently incorporated subsidiary Solares de Santa María S.A. (Solares), having a residential profile devoted to a mix of purposes, including offices, stores, hotels, sport and nautical clubs, supporting service areas such as schools, supermarkets, parking lots, etc. This project has been conceived as a new district in the city of Buenos Aires.

As regards the hotel market the demand continues the expansion trend pushed by tourism, which has generated an increase in the sector's tariffs. Within such context, in the twelve months as of June 30, 2007 the average occupancy rate was 74% and the average rate was US\$ 152, approximately. As there are possibilities that the growth potential of the sector will still increase, we have started remodeling the two Buenos Aires hotels. On the other hand, the expansion of the Hotel Llao Llao in the Argentine Patagonia is in an important stage of progress, the opening of the 42 suites on the Moreno Lake being estimated for the beginning of the next year.

With the purpose of financing the investments and developments referred to above, in February we issued Class I ten years Negotiable Bonds of IRSA in an amount of US\$ 150 million and 8.5% annual rate to be paid biannually. The issue price was 100% of the nominal value and cut offer rates were received for up to three and a half times on the amount offered, which shows the strong investment community support to the Company's business plan. In May 2007 we issued two other series of Negotiable Bonds through APSA in an amount of US\$ 170 million. APSA's Class I are for the issuance of US\$ 120 million to be matured in 2017, accruing a fixed interest rate of 7.875% to be paid biannually, the capital to be fully paid at maturity. APSA's Class II are for issuing Ps. 154 million (equivalent to US\$ 50 million), to be matured in year 2012, accruing a fixed interest rate of 11% to be paid biannually, the capital to be cancelled in seven biannual, equal and consecutive installments as from year 2009.

This unquestionable favorable context is a highly significant time to plan and complete new projects. In this new stage our plan is to widen our investments in Latin America as we believe that the know-how we have been able to achieve during the last years and the access to the capital market will allow us to capture important business opportunities.

Undoubtedly, IRSA's potential has been possible to attain only with the joint effort of our shareholders, creditors, directors, lessees, clients, vendors, employers and the community in general, all of these being

protagonists of our current evolution. Consequently, I wish to express my gratitude for the permanent effort and compromise towards the organization.

MACROECONOMIC CONTEXT

The Argentine economy

Subsequent to the strong progress shown during calendar year 2006, the economy activity continued its growing path during the current calendar year principally pushed by the internal expense and the favorable evolution of the price of commodities. In line with the current rates, it is estimated that during the second quarter of this calendar year the economy would have expanded slightly above 2% seasonally adjusted, accumulating 21 quarters of uninterrupted growth allowing the Gross Domestic Product to (GDP) be 20% above the maximum estimated prior to the crisis (8.3% in per capita terms).

The GDP increase in calendar year 2007 would be principally boosted by private consumption and the public consumption would increase at a rate higher than that of year 2006. The Gross Domestic Fixed Investment (GDFI) would continue growing above the economy average, although at a lesser speed than that of the last years, led by purchases of durable production equipment.

Taking these estimates into account and the statistical pull of 3.3 percent points of calendar year 2006, it is awaited that the economy will grow approximately 8% inter-annually by December of the current year. Consequently, we would be entering into the fifth consecutive year of economic growth, being the largest and strongest expansive stage since the 1964-1974 period.

During the current calendar year investment expense would be showing deceleration signs with respect to the previous years. Higher expense levels would be the consequence of higher investments both in the private and public sectors. In the first case, expectancies of a larger economic growth and profitability would stimulate all investment decisions. On the other hand, higher investments in infra-structure (focused on the delivery of electricity) and household plans would increase the share of the public sector in the GDFI

Specifically for the second quarter of the current calendar year 2007 the investment would have accelerated and expanded at a rate above 5% seasonally adjusted, that is higher to the last year average (3.3% seasonally adjusted). This increase would be principally boosted by purchases of durable production equipment, and construction expense would be relatively stable in the levels of the fourth quarter.

Consumption is still the principal booster of the economy growth along 2007, influenced both by larger expenses of families and of the public sector. The increase of the private consumption would relate to several issues, among which we would mention the increase of retirement payables and salaries within a context in which loans for consumption are growing at high rates.

In accordance with estimates of the Argentine Central Bank (BCRA), it is awaited that private consumption will increase 7% approximately during the year, this amount being slightly lesser to the rising of previous years, and would indicate that this issue keeps an outstanding dynamism and contributes with two-thirds of the product growth. These ratios would anticipate a good consumption behavior in family houses as regards wholesales, retailers and sale of vehicles, in a context in which personal loans continue showing higher growing rates.

The trade balance of goods and services would be surplus for the sixth consecutive year although it will continue its current declining trend. During the first six-months of calendar year 2007 imports measured at constant prices continued increasing in inter-annual terms at a higher rhythm than exports.

The boosting of imports resulted due to higher purchases of capital and intermediate goods, together with increases in all the other items in a context of de-accumulation of stocks.

In the absence of an international level moneylender and with the purpose of eradicating the external vulnerability that characterized our economy during the last decades, the BCRA continues with the policy of accumulating international reserves based on precautionary reasons (maintaining the nominal rate of exchange of Ps. 3,10 = US\$ 1) and providing for a solvent and foreseeable scenario. Consequently, this policy allowed an historical record of international reserves in Argentina by exceeding the amount of US\$ 37,380 million recorded in January 2001.

It is important to mention that the BCRA executes a monetary policy consistent with the balance between supply and demand in the monetary market, sterilizing a significant portion of the primary money generated by

Table of Contents

purchasing foreign exchange and placing LEGAC and NOBAC, concentrating swap operations and collecting re-discounts. Particularly during the six-month period ended June 30, 2007, the BCRA sterilized approximately 90% of the primary issue of money associated with the accumulation of international reserves.

Furthermore, the hoarding of reserves is not the simple reflection of external indebtedness but the opposite face of the external surplus in a fiscal surplus context. In this sense, the current account continues showing favorable results, estimating that by December 2007 six consecutive years of positive balances will be completed, which has not happened during the last four decades. During last year, the current account outcome was higher than in 2005 growing by US\$ 8,000 million (3.8% of the GDP). For the current year, a surplus that in nominal terms would be similar to that of 2006 is estimated, principally pushed by the trade balance. Although during the second quarter of calendar year 2007 exports showed a temporary deceleration -principally due to the dispatch of certain primary products such as soy beans and copper benefiting- it is estimated that during the next months external sales will recover the previous upward trend and that total sales will be US\$ 52,000 million, approximately.

On the other hand, the public accounts still have a positive performance, boosted by increasing tax collections that in part allow compensating the upward trend of the primary expense. For the rest of the year it is estimated that tax profits will continue expanding and collections would be above 24% of the GDP, and the outcome of the National Non-financial Public Sector (NNPS) would reach as of December 31, 2007 the primary surplus included in the National Budget. However, considering the estimated financial surplus up to the end of the calendar year and the new estimated issues of debt in foreign currency, the financing of the National Public Treasury (NPT) needs would not have difficulties during the current calendar year.

The positive evolution of activity levels is still accompanied by better labor and social variables. For the first quarter of calendar year 2006, unemployment was in line with the awaited increasing to 9.8%.

As of June 30, 2007 the Consumer Price Index of Greater Buenos Aires (CPI GBA) registered in June of the current year an inter-annual increase of 8.8%, and the Wholesale Internal Price Index (WIPI) of June 2007 registered a 1.9% increase with respect to the previous month and an inter-annual rise of 9.3%.

Under such context, the economic activity would continue moving upwards during the rest of year 2007, principally pushed by internal expense. Although during the second quarter the GDP would have grown at a lesser rhythm than the average of the current expansive cycle, in accordance with the BCRA projections it is estimated that it will accelerate during the third and fourth quarters. By the end of the calendar year the estimated average increase will be 8%, approximately.

The Construction Industry

On the basis of the INDEC's last available data, the first quarter of calendar year 2007 registered an improvement in total consumption reaching record amounts both in the private (positive inter-annual variation of 8.2%) and public (positive variation of 6.4%) levels. It is awaited that private consumption will increase in 2007 approximately 7%, which would be slightly lesser to the rising registered during the previous years, and it would indicate that this component would keep an outstanding dynamism contributing with two thirds of the GDP's growth. These rates would anticipate a good behavior of household consumption during the first quarter of the year, according to the evolution of wholesales, retailers and automotives, in a context in which personal loans have high grow rates.

The increase in retailer consumption was shown due to higher number of sales in Commercial Centers at constant prices. During June 2007 seasonally adjusted sales at constant prices in Commercial Centers had a positive inter-annual variation of 21.1% and total sales of the first six-month period of calendar year 2007 had an inter-annual variation of 27.3% with respect to the same period of the previous year.

Unemployment will go downwards in inter-annual terms, with the highest labor demand that would be in line with the economic activity expansion. Consequently, the downward trend noted since 2002 would extend along 2007 although the reduction would be lesser than the last years'. For the first quarter of calendar year 2007, the unemployment rate measured by the Permanent Survey of Households (PSH) prepared by the INDEC was 9.8% of the Working Population (WP), continuing the downward trend noted after the crisis.

During the first six-month period of calendar year 2007, the acquisition power of employees deflated by the Consumer Price Index of Greater Buenos Aires (CPI GBA) continued an upward trend at a similar rhythm to the one noted at the end of calendar year 2006 and slightly higher to the one expected. Salary increases would have occurred both due to the formal sector negotiations (principally at corporation level) and to a salary increase in the non-registered segment. For the remaining part of calendar year 2007, it is awaited that current salaries will increase for the fifth consecutive year, exceeding in the average the amounts received prior to the crisis but still persisting differences between the different segments of the labor market.

Prospects on the behavior of consumption and the performance of the Commercial Centers are strongly related to the course of the economy and the preference of tourists, which is based on the country's commercial alternatives and the competitiveness of the nominal rate of exchange. In accordance with the consensus existing in the market in respect of the GDP evolution during calendar years 2006 and 2007, which will be higher to 8%, sales in the Commercial Centers will continue improving in the next year.

OPERATIONS AND PRINCIPAL ACTIVITIES

We are one of Argentina's leading real estate companies. We are engaged directly or indirectly through subsidiaries, joint ventures and strategic alliances in a range of real estate activities in Argentina. Our principal activities consist of: (i) the acquisition, development and operation of office and other properties primarily for rental purposes; (ii) the acquisition, development and operation of shopping centers properties; (iii) the acquisition and development of residential properties primarily for sale; (iv) the acquisition and operation of luxury hotels; and (v) the acquisition of undeveloped parcels of land in strategic areas for future developments or sale. We hold an interest of 11.76% in Banco Hipotecario, one of the main financial organizations of the country. We are the only real state company in Argentina whose shares are listed and traded in the Bolsa de Comercio de Buenos Aires (BCBA) and New York Stock Exchange. (NYSE).

Our principal executive office is located in Bolívar 108, Buenos Aires (C1066AAB), Argentina. Our headquarters are located in the Intercontinental Plaza Tower, Moreno 877, Buenos Aires (C1091AAQ). Our telephone is +54 (11) 4323-7400, our fax is +54 (11) 4323-7480 and our website is www.irsa.com.

Commercial strategy

As one of the few companies in Argentina owning, developing and administrating real estate, we consider that we possess certain competitive advantages that we hope will allow us to continue gaining an increasing share of the real estate market in Argentina. Such advantages include:

The experience of the Company and our managers in the acquisition, development, sale, rental and administration of top-quality properties.

Our reputation and positioning as developers of comprehensive real-estate services in Argentina and other Latin American real estate markets;

The quality of our portfolio of existing properties and undeveloped parcels of land.

Our access to sources of long-term capital;

Our strategy for maintaining a high level of liquidity, enabling better advantage to be taken of real estate opportunities when they arise in favorable terms, and

The quality of our existing tenants and the high occupancy levels of our rental property portfolio, which allows us to rely on a major, stable source of liquidity for our cash flows.

We try to take advantage of our position as one of the only first tier companies in Argentina devoted to legal entitlement, development and administration of real estate. Our commercial strategy is to maximize our funds flow and appreciation of assets in the long term through a continuing expansion of our property portfolio by purchasing, developing and operating a diversified range of real estate assets. Our intention is to continue investing in corporations together with other developers and operators on a selective basis of projects and evaluating the purchase or disposition of investment buildings according the attractive opportunities.

Commercial Centers. In recent years the Argentine commercial center industry has taken advantage of the improvements in the macroeconomic conditions and in the expansion of consumer's loans. We believe that this industry has highly attractive prospects for the long term growth considering, among other, the following issues: (i) the continue evolution of the consumer's preference for commercial malls (over the small district shops), and (ii) the penetration attained in the market of commercial centers that we consider is low in comparison with other developed countries. We seek to improve our position in the Argentine commercial center industry by benefiting from the scale economies so as to improve our diversified portfolio operating margins as regards existing commercial centers. We intend to develop new buildings in strategic places of the city of Buenos Aires an in other important urban areas including the Argentine provinces, as well as in other places of Latin America.

Table of Contents

Residential Buildings. During the 2001 and 2002 Argentine economy crisis, a scarcity of mortgage financing slowed down the purchase of medium-class houses. Consequently, we have decided to focus on projects devoted to successful individuals who do not need financing the acquisition of their houses. We believe that there are attractive opportunities in the residential segment as construction costs remained in low levels and building values have recovered significantly. We intend to take advantage of this opportunity and of the improvements in high-ways and other transportation infrastructure both in the City of Buenos Aires and in the suburbs. Consequently, we will focus on the development of residential properties for medium and high-income individuals. In urban areas, we intend to buy under-developed properties in thickly populated areas and build apartment complexes offering green areas for developing recreational activities. In the suburbs we will develop residential communities by acquiring under-developed properties with easy access to the city of Buenos Aires, developing roads and other basic infrastructure as for instance the provision of electric energy and water resources. Later we will sell plots of land for building residential units.

Office buildings. During the 2001 and 2002 Argentine economy crisis, there were little investments in high category office buildings in the city of Buenos Aires. Consequently, we believe that there is a substantial demand for attractive office buildings. We will acquire, develop and operate first class office buildings in the main office areas of the city of Buenos Aires and in other strategic areas that, in our opinion, have an important return and potential for valuation of capital. We expect to continue focusing on attractive corporation tenants for our office buildings and we will consider any opportunity for acquiring buildings or constructing new buildings according to location and circumstances.

Hotels. We understand that our three luxury hotels portfolio is in good conditions to benefit from the increase of tourism and traveling to Argentina. We will continue with our strategy of investing in high-quality properties operated by international hotel companies known for having capitalized their operating experience and international standing. Our intention is to renew and expand the Hotel Llao Llao and to remodel the Hotel Sheraton Libertador.

Land reserves. We continue acquiring plots of land located both inside and outside Buenos Aires, which we consider attractive. In all these cases, the objective is to acquire land having potential for developing or valuation for sale. We believe that counting with attractive and underdeveloped plots of land increases our capacity for making long-term strategic investments and provide us with a strong base to develop new projects in the next years

International. In the past, we have made significant investments in real estate out of Argentina, including investments in Brazil Realty of Brazil and in the Real Estate Value Fund of Venezuela, in 2002 and 2001, respectively. Although we cannot assure that we will make investments in the future out of Argentina, we believe that Brazil and certain Latin American countries have good opportunities in the real estate business. We will continue evaluating new regional opportunities as long as they arise.

Offices and other rental properties

We are engaged in the acquisition, development and management of offices and other rental properties in Argentina. As of June 30, 2007, we, directly and indirectly, owned interests in 24 office and other rental properties in Argentina which comprised 234,321 square meters of gross leasable area. Of these properties, 17 were office properties which comprised 138,315 square meters of gross leasable area. For the fiscal year 2007, we had revenues from office and other rental properties of Ps. 55,683 million.

All our office rental property in Argentina are located in Buenos Aires City. All of these properties are rented to various different premium tenants. For the year ended June 30, 2007 the average occupancy rate for all our properties in the Offices and other rental property segment was approximately 97.37%. Seven different tenants accounted for approximately 26.75% of our monthly office rental and 28.91% of our total revenues for the fiscal year 2007 for the same concept. Our seven main office rental tenant are: Grupo Total Austral, Finterbusch Pickenhayn Sibille S.C. (KPMG), Microsoft Argentina S.A., Techint Cia. Tecnica Int. SACel, Occidental Argentina , Exploration and Production Inc., Marval & O'Farrel and Cisco Systems Argentina S.A.

Administration and Management. We generally act as the managing agent of the office properties in which we own an interest. These interests consist primarily of the ownership of entire buildings or a substantial

number of floors in a building. The buildings in which we own floors are generally managed pursuant to the terms of a condominium agreement that typically provides for control by a simple majority of the interests (based on the area owned) in the building. As the managing agent of operations, we are responsible for handling services, such as security, maintenance and housekeeping. These services are generally contracted to third party providers. The cost of the services are passed-through and paid for by the tenants, except in the case of our unrented units, in which case we absorb the cost. Our leasable space is marketed through commissioned brokers, the media and directly by us.

Leases. In general we rent our office and other properties on the basis of lease contracts running for terms of three years, and exceptionally, four years renewable for two or three additional years at the tenant's option. Contracts for the rental of property are generally stated in U.S. dollars, and in accordance with Argentine law they are not subject to inflation adjustment. Rental corresponding to the period renewed is negotiated at market value.

The following table sets forth certain information regarding our direct and indirect ownership interest in offices and other rental properties.

Shopping centers

We are also engaged in purchasing, developing and managing shopping centers, through our subsidiary APSA. As of June 30, 2007, APSA operated and owned majority interests in ten shopping centers, five of which are located in Buenos Aires City. One shopping center is located in greater Buenos Aires and the rest inside the country in the cities of Salta, Rosario, Mendoza and Cordoba.

During year 2007, APSA acquired a 100% of Empalme S.A. shares, the latter being the owner of Córdoba Shopping, a shopping centre covering 35,000 square meters of surface area, having 160 commercial stores, 12 movie theatres and parking lot for 1,500 vehicles, located in the Villa Cabrera neighborhood of Córdoba City.

In addition to purchasing, developing and managing shopping centers, APSA owns an 80% interest in Tarshop, a limited purpose credit card company which originates credit card accounts to promote sales from APSA's tenants and other selected retailers.

APSA's shopping centers comprised a total of 224,138 square meters of gross leasable area (excluding certain space occupied by hypermarkets which are not APSA's tenants and the surface area of the Panamerican Mall that include several projects one of these being the construction of a commercial center), approximately the 58.9% of Ciudad de Buenos Aires gross leasable area and the 10.8% of Gran Buenos Aires gross leasable area. For the year ended June 30, 2007, the average occupancy rate of the shopping center portfolio was approximately 98.9%. For the fiscal year 2007, we had revenues from shopping centers of Ps. 272.1 million.

Management and administration. As a result of the acquisition of several shopping centers and of the corporate reorganization of APSA, we were able to reduce expenses by centralizing management of the shopping centers in APSA. APSA is responsible for providing common area electrical power, a main telephone switchboard, central air conditioning and other basic common area services.

As of June 30, 2007 we owned 62.48% of APSA and Parque Arauco S.A. (Parque Arauco) owned 29.5%. The remaining shares are held by the public and traded on the Bolsa de Comercio de Buenos Aires and on the Nasdaq Stock Market (USA).

Leases. APSA enters into lease contracts for terms between three to ten years, with most leases having terms of no more than five years. The typical contracting modality, in the majority of contracts, includes a monthly value assured generally stated in Argentine pesos, a review clause of such value every six-months, and a 7% increase annual and accumulative that in general has an effect as from month 13 of initiating the contract relationship. Generally, these contracts do not include renewal clauses. Tenants are generally charged the major value between a rent which consists of a base rent and a percentage which generally ranges between 4% and 12% of tenant's gross sales. Tenants are also required to pay for the direct expenses of their units, such as electricity, water, telephone and air conditioning, as well as their proportion of the common area expenses and the Promotion's Fund (FPC).

In addition to rent, tenants are generally charged with an admission right paid upon entering into a lease and upon lease renewal. Admission right can be paid in a lump sum or in a small number of monthly installments. If the tenant pays in installments, it is the tenant's responsibility to pay for the balance of any such amount unpaid in the event the tenant terminates its lease prior to its expiration date.

Competitors analysis

Offices and Other Real Estate Property for Lease

With respect to the office unit and other real estate property for lease, a vast number of our properties in Argentina are located in developed areas. There are great number of offices, shopping malls, retail and

Table of Contents

residential premises in the areas where each of our properties are located. The number of properties in a specific area may cause an adverse effect on our ability to rent or sell units and on the selling and leasing price of our real estate. Historically, only a few companies have competed with us in the purchase of offices or properties for development. This is an atomized market which, given the absence of major participants, we do not account for a challenging competitor. We own Santa María del Plata and Puerto Retiro, the only two undeveloped parcels of land overlooking the River Plate close to Buenos Aires City which have not been developed and where we do not have any competitors whatsoever. Likewise, in future, other companies, both national and foreign, shall be able to actively take part in the real estate purchase and development market of Argentina, as well as in the international markets wherein we may participate.

Commercial Centers

Also, among our main activities, are the purchase, development and administration of commercial centers, through our subsidiary company APSA. The number of commercial centers within a specific area may affect our ability to rent the gross locative area of our commercial centers as well as its price. We are convinced that, due to the limited availability of large pieces of real estate and the real estate restrictions in Buenos Aires City, it will not be easy for companies to compete with us for the commercial centers development areas. Our main competitor is Cencosud S.A., owner and operator of Unicenter Shopping Center and Jumbo Hypermarkets chain among others.

The following chart shows certain information relative to the most important owners and operators of commercial centers in Argentina:

Sales and development properties; Undeveloped parcels of land

Residential development properties

The acquisition and development of residential apartment complexes and residential communities for sale is one of our core activities. Our developments of residential apartment complexes is related to construction of new high-rise towers or the conversion and renovation of existing structures such as factories and warehouses. In residential communities, we acquire vacant land, develop the infrastructure such as roads, utilities and common areas, and sell plots of land for construction of single-family homes. We may also develop or sell portions of land for others to develop complementary facilities such as areas for shopping in the area of the residential developments. In fiscal year 2007 revenues from the sales and developments segment reach de sum of Ps. 75.7 million, compared to Ps. 103.9 million in fiscal 2006. The local currency remained stable throughout the 2007 fiscal year; the real estate market was promoted by the increase in the demand for all types of properties, whether office buildings, housings, retail premises or other. Likewise, the current framework provides incentives for the development of projects linked to our real estate activity. Therefore, for 2008 fiscal year we expect not only the completion of projects already underway but also an analysis of new undertakings.

Construction and renovation works on our residential development properties is currently performed, under our supervision, by independent Argentine construction companies that are selected through a bidding process. We enter into turnkey contracts with the selected company for the construction of residential development properties pursuant to which the selected company agrees to build and deliver the development for a fixed price and at a fixed date. We are generally not responsible for any additional costs based upon the turnkey contract. All other aspects of the construction including architectural design are performed by third parties.

Another modality for the development of residential undertakings is the exchange of land for constructed meters. In this way, IRSA delivers undeveloped pieces of land and another firm is in charge of building the project. Eventually, IRSA receives finished square meters for commercialization, without taking part in the construction works.

Prior to the commencement of construction of a residential project, we conduct an advertising program that continues after the launching of the sales of the units. Latter the sales are realized by real estate companies. This exhibition has wide public appeal and has been a successful marketing tool for us.

Apartment and loft buildings

In the apartment building market, we acquire undeveloped properties that are strategically located in densely populated areas of Buenos Aires City, particularly properties located next to shopping centers and hypermarkets or those that are to be constructed. We then develop multi-building high-rise complexes targeted towards the middle-income market which are equipped with modern comforts and services such as open green areas, swimming pools, sports and recreation facilities and 24-hour security. In the loft buildings market, our strategy is to acquire old buildings in disuse that are located in areas with a significant middle and upper-income population. The properties are then renovated into unfinished lofts allowing buyers the opportunity to design and decorate them to their preferences.

Prior fiscal years developed projects

Torres Jardín, Buenos Aires City. Torres Jardín is a residential complex located in the Buenos Aires neighborhood of Villa Crespo, five minutes from Abasto Shopping. The project originally included four 23-storey towers directed towards the middle-income market; however, we decided not to construct Torres Jardín IV and we estimate to agreed a barter transaction for its construction. Torres Jardín I, II and III have been completed and consist of 490 one, two and three bedroom residential apartments. The complex also includes 295 spaces of underground parking. As of June 30, 2007 there is one apartment and 35 parking spaces pending sale.

Torres de Abasto, Buenos Aires City. Torres de Abasto is a 545-apartment residential complex developed through APSA and is located one block from Abasto Shopping. The project consists of three 28-storey buildings and one 10-storey building directed towards the middle-income market. The apartments were completed in May 1999. The complex has a swimming pool, a terrace, 24-hour security, four retail stores on the ground floor of one of the buildings and 331 underground parking spaces. As of June 30, 2004 100% of the complex was sold.

Edificios Cruceros, City of Buenos Aires. Edificios Cruceros is a project located in the Puerto Madero area. This dwelling building covers 6,400 square meters of surface area of which 3,633 belong to the Company, and it is close to the Edificios Costeros office building. It is directed to the high-income segment and all its common areas have spectacular views to the river. This development was partially financed through the anticipated sale of its apartments. Works are 100% finished and as of June 30, 2007 more than 90% of the units had been sold.

Barrio Chico, San Martín de Tous, City of Buenos Aires. This is a unique Project located in Barrio Parque, the most exclusive residential area of the City of Buenos Aires. During May 2006 the successful marketing of this project was launched. The image of the product was previously developed with the name of Barrio Chico with advertisements in the most important media. As of June 30 2007 the project is finished and only 3 units are still to be sold.

Concepción Arenal 3000, Buenos Aires City. Concepción Arenal 3000 is a 70-loft residential property located in north-central Buenos Aires City. Each loft unit has a salable area of 86 square meters and a parking space. Lofts in this building are directed towards the middle-income market.

Alto Palermo Park, Buenos Aires City. Alto Palermo Park is one of two 34-storey apartment buildings located two blocks away from Alto Palermo Shopping in the exclusive neighborhood of Palermo. Apartments in the building are targeted towards the upper-income market. The building is also located next to its twin, Alto Palermo Plaza. The buildings are comprised of 3 and 4-room apartments with an average area of 158 square meters in the case of Alto Palermo Park and of 294,5 square meters, in the case of Alto Palermo Plaza and each unit includes an average of 18 and 29 square meter parking/storage space, respectively. These buildings were included in the assets we acquired from Pérez Companc S.A. As of June 30, 2007, 100% of Alto Palermo Plaza was sold and there was only one unit to be sold in the Alto Palermo Park.

Projects under development

Torre Caballito, City of Buenos Aires. On May 4, 2006 Koad S.A. (Koad) and the Company entered into a bartering contract for US\$ 7,500 by which the Company transferred to Koad the possession of block 36 of the plot called Terrenos de Caballito for the construction to its exclusive charge, cost and responsibility of a building complex denominated Caballito Nuevo. As consideration, Koad paid the Company the amount of US\$ 0.05 million and the balance of US\$ 7.45 million will be cancelled by handing over 118 apartment units and 55 garages in a maximum term of 1,188 days. The final number of units to be received will depend from the effective date of delivery of such units by Koad, as it will have different discounts according to the term of delivery.

In addition, Koad imposed a mortgage rem right in first and privilege degree on the building subject to this transaction in favor of the Company in the amount of US\$ 7.45 million and established two security insurances for US\$ 2.0 million and US\$ 0.05 million.

Torre Renoir, Dock III, City of Buenos Aires. To provide for the sustained increase in the demand for residential apartments in the Puerto Madero area, during fiscal year 2006 we have entered into bartering contracts allowing to start the construction of these two exclusive dwelling towers of 37 and 40-storey. In line with the boom of developments in the area, the market has great expectations on the project given its exceptional features. On September 30, 2006 due to the interest shown in this project, the marketing of Tower I was launched as the rate of progress was 78.3%. During fiscal year 2007 preliminary sales contracts were signed for 76.4% of the units available. In respect of Tower II works started and the percentage of work completed is 4.5%.

Dock IV, City of Buenos Aires. In this plot of land located in the Puerto Madero area an 8-storey Class AAA building is under construction. This is a building offering big and versatile offices. The alternatives for dividing the offices will allow to be occupied both by companies requiring 200 square meters of surface area and companies in the need of a complete plant. Works will commence during the fourth quarter of fiscal year 2007. According to the boom of the Puerto Madero area, a big commercial success is expected from this project.

Residential communities

In the residential communities market, we acquire extensive undeveloped properties located in suburban areas or neighborhoods near the big cities to develop private neighborhoods and country clubs in which to sell vacant lots for the construction of single family homes. In these properties we build streets and roads, we arrange for the provision of basic municipal services and amenities such as open spaces, sport facilities and security. We seek to capitalize on improvements in transportation and communication around Buenos Aires City, the growing suburbanization of the region and the shift of the population moving to countryside-type residential communities.

An important factor in the trend towards living in suburban areas has been the improvements and additions to the Panamericana highway, General Paz Avenue and Acceso Oeste highways which significantly reduce traveling time, encouraging a large number of families to move to the new residential neighborhoods. Furthermore, the improvement in public train, subway and bus transportation since their privatization also provides another factor that influences the trend to adopt this lifestyle.

As of June 30, 2007, our residential communities for the construction of single-family homes for sale in Argentina had a total of 62,990 square meters of salable area in the Abril, residential communities located in the province of Buenos Aires.

Abril, Hudson, Greater Buenos Aires. Abril is one of our private residential communities. It is a 312-hectare property located near Hudson City, approximately 34 kilometers south of the City Buenos Aires, developed into a private residential community for the construction of single family homes directed towards the upper-middle-income market. The project includes 20 neighborhoods subdivided into 1,273 lots consisting of approximately 1,107 square meters each. Abril also includes an 18-hole golf course, 130 hectares of woodlands, a 4,000 square meter mansion and entertainment facilities. A bilingual school, horse stables and sports centers and the construction of the shopping center was concluded in 1999. The neighborhoods have been completed and as of June 30, 2007, 95.5% of the property was sold.

In March 2003, 40 lots pending with Pulte were sold for Ps. 3.2 million. The payment was made by returning 27 previously purchased lots, amounting to Ps. 2.8 million, and cancelling the balance of Ps. 0.5 million in cash.

Benavidez, Tigre. Benavidez is an undeveloped 98.9 hectare plot located in the area of Tigre, 35 kilometers north from downtown Buenos Aires. On May 21, 2004 an exchange deed was signed whereby DEESA agreed to pay US\$ 3.98 million to Inversora Bolívar S.A., of which US\$ 0.98 million were paid and the balance of US\$ 3.0 million will be paid through the exchange of 110 residential plots already chosen and identified in the option contract signed in December 3, 2003.. Furthermore, through the same act, DEESA set up a first mortgage in favor of Inversora Bolívar S.A. on real property amounting to US\$ 3.0 million in guarantee of compliance with the operation and delivered US\$ 0.5 million to Inversora Bolívar S.A. corresponding to a deposit in guarantee of performance on the obligations undertaken. This balance will not accrue interest in favor of DEESA, and will be returned as follows: 50% of the outstanding balance at the time of certification of 50% of the progress of work and the remaining upon certification of 90% of work progress. Within this property, a closed quarter called El Encuentro is developed, with a direct access to highway 9 that facilitates the way into and out of the city. Considering the high price of the plots in the North of the Province of Buenos Aires, mostly in the place in which this enterprise is placed, we have great expectations for marketing the land through the bartering system. The launching of the sale of our units will be carried out at the beginning of fiscal year 2008. As of June 30, 2007, the work progress degree is 90%.

Undeveloped parcels of land

We have acquired large undeveloped properties as land reserves located in strategic areas for the future development of office and apartment buildings, shopping centers and single family housing. We

Table of Contents

have acquired what we believe to be two of the largest and most important undeveloped river front parcels in Buenos Aires, Puerto Retiro and Santa María del Plata, for the future development of residential and office spaces. In addition, we have benefited from the improvement of land values during periods of economic growth. As of June 30, 2007, our land reserve totaled 17 properties consisting of approximately 2,079 hectares (including Rosario, Caballito, Vicente Lopez and COTO air space owned by APSA).

Buenos Aires City

Solares de Santa Maria, City of Buenos Aires, (ex Santa María del Plata). Solares de Santa María is a 70 hectares property facing the Río de la Plata in the South of Puerto Madero, 10 minutes far from the National Government House. This is an urbanization project developed through our subsidiary Solares de Santa María S.A. (Solares), which has been recently incorporated. This project has a residential profile and mixed uses, it will have offices, stores, hotels, sport and nautical clubs, service areas with schools, supermarkets, parking lots, etc. It has been conceived as another quarter in the City of Buenos Aires.

The project submitted to the government authorities is the result of the proposals suggested by the advisors of the Urban Environmental Plan Council (COPUA) and contemplates de transfer of land devoted to public parks, main avenues to go over the quarter through public streets, assignment of all the plots close to the water for the public use, mainly the central area in front of the stores that could be used as future moorings. Thus the presence of the River in this point is recovered for all of the citizens.

In order to optimize and start this project -while all the required authorizations and approvals are provided by the Government of the City of Buenos Aires- the Company has made contacts with investors having international experience in this kind of real estate undertaking. To such extent, the ownership of 10% of the shareholding has been transferred to Mr. Israel Sutton Dabbah in commission belonging to the Sutton Group in the amount of US\$ 10,600,000.

Puerto Retiro. Puerto Retiro is an 8.3 hectare undeveloped riverside property bounded by the Catalinas and Puerto Madero office zones to the west, the transportation hub Retiro to the north and the Río de la Plata to the south and east. One of the only two significant privately owned waterfront properties in Buenos Aires City, Puerto Retiro may currently be utilized only for port activities. We have initiated negotiations with municipal authorities in order to rezone the area. Our plan is to develop a 360,000 square meter financial center. The launching date has not been settled and consequently, the estimated cost and financing method are not decided. We own indirectly through of our subsidiary Inversora Bolívar S.A. (Inversora Bolívar), the 50% in Puerto Retiro.

Caballito, Ferro Project. It is a property of approximately 25,539 square meters in the Buenos Aires city neighborhood of Caballito, one of the most densely populated in Buenos Aires City, which APSA purchased in October 1998.

This plot of land could be devoted to the construction of a commercial center covering 30,000 square meters, including and hypermarket. The authorization of the Government of the City of Buenos Aires is still to be obtained in order to develop the center in this estate. To date, the granting of this authorization cannot be guaranteed.

Terreno Figueroa Alcorta. With respect to the plot located in the Figueroa Alcorta avenue, in front of Paseo Alcorta On December 22, 2005, our subsidiary APSA subscribed a preliminary purchase contract with possession, by which APSA sold to RAGHSA S.A. the plot denominated Alcorta Plaza for a total price of US\$ 7.7 million. The terms and conditions of payment agreed were determined in four installments of US\$ 1.9 million, the first installment to be due at the date of the preliminary sales contract and the second one collected on March 30, 2006, date on which the final deed was signed and the two pending installments on March 30, 2007 and 2008, respectively.

Province of Buenos Aires

Pereiraola, Hudson. We own directly and indirectly through Inversora Bolivar S.A. (IBSA) an

100% interest in Pereiraola S.A., a company, whose principal asset is a 130 hectare undeveloped property adjacent to Abril. We intend to use this property to develop a private community for the construction of single family homes targeted at the middle-income market. We have the Municipality permission. We have not yet established the costs and financing method for this proposed project.

Pilar. Pilar is a 74 hectare undeveloped land reserve property located close to Pilar City, 55 kilometers to the northwest of downtown of Buenos Aires City. The property is easily accessible due to its proximity to the Autopista del Norte. The Pilar area is one of the most rapidly developing areas of the country. We are considering several alternatives for this property including the development of a residential community or the sale of this property as it is and, therefore, we do not have a cost estimate nor a financing plan.

Vicente López, (Rummaala) Olivos, Provincia de Buenos Aires. On January 16, 2007, Patagonian Investment S.A. and Ritelco S.A. acquired 90% and 10%, respectively, of the total shares of the company named Rummaala S.A., the main asset of which is a plot of land located in Vicente Lopez, Province of Buenos Aires. As of June 30, 2007, the Company holds 100% of the ownership interest of Rummaala S.A. as a result of certain transactions performed with Patagonian Investment S.A. and Ritelco S.A. The purchase price was US\$ 21.17 million, payable as follows: (i) US\$4.25 million in cash and (ii) by delivering certain units of the building to be constructed in the land owned by Rummaala in the amount of US\$ 16.92 million, within a 4-year term as from the approval date of the plans by the related authorities or when the facilities be vacated, whichever last occurs.

As security for compliance with the construction of the future building and transfer of the future units, the shares acquired were pledged.

Simultaneously with the former transaction, Rummaala acquired a plot of land adjacent to its own property in the amount of US\$ 15.00 million, payable as follows: (i) US\$ 0.50 million in cash; (ii) by delivering certain units of buildings Cruceros I and II owned by the Company in the amount of US\$ 1.25 million and (iii) by delivering certain units of the building to be constructed in the land acquired in the amount of US\$ 13.25 million, within a 40-month term considered as from the approval date of the plans by the related authorities or when the facilities be vacated, whichever last occurs.

Other undeveloped parcels of land

Our undeveloped parcels of land portfolio also includes eight undeveloped parcels of land properties located in Buenos Aires and its surrounding areas. These properties are projected for future developments of offices, shopping centers, apartment buildings and residential communities. The principal properties include Merlo, Pilar, Terreno Isla Sirgadero, Mariano Acosta and Ponedvedra.

Other provinces

Torres Rosario Project, City of Rosario, Province of Santa Fe. Our subsidiary APSA owns a plot of land covering approximately 50,000 square meters of surface area in the city of Rosario, in the place in which the Alto Rosario Shopping Center is located. A residential complex will be built in this plot of land.

Proyecto Neuquén, Provincia de Neuquén. On July 6, 1999 our subsidiary APSA acquired 94.6% of the shares of Shopping Neuquén S.A. The principal asset of Shopping Neuquén S.A. is a plot of land of 50,000 square meters of surface area approximately, in which a commercial centre will be constructed. This project also includes the building of a hyper-market, a hotel and a housing building.

In June 2001 Shopping Neuquén S.A. requested to the Municipality of Neuquén a postponement of the original construction schedule and an authorization to transfer to third parties certain plots in which such land is divided. The Municipality Executive previously rejected this request under Decree No.

Table of Contents

1437/02 which also established the expiration of the rights arising from Ordinance 5178, including the loss of any improvement and expenses incurred, having Shopping Neuquén S.A. no right to claim indemnity charges, revoking the buy-sell contracts of the land.

On response to the above-mentioned Decree, Shopping Neuquén S.A. requested on January 21, 2003 that the administrative action be annulled, submitting documentary evidence of the reasons to request such annulment. Shopping Neuquén S.A. also requested the authorization to submit a new schedule of time terms, which would be prepared taking into account the economic context prevailing at that time, as well as reasonable short and medium-term projections. The Municipal Executive rejected the request under Decree No. 585/2003; consequently, on September 25, 2003, Shopping Neuquén S.A. filed an administrative procedural action with the High Court of Neuquén, requesting among other issues, that the Court establish the nullity of Decrees 1437/2002 and 585/2003 issued by the Municipal Executive. On December 21, 2004 Shopping Neuquén was notified the resolution of the High Court of Neuquén declaring the expiration of the administrative procedural action filed by the Shopping Neuquén S.A. against the Municipality of Neuquén. The Company file an extraordinary appeal for the case to be sent to the Argentine Supreme Court, which to date has not been resolved.

Finally, on December 13, 2006, Shopping Neuquén S.A. signed an agreement with both the Municipality and the Province of Neuquén by which the time terms for construction of the commercial and housing enterprising was re-scheduled. Also, Shopping Neuquén S.A. was authorized to transfer to third parties the ownership of the plots of land in which the real estate will be divided with the exception of the land in which the commercial center will be constructed. The agreement referred to above was duly ratified by the Legislative Council of the Municipality of Neuquén and the ordinance issued was promulgated by the Neuquén Municipal Executive on January 12, 2007.

The agreement also provides that Shopping Neuquén S.A. will submit, within 120 days after the agreement is signed, a new urban project draft with an adjustment of the environmental impact survey, together with a map of the property subdivision. The Municipality of Neuquén has to approve the project draft within 30 days after presentation. Once the project is approved, within the next 150 days the company will submit to the Municipality the final maps of the works. At the time these final maps are registered with the Municipality, the works have to begin within a maximum time term of 90 days as from the date of such registration. The first stage of the construction works (this stage including the minimum construction of 21,000 square meters of the commercial center and of 10,000 square meters of the hypermarket) should be finished in a maximum time term of 22 months as from the date in which the construction process was initiated. In case the conditions are not complied with, the Municipality of Neuquén is entitled to rescind the agreement and file the legal actions it deems pertinent.

On March 28, 2007, the Company submitted the new project draft and the extension of the environmental impact survey to the Municipality of Neuquén. On May 10, 2007, the Municipality of Neuquén, before issuing an opinion on the feasibility of the draft project submitted, required certain explanations and made certain comments and recommendations so that the Company responds to such matter within a reasonable time. The Company is currently working in such sense to provide the due reply with the Municipality. In the meantime, the 30-day terms in which the Municipality should declare the feasibility of the new draft project and extension to the environmental impact study as provided by covenant three of the previously mentioned agreement has been suspended.

The previously mentioned agreement is conditioned upon the Municipality declaring the feasibility of the draft project submitted, and upon such decision being accepted by Shopping Neuquen S.A. in the terms and conditions in which it was issued, otherwise the agreement will terminate. In the meantime, the above-mentioned trial has been suspended.

On December 13, 2006 Shopping Neuquén signed with P.Y.E. Sociedad Anónima a preliminary sales contract for plot E-UNO, which is subject to the condition that the acquiring company applies the plot of land exclusively to the construction of a hotel. This plot covers 4,332.04 square meters of surface

area and the sale price was established in US\$ 119. The title deed for transferring the property and the possession will take place within the 60 days subsequent to the date of compliance with the agreed conditions. This operation is subject to certain conditions precedent, one of these being the approval by the Municipality of Neuquén of the new draft project that Shopping Neuquén S.A. has to submit in accordance with the terms of the previous paragraph.

Canteras Natal Crespo, Province of Córdoba. The first guidelines for development of this project are in process on the basis of the Master Plan of the Chilean architect firm called URBE. Also, preliminary presentations have been submitted to the Municipality of La Calera and to the Provincial Government.

This undertaking is characterized by an attractive and varied residential offer of land, dwelling areas of low and medium density, and commercial and social areas. Each one of the quarters will have a full service infra-structure and will be distinguished by the particularities of the land in the outstanding natural environment of the Sierras Chicas of the Province of Córdoba.

Canteras Natal Crespo S.A. is a company located in the Province of Córdoba that will have as main activity the urbanization of own or third parties plots of land, the so-called countries, lots for sale or rent, production of quarries, real estate business and construction of houses.

Hotels

At the end of the 1997 fiscal year, we acquired the Hotel Llao Llao, our first luxury hotel. Some months later, as part of the acquisition from Pérez Compagnon of the Old Alto Palermo, we acquired an indirect 50% interest in the Hotel Intercontinental in Buenos Aires which we own through our subsidiary Inversora Bolívar. In March 1998, we acquired the Hotel Libertador. During fiscal year 1999, we sold a 20% interest in the Hotel Libertador to Hoteles Sheraton de Argentina S.A.C. (Hoteles Sheraton de Argentina) and during the fiscal year 2000, we sold 50% of our interest in the Hotel Llao Llao to the Sutton group. During the fiscal year 2007 we increased our share in IBSA by 100% and obtained an indirect share in the Hotel Intercontinental of 76.34%.

hotel contains 193 rooms and 7 suites, eight meeting rooms, a restaurant, a business center, a spa and fitness facilities with a swimming pool. In March 1999, we sold 20% of our interest in the Sheraton Libertador Hotel for US\$ 4.7 million to Hoteles Sheraton de Argentina. The hotel is managed by Sheraton Overseas Management Corporation, a United States Corporation.

The rooms, corridors, lounges and elevators of the hotel are currently being remodeled. The total amount of the investments is estimated in US\$ 5.0 million and works are estimated to finish by the end of year 2008.

Hotel Llao Llao, San Carlos de Bariloche, Province of Río Negro. Hotel Llao Llao is located on the Llao Llao península, 25 kilometers from San Carlos de Bariloche City, and is one of the most important tourist hotels in Argentina. Surrounded by mountains and lakes, this hotel was designed and built by the famous architect Bustillo in a traditional alpine style and first opened in 1938. The hotel was renovated between 1990 and 1993. The building has a total constructed surface area of 15,000 square meters and 158 rooms. The hotel-resort also includes an 18-hole golf course, tennis courts, health club, spa, game room and swimming pool. The hotel is a member of The Leading Hotels of the World and is currently being managed by Compañía de Servicios Hoteleros S.A. which manages the Alvear Palace Hotel, a luxury hotel located in the Recoleta neighborhood of Buenos Aires City.

A suit extension is currently being carried out in the hotel that will increase its capacity by 25%, totaling 200 rooms. The total amount of the estimated investment is US\$ 12.7 million, including other improvements in the kitchen and laundry, and the construction of a new last tech purifying plant. As of June 30, 2007 the progress of the works is 70.68% and works are estimated to be completed by the first quarter of fiscal year 2008. The offer of rooms to the public is estimated for the months of November and December of the current calendar year.

Terreno Bariloche, El Rancho, San Carlos de Bariloche, Province of Río Negro. On December 14, 2006 through our subsidiary hotel operator Llao Llao Resorts S.A. we acquired land covering 129,533 square meters of surface area in the City of San Carlos de Bariloche in the Province of Río Negro. The total price of the operation was US\$ 7.0 million, of which US\$ 4.2 million were paid cash and the balance of US\$ 2.8 million was financed by means of a mortgage to be paid in 36 monthly, equal and consecutive installments of US\$ 0.086 million each. The land is in the border of the Lago Gutiérrez, close to the Hotel Llao Llao in an incredible natural environment and it has a large cottage covering 1,000 square meters of surface area designed by the architect Ezequiel Bustillo.

OPERATING AND FINANCIAL REVIEW AND OUTLOOK

The following analysis should be read together with our Consolidated Financial Statements and their notes. For the purposes of the following analysis, our reference to Consolidated Financial Statements relates to our audited consolidated financial statements and their notes corresponding to the fiscal years ended June 30, 2007 and 2006.

Variability of results

A principal source of our revenue is rentals income derived from leases of office, and retail properties and for sales of developed properties. Nevertheless, our historical revenues have varied from period to period depending upon the timeliness of sales of properties. No assurance can be given that our period to period results of operations will not continue to vary as a result of periodic property sales.

Consolidation

Our balance sheets, statements of income and cash flows for the years ended June 30, 2007 and 2006 have been consolidated line by line with the financial statements of our subsidiary companies according to the procedure established in Technical Resolution 21 of the Argentine Federation of Professional Councils in Economic Sciences as approved by the Professional Council in Economic Sciences of the City of Buenos Aires and the National Securities Commission. Balances and significant transactions with controlled companies have been eliminated in the consolidation.

Certain amounts in the financial statements as of June 30, 2006 were reclassified for disclosure on a comparative basis with those for the fiscal year ended June 30, 2007.

The financial statements have been prepared in constant currency, reflecting the overall effects of inflation through August 31, 1995. From that date and until December 31, 2001 the Company discontinued the restatement of the financial statements due to a period of monetary stability. From January 1, 2002 up to February 28, 2003 the effects of inflation were recognized due to the existence of an inflationary period. As from that date, the restatement of the financial statements was discontinued.

This criterion is not in line with current professional accounting standards, which establish that the financial statements should have been restated through September 30, 2003. However, due to the low level of inflation rates during the period from March to September 2003, this deviation has not had a material effect on the financial statements taken as a whole.

The rate used for restatement of items in the financial statements is the domestic wholesale price index published by the National Institute of Statistics and Census.

Revenue recognition

We primarily derive our revenues from sales and development, domestic office and shopping center leases and services operations, hotel operations and from operations with credit cards. This section reflects our revenue recognition policies and those of our controlled and jointly-controlled subsidiaries.

Development and sale of properties. We generally enter into purchase and sale agreements with purchasers of units in our residential properties prior to the commencement of construction. Pursuant to this practice, we initiate our marketing and sales efforts on the basis of already-commissioned architectural designs and model units. As a general rule, purchasers pay a booking charge for the units and subsequently enter into fixed price purchase and sale agreements. The balance of the purchase price is due upon delivery of the constructed and completed unit.

Construction of such residential development properties is done pursuant to turn-key contracts with major Argentine and South American construction companies that provide for construction to be completed within a prescribed period and budget, subject to customary exceptions.

We record revenue from the sale of properties when all of the following criteria are met:

the sale has been consummated;

there is sufficient evidence of the buyer's initial capacity and commitment to pay for the property;

our receivable is not subject to future subordination; and

we have transferred to the buyer the risk of ownership, and do not have a continuing involvement in the property.

We use the percentage-of-completion method of accounting with respect to sales of development properties under construction effected under fixed-priced contracts. Under this method, revenue is recognized based on the ratio of costs incurred to total estimated costs applied to the total contract price. We do not commence revenue and cost recognition until such time as the decision to proceed with the project is made and construction activities have begun.

The percentage-of-completion method of accounting requires management to prepare budgeted costs (*i.e.*, the estimated costs of completion) in connection with sales of properties / units. All changes to estimated costs of completion are incorporated into revised estimates during the contract period.

Under this method of accounting, revenues for work completed may be recognized in the statement of income prior to the period in which actual cash proceeds from the sale are received. In this situation, a deferred asset is recorded. Alternatively, and as is more common for us, where property / unit purchasers pay us an advance down-payment and monthly cash installments prior to the commencement of construction, a liability is recorded. This is recorded as a customer advance in the financial statements.

Table of Contents

Leases and services from office and other buildings. Leases with tenants are accounted for as operating leases. Tenants are charged a rent on a monthly basis. Rental income is recognized on a straight-line basis over the term of the lease and unpaid rents are included in accounts receivable in the consolidated balance sheets.

Leases and services related with the operation of commercial centers. Leases signed with lessees are accounted for as operative income. Typically, lessees pay a rent that consists in the highest of: (i) a basic monthly rent (the Basic Rent) and (ii) a specific percentage of the lessees' monthly gross sales (the Percentage Rent) that generally oscillates between 4% and 8% of the lessees' gross sales.

Also, in line with the rental's adjustment clause in most services contracts the Basic Rent of a lessee generally increases between 4% and 7% each year during the duration of the service contract. Minimum incomes for rentals are recorded according to the straight line method during the contract term. Some services contracts have clauses that establish rentals based on a percentage of sales or based on a percentage of the sales volume exceeding a specific limit. The Company determines the compliance with specific objectives and calculates the additional rental on a monthly basis as stipulated in the contract. Consequently, these contingent rentals are not accounted for until the required limits are exceeded.

Typically, the Company's services contracts vary from 36 to 120 months. Law 24,808 provides that lessees can rescind the services contracts after the six initial months, by means of a 60 days written notice, subject to sanctions that vary from one to one and a half month of the rent if the lessee rescinds the contract during the first year, and one month of rent if the lessee rescinds the contract once the first year has elapsed.

In addition, the Company invoices on a monthly basis to the lessees the administration fees that are prorated among such lessees in accordance with the amounts included in the service contracts. These amounts vary according to the commercial center and are related to the administration and maintenance of the common areas and the administration of contributions by the lessees to finance operating promotion efforts with global commercial centers.

Administration fees are recorded monthly as they are accrued. In addition to the rent, the lessees are generally invoiced admission rights, which payment can be demanded to the lessees at the time of entering into the contract or at the time of renewal of the services contract. The admission right is generally paid in a global amount or in few monthly installments, and it is recorded in the statement accounts following the straight line method during the term of the respective services contract.

Operations with credit cards. Income generated by credit card operations include commissions, income for financing, charges to users for life and disability insurance and bank statements of account, among other. Commissions are accepted at the time of processing the dealer's operations and the remaining operations at the time of accrual.

Hotel operations. We accept the incomes arising from room services, catering and restaurant installation as they are accrued at closing of each day's operations.

Rental property depreciation

We compute depreciation using the straight-line method over an estimated useful life of each property, ten years for facilities, five years for furniture and other equipment and three years for computer equipment, all of which are judgmental determinations. These determinations may prove to be different than the actual life of the properties.

Operating costs and expenses

Fully appropriated to the Sales and Developments segment.

Table of Contents

Allocation of selling expenses to business segments

Selling expenses related to the shopping centers, Credit cards and hotels segments are directly allocated to such segments because such business units are individually managed and clearly identifiable. The remaining selling expenses are allocated among the Sales and developments and offices and others segments, considering the business unit which originated them, excluding, if existing, those located in shopping centers, credit cards and hotels.

Allocation of administrative expenses to business segments

Administrative expenses related to our shopping centers, credit cards and hotel business segments are directly attributable to such segments because such business units are individually managed and are clearly identifiable. The remaining administrative expenses are allocated as follows:

- (i) Administrative expenses without considering which originate them are 53.11% assigned to the Sales and development segment, and 46.89% to the Office and Others. Such percentages are calculated on the basis of operating assets and on revenues generated by each segment.
- (ii) Administration expenses with Shopping center, Credit card and Hotels cost center are assigned directly to such segments.

Allocation of profits from our interest in the Tarjeta Shopping trust funds

This allocation of profits stems from the interest of APSA in the Tarjeta Shopping trust funds. These profits have been allocated to the Credit card segment.

Allocation of results from operations and the holding of real estate assets

These results are allocated to the segment that generates them.

Allocation of the goodwill amortization

They principally include the goodwill depreciations generated by the acquisition by APSA of its subsidiaries, of our own goodwill generated by the purchase of Alto Palermo S.A. and Palermo Invest S.A. shareholdings and the amortization of the higher value generated by the purchase of APSA's Negotiable Bonds, which are allocated to the originating segment.

Allocation of other expenses and revenues to business segments

Financial results, net Includes interest income, interest on discounting of assets and liabilities, gain on financial operations, financial expenses, exchange gain (loss) and discounts allocable to each segment, as described below:

Gain on financial operations. Only income related to business units Shopping centers, Credit card and Hotels were segregated by segment, as in these cases each of them manages the financial surplus recorded. The remaining amounts are recognized under Financial and other operations as they are not directly related to any specific segment.

Interest income, interest on discounting of assets and liabilities and financial expenses. In the segments of Shopping Centers, Credit card and Hotels are directly allocated according who generate them. The remaining results are prorated among Sales and development, Office and others, Shopping center, Hotels, Credit card and Financial and other operations in proportion to the corresponding assets to each segment.

Table of Contents

Exchange gain (loss) and discounts. In the case of Shopping centers, Credit card and Hotels, they are directly charged to the business units giving rise to them. The remaining items are recorded in Financial and other operations as they are not directly related to any segment.

Gain on equity investments. It is allocated to the corresponding segments. Gain on equity investments carrying out activities not falling under any of our segments of activity are recorded under Financial and other operations.

Other income and expenses, net. Only the associates to business units, Commercial Centers, Credit Cards and Hotels are segregated by segment. The rest is charged to Financial Operations and other as they have no direct relationship with any segment in particular.

Income tax and assets tax. Applied to each pertinent income tax segment, except the assets tax that is prorated between Sales and developments, Office and other and Financial Operations.

Minority interest. This result is allocated among the segments of the company that generate it.

Business Segment Reporting

We have determined that our reportable segments are those that are based on internal reporting generated by the Company. Accordingly, we have six reportable segments. These segments are Development and Sale of properties, Office and other non-shopping center rental properties, Shopping centers, Hotel operations, Credit card and Others. As mentioned before, the consolidated statements of income were prepared in accordance with Technical Resolution No. 21 of the F.A.C.P.C.E.

A general description of each segment follows:

Development and sale of properties. This segment includes the operating results of our construction and ultimate sale of residential buildings business.

Offices and other non-shopping center rental properties. This segment includes the operating results of our lease and service revenues of office space and other non-retail building properties.

Shopping centers. This segment includes the operating results of our shopping centers principally comprised of lease and service revenues from tenants.

Credit card. This segment includes incomes from Credit card's operations which consist in commissions, incomes from inflation and financing and charges to users for life insurance and disability and bank statements of accounts, among other.

Hotel operations. This segment includes the operating results of our hotels principally comprised of room, catering and restaurant revenues.

Others. This segment primarily includes revenues and associated costs generated from the sale of equity securities, other securities-related transactions and other non-core activities. This business segment also includes the results of its affiliates related to bank activities.

We measure our business units to be informed based on operating income. Inter-business units transactions, if any, are accounted for at current market prices. We evaluate performance of our business units and allocate resources based on operating income. We do not depend on an only client.

Result of the Operations for the fiscal years ended June 30, 2007 and 2006.**Income**

Income increased by 27.9%, that is from Ps. 577.7 million in fiscal year 2006 to Ps. 738.8 million in fiscal year 2007, principally due to an increase in the income of our Credit Card, Commercial Centers, Office and other and Hotels segments.

Sales and developments

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 6-K

Income from Sales and developments segment decreased by 27.1% from Ps. 104.0 million in fiscal year 2006 to Ps. 75.8 million in fiscal year 2007. This business segment does not show recurrent income; consequently the comparison between periods may vary significantly in accordance with the projects that the Company is developing. The decrease of the incomes of this segment was principally due to: (i) the absence in fiscal year 2007 of the Ps. 104.0 million recognized during fiscal year 2006 principally arising from the following operations: 1) income for Ps. 41.8 million for the sale of plot Y, Dock III; 2) income for Ps. 23.0 million from the sale of Alcorta Plaza made by APSA that consisted of a plot placed close to the Paseo Alcorta commercial center; 3) income for Ps. 22.8 million for the sale of block 36 of the plot called Terrenos de Caballito ; and 4) income for Ps. 10.0 million for the sale of Edificios Cruceros units. This decrease was partially compensated by the income recognized during the current 2007 fiscal period, which are detailed as follows: (i) income for Ps. 31.0 million for the sale to third parties of 10% of the Santa María del Plata plot of land; (ii) income for Ps. 26.2 million arising from the sale of the San Martín de Tours units; (iii) income for Ps. 8.6 million arising from the sale of units in San Martín de Tours and (iv) income for Ps. 8.4 million originated in the sale of Edificios Cruceros units.

Table of Contents

Office and other

Income from our Office and other segment increased by 82.2% going from Ps. 30.6 million in fiscal year 2006 to Ps. 55.7 million in fiscal year 2007. This increase was principally due to the 93.3% increase in the income for rental of offices that went from Ps. 27.4 million in fiscal year 2006 to Ps. 52.9 million in fiscal year 2007. The evolution of the office income is due to: (i) 5.1% increase from 94% to 99.1% of the average occupation rates during fiscal year 2007 due to the inclusion of Dock del Plata and Bouchard 551 and the almost full occupation of Reconquista 823; (ii) 108.7% increase of the accumulated annual rentals arising from the price increases in the following buildings: Intercontinental Plaza Ps. 5.5 million, Bouchard 551 Ps. 3.9 million (no income during 2006), Bouchard 710 Ps. 3.1 million, Dock del Plata Ps. 3.1 million (no income during 2006), Maipú 1300 Ps. 2.5 million and Libertador 498 Ps. 2.4 million. The occupation rate of this segment increased by 0.5% from 96.9% in the year ended June 2006 to 97.4% during the year ended June 2007.

Commercial centers

Income from our Commercial center segments increased by 25.7% from Ps. 215.0 million in fiscal year 2006 to Ps. 270.3 million in fiscal year 2007. Such increase was principally due to and increase of Ps. 55.3 million of the income for rentals and admission rights as a consequence of: (i) 18% increase in the average price per square meter; and (ii) 24% increase in the total sales of our lessees, which increased from Ps. 2,273.3 million during fiscal year ended June 30, 2006 to Ps. 2,825.8 million during fiscal year ended June 30, 2007 resulting in larger income per percentage of rentals. The average occupation rate of our Commercial Centers was 98.9% in fiscal year 2007 that is slightly under the 99.1% of fiscal year 2006.

Hotels

Income from our hotel operations increased 18.2% from Ps. 103.8 million in fiscal year 2006 to Ps. 122.7 million in fiscal year 2007, principally due an increase of 23.7% in the average price per room in our hotels of Ps.379.0 in 2006 to Ps. 469.0 in 2007. On the other hand, the average occupation rates decreased to 74.0% during 2007 in comparison with 78.7% in fiscal year 2006. In comparison, versus the fiscal year 2006, during 2007 the income from the Hotel Llao Llao increased Ps. 8.9 million, income from the Hotel Intercontinental Ps. 6.0 million and income from the Hotel Sheraton Libertador increased Ps. 4.0 million.

Credit cards

Income from our Credit card operations recorded 73.2% increase passing from Ps. 123.0 million during fiscal year 2006 to Ps. 213.0 million during fiscal year 2007. Such increase resulted from the favorable macroeconomic conditions, the general increase in consumption and the continuing expansion of our services with an increase of 90.5% in sales with the shopping card and 49% increase in the number of stores adhered.

Financial operations and other operations

Income from our Financial Operations and other operations segment remained stable with respect to year 2006. Income included in this segment represents fees for services with no specific imputation to any of the prior segments.

Our costs increased 27.8% from Ps. 243.8 million in fiscal year 2006 to Ps. 311.6 million in fiscal year 2007 showing an increase in costs of each business segment during fiscal year 2007, unless Financial operations and other operations. Total costs as percentage of income remained in 42.2% approximately, that is the same percentage that in the previous fiscal year.

Table of Contents

Sales and developments

Costs related to Sales and developments increased 6.7% from Ps. 54.2 million in fiscal year 2006 to Ps. 57.8 million in fiscal year 2007. The increase in costs of this segment is principally due to the following: (i) Ps. 26.2 million related with the sale of plot 1.d Z of Dock III; (ii) Ps. 12.9 million related with the sale to third parties of 10% of the Santa María del Plata plot; (iii) Ps. 8.2 million related with the sale of San Martín de Tours units; (iv) Ps. 3.2 million related with the sale of Edificio Cruceros units and (v) Ps. 1.2 million in costs related with the sale of the estate located in the Saavedra district (previously acquired from Philips Argentina S.A.) to Panamerican Mall S.A. a company in which APSA has 80% share. All these operations were partially compensated due to the non-recurrence of: (i) Ps. 18.4 million in costs related with the sale of Alcorta Plaza (through APSA); (ii) Ps. 11.3 million of costs related with the sale of block 36 of the plot called Terrenos de Caballito ; (iii) Ps. 7.9 million of costs related with the sale of plot Y , Dock III; (iv) Ps. 8.8 million of costs related with the sale of Edificios Cruceros units; and (v) Ps. 1.4 million related with the sale of Alsina 934. Costs included in this segment as percentage of income increased from 52.1% in fiscal year 2006 to 76.3% in fiscal year 2007.

Office and other

The costs of the Office and other segment increased 85.5% from Ps. 9.0 million in fiscal year 2006 to Ps. 16.7 million in fiscal year 2007 principally due to the higher depreciation in such fiscal year as a result of having included new buildings for rental. The principal cost component in the office segment is the depreciation of buildings rented. Costs included in this segment as percentage of income increased from 29.4% during fiscal year 2006 to 30.0% in fiscal year 2007.

Commercial centers

Costs related with Commercial centers increased 17.7% from Ps. 77.4 million in fiscal year 2006 to Ps. 91.1 million in fiscal year 2007. This increase principally originated in: (i) increase in costs related with reforms and modifications in locative areas of Ps. 6.6 million; (ii) a higher depreciation and amortization charge of Ps. 4.7 million; and (iii) an increase in costs for not recovered expenses of Ps. 2.3 million. The cost of the Commercial center segment as percentage on the income of this same business unit reduced from 36.0% in the fiscal year ended June 30, 2006 to 33.7% during the fiscal year ended June 30, 2007.

Hotels

Costs of Hotel operations increased 19.0% from Ps. 58.0 million in fiscal year 2006 to Ps. 69.0 million in fiscal year 2007 principally due to increasing income. Higher costs of the Hotels segment are mainly due to an increase in the assets depreciation, Fees for commissions and services, Food and beverages and salaries and social security charges. Costs of Hotel Llao Llao increased Ps. 6.0 million, of Hotel Intercontinental Ps. 2.6 million and of Hotel Sheraton Libertador Ps. 2.4 million. Costs of hotel operations as percentage of income of this segment increased from 55.9% in fiscal year 2006 to 56.2% in fiscal year 2007.

Credit cards

The cost of the Credit cards segment increased 73.6% from Ps. 43.9 million during fiscal year ended June 30, 2006 to Ps. 76.3 million during fiscal year ended June 30, 2007. Increases were principally due to: (i) an increase of Ps. 11.0 million in the cost of salaries and social security charges; (ii) an increase of Ps. 9.8 million in expenses for interest and commissions; (iii) higher charges for taxes, rates, contributions and services of Ps. 5.7 million; and (iv) an increase in the charge for fees and services to third parties of Ps. 2.8 million as a result of the expansion of our operations.

The cost of Credit cards as percentage of income of such segment remained practically stable in 35.8% approximately, in both fiscal years due to the almost proportional increase of both items in the fiscal year ended June 30, 2007.

Table of Contents

Financial operations and other operations

The cost of the Financial operations and other operations segment decreased Ps. 0.6 million from Ps. 1.4 million in fiscal year 2006 to Ps. 0.8 million in fiscal year 2007. Costs included in this line represent expenses incurred in the rendering of services generated by income.

Gross income

As a result of the above, gross income increased 27.9% from Ps. 333.8 million in fiscal year 2006 to Ps. 427,1 million in fiscal year 2007.

Income for acceptance of inventories at their net realization value

This line was generated due to having valued at net realization value inventories in respect of which we received a purchase price or pre-payments for rentals that fix prices, and the contract conditions of the operations that establish the concretion of the sales and the profits. Under this criterion, during the current fiscal year Ps. 20.7 million were accepted and mainly applied to the following developments: Dock III - Plot 1.c for Ps. 18.4 million and San Martín de Tours for Ps. 1.5 million.

Marketing expenses

Marketing expenses increased 89.2% from Ps. 60.1 million in fiscal year 2006 to Ps. 113.7 million in fiscal year 2007 principally due to an increase in the marketing expenses of the Credit cards and Commercial centers segments of Ps. 31.1 million and Ps. 6.6 million, respectively. Marketing expenses as percentage of income increased from 10.4% in fiscal year 2006 to 15.4% in fiscal year 2007.

Sales and developments

Marketing expenses for sales and developments increased Ps. 11.0 million in fiscal year 2006 principally due the higher charge during the current year of the turnover tax paid, especially for the sales of Solares de Santa María. Marketing expenses for this business unit consist in commissions and expenses derived from sales, stamp tax and on gross sales (gross income).

Offices and other

Marketing expenses in respect of the Offices and other segment increased Ps. 3.4 million from Ps. 1.0 million in fiscal year 2006 to Ps. 4.4 million in fiscal year 2007 due to the higher charge for bad debtors of our subsidiary Inversora Bolívar for Ps. 1.9 million, and higher charges for turnover tax and real estate commissions.

Commercial centers

Marketing expenses related to Commercial centers increased 42.3% from Ps. 15.7 million in fiscal year 2006 to Ps. 22.3 million in fiscal year 2007 due to: (i) an increase of Ps. 2.0 million in the costs of salaries and social security charges; (ii) an increase of Ps. 1.4 million of the charge for turnover tax; and (iii) an increase in the charge for bad debtors of Ps. 1.2 million. Marketing expenses as a percentage of income of the same segment increased from 7.3% in the fiscal year ended June 30, 2006 to 8.3% in the fiscal year ended June 30, 2007.

Hotels

Marketing expenses related with the operation of Hotels increased 13.9% from Ps. 10.7 million in fiscal year 2006 to Ps. 12.2 million in fiscal year 2007 principally due to the an increase of Ps. 0.5 million of the turnover tax, Ps. 0.3 million in salaries and social security charges, Ps. 0.4 million in commission for tourism agencies due to an increase in the income of the segment in line with higher activity levels and Ps. 0.2 million for advertising.

Table of Contents

Credit cards

Marketing expense of the Credit card segment increased 100.5% from Ps. 30.9 million in the fiscal year ended June 30, 2006 to Ps. 62.0 million in the fiscal year ended June 30, 2007 principally due to: (i) an increase of Ps. 11.7 million in advertising and prize expenses; (ii) an increase in the charge for bad debts of Ps. 11.8 million and (iii) a charge of Ps. 5.8 million in the turnover tax. Marketing expense of Credit cards as a percentage of the income of this segment increased 25.1% in the fiscal year ended June 30, 2006 and 29.1% in fiscal year ended June 30, 2007.

Administration expenses

Administration expenses increased 46.7% from Ps. 96.4 million in fiscal year 2006 to Ps. 141.4 million in fiscal year 2007 due to the increase in the Credit cards segment and in a lesser level to the increase in each one of the remaining activity levels. Principal issues of administration expenses are salaries and social security charges, fees to Directors, fees and remunerations for services and depreciation of fixed assets and amortization of intangible assets.

Sales and developments

Administration expenses of the Sales and developments segment increased 56.2% from Ps. 12.6 million in fiscal year 2006 to Ps. 19.6 million in fiscal year 2007 due to: (i) an increase of Ps. 4.5 million for salaries, bonds and social security charges, and (ii) an increase of bank expenses of Ps. 2.1 million. The administration expenses of Sales and developments as a percentage of the income of this segment increased from 12.1% in fiscal year 2006 to 25.9% in fiscal year 2007.

Offices and other

The administration expenses of the Offices and other segment increased 51.6% from 11.1 million in fiscal year 2006 to Ps. 16.8 million in fiscal year 2007. The increase is principally due to an increase of Ps. 4.0 million in salaries, bonds and social security charges and to an increase of Ps. 1.8 million in bank expenses. Administration expenses of Office and other as percentage of income in this segment decreased from 36.3% in fiscal year 2006 to 30.2% in fiscal year 2007.

Hotels

Administration expenses of our Hotels increased 28.1% from Ps. 21.0 million in fiscal year 2006 to Ps. 26.9 million in fiscal year 2007, principally due to: (i) an increase of Ps. 1.7 million in Hotel Continental mostly due to an increase of Ps. 0.6 million in salaries and social security charges, Ps. 0.5 million in commissions, Ps. 0.4 million in depreciation of fixed assets and Ps. 0.1 million in fees and services to third parties; (ii) an increase of Ps. 1.4 million in Hotel Sheraton Libertador principally due to an increase of Ps. 0.5 million in fees for services, Ps. 0.4 million in salaries and social security charges and Ps. 0.2 million in Miscellaneous and (iii) an increase of Ps. 2.8 million in the Hotel Llao Llao principally due to an increase of Ps. 1.7 million in salaries and social security charges, an increase of Ps. 0.5 million for fees for services and Ps. 0.4 million in taxes, rates and contributions. Administration expenses of Hotels as percentage of income arising from hotel operations increased from 20.2% in fiscal year 2006 to 21.9% in fiscal year 2007.

Table of Contents

Commercial centers

Administration expenses of our Commercial centers increased 26.6% from Ps. 25.8 million in fiscal year 2006 to Ps. 32.7 million in fiscal year 2007 principally due to (i) a higher charge in expenses for fees and third parties services of Ps. 3.7 million; (ii) an increase in the charge for fees to the board of directors of Ps. 2.0 million; (iii) an increase in expenses for taxes, rates and contributions of Ps. 1.3 million mostly due to the tax on banks debits and credits. Administration expenses of Rentals and Services as percentage of the income of this segment remained practically stable only increasing slightly from 12.0% in fiscal year ended June 30, 2006 to 12.1% in fiscal year ended June 30, 2007.

Credit cards

Administration expenses of the Credit cards segment increase from 75.0% from Ps. 25.9 million in fiscal year ended June 30, 2006 to Ps. 45.4 million in fiscal year ended June 30, 2007. The reason is principally due to: (i) a higher charge for salaries, compensations, social security charges and charges for personnel of Ps. 11.4 million, (ii) higher expenses for rentals, taxes, rates and contributions of Ps. 2.4 million and (iii) an increase in expenses for fees and third parties services of Ps. 3.0 million. Administration expenses of Credit cards as percentage of the income of this segment increased from 21.1% in the fiscal year ended June 30, 2006 to 21.3% during the fiscal year ended June 30, 2007 as a result of a higher proportional average of these expenses in respect of the income increase of this segment.

Net income for the participations in securitized accounts receivable

This income is the result of the participation of APSA in the Shopping Credit Card Trusts. This line increased 24.0% from Ps. 2.6 million in fiscal year 2006 to Ps. 3.3 million in fiscal year 2007 principally due to the new issuance of the credit cards trusts.

Income for the operations and holding of real estate assets

The operation and holding of real estate assets decreased 79.6% from an income of Ps. 12.6 million in fiscal year 2006 to an income of Ps. 2.6 million in fiscal year 2007 principally recorded in Suipacha 652 for Ps. 0.9 million, Avenida de Mayo 589 for Ps. 0.7 million and Ps. 0.7 million for real estate of APSA.

Operative income

Operative income decreased slightly from Ps. 201.6 million in fiscal year 2006 to Ps. 198.5 million in fiscal year 2007 mainly due to a decrease in the Sales and developments segment that was compensated by increases in the rest of the business units. The operative income as percentage of income decreased from 34.9% in fiscal year 2006 to 26.9% in fiscal year 2007.

Sales and developments

Operative income arising from the Sales and development segment decreased 86.1% from Ps. 44.5 million in fiscal year 2006 to Ps. 6.2 million in fiscal year 2007 mostly due to a decrease of 27.1 % in the income arising from this segment and partially compensated by increases of 6.7% in costs, 614.9% in marketing expenses and 56.2% in administration expenses. The operating result of this segment as percentage of the incomes of such business unit decreased from 42,8% during fiscal year ended June 30, 2006 to 8,2% during fiscal year ended June 30, 2007.

Offices and other

Operative income arising from the Office and other segment increased 62.5% from Ps. 12.1 million in fiscal year 2006 to Ps. 19.6 million in fiscal year 2007 mostly due to the 82.2% increase in the income of this segment together with increase of 85.5% in costs, 329.0% in marketing expenses and 51.6% in administration expenses. The operative result of this segment as percentage of the incomes of the business unit decreased from 39.5% during the fiscal year ended June 30, 2006 to 35.2% during the fiscal year ended June 30, 2007.

Table of Contents

Commercial centers

Operating income of Commercial centers increased 18.2% from Ps. 105.6 million in fiscal year 2006 to Ps. 124.8 million in fiscal year 2007 mostly due to an increase of 25.7% in the incomes of this segment that were partially compensated by increases of 17.7% in costs, 42.3% in marketing expenses and 26.6% in administration expenses. The operating result of this segment as percentage of income of the business unit decreased from 49.1% during fiscal year ended June 30, 2006 to 46.2% during fiscal year ended June 30, 2007.

Hotels

The operating income of Hotels increased 0.7% from Ps. 1.46 million in fiscal year 2006 to Ps. 14.7 million in fiscal year 2007 mostly due to an increase of 18.2% in incomes from this segment that were partially compensated by increases of 19.0% in costs, 13.9% in marketing expenses and 28.1% in administration expenses. The operative result of this segment as percentage of the income of the business unit decreased from 14.0% during fiscal year ended June 30, 2006 to 11.9% during fiscal year ended June 30, 2007.

Credit cards

Operative income of the Credit Card segment increased 31.4% from Ps. 24.8 million in fiscal year 2006 to Ps. 32.6 million in fiscal year 2007 mostly due to an increase of 73.2% in incomes of this segment that were partially compensated by increases of 73.6% in costs, 100.5% in marketing expenses and 75.0% in administration expenses. The operating result of this segment as percentage of the incomes in such business unit decreased from 20.2% during fiscal year ended June 30, 2006 to 15.3% during fiscal year ended June 30, 2007.

Financial operations and other operations

The operative income of the Operations and other operations segment increased Ps. 0.5 million from an income of Ps. 0.1 million in fiscal year 2006 to and income of Ps. 0.6 million in fiscal year 2007. Operating income of this segment as percentage of the incomes in such business unit increased from 4.0% in fiscal year 2006 to 43.1% in fiscal year 2007. This is the result of a decrease of 40.9% in the costs of this segment.

Amortization of the goodwill

The amortization of the goodwill includes: (i) the amortization of the goodwill of the following subsidiaries of APSA: Shopping Alto Palermo S.A., FIBESA, Tarshop, ERSA and Empalme and (ii) of our own negative goodwill generated by the purchase of APSA and Palermo Invest S.A. shares. The amortization of the goodwill increased 36.3% passing from a loss of Ps. 1.1 million in fiscal year 2006 to a loss of Ps. 1.5 million in fiscal year 2007, as a result of the incorporation during the current year of new negative goodwill values due to the purchase of 33.33% of Palermo Invest S.A. and 0.94% of APSA as mentioned in the precedent point (ii) and the amortization during the current fiscal year of the higher value generated by the purchase of the Negotiable Bond of APSA.

Table of Contents**Financial results, net**

The financial results, net decreased from 109.9% from a loss of Ps. 41.4 million in fiscal year 2006 to an income of Ps. 4.1 million in fiscal year 2007. The principal causes that originated this variation were: (i) the increase of Ps. 40.4 million in Results of financial operations mainly due to an increase of Ps. 46.9 million originated by the FCI Quantum Dolphin; (ii) a positive exchange difference in respect of the previous year of Ps. 12.1 million due to a lesser depreciation during the current fiscal year of the Argentine peso versus the US dollar of 3.046/3.086 to 3.053/3.093 (0.2%) in respect of the variation recorded during the previous fiscal year 2.847/2.887 to 3.046/3.086 (6.9%); (iii) Ps. 9.9 million due to a higher result for interest gained of which Ps. 7.6 million were generated through APSA (principally placement of funds and other interest gained) and (iv) Ps. 16.5 million for higher expenses in financing principally due to the higher charge for interest paid as a result of the negotiable bonds issued by IRSA and APSA during the current fiscal year.

Equity gain from related companies

Our income on capital investments decreased by 3.9% from an income of Ps. 41.7 million in fiscal year 2006 to an income of Ps. 40.0 million in fiscal year 2007. This lesser income principally results from: (i) a decrease of Ps. 5.7 million in the income of Banco Hipotecario of Ps. 47.0 million to Ps. 41.3 million and (ii) an income of Ps. 4.0 million due to the absence during fiscal year ended June 30, 2007 of the adjustment for the transference of the management of Abril S.A.

Other income and expenses, net

Other income and expenses, net, decreased 22.8% going from net expenses of Ps. 18.3 million in fiscal year 2006 to net expenses of Ps. 14.1 million in fiscal year 2007 principally due to the effect of: (i) a decrease of Ps. 7.5 million in the allowance for uncollectible loans; (ii) an increase of Ps. 3.1 million for recovery of allowances, both issues being partially compensated by: (i) and increase of Ps. 4.5 million in charges for donations, and (ii) an increase of Ps. 2.7 million in contingencies for lawsuits.

Income before taxes and minority interest

As a result of the above mentioned issue, income before taxes and minority interest increased 24.4% passing for an income of Ps. 182.6 million in fiscal year 2006 to an income of Ps. 227.1 million in fiscal year 2007.

Income tax and assets tax

Income tax and assets tax increased 48.9% from Ps.58.8 million in fiscal year 2006 to Ps. 87.5 million in fiscal year 2007. The deferred tax method was applied to calculate the income tax for the two fiscal years recognizing the temporary differences in the accounting and in tax assets and liabilities. The variation of Ps. 28.7 millions was principally caused by the net impact of: (i) the increase of Ps. 23.6 million in the expense for income tax or IRSA from Ps. 4.0 million during fiscal year 2006 to Ps. 27.6 million during fiscal year 2007 due to the charge during the current year for deferred tax of Ps. 11.6 million mostly caused by the sale of Santa María del Plata; the allowance for income tax of the current fiscal year of Ps. 12.9 million mostly caused by the sale of BHSA shares and units of ownership of Quantum-Dolphin and, finally, the positive variation between both fiscal years of Ps. 1.0 million due to a lesser accounting amortization of the tax on minimum presumed income; (ii) an increase of Ps. 7.8 million in the expense for income tax of APSA of Ps. 48.5 million in fiscal year 2006 to Ps. 56.3 million in fiscal year 2007 and (iii) an increase in the expense for income tax of Nuevas Fronteras S.A. that during fiscal year 2007 was Ps. 0.5 million higher than the expense for fiscal year 2006.

Minority interest

The negative result caused by third parties' participation in subsidiaries increased 19.3% from a loss of Ps. 27.2 million in fiscal year 2006 to a loss of Ps. 32.4 million in fiscal year 2007 as a consequence of an increase in the income accounts of corporations in which the Company has a minority interest (principally in the Commercial center and Credit cards segments).

Table of Contents**Net income**

Due to the above-mentioned issues, net income increased 10.9% from a gain of Ps.96.6 million in year 2006 to an income of Ps. 107.1 million in fiscal year 2007.

Unsecured loan contract

On November 21, 2002 we completed a debt re-structuring with six financial creditors (Banca Nazionale del Lavoro, BankBoston, Banco Ciudad, HSBC, Banco Itaú and Banco Nación) of the unsecured loan contract of US\$ 80.0 million and US\$ 37.0 million of our floating rate Secured Negotiable Bonds. Related to this re-structuring we got into a re-structured unsecured bank debt of US\$ 51.0 million of which as of June 30, 2007 US\$ 16.1 million were outstanding. These loans accrue LIBO interest rate, three months added 200 basic points and are amortized quarterly until maturity in November 2009. This loan contract has a series of commitments that require us to comply with determined financial indices and other tests. The most restrictive financial commitments arising from these loan contracts and bonds require us to maintain:

An EBITDA consolidated ratio for the four most recent consecutive economic quarters in respect of consolidated financial disbursements of such period as a minimum of 1.0 /1.40;

Table of Contents

A maximum consolidated debt not exceeding the higher value between (i) US\$ 222.9 million and (ii) 2.8 times the consolidated EBITDA of the four most recent consecutive economic quarters

Floating rate Secured Negotiable Obligations

In respect of our 2002 debt re-structuring we issued US\$ 37.4 million Floating rate Secured Negotiable Obligations of which US\$ 26.2 million were outstanding as of June 30, 2007. The Floating rate Secured Negotiable Obligations accrue LIBO interest rate, three months added 200 basic points and are amortized quarterly until maturity in November 2009. The Floating rate Secured Negotiable Obligations are guaranteed by a first grade mortgage on: (i) 13 units of our office building located in Libertador 498, (ii) 71 units in Laminar Plaza and (iii) 19 units in Dock IV. The Floating rate Secured Negotiable Obligations include the same financial commitments of maintenance as the unsecured loan contract.

Convertible Negotiable Obligations - IRSA

On November 21, 2002 we issued US\$ 100.0 million Convertible Negotiable Obligations to be matured in November 2007. These bonds accrue 8% annual interest payable biannually. The conversion price is US\$ 0.5450 per common share, which means that each Convertible Negotiable Obligation can be exchanged for 1.8347 common shares. In addition, each Convertible Negotiable Obligation contains adhered warrants that confer the option of acquiring 1.8347 shares in US\$ 0.6541 each.

Since the date of issue up to June 30, 2007, holders of our Convertible Negotiable Obligations exercised their conversion rights in respect of a total of 81.1 million units with a face value of US\$ 1 each, issuing 148.8 million common shares in a face value of Ps. 1 each. Also, as from the date of issue up to June 30, 2007, warrants issued were exercised in a total amount of US\$ 56.8 million and in exchange 104.2 million shares were issued. We received funds in a total of US\$ 68.1 million.

As of June 30, 2007 the amount outstanding of our Convertible Negotiable Obligations and warrants was US\$ 18.9 million and US\$ 43.2 million, respectively, and the amount of our shares outstanding was 464,969,156. As of June 30, 2007, our shares were negotiated at US\$ 2.139 per shares. Consequently, if on June 30, 2007 the holders of Convertible Negotiable Obligations would have exercised their rights and sold the under-lying shares, they would have received for each convertible negotiable obligation US\$ 3.924 approximately. Also, if on such date holders had exercised the warrants and sold their under-lying shares, they would have received other US\$ 3.924 per share, paying the exercise price of US\$ 1.2 per warrant. If all the holders of our Convertible Negotiable Obligations and warrants exercise their right of conversion and of exercise, the amount of our shares outstanding would increase to 578,971,665 and we would receive proceeds in cash of US\$ 51.9, approximately.

Convertible Negotiable Obligations - APSA

On August 20, 2002 APSA issued US\$ 50.0 million un-secured Convertible Negotiable Obligations (the Convertible Negotiable Obligations of APSA) in exchange for cash and the liquidation of determined liabilities owed to its shareholders. The Convertible Negotiable Obligations of APSA mature on July 19, 2014, according to the postponement of their maturity date resolved by the meeting of shareholders of Negotiable Obligations held on May 2, 2006. Such securities accrue interest payable biannually at a fixed annual rate of 10% and are convertible at any time at the option of the holder into common shares, face value of Ps. 0.10 per share. The conversion rate per US dollar is the lesser between 30.8642 and the result obtained by dividing the rate of exchange effective on the date of conversion by the face value of the common shares of APSA. As of June 30, 2007 as a result of the previous conversions, the amount of capital outstanding of the Convertible Negotiable Obligations of APSA amounted to US\$ 47.2 million. In case the shareholders exercise their conversion rights, the common shares of APSA would increase from 782.0 million (Ps. 78.2 million) to 2,237.5 million (Ps. 223.7 million). As of June 30, 2007 we held US\$ 31.7 million of Convertible Negotiable Obligations of APSA.

Table of Contents**Hoteles Argentinos**

On March 23, 2005, Credit Suisse First Boston International acquired the debt for US\$ 11.1 million of Hoteles Argentinos, which had been in non-compliance since January 2002. On April 21, 2006, Hoteles Argentinos reduced the capital amount payable to US\$ 6.0 million through a pre-cancellation and the unpaid balance was re-structured so that maturity operates in March 2010 with the scheduled amortization payments as follows:

Date	Amount owed
March 15, 2008	Ps. 212,669
September 15, 2008	Ps. 225,429
March 15, 2009	Ps. 238,955
September 15, 2009	Ps. 253,292
March 15, 2010	Ps. 5,069,655

Interest is accrued on the unpaid capital of this loan under the LIBO rate to six-months plus 7.0%.

In addition, we entered into a swap contract of non-compliance credit with Credit Suisse International that, among other stipulations, guarantees the payment of the debt of Hoteles Argentinos and establishes that in case of an assumption of non-compliance we will acquire the loan. Together with the reform of the loan contract of Hoteles Argeninos, we modified the swap of non-compliance with Credit Suisse International. Consequently, we would only assume 80.0% of the debt of Hoteles Argentinos in case of non-compliance. The remaining 20.0% was assumed by Starwood Hotels and Resorts Worldwide Inc. (Starwood), an indirect minority shareholder of Hoteles Argentinos, which was also formalized through a swap of non-compliance credit. In order to guarantee the non-compliance of our obligations by virtue of the contract with Credit Suisse International, we made a deposit in guarantee of US\$ 1.2 million.

The loan contract of Hoteles Argentinos establishes that Hoteles Argentinos cannot declare or pay dividends or make distributions of its shares, redeem, amortize, annul or acquire in any other form own shares o make distributions of assets, shares, warrants, rights, options, obligations or securities in favor of its shareholders, unless in an amount not higher to the less between: (x) the exceeding cash flow of Hoteles Argentinos for the previous year; or (y) its consolidated retained earnings and consolidated income and in this case only if, after giving pro-forma effect to such measure, there would not be a non-compliance or assumption of non-compliance as a consequence of same.

Issue of fixed rate Negotiable Obligations

In the context of the Global Program for Issuing Negotiable Obligations approved on October 31, 2006 by the Meeting of Shareholders, on February 2, 2007 we issued Class 1 Negotiable Obligations in an amount of US\$ 150 million at an annual rate of 8.5% payable biannually and mature on February 2, 2017.

Class 1 for up to US\$ 150 million was classified by Fitch Argentina Calificadora de Riesgo S.A. with classification A-(arg) at local level and B at international level. In addition, the risk classifier Standard & Poor's granted the series an international classification of B+ and national classification raA+.

The fundamentals of these classifications are based on the strong competitive position of the Company, consolidating as a leader in the Argentine real estate market. On the other hand, the Company has moderate consolidated indebtedness levels in comparison with its strong base of assets that are shown in the quality and excellent localization of its properties' portfolio. Finally, both classifiers consider that the funds resulting from the issue of the Negotiable Obligations will be applied to financing investment opportunities that will provide significant profits to the Company due to the positive evolution evidenced by the different business in which the Company participates, and in the favorable prospects for the real estate

APSA Issuance of fixed rate Negotiable Obligations

On May 11, 2007, Alto Palermo S.A. issued two new series of notes in the total amount of US\$ 170 million. Series I corresponds to the issuance of US\$ 120 million becoming due on May 11, 2017, which accrue interest at a fixed rate of 7.875% payable semi-annually on May 11 and November 11 of each year as from November 11, 2007. Principal of this Serie will be fully settled at maturity. Series II corresponds to the issuance of Ps.154 million (equivalent to US\$ 50 million). Principal will be settled in seven, equal and consecutive semi-annual installments as from June 11, 2009, which accrue interest at 11% per annum, maturing on June 11, and December 11 of each year as from December 11, 2007.

These issuances correspond to Classes 1 and 2 within the Global Program for Issuing Notes, having a face value of up to US\$ 200,000,000 (the Program) authorized by the National Securities Commission Resolution No. 15614 dated April 19, 2007.

Agreements not included in the balance sheet

Currently there is no agreement not included in the balance sheet or any significant operations with non-consolidated entities that are not shown in our consolidated financial statements. All our participations and/or relationships with subsidiaries or jointly held companies are recorded in our consolidated balance sheets.

Transference of shares of Banco Hipotecario S.A.

On August 9, 2005 Ritelco S.A. sold 335,893 shares of Banco Hipotecario S.A. to Buenos Aires Trade and Finance Center S.A. (at that moment 100% subsidiary of the Company) in the total amount of US\$ 1,54 million (equivalent to market value of US\$ 4.57 per share). In the same date, the Company sold 2,305,122 shares of Banco Hipotecario S.A. to Buenos Aires Trade and Finance Center S.A. (at that moment a 100% subsidiary of IRSA) in the price of US\$ 4.57 per share (market value), being the total amount of the transaction US\$ 10.54 million (equivalent to Ps. 30.28 million).

The change of the nominal value of the Banco Hipotecario S.A. share from pesos 10 to pesos 1 became effective on February 15, 2007.

On June 15, 2007 the Company sold 26,410,150 shares of Banco Hipotecario S.A. to Inversora Bolivar S.A. in the price of Ps. 3.09 per share (market value) the amount of the transaction being Ps. 81.61 million

Inversora Bolivar should cancel the transaction in four-year term with an interest rate of 11% yearly.

As such transactions were made among subsidiaries, in which IRSA holds 100% interest, they do not modify the shareholding and do not affect the consolidated financial statements.

As of June 30, 2007, total shareholding amounts to 176,410,150 shares.

Signing of shared service center contract with CRESUD SACIF and APSA

Considering that the Company, Cresud S.A.C.I.F. y A. (Cresud) and APSA have operative areas with certain similar characteristics, the Board understands that it is convenient to implement alternative allowing to reduce certain fixed costs incurred in their activities so as to diminish their incidence on the operative results, benefiting and optimizing their individual efficiencies in the areas that conform the operative administration.

To such purpose, a pilot test was tested for a partial operative integration in the Human Resources, Finances, Institutional Relations, Administration, Systems, Insurances, Purchases, Contracts and Operations areas, among other that have shown the feasibility of implementing the above-mentioned project bearing specifically in mind that such project does not fit in the provisions of section 73 of the current Decree 677/01. Consequently, a third independent party (Deloitte Argentina) was requested to carry out a review on the definition of guidelines for liquidation and bases of distribution for its implementation. Recently, the Internal Audit and Management of Corporate Service have joined the project.

Therefore, a Base Contract was subscribed for the Interchange of Corporative Services referred to the above-mentioned areas that relate jobs performed by one of more of the companies. Such jobs are firstly payable by means of a compensation due to a rendering of services of any of the areas, secondly in case of a difference between the value of the services rendered, in money, among the companies involved.

This Base Contract for the interchange of Corporative Services has an initial term of 24 months, to be automatically renewed for equal term unless rescinded by any of the parties by written note.

We would mention that notwithstanding such operation APSA, Cresud and the Company maintain full independence in their strategic and commercial decisions, being the distribution of costs and benefits made on basis of operative efficiency and equity, without pursuing individual economic benefits for their companies.

The implementation of this project does not difficult the proper identification of the pertinent economic transactions or services nor it harms the efficiency of the internal control system or the internal and external audit jobs of each company, or the possibility to show the transactions related to the Contract in line with Technical Resolution 21 of the Argentine Federation of Professional Councils in Economic Sciences. Mr. Alejandro Gustavo Elsztain will be in charge of the general co-ordination of the project and Mr. Cedric Bridger will the have the individual responsible for the project.

Systems' Migration Project

During the fiscal year 2007, we developed a systems' migration project in order to integrate the different existing inter-phases and processes of the Company's different areas. Such improvement provided a more flexible, efficient and agile organization to respond any business requirements, as well as higher competitiveness. Such integration strategy allowed automating, standardizing and formalizing all processes in order to align the Company with SEC's requirements, particularly as regards the Sarbanes-Oxley legislation.

Internal Control - Audit Committee

Under the Public Offer Transparency Regime established in Decree 677/01 and the standards of the National Securities Commission (CNV), the Board of Directors established the Audit Committee.

Such committee is a Board of Directors' Committee whose principal function is to assist the Board to comply with their responsibilities of exercising the care, diligence and the capacity in respect of the Company, particularly in applying the accounting policy and issuance of accounting and financial information, the administration of business risks and internal control systems, the behavior and ethics of the company business, the supervision of the completeness of the financial statements, the compliance of the company with all legal dispositions, the independence and capacity of the independent auditor and the development of the internal audit function of the company and of the external auditors as well.

Table of Contents

The audit committee should meet at least once a year.

Under the terms of Decree No. 677/001 and the standards of the National Securities Commission, the Audit Committee has three independent directors. The NYSE standards establish that as of July 31, 2005 foreign companies that quote shares in the United States should have an Audit Committee whose members should be independent directors.

At present, the Company has a fully independent Audit Committee whose members are the directors Mario Blejer, Cedric D. Bridger and Mauricio Wior.

Fees

Board of Directors

The Corporation Law establishes that the Board of Directors fees, in case they are not specified in the company by-laws, should be fixed by the shareholders' meeting. The maximum amount of the fees that the members of the board of directors and the supervision council can receive, including salaries and other remunerations for developing their technical-administrative functions on a permanent basis, will not exceed 25% of the income. Such maximum amount will be limited to 5% when dividends are not appropriated to the shareholders and will increase proportionately to the appropriation until such limit is reached when total income is distributed.

When the exercising of the especial commissions of technical-administrative functions by or one or more directors, due to the reduction or inexistence of income imposes the need to extend the fixed limits, such fees can only be effective in excess if they were specifically agreed by the shareholders' meeting. The fees of the directors for each fiscal year is determined, in accordance with the terms of the Corporation Law, taking into account if directors develop or not technical-administrative functions and in accordance with the income obtained by the company during the fiscal year. Once the fee amounts are determined they should be approved by the shareholders' meeting.

In the shareholders' meeting held on October 31, 2006 the shareholders approved the decision to pay fees for Ps. 7.4 million to the directors for the services rendered during the fiscal year ended June 30, 2006.

In accordance with the working contracts with executives entered into with Mr. Eduardo S. Elsztain, Mr. Saúl Zang and Mr. Oscar P. Bergotto, if we revoke without cause the working contracts of any of these executives, we are obliged to pay two years' of fees to the pertinent executive.

Supervisory Committee

The Board of Directors' meeting held on October 31, 2006 approved for a majority of votes the decision of not paying any fees to the Supervisory Committee members.

Audit Committee

The members of the Audit Committee do not receive any additional compensations to those received for their services as members of the board.

Capitalization program for executive management

The Company has developed during this year the design of a capitalization program for executive management staff through contributions that will be realized by employees and by the Company.

Table of Contents

That plan is addressed to employees selected by the Company with the purpose of keeping them in the company and increasing their total compensation through an extraordinary reward, provided that certain specific conditions are complied with.

Participation and contributions to the Plan are on a voluntary basis. Once the beneficiary has accepted, it will be able to make two types of contributions: a monthly one (base on the salary) and an extraordinary one (based on the bonus). The suggested contribution is up to 2.5% of the monthly salary and up to 15% of the bonus. On the other hand, the Company contribution will be 200% of the monthly contributions and 300% of the employee's extraordinary contributions.

Funds collected from participants' contributions will initially be send to an independent financial means especially created for such purpose and placed in Argentina as a Common Investment Fund, which has the approval by the National Securities Commission. Such funds will be freely redeemed under the requirement of the participants. The funds arising from the Company contributions will flow to other independent financial means separated from the previous one.

In the future the participants will have access to 100% of the plan benefits (that is, including the Company contributions made in favor of the financial means especially created) under the circumstances that follow:

Ordinary retirement in line with the applicable working regulations

Total or permanent disability or inability

Death

In case of resignation or discharge without legal justification, the participant will obtain the amounts contributed by the company only if he has participated in the plan during a minimum term of five years, provided certain conditions were complied with.

Dividends and policy dividends

In conformity with the Argentine legislation, the appropriation and payment of dividends is only allowed to shareholders whenever they arise from our realized net income in conformity with the annual financial statements approved by our shareholders. The Board of Directors can declare interim dividends, in which case, all the members of the Board and the members of the Supervisory Committee would be jointly and severally liable of refunding to us the amount disbursed as dividends if as of closing of the fiscal year in which interim dividends are paid the liquid income were insufficient to allow the payment of such dividends. The determination, amount and payment of dividends should be approved in our annual ordinary meeting of shareholders. The approval demands the favorable vote of the majority of the shareholders with voting rights represented in the meeting of shareholders. Considering the relative participations in the title ownership of our capital stock, our principal shareholders have the power to significantly influence in the election of the Board of Directors' members and in the approval, amount and payment of dividends. However, such power is subject to the requirements of the Argentine legislations and to our by-laws.

The Board submits our financial statements and annual report of the previous fiscal year, together with the report of the Supervisory Committee, to the approval of our annual ordinary meeting of shareholders. The annual ordinary meeting of shareholders, summoned to approve the annual report and financial statements and to determine the appropriation of our net income for the year, should be held before October 31 of each year. In conformity with the Argentine legislation that govern the companies and our by-laws, liquid and realized profits of each fiscal year should be appropriated as follows:

5% to the legal reserve fund, up to 20% of our capital stock;

an amount determined by the meeting of shareholders is allocated to remuneration of our directors and members of the Supervisory Committee;

dividends and additional dividends on the preferred shares, if any; and

optional reserve fund, allowance for contingencies, to a new account or to any purpose determined by the meeting of shareholders. In accordance with the standards issued by the National Securities Commission, dividends in cash should be paid to shareholders within 30 days of the resolution that approves the appropriation. In the case of dividends in shares, the shares should be handed over to the shareholders within three months of the annual ordinary meeting of shareholders that has approved such dividends.

In accordance with the acknowledgment of our shareholders, by virtue of our Unsecured Loan Contract for US\$ 51 million and our Floating Rate Guaranteed Negotiable Obligations to be matured on November 2009, there are certain restrictions to the payment of dividends and to the appropriations or re-purchases of debt or shares (Restricted Payments). Restricted Payments can be effected if the conditions that follow are complied with: (i) that at the time of effecting and as a consequence of such it has not occurred or occur an assumption of non-compliance, and (ii) that during the previous calculation period there has been no violation of the financial commitments assumed by virtue of the above-mentioned contracts.

To date, the Board of Directors continues analyzing the Company's policy of dividends.

Although our shareholders decided, in our meeting of shareholders held on October 31, 2006, that we would not pay dividends at that time, we may possible renew the payment of dividends in the near future.

The chart that follows shows the relationship between the payment of dividends and the total amount of dividends paid, each one fully paid in common shares for the mentioned fiscal years. The figures in Pesos are stated in historical Pesos to their respective dates of payment. See Type of Exchange .

OUTLOOK FOR THE COMING YEAR

During fiscal year 2007 the Company has started a strong investment plan tending to increase the future cash flow and create higher value for our shareholders.

In line with the favorable prospects shown in the offices market due to the current shortage of square meters and to the little construction developments, we will go forward with our policy of consolidating in the A and AAA sectors by acquiring already constructed square meters together with the development of new undertakings. The inclusion of 11,000 square meters of shops in Dock IV of Puerto Madero, in our portfolio's projects, currently under construction, is expected to be ready in the market by fiscal year 2009.

In respect of the commercial centers area, we will continue our market share consolidation strategy in Buenos Aires and expanding inside the country. In the city of Buenos Aires and surroundings, new large commercial centers will be constructed located in the Saavedra district, in the intersection of General Paz Ave and the Panamericana highway. The project includes the construction of a Commercial Center, an hypermarket, a complex of movie theatres and an offices building. This will allow us to capture people of high acquisition level in the North area of Greater Buenos Aires. The project is under development by Panamerican Mall S.A. (PAMSA), a recently incorporated company in which our subsidiary of commercial centers Alto Palermo S.A. (APSA) has 80% share.

Inside the country, the consolidation and future enlargement of the Shopping Villa Cabrera in the Province of Córdoba is estimated, this being acquired during the current year, and the development of a commercial centre that is part of a mega plan with houses, hypermarkets and offices in the city of Neuquén. Also, we will continue evaluation new opportunities, both in Buenos Aires and in the interior in line with our business plan.

The new prospects of the hotel sector, shown by the good profits of the activity during fiscal year 2007 and the tourism potential in our country is leading us to be optimistic in respect of the business segment. During the next fiscal year, the works for enlargement of Hotel Llao Llao will be inaugurated, and 42 new suites will be added to the hotel offer. In addition, the possibility of a potential development in the plot of land at the sides of the Gutiérrez Lake, close to the Hotel Llao Llao, is under evaluation. As related to hotels in Buenos Aires, in year 2008 the works of remodelling of such hotels will be in advanced progress, which will permit the company to have access to the premium corporate segment and will result in higher income.

As regards the sales and developments segment, our intention in the future is to start our own developments by participating in a company incorporated to such purpose. We are also evaluating to start in the medium-income segment as we believe that salary increases and the improvement of the mortgage credit will help people in acquiring their own dwelling. During the current year having such idea in mind we have acquired two plots of land in Vicente López where we will develop an important residential undertaking. We believe this project will be launched shortly.

In respect of the urbanization project of the 70 hectares estate located 10 minutes from the Government House, same is in the first stages of development. The project is under development by our subsidiary Solares de Santa María S.A. (Solares), which has been recently incorporated. It will have a residential profile, with mix uses, including offices, stores, supermarkets, parking lots, etc. having been conceived as another quarter inside the city of Buenos Aires. This project, which has been submitted to the authorities, is the result of study of projects suggested by the consultants of COPUA (Council of the Environmental Urban Plan) and includes the assignment of 358,000 square meters of surface area devoted to public parks that surround all the development forming green sectors of more than 90,000 square meter of surface areas boulevards that invite to walk around them through public streets all along the district, assignment of the all the plots of water for the public use, principally the front area of the stores which could be used as future moorings. While we await the authorization and approval of the Government of the city of Buenos Aires, we are working in the inclusion of very well-know local and international real estate developers in order to optimize the start of the Project.

The undisputable favorable context is an excellent moment to plan and complete new projects. Our intention is to re-invest the funds arising from the operation and those captures in the capital markets, in new projects in the country and start producing other markets in Latin America. We believe that the know-how acquired in all these years and the access to the capital markets will allow us to capture highly significant business opportunities.

NOTE 1: (Continued)

b. Comparative Information

Certain amounts in the financial statements at June 30, 2006 were reclassified for disclosure on a comparative basis with those for the fiscal year ended June 30, 2007.

NOTE 2: CONSIDERATION OF THE EFFECTS OF INFLATION

The financial statements have been prepared in constant monetary units, reflecting the overall effects of inflation through August 31, 1995. From that date and until December 31, 2001 the government discontinued the restatement of the financial statements due to a period of monetary stability. From January 1, 2002 up to February 28, 2003 the effects of inflation were recognized due to the existence of an inflationary period. As from that date again, the restatement of the financial statements was discontinued.

This criterion is not in line with current professional accounting standards, which establish that the financial statements should be restated through September 30, 2003. However, due to the low level of inflation rates during the period from March to September 2003, this deviation has not had a material effect on the consolidated financial statements taken as a whole.

The rate used for restatement of items is the domestic wholesale price index published by the National Institute of Statistics and Census.

NOTE 3: SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the subsidiaries mentioned in Note 1, have been prepared on a consistent basis with those applied by IRSA Inversiones y Representaciones Sociedad Anónima. The Note 1 to the basic financial statements details the most significant accounting policies applied by the Company. Below are the most relevant accounting policies adopted by the subsidiaries, which are not included in that Note.

a. **Banco Hipotecario S.A. shares**

Banco Hipotecario S.A. shares were valued by using the equity method of accounting by the end of the year. See Note 1.5.i. to the basic financial statements.

b. **Revenue recognition**

In addition to the description in the basic financial statements:

Net income for admission rights and rental of stores and stands

Leases with tenants are accounted for as operating leases. Tenants are generally charged a rent, which consists of the higher of (i) a monthly base rent (the Base Rent) and (ii) a specified percentage of the tenant's monthly gross sales (the Percentage Rent) (which generally ranges between 4% and 8% of tenant's gross sales).

Furthermore, pursuant to the rent adjustment clause in most leases, the tenant's Base Rent generally increases between 4% and 7% each year during the term of the lease. Minimum rental income is recognized on a straight-line basis over the term of the lease. Certain lease agreements contain provisions, which provide for rents based on a percentage of sales or based on a percentage of sales volume above a specified threshold. The Company determines the compliance with specific targets and calculates the additional rent on a monthly basis as provided for in the contracts. Thus, these contingent rents are not recognized until the required thresholds are exceeded.

Generally, the Company's lease agreements vary from 36 to 120 months. Law No. 24,808 provides that tenants may rescind commercial lease agreements after the initial nine months, upon not less than 60 days' written notice, subject to penalties which vary from one to one and a half months rent if the tenant rescinds during the first year of its lease, and one month of rent if the tenant rescinds after the first year of its lease.

Additionally, the Company monthly charges its tenants administration fees, which are prorated among the tenants according to their leases and varies from shopping center to shopping center, relating to the administration and maintenance of the common area and the administration of contributions made by tenants to finance promotional efforts for the overall shopping centers operations.

Administration fees are recognized monthly when accrued. In addition to rent, tenants are generally charged admission rights, that tenants may be required to pay upon entering into a lease or upon lease renewal. Admission right is normally paid in one lump sum or in a small number of monthly installments. Admission rights are recognized in earnings using the straight-line method over the life of the respective lease agreements.

Lease agent operations

FIBESA S.A. and Comercializadora Los Altos S.A. (former Altocity.com S.A.), companies in which APSA have shares of 99.9999% and 100% respectively, act as the leasing agents for APSA bringing together that company and potential lessees for the retail space available in certain of APSA's shopping centers. FIBESA's and Comercializadora Los Altos S.A. (former Altocity.com S.A.) revenues are derived primarily from collected fees calculated as a percentage of the final rental income value. Revenues are recognized at the time that the transaction is successfully concluded. A transaction is considered successfully concluded when both parties have signed the related lease contract.

Credit card operations

Revenues derived from credit card transactions include commissions and financing income, charges to users for life and disability insurance and statements of accounts. Commissions are recognized at the time the merchants' transactions are processed, while the remaining income is recognized at the time it is accrued.

Hotel operations

The Company recognizes revenues from its rooms, catering, and restaurant facilities as accrued on the close of each business day.

Net operating results from each business unit are disclosed in Note 4.

c. Intangible assets

Intangible assets are carried at cost restated as mentioned in Note 2, less accumulated amortization and corresponding allowances for impairment in value. Included in the Intangible Assets caption are the following:

Trademarks

Trademarks include the expenses and fees related to their registration.

Pre-operating expenses

This item reflects expenses generated by the opening of new shopping malls restated as mentioned in Note 2. Those expenses are amortized by the straight-line method in 3 years, beginning as from the date of opening of the shopping center.

Property development expenses

Expenses incurred related to the selling of development properties, including advertising, commissions and other expenses, are charged to net income for the period in which the corresponding income is accrued, based on the percentage of completion method.

The value of these assets does not exceed its estimated recoverable value at the end of each year.

d. Goodwill

Negative goodwill represents the excess of the market value of net assets of the subsidiaries at the percentage participation acquired over the acquisition cost. Goodwill has been restated following the guidelines mentioned in Note 2 and amortization has been calculated by the straight-line method based on an estimated useful life, that in no case exceed 20 years, considering the weighted-average of the remaining useful life of identifiable assets acquired subject to depreciation.

Additionally, also included was the goodwill from the subsidiary APSA, originating from the purchase of shares of Tarshop S.A., Fibesa S.A., Panamerican Mall S.A., Empalme S.A.I.C.F.A. y G. and Emprendimiento Recoleta S.A., which is amortized through the straight-line method over a period that not exceeds 10 years.

Goodwill corresponding to the acquisition of Panamerican Mall S.A. has been valued at cost, calculated as the difference between the value paid for such investment and the estimated current value of the assets acquired. The goodwill for the acquisition of the controlled companies Empalme S.A.I.C.F.A. y G. and Palermo Invest S.A. has been valued at cost, calculated as difference between the value paid for such investment and the book value of the participation acquired. The Company is currently analyzing the current value of assets and liabilities acquired in line with Technical Resolution No. 21. The goodwill originated for the acquisition of Empalme S.A.I.C.F.A. y G. shares is amortized over 17 years. Amortization has been classified under Amortization of goodwill in the Statements of Income.

NOTE 4: NET OPERATING INCOME BY BUSINESS UNIT

The Company has determined that its reportable segments are those that are based on the Company's method of internal reporting. Accordingly, the Company has six reportable segments. These segments are Sales and development of properties, Office and others, Shopping centers, Credit card, Hotel and financial operations and others. As mentioned in Note 1, the consolidated statements of income were prepared following the guidelines of Technical Resolution No. 21 of the F.A.C.P.C.E..

A general description of each segment follows:

Sale and development of properties

This segment includes the operating results of the Company's construction and / or sale of residential buildings business.

Office and others

This segment includes the operating results of the Company's lease and service revenues of office space and other building properties from tenants.

Shopping centers

This segment includes the operating results of the Company's shopping centers principally comprised of lease and service revenues from tenants.

Credit card

This segment includes the operating results from operations with credit cards, which include commissions, financing income, charges to users by life and incapacity insurance and accounts' summaries, among others.

Hotel operations

This segment includes the operating results of the Company's hotels principally comprised of room, catering and restaurant revenues.

Financial operations and others

This segment primarily includes revenues and associated costs generated from the sale of equity securities, other securities-related transactions and other non-core activities of the Company. This segment also includes gain/loss in equity investments of the Company relating to the banking activity.

NOTE 16: RESTRICTED ASSETS

Puerto Retiro S.A.

On April 18, 2000, Puerto Retiro S.A. (indirect subsidiary of the Company) was notified of a filing made by the National Government, through the Ministry of Defense, to extend the petition in bankruptcy of Inversora Dársena Norte S.A. (Indarsa) to Puerto Retiro S.A. Concurrently with the complaint, at the request of plaintiff, the bankruptcy court granted an order restraining the ability of Puerto Retiro S.A. to sell or dispose in any manner the acquired real estate property from Tandanor S.A. in June 1993.

Indarsa had acquired 90% of the capital stock of Tandanor to a formerly estate owned company privatized in 1991, engaged in the shipyard industry.

Indarsa did not comply with the payment of the outstanding price for the acquisition of the stock of Tandanor, and therefore the Ministry of Defense requested the bankruptcy of Indarsa, pursuing to extend the bankruptcy to Puerto Retiro S.A.

The evidence steps of the legal procedures have been completed. Puerto Retiro S.A. appealed the precautionary measure, being the same confirmed by the Court on December 14, 2000. The parties have submitted their claims in due time. The file was passed for the judge to issue a pronouncement, this being a decree adjourning the summoning of decisions to pronouncement in the understanding that there exists pre-judgment in respect of the penal cause filed against ex-officers of the Ministry of Defense and ex-directors of the Company. Consequently, the matter will not be solved until there is final judgment in penal jurisdiction.

The management and legal advisors of Puerto Retiro S.A. believe that there are legal and technical issues sufficient to consider that the request for postponement of bankruptcy will be denied by the court. However, taking the circumstances into account and the progress of the legal action, this position cannot be considered final.

Hoteles Argentinos S.A. mortgage loan

The Extraordinary Shareholders Meeting of Hoteles Argentinos S.A. (HASA , subsidiary of the company) held on January 5, 2001 approved taking a long-term mortgage loan from Bank Boston N.A. for a total amount of US\$ 12,000 to be used to refinance existing debts. The term of the loan was agreed at 60 months payable in 19 equal and quarterly installments of US\$ 300 and one final payment of US\$ 6,300. Such loan accrued LIBO rate plus a variable spread to be applied in the different periods. The agreement was signed on January 26, 2001.

As a result of the economic situation of the country, the lack of credit and the crisis of the Argentine financial system, principal installments of US\$ 300 each falling due as from January 26, 2002 and the interest installments for a total amount of US\$ 2,459 falling due as from July 29, 2002, were not paid by HASA.

On March 5, 2004, BankBoston N.A. formally notified HASA that as from March 10, 2004 it assigned to Marathon Master Fund Ltd., all the rights and obligations arising from the loan agreement together with all the changes, guarantees and insurance policies related to that contract.

NOTE 16: (Continued)

On December 16, 2004 Ritelco S.A. purchased the loan of US\$ 12,951 that the Company's controlled subsidiary Hoteles Argentinos S.A. (80%) owed Marathon Master Fund, Ltd.

On March 23, 2005 Ritelco S.A. sold to Credit Suisse International (CSI formerly Credit Suisse First Boston) the loan agreement.

The board of directors of HASA, in the meeting held on April 17, 2006, made an evaluation of the matters related to the original debt refinancing and decided to modify and amend the original loan agreement (Amended and Restated Loan Agreement) in order to reduce the outstanding amount of the original loan capital and postpone its maturity to March 15, 2010.

On April 21, 2006, HASA and CSI, entered into a Modified Loan contract in the following terms:

As condition precedent for carrying out the mentioned re-structuring, Credit Suisse compelled the payment of US\$ 2,000 for partial cancellation of the matured and unpaid original debt. Also, the payment capital conditions of the modified loan and interest were agreed as follows:

a) Principal cancellations:

Maturity date		
-	03-15-2008	US\$ 213
-	09-15-2008	US\$ 225
-	03-15-2009	US\$ 239
-	09-15-2009	US\$ 253
-	03-15-2010	US\$ 5,070

b) The principal installments will be paid with interest on the outstanding principal loan to be amortized as stated in clause 2.3 of the Modified Loan Contract, according to the following detail:

Period 03-15-2006 to the effective day of the contract (04-21-2006), interest was accrued on US\$ 8,000 at an annual 12.07% rate. HASA did not pay any other interest accrued up to the effective date, including interest on loan arrears.

From 04-21-2006 to 09-15-2006, interest was accrued on the outstanding principal at an annual 12.07% rate.

As from 09-15-2006, the loan will accrue:

(A) Interest at an annual rate equal to six-month LIBO, as determined by CSI the second working day prior to each interest period, plus the applicable margin of 7,0% (the Interest Rate), and

(B)

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 6-K

Interest will accrue as from the first day of each interest period inclusive and will be payable twice a year on arrears on each interest payment date.

b. (Continued)

Once HASA has credited the amount of US\$ 2,000 made on April 21, 2006, the mortgage was partially cancelled reducing the original amount to the total of US\$ 6,000. Consequently, the fourth paragraph of such instrument was changed and it was established that the asset mortgaged assure the proper compliance in time of all the Obligations arising from the Modified Loan Contract.

In addition to the Modified Loan Contract entered into with HASA and its financial creditor CSI, two credit default swaps were subscribed. One between IRSA and CSI for 80% of the restructured debt value, this being an amendment of the previous one signed, and the other one is a credit default swap between Starwood Hotels and Resorts Worldwide Inc. (Starwood) and CSI for 20% of the restructured debt value. Under these contracts, both companies (IRSA and Starwood) are able to protect CSI in case of non-compliance with HASA's obligations. For valuable consideration, the Company and Starwood will be paid a coupon on a periodical basis.

NOTE 17: TARSHOP S.A. CREDIT CARD RECEIVABLES SECURITIZATION

APSA has ongoing revolving year securitization programs through which Tarshop S.A., a majority-owned subsidiary of APSA, transfers a portion of its customer credit card receivable balances to master trusts that issues certificates to public and private investors.

Under the securitization programs, Trusts may issue two types of certificates representing undivided interests in the Trusts Títulos de Deuda Fiduciaria (TDF) and Certificados de Participación (CP), which represent debt, and equity certificates, respectively. Interest and principal services are paid periodically to the TDF holders throughout the life of the security. CPs are subordinated securities which entitle the CP holders to share pro rata in the cash flows of the securitized credit card receivables, after principal and interest on the TDFs and other fees and expenses have been paid. During the revolving period no payments are made to TDF and CP holders. Principal collections of the underlying financial assets are used by the Trust to acquire additional credit card receivables throughout the revolving period. Once the revolving period ends, a period of liquidation occurs during which: (i) no further assets are purchased, (ii) all cash collections are used to fulfill the TDF service requirements and (iii) the remaining proceeds are used to fulfill the CPs service requirements.

In consideration of the receivables transferred to the Trusts, which have been eliminated from the Company's balance sheet, Tarshop received cash (arising from the placement of the debt securities by the Trusts) and CPs issued by the trusts. The latter are recorded at their equity values at the closing of the year on the basis of the financial statements issued by the trusts.

Our subsidiary Tarshop S.A., agreed on a Securitization Program of consumption portfolio for the purpose of securing long-term financing and the possibility of direct access to the capital market.

Under this Securitization Program, since December, 1999 to June 30, 2007, Tarshop S.A. transferred to financial trusts the total amount of Ps. 737.2 million of credits receivable originated in the use of its clients' credits cards and personal loans carrying promissory notes. Consequently, T.D.F. Series A were issued for Ps. 630.1 million, T.D.F. Series B for Ps. 43.4 million, C.P. Series C for Ps. 63.5 million, and C.P. Series D for Ps. 0.2 million.

On the other hand, Tarshop S.A. acquired all the C.P. Series C in an amount equal to its nominal value, and all the remaining T.D.F. and C.P. were placed to investments through a public offer in Argentina. As credit protection to investors, Tarshop S.A. has made a cash reserve for losses in the amount of Ps. 21.9 million.

The amount of this transaction is US\$ 850, of which US\$ 604 correspond to Ritelco S.A. On that date, ITNV cancelled the total amount of the transaction.

NOTE 20: MORTGAGE RECEIVABLE SECURITIZATION ORIGINATED BY IRSA INVERSIONES Y REPRESENTACIONES SOCIEDAD ANONIMA (IRSA), INVERSORA BOLIVAR S.A. AND BALDOVINOS S.A.

The Board of Directors of the Company, in the meeting held on November 2, 2001, authorized the setting up of a financial trust for the securitization of Company receivables. The trust program for issuing participation certificates, under the terms of Law No. 24,441, was approved by the National Securities Commission by means of Resolution No. 13,040, dated October 14, 1999, as regards the program and in particular as regards the Trust called IRSA I following a decision of the Board of Directors dated December 14, 2001.

On December 17, 2001, the Company, Inversora Bolívar S.A. and Baldovinos S.A. (indirect subsidiaries) on one side (hereinafter the Trustors) and Banco Sudameris Argentina S.A. (hereinafter the Trustee) agreed to set up the IRSA I Financial Trust under the Global Program for the Issuance of FIDENS Trust Values, pursuant to the contract entered into on November 2, 2001.

Under the above-mentioned program, the trustors sold their personal and real estate receivables, secured with mortgages or arising from bills of sale with the possession of the related properties, for

the total amount of US\$ 26,586 to the Trustee, in exchange for cash and a part of the issuance by the Trustee of Participation Certificates. The different types of Participation Certificates issued by the Trustee are set out as follows:

Class A Participation Certificates (CPA): Nominal value of US\$ 13,300 with a 15% fixed annual nominal yield, with monthly Service payments due on the 15th of each month or on the immediately following business day. These certificates grant the right to collect the following Services: (a) a fixed yield calculated on the Class principal balance, with monthly capitalization, payable monthly as from the total settlement of the CPAs, and (b) an amortization.

Class B Participation Certificates (CPB): Nominal value of US\$ 1,000 with a 15.50% fixed annual, nominal yield, with monthly Service payments due on the 15th of each month or on the immediately following business day. These certificates grant the right to collect the following Services: (a) a fixed yield calculated on the Class principal balance, with monthly capitalization, payable monthly as from the total settlement of the CPAs, and (b) an amortization equivalent to the sums paid as from the last Service Payment Date on which the total settlement of the CPA Certificates may have taken place, net of their fixed yield.

Class C Participation Certificates (CPC): Nominal value of US\$ 1,600 with a 16% fixed annual nominal yield, with monthly Service payments due on the 15th of each month or on the immediately following business day. These certificates grant the right to collect the following Services: (a) a fixed yield calculated on the Class principal balance, with monthly capitalization, payable monthly as from the total settlement of the CPBs, and (b) an amortization equivalent to the sums paid as from the last Service Payment Date on which the total settlement of the CPBs may have taken place, net of their fixed yield. The fixed yield will accrue as from the Cut-Off Date and will be capitalized on a monthly basis.

Class D Participation Certificates (CPD): Nominal Value of US\$ 10,686. These grant the right to collect monthly sums arising from the Cash Flows, net of the contributions made to the Expense Fund, once the remaining classes have been fully settled.

The period for placing the Participation Certificates was from December 27, 2001 to January 15, 2002.

Pursuant to Decree No. 214/02, receivables and debts in U.S. dollars in the Argentine financial system as of January 6, 2002, were converted to Argentine pesos at the rate of exchange of Ps. 1 per US\$ 1 and are adjusted by a reference stabilization index (CER) / coefficient of salary fluctuation (CVS).

On July 21, 2003 an amendment was signed to the trust contract by which, among other conditions, a system of proportional adjustment to the Participation Certificates was established to recognize the CER and CVS, and also nominal value of the Participation Certificates Class D was modified. New nominal value amounted to Ps. 10,321.

At June 30, 2007, the value of Class D Participation Certificates amounted to Ps. 659 in IRSA and Ps. 133 in Inversora Bolívar S.A. Class A, B, and C Certificates have been totally amortized at the end of the year.

NOTE 21: ADQUISITION OF CORDOBA SHOPPING

On July 7, 2006 Alto Palermo S.A. (APSA) and Shopping Alto Palermo S.A. (SAPSA) subscribed a sale contract of shares for the purchase of all the shareholding of Empalme S.A.I.C.F.A. y G., owner of the Córdoba Shopping Villa Cabrera. This operation was subject to certain conditions precedent, one of these being the approval of the National Commission for the Defense of Competitiveness. This condition was duly approved and notified on December 20, 2006

The agreed price for such operation is a gross amount of US\$ 12,000 added a variable amount arising from the adjustment prior to closing (originally established in the contract), which was determined in Ps. 3,961. The company was incorporated on December 31, 2006. As of June 30, 2007 APSA and SAPSA have paid US\$ 6,000 and the amount representing the adjustment subsequent to period-end. Three (3) installments of two million dollars (US\$ 2,000) are still outstanding, to become due in December, 2007, June and December, 2008 respectively. These installments accrue 6% nominal annual interest. To secure the unpaid purchase price, we have pledged in favor of the sellers 100% of our equity interests in Empalme. Upon repaying each of the resulting installments, the encumbrance will be partially lifted.

Córdoba Shopping Villa Cabrera is a shopping center covering 35,000 square meters of surface area, including 160 commercial stores, 12 cinemas and parking lot for 1,500 vehicles, located in Villa Cabrera, city of Córdoba. This investment represents for APSA and SAPSA a significant growth opportunity in the commercial centers segment. It will also be in line with the expansion strategy and presence in the most important cities inside the country.

NOTE 22: DERIVATIVE INSTRUMENTS

Future purchase contracts

During the current year Ritelco S.A. subscribed Future purchase of gold contracts. In accordance with this company's risk administration policies, this kind of contracts are used with speculative purposes.

As of June 30, 2007, Ritelco S.A. has 30 contracts for the purchase of 100 ounces of gold due in December 2007 at an average market price of US\$ 663.20. As a guarantee for such contracts, Ritelco has deposits in the amount of US\$ 81 (equivalent to Ps. 247).

As of June 30, 2007, for future purchase contract transactions effective during the year, Ritelco S.A. recorded a realized profit and a non realized loss for such operations amounting to US\$ 256 (equivalent to Ps. 783) and US\$ 39 (equivalent to Ps. 118), respectively.

NOTE 23: ALTO PALERMO - ISSUANCE OF NEGOTIABLE OBLIGATIONS CONVERTIBLE INTO COMMON SHARES

On July 19, 2002, APSA issued Series I of Negotiable Obligations up to US\$ 50,000 convertible into common shares, par value of Ps. 0.10 each. This series was fully subscribed and paid-up.

This issuance was resolved at the Ordinary and Extraordinary Meeting of Shareholders held on December 4, 2001, approved by the National Securities Commission Resolution No.14,196 dated March 15, 2002 and authorized to list for trading on the Buenos Aires Stock Exchange on July 8, 2002.

NOTE 23: (Continued)

Main issue terms and conditions of the Convertible Negotiable Obligations are as follows:

- Issue currency: US dollars.

- Due date: On May 2, 2006, the Meeting of Shareholders decided to postpone the date of original maturity to July 19, 2014 this being the reason for the Convertible Negotiable Obligations (CNO) to be classified as non-current in these financial statements. Since the conditions of the CNO have not substantially modified, the postponement of the original maturity have not had an impact on these financial statements.

- Interest: at a fixed nominal rate of 10% per annum. Interest is payable semi-annually.

- Payment currency: US dollars or its equivalent in pesos.

- Conversion right: the notes can be converted at any time at the option of each holder into ordinary shares at a conversion price equivalent to the higher of the result from dividing the nominal value of the Company's shares (Ps. 0.1) by the exchange rate and US\$ 0.0324, which means that each Note is potentially exchangeable for 30.864 shares of Ps. 0.1 par value each.

- Right to collect dividends: the shares underlying the conversion of the negotiable obligations will be entitled to the same right to collect any dividends to be declared after the conversion as the shares outstanding at the time of the conversion.

At June 30, 2007, certain holders of Negotiable Obligations convertible into APSA common shares, have exercised their right to convert them for a total amount of US\$ 2.77 million, with the consequent issuance of common stock of nominal value \$0.1 per share. As of June 30, 2007, the outstanding balance of APSA Convertible Negotiable Obligations amounted to US\$ 47.23 million, of which US\$ 31.74 million correspond to IRSA's holding which is eliminated in the consolidation process.

NOTE 24: ALTO PALERMO - OPTIONS GRANTED IN RELATED COMPANIES

E-Commerce Latina S.A. has granted Consultores Internet Managers Ltd., a Cayman Islands corporation created to act on behalf of Comercializadora Los Altos S.A.'s management (former Altocity.com S.A.) and represented by an independent attorney-in-fact, an irrevocable option to purchase Class B shares of Comercializadora Los Altos S.A. (former Altocity.com S.A) representing 15% of the latter's capital, for an eight-year period beginning on February 26, 2000 at a price equal to the present and future contributions to Comercializadora Los Altos S.A. (former Altocity.com S.A.) plus a rate of 14% per year, capitalizable annually.

On September 29, 2004, at the time of entering the purchase contract of the Mendoza Plaza Shopping S.A. shareholding, APSA subscribed an agreement with Inversiones Falabella Argentina S.A. by which it granted to the latter the irrevocable right for a put-option of its shares in Mendoza Plaza Shopping S.A., which may be exercised until the last working day of October 2008, in the amount of US\$ 3.0 million under the terms specifically established in the contract.

NOTE 26: PROVISION FOR UNEXPIRED CLAIMS AGAINST LLAO LLAO HOLDING S.A.

The company Llao Llao Holding S.A. (in the process of dissolution due to merger with IRSA Inversiones y Representaciones S.A.), predecessor of Llao Llao Resorts S.A. in the operation of the hotel complex Hotel Llao Llao, which was awarded by Resolution No. 1/91 issued by the National Parks Administration, was sued in 1997 by that Administration to obtain collection of the unpaid balance of the additional sale price, in Argentine external debt securities amounting to U.S. dollars 2,870. A ruling of the court of original jurisdiction sustained the claim. That ruling was appealed, and the Court of Appeals confirmed the judgment of the court of original jurisdiction, demanding payment from the company of the mentioned amount in Argentine external debt securities available at the date of the ruling, plus interest accrued through payment, and compensatory and punitive interest and lawyers' fees.

The unpaid balance approved in the court records, carried out by the plaintiff as of June 30, 2001, includes face value bonds of US\$ 4,127, plus compensatory and punitive interest, payable in cash, in a total amount of US\$ 3,799.

On March 2, 2004, such company made a deposit of Ps. 7,191 in Banco de la Ciudad de Buenos Aires in favor of the National Parks Administration and a transfer of Argentine external debt securities class FRB - FRB L+13/16 2005 for a total nominal value of U.S. dollars 4,127, equivalent to Ps. 1,964. The total amount settled on that date was Ps. 9,156.

NOTE 26: (Continued)

The intervening court served notice to the plaintiff of payment made, and on June 30, 2004 the plaintiff presented a writing rejecting that payment, considering it partial settlement of the debt arising from the firm judgement filed in the records of the case, and requested the setting up of a time deposit with the funds paid, automatically renewable every thirty days, until final payment of the total debt.

The Court resolved the matter by considering notice to have been served; as regards the amount due, the plaintiff must conform the claim to current regulations. Until final resolution of the matter, Banco de la Ciudad de Buenos Aires was instructed to appropriate the funds to a renewable time deposit.

In accordance with the legal advisors' report, the plaintiff has yet neither initiated the execution of the sentence nor liquidated its credit.

In line with the matters reported by the lawyers in respect of this suit, the company management recorded a reserve for an amount Ps. 4,561 as of June 30, 2007, which was determined according to the difference between the amount claimed for compensatory and punitive interest of US\$ 3,799 and the amount deposited in the court of Ps. 7,191.

Five of the six plaintiff's lawyers filed a motion in relation to their fees in the case, as they understood that the amount agreed should have been paid in U.S. dollars and not in pesos. In a provisional remedy, due to the unpaid balance carried out in the court records under the claims of two of the lawyers, an order was issued to attach the company's bank current accounts, which occurred in March 2005. As of June 30, 2007, such attached funds amounts to Ps. 861.

The Company's legal advisors challenged the unpaid balance carried out in the court records based on several reasons (payments performed prior to the pesification, unlawful and exorbitant interest, etc.). This case is carried out by two legal advisors. In accordance with the probable contingency reported by the lawyers as of June 30, 2007, the company management has reserved the amount of Ps. 1,021.

An accord and satisfaction agreement was settled with the other three litigant lawyers, by which it was agreed to pay the amount of US\$ 68 to each one of them, in installments, the last becoming due in February 5, 2008. One of these agreements was signed on September 29, 2006 and the other two on October 17, 2006.

The sixth female attorney, who had not appealed the resolution that provided for the conversion into pesos of the attorney's fees, submitted a note to this file arguing that the resolution of the appeal of her colleagues is also applicable in her case and determined the amount in US\$ 95. The Company has challenged the claim in the understanding that the Court resolution is not applicable and that the conversion into pesos is final. The claim is not yet solved. According to the Company's legal advisors, as of June 30, 2007 an allowance of Ps. 155 has been recorded for this claim for adjustment of the referential stabilization coefficient applicable to the credit as from the fourth installment (from a total of twelve installments) equivalent to US\$ 50.

NOTE 27: OPTION FOR THE ACQUISITION OF BENAVIDEZ

On December 3, 2003, Inversora Bolívar S.A. (indirect subsidiary company) and Desarrolladora El Encuentro S.A. (DEESA) signed a revocable option agreement for the acquisition of real property, whereby Inversora Bolívar S.A. granted DEESA an option to acquire land in Benavídez.

In March 2004, DEESA notified Inversora Bolívar S.A. and the latter accepted the exercise of the mentioned option. On May 21, 2004 an exchange deed was signed whereby DEESA agreed to pay US\$ 3,980 to Inversora Bolívar S.A., of which US\$ 980 were paid during the quarter ended June 30, 2004 and the balance of US\$ 3,000 will be paid through the exchange of 110 residential plots already chosen and identified in the option contract mentioned in the first paragraph of this note. Furthermore, through the same act, DEESA set up a first mortgage in favor of Inversora Bolívar S.A. on real property amounting to US\$ 3,000 in guarantee of compliance with the operation and delivered US\$ 500 to Inversora Bolívar S.A. corresponding to a deposit in guarantee of performance on the obligations undertaken. This balance will not accrue interest in favor of DEESA, and it had been accorded that it would be returned as follows: 50% at the time of certification of 50% of the progress of work and the remaining upon certification of 90% of work progress.

On December 26, 2006 Inversora Bolívar subscribed an agreement by which the amount of US\$ 250 was reimbursed to DEESA.

NOTE 28: NUEVAS FRONTERAS S.A.

The Ordinary and Extraordinary Shareholder's Meeting of Nuevas Fronteras S.A. held on August 25, 2006 approved the following resolutions on the stockholders' equity accounts of such Company:

1. To partially reverse the absorption of negative retained earnings as of June 30, 2006 shown in the Adjustment of Common Stock account, in the amount of Ps. 20,076 approved in the Shareholder's Meeting held on September 15, 2003 increasing in such amount the Adjustment of Common Stock account, which after such increase amounted to Ps. 43,879.
2. To capitalize the total balance of the Adjustment of Common Stock account in the amount of Ps. 43,879, increasing the Capital Stock from Ps. 48,125 to Ps. 92,004.
3. To reduce the capital stock in cash, in the amount of Ps. 17,000 and carrying the capital stock from Ps. 92,004 to Ps. 75,004.
4. For the purpose of the point mentioned in the previous paragraph, the Shareholder's Meeting decided to distribute Ps. 17,000 or its equivalent in dollars at an exchange rate of Ps. 3,10 = US\$ 1, according to the share participation of each shareholder and to put the amount at their disposition.
5. To request the Board of Directors of Nuevas Fronteras S.A. to cancel and redeem the existing titles and to replace them, once the pertinent authorities have approved the reduction, with new titles representing the capital stock

6. That section 4 of the by-laws be reformulated on the basis of the capital stock reduction approved.

7. To approve the distribution of the remnant of retained earnings as of June 30, 2006 that, according to the above-mentioned points, totally amounted to Ps. 2,985, allocating Ps. 1,087 to Legal Reserve and Ps. 1,898 to dividends in cash, and arranging its disposal to the shareholders on the date of Shareholder's Meeting.

NOTE 29: DAMAGES IN ALTO AVELLANEDA

On March 5, 2006 there was a fire in the Alto Avellaneda Shopping produced by an electrical failure in one of the stores. Although there were neither injured persons nor casualties, there were serious property damages and the area as well as certain stores had to be closed for repairs. The total damaged area covered 36 stores and represented 15.7% of the total square meters built. Between the months of June and August 2006 this area was reopened and the operation returned to normal.

As of June 30, 2006 APSA has eliminated the proportional part of fixed assets damaged with an estimated book value of Ps 6.3 million.

APSA has insurance coverages against all risks and third party liability to cover this type of disaster. Subsequently to June 30, 2007 the liquidation process related to the reconstruction work was finished. The final indemnification amount obtained for this item amounts to Ps. 6.8 million. As of the filing date of the financial statements, the final liquidation process is pending because of other items in the policies mentioned above, and the amount of Ps. 0.3 million has been collected as early payment.

NOTE 30: CONTRIBUTED LEASEHOLD IMPROVEMENT AND UNREALIZED GAINS

Operadora de Estaciones de Servicios S.A. (O.P.E.S.S.A.) made leasehold improvements on the property of Mendoza Plaza Shopping S.A., which were capitalized as fixed assets, recognizing the related gain over the term of the contract. At the end of this year, the amount of Ps. 180 was pending of accrual.

In March 1996 Village Cinema S.A. opened ten theatres with the multiplex cinema system, with an approximate surface of 4,100 sq. m. This improvement of a building of Mendoza Plaza Shopping S.A., was capitalized as a fixed asset, with a balancing entry in this account, recognizing the depreciation charges and the profits over a 50-year period. At year end, the amount of Ps. 10,502 was pending of accrual. The lease agreement is for a period of 10 years, renewable for 4 consecutive equal periods, at the option of Village Cinema S.A.

Also includes improvements made by third parties that stem from APSA.

On February 2, 1999 Mendoza Plaza Shopping S.A. entered into a contract with Riocruz S.C.S. (C & A Shop), granting the latter a mutual right of way in perpetuity, for valuable consideration for the first ten years and subsequently free of charge. The price agreed for this easement is US\$ 2,926 which was

Through the transference of Class A and B shares of Abril S.A. to the ABRIL Trust, it started the process of transference of the Abril S.A. shareholding to the owners of plots of land of the Club de Campo Abril.

NOTE 32: NEUQUEN PROJECT

The principal asset of Shopping Neuquén S.A. is a plot of land of 50,000 square meters of surface area approximately, in which a commercial centre will be constructed. This project also includes the building of a hyper-market, a hotel and a housing building.

In June 2001 Shopping Neuquén S.A. requested to the Municipality of Neuquén a postponement of the original construction schedule and an authorization to transfer to third parties certain plots in which such land is divided. The Municipality Executive previously rejected this request under Decree No. 1437/02 which also established the expiration of the rights arising from Ordinance 5178, including the loss of any improvement and expenses incurred, having Shopping Neuquén S.A. no right to claim indemnity charges, revoking the buy-sell contracts of the land.

On response to the above-mentioned Decree, Shopping Neuquén S.A. requested on January 21, 2003 that the administrative action be annulled, submitting documentary evidence of the reasons to request such annulment. Shopping Neuquén S.A. also requested the authorization to submit a new schedule of time terms, which would be prepared taking into account the economic context prevailing at that time, as well as reasonable short and medium-term projections. The Municipal Executive rejected the request under Decree No. 585/2003; consequently, on September 25, 2003, Shopping Neuquén S.A. filed an administrative procedural action with the High Court of Neuquén, requesting among other issues, that the Court establish the nullity of Decrees 1437/2002 and 585/2003 issued by the Municipal Executive. On December 21, 2004 Shopping Neuquén was notified the resolution of the High Court of Neuquén declaring the expiration of the administrative procedural action filed by the Shopping Neuquén S.A. against the Municipality of Neuquén. The Company file an extraordinary appeal for the case to be sent to the Argentine Supreme Court, which to date has not been resolved.

Finally, on December 13, 2006, Shopping Neuquén S.A. signed an agreement with both the Municipality and the Province of Neuquén by which the time terms for construction of the commercial and housing enterprising was re-scheduled. Also, Shopping Neuquén S.A. was authorized to transfer to third parties the ownership of the plots of land in which the real estate will be divided with the exception of the land in which the commercial center will be constructed. The agreement referred to above was duly ratified by the Legislative Council of the Municipality of Neuquén and the ordinance issued was promulgated by the Neuquén Municipal Executive on January 12, 2007. The agreement also provides that Shopping Neuquén S.A. will submit, within 120 days after the agreement is signed, a new urban project draft with an adjustment of the environmental impact survey, together with a map of the property subdivision. The Municipality of Neuquén has to approve the project draft within 30 days after presentation. Once the project is approved, within the next 150 days the company will submit to the Municipality the final maps of the works.

At the time these final maps are registered with the Municipality, the works have to begin within a maximum time term of 90 days as from the date of such registration. The first stage of the construction works (this stage including the minimum construction of 21,000 square meters of the commercial center and of 10,000 square meters of the hypermarket) should be finished in a maximum time term of

22 months as from the date in which the construction process was initiated. In case the conditions are not complied with, the Municipality of Neuquén is entitled to rescind the agreement and file the legal actions it deems pertinent.

On March 28, 2007, the Company submitted the new project draft and the extension of the environmental impact survey to the Municipality of Neuquén. On May 10, 2007, the Municipality of Neuquén, before issuing an opinion on the feasibility of the draft project submitted, required certain explanations and made certain comments and recommendations so that the Company responds to such matter within a reasonable time. The Company is currently working in such sense to provide the due reply with the Municipality. In the meantime, the 30-day terms in which the Municipality should declare the feasibility of the new draft project and extension to the environmental impact study as provided by covenant three of the previously mentioned agreement has been suspended.

The previously mentioned agreement is conditioned upon the Municipality declaring the feasibility of the draft project submitted, and upon such decision being accepted by Shopping Neuquen S.A. in the terms and conditions in which it was issued, otherwise the agreement will terminate.

On December 13, 2006 Shopping Neuquén signed with P.Y.E. Sociedad Anónima a preliminary sales contract for plot E-UNO, which is subject to the condition that the acquiring company applies the plot of land exclusively to the construction of a hotel. This plot covers 4,332.04 square meters of surface area and the sale price was established in US\$ 119. The title deed for transferring the property and the possession will take place within the 60 days subsequent to the date of compliance with the agreed conditions. This operation is subject to certain conditions precedent, one of these being the approval by the Municipality of Neuquén of the new draft project that Shopping Neuquén S.A. has to submit in accordance with the terms of the previous paragraph.

NOTE 33: INVESTMENT IN BANCO HIPOTECARIO

Compensation of the National Government to financial entities as a result of the asymmetric pesification

The National Government, through Decree 905, provided for the issuance of National Government Compensating Bonds, to compensate financial entities for the adverse equity effects generated due to the conversion into pesos, under various exchange ratios, of the credits and obligations denominated in foreign currency as established by Law 25,561, Decree 214 and addenda. Decree 905 also provided for covering the negative difference in the net position of foreign currency denominated assets and liabilities resulting from its translation into pesos as established by the above-mentioned regulations, and entitled the Argentine Republic Central Bank to determine the pertinent rules.

After several submissions, Banco Hipotecario S.A. submitted the last presentation as regards sections 28 and 29 and Decree 905- Compensation to Financial Entities, as follows:

- National Government Compensation Bond - US\$ 2,012 (section 29, points b, c and d): compensating bond difference between pesified assets and liabilities at Ps. 1.00 for the rate of exchange difference of Ps. 0,40, translated at Ps. 1.40 per US\$ dollar: US\$ 360,811.

NOTE 33: (Continued)

- National Government Compensation Bond coverage - US\$ 2,012 (section 29 point e). Coverage bond difference between assets and liabilities in US dollars net of the compensating bond: US\$ 832,827.

In September 2002 and October 2005, the Argentine Central Bank credited US\$ 344,050 and US\$ 16,761 in BODEN 2012, respectively, for compensation.

On August 1, 2005, a note was submitted to the Argentine Central Bank stating the acceptance of the number of BODEN verified by the Superintendence of Financial and Exchange Entities.

Finally, in September 2005 began the subscription of Coverage BODEN 2012. As of June 30, 2007 the subscription in BODEN 2012 amounts to US\$ 773,531.

Exposure to the non-financial public sector

Banco Hipotecario S.A. keeps recorded in its financial statements assets with the Non-Financial Public Sector amounting to Ps. 3,071,557. On the other hand, liabilities to the Argentine Central Banks recorded as of June 30, 2007 amount to Ps. 180,590, being the credit balance related to advances to subscribe BODEN 2012 in line with sections 28 and 29 of Decree 905/02.

The net exposure with the Public Sector, without considering liquid assets in accounts authorized by the Argentine Central Bank, amount to Ps. 2,890,967 and Ps. 3,611,130 as of June 30, 2007 and 2006, respectively.

Banco Hipotecario S.A. intends to allocate assets portfolio of the public sector as guarantee for the application of the advancement to finance the coverage bonds subscription, as provided for in section 29 of Decree 905/02.

As from January 1, 2006, the dispositions of point 12 of Communication A 3911 (Communication A 4455) became effective, as regards that the assistance to the Public Sector (average measured) cannot exceed 40% of total Assets of the last day of the previous month. Through Communication A 4546 of July 9, 2006, it was established that as from July 1, 2007, such limit was modified to 35%. The exposure of Banco Hipotecario S.A. to the Public Sector originated in compensations granted by the National Government as a result of year 2002 crisis, principally related to the asymmetric pesification of assets and liabilities. To such extent and considering that assets to the Public Sector exceed the mentioned limit (representing approximately 31% and 41% of Assets as of June 30, 2007 and 2006, respectively). On January 19, 2006, Banco Hipotecario S.A. reported to the Argentine Central Bank that it will gradually decrease the proportion of assets subject to the exposure to the Public Sector, in line with the amortization and cancellation made by the Government of the bonds received for asymmetric compensation in the currency of issuance. To date, no objections to this issue have been received.

NOTE 34: INCORPORATION OF PATAGONIAN INVESTMENT S.A.

On July 21, 2006, the Company incorporated together with Pereiraola S.A a company named Patagonian Investment S.A. with the purpose of strengthening its business in the market. On August 7, 2006, Patagonian Investment S.A was duly registered with the General Inspection of Justice.

On such date, Ritelco S.A and Pereiraola S.A. entered into a shares purchase-sales contract by which Ritelco S.A. acquired 30% of Patagonian Investment S.A. capital stock.

Subsequent to such transaction, the Company holds 70% of Patagonian Investment S.A. capital stock, and Ritelco S.A. the remaining 30%.

NOTE 35: ACQUISITION OF THE PALERMO INVEST S.A. SHAREHOLDING

On October 4, 2006, the Company acquired 26,083,596 common, registered, non-endorsable shares, Class B, nominal value Ps. 1 each, 1 vote per share of Palermo Invest S.A. to GSEM/AP Holdings, L.P., in the total amount of US\$ 18,000, at the date of the contract paying US\$ 9,000. The remaining balance will be paid in three equal and consecutive instalments of US\$ 3,000 due on October 4, 2007, 2008 and 2009 which will accrue 9% annual interest to be paid quarterly.

Simultaneously, a contract on assignment of shares was entered into between the Company (the assignor) and Patagonian Investment S.A. (the assignee), by which it was established that the assignor sells, assigns and transfers to the assignee 1,565,016 common, registered, non-endorsable shares, Class B, nominal value Ps. 1 each, 1 vote per share of Palermo Invest S.A. The price established in the contract is US\$ 1,080, which Patagonian Investment S.A. will pay within 90 days counted as from the date the contract is signed. On January 2, 2007 the payment of US\$ 1,080 was postponed to May 2, 2007 with an annual interest rate of 8% payable at maturity of the contract.

On May 2, 2007, a new extension was signed up to November 2, 2007, maintaining the same conditions as the previous one.

Subsequent to the above-mentioned transactions, the Company owns 98% of Palermo Invest S.A. and Patagonian Investment S.A. the remaining 2%.

NOTE 36: ACQUISITION OF PLOTS OF LAND IN BARILOCHE

On December 14, 2006, the Company signed the title deed for transferring the possession due to the acquisition of four plots of land covering 129,533 square meters of surface area, located in Colonia Nahuel Huapí, on the km 23,500 of Bustillo Avenue in San Carlos de Bariloche, Province of Río Negro.

This real estate is located near to the Hotel Llao Llao Resorts, main offices of the Company's hotel activities.

The total transaction amount was US\$ 7,000 having the Company paid US\$ 4,200 in cash. The remaining US\$ 2,800 was covered by a first degree mortgage on the real estate acquired, payable in 36 monthly, equal and consecutive installments of US\$ 86 each, the first to become due on January 14, 2007 and the rest on the same day of the next months. These installments include capital amortization and interest calculated according to the French system at 7% annual on balance amounts.

NOTE 37: PURCHASE OF E-COMMERCE LATINA S.A. SHARES

On October 24, 2006 APSA subscribed a sale contract of shares with Telefónica Argentina S.A. for acquiring 808,354 common shares issued and outstanding of E-Commerce Latina S.A., and 11 common shares issued and outstanding of Altocity.com S.A. for Ps. 86. This contract was subject to the approval of the National Commission for the Defense of Competitiveness. By the end of December 2006 APSA was notified the approval of such operation and in January 2007 the price agreed was cancelled and the shareholding duly transferred.

Consequently, APSA owns the totality of the shareholding of E-Commerce Latina S.A., owner of Comercializadora Los Altos S.A. (former Altocity.com S.A.).

In April 2007, APSA signed a share purchase and sale agreement with Shopping Alto Palermo S.A., whereby it sells, assigns and transfers to the latter 161,671 shares of E Commerce Latina S.A. (10% of the ownership interest) in the amount of Ps. 17.

NOTE 38: FINANCING AND OCCUPATION AGREEMENT WITH NAI INTERNACIONAL II, INC.

On August 12, 1996 Empalme S.A.I.C.F.A. y G entered into an agreement with NAI INTERNACIONAL II, INC by which the latter loaned up to US\$ 8.2 million for the construction of a cinema complex and a part of the parking lot located in the Córdoba Shopping area, this item being shown in fixed assets. This loan initially accrued a LIBOR interest rate plus 1.5%. Accrual of interests started in April 1999 according to a period of grace provided in the contract clauses.

Related to this loan contract, Empalme S.A.I.C.F.A. y G. signed an occupation agreement of the building and the cinema area in favor of NAI INTERNACIONAL II, INC (hereinafter The Agreement). Occupation of the area was established for a 10 year period as from the date of commencement to be automatically postponed during four additional periods of five years each. It is understood that date of commencement means the date in which the occupant starts exhibiting movies to the public in the cinema building that is October 1997. Under the terms of the Agreement, the amounts owed according to the loan to Empalme S.A.I.C.F.A. y G. are offset against the payments of possession arising from the occupation of NAI INTERNACIONAL II, INC of the building and the cinema area. The Agreement provides that if following the last term mentioned in the previous paragraph there still is any unpaid amount of the loan plus interest, the Agreement will be postponed for a definite term established as the lesser of:

- The time-term necessary to fully pay the loan unpaid amount, or

- Ten (10) years.

Once the last time term has elapsed and if there still is an amount outstanding, the Company will be released of any payment obligation of the remaining portion of the loan plus interest.

On July 1, 2002 NAI INTERNACIONAL II, INC assigned all the rights and obligations arising from the Agreement to NAI INTERNACIONAL II, INC SUCURSAL ARGENTINA. Also, other changes were made to the Agreement, the following being the most significant:

NOTE 38: (Continued)

The debt outstanding was converted into Argentine pesos (Ps. 1 = US\$ 1) in accordance with the disposition of Law No. 25,561 and National Executive Decree No. 214/02. Under sections 4 and 8 of the referred Decree and complementary addenda, the referential stabilization coefficient is to be applied to the above debt outstanding as from February 3, 2002.

All the obligations of Empalme S.A.I.C.F.A. y G. included in the Agreement by which NAI INTERNACIONAL II, INC. is guaranteed the use of the cinema center, as well as those obligations that imply restrictions on the use or the possession of Empalme S.A.I.C.F.A. y G. or third parties, are covered by antichresis in rem right.

The extension agreed on January 1, 2002 was established for suspending the occupation payments owed by the occupant to the owner as well as the payments to account of capital and interests of the owner to the creditor for a six-month period as from the above-mentioned date. These payments will be renewed as from July 2002.

The capital outstanding as of June 30, 2007 and interest accrued at such date arising from the original loan agreement and modifications are recorded in Customer Advances for a total amount of Ps. 16,271.

NOTE 39: RE-STRUCTURING COMERCIALIZADORA LOS ALTOS S.A. (FORMER ALTOCITY.COM S.A.) ACTIVITIES

The Board of Comercializadora Los Altos S.A. (former Altocity.com S.A.) subsidiary of E-Commerce Latina S.A. (See Note 37) decided to re-structure a large part of the company activities by increasing those activities described in the social purpose. On January 6, 2007 the meeting of shareholders complied with such initiative in order to incorporate additional activities allowing to reach an adequate economic and financial equilibrium.

As from March 2007 the sale of products through the Internet was fully discontinued. The reason for this decision is that appropriate scale economies were not obtained.

Over the last few months of the fiscal year ended June 30, 2007, this company started to operate as lease agent, linking APSA and potential tenants of the available space in certain commercial centers.

NOTE 40: ACQUISITION OF THE BUILDING KNOWN AS EX- ESCUELA GOBERNADOR VICENTE DE OLMOS (CITY OF CORDOBA)

In November 2006 APSA participated in a public bidding of the Corporación Inmobiliaria Córdoba S.A. for the sale of the building known as Ex Escuela Gobernador Vicente de Olmos, located in the city of Córdoba. The building covers 5,147 square meters of surface area. A part of the Patio Olmos commercial center is in operation in this building in four commercial plants and two underground parking lots. This commercial center also includes two neighbor buildings with cinemas and a commercial annex connected to the bidding sector and legally related through easement contracts.

NOTE 40: (Continued)

The building is under a concession contract, effective for 40 years term due on February 2032, APSA acting as grantor. The contract grants to the licensee the commercial use of the building and establishes a series of payments in favor of the grantor such series increasing in Ps. 2.51 every 47 months. To the date of these financial statements, the concession is undergoing month 179, the effective canon being Ps. 10.05 and the next increase estimated for month 186.

The offer of APSA for the purchase of the building was Ps. 32.5 million payable as follows: 30%, that is the amount of Ps. 9.8 million, at the time of awarding the bid and the remaining amount of Ps 22.7 million at the date of the signature of the transfer deed document.

On November 20, 2006 APSA was notified that the bidding had been awarded. Consequently, 30% of the price offered according to the terms of the bidding has been duly paid. To the date of these financial statements the transfer deed document is not yet effective.

APSA has been ordered to execute the deed documents on May 15, 2007. The Company answered the referred order indicating that the related deed documents for the purchase and sale agreement and the assignment of the concession agreement, respectively, will be signed provided the Bidding terms are respected.

On January 15, 2007 APSA was notified by the National Commission for the Defense of Competitiveness that two claims had been submitted to the entity, one by a private individual and the other one by the licensee of the commercial center in respect of this operation. On February 1, 2007 APSA responded the claims.

On June 26, 2007, we were notified of a resolution issued by such agency by which it was resolved to open the summary proceedings under case file No. 501:0491102/2006 of the Registry to the Ministry of Economy and Production styled Grupo IRSA et al in re. infringement to Law No 25,156 (C 1163) under section 30 Law No. 25,156.

NOTE 41: NEW COMMERCIAL DEVELOPMENT

In December 2006 APSA entered into a series of agreements for the construction, marketing and management of a new commercial enterprise to be developed in Saavedra, City of Buenos Aires, by Panamerican Mall S.A. (PAMSA) a company recently incorporated in which APSA has a shareholding of 80%.

APSA made capital contributions in PAMSA for Ps. 158.3 million and sold to this company the plot of land located in the streets named Posta, Pico and Anas (bought to Philips Argentina S.A.) in the amount of Ps. 59.9 million. APSA will pay future capital contributions in PAMSA in a maximum amount of US\$ 37.8 million with the purpose of finishing the pertinent construction works and to guarantee the functioning and use of the commercial center.

NOTE 41: (Continued)

The other PAMSA shareholder is Centro Comercial Panamericano S.A. owner of the remaining 20% of the shareholding. This company made capital contribution to PAMSA for Ps. 24.6 million and transferred to PAMSA the ownership of a plot of land located in the streets Melian, Vedia and Arias (limiting the plot of land sold by APSA) in the total amount of Ps. 61.5 million. Centro Comercial Panamericano S.A. will make capital contributions in PAMSA for completing the construction works and starting the commercial center up to a maximum amount of US\$ 9.4 million.

The project includes the construction of a commercial center, a hypermarket, a cinema complex and an office building and/or housing building. This is one of the most significant enterprises to be initiated by APSA.

NOTE 42: ALTO PALERMO S.A.- ISSUANCE OF NOTES

On May 11, 2007, Alto Palermo S.A. issued two new series of notes in the total amount of US\$ 170 million. Series I corresponds to the issuance of US\$ 120 million becoming due on May 11, 2017, which accrue interest at a fixed rate of 7.875% payable semi-annually on May 11 and November 11 of each year as from November 11, 2007. Principal of this Serie will be fully settled at maturity. Series II corresponds to the issuance of Ps.154 million (equivalent to US\$ 50 million). Principal will be settled in seven, equal and consecutive semi-annual installments as from June 11, 2009, which accrue interest at 11% per annum, maturing on June 11, and December 11 of each year as from December 11, 2007.

These issuances correspond to Classes 1 and 2 within the Global Program for Issuing Notes, having a face value of up to US\$ 200,000,000 (the Program) authorized by the National Securities Commission Resolution No. 15614 dated April 19, 2007.

NOTE 43: CAPITALIZATION PROGRAM FOR EXECUTIVE MANAGEMENT

APSA has developed during this year the design of a capitalization program for executive management staff through contributions that will be realized by employees and by the Company.

That plan is addressed to employees selected by APSA with the purpose of keeping them in the company and increasing their total compensation through an extraordinary reward, provided that certain specific conditions are complied with.

Participation and contributions to the Plan are on a voluntary basis. Once the beneficiary has accepted, it will be able to make two types of contributions: a monthly one (base on the salary) and an extraordinary one (based on the bonus). The suggested contribution is up to 2.5% of the monthly salary and up to 15% of the bonus. On the other hand, the APSA contribution will be 200% of the monthly contributions and 300% of the employee's extraordinary contributions.

Funds collected from participants' contributions will initially be send to an independent financial means especially created for such purpose and placed in Argentina as a Common Investment Fund, which has the approval by the National Securities Commission. Such funds will be freely redeemed under the

requirement of the participants. The funds arising from APSA contributions will flow to other independent financial means separated from the previous one.

In the future the participants will have access to 100% of the plan benefits (that is, including APSA contributions made in favor of the financial means especially created) under the circumstances that follow:

Ordinary retirement in line with the applicable working regulations

Total or permanent disability or inability

Death

In case of resignation or discharge without legal justification, the participant will obtain the amounts contributed by the company only if he has participated in the plan during a minimum term of five years, provided certain conditions were complied with.

NOTE 44: ACQUISITION OF LAND IN VICENTE LOPEZ

On January 16, 2007, Patagonian Investment S.A. and Ritelco S.A. acquired 90% and 10%, respectively, of the total shares of the company named Rummaala S.A., the main asset of which is a plot of land located in Vicente Lopez, Province of Buenos Aires. As of June 30, 2007, the Company holds 100% of the ownership interest of Rummaala S.A. as a result of certain transactions performed with Patagonian Investment S.A. and Ritelco S.A. The purchase price was US\$ 21,172, payable as follows: (i) US\$ 4,252 in cash and (ii) by delivering certain units of the building to be constructed in the land owned by Rummaala in the amount of US\$ 16,920, within a 4-year term as from the approval date of the plans by the related authorities or when the facilities be vacated, whichever last occurs.

As security for compliance with the construction of the future building and transfer of the future units, the shares acquired were pledged.

Simultaneously with the former transaction, Rummaala acquired a plot of land adjacent to its own property in the amount of US\$ 15,000, payable as follows: (i) US\$ 500 in cash; (ii) by delivering certain units of buildings Cruceros I and II owned by the Company in the amount of US\$ 1,247 and (iii) by delivering certain units of the building to be constructed in the land acquired in the amount of US\$ 13,253, within a 40-month term considered as from the approval date of the plans by the related authorities or when the facilities be vacated, whichever last occurs. As security for compliance with the construction of the future building and transfer of the future units, the Company's property located at Suipacha 652 was mortgaged.

NOTE 45: MERGER BETWEEN INVERSORA BOLIVAR S.A. Y BALDOVINOS S.A.

On March 23, 2007, the merger agreement between Inversora Bolívar S.A., merging company and Baldovinos S.A, merged company, was entered into to be effective as from January 1, 2007.

Notes to the financial statements

For the fiscal years beginning on July 1, 2006 and 2005

and ended June 30, 2007 and 2006

In thousand of pesos (Note 1)

NOTE 1: ACCOUNTING STANDARDS

Below are the most relevant accounting standards used by the Company to prepare these financial statements:

1.1. Preparation and presentation of financial statements

These financial statements are stated in Argentine pesos and were prepared in accordance with disclosure and valuation criteria contained in the Technical Resolutions issued by the Argentine Federation of Professional Councils in Economic Sciences, approved with certain amendments by the Professional Council in Economic Sciences of the Autonomous City of Buenos Aires, in accordance with the resolutions issued by the National Securities Commission.

Unification of professional accounting standards

The National Securities Commission has issued General Resolutions 485 and 487 on December 29, 2005 and January 26, 2006, respectively.

Such resolutions have adopted, with certain modifications, the new accounting standards recently issued by the Professional Council in Economic Sciences of the Autonomous City of Buenos Aires through its Resolution CD 93/2005. These standards are to be obligatorily applied for fiscal years or interim periods corresponding to fiscal years started as from January 1, 2006.

The principal change that the application of these new standards has generated relates to the treatment of the adjustment for inflation in calculating the deferred tax which can be taken as a temporary difference, according to the Company's criteria. At present the adjustment for inflation is considered as a permanent difference in the deferred income tax calculation. The Company in accordance with the new accounting standards has decided not to recognize the deferred liability generated by the effect of the adjustment for inflation on the fixed assets and other non-monetary assets. The estimated effect as of June 30, 2007 that the adoption of the new criteria would have generated would be a decrease in shareholders' equity of approximately Ps. 165.3 millions, which should be recorded in the income statement accounts of previous years for Ps. 188.4 million (loss) and in the income statement accounts of the period for Ps. 23.1 million (gain).

In accordance with the Company's management the potential effect that the new accounting standards would have in its subsidiary Banco Hipotecario S.A. would not be significant on the amount of the Company's investment.

Table of Contents**IRSA Inversiones y Representaciones Sociedad Anónima****Notes to the financial statements (Continued)****NOTE 1:** (Continued)

1.1. (Continued)

The above-mentioned liability would probably turn to the previous position according to the detail that follows:

Item	Up to 12 months	From 1 to 2 years	From 2 to 3 years	Over 3 years	Total
Amount in millions	9.9	9.8	9.8	135.8	165.3

1.2. Use of estimates

The preparation of financial statements requires management, at a specific date, to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities as of the date of the financial statements, and the reported amounts of revenues and expenses for the year. Company's Management makes estimates for example when accounting for allowance for doubtful accounts, depreciation, amortization, impairment of long-lived assets, income taxes and contingencies. Future actual results could differ from the estimates and assumptions made at the date of these financial statements.

1.3. Recognition of the effects of inflation

The financial statements have been prepared in constant currency, reflecting the overall effects of inflation through August 31, 1995. From that date and until December 31, 2001 the Company discontinued the restatement of the financial statements due to a period of monetary stability. From January 1, 2002 up to February 28, 2003 the effects of inflation were recognized due to the existence of an inflationary period. As from that date, the restatement of the financial statements was discontinued.

This criterion is not in line with current professional accounting standards, which establish that the financial statements should have been restated through September 30, 2003. However, due to the low level of inflation rates during the period from March to September 2003, this deviation has not had a material effect on the financial statements taken as a whole.

The rate used for restatement of items in these financial statements is the domestic wholesale price index published by the National Institute of Statistics and Census.

1.4. Comparative information

Balances items at June 30, 2006 shown in these financial statements for comparative purposes arise from the audited annual financial statements corresponding to the year then ended.

Certain amounts in the financial statements as of June 30, 2006 were reclassified for disclosure on a comparative basis with those for the fiscal year ended June 30, 2007.

1.5. Valuation criteria

a. Cash and banks

Cash on hand has been valued at face value.

b. Foreign currency assets and liabilities

Foreign currency assets and liabilities were valued at each year-end exchange rates.

Operations denominated in foreign currency are converted into pesos at the rates of exchange in effect at the date of settlement of the operation.

c. Current investments

Current investments in debt securities and mutual funds were valued at their net realization value.

d. Mortgages and lease receivables and trade accounts payable

Mortgages and lease receivables and trade accounts payable have been valued at the price applicable to spot operations at the time of the transaction plus interest and implicit financial components accrued at the internal rate of return determined at that moment.

e. Financial receivables and liabilities

Financial receivables and payables have been valued at the amount deposited and collected, respectively, net of operating costs, plus financial results accrued based on the internal rate of return estimated at that time.

f. Other receivables and payables

Sundry current assets and liabilities have been valued at face value plus the financial results accrued at the closing of the corresponding year.

Sundry receivables and payables (value added tax, deposits in guarantee, and accounts receivable in trust) disclosed under other current and other non-current receivables and payables, were valued based on the best estimate of the amount receivable and payable, respectively, discounted at an interest rate that reflect the value-time of money and the estimate specific transaction risks at the time of incorporation to assets and liabilities, respectively.

As established by the regulations of the National Securities Commission, deferred tax assets and liabilities and asset tax have not been discounted.

f. (Continued)

Liabilities in kind:

Liabilities in kind corresponding to obligations to deliver units to be built are value at the higher of amounts received or the estimated cost of building of the units plus additional costs to transfer the assets to the creditor.

g. **Balances corresponding to financial transactions and sundry receivables and payables with related parties**

Receivables and payables with related parties generated by financial transactions and other sundry transactions were valued in accordance with the terms agreed by the parties.

h. **Inventories**

A property is classified as inventories upon determination by the Board of Directors that the property is to be marketed for sale in the normal course of business over the next several years.

Properties classified as inventories have been valued at acquisition or construction cost restated as mentioned in Note 1.3., or estimated net realizable value, whichever is lower. As of June 30, 2006 the Company maintained allowances for impairment of certain inventories for those ones which market value is lower than cost (See Exhibit E). Costs include land and land improvements, direct construction costs, construction overhead costs, interest on indebtedness and real estate taxes. During the fiscal year ended June 30, 2006 interest costs of the property called San Martín de Tours were capitalized for Ps. 222. In the fiscal year ended June 30, 2007 there were no items charged to assets.

Inventories on which advance payments that establish price have been received, and the operation's contract terms and conditions assure that the sale will be effectively accomplished and that the income will be realized, are valued at its fair market value. Profits arising from such valuation are shown in the Gain from valuation of inventories at fair market value caption of the Statement of Income.

Properties held for sale are classified as current or non-current based on the estimated date of sale and the time at which the related receivable is expected to be collected by the Company.

The amount recorded in inventories, net of allowances set up, does not exceed their estimated recoverable value at the end of the year.

Credits in kind:

The Company has credits in kinds related to rights on the reception of certain units.

The units relating to the buildings called Terreno Caballito , and Dique III have been valued according to the accounting measuring standards corresponding to inventories receivable and there have been disclosed under Inventories .

i. **Non-current investments**

Investments in debt securities:

Investments in debt securities were valued based on the best estimate of the discounted amount receivable applying the corresponding internal rate of return estimated at the time of incorporation to assets, as the Company will hold them to maturity. The value thus obtained does not exceed the respective estimated recoverable value at the end of the year.

Investments in subsidiaries and related companies:

Current investments in subsidiaries and related companies detailed in Exhibit C, have been valued by using the equity method of accounting based on the financial statements at June 30, 2007 issued by them. The accounting standards used by the subsidiaries to prepare their financial statements are the same as those used by the Company. The accounting standards used by the related companies to prepare their financial statements are those currently in effect.

The financial statements of Banco Hipotecario S.A. and Banco de Crédito y Securitización S.A. are prepared in accordance with the BCRA standards. For the purpose of valuation of the investment in the Company adjustments necessary to adequate the financial statements to the professional accounting standards have been considered.

This item also includes the lower or higher value paid for the purchase of shares in subsidiaries and related companies assignable to the assets acquired, and goodwill related to the subsidiary Alto Palermo S.A., Palermo Invest S.A. and the related company, Banco Hipotecario S.A.

The Company has an important investment in Banco Hipotecario S.A. This investment is valued according to the equity method due to the significant

influence of the economic group on the decisions of Banco Hipotecario S.A. and to the intention of keeping said investment on a permanent basis.

In accordance with the regulations of the BCRA and the contracts signed as a result of Banco Hipotecario S.A.'s financial debt restructuring process, there are certain restrictions on the distribution of profits by Banco Hipotecario S.A. to the Company.

Corporations purchased by the Company were recorded in line with the acquisition method set forth in Technical Resolution No. 18. All assets and liabilities acquired to third independent parties were adjusted to show their fair value. The Company identified the assets and liabilities acquired, including intangible assets like leasing contracts acquired in higher or lesser conditions to market conditions, costs included in entering into current lease contracts (the last being the market cost that the Company avoids paying for acquiring leasing contracts in operation) and intangible value of relations with customers. The process of identification of assets and liabilities and the determination of the price paid is a matter that requires complex judgments and significant estimates.

The Company used the information contained in valuations estimated by independent appraisers as primary base for assigning the price paid for the land and the building acquired. The amounts assigned to all the other assets and liabilities were based on independent valuations or in the Company's own analysis on comparable assets and liabilities. The current value of tangible assets acquired considers the property value as if it were empty.

Under the terms of Technical Resolution No. 21, taking into account that the market value of the tangible and intangible assets and liabilities identified exceed the price paid, the intangible assets acquired were not recognized as they would give rise to an increase of the negative goodwill at the time of purchase.

Certificates of participation in IRSA I financial trust:

The certificates of participation in IRSA I financial trust have been valued at the amount resulting from apportioning the participation certificate holding to the trust assets.

Undeveloped parcels of lands:

The Company acquires undeveloped land in order to provide an adequate and well-located supply for its residential and office building operations. The Company's strategy for land acquisition and development is dictated by specific market conditions where the Company conducts its operations.

Land held for development and sale and improvements are stated at cost restated as mentioned in Note 1.3. or market value, whichever is lower. The Company maintains allowances for impairment of certain parcels of undeveloped land for which their market value is lower than cost. (See Exhibit E).

Land and land improvements are transferred to inventories or fixed assets when construction commences or their trade is decided.

The values thus obtained, net of the allowances recorded, do not exceed their respective estimated recoverable values at the end of the year.

j. **Fixed assets**

Fixed assets comprise primarily of rental properties and other property and equipment held for use by the Company.

Fixed assets value, net of allowances set up, does not exceed estimated recoverable value at the end of the year.

Rental properties

Rental properties are carried at acquisition and/or construction cost, restated as mentioned in Note 1.3., less accumulated depreciation and allowance for impairment at the end of the year. The Company capitalizes accrued interest costs associated with long-term construction projects. However, during the fiscal years ended June 30, 2007 and 2006 no interest costs were capitalized, as the Company considered that there are no works in progress.

Accumulated depreciation is computed under the straight-line method over the estimated useful lives of each asset. Expenditures for ordinary maintenance and repairs are charged to results in the period incurred.

The Company has allowances for impairment of certain rental properties as disclosed in Exhibit A. Increases and decreases of such allowances are disclosed in Exhibit E.

Significant renovations and improvements, which improve or extend the useful life of the asset are capitalized and depreciated over its estimated

j. (Continued)

remaining useful life. At the time depreciable assets are retired or otherwise disposed of, the cost and the accumulated depreciation of the assets are eliminated from the accounts and the resulting gain or loss is disclosed in the statement of income.

Other properties and equipment

Other properties and equipment properties are carried at cost, restated as mentioned in Note 1.3., less accumulated depreciation at the end of the year. Accumulated depreciation is computed under the straight-line method over the estimated useful lives of the assets, as specified below:

Asset	Estimated useful life (years)
Leasehold improvements	On contract basis
Furniture and fixtures	5
Machinery, equipment and computer equipment	3
Vehicles	5

The cost of maintenance and repairs is charged to expense as incurred.

The cost of significant renewals and improvements are added to the carrying amount of the respective assets. When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts.

k. **Deferred financing cost**

Expenses incurred in connection with the issuance of negotiable obligations and proceeds of loans are amortized over the life of the related issuances. In the case of redemption of these notes, the related expenses are amortized using the accelerated depreciation method.

Amortization has been recorded under Financial results, net in the statements of income as a greater financing expense.

l. **Customer advances**

Customer advances represent payments received in advance in connection with the sale and rent of properties.

m. **Income tax**

Table of Contents

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the financial statements (Continued)

NOTE 1: (Continued)

1.5. (Continued)

m. (Continued)

The Company has recognized the charge for income tax by the deferred tax liability method, recognizing timing differences between measurements of accounting and tax assets and liabilities (see Note 14).

To determine deferred assets and liabilities, the tax rate expected to be in effect at the time of reversal or use has been applied to timing differences identified and tax loss carry forwards, considering the legal regulations approved at the date of issuance of these financial statements.

n. Asset tax

The Company calculates asset tax by applying the current 1% rate on computable assets at the end of the year. This tax complements income tax. The Company's tax obligation in each period will coincide with the higher of the two taxes. However, if asset tax exceeds income tax in a

given period, that amount in excess will be computable as payment on account of income tax arising in any of the following ten years.

At June 30, 2007, the Company has estimated the asset tax, recognizing under Other receivables the amount estimated to be offset as payment on account of income tax in future years in accordance with current regulations, and expensing the remaining balance.

o. Allowances and Provisions

Allowance for doubtful accounts: the Company provides for losses relating to mortgages, lease and other accounts receivable. The allowance for losses is recognized when, based on current information and events, it is probable that the Company will be unable to collect all amounts due according to the terms of the agreements. The allowance is determined on a one-by-one basis considering the present value of expected future cash flows. While management uses the information available to make assessments, future adjustments to the allowance may be necessary if future economic conditions differ substantially from the assumptions used in making the assessments. Management has considered all events and/or

transactions that are subject to reasonable and normal methods of estimations, and the financial statements reflect that consideration.

For impairment of assets: the Company regularly assesses its non-current assets for recoverability whenever there is an indication that the carrying amount of an asset may exceed its recoverable value.

o. (Continued)

In such cases, the Company has estimated the recoverable value of rental properties based on their economic use value, which is determined based on estimated future cash flows discounted. For the rest of the assets (inventories and undeveloped parcels of land) the Company makes a comparison with market values based on values of comparable properties. If the recoverable value of assets, which had been impaired in prior years, increases, the Company record the corresponding reversals of impairment loss as required by accounting standards.

Increases and decreases of allowances for impairment of assets during the fiscal years ended June 30, 2007 and 2006 are detailed in Exhibit E.

For lawsuits: the Company has certain contingent liabilities with respect to existing or potential claims, lawsuits and other proceedings, including those involving labor and other matters. The Company accrues liabilities when it is probable that future costs will be incurred and such costs can be reasonably estimated. Such accruals are based on developments to date, the Company's estimates of the outcomes of these matters and the Company's lawyers' experience in contesting, litigating and settling other matters.

As the scope of the liabilities becomes better defined, there may be changes in the estimates of future costs, which could have a effect on the Company's future results of operations and financial condition or liquidity.

At the date of issuance of these financial statements, Management understands that there are no elements to foresee other potential contingencies having a negative impact on these financial statements.

p. Shareholders' equity accounts

Amounts of shareholders' equity accounts have been restated following the guidelines detailed in Note 1.3. until February 28, 2003. Subsequent movements are stated in the currency of the month to which they correspond.

Common stock account was stated at historical nominal value. The difference between value stated in constant currency, following the guidelines detailed in Note 1.3., and historical nominal value is shown

q. Results for the period

The results for the year are shown as follows:

Amounts included in Income Statement are shown in currency of the month to which they correspond.

Charges for assets consumed (fixed asset depreciation, intangible asset amortization and cost of sales) were determined based on the values recorded for such assets.

Results from investments in subsidiary and affiliated companies was calculated under the equity method, by applying the percentage of the Company's equity interest to the results of such companies, with the adjustments for application of Technical Resolution 21.

r. Advertising expenses

The Company generally charges the advertising and publicity expenses to results when they are incurred. Advertising and promotion expenses were approximately Ps. 1,002 and Ps. 268 for the fiscal year ended June 30, 2007 and 2006, respectively.

s. Pension information

The Company does not maintain any pension plans. Argentine laws provide for pension benefits to be paid to retired employees from government pension plans and/or privately managed funds plan to which employees may elect to contribute.

t. Derivative financial instruments

The Company has entered into an interest rate swap agreement in order to hedge the risks of fluctuation in interest rates related to its financial debt which accrues interest at variable rate. See Note 16 for details.

u. Revenue recognition

u.1. Sales of properties

The Company records revenue from the sale of properties when all of the following criteria are met:

the sale has been consummated;

there is sufficient evidence to demonstrate the buyer's ability and commitment to pay for the property;

the Company's receivable is not subject to future subordination; and

the Company has transferred the property to the buyer.

The Company uses the percentage-of-completion method of accounting with respect to sales of development properties under construction. Under this method, revenue is recognized based on the ratio of costs incurred to total estimated costs according to budgeted costs. The Company does not commence revenue and cost recognition until such time as the decision to proceed with the project is made and construction activities have begun. The percentage-of-completion method of accounting requires the Company's management to prepare budgeted costs in connection with sales of properties/units. All changes to estimated costs of completion are incorporated into revised estimates during the contract period.

u.2. Leases

Revenues from leases are recognized on a straight line basis over the life of the related lease contracts.

v. Cash and cash equivalents

The Company considers, for cash flow purposes, all highly liquid investments with original maturities of three months or less, consisting primarily of mutual funds, as cash equivalents.

w. Monetary assets and liabilities

Monetary assets and liabilities are stated at their face value plus or minus the related financial gain or loss.

x. Vacation expenses

Vacation expenses are fully accrued in the period in which the employee renders services in order to be able to take such vacation.

(1) Corresponds to an unsecured loan for a total amount of US\$ 51 million, which falls due on November 20, 2009, with the principal being amortized in 20 quarterly installments with a two-year grace period. US\$ 35 million of the principal accrue interest at the LIBO rate over three months plus 200 basis points, and US\$ 16 million accrue interest at a fixed rate that is progressively increased. On July 25, 2003 the Company redeemed the mentioned US\$ 16 million for US\$ 10.9 million. In addition, on March 17, 2004, the Company redeemed US\$ 12 million for a total amount of US\$ 8.6 million. Additionally, the Company settled ten installments amounting to US\$ 6.9 million. Therefore, at June 30, 2007 the balance of principal amounts to US\$ 13.4 million which matches the US\$ 16.1 million discounted considering a market rate equivalent to 8% per year.

The terms of the loan require the Company to maintain certain financial ratios and conditions, specific debt/equity ratios, moreover, they also restrict certain investments, the making of payments, the procurement of new loans and the sale of certain assets and other capital investments.

(2) Corresponds to Negotiable Obligations secured by the assets described in Note 12.a. for US\$ 37.4 million, which mature on November 20, 2009 with partial periodic amortization, and have quarterly interest payments at the LIBO rate over three months plus 200 basis points. At this date, the Company has settled ten installments amounting to US\$ 11.2 million. Consequently, at June 30, 2007 the Company recorded a total balance of US\$ 21.7 million, which corresponds to US\$ 26.1 million discounted at a market rate equivalent to 8% per year.

The terms of the loan require the Company to maintain certain financial ratios and conditions, specific debt/equity ratios; they also restrict certain investments, the making of payments, the procurement of new loans and the sale of certain assets and other capital investments.

(3) According to Note 13, these relate to convertible negotiable obligations (CNB) issued for a total amount of US\$ 100 million, which at period end amounted to US\$ 18.9 million, net of issue expenses amounting to Ps. 0.04 million. Part of convertible negotiable obligations are held by shareholders and related parties. (See Note 10).

(4) Corresponds to the Negotiable Obligations described in Note 25, in the amount of US\$ 150 million that become due on February 2, 2017, accruing interest on a six-month basis at a fixed rate of 8.5% a year, net of issuance expenses in the amount of \$8.5 million.

The terms and conditions of the loan require the Company to maintain certain ratios and financial conditions, as well as certain indebtedness ratios and levels.

years, at a fixed interest rate of 6% to 12% per year, payable semi- annually in arrears.
- b) Approving a subscription option for the CNO holders to subscribe common shares of the company at 1 (one) share per Ps.1 (one peso) of CNO face value, paying in cash Ps.1 (pesos one) as subscription price, during 15 days after the conversion term has expired, including the corresponding capital increase.
- c) Suppressing the preferential subscription and accretion rights, or reducing the term to exercise the preference, as provided by section 12 of the Negotiable Obligations Law and other applicable regulations.
- d) Amending Article nine (9) of the bylaws to partially adapt its contents to the market circumstances arising from the amendment approved, by replacing 1) the 20% percentage referred to in the amendment to the bylaws, by the percentage indicated in Decree 677/01, i.e., 35%; and 2) eliminating the negotiable obligations or other convertible debt securities, as well as the warrants, from the calculation mentioned in Article nine (9) of the Bylaws.

The public offering and listing of the above-mentioned negotiable obligations was approved by Resolution No. 14,316 of the National Securities Commission dated September 24, 2002 and the Buenos Aires Stock Exchange, authorizing the issuance for up to US\$100,000 of securities consisting of negotiable obligations convertible into common shares, bearing interest at an annual rate of 8% and falling due in 2007 and which, at the time of their conversion, provide the right to options to subscribe 100,000,000 common shares (warrants).

As a result of the distribution of 4,587,285 treasury stock, the Company has adjusted the conversion price of its Convertible Negotiable Obligations and the exercise price of the warrants in accordance with the terms of the issue. Thus, the conversion price of the Negotiable Obligations fell from US\$ 0.5571 to US\$ 0.54505 and the exercise price of the warrants dropped from US\$ 0.6686 to US\$0.6541. Said adjustment came into force as from December 20, 2002.

The holder is entitled to exchange each Negotiable Obligation issued by IRSA for 1.8347 shares (0.1835 GDS) and has an option to purchase the same number of shares at the exercise price set for the warrant.

Convertible Negotiable Obligations and options will fall due on November 14, 2007.

NOTE 15: ADCOUISION OF THE DOCK DEL PLATA BUILDING

On June 2, 2005 a contract called Credit Default Swap was entered into with Credit Suisse International (CSI, formerly Credit Suisse First Boston) by which the Company is committed to acquire in specific circumstances for US\$ 10.0 million, a loan with a mortgage guarantee on an office building in the Buenos Aires City. This loan has a nominal value of US\$ 12,812, such entity being the creditor. To guarantee the fulfillment of said contract, the Company transferred as guaranty the amount of US\$ 4.0 million.

This contract was rescinded on November 15, 2006 and the Company received from CSI the amount of US\$ 4.0 million, which had been previously transferred as guarantee for such transaction. The Company recorded this amount to the partial payment of the purchase price that, added to the transference of US\$ 4.8 million, completed the total price of US\$ 8.8 million paid for the purchase of the office building covering 8,900 square meters of surface area called Dock del Plata in Puerto Madero, City of Buenos Aires. The title deed was signed on the same day.

Through the payment of these amounts the mortgage on these units became extinguished and the Company acquired them free of mortgage.

NOTE 16: SWAP OF INTEREST RATES WITH DEUTSCHE BANK AG

The Company agreed with the Deutsche Bank AG on June 16, 2005 two LIBO rate swap arrangements aiming at covering the risk of increased interest rates that the Company must pay on the unsecured loan and the non-convertible secured negotiable obligations (both to be due in November 2009, which at June 30, 2005 had a capital balance of US\$ 21,850 and US\$ 35,511 respectively, and which accrue a variable interest rate equivalent to the three month LIBO rate added 200 basic points).

By means of both contracts, the Company was compromised to pay every three months to the Deutsche Bank AG cash flows calculated on the basis of a fixed rate of 4.27% on the balances of each debt. In turn, the Company received quarterly payments calculated on the basis of the three-month LIBO rate on balances established at the beginning of each quarter.

The purpose of such swap arrangements was to fully cover the risk of interest rates of the above-mentioned debts. The amortization scheme, the dates for payment of interest and principal, the dates for determining interest rates, the referential index for calculating interests and the calculation basis for the interest agreed in both swap contracts totally coincided with the issuance conditions of each one of the mentioned liabilities.

On October 24, 2005 the Company fully cancelled in advance both swap arrangements. Due to the increase shown by the temporary structure of the interest rates, a gain of US\$ 402 was obtained for such cancellations.

NOTE 17: SHARE ACQUISITION IN CANTERAS NATAL CRESPO S.A.

As of September 30, 2006 the Company had acquired to Ecipsa Holding S.A. (ECIPSA), 43.43% of the shares of Canteras Natal Crespo S.A. Such shares have equal percentage of votes. The total amount agreed for such purchase was US\$1,549.

On December 7, 2006 the Company acquired from minority shareholders the additional 11.59% of the shares and votes in the total agreed price of US\$ 598, increasing the Company shareholding in Canteras Natal Crespo S.A. to 55.02%

Together with the above action mentioned, a commitment to purchase shares subject to condition was established with a minority shareholder. By means of such

commitment, subject to compliance with one condition precedent, the seller was obligated to sell to the Company and the Company was obligated to purchase an additional 0.91% for US\$ 47, which raised the shareholding to 55.93%. Having the condition precedent been complied with, the share purchase agreement was signed on January 4, 2007.

On April 27, 2007, the Company sold 5.93% of the shares to ECIPSA in a total amount of US\$ 312, decreasing the Company shareholding in Canteras Natal Crespo S.A. to 50%.

Canteras Natal Crespo S.A. is a company located in the Province of Cordoba. The main activity of Canteras Natal Crespo S.A. is the development of own or third parties' plots, countries, sale or rent of plots of land, sale of arids, real estate and house-building.

NOTE 18: SALE IN OWNERSHIP OF BANCO HIPOTECARIO S.A.

On August 9, 2005, the Company sold 2,305,122 shares of Banco Hipotecario S.A. to Buenos Aires Trade and Finance Center S.A. (at that moment 100% subsidiary of the Company) in a total amount of US\$ 10,540 (equivalent to a market value of US\$ 4.57 per share) representing Ps. 30,281.

The change of the nominal value of the Banco Hipotecario S.A. share from pesos 10 to pesos 1 became effective on February 15, 2007.

On June 15, 2007 the Company sold 26,410,150 shares of Banco Hipotecario S.A. to Inversora Bolivar S.A. in the price of Ps. 3.09 per share (market value) the amount of the transaction being Ps. 81,607.

Inversora Bolivar should cancel the transaction in four-year term with an interest rate of 11% yearly.

As of June 30, 2007 the holding in Banco Hipotecario S.A. amounts to 75,000,000 shares.

NOTE 19: MERGER PROCEDURES TO TAKE-OVER BUENOS AIRES TRADE AND FINANCE CENTER S.A.

The Company completed merger procedures to take-over its subsidiary company Buenos Aires Trade and Finance Center S.A. The previous merger agreement was subscribed on September 21, 2005 and became effective on October 1, 2005. Consequently, as from October 1, 2005 rights and obligations were unified, and as from December 1, 2005 both companies' accountings were merged.

This merger has been duly registered with the General Inspection of Justice on January 5, 2007 under number 306 of book 34 of Share Corporations.

NOTE 20: DIOQUE III: BARTER, OPTION CONTRACT AND PRELIMINARY SALE CONTRACT

On September 7, 2004, Buenos Aires Trade and Finance Center S.A. (at that time 100% subsidiary of the Company) and DYPSA, Desarrollos y Proyectos Sociedad Anónima signed a barter and option contract whereby DYPSA proposed to acquire plots 1c) and 1e) belonging to the Company valued at US\$ 8,030 and US\$ 10,800, respectively, for the construction at its own expense and under its own responsibility of two housing buildings of 37 and 40 floors, parking lots and individual storage spaces. As consideration for the exchange of plot 1c), DYPSA agreed to deliver housing units, parking lots and storage spaces within a maximum term of 36 months, representing in the aggregate 28.50% of the housing unit area built in the first building.

Furthermore, DYPSA had an option to acquire plot 1e) mentioned above through an exchange, within a maximum term of 548 days counted as from the signing of the deed of conveyance of plot 1c) and subject to the progress of work agreed between the parties. In this case, DYPSA would agree to deliver within a maximum term of 36 months housing units, individual storage spaces and parking lots representing in the aggregate 31.50% of the housing unit area built in the second building.

These barter transactions were subject to the approval of the project by Corporación Antiguo Puerto Madero (CAPM), which resolved favorably at the closing of the period end as of December 31, 2004.

On November 25, 2004 the deed of conveyance of title of the plot 1c) in favor of DYPSA was signed, establishing the consideration in kind and at the same time the option to acquire in barter plot 1e) by such company as explained in the first paragraph above. As a guaranty for this transaction, DYPSA set up a first degree mortgage for US\$ 8,030 on plot 1c).

In May 2006, DYPSA accepted the option to acquire on an exchange basis, parcel 1e), and on June 28, 2006 the transfer deed was signed in a value of US\$ 13,530. As guarantee for this transaction, DYPSA furnished a first degree mortgage in the amount of US\$ 10,800 on plot 1e).

On March 29, 2007, DYPSA transferred to the Company the possession of all of the individual storage spaces and parking lots in a total amount of US\$ 487, corresponding to the barter for the plot 1 c).

On May 18, 2005 Buenos Aires Trade and Finance Center S.A. approved the offer of DYPSA, Desarrollos y Proyectos Sociedad Anónima, made during such period and signed the preliminary sales contract for the plot of parcel 1d), owned by said company. The amount of US\$ 2,150 was delivered and DYPSA will pay the balance of US\$ 6,350 at the time of signing the pertinent deed and subsequent transfer of property, scheduled originally for November 17, 2005.

NOTE 20: (Continued)

After several postponements, on January 2006, DYPSA paid in advance to the Company the amount of US\$ 1,000, remaining the price balance of US\$ 5,350 to be paid in the new deed date and final transfer.

On July 17, 2006 the balance of price was received and the transfer deed was signed together with the taking possession of plot 1d) with Alvear Palace Hotel S.A. and Desarrollos Premium Plus S.A.

NOTE 21: TERRENOS CABALLITO BARTER CONTRACT

On May 4, 2006 Koad S.A. (Koad) and the Company entered into a barter agreement for US\$ 7,500 by which the Company sold to Koad the plot of land number 36 of Terrenos de Caballito for Koad to build at its exclusive charge, expense and responsibility a building group called Caballito Nuevo. As consideration Koad paid the Company the amount of US\$ 50 and the balance of US\$ 7,450 will be cancelled by delivering 118 apartments and 55 parking units within the maximum term of 1,188 days. The final number of units to be received will depend of the effective date in which Koad will deliver the units, as there are different bonuses according to the date of the delivery.

Furthermore, Koad encumbered with privilege mortgage in first degree in favor of the Company the building subject to this transaction in the amount of US\$ 7,450 and two insurance for US\$ 2,000 and US\$ 500.

NOTE 22: INCORPORATION OF PATAGONIAN INVESTMENT S.A.

On July 21, 2006, the Company incorporated Patagonian Investment S.A. with the purpose of strengthening its business in the market. On August 7, 2006, Patagonian Investment S.A was duly registered with the General Inspection of Justice.

The Company directly owns 70% of the Capital Stock of Patagonian Investment S.A. (See Note 34 to the Consolidated Financial Statements).

NOTE 23: PURCHASE OPTION OF EDIFICIO REPUBLICA

On December 22, 2006 the Company signed with Banco Comafi S.A., acting as trustee of Fideicomiso República, a purchase and irrevocable sale option contract for US\$ 74,000 regarding a building located in the City of Buenos Aires, known as Edificio Tucumán 1 República, recently acquired by the trustee in a public auction. The exercise of this option is subject to certain precedent conditions which occurrence will conduce to the final ownership of the trustee in respect to the building.

The option has to be exercised within 60 days from compliance with the referred condition precedent. The title deed for transferring ownership has to be signed within 90 days subsequent to exercising the option, at the same time, 50% of the purchase

price will be paid and the balance (the remaining 50%) will be paid in five annual, equal and consecutive installments at an annual, fixed interest rate of 8% payable biannually. The balance has been secured by a mortgage set up on the same building. On the other hand, and as indicated, the option includes a trustee's sales option subject to the same terms and conditions described above.

NOTE 24: ACQUISITION OFFER OF THE BOUCHARD BUILDING

On December 28, 2006 the Company submitted in commission an offer to Banco Río de la Plata S.A. -the latter as trustee of Fideicomiso Financiero Edificio La Nación - to acquire a building located in Bouchard 551/557 in the City of Buenos Aires, covering 33,324 square meters of surface area, totally leased. The offer, which was accepted by the seller the same day of his presentation, consisted in the acquisition by the Company of the building and the transferring to the Company of all the lease contracts effective at the time of acquisition. The price offered by the Company was US\$ 84,100 the amount of US\$ 15,000 having been paid at the time of the offer.

On March 15, 2007, the Company was granted the title deed and the possession of the premises and the price balance in the amount of US\$ 69,100 was paid. After the title deed was granted, an inquiry was submitted to the National Commission for the Defense of Competitiveness (CNDC) with regard to the need for reporting such transaction as economic concentration. The CNDC resolution issued in connection with the referred inquiry was appealed at courts by Irsa Inversiones y Representaciones Sociedad Anónima and at present, the related decision is pending.

NOTE 25: ISSUANCE OF NEGOTIABLE OBLIGATIONS

On February 2, 2007 IRSA Inversiones y Representaciones S.A. issued negotiable obligations for US\$ 150 million to become due in February 2017. Such obligations accrue an annual fixed interest rate of 8.5%, payable biannually on February 2 and August 2 as from August 2, 2007. The capital will be fully paid at maturity. Citigroup and Credit Suisse Securities acted as principal placement agents of the transaction.

The issue referred to above is Class No. 1 under the framework of the Global Program for Issuing Negotiable Obligations in a nominal value of up to US\$ 200,000,000 (the Program), authorized by the National Securities Commission by means of Resolutions 15,529 of December 7, 2006 and 15,537 of December 21, 2006.

The issuance of these negotiable obligations was approved by the Shareholders' Meeting held on October 31, 2006 and by the Board's Minutes of Meeting of November 22, 2006.

Report of Independent Auditors

To the Shareholders, President and Board of Directors of

IRSA Inversiones y Representaciones Sociedad Anónima

C.U.I.T.: 30-52532274-9

1. We have audited the accompanying balance sheets of IRSA Inversiones y Representaciones Sociedad Anónima (IRSA) at June 30, 2007 and 2006, and the related statements of income, of changes in shareholders' equity and of cash flows for the years then ended and the complementary notes 1 to 26 and exhibits A, C, D, E, F, G, H and I. Furthermore, we have audited the consolidated financial statements of IRSA Inversiones y Representaciones Sociedad Anónima and its subsidiaries for the years ended on June 30, 2007 and 2006, which are presented as complementary information. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.
2. We conducted our audits in accordance with auditing standards accepted in Argentina. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement and to form an opinion on the reasonableness of relevant information contained in the financial statements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statements presentation. We consider that our audits provide a reasonable basis for our opinion.
3. In our opinion:
 - a) the financial statements of IRSA Inversiones y Representaciones Sociedad Anónima mentioned in paragraph 1 present fairly, in all material respects, its financial position at June 30, 2007 and 2006 and the results of its operations, the changes in its shareholders' equity and its cash flows for the years then ended, in accordance with professional accounting standards in effect in the Autonomous City of Buenos Aires.
 - b) the consolidated financial statements of IRSA Inversiones y Representaciones Sociedad Anónima and its subsidiaries present fairly, in all material respects, their consolidated financial position at June 30, 2007 and 2006 and the consolidated results of their operations and their cash flows for the years then ended, in accordance with professional accounting standards in effect in the Autonomous City of Buenos Aires.
