FORWARD LOOKING STATEMENTS

The Private Securities Litigation Reform Act of 1995 provides a safe harbor for forward-looking statements made by or on behalf of ADTRAN. ADTRAN and its representatives may from time to time make written or oral forward-looking statements, including statements contained in this report, our other filings with the Securities and Exchange Commission (SEC) and in our reports to our stockholders. Generally, the words, believe, expect, intend, estimate, anticipate, will, may, could and similar expressions identify forward-looking statements. We caution that any forward-looking statements made by us or on our behalf are subject to uncertainties and other factors that could cause such statements to be wrong. A list of factors that could materially affect our business, financial condition or operating results is included under "Factors that Could Affect Our Future Results" in "Management's Discussion and Analysis of Financial Condition and Results of Operations" contained in Item 2 of Part I of this report. They have also been discussed in Item 1A of Part I in our most recent Annual Report on Form 10-K filed on February 28, 2007 with the SEC. Though we have attempted to list comprehensively these important factors, we caution investors that other factors may prove to be important in the future in affecting our operating results. New factors emerge from time to time, and it is not possible for us to predict all of these factors, nor can we assess the impact each factor or a combination of factors may have on our business.

You are further cautioned not to place undue reliance on these forward-looking statements because they speak only of our views as of the date that the statements were made. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

ADTRAN, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(In thousands, except per share amounts)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying unaudited consolidated financial statements of ADTRAN[®], Inc. and its subsidiaries (ADTRAN) have been prepared pursuant to the rules and regulations for reporting on Quarterly Reports on Form 10-Q. Accordingly, certain information and notes required by generally accepted accounting principles for complete financial statements are not included herein. The December 31, 2006 Consolidated Balance Sheet is derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States.

In the opinion of management, all adjustments necessary for a fair presentation of these interim statements have been included and are of a normal and recurring nature. The results of operations for an interim period are not necessarily indicative of the results for the full year. The interim statements should be read in conjunction with the financial statements and notes thereto included in ADTRAN's Annual Report on Form 10-K for the year ended December 31, 2006.

Changes in Classifications

Certain changes in classifications have been made to the prior period balances in order to conform to the current period's presentation. These reclassifications have no effect on previously reported total assets, total liabilities, stockholders' equity or net income.

Revision of Classification of Treasury Stock Losses

During the three months ended June 30, 2007, we identified a cumulative understatement of additional paid-in capital and a corresponding overstatement of retained earnings resulting from losses incurred at the re-issuance of treasury shares from stock option exercises. These cumulative amounts were \$15.2 million as of March 31, 2007 and \$10.6 million as of December 31, 2006. We believe these amounts are not material to the consolidated financial statements for the periods affected and as a result, we have revised these amounts for the periods presented. These reclassifications have no effect on previously reported total assets, total liabilities, net stockholders' equity, net income or cash flow.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expense during the reporting period. ADTRAN's most significant estimates include the allowance for doubtful accounts, obsolete and excess inventory reserves, warranty reserves, rebates, allowance for sales returns, determination of the deferred revenue components of multiple element sales agreements, estimated income tax contingencies and the fair value of stock-based compensation. Actual amounts could differ significantly from these estimates.

Recent Accounting Pronouncements

Updates to recent accounting standards as disclosed in ADTRAN's Annual Report on Form 10-K for the year ended December 31, 2006 are as follows:

In February 2007, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities - Including an Amendment of FASB Statement No. 115* (SFAS 159). SFAS 159 expands the use of fair value accounting but does not affect existing standards which require assets or liabilities to be carried at fair value. Under SFAS 159, a company may elect to use fair value to measure accounts and loans receivable, available-for-sale and held-to-maturity securities, equity method investments, accounts payable, guarantees and issued debt. Other eligible items include firm commitments for financial

instruments that otherwise would not be recognized at

Table of Contents

inception and non-cash warranty obligations where a warrantor is permitted to pay a third party to provide warranty goods or services. If the use of fair value is elected, any upfront cost and fees related to the item must be recognized in earnings and cannot be deferred. The fair value election is irrevocable and generally made on an instrument-by-instrument basis even if a company has similar instruments that it elects not to measure at fair value. At the adoption date, unrealized gains and losses on existing items for which the fair value option has been elected are reported as a cumulative adjustment to beginning retained earnings. Subsequent to the adoption of SFAS 159, changes to fair value are recognized in earnings. SFAS 159 is effective for fiscal years beginning after November 15, 2007 and is required to be adopted by ADTRAN in the first quarter of 2008. We are currently determining whether fair value accounting is appropriate for any of our eligible items and cannot currently estimate the impact, if any, which SFAS 159 will have on our consolidated results of operation and financial condition.

During the first quarter of 2007, we adopted the following accounting standards, none of which had a material effect on our consolidated results of operation or financial condition:

Emerging Issues Task Force (EITF) Issue 06-3, *How Taxes Collected from Customers and Remitted to Governmental Authorities Should Be Presented in the Income Statement (That is, Gross versus Net Presentation)* (EITF 06-3). We present these items within the scope of EITF 06-3 on a gross basis, and the amounts are not significant.

FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes, an Interpretation of FASB Statement 109* (FIN 48). See Note 2 to the Consolidated Financial Statements for more information.

2. INCOME TAXES

On January 1, 2007, ADTRAN adopted the provisions of FIN 48, which requires a company to recognize the benefit of a tax position in its financial statements only if that position is more likely than not of being sustained on an audit basis solely on the technical merit of the position. In addition, FIN 48 requires annual qualitative and quantitative disclosures including a discussion of reasonably possible significant changes that might occur in the recognized tax benefits over the next twelve months as well as an annual roll-forward of all unrecognized tax benefits.

The adoption of FIN 48 resulted in a decrease to stockholders' equity of \$1.2 million on January 1, 2007 for unrecognized tax expense, of which \$0.5 million is related to estimated interest and penalties. We will continue to account for interest and penalties as a part of income tax expense. Had these amounts been recognized in the income statement, it would have resulted in a 0.9 percentage point increase in the effective tax rate for the year ended December 31, 2006. The total liability for unrecognized tax positions as of January 1, 2007 amounted to \$2.1 million. Subsequent to adoption of FIN 48, recognition, derecognition and changes in measurement in our unrecognized tax expense will be adjusted through the applicable period's income statement.

As required, we analyze our uncertain tax positions on a more likely than not basis. This type of analysis requires estimates and assumptions to be made by management and is based on information available at that time. These estimates and assumptions may change as new information becomes available. There was no material change in our liability for unrecognized tax positions for the three and nine month periods ended September 30, 2007, and we do not foresee any events in the next twelve months that would significantly change this liability balance. In addition, we have been audited by the Internal Revenue Service through the 2004 tax year and by the State of Alabama through the 2005 tax year.

3. STOCK-BASED COMPENSATION

The following table summarizes the stock-based compensation expense related to stock options under SFAS No. 123 (revised 2004), *Share-Based Payment* (SFAS 123R), for the three and nine months ended September 30, 2007 and 2006, which was allocated as follows:

Table of Contents

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2007	2006	2007	2006
Stock-based compensation expense included in cost of sales	\$ 96	\$ 90	\$ 283	\$ 260
Selling, general and administrative expense	1,023	992	3,222	2,952
Research and development expense	1,086	983	3,235	2,882
Stock-based compensation expense included in operating expenses	2,109	1,975	6,457	5,834
Total stock-based compensation expense	2,205	2,065	6,740	6,094
Tax benefit for expense associated with non-qualified options	(263)	(261)	(679)	(774)
Total stock-based compensation expense, net of tax	\$ 1,942	\$ 1,804	\$ 6,061	\$ 5,320

The fair value of ADTRAN's options was estimated using the Black-Scholes Model. The determination of the fair value of stock options on the date of grant using the Black-Scholes Model is affected by our stock price as well as assumptions regarding a number of complex and subjective variables that may have a significant impact on the fair value estimate.

The significant weighted-average assumptions relating to the valuation of ADTRAN's stock options and the value of options granted for the three and nine months ended September 30, 2007 and 2006, respectively, are summarized as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2007	2006	2007	2006
Expected volatility	44.37%	48.63%	45.55%	49.05%
Risk-free interest rate	4.97%	5.02%	4.75%	4.91%
Expected dividend yield	1.32%	1.76%	1.39%	1.42%
Expected life (in years)	5.05	5.02	5.06	4.69
Weighted-average estimated value	\$ 11.11	\$ 8.62	\$ 10.69	\$ 10.91

Stock-based compensation expense recognized in our Consolidated Statements of Income for the three and nine months ended September 30, 2007 is based on options ultimately expected to vest, and has been reduced for estimated forfeitures. Estimated forfeitures were based upon historical experience and approximate 3.0% annually.

As of September 30, 2007, total compensation cost related to non-vested stock options not yet recognized was approximately \$11.4 million, which is expected to be recognized over an average remaining recognition period of 2.1 years using the ratable single-option approach.

Table of Contents

The following schedule summarizes the activity in our stock-based compensation plans for the nine months ended September 30, 2007:

	Number of Options	Weighted Avg. Exercise Price	Weighted Avg. Remaining Contractual Life In years	Aggregate Intrinsic Value
Options outstanding, December 31, 2006	7,019	\$ 18.58	5.51	\$ 40,896
Options granted	45	\$ 25.98		
Options cancelled/forfeited	(401)	\$ 27.08		
Options exercised	(1,179)	\$ 12.81		
Options outstanding, September 30, 2007	5,484	\$ 19.26	5.55	\$ 30,537
Options exercisable, September 30, 2007	3,758	\$ 16.48	4.30	\$ 29,867

The aggregate intrinsic values in the table above represent the total pre-tax intrinsic value (the difference between ADTRAN's closing stock price on the last trading day of the quarter and the exercise price, multiplied by the number of in-the-money options) that would have been received by the option holders had all option holders exercised their options on September 30, 2007. The aggregate intrinsic value will change based on the fair market value of ADTRAN's stock. The total pre-tax intrinsic value of options exercised during the three and nine month periods ended September 30, 2007 was \$2.1 million and \$14.2 million, respectively.

4. INVENTORY

At September 30, 2007 and December 31, 2006, inventory consisted of the following:

	September 30, 2007	December 31, 2006
Raw materials	\$ 30,246	\$ 30,136
Work in progress	2,774	4,870
Finished goods	21,539	25,153
Inventory reserves	(6,685)	(7,042)
Inventory, net	\$ 47,874	\$ 53,117

5. STOCKHOLDERS' EQUITY

A summary of the changes in stockholders' equity for the nine months ended September 30, 2007 is as follows:

	Stockholders' Equity
Balance, December 31, 2006	\$ 435,956
Net income	58,224
Dividend payments	(18,628)
Net unrealized gains on marketable securities (net of deferred taxes)	3,037
Unrealized foreign currency translation (net of deferred taxes)	729
Adoption of FIN 48	(1,190)
Exercise of stock options	15,045
Income tax benefit from exercise of stock options	4,220
Stock-based compensation	6,740
Purchase of treasury stock	(96,599)

Balance, September 30, 2007	\$	407,534
------------------------------------	-----------	----------------

Table of Contents

Stock Repurchase Program

Since 1997, our Board of Directors has approved multiple share repurchase programs that have authorized open market repurchase transactions. As of September 30, 2007, the Board of Directors had authorized cumulative repurchases of up to 29 million shares of our common stock. During the nine months ended September 30, 2007, we repurchased 3.9 million shares of our common stock at an average price of \$24.87 per share. We currently have the authority to purchase an additional 3.4 million shares of our common stock under the plan approved by the Board of Directors on July 16, 2007.

We issued 1.2 million shares of treasury stock during the nine months ended September 30, 2007 to accommodate employee stock option exercises. The stock options had exercise prices ranging from \$8.70 to \$22.70. We received proceeds totaling \$15.0 million from the exercise of these stock options during the first nine months of 2007.

Dividend Payments

During 2007, ADTRAN has paid cash dividends as follows:

Record Date	Payment Date	Per Share Amount	Total Dividend Paid
February 8, 2007	February 22, 2007	\$ 0.09	\$ 6,236
May 3, 2007	May 17, 2007	\$ 0.09	\$ 6,229
August 2, 2007	August 16, 2007	\$ 0.09	\$ 6,163

Comprehensive Income

Comprehensive income consists of net income, unrealized foreign currency translation adjustments and unrealized gains and losses on marketable securities.

	Three Months Ended		Nine Months Ended	
	September 30, 2007	September 30, 2006	September 30, 2007	September 30, 2006
Net income	\$ 21,453	\$ 24,208	\$ 58,224	\$ 61,277
Foreign currency translation gain, net of deferred taxes	326	33	729	405
Net unrealized gains (losses) on available-for-sale securities, net of deferred taxes	1,097	982	3,037	(2,314)
Total comprehensive income	\$ 22,876	\$ 25,223	\$ 61,990	\$ 59,368

6. EARNINGS PER SHARE

A summary of the calculation of basic and diluted earnings per share for the three and nine months ended September 30, 2007 and 2006 is as follows:

	Three Months Ended		Nine Months Ended	
	September 30, 2007	September 30, 2006	September 30, 2007	September 30, 2006
Numerator				
Net income	\$ 21,453	\$ 24,208	\$ 58,224	\$ 61,277
Denominator				
Weighted average number of shares - basic	67,526	71,688	68,554	74,537
Effect of dilutive securities stock options	1,346	1,790	1,455	2,013

Edgar Filing: ADTRAN INC - Form 10-Q

Weighted average number of shares - diluted	68,872	73,478	70,009	76,550
Net income per share - basic	\$ 0.32	\$ 0.34	\$ 0.85	\$ 0.82
Net income per share - diluted	\$ 0.31	\$ 0.33	\$ 0.83	\$ 0.80

Table of Contents

Anti-dilutive options to purchase common stock outstanding were excluded from the above calculations. Anti-dilutive options totaled 2.2 million and 2.1 million for the three months ended September 30, 2007 and 2006, respectively. Anti-dilutive options totaled 2.6 million and 2.0 million for the nine months ended September 30, 2007 and 2006, respectively.

7. SEGMENT INFORMATION

ADTRAN operates in two reportable segments: (1) the Carrier Networks Division and (2) the Enterprise Networks Division. We evaluate the performance of our segments based on gross profit; therefore, selling, general and administrative expenses, as well as research and development expenses, interest income/expense, net realized investment gain/loss, other income/expense, and provision for income taxes are reported on an entity wide basis only. There are no inter-segment revenues.

The following table presents information about the sales and gross profit of our reportable segments for the three and nine months ended September 30, 2007 and 2006. Asset information by reportable segment is not reported, since ADTRAN does not produce such information internally.

	Three Months Ended			
	September 30, 2007		September 30, 2006	
	Sales	Gross Profit	Sales	Gross Profit
Carrier Networks	\$ 93,090	\$ 55,136	\$ 101,466	\$ 58,892
Enterprise Networks	30,731	18,982	31,184	19,743
	\$ 123,821	\$ 74,118	\$ 132,650	\$ 78,635

	Nine Months Ended			
	September 30, 2007		September 30, 2006	
	Sales	Gross Profit	Sales	Gross Profit
Carrier Networks	\$ 270,824	\$ 161,808	\$ 277,325	\$ 163,136
Enterprise Networks	86,983	51,659	86,269	52,438
	\$ 357,807	\$ 213,467	\$ 363,594	\$ 215,574

Sales by Geographic Region

The table below presents sales information by geographic region for the three and nine months ended September 30, 2007 and 2006.

	Three Months Ended		Nine Months Ended	
	September 30,	September 30,	September 30,	September 30,
	2007	2006	2007	2006
United States	\$ 116,021	\$ 124,552	\$ 333,912	\$ 342,180
International	7,800	8,098	23,895	21,414
Total	\$ 123,821	\$ 132,650	\$ 357,807	\$ 363,594

Sales by Product

In January 2007, we announced we would begin reporting new product categories in order to increase transparency in major product areas. The new product categories are:

Loop Access,

Carrier Systems, and

Business Networking.

Loop Access products are used by carrier and enterprise customers for access to today's copper-based telecommunications network. Loop Access includes DDS and ISDN Total Reach products, HDSL products including Total Access 3000 based HDSL and TDM-SHDSL products, T1/E1/T3, CSUs/DSUs, and Tracer fixed wireless products.

Table of Contents

Carrier Systems products are used by carrier customers for increasing bandwidth and for delivery of carrier services to consumers and enterprises. Carrier Systems includes all broadband access products, including DSLAM products and Total Access 5000 products. This category also includes optical access products, narrowband access platforms, 303 concentrator products, M13 multiplexer products, and wireless backhaul grooming products.

Business Networking products provide enterprises access to today's telecommunication networks and facilitate networking capabilities for voice and data. Business Networking includes integrated access devices and Internetworking products. Internetworking products include IP access routers, Ethernet switches, IP PBX products, and multi-service access gateways.

The table below presents sales information by product for the three and nine months ended September 30, 2007 and 2006.

	Three Months Ended		Nine Months Ended	
	September 30, 2007	September 30, 2006	September 30, 2007	September 30, 2006
Loop Access	\$ 56,282	\$ 59,053	\$ 162,533	\$ 157,740
Carrier Systems	44,587	50,049	130,642	140,469
Business Networking	22,952	23,548	64,632	65,385
Total	\$ 123,821	\$ 132,650	\$ 357,807	\$ 363,594

Additionally, we are providing sub-categories of product revenues for broadband access and optical access products (included in Carrier Systems) and Internetworking products (included in Business Networking) to provide greater transparency into our primary growth areas. Also, we are providing HDSL revenues (included in Loop Access) as a sub-category.

Subcategory revenues included in the above are as follows:

	Three Months Ended		Nine Months Ended	
	September 30, 2007	September 30, 2006	September 30, 2007	September 30, 2006
Broadband Access (included in Carrier Systems)	\$ 18,241	\$ 23,870	\$ 56,675	\$ 66,362
Optical Access (included in Carrier Systems)	13,854	10,122	32,304	27,624
Internetworking (NetVanta & Multi-service Access Gateways) (included in Business Networking)	14,462	9,162	39,145	25,190
HDSL (does not include T1) (included in Loop Access)	47,196	49,563	137,267	131,206
Other products (included in the above table)	30,068	39,933	92,416	113,212
Total	\$ 123,821	\$ 132,650	\$ 357,807	\$ 363,594

8. LIABILITY FOR WARRANTY RETURNS

Our products generally include warranties of one to ten years for product defects. We accrue for warranty returns based on our estimate of the cost to repair or replace the defective products at the time revenue is recognized. We engage in extensive product quality programs and processes, including actively monitoring and evaluating the quality of our component suppliers. Our products continue to become more complex in both size and functionality as many of our product offerings migrate from line card applications to systems products. These products could require more warranty cost to be incurred at the installed location due to their size and complexity, rather than at a manufacturing site or repair depot. This field service obligation, as well as the increasing complexity of our products, may cause warranty incidences, when they arise, to be more costly. Our estimates regarding future warranty obligations may change due to product failure rates, material usage, and other rework costs incurred in correcting a product failure. In

Table of Contents

addition, from time to time, specific warranty accruals may be recorded if unforeseen problems arise. Should our actual experience relative to these factors be higher than our estimates, we will be required to record additional warranty expense. Alternatively, if we provide for more reserves than we require, we will reverse a portion of such provisions in future periods. The liability for warranty returns totaled \$3.1 million and \$3.0 million at September 30, 2007 and December 31, 2006, respectively. These liabilities are included in accrued expenses in the accompanying Consolidated Balance Sheets.

	September 30, 2007
Balance at beginning of period	\$ 3,045
Plus: amounts charged to cost and expenses	1,498
Less: deductions	(1,394)
Balance at end of period	\$ 3,149

9. RELATED PARTY TRANSACTIONS

We employ the law firm of our director emeritus for legal services. All bills for services rendered by this firm are reviewed and approved by our chief financial officer. We believe that the fees for such services are comparable to those charged by other firms for services rendered to us. We paid \$30 thousand during each of the three month periods ended September 30, 2007 and 2006 for legal services rendered. We paid \$90 thousand during each of the nine month periods ended September 30, 2007 and 2006 for legal services rendered.

10. COMMITMENTS AND CONTINGENCIES

We have certain contingent liabilities from time to time from litigation for employment or other matters arising in the normal course of business. Although the outcome of any litigation can never be certain, it is our opinion that the outcome of such contingencies will not materially affect our business, operations, financial condition or cash flows.

We have committed to invest up to an aggregate of \$7.8 million in two private equity funds, and we have contributed \$7.2 million to date, of which \$6.8 million has been applied toward this commitment. The duration of each of these commitments is ten years with \$0.2 million expiring in 2010 and \$0.8 million expiring in 2012. As of September 30, 2007, we have received distributions related to these two private equity funds of \$5.1 million. These investments are carried at cost, net of distributions, and are included in long-term investments in the accompanying Consolidated Balance Sheets. The outstanding balance of these investments was \$2.1 million and \$3.1 million at September 30, 2007 and December 31, 2006, respectively.

11. SUBSEQUENT EVENTS

On October 15, 2007, ADTRAN announced that its Board of Directors declared a quarterly cash dividend of \$0.09 per common share to be paid to stockholders of record at the close of business on November 1, 2007. The payment date will be November 15, 2007. The quarterly dividend payment will be approximately \$6.0 million. The Board of Directors presently anticipates that it will declare a regular quarterly dividend so long as the present tax treatment of dividends exists and adequate levels of liquidity are maintained.

In October 2007, ADTRAN repurchased 0.4 million shares of its common stock through open market purchases at an average cost of \$22.83 per share and has the authority to repurchase an additional 3.0 million shares under the plan approved by the Board of Directors on July 16, 2007.

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the Consolidated Financial Statements and the related notes that appear elsewhere in this document.

OVERVIEW

ADTRAN develops and provides network access solutions for communications networks. Widely deployed by carriers, small and mid-sized businesses and enterprises, our solutions enable voice, data, video, and Internet communications across copper, fiber and wireless networks. Many of these solutions are currently in use by every major U.S. service provider and many global ones, as well as by many public, private and governmental organizations worldwide.

An important part of ADTRAN's strategy is to reduce the cost of each succeeding product generation and then to lower the product's selling price based on the cost savings achieved. As a part of this strategy, we seek in most instances to be the high-quality, low-cost provider of products in our markets. Our success to date is attributable in large measure to our ability to design our products initially with a view to their subsequent redesign, allowing both increased functionality and reduced manufacturing costs in each succeeding product generation. This strategy enables ADTRAN to sell succeeding generations of products to existing customers, while increasing our market share by selling these enhanced products to new customers.

In January 2007, we announced we would begin reporting new product categories in order to increase transparency in major product areas. The new product categories are:

Loop Access,

Carrier Systems, and

Business Networking.

Loop Access products are used by carrier and enterprise customers for access to today's copper-based telecommunications network. Loop Access includes DDS and ISDN Total Reach products, HDSL products including Total Access 3000 based HDSL and TDM-SHDSL products, T1/E1/T3, CSUs/DSUs, and Tracer fixed wireless products.

Carrier Systems products are used by carrier customers for increasing bandwidth and for delivery of carrier services to consumers and enterprises. Carrier Systems includes all broadband access products, including DSLAM products and Total Access 5000 products. This category also includes optical access products, narrowband access platforms, 303 concentrator products, M13 multiplexer products, and wireless backhaul grooming products.

Business Networking products provide enterprises access to today's telecommunication networks and facilitate networking capabilities for voice and data. Business Networking includes integrated access devices (IAD) and Internetworking products. Internetworking products include IP access routers, Ethernet switches, IP PBX products, and multi-service access gateways.

Sales were \$123.8 million and \$357.8 million for the three and nine months ended September 30, 2007 compared to \$132.7 million and \$363.6 million for the three and nine months ended September 30, 2006. Net income was \$21.5 million and \$58.2 million for the three and nine months ended September 30, 2007 compared to \$24.2 million and \$61.3 million for the three and nine months ended September 30, 2006. Earnings per share, assuming dilution, were \$0.31 and \$0.83 for the three and nine months ended September 30, 2007 compared to \$0.33 and \$0.80 for the three and nine months ended September 30, 2006. The results for the nine months ended September 30, 2007 included a benefit of \$0.9 million in Provision for Income Taxes primarily relating to closure of tax audits from prior years and also included a one-time, pre-tax life insurance benefit of \$1.0 million. These two items increased earnings per share, assuming dilution, by approximately \$0.02 in the nine months ended September 30, 2007. Earnings per share for the three and nine months ended September 30, 2007 compared to the same periods in 2006 reflect the repurchase of 7.4 million and 3.9 million shares of our stock in 2006 and 2007, respectively.

Table of Contents

Our operating results have fluctuated on a quarterly basis in the past, and may vary significantly in future periods due to a number of factors. We normally operate with very little order backlog. A majority of our sales in each quarter result from orders booked in that quarter and firm purchase orders released in that quarter by customers under agreements containing non-binding purchase commitments. Furthermore, a majority of customers typically require prompt delivery of products. This results in a limited backlog of orders for these products and requires us to maintain sufficient inventory levels to satisfy anticipated customer demand. If near-term demand for ADTRAN's products declines, or if potential sales in any quarter do not occur as anticipated, our financial results could be adversely affected. Operating expenses are relatively fixed in the short term; therefore, a shortfall in quarterly revenues could significantly impact ADTRAN's financial results in a given quarter. Furthermore, maintaining sufficient inventory levels to assure prompt delivery of our products increases the amount of inventory that may become obsolete and increases the risk that the obsolescence of such inventory may have an adverse effect on our business and operating results.

ADTRAN's operating results may also fluctuate as a result of a number of other factors, including increased competition, customer order patterns, changes in product mix, timing differences between price decreases and product cost reductions, product warranty returns, and announcements of new products by ADTRAN or our competitors. Accordingly, ADTRAN's historical financial performance is not necessarily a meaningful indicator of future results, and, in general, management expects that ADTRAN's financial results may vary from period to period.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Except as set forth below, our critical accounting policies and estimates have not changed significantly from those detailed in our most recent Annual Report on Form 10-K for the year ended December 31, 2006.

For purposes of recording and analyzing our uncertain tax provisions, we recognize the benefit of a tax position in our financial statements only if that position is more likely than not of being sustained on an audit basis solely on the technical merit of the position as is required by FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes, an Interpretation of FASB Statement 109* (FIN 48). This type of analysis requires estimates and assumptions to be made by management and is based on information available at that time.

Circumstances may change and additional data may become available over time, which could result in changes to these estimates and assumptions and thereby materially impact our tax provision. If estimates change and we use different assumptions in the application of FIN 48 in future periods, it could materially impact our future results of operations and financial condition. Refer to Note 2 to the Consolidated Financial Statements in this Form 10-Q for more information regarding uncertain tax provisions.

EFFECT OF RECENT ACCOUNTING PRONOUNCEMENTS

See Note 1 to the Consolidated Financial Statements in Item 1 of this Form 10-Q for a full description of recent accounting pronouncements, including the expected dates of adoption and estimated effects on results of operation and financial condition, which is incorporated herein by reference.

RESULTS OF OPERATIONS THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2007 COMPARED TO THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2006

SALES

ADTRAN's sales decreased 6.7% from \$132.7 million in the three months ended September 30, 2006 to \$123.8 million in the three months ended September 30, 2007. ADTRAN's sales decreased 1.6% from \$363.6 million in the nine months ended September 30, 2006 to \$357.8 million in the nine months ended September 30, 2007. The quarter-over-quarter decrease in sales is primarily attributable to a decrease in sales of our Carrier Systems products. Carrier Systems product sales decreased primarily due to a decline in Broadband Access product revenues, driven largely by reduced spending levels at two carrier customers. Partially offsetting this decline was an increase in Optical Access product revenues due to market share gains across a broad range of customers. Business Networking product sales decreased quarter-over-quarter due to a decline in traditional IAD product revenues that was largely offset by an increase in Internetworking product revenues, driven by the strong performance of the NetVanta product category. Loop Access

Table of Contents

product sales decreased quarter-over-quarter primarily due to a decline in HDSL product revenues, driven largely by an overall decrease in spending levels at a large carrier customer. The decrease in sales for the nine month period of 2007 compared to the 2006 period is primarily attributable to a decrease in sales of our Carrier Systems products, partially offset by an increase in Loop Access product sales. The decrease in Carrier Systems product sales is primarily attributable to a decline in Broadband Access product revenues, driven largely by a decline in spending at two of our major customers. Loop Access product revenues increased due to improved sales of HDSL products, primarily in the first quarter of 2007.

Carrier Networks sales decreased 8.3% from \$101.5 million in the three months ended September 30, 2006 to \$93.1 million in the three months ended September 30, 2007. Carrier Networks sales decreased 2.3% from \$277.3 million in the nine months ended September 30, 2006 to \$270.8 million in the nine months ended September 30, 2007. The quarter-over-quarter decrease in Carrier Networks sales is primarily attributable to a decline in Broadband Access, Time Division Multiplex (TDM) and HDSL product revenues, partially offset by an increase in Optical Access product revenues. The decrease in Carrier Network sales for the nine month period of 2007 compared to the 2006 period is primarily attributable to a decline in Broadband Access and TDM product revenues, partially offset by an increase in sales of our Optical Access and HDSL products.

Enterprise Networks sales decreased 1.6% from \$31.2 million in the three months ended September 30, 2006 to \$30.7 million in the three months ended September 30, 2007 and increased 0.8% from \$86.3 million in the nine months ended September 30, 2006 to \$87.0 million in the nine months ended September 30, 2007. The quarter-over-quarter decrease in Enterprise Networks sales is primarily attributable to a decline in sales of traditional IAD products, partially offset by increased sales of Internetworking products. The increase in Enterprise Network sales for the nine month period of 2007 compared to the 2006 period is primarily attributable to increased sales of Internetworking products, partially offset by a decline in sales of traditional IAD products. Enterprise Networks sales as a percentage of total sales increased from 23.5% for the three months ended September 30, 2006 to 24.8% for the three months ended September 30, 2007 and increased from 23.7% for the nine months ended September 30, 2006 to 24.3% for the nine months ended September 30, 2007.

International sales, which are included in the Carrier Networks and Enterprise Networks amounts discussed above, decreased 3.7% from \$8.1 million in the three months ended September 30, 2006 to \$7.8 million in the three months ended September 30, 2007 and increased 11.7% from \$21.4 million in the nine months ended September 30, 2006 to \$23.9 million in the nine months ended September 30, 2007. International sales, as a percentage of total sales, increased from 6.1% for the three months ended September 30, 2006 to 6.3% for the three months ended September 30, 2007, and increased from 5.9% for the nine months ended September 30, 2006 to 6.7% for the nine months ended September 30, 2007. International sales for the nine month period of 2007 compared to the 2006 period increased primarily due to improved sales in our Asia Pacific customer base.

COST OF SALES

As a percentage of sales, cost of sales decreased slightly from 40.7% in the three months ended September 30, 2006 to 40.1% in the three months ended September 30, 2007 and from 40.7% in the nine months ended September 30, 2006 to 40.3% in the nine months ended September 30, 2007. The decrease in cost of sales as a percentage of sales is primarily related to lower material costs, including lower costs associated with obsolete inventory, and a more favorable product mix.

Carrier Networks cost of sales, as a percent of division sales, decreased from 42.0% in the three months ended September 30, 2006 to 40.8% in the three months ended September 30, 2007 and decreased slightly from 41.2% in the nine months ended September 30, 2006 to 40.3% in the nine months ended September 30, 2007. These decreases were primarily related to the lower material costs and a more favorable product mix.

Enterprise Networks cost of sales, as a percent of division sales, increased from 36.7% in the three months ended September 30, 2006 to 38.2% in the three months ended September 30, 2007 and increased from 39.2% in the nine months ended September 30, 2006 to 40.6% in the nine months ended September 30, 2007. These increases were primarily related to changes in product mix.

Table of Contents***SELLING, GENERAL AND ADMINISTRATIVE EXPENSES***

Selling, general and administrative expenses decreased 2.3% from \$25.9 million in the three months ended September 30, 2006 to \$25.3 million in the three months ended September 30, 2007 and increased 1.4% from \$76.9 million in the nine months ended September 30, 2006 to \$78.0 million in the nine months ended September 30, 2007. The quarter-over-quarter decrease in selling, general and administrative expenses is primarily related to a decrease in international sales and marketing expenses. The increase in selling, general and administrative expenses for the nine month period of 2007 compared to the 2006 period is primarily related to expenses associated with increased domestic sales and marketing activities.

Selling, general, and administrative expenses as a percentage of sales increased from 19.5% in the three months ended September 30, 2006 to 20.4% in the three months ended September 30, 2007 and increased from 21.2% in the nine months ended September 30, 2006 to 21.8% in the nine months ended September 30, 2007.

RESEARCH AND DEVELOPMENT EXPENSES

Research and development expenses increased 2.2% from \$18.3 million in the three months ended September 30, 2006 to \$18.7 million in the three months ended September 30, 2007 and increased 5.6% from \$53.6 million in the nine months ended September 30, 2006 to \$56.6 million in the nine months ended September 30, 2007.

As a percentage of sales, research and development expenses increased from 13.8% in the three months ended September 30, 2006 to 15.1% in the three months ended September 30, 2007 and increased from 14.7% in the nine months ended September 30, 2006 to 15.8% in the nine months ended September 30, 2007. Increases in research and development expenses reflect increased staffing, engineering and testing expense primarily related to customer specific product development activities.

ADTRAN expects to continue to incur research and development expenses in connection with its new and existing products and its expansion into international markets. ADTRAN continually evaluates new product opportunities and engages in intensive research and product development efforts. ADTRAN expenses all product research and development costs as incurred. As a result, ADTRAN may incur significant research and development expenses prior to the receipt of revenues from a major new product group or market expansion.

INTEREST INCOME

Interest income decreased 17.6% from \$3.4 million in the three months ended September 30, 2006 to \$2.8 million in the three months ended September 30, 2007 and decreased 14.6% from \$10.3 million in the nine months ended September 30, 2006 to \$8.8 million in the nine months ended September 30, 2007. These decreases are primarily related to a decrease in our investment balances, resulting from stock repurchases, which were partially offset by an increase in market interest rates earned on our investments.

INTEREST EXPENSE

Interest expense on our taxable revenue bond remained relatively constant at \$0.6 million in each of the three months ended September 30, 2007 and 2006, and \$1.9 million in the nine month periods ended September 30, 2007 and 2006. See [Liquidity and Capital Resources](#) below for additional information on our revenue bond.

NET REALIZED INVESTMENT GAIN

Net realized investment gain increased from \$0.1 million in the three months ended September 30, 2006 to \$0.2 million in the three months ended September 30, 2007 and decreased from \$1.1 million in the nine months ended September 30, 2006 to \$0.5 million in the nine months ended September 30, 2007. These changes primarily resulted from the realignment of our investment portfolio.

OTHER INCOME, NET

Other income, net, comprised primarily of miscellaneous income, gains and losses on foreign currency transactions, investment account management fees and scrap raw material sales, increased from \$0.1 million in the three months ended September 30, 2006 to \$0.2 million in the three months ended September 30, 2007 and increased from \$0.4 million in the nine months ended September 30, 2006 to \$0.7 million in the nine months ended September 30, 2007.

Table of Contents

LIFE INSURANCE PROCEEDS

We realized a non-recurring gain on life insurance proceeds of \$1.0 million during the first quarter of 2007 as a result of the death of our co-founder and then Chairman of the Board, Mark Smith.

INCOME TAXES

Our effective tax rate decreased from 35.0% in the three months ended September 30, 2006 to 34.4% in the three months ended September 30, 2007 and from 35.5% in the nine months ended September 30, 2006 to 33.8% in the nine months ended September 30, 2007. The decrease for the nine months is primarily due to the impact of research and development tax credits enacted late in 2006, and therefore available in 2007, and the closure of tax audits from prior years.

Additionally, the recognition of stock-based compensation expense associated with the adoption of SFAS No. 123 (revised 2004), *Share-Based Payment*, (SFAS 123R), has created unfavorable permanent differences that must be considered when calculating the effective tax rate for the year. These unfavorable differences are related to the portion of stock-based compensation for which a tax deduction is not generally available (incentive stock options). Disqualifying dispositions of these incentive stock options will give rise to a tax deduction and a favorable permanent difference in the period of exercise. However, we cannot estimate when, or guarantee that, disqualifying dispositions will occur.

NET INCOME

As a result of the above factors, net income decreased \$2.7 million from \$24.2 million in the three months ended September 30, 2006 to \$21.5 million in the three months ended September 30, 2007 and decreased \$3.1 million from \$61.3 million in the nine months ended September 30, 2006 to \$58.2 million in the nine months ended September 30, 2007.

As a percentage of sales, net income decreased from 18.2% in the three months ended September 30, 2006 to 17.4% in the three months ended September 30, 2007 and from 16.9% in the nine months ended September 30, 2006 to 16.3% in the nine months ended September 30, 2007.

LIQUIDITY AND CAPITAL RESOURCES

Liquidity

At September 30, 2007, our cash and cash equivalents of \$32.8 million and short-term investments of \$137.2 million placed our short-term liquidity at \$170.0 million. At December 31, 2006, our cash and cash equivalents of \$40.1 million and short-term investments of \$99.7 million placed our short-term liquidity in at \$139.8 million.

Operating Activities

Our working capital, which consists of current assets less current liabilities, increased from \$219.6 million as of December 31, 2006 to \$254.9 million as of September 30, 2007, primarily as a result of long-term investments maturing to short-term investments. The quick ratio, defined as cash, cash equivalents, short-term investments, and net accounts receivable, divided by current liabilities, increased from 3.97 as of December 31, 2006 to 5.16 as of September 30, 2007. The current ratio, defined as current assets divided by current liabilities, increased from 5.43 as of December 31, 2006 to 6.50 as of September 30, 2007. These liquidity ratios will fluctuate with business growth and as our inventory, accounts payable and income tax position change.

As of December 31, 2006, we had a net income tax receivable of \$1.4 million, primarily related to overpayment of estimated taxes as a result of retroactive federal research and development tax credits that were enacted late in 2006. As of September 30, 2007, we had a net income tax payable of \$0.1 million, primarily related to current year taxable income.

Net accounts receivable increased 22.1% from December 31, 2006 to September 30, 2007, primarily due to the volume and timing of sales near the end of the current quarter as compared to the fourth quarter of 2006. Our allowance for doubtful accounts remained relatively stable at \$0.3 million at September 30, 2007 and \$0.2 million at December 31, 2006. Quarterly accounts receivable days sales outstanding (DSO) increased four days from 47 days as of December 31, 2006 to 51 days as of September 30, 2007. A steady level of shipments and good collection performance throughout a quarter will result in reduced DSO, compared with higher levels of shipments toward the end of the quarter, which results in a shorter amount of time to collect the related accounts receivable and increased DSO.

Table of Contents

Quarterly inventory turnover increased from 3.60 turns as of December 31, 2006 to 4.40 turns as of September 30, 2007. Inventory levels at September 30, 2007 decreased 9.9% from December 31, 2006 as production levels were adjusted to correspond with our customers' product requirements over the first three quarters. Inventory levels will fluctuate as we attempt to maintain sufficient inventory levels to ensure competitive lead times while guarding against the risk of inventory obsolescence that may occur due to rapidly changing technology and customer demand.

Accounts payable decreased 5.8% from December 31, 2006 to September 30, 2007 and accrued expenses increased 23.6% from December 31, 2006 to September 30, 2007. The change in accounts payable is primarily related to variations in the timing of payments. The change in accrued expenses is primarily related to property taxes which have been accrued at September 30, 2007 and will be remitted during the fourth quarter of 2007.

Investing Activities

At September 30, 2007, our long-term investments decreased by 31.1% to \$130.7 million from \$189.8 million at December 31, 2006. This decrease is primarily attributable to repositioning maturing long-term fixed income investments into short-term fixed income investments.

Restricted investment balances at September 30, 2007 included \$49.5 million in a restricted certificate of deposit and \$3.0 million in deferred compensation plan assets. Restricted investment balances at December 31, 2006 included \$49.5 million invested in a restricted certificate of deposit and \$2.6 million of deferred compensation plan assets.

Capital expenditures totaled approximately \$5.2 million and \$4.8 million for the nine months ended September 30, 2007 and 2006, respectively. These expenditures were primarily used for the purchase of computer hardware and software and manufacturing and test equipment.

Financing Activities

In July 2003, our Board of Directors elected to begin declaring quarterly dividends on our common stock, and anticipates that it will declare a regular quarterly dividend so long as the present tax treatment of dividends exists and adequate levels of liquidity are maintained. During the nine months ended September 30, 2007, ADTRAN paid dividends totaling \$18.6 million.

Debt

We have amounts outstanding under loans made pursuant to an Alabama State Industrial Development Authority revenue bond (the Bond) which totaled \$49.0 million at September 30, 2007 and \$49.5 million at December 31, 2006. Included in long-term investments are restricted funds in the amount of \$49.5 million at September 30, 2007 and December 31, 2006, which is a collateral deposit against the principal amount of the Bond. The Bond matures on January 1, 2020, and bears interest at the rate of 5% per annum. In conjunction with this program, we are eligible to receive certain economic incentives from the state of Alabama that reduce the amount of payroll withholdings we are required to remit to the state for those employment positions that qualify under this program.

We are required to make payments in the amounts necessary to pay the principal and interest on the amounts currently outstanding. Due to continued positive cash flow from operating activities, we made a business decision to begin an early partial redemption of the Bond, as evidenced by a \$0.5 million principal payment in both the third quarter of 2007 and 2006. It is our intent to make annual principal payments of between \$0.5 million and \$5.0 million per year in addition to the interest amounts that are due. In connection with this decision, \$0.5 million of the Bond debt has been reclassified to a current liability in the Consolidated Balance Sheet.

Stock Repurchase Program

During the nine months ended September 30, 2007, we repurchased 3.9 million shares of our common stock at an average price of \$24.87 per share under the repurchase plans approved by our Board of Directors. Since 1997, our Board of Directors has approved

Table of Contents

multiple share repurchase programs that have authorized open market repurchase transactions. We have the authority to purchase an additional 3.4 million shares of our common stock under the plan approved by the Board of Directors on July 16, 2007. During 2006, we repurchased 7.4 million shares of our common stock at an average price of \$22.96 per share.

We issued 1.2 million shares of treasury stock for \$15.0 million during the nine months ended September 30, 2007 to accommodate employee stock option exercises. During 2006, we issued 0.4 million shares of treasury stock for \$4.4 million to accommodate employee stock option exercises.

Off-Balance Sheet Arrangements and Contractual Obligations

We do not have off-balance sheet financing arrangements and have not engaged in any related party transactions or arrangements with unconsolidated entities or other persons that are reasonably likely to materially affect liquidity or the availability of or requirements for capital resources. During the nine months ended September 30, 2007, there have been no material changes in contractual obligations and commercial commitments from those discussed in our most recent Form 10-K filed on February 28, 2007.

We have committed to invest up to an aggregate of \$7.8 million in two private equity funds, and we have contributed \$7.2 million to date, of which \$6.8 million applies toward this commitment. The duration of each of these commitments is ten years with \$0.2 million expiring in 2010 and \$0.8 million expiring in 2012. As of September 30, 2007, we have received distributions related to these two private equity funds of \$5.1 million. These investments are carried at cost, net of distributions, and are included in long-term investments in the accompanying Consolidated Balance Sheets. The outstanding balance of these investments was \$2.1 million and \$3.1 million at September 30, 2007 and December 31, 2006, respectively.

We intend to finance our operations with cash flows from operations. We have used, and expect to continue to use, the cash generated from operations for working capital, purchases of treasury stock, dividend payments, and other general corporate purposes, including (i) product development activities to enhance our existing products and develop new products and (ii) expansion of sales and marketing activities. We believe our cash and cash equivalents, investments and cash generated from operations to be adequate to meet our operating and capital needs for the foreseeable future.

FACTORS THAT COULD AFFECT OUR FUTURE RESULTS

The following are some of the risks that could affect our financial performance or could cause actual results to differ materially from those expressed or implied in our forward-looking statements:

Our operating results may fluctuate in future periods, which may adversely affect our stock price.

Our revenue for a particular period can be difficult to predict, and a shortfall in revenue may harm our operating results.

We expect gross margin to vary over time, and our level of product gross margin may not be sustainable.

We must continue to update and improve our products and develop new products in order to compete and to keep pace with improvements in telecommunication technology.

We do not engage in long-term research and development efforts, and as a consequence may miss certain market opportunities enjoyed by larger companies with substantially greater research and development efforts.

We depend heavily on sales to certain customers; the loss of any of these customers would significantly reduce our revenues and net income.

Edgar Filing: ADTRAN INC - Form 10-Q

Our strategy of outsourcing a portion of our manufacturing requirements to subcontractors located in Asia may result in us not meeting our cost, quality or performance standards.

We compete in markets that have become increasingly competitive, which may result in reduced gross profit margins and market share.

Our estimates regarding future warranty obligations may change due to product failure rates, shipment volumes, field service obligations and other rework costs incurred in correcting product failures. If our estimates change, the liability for warranty returns may be increased or decreased, impacting future cost of goods sold.

The lengthy approval process required by Incumbent Local Exchange Carriers (ILECs) and other carriers could result in fluctuations in our revenues.

Table of Contents

Our dependence on a limited number of suppliers may prevent us from delivering our products on a timely basis, which could have a material adverse effect on customer relations and operating results.

Increased sales volume in international markets could result in increased costs or loss of revenue due to factors inherent in these markets.

Our success depends, in part, on our ability to reduce the selling prices of succeeding generations of our products.

Our failure to maintain rights to intellectual property used in our business could adversely affect the development, functionality and commercialization of our products.

Continued consolidation and deterioration in the competitive service provider market could result in a significant decrease in our revenue.

We depend on distributors who maintain inventories of our products. If the distributors reduce their inventories of these products, our sales could be adversely affected.

If we are unable to successfully develop relationships with system integrators, service providers, and enterprise value added resellers, our sales may be negatively affected.

Our success depends, in part, on attracting and retaining key personnel.

The price of our common stock has been volatile and may continue to fluctuate significantly.

The foregoing list of risks is not exclusive. For a more detailed description of the risk factors associated with our business, see Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2006.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

ADTRAN has not conducted transactions, established commitments or entered into relationships requiring disclosures beyond those provided elsewhere in this Form 10-Q.

ITEM 4. CONTROLS AND PROCEDURES

(a) *Evaluation of disclosure controls and procedures.* Our chief executive officer and chief financial officer are responsible for establishing and maintaining disclosure controls and procedures (as defined in the Securities Exchange Act of 1934 Rules 13a-15(e) and 15d-15(e)) for the company. Our chief executive officer and chief financial officer, after evaluating the effectiveness of our disclosure controls and procedures as of the end of the period covered by this quarterly report, have concluded that our disclosure controls and procedures are effective.

(b) *Changes in internal control over financial reporting.* There were no changes in our internal control over financial reporting that occurred during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1A. RISK FACTORS

Edgar Filing: ADTRAN INC - Form 10-Q

A list of factors that could materially affect our business, financial condition or operating results is included under "Factors That Could Affect Our Future Results" in "Management's Discussion and Analysis of Financial Condition and Results of Operations" contained in Item 2 of Part I of this report. There have been no material changes to the risk factors as disclosed in Item 1A of Part I of our most recent Annual Report on Form 10-K filed on February 28, 2007.

Table of Contents**ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**

The following table sets forth ADTRAN's repurchases or deemed repurchases (swaps) of its common stock for the months indicated.

Period	Total		Total Number of	Maximum Number
	Number of Shares Purchased	Average Price Paid per Share	Shares Purchased as Part of Publicly Announced Plans or Programs (1)	of Shares that May Yet Be Purchased Under the Plans or Programs
July 1, 2007 - July 31, 2007	1,000(2)	\$ 26.03		5,173,326
August 1, 2007 - August 31, 2007	1,769,806	\$ 25.04	1,769,806	3,403,520
September 1, 2007 - September 30, 2007				3,403,520
Total	1,770,806		1,769,806	

- (1) On July 17, 2006, ADTRAN's Board of Directors approved the repurchase of up to 5,000,000 shares of its common stock, under which ADTRAN had the remaining authority to purchase 173,326 shares as of June 30, 2007. On July 16, 2007, ADTRAN's Board of Directors approved additional repurchases of up to 5,000,000 shares of its common stock. This plan is being implemented through open market purchases from time to time as conditions warrant.
- (2) 1,000 shares delivered to ADTRAN as payment of the exercise price for employee stock options. None of the transactions with respect to these shares were made in the open market. The average price paid per share with respect to these transactions is based on the closing price of the common stock on the NASDAQ Global Market on the date of the transaction.
