SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

(Mark One)

Quarterly report pursuant to section 13 or 15 (d) of the Securities Exchange Act of 1934
For the quarterly period ended June 30, 2008 or

Transition report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
For the transition period from _____ to _____

Commission File Number: 000-50245

NARA BANCORP, INC.

(Exact name of registrant as specified in its charter)

Edgar Filing: NARA BANCORP INC - Form 10-Q

Delaware
(State or other jurisdiction of
incorporation or organization)

95-4849715
(IRS Employer

Identification Number)

3731 Wilshire Boulevard, Suite 1000, Los Angeles, California
(Address of Principal executive offices)

90010
(ZIP Code)

(213) 639-1700

(Registrant's telephone number, including area code)

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of accelerated filer and large accelerated filer in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller Reporting Company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of July 31, 2008, there were 26,197,672 outstanding shares of the issuer's Common Stock, \$0.001 par value.

Forward-Looking Information

Certain matters discussed in this report may constitute forward-looking statements under Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. There can be no assurance that the results described or implied in such forward-looking statements will, in fact, be achieved and actual results, performance, and achievements could differ materially because our business involves inherent risks and uncertainties. Risks and uncertainties include deterioration in economic conditions in our areas of operation; interest rate risk associated with volatile interest rates and related asset-liability matching risk; liquidity risks; risk of significant non-earning assets, and net credit losses that could occur, particularly in times of weak economic conditions or times of rising interest rates; risks of available for sale securities declining significantly in value as interest rates rise; and regulatory risks associated with the variety of current and future regulations as well as the possibility of regulatory enforcement actions to which we are subject. For additional information concerning these factors, see Item 1A. Risk Factors contained in our Annual Report on Form 10-K for the year ended December 31, 2007.

Notes to Condensed Consolidated Financial Statements (Unaudited)

1. Nara Bancorp, Inc.

Nara Bancorp, Inc. (Nara Bancorp , on a parent-only basis, and Company, we or our on a consolidated basis), incorporated under the laws of the State of Delaware in 2000, is a bank holding company, headquartered in Los Angeles, California, offering a full range of commercial banking and certain consumer financial services through its wholly owned subsidiary, Nara Bank (Nara Bank or the Bank). The Bank was organized in 1989 as a national bank and converted to a California state-chartered bank on January 3, 2005. It has branches in California, New York and New Jersey as well as Loan Production Offices in California, Georgia, Nevada, New Jersey, Texas and Virginia.

2. Basis of Presentation

Our condensed consolidated financial statements included herein have been prepared without an audit, pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). Certain information and footnote disclosures, normally included in consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America, have been condensed or omitted pursuant to such SEC rules and regulations.

The condensed consolidated financial statements include the accounts of Nara Bancorp and its wholly owned subsidiaries, principally Nara Bank. All intercompany transactions and balances have been eliminated in consolidation.

We believe that we have made all adjustments, consisting solely of normal recurring accruals, necessary to fairly present our financial position at June 30, 2008 and the results of our operations for the six months then ended. Certain reclassifications have been made to prior period amounts to conform to the current year presentation. The results of operations for the interim periods are not necessarily indicative of results for the full year.

These unaudited condensed consolidated financial statements should be read along with the audited consolidated financial statements and accompanying notes included in our 2007 Annual Report on Form 10-K.

3. Stock-Based Compensation

Effective January 1, 2006, we adopted the provisions of Statement of Financial Accounting Standards (SFAS) No. 123 (R) (SFAS 123 (R)), *Share-Based Payment* . SFAS 123 (R) establishes accounting for stock-based awards exchanged for employee services. Stock-based compensation cost is measured at grant date, based on the fair value of the award, and is recognized as expense over the employee requisite service period. We previously applied Accounting Principles Board (APB) Opinion No. 25, *Accounting for Stock Issued to Employees* and related Interpretations and provided the required pro forma disclosures of SFAS No. 123, *Accounting for Stock-Based Compensation* (SFAS 123).

The 2007 Plan, which was approved by our stockholders on May 31, 2007, provides for grants of stock options, stock appreciation rights (SARs), restricted stock, performance shares and performance units (sometimes referred to individually or collectively as awards) to non-employee directors, officers, employees, and consultants of the Company. Stock options may be either incentive stock options (ISOs), as defined in Section 422 of the Internal Revenue Code of 1986, as amended (the Code), or nonqualified stock options (NQSOs).

The board of directors believes the 2007 Plan is necessary to give the Company flexibility to (i) attract and retain qualified non-employee directors, executives and other key employees and consultants with appropriate equity-based awards, (ii) motivate high levels of performance, (iii) recognize employee contributions to the Company's success, and (iv) align the interests of 2007 Plan participants with those of the Company's stockholders. The exercise price for the shares underlying each award is the fair market

Table of Contents

value (FMV) on the date the award is granted. The exercise price for shares under an ISO may not be less than 100% of fair market value on the date the award is granted under Code Section 422. Similarly, under the terms of the 2007 Plan the exercise price for SARs and NQSOs may not be less than 100% of FMV on the date of grant. Performance units are awarded to a participant at the market price of the Company's common stock on the date of award (after the lapse of the restriction period and the attainment of the performance criteria). There is no minimum exercise price prescribed for performance shares and restricted stock awarded under the 2007 Plan.

ISOs, SARs and NQSOs have vesting periods of three to five years and have 10-year contractual terms. Restricted stock, performance shares, and performance units will be granted with a restriction period not less than one year from the grant date for performance-based awards and not less than three years from for time-based vesting of grants. Compensation expense for awards is recorded over the vesting period.

The 2007 Plan, reserves 1,070,000 shares for issuance plus the shares available for grant under the Nara Bancorp, Inc. 2001 Nara Bank 2000 Continuation Long Term Incentive Plan (the 2000 Plan) (not to exceed 230,000), for a maximum total of 1,300,000 shares available for issuance under the 2007 Plan. The total shares reserved for issuance will serve as the underlying value for all equity awards under the 2007 Plan. With the exception of the shares underlying stock options and restricted stock awards, the board of directors may choose to settle the awards by paying the equivalent cash value or by delivering the appropriate number of shares.

Upon the approval of the 2007 plan, 230,000 shares, which were available for future grants under the 2000 Plan, were used in the 2007 plan and 18,130 shares were canceled. The Company authorized 1,300,000 shares under the 2007 plan and 1,250,800 shares were available for future grants as of June 30, 2008.

The stock option plans adopted in 1989 and 2000, under which options and restricted units were previously granted to employees, officers, and directors of the Company are no longer active and no additional equity may be granted under either plan. Options under the 1989 and 2000 Plan were granted with an exercise price equal to the fair market value on the date of grant with vesting periods from three to five years and have 10-year contractual terms. Restricted units were awarded to a participant at the fair market value of the Company's common stock on the date of award and all units will vest on the third anniversary of the grant. Compensation expense for the awards is recorded over the vesting period.

The fair value of each option is estimated on the date of grant using a Black-Scholes valuation model that uses the assumptions noted in the following table. Since this model incorporates ranges of assumptions for inputs, those ranges are disclosed. Expected stock price volatility is based on the historical volatility of our stock. We use historical data to estimate the option exercise and employee terminations within the valuation model. The expected term of options granted is derived from the output of the option valuation model and represents the period of time that options granted are expected to be outstanding. The risk-free interest rate for periods within the contractual life of the option is based on the U.S. Treasury yield curve in effect at the time of grant. For the six months ended June 30, 2008 and 2007, no stock options were granted.

Table of Contents

A summary of stock option activity under the Plan for the six months ended June 30, 2008 was as follows:

	Number of Shares	Weighted- Average Exercise Price Per Share	Weighted- Average Remaining Contractual Life (Years)	Aggregate Intrinsic Value
Outstanding - January 1, 2008	1,296,250	\$ 12.30		
Granted				
Exercised	(4,000)	8.64		
Forfeited/canceled				
Outstanding * - June 30, 2008	1,292,250	\$ 12.31	5.33	\$ 1,912,428

* Fully vested and expected to vest

Options exercisable - June 30, 2008	1,062,250	\$ 11.29	4.84	\$ 1,912,428
-------------------------------------	-----------	----------	------	--------------

The aggregate intrinsic value of options exercised for the six months ended June 30, 2008 and 2007 was \$16,000 and \$922,000, respectively. No tax benefits were realized for options exercised for the six months ending June 30, 2008 and 2007.

A summary of restricted and performance unit activity under the Plan for the six months ended June 30, 2008 was as follows:

	Number of Shares	Weighted- Average Grant Date Fair Value	Weighted- Average Remaining Contractual Life (Years)	Aggregate Intrinsic Value
Unvested - January 1, 2008	109,870	\$ 17.70		
Granted	34,200	11.99		
Vested				
Forfeited/canceled	(1,840)	18.38		
Unvested - June 30, 2008	142,230	\$ 16.32	8.66	\$ 1,526,128

Table of Contents

The amount charged against income, before income tax benefit of \$149,000 and \$120,000, in relation to the stock-based payment arrangements was \$405,000 and \$356,000 for the three months ending June 30, 2008 and 2007, respectively. The amount charged against income, before income tax benefit of \$282,000 and \$270,000, in relation to the stock-based payment arrangements was \$998,000 and \$773,000 for the six months ending June 30, 2008 and 2007, respectively. At June 30, 2008, unrecognized compensation expense related to non-vested stock option grants and restricted and performance units aggregated \$1,890,000, and is expected to be recognized over a weighted average vesting period of 1.3 years. The estimated annual stock-based compensation as of June 30, 2008 for each of the succeeding years is indicated in the table below:

	Stock Based Compensation Expense (In thousands)
Remainder of 2008	\$ 704
For the year ended December 31:	
2009	904
2010	262
2011	20
 Total	 \$ 1,890

4. Dividends

On June 20, 2008, we declared a \$0.0275 per share cash dividend which was paid on July 15, 2008 to stockholders of record at the close of business on June 30, 2008.

5. Earnings Per Share (EPS)

Basic EPS excludes dilution and is computed by dividing net income by the weighted average number of common shares outstanding for the period. Allocated ESOP shares are considered outstanding for this calculation. Diluted EPS reflects the potential dilution that could occur if stock options or other contracts to issue common stock were exercised or converted to common stock that would then share in our earnings. For the six months ended June 30, 2008 and 2007, stock options for 620,000 shares and 270,000 shares of common stock were excluded in computing diluted earnings per common share because they were antidilutive.

Table of Contents

The following table shows how we computed basic and diluted EPS for the three and six months ended June 30, 2008 and 2007.

	For the three months ended June 30,					
	2008			2007		
	Net Income (Numerator)	Shares (Denominator)	Per Share (Amount)	Net Income (Numerator)	Shares (Denominator)	Per Share (Amount)
(Dollars in thousands, except share and per share data)						
Basic EPS	\$ 1,853	26,195,035	\$ 0.07	\$ 8,770	26,165,254	\$ 0.34
Effect of Dilutive Securities:						
Stock Options		255,187			337,608	
Diluted EPS	\$ 1,853	26,450,222	\$ 0.07	\$ 8,770	26,502,862	\$ 0.33

	For the six months ended June 30,					
	2008			2007		
	Net Income (Numerator)	Shares (Denominator)	Per Share (Amount)	Net Income (Numerator)	Shares (Denominator)	Per Share (Amount)
(Dollars in thousands, except share and per share data)						
Basic EPS	\$ 7,626	26,194,353	\$ 0.29	\$ 16,078	26,144,445	\$ 0.61
Effect of Dilutive Securities:						
Stock Options		229,692			378,076	
Diluted EPS	\$ 7,626	26,424,045	\$ 0.29	\$ 16,078	26,522,521	\$ 0.61

6. Recent Accounting Pronouncements

In September 2006, the FASB issued Statement No. 157, *Fair Value Measurements*. This Statement defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. This Statement establishes a fair value hierarchy about the assumptions used to measure fair value and clarifies assumptions about risk and the effect of a restriction on the sale or use of an asset. The standard is effective for fiscal years beginning after November 15, 2007. In February 2008, the FASB issued Staff Position (FSP) 157-2, *Effective Date of FASB Statement No. 157*. This FSP delays the effective date of FAS 157 for all nonfinancial assets and nonfinancial liabilities, except those that are recognized or disclosed at fair value on a recurring basis (at least annually) to fiscal years beginning after November 15, 2008, and interim periods within those fiscal years. The impact of adoption was not material to the Company's consolidated financial condition or results of operations. See footnote 13. Fair Value Measurements for further discussion.

In September 2006, the FASB issued SFAS No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans*, which requires employers to fully recognize obligations associated with single-employer defined benefit pension, retiree healthcare and other postretirement plans in their financial statements. The provisions of SFAS No. 158 require employers to (a) recognize in its statement of financial position an asset for a plan's overfunded status or a liability for a plan's underfunded status; (b) measure a plan's assets and its obligations that determine its funded status as of the end of the employer's fiscal year (with limited exceptions); and (c) recognize changes in the funded status of a defined benefit postretirement plan in the year in which the changes occur. These changes will be reported in comprehensive income in the statement of changes in stockholders' equity. Statement No. 158 applies to plan sponsors that are public and private companies and nongovernmental not-for-profit organizations. The requirement to recognize the funded status of a benefit plan and the disclosure requirements are effective as of the end of the fiscal year ending after December 15, 2006, for entities with publicly traded equity securities, and at the end of the fiscal year ending after June 15, 2007, for all other entities. The requirement to measure plan assets and benefit obligations as of the date of the employer's fiscal year-end statement of financial position is effective for fiscal years ending after December 15, 2008. The adoption of the measurement date provisions of this Statement will not have a material effect on the Company's consolidated financial condition or results of operations.

Table of Contents

In February 2007, the FASB issued Statement No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities- including an amendment of FASB Statement No. 115*. The standard provides companies with an option to report selected financial assets and liabilities at fair value and establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities. The Company did not elect the fair value option for any financial assets or financial liabilities as of January 1, 2008, the effective date of the standard.

On November 5, 2007, the SEC issued Staff Accounting Bulletin No. 109, *Written Loan Commitments Recorded at Fair Value through Earnings* (SAB 109). Previously, SAB 105, *Application of Accounting Principles to Loan Commitments* , stated that in measuring the fair value of a derivative loan commitment, a company should not incorporate the expected net future cash flows related to the associated servicing of the loan. SAB 109 supersedes SAB 105 and indicates that the expected net future cash flows related to the associated servicing of the loan should be included in measuring fair value for all written loan commitments that are accounted for at fair value through earnings. SAB 105 also indicated that internally-developed intangible assets should not be recorded as part of the fair value of a derivative loan commitment, and SAB 109 retains that view. SAB 109 is effective for derivative loan commitments issued or modified in fiscal quarters beginning after December 15, 2007. The impact of the adoption on January 1, 2008 was not material to the Company's consolidated financial condition or results of operations.

In September 2006, the FASB Emerging Issues Task Force finalized Issue No. 06-4, *Accounting for Deferred Compensation and Postretirement Benefit Aspects of Endorsement Split-Dollar Life Insurance Arrangements*. This issue requires that a liability be recorded during the service period when a split-dollar life insurance agreement continues after participant's employment or retirement. The required accrued liability will be based on either the post-employment benefits cost for the continuing life insurance or based on the future death benefit depending on the contractual terms of the underlying agreement. This issue is effective for fiscal years beginning after December 15, 2007. The impact of adoption on January 1, 2008 was not material to the Company's consolidated financial condition or results of operations.

On March 19, 2008, the FASB issued Statement No. 161, *Disclosures about Derivative Instruments and Hedging Activities - an Amendment of FASB Statement 133*. Statement 161 enhances required disclosures regarding derivatives and hedging activities, including enhanced disclosures regarding how: (a) an entity uses derivative instruments; (b) derivative instruments and related hedged items are accounted for under FASB Statement No. 133, *Accounting for Derivative Instruments and Hedging Activities*; and (c) derivative instruments and related hedged items affect an entity's financial position, financial performance, and cash flows. Statement 161 is effective for fiscal years and interim periods beginning after November 15, 2008. Management does not anticipate the Statement to have a material impact on the Company's consolidated financial condition or results or operations.

Table of Contents**7. Loans Receivable and Allowance for Loan Losses**

The following is a summary of loans receivable by major category:

	June 30, 2008	December 31, 2007
	(In thousands)	
Commercial loans	\$ 615,977	\$ 605,553
Real estate loans	1,474,204	1,369,826
Consumer and other loans	32,140	34,809
	2,122,321	2,010,188
Unamortized deferred loan fees, net of cost	(1,615)	(1,459)
Allowance for loan losses	(27,899)	(20,035)
Loans receivables, net	\$ 2,092,807	\$ 1,988,694

Activity in the allowance for loan losses is as follows for the periods indicated:

	Six months ended June 30,	
	2008	2007
	(In thousands)	
Balance, beginning of period	\$ 20,035	\$ 19,112
Provision for loan losses	14,645	2,330
Loan charge-offs	(6,886)	(2,927)
Loan recoveries	105	586
Balance, end of period	\$ 27,899	\$ 19,101

At June 30, 2008, December 31, 2007 and June 30, 2007, the Company had classified \$35.9 million, \$18.3 million and \$6.0 million, respectively, of its commercial and real estate loans as impaired, with specific loss allocations of \$12.1 million, \$3.1 million and \$1.1 million, respectively. \$20.4 million of the total impaired loans were commercial real estate loans at June 30, 2008, compared to \$10.3 million at December 31, 2007. \$5.1 million of the specific loss allocations related to such commercial real estate loans at June 30, 2008, compared to \$238 thousand at December 31, 2007.

At June 30, 2008, non-accrual loans totaled \$25.2 million compared to \$16.6 million at December 31, 2007 and \$5.8 million at June 30, 2007. At June 30, 2008, December 31, 2007 and June 30, 2007, there were no loans past due more than 90 days and still accruing interest.

During December 2006, the regulatory authorities issued a new interagency policy statement on accounting for the allowance for loan and lease losses. Among other things, use of industry or regulatory benchmarks or standards, peer medians or target ratios was deemed inappropriate under the new policy statement. Instead, the policy statement pointed to use of an institution's own historical loss experience for any quantitatively derived allowance, and management's judgment on qualitative or environmental factors in determining the appropriate level of loss allowances. Accordingly, in 2007 and 2008 we made certain changes in our methodology to more closely tie allocations to actual loss experience by loan types, moving away from regulatory benchmarks, which in some cases were higher than our actual loss experience. The decision to use our historical loss experience was based on our study of the loss experience of our loan portfolio and concluding that our actual loss experience is a better indicator of future losses.

Table of Contents

In setting qualitative and environmental factors during the year, we increased the subjective factors for economic conditions based on deterioration in the economy during 2007 and the first half of 2008. We also increased the factors relating to the trends in classified loans and delinquencies due to the increases in these items during the year. Offsetting these increases, we decreased the qualitative factors related to policies and the nature and volume of loans due to improvements in our credit monitoring processes throughout 2007. In particular, we've decreased the number of days delinquent that we use to start monitoring delinquencies, and we've centralized our processes for monitoring delinquent loans to ensure that we have consistent processes. We've also increased our staffing in our Special Assets Department, to better manage classified and criticized loans to ensure timely loan workouts and collections. Therefore, although the level of classified loans and charge-offs increased during 2007 and the first half of 2008, the re-allocation of loss allowances based on actual loss experience from regulatory benchmarks partially offset the increase in loss allowances required for specific problem loans.

Excluding specific loss allocations, the allowance for loan losses on the non-impaired loan portfolio was 0.76% of non-impaired loans at June 30, 2008, compared to 0.85% of non-impaired loans at December 31, 2007.

At June 30, 2008 and December 31, 2007 non-impaired commercial real estate loans, amounting to \$1.44 billion and \$1.36 billion, respectively, had allocated loss allowances of \$9.5 million and \$12.3 million, respectively. The loss coverage ratio was 0.66% at June 30, 2008, compared to 0.91% at December 31, 2007. Although the allowance for loan losses on non-impaired commercial real estate loans declined from 91 basis points to 66 basis points during the six months, the loss coverage is substantially higher than the three year average annual historical loss experience of 9 basis points as of June 30, 2008.

8. FHLB Borrowings

The Company maintains a secured credit facility with the Federal Home Loan Bank of San Francisco (FHLB SF) against which the Company may take advances. The borrowing capacity is limited to the lower of 25% of the Bank's total assets or collateral capacity, which was \$561.7 million at June 30, 2008. The terms of this credit facility require the Company to pledge with the FHLB, eligible collateral of at least 100% of outstanding advances. Effective July 17, 2008, our borrowing capacity from the FHLB increased from 25% to 30% of the Bank's total assets.

At June 30, 2008 and December 31, 2007, real estate secured loans with a carrying amount of approximately \$1.1 billion and \$1.0 billion, respectively, were pledged as collateral for borrowings from the FHLB. At June 30, 2008 and December 31, 2007, in addition to our FHLB stock, securities with carrying values of \$0 and \$17.1 million, respectively, were pledged as collateral for borrowings from the FHLB.

At June 30, 2008 and December 31, 2007, FHLB borrowings were \$350 million and \$297 million, respectively, had a weighted average interest rate of 3.76% and 4.16%, respectively, and had various maturities through September 2016. At June 30, 2008, \$189 million of the advances were puttable advances with various puttable dates and strike prices. During the first six months of 2008, the Bank obtained \$246 million of additional FHLB advances, and repaid \$193 million during the same period. The new advances have a weighted average cost of 2.91% with average remaining maturities of 3.1 years. The cost of FHLB borrowings as of June 30, 2008 ranged between 2.42% and 4.63%. At June 30, 2008, the Company had a remaining borrowing capacity of \$211.7 million.

On July 1, 2008, the Company was advised by the FHLB-SF that its request for an unsecured line of credit, with overnight terms, had been approved. The maximum borrowing line cannot exceed 18% of the Bank's Tier1 capital. The line is subject to market conditions and the Bank's financial condition, and is provided at the sole discretion of the FHLB-SF.

Table of Contents

At June 30, 2008, the contractual maturities for FHLB borrowings were as follows:

	Contractual Maturities	Maturity/ Put Date
	(In thousands)	
Due within one year	\$ 10,000	\$ 194,000
Due after one year through five years	225,000	156,000
Due after five years through ten years	115,000	
	\$ 350,000	\$ 350,000

9. Subordinated Debentures

At June 30, 2008, five wholly-owned subsidiary grantor trusts established by Nara Bancorp had issued \$38 million of pooled trust preferred securities (trust preferred securities). Trust preferred securities accrue and pay distributions periodically at specified annual rates as provided in the indentures. The trusts used the net proceeds from the offering to purchase a like amount of subordinated debentures (the debentures) of Nara Bancorp. The debentures are the sole assets of the trusts. The Bancorp's obligations under the subordinated debentures and related documents, taken together, constitute a full and unconditional guarantee by Nara Bancorp of the obligations of the trusts. The trust preferred securities are mandatorily redeemable upon the maturity of the debentures, or upon earlier redemption as provided in the indentures. Nara Bancorp has the right to redeem the debentures in whole (but not in part) on or after specific dates, at a redemption price specified in the indentures plus any accrued but unpaid interest to the redemption date.

The debentures are not redeemable prior to June 8, 2011 with respect to Nara Bancorp Capital Trust I, September 15, 2008 with respect to Nara Capital Trust III, January 7, 2009 with respect to Nara Statutory Trust IV, December 17, 2008 with respect to Nara Statutory Trust V, and March 15, 2012 with respect to Nara Statutory Trust VI unless certain events have occurred.

The following table is a summary of trust preferred securities and debentures at June 30, 2008:

Issuance Trust	(Dollars in Thousands)		Rate Type	Initial Rate	Rate at 06/30/08	Maturity Date	
	Trust Issuance Date	Preferred Security Amount					Subordinated Debentures Amount
Nara Bancorp Capital Trust I	03/28/2001	\$ 10,000	\$ 10,400	Fixed	10.18%	10.18%	06/08/2031
Nara Capital Trust III	06/05/2003	5,000	5,155	Variable	4.44%	5.93%	06/15/2033
Nara Statutory Trust IV	12/22/2003	5,000	5,155	Variable	4.02%	5.56%	01/07/2034
Nara Statutory Trust V	12/17/2003	10,000	10,310	Variable	4.12%	5.76%	12/17/2033
Nara Statutory Trust VI	03/22/2007	8,000	8,248	Variable	7.00%	4.43%	06/15/2037
TOTAL ISSUANCE		\$ 38,000	\$ 39,268				

Table of Contents**10. Derivative Financial Instruments and Hedging Activities**

As part of our asset and liability management strategy, we may enter into derivative financial instruments, such as interest rate swaps, caps, and floors, with the overall goal of minimizing the impact of interest rate fluctuations on our net interest margin. Interest rate swaps and caps involve the exchange of fixed-rate and variable-rate interest payment obligations without the exchange of the underlying notional amounts.

In January of 2008, the Company entered into five interest swap agreements with an aggregate notional amount of \$50 million. Under these swap agreements, the Company receives a floating rate, resetting semi-annually based on the 6 Month London-Interbank Offered Rate (6 Mo. LIBOR), and pays a fixed rate of 3.57%, for the next two years. These interest rate swap agreements are considered, free-standing, due to non-designation of a hedge relationship to any of its financial assets or liabilities. Under SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*, as amended, valuation gains or losses on interest rate swaps not designated as hedging instrument are recognized currently in earnings.

Interest rate swap information at June 30, 2008 is summarized as follows:

Current Notional Amount	Floating Rate	Fixed Rate (Dollars in thousands)	Maturity Date	Fair Value
\$10,000	6 Mo. LIBOR	3.57%	01/14/2010	\$ 21
10,000	6 Mo. LIBOR	3.57%	01/14/2010	21
10,000	6 Mo. LIBOR	3.57%	01/14/2010	21
10,000	6 Mo. LIBOR	3.57%	01/14/2010	21
10,000	6 Mo. LIBOR	3.57%	01/14/2010	21
\$50,000				\$ 105

As of June 30, 2008, the fair value of the outstanding interest rate swaps was \$105 thousand compared to a loss of \$718 thousand at March 31, 2008. During January 2008, the Company terminated the \$50 million of interest rate swaps that were outstanding at December 31, 2007. The gain of \$247,000, net of tax, on termination of the swaps is being amortized into income over the remaining life of the swap. \$42,000, net of tax of \$28,000, was recognized into income during the six months ended June 30, 2008.

11. Business Segments

Our management utilizes an internal reporting system to measure the performance of our various operating segments. We have identified three principal operating segments for the purposes of management reporting: banking operations, trade finance services (TFS), and small business administration (SBA) lending services. Information related to our remaining centralized functions and eliminations of inter-segment amounts has been aggregated and included in banking operations. Although all three operating segments offer financial products and services, they are managed separately based on each segment's strategic focus. The banking operations segment focuses primarily on commercial and consumer lending and deposit operations throughout our branch network. The TFS segment focuses primarily on allowing our import/export customers to handle their international transactions. Trade finance products include the issuance and collection of letters of credit, international collection, and import/export financing. The SBA segment primarily provides our customers with access to the U.S. SBA guaranteed lending program through our loan production offices located in major metropolitan cities across the country. The SBA segment also makes commercial real estate and commercial business loans, which are not under the SBA guarantee program.

Table of Contents

Operating segment results are based on our internal management reporting process, which reflects assignments and allocations of capital, certain operating and administrative costs and the provision for loan losses. Non-interest income and non-interest expense, including depreciation and amortization, directly attributable to a segment are assigned to that business. We allocate indirect costs, including overhead expense, to the various segments based on several factors, including, but not limited to, full-time equivalent employees, loan volume and deposit volume. We allocate the provision for loan losses based on the origination of new loans for the period. We evaluate the overall performance based on profit or loss from operations before income taxes excluding gains and losses that are not expected to reoccur. Future changes in our management structure or reporting methodologies may result in changes to the measurement of our operating segment results.

The following tables present the operating results and other key financial measures for the individual operating segments for the three and six months ended June 30, 2008 and 2007.

Three Months Ended June 30,**(Dollars in thousands)**

	Business Segment			
	Banking Operations	TFS	SBA	Company
2008				
Net interest income, before provision for loan losses	\$ 19,652	\$ 1,139	\$ 3,365	\$ 24,156
Less provision for loan losses *	414	2,515	6,723	9,652
Non-interest income	1,674	536	1,115	3,325
Net revenue	20,912	(840)	(2,243)	17,829
Non-interest expense	11,680	846	2,314	14,840
Income (loss) before income taxes	\$ 9,232	\$ (1,686)	\$ (4,557)	\$ 2,989
Goodwill	\$ 2,697	\$	\$	\$ 2,697
Total assets	\$ 2,025,083	\$ 192,631	\$ 355,870	\$ 2,573,584
2007				
Net interest income, before provision for loan losses	\$ 18,707	\$ 1,529	\$ 3,974	\$ 24,210
Less provision for loan losses	860	160	330	1,350
Non-interest income	2,350	728	3,033	6,111
Net revenue	20,197	2,097	6,677	28,971
Non-interest expense	11,164	1,083	1,816	14,063
Income before income taxes	\$ 9,033	\$ 1,014	\$ 4,861	\$ 14,908
Goodwill	\$ 2,347	\$	\$	\$ 2,347
Total assets	\$ 1,683,676	\$ 188,013	\$ 344,284	\$ 2,215,973

* The increases in the provision for loan losses for the SBA segment and TFS segment during the three months ended June 30, 2008 are due to the increases in delinquency in the commercial real estate loan portfolios originated in those segments.

Table of Contents

Six Months Ended June 30,

(Dollars in thousands)

	Business Segment			
	Banking Operations	TFS	SBA	Company
2008				
Net interest income, before provision for loan losses	\$ 39,154	\$ 2,421	\$ 7,191	\$ 48,766
Less provision for loan losses *	1,512	2,550	10,583	14,645
Non-interest income	4,455	1,010	2,459	7,924
Net revenue	42,097	881	(933)	42,045
Non-interest expense **	23,248	1,690	4,333	29,271
Income (loss) before income taxes	\$ 18,849	\$ (809)	\$ (5,266)	\$ 12,774
Goodwill	\$ 2,697	\$	\$	\$ 2,697
Total assets	\$ 2,025,083	\$ 192,631	\$ 355,870	\$ 2,573,584
2007				
Net interest income, before provision for loan losses	\$ 36,708	\$ 2,875	\$ 7,362	\$ 46,945
Less provision for loan losses	1,500	250	580	2,330
Non-interest income	4,509	1,425	4,781	10,715
Net revenue	39,717	4,050	11,563	55,330
Non-interest expense	23,254	1,782	2,973	28,009
Income before income taxes	\$ 16,463	\$ 2,268	\$ 8,590	\$ 27,321
Goodwill	\$ 2,347	\$	\$	\$ 2,347
Total assets	\$ 1,683,676	\$ 188,013	\$ 344,284	\$ 2,215,973

* The increases in the provision for loan losses for the SBA segment and TFS segment during the three months ended June 30, 2008 are due to the increases in delinquency in the commercial real estate loan portfolios originated in those segments.

** The increase in non-interest expense for the SBA segment during the six months ended June 30, 2008 is primarily due to the decrease in the FAS 91 cost, which is deducted from salary expense, and to the valuation adjustment of a loan held for sale.

The SBA business segment primarily originates for sale and services SBA loans generated from our loan production offices and from branch referrals. It also originates commercial real estate loans and commercial business loans, not covered by the SBA guarantee program. Total SBA business segment assets at June 30, 2008 and 2007 included SBA loans (principally, the unguaranteed portion) of \$106.6 million and \$109.0 million; commercial real estate loans of \$219.0 million and \$192.4 million; and commercial business loans of \$16.7 million and \$21.3 million, respectively.

12. Income Taxes

Our Company and its subsidiaries are subject to U.S. federal income tax as well as income tax of the state of California as well as various other state income taxes. The Company is no longer subject to examination by federal taxing authorities for years before 2004 and by state taxing

Edgar Filing: NARA BANCORP INC - Form 10-Q

authorities for years before 2002. We did not recognize any adjustment in the liability for unrecognized tax benefits, as a result of adopting FIN 48 on January 1, 2007, that impacted the beginning retained earnings in 2007. The total amount of unrecognized tax benefits was \$228 thousand at June 30, 2008 and \$262 thousand at December 31, 2007 and is primarily for uncertainties related to income taxes for California enterprise zone loan interest deductions taken in prior years. The total amount of tax benefits that, if recognized, would favorably impact the effective tax rate was \$228 thousand and \$262 thousand at June 30 2008 and December 31, 2007, respectively. The amount of unrecognized tax benefits decreased this quarter due to a decrease in the exposure for disallowance of California enterprise zone loan interest deductions by the California Franchise Tax Board. We do not expect the total amount of unrecognized tax benefits to significantly increase in the next six months.

Table of Contents

We recognize interest and penalties related to income tax matters in income tax expense. We had approximately \$37 thousand and \$25 thousand for the payment of interest and penalties accrued at June 30, 2008 and December 31, 2007.

13. Fair Value Measurements

Statement No. 157, Fair Value Measurements, establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

Securities Available for Sale

The fair values of securities available for sale are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs) or matrix pricing, which is a mathematical technique widely used in the industry to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities relationship to other benchmark quoted securities (Level 2 inputs).

Impaired Loans

The fair values of impaired loans, which are collateral dependent, are based on a valuation model which incorporates the most current real estate appraisals available, as well as assumptions used to estimate the fair value of all non-real estate collateral as defined in the Bank's internal loan policy (Level 2 inputs).

Derivatives

The fair value of derivative financial instruments is based on derivative valuation models using market data inputs as of the valuation date (Level 2 inputs).

Assets and liabilities measured at fair value on a recurring basis are summarized below:

	June 30, 2008	Fair Value Measurements at June 30, 2008 Using Quoted Prices		
		in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
(In thousands)				
Assets:				
Securities available for sale	\$ 291,343	\$	\$ 291,343	\$
Impaired loans-collateral dependent	18,938		18,938	
Derivatives - Interest rate swaps	105		105	

Table of Contents

Impaired loans, which are measured for impairment using the fair value of the collateral for collateral dependent loans, had a carrying amount of \$31.0 million, with a valuation allowance of \$12.1 million as of June 30, 2008 and a carrying amount of \$21.3 million, with a valuation allowance of \$7.5 million as of March 31, 2008, resulting in an additional provision for loan losses of \$4.6 million and \$9.0 million for the three and six months ended June 30, 2008.

Fair value adjustments for interest rate swaps resulted in net income of \$481 thousand and \$175 thousand for the three and six months ended June 30, 2008.

14. Subsequent Event

On July 1, 2008, the Company received notification from the FHLB-SF that its request for an unsecured line of credit, with overnight terms, had been approved. The maximum borrowing cannot exceed 18% of the Bank's Tier1 capital. The line is subject to market conditions and the Bank's financial condition, and is provided at the sole discretion of the FHLB-SF. Based on Tier 1 capital of \$257 million at June 30, 2008 the line availability was \$46.3 million on a proforma basis.

In addition, on July 28, 2008, the Bank received notification from the FRB of SF that an application for a secured line of credit has been approved. Based on eligible collateral, our borrowing capacity would be approximately \$300 million.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

The following is management's discussion and analysis of the major factors that caused changes in our consolidated results of operations and financial condition as of and for the six months ended June 30, 2008.

GENERAL**Selected Financial Data**

The following table sets forth certain selected financial data concerning the periods indicated:

	At or for the Three Months Ended June 30, 2008		At or for the Six Months Ended June 30, 2007	
	(Dollars in thousands, except share and per share data)		(Dollars in thousands, except share and per share data)	
Income Statement Data:				
Interest income	\$ 41,787	\$ 43,076	\$ 86,147	\$ 83,868

Asset Quality Ratios:				
Allowance for loan losses to gross loans, excluding loans held for sale	1.32%	1.02%	1.32%	1.02%
Allowance for loan losses to non-performing loans	111.00%	331.79%	111.00%	331.79%
Total non-performing assets to total assets (6)	1.03%	0.27%	1.03%	0.27%

- (1) Calculations are based on annualized net income.
- (2) Efficiency ratio is defined as non-interest expense divided by the sum of net interest income and non-interest income.
- (3) Net interest margin is calculated by dividing annualized net interest income by average total interest-earning assets.
- (4) The required ratios for a well-capitalized institution are 5% leverage capital, 6% tier I risk-based capital and 10% total risk-based capital.
- (5) Calculations are based on average quarterly asset balances.
- (6) Non-performing assets include non-accrual loans, loans past due 90 or more and still accruing interest, other real estate owned, and restructured loans.

Table of Contents

Results of Operations

Overview

During the first half of 2008, we experienced growth in our total assets supported by growth in deposits and borrowings. Our total assets grew by 6.2%, or \$150.2 million, for the six months ended June 30, 2008 from \$2.4 billion at December 31, 2007 to \$2.6 billion at June 30, 2008. The increase in total assets for the period was primarily due to growth in our loans and security investments. Loan growth during the first half 2008 continued to be primarily from real estate loans, and deposit growth was primarily from wholesale time deposits.

Net income

Our net income for the three months ended June 30, 2008 was \$1.9 million, or \$0.07 per diluted share, compared to \$8.8 million, or \$0.33 per diluted share, for the same period of 2007, representing a decrease of \$6.9 million, or 78.9%. The decrease is primarily due to an increase in the provision for loan losses, recognition of an other-than-temporary impairment (OTTI) charge on a non-agency asset backed security, and a decrease in gains on sales of SBA loans.

The net income for the six months ended June 30, 2008 was \$7.6 million, or \$0.29 per diluted share, compared to \$16.1 million, or \$0.61 per diluted share, for the same period of 2007, representing a decrease of \$8.5 million, or 52.6%. The decrease also resulted primarily from an increase in the provision for loan losses, the OTTI charge mentioned above and a decrease in gains on sales of SBA loans, partially offset by an increase in net interest income and gains on sales of available-for-sale securities.

The annualized return on average assets was 0.29% for the second quarter of 2008, compared to 1.63% for the same period of 2007. The annualized return on average equity was 3.18% for the second quarter of 2008, compared to 17.53% for the same period of 2007. The efficiency ratio was 54.00% for the second quarter of 2008, compared to 46.38% for the same period of 2007.

The annualized return on average assets was 0.61% for the first half of 2008, compared to 1.52% for the same period of 2007. The annualized return on average equity was 6.62% for the first half of 2008, compared to 16.41% for the same period of 2007. The efficiency ratio was 51.63% for the first half of 2008, compared to 48.58% for the same period of 2007.

Net Interest Income and Net Interest Margin

Net Interest Income and Expense

The principal component of our earnings is net interest income, which is the difference between the interest and fees earned on loans and investments and the interest paid on deposits and borrowed funds. Net interest income expressed as a percentage of average interest-earning assets is defined as net interest margin. The net interest spread is the yield on average interest-earning assets less the cost of average funding liabilities (interest-bearing deposits and non-interest-bearing deposits and borrowed funds). Net interest income is affected by changes in the volume of interest-earning assets and funding liabilities as well as by changes in the yield earned on interest-earning assets and the rates paid on interest-bearing liabilities.

Net interest income before provision for loan losses was \$24.2 million for the quarter ended June 30, 2008, and remained flat compared to the second quarter of 2007.

Net interest income before provision for loan losses was \$48.8 million for the six months ended June 30, 2008, an increase of \$1.8 million, or 3.9%, compared to \$46.9 million for the same period of 2007. The increase was primarily due to an increase in average interest earning assets, which increased \$392.5 million, or 19.5%, over the prior year to \$2.40 billion at June 30, 2008 from \$2.01 billion at June 30, 2007.

Table of Contents

Interest income for the second quarter of 2008 was \$41.8 million, which represented a decrease of \$1.3 million, or 3.0%, over interest income of \$43.1 million for the same quarter of 2007. The decrease was the result of a \$8.2 million decrease in interest income due to a decrease in the average yield earned on average interest-earning assets (rate change), partially offset by a \$6.9 million increase in interest income due to an increase in the volume of those average interest-earning assets (volume change).

Interest income for the first half of 2008 was \$86.1 million, which represented an increase of \$2.3 million, or 2.7%, over interest income of \$83.9 million for the same period of 2007. The increase was the result of a \$14.5 million increase in interest income due to an increase in the volume of average interest-earning assets (volume change), partially offset by a \$12.2 million decrease in the interest income due to a decrease in the average yield earned on those average interest-earning assets (rate change).

Interest expense for the second quarter of 2008 was \$17.6 million, a decrease of \$1.2 million, or 6.5%, compared to interest expense of \$18.9 million for the same quarter of 2007. The decrease was primarily the result of a \$5.5 million decrease in interest expense due to a decrease in the average rates paid on interest-bearing liabilities (rate change), partially offset by \$4.2 million increase in interest expense due to an increase in the volume of average interest-bearing liabilities (volume change).

Interest expense for the first half of 2008 was \$37.4 million, an increase of \$458 thousand, or 1.2%, compared to interest expense of \$36.9 million for the same period of 2007. The increase was primarily the result of a \$8.1 million increase in interest expense due to an increase in the volume of average interest-bearing liabilities (volume change), partially offset by a \$7.7 million decrease in interest expense due to a decrease in the average rates paid on interest-bearing liabilities (rate change).

Net Interest Margin

Second quarter 2008 net interest income before provision for loan losses was \$24.2 million, the same as the second quarter 2007. The increase in net interest income resulting from interest-earning asset growth was offset by a decline in the net interest margin. Second quarter 2008 net interest margin (annualized net interest income divided by average interest-earning assets) decreased 75 basis points to 3.97% from 4.72% in the second quarter of 2007.

The weighted average yield on the loan portfolio for second quarter 2008 decreased 165 basis points to 7.19% from 8.84% for the same quarter last year. The decrease was the result of the prime rate-based portion of the loan portfolio repricing downward as market interest rates declined substantially beginning in third quarter 2007, and continued to decline during first half 2008, as a result of reductions in interest rates by the Federal Reserve. This was partially mitigated by the percentage of fixed rate loans in the portfolio increasing from 46% at June 30, 2007 to 51% at June 30, 2008. The weighted average yield on the variable rate and fixed rate portfolios (excluding loan discount accretion) at June 30, 2008 was 6.02% and 7.67%, respectively, compared to 9.22% and 7.73% at June 30, 2007.

The weighted average cost of deposits for second quarter 2008 decreased 92 basis points to 2.90% from 3.82% for the same quarter last year. The cost of time deposits decreased 157 basis points to 3.68% from 5.25%, accounting for a substantial portion of the decrease. The decrease in average non-interest bearing deposits to \$337 million from \$387 million adversely affected the cost of deposits.

The weighted average cost of FHLB advances for second quarter 2008 decreased 57 basis points to 3.74% from 4.31% for second quarter 2007, reflecting the decline in market interest rates.

Table of Contents

Following are selected weighted average data at June 30, 2008 and June 30, 2007:

	June 30, 2008	June 30, 2007
Weighted average loan portfolio yield (excluding discounts)	6.87%	8.54%
Weighted average cost of time deposits	3.45%	5.29%
Weighted average cost of deposits	2.75%	3.83%
Weighted average cost of total interest-bearing deposits	3.36%	4.94%
Weighted average cost of FHLB advances	3.76%	4.34%

Prepayment penalty income for second quarter 2008 and second quarter 2007 was \$580 thousand and \$524 thousand, respectively. Non-accrual interest income reversed was \$292 thousand and \$104 thousand for the three months ended June 30, 2008 and 2007, respectively. Excluding the effects of both non-accrual loan interest income and prepayment penalty income, the net interest margin for second quarter 2008 and 2007 was 3.92% and 4.64%, respectively.

First half 2008 net interest income before provision for loan losses was \$48.8 million, an increase of 3.9%, from \$46.9 million for the same period of 2007. The increase in net interest income was attributable to interest-earning asset growth, partially offset by a decline in net interest margin. First half 2008 net interest margin (annualized net interest income divided by average interest-earning assets) decreased 61 basis points to 4.06% from 4.67% in the first half of 2007.

The weighted average yield on the loan portfolio for first half 2008 decreased 126 basis points to 7.52% from 8.78% for the same period last year. The decrease is due to the same reason mentioned previously in the quarterly comparison.

The weighted average cost of deposits for first half 2008 decreased 65 basis points to 3.16% from 3.81% for the same period last year. The cost of time deposits decreased 113 basis points to 4.11% from 5.24%, accounting for a substantial portion of the decrease. The decrease in average non-interest bearing deposits to \$338 million from \$378 million adversely affected the cost of deposits.

The weighted average cost of FHLB advances for first half 2008 decreased 51 basis points to 3.75% from 4.26% for first half 2007, reflecting the decline in market interest rates.

Prepayment penalty income for the six months ended June 30, 2008 and 2007 was \$801 thousand and \$666 thousand, respectively. Non-accrual interest income reversed was \$133 thousand and \$452 thousand for the six months ended June 30, 2008 and 2007, respectively. Excluding the effects of both non-accrual loan interest income and prepayment penalty income, the net interest margin for the six months ended June 30, 2008 and 2007 was 4.00% and 4.65%, respectively.

Table of Contents

The following table presents our condensed consolidated average balance sheet information, together with interest rates earned and paid on the various sources and uses of funds for the periods indicated:

Edgar Filing: NARA BANCORP INC - Form 10-Q

* Annualized

- (1) Interest income on loans includes loan fees and net interest settlement from interest rate swaps.
- (2) Average balances of loans are net of deferred loan fees and costs and include nonaccrual loans and loans held for sale.
- (3) Interest income and yields are not presented on a tax-equivalent basis.
- (4) Non-accrual interest income reversed was \$292 thousand and \$104 for the three months ended June 30, 2008 and 2007, respectively.
- (5) Loan prepayment fee income excluded was \$580 thousand and \$524 thousand for the three months ended June 30, 2008 and 2007, respectively.

* Annualized

(1) Interest income on loans includes loan fees and net interest settlement from interest rate swaps.

(2) Average balances of loans are net of deferred loan fees and costs and include nonaccrual loans and loans held for sale.

(3) Interest income and yields are not presented on a tax-equivalent basis.

(4)

Edgar Filing: NARA BANCORP INC - Form 10-Q

Non-accrual interest income reversed was \$133 thousand and \$452 thousand for the six months ended June 30, 2008 and 2007, respectively.

- (5) Loan prepayment fee income excluded was \$801 thousand and \$666 thousand for the six months ended June 30, 2008 and 2007, respectively.

Table of Contents

The following table illustrates the changes in our interest income, interest expenses, and amounts attributable to variations in interest rates and volumes for the periods indicated. The variances attributable to simultaneous volume and rate changes have been allocated to the changes due to volume and the changes due to rate categories in proportion to the relationship of the absolute dollar amount attributable solely to the change in volume and to the change in rate.

Table of Contents**Provision for Loan Losses**

The provision for loan losses reflects our judgment of the current period cost associated with credit risk inherent in our loan portfolio. The loan loss provision for each period is dependent upon many factors, including loan growth, net charge-offs, changes in the composition of the loan portfolio, delinquencies, assessments by management, third parties and regulators examination of the quality of the loan portfolio, the value of the underlying collateral on problem loans and the general economic conditions in our market areas. Specifically, the provision for loan losses represents the amount charged against current period earnings to achieve an allowance for loan losses that, in our judgment, is adequate to absorb probable incurred losses inherent in our loan portfolio. Periodic fluctuations in the provision for loan losses result from management's assessment of the adequacy of the allowance for loan losses; however, actual loan losses may vary from current estimates. If the allowance for loan losses is inadequate, it could have a material adverse effect on our financial condition. See Footnote 7 of the Notes to Condensed Consolidated Financial Statements (unaudited) and Financial Condition-Allowance for Loan Losses for further discussion.

Non-interest Income

Non-interest income includes revenues earned from sources other than interest income. It is primarily comprised of service fees on deposits accounts, fees received from our TFS letter of credit operations, and net gains on SBA mortgage banking activities and net gains on sales of securities available for sale.

Non-interest income for the second quarter of 2008 was \$3.3 million compared to \$6.1 million for the same quarter of 2007, a decrease of \$2.8 million. This was due to a decrease in net gains on SBA mortgage banking activities and commercial real estate loans and an OTTI charge of \$1.7 million on a non-agency asset backed security with a book value of \$1.7 million. The impairment charge was due to a down grade of the security by one of the rating agencies. The security has been written down in full. The Bank has no other non-agency asset-backed securities in the investment portfolio. The decrease was partially offset by an increase in net gains on sales of securities available for sale. During the second quarter of 2008, we recognized \$393 thousand in net gains on sales of \$52.1 million of available-for-sale fixed rate agency securities, which were part of the Company's interest rate risk management strategy, and the exercise of calls by issuers on \$2.0 million of callable agency securities. No securities were sold during second quarter 2007. International service fees decreased 26.0% to \$517 thousand for the second quarter 2008 from \$699 thousand for the same quarter of 2007 due to the decrease in trade financing activities.

The net gains on SBA mortgage banking activities decreased \$1.2 million, or 69.5%, to \$530 thousand for the second quarter of 2008, compared to \$1.7 million for the same quarter of 2007. During second quarter 2008, we originated \$12.9 million of SBA loans compared to \$57.3 million during the same quarter of 2007, a substantial portion of which loans were either sold or held for sale. During second quarter 2008, we sold \$12.0 million of SBA loans, compared to \$33.4 million during the same quarter of 2007. The decrease in the net gains on SBA mortgage banking activities was primarily due to a decrease in SBA loans sold and a reduction in the average sale premium. The average premium decreased to 5.34% for the second quarter of 2008, compared to 7.62% for the same quarter of 2007. The net realized gains on sales of SBA loans for the second quarter of 2008 was 4.4% of the gross loans sold, compared to 5.2% during the same quarter of 2007.

The net gains on sales of other loans also decreased \$658 thousand, or 87.3%, to \$96 thousand for the second quarter of 2008, compared to \$754 thousand for the same period of 2007, primarily due to decrease in the amount of loans sold and the premium received. During second quarter of 2008, we sold \$8.8 million of other loans, compared to \$18.7 million during the same quarter of 2007. The average premium decreased to 1.09% for the second quarter of 2008 from 4.03% for the same period 2007. Other income and fees increased \$467 thousand, or 109.4%, to \$894 thousand for the second quarter of 2008, compared to \$427 thousand for the same period of 2007. The increase was primarily due to an increase in the net valuation of interest rate swaps of \$824 thousand during second quarter 2008 offset by the reversal of a gain of \$247 thousand on termination of the swap that was recognized during the first quarter of 2008.

Table of Contents

Non-interest income for the first half of 2008 was \$7.9 million compared to \$10.7 million for the same period of 2007, a decrease of \$2.8 million. This was primarily due to a decrease in net gains on SBA mortgage banking activities and commercial real estate loans and an OTTI charge of \$1.7 million on a non-agency asset backed security mentioned above. The decrease was partially offset by an increase in net gains on sales of securities available for sale. During the first half of 2008, we recognized \$860 thousand in net gains on sales of \$75.3 million of available-for-sale fixed rate MBS, which was part of the Company's interest rate risk management strategy, and the exercise of calls by issuers on \$20.1 million of callable agency securities. No securities were sold during the first half of 2007. International service fees decreased 29.7% to \$962 thousand for the first half of 2008 from \$1.4 million for the same quarter of 2007 due to the decrease in trade financing activities.

The net gains on SBA mortgage banking activities decreased \$1.7 million, or 57.9%, to \$1.2 million for the first half of 2008, compared to \$3.0 million for the same quarter of 2007. During the first half of 2008, we originated \$34.3 million of SBA loans compared to \$85.4 million during the same period of 2007. During the first half of 2008, we sold \$36.4 million of SBA loans, compared to \$58.4 million during the same period of 2007. The decrease in the net gains on SBA mortgage banking activities was primarily due to a decrease in SBA loans sold and a reduction in the average sale premium. The average premium decreased to 4.98% for the first half of 2008, compared to 7.59% for the same period of 2007. The net realized gains on SBA mortgage banking activities for the first half of 2008 was 3.42% of the gross loans sold, compared to 5.06% during the same period of 2007.

The net gains on sales of other loans also decreased \$573 thousand, or 76.0%, to \$181 thousand for the first half of 2008, compared to \$754 thousand for the same period of 2007, primarily due to decrease in the amount of loans sold and premium received. During first half of 2008, we sold \$11.7 million of other loans, compared to \$18.7 million during the same quarter of 2007. The average premium decreased to 1.55% for the first half of 2008 from 4.03% for the same period of 2007. Other income and fees increased \$389 thousand, or 57.3%, to \$1.1 million for the first half of 2008, compared to \$679 thousand for the same period of 2007. The increase was due to an increase in the net valuation gain of interest rate swaps of \$105 thousand during the first half of 2008, compared to loss of \$121 thousand during the same period of 2007.

The breakdown of changes in our non-interest income by category is illustrated below:

	Three Months Ended		Increase (Decrease)	
	June 30, 2008	June 30, 2007	Amount	Percent (%)
	(Dollars in thousands)

Net gains on SBA mortgage banking activities	1,245	2,957	(1,712)	-57.9%
Net gains on sales of other loans	181	754	(573)	-76.0%
Other than temporary impairment on securities	(1,713)		(1,713)	-100.0%
Total non-interest income	\$ 7,924	\$ 10,715	\$ (2,791)	-26.0%

Non-interest Expense

Non-interest expense for second quarter 2008 was \$14.8 million compared to \$14.1 million for the same quarter of 2007, an increase of \$777 thousand, or 5.5%. Salaries and employee benefits increased 10.9% to \$7.5 million during the second quarter of 2008, compared to \$6.7 million for the same quarter last year. The increase is due to annual salary increases and an increase in the number of employees, partially offset by a decrease in bonus expense.

Advertising and marketing expense increased 34.9% to \$653 thousand for the second quarter 2008 from \$484 thousand for the same quarter of 2007. The increase is primarily due to several deposit promotions launched during the second quarter of 2008. Professional fees decreased \$448 thousand, or 42.7%, to \$601 thousand for the second quarter of 2008, compared to \$1.0 million for the same quarter of 2007. This was primarily due to higher professional fees incurred during the second quarter of 2007 related to an arbitration matter, which was settled in third quarter 2007. Other non-interest expense increased 11.0%, or \$235 thousand, for the second quarter of 2008 primarily due to a \$334 thousand write-down to fair value of a loan that had been held for sale.

Non-interest expense for the first half of 2008 was \$29.3 million compared to \$28.0 million for the same period of 2007, an increase of \$1.3 million, or 4.5%. Salaries and employee benefits increased 12.3% to \$15.1 million during the first half of 2008, compared to \$13.4 million for the same period of 2007. The increase is due to annual salary increases, an increase in number of employees and an increase of \$225 thousand in stock based compensation expense. Professional fees decreased \$762 thousand, or 40.2%, to \$1.1 million for the first half of 2008, compared to \$1.9 million for the same period of 2007 for the same reasons noted in the quarter to date discussion. Included in the \$4.4 million of other non-interest expense was the \$334 thousand write-down of the loan held for sale mentioned above.

The change in non-interest expense is illustrated below:

	Three Months Ended		Increase (Decrease)	
	June 30, 2008	June 30, 2007	Amount	Percent (%)
	(Dollars in thousands)

Provision for Income Taxes

Income taxes were \$1.1 million and \$6.1 million for the three months ended June 30, 2008 and 2007, respectively. The effective tax rate for the quarters ended June 30, 2008 and 2007 was 38.0% and 41.2%, respectively. Income taxes were \$5.1 million and \$11.2 million for the six months ended June 30, 2008 and 2007, respectively. The lower effective tax rate for the second quarter of 2008 was primarily due to increases in certain tax credits. The effective tax rate for the six months ended June 30, 2008 and 2007 was 40.3% and 41.2%, respectively.

Financial Condition

At June 30, 2008, our total assets were \$2.6 billion, an increase of \$150.2 million, or 6.2%, from \$2.4 billion at December 31, 2007. The growth was primarily due to increases in the loan portfolio, funded by growth in deposits and borrowings from the Federal Home Loan Bank.

Loan Portfolio

As of June 30, 2008, gross loans, excluding loans held for sale (net of deferred loan fees and costs) increased by \$112.0 million, or 5.6%, to \$2.1 billion from \$2.0 billion at December 31, 2007. Commercial loans, which include domestic commercial, international trade finance and SBA-commercial loans, at June 30, 2008 increased by \$10.4 million, or 1.7%, to \$616.0 million from \$605.6 million at December 31, 2007. Real estate loans, which include SBA-real estate loans, increased by \$104.4 million, or 7.6%, to \$1.47 billion at June 30, 2008 from \$1.37 billion at December 31, 2007.

Table of Contents

The following table summarizes our loan portfolio by amount and percentage of gross loans in each major loan category at the dates indicated:

	June 30, 2008		December 31, 2007	
	Amount	Percent	Amount	Percent
(In thousands)				
Loan Portfolio Composition:				
Commercial loans	\$ 615,977	29%	\$ 605,553	30%
Real estate loans	1,474,204	69%	1,369,826	68%
Consumer and other loans	32,140	2%	34,809	2%
Gross loans outstanding	2,122,321	100%	2,010,188	100%
Unamortized deferred loan fees, net of costs	(1,615)		(1,459)	
Allowance for loan losses	(27,899)		(20,035)	
Loans receivable, net	\$ 2,092,807		\$ 1,988,694	

SBA loans, consisting principally of the unguaranteed portion, are included in commercial loans and real estate loans. SBA loans included in commercial loans were \$48.2 million at June 30, 2008 and \$52.4 million at December 31, 2007 and SBA loans included in real estate loans were \$58.4 million at June 30, 2008 and \$58.8 million at December 31, 2007.

We normally do not extend lines of credit or make loan commitments to business customers for periods in excess of one year. We use the same credit policies in making commitments and conditional obligations as we do for extending loan facilities to our customers. We perform annual reviews of such commitments prior to renewal.

The following table shows our loan commitments and letters of credit outstanding at the dates indicated:

	June 30, 2008	December 31, 2007
	(Dollars in thousands)	
Loan commitments	\$ 173,069	\$ 224,837
Standby letters of credit	10,551	15,231
Other commercial letters of credit	29,284	18,552
	\$ 212,904	\$ 258,620

Non-performing Assets

At June 30, 2008, nonperforming assets, which include non-accrual loans, loans past due 90 days or more and still accruing interest, restructured loans, and other real estate owned, were \$26.6 million, an increase of \$9.2 million, or 53.5%, from \$17.4 million at December 31, 2007. Nonperforming assets to total assets was 1.03% and 0.72% at June 30, 2008 and December 31, 2007, respectively. At June 30, 2008, nonperforming loans were \$25.2 million, an increase of \$8.6 million, from \$16.6 million at December 31, 2007. The net increase in non-performing assets was primarily the result of the continued slowdown in the economy.

The following table summarizes the composition of our nonperforming assets as of the dates indicated.

Table of Contents

	June 30, 2008	December 31, 2007
	(Dollars in thousands)	
Nonaccrual loans	\$ 25,222	\$ 16,592
Loan past due 90 days or more, still accruing		
Total Nonperforming Loans	25,222	16,592
Other real estate owned		
Restructured loans	1,414	765
Total Nonperforming Assets	\$ 26,636	\$ 17,357
Nonperforming loans to total gross loans, excluding loans held for sale	1.19%	0.83%
Nonperforming assets to total assets	1.03%	0.72%

Allowance for Loan Losses

The allowance for loan losses was \$27.9 million at June 30, 2008, compared to \$20.0 million at December 31, 2007 and \$19.1 million at June 30, 2007. We recorded a provision for loan losses of \$14.6 million during the six months ended June 30, 2008 compared to \$2.3 million for the same period of 2007. The allowance for loan losses was 1.32% of gross loans, excluding loans held for sale, at June 30, 2008, 1.00% at December 31, 2007 and 1.02% at June 30, 2007. Impaired loans totaled \$35.9 million, \$18.3 million and \$6.0 million, respectively as of June 30, 2008, December 31, 2007 and June 30, 2007 with specific loss allocations of \$12.1 million, \$3.1 million and \$1.1 million, respectively. Total watch list loans, at June 30, 2008, consisted of special mention and classified loans totaling \$58.1 million, compared to \$30.8 million at December 31, 2007.

We believe the allowance for loan losses as of June 30, 2008 is adequate to absorb probable incurred losses in the loan portfolio. However, no assurance can be given that actual losses will not exceed the estimated amounts.

For further discussion on changes to the allowance for loan losses, see footnote 7, Loans Receivable and Allowance for Loan Losses in the Notes to Condensed Consolidated Financial Statements (unaudited), included in Item 1. Financial Statements.

The following table provides a breakdown of the allowance for loan losses by category of loans at June 30, 2008 and December 31, 2007:

(Dollars in thousands)	Allocation of Allowance for Loan Losses			
	June 31, 2008		December 31, 2007	
Loan Type	Amount	% of Loans in Each Category to Total Loans	Amount	% of Loans in Each Category to Total Loans
Real estate	\$ 14,671	69%	\$ 12,283	68%
Commercial	12,703	29%	7,012	30%
Consumer	411	2%	643	2%
Unallocated	114	N/A	97	N/A
Total allowance	\$ 27,899	100%	\$ 20,035	100%

Table of Contents

The following table shows the provisions made for loan losses, the amount of loans charged off and the recoveries on loans previously charged off, together with the balance in the allowance for loan losses at the beginning and end of each period, the amount of average and gross loans outstanding, and other pertinent ratios as of the dates and for the periods indicated:

Balance-end of period	\$ 27,899	\$ 19,101
Net loan charge-offs to average gross loans *	0.65%	0.26%
Allowance for loan losses to total loans at end of period	1.32%	1.02%
Net loan charge-offs to beginning allowance *	67.69%	24.50%
Net loan charge-offs to provision for loan losses	46.30%	100.47%

* Annualized

(1) Total loans are net of deferred loan fees and costs of \$1,615,000 and \$1,991,000 at June 30, 2008 and 2007, respectively. Net loan charge-offs during second quarter 2008 were \$4.9 million, or 0.93% of average loans on an annualized basis, compared to \$1.0 million, or 0.22% of average loans on an annualized basis during second quarter 2007. Second quarter 2008 charge-offs include a partial charge-off of \$2.1 million for a construction loan participation, which was fully reserved for at March 31, 2008. Excluding this loan, the second quarter 2008 charge-offs primarily consisted of loans to retail businesses averaging approximately \$100 thousand per loan. In addition to the construction loan participation, the majority of the remaining loan charge-offs recorded in the second quarter of 2008 were reserved for at March 31, 2008.

Table of Contents**Investment Securities Portfolio**

We classify our securities as held-to-maturity or available-for-sale under SFAS No. 115. Those securities that we have the ability and intent to hold to maturity are classified as held-to-maturity securities. All other securities are classified as available-for-sale. We did not own any held to maturity or trading securities at June 30, 2008 or December 31, 2007. Securities that are available for sale are stated at fair value. The securities we currently hold are government-sponsored agency bonds, asset-backed securities, collateralized mortgage obligations, mortgage backed securities, corporate notes and mutual funds.

As of June 30, 2008, we had \$291.3 million in available-for-sale securities, compared \$258.8 million at December 31, 2007. The total net unrealized loss on the available-for sale securities at June 30, 2008 was \$3.7 million compared to net unrealized loss of \$673 thousand at December 31, 2007. During the first six months of 2008, a total of \$164.5 million in securities available-for-sale were purchased and \$75.3 million in available-for-sale agency securities were sold. From these sales, we recognized gross gains of \$865.3 thousand and a gross loss of \$10 thousand. We also recognized \$4 thousand in gains from called securities, options on which were exercised by issuers of \$20.1 million of callable agency securities. The sales of securities were part of our on-going interest rate risk management strategy.

Securities with a carrying value of \$6.1 million were pledged to secure public deposits and for other purposes as required or permitted by law as of June 30, 2008. Securities with a carrying value of \$229.4 million were pledged for California State Treasurer deposits, as of June 30, 2008.

The following table summarizes the amortized cost, estimated fair value and distribution of our investment securities portfolio as of the dates indicated:

Investment Portfolio

	Amortized Cost	At June 30, 2008		Estimated Fair Value
		Gross Unrealized Gains	Gross Unrealized Losses	
(In thousands)				
Available for Sale				
Debt securities:				
U.S. Government agency	\$ 15,990	\$ 4	\$ (283)	\$ 15,711
Collateralized mortgage obligations	126,305	1,334	(1,207)	126,432
Mortgage-backed securities	142,851	135	(2,986)	140,000
U.S. Corporate notes	4,436		(576)	3,860
Total debt securities	289,582	1,473	(5,052)	286,003
Mutual funds	5,462		(122)	5,340
	\$ 295,044	\$ 1,473	\$ (5,174)	\$ 291,343

Table of Contents

	Amortized Cost	At December 31, 2007		Estimated Fair Value
		Gross Unrealized Gains	Gross Unrealized Losses	
(In thousands)

	\$ 259,446	\$ 1,305	\$ (1,978)	\$ 258,773

The following table shows our investments' gross unrealized losses and estimated fair value, aggregated by investment category and the length of time that individual securities have been in a continuous unrealized loss position at June 30, 2008.

Description of Securities	Unrealized Loss for Less than 12 months		Unrealized Loss for 12 months or longer		Total	
	Fair Value	Gross Unrealized Losses	Fair Value	Gross Unrealized Losses	Fair Value	Gross Unrealized Losses
U.S. Government agency	\$ 12,707	\$ (283)	\$	\$	\$ 12,707	\$ (283)
Collateralized mortgage obligations	68,329	(658)	14,947	(549)	83,276	(1,207)
Mortgage-backed securities	126,626	(2,712)	5,496	(274)	132,122	(2,986)
U.S. Corporate notes	3,860	(576)			3,860	(576)
Mutual funds	5,340	(122)			5,340	(122)
	\$ 216,862	\$ (4,351)	\$ 20,443	\$ (823)	\$ 237,305	\$ (5,174)

We evaluate securities for other-than-temporary impairment on at least a quarterly basis, and more frequently when economic or market concerns warrant such evaluation. Consideration is given to the length of time and the extent to which the fair value has been less than cost; the financial condition and near-term prospects of the issuer, and our intent and ability to retain our investment in the issuer for a period of time sufficient to allow for any anticipated recovery in fair value. In analyzing an issuer's financial condition, we may consider whether the securities are issued by the federal government or its agencies, whether downgrades by bond rating agencies have occurred, and the results of reviews of the issuer's financial condition.

During the second quarter 2008, we received a downgrade notification from one of the rating agencies on a non-agency asset-backed security. The downgrade reduced the credit rating from investment grade to substantially below investment grade, requiring an OTTI charge of \$1.7 million to write down the security value to zero. We have no other non-agency asset-backed securities in portfolio.

Except as noted above, we consider the losses on our investments in an unrealized loss position at June 30, 2008 to be temporary based on: 1) the information relative to the extent and duration of the decline in market value; 2) the likelihood of recovery; and 3) the Company's intent and ability to hold these securities until maturity or full principal repayment.

Table of Contents
Deposits and Other Borrowings

Deposits. Deposits are our primary source of funds used in our lending and investment activities. At June 30, 2008, our deposits had increased by \$95.2 million, or 5.2%, to \$1.93 billion from \$1.83 billion at December 31, 2007. Since December 31, 2007, retail deposits decreased \$74.9 million as demand deposits and retail time deposits declined. Offsetting this decrease, wholesale deposits increased by \$170.0 million, as brokered CDs increased \$130.1 million to \$251.9 million and State Treasurer deposits increased \$40.0 million to \$200.0 million. These wholesale deposits have been substantially cheaper funding sources during the first half of 2008, and repriced down from 4.50% at December 31, 2007 to 2.77% at June 30, 2008. The retail jumbo deposits decreased to \$565.6 million at June 30, 2008, compared to \$618.2 million at December 31, 2007. Total jumbo time deposits, which included wholesale deposits, totaled \$1.0 billion, an increase of \$117.2 million, or 13.0%, from \$900.0 million at December 31, 2007. Interest-bearing demand deposits, including money market and super now accounts, totaled \$267.0 million at June 30, 2008, an increase of \$6.8 million or 2.6% from \$260.2 million at December 31, 2007. The increase in money market accounts was primarily due to our money market deposit campaign during the first half of 2008.

At June 30, 2008, 18.2% of total deposits were non-interest bearing demand deposits, 60.4% were time deposits, and 21.4% were interest bearing demand and saving deposits. By comparison, at December 31, 2007 19.9% of total deposits was non-interest bearing demand deposits, 58.1% were time deposits, and 22.0% were interest bearing demand and saving deposits. Time deposits continued to dominate the deposit composition primarily due to the current rate sensitive market environment.

At June 30, 2008, we had a total of \$251.9 million in brokered deposits and \$200.0 million in California State Treasurer deposits compared to \$121.8 million and \$160.0 million at December 31, 2007, respectively. During the first six months of 2008, we paid off \$109.1 million in brokered deposits. The weighted average life of the brokered deposits is 0.6 years with a weighted average rate of 3.57%. The California State Treasurer deposits were three-month maturities with a weighted average interest rate of 1.81% at June 30, 2008 and were collateralized with securities with a carrying value of \$229.4 million.

Other Borrowings. Advances may be obtained from the Federal Home Loan Bank of San Francisco (FHLB) as an alternative source of funds. Advances from the FHLB are typically secured by a pledge of mortgage loans and/or securities with a market value at least equal to the outstanding advances plus our investment in FHLB stock.

At June 30, 2008 and December 31, 2007, respectively, we had \$350.0 million and \$297.0 million of FHLB advances with average remaining maturities of 3.9 years and 4.1 years. The weighted average rate was 3.76% at June 30, 2008 and 4.16% at December 31, 2007. During the first six months of 2008, we obtained \$53 million (net of matured FHLB borrowings) in additional FHLB advances to support our asset growth at a weighted average cost of 2.91% with average remaining maturities of 3.1 years.

On July 1, 2008, the Company received notification from the FHLB-SF that its request for an unsecured line of credit, with overnight terms, had been approved. The maximum borrowing cannot exceed 18% of the Bank's Tier1 capital. The line is subject to market conditions and the Bank's financial condition, and is provided at the sole discretion of the FHLB-SF. Based on Tier 1 capital of \$257 million at June 30, 2008 the line availability was \$46.3 million on a proforma basis.

In addition, on July 28, 2008, the Bank received notification from the FRB of SF that an application for a secured line of credit has been approved. Based on eligible collateral, our borrowing capacity would be approximately \$300 million.

Table of Contents

At June 30, 2008 and December 31, 2007, five wholly-owned subsidiary grantor trusts established by Nara Bancorp had issued \$38 million of pooled trust preferred securities (trust preferred securities). Trust preferred securities accrue and pay distributions periodically at specified annual rates as provided in the related indentures. The trusts used the net proceeds from the offering to purchase a like amount of subordinated debentures (the debentures) of Nara Bancorp. The debentures are the sole assets of the trusts. Nara Bancorp's obligations under the subordinated debentures and related documents, taken together, constitute a full and unconditional guarantee by Nara Bancorp of the obligations of the trusts. The trust preferred securities are mandatorily redeemable upon the maturity of the debentures, or upon earlier redemption as provided in the indentures. Nara Bancorp has the right to redeem the debentures in whole (but not in part) on or after specific dates, at a redemption price specified in the indentures plus any accrued but unpaid interest to the redemption date.

Off-Balance-Sheet Activities And Contractual Obligations

We routinely engage in activities that involve, to varying degrees, elements of risk that are not reflected, in whole or in part, in the consolidated financial statements. These activities are part of our normal course of business and include traditional off-balance-sheet credit-related financial instruments, interest rate swap contracts, operating leases and long-term debt.

Traditional off-balance-sheet credit-related financial instruments are primarily commitments to extend credit and standby letters of credit. These activities could require us to make cash payments to third parties in the event certain specified future events occur. The contractual amounts represent the extent of our exposure in these off-balance-sheet activities. However, since certain off-balance-sheet commitments, particularly standby letters of credit, are expected to expire or be only partially used, the total amount of commitments does not necessarily represent future cash requirements. These activities are necessary to meet the financing needs of our customers.

We enter into interest rate swap contracts under which we are required to either receive cash from or pay cash to counterparties depending on changes in interest rates. We also periodically purchased interest rate caps at a premium to protect against a further rise in interest rates. We utilize interest rate swap contracts and interest rate caps to help manage the risk of changing interest rates.

We do not anticipate that our current off-balance-sheet activities will have a material impact on our future results of operations or our financial condition. Further information regarding our financial instruments with off-balance-sheet risk can be found in Item 3 Quantitative and Qualitative Disclosures about Market Risk .

We continue to lease our banking facilities and equipment under non-cancelable operating leases with terms providing monthly payments over periods up to 18 years.

Stockholders Equity and Regulatory Capital

To ensure adequate levels of capital, we conduct an ongoing assessment of projected sources and uses of capital in conjunction with projected increases in assets and levels of risk. We consider on an ongoing basis, among other things, capital generated from operations, access to capital from financial markets or the issuance of additional securities, including common stock or notes, to meet our capital needs. Total stockholders equity was \$227.7 million at June 30, 2008. This represented an increase of \$5.5 million, or 2.5%, over total stockholders equity of \$222.2 million at December 31, 2007. The increase is primarily attributed to net income offset by cash dividends paid for the six months ended June 30, 2008.

The federal banking agencies require a minimum ratio of qualifying total capital to risk-weighted assets of 8% and a minimum ratio of Tier I capital to risk-weighted assets of 4%. In addition to the risk-based guidelines, federal banking regulators require banking organizations to maintain a minimum amount of Tier I capital to average total assets, referred to as the leverage ratio. For a banking organization rated in the highest of the five categories used by regulators to rate banking organizations, the minimum leverage ratio of Tier I capital to average assets must be 4%. Capital requirements apply to the Company and the Bank separately. In addition to these uniform risk-based capital guidelines and leverage ratios that apply across the industry, the regulators have the discretion to set individual minimum capital requirements for specific institutions at rates significantly above the minimum guidelines and ratios.

Table of Contents

At June 30, 2008, our Tier I capital, defined as stockholders' equity less intangible assets, plus proceeds from the trust preferred securities (subject to limitations), was \$262.9 million, compared to \$255.9 million at December 31, 2007, representing an increase of \$7.0 million or 2.7%. This increase was primarily due to the net income, offset by the cash dividends declared for the six months ended June 30, 2008. At June 30, 2008, we had a ratio of total capital to risk-weighted assets of 12.8% and a ratio of Tier I capital to risk-weighted assets of 11.5%. The Tier I leverage capital ratio was 10.4% at June 30, 2008.

As of June 30, 2008 and December 31, 2007, the most recent regulatory notification categorized the Bank as well capitalized under the regulatory framework for prompt corrective action. To be categorized as well capitalized, the Bank must maintain minimum total risk-based, Tier I risk-based and Tier I leverage ratios as set forth in the table below. There are no conditions or events since the notification that management believes have changed the Bank's category.

The Company's and the Bank's actual capital amounts and ratios are presented in the table below:

	Actual		Required For Capital Adequacy Purposes		Required To Be Well Capitalized under Prompt Corrective Action Provisions	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
As of June 30, 2008:						
Total capital (to risk-weighted assets):

Liquidity Management

Liquidity risk is the risk to earnings or capital resulting from our inability to meet our obligations when they come due without incurring unacceptable losses. Liquidity risk includes the ability to manage unplanned decreases or changes in funding sources and to recognize or address changes in market conditions that affect our ability to liquidate assets quickly and with a minimum loss of value or to access other sources of cash. Factors considered in liquidity risk management are stability of the deposit base, marketability, maturity, and pledging of investments, alternative sources of funds, and the demand for credit.

Our sources of liquidity are derived from financing activities, which include customer and broker deposits, federal funds facilities, deposits from the California State Treasurer and advances from the Federal Home Loan Bank of San Francisco. In addition, these funding sources are augmented by payments of principal and interest on loans and the routine liquidation of securities from our available-for-sale portfolio. Our uses of funds include withdrawal of and interest payments on deposits, repayments of borrowed funds, originations of loans, purchases of investment securities, purchases of premises and equipment, payment of dividends and payment of operating expenses.

We manage liquidity risk by managing interest-earning assets and interest-bearing liabilities, and by maintaining alternative sources of funds as described above. The sale of investment securities available-for-sale can also serve as a contingent source of funds.

We have established brokered deposit relationships, lines of credit with correspondent banks and borrowing lines with the Federal Home Loan Bank of San Francisco and the Federal Reserve Bank. At June 30, 2008, our borrowing capacity included \$181.5 million in brokered deposits (policy limitation), \$60.0 million in line of credit facilities from correspondent banks and \$211.7 million in unused FHLB of SF advances. In addition to these lines, our liquid assets include cash and due from banks, federal funds sold, receivable from pending settlement of securities sold and securities available for sale that are not pledged. The aggregate book value of these assets totaled \$112.3 million at June 30, 2008 compared to \$100.4 million at December 31, 2007. We believe our liquidity sources to be stable and adequate.

On July 28, 2008 the Bank received notification from the FRB of SF that an application for a secured line of credit has been approved. Based on eligible collateral, our borrowing capacity would be approximately \$300 million.

Table of Contents**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

The objective of our asset and liability management activities is to improve our earnings by adjusting the type and mix of assets and liabilities to effectively address changing conditions and risks. Through overall management of our balance sheet and by controlling various risks, we seek to optimize our financial returns within safe and sound parameters. Our operating strategies for attaining this objective include managing net interest margin through appropriate risk/return pricing of assets and liabilities and emphasizing growth in retail deposits, as a percentage of interest-bearing liabilities, to reduce our cost of funds. We also seek to improve earnings by controlling non-interest expense, and enhancing non-interest income. We also use risk management instruments to modify interest rate characteristics of certain assets and liabilities to hedge against our exposure to interest rate fluctuations with the objective of, reducing the effects these fluctuations might have on associated cash flows or values. Finally, we perform internal analyses to measure, evaluate and monitor risk.

Interest Rate Risk

Interest rate risk is the most significant market risk impacting us. Market risk is the risk of loss to future earnings, to fair values of our assets and liabilities, or to future cash flows that may result from changes in the price of a financial instrument. Interest rate risk occurs when interest rate sensitive assets and liabilities do not reprice simultaneously and in equal volume. A key objective of asset and liability management is to manage interest rate risk associated with changing asset and liability cash flows and values of our assets and liabilities and market interest rate movements. The management of interest rate risk is governed by policies reviewed and approved annually by the Board of Directors. Our Board delegates responsibility for interest rate risk management to the Asset Liability Committee of the Board and to the Asset and Liability Management Committee (ALCO), which is composed of Nara Bank's senior executives and other designated officers.

The fundamental objective of our ALCO is to manage our exposure to interest rate fluctuations while maintaining adequate levels of liquidity and capital. Our ALCO meets regularly to monitor interest rate risk, the sensitivity of our assets and liabilities to interest rate changes, the book and market values of assets and liabilities, investment activities and directs changes in the composition of the statement of financial condition. Our strategy has been to reduce the sensitivity of our earnings to interest rate fluctuations by more closely matching the effective maturities or repricing characteristics of our assets and liabilities. Certain assets and liabilities, however, may react in different degrees to changes in market interest rates. Furthermore, interest rates on certain types of assets and liabilities may fluctuate prior to changes in market interest rates, while interest rates on other types may lag behind. We consider the anticipated effects of these factors when implementing our interest rate risk management objectives.

Interest Rate Sensitivity

We monitor interest rate risk through the use of a simulation model. The simulation model provides us with the ability to simulate our net interest income. In order to measure, at June 30, 2008, the sensitivity of our forecasted net interest income to changing interest rates, both rising and falling interest rate scenarios were projected and compared to base market interest rate forecasts. One application of our simulation model measures the impact of market interest rate changes on the net present value of estimated cash flows from our assets and liabilities, defined as our market value of equity. This analysis assesses the changes in market values of interest rate sensitive financial instruments that would occur in response to immediate and parallel changes in market interest rates.

At June 30, 2008, our net interest income and market value of equity exposed to immediate and parallel hypothetical changes in market interest rates are illustrated in the following table.

Table of Contents

Simulated Rate Changes	Estimated Net Interest Income Sensitivity	Market Value of Equity Volatility
+ 200 basis points	1.95%	(9.20)%
+ 100 basis points	2.01%	(4.22)%
- 100 basis points	(3.13)%	2.74%
- 200 basis points	(5.28)%	2.55%

The results obtained from using the simulation model are somewhat uncertain as the model does not take into account other impacts or changes and the effect they could have on Company's business or changes in business strategy the Company might make in reaction to changes in the interest rate environment.

Item 4. Controls and Procedures**Evaluation of disclosure controls and procedures**

We conducted an evaluation under the supervision and with the participation of our management, including our Chief Executive Officer and our Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) under the Securities Exchange Act of 1934 (Exchange Act)) as of June 30, 2008. Based upon that evaluation, our Chief Executive Officer and our Chief Financial Officer have determined that our disclosure controls and procedures have been designed and are being operated in a manner that provides reasonable assurance that the information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures. In designing and evaluating the disclosure controls and procedures, our management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and our management necessarily is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

Changes in internal control over financial reporting

There have been no changes in our internal control over financial reporting during the quarter ended June 30, 2008 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

PART II

OTHER INFORMATION

Item 1. Legal Proceedings

The Company is a nominal defendant in a shareholder derivative lawsuit which purports to be brought on the Company's behalf by Dr. Thomas Chung, a former chairman of the Company's board of directors (the Chung Lawsuit) which was filed on May 20, 2008 in the Superior Court of California, County of Los Angeles. The Chung Lawsuit alleges that the members of the Company's board of directors as composed on the date the lawsuit was filed, as well as the Company board as it was composed in March 2005 (collectively, the Boards) breached their fiduciary duties to the Company's shareholders and mismanaged corporate assets. In addition, the Chung Lawsuit names Mr. Chong-Moon Lee, also a former Chairman of the Company's board of directors as a defendant and alleges that Mr. Lee violated insider trading laws and wasted corporate assets.

The Chung Lawsuit alleges that the 2005 restatement of the Company's 2002 financial statements was not required and was undertaken by the Board as composed in 2005 in bad faith. Dr. Chung further alleges that the restatement resulted in a decline of \$54 million in the value of the Company's outstanding stock, that Mr. Lee was aware (and the public was not) that the restatement was improper and that the Company's stock price was therefore artificially low, at the time he subsequently purchased 1.4 million shares of common stock from the Company in 2005, and that the Board as composed in 2008 breached its fiduciary duties by failing to pursue the claims alleged in the Chung Lawsuit. Dr. Chung also alleges, among other things, that the Board as composed in 2008 breached its fiduciary duties by failing to pursue claims against the Company's auditors, Crowe Chizek & Company, the law firm that advised the Company in connection with the restatement, Fulbright & Jaworski, and the consulting firm who advised the Company and its counsel in connection with the restatement, Navigant Consultants. The letter between Dr. Chung and Mr. Hong, the restatement of the Company's 2002 financial statements and certain related matters are further described in the form 8-K/A filed March 31, 2005.

The complaint alleges damages exceeding \$54 million from the Boards and \$7.168 million from Mr. Lee, together with reimbursement from all defendants of his legal costs incurred in pursuing the Chung Lawsuit. If any damages are ever recovered by the purported shareholder derivative lawsuit, such damages, but not any awards of legal costs, would be payable to the Company.

The Company filed a *demurrer* with the Superior Court seeking to dismiss the Chung Lawsuit for failure to state a cause of action on which relief may be based on July 9, 2008. Oral argument on the *demurrer* is currently scheduled to be heard by the court on September 5, 2008. The Company believes the Chung Lawsuit is without merit.

Item 1A. Risk Factors

There were no material changes from risk factors previously disclosed in our 2007 Annual Report on Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None

Item 3. Defaults Upon Senior Securities

None

Table of Contents

Item 4. Submission of Matters to a Vote of Security Holders

- (a) The Company held its Annual Meeting of Stockholders on May 29, 2008.
- (b) The following directors were elected at the Annual Meeting to serve until the next annual meeting: Howard N. Gould, Min J. Kim, Jesun Paik, Hyon Man (John H.) Park, Ki Suh Park, Terry Schwakopf, James P. Staes, and Scott Yoon-suk Whang.
- (c) At the Annual Meeting, shareholders approved the election of directors, and the ratification of the selection of Crowe Chizek and Company LLP as our independent registered public accounting firm for the year ending December 31, 2008. The results of the voting were as follows:

Matter	Votes For	Votes Against	Votes Withheld	Abstentions	Broker Non-Votes
Election of Directors
