Edgar Filing: COMPUTER TASK GROUP INC - Form 10-Q

The accompanying notes are an integral part of these condensed consolidated financial statements.

**COMPUTER TASK GROUP, INCORPORATED****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(Unaudited)****1. Financial Statements**

The condensed consolidated financial statements included herein reflect, in the opinion of the management of Computer Task Group, Incorporated (CTG or the Company), all normal recurring adjustments necessary to present fairly the condensed consolidated financial position, results of operations and cash flows for the periods presented. Certain amounts in the prior period's condensed consolidated financial statements have been reclassified to conform to the current year presentation.

**2. Summary of Significant Accounting Policies****Basis of Presentation**

The condensed consolidated financial statements have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission (the SEC). Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted pursuant to the SEC rules and regulations. The preparation of financial statements and related disclosures in conformity with U.S. generally accepted accounting principles requires the Company's management to make estimates, judgments and assumptions that affect the amounts reported in the condensed consolidated financial statements and accompanying notes. Management believes that the information and disclosures provided herein are adequate to present fairly the condensed consolidated financial position, results of operations and cash flows of the Company. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's latest Annual Report on Form 10-K filed with the SEC.

The Company operates in one industry segment, providing Information Technology (IT) services to its clients. These services include IT solutions and strategic staffing. CTG provides these primary services to all of the markets that it serves. The services provided typically encompass the IT business solution life cycle, including phases for planning, developing, implementing, managing, and ultimately maintaining the IT solution. A typical customer is an organization with large, complex information and data processing requirements. During the 2008 third quarter, the Company experienced an increase in demand for both its IT solutions and strategic staffing businesses, with the staffing business progressing at a higher rate. IT solutions and strategic staffing revenue as a percentage of total revenue for the quarter and three quarters ended September 26, 2008 and September 28, 2007 is as follows:

	For the Quarter Ended		For the Three Quarters Ended	
	Sept. 26, 2008	Sept. 28, 2007	Sept. 26, 2008	Sept. 28, 2007
IT solutions	32%	34%	34%	34%
Strategic staffing	68%	66%	66%	66%
Total	100%	100%	100%	100%

The Company promotes a significant portion of its services through three vertical market focus areas: Technology Service Providers, Healthcare (which includes services provided to health care providers, health insurers, and life sciences companies) and Financial Services. The Company focuses on these three vertical areas as it believes that these areas are either higher growth markets than the general IT services market and the general economy, or are areas that provide greater potential for the Company's growth due to the size of the vertical market.

The Company's revenue by vertical market for the quarter and three quarters ended September 26, 2008 and September 28, 2007 is as follows:

	For the Quarter Ended		For the Three Quarters Ended	
	Sept. 26, 2008	Sept. 28, 2007	Sept. 26, 2008	Sept. 28, 2007
Technology service providers	36%	36%	35%	35%
Healthcare	25%	25%	26%	25%
Financial services	7%	10%	8%	11%
General markets	32%	29%	31%	29%
<b>Total</b>	<b>100%</b>	<b>100%</b>	<b>100%</b>	<b>100%</b>

### Postretirement Benefit Obligations Resulting from Insurance Contracts

In 2006, the Emerging Issues Task Force (EITF) issued EITF 06-04, Accounting for Deferred Compensation and Postretirement Benefit Aspects of Endorsement Split-Dollar Life Insurance Arrangements. This EITF requires an entity to account for the liability for the cost of insurance related to the purchase of endorsement split-dollar life insurance arrangements for employees where the policy remains in place after the employee's retirement. The Company adopted this EITF on January 1, 2008. The Company has several endorsement split-dollar life insurance policies for former executives that continued post employment. As required by the EITF, the Company calculated and recorded the present value of the postretirement benefit obligation as an adjustment to retained earnings as of January 1, 2008. This cumulative effect adjustment totaled approximately \$82,000.

### Fair Value

In September 2006, the Financial Accounting Standards Board (FASB) issued Financial Accounting Standard (FAS) 157, Fair Value Measurements. In February 2008, the FASB issued FASB Staff Position 157-2, Effective Date of FASB Statement No. 157, which provides a one year deferral of the effective date of FAS 157 for non-financial assets and liabilities (such as goodwill), except those that are recognized or disclosed in the Company's financial statements at fair value at least annually. Accordingly, the Company adopted the provisions of FAS 157 only for its financial assets and liabilities effective January 1, 2008. FAS 157 defines fair value as the exchange price that would be received for an asset or paid for a liability in the principal or most advantageous market for the asset or liability, in an orderly transaction between market participants. The FAS describes a fair value hierarchy based upon three levels of input, which are:

Level 1 quoted prices in active markets for identical assets or liabilities (observable)

Level 2 inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities, quoted prices in inactive markets, or other inputs that are observable or can be supported by observable market data for essentially the full term of the asset or liability (observable)

Level 3 unobservable inputs that are supported by little or no market activity, but are significant to determining the fair value of the asset or liability (unobservable)

The adoption of FAS 157 had no impact on the Company's consolidated results of operations or financial condition. Although the Company is currently evaluating the effect that the adoption of FASB Staff Position 157-2 will have on its financial condition or results of operations, it does not believe the impact, if any, will be material.

Effective January 1, 2008, the Company adopted FAS 159, The Fair Value Option for Financial Assets and Financial Liabilities. This FAS allows an entity to elect an irrevocable option to measure, on a contract by contract basis, specific financial instruments and certain other items that are currently not being measured at fair value. The Company did not elect to apply the fair value provisions of this standard for any specific contracts during the quarter or year-to-date period ended September 26, 2008.

**Defined Benefit Pension Plan Measurement Date**

In September 2006, the FASB issued FAS 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans*. This FAS requires the Company to recognize the overfunded or underfunded status of its defined benefit plans as either assets or liabilities, as applicable, in its consolidated balance sheets. The Company adopted these provisions of this FAS for its defined benefit plans for the year ended December 31, 2006. Beginning for the year ended December 31, 2008, the FAS will also require the Company to measure the funded status of its defined benefit plans as of the date of its year-end. Previously, the Company has measured the funded status of its pension plan in The Netherlands as of the end of its fiscal month of September. However, in 2008, that plan will be measured as of December 31, 2008. Although the Company is currently evaluating the effect that the adoption this FAS will have on its financial condition or results of operations, it does not believe the impact will be material.

**Property and Equipment**

The Company accounts for capitalized software costs under either Statement of Position (SOP) 98-1 *Accounting for the Costs of Computer Software Developed or Obtained for Internal Use*, or FAS 86 *Accounting for the Costs of Computer Software to Be Sold, Leased, or Otherwise Marketed*, according to the intended use of the software. At September 26, 2008, the Company capitalized a total of approximately \$1.0 million for two projects under SOP 98-1 and \$0.1 million for one project under FAS 86.

**3. Investments**

At September 26, 2008, the Company's investments consist of mutual funds which are part of the Computer Task Group, Incorporated Non-qualified Key Employee Deferred Compensation Plan. At September 26, 2008, the Company's investment balances, which totaled approximately \$0.7 million, are measured at fair value. This fair value was determined using Level 1 (see *Fair Value* in note 2) inputs.

During the 2007 first quarter, the Company sold a security and recorded a gain of approximately \$0.6 million on the sale.

**4. Net Income Per Share**

Basic and diluted earnings per share for the quarter and three quarters ended September 26, 2008 and September 28, 2007 is as follows:

	For the Quarter Ended		For the Three Quarters Ended	
	Sept. 26, 2008	Sept. 28, 2007	Sept. 26, 2008	Sept. 28, 2007
	(amounts in thousands, except per share data)			
Weighted-average number of shares outstanding during period	15,338	16,176	15,419	16,283
Common Stock equivalents – incremental shares primarily under stock option plans	857	422	594	448
Number of shares on which diluted earnings per share is based	16,195	16,598	16,013	16,731
Net income	\$ 2,081	\$ 914	\$ 5,535	\$ 3,035
Net income per share:				
Basic	\$ 0.14	\$ 0.06	\$ 0.36	\$ 0.19
Diluted	\$ 0.13	\$ 0.06	\$ 0.35	\$ 0.18

Certain options representing 0.8 million and 2.1 million shares of common stock were outstanding at September 26, 2008 and September 28, 2007, respectively, but were not included in the computation of diluted earnings per share as they were anti-dilutive.

**5. Accumulated Other Comprehensive Loss**

The components that make up accumulated other comprehensive loss on the condensed consolidated balance sheets at September 26, 2008 and December 31, 2007 are as follows:

	September 26, 2008	December 31, 2007
	(amounts in thousands)	
Foreign currency adjustment	\$ (2,187)	\$ (1,780)
Pension loss adjustment, net of tax of \$431 in 2008 and \$458 in 2007	(377)	(404)
<b>Accumulated other comprehensive loss</b>	<b>\$ (2,564)</b>	<b>\$ (2,184)</b>

Total comprehensive income for the quarter and three quarters ended September 26, 2008 and September 28, 2007 is as follows:

	For the Quarter Ended		For the Three	
	Sept. 26, 2008	Sept. 28, 2007	Sept. 26, 2008	Sept. 28, 2007
	(amounts in thousands)			
Net income	\$ 2,081	\$ 914	\$ 5,535	\$ 3,035
Realized gain on investments, net of tax				(376)
Foreign currency	(1,324)	684	(407)	991
Pension loss	6	20	27	47
<b>Comprehensive income</b>	<b>\$ 763</b>	<b>\$ 1,618</b>	<b>\$ 5,155</b>	<b>\$ 3,697</b>

**6. Income Taxes**

The Company's effective tax rate (ETR) is calculated quarterly based upon current assumptions relating to the full year's estimated operating results and various tax-related items. The Company's normal ETR is 37 to 41% of pre-tax income. The 2008 third quarter ETR was 39.2%, while the 2008 year-to-date ETR was 42.8%. During the 2008 third quarter, an examination was completed for the U.S. federal tax jurisdiction for 2006. Based upon the results of this examination, the Company reduced the amount of its unrecognized tax benefits by approximately \$0.2 million. The 2008 year-to-date ETR was above the normal range primarily due to an addition to the valuation allowance for net operating losses in foreign countries of approximately \$0.3 million in the 2008 second and third quarters, and other items totaling less than \$0.1 million. Without these items, the 2008 year-to-date ETR would have been 39.1%. The 2007 third quarter ETR was 37.9%, while the 2007 year-to-date ETR was 38.1%.

**7. Deferred Compensation and Other Benefits****Deferred Compensation Benefits**

The Company maintains a non-qualified defined-benefit Executive Supplemental Benefit Plan (ESBP) that provides certain former key executives with deferred compensation benefits, based on years of service and base compensation, payable during retirement. The ESBP was amended as of November 30, 1994 to freeze benefits for participants at that time.

Edgar Filing: COMPUTER TASK GROUP INC - Form 10-Q

Net periodic pension cost for the quarter and three quarters ended September 26, 2008 and September 28, 2007 for the ESBP is as follows:

Net Periodic Pension Cost	ESBP	For the Quarter Ended		For the Three Quarters Ended	
		Sept. 26, 2008	Sept. 28, 2007	Sept. 26, 2008	Sept. 28, 2007
(amounts in thousands)					
Interest cost		\$ 127	\$ 122	\$ 381	\$ 366
Amortization of unrecognized net loss		17	25	51	75
Net periodic pension cost		\$ 144	\$ 147	\$ 432	\$ 441

The ESBP is deemed to be unfunded as the Company has not specifically identified assets to be used to discharge the deferred compensation benefit liabilities. The Company has purchased insurance on the lives of certain plan participants in amounts deemed to be sufficient to reimburse the Company for the costs associated with the plan for those participants. The Company does not anticipate making contributions to the plan in 2008 and future years to fund the ESBP.

The Company also retained a contributory defined-benefit plan for its previous employees located in The Netherlands (NDBP) when the Company disposed of its subsidiary CTG Nederland B.V. Benefits paid are a function of a percentage of career average pay. The Plan was curtailed for additional contributions in January 2003.

Net periodic pension benefit for the quarter and three quarters ended September 26, 2008 and September 28, 2007 for the NDBP is as follows:

Net Periodic Pension Cost (Benefit)	NDBP	For the Quarter Ended		For the Three Quarters Ended	
		Sept. 26, 2008	Sept. 28, 2007	Sept. 26, 2008	Sept. 28, 2007
(amounts in thousands)					
Interest cost		\$ 78	\$ 67	\$ 233	\$ 200
Expected return on plan assets		(102)	(86)	(304)	(255)
Amortization of actuarial (gain) loss		(12)	(5)	(36)	(14)
Net periodic pension benefit		\$ (36)	\$ (24)	\$ (107)	\$ (69)

The Company does not anticipate making contributions to fund the NDBP in 2008 or future years as the NDBP is currently over-funded.

The Company also maintains a non-qualified defined-contribution deferred compensation plan for certain key executives. Company contributions to this plan, if any, are based on annually defined financial performance objectives. The Company made contributions in 2008 totaling approximately \$0.4 million to this plan for amounts earned in 2007. The investments in the plan are included in the total assets of the Company, and are discussed in Note 3, Investments. During the first three quarters of 2008 participants in the plan exchanged a portion of their investments for stock units which represent shares of the Company's common stock. In exchange for the funds received, the Company issued shares out of treasury stock equivalent to the number of share units received by the participant. These shares of common stock are not entitled to any voting rights and the holders will not receive dividends, if any are paid. The shares are being held by the Company, and will be released to the participant as prescribed by their payment election under the plan.

## 8. Treasury Stock

During the 2008 third quarter, the Company used approximately \$1.0 million to purchase approximately 176,000 shares of its stock for treasury. In the 2008 year-to-date period, the Company used approximately \$3.4 million to purchase approximately 0.7 million shares of stock for treasury. At September 26, 2008, approximately 0.7 million shares remain authorized for future purchases.

**9. Significant Customer**

In the 2008 third quarter, IBM was the Company's largest customer, accounting for \$28.7 million or 32.2% of consolidated revenue, compared to \$24.2 million or 30.0% of 2007 third quarter revenue. In the 2008 year-to-date period, revenue from IBM totaled \$85.2 million, compared to \$70.7 million in the corresponding 2007 period. No other customer accounted for more than 10% of the Company's revenue in any of the first three quarters of 2007 or 2008. The Company's accounts receivable from IBM at September 26, 2008 and September 28, 2007 totaled \$12.0 million and \$10.2 million, respectively.

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations for the Quarter and Three Quarters Ended September 26, 2008**

**Forward-Looking Statements**

This management's discussion and analysis of financial condition and results of operations contains forward-looking statements by management and the Company that are subject to a number of risks and uncertainties. These forward-looking statements are based on information as of the date of this report. The Company assumes no obligation to update these statements based on information from and after the date of this report. Generally, forward-looking statements include words or phrases such as anticipates, believes, estimates, expects, intends, plans, projects, may, might, should, will and words and phrases of similar impact. The forward-looking statements include, but are not limited to, statements regarding future operations, industry trends or conditions and the business environment, and statements regarding future levels of, or trends in, revenue, operating expenses, capital expenditures, and financing. The forward-looking statements are made pursuant to safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Numerous factors could cause actual results to differ materially from those in the forward-looking statements, including the following: (i) industry and economic conditions, including fluctuations in demand for IT services, (ii) the availability to us of qualified professional staff, (iii) domestic and foreign industry competition, (iv) rate and wage inflation or deflation, (v) risks associated with operating in foreign jurisdictions, (vi) the impact of current and future laws and government regulation, as well as repeal or modification of same, affecting the IT solutions and staffing industry, taxes and the Company's operations in particular, (vii) renegotiations, nullification, or breaches of contracts with customers, vendors, subcontractors or other parties, (viii) consolidation among the Company's competitors or customers, (ix) the partial or complete loss of the revenue the Company generates from IBM, and (x) the risks described in Item 1A of the Company's most recent annual report on Form 10-K filed with the Securities and Exchange Commission (SEC) and from time to time in the Company's other reports filed with the SEC.

**Industry Trends**

The market demand for the Company's services is heavily dependent on IT spending by major corporations, organizations and government entities in the markets and regions that we serve. The pace of technological change and changes in business requirements and practices of our clients all have a significant impact on the demand for the services that we provide. Competition for new engagements and pricing pressure has been strong. We have responded to these challenging business conditions by focusing on two main services, which are providing IT solutions and strategic staffing to our clients. During the 2008 third quarter, the Company experienced an increase in demand for both its IT solutions and strategic staffing businesses, with the staffing business progressing at a higher rate. IT solutions and strategic staffing revenue as a percentage of total revenue for the quarter and three quarters ended September 26, 2008 and September 28, 2007 is as follows:

	For the Quarter Ended		For the Three Quarters Ended	
	Sept. 26, 2008	Sept. 28, 2007	Sept. 26, 2008	Sept. 28, 2007
IT solutions	32%	34%	34%	34%
Strategic staffing	68%	66%	66%	66%
<b>Total</b>	<b>100%</b>	<b>100%</b>	<b>100%</b>	<b>100%</b>

During October 2008, the Company was informed by a significant customer of a reduction in their need for approximately 250 of CTG's staff, or approximately \$21 million of annual revenue. The reduction is not a result of CTG's performance, but rather a change in our client's business needs. The reduction will occur in the Company's lower margin staffing business, and is estimated to reduce the Company's 2008 fourth quarter revenue by approximately \$4 million.

We have in turn promoted a majority of our services through three vertical market focus areas, which are technology service providers, healthcare (which includes services provided to health care providers, health insurers, and life sciences companies) and financial services. The Company focuses on these three vertical areas as it believes that these areas are either higher long-term growth markets than the general IT services market and the general economy, or are areas that provide greater potential for the Company's growth due to the size of the vertical market. During the 2008 third quarter and during the 2008 year-to-date period, the Company's financial services vertical market, approximately 80% of which is located in Europe, was negatively affected by the worsening worldwide economic conditions. We have also closely monitored and managed the utilization of our billable personnel, and actively managed our selling, general and administrative costs as a percentage of revenue.

The Company's revenue by vertical market for the quarter and three quarters ended September 26, 2008 and September 28, 2007 is as follows:

	For the Quarter Ended		For the Three Quarters Ended	
	Sept. 26, 2008	Sept. 28, 2007	Sept. 26, 2008	Sept. 28, 2007
Technology service providers	36%	36%	35%	35%
Healthcare	25%	25%	26%	25%
Financial services	7%	10%	8%	11%
General markets	32%	29%	31%	29%
Total	100%	100%	100%	100%

The IT services industry is extremely competitive and characterized by continuous changes in customer requirements and improvements in technologies. Our competition varies significantly by geographic region, as well as by the type of service provided. Many of our competitors are larger than we are and have greater financial, technical, sales and marketing resources than we have. In addition, we frequently compete with a client's own internal IT staff. Our industry is being impacted by the growing use of lower-cost offshore delivery capabilities (primarily India). There can be no assurance that we will be able to continue to compete successfully with existing or future competitors or that future competition will not have a material adverse effect on our results of operations and financial condition.

### Revenue and Cost Recognition

The Company recognizes revenue when persuasive evidence of an arrangement exists, when the services have been rendered, when the price is determinable, and when collectability of the amounts due is reasonably assured. For time-and-material contracts, revenue is recognized as hours are incurred and costs are expended. For contracts with periodic billing schedules, primarily monthly, revenue is recognized as services are rendered to the customer. Revenue for fixed price contracts is recognized as per the proportional method of accounting using an input-based approach whereby salary and indirect labor costs incurred are measured and compared to the total estimate of costs at completion for a project. Revenue is recognized based upon the percent complete calculation of total incurred costs to total estimated costs. The Company infrequently works on fixed price projects that include significant amounts of material or other non-labor related costs which could distort the percent complete within a percentage complete calculation. The Company's estimate of the total labor costs it expects to incur over the term of the contract is based on the nature of the project and our past experience on similar projects, and includes management judgments and estimates which affect the amount of revenue recognized on fixed price contracts in any accounting period.

The Company's revenue from contracts accounted for under time-and-material, progress billing and percentage of completion methods for the quarter and three quarters ended September 26, 2008 and September 28, 2007 is as follows:

	For the Quarter Ended		For the Three Quarters Ended	
	Sept. 26, 2008	Sept. 28, 2007	Sept. 26, 2008	Sept. 28, 2007
Time-and-material	90%	88%	90%	88%
Progress payment	7%	8%	7%	8%
Percentage of completion	3%	4%	3%	4%

**Results of Operations**

The table below sets forth data as contained on the condensed consolidated statements of income with the percentage information calculated as a percentage of consolidated revenues.

**For the Quarter ended:**

	Sept. 26, 2008		Sept. 28, 2007	
	(amounts in thousands)			
Revenue	100.0%	\$ 89,131	100.0%	\$ 80,625
Direct costs	78.0%	69,488	77.3%	62,347
Selling, general, and administrative expenses	18.1%	16,167	20.7%	16,644
Operating income	3.9%	3,476	2.0%	1,634
Interest and other expense, net	(0.1)%	(55)	(0.2)%	(161)
Income before income taxes	3.8%	3,421	1.8%	1,473
Provision for income taxes	1.5%	1,340	0.7%	559
Net income	2.3%	\$ 2,081	1.1%	\$ 914

**For the Three Quarters ended:**

	Sept. 26, 2008		Sept. 28, 2007	
	(amounts in thousands)			
Revenue	100.0%	\$ 269,885	100.0%	\$ 240,781
Direct costs	77.8%	209,854	77.7%	187,106
Selling, general, and administrative expenses	18.6%	50,185	20.4%	49,000
Operating income	3.6%	9,846	1.9%	4,675
Interest and other income (expense), net		(172)	0.1%	226
Income before income taxes	3.6%	9,674	2.0%	4,901
Provision for income taxes	1.5%	4,139	0.7%	1,866
Net income	2.1%	\$ 5,535	1.3%	\$ 3,035

In the 2008 third quarter, the Company recorded revenue of \$89.1 million, an increase of 10.6% compared to revenue of \$80.6 million recorded in the 2007 third quarter. Revenue from the Company's North American operations totaled \$70.4 million in the 2008 third quarter, an increase of 11.7% when compared to revenue in the 2007 third quarter of \$63.1 million. Revenue from the Company's European operations in the 2008 third quarter totaled \$18.7 million, an increase of 6.5% when compared to revenue in the 2007 third quarter of \$17.5 million. The European revenue represented 21.0% and 21.8% of 2008 and 2007 third quarter consolidated revenue, respectively. The Company's revenue includes reimbursable expenses billed to customers. These expenses totaled \$2.2 million and \$1.9 million in the 2008 and 2007 third quarters, respectively.

For the first three quarters of 2008, the Company recorded revenue of \$269.9 million, an increase of 12.1% compared to revenue of \$240.8 million recorded in the first three quarters of 2007. Revenues from the Company's North American operations totaled \$210.8 million in the 2008 year-to-date period, as compared to \$188.5 million in the comparable 2007 period. The Company's European operations accounted for \$59.1 million or 21.9% of year-to-date 2008 consolidated revenue, as compared to \$52.3 million or 21.7% in the comparable 2007 period. Reimbursable expenses billed to customers totaled \$6.6 million and \$6.0 million in the year-to-date periods in 2008 and 2007, respectively.

The revenue increase in both the 2008 third quarter as compared to the 2007 third quarter, and in the 2008 year-to-date period as compared to 2007 is due to an increase in both the Company's solutions and staffing businesses. The Company's solutions revenue grew 4.5% in the 2008 third quarter and 9.8% in the 2008 year-to-date period as compared to the corresponding 2007 periods, driven by business wins resulting from investments the Company has made primarily in its healthcare business. These investments were primarily in new offerings, sales territories and additional sales staff. Staffing revenue increased 13.7% in the 2008 third quarter and 13.3% in the 2008 year-to-date period as compared to the corresponding 2007 periods, primarily driven by strong demand from the technology services provider market.

The significant increase in revenue in the Company's European operations was primarily due to the strength of the currencies of Belgium, the United Kingdom, Luxembourg, and Germany, the countries in which the Company's European subsidiaries operate. In Belgium, Luxembourg and Germany, the functional currency is the Euro, while in the United Kingdom the functional currency is the British pound. Had there been no change in these exchange rates from the 2007 third quarter to the 2008 third quarter, total European revenue would have been approximately \$1.4 million lower, or \$17.3 million as compared to the \$18.7 million reported. Had there been no change in the rates from the 2007 year-to-date period to the 2008 year-to-date period, total revenue would have been \$6.3 million lower, or \$52.8 million as compared to the \$59.1 million reported.

In the 2008 third quarter, IBM was the Company's largest customer, accounting for \$28.7 million or 32.2% of consolidated revenue as compared to \$24.2 million or 30.0% of revenue in the comparable 2007 period. In the 2008 year-to-date period, IBM accounted for \$85.2 million or 31.6% of consolidated revenue, compared to \$70.7 million or 29.3% of consolidated revenue in the 2007 period. During the second quarter of 2008, the Company and IBM agreed to extend the current National Technical Services ( NTS Agreement ) contract until July 1, 2011. As part of the NTS agreement, the Company also provides its services as a predominant supplier to IBM's Integrated Technology Services and Systems and Technology Group business units. We expect to continue to derive a significant portion of our revenue from IBM throughout the remainder of 2008 and in future years. However, a significant decline or the loss of the revenue from IBM would have a significant negative effect on our operating results. The Company's accounts receivable from IBM at September 26, 2008 and September 28, 2007 totaled \$12.0 million and \$10.2 million, respectively. No other customer accounted for more than 10% of the Company's revenue in any period in either 2007 or 2008.

Direct costs, defined as costs for billable staff including billable out-of-pocket expenses, were 78.0% of revenue in the 2008 third quarter as compared to 77.3% of revenue in the 2007 third quarter, and 77.8% in the 2008 year-to-date period as compared to 77.7% in the comparable 2007 period. The slight increase in direct costs as a percentage of revenue in both the 2008 third quarter and year-to-date period as compared to corresponding 2007 periods is primarily due to the increase in the Company's strategic staffing business, which has a higher direct cost percentage as compared to the Company's other business.

Selling, general and administrative (SG&A) expenses were 18.1% of revenue in the 2008 third quarter and 18.6% in the 2008 year-to-date period, as compared to 20.7% of revenue in the 2007 third quarter and 20.4% in the year-to-date period ending September 26, 2008. The significant year-over-year decrease in SG&A expense as a percentage of revenue reflects the Company's continued focus on disciplined cost management.

Operating income was 3.9% of revenue in the 2008 third quarter as compared to 2.0% of revenue in the 2007 third quarter, and 3.6% in the 2008 year-to-date period as compared to 1.9% in the 2007 year-to-date period. Operating income from North American operations was \$3.6 million and \$9.1 million in the 2008 third quarter and year-to-date period, respectively, while European operations recorded operating income (loss) of \$(0.1) million and \$0.7 million, respectively, in such periods.

Interest and other income (expense), net was nominal as a percentage of revenue in the 2008 year-to-date period and 0.1% in the comparable 2007 period. During 2008, the Company incurred less interest expense as a percentage of revenue as there were lower average outstanding debt balances and the interest rates the Company pays on its long-term revolving debt declined in 2008 as compared to 2007. For 2007, the Company had net other income as it sold an investment it owned resulting in a gain of approximately \$0.6 million.

The Company's effective tax rate (ETR) is calculated quarterly based upon current assumptions relating to the full year's estimated operating results and various tax-related items. The Company's normal ETR is 37 to 41% of pre-tax income. The 2008 third quarter ETR was 39.2%, while the 2008 year-to-date ETR was 42.8%. During the 2008 third quarter, an examination was completed for the U.S. federal tax jurisdiction for 2006. Based upon the results of this examination, the Company reduced the amount of its unrecognized tax benefits by approximately \$0.2 million. The 2008 year-to-date ETR was above the normal range primarily due to an addition to the valuation allowance for net operating losses in foreign countries of approximately \$0.3 million in the 2008 second and third quarters, and other items totaling less than \$0.1 million. Without these items, the 2008 year-to-date ETR would have been 39.1%. The 2007 third quarter ETR was 37.9%, while the 2007 year-to-date ETR was 38.1%.

Net income for the 2008 third quarter was 2.3% of revenue or \$0.13 per diluted share, compared to net income of 1.1% of revenue or \$0.06 per diluted share in the 2007 third quarter, and 2.1% of revenue or \$0.35 per diluted share in the 2008 year-to-date period as compared to net income of 1.3% of revenue or \$0.18 per diluted share in the comparable 2007 period. Diluted earnings per share were calculated using 16.2 million equivalent shares outstanding for the quarter ended September 26, 2008, and 16.6 million equivalent shares outstanding for the quarter ended September 28, 2007. The dilutive effect of incremental shares outstanding under the Company's equity-based compensation plans in 2008 was offset by purchases of shares for treasury by the Company during 2008.

#### **Accounting Standards Pronouncements**

In September 2006, the FASB issued FAS 157, Fair Value Measurements. In February 2008, the FASB issued FASB Staff Position 157-2, Effective Date of FASB Statement 157, which provides a one year deferral of the effective date of FAS 157 for non-financial assets and liabilities (such as goodwill), except those that are recognized or disclosed in the Company's financial statements at fair value at least annually. Accordingly, the Company adopted the provisions of FAS 157 only for its financial assets and liabilities effective January 1, 2008. FAS 157 defines fair value as the exchange price that would be received for an asset or paid for a liability in the principal or most advantageous market for the asset or liability, in an orderly transaction between market participants.

As of September 26, 2008, the Company's assets considered for fair value measurement and disclosure under this FAS are its investment balances held in the Company's deferred compensation plan. The adoption of this FAS had no impact on the Company's consolidated results of operations or financial condition. Although the Company is currently evaluating the effect that the adoption of FASB Staff Position 157-2 will have on its financial condition or results of operations, it does not believe the impact, if any, will be material.

Effective January 1, 2008, the Company adopted FAS 159, The Fair Value Option for Financial Assets and Financial Liabilities. This FAS allows an entity to elect an irrevocable option to measure, on a contract by contract basis, specific financial instruments and certain other items that are currently not being measured at fair value. The Company did not elect to apply the fair value provisions of this standard for any specific contracts during the year-to-date period ended September 26, 2008. Accordingly, the adoption of this FAS had no impact on the Company's consolidated results of operations or financial condition.

In September 2006, the FASB issued FAS 158, Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans. This FAS required the Company to recognize the overfunded or underfunded status of its defined benefit plans as either assets or liabilities, as applicable, in its consolidated balance sheets. The Company adopted these provisions of this FAS for its defined benefit plans for the year ended December 31, 2006. Beginning for the year ended December 31, 2008, the FAS will also require the Company to measure the funded status of its defined benefit plans as of the date of its year-end. Previously, the Company has measured the funded status of its pension plan in The Netherlands as of the end of its fiscal month of September. However, in 2008, that plan will be measured as of December 31, 2008. Although the Company is currently evaluating the effect that the adoption this FAS will have on its financial condition or results of operations, it does not believe the impact will be material.

### Critical Accounting Policies

The preparation of financial statements and related disclosures in conformity with U.S. generally accepted accounting principles requires the Company's management to make estimates, judgments and assumptions that affect the amounts reported in the condensed consolidated financial statements and accompanying notes. The Company's significant accounting policies, along with the underlying assumptions and judgments made by the Company's management in their application, have a significant impact on the Company's condensed consolidated financial statements. The Company identifies its most critical accounting policies as those that are the most pervasive and important to the portrayal of the Company's financial position and results of operations, and that require the most difficult, subjective and/or complex judgments by management regarding estimates about matters that are inherently uncertain. The Company's most critical accounting policies are those related to income taxes, specifically relating to deferred taxes and valuation allowances, goodwill valuation, and the discount rates and expected return on plan assets, as applicable, used to calculate the Company's pension obligations. Deferred income taxes and the related valuation allowances are discussed below. As there has been no change during the 2008 third quarter in the status of the Company's goodwill balance, or the methodology the Company uses to determine the discount rates and the expected return on plan assets, as applicable, for its pension obligations, those items are not presented here. A full discussion of the critical accounting policies related to the Company's goodwill balance, and discount rates and expected return on plan assets for its pension obligations is included in the Company's management's discussion and analysis of financial condition and results of operations for the year ended December 31, 2007 as included in the Company's most recent annual report on Form 10-K as filed with the SEC.

Income Taxes Deferred Taxes and Valuation Allowances At September 26, 2008, the Company had a total of \$6.1 million of current and non-current deferred tax assets, net of deferred tax liabilities, recorded on its balance sheet. The changes in deferred tax assets and liabilities from period to period are determined based upon the changes in differences between the basis of assets and liabilities for financial reporting purposes and the basis of assets and liabilities for tax purposes, as measured by the enacted tax rates when these differences are estimated to reverse. The Company has made certain assumptions regarding the timing of the reversal of these assets and liabilities, and whether taxable income in future periods will be sufficient to recognize all or a part of any gross deferred tax asset of the Company.

At September 26, 2008, the Company has deferred tax assets recorded resulting from net operating losses totaling approximately \$3.1 million. Management of the Company has analyzed each jurisdiction's tax position, including forecasting potential taxable income in future periods, and the expiration of the net operating loss carryforwards as applicable, and determined that it is unclear whether some of these deferred tax assets will be realized at any point in the future. At September 26, 2008, the Company has offset a portion of these deferred tax assets with a valuation allowance totaling \$2.8 million, resulting in a net deferred tax asset from net operating loss carryforwards of approximately \$0.3 million.

The Company's deferred tax assets and their potential realizability are evaluated each quarter to determine if any changes should be made to the valuation allowance. Any change in the valuation allowance in the future could result in a change in the Company's ETR. A 1% increase or decrease in the ETR in the 2008 third quarter would have increased or decreased net income in the quarter by approximately \$34,000.

Other Estimates The Company has also made a number of estimates and assumptions relating to the reporting of other assets and liabilities and the disclosure of contingent assets and liabilities to prepare the consolidated financial statements pursuant to the rules and regulations of the SEC. Such estimates primarily relate to the valuation of stock options for recording equity-based compensation expense, allowances for doubtful accounts receivable, investment valuation, legal matters, and estimates of progress toward completion and direct profit or loss on contracts, as applicable. Actual results could differ from these estimates.

### **Financial Condition and Liquidity**

Cash provided by operating activities was \$11.7 million in the first three quarters of 2008. Net income totaled \$5.5 million, while other non-cash adjustments, primarily consisting of depreciation expense, equity-based compensation expense, and deferred taxes totaled to a net of \$2.4 million. Accounts receivable balances increased \$3.0 million as compared to December 31, 2007. This increase resulted from an increase in revenue in 2008 of 12.1% as compared to 2007, but was offset by a decrease in day's sales outstanding to 56 days at September 26, 2008 as compared to 58 days at December 31, 2007. Accrued compensation increased \$7.9 million in 2008 due to the timing of the U.S. bi-weekly payroll. Other current liabilities decreased \$0.9 million primarily due to the timing of certain payments.

Investing activities used \$2.6 million in the first three quarters of 2008, which primarily represented the additions to property and equipment of \$2.5 million and net purchases of investments for the Computer Task Group, Incorporated Non-qualified Key Employee Deferred Compensation Plan of \$0.1 million. The Company has no significant commitments for the purchase of property or equipment at September 26, 2008.

Financing activities used \$3.5 million of cash in the first three quarters of 2008. At September 26, 2008, the Company's did not have anything outstanding under its revolving credit line. During February 2008, the Company amended its revolving credit agreement to extend the maturity date by three years to April 2011. The Company is required to meet certain financial covenants in order to maintain borrowings under the agreement, pay dividends, and make acquisitions. The Company was in compliance with these covenants at September 26, 2008. The Company borrows or repays its revolving debt as needed based upon its working capital obligations, including the timing of the U.S. bi-weekly payroll. Daily average borrowings for the first three quarters of 2008 were \$4.9 million.

During the first three quarters of 2008, the Company used approximately \$3.4 million to purchase approximately 0.7 million shares of its stock for treasury. Also during the first quarter of 2008, the Company's board of directors authorized an addition of 1 million shares to the existing shares remaining in the Company's buyback program. At September 26, 2008, a total of approximately 0.7 million shares are authorized for future purchases.

The Company believes existing internally available funds, cash potentially generated from operations, and available borrowings under the Company's revolving line of credit totaling approximately \$34.6 million at September 26, 2008, will be sufficient to meet foreseeable working capital, capital expenditure, and stock repurchase requirements, and to allow for future internal growth and expansion.

### **Off-Balance Sheet Arrangements**

The Company did not have off-balance sheet arrangements or transactions in any of first three quarters of 2007 or 2008.

### **Contractual Obligations**

There have been no significant additional contractual obligations entered into by the Company during the 2008 third quarter.

**Item 3. Quantitative and Qualitative Disclosures about Market Risk**

The Company's primary market risk exposures consist of interest rate risk associated with variable rate borrowings and foreign currency exchange risk associated with the Company's European operations.

At September 26, 2008, the Company did not have anything outstanding under its revolving credit agreement. Daily average borrowings for the first three quarters of 2008 were \$4.9 million. Accordingly, a 1% increase or decrease in interest rates would increase or decrease annual interest expense by approximately \$49,000.

During the first three quarters of 2008, revenue was affected by the year-over-year foreign currency exchange rate changes of Belgium, the United Kingdom, Luxembourg and Germany, the countries in which the Company's European subsidiaries operate. In Belgium, Luxembourg and Germany, the functional currency is the Euro, while in the United Kingdom, the functional currency is the British pound. Had there been no change in these exchange rates from the 2007 third quarter to the 2008 third quarter, total European revenue would have been approximately \$1.4 million lower, or \$17.3 million as compared to the \$18.7 million reported. Had there been no change in the rates from the 2007 year-to-date period to the 2008 year-to-date period, total revenue would have been \$6.3 million lower, or \$52.8 million as compared to the \$59.1 million reported. In the 2008 year-to-date period, operating income in Europe increased by approximately \$0.2 million, respectively, as compared to the comparable 2007 period due to the increase in the exchange rates. The Company has historically not used any market risk sensitive instruments to hedge its foreign currency exchange risk.

**Item 4. Controls and Procedures**

**Evaluation of Disclosure Controls and Procedures**

The Company's management has evaluated, under the supervision and with the participation of the Company's Chief Executive Officer and Chief Financial Officer, the effectiveness of the design and operations of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this report. Based on that evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this periodic report.

**Changes in Internal Control over Financial Reporting**

The Company reviews, revises and improves the effectiveness of the Company's internal controls on a continuous basis. There have been no significant changes in the Company's internal controls over financial reporting in connection with the Company's 2008 third quarter evaluation that would materially affect, or are reasonably likely to materially affect, the Company's internal controls over financial reporting.

**PART II. OTHER INFORMATION****Item 1. Legal Proceedings**

None

**Item 1A. Risk Factors**

There were no material changes in the Company's risk factors from those previously disclosed in the Company's Form 10-K for the period ended December 31, 2007.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**  
**Issuers Purchase of Equity Securities**

<b>Period</b>	<b>Total Number of Shares Purchased</b>	<b>Average Price Paid per Share **</b>	<b>Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs</b>	<b>Maximum Number of Shares that may yet be Purchased Under the Plans or Programs*</b>
June 28 July 31	42,196	\$ 5.11	42,196	867,008
Aug. 1 Aug. 31	26,700	\$ 6.60	26,700	840,308
