EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Objectives of Compensation Program

Our goal is to attract, retain, motivate, and reward our employees through the use of competitive compensation plans that serve to closely align employee interests with that of the Company and the long-term interests of our stockholders. Competitive and labor market dynamics as well as financial position influence our compensation philosophy. We strive to retain and reward the highest caliber management team by offering competitive compensation plans, which are comparable to those offered by our competitors, and promote performance-based compensation. To more closely align the interests of employees with those of the stockholders, we employ equity-based employee awards.

Overview of Compensation and Process

We strive to attract and retain the necessary executive talent, reward annual performance and provide incentives to reward performance that is intended to create long-term stockholder value. The amount of each element of compensation is determined by or under the direction of our Compensation Committee, which considers the following factors in determining the amount of salary and other benefits to pay each executive:

performance against corporate and individual goals for the previous year;

difficulty of achieving desired results in the coming year;

value of his or her unique skills and capabilities to support long-term performance of the Company;

performance of their general management responsibilities; and

contribution as a member of the executive management team.

Our compensation policy strives to provide a balance between short and long-term compensation in order to attract and retain talent and provide incentives to maximize long-term value for our company and our stockholders. The compensation of the executive officer team consists of a combination of salary, annual cash incentives, equity grants, contributions to or accruals under benefit plans and participation in various other plans generally available to all employees, such as our 401(k) plan which the Company elected to suspend matching contributions after December 27, 2008. We provide cash compensation in the form of base salary to meet competitive salary norms and annual cash incentive payments to reward performance against specific annual corporate goals. We provide equity awards to reward performance against specific

objectives and long-term

Table of Contents

strategic goals and help align the interest of our executive officers with those of our stockholders. Equity awards are determined by performance and competitive market practice with respect to equity awards granted to executives as a percentage of common shares outstanding.

Each year we review the compensation paid to all employees, including executive officers, to ensure that the key elements and overall compensation remain competitive with prevailing industry benchmark data of similarly situated companies and remain aligned with stockholder interests.

In fiscal 2008, the Compensation Committee determined that the compensation paid to the Company's executive officers would remain unchanged to conserve the Company's financial resources, with the exception of Mr. Glickman as discussed below.

Compensation Components

The components of our compensation program are described in more detail below:

Base Salary

Base salaries for our named executive officers are established based on their responsibilities, experience, performance and expected contribution to the Company. Salary levels also take into account the salary and compensation paid by similar companies with which we compete for executive talent. Base salaries are reviewed annually taking into account the executive officer's effectiveness in achieving the corporate goals set out for the previous year, his or her expected contribution for the coming year and the competitive data. Base salaries are also evaluated relative to other components of our compensation program to ensure the executives' total compensation and mix of components is consistent with our compensation philosophy and objectives.

Each year, the Company establishes a budget for merit based salary increases for its employees. The Committee retains discretion as to whether or not salary increases will be granted and makes a determination based upon achievement of the corporate goals, individual performance and market data. In fiscal 2008, the Committee determined that the 2008 base salaries for Messrs. Rauscher, Colangelo and Maitre would remain unchanged, however in association with his promotion to Senior Vice President, Sales and Marketing, Mr. Glickman's base salary was increased.

Annual Incentives

Our named executive officers are eligible to receive annual cash incentive payments in an amount equal to a percentage of their annual base salary based on attainment of corporate performance goals as determined by the Compensation Committee. The Committee sets a percentage of base salary as a target for each named executive officer's annual incentive cash bonus and then determines the annual incentive cash bonus to be paid based on achievement of stated goals.

Each year, the Chief Executive Officer recommends corporate goals for the prospective year. The Compensation Committee reviews, modifies if necessary, and approves the proposed goals and then sets and prioritizes officer performance goals for the year and assigns relative weight of importance for each performance goal. In prior years, in assessing executive officer performance, the Committee considered individual performance goals for each executive officer in addition to the corporate goals. In fiscal 2008, the Committee decided to measure executive officer performance against the corporate goals only and not utilize individual performance goals. The Committee's decision reflects its belief that the corporate goals provide unified objectives for the management team and a more objective basis for assessing executive performance and determining annual incentive payments. With the exception of quarterly cash incentive payments the Company agreed to provide Mr. Glickman prior to his promotion on July 28, 2008 to Senior Vice President, Sales and Marketing, the Compensation Committee determined that in fiscal 2008 the Company's executive officers would not receive an annual cash incentive payment to conserve the Company's financial resources.

Table of Contents

Long-Term Equity Incentives

We grant equity awards to our named executive officers, in the form of restricted stock grants and stock options to provide executive officers with longer term incentives and as a key tool to encourage retention. Because of the direct relationship between the value of an equity award and the market price of our common stock, we believe that granting stock options and other equity awards is an effective method of motivating executive officers to manage our company in a manner that is consistent with the interests of our stockholders. Equity awards are typically granted to employees when they are hired, upon promotions and each year in connection with annual performance review. For annual performance grants, the executive team makes a recommendation to the Compensation Committee as part of the Company's annual salary planning cycle which occurs in March, and the Committee determines the grant for each executive officer. Equity awards typically include a mix of options to purchase our common stock and restricted shares of our common stock that vest over a prescribed period. Exercise prices for option grants are wholly determined by the Compensation Committee and are fixed at the fair market value on the date of Compensation Committee approval or at a specified date of grant.

We grant stock awards to our executive officers based upon prior performance, the importance of retaining their services and the potential for their performance to help us attain our long-term goals. In determining annual equity awards the Compensation Committee also takes into account the extent to which previous equity awards continue to provide appropriate incentives to employees. Company and individual performance and competitive market practices are key considerations in determining size and mix of grants for employees, including executive officers. Equity grants awarded to officers and other eligible employees are typically confined to a certain percentage of common shares outstanding. The Compensation Committee determined not to make equity award grants in connection with its fiscal 2008 annual review of performance, with the exception of equity grants awarded to Mr. Glickman in connection with his promotion to Senior Vice President, Sales and Marketing.

Other Benefits

Our executives are entitled to few benefits that are not otherwise available to all of our employees. Other benefits for executive officers include executive life insurance, relocation expenses and car allowances. Our Chief Executive Officer also receives a predetermined annual allowance of \$14,652 as prescribed in Mr. Rauscher's employment agreement with the Company which is paid primarily for car allowances. Mr. Maitre, our Executive Vice President and Chief Financial Officer, received \$63,853 as a reimbursement for relocation expenses in fiscal 2008, Mr. Colangelo, our former Executive Vice President, received \$13,383, which was paid primarily as a reimbursement for travel expenses in fiscal 2008, and Mr. Glickman, our Senior Vice President, Sales and Marketing, received \$14,380 which was paid primarily for car allowances.

All of our named executive officers participated in our 401(k) plan and received matching employer contributions at the same rate as other employee-participants through December 27, 2008, after which the Company elected to suspend any further 401(k) matching contributions for its executive offices, as well as its employee-participants. Our health and insurance plans are the same for all employees and our healthcare premiums follow a shared cost schedule, under which employees contribute approximately 24% of the healthcare premiums.

Termination-based compensation

Under the terms of their employment agreements, our executive officers are, under specified circumstances, entitled to receive severance payments and, in some cases, accelerated vesting of equity awards upon termination of employment. The severance payments, and in particular the change of control severance, are intended to aid in employee retention and maintain productivity in the event of a change of control of the Company. In addition, these payments are designed to align executive and stockholder interests by enabling executives to consider corporate transactions that are in the best interests of the stockholders and other constituents of the Company without undue concern over whether the transactions may jeopardize the executives' own employment. The specific triggering provisions and severance due each of the executive officers is described below under

Table of Contents

Employment Agreements and Potential Payments upon Change of Control. We believe that our severance arrangements are in line with severance packages offered to executive officers of companies of similar size to us represented in the compensation data we reviewed.

162(m) Policy

Under Section 162(m) of the Internal Revenue Code, publicly held corporations may be prohibited from deducting as an expense for federal income tax purposes total compensation in excess of \$1 million paid to certain executive officers in a single year. However, Section 162(m) provides an exception for qualifying performance-based compensation, including compensation attributable to certain stock options. We periodically review the potential consequences of Section 162(m) and may structure the performance-based portion of our executive compensation to comply with certain exemptions in Section 162(m). However, we reserve the right to use our judgment to authorize compensation payments that do not comply with the exemptions in Section 162(m) when we believe that such payments are appropriate and in the best interests of the stockholders, after taking into consideration changing business conditions or the officer's performance.

Post-Employment Compensation*Pension Benefits*

We do not provide pension arrangements or post-retirement health coverage for our executives or employees. Our executive officers are eligible to participate in our 401(k) defined contribution plan. The Company contributed to each participant a matching contribution equal to 50% of the first 6% of the participant's compensation that has been contributed to the plan, as prescribed in the plan document and within federal tax limits, however effective December 27, 2008 the Company elected to suspend any further 401(k) matching contributions. All of our executive officers participated in our 401(k) plan during fiscal 2008 and received matching contributions through December 27, 2008, after which no further matching contributions were made by the Company.

Nonqualified Deferred Compensation

We do not provide any nonqualified defined contribution or other deferred compensation plans.

Potential Payments Upon Termination of Employment or Change of Control Under Employment Agreements

The following table summarizes the potential payments to each named executive officer assuming that one of the following events occurs. The following table sets forth information regarding the beneficial ownership of Company common stock as of April 15, 2009 by:

each person known by the Company to own beneficially 5% or more of Company common stock;

each director and nominee for director of the Company;

each executive officer of the Company; and

The percentages shown are based on shares of Company common stock outstanding as of April 15, 2009, and where indicated also include beneficially owned shares of common stock underlying the Company's outstanding convertible notes. Unless otherwise indicated, the address for each stockholder is c/o Oscient Pharmaceuticals Corporation, 1000 Winter Street, Suite 2200, Waltham, Massachusetts 02451. Unless otherwise indicated, each person or entity named in the table has sole voting power and investment power (or shares such power with his or her spouse) with respect to all shares of capital stock listed as owned by such person or entity.

Item 13. Certain Relationships and Related Transactions and Director Independence

In accordance with our Audit Committee charter, our Audit Committee is responsible for reviewing and approving the terms and conditions of all related party transactions. Although we have not entered into any financial transactions with any immediate family member of a director or executive officer of our Company, if we were to do so, any such material financial transaction would need to be approved by our Audit Committee. A report is made to our Audit Committee annually disclosing all related parties that are employed by us and related parties that are employed by other companies with whom we had a material relationship during that year, if any. In determining whether to approve or ratify an interested transaction, the Audit Committee takes into account such factors as they deem appropriate, which may include whether the interested transaction is on terms no less favorable than terms generally available to an unaffiliated third party under the same or similar circumstances and the extent of the related person's interest in the transaction.

We did not have any reportable related party transaction in fiscal 2007.

We have determined that, in 2006 and 2008, we had the following reportable related transactions described below.

To finance the acquisition of ANTARA capsules in August 2006, we entered into several financing arrangements with Paul Royalty Fund Holdings II, LP, an affiliate of Paul Capital Partners (PRF), in consideration for an aggregate amount of \$70.0 million. In connection with such financing arrangements, we agreed to elect one person designated by PRF to our Board following the closing in August of 2006 and to continue to nominate one person designated by PRF for election to our Board by our shareholders. Initially, Greg Brown and Walter Flamenbaum were PRF's previous representatives and John Leone acted as the PRF's designee to our Board until his resignation on March 26, 2009. In connection with such financing transaction, we entered into the Revenue Interests Assignment Agreement pursuant to which we sold to PRF the right to receive specified royalties on Oscient's net sales in the United States (and the net sales of its affiliates and licensees) of

Table of Contents

FACTIVE tablets and Guardian II sold to Paul Capital the right to receive specified royalties on Guardian II's net sales in the United States (and the net sales of its affiliates and licensees) of ANTARA capsules, in each case until December 31, 2016 in exchange for an aggregate of \$40 million from Paul Capital. The royalty payable to Paul Capital on net sales of ANTARA and FACTIVE are tiered as follows: 9% for the first \$75 million in annual net revenues, 6% for annual net revenues in excess of \$75 million, but less than \$150 million, and 2% for annual net revenues which exceed \$150 million. Once the cumulative royalty payments to Paul Capital exceed \$100 million, the royalties become nominal. Further, our wholly owned subsidiary, Guardian II, entered into a Note Purchase Agreement with PRF pursuant to which Guardian II issued and sold a \$20,000,000 aggregate principal amount of 12% senior secured note due on the fourth anniversary of the closing date, subject to Guardian II's option to extend the maturity to the sixth anniversary of the closing date, provided (i) there are no defaults under the note at the time, and (ii) we issue to PRF, at the time of the exercise of such option, a warrant for a number of shares of common stock equal to 10% of the principal balance plus accrued interest divided by \$6.94, with an exercise price of \$6.94 per share. In connection with such financial agreements, Guardian II and PRF entered into a Security Agreement under which Guardian II granted to PRF a security interest in and to substantially all assets owned by Guardian II (including rights to the ANTARA products) in order to secure its performance under each of the agreements with PRF. As part of the financing, we and PRF also entered into a Common Stock and Warrant Purchase Agreement, pursuant to which, in exchange for \$10 million, Oscient sold to PRF 1,388,889 shares of the common stock (as adjusted pursuant to the one-for-eight reverse stock split) at a price of \$7.20 per share (as adjusted pursuant to the one-for-eight reverse stock split) and issued PRF a warrant to purchase 288,019 shares of common stock (as adjusted pursuant to the one-for-eight reverse stock split) at an exercise price of \$6.94 per share (as adjusted pursuant to the one-for-eight reverse stock split). The Warrant is exercisable for seven years from the date of closing.

On November 5, 2008 we entered into a First Amendment (the Amendment) to the revenue interests assignment agreement. The Amendment provided that PRF consent to the grant by Guardian II of a second-ranking security interest in and to the assets of Guardian II to secure Guardian II's guarantee of the notes that were issued in the Company's November 2008 exchange offer. Guardian II granted a first priority security interest to PRF in 2006 in substantially all of its assets in order to secure the obligations of the Company and Guardian II under the revenue interests assignment agreement and the note purchase agreement dated July 21, 2006.

Under the terms of the Amendment, in the event that the sum of the net sales of ANTARA and FACTIVE in the U.S. and the gross margin received by the Company from sales of FACTIVE within its territory outside of the U.S. (for which the definition of Net Revenues has been expanded to include in the Amendment) is less than 85% of certain specified annual sales thresholds, then PRF will be entitled to a (i) 3% increase in the applicable royalty percentage payable on the first \$75 million of sales of such products in the applicable year and (ii) 2% increase in the applicable royalty percentage payable on net sales of such products in excess of \$75 million and less than \$150 million in the applicable year. The specified sales thresholds are \$115 million in 2009, \$135 million in 2010, \$150 million in 2011 and \$175 million thereafter through the term. Furthermore, the Amendment provides that in the event that the Company fails to achieve the specified sales threshold in any applicable year, the increased applicable royalty percentage shall also be payable on the net sales of any future drug products acquired or in-licensed by the Company or its subsidiaries. The increase in the applicable percentage payable on net sales shall be limited to a maximum payment to PRF of \$2.25 million per year and \$15 million during the term of the Agreement, and in no event shall such payment exceed the amount which PRF would have received in the applicable year had the specified sales threshold for that year been achieved.

The Amendment also provides that in the event that the Company or its subsidiaries acquires or in-licenses additional drug products, the Company shall make a one-time milestone payment to PRF of \$1.25 million on the second anniversary of the Company's first commercial sale of such product.

Under the terms of the Amendment, in the event that PRF and the Company determine that the fair market value of the collateral in which PRF has been granted a security interest by Guardian II is less than the Put/Call Price, the Company will elect, in its sole discretion, to either grant PRF a security interest in 25% of each

Table of Contents

additional drug product acquired or in-licensed by the Company or its subsidiaries, or pay PRF \$1.5 million on the second year anniversary of the Company's first commercial sale of each such product.

The Amendment also provides that any acceleration or failure to pay the notes to be issued in the Company's November 2008 exchange offer shall be considered a Put Event.

The Company issued to PRF (i) a \$2.0 million aggregate principal amount note which was substantially identical to the notes issued in the exchange offer and (ii) 500,000 shares of the Company's common stock. The Company also has granted certain registration rights to PRF with respect to the note and the shares. Additionally, the Company agreed to amend the exercise price of the common stock purchase warrant dated August 18, 2006 issued to PRF to purchase 288,018 shares of the Company's common stock to be equal to the closing price of the Company's Common Stock on the NASDAQ Global Market on the date immediately preceding the closing of the exchange offer.

The Board of Directors has determined that each of Messrs. Reardon, Riedel, Stone, Mattson and Hennessey are independent within the meaning of Rule 4200 of the NASDAQ Stock Market, Inc. listing standards.

Item 14. Principal Accountant Fees and Services**Principal Accountant Fees and Services**

The following table presents fees for professional audit services rendered by Ernst & Young LLP for the audit of our annual consolidated financial statements for the fiscal years ended December 31, 2008 and December 31, 2007, and fees for other services rendered by Ernst & Young LLP during those periods:

Fee Category	Fiscal 2008	% of Total	Fiscal 2007	% of Total

Audit-Related Fees	16,494	1.1%	203,447	20.0%

Total Fees	\$ 1,548,550	100.0%	\$ 1,020,244	100.0%

Audit fees included fees related to services rendered in connection with the annual audit of our consolidated financial statements and our internal control over financial reporting, the quarterly reviews of the consolidated financial statements included in our quarterly reports on Form 10-Q, and the reviews of and other services related to the Company's registration statements and resale registration statements.

Tax fees consisted of tax compliance/preparation and other tax services. Tax compliance/preparation consisted of fees billed for professional services related to federal, state and local tax compliance.

On an on-going basis, management communicates specific projects and categories of services for which advance approval of the Audit Committee is required. The Audit Committee reviews these requests and advises management and the independent registered public accounting firm if the Audit Committee pre-approves the engagement of the independent registered public accounting firm for such projects and services. On a periodic basis, the independent registered public accounting firm reports to the Audit Committee the actual spending for such projects and services compared to the approved amounts. The Audit Committee may delegate the ability to pre-approve audit and permitted non-audit services to a sub-committee of the Audit Committee, provided that any such pre-approvals are reported at the next Audit Committee meeting.

The Audit Committee has considered whether the provision of services to us by Ernst & Young LLP beyond those rendered in connection with its audit and review of our financial statements was compatible with maintaining its independence. On the basis of the relevant facts and circumstances pertaining to the engagement of Ernst & Young LLP by us in connection with its services in fiscal 2007 and 2008, the Audit Committee believes that Ernst & Young LLP satisfied the requirements of independence from the Company.
