Commission file number 001-13677

**MID PENN BANCORP, INC.**

(Exact Name of Registrant as Specified in its Charter)

**Pennsylvania**  
(State or Other Jurisdiction of  
Incorporation or Organization)

**25-1666413**  
(I.R.S. Employer Identification Number)

**349 Union Street**  
**Millersburg, Pennsylvania**  
(Address of Principal Executive Offices)

**17061**  
(Zip Code)

**(717) 692-2133**

(Registrant's Telephone Number, Including Area Code)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Edgar Filing: MID PENN BANCORP INC - Form 10-Q

Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definition of "accelerated filer," "large accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check One):

Large accelerated filer  Accelerated filer  Non-accelerated filer  Smaller reporting company   
Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act).

Yes  No

As of May 8, 2009, there were 3,479,780 shares of the registrant's common stock outstanding, par value \$1.00 per share.

*The accompanying notes are an integral part of these consolidated financial statements.*

**Table of Contents****MID PENN BANCORP, INC.****Notes to Consolidated Financial Statements****1. Basis of Presentation**

The consolidated financial statements for 2009 and 2008 include the accounts of Mid Penn Bancorp, Inc. ( Mid Penn ), its subsidiaries Mid Penn Bank (the Bank ), Mid Penn Insurance Services, LLC, and Mid Penn Investment Corporation (collectively the Corporation ). All material intercompany accounts and transactions have been eliminated in consolidation.

Certain information and footnote disclosures normally included in consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America ( GAAP ) have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission ( SEC ). We believe the information presented is not misleading and the disclosures are adequate. For comparative purposes, the March 31, 2008 balances have been reclassified to conform to the 2009 presentation. Such reclassifications had no impact on net income. The results of operations for interim periods are not necessarily indicative of operating results expected for the full year. These interim consolidated financial statements should be read in conjunction with the audited financial statements and notes thereto included in Mid Penn s Annual Report on Form 10-K for the year ended December 31, 2008, and with Mid Penn s Forms 8-K, that were filed during 2009 with the SEC.

**2. Short-term Borrowings**

Short-term borrowings as of March 31, 2009, and December 31, 2008 consisted of:

(Dollars in thousands)	March 31, 2009	December 31, 2008
Federal funds purchased	\$	\$ 17,920
Securities sold under repurchase agreements	6,408	5,041
Treasury, tax and loan notes	728	1,016
	\$ 7,136	\$ 23,977

Federal funds purchased represent overnight funds. Securities sold under repurchase agreements generally mature between one day and one year. Treasury tax and loan notes are open-ended interest bearing notes payable to the U.S. Treasury upon call. All tax deposits accepted by the Bank are placed in the Treasury note option account.

**3. Long-term Debt**

During the first quarter ended March 31, 2009, the Bank entered into no additional long-term borrowings with the Federal Home Loan Bank of Pittsburgh. The Bank did; however, pay down long-term debt by \$5 million.

**4. Defined Benefit Plans**

Mid Penn has an unfunded noncontributory defined benefit retirement plan for directors. The plan provides defined benefits based on years of service. In addition, Mid Penn sponsors a defined benefit health care plan that provides post-retirement medical benefits and life insurance to full-time employees. These health care and life insurance plans are noncontributory. A December 31 measurement date for our plans is used.

The components of net periodic benefit costs from these benefit plans are as follows:

(Dollars in thousands)	Three Months Ended March 31,			
	Pension Benefits		Other Benefits	
	2009	2008	2009	2008
Service cost	\$ 5	\$ 12	\$ 4	\$ 6

Edgar Filing: MID PENN BANCORP INC - Form 10-Q

Interest cost	14	9	8	15
Amortization of transition obligation		4		
Amortization of prior service cost	5			5
Amortization of net gain		(1)	(3)	
Net periodic benefit cost	\$ 24	\$ 24	\$ 9	\$ 26

**5. Earnings per Common Share**

Earnings per common share is computed by dividing net income available to common stockholders by the weighted average number of common shares outstanding during each of the periods presented giving retroactive effect to stock dividends and stock splits. The following data show the amounts used in computing basic and diluted earnings per common share. As shown in the table that follows, diluted earnings per common share is

**Table of Contents****MID PENN BANCORP, INC.****Notes to Consolidated Financial Statements**

computed using weighted average common shares outstanding, plus weighted average common shares available from the exercise of all dilutive stock warrants issued to the U.S. Treasury under the provisions of the Capital Purchase Program, based on the average share price of Mid Penn's common stock during the period.

The computations of basic earnings per common share follow:

(Dollars in thousands, except per share data)	Three Months Ended March 31,	
	2009	2008
Net Income	\$ 213	\$ 1,173
Less: Dividends on preferred stock	(125)	
Accretion of preferred stock discount	(3)	
Net income available to common stockholders	\$ 85	\$ 1,173
Weighted average common shares outstanding	3,479,780	3,488,826
Basic earnings per common share	\$ 0.02	\$ 0.34

The computations of diluted earnings per common share follow:

(Dollars in thousands, except per share data)	Three Months Ended March 31,	
	2009	2008
Net income available to common stockholders	\$ 85	\$ 1,173
Weighted average number of common shares outstanding	3,479,780	3,488,826
Dilutive effect of potential common stock arising from stock warrants: Exercise of outstanding stock warrants issued to U.S. Treasury under the Capital Repurchase Program		
Adjusted weighted-average common shares outstanding	3,479,780	3,488,826
Diluted earnings per common share	\$ 0.02	\$ 0.34

**6. Comprehensive Income**

Accounting principles generally accepted in the United States of America require that recognized revenue, expenses, gains, and losses be included in net income. Changes in certain assets and liabilities such as unrealized gains (losses) on securities available for sale and the liability associated with defined benefit plans, are reported as a separate component of the stockholders' equity section of the balance sheet. Such items, along with net income, are components of comprehensive income. The components of comprehensive income, and the related tax effects, are as follows:

(Dollars in thousands)	Three Months Ended March 31,	
	2009	2008
Change in unrealized holding gains on available for sale securities	\$ 123	\$ 355
Less reclassification adjustment for gains realized in income		
Net unrealized gains	123	355
Change in defined benefit plans	152	
Other comprehensive income	275	355
Income tax expense	(94)	(120)

Net of tax amount	\$ 181	\$ 235
-------------------	--------	--------

**7. Guarantees**

In the normal course of business, Mid Penn makes various commitments and incurs certain contingent liabilities, which are not reflected in the accompanying consolidated financial statements. The commitments include various guarantees and commitments to extend credit. Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Mid Penn evaluates each customer's credit-worthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary upon extension of credit, is based on management's credit evaluation of the customer. Standby letters of credit and financial guarantees written are conditional commitments to guarantee the performance of a customer to a third party. Those guarantees are primarily issued to support public and private borrowing arrangements. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loans to customers. Mid Penn had \$10,337,000 and \$10,517,000 of standby letters of credit outstanding as of March 31, 2009 and December 31, 2008, respectively. The Corporation does not anticipate any losses because of these transactions. The current amount of the liability as of March 31, 2009 for payment under standby letters of credit issued was not material.

**Table of Contents****MID PENN BANCORP, INC.****Notes to Consolidated Financial Statements****8. Split Dollar Life Insurance Postretirement Benefits**

Effective January 1, 2008, Mid Penn Bank adopted the provisions of Emerging Issues Task Force ( EITF ) Issue No. 06-4, Accounting for Deferred Compensation and Postretirement Benefit Aspects of Endorsement Split Dollar Life Insurance Arrangements ( EITF 06-4 ). EITF 06-4 requires the recognition of a liability related to the postretirement benefits covered by an endorsement split-dollar life insurance arrangement, and the liability for the future death benefit should be recognized by following the guidance in SFAS No. 106 or Accounting Principles Board Opinion No. 12, as appropriate. In adopting EITF 06-4, Mid Penn recorded a cumulative effect adjustment to the balance of retained earnings of \$277,000 as of January 1, 2008.

**9. Fair Value Measurement**

Effective January 1, 2008, Mid Penn adopted Statement of Financial Accounting Standards ( SFAS ) No. 157, Fair Value Measurements for financial assets and financial liabilities and on January 1, 2009, adopted the provision for non-financial assets and non-financial liabilities. SFAS 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Inputs to valuation techniques refer to the assumptions that market participants would use in pricing the asset or liability. Inputs may be observable, meaning those that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from independent sources, or unobservable, meaning those that reflect the reporting entity's own belief about the assumptions market participants would use in pricing the asset or liability based upon the best information available in the circumstances. SFAS 157 establishes a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The fair value hierarchy is as follows:

- Level 1 Inputs** - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
- Level 2 Inputs** - Quoted prices in markets that are not active, or inputs that are observable either directly or indirectly, for substantially the full term of the asset or liability;
- Level 3 Inputs** - Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e., supported by little or no market activity).

A description of the valuation methodologies used for instruments measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy, is set forth below. These valuation methodologies were applied to all of Mid Penn's financial assets and financial liabilities carried at fair value effective January 1, 2008.

*Securities Available for Sale*

Securities classified as available for sale are generally reported at fair value utilizing Level 2 inputs. For these securities, we obtain fair value measurements from an independent pricing service. These valuation services estimate fair value using pricing models and other accepted valuation methodologies, such as quotes for similar securities and observable yield curves and spreads.

*Impaired Loans*

Certain loans are evaluated for impairment using the practical expedients permitted by SFAS No. 114, Accounting by Creditors for Impairment of a Loan, including impaired loans measured at an observable market price (if available), or at the fair value of the loan's collateral (if the loan is collateral dependent). The value of the collateral is determined through appraisals performed by independent licensed appraisers. When the value of the collateral, less estimated costs to sell, is less than the principal balance of the loan, a specific reserve is established. Mid Penn considers the appraisals used in its impairment analysis to be Level 3 inputs. Impaired loans are reviewed and evaluated as needed for additional impairment, and reserves are adjusted accordingly.

*Foreclosed Assets*

## Edgar Filing: MID PENN BANCORP INC - Form 10-Q

Assets included in foreclosed assets held for sale are reported at fair value on a non-recurring basis. Values are estimated using Level 3 inputs, based on appraisals that consider the sales prices of property in the proximate vicinity.

**Table of Contents****MID PENN BANCORP, INC.****Notes to Consolidated Financial Statements**

The following table illustrates the financial instruments measured at fair value on a recurring basis segregated by hierarchy fair value levels:

(Dollars in thousands)	Total carrying value at March 31, 2009	Fair value measurements at March 31, 2009 using:		
		Quoted prices in active markets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
<b>Assets:</b>				
Securities available for sale	\$ 41,722		\$ 41,722	

(Dollars in thousands)	Total carrying value at December 31, 2008	Fair value measurements at December 31, 2008 using:		
		Quoted prices in active markets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
<b>Assets:</b>				
Securities available for sale	\$ 52,739		\$ 52,739	

Certain financial assets and financial liabilities are measured at fair value on a nonrecurring basis; that is, the instruments are not measured at fair value on an ongoing basis, but are subject to fair value adjustments in certain circumstances (for example, when there is evidence of impairment). The following table illustrates the financial instruments measured at fair value on a nonrecurring basis segregated by hierarchy fair value levels:

(Dollars in thousands)	Total carrying value at March 31, 2009	Fair value measurements at March 31, 2009 using:		
		Quoted prices in active markets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
<b>Assets:</b>				
Impaired Loans	\$ 5,355			\$ 5,355
Foreclosed Assets	1,209			1,209

(Dollars in thousands)	Total carrying value at December 31, 2008	Fair value measurements at December 31, 2008 using:		
		Quoted prices in active markets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
<b>Assets:</b>				
Impaired Loans	\$ 5,492			\$ 5,492
Foreclosed Assets	1,516			1,516

**10. Preferred Stock**

On December 19, 2008, MPB entered into, and closed, a Letter Agreement with the United States Department of the Treasury (the Treasury) pursuant to which the Treasury invested \$10,000,000 in the Corporation under the Treasury's Capital Purchase Program (the CPP).

Under the CPP, the Treasury received (1) 10,000 shares of Series A Fixed Rate Cumulative Perpetual Preferred Stock, \$1,000 liquidation preference, and (2) Warrants to purchase up to 73,099 shares of the Corporation's common stock at an exercise price of \$20.52 per share. The \$10,000,000 in new capital is treated as Tier 1 Capital.

The Series A Preferred Stock will pay cumulative dividends at a rate of 5% per annum for the first five years and 9% per annum thereafter. The Series A Preferred Stock may not be redeemed during the first three years after issuance except from the proceeds from a Qualified Equity Offering and in accordance to the terms of the Letter Agreement. Thereafter, the Corporation may elect to redeem the Series A Preferred Stock at the original purchase price plus accrued but unpaid dividends, if any. The related Warrants expire in ten years and are immediately exercisable upon its issuance.

## Edgar Filing: MID PENN BANCORP INC - Form 10-Q

To participate in the program, the Corporation is required to meet certain standards, including: (1) ensuring that incentive compensation for senior executives does not encourage unnecessary and excessive risk that threaten the value of the Corporation; (2) requiring a clawback of any bonus or incentive compensation paid to a senior executive based on statements of earnings, gains or other criteria that are later proven to be materially inaccurate; (3) prohibiting the Corporation from making any golden parachute payment to a senior executive based on applicable Internal Revenue Code provisions; and (4) agreeing not to deduct, for tax purposes, executive compensation in excess of \$500,000 for each senior executive.

Based on the Program term sheet provided by the Treasury, the following would be the effects on holders of common stock from the issuance of Senior Preferred stock to the Treasury under the Program:

### *Restrictions on Dividends*

For as long as any Senior Preferred shares are outstanding, no dividends could be declared or paid on common shares, nor could the Corporation repurchase or redeem any common shares, unless all accrued and unpaid dividends for all past dividend periods on the Senior Preferred shares had been fully paid. In addition, the consent of the Treasury would be required for any increase in the per share dividends on common shares until the third anniversary of the date of the Senior Preferred investment unless prior to such third anniversary, the Senior Preferred shares were redeemed in whole or the Treasury had transferred all of the Senior Preferred shares to third parties.

**Table of Contents****MID PENN BANCORP, INC.****Notes to Consolidated Financial Statements***Repurchases*

The Treasury's consent would be required for any share repurchases (other than (1) repurchases of the Senior Preferred shares and (2) repurchases of common shares in connection with any benefit plan in the ordinary course of business consistent with past practice) until the third anniversary of the date of this investment unless prior to such third anniversary the Senior Preferred shares had been redeemed in whole or the Treasury had transferred all of the Senior Preferred shares to third parties. In addition, there could be no share repurchases of common shares if prohibited as described under "Restrictions on Dividends" above.

*Voting Rights*

The Senior Preferred shares would be non-voting, other than class voting rights on (1) any authorization or issuance of shares ranking senior to the Senior Preferred shares, (2) any amendment to the rights of senior Preferred, or (3) any merger, exchange or similar transaction which would adversely affect the rights of the Senior Preferred. If dividends on the Senior Preferred shares were not paid in full for six dividend periods, whether or not consecutive, the Senior Preferred shareholder(s) would have the right to elect two directors. The right to elect directors would end when full dividends had been paid for four consecutive dividend periods.

**11. Recent Accounting Pronouncements****FASB FAS 141(R)**

In December 2007, the FASB issued SFAS No. 141(R) "Business Combinations" (SFAS 141(R)). SFAS 141(R) establishes principles and requirements for how the acquirer of a business recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree. SFAS 141(R) also provides guidance for recognizing and measuring the goodwill acquired in the business combination and determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. The guidance became effective January 1, 2009, and has had no effect on the Corporation's consolidated financial statements.

**International Financial Reporting Standards**

In November 2008, the SEC released a proposed roadmap regarding the potential use by U.S. issuers of financial statements prepared in accordance with International Financial Reporting Standards (IFRS). IFRS is a comprehensive series of accounting standards published by the International Accounting Standards Board (IASB). Under the proposed roadmap, the Corporation may be required to prepare financial statements in accordance with IFRS as early as 2014. The SEC will make a determination in 2011 regarding the mandatory adoption of IFRS. The Corporation is currently assessing the impact that this potential change would have on its consolidated financial statements, and it will continue to monitor the development of the potential implementation of IFRS.

**FSP FAS 132(R)-1**

In December 2008, the FASB issued FSP FAS 132(R)-1, "Employers' Disclosures about Postretirement Benefit Plan Assets". This FSP amends SFAS 132(R), "Employers' Disclosures about Pensions and Other Postretirement Benefits", to provide guidance on an employer's disclosures about plan assets of a defined benefit pension or other postretirement plan. The disclosures about plan assets required by this FSP shall be provided for fiscal years ending after December 15, 2009. The Corporation is currently reviewing the effect this new pronouncement will have on its consolidated financial statements.

**FSP FAS 157-4**

In April 2009, the Financial Accounting Standards Board (FASB) issued FASB Staff Position (FSP) No. FAS 157-4, "Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly" (FSP FAS 157-4). FASB Statement 157, "Fair Value Measurements", defines fair value as the price that would be received to sell the asset or transfer the liability in an orderly transaction (that is, not a forced liquidation or distressed sale) between market participants at the measurement date under current market conditions. FSP FAS 157-4 provides additional guidance on determining when the volume and level of activity for the asset or liability has significantly decreased. The FSP also includes guidance on identifying circumstances when a transaction may not be considered orderly.

## Edgar Filing: MID PENN BANCORP INC - Form 10-Q

FSP FAS 157-4 provides a list of factors that a reporting entity should evaluate to determine whether there has been a significant decrease in the volume and level of activity for the asset or liability in relation to normal market activity for the asset or liability. When the reporting entity concludes there has been a significant decrease in the volume and level of activity for the asset or liability, further analysis of the information from that market is needed and significant adjustments to the related prices may be necessary to estimate fair value in accordance with Statement 157.

---

**Table of Contents**

**MID PENN BANCORP, INC.**

**Notes to Consolidated Financial Statements**

This FSP clarifies that when there has been a significant decrease in the volume and level of activity for the asset or liability, some transactions may not be orderly. In those situations, the entity must evaluate the weight of the evidence to determine whether the transaction is orderly. The FSP provides a list of circumstances that may indicate that a transaction is not orderly. A transaction price that is not associated with an orderly transaction is given little, if any, weight when estimating fair value.

This FSP is effective for interim and annual reporting periods ending after June 15, 2009, with early adoption permitted for periods ending after March 15, 2009. An entity early adopting FSP FAS 157-4 must also early adopt FSP FAS 115-2 and FAS 124-2, *Recognition and Presentation of Other-Than-Temporary Impairments*. The Corporation is currently reviewing the effect this new pronouncement will have on its consolidated financial statements.

**FSP FAS 115-2 and FAS 124-2**

In April 2009, the FASB issued FSP No. FAS 115-2 and FAS 124-2, *Recognition and Presentation of Other-Than-Temporary Impairments* (FSP FAS 115-2 and FAS 124-2). FSP FAS 115-2 and FAS 124-2 clarify the interaction of the factors that should be considered when determining whether a debt security is other-than-temporarily impaired. For debt securities, management must assess whether (a) it has the intent to sell the security and (b) it is more likely than not that it will be required to sell the security prior to its anticipated recovery. These steps are done before assessing whether the entity will recover the cost basis of the investment. Previously, this assessment required management to assert it has both the intent and the ability to hold a security for a period of time sufficient to allow for an anticipated recovery in fair value to avoid recognizing an other-than-temporary impairment. This change does not affect the need to forecast recovery of the value of the security through either cash flows or market price.

In instances when a determination is made that an other-than-temporary impairment exists but the investor does not intend to sell the debt security and it is not more likely than not that it will be required to sell the debt security prior to its anticipated recovery, FSP FAS 115-2 and FAS 124-2 changes the presentation and amount of the other-than-temporary impairment recognized in the income statement. The other-than-temporary impairment is separated into (a) the amount of the total other-than-temporary impairment related to a decrease in cash flows expected to be collected from the debt security (the credit loss) and (b) the amount of the total other-than-temporary impairment related to all other factors. The amount of the total other-than-temporary impairment related to the credit loss is recognized in earnings. The amount of the total other-than-temporary impairment related to all other factors is recognized in other comprehensive income.

This FSP is effective for interim and annual reporting periods ending after June 15, 2009, with early adoption permitted for periods ending after March 15, 2009. An entity early adopting FSP FAS 115-2 and FAS 124-2 must also early adopt FSP FAS 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly*. The Corporation is currently reviewing the effect this new pronouncement will have on its consolidated financial statements.

**FSP FAS 107-1 and APB 28-1**

In April 2009, the FASB issued FSP No. FAS 107-1 and APB 28-1, *Interim Disclosures about Fair Value of Financial Instruments* (FSP FAS 107-1 and APB 28-1). FSP FAS 107-1 and APB 28-1 amends FASB Statement No. 107, *Disclosures about Fair Value of Financial Instruments*, to require disclosures about fair value of financial instruments for interim reporting periods of publicly traded companies as well as in annual financial statements. This FSP also amends APB Opinion No. 28, *Interim Financial Reporting*, to require those disclosures in summarized financial information at interim reporting periods.

This FSP is effective for interim and annual reporting periods ending after June 15, 2009, with early adoption permitted for periods ending after March 15, 2009. An entity early adopting FSP FAS 107-1 and APB 28-1 must also early adopt FSP FAS 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly* and FSP FAS 115-2 and FAS 124-2, *Recognition and Presentation of Other-Than-Temporary Impairments*. The Company is currently reviewing the effect this new pronouncement will have on its consolidated financial statements.

**Management's Discussion and Analysis**

**ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The following is Management's Discussion of Consolidated Financial Condition as of March 31, 2009, compared to year-end 2008 and the Results of Operations for the first three months of 2009 compared to the same period in 2008.

This discussion should be read in conjunction with the financial tables, statistics, and the audited financial statements and notes thereto included in Mid Penn's Annual Report on Form 10-K for the year ended December 31, 2008, and with Mid Penn's Forms 8-K, that were filed during 2009 with the SEC. The results of operations for interim periods are not necessarily indicative of operating results expected for the full year.

Certain of the matters discussed in this document and in documents incorporated by reference herein, including matters discussed under the caption Management's Discussion and Analysis of Financial Condition and Results of Operations, may constitute forward-looking statements for purposes of the Securities Act of 1933, as amended, and the Securities Exchange Act of 1934, as amended, and as such may involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Corporation to be materially different from future results, performance or achievements expressed or implied by such forward-looking statements. The words expect, anticipates, intend, plan, believe, estimate, and similar expressions are intended to identify such forward-looking statements.

The Corporation's actual results may differ materially from the results anticipated in these forward-looking statements due to a variety of factors, including, without limitation:

The effects of future economic conditions on Mid Penn and its customers;

Governmental monetary and fiscal policies, as well as legislative and regulatory changes;

The effect of changes in accounting policies and practices, as may be adopted by the regulatory agencies, as well as the Financial Accounting Standards Board and other accounting standard setters;

The risks of changes in interest rates on the level and composition of deposits, loan demand, and the values of loan collateral, securities and interest rate protection agreements, as well as interest rate risks;

The effects of competition from other commercial banks, thrifts, mortgage banking firms, consumer finance companies, credit unions, securities brokerage firms, insurance companies, money market and other mutual funds and other financial institutions operating in Mid Penn's market area and elsewhere, including institutions operating locally, regionally, nationally and internationally, together with such competitors offering banking products and services by mail, telephone, computer and the internet;

The costs and effects of litigation and of unexpected or adverse outcomes in such litigation;

Technological changes;

Acquisitions and integration of acquired businesses;

The failure of assumptions underlying the establishment of reserves for loan and lease losses and estimations of values of collateral and various financial assets and liabilities;

Acts of war or terrorism;

Volatilities in the securities markets;

Deteriorating economic conditions; and

The inability of borrowers to repay loans

Mid Penn undertakes no obligation to publicly revise or update these forward-looking statements to reflect events or circumstances that arise after the date of this report. Readers should carefully review the risk factors described in the Annual Report and other documents that we periodically file with the SEC, including Mid Penn's Annual Report on Form 10-K for the year ended December 31, 2008.

**Critical Accounting Estimates**

Mid Penn's consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States of America and conform to general practices within the banking industry. Application of these principles involves significant judgments and estimates by management that have a material impact on the carrying value of certain assets and liabilities. The judgments and estimates that we used are based on historical experiences and other factors, which are believed to be reasonable under the circumstances. Because of the nature of the judgments and estimates that we have made, actual results could differ from these judgments and estimates, which could have a material impact on the carrying values of assets and liabilities and the results of our operations.

Management of the Corporation considers the accounting judgments relating to the allowance for loan and lease losses and the evaluation of the Corporation's investment securities for other-than-temporary impairment to be the accounting areas that require the most subjective and complex judgments.

The allowance for loan and lease losses represents management's estimate of potentially incurred credit losses inherent in the loan and lease portfolio. Determining the amount of the allowance for loan and lease losses is considered a critical accounting estimate because it requires significant judgment and the use of estimates related to the amount and timing of expected future cash flows on impaired loans, estimated losses on pools of homogeneous loans based on historical loss experience, and consideration of current economic trends and conditions, all of which may be susceptible to significant change. The loan and lease portfolio also represents the largest asset type on the consolidated balance sheet. Throughout the remainder of this presentation, the terms "loan" or "loans" refers to both loans and leases.

**Table of Contents****MID PENN BANCORP, INC.****Management's Discussion and Analysis**

Valuations for the investment portfolio are determined using quoted market prices, where available. If quoted market prices are not available, investment valuation is based on pricing models, quotes for similar investment securities, and observable yield curves and spreads. In addition to valuation, management must assess whether there are any declines in value below the carrying value of the investments that should be considered other than temporary or otherwise require an adjustment in carrying value and recognition of the loss in the consolidated statement of income.

**Results of Operations****Overview**

Net income was \$213,000 or \$0.02 per common share for the quarter ended March 31, 2009, as compared to net income of \$1,173,000 or \$0.34 per common share for the quarter ended March 31, 2008.

The margin compression experienced throughout 2008 continued in the first quarter of 2009 with net interest income decreasing from \$4,200,000 in 2008 to \$3,956,000 in 2009.

The provision for loan and lease losses in the first quarter of 2009 was \$933,000, as compared to \$100,000 in the first quarter of 2008. The increased provision reflects strong loan growth during the quarter, weak economic conditions, and additional problem loans.

Increasing noninterest expenses in the first quarter of 2009, versus the same period in 2008, also negatively affected earnings. The three primary areas of increased expenses during the first quarter of 2009 were Salaries and Benefits, FDIC Assessment, and Marketing and Advertising expense.

Net income as a percent of average assets, (return on average assets or ROA), and stockholders' equity, (return on average equity or ROE), were as follows on an annualized basis:

	<b>Three Months Ended March 31,</b>	
	<b>2009</b>	<b>2008</b>
Return on average assets	0.15%	0.90%
Return on average equity	1.54%	11.68%

Total assets fell to \$565,070,000 at March 31, 2009, from \$572,300,000 on December 31, 2008. This asset decline was the result of maturities in time deposits with other financial institutions and investment securities being used to pay down short-term borrowings and long-term debt. Loan demand was strong during the first quarter of 2009 with gross loans of \$448,950,000 at March 31, 2009 compared to \$434,643,000 at year-end, an increase of approximately \$14 million.

Deposit growth was strong during the first three months of 2009. Total deposits were \$451,569,000 at March 31, 2009, compared to \$436,824,000 at December 31, 2008, an increase of approximately \$15 million. This increase in deposits was boosted by a flight to safety as investors retreat from the stock market and invests their funds in insured accounts.

**Table of Contents****MID PENN BANCORP, INC.  
Net Interest Income/Funding Sources****Management's Discussion and Analysis**

Net interest income, Mid Penn's primary source of revenue, is the amount by which interest income on loans and investments exceeds interest incurred on deposits and borrowings. The amount of net interest income is affected by changes in interest rates and changes in the volume and mix of interest-sensitive assets and liabilities. Net interest income and corresponding yields are presented in the analysis below on a taxable-equivalent basis. Income from tax-exempt assets, primarily loans to or securities issued by state and local governments, is adjusted by an amount equivalent to the federal income taxes which would have been paid if the income received on these assets was taxable at the statutory rate of 34%. The following table includes average balances, rates, interest income and expense, interest rate spread, and net interest margin:

**Average Balances, Effective Interest Differential and Interest Yields**

Interest rates and interest differential - taxable equivalent basis

(Dollars in thousands)	For the Three Months Ended March 31, 2009			For the Three Months Ended March 31, 2008		
	Average Balance	Interest	Rate (%)	Average Balance	Interest	Rate (%)
<b>ASSETS:</b>						
Interest Earning Assets

Money Market	76,413	359	1.91%	65,687	405	2.48%
Savings	25,858	6	0.09%	25,253	17	0.27%
Time	256,542	2,529	4.00%	224,098	2,514	4.51%
Short-term Borrowings	14,537	19	0.53%	32,177	262	3.27%
Long-term Debt	53,924	688	5.17%	48,493	628	5.21%
Total Interest Bearing Liabilities	462,850	3,609	3.16%	431,948	3,877	3.61%

Edgar Filing: MID PENN BANCORP INC - Form 10-Q

Demand Deposits	47,993	45,233
Other Liabilities	5,418	5,419
Stockholders' Equity	55,988	40,380
<b>Total Liabilities and Stockholders' Equity</b>	<b>\$ 572,249</b>	<b>\$ 522,980</b>

Net Interest Income \$ 4,182 \$ 4,434

Net Yield on Interest Earning Assets:

Total Yield on Earning Assets	5.83%	6.77%
Rate on Supporting Liabilities	3.16%	3.61%
Average Interest Spread	2.67%	3.16%
Net Interest Margin	3.13%	3.61%

For the three months ended March 31, 2009, Mid Penn's taxable-equivalent net interest margin declined to 3.13% from 3.61% during the three months ended March 31, 2008, driven primarily by a reduction in market interest rates and the tightening spread between the yield on earning assets and the cost of supporting liabilities. Net interest income, on a taxable-equivalent basis, in the first three months of 2009 decreased to \$4,182,000 from \$4,434,000 in the first three months of 2008, in spite of the strong growth in average earning assets, which increased 9.81% from March 31, 2008 to March 31, 2009.

Although the effective interest rate impact on earning assets and funding sources can be reasonably estimated at current interest rate levels, the options selected by customers, and the future mix of the loan, investment, and deposit products in the Bank's portfolios, may significantly change the estimates used in the simulation models. In addition, our net interest income may be impacted by further interest rate actions of the Federal Reserve Bank.

**Table of Contents****MID PENN BANCORP, INC.  
Provision for Loan Losses****Management's Discussion and Analysis**

The provision for loan and lease losses is the expense necessary to maintain the allowance for loan and lease losses at a level adequate to absorb management's estimate of probable losses in the loan and lease portfolio. Mid Penn's provision for loan and lease losses is based upon management's monthly review of the loan portfolio. The purpose of the review is to assess loan quality, identify impaired loans and leases, analyze delinquencies, ascertain loan and lease growth, evaluate potential charge-offs and recoveries, and assess general economic conditions in the markets we serve.

During the first quarter of 2009, Mid Penn continued to experience a challenging operating environment. Given the economic pressures that impact some borrowers, the Corporation has increased the allowance for loan and lease losses in accordance with Mid Penn's assessment process, which took into consideration the decrease in collateral values from December 31, 2008 to March 31, 2009. The provision for loan and lease losses was \$933,000 for the three months ended March 31, 2009, as compared to \$100,000 for the three months ended March 31, 2008. For further discussion of factors affecting the provision for loan and lease losses please see *Credit Quality, Credit Risk, and Allowance for Loan and Lease Losses* in the Financial Condition section of this Management Discussion and Analysis.

**Noninterest Income**

Noninterest income increased by \$45,000, or 5.0% during the first quarter of 2009 versus the first quarter of 2008. The net increase was primarily the result of changes in the following components of noninterest income:

(Dollars in Thousands)	Three Months Ended			
	2009	2008	March 31, \$ Variance	% Variance
Service charges on deposits	\$ 351	\$ 408	\$ (57)	(14.0)%
Gain on life insurance proceeds	158		158	N/A

The increase in noninterest income was the result of recognition of insurance proceeds due to the death of a former Director. The death benefit revenue was offset by a decline in service charges on deposits, primarily NSF fee income.

**Noninterest Expenses**

Noninterest expenses increased by \$422,000, or 12.2% during the first quarter of 2009, versus the same period in 2008. The increase was primarily a result of increases in the following components of noninterest expense:

(Dollars in Thousands)	Three Months Ended			
	2009	2008	March 31, \$ Variance	% Variance
Salaries and employee benefits	\$ 2,100	\$ 1,812	\$ 288	15.9%
FDIC Assessment	128	11	117	1063.6%
Marketing and advertising expense	194	79	115	145.6%

The increases in salaries and employee benefits reflect the full quarter impact of added team members throughout 2008 to position Mid Penn for handling current needs and future growth. The increase in FDIC Assessment is the result of the agency's efforts to replenish the insurance fund in light of the wave of bank closures brought on by the sub-prime lending and credit crisis. Marketing and advertising expenses are higher in 2009 as we position ourselves to take advantage of market disruption caused by the sub-prime lending and credit crisis related mergers and financial difficulties.

**Income Taxes**

The benefit from income taxes was (\$117,000) for the three months ended March 31, 2009, as compared to a provision for income taxes of \$377,000 the same period of last year. The tax benefit was related to the reduced net income stemming from the increased provision for loan losses, increased noninterest expenses, and the reduction in net interest income during the first quarter of 2009 versus the same period in 2008.

## Edgar Filing: MID PENN BANCORP INC - Form 10-Q

The effective tax rate, as of March 31, 2009, was (121.7) % compared to 24.3% as of March 31, 2008. Generally, our effective tax rate is below the statutory rate due to earnings on tax-exempt loans, investments, and bank-owned life insurance, and the impact of tax credits. The realization of deferred tax assets is dependent on future earnings. As a result of Mid Penn's adoption of FIN 48 and FIN 48-1, no significant income tax uncertainties were identified, therefore, Mid Penn recognized no adjustment for unrealized income tax benefits for the periods ended March 31, 2009 and March 31, 2008. We currently anticipate that future earnings will be adequate to utilize deferred tax assets fully.

**Table of Contents****MID PENN BANCORP, INC.****Management's Discussion and Analysis****Financial Condition****Investment Securities**

Securities to be held for indefinite periods of time, but not intended to be held to maturity, are classified as available for sale and carried at fair value. Securities held for indefinite periods of time include securities that management intends to use as part of its asset and liability management strategy and that may be sold in response to changes in interest rates, resultant prepayment risk, and other factors related to interest rate and resultant prepayment risk changes.

Realized gains and losses on dispositions are based on the net proceeds and the adjusted book value of the securities sold, using the specific identification method. Unrealized gains and losses on investment securities available for sale are based on the difference between book value and fair value of each security. These gains and losses are credited or charged to other comprehensive income, whereas realized gains and losses flow through the Corporation's results of operations.

Interest-bearing time deposits with other financial institutions are fully covered by FDIC Insurance.

As of March 31, 2009 and December 31, 2008, all of Mid Penn's investment securities are classified as available for sale, with the stratification noted in the table below:

(Dollars in thousands)	March 31, 2009		December 31, 2008	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
Available-for-sale:				
U.S. Treasury and U.S. government agencies	\$ 11,829	\$ 12,206	\$ 22,347	\$ 23,086
Mortgage-backed U.S. government agencies	3,531	3,640	4,154	4,173
State and political subdivision obligations	25,150	25,637	25,151	25,244
Equity securities	250	239	250	236
Total investment securities	\$ 40,760	\$ 41,722	\$ 51,902	\$ 52,739

At December 31, 2008, fair value exceeded amortized cost by \$837,000 and at March 31, 2009, fair value exceeded amortized cost by \$962,000.

**Credit Quality, Credit Risk, and Allowance for Loan and Lease Losses**

During the first three months of 2009, Mid Penn had net charge-offs of \$174,000 as compared to net charge-offs of \$23,000 during the same period of 2008. Mid Penn may need to make future adjustments to the allowance and the provision for loan and lease losses, if economic conditions or loan credit quality differs substantially from the assumptions used in making the Corporation's evaluation of the level of the allowance for loan losses as compared to the balance of outstanding loans.

**Analysis of the Allowance for Loan and Lease Losses:**

(Dollars in thousands)	Three Months Ended	Three Months Ended
	March 31, 2009	March 31, 2008
Average total loans outstanding (net of unearned income)	\$ 441,065	\$ 380,640
Period ending total loans outstanding (net of unearned income)	\$ 448,950	\$ 389,178
Balance, beginning of period	\$ 5,505	\$ 4,790
Loans charged off during period	(210)	(47)
Recoveries of loans previously charged off	36	24
Net chargeoffs	(174)	(23)

Edgar Filing: MID PENN BANCORP INC - Form 10-Q

Provision for loan and lease losses		933		100
Balance, end of period	\$	6,264	\$	4,867
Ratio of net loans charged off to average loans outstanding (annualized)		0.16%		0.02%
Ratio of allowance for loan losses to net loans at end of period		1.40%		1.25%

**Table of Contents****MID PENN BANCORP, INC.****Management's Discussion and Analysis**

Other than as described herein, we do not believe there are any trends, events or uncertainties that are reasonably expected to have a material impact on future results of operations, liquidity, or capital resources. Further, based on known information, we believe that the effects of current and past economic conditions and other unfavorable business conditions may influence certain borrowers' abilities to comply with their repayment terms. The Corporation continues to monitor closely these borrowers' financial strength.

At March 31, 2009, total nonperforming loans amounted to \$3,562,000, or .79% of loans and leases net of unearned income, as compared to levels of \$4,164,000, or .96%, at December 31, 2008 and \$5,396,000, or 1.39%, at March 31, 2008.

**Schedule of Nonperforming Assets:**

(Dollars in thousands)	March 31, 2009	December 31, 2008	March 31, 2008
<b>Nonperforming Assets:</b>			
Nonaccrual loans	\$ 3,443	\$ 4,113	\$ 5,396
Loans renegotiated with borrowers	119	51	
<b>Total nonperforming loans</b>	<b>3,562</b>	<b>4,164</b>	<b>5,396</b>
Foreclosed real estate	1,209	1,516	445
Other repossessed property	53		
<b>Total non-performing assets</b>	<b>4,824</b>	<b>5,680</b>	<b>5,841</b>
Accruing loans 90 days or more past due	366	1,860	1,672
<b>Total risk elements</b>	<b>\$ 5,190</b>	<b>\$ 7,540</b>	<b>\$ 7,513</b>
Nonperforming loans as a % of total loans outstanding	0.79%	0.96%	1.39%
Nonperforming assets as a % of total loans outstanding + other real estate	1.07%	1.30%	1.50%
Ratio of allowance for loan losses to nonperforming loans	175.86%	132.20%	90.20%

Mid Penn considers a loan or lease to be impaired when, based upon current information and events, it is probable that all interest and principal payments due according to the contractual terms of the loan or lease agreement will not be collected. An insignificant delay or shortfall in the amounts of payments would not cause a loan or lease to be considered impaired. Management determines the significance of payment delays and payment shortfalls on a case-by-case basis, taking into consideration all of the circumstances surrounding the loan or lease and the borrower, including the length of the delay, the reasons for the delay, the borrower's prior payment record and the amount of the shortfall in relation to the principal and interest owed. Larger groups of small-balance loans, such as residential mortgages and consumer installment loans are collectively evaluated for impairment. Accordingly, individual consumer and residential loans are not separately identified for impairment disclosures unless such loans are the subject of a restructuring agreement. As previously discussed in Note 9 of these interim consolidated financial statements, Mid Penn determines the fair value of impaired loans on a case-by-case basis based primarily upon the fair value of the underlying collateral using Level 3 inputs comprised of customized collateral value discounting analyses.

As of March 31, 2009, the Corporation had several loan relationships, with an aggregate carrying balance of \$2,408,000, deemed impaired that have been placed in nonaccrual status. Specific allocations totaling \$609,000 have been included within the loan loss reserve for these loans. Management believes that the specific reserve is adequate to cover potential future losses related to these relationships. There are several other significant loan relationships considered impaired, with outstanding balances of \$4,435,000, on which, interest continues to accrue. Specific allocations within the allowance for loan losses for these loans total \$879,000.

Mid Penn maintains the allowance for loan losses at a level believed adequate to absorb estimated probable loan losses. Management is responsible for the adequacy of the allowance for loan losses, which is formally reviewed on a monthly basis. The allowance is increased by a provision for loan and lease losses, which is charged to expense, and reduced by charge-offs, net of recoveries. The evaluation of the adequacy of the allowance is based on past loan loss experience, known and inherent risks in the portfolio, specific problem credits within the portfolio, adverse situations that may affect the borrower's ability to repay (including the timing of future payments), the estimated value of any underlying collateral, composition of the loan portfolio, current economic conditions and other relevant factors. While current available information is used to make such evaluations, future adjustments to the allowance may be necessary if economic conditions differ substantially from the assumptions used in making the evaluation.

## Edgar Filing: MID PENN BANCORP INC - Form 10-Q

Various regulatory agencies, as an integral part of their examination process, review the Bank's allowance for loan losses. Such agencies may require us to recognize additions to the allowance based on their judgment of information available to them at the time of their examination. No adjustment to the allowance for loan losses was necessary as a result of our most recent regulatory examination.

**Table of Contents**

**MID PENN BANCORP, INC.**

**Management's Discussion and Analysis**

Management believes, based on information currently available, that the current allowance for loan and lease losses of \$6,264,000 is adequate to meet potential loan and lease losses.

**Liquidity**

Mid Penn Bank's objective is to maintain adequate liquidity to meet funding needs at a reasonable cost and to provide contingency plans to meet unanticipated funding needs or a loss of funding sources, while minimizing interest rate risk. Adequate liquidity provides resources for credit needs of borrowers, for depositor withdrawals and for funding corporate operations. Sources of liquidity are as follows:

- A growing core deposit base;
- Proceeds from the sale or maturity of investment securities;
- Proceeds from certificates of deposit in other financial institutions;
- Payments received on loans and mortgage-backed securities; and,

Overnight correspondent bank borrowings on various credit lines, and borrowing capacity available from the FHLB.

We believe that our core deposits are stable even in periods of changing interest rates like those that we are currently experiencing. Liquidity and funds management are governed by policies and are measured on a monthly basis. These measurements indicate that liquidity generally remains stable and exceeds our minimum defined levels of adequacy. Other than the trends of continued competitive pressures and volatile interest rates, there are no known demands, commitments, events, or uncertainties that will result in, or that are reasonably likely to result in, liquidity increasing or decreasing in any material way.

**Capital Resources**

Mid Penn Bancorp, Inc. is a financial holding company and, as such, chooses to maintain a well-capitalized status in its bank subsidiary. Quantitative measures established by regulation to ensure capital adequacy require Mid Penn to maintain minimum amounts and ratios (set forth below) of Tier 1 capital to average assets and of total capital (as defined in the regulations) to risk-weighted assets. As of March 31, 2009 and December 31, 2008, Mid Penn met all capital adequacy requirements to which the Bank is subject, and the Bank is considered well-capitalized. However, future changes in regulations could increase capital requirements and may have an adverse effect on capital resources.

Currently, the FDIC Board has adopted a restoration plan that raised assessment rates for deposit insurance premiums for 2009, and proposed a special emergency assessment that will significantly affect operating results for the Corporation. The assessment will be based on total deposits as of June 30, 2009, and is scheduled to be paid on September 30, 2009.

Mid Penn maintained the following regulatory capital levels, leverage ratios, and risk-based capital ratios in its bank subsidiary as of March 31, 2009, and December 31, 2008, as follows:

(Dollars in thousands)	Actual:		Capital Adequacy		To Be Well-Capitalized Under Prompt Corrective Action Provisions:	
			Minimum Capital Required:			
	Amount	Ratio	Amount	Ratio	Amount	Ratio

## Edgar Filing: MID PENN BANCORP INC - Form 10-Q

As of March 31, 2009:						
Tier 1 Capital (to Average Assets)	\$ 48,281	8.6%	\$ 22,449	4.0%	\$ 28,061	5.0%
Tier 1 Capital (to Risk Weighted Assets)	48,281	10.7%	18,062	4.0%	27,093	6.0%
Total Capital (to Risk Weighted Assets)	53,933	11.9%	36,124	8.0%	45,156	10.0%
As of December 31, 2008:

Total Capital (to Risk Weighted Assets)	45,376	10.5%	34,556	8.0%	43,195	10.0%

**Table of Contents****MID PENN BANCORP, INC.  
Capital Purchase Program Participation****Management's Discussion and Analysis**

December 19, 2008, Mid Penn Bancorp, Inc. (the Corporation) entered into and closed a Letter Agreement (including the Securities Purchase Agreement Standard Terms) (the Purchase Agreement) with the United States Department of the Treasury (the Treasury) pursuant to which the Treasury invested \$10,000,000 in the Company under the Treasury's Capital Purchase Program (the CPP).

Under the Purchase Agreement, the Treasury received (1) 10,000 shares of Series A Fixed Rate Cumulative Perpetual Preferred Stock, \$1,000 liquidation preference, and (2) a Warrant to purchase up to 73,099 shares of the Corporation's common stock at an exercise price of \$20.52 per share.

The preferred shares pay cumulative dividends at a rate of 5% per annum for the first five years and 9% per annum thereafter. The preferred shares are non-voting, other than class voting rights on certain matters that could adversely affect the preferred shares. If dividends on the preferred shares have not been paid for an aggregate of six quarterly dividend periods or more, whether consecutive or not, the Corporation's authorized number of directors will automatically be increased by two, and holders of the preferred stock, voting together with holders of any then outstanding parity stock, will have the right to elect those directors at the Corporation's next annual meeting of shareholders or special meeting of shareholders called for that purpose. These preferred share directors would be elected annually and serve until all accrued and unpaid dividends on the preferred shares have been paid.

The preferred shares may be redeemed by Mid Penn at the aggregate liquidation value plus any unpaid dividends after February 15, 2012. Prior to this date, the preferred shares may only be redeemed by the Corporation in an amount up to the cash proceeds (minimum \$2,500,000) from qualifying equity offerings of any Tier 1 perpetual preferred or common stock. Any redemption is subject to the consent of the Board of Governors of the Federal Reserve System. Until December 19, 2011, or such earlier time as all preferred shares have been redeemed by the Corporation or transferred by Treasury to third parties that are not affiliated with Treasury, the Corporation may not, without Treasury's consent, increase its dividend rate per share of common stock or, with certain limited exceptions, repurchase its common stock.

The warrant is immediately exercisable and has a 10-year term. The exercise price and number of shares subject to the warrant are both subject to anti-dilution adjustments. Treasury has agreed not to exercise voting power with respect to any shares of common stock issued upon exercise of the warrant; however, this agreement not to vote the shares does not apply to any person who may acquire such shares. If the Corporation receives aggregate gross proceeds of at least \$10,000,000 from one or more qualifying equity offerings of Tier 1-eligible perpetual preferred or common stock on or prior to December 31, 2009, the number of shares of common stock underlying the warrant then held by Treasury will be reduced by one half of the original number of shares underlying the warrant, after taking into account all adjustments.

The preferred shares and the warrant were issued in a private placement exempt from registration pursuant to Section 4(2) of the Securities Act of 1933. The Corporation has filed a shelf registration statement covering the preferred shares, the warrant and the common stock underlying the warrant. Treasury and other future holders of the preferred shares, the warrant or the common stock issued pursuant to the warrant also have piggyback and demand registration rights with respect to these securities. None of the preferred shares, the warrant, or the shares issuable upon exercise of the warrant are subject to any contractual restrictions on transfer, except that Treasury may only transfer or exercise an aggregate of one-half of the warrant shares prior to December 31, 2009.

In the Purchase Agreement, the Corporation agreed that, until such time as the Treasury ceases to own any securities acquired from Mid Penn pursuant to the Purchase Agreement, the Corporation will take all necessary action to ensure that benefit plans with respect to our senior executive officers comply with Section 111(b) of the Emergency Economic Stability Act of 2008 (the EESA) and applicable guidance or regulations issued by the Secretary of the Treasury. The applicable executive compensation requirements apply to the compensation of the Corporation's Chief Executive Officer, Chief Financial Officer, and three other most highly compensated executive officers.

**Emergency Economic Stabilization Act of 2008**

On December 19, 2008, the United States Department of the Treasury purchased \$10 million of Fixed Rate Cumulative Perpetual Preferred Stock, Series A from MPB under the Troubled Asset Relief Program (TARP) Capital Purchase Program. Institutions that receive financial assistance under the TARP Capital Purchase Program must comply with the executive compensation and corporate governance requirements under Section 111 of the Emergency Economic Stabilization Act of 2008, which was amended by the American Recovery and Reinvestment Act of 2009. These requirements, the compliance of which must be annually certified by Mid Penn's Chief Executive Officer and Chief Financial Officer, include:

## Edgar Filing: MID PENN BANCORP INC - Form 10-Q

1. Limits on compensation that exclude incentives for senior executive officers of Mid Penn to take unnecessary and excessive risks that threaten the value of the Corporation during the period in which any obligation arising from financial assistance provided under the TARP remains outstanding;
2. A provision for the recovery by Mid Penn of any bonus, retention award, or incentive compensation paid to a senior executive officer and any of the next 20 most highly-compensated employees of the Corporation based on statements of earnings, revenues, gains, or other criteria that are later found to be materially inaccurate;

**Table of Contents**

**MID PENN BANCORP, INC.**

**Management's Discussion and Analysis**

3. A prohibition on the Corporation making any golden parachute payment to a senior executive officer or any of the next five most highly-compensated employees of Mid Penn during the period in which any obligation arising from financial assistance provided under the TARP remains outstanding;
  4. A prohibition on Mid Penn paying or accruing any bonus, retention award, or incentive compensation to the most highly compensated employee of the Corporation during the period in which any obligation arising from financial assistance provided under the TARP remains outstanding, except that any prohibition shall not apply to the payment of long-term restricted stock by Mid Penn, provided that such long-term restricted stock
    - i. Does not fully vest during the period in which any obligation arising from financial assistance provided to the Corporation remains outstanding;
    - ii. Has a value in an amount that is not greater than one-third of the total amount of annual compensation of the employee receiving the stock; and
    - iii. Is subject to such other terms and conditions as the Secretary of the Treasury may determine is in the public interest;
  5. Prohibition on any compensation plan that would encourage manipulation of the reported earnings of Mid Penn to enhance the compensation of any of its employees; and
  6. Requirement that Mid Penn's compensation committee remains entirely independent and meets at least semiannually to discuss and evaluate employee compensation plans in light of an assessment of any risk posed to the Corporation from such plans.
- In addition to these requirements, Mid Penn must have in place a company-wide policy regarding excessive or luxury expenditures and must permit a separate shareholder vote to approve the compensation of executives as disclosed pursuant to the compensation disclosure rules of the Securities and Exchange Commission.

**Table of Contents**

**MID PENN BANCORP, INC.**

**ITEM 3 QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

As a financial institution, Mid Penn's primary source of market risk is interest rate risk. Interest rate risk is the exposure to fluctuations in Mid Penn's future earnings (earnings at risk) resulting from changes in interest rates. This exposure or sensitivity is a function of the repricing characteristics of Mid Penn's portfolio of assets and liabilities. Each asset and liability reprices either at maturity or during the life of the instrument. Interest rate sensitivity is measured as the difference between the volume of assets and liabilities that are subject to repricing in a future period.

The principal purpose of asset-liability management is to maximize current and future net interest income within acceptable levels of interest rate risk while satisfying liquidity and capital requirements. Net interest income is increased by increasing the net interest margin and by volume growth. Thus, the goal of interest rate risk management is to maintain a balance between risk and reward such that net interest income is maximized while risk is maintained at an acceptable level.

Mid Penn utilizes an asset-liability management model to measure the impact of interest rate movements on its interest rate sensitivity position. Mid Penn's management also reviews the traditional maturity gap analysis regularly. Mid Penn does not attempt to achieve an exact match between interest sensitive assets and liabilities because it believes that an actively managed amount of interest rate risk is inherent and appropriate in the management of the Corporation's profitability.

No material changes in the market risk strategy occurred during the current period and no material changes have been noted in the Corporation's equity value at risk. A detailed discussion of market risk is provided in the Form 10-K for the year ended December 31, 2008. Mid Penn enjoys a closely balanced position that does not place it at undue risk under any interest rate scenario. Deposit dollars in transaction accounts are discretionarily priced so management maintains significant pricing flexibility.

**ITEM 4 CONTROLS AND PROCEDURES**

**Evaluation of Disclosure Controls and Procedures**

Mid Penn maintains controls and procedures designed to ensure that information required to be disclosed in the reports that the Corporation files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized, and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission. Based upon their evaluation of those controls and procedures as of March 31, 2009, the Corporation's Principal Executive Officer and Principal Financial and Accounting Officer concluded that the disclosure controls and procedures were adequate.

**Changes in Internal Controls**

During the three months ended March 31, 2009, there were no changes in Mid Penn's internal controls over financial reporting since December 31, 2008, that have materially affected, or are reasonable likely to materially affect, these controls.

**PART II - OTHER INFORMATION**

**ITEM 1 - LEGAL PROCEEDINGS**

Management is not aware of any litigation that would have a material adverse effect on the consolidated financial position of Mid Penn. There are no proceedings pending other than the ordinary routine litigation incident to the business of Mid Penn. In addition, management does not know of any material proceedings contemplated by governmental authorities against the Corporation or any of its properties.

**ITEM 1A RISK FACTORS**
