1. Summary of Plan

The following description of the Avon Puerto Rico Associates Savings Plan (the Plan) provides only general information. Avon Products, Inc. is the administrator of the Plan (the Plan Administrator). Participants in the Plan should refer to the Plan document for more complete information.

General

The Plan is a defined contribution plan which covered all full-time employees of Avon Lomalinda, Inc. (Avon) from the first day of the month coincident with or next following their date of hire. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective April 10, 2002, Avon ceased operations in Lomalinda. A small group of employees remained until December 2002. Benefits continued to accumulate for employees during their severance period.

Plan Termination

On December 10, 2004, the Retirement Board of Avon Products, Inc. voted to terminate the Plan. As of December 31, 2004, the Plan became a frozen plan and no additional contributions were allowed. All participants are 100% vested in their account balances. As described in Note 7, the Plan received approval for termination from the Puerto Rico Department of Treasury on May 5, 2005. The process of liquidating the assets has commenced. Participants will continue to be able to direct or withdraw their remaining investment balances in accordance with Plan provisions up until their final pay-out dates. The final distributions will be based on the individual participant's account valuation on the date of distribution. A Report of Independent Registered Public Accounting Firm is not required since there were less than 100 participants in the Plan as of December 31, 2008.

Contributions

Participants were able to contribute into the Plan from 1% to 10% of qualified compensation, as defined by the Plan. A participant could contribute on a before-tax basis, an after-tax basis, or a combination thereof. As a result of the termination of the Plan, no contributions were made to the Plan in 2008 and 2007.

Avon matched contributions in an amount equal to 25% of a participant's qualified contributions (defined by the Plan as a maximum of 6% of base salary contributed by the participant). These matching contributions were made in cash, which was then used to purchase shares of Avon Products, Inc. common stock in the open market. As a result of the termination of the Plan, no matching contributions were made to the Plan in 2008 and 2007.

Participant Accounts

Each participant's account is credited with Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments

Each participant may direct the investment of all contributions to any one or a combination (in multiples of 1%) of the following funds:

a. Fidelity Overseas Fund

This fund invests primarily in common stocks of foreign issuers. It seeks to achieve long term growth of capital.

b. Fidelity Blue Chip Growth Fund

This fund invests primarily in common stocks of large blue-chip U.S. companies. The objective of this fund is to achieve greater long term earnings growth than the average company in the S&P 500.

c. Fidelity U.S. Bond Index Fund

This fund invests primarily in domestic bonds with varying maturity dates. It seeks to achieve a conservative return of income as well as the preservation of capital.

d. Fidelity Retirement Money Market Fund

This fund invests primarily in short-term securities of U.S. based institutions. It seeks to achieve a modest return of income, as well as the preservation of capital.

e. Spartan U.S. Equity Index Fund

This fund invests primarily in equity securities of medium to large size U.S. based companies.

f. Fidelity Small Cap Independence Fund

This fund invests primarily in common stocks of domestic and foreign issuers, with small market capitalization. The objective is capital appreciation.

g. Stock Fund of Avon Products, Inc.

This fund is invested in the common stock of Avon Products, Inc.

Edgar Filing: AVON PRODUCTS INC - Form 11-K

In addition to the seven investment fund options, there is a Stock Grant Account that is comprised of common stock of Avon Products, Inc. and is used to hold the net assets of a former Stock Grant Program and Avon's matching contributions. The Stock Grant Account is not an investment option for participants in the Plan.

Pending investment or distribution, any portion of the investment funds may be held in cash, short-term obligations of the United States Government or other types of short-term investments, including commercial paper. In addition, all or any part of the funds may be held in a pooled fund maintained by the trustee, together with the assets of other trusts established under deferred compensation plans qualified under Section 401(a) of the Internal Revenue Code (the Code).

Vesting and Forfeitures

Participants are fully vested in participant contributions in their accounts and earnings thereon. Prior to the Plan termination, participants were vested in Company matching contributions upon the completion of 24 months of participation in the Plan. Contributions made to the Stock Grant Program prior to January 1, 1992 and earnings thereon are fully vested. Forfeitures are used to reduce future employer contributions. For the year ended December 31, 2008, there were no forfeited nonvested Avon contributions used to reduce employer contributions.

Payment of Benefits

Participants can receive the vested portion of their account balances immediately.

Participant Loans

Prior to the Plan termination, the Plan provided that participants could apply for a loan collateralized by their accounts. To be eligible, a participant must have participated in the Plan for at least 12 months prior to the loan application, and must not have another loan outstanding from his or her account.

2. New Accounting Standards

Effective January 1, 2008, the Plan adopted Financial Accounting Standards Board (FASB) SFAS 157, *Fair Value Measurements*, (SFAS 157), with the exception of the application of the statement to non-recurring, nonfinancial assets and liabilities. SFAS 157 defines fair value, establishes a framework for measuring fair value in accordance with accepted accounting principals, and expands disclosures about fair value measurements. The adoption of these provisions of SFAS 157 did not have a material impact on the Plan's financial statements. The Plan adopted the provisions of SFAS 157 as it relates to non-recurring, nonfinancial assets and liabilities effective January 1, 2009. The adoption of these provisions of SFAS 157 will not have a material impact on the Plan's financial statements.

3. Summary of Significant Accounting Policies

Basis of Presentation

The Plan changed its basis of accounting from the going concern plan basis to the liquidation basis in 2004. The change to the liquidation basis did not result in any adjustments to the financial statements as all assets had been presented at fair value prior and subsequent to the change to liquidation basis.

Use of Estimates

The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, changes therein, and disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan offers a number of investment options including the Stock Fund of Avon Products, Inc. and a variety of mutual funds. The mutual funds include U.S. equities, international equities, and fixed income securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is reasonable to expect that changes in the values of investment securities will occur and that such changes could materially affect participant account balances.

The Plan's exposure to a concentration of credit risk is limited by the diversification of investments across all participant-directed fund elections. Additionally, the investments within each participant-directed fund election are further diversified into varied financial instruments, with the exception of the Stock Fund of Avon Products, Inc., which invests in securities of a single issuer.

Table of Contents**Avon Puerto Rico Associates Savings Plan****Notes to Financial Statements****December 31, 2008 and 2007****Valuation of Investments**

Investments in the common stock of Avon Products, Inc. are valued at quoted market prices. Investments in mutual funds are valued at quoted market prices. The net depreciation/appreciation in the fair value of investments consists of the net realized gains and losses on the disposal of investments and the unrealized appreciation/depreciation of the market value for the investments remaining in the Plan.

Purchases and sales of securities are recorded on the trade date and gains or losses on disposition are based on average cost. Dividend income is recorded on the ex-dividend date. Interest is recorded when earned.

Benefit Payments

Benefit payments are recorded when paid.

Administrative Expenses

Administrative expenses, including trustee and recordkeeping expenses, are paid by the Plan and by Avon. Audit fees and certain other administrative fees are paid by Avon Products, Inc. Each fund bears its own applicable expenses for investment management fees.

4. Investments

The following presents investments that represent 5% or more of the Plan's net assets at December 31, 2008 and 2007:

(in thousands dollars)

	2008	2007
Common stock of Avon Products, Inc.		
Participant directed	\$ 2	\$ 5
Nonparticipant directed		23
Fidelity Retirement Money Market Fund	10	26
Fidelity Blue Chip Growth Fund		6
Spartan U.S. Equity Index Fund	1	

During the year ended December 31, 2008, the Plan's investments (including investments bought, sold, and held during the year) did not appreciate or depreciate in value.

Assets Measured at Fair Value

The Plan adopted SFAS 157 as of January 1, 2008, with the exception of the application of the statement to non-recurring, nonfinancial assets and liabilities which became effective January 1, 2009. The adoption of SFAS 157 did not have a material impact on the Plan's fair value measurements. SFAS 157 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. SFAS 157 establishes a fair value hierarchy, which prioritizes the inputs used in measuring fair value into three broad levels as follows:

Level 1 - Quoted prices in active markets for identical assets or liabilities.

Table of Contents

Avon Puerto Rico Associates Savings Plan

Notes to Financial Statements

December 31, 2008 and 2007

Level 2 - Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly.

Level 3 - Unobservable inputs based on the Plan's own assumptions.

The following table presents the fair value hierarchy for those assets measured at fair value on a recurring basis as of December 31, 2008:

	Level 1	Level 2	Level 3	Total
Assets:				
Common stock of Avon Products, Inc.	\$ 2	\$	\$	\$ 2
Mutual funds	1			1
Cash equivalent	10			10
Total	\$ 13	\$	\$	\$ 13

5. Nonparticipant directed Investments

Information about the net assets available for benefits relating to the nonparticipant directed investments at December 31, 2008 and 2007 is as follows:

(in thousands of dollars)

	2008	2007
Common stock of Avon Products, Inc.	\$	\$ 23
Cash and cash equivalents		1
	\$	\$ 24

For the year ended December 31, 2008, the significant components of the changes in net assets relating to the nonparticipant-directed investments are as follows:

(in thousands of dollars)

	2008
Net appreciation in fair value of investments	\$
	\$

6. Related Party Transactions

Certain Plan assets are invested in shares of mutual funds that are managed by Fidelity Investments. Fidelity Trust Company, an affiliate of Fidelity Investments, is the trustee as defined by the Plan, and therefore these transactions qualify as party-in-interest transactions.

The Plan invests in Avon Products, Inc. common stock, which is exempt from the party-in-interest transaction prohibitions of ERISA. Participant loans are also considered party-in-interest transactions.

7. Tax Status

On May 5, 2005, the Plan received its latest determination letter from the Puerto Rico Department of Treasury approving the Plan's termination.

The Plan obtained a determination letter on May 1, 1993, in which the Puerto Rico Department of the Treasury stated that the Plan was in compliance with the applicable requirements of the Income Tax Act of 1954, as amended. The Plan has been amended since receiving the determination letter. The Plan Administrator and the Plan's tax counsel believe that the Plan is designed and, to the best of their knowledge, is currently in compliance with, the applicable requirements of the Puerto Rico Department of the Treasury. Accordingly, no provision for income taxes has been reflected in the accompanying financial statements.

The operation of the Plan, including the obligation of the employer to make matching contributions, is expressly conditioned upon the initial and continued qualification of the Plan and any amendments under the PR Code, the continued deductibility under Section 404 of the Income Tax Act of 1954, as amended, of the employer's contributions and upon continued exemption of the trust under Section 501(a) of the Code.
