The WisdomTree Total Dividend Fund seeks investment results that closely correspond to the price and yield performance, before fees and expenses, of the WisdomTree Dividend Index.

The WisdomTree Total Dividend Fund returned 36.70% at net asset value (NAV) for the six month period ending on September 30, 2009. Financials contributed most significantly to this performance, with an average weight of 22.02% of the Fund and returns of 70.38% over the period. Contributing least to the Fund's performance was Telecommunication Services, which returned 10.41% over the period, with an average weight of 6.01% of the Fund.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of a Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore index returns do not reflect deductions for fees or expenses and are not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. Please see page 7 for the list of index definitions. **The annual expense ratio of the Fund is 0.28%.**

The **Russell 1000 Value Index** is a measure of the large-capitalization value segment of the U.S. equity universe, selecting from the Russell 1000 Index.

The **Dow Jones Select Dividend Index** measures the performance of 100 U.S. dividend-paying companies.

The **S&P 500 Index** is a capitalization-weighted index of 500 stocks selected by Standard & Poor's Index Committee, designed to represent the performance of the leading industries in the United States economy.

The **S&P Midcap 400 Index** is a capitalization-weighted index that measures the performance of the mid-cap range of the U.S. stock market, with stocks selected by the Standard & Poor's Index Committee.

The **Russell 2000 Index** measures performance of the smallest 2,000 securities in the Russell 3000 Index.

Index returns do not reflect expenses paid by the Fund. Index returns assume reinvestment of distributions. It is not possible to invest directly in an index.

Shareholder Expense Examples (unaudited)

As a shareholder of a WisdomTree Fund, you incur two types of costs: (1) transaction costs, including brokerage commissions on purchases and sales of your Fund shares and (2) ongoing costs, including management fees and other Fund expenses. The following example is intended to help you understand your ongoing costs (in dollars and cents) of investing in a Fund and to compare these costs with the ongoing costs of investing in other funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from April 1, 2009 to September 30, 2009.

Actual expenses

The first line under each Fund in the table on the next page provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line for your Fund under the heading entitled Expenses Paid During Period 4/01/09 to 9/30/09 to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The second line under each Fund in the table on the next page provides information about hypothetical account values and hypothetical expenses based on each Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales of Fund shares. Therefore, the second line under each Fund in the table is useful in comparing ongoing Fund costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

Notes to Financial Statements**1. ORGANIZATION**

WisdomTree Trust (the Trust) is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as an open-end management investment company. The Trust was established as a Delaware statutory trust pursuant to a Trust Instrument dated December 15, 2005. As of September 30, 2009, the Trust offered 51 investment funds (each a Fund, collectively, the Funds). The Funds, described herein, commenced operations on June 16, 2006.

These financial statements relate only to the WisdomTree Total Dividend Fund (Total Dividend Fund), WisdomTree Equity Income Fund, (Equity Income Fund), WisdomTree LargeCap Dividend Fund (LargeCap Dividend Fund), WisdomTree Dividend ex-Financials Fund, (Dividend ex-Financials Fund), WisdomTree MidCap Dividend Fund (MidCap Dividend Fund) and WisdomTree SmallCap Dividend Fund (SmallCap Dividend Fund), together the Domestic Dividend Funds.

Each Fund seeks investment returns that closely correspond to the price and yield performance, before fees and expenses, of a particular index (Index) developed by WisdomTree Investments, Inc. (Wisdom Tree Investments). Each Fund described herein is considered to be non-diversified.

2. SIGNIFICANT ACCOUNTING POLICIES

The Financial Accounting Standards Board (FASB) Accounting Standards Codification has become the exclusive reference of authoritative U.S. generally accepted accounting principles (GAAP) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission (SEC) under authority of federal laws are also sources of authoritative GAAP for SEC registrants. The Codification supersedes all existing non-SEC accounting and reporting standards.

Guarantees In the normal course of business the Funds may enter into contracts that contain a variety of representations or that provide indemnification for certain liabilities. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the loss to be remote.

Use of Estimates The preparation of financial statements in conformity with GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in the net assets from operations during the reporting period. Actual results could differ from those estimates.

Investment Valuation The Net Asset Value (NAV) of each Fund's shares is calculated each day the national securities exchanges are open for trading as of the close of regular trading on the New York Stock Exchange, generally 4:00 p.m. New York time. NAV per share is calculated by dividing a Fund's net assets by the number of Fund shares outstanding. Securities traded on any recognized U.S. or non-U.S. exchange are valued at the last sale price or official closing price on the exchange or system on which they are principally traded. Unlisted equity securities are valued at the last quoted sale price or, if no sale price is available, at the mean between the highest bid and lowest ask prices. Securities for which market quotations are not readily available are valued at fair value as determined by management and in accordance with procedures approved by the Board of Trustees. Short-term securities with 60 days or less remaining to maturity are valued using the amortized cost method, which approximates fair value.

Fair Value Measurement GAAP provides guidance on fair value measurements. This standard defines fair value, establishes a framework for measuring fair value in accordance with GAAP and expands disclosure about fair value measurements. Various inputs are used in determining the value of the Funds' investments. These inputs are summarized in the three broad levels listed below:

Level 1 quoted prices in active markets for identical securities

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including each Fund's assumptions in determining the fair value of investments)

Edgar Filing: WisdomTree Trust - Form N-CSRS

Investments that use Level 2 or Level 3 inputs may include, but are not limited to: (i) an unlisted security related to corporate actions; (ii) a restricted security (*e.g.*, one that may not be publicly sold without registration under the Securities Act of 1933, as amended); (iii) a security whose trading has been suspended or which has been de-listed from its primary trading exchange; (iv) a security that is thinly traded; (v) a security in default or bankruptcy proceedings for which there is no current market quotation; (vi) a security affected by currency controls or restrictions; and (vii) a security affected by a significant event (*e.g.*, an event that occurs after the close of the markets on which the security is traded but before the time as of which a Fund's net asset value is computed and that may materially affect the value of the Fund's investments). Examples of events that may be significant events are government actions, natural disasters, armed conflict and acts of terrorism.

The inputs or methodology used for valuation are not necessarily an indication of the risk associated with investing in those investments.

Derivative and Hedging Disclosure GAAP requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative agreements. The application of FAS 161 is effective for fiscal years beginning November 15, 2008 and interim periods within those fiscal years. The Funds did not invest in derivative instruments for the six months ended September 30, 2009.

Investment Transactions Investment transactions are recorded as of the date that the securities are purchased or sold (trade date). Realized gains and losses on sales of portfolio securities are calculated using the identified-cost method.

Table of Contents**Notes to Financial Statements** (continued)

Investment Income Dividend income is recognized on the ex-dividend date. Interest income is accrued daily. The value of additional securities received as dividend payments is recorded as income and as an increase to the cost basis of such securities.

Expenses/Reimbursements WisdomTree Asset Management (WTAM) has agreed to pay all expenses of the Funds, except for: (i) brokerage expenses and other expenses (such as stamp taxes) connected with the execution of portfolio transactions or in connection with creation and redemption transactions; (ii) legal fees or expenses in connection with any arbitration, litigation or pending or threatened arbitration or litigation, including any settlements in connection therewith; (iii) compensation and expenses of each Independent Trustee; (iv) compensation and expenses of counsel to the Independent Trustees; (v) compensation and expenses of the Trust's chief compliance officer; (vi) extraordinary expenses; (vii) distribution fees and expenses paid by the Trust under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act; and (viii) the advisory fee payable to WTAM.

Pursuant to a separate contractual arrangement, WTAM has arranged for the provision of chief compliance officer (CCO) services to the Funds and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees, in exchange for a service fee paid by each Fund of up to 0.0044% of each Fund's average daily net assets. Trustees fees, which are included in Service Fees on the Statements of Operations, of \$180,782 have been paid on behalf of the Funds of the Trust to the Independent Trustees for the six months ended September 30, 2009.

Security Lending Each Fund may lend portfolio securities to certain creditworthy borrowers, including the Funds' securities lending agent. The loans are collateralized at all times by cash and/or high grade debt obligations in an amount at least equal to 102% of the market value of domestic securities loaned (105% in the case of foreign securities loaned), as determined at the close of business on the preceding business day. Each Fund receives compensation for lending its securities from interest or dividends earned on the cash or U.S. government securities held as collateral, net of fee rebates paid to the borrower plus reasonable administrative and custody fees. The dividend and interest income earned on the securities loaned is accounted for in the same manner as other dividend and interest income. The borrower pays to the Funds an amount equal to any dividends or interest received on loaned securities. The Funds retain all or a portion of the interest received on investment of cash collateral or receives a fee from the borrower. Lending portfolio securities could result in a loss or delay in recovering each Fund's securities if the borrower defaults.

The securities lending income earned by the Funds is disclosed on the Statements of Operations.

Short-Term Investments Each Fund may invest a portion of its assets in high-quality money market instruments on an ongoing basis to provide liquidity or for other reasons. The instruments in which a Fund may invest include short-term obligations issued by the U.S. Government, negotiable certificates of deposit (CDs), fixed time deposits and bankers' acceptances of U.S. and foreign banks and similar institutions, commercial papers, repurchase agreements and money market funds. CDs are short-term negotiable obligations of commercial banks. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Bankers' acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

Tax Information and Dividends and Distributions to Shareholders It is each Fund's policy to comply with all requirements of the Internal Revenue Code of 1986, as amended (the Code). Each Fund intends to qualify for and to elect treatment as a separate Regulated Investment Company (RIC) under Subchapter M of the Code. It is the policy of each Fund to pay out dividends, if any, to investors at least annually. Taxable net realized gains from investment transactions, reduced by capital loss carryforwards, if any, are declared and distributed to shareholders at least annually. The capital loss carryforward amount, if any, is available to offset future net capital gains. The Funds may occasionally be required to make supplemental distributions at some other time during the year. The Trust reserves the right to declare special distributions if, in its reasonable discretion, such action is necessary or advisable to preserve the status of each Fund as a RIC or to avoid imposition of income or excise taxes on undistributed income. Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with Federal income tax regulations which may differ from GAAP. These book/tax differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the components of net assets based on their Federal tax basis treatment; temporary differences do not require reclassification. Dividends and distributions, which exceed earnings and profit for tax purposes, are reported as a tax return of capital.

3. ADVISER FEES AND TRANSACTIONS

Edgar Filing: WisdomTree Trust - Form N-CSRS

As investment adviser, WTAM has overall responsibility for the general management and administration of the Trust. WTAM provides an investment program for each Fund. WTAM also arranges for sub-advisory, transfer agency, custody, fund administration, and all other non-distribution related services necessary for the Funds to operate. Under the Investment Advisory Agreement for each Fund, WTAM agrees to pay all expenses of the Funds, except compensation and expenses of the Independent Trustees, counsel to the Independent Trustees and the Trust's CCO, interest expenses and taxes, brokerage expenses, and other expenses connected with the execution of portfolio transactions, any distribution fees or expenses, legal fees or expenses and extraordinary expenses.

Table of Contents**Notes to Financial Statements** (continued)

Pursuant to a separate contractual arrangement, WTAM arranges for the provision of CCO services with respect to each Fund and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees in exchange for a fee of up to 0.0044%. As of October 1, 2009, WTAM provides CCO services to the Trust. The fees paid to WTAM for providing advisory services are listed below.

Fund	Fee Rate
Total Dividend Fund	0.28%
Equity Income Fund	0.38%
LargeCap Dividend Fund	0.28%
Dividend ex-Financials Fund	0.38%
MidCap Dividend Fund	0.38%
SmallCap Dividend Fund	0.38%

Each Fund may purchase shares of an affiliated exchange traded fund(s) in secondary market transactions. For the six months ended September 30, 2009, there were no transactions in affiliated ETFs.

4. CAPITAL SHARE TRANSACTIONS

As of September 30, 2009, there was an unlimited number of \$0.001 par value shares of beneficial interest authorized by the Trust. Shares are issued and redeemed by each Fund only in Creation Units or multiples thereof. Except when aggregated in Creation Units, shares of each Fund are not redeemable. Transactions in shares for each Fund are disclosed in detail in the Statements of Changes in Net Assets. The consideration for the purchase of Creation Units of a Fund generally consists of the in-kind contribution of a designated portfolio of equity securities constituting a portfolio sampling representation of the securities included in the relevant Fund's underlying index and an amount of cash. Investors purchasing and redeeming Creation Units may be charged a purchase transaction fee and a redemption transaction fee to offset transfer and other transaction costs associated with the issuance and redemption of Creation Units.

5. INVESTMENT PORTFOLIO TRANSACTIONS

Purchases and sales of investments (excluding in-kind purchases and redemptions and short-term investments) for the six months ended September 30, 2009 were as follows:

GAAP provides guidance on tax provisions that prescribe a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. Foreign taxes are provided for based on each Fund's understanding of the tax rules and rates that exist in the foreign markets in which it invests. Taxes are accrued and applied to net investment income, net realized capital gains and net unrealized appreciation, as applicable, as the income is earned or capital gains are recorded. As of and during the six months ended September 30, 2009, the Funds did not have any liabilities for unrecognized tax benefits. If applicable, the Funds will recognize interest accrued related to unrecognized tax benefits in interest expense and penalties in Other expenses on the Statements of Operations. The Portfolios file tax returns with the U.S. Internal Revenue Service, New York, and various states. Generally, each of the tax years in the three period ended March 31, 2009, remains subject to examination by the taxing authorities.

7. SUBSEQUENT EVENT

In accordance with GAAP provisions, management of the Funds has evaluated the possibility of subsequent events existing in the Funds financial statements through November 27, 2009. Management has determined that there are no material events that would require disclosure in the Funds financial statements through this date.

The WisdomTree Funds are exchange traded funds (ETFs) registered with the United States Securities and Exchange Commission (SEC) as series of WisdomTree Trust (Trust). WisdomTree Asset Management, Inc., a wholly owned subsidiary of WisdomTree Investments, Inc., serves as the investment adviser to the WisdomTree Trust. None of the WisdomTree entities are affiliated with ALPS Distributors, Inc., the Funds distributor. WisdomTree Investments, its affiliates and their independent providers are not liable for any informational errors, incompleteness, or delays, or for any actions taken in reliance on information contained herein.

Investors should consider the investment objectives, risks, charges and expenses of the Funds carefully before investing. A prospectus, containing this and other information, is available at www.wisdomtree.com, or by calling 1-866-909-WISE (9473). Investors should read the prospectus carefully before investing. There are risks associated with investing, including possible loss of principal. Past performance does not guarantee future results. Indexes are unmanaged and you can not invest directly in an index.

There are risks associated with investing including possible loss of principal. In addition to the normal risks of investing, foreign investing involves special risks, such as risk of loss from currency fluctuation or political or economic uncertainty. Investments in real estate involve additional special risks, such as credit risk, interest rate fluctuations and the effect of varied economic conditions. Funds that focus their investments in one country increase the impact of events and developments associated with the region which can adversely affect performance. Funds focusing on a single country, sector and/or smaller companies generally experience greater price volatility. Investments in emerging frontier markets are generally less liquid and less efficient than developed markets. Investments in currency involve additional special risks, such as credit risk, interest rate fluctuations, derivative investment risk and the effect of varied economic conditions. Derivatives can be volatile and may be less liquid than other securities. As these Funds can have a high concentration in some issuers the Funds can be adversely impacted by changes affecting issuers. Unlike typical exchange-traded funds, there are no indexes that the currency funds attempt to track or replicate. Thus, the ability of the currency Funds to achieve their objectives will depend on the effectiveness of the portfolio manager. Please read the Fund s prospectus for specific details regarding each Fund s risk profile. Transactions in Fund shares will result in brokerage commissions and will generate tax consequences. Shares may be sold through brokerage accounts, but may be redeemed from the Funds only in large amounts of 50,000 shares or more.

The WisdomTree Total Earnings Fund seeks investment results that correspond to the price and yield performance, before fees and expenses, of the WisdomTree Earnings Index.

The WisdomTree Total Earnings Fund returned 37.25% at net asset value (NAV) for the six month period ending on September 30, 2009. Financials contributed most significantly to this performance, with an average weight of 12.44% of the Fund and returns of 62.38% over the period. Contributing least to the Fund's performance was Telecommunication Services, which returned 12.67% over the period, with an average weight of 2.36% of the Fund.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of a Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore index returns do not reflect deductions for fees or expenses and are not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. Please see page 9 for the list of index

The WisdomTree MidCap Earnings Fund seeks investment results that correspond to the price and yield performance, before fees and expenses, of the WisdomTree MidCap Earnings Index.

The WisdomTree MidCap Earnings Fund returned 55.89% at net asset value (NAV) for the six month period ending on September 30, 2009. Consumer Discretionary contributed most significantly to this performance, with an average weight of 16.81% of the Fund and returns of 76.27% over the period. Contributing least to the Fund's performance was Telecommunication Services, which returned 6.55% over the period, with an average weight of 0.21% of the Fund.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of a Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore index returns do not reflect deductions for fees or expenses and are not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. Please see page 9 for the list of index

The WisdomTree LargeCap Value Fund seeks investment results that correspond to the price and yield performance, before fees and expenses, of the WisdomTree LargeCap Value Index. The LargeCap Value Index is a fundamentally weighted index that measures the performance of large-cap value companies. The Index consists of U.S. companies that have positive cumulative earnings over the past four fiscal quarters and that meet WisdomTree's market capitalization, liquidity, and other requirements as of the Index measurement date. Prior to June 20, 2009, the WisdomTree LargeCap Value Fund was named the WisdomTree Low P/E Fund and followed the investment objective of the WisdomTree Low P/E Index. The information on this page and throughout this financial report reflects the investment objective and strategy of the WisdomTree Low P/E Fund through June 19, 2009 and the investment objective and strategy of the WisdomTree LargeCap Value Fund thereafter.

The WisdomTree LargeCap Value Fund returned 37.17% for the six month period ending on September 30, 2009. The following is reflective of the new strategy in effect for the latter three months of reporting period. Consumer Discretionary contributed most significantly to this performance, with an average weight of 17.71% of the Fund and returns of 15.94% over the period. Contributing least to the Fund's performance was Telecommunication Services, which returned 1.30%, over the period, with an average weight of 3.68% of the Fund.

Shareholder Expense Examples (unaudited)

As a shareholder of a WisdomTree Fund, you incur two types of costs: (1) transaction costs, including brokerage commissions on purchases and sales of your Fund shares and (2) ongoing costs, including management fees and other Fund expenses. The following example is intended to help you understand your ongoing costs (in dollars and cents) of investing in a Fund and to compare these costs with the ongoing costs of investing in other funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from April 1, 2009 to September 30, 2009.

Actual expenses

The first line under each Fund in the table on the next page provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line for your Fund under the heading entitled Expenses Paid During Period 4/01/09 to 9/30/09 to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The second line under each Fund in the table on the next page provides information about hypothetical account values and hypothetical expenses based on each Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales of Fund shares. Therefore, the second line under each Fund in the table is useful in comparing ongoing Fund costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

74 WisdomTree Domestic and International Earnings Funds

Table of Contents**Notes to Financial Statements** (unaudited)**1. ORGANIZATION**

WisdomTree Trust (the Trust) is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as an open-end management investment company. The Trust was established as a Delaware statutory trust pursuant to a Trust Instrument dated December 15, 2005. As of September 30, 2009, the Trust offered 51 investment funds (each a Fund, collectively, the Funds). The Funds described herein commenced operations on February 23, 2007, with the exception of the India Earnings Fund and LargeCap Growth Fund which commenced operations on February 22, 2008 and December 4, 2008, respectively.

These financial statements relate only to the WisdomTree Total Earnings Fund (Total Earnings Fund), WisdomTree Earnings 500 Fund (Earnings 500 Fund), WisdomTree MidCap Earnings Fund (MidCap Earnings Fund), WisdomTree SmallCap Earnings Fund (SmallCap Earnings Fund), WisdomTree Earnings Top 100 Fund (Earnings Top 100 Fund), WisdomTree LargeCap Value Fund (LargeCap Value Fund), WisdomTree LargeCap Growth Fund (LargeCap Growth Fund) and WisdomTree India Earnings Fund (India Earnings Funds), together the Domestic and International Earnings Funds. The India Earnings Fund makes its investments through the WisdomTree India Investment Portfolio, Inc. (the Portfolio), a wholly owned subsidiary organized in the Republic of Mauritius. The Portfolio is advised by WisdomTree Asset Management and is sub-advised by Mellon Capital Management Corporation, Inc. This structure should permit the India Earnings Fund to benefit from a tax treaty between India and Mauritius. Recently, the Supreme Court of India upheld the validity of this tax treaty in response to a lower court challenge contesting the treaty's applicability to entities such as WisdomTree India Earnings Fund. No assurance can be given that the terms of the treaty will not be subject to re-negotiation in the future or subject to a different interpretation. Any change in the provision of this treaty or in its applicability to WisdomTree India Earnings Fund could result in the imposition of withholding and other taxes on the India Earnings Fund by tax authorities in India. This would reduce the return to the India Earnings Fund on its investments and the return received by India Earnings Fund shareholders. References to investments by the India Earnings Fund herein should be understood to refer to investments by the Portfolio.

Each Fund seeks investment returns that closely correspond to the price and yield performance, before fees and expenses, of a particular index (Index) developed by WisdomTree Investments, Inc. (WisdomTree Investments). Each Fund described herein is considered to be non-diversified. The securities in each Index are weighted based on earnings or earnings yield.

2. SIGNIFICANT ACCOUNTING POLICIES

The Financial Accounting Standards Board (FASB) Accounting Standards Codification has become the exclusive reference of authoritative U.S. generally accepted accounting principles (GAAP) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission (SEC) under authority of federal laws are also sources of authoritative GAAP for SEC registrants. The Codification supersedes all existing non-SEC accounting and reporting standards.

Guarantees In the normal course of business the Funds may enter into contracts that contain a variety of representations or that provide indemnification for certain liabilities. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

Use of Estimates The preparation of financial statements in conformity with GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in the net assets from operations during the reporting period. Actual results could differ from those estimates.

Investment Valuation The Net Asset Value (NAV) of each Fund's shares is calculated each day the national securities exchanges are open for trading as of the close of regular trading on the New York Stock Exchange, generally 4:00 p.m. New York time. NAV per share is calculated by dividing a Fund's net assets by the number of Fund shares outstanding. Securities traded on any recognized U.S. or non-U.S. exchange are valued at the last sale price or official closing price on the exchange or system on which they are principally traded. Events occurring after the close of trading on non-U.S. exchanges may result in adjustments to the valuation of foreign securities to more accurately reflect their fair value as of the close of regular trading on the New York Stock Exchange. The Funds may rely on an independent fair valuation service in adjusting the valuations of foreign securities. Unlisted equity securities are valued at the last quoted sale price or, if no sale price is available, at the mean between the highest bid and lowest ask prices. Securities for which market quotations are not readily available are valued at fair value as

Edgar Filing: WisdomTree Trust - Form N-CSRS

determined by management and in accordance with procedures approved by the Board of Trustees. Short-term securities with 60 days or less remaining to maturity are valued using the amortized cost method, which approximates fair value.

Fair Value Measurement GAAP provides guidance on fair value measurements. This standard defines fair value, establishes a framework for measuring fair value in accordance with GAAP and expands disclosure about fair value measurements.

Various inputs are used in determining the value of the Portfolio's investments. These inputs are summarized in the three broad levels listed below.

Level 1 quoted prices in active markets for identical securities

WisdomTree Domestic and International Earnings Funds 75

Table of Contents**Notes to Financial Statements** (unaudited) (continued)

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including each Fund's assumption in determining the fair value of investments)

Investments that use Level 2 or Level 3 inputs may include, but are not limited to: (i) an unlisted security related to corporate actions; (ii) a restricted security (*e.g.*, one that may not be publicly sold without registration under the Securities Act of 1933, as amended); (iii) a security whose trading has been suspended or which has been de-listed from its primary trading exchange; (iv) a security that is thinly traded; (v) a security in default or bankruptcy proceedings for which there is no current market quotation; (vi) a security affected by currency controls or restrictions; and (vii) a security affected by a significant event (*e.g.*, an event that occurs after the close of the markets on which the security is traded but before the time as of which a Fund's net asset value is computed and that may materially affect the value of the Fund's investments). Examples of events that may be significant events are government actions, natural disasters, armed conflict and acts of terrorism.

The inputs or methodology used for valuation are not necessarily an indication of the risk associated with investing in those investments.

The following is a summary of the inputs used as of September 30, 2009 in valuing each Fund's assets carried at fair value:

Derivative and Hedging Disclosure GAAP requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative agreements. The application of FAS 161 is effective for fiscal years beginning November 15, 2008 and interim periods within those fiscal years. The Funds did not invest in derivative instruments for the six-months ended September 30, 2009.

Investment Transactions Investment transactions are recorded as of the date that the securities are purchased or sold (trade date). Realized gains and losses on sales of portfolio securities are calculated using the identified-cost method.

Foreign Currency Translation The accounting records of the Funds are maintained in U.S. dollars. Foreign currencies, as well as investment securities and other assets and liabilities denominated in foreign currencies, are translated into U.S. dollars using exchange rates deemed appropriate by the investment adviser. Realized and unrealized foreign exchange gains or losses on investments are included as a component of net realized and unrealized gain or loss on foreign currency transactions in the Statements of Operations. Certain foreign exchange gains and losses included in realized and unrealized gains or losses are included in, or are a reduction of, ordinary income in accordance with U.S. Federal income tax regulations.

Investment Income Dividend income is recognized on the ex-dividend date, net of any foreign taxes withheld. Interest income is accrued daily. The value of additional securities received as dividend payments is recorded as income and as an increase to the cost basis of such securities.

Expenses/Reimbursements WisdomTree Asset Management (WTAM) has agreed to pay all expenses of the Funds (other than the India Earnings Fund), except for: (i) brokerage expenses and other expenses (such as stamp taxes) connected with the execution of portfolio transactions or in connection with creation and redemption transactions; (ii) legal fees or expenses in connection with any arbitration, litigation or pending or threatened arbitration or litigation, including any settlements in connection therewith; (iii) compensation and expenses of each Independent Trustee; (iv) compensation and expenses of counsel to the Independent Trustees; (v) compensation and expenses of the Trust's chief compliance officer; (vi) extraordinary expenses; (vii) distribution fees and expenses paid by the Trust under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act; and (viii) the advisory fee payable to WTAM.

Pursuant to a separate contractual arrangement effective, WTAM has arranged for the provision of chief compliance officer (CCO) services to the Funds, and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees, in exchange for a service fee paid by each Fund of up to 0.0044% of each Fund's average daily net assets. Trustees fees, which are included in Service Fees on the Statements of Operations, of \$180,782 have been paid on behalf of the Funds of the Trust to the Independent Trustees for the six months ended September 30, 2009. Expense in excess of 0.0044% were paid by WTAM. WTAM has agreed to limit the total expenses of the India Earnings Fund to 0.88%.

Security Lending Each Fund may lend portfolio securities to certain creditworthy borrowers, including the Funds' securities lending agent. The loans are collateralized at all times by cash and/or high grade debt obligations in an amount at least equal to 102% of the market value of domestic securities loaned (105% in the case of foreign securities loaned) as determined at the close of business on the preceding business day. Each Fund receives compensation for lending its securities from interest or dividends earned on the cash or U.S. government securities held as collateral, net of fee rebates paid to the borrower plus reasonable administrative and custody fees. The dividend and interest income earned on the securities loaned is accounted for in the same manner as other dividend and interest income. The borrower pays to the Funds an amount equal to any dividends or interest received on loaned securities. The Funds retain all or a portion of the interest received on investment of cash collateral or receives a fee from the borrower. Lending portfolio securities could result in a loss or delay in recovering each Fund's securities if the borrower defaults.

The securities lending income earned by the Funds are disclosed on the Statements of Operations.

Edgar Filing: WisdomTree Trust - Form N-CSRS

Short-Term Investments Each Fund may invest a portion of its assets in high-quality money market instruments on an ongoing basis to provide liquidity or for other reasons. The instruments in which a Fund may invest include short-term obligations issued by the U.S. Government, negotiable certificates of deposit (CDs), fixed time deposits and bankers' acceptances of U.S. and foreign

WisdomTree Domestic and International Earnings Funds 77

Table of Contents**Notes to Financial Statements** (unaudited) (continued)

banks and similar institutions, commercial papers, repurchase agreements and money market funds. CDs are short-term negotiable obligations of commercial banks. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Banker's acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

Tax Information and Dividends and Distributions to Shareholders It is each Fund's policy to comply with all requirements of the Internal Revenue Code of 1986, as amended (the Code). Each Fund intends to qualify for and to elect treatment as a separate Regulated Investment Company (RIC) under Subchapter M of the Code. It is the policy of each Fund to pay out dividends, if any, to investors at least annually. Taxable net realized gains from investment transactions, reduced by capital loss carryforwards, if any, are declared and distributed to shareholders at least annually. The capital loss carryforward amount, if any, is available to offset future net capital gains. The Funds may occasionally be required to make supplemental distributions at some other time during the year. The Trust reserves the right to declare special distributions if, in its reasonable discretion, such action is necessary or advisable to preserve the status of each Fund as a RIC or to avoid imposition of income or excise taxes on undistributed income. Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with Federal income tax regulations which may differ from GAAP. These book/tax differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the components of net assets based on their federal tax basis treatment; temporary differences do not require reclassification. Dividends and distributions, which exceed earnings and profit for tax purposes, are reported as a tax return of capital. The India Earnings Fund has filed an election to treat the WisdomTree India Investment Portfolio, Inc. as a pass-through entity for tax purposes.

3. ADVISER FEES AND TRANSACTIONS

As investment adviser, WTAM has overall responsibility for the general management and administration of the Trust. WTAM provides an investment program for each Fund. WTAM also arranges for sub-advisory, transfer agency, custody, fund administration, and all other non-distribution related services necessary for the Funds to operate. Under the Investment Advisory Agreement for each Fund (other than the India Earnings Fund), WTAM agrees to pay all expenses of the Funds, except compensation and expenses of the Independent Trustees, counsel to the Independent Trustees and the Trust's Chief Compliance Officer, interest expenses and taxes, brokerage expenses, and other expenses connected with the execution of portfolio transactions, any distribution fees or expenses, legal fees or expenses and extraordinary expenses. Pursuant to a separate contractual arrangement, WTAM arranges for the provision of CCO services with respect to each Fund, and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees in exchange for a fee of up to 0.0044%. As of October 1, 2009, WTAM provides CCO services to the Trust. WTAM has agreed to limit net annual operating expenses for the India Earnings Fund to 0.88%. The fees paid to WTAM for providing advisory services are listed below.

Fund	Fee Rate
Total Earnings Fund	0.28%
Earnings 500 Fund	0.28%
MidCap Earnings Fund	0.38%
SmallCap Earnings Fund	0.38%
Earnings Top 100 Fund	0.38%
LargeCap Value Fund	0.38%
LargeCap Growth Fund	0.38%
India Earnings Fund	0.68%

Each Fund may purchase shares of an affiliated exchange traded fund(s) in secondary market transactions. For the six months ended September 30, 2009, there were no transactions in affiliated ETFs.

4. CAPITAL SHARE TRANSACTIONS

As of September 30, 2009, there was an unlimited number of \$0.001 par value shares of beneficial interest authorized by the Trust. Shares are issued and redeemed by each Fund only in Creation Units or multiples thereof. Except when aggregated in Creation Units, shares of each Fund are not redeemable. Transactions in shares for each Fund are disclosed in detail in the Statements of Changes in Net Assets. The consideration for the purchase of Creation Units of a Fund generally consists of the in-kind contribution of a designated portfolio of equity securities constituting a portfolio sampling representation of the securities included in the relevant Fund's underlying index and an amount of cash. The

Edgar Filing: WisdomTree Trust - Form N-CSRS

WisdomTree India Earnings Fund issues and redeems shares on a cash basis only. Investors purchasing and redeeming Creation Units may be charged a purchase transaction fee and a redemption transaction fee to offset transfer and other transaction costs associated with the issuance and redemption of Creation Units.

GAAP provides guidance on tax provisions that prescribe a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. Foreign taxes are provided for based on each Fund's understanding of the tax rules and rates that exist in the foreign markets in which it invests. Taxes are accrued and applied to net investment income, net realized capital gains and net unrealized appreciation, as applicable, as the income is earned or capital gains are recorded. As of and during the six months ended September 30, 2009, the Funds did not have any liabilities for unrecognized tax benefits. If applicable, the Funds will recognize interest accrued

Edgar Filing: WisdomTree Trust - Form N-CSRS

related to unrecognized tax benefits in interest expense and penalties in Other expenses on the Statements of Operations. The Portfolios file tax returns with U.S. Internal Revenue Service, New York, and various states. Investors should consider the investment objectives, risks, charges and expenses of the Funds carefully before investing. A prospectus, containing this and other information, is available at www.wisdomtree.com, or by calling 1-866-909-WISE (9473). Investors should read the prospectus carefully before investing. There are risks associated with investing, including possible loss of principal. Past performance does not guarantee future results. Indexes are unmanaged and you can not invest directly in an index.

There are risks associated with investing including possible loss of principal. In addition to the normal risks of investing, foreign investing involves special risks, such as risk of loss from currency fluctuation or political or economic uncertainty. Investments in real estate involve additional special risks, such as credit risk, interest rate fluctuations and the effect of varied economic conditions. Funds that focus their investments in one country increase the impact of events and developments associated with the region which can adversely affect performance. Funds focusing on a single country, sector and/or smaller companies generally experience greater price volatility. Investments in emerging frontier markets are generally less liquid and less efficient than developed markets. Investments in currency involve additional special risks, such as credit risk, interest rate fluctuations, derivative investment risk and the effect of varied economic conditions. Derivatives can be volatile and may be less liquid than other securities. As these Funds can have a high concentration in some issuers the Funds can be adversely impacted by changes affecting issuers. Unlike typical exchange-traded funds, there are no indexes that the currency funds attempt to track or replicate. Thus, the ability of the currency Funds to achieve their objectives will depend on the effectiveness of the portfolio manager. Please read the Fund's prospectus for specific details regarding each Fund's risk profile. Transactions in Fund shares will result in brokerage commissions and will generate tax consequences. Shares may be sold through brokerage accounts, but may be redeemed from the Funds only in large amounts of 50,000 shares or more.

The WisdomTree Dividend Index of Europe, Far East Asia and Australasia (DEFA) Fund seeks investment results that closely correspond to the price and yield performance, before fees and expenses, of the WisdomTree Dividend Index of Europe, Far East Asia and Australasia Index (WisdomTree DEFA Index). The WisdomTree DEFA Fund operates as a fund of funds and attempts to achieve its investment objective by investing primarily in other WisdomTree exchange traded funds (ETFs). Instead of investing in several hundred securities, the Fund now invests in primarily the WisdomTree Europe Total Dividend, Japan Total Dividend and Pacific ex-Japan Total Dividend Funds. By investing in these ETFs, the Fund will achieve exposure to the securities in the DEFA Index.

The WisdomTree DEFA Fund returned 49.34% at net asset value (NAV) for the six month period ending on September 30, 2009. The following is reflective of new strategy in effect for the period. The Fund is comprised of three WisdomTree ETFs: WisdomTree Europe Total Dividend Fund (DEB), WisdomTree Pacific ex-Japan Total Dividend Fund (DND) and the WisdomTree Japan Total Dividend Fund (DXJ). The Europe Total Dividend Fund contributed most significantly to the performance, with an average weight of 39.75% of the Fund and returns of 19.90% over the period. Please see page 3 for complete standardized performance information for the Europe Total Dividend Fund.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of a Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore index returns do not reflect deductions for fees or expenses and are not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. Please see page 18 for the list of index definitions. **The annual expense ratio of the Fund is 0.48%.**

The WisdomTree Europe SmallCap Dividend Fund seeks investment results that closely correspond to the price and yield performance, before fees and expenses, of the WisdomTree Europe SmallCap Dividend Index.

The WisdomTree Europe SmallCap Dividend Fund returned 68.88% at net asset value (NAV) for the six month period ending on September 30, 2009. The United Kingdom contributed most significantly to this performance, with an average weight of 40.93% of the Fund and returns of 72.65% over the period. Contributing least to the Fund's performance was Denmark, which returned 22.42% over the period, with an average weight of 1.16% of the Fund.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of a Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore index returns do not reflect deductions for fees or expenses and are not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. The WisdomTree World ex-U.S. Growth Fund seeks investment results that closely correspond to the price and yield performance, before fees and expenses, of the WisdomTree World ex-U.S. Growth Index. The Fund invests in developed and emerging market securities. Emerging market securities are subject to additional risks not associated with investing in U.S. securities or securities from more developed markets. These risks include greater price volatility, lower trading volume and liquidity and greater social, political and economic uncertainty. Prior to June 20, 2009, the WisdomTree World ex-U.S. Growth Fund was named the WisdomTree Japan Equity Income Fund and followed the investment objective of the WisdomTree Japan Equity Income Index. The information on this page and throughout this financial report reflects the investment objective and strategy of the WisdomTree Japan Equity Income Fund through June 19, 2009 and the investment objective and strategy of the WisdomTree World ex-U.S. Growth Fund thereafter.

The WisdomTree World ex-U.S. Growth Fund returned 30.92% at net asset value (NAV) for the six month period ending on September 30, 2009. The following is reflective of the new strategy in effect for the latter three months of reporting period. Energy contributed most significantly to this performance, with an average weight of 35.92% of the Fund and returns of 14.00% over the period. Contributing least to the Fund's performance was Utilities, which returned 6.08% over the period, with an average weight of 3.54% of the Fund.

The WisdomTree International Dividend ex-Financials Fund seeks investment results that closely correspond to the price and yield performance, before fees and expenses, of the WisdomTree International Dividend ex-Financials Index. The WisdomTree International Dividend ex-Financials Index measures the performance of high dividend-yielding international stocks outside the financial sector. Prior to May 9, 2009, the WisdomTree International Dividend ex-Financials Fund was named the WisdomTree International Dividend Top 100 Fund and followed the investment objective of the WisdomTree International Dividend Top 100 Index. The information on this page and throughout this financial report reflects the investment objective and strategy of the WisdomTree International Dividend Top 100 Fund through May 8, 2009 and the investment objective and strategy of the WisdomTree International Dividend ex-Financials Fund thereafter.

The WisdomTree International Dividend ex-Financials Fund returned 53.08% at net asset value (NAV) for the six month period ending on September 30, 2009. France contributed most significantly to this performance, with an average weight of 16.36% of the Fund and returns of 70.55% over the period. Contributing least to the Fund's performance was Hong Kong, which returned 10.85% over the period, with an average weight of 1.16% of the Fund.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of a Fund's portfolio securities.

Description of Indexes (concluded)

The **MSCI Arabian Markets ex-Saudi Arabia Index** is a free float-adjusted market capitalization index that is designed to measure the performance of stocks in the Gulf Cooperation Council (GCC) countries and the neighboring region: the United Arab Emirates, Kuwait, Qatar, Bahrain, Oman, Egypt, Jordan, and Morocco.

Index returns do not reflect expenses paid by the Fund. Index returns assume reinvestment of distributions. It is not possible to invest directly in an index.

Shareholder Expense Examples (unaudited)

As a shareholder of a WisdomTree Fund, you incur two types of costs: (1) transaction costs, including brokerage commissions on purchases and sales of your Fund shares and (2) ongoing costs, including management fees and other Fund expenses. The following example is intended to help you understand your ongoing costs (in dollars and cents) of investing in a Fund and to compare these costs with the ongoing costs of investing in other funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from April 1, 2009 to September 30, 2009.

Actual expenses

The first line under each Fund in the table on the next page provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line for your Fund under the heading entitled Expenses Paid During Period 4/01/09 to 9/30/09 to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The second line under each Fund in the table on the next page provides information about hypothetical account values and hypothetical expenses based on each Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales of Fund shares. Therefore, the second line under each Fund in the table is useful in comparing ongoing Fund costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

Expenses are calculated using each Fund's annualized expense ratio, multiplied by the average account value for the period, multiplied by 183/365 (to reflect one-half year period).

* Reflects operation as Fund of Funds. The Fund has entered into an agreement with WTAM whereby WTAM waives a portion of its management fees equal to the management fees paid by each Underlying Fund for so long as the Fund invests in the Underlying Funds. Underlying Fund Fees reflect fees that are not directly paid by the Fund of Funds but are indirectly incurred as a result of investment in shares of the Underlying Funds.

WisdomTree Trust (the Trust) is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as an open-end management investment company. The Trust was established as a Delaware statutory trust pursuant to a Trust Instrument dated December 15, 2005. As of September 30, 2009, the Trust offered 51 investment funds (each a Fund, collectively, the Funds). The Funds described herein, commenced operations on June 16, 2006, with the exception of WisdomTree Emerging Markets Equity Income Fund, WisdomTree Emerging Markets SmallCap Dividend Fund and WisdomTree Middle East Dividend Fund, which commenced operations on July 13, 2007, October 30, 2007 and July 16, 2008, respectively.

These financial statements relate only to the WisdomTree DEFA Fund (DEFA Fund), WisdomTree DEFA Equity Income Fund (DEFA Equity Income Fund), WisdomTree Europe Total Dividend Fund (Europe Total Dividend Fund), WisdomTree Global Equity Income Fund, formerly WisdomTree Europe Equity Income Fund (Global Equity Income Fund), WisdomTree Europe SmallCap Dividend Fund (Europe SmallCap Dividend Fund), WisdomTree Japan Total Dividend Fund (Japan Total Dividend Fund), WisdomTree World ex-U.S. Growth Fund, formerly WisdomTree Japan Equity Income Fund (World ex-U.S. Growth Fund), WisdomTree Japan SmallCap Dividend Fund (Japan SmallCap Dividend Fund), WisdomTree Pacific ex-Japan Total Dividend Fund (Pacific ex-Japan Total Dividend Fund), WisdomTree Pacific ex-Japan Equity Income Fund (Pacific ex-Japan Equity Income Fund), WisdomTree International LargeCap Dividend Fund (International LargeCap Dividend Fund), WisdomTree International Dividend ex-Financials Fund, formerly the WisdomTree International Dividend Top 100 Fund (International Dividend ex-Financials Fund), WisdomTree International MidCap Dividend Fund (International MidCap Dividend Fund), WisdomTree International SmallCap Dividend Fund (International SmallCap Dividend Fund), WisdomTree Emerging Markets Equity Income Fund (Emerging Markets Equity Income Fund), WisdomTree Emerging Markets SmallCap Dividend Fund (Emerging Markets SmallCap Dividend Fund), and WisdomTree Middle East Dividend Fund (Middle East Dividend Fund), together the International Dividend Funds.

Each Fund seeks investment returns that closely correspond to the price and yield performance, before fees and expenses, of a particular index (Index) developed by WisdomTree Investments, Inc. (WisdomTree Investments). Each Fund described herein is considered to be non-diversified.

2. SIGNIFICANT ACCOUNTING POLICIES

The Financial Accounting Standards Boards (FASB) Accounting Standards Codification has become the exclusive reference of authoritative U.S. generally accepted accounting principles (GAAP) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission (SEC) under authority of federal laws are also sources of authoritative GAAP for SEC registrants. The Codification supersedes all existing non-SEC accounting and reporting standards.

Guarantees In the normal course of business the Funds may enter into contracts that contain a variety of representations or that provide indemnification for certain liabilities. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

Use of Estimates The preparation of financial statements in conformity with GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in the net assets from operations during the reporting period. Actual results could differ from those estimates.

Investment Valuation The Net Asset Value (NAV) of each Fund's shares is calculated each day the national securities exchanges are open for trading as of the close of regular trading on the New York Stock Exchange, generally 4:00 p.m. New York time. NAV per share is calculated by dividing a Fund's net assets by the number of Fund shares outstanding. Securities traded on any recognized U.S. or non-U.S. exchange are valued at the last sale price or official closing price on the exchange or system on which they are principally traded. Events occurring after the close of trading on non-U.S. exchanges may result in adjustments to the valuation of foreign securities to more accurately reflect their fair value as of the close of regular trading on the New York Stock Exchange. The Funds may rely on an independent fair valuation service in adjusting the valuations of foreign securities. Unlisted equity securities are valued at the last quoted sale price or, if no sale price is available, at the mean between the highest bid and lowest ask prices. Securities for which market quotations are not readily available are valued at fair value as determined by management and in accordance with procedures approved by the Board of Trustees. Short-term securities with 60 days or less

Edgar Filing: WisdomTree Trust - Form N-CSRS

remaining to maturity are valued using the amortized cost method, which approximates fair value.

Fair Value Measurement GAAP provides guidance on fair value measurements. This standard defines fair value, establishes a framework for measuring fair value in accordance with GAAP and expands disclosure about fair value measurements. Various inputs are used in determining the value of the Funds' investments. These inputs are summarized in the three broad levels listed below.

Level 1 quoted prices in active markets for identical securities

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including each Fund's assumption in determining the fair value of investments)

WisdomTree International Dividend Funds 93

Table of Contents**Notes to Financial Statements** (unaudited) (continued)

Investments that use Level 2 or Level 3 inputs may include, but are not limited to: (i) an unlisted security related to corporate actions; (ii) a restricted security (e.g., one that may not be publicly sold without registration under the Securities Act of 1933, as amended); (iii) a security whose trading has been suspended or which has been de-listed from its primary trading exchange; (iv) a security that is thinly traded; (v) a security in default or bankruptcy proceedings for which there is no current market quotation; (vi) a security affected by currency controls or restrictions; and (vii) a security affected by a significant event (e.g., an event that occurs after the close of the markets on which the security is traded but before the time as of which a Fund's net asset value is computed and that may materially affect the value of the Fund's investments). Examples of events that may be significant events are government actions, natural disasters, armed conflict and acts of terrorism.

The inputs or methodology used for valuation are not necessarily an indication of the risk associated with investing in those investments.

The following is a summary of the inputs used as of September 30, 2009 in valuing each Fund's assets carried at fair value:

Derivative and Hedging Disclosure GAAP requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative agreements. The application of FAS 161 is effective for fiscal years beginning November 15, 2008 and interim periods within those fiscal years. The Funds did not invest in derivative instruments for the six months ended September 30, 2009.

Investment Transactions Investment transactions are recorded as of the date that the securities are purchased or sold (trade date). Realized gains and losses on sales of portfolio securities are calculated using the identified-cost method.

Foreign Currency Translation The accounting records of the Funds are maintained in U.S. dollars. Foreign currencies, as well as investment securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars using exchange rates deemed appropriate by the investment adviser. Realized and unrealized foreign exchange gains or losses on investments are included as a component of net realized and unrealized gain or loss on foreign currency transactions in the Statements of Operations. Certain foreign exchange gains and losses included in realized and unrealized gains or losses are included in, or are a reduction of ordinary income in accordance with U.S. Federal income tax regulations.

Investment Income Dividend income is recognized on the ex-dividend date, net of any foreign taxes withheld. Interest income is accrued daily. The value of additional securities received as dividend payments is recorded as income and as an increase to the cost basis of such securities.

Expenses/Reimbursements WisdomTree Asset Management, Inc. (WTAM) has agreed to pay all expenses of the Funds (other than the Middle East Dividend Fund), except for: (i) brokerage expenses and other expenses (such as stamp taxes) connected with the execution of portfolio transactions or in connection with creation and redemption transactions; (ii) legal fees or expenses in connection with any arbitration, litigation or pending or threatened arbitration or litigation, including any settlements in connection therewith; (iii) compensation and expenses of each Independent Trustee; (iv) compensation and expenses of counsel to the Independent Trustees; (v) compensation and expenses of the Trust's chief compliance officer; (vi) extraordinary expenses; (vii) distribution fees and expenses paid by the Trust under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act; and (viii) the advisory fee payable to WTAM.

Pursuant to a separate contractual arrangement, WTAM has arranged for the provision of chief compliance officer (CCO) services to the Funds, and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees, in exchange for a service fee paid by each Fund, of up to 0.0044% of each Fund's average daily net assets. Trustees fees, which are included in Service Fees on the Statements of Operations, of \$180,782 have been paid on behalf of the Funds of the Trust to the Independent Trustees for the six month period ended September 30, 2009. Expenses in excess of 0.0044% were paid by WTAM.

The DEFA Fund and Global Equity Fund operate as Fund of Funds. Each Fund has entered into an agreement with WTAM whereby WTAM waives a portion of its management fees equal to the management fees paid by each Underlying Fund for so long as the Fund invests in the Underlying Funds. Underlying Fund Fees reflect fees that are not directly paid by the Fund of Funds but are indirectly incurred as a result of investment in shares of the Underlying Funds. This amount is based on each Fund's allocation to its Underlying Funds for the current fiscal year.

Edgar Filing: WisdomTree Trust - Form N-CSRS

Starting August 20, 2009, the Emerging Markets SmallCap Fund held shares of the India Earnings Fund. For the period ending September 30, 2009, Emerging Markets SmallCap Fund waived an amount based on the Fund's allocation to Underlying Fund for the current fiscal year.

Currency Transactions The Funds may enter into foreign currency forward and foreign currency futures contracts to facilitate local securities settlements or to protect against currency exposure in connection with distributions to shareholders. The Funds do not expect to engage in currency transactions for the purpose of hedging against declines in the value of a Fund's assets that are denominated in one or more foreign currencies. The Funds may not enter into such contracts for speculative purposes.

Forward Foreign Currency Transactions A forward foreign currency exchange contract (forward contract) involves an obligation to purchase or sell a specific currency at a future date, which may be any fixed number of days from the date of the contract agreed upon by the parties, at a price set at the time of the contract. These contracts are principally traded in the inter-bank market conducted directly between currency traders (usually large, commercial banks) and their customers. A forward contract generally has no margin deposit requirement, and no commissions are charged at any stage for trades.

Risks may arise upon entering into forward contracts from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of foreign currencies relative to the U.S. Dollar or each other.

Fluctuations in the value of open forward contracts are recorded for book purposes as unrealized gains or losses on forward foreign currency contracts by the Funds. Realized gains and losses on forward foreign currency contracts include net gains or losses recognized by the Funds on contracts which have matured.

The following forward currency exchange contracts were open at September 30, 2009:

Security Lending Each Fund may lend portfolio securities to certain creditworthy borrowers, including the Funds' securities lending agent. The loans are collateralized at all times by cash and/or high grade debt obligations in an amount at least equal to 102% of the market value of domestic securities loaned (105% in the case of foreign securities loaned), as determined at the close of business on the preceding business day. Each Fund receives compensation for lending its securities from interest or dividends earned on the cash or U.S. government securities held as collateral, net of fee rebates paid to the borrower plus reasonable administrative and custody fees. The dividend and interest income earned on the securities loaned is accounted for in the same manner as other dividend and interest income. The borrower pays to the Funds an amount equal to any dividends or interest received on loaned securities. The Funds retain all or a portion of the interest received on investment of cash collateral or receives a fee from the borrower. Lending portfolio securities could result in a loss or delay in recovering each Fund's securities if the borrower defaults.

The securities lending income earned by the Funds is disclosed on the Statements of Operations.

Short-Term Investments Each Fund may invest a portion of its assets in high-quality money market instruments on an ongoing basis to provide liquidity or for other reasons. The instruments in which a Fund may invest include short-term obligations issued by the U.S. Government, negotiable certificates of deposit (CDs), fixed time deposits and bankers' acceptances of U.S. and foreign banks and similar institutions, commercial papers, repurchase agreements and money market funds. CDs are short-term negotiable obligations of commercial banks. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Bankers' acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

Tax Information and Dividends and Distributions to Shareholders It is each Fund's policy to comply with all requirements of the Internal Revenue Code of 1986, as amended (the Code). Each Fund intends to qualify for and to elect treatment as a separate Regulated Investment Company (RIC) under Subchapter M of the Code. It is the policy of each Fund to pay out dividends, if any, to investors at least annually. Taxable net realized gains from investment transactions, reduced by capital loss carryforwards, if any, are declared and distributed to shareholders at least annually. The capital loss carryforward amount, if any, is available to offset future net capital gains. The Funds may occasionally be required to make supplemental distributions at some other time during the year. The Trust reserves the right to declare special distributions if, in its reasonable discretion, such action is necessary or advisable to preserve the status of each Fund as a RIC or to avoid imposition of income or excise taxes on undistributed income. Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with Federal income tax regulations which may differ from GAAP. These book/tax differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the components of net assets based on their Federal tax basis treatment; temporary differences do not require reclassification. Dividends and distributions, which exceed earnings and profit for tax purposes, are reported as a tax return of capital.

3. ADVISER FEES AND TRANSACTIONS

As investment adviser, WTAM has overall responsibility for the general management and administration of the Trust. WTAM provides an investment program for each Fund. WTAM also arranges for sub-advisory, transfer agency, custody, fund administration, and all other non-distribution related services necessary for the Funds to operate. Under the Investment Advisory Agreement for each Fund, WTAM agrees to pay all expenses of the Funds (other than the Middle East Dividend Fund), except compensation and expenses of the Independent Trustees, counsel to the Independent Trustees and the Trust's Chief Compliance Officer, interest expenses and taxes, brokerage expenses, and other expenses connected with the execution of portfolio transactions, any distribution fees or expenses, legal fees or expenses and extraordinary expenses. Pursuant to a separate contractual arrangement, WTAM arranges for the provision of CCO services with respect to each Fund, and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees in exchange for a fee of up to 0.0044%. As of October 1, 2009, WTAM provides CCO services to the Trust. WTAM has agreed to limit net annual operating expenses for the Middle East Dividend Fund to 0.88%. The fees paid to WTAM for providing advisory services are listed below.

Each Fund may purchase shares of an affiliated exchange traded fund (s) in secondary market transactions. For the six months ended September 30, 2009, there were no transactions in affiliated ETFs.

4. CAPITAL SHARE TRANSACTIONS

As of September 30, 2009, there were an unlimited number of \$0.001 par value shares of beneficial interest authorized by the Trust. Shares are issued and redeemed by each Fund only in Creation Units or multiples thereof. Except when aggregated in Creation Units, shares of each Fund are not redeemable. Transactions in shares for each Fund are disclosed in detail in the Statements of Changes in Net Assets. The consideration for the purchase of Creation Units of a Fund generally consist of the in-kind contribution of a designated portfolio of equity securities constituting a portfolio sampling representation of the securities included in the relevant Fund's underlying index and an amount of cash. The Middle East Dividend Fund issues and redeems shares on a cash basis only. Investors purchasing and redeeming Creation Units may be charged a purchase transaction fee and a redemption transaction fee to offset transfer and other transaction costs associated with the issuance and redemption of Creation Units.

GAAP provides guidance on tax provisions that prescribe a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. Foreign taxes are provided for based on each Fund's understanding of the tax rules and rates that exist in the foreign markets in which it invests. Taxes are accrued and applied to net investment income, net realized capital gains and net unrealized appreciation, as applicable, as the income is earned or capital gains are recorded. As of and during the six months ended September 30, 2009, the Funds did not have any liabilities for unrecognized tax benefits. If applicable, the Funds will recognize interest accrued related to unrecognized tax benefits in interest expense and penalties in Other expenses on the Statements of Operations. The Portfolios file tax returns with the U.S. Internal Revenue Service, New York, and various states. Generally, each of the tax years in the three year period ended March 31, 2009, remains subject to examination by taxing authorities.

The WisdomTree Funds are exchange traded funds (ETFs) registered with the United States Securities and Exchange Commission (SEC) as series of WisdomTree Trust (Trust). WisdomTree Asset Management, Inc., a wholly owned subsidiary of WisdomTree Investments, Inc., serves as the investment adviser to the WisdomTree Trust. None of the WisdomTree entities are affiliated with ALPS Distributors, Inc., the Funds distributor. WisdomTree Investments, its affiliates and their independent providers are not liable for any informational errors, incompleteness, or delays, or for any actions taken in reliance on information contained herein.

Investors should consider the investment objectives, risks, charges and expenses of the Funds carefully before investing. A prospectus, containing this and other information, is available at www.wisdomtree.com, or by calling 1-866-909-WISE (9473). Investors should read the prospectus carefully before investing. There are risks associated with investing, including possible loss of principal. Past performance does not guarantee future results. Indexes are unmanaged and you can not invest directly in an index.

There are risks associated with investing including possible loss of principal. In addition to the normal risks of investing, foreign investing involves special risks, such as risk of loss from currency fluctuation or political or economic uncertainty. Investments in real estate involve additional special risks, such as credit risk, interest rate fluctuations and the effect of varied economic conditions. Funds that focus their investments in one country increase the impact of events and developments associated with the region which can adversely affect performance. Funds focusing on a single country, sector and/or smaller companies generally experience greater price volatility. Investments in emerging frontier markets are generally less liquid and less efficient than developed markets. Investments in currency involve additional special risks, such as credit risk, interest rate fluctuations, derivative investment risk and the effect of varied economic conditions. Derivatives can be volatile and may be less liquid than other securities. As these Funds can have a high concentration in some issuers the Funds can be adversely impacted by changes affecting issuers. Unlike typical exchange-traded funds, there are no indexes that the currency funds attempt to track or replicate. Thus, the ability of the currency funds to achieve their objectives will depend on the effectiveness of the portfolio manager. Please read the Fund's prospectus for specific details regarding each Fund's risk profile. Transactions in Fund shares will result in brokerage commissions and will generate tax consequences. Shares may be sold through brokerage accounts, but may be redeemed from the Funds only in large amounts of 50,000 shares or more.

The WisdomTree International Basic Materials Sector Fund seeks investment results that closely correspond to the price and yield performance, before fees and expenses, of the WisdomTree International Basic Materials Sector Index.

The WisdomTree International Basic Materials Sector Fund returned 60.25% at net asset value (NAV) for the six month period ending on September 30, 2009. Australia contributed most significantly to this performance, with an average weight of 18.27% of the Fund and returns of 65.25% over the period. Contributing least to the Fund's performance was Denmark, which returned 18.72% over the period, with an average weight of 0.17% of the Fund.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of a Fund's portfolio securities.

The WisdomTree International Industrial Sector Fund seeks investment results that closely correspond to the price and yield performance, before fees and expenses, of the WisdomTree International Industrial Sector Index.

The WisdomTree International Industrial Sector returned 59.94% at net asset value (NAV) for the six month period ending on September 30, 2009. France contributed most significantly to this performance, with an average weight of 15.66% of the Fund and returns of 64.93% over the period. Contributing least to the Fund's performance was Ireland, which returned 32.47% over the period, with an average weight of 0.06% of the Fund.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of a Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore index returns do not reflect deductions for fees or expenses and are not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. Please see page 12 for the list of index definitions. **The annual expense ratio of the Fund is 0.58%.**

Shareholder Expense Examples (unaudited)

As a shareholder of a WisdomTree Fund, you incur two types of costs: (1) transaction costs, including brokerage commissions on purchases and sales of your Fund shares and (2) ongoing costs, including management fees and other Fund expenses. The following example is intended to help you understand your ongoing costs (in dollars and cents) of investing in a Fund and to compare these costs with the ongoing costs of investing in other funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from April 1, 2009 to September 30, 2009.

Actual expenses

The first line under each Fund in the table on the next page provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line for your Fund under the heading entitled Expenses Paid During Period 4/01/09 to 9/30/09 to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The second line under each Fund in the table on the next page provides information about hypothetical account values and hypothetical expenses based on each Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales of Fund shares. Therefore, the second line under each Fund in the table is useful in comparing ongoing Fund costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

WisdomTree Trust (the Trust) is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as an open-end management investment company. The Trust was established as a Delaware statutory trust pursuant to a Trust Instrument dated December 15, 2005. As of September 30, 2009, the Trust offered 51 investment funds (each a Fund, collectively, the Funds). The Funds described herein commenced operations on October 13, 2006, with the exception of the WisdomTree International Real Estate Fund, which commenced operations on June 5, 2007.

These financial statements relate only to the WisdomTree International Basic Materials Sector Fund (International Basic Materials Sector Fund), WisdomTree International Communications Sector Fund (International Communications Sector Fund), WisdomTree International Consumer Discretionary Sector Fund (International Consumer Discretionary Sector Fund), WisdomTree International Consumer Staples Sector Fund (International Consumer Staples Sector Fund), WisdomTree International Energy Sector Fund (International Energy Sector Fund), WisdomTree International Financial Sector Fund (International Financial Sector Fund), WisdomTree International Health Care Sector Fund (International Health Care Sector Fund), WisdomTree International Industrial Sector Fund (International Industrial Sector Fund), WisdomTree International Technology Sector Fund (International Technology Sector Fund), WisdomTree International Utilities Sector Fund (International Utilities Sector Fund) and WisdomTree International Real Estate Fund (International Real Estate Fund), together the International Dividend Sector Funds.

Each Fund seeks investment returns that closely correspond to the price and yield performance, before fees and expenses, of a particular index (Index) developed by WisdomTree Investments, Inc. (Wisdom Tree Investments). Each Fund described herein is considered to be non-diversified.

2. SIGNIFICANT ACCOUNTING POLICIES

The Financial Accounting Standards Board (FASB) Accounting Standards Codification has become the exclusive reference of authoritative U.S. generally accepted accounting principles (GAAP) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission (SEC) under authority of federal laws are also sources of authoritative GAAP for SEC registrants. The Codification supersedes all existing non-SEC accounting and reporting standards.

Guarantees In the normal course of business the Funds may enter into contracts that contain a variety of representations or that provide indemnification for certain liabilities. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

Use of Estimates The preparation of financial statements in conformity with GAAP, requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in the net assets from operations during the reporting period. Actual results could differ from those estimates.

Investment Valuation The Net Asset Value (NAV) of each Fund's shares is calculated each day the national securities exchanges are open for trading as of the close of regular trading on the New York Stock Exchange, generally 4:00 p.m. New York time. NAV per share is calculated by dividing a Fund's net assets by the number of Fund shares outstanding. Securities traded on any recognized U.S. or non-U.S. exchange are valued at the last sale price or official closing price on the exchange or system on which they are principally traded. Events occurring after the close of trading on non-U.S. exchanges may result in adjustments to the valuation of foreign securities to more accurately reflect their fair value as of the close of regular trading on the New York Stock Exchange. The Funds may rely on an independent fair valuation service in adjusting the valuations of foreign securities. Unlisted equity securities are valued at the last quoted sale price or, if no sale price is available, at the mean between the highest bid and lowest ask prices. Securities for which market quotations are not readily available are valued at fair value as determined by management and in accordance with procedures approved by the Board of Trustees. Short-term securities with 60 days or less remaining to maturity are valued using the amortized cost method, which approximates fair value.

Fair Value Measurement GAAP provides guidance on fair value measurements. This standard defines fair value, establishes a framework for measuring fair value in accordance with GAAP and expands disclosure about fair value measurements. Various inputs are used in determining the value of the Funds' investments. These inputs are summarized in the three broad levels listed below.

Edgar Filing: WisdomTree Trust - Form N-CSRS

Level 1 quoted prices in active markets for identical securities

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including each Fund's assumption in determining the fair value of investments)

Investments that use Level 2 or Level 3 inputs may include, but are not limited to: (i) an unlisted security related to corporate actions; (ii) a restricted security (*e.g.*, one that may not be publicly sold without registration under the Securities Act of 1933, as

46 WisdomTree International Dividend Sector Funds

Table of Contents**Notes to Financial Statements** (unaudited) (continued)

amended); (iii) a security whose trading has been suspended or which has been de-listed from its primary trading exchange; (iv) a security that is thinly traded; (v) a security in default or bankruptcy proceedings for which there is no current market quotation; (vi) a security affected by currency controls or restrictions; and (vii) a security affected by a significant event (*e.g.*, an event that occurs after the close of the markets on which the security is traded but before the time as of which a Fund's net asset value is computed and that may materially affect the value of the Fund's investments). Examples of events that may be significant events are government actions, natural disasters, armed conflict and acts of terrorism.

The inputs or methodology used for valuation are not necessarily an indication of the risk associated with investing in those investments.

The following is a summary of the inputs used as of September 30, 2009 in valuing the Fund's assets carried at fair value:

Derivative and Hedging Disclosure GAAP requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative agreements. The application of FAS 161 is effective for fiscal years beginning November 15, 2008 and interim periods within those fiscal years. The Funds did not invest in derivative instruments for the six months ended September 30, 2009.

Investment Transactions Investment transactions are recorded as of the date that the securities are purchased or sold (trade date). Realized gains and losses on sales of portfolio securities are calculated using the identified-cost method.

Foreign Currency Translation The accounting records of the Funds are maintained in U.S. dollars. Foreign currencies, as well as investment securities and other assets and liabilities denominated in foreign currencies, are translated into U.S. dollars using exchange rates deemed appropriate by the investment adviser. Realized and unrealized foreign exchange gains or losses on investments are included as a component of net realized and unrealized gain or loss on foreign currency transactions in the Statements of Operations. Certain foreign exchange gains and losses included in realized and unrealized gains or losses are included in, or are a reduction of, ordinary income in accordance with U.S. Federal income tax regulations.

Investment Income Dividend income is recognized on the ex-dividend date, net of any foreign taxes withheld. Interest income is accrued daily. The value of additional securities received as dividend payments is recorded as income and as an increase to the cost basis of such securities.

Expenses/Reimbursements WisdomTree Asset Management (WTAM) has agreed to pay all expenses of the Funds, except for: (i) brokerage expenses and other expenses (such as stamp taxes) connected with the execution of portfolio transactions or in connection with creation and redemption transactions; (ii) legal fees or expenses in connection with any arbitration, litigation or pending or threatened arbitration or litigation, including any settlements in connection therewith; (iii) compensation and expenses of each Independent Trustee; (iv) compensation and expenses of counsel to the Independent Trustees; (v) compensation and expenses of the Trust's chief compliance officer; (vi) extraordinary expenses; (vii) distribution fees and expenses paid by the Trust under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act; and (viii) the advisory fee payable to WTAM.

Pursuant to a separate contractual arrangement, WTAM has arranged for the provision of chief compliance officer (CCO) services to the Funds and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees, in exchange for a service fee paid by each Fund of up to 0.0044% of each Fund's average daily net assets. Trustees fees, which are included in Service Fees on the Statements of Operations, of \$180,782 have been paid on behalf of the Funds of the Trust to the Independent Trustees for the six months ended September 30, 2009.

Currency Transactions The Funds may enter into foreign currency forward and foreign currency futures contracts to facilitate local securities settlements or to protect against currency exposure in connection with distributions to shareholders. The Funds do not expect to engage in currency transactions for the purpose of hedging against declines in the value of a Fund's assets that are denominated in one or more foreign currencies. The Funds may not enter into such contracts for speculative purposes.

Forward Foreign Currency Transactions A forward foreign currency exchange contract (forward contract) involves an obligation to purchase or sell a specific currency at a future date, which may be any fixed number of days from the date of the contract agreed upon by the parties, at a price set at the time of the contract. These contracts are principally traded in the inter-bank market conducted directly between currency traders (usually large, commercial banks) and their customers. A forward contract generally has no margin deposit requirement, and no commissions are charged at any stage for trades.

Risks may arise upon entering into forward contracts from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of foreign currencies relative to the U.S. Dollar or each other.

Edgar Filing: WisdomTree Trust - Form N-CSRS

Fluctuations in the value of open forward contracts are recorded for book purposes as unrealized gains or losses on forward foreign currency contracts by the Funds. Realized gains and losses on forward foreign currency contracts include net gains or losses recognized by the Funds on contracts which have matured. The Funds did not have any forward currency exchange contracts open at September 30, 2009.

Security Lending Each Fund may lend portfolio securities to certain creditworthy borrowers, including the Funds' securities lending agent. The loans are collateralized at all times by cash and/or high grade debt obligations in an amount at least equal to

Table of Contents**Notes to Financial Statements** (unaudited) (continued)

102% of the market value of domestic securities loaned (105% in the case of foreign securities loaned) as determined at the close of business on the preceding business day. Each Fund receives compensation for lending its securities from interest or dividends earned on the cash or U.S. government securities held as collateral, net of fee rebates paid to the borrower plus reasonable administrative and custody fees. The dividend and interest income earned on the securities loaned is accounted for in the same manner as other dividend and interest income. The borrower pays to the Funds an amount equal to any dividends or interest received on loaned securities. The Funds retain all or a portion of the interest received on investment of cash collateral or receives a fee from the borrower. Lending portfolio securities could result in a loss or delay in recovering each Fund's securities if the borrower defaults.

The securities lending income earned by the Funds is disclosed on the Statements of Operations.

Short-Term Investments Each Fund may invest a portion of its assets in high-quality money market instruments on an ongoing basis to provide liquidity or for other reasons. The instruments in which a Fund may invest include short-term obligations issued by the U.S. Government, negotiable certificates of deposit (CDs), fixed time deposits and bankers' acceptances of U.S. and foreign banks and similar institutions, commercial papers, repurchase agreements and money market funds. CDs are short-term negotiable obligations of commercial banks. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Bankers' acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

Tax Information and Dividends and Distributions to Shareholders It is each Fund's policy to comply with all requirements of the Internal Revenue Code of 1986, as amended (the Code). Each Fund intends to qualify for and to elect treatment as a separate Regulated Investment Company (RIC) under Subchapter M of the Code. It is the policy of each Fund to pay out dividends, if any, to investors at least annually. Taxable net realized gains from investment transactions, reduced by capital loss carryforwards, if any, are declared and distributed to shareholders at least annually. The capital loss carryforward amount, if any, is available to offset future net capital gains. The Funds may occasionally be required to make supplemental distributions at some other time during the year. The Trust reserves the right to declare special distributions if, in its reasonable discretion, such action is necessary or advisable to preserve the status of each Fund as a RIC or to avoid imposition of income or excise taxes on undistributed income. Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with Federal income tax regulations which may differ from GAAP. These book/tax differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the components of net assets based on their federal tax basis treatment; temporary differences do not require reclassification. Dividends and distributions, which exceed earnings and profit for tax purposes, are reported as a tax return of capital.

3. ADVISER FEES AND TRANSACTIONS

As investment adviser, WTAM has overall responsibility for the general management and administration of the Trust. WTAM provides an investment program for each Fund. WTAM also arranges for sub-advisory, transfer agency, custody, fund administration, and all other non-distribution related services necessary for the Funds to operate. Under the Investment Advisory Agreement for each Fund, WTAM agrees to pay all expenses of the Funds, except compensation and expenses of the Independent Trustees, counsel to the Independent Trustees and the Trust's Chief Compliance Officer, interest expenses and taxes, brokerage expenses, and other expenses connected with the execution of portfolio transactions, any distribution fees or expenses, legal fees or expenses and extraordinary expenses. Pursuant to a separate contractual arrangement, WTAM arranges for the provision of chief compliance officer (CCO) services with respect to each Fund and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees in exchange for a fee of up to 0.0044%. As of October 1, 2009, WTAM provides CCO services to the Trust. The fees paid to WTAM for providing advisory services are listed below.

Each Fund may purchase shares of an affiliated exchange traded fund(s) in secondary market transactions. For the six months ended September 30, 2009, there were no transactions in affiliated ETFs.

4. CAPITAL SHARE TRANSACTIONS

As of September 30, 2009, there was an unlimited number of \$0.001 par value shares of beneficial interest authorized by the Trust. Shares are issued and redeemed by each Fund only in Creation Units or multiples thereof. Except when aggregated in Creation Units, shares of each Fund are not redeemable. Transactions in shares for each Fund are disclosed in detail in the Statements of Changes in Net Assets. The consideration for the purchase of Creation Units of a Fund generally consists of the in-kind contribution of a designated portfolio of equity securities constituting a portfolio sampling representation of the securities included in the relevant Fund's underlying index and an amount of cash. Investors purchasing and redeeming Creation Units may be charged a purchase transaction fee and a redemption transaction fee to offset transfer and other transaction costs associated with the issuance and redemption of Creation Units.

5. INVESTMENT PORTFOLIO TRANSACTIONS

GAAP provides guidance on tax provisions that prescribe a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. Foreign taxes are provided for based on each Fund's understanding of the tax rules and rates that exist in the foreign markets in which it invests. Taxes are accrued and applied to net investment income, net realized capital gains and net unrealized appreciation, as applicable, as the income is earned or capital gains are recorded. As of and during the six months ended September 30, 2009, the Funds did not have any liabilities for unrecognized tax benefits. If applicable, the Funds will recognize interest accrued related to unrecognized tax benefits in interest expense and penalties in Other expenses on the Statements of Operations. The Portfolios file tax returns with the U.S. Internal Revenue Service, New York, and various states. Generally, each of the tax years in the three year period ended March 31, 2009, remains subject to examination by taxing authorities.

7. SUBSEQUENT EVENT

In accordance with GAAP provisions, management of the Funds has evaluated the possibility of subsequent events existing in the Funds financial statements through November 27, 2009. Management has determined that there are no material events that would require disclosure in the Funds financial statements through this date.

The WisdomTree Funds are exchange traded funds (ETFs) registered with the United States Securities and Exchange Commission (SEC) as series of WisdomTree Trust (Trust). WisdomTree Asset Management, Inc., a wholly owned subsidiary of WisdomTree Investments, Inc., serves as the investment adviser to the WisdomTree Trust. None of the WisdomTree entities are affiliated with ALPS Distributors, Inc., the Funds distributor. WisdomTree Investments, its affiliates and their independent providers are not liable for any informational errors, incompleteness, or delays, or for any actions taken in reliance on information contained herein.

Investors should consider the investment objectives, risks, charges and expenses of the Funds carefully before investing. A prospectus, containing this and other information, is available at www.wisdomtree.com, or by calling 1-866-909-WISE (9473). Investors should read the prospectus carefully before investing. There are risks associated with investing, including possible loss of principal. Past performance does not guarantee future results. Indexes are unmanaged and you can not invest directly in an index.

There are risks associated with investing including possible loss of principal. In addition to the normal risks of investing, foreign investing involves special risks, such as risk of loss from currency fluctuation or political or economic uncertainty. Investments in real estate involve additional special risks, such as credit risk, interest rate fluctuations and the effect of varied economic conditions. Funds that focus their investments in one country increase the impact of events and developments associated with the region which can adversely affect performance. Funds focusing on a single country, sector and/or smaller companies generally experience greater price volatility. Investments in emerging frontier markets are generally less liquid and less efficient than developed markets. Investments in currency involve additional special risks, such as credit risk, interest rate fluctuations, derivative investment risk and the effect of varied economic conditions. Derivatives can be volatile and may be less liquid than other securities. As these Funds can have a high concentration in some issuers the Funds can be adversely impacted by changes affecting issuers. Unlike typical exchange-traded funds, there are no indexes that the currency funds attempt to track or replicate. Thus, the ability of the currency Funds to achieve their objectives will depend on the effectiveness of the portfolio manager. Please read the Fund s prospectus for specific details regarding each Fund s risk profile. Transactions in Fund shares will result in brokerage commissions and will generate tax consequences. Shares may be sold through brokerage accounts, but may be redeemed from the Funds only in large amounts of 50,000 shares or more.
