SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-K

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the fiscal year ended December 31, 2009

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the transition period from to

Commission file number 1-4694

R. R. DONNELLEY & SONS COMPANY

(Exact name of registrant as specified in its charter)

Edgar Filing: RR Donnelley & Sons Co - Form 10-K

Delaware (State or other jurisdiction of incorporation or organization)	36-1004130 (I.R.S. Employer Identification No.)
111 South Wacker Drive, Chicago, Illinois (Address of principal executive offices)	60606 (ZIP Code)
Registrant's telephone number (312) 326-8000	

Securities registered pursuant to Section 12(b) of the Act:

Title of each Class	Name of each exchange on which registered
Common Stock (Par Value \$1.25)	NASDAQ and Chicago Stock Exchange

Indicated by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to the filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act:

Large accelerated filer <input checked="" type="checkbox"/>	Accelerated filer <input type="checkbox"/>	Non-accelerated filer <input type="checkbox"/>	Smaller reporting company <input type="checkbox"/>
(Do not check if a smaller reporting company)			

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The aggregate market value of the shares of common stock (based on the closing price of these shares on the New York Stock Exchange Composite Transactions) on June 30, 2009, the last business day of the registrant's most recently completed second fiscal quarter, held by nonaffiliates was \$2,378,909,775.

Edgar Filing: RR Donnelley & Sons Co - Form 10-K

As of February 19, 2010, 205,474,233 shares of common stock were outstanding.

Documents Incorporated By Reference

Portions of the Registrant's proxy statement related to its annual meeting of stockholders scheduled to be held on May 20, 2010 are incorporated by reference into Part III of this Form 10-K.

PART I

ITEM 1. BUSINESS

Company overview

R.R. Donnelley & Sons Company (RR Donnelley, the Company, we, us, and our) is a global provider of integrated communications. Founded more than 145 years ago, the Company works collaboratively with more than 60,000 customers worldwide to develop custom communications solutions that reduce costs, enhance return on investment and ensure compliance. Drawing on a range of proprietary and commercially available digital and conventional technologies deployed across four continents, the Company employs a suite of leading Internet-based capabilities and other resources to provide premedia, printing, logistics and business process outsourcing products and services to leading clients in virtually every private and public sector.

Business acquisitions

On June 18, 2009, the Company acquired Prospectus Central, LLC (Prospectus), an e-delivery company located in Fitzgerald, Georgia. Prospectus' s operations are included in the U.S. Print and Related Services segment.

On January 2, 2009, the Company acquired the assets of PROSA, a web printing company located in Santiago, Chile. PROSA' s operations, which produce magazines, catalogs, retail inserts and soft-cover textbooks, are included in the International segment.

On March 14, 2008, the Company acquired Pro Line Printing, Inc. (Pro Line), a multi-facility, privately held producer of newspaper inserts headquartered in Irving, Texas. Pro Line' s operations are included in the U.S. Print and Related Services segment.

On December 27, 2007, the Company acquired Cardinal Brands, Inc. (Cardinal Brands), a designer, developer and manufacturer of document-related business, consumer and hobby products. Cardinal Brands has manufacturing operations in the United States and Mexico. Cardinal Brands' operations are included in the U.S. Print and Related Services segment.

On May 16, 2007, the Company acquired Von Hoffmann, a leading U.S. based printer of books and other products that serves primarily the education, trade and business-to-business catalog sectors, from Visant Corporation. Von Hoffmann' s operations are included in the U.S. Print and Related Services segment.

On January 24, 2007, the Company acquired Perry Judd' s Holdings Incorporated (Perry Judd' s), a printer of magazines and catalogs with long- and short-run capabilities for producing consumer and business-to-business catalogs as well as consumer, trade and association magazines. Perry Judd' s operations are included in the U.S. Print and Related Services segment.

On January 9, 2007, the Company acquired Banta Corporation (Banta), a provider of comprehensive printing and digital imaging solutions to leading publishers and direct marketers, including digital content management and e-business services. Additionally, Banta provided a wide range of procurement management and other outsourcing capabilities to the world' s largest technology companies. Banta' s operations are included in the U.S. Print and Related Services segment with the exception of its Global Turnkey Solutions operations, which are included in the International segment.

Table of Contents

Segment descriptions

The Company operates primarily in the commercial print portion of the printing industry, with related product and service offerings designed to offer customers complete solutions for communicating their messages to target audiences. The Company's segments and their products and service offerings are summarized below:

U.S. Print and Related Services

The U.S. Print and Related Services segment includes the Company's U.S. printing operations, managed as one integrated platform, along with related logistics, premedia and print management services. This segment's products and related service offerings include magazines, catalogs, retail inserts, books, directories, financial print, direct mail, forms, labels, office products, statement printing, premedia and logistics services.

The U.S. Print and Related Services segment accounted for approximately 75% of the Company's consolidated net sales in 2009.

International

The International segment includes the Company's non-U.S. printing operations in Asia, Europe, Latin America and Canada. Additionally, this segment includes the Company's business process outsourcing and Global Turnkey Solutions operations. Business process outsourcing provides transactional print and outsourcing services, statement printing, direct mail and print management services through its operations in Europe, Asia and North America. Global Turnkey Solutions provides outsourcing capabilities including product configuration, customized kitting and order fulfillment for technology, medical device and other companies around the world through its operations in Europe, North America and Asia.

The International segment accounted for approximately 25% of the Company's consolidated net sales in 2009.

Corporate

Corporate consists of unallocated general and administrative activities and associated expenses including, in part, executive, legal, finance, information technology, human resources, certain facility costs and LIFO inventory provisions. In addition, certain costs and earnings of employee benefit plans, primarily components of net pension and postretirement benefits expense other than service cost, are included in Corporate and not allocated to operating segments.

Financial and other information related to these segments is included in Item 7, *Management's Discussion and Analysis of Financial Condition and Results of Operations*, and in Note 19, *Segment Information*, to the Consolidated Financial Statements. Additional information related to the Company's International operations is included in Note 20, *Geographic Area and Product Information*, to the Consolidated Financial Statements.

Competition and strategy

The print and related services industry, in general, continues to have excess capacity and remains highly competitive. Despite some consolidation in recent years, the printing industry remains highly fragmented. Across the Company's range of products and services, competition is based primarily on price, in addition to quality and the ability to service the special needs of customers. Industry sales declined significantly during 2009 and could continue to decline in 2010, with modest growth projected as the economy recovers. The additional excess capacity created by these declining volumes has resulted in intensified price competition in some product lines. Management expects that prices for the Company's products and services will continue to be a focal point for customers in coming years. In the current economic environment, the Company believes it needs to continue to lower its cost structure and differentiate its products and service offerings.

Table of Contents

Technological changes, including the electronic distribution of documents and data, online distribution and hosting of media content, advances in digital printing, print-on-demand and Internet technologies, continue to impact the market for the Company's products and services. The Company seeks to leverage the distinctive capabilities of its products and services to improve its customers' communications, whether in paper form or through electronic communications. The Company's goal remains to help its customers succeed by delivering effective and targeted communications in the right format to the right audiences at the right time. Management believes that with the Company's competitive strengths, including its broad range of complementary print-related services, strong logistics capabilities, technology leadership, depth of management experience, customer relationships and economies of scale, the Company has developed and can further develop valuable, differentiated solutions for its customers. The Company seeks to leverage its unified platform and strong customer relationships in order to serve a larger share of its customers' print and related services needs. The Company also believes that its strong financial condition is important to customers focused on establishing or growing long-term relationships with a stable provider of print and related services. Especially in the current uncertain economic environment, the Company's financial strength is seen as a competitive advantage. The Company has made targeted acquisitions that offer customers greater capacity and flexibility and further secure the Company's position as a leader in the industry.

The Company has implemented a number of strategic initiatives to reduce its overall cost structure and improve efficiency, including the restructuring, reorganization and integration of operations and streamlining of administrative and support activities. Future cost reduction initiatives could include the reorganization of operations and the consolidation of facilities. Implementing such initiatives might result in future restructuring or impairment charges, which may be substantial. Management also reviews the Company's operations and management structure on a regular basis to balance appropriate risks and opportunities to maximize efficiencies and to support the Company's long-term strategic goals.

Seasonality

Advertising and consumer spending trends affect demand in several of the end-markets served by the Company. Historically, demand for printing of magazines, catalogs, retail inserts and books is higher in the second half of the year driven by increased advertising pages within magazines, and holiday catalog, retail insert and book volumes. This typical seasonal pattern can be impacted by overall trends in the US and world economy. For example, the Company experienced lower net sales in the second half of 2008 than in the first half due to the significant volume declines driven by the credit crisis and related slowdown in the global economy, along with the impact of foreign exchange rates. Compared to 2008, the seasonal pattern in 2009 was more in line with historical trends.

Raw materials

The primary raw materials the Company uses in its print businesses are paper and ink. The Company negotiates with leading suppliers to maximize its purchasing efficiencies, uses a wide variety of paper grades, formats, ink formulations and colors and does not rely on any one supplier. In addition, a substantial amount of paper used by the Company is supplied directly by customers. Variations in the cost and supply of certain paper grades used in the manufacturing process may affect the Company's consolidated financial results. Prices for paper grades used by the Company generally declined in the first half of 2009 as overall market demand weakened with the economy but stabilized in the second half of the year. Recent strengthening of economic conditions, combined with paper industry capacity reductions, may cause prices to increase in 2010. Generally, customers directly absorb the impact of changing prices on customer-supplied paper. With respect to paper purchased by the Company, the Company has historically passed substantially all increases and decreases through to its customers. Contractual arrangements and industry practice should support the Company's continued ability to pass on any future paper price increases to a large extent, but there is no assurance that market conditions will continue to enable the Company to successfully do so. In addition, management believes that paper supply is consolidating, and there may be shortfalls in the future in supplies necessary to meet the

Table of Contents

demands of the entire marketplace. Higher paper prices and tight paper supplies may also have an impact on customers' demand for printed products.

The Company continues to monitor changes in the price of crude oil and other energy costs, which impacts the Company's ink suppliers, logistics operations and manufacturing costs. Crude oil prices continued to be volatile in 2009; however, fuel costs in 2009 were generally lower compared to 2008. The Company believes its logistics operations will continue to be able to pass a substantial portion of any increases in fuel prices directly to its customers in order to offset the impact of related cost increases. The Company generally cannot pass on to customers the impact of higher energy prices on its manufacturing costs. The Company cannot predict sudden changes in energy prices and the impact that possible future energy price increases or decreases might have upon either future operating costs or customer demand and the related impact either will have on the Company's consolidated annual results of operations, financial position or cash flows.

Distribution

The Company's products are distributed to end-users through the U.S. or foreign postal services, through retail channels, electronically or by direct shipment to customer facilities. Through its logistics operations, the Company manages the distribution of most customer products printed by the Company in the U.S. and Canada to maximize efficiency and reduce costs for customers.

Postal costs are a significant component of many customers' cost structures and postal rate changes can influence the number of pieces that the Company's customers are willing to print and mail. On May 11, 2009, new postage rates went into effect for all mail classes in the United States. The new rates increased the cost of mailing by approximately 3.9%, which is the cap under the Postal Accountability and Enhancement Act (the Act). Under the Act, it is anticipated that postage will increase annually by an amount equal to or slightly less than the Consumer Price Index. On October 15, 2009, the United States Postal Service announced that it does not intend to seek a rate increase for 2010. As a leading provider of print logistics and the largest mailer of standard mail in the U.S., the Company works closely with the U.S. Postal Service and its customers on programs to minimize costs and ensure the viability of postal distribution. While the Company does not directly absorb the impact of higher postal rates on its customers' mailings, demand for products distributed through the U.S. or foreign postal services is expected to be impacted by changes in postal rates. In addition, the Company offers innovative products and services to minimize customers' postal costs and has invested in equipment and technology to meet customer demand for these services.

Customers

For each of the years ended December 31, 2009, 2008 and 2007, no customer accounted for 10% or more of the Company's consolidated net sales.

Research and Development

The Company has a research facility in Grand Island, New York that supports the development and implementation of new technologies to meet customer needs and improve operating efficiencies. The Company's cost for research and development activities is not material to the Company's consolidated annual results of operations, financial position or cash flows.

Environmental Compliance

It is the Company's policy to conduct its global operations in accordance with all applicable laws, regulations and other requirements. While it is not possible to quantify with certainty the potential impact of actions regarding environmental matters, particularly remediation and other compliance efforts that the Company may undertake in the future, in the opinion of management, compliance with the present environmental protection laws, before taking into account estimated recoveries from third parties, will not have a material adverse effect on the Company's consolidated annual results of operations, financial position or cash flows.

Table of Contents

Employees

As of December 31, 2009, the Company had approximately 56,800 employees.

Available Information

The Company maintains an Internet website at www.rrdonnelley.com where our Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and all amendments to those reports are available without charge, as soon as reasonably practicable following the time they are filed with, or furnished to, the Securities and Exchange Commission ("SEC"). The Principles of Corporate Governance of the Company's Board of Directors, the charters of the Audit, Human Resources and Corporate Responsibility & Governance Committees of the Board of Directors and the Company's Principles of Ethical Business Conduct are also available on the Investor Relations portion of www.rrdonnelley.com, and will be provided, free of charge, to any shareholder who requests a copy. References to the Company's website address do not constitute incorporation by reference of the information contained on the website, and the information contained on the website is not part of this document.

Special Note Regarding Forward-Looking Statements

We have made forward-looking statements in this Annual Report on Form 10-K that are subject to risks and uncertainties. These statements are based on the beliefs and assumptions of the Company. Generally, forward-looking statements include information concerning possible or assumed future actions, events, or results of operations of the Company.

These statements may include, or be preceded or followed by, the words may, will, should, might, could, would, potential, possible, expect, anticipate, intend, plan, estimate, hope or similar expressions. The Company claims the protection of the Safe Harbor for Forward-Looking Statements contained in the Private Securities Litigation Reform Act of 1995 for all forward-looking statements.

Forward-looking statements are not guarantees of performance. The following important factors, in addition to those discussed elsewhere in this Annual Report on Form 10-K, could affect the future results of the Company and could cause those results or other outcomes to differ materially from those expressed or implied in our forward-looking statements:

the volatility and disruption of the capital and credit markets, and adverse changes in the global economy;

successful execution and integration of acquisitions;

successful negotiation of future acquisitions; and the ability of the Company to integrate operations successfully and achieve enhanced earnings or effect cost savings;

the ability to implement comprehensive plans for the integration of sales forces, cost containment, asset rationalization, systems integration and other key strategies;

the ability to divest non-core businesses;

future growth rates in the Company's core businesses;

competitive pressures in all markets in which the Company operates;

Edgar Filing: RR Donnelley & Sons Co - Form 10-K

the Company's ability to access unsecured debt in the capital markets and the participants' ability to perform to our contractual lending and insurance agreements;

factors that affect customer demand, including changes in postal rates and postal regulations, changes in the capital markets, changes in advertising markets, the rate of migration from paper-based formats to digital formats, customers' budgetary constraints and changes in customers' short-range and long-range plans;

the ability to gain customer acceptance of the Company's new products and technologies;

Table of Contents

the ability to secure and defend intellectual property rights and, when appropriate, license required technology;

customer expectations and financial strength;

performance issues with key suppliers;

changes in the availability or costs of key materials (such as ink, paper and fuel) or in prices received for the sale of by-products;

changes in ratings of the Company's debt securities, as a result of financial community and rating agency perceptions of the Company's business, operations and financial condition and the industry in which the Company operates;

the ability to generate cash flow or obtain financing to fund growth;

the effect of inflation, changes in currency exchange rates and changes in interest rates;

the effect of changes in laws and regulations, including changes in accounting standards, trade, tax, environmental compliance (including the emission of greenhouse gases and other air pollution controls), health and welfare benefits, price controls and other regulatory matters and the cost, which could be substantial, of complying with these laws and regulations;

contingencies related to actual or alleged environmental contamination;

the retention of existing, and continued attraction of additional, customers and key employees;

the effect of a material breach of security of any of the Company's systems;

the effect of labor disruptions or labor shortages;

the effect of economic and political conditions on a regional, national or international basis;

the effect of economic weakness and constrained advertising;

uncertainty about future economic conditions;

the possibility of future terrorist activities or the possibility of a future escalation of hostilities in the Middle East or elsewhere;

Edgar Filing: RR Donnelley & Sons Co - Form 10-K

the possibility of a regional or global health pandemic outbreak;

adverse outcomes of pending and threatened litigation; and

other risks and uncertainties detailed from time to time in the Company's filings with the SEC.

Because forward-looking statements are subject to assumptions and uncertainties, actual results may differ materially from those expressed or implied by such forward-looking statements. Undue reliance should not be placed on such statements, which speak only as of the date of this document or the date of any document that may be incorporated by reference into this document.

Consequently, readers of this Annual Report on Form 10-K should consider these forward-looking statements only as our current plans, estimates and beliefs. We do not undertake and specifically decline any obligation to publicly release the results of any revisions to these forward-looking statements that may be made to reflect future events or circumstances after the date of such statements or to reflect the occurrence of anticipated or unanticipated events. We undertake no obligation to update or revise any forward-looking statements in this Annual Report on Form 10-K to reflect any new events or any change in conditions or circumstances.

ITEM 1A. RISK FACTORS

The Company's consolidated results of operations, financial position and cash flows can be adversely affected by various risks. These risks include, but are not limited to, the principal factors listed below and the other matters set forth in this Annual Report on Form 10-K. You should carefully consider all of these risks.

Table of Contents

Risks Relating to the Businesses of the Company

Global market and economic conditions, as well as the effects of these conditions on our customers' businesses, have adversely affected the Company and those effects could continue.

Global economic conditions affect our customers' businesses and the markets they serve. Demand for advertising tends to correlate with changes in the level of economic activity in the markets our customers serve. Because a significant part of our business relies on our customers' advertising spending, a prolonged downturn in the global economy and an uncertain economic outlook has and could further reduce the demand for printing and related services that we provide these customers. Economic weakness and constrained advertising spending have resulted, and may result in the future, in decreased revenue, operating margin, earnings and growth rates and difficulty in managing inventory levels and collecting accounts receivable. We have experienced, and expect to experience in the future, reduced demand for our businesses due to financial turmoil affecting the banking system and financial markets, conditions in the residential real estate and mortgage markets, access to credit and other macroeconomic factors affecting consumers' and businesses' spending behavior. In addition, customer difficulties have resulted, and might result in the future, in increases in bad debt write-offs and our allowance for doubtful accounts receivable. In particular, our exposure to certain industries currently experiencing financial difficulties and certain financially troubled customers could have an adverse effect on our results of operations. We also have experienced, and expect to experience in the future, operating margin declines in certain businesses, reflecting the effect of items such as competitive pricing pressures, inventory write-downs and increases in pension and postretirement benefit expenses and funding requirements. Economic downturns may also result in restructuring actions and associated expenses and impairment of long-lived assets, including goodwill and other intangibles. Uncertainty about future economic conditions makes it difficult for us to forecast operating results and to make decisions about future investments. Delays or reductions in our customers' spending are expected to have an adverse effect on demand for our products and services, and consequently our results of operations, financial position and cash flow and those adverse effects could be material. Finally, economic downturns may affect our credit ratings, which, if downgraded, could impact our ability to borrow needed funds and cause an increase in borrowing costs.

Fluctuations in the costs of paper, ink, energy and other raw materials may adversely impact the Company.

Purchases of paper, ink, energy and other raw materials represent a large portion of the Company's costs. Increases in the costs of these inputs may increase the Company's costs, and the Company may not be able to pass these costs on to customers through higher prices. In addition, the Company may not be able to resell waste paper and other by-products or may be adversely impacted by decreases in the prices for these by-products. Increases in the cost of materials may adversely impact our customers' demand for printing and related services.

The Company may be adversely affected by a decline in the availability of raw materials.

The Company is dependent on the availability of paper, ink and other raw materials to support its operations. Unforeseen developments in these markets could result in a decrease in the supply of paper, ink or other raw materials and could cause a decline in the Company's revenues.

The financial condition of our customers may deteriorate.

Many of our customers participate in highly competitive markets, and their financial condition may deteriorate as a result. A decline in the financial condition of our customers would hinder the Company's ability to collect amounts owed by customers. In addition, such a decline would result in lower demand for the Company's products and services. A continued lack of liquidity in the capital markets or a further sustained period of unfavorable economic conditions will increase our exposure to credit risks and result in increases in bad debt write-offs and our allowance for doubtful accounts.

Table of Contents

The Company may not be able to improve its operating efficiency rapidly enough to meet market conditions.

Because the markets in which the Company competes are highly competitive, the Company must continue to improve its operating efficiency in order to maintain or improve its profitability. There is no assurance that the Company will be able to do so in the future. In addition, the need to reduce ongoing operating costs may result in significant up-front costs to reduce workforce, close or consolidate facilities, or upgrade equipment and technology.

The Company may be unable to successfully integrate the operations of acquired businesses and may not achieve the cost savings and increased revenues anticipated as a result of these acquisitions.

Achieving the anticipated benefits of acquisitions will depend in part upon the Company's ability to integrate these businesses in an efficient and effective manner. The integration of companies that have previously operated independently may result in significant challenges, and the Company may be unable to accomplish the integration smoothly or successfully. In particular, the coordination of geographically dispersed organizations with differences in corporate cultures and management philosophies may increase the difficulties of integration. The integration of acquired businesses may also require the dedication of significant management resources, which may temporarily distract management's attention from the day-to-day operations of the Company. In addition, the process of integrating operations may cause an interruption of, or loss of momentum in, the activities of one or more of the Company's businesses and the loss of key personnel from the Company or the acquired businesses. Further, employee uncertainty and lack of focus during the integration process may disrupt the businesses of the Company or the acquired businesses. The Company's strategy is, in part, predicated on our ability to realize cost savings and to increase revenues through the acquisition of businesses that add to the breadth and depth of the Company's products and services. Achieving these cost savings and revenue increases is dependent upon a number of factors, many of which are beyond our control. In particular, the Company may not be able to realize the benefits of anticipated integration of sales forces, asset rationalization, systems integration, and more comprehensive product and service offerings.

The Company may be unable to hire and retain talented employees, including management.

The Company's success depends, in part, on our general ability to attract, develop, motivate and retain highly skilled employees. The loss of a significant number of the Company's employees or the inability to attract, hire, develop, train and retain additional skilled personnel could have a serious negative effect on the Company. Various locations may encounter competition with other manufacturers for skilled labor. Many of these competitors may be able to offer significantly greater compensation and benefits or more attractive lifestyle choices than the Company offers. In addition, many members of the Company's management have significant industry experience that is valuable to the Company's competitors. The Company enters into non-solicitation and, as appropriate, non-competition agreements with its executive officers, prohibiting them contractually from soliciting the Company's customers and employees and from leaving and joining a competitor within a specified period. If one or more members of our senior management team leave and we cannot replace them with a suitable candidate quickly, we could experience difficulty in managing our business properly, which could harm our business prospects and consolidated results of operations.

The trend in increasing costs to provide health care and other benefits to the Company's employees and retirees may continue.

The Company provides health care and other benefits to both employees and retirees. In recent years, costs for health care have increased more rapidly than general inflation in the U.S. economy. If this trend in health care costs continues, the Company's cost to provide such benefits could increase, adversely impacting the Company's profitability. Changes to health care regulations in the U.S. may also increase the Company's cost of providing such benefits. In addition, the funded status of the Company's pension plans is dependent upon many factors, including returns on invested assets and the level of certain market interest rates. Declines in the market value of the securities held by plans have reduced and could again in the future materially reduce the funded status of the

Table of Contents

plans. These reductions have increased the level of expected pension expense and required contributions in future years and further increases in these costs could occur. Current market conditions may lead to changes in the discount rate used to value the year-end benefit obligations of the plans, which could partially mitigate or worsen the effects of the lower asset returns. If the current economic crisis continues for an extended period of time, our costs and required cash contributions associated with pension plans may substantially increase in future periods.

There are risks associated with operations outside the United States.

The Company has significant operations outside the United States. Revenues from the Company's operations outside the United States accounted for approximately 25% of the Company's consolidated net sales for the year ended December 31, 2009. As a result, the Company is subject to the risks inherent in conducting business outside the United States, including the impact of economic and political instability of those countries in which we operate. The volatile economic environment has increased the risk of disruption and losses resulting from hyper-inflation, currency devaluation and tax or regulatory changes in certain countries in which the Company has operations. In early 2010, the Company incurred a loss upon the devaluation of currency in Venezuela, and similar losses there or in other countries could occur again in the future.

The Company is exposed to significant risks related to potential adverse changes in currency exchange rates.

The Company is exposed to market risks resulting from changes in the currency exchange rates of the currencies in the countries in which it does business. Although operating in local currencies may limit the impact of currency rate fluctuations on the operating results of our non-U.S. subsidiaries, fluctuations in such rates may affect the translation of these results into the Company's consolidated financial statements. To the extent revenues and expenses are not in the applicable local currency, the Company may enter into foreign currency forward contracts to hedge the currency risk. We cannot be sure, however, that the Company's efforts at hedging will be successful. There is always a possibility that attempts to hedge currency risks will lead to even greater losses than predicted.

A decline in expected profitability of the Company or individual reporting units of the Company could result in the impairment of assets, including goodwill, other long-lived assets and deferred tax assets.

The Company holds material amounts of goodwill, other long-lived assets and deferred tax assets on its balance sheet. A decline in expected profitability, particularly if there is a continued decline in the global economy, could call into question the recoverability of our related goodwill, other long-lived assets or deferred tax assets and require us to write down or write off these assets or, in the case of deferred tax assets, recognize a valuation allowance through a charge to income. Such an occurrence could have a material adverse effect on our consolidated results of operations and financial position.

Risks Related to Our Industry

The highly competitive market for the Company's products and industry consolidation may continue to create adverse pricing pressures.

The markets for the majority of the Company's product categories are highly fragmented and the Company has a large number of competitors. We believe that excess capacity in the Company's markets has caused downward pricing pressure and that this trend is likely to continue. In addition, consolidation in the markets in which the Company competes may increase competitive pricing pressures due to competitors lowering prices as a result of synergies achieved.

The substitution of electronic delivery for printed materials may continue to adversely affect our businesses.

Electronic delivery of documents and data, including the online distribution and hosting of media content, offer alternatives to traditional delivery of printed documents. Consumer acceptance of electronic delivery is uncertain, as is the extent to which consumers are replacing traditional reading of print materials with online,

Table of Contents

hosted media content or other e-reading devices, and we have no ability to predict the rates of acceptance of these alternatives. To the extent that consumers, our customers and regulators accept these alternatives, many of our products, such as books, magazines, directories, statement printing and forms, may be adversely affected.

Changes in the rules and regulations to which the Company is subject may increase the Company's costs.

The Company is subject to numerous rules and regulations, including, but not limited to, product safety, environmental and health and welfare benefit regulations. These rules and regulations may be changed by local, state or federal governments in countries in which the Company operates. Changes in these regulations may result in a significant increase in the Company's costs to comply. Compliance with changes in rules and regulations could require increases to the Company's workforce, increased cost for compensation and benefits, or investments in new or upgraded equipment. In addition, growing concerns about climate change, including the impact of global warming, may result in new regulations with respect to greenhouse gas emissions (including carbon dioxide (CO₂)) and/or cap and trade legislation. Compliance with this legislation could result in additional costs to the Company.

Declines in the general economic conditions may adversely impact the Company's business.

In general, demand for our products and services is highly correlated with general economic conditions. Declines in economic conditions in the U.S. or in other countries in which the Company operates may adversely impact the Company's consolidated financial results. Because such declines in demand are difficult to predict, the Company or the industry may have increased excess capacity as a result. An increase in excess capacity may result in declines in prices for the Company's products and services. The overall business climate may also be impacted by wars or acts of terrorism. Such acts may have sudden and unpredictable adverse impacts on demand for the Company's products and services.

Changes in the rules and regulations to which our customers are subject may impact demand for the Company's products and services.

Many of the Company's customers are subject to rules and regulations requiring certain printed or electronic communications, governing the form of such communications, and protecting the privacy of consumers. Changes in these regulations may impact our customers' business practices and could reduce demand for printed products and related services. Changes in such regulations could eliminate the need for certain types of printed communications altogether or such changes may impact the quantity or format of printed communications.

Changes in postal rates and regulations may adversely impact demand for the Company's products and services.

Postal costs are a significant component of many of our customers' cost structures and postal rate changes can influence the number of pieces and types of mailings that the Company's customers mail. Any resulting decline in print volumes mailed would have an adverse effect on the Company's business.

Changes in the advertising, retail and capital markets may impact the demand for printing and related services.

Many of the end markets in which our customers compete are experiencing changes due to technological progress and changes in consumer preferences. The Company cannot predict the impact that these changes will have on demand for the Company's products and services. Such changes may decrease demand, increase pricing pressures, require investment in updated equipment and technology, or cause other adverse impacts to the Company's business. In addition, the Company must monitor changes in our customers' markets and develop new solutions to meet customers' needs. The development of such solutions may be costly, and there is no assurance that these solutions will be accepted by customers.

Table of Contents

ITEM 1B. UNRESOLVED STAFF COMMENTS

The Company has no unresolved written comments from the SEC staff regarding its periodic or current reports under the Exchange Act.

ITEM 2. PROPERTIES

The Company's corporate office is located in leased office space in Chicago, Illinois. In addition, as of December 31, 2009, the Company leases or owns 344 U.S. facilities, some of which have multiple buildings and warehouses, and these U.S. facilities encompass approximately 38.8 million square feet. The Company leases or owns 203 international facilities encompassing approximately 8.7 million square feet in Canada, Latin America, South America, Europe, and Asia. Of our U.S. and international facilities, approximately 16.8 million square feet of space is owned, while the remaining 30.7 million square feet of space is leased.

ITEM 3. LEGAL PROCEEDINGS

The Company is subject to laws and regulations relating to the protection of the environment. The Company provides for expenses associated with environmental remediation obligations when such amounts are probable and can be reasonably estimated. Such accruals are adjusted as new information develops or circumstances change and are not discounted. The Company has been designated as a potentially responsible party in twelve federal and state Superfund sites. In addition to the Superfund sites, the Company may also have the obligation to remediate five other previously owned facilities and three other currently owned facilities. At the Superfund sites, the Comprehensive Environmental Response, Compensation and Liability Act provides that the Company's liability could be joint and several, meaning that the Company could be required to pay an amount in excess of its proportionate share of the remediation costs. The Company's understanding of the financial strength of other potentially responsible parties at the Superfund sites and of other liable parties at the previously owned facilities has been considered, where appropriate, in the determination of the Company's estimated liability. The Company established reserves, recorded in accrued liabilities and other noncurrent liabilities, that it believes are adequate to cover its share of the potential costs of remediation at each of the Superfund sites and the previously and currently owned facilities. While it is not possible to quantify with certainty the potential impact of actions regarding environmental matters, particularly remediation and other compliance efforts that the Company may undertake in the future, in the opinion of management, compliance with the present environmental protection laws, before taking into account estimated recoveries from third parties, will not have a material adverse effect on the Company's consolidated annual results of operations, financial position or cash flows.

From time to time, the Company's customers and others file voluntary petitions for reorganization under United States bankruptcy laws. In such cases, certain pre-petition payments received by the Company could be considered preference items and subject to return. Management believes that the final resolution of these preference items will not have a material adverse effect on the Company's consolidated annual results of operations, financial position or cash flows.

In addition, the Company may be party to certain litigation arising in the ordinary course of business that, in the opinion of management, will not have a material adverse effect on the Company's consolidated annual results of operations, financial position or cash flows.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No matters were submitted to a vote of security holders during the three months ended December 31, 2009.

Table of Contents**EXECUTIVE OFFICERS OF R.R. DONNELLEY & SONS COMPANY**

Name, Age and Positions with the Company	Officer Since	Business Experience During Past Five Years

- (1) The Company did not repurchase any of its shares under its share repurchase program during 2009. As of December 31, 2009, the Company was authorized under the terms of its share repurchase program to repurchase 10.0 million shares. Such purchases may be made from time to time and discontinued at any time.

PEER PERFORMANCE TABLE

The graph below compares five-year returns of the Company s common stock with those of the S&P 500 Index and a selected peer group of companies. The figures assume all dividends have been reinvested, and assume an initial investment of \$100 on December 31, 2004. The returns of each company in the peer group have been weighted to reflect their market capitalizations.

Because our services and customers are so diverse, the Company does not believe that any single published industry index is appropriate for comparing stockholder return. Therefore, the peer group used in the performance graph combines two industry groups identified by Value Line Publishing, Inc., the publishing group (including printing companies) and the newspaper group. The Company itself has been excluded, and its contributions to the indices cited have been subtracted out. Changes in the peer group from year to year result from companies being added to or deleted from the Value Line publishing group or newspaper group.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion of RR Donnelley's financial condition and results of operations should be read together with our consolidated financial statements and notes to those statements included in Item 15 of Part IV of this Annual Report on Form 10-K.

Business

R.R. Donnelley & Sons Company (RR Donnelley, the Company, we, us, and our) is a global provider of integrated communications. Founded more than 145 years ago, the Company works collaboratively with more than 60,000 customers worldwide to develop custom communications solutions that reduce costs, enhance return on investment and ensure compliance. Drawing on a range of proprietary and commercially available digital and conventional technologies deployed across four continents, the Company employs a suite of leading Internet-based capabilities and other resources to provide premedia, printing, logistics and business process outsourcing products and services to leading clients in virtually every private and public sector.

The Company operates primarily in the commercial print portion of the printing industry, with related service offerings designed to offer customers complete solutions for communicating their messages to target audiences. The Company's reportable segments reflect the management reporting structure of the organization and the manner in which the chief operating decision maker regularly assesses information for decision-making purposes, including the allocation of resources. The reporting structure includes two segments: U.S. Print and Related Services and International.

The U.S. Print and Related Services segment includes the Company's U.S. printing operations, managed as one integrated platform, along with related logistics, premedia and print management services. This segment's products and related service offerings include magazines, catalogs, retail inserts, books, directories, financial printing, direct mail, forms, labels, office products, statement printing, premedia and logistics services.

The International segment includes the Company's non-U.S. printing operations in Asia, Europe, Latin America and Canada. Additionally, this segment includes the Company's business process outsourcing and Global Turnkey Solutions operations. Business process outsourcing provides transactional print and outsourcing services, statement printing, direct mail and print management services through its operations in Europe, Asia and North America. Global Turnkey Solutions provides outsourcing capabilities including product configuration, customized kitting and order fulfillment for technology, medical device and other companies around the world through its operations in Europe, North America and Asia.

Table of Contents**Executive Overview****2009 FINANCIAL PERFORMANCE**

The changes in the Company's income (loss) from continuing operations, operating margin, net loss attributable to RR Donnelley common shareholders and net loss attributable to RR Donnelley common shareholders per diluted share for the year ended December 31, 2009, from the year ended December 31, 2008, were primarily due to the following (in millions, except per share data):

	Income (Loss) from Continuing Operations	Operating Margin	Net Loss Attributable to RR Donnelley Common Shareholders	Net Loss Attributable to RR Donnelley Common Shareholders per Diluted Share
For the year ended December 31, 2008	\$ (40.5)	(0.3%)	\$ (189.9)	\$ (0.90)
2009 restructuring and impairment charges	(382.7)	(3.9%)	(334.0)	(1.63)
2008 restructuring and impairment charges	1,184.7	10.2%	1,073.9	5.11
2009 acquisition-related expenses	(1.6)	0.0%	(1.0)	
2009 losses related to debt extinguishment			(8.0)	(0.04)
2009 write-down of affordable housing investments			(1.5)	(0.01)
2008 loss on termination of cross-currency swaps			1.8	0.01
Non-recurring income taxes - net			(282.4)	(1.35)
Discontinued operations			(1.8)	(0.01)
Operations	(415.6)	(2.5%)	(284.4)	(1.31)
For the year ended December 31, 2009	\$ 344.3	3.5%	\$ (27.3)	\$ (0.13)

2009 pre-tax restructuring and impairment charges: included \$128.5 million of non-cash charges for the impairment of goodwill; charges of \$118.6 million, discounted for future cash payments, for the termination of a significant long-term customer contract in the business process outsourcing reporting unit within the International segment, of which \$117.2 million, \$0.8 million and \$0.6 million are reflected as other restructuring charges, impairment and employee terminations, respectively; \$78.8 million for other employee termination costs, substantially all of which were associated with restructuring actions resulting from the reorganization of certain operations and the exiting of certain business activities; \$32.1 million of other restructuring costs, primarily lease termination costs; and \$24.7 million for impairment of long-lived assets.

2008 pre-tax restructuring and impairment charges: included \$1,125.4 million of non-cash charges for the impairment of goodwill and intangible assets; charges of \$44.1 million for employee termination costs, substantially all of which were associated with restructuring actions resulting from the reorganization of certain operations and the exiting of certain business activities; \$10.6 million of other restructuring costs, primarily lease termination costs; and \$4.6 million for impairment of other long-lived assets.

2009 acquisition-related expenses: legal, accounting and other expenses associated with current year acquisitions completed or contemplated.

2009 losses related to debt extinguishment: included a \$10.3 million pre-tax loss on the repurchases of \$466.4 million of the 5.625% senior notes due January 15, 2012 and \$174.2 million of the 4.95% senior notes due May 15, 2010, as well as the reclassification of a pre-tax loss of \$2.7 million from accumulated other comprehensive income to investment and other expense due to the change in the hedged forecasted interest payments resulting from the repurchase of the 4.95% senior notes.

2009 write-down of affordable housing investments: Investment and other income (expense) included a \$2.4 million (\$1.5 million after tax) write-down of the Company's affordable housing investments in 2009.

Table of Contents

2008 pre-tax loss on termination of cross-currency swaps: Investment and other income (expense) included a \$9.9 million (\$1.8 million after tax) loss in 2008 resulting from the Company's termination of its cross-currency swaps.

Non-recurring income taxes: included \$15.6 million of income tax expense in 2009 due to the reorganization of entities within the International segment. In addition, reflected tax benefits of \$228.8 million realized in 2008 related to the decline in value and reorganization of certain entities within the International segment, as well as a benefit of \$38.0 million in 2008 from the recognition of uncertain tax positions upon the final settlement of certain U.S. federal tax audits for the years 2000–2002.

Operations: reflected lower net sales primarily driven by the global economic slowdown, higher incentive compensation expense and lower pricing on by-products sales, partially offset by cost savings from restructuring actions and productivity efforts, a benefit resulting from lower LIFO inventory provisions and the impact of 2008 share repurchases. See further details in the review of operating results by segment that follows below.

2009 Overview

The impact of the recession on the global economy and on our customers resulted in significant volume declines across nearly all products and services during 2009, particularly in the magazines, catalogs and retail inserts and books and directories reporting units. On a consolidated pro forma basis, net sales declined approximately 15.2% (See Note 2 to the consolidated financial statements). Included in this decline were changes in foreign exchange rates that resulted in declines of net sales of \$201.1 million, or 1.7%, during 2009. The year over year rate of decline in net sales slowed during the last four months of the year, which showed sequential improvement as compared to the first half of the year. The Company has continued to have success in renewing and extending customer contracts, some of which have been at reduced prices, while further expanding the scope of services with existing customers and winning new business.

In addition, the Company has aggressively implemented restructuring actions and other cost containment initiatives, which have helped to partially mitigate the effects of the volume shortfalls. During the third quarter of 2009, the Company signed an agreement to terminate a significant long-term customer contract in the business process outsourcing reporting unit within the International segment, which allowed the Company to withdraw from certain unprofitable operations in this area. As a result, the Company recorded net restructuring and impairment charges, discounted for future cash payments, of \$118.6 million for the year ended December 31, 2009. Payments related to these charges are expected to be made through 2011, with \$22.2 million paid in 2009 and \$57.5 million paid in January 2010. The Company expects to continue its focus on cost control and productivity improvement as it continues to face an uncertain economic environment.

As a result of targets achieved related to increased cash flow from operations, improved working capital management and productivity, as well as the improving trends in net sales, the Company will have higher full-year payouts under its employee incentive compensation plans as compared to 2008, for which no payouts were made under the Company's primary incentive compensation plans. Incentive compensation expense for all plans in 2009 totaled approximately \$113.9 million, an increase of approximately \$97.2 million as compared to 2008. Of this increase, approximately \$72.5 million, \$10.7 million and \$14.0 million was reflected in the U.S. Print and Related Services segment, International segment and Corporate, respectively.

Cash flows from continuing operations for the year ended December 31, 2009 increased \$407.0 million compared to the year ended December 31, 2008, despite the declines in net sales and earnings. This increase reflected the receipt of income tax refunds of \$164.1 million and decreases in working capital requirements driven by volume declines and a focus on improved working capital management. The Company also reduced its capital expenditures by \$127.9 million, or 39.6%, compared to the year ended December 31, 2008. The strong operating cash flow in the year ended December 31, 2009 enabled the Company to maintain its total available liquidity while also reducing long-term debt. As of December 31, 2009, cash and cash equivalents totaled

Table of Contents

\$499.2 million and approximately \$1.4 billion was available for borrowings under the Company's committed credit facilities. Total debt decreased from \$4.1 billion at December 31, 2008 to \$3.3 billion at December 31, 2009.

OUTLOOK

Vision and Strategy

RR Donnelley's vision is to improve on our existing position as a global provider of integrated communications by providing our customers with the highest quality products and services.

The Company's long-term strategy is focused on maximizing long-term shareholder value by driving profitable growth, continuing its focus on productivity and maintaining a disciplined approach to capital deployment. To increase shareholder value, the Company pursues three major strategic objectives. These objectives are summarized below, along with more specific areas of focus.

Strategic Objective	Focus Areas	2010 Priorities
Profitable growth	Optimize platform utilization	Leverage existing relationships to generate organic growth
	Leverage global customer relationships	Cost-saving solutions for customers
	Focus on core print operations	Grow digital platforms as an integral element of market offering
Productivity	Disciplined cost management	Leverage scale to optimize asset utilization and procurement
	Productivity-focused investment plans	Further streamline sales and operations
	Streamline and standardize processes	Leverage global capabilities
		Use technology to increase productivity
Disciplined capital deployment	Maintain strong financial position	Maintain dividend
	Targeted mergers and acquisitions	Improve liquidity and reduce debt
		Meet changing customer demands
		Disciplined due diligence and financial analysis

Despite the current recessionary environment, the Company's long-term strategy is to generate profitable growth. In order to accomplish this, the Company will continue to make targeted capital investments to support new business and leverage its global platform. The Company is focusing its information technology efforts on projects that facilitate integration and make it easier for customers to manage their full range of communication needs. The Company is also working to more fully integrate its sales efforts to broaden customer relationships and meet our customers' demands. The Company's global platform provides differentiated solutions for its customers through its broad range of complementary print-related services, strong logistics capabilities, and its innovative leadership in both conventional and digital technologies.

Management believes productivity improvement and cost reduction are critical to the Company's competitiveness, while enhancing the value the Company delivers to its customers. The Company has implemented strategic initiatives across all platforms to reduce its overall cost structure and enhance productivity, including restructuring, consolidation, reorganization and integration of operations, and streamlining of administrative and support activities.

The Company seeks to deploy its capital using a disciplined and balanced approach in order to ensure financial flexibility and provide returns to shareholders. Priorities for capital deployment, over time, include principal and interest payments on debt obligations, dividend payments to shareholders, capital expenditures, targeted acquisitions and share repurchases. In order to manage through credit market disruptions in the current economic environment, maintaining liquidity and reducing debt is a high priority. The Company believes that its

Table of Contents

strong financial condition is important to customers focused on establishing or growing long-term relationships with a stable provider of print and related services. Especially in the current economic environment, the Company's financial strength is seen as a competitive advantage. The Company also expects the current economic environment to create opportunities for targeted acquisitions that extend its capabilities, drive cost savings and reduce future capital spending needs.

The Company uses several key indicators to gauge progress toward achieving these objectives. These indicators include net sales growth, operating margins, cash flow from operations and capital expenditures. The Company targets long-term net sales growth at or above industry levels, while achieving modest growth in operating margins. Combined with working capital management, this growth is expected to drive increasing cash flow from operations over time. Cash flow from operations can, however, be significantly impacted by the timing of non-recurring or infrequent receipts and expenditures.

Industry Environment

The Company faces many challenges and risks as a result of competing in highly competitive global markets. Item 1A, *Risk Factors*, discusses many of these issues, but the Company's strategy is primarily focused on meeting the challenges of industry-wide price competition and the advancement of technology.

Overcapacity and pricing environment

The print and related services industry, in general, continues to have excess capacity and remains highly competitive. Despite some consolidation in recent years, the printing industry remains highly fragmented. Across the Company's range of products and services, competition is based primarily on price, in addition to quality and the ability to service the special needs of customers. The additional excess capacity created by the recent declines in industry volume has resulted in intensified price competition in some product lines. Management expects that prices for the Company's products and services will continue to be a focal point for customers in coming years. As a result of these ongoing industry dynamics, the Company believes it needs to continuously lower its cost structure and further differentiate its products and service offerings.

Technology

Technological changes, including the electronic distribution of documents and data, online distribution and hosting of media content, advances in digital printing, print-on-demand and Internet technologies, continue to impact the market for the Company's products and services. The Company seeks to leverage distinctive capabilities of its products and services to improve its customers' communications, whether in paper form or through electronic communications. The Company's goal remains to help its customers succeed by delivering effective and targeted communications in the right format to the right audiences at the right time. Management believes that with the Company's competitive strengths, including its broad range of complementary print-related services, strong logistics capabilities, technology leadership, depth of management experience, customer relationships and economies of scale, the Company has developed and can further develop valuable, differentiated solutions for its customers.

As a substitute for print, the impact of digital technologies has been felt mainly in directories, forms and statement printing, as electronic communication and transaction technology has eliminated or devalued the role of many traditional paper forms. Electronic substitution has continued to accelerate in directory printing in part driven by environmental concerns and cost pressures at key customers. Despite rapid growth in the adoption of e-books, the Company does not believe there has been a significant impact on the volume of print, and management does not expect any significant reductions in the short-term. However, management does expect to see lower long-term growth in print book volume as e-book penetration continues to expand. The future impact of technology on the Company's business is difficult to predict and could result in additional expenditures to restructure impacted operations or develop new technologies.

Table of Contents

While new technologies present significant challenges to certain of the Company's traditional products, management believes that the Company is a leader in key technologies that, as customers continue to shift towards customized and higher-valued-added print, will be valuable sources of industry growth. These technologies include digital content management and premedia services, digital print for personalization and print-on-demand, and low-cost document process management. In addition, the ability to offer compliance assurance and secure environments for print is increasingly important to customers. The Company continues to make focused investments in digital technologies in order to capitalize on these opportunities.

2010 Outlook

In 2010, the Company expects net sales to increase from 2009, although the uncertain economic outlook makes the magnitude of this increase very difficult to predict. The Company's plans assume the lingering effects of the economic crisis will continue to impact 2010, resulting in a slow and uneven recovery. The Company expects a small improvement in consumer spending and the start of a gradual return to historical advertising levels by our customers. In addition, the highly competitive market conditions and increased unused industry capacity will continue to put pressure on prices for both transactional work and contract renewals. We anticipate further consolidation of printers during 2010, which may result in some reductions in industry overcapacity. We will continue to leverage the One RR Donnelley platform and powerful customer relationships in order to provide a larger share of our customers' print and related needs. Given the continuing difficult market conditions, the Company expects to continue cost control initiatives through productivity initiatives and selected facility consolidations across certain platforms, and by reducing selling, general and administrative expenses, including the continued suspension of the Company's matching contribution under its 401(k) plan. Significant increases in pension and postretirement benefits expense and LIFO inventory provisions, however, will have a negative impact on operating earnings.

U.S. Print and Related Services

Net sales in U.S. Print and Related Services are expected to increase slightly in 2010 driven primarily by the economic recovery. Other than magazine, catalog and retail, all units are expected to increase in net sales. Magazine, catalog and retail volumes are expected to increase modestly as the economy recovers; however, these gains are likely to be more than offset by lower prices on contract renewals and new business. Increased consumer spending and government education funding are expected to increase book sales and directory volume will be enhanced by the commencement of new work under a large customer contract. For variable print, production of mailings for the US Census is projected to increase sales in 2010. In forms and labels and office products, the Company is expecting to offset the impacts of ongoing electronic substitution and continuing price declines with volume increases from new and existing customers. Commercial print sales are expected to benefit from even a modest economic recovery, with volume increases also driven by the Company's focus on integrated print management services. Net sales of logistics services are expected to increase, driven by continuing growth in mail center and commingling services, along with a rebound in freight volumes. Sales of financial print services are expected to increase, as capital markets activity rebounds from depressed levels in 2009.

The overall net sales increase in U.S. Print and Related services, combined with an improved cost structure resulting from restructuring activities undertaken in 2009 and ongoing productivity efforts, is expected to result in increased operating income.

International

Net sales in the International segment are expected to increase from 2009 primarily driven by the global economic recovery and increased business in Asia and Global Turnkey Solutions. Net sales in business process outsourcing are expected to increase slightly as increased business activity and an expanded relationship with a long-time large customer offset the sales loss due to the termination in 2009 of another major customer contract. The Company expects to broaden its product offering in Asia to drive sales growth, with continued increases in

Table of Contents

volume due to the increased export activity as economies in Europe and the U.S. improve. The Company generally expects volumes in Latin America to increase due to the rebound in the economy. Net sales in Europe are expected to increase due to the rebound in the economy, partially offset by declines due to the pricing pressure on technology manuals and directories. A major new customer is expected to drive an increase in sales in Global Turnkey Solutions. Improvement in commercial print and forms demand is expected to increase sales in Canada.

The International segment is expected to generate an increase in operating income in 2010 based on the expected net sales increase, the lower cost structure of operations in all platforms, the termination of the unprofitable business process outsourcing customer contract in 2009 and productivity initiatives.

Other

Pension and postretirement benefits expenses are expected to increase by approximately \$43.8 million in 2010, reflecting the impact of increases in these liabilities due to lower discount rates and further recognition in operating earnings of 2008 asset losses that were initially recorded in other comprehensive income. Although the market value of securities in these plans rebounded in 2009, the Company's pension plans remain underfunded by \$513.7 million as of December 31, 2009 as reported in the Company's Consolidated Balance Sheets and further described in Note 11, *Retirement Plans*, to the Consolidated Financial Statements. Governmental regulations for measuring pension plan funded status differ from those required under U.S. GAAP for financial statement preparation. Based on the plans' regulatory funded status as of January 1, 2009 and future years, required contributions in 2010 under all pension plans are expected to be similar to recent years at approximately \$21.8 million. The Company expects that required contributions in future years will increase, and may elect to make additional non-required contributions to its plans in 2010.

The Company's cost of sales in 2009 was reduced by \$17.6 million for reductions in LIFO inventory reserves compared to expense of \$30.6 million from increases in LIFO inventory reserves in 2008. These reductions in LIFO inventory reserves resulted from deflation in certain product and commodity prices during 2009 and reductions in the Company's inventory levels driven by volume declines and working capital management initiatives. For 2010, the Company expects LIFO inventory provisions to be more consistent with historical levels, as the Company's volume and related inventory increases and the economic recovery drives higher inflation.

As a result of a non-recurring tax refund received in 2009 and the significant benefit of working capital reductions driven by volume declines and working capital management, the Company expects to generate lower cash flow from operating activities in 2010 compared to 2009. However, the Company expects to have sufficient cash flows from operations to maintain capital expenditures at a level consistent with 2009, further reduce debt levels through repayment of its \$326 million maturity in May 2010 and maintain its quarterly dividend at current levels. Significant changes in market conditions or the consummation of one or more significant acquisitions could result in increased borrowings, reductions in capital expenditures or the dividend, or other changes to the Company's capital structure.

The effective tax rate in 2010 is expected to be more reflective of the applicable statutory rates in contrast with the 2009 rate that was impacted by the non-deductible, non-cash \$128.5 million goodwill impairment charge and the less than fully-deductible charges, discounted for future cash payments, of \$118.6 million for the termination of a significant long-term customer contract in the business process outsourcing reporting unit within the International segment.

Significant Accounting Policies and Critical Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial

Table of Contents

statements and the reported amounts of revenues and expenses during the reporting period. The Company's most critical accounting policies are those that are most important to the portrayal of its financial condition and results of operations, and which require the Company to make its most difficult and subjective judgments, often as a result of the need to make estimates of matters that are inherently uncertain. The Company has identified the following as its most critical accounting policies and judgments. Although management believes that its estimates and assumptions are reasonable, they are based upon information available when they are made. Actual results may differ from these estimates under different assumptions or conditions.

Revenue Recognition

The Company recognizes revenue for the majority of its products upon the transfer of title and risk of loss, which is generally upon shipment to the customer. Contracts and customer agreements generally specify F.O.B. shipping point terms. Under agreements with certain customers, custom products may be stored by the Company for future delivery. In these situations, the Company may receive a logistics or warehouse management fee for the services it provides. In certain of these cases, delivery and billing schedules are outlined in the customer agreement and product revenue is recognized when manufacturing is complete, title and risk of loss transfer to the customer, and there is a reasonable assurance as to collectability. Because the majority of products are customized, product returns are not significant; however, the Company accrues for the estimated amount of customer credits at the time of sale.

Revenue from services is recognized as services are performed. Within the Company's financial print operations, which serve the global financial services end market, the Company produces highly customized materials such as regulatory S-filings, initial public offerings and EDGAR-related services. Revenue is recognized for these services following final delivery of the printed product or upon completion of the service performed. Revenues related to the Company's premedia operations, which include digital content management, photography, color services and page production, are recognized in accordance with the terms of the contract, typically upon completion of the performed service and acceptance by the customer. With respect to the Company's logistics operations, whose operations include the delivery of printed material, the Company recognizes revenue upon completion of the delivery of services.

Certain revenues earned by the Company require judgment to determine if revenue should be recorded gross as a principal or net of related costs as an agent. Billings for third-party shipping and handling costs, primarily in the Company's logistics operations, and out-of-pocket expenses are recorded gross. In the Company's Global Turnkey Solutions operations, each contract is evaluated using various criteria to determine if revenue for components and other materials should be recognized on a gross or net basis. In general, these revenues are recognized on a gross basis if the Company has control over selecting vendors and pricing, is the primary obligor in the arrangement, bears all credit risk and bears the risk of loss for inventory in its possession. Revenue from contracts that do not meet these criteria is recognized on a net basis. Many of the Company's operations process materials, primarily paper, that may be supplied directly by customers or may be purchased by the Company and sold to customers. No revenue is recognized for customer-supplied paper, but revenues for Company-supplied paper are recognized on a gross basis. As a result, the Company's reported sales and margins may be impacted by the mix of customer-supplied paper and Company-supplied paper.

The Company records deferred revenue in situations where amounts are invoiced but the revenue recognition criteria outlined above are not met. Such revenue is recognized when all criteria are subsequently met.

Accounts Receivable

The Company maintains an allowance for doubtful accounts, which is reviewed for estimated losses resulting from the inability of its customers to make required payments for products and services. Specific customer provisions are made when a review of significant outstanding amounts, utilizing information about

Table of Contents

customer creditworthiness and current economic trends, indicates that collection is doubtful. In addition, provisions are made at differing rates, based upon the age of the receivable and the Company's historical collection experience. The Company's estimates of the recoverability of accounts receivable could change, and additional changes to the allowance could be necessary in the future if a major customer's creditworthiness deteriorates, or if actual defaults are higher than the Company's historical experience.

Inventories

The Company records inventories at the lower of cost or market value. Most of the Company's inventories are valued under the last-in first-out (LIFO) basis. Changes in inflation indices may cause an increase or decrease in the value of inventories accounted for under the LIFO costing method. The Company maintains inventory allowances for excess and obsolete inventories determined in part by future demand forecasts. If there were to be a sudden and significant decrease in demand for its products, or if there were a higher incidence of inventory obsolescence because of changing technology and customer requirements, the Company could be required to increase its inventory allowances.

Goodwill and Other Long-Lived Assets

The Company's methodology for allocating the purchase price of acquisitions is based on established valuation techniques that reflect the consideration of a number of factors including valuations performed by third-party appraisers when appropriate. Goodwill is measured as the excess of the cost of an acquired entity over the fair value assigned to identifiable assets acquired and liabilities assumed. Based on its organization structure, the Company has identified fifteen reporting units for which cash flows are determinable and to which goodwill is allocated. Goodwill is either assigned to a specific reporting unit or allocated between reporting units based on the relative excess fair value of each reporting unit. When the Company's organization structure changes, new or revised reporting units may be identified, and goodwill is reallocated, if necessary, based on relative excess fair value.

The Company performs its annual goodwill impairment tests as of October 31, or more frequently if an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying value. A two-step method is used for determining goodwill impairment. In the first step, the Company compares the estimated fair value of each reporting unit to its carrying amount, including goodwill. If the carrying amount of a reporting unit exceeds the estimated fair value, step two is completed to determine the amount of the impairment loss. Step two requires the allocation of the estimated fair value of the reporting unit to the assets, including any unrecognized intangible assets, and liabilities in a hypothetical purchase price allocation. Any remaining unallocated fair value represents the implied fair value of goodwill, which is compared to the corresponding carrying value of goodwill to compute the goodwill impairment amount. In 2009, the Company recorded a total non-cash charge of approximately \$128.5 million to reflect impairment of goodwill in the following reporting units; \$93.8 million for forms and labels and \$34.7 million for Canada.

As part of its annual impairment analysis for each reporting unit, the Company engaged a third-party appraisal firm to assist the Company in its determination of the estimated fair value of each unit. This determination included estimating the fair value using both the income and market approaches. The income approach requires management to estimate a number of factors for each reporting unit, including projected future operating results, economic projections, anticipated future cash flows, discount rates, and the allocation of shared or corporate items. The market approach estimates fair value using comparable marketplace fair value data from within a comparable industry grouping. In most cases, the Company weighted both the income and market approach equally to estimate the concluded fair value of each reporting unit.

The determination of the fair value of the reporting units and the allocation of that value to individual assets and liabilities within those reporting units requires the Company to make significant estimates and assumptions. These estimates and assumptions primarily include, but are not limited to: the selection of appropriate peer group companies; control premiums appropriate for acquisitions in the industries in which the Company competes; the

Table of Contents

discount rate; terminal growth rates; and forecasts of revenue, operating income, depreciation and amortization, restructuring charges and capital expenditures. The allocation requires several analyses to determine fair value of assets and liabilities including, among others, trade names, customer relationships, and property, plant and equipment (valued at replacement costs). Although we believe our estimates of fair value are reasonable, actual financial results could differ from those estimates due to the inherent uncertainty involved in making such estimates. Changes in assumptions concerning future financial results or other underlying assumptions could have a significant impact on either the fair value of the reporting units, the amount of the goodwill impairment charge, or both. Future declines in the overall market value of the Company's equity and debt securities may also result in a conclusion that the fair value of one or more reporting units has declined below its carrying value.

One measure of the sensitivity of the amount of goodwill impairment charges to key assumptions is the amount by which each reporting unit passed (fair value exceeds the carrying amount) or failed (the carrying amount exceeds fair value) the first step of the goodwill impairment test. For the thirteen units that passed step one, fair value exceeded the carrying amount by between 6% to 196% of their respective estimated fair values. The fair values for the magazines, catalogs and retail inserts, commercial and Europe reporting units each exceeded their carrying amounts by less than 10%. Goodwill allocated to the magazines, catalogs and retail inserts, commercial and Europe reporting units was \$381.1 million, \$178.6 million and \$50.0 million, respectively, at October 31, 2009. For each of these reporting units, relatively small changes in the Company's key assumptions may have resulted in the recognition of significant goodwill impairment charges. For the forms and labels and Canada reporting units that failed, the carrying amount exceeded fair value by 6% and 38%, respectively, of their respective estimated fair values. For the forms and labels reporting unit, relatively small changes in certain key assumptions would have resulted in no impairment of goodwill.

Generally, changes in estimates of expected future cash flows would have a similar effect on the estimated fair value of the reporting unit. That is, a 1% change in estimated future cash flows would decrease the estimated fair value of the reporting unit by approximately 1%. The estimated long-term rate of net sales growth can have a significant impact on the estimated future cash flows, and therefore, the fair value of each reporting unit. For the magazines, catalogs and retail inserts and commercial reporting units, a 1% decrease in the long-term net sales growth rate would have resulted in the reporting units failing the first step of the goodwill impairment test. For the Europe reporting unit, a 1% decrease in the assumed long-term net sales growth rate would not have changed the result of the step one test. Of the other key assumptions that impact the estimated fair values, most reporting units have the greatest sensitivity to changes in the estimated discount rate. The discount rate for each reporting unit in the U.S. Print and Related Services segment was estimated to be 9.5% as of October 31, 2009. Estimated discount rates for units in the International segment ranged from 9.0% to 14.0%. A 1.0 percentage point increase in estimated discount rates would have resulted in the magazines, catalogs and retail inserts and commercial reporting units failing step one. The Company believes that its estimates of future cash flows and discount rates are reasonable, but future changes in the underlying assumptions could differ due to the inherent uncertainty in making such estimates. Additionally, further price deterioration on contract renewals and new business along with lost or reduced volume could have a significant impact on the fair value for these reporting units.

The Company evaluates the recoverability of other long-lived assets, including property, plant and equipment and certain identifiable intangible assets, whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The Company performs impairment tests of indefinite-lived intangible assets on an annual basis or more frequently in certain circumstances. Factors considered important which could trigger an impairment review include significant underperformance relative to historical or projected future operating results, significant changes in the manner of use of the assets or the strategy for the overall business, a significant decrease in the market value of the assets or significant negative industry or economic trends. When the Company determines that the carrying amount of long-lived assets may not be recoverable based upon the existence of one or more of the indicators, the assets are assessed for impairment based on the estimated future undiscounted cash flows expected to result from the use of the asset and its eventual disposition. If the carrying amount of an asset exceeds its estimated future undiscounted cash flows, an impairment loss is recorded for the excess of the asset's carrying amount over its fair value.

Table of Contents

Commitments and Contingencies

The Company is subject to lawsuits, investigations and other claims related to environmental, employment and other matters, as well as preference claims related to amounts received from customers and others prior to their seeking bankruptcy protection. Periodically, the Company reviews the status of each significant matter and assesses potential financial exposure. If the potential loss from any claim or legal proceeding is considered probable and the related liability is estimable, the Company accrues a liability for the estimated loss. Because of uncertainties related to these matters, accruals are based on the best information available at the time. As additional information becomes available, the Company reassesses the potential liability related to pending claims and may revise its estimates.

The Company purchases third-party insurance for workers' compensation, automobile and general liability claims that exceed a certain level. The Company is responsible for the payment of claims below these insured limits, and consulting actuaries are utilized to assist the Company in estimating the obligation associated with incurred losses, which are recorded in accrued liabilities and other non-current liabilities. Historical loss development factors for both the Company and the industry are utilized to project the future development of incurred losses, and these amounts are adjusted based upon actual claims experience and settlement. If actual experience of claims development is significantly different from these estimates, an adjustment in future periods may be required.

Restructuring

The Company records restructuring charges when liabilities are incurred as part of a plan approved by management with the appropriate level of authority, for the elimination of duplicative functions, the closure of facilities, or the exit of a line of business, generally in order to reduce the Company's overall cost structure. The restructuring liabilities might change in future periods based on several factors that could differ from original estimates and assumptions. These include, but are not limited to: contract settlements on terms different than originally expected; ability to sublease properties based on market conditions at rates or on timelines different than originally estimated; or changes to original plans as a result of mergers or acquisitions. Such changes might result in reversals of or additions to restructuring charges that could affect amounts reported in the Consolidated Statements of Operations of future periods.

Accounting for Income Taxes

Significant judgment is required in determining the provision for income taxes and related accruals, deferred tax assets and liabilities and any valuation allowance recorded against deferred tax assets. In the ordinary course of business, there are transactions and calculations where the ultimate tax outcome is uncertain. Additionally, the Company's tax returns are subject to audit by various U.S. and foreign tax authorities. The Company recognizes a tax position in its financial statements when it is more likely than not (i.e., a likelihood of more than fifty percent) that the position would be sustained upon examination by tax authorities. This recognized tax position is then measured at the largest amount of benefit that is greater than fifty percent likely of being realized upon ultimate settlement. The consolidated financial statements as of December 31, 2009 and 2008 reflect these tax positions. Although management believes that its estimates are reasonable, the final outcome of uncertain tax positions may be materially different from that which is reflected in the Company's historical financial statements.

The Company has recorded deferred tax assets related to domestic and foreign tax loss and credit carryforwards. The Company evaluates these deferred tax assets by tax jurisdiction. The utilization of these tax assets is limited by the amount of taxable income expected to be generated within the allowable carryforward period, and other factors. Accordingly, management has provided a valuation allowance to reduce certain of these deferred tax assets when management has concluded that, based on the weight of available evidence, it is more likely than not that the deferred tax assets will not be fully realized. If actual results differ from these

Table of Contents

estimates, or the estimates are adjusted in future periods, adjustments to the valuation allowance might need to be recorded. As of December 31, 2009 and 2008, valuation allowances of \$277.5 million and \$224.7 million, respectively, were recorded.

Share-Based Compensation

The Company recognizes share-based compensation expense based on estimated fair values for all share-based awards made to employees and directors, including stock options, restricted stock units and performance share units. The Company recognizes compensation expense for share-based awards expected to vest on a straight-line basis over the requisite service period of the award based on their grant date fair value. The amount of expense recognized for these awards is determined by the Company's estimates of several factors, including future forfeitures of awards, expected volatility of the Company's stock, and the average life of options prior to expiration. See Note 17, *Stock and Incentive Programs for Employees*, to the Consolidated Financial Statements for further discussion.

Pension and Postretirement Benefit Plans

The Company records annual amounts relating to its pension and postretirement benefit plans based on calculations which include various actuarial assumptions including discount rates, assumed rates of return, compensation increases, turnover rates and health care cost trend rates. The Company reviews its actuarial assumptions on an annual basis and modifies the assumptions based on current rates and trends when it is appropriate to do so. The effects of modifications are recognized immediately on the balance sheet, but are generally amortized into operating earnings over future periods, with the deferred amount recorded in accumulated other comprehensive income. The Company believes that the assumptions utilized in recording its obligations under its plans are reasonable based on its experience, market conditions and input from its actuaries and investment advisors. The Company determines its assumption for the discount rate to be used for purposes of computing annual service and interest costs based on an index of high-quality corporate bond yields and matched-funding yield curve analysis as of that date. The discount rates for pension benefits at December 31, 2009 and 2008 were 6.0% and 6.8%, respectively. The discount rates for postretirement benefits at December 31, 2009 and 2008 were 5.7% and 6.9%, respectively. A one percentage point decrease in the discount rates at December 31, 2009 would increase the pension plans' accumulated benefit obligation and projected benefit obligation by approximately \$433.6 million and \$448.6 million, respectively. A one percentage point decrease in the discount rates at December 31, 2009 would increase the postretirement plans' accumulated benefit obligation by approximately \$46.0 million.

The Company employs a total return investment approach for its pension and postretirement benefit plans whereby a mix of equities and fixed income investments are used to maximize the long-term return of pension and postretirement plan assets. The intent of this strategy is to minimize plan contributions by outperforming the growth in plan liabilities over the long run. Risk tolerance is established through careful consideration of plan liabilities, plan funded status, and corporate financial condition. The investment portfolios contain a diversified blend of equity and fixed-income investments. Furthermore, equity investments are diversified across geography and market capitalization through investments in U.S. large-capitalization stocks, U.S. small-capitalization stocks and international securities. Investment risk is measured and monitored on an ongoing basis through annual liability measurements, periodic asset/liability studies and quarterly investment portfolio reviews. The expected long-term rate of return for plan assets is based upon many factors including expected asset allocations, historical asset returns, current and expected future market conditions and risk. The prospective target asset allocation percentage for both the pension and postretirement benefit plans is approximately 75% for equity and other securities and approximately 25% for fixed income. The expected return on plan assets assumption at December 31, 2009 ranged from 7.5% to 8.5% for the Company's major U.S. and Canadian pension plans and was 7.6% for the Company's partially funded U.S. postretirement medical benefit plans.

Table of Contents

The Company also maintains several pension plans in other international locations. The assets, liabilities and expense associated with these plans are not material to the Company's consolidated financial statements. The expected returns on plan assets and discount rates for these plans are determined based on each plan's investment approach, local interest rates and plan participant profiles.

The health care cost trend rates used in valuing the Company's postretirement benefit obligations are established based upon actual health care cost trends and consultation with actuaries and benefit providers. At December 31, 2009, the current weighted average health care trend rate assumption for the major U.S. postretirement plans was 6.8% for both pre-age and post-age 65 participants. The current trend rate gradually decreases to an ultimate trend rate of 6.0%. The current weighted average health care trend rate assumption for the Canada postretirement plan was 9.0% for both pre-age and post-age 65 participants, gradually decreasing to an ultimate trend rate of 5.5%.

A one-percentage point increase in the assumed health care cost trend rates would have the following effects (in millions):

Postretirement benefit obligation	\$ 6.2
Total postretirement benefit service and interest cost components net	0.5

A one-percentage point decrease in the assumed health care cost trend rates would have the following effects (in millions):

Postretirement benefit obligation	\$ (5.6)
Total postretirement benefit service and interest cost components net	(0.5)

Off-Balance Sheet Arrangements

Other than non-cancelable operating lease commitments, the Company does not have off-balance sheet arrangements, financings, or special purpose entities.

Financial Review

In the financial review that follows, the Company discusses its consolidated results of operations, financial position, cash flows and certain other information. This discussion should be read in conjunction with the Company's consolidated financial statements and related notes that begin on page F-1.

Table of Contents**RESULTS OF OPERATIONS FOR THE YEAR ENDED DECEMBER 31, 2009 AS COMPARED TO THE YEAR ENDED DECEMBER 31, 2008**

The following table shows the results of operations for the years ended December 31, 2009 and 2008, which reflects the results of acquired businesses from the relevant acquisition dates:

	2009	2008 (in millions)	\$ Change	% Change
Net sales	\$ 9,857.4	\$ 11,581.6	\$ (1,724.2)	(14.9%)
Cost of sales (exclusive of depreciation and amortization shown below)	7,462.9	8,576.3	(1,113.4)	(13.0%)
Selling, general and administrative expenses (exclusive of depreciation and amortization shown below)	1,088.5	1,220.5	(132.0)	(10.8%)
Restructuring and impairment charges	382.7	1,184.7	(802.0)	(67.7%)
Depreciation and amortization	579.0	640.6	(61.6)	(9.6%)
Total operating expenses	9,513.1	11,622.1	(2,109.0)	(18.1%)
Income (loss) from continuing operations	\$ 344.3	\$ (40.5)	\$ 384.8	950.1%

Consolidated

Net sales for the year ended December 31, 2009 decreased \$1,724.2 million, or 14.9%, to \$9,857.4 million versus the prior year. Changes in foreign exchange rates decreased net sales by \$201.1 million, or 1.7%, while the acquisitions of PROSA and Pro Line increased net sales by \$36.2 million, or 0.3%. The remaining decreases were primarily attributable to significant volume declines and continued price pressure across most products and services as customer demand decreased primarily due to the global economic slowdown.

Cost of sales decreased \$1,113.4 million to \$7,462.9 million for the year ended December 31, 2009 versus the prior year, primarily due to volume decreases and a benefit resulting from lower LIFO inventory provisions, offset by lower pricing on by-product sales and higher incentive compensation expense. Cost of sales as a percentage of consolidated net sales increased from 74.1% to 75.7%, reflecting the impact of price pressures on net sales, volume declines, lower pricing on by-products sales and higher incentive compensation expense, offset in part by the benefits of continued productivity efforts and lower LIFO inventory provisions.

Selling, general and administrative expenses decreased \$132.0 million to \$1,088.5 million for the year ended December 31, 2009 versus the prior year due to restructuring-driven cost reductions, lower sales commissions based on reduced volume, decreased bad debt expenses, the elimination of the Company's 401(k) match and changes in foreign exchange rates, partially offset by higher incentive compensation expense. Selling, general and administrative expenses as a percentage of consolidated net sales increased from 10.5% to 11.0%, reflecting the impact of the net sales decline and higher incentive compensation expense, which more than offset the benefit of productivity efforts.

For the year ended December 31, 2009, the Company recorded a net restructuring and impairment provision of \$382.7 million compared to \$1,184.7 million in 2008. In 2009, these charges included a non-cash pre-tax charge of \$128.5 million for the impairment of goodwill and \$118.6 million, discounted for future cash payments, for the termination of a significant long-term customer contract in the business process outsourcing reporting unit within the International segment, which allowed the Company to withdraw from certain unprofitable operations in this area. In addition, these charges included \$78.8 million for workforce reductions of 4,043 employees (of whom 3,779 were terminated as of December 31, 2009) associated with actions resulting from the reorganization of certain operations. These actions also included the closings of two catalog, magazine and retail insert manufacturing facilities, two book manufacturing facilities and one premedia facility within the U.S. Print and Related Services segment and the closing of one Global Turnkey Solutions manufacturing facility, one business process outsourcing facility, one Latin America manufacturing facility and one European

Table of Contents

manufacturing facility within the International segment. Additionally, the Company recorded \$24.7 million of impairment charges for other long-lived assets and \$32.1 million of other restructuring costs, including lease termination and other facility closure costs. For the year ended December 31, 2008, these charges included non-cash, pre-tax charges of \$1,125.4 million for the impairment of goodwill and other intangible assets and \$44.1 million for workforce reductions of 2,245 employees (all of whom were terminated as of December 31, 2009) associated with actions resulting from the reorganization of certain operations and the exiting of certain business activities. These actions included the realignment and consolidation of the Canadian organization, management reorganization within Latin America, the closing of two Global Turnkey Solutions manufacturing facilities within the International segment and the realignment and consolidation of the financial print organization in the U.S. Print and Related Services and International segments. In addition, the Company recorded \$4.6 million of impairment charges of other long-lived assets and \$10.6 million of other restructuring costs, mainly related to lease terminations in exited facilities.

Depreciation and amortization decreased \$61.6 million to \$579.0 million for the year ended December 31, 2009 compared to 2008, primarily due to reduced capital expenditures and the reduced balance of amortizable intangible assets resulting from the impairment of customer relationship intangible assets in the business process outsourcing unit in 2008. Changes in foreign exchange rates also caused the lower depreciation and amortization expense. Depreciation and amortization included \$99.1 million and \$123.3 million of amortization of purchased intangibles related to customer relationships, patents, trade names, licenses and non-compete agreements for the year ended December 31, 2009 and 2008, respectively.

Income from continuing operations for the year ended December 31, 2009 was \$344.3 million compared to a loss from continuing operations of \$40.5 million for the year ended December 31, 2008. The increase in earnings was primarily driven by the higher non-cash impairment charges recorded in 2008, as well as the cost savings achieved from restructuring activities and productivity efforts, a benefit resulting from lower LIFO inventory provisions due to reduced inventory levels and lower inventory and commodity prices, decreased bad debt expenses and lower intangible amortization expense, partially offset by the lower net sales primarily driven by the global economic slowdown, higher incentive compensation expense and lower pricing on by-products sales.

Net interest expense increased by \$8.2 million for the year ended December 31, 2009 versus the prior year, primarily due to the issuance of \$400 million of 11.25% senior notes and \$350 million of 8.60% senior notes on January 14, 2009 and August 26, 2009, respectively, as well as the accelerated amortization of debt issuance costs and unamortized discounts related to the repurchase of \$640.6 million of senior notes maturing in 2012 and 2010 and lower international interest income as a result of lower interest rates, partially offset by lower average short-term borrowings.

Net investment and other expense for the year ended December 31, 2009 and 2008 was \$16.6 million and \$2.4 million, respectively. In 2009, the Company's repurchases of \$640.6 million of its senior notes maturing in 2012 and 2010 resulted in a loss on the debt extinguishment of \$10.3 million. In addition, as a result of the repurchase of the senior notes due May 15, 2010, the Company reclassified a loss of \$2.7 million from accumulated other comprehensive income to investment and other expense due to changes in the hedged forecasted interest payments. Additionally, the Company recorded a \$2.4 million write-down on its affordable housing investments. For the year ended December 31, 2008, the Company terminated its cross-currency swaps, which resulted in a loss of \$9.9 million. In addition, the Company sold an equity investment in Latin America, which resulted in a gain of \$4.9 million.

The effective income tax rate for the year ended December 31, 2009 was a provision of 123.0% compared to a benefit of 31.2% in 2008. The effective tax rate for the year ended December 31, 2009 was impacted by the non-deductible, non-cash goodwill impairment charge of \$128.5 million and the partially deductible charges, discounted for future cash payments, of \$118.6 million for the termination of a significant long-term customer contract in the business process outsourcing reporting unit within the International segment. The 2008 effective

Table of Contents

income tax rate was impacted by the non-deductible goodwill impairment charge of \$800.1 million and by tax benefits of \$228.8 million related to the decline in value and reorganization of certain entities within the International segment and related tax benefits realized upon the reorganization of certain foreign entities therein and the benefit of \$38.0 million from the recognition of uncertain tax positions upon final settlement of certain U.S. federal income tax audits for the years 2000-2002.

Net loss from continuing operations attributable to RR Donnelley common shareholders for the year ended December 31, 2009 was \$27.3 million, or \$0.13 per diluted share, compared to \$191.7 million, or \$0.91 per diluted share, for the year ended December 31, 2008. In addition to the factors described above, the per share results reflect a decrease in weighted average diluted shares outstanding of 5.0 million, primarily resulting from the Company's repurchase of 10.0 million shares of its common stock in 2008.

U.S. Print and Related Services

The following tables summarize net sales, income from continuing operations and certain items impacting comparability within the U.S. Print and Related Services segment:

	Year Ended December 31,	
	2009	2008
	(in millions)	
Net sales	\$ 7,437.0	\$ 8,704.2
Income from continuing operations	489.2	708.9
Operating margin	6.6%	8.1%
Restructuring and impairment charges	163.8	405.8

Reporting unit(1)	2009	2008	\$ Change	% Change
	Net Sales	Net Sales (in millions)		
Magazines, catalogs and retail inserts	\$ 2,053.6	\$ 2,527.1	\$ (473.5)	(18.7%)
Books and directories	1,462.1	1,764.5	(302.4)	(17.1%)
Variable print	1,142.8	1,254.2	(111.4)	(8.9%)
Forms and labels	829.5	908.2	(78.7)	(8.7%)
Commercial	592.1	706.4	(114.3)	(16.2%)
Logistics	491.0	573.1	(82.1)	(14.3%)
Financial print	482.5	528.0	(45.5)	(8.6%)
Office products	228.7	270.5	(41.8)	(15.5%)
Premedia	154.7	172.2	(17.5)	(10.2%)
Total U.S. Print and Related Services	\$ 7,437.0	\$ 8,704.2	\$ (1,267.2)	(14.6%)

- (1) The amounts included in the above table represent net sales by reporting unit and the descriptions above reflect the primary products or services provided by each. Included in these net sales amounts are sales of other products that may be produced within a reporting unit to meet customer needs and improve operating efficiency. Certain prior year amounts were restated to conform to the Company's current reporting unit structure.

Net sales for the U.S. Print and Related Services segment for the year ended December 31, 2009 were \$7,437.0 million, a decrease of \$1,267.2 million, or 14.6%, compared to 2008. The acquisition of Pro Line increased net sales \$17.5 million, or 0.2%. The increase due to the acquisition was more than offset by volume and price declines across all products and services primarily due to the global economic slowdown. Sales of magazines, catalogs and retail inserts decreased due to lower page counts resulting from reduced advertising spending, lower circulation volume and price pressure on new and existing customer contracts. Sales of books and directories decreased due to lower volume in educational books, related materials and directories. Sales of variable printing decreased due to an unfavorable shift in product mix, lower sales of direct mailings from

Table of Contents

financial service companies and retail customers and reduced fulfillment and distribution volume from healthcare customers. Sales of forms and labels decreased due to lower volume from major customers and increased price pressure. Commercial printing sales decreased due to lower volume as a result of the economic slowdown and increased price pressure. Sales of financial printing decreased compared to the prior year due to reductions in the size and number of capital market transactions and increased price pressure. Sales of logistics services decreased primarily due to lower print volumes and reductions in fuel surcharges. Sales of office products decreased primarily due to lower volume from large retail customers. Finally, sales of premedia declined due to lower volume from existing customers for print related products.

U.S. Print and Related Services segment income from continuing operations decreased \$219.7 million mainly because of the volume and price declines discussed above, lower pricing on by-products sales and higher incentive compensation expense, partially offset by lower restructuring and impairment charges, operating cost reductions driven by the restructuring actions and productivity initiatives. Operating margins in the U.S. Print and Related Services segment decreased from 8.1% for the year ended December 31, 2008 to 6.6% for the year ended December 31, 2009. The margin declines resulted from the impact of volume declines, price pressures, lower pricing on by-products sales and higher incentive compensation expense, partially offset by lower restructuring and impairment charges and cost savings, as discussed above.

International

The following tables summarize net sales, income (loss) from continuing operations and certain items impacting comparability within the International segment:

	Years Ended December 31,	
	2009	2008
	(in millions)	
Net sales	\$ 2,420.4	\$ 2,877.4
Income (loss) from continuing operations	(36.0)	(564.6)
Operating margin	(1.5%)	(19.6%)
Restructuring and impairment charges	210.7	774.7

Reporting unit	2009	2008	\$ Change	% Change
	Net Sales	Net Sales (in millions)		
Business process outsourcing	\$ 603.3	\$ 734.0	\$ (130.7)	(17.8%)
Latin America	467.9	485.2	(17.3)	(3.6%)
Asia	436.2	473.0	(36.8)	(7.8%)
Europe	388.7	498.0	(109.3)	(21.9%)
Global Turnkey Solutions	321.6	455.0	(133.4)	(29.3%)
Canada	202.7	232.2	(29.5)	(12.7%)
Total International	\$ 2,420.4	\$ 2,877.4	\$ (457.0)	(15.9%)

Net sales for the International segment for the year ended December 31, 2009 were \$2,420.4 million, a decrease of \$457.0 million, or 15.9%, compared to 2008. The decrease in net sales was primarily due to changes in foreign exchange rates of \$201.1 million, or 7.0%, and volume and price declines resulting from the global economic slowdown. Business process outsourcing net sales decreased due to changes in foreign exchange rates, as well as lower volume in transactional print and mail and design and print management services. In Latin America, net sales decreased due to changes in foreign exchange rates and lower sales of forms, partially offset by the acquisition of PROSA which increased net sales by \$18.7 million, or 3.9%. Sales in Asia decreased due to reduced export book sales and lower volumes and prices on print packaging products. Net sales in Europe decreased due to changes in foreign exchange rates and lower sales of directories and commercial print, as well as unfavorable product mix changes and declining prices, largely related to technology manuals and other related

Table of Contents

packaging products. Global Turnkey Solutions net sales decreased due to lower volume from retail and technology customers, as the economic slowdown impacted both consumer and business spending on their products, as well as changes in foreign exchange rates. The decrease in net sales in Canada was due to changes in foreign exchange rates and lower sales of forms and labels, statement printing and commercial print products.

Loss from continuing operations decreased \$528.6 million primarily due to lower restructuring and impairment charges, partially offset by volume declines, the ongoing impact of competitive price pressures, unfavorable product mix and higher incentive compensation expense, partially offset by lower intangible amortization expense. Operating margins as a percentage of sales increased from (19.6%) for the year ended December 31, 2008 to (1.5%) for the year ended December 31, 2009. Of this margin change, 19.6 percentage points were attributable to the impact of lower restructuring and impairment charges. In addition, the margin increase was due to cost reductions driven by restructuring actions and productivity improvements, partially offset by volume and price declines.

Corporate

The following table summarizes unallocated operating expenses and certain items impacting comparability within the activities presented as Corporate:

	Years Ended December 31,	
	2009	2008
	(in millions)	
Operating expenses	\$ 108.9	\$ 184.8
Restructuring and impairment charges	8.2	4.2

Corporate operating expenses for the year ended December 31, 2009 were \$108.9 million, a decrease of \$75.9 million compared to 2008. The decrease was primarily driven by a benefit resulting from the reduction in the LIFO inventory reserve of \$17.6 million in 2009 as compared to an expense of \$30.6 million in 2008, the elimination of the Company's 401(k) match and cost reductions from productivity and restructuring actions, partially offset by higher incentive compensation expense and higher restructuring and impairment charges.

RESULTS OF OPERATIONS FOR THE YEAR ENDED DECEMBER 31, 2008 AS COMPARED TO THE YEAR ENDED DECEMBER 31, 2007 (in millions, except per share data)

	Income (Loss) from Continuing Operations	Operating Margin	Net Earnings (Loss) Attributable to RR Donnelley Common Shareholders	Net Earnings (Loss) Attributable to RR Donnelley Common Shareholders Per Diluted Share
For the year ended December 31, 2007	\$ 315.1	2.7%	\$ (48.9)	\$ (0.22)
2008 restructuring and impairment charges	(1,184.7)	(10.2%)	(1,073.9)	(5.11)
2007 restructuring and impairment charges	839.0	7.2%	702.9	3.22
Loss on termination of cross-currency swaps			(1.8)	(0.01)
Non-recurring tax benefits-net			257.5	1.23
Discontinued operations			2.3	0.01
Operations	(9.9)	0.0%	(28.0)	(0.02)
For the year ended December 31, 2008	\$ (40.5)	(0.3%)	\$ (189.9)	\$ (0.90)

2008 pre-tax restructuring and impairment charges: included \$1,125.4 million of non-cash charges for the impairment of goodwill and intangible assets; charges of \$44.1 million for employee termination costs, substantially all of which were associated with restructuring actions resulting from the reorganization of certain operations and the exiting of certain business activities; \$10.6 million of other restructuring costs, primarily lease termination costs; and \$4.6 million for impairment of other long-lived assets.

Table of Contents

2007 pre-tax restructuring and impairment charges: included \$752.2 million of non-cash charges for the impairment of goodwill and intangible assets; charges of \$49.3 million for employee termination costs, substantially all of which were associated with restructuring actions resulting from the reorganization of certain operations and the exiting of certain business activities; \$11.1 million of other restructuring costs, including lease termination costs; and \$26.4 million for impairment of other long-lived assets.

Pre-tax loss on termination of cross-currency swaps: Investment and other income (expense) included a \$9.9 million (\$1.8 million after tax) loss in 2008 resulting from the Company's termination of its cross-currency swaps.

Non-recurring tax benefits: reflected tax benefits of \$228.8 million realized in 2008 related to the decline in value and reorganization of certain entities within the International segment, as well as a benefit of \$38.0 million in 2008 from the recognition of uncertain tax positions upon the final settlement of certain U.S. federal tax audits for the years 2000–2002 and a benefit of \$9.3 million in 2007 from a reduction in net deferred tax liabilities due to a decrease in the statutory tax rate in the United Kingdom.

Operations: reflected lower net sales driven by the global economic slowdown, partially offset by cost savings from restructuring actions, productivity efforts and lower incentive compensation expense and the impact of the Von Hoffmann, Banta, Perry Judd's, Cardinal Brands and Pro Line acquisitions. See further details in the review of operating results by segment that follows below.

The following table shows the results of operations for the years ended December 31, 2008 and 2007, which reflects the results of acquired businesses from the relevant acquisition dates.

	2008	2007 (in millions)	\$ Change	% Change
Net sales	\$ 11,581.6	\$ 11,587.1	\$ (5.5)	0.0%
Cost of sales (exclusive of depreciation and amortization shown below)	8,576.3	8,532.4	43.9	0.5%
Selling, general and administrative expenses (exclusive of depreciation and amortization shown below)	1,220.5	1,302.3	(81.8)	(6.3%)
Restructuring and impairment charges	1,184.7	839.0	345.7	41.2%
Depreciation and amortization	640.6	598.3	42.3	7.1%
Total operating expenses	11,622.1	11,272.0	350.1	3.1%
Income (loss) from continuing operations	\$ (40.5)	\$ 315.1	\$ (355.6)	(112.9%)
Consolidated				

Net sales for the year ended December 31, 2008 decreased \$5.5 million to \$11,581.6 million versus the prior year. Net sales increased \$412.4 million, or 3.6%, due to the acquisitions of Banta, Perry Judd's, Von Hoffman, Cardinal Brands and Pro Line and \$33.0 million, or 0.3%, from changes in foreign exchange rates. These increases were more than offset by volume and price declines across most products and services as customer demand decreased due to the global economic slowdown.

Cost of sales increased \$43.9 million to \$8,576.3 million for the year ended December 31, 2008 versus the prior year, primarily due to acquisitions, changes in foreign exchange rates and increased LIFO provisions, offset by lower incentive compensation expense and increased productivity. Cost of sales as a percentage of consolidated net sales increased from 73.6% to 74.1%, reflecting the impact of cost inflation and price pressures on net sales, partially offset by lower incentive compensation and improved productivity.

Selling, general and administrative expenses decreased \$81.8 million to \$1,220.5 million for the year ended December 31, 2008 versus the prior year, primarily due to lower incentive compensation expense, partially offset by acquisitions and a higher provision for doubtful accounts receivable. Selling, general and administrative

Table of Contents

expenses as a percentage of consolidated net sales decreased from 11.2% to 10.5%, which reflected lower incentive compensation expense and the reduction of costs through improved productivity and restructuring activities.

For the year ended December 31, 2008, the Company recorded a net restructuring and impairment provision of \$1,184.7 million compared to \$839.0 million in 2007. In 2008, these charges included non-cash, pre-tax charges of \$1,125.4 million for the impairment of goodwill and other intangible assets and \$44.1 million for workforce reductions of 2,245 employees (all of whom were terminated as of December 31, 2009) associated with actions resulting from the reorganization of certain operations and the exiting of certain business activities. These actions included the realignment and consolidation of the Canadian organization, management reorganization within Latin America, the closing of two Global Turnkey Solutions manufacturing facilities within the International segment and the realignment and consolidation of the financial print organization in the U.S. Print and Related Services and International segments. In addition, the Company recorded \$4.6 million of impairment charges of other long-lived assets and \$10.6 million of other restructuring costs, mainly related to lease terminations in exited facilities. For the year ended December 31, 2007, these charges included \$436.1 million for the impairment of goodwill for the business process outsourcing operations and a non-cash pre-tax charge of \$316.1 million reflecting the write-off of the Moore Wallace, OfficeTiger and other trade names, most of which were indefinite-lived. In addition, these charges included \$49.3 million for workforce reductions of 1,169 employees (all of whom were terminated as of December 31, 2009) associated with actions resulting from the reorganization of certain operations and the exiting of certain business activities. These actions included management changes to simplify the management reporting structure and cost structure reductions including the closing of two manufacturing facilities within the U.S. Print and Related Services segment and two facilities within the International segment. Further, these charges included \$11.1 million of other restructuring costs primarily related to lease terminations in exited facilities and \$26.4 million for the impairment of other long-lived assets, of which \$19.1 million related to the write-off of capitalized customer contract set-up costs in the business process outsourcing unit. Management believes that certain restructuring activities will continue in 2009, as the Company continues to streamline its manufacturing, sales and administrative operations.

Depreciation and amortization increased \$42.3 million to \$640.6 million for the year ended December 31, 2008 compared to 2007, primarily due to acquisitions and capital expenditures. Depreciation and amortization included \$123.3 million and \$119.7 million of amortization of purchased intangibles related to customer relationships, trade names and patents for the year ended December 31, 2008 and 2007, respectively.

The loss from continuing operations for the year ended December 31, 2008 was \$40.5 million compared to income from continuing operations of \$315.1 million for the year ended December 31, 2007. The decrease in earnings was primarily driven by the increase in non-cash impairment charges. The lower earnings also reflect the decline in volumes and cost inflation and price pressures across both segments, partially offset by acquisitions, productivity efforts, lower incentive compensation and the benefits achieved from procurement savings and restructuring activities.

Net interest expense decreased by \$0.9 million for the year ended December 31, 2008 versus 2007, primarily due to higher interest income earned on cash balances invested internationally, partially offset by higher interest expense in the U.S. due to increased short-term debt.

Net investment and other income (expense) for the year ended December 31, 2008 and 2007 was expense of \$2.4 million and income of \$3.6 million, respectively. In 2008, the Company terminated its cross-currency swaps, which resulted in a loss of \$9.9 million. In addition, the Company sold an equity investment in Latin America, which resulted in a gain of \$4.9 million. For the year ended December 31, 2007, the Company recorded a gain of \$1.1 million for the changes in fair value of the portion of derivative financial instruments that was ineffective as a net investment hedge.

The effective income tax rate for the year ended December 31, 2008 was a benefit of 31.2% compared to a provision of 149.3% in 2007. The effective income tax rate for the year ended December 31, 2008 was impacted

Table of Contents

by the non-deductible goodwill impairment charge of \$800.1 million and by tax benefits of \$228.8 million related to the decline in value and reorganization of certain entities within the International segment and related tax benefits realized upon the reorganization of certain foreign entities therein and the benefit of \$38.0 million from the recognition of uncertain tax positions upon final settlement of certain U.S. federal income tax audits for the years 2000-2002. The 2007 effective tax rate included the impact of the non-deductible goodwill impairment charge of \$436.1 million, tax benefits of \$107.0 million associated with the \$316.1 million charge for the write-off of the Moore Wallace, OfficeTiger and other trade names, the enactment of a lower statutory tax rate in the United Kingdom, an increased benefit from the domestic manufacturing deduction and the impact of the increased proportion of the Company's taxable income derived from lower-tax jurisdictions.

The net loss from continuing operations attributable to RR Donnelley common shareholders for the year ended December 31, 2008 was \$191.7 million, or \$0.91 per diluted share, compared to \$48.4 million, or \$0.22 per diluted share, for the year ended December 31, 2007. In addition to the factors described above, the per share results reflect a decrease in weighted average diluted shares outstanding of 7.8 million, primarily resulting from the Company's repurchase of 10.0 million shares of its common stock in 2008.

U.S. Print and Related Services

The following tables summarize net sales, income from continuing operations and certain items impacting comparability, which reflect the results of acquired businesses from the relevant acquisition dates, within the U.S. Print and Related Services segment:

	Year Ended December 31,	
	2008	2007
	(in millions)	
Net sales	\$ 8,704.2	\$ 8,601.9
Income from continuing operations	708.9	823.8
Operating margin	8.1%	9.6%
Restructuring and impairment charges	405.8	285.1

Reporting unit(1)	2008	2007	\$ Change	% Change
	Net Sales	Net Sales (in millions)		
Magazines catalogs and retail inserts	\$ 2,527.1	\$ 2,514.2	\$ 12.9	0.5%
Books and directories	1,764.5	1,771.5	(7.0)	(0.4%)
Variable print	1,254.2	1,272.8	(18.6)	(1.5%)
Forms and labels	908.2	952.4	(44.2)	(4.6%)
Commercial	706.4	767.7	(61.3)	(8.0%)
Logistics	573.1	489.3	83.8	17.1%
Financial print	528.0	560.1	(32.1)	(5.7%)
Office products	270.5	107.7	162.8	151.2%
Premedia	172.2	166.2	6.0	3.6%
Total U.S. Print and Related Services	\$ 8,704.2	\$ 8,601.9	\$ 102.3	1.2%

- (1) The amounts included in the above table represent net sales by reporting unit and the descriptions above reflect the primary products or services provided by each. Included in these net sales amounts are sales of other products that may be produced within a reporting unit to meet customer needs and improve operating efficiency. Certain prior year amounts were restated to conform to the Company's current reporting unit structure.

Net sales for the U.S. Print and Related Services segment for the year ended December 31, 2008 were \$8,704.2 million, an increase of \$102.3 million, or 1.2%, compared to 2007. Sales from the acquired facilities of Banta, Perry Judd's, Von Hoffmann, Cardinal Brands and Pro Line increased sales by \$399.3 million, or 4.6%.

Table of Contents

The increases due to acquisitions were offset by volume and price declines across most products and services due to the economic crisis that worsened in the second half of 2008. Sales of magazines, catalogs and retail inserts increased slightly due to acquisitions and new catalog customers, partially offset by lower volume resulting from reduced advertising spending and lower volume from existing customers. Sales of books and directories decreased slightly as the impact of acquisitions was more than offset by the impact of lower prices from major customer contract renewals and reduced volume in sales of directories. Sales of variable printing products decreased due to lower direct mail sales and reduced fulfillment and distribution volume. Sales of forms and labels decreased due to lower sales of forms, resulting from increased price pressure and lower demand for consumable forms products. Commercial printing sales decreased due to the economic slowdown. Sales of logistics services increased primarily due to higher fuel surcharges. Sales of financial printing decreased due to decreases in the size and number of capital market transactions. Sales of office products increased due to an acquisition. Finally, sales of premedia grew slightly due to acquisitions and increased volume from new customers.

U.S. Print and Related Services income from continuing operations decreased \$114.9 million mainly driven by the increase in restructuring and impairment charges of \$120.7 million. In addition, the benefits of acquisitions, lower incentive compensation expense and improved productivity were partially offset by the volume declines and competitive price pressures discussed above. Operating margins in the U.S. Print and Related Services segment decreased from 9.6% to 8.1% for the year ended December 31, 2008. Of the margin decrease, 1.4 percentage points were attributable to higher restructuring and impairment charges. In addition, lower employee incentive compensation expense and continued productivity efforts largely offset the impact of reduced volume, price pressure and cost inflation.

International

The following tables summarize net sales, loss from continuing operations and certain items impacting comparability within the International segment:

	Years Ended December 31,	
	2008	2007
	(in millions)	
Net sales	\$ 2,877.4	\$ 2,985.2
Loss from continuing operations	(564.6)	(315.0)
Operating margin	(19.6%)	(10.6%)
Restructuring and impairment charges	774.7	538.7

Reporting unit	2008	2007	\$ Change	% Change
	Net Sales	Net Sales		
	(in millions)			
Business process outsourcing	\$ 734.0	\$ 809.7	\$ (75.7)	(9.3%)
Europe	498.0	572.7	(74.7)	(13.0%)
Latin America	485.2	436.8	48.4	11.1%
Asia	473.0	457.5	15.5	3.4%
Global Turnkey Solutions	455.0	468.5	(13.5)	(2.9%)
Canada	232.2	240.0	(7.8)	(3.3%)
Total International	\$ 2,877.4	\$ 2,985.2	\$ (107.8)	(3.6%)

Net sales for the International segment for the year ended December 31, 2008 were \$2,877.4 million, a decrease of \$107.8 million, or 3.6%, compared to 2007. Although net sales increased approximately \$33.0 million, or 1.1%, due to the impact of changes in foreign exchange rates and \$13.1 million, or 0.4%, due to acquisitions, these increases were more than offset by volume and price declines resulting from the global economic slowdown. Foreign exchange rates favorably impacted each reporting unit for the first nine months of

Table of Contents

2008, but had a significant unfavorable impact during the last three months of 2008. Volume increases in Latin America and Asia were more than offset by declines in the technology and telecommunications products in Europe, lower volume in print and media and outsourcing services within business process outsourcing and the impact of ongoing price pressures. Business process outsourcing net sales decreased due to lower volume and lost customers in print and media and outsourcing services, partially offset by volume growth driven by the full year impact of a large new customer contract entered into during the second quarter of 2007. Net sales in Europe decreased due to volume declines, unfavorable product mix changes and declining prices, largely related to the technology and telecommunications sector, partially offset by the impact of changes in foreign currency rates and increased commercial print product sales. In Latin America, the net sales increase was the result of changes in foreign exchange rates, combined with an increase in sales of books, forms and commercial printing. Sales in Asia increased due to foreign exchange rates and increased volume in the technology sector, partially offset by declines due to increased competition resulting in price pressure in the export book market and technology and telecommunications sectors. Global Turnkey Solutions net sales decreased slightly due to lower volume from existing customers, partially offset by changes in foreign exchange rates. The decrease in net sales in Canada was due to lower volume and price pressure on sales of forms and labels, partially offset by the impact of foreign exchange rates.

The loss from continuing operations increased \$249.6 million mainly due to the \$236.0 million increase in restructuring and impairment charges. The impact of the net sales decline was partially offset by productivity improvement, cost control and lower incentive compensation expense. Operating margins decreased from (10.6%) to (19.6%) for the year ended December 31, 2008. Higher restructuring and impairment charges drove an 8.9 percentage point margin decrease, with the balance of the decrease attributed to the negative impact of volume and price declines.

Corporate

The following table summarizes unallocated operating expenses and certain items impacting comparability within the activities presented as Corporate:

	Years Ended December 31,	
	2008	2007
	(in millions)	
Operating expenses	\$ 184.8	\$ 193.7
Restructuring and impairment charges	4.2	15.2

Corporate operating expenses for the year ended December 31, 2008 were \$184.8 million, a decrease of \$8.9 million compared to 2007. The decrease was driven by decreases in employee benefit and incentive compensation costs, lower restructuring and impairment charges of \$11.0 million and cost reductions from productivity efforts and restructuring actions partially offset by an increase in LIFO inventory provisions and a higher provision for doubtful accounts receivable.

RESTRUCTURING, IMPAIRMENT, AND ACQUISITION-RELATED CHARGES

During 2009, the Company recorded net restructuring and impairment charges of \$382.7 million. These charges included \$128.5 million for the impairment of goodwill and \$24.7 million for the impairment of other long-lived assets. In addition, the Company recorded charges, discounted for future cash payments, of \$118.6 million for the termination of a significant long-term customer contract in the business process outsourcing reporting unit within the International segment, of which \$117.2 million, \$0.8 million and \$0.6 million are reflected in other charges, impairment and employee terminations, respectively. Additionally, these charges included \$78.8 million related to workforce reductions of 4,043 employees (3,779 of whom were terminated as of December 31, 2009), associated with actions resulting from the reorganization of certain operations and the exiting of certain business activities. These actions included the closings of two magazine, catalog and retail

Table of Contents

insert manufacturing facilities, two book manufacturing facilities and one premedia facility within the U.S. Print and Related Services segment and the closing of two Global Turnkey Solutions manufacturing facilities, one business process outsourcing facility, one Latin America manufacturing facility and one European manufacturing facility within the International segment. Finally, the Company incurred other restructuring charges of \$32.1 million, including lease termination and other facility closure costs.

During 2008, the Company recorded restructuring and impairment charges of \$1,184.7 million. These charges included \$800.1 million for the impairment of goodwill, \$325.3 million for the impairment of customer relationships intangible assets and \$4.6 million for the impairment of other long-lived assets. In addition, these charges included \$44.1 million related to workforce reductions of 2,245 employees (all of whom were terminated as of December 31, 2009), associated with actions resulting from the reorganization of certain operations and the exiting of certain business activities. These actions included the realignment and consolidation of the Canadian organization, management reorganization within Latin America, the closing of two Global Turnkey Solutions manufacturing facilities within the International segment and realignment and consolidation of the financial print organization in the U.S. Print and Related Services and International segments. In addition, \$10.6 million of other restructuring costs, including lease terminations in exited facilities, were recorded for the year ended December 31, 2008.

During 2008, the Company capitalized \$2.1 million of restructuring costs related to employee terminations and other costs in connection with the acquisition of Pro Line. Costs of \$1.7 million were for workforce reductions of 23 employees resulting from the elimination of duplicative administrative functions. Charges of \$0.4 million of other restructuring costs included lease terminations in exited facilities.

During 2007, the Company recorded restructuring and impairment charges of \$839.0 million. These charges included \$316.1 million for the write-off of the Moore Wallace, OfficeTiger and other trade names associated with the Company's decision in June 2007 to unify most of its printing and related service offerings under the single RR Donnelley brand. Additionally, the 2007 charges included \$436.1 million for the impairment of goodwill resulting from the OfficeTiger and Astron acquisitions within the business process outsourcing reporting unit within the International segment and \$26.4 million for the impairment of other long-lived assets, of which \$19.1 million relates to the write-off of capitalized customer contract set-up costs in the business process outsourcing reporting unit. In addition, these charges included \$49.3 million related to workforce reductions of 1,169 employees (all of whom were terminated as of December 31, 2008), associated with actions resulting from the reorganization of certain operations and the exiting of certain business activities. These actions included management changes to simplify and consolidate the management reporting structure and cost structure reductions including the closing of two manufacturing facilities within the U.S. Print and Related Services segment and two manufacturing facilities within the International segment. In addition, \$11.1 million of other restructuring costs, including lease terminations in exited facilities, were recorded for the year ended December 31, 2007. Further, the Company capitalized \$63.7 million of restructuring costs related to employee terminations and other costs in connection with the acquisitions of Banta, Perry Judd's, Von Hoffmann, and Cardinal Brands. Costs of \$55.1 million were for planned workforce reductions of 857 employees, resulting from the elimination of duplicative administrative functions and the planned closure of five operating facilities. Charges of \$8.6 million of other restructuring costs included lease terminations in exited facilities.

The Company made cash payments of \$126.4 million, \$68.9 million and \$112.7 million for restructuring activities during the years ended December 31, 2009, 2008 and 2007, respectively. \$22.2 million of the \$126.4 million paid in 2009 related to the terminated customer contract discussed previously. In addition, during 2009, the Company transferred \$43.7 million to restricted cash within other noncurrent assets on the Consolidated Balance Sheets related to this terminated customer contract. The \$43.7 million, subject to changes in foreign exchange rates, will be paid to the customer in January 2011. Additionally, during January 2010, the Company paid \$57.5 million related to this terminated customer contract. These outlays were all funded using cash generated from operations and cash on hand.

Table of Contents

In 2010, the Company expects to realize further cost savings associated with the restructuring actions taken in 2009 and 2008, primarily through reduced employee and facility costs. The Company expects to identify further cost reduction opportunities within both current and newly acquired businesses and possibly take additional actions in 2010, which may result in significant additional restructuring charges. If these restructuring actions occur, they will be funded by cash generated from operations and cash on hand or, if necessary, the Company will fund these costs by utilizing its credit facilities.

LIQUIDITY AND CAPITAL RESOURCES

The following describes the Company's cash flows for the years ended December 31, 2009, 2008 and 2007.

Cash Flows From Operating Activities

2009 compared to 2008

Net cash provided by operating activities of continuing operations was \$1,425.8 million for the year ended December 31, 2009, compared to \$1,018.8 million for the year ended December 31, 2008. Operating cash inflows are largely attributable to sales of the Company's products and services. Operating cash outflows are largely attributable to recurring expenditures for raw materials, labor, rent, interest, taxes and other activities. The increase in operating cash flow reflects the extending of payment terms on accounts payable, the receipt of income tax refunds of \$164.1 million, reductions in inventories and accounts receivable resulting from volume declines and a focus on improved working capital management, lower incentive compensation payments in 2009 as compared to 2008 and lower income tax payments due to decreased taxable income, partially offset by lower operating earnings driven by significant volume declines.

2008 compared to 2007

Net cash provided by operating activities of continuing operations was \$1,018.8 million for the year ended December 31, 2008, compared to \$1,181.7 million for the year ended December 31, 2007. The decrease in operating cash flow from 2007 reflected higher interest payments from the issuance of approximately \$1.25 billion of debt in January 2007 to fund a portion of the acquisitions of Banta and Perry Judd's, a larger decrease in accounts payable due to the timing of vendor payments, partially offset by a decrease in accounts receivable and lower cash payments for income taxes. The reduction in incentive compensation expense that increased net earnings will impact net cash provided by continuing operations in 2009 as compared to 2008, as most annual incentive compensation is paid in the first quarter of the following year.

Cash Flows From Investing Activities

2009 compared to 2008

Net cash used in investing activities of continuing operations for the year ended December 31, 2009 was \$260.9 million compared to \$351.2 million for the year ended December 31, 2008. Net cash used for acquisition of businesses during 2009 included \$26.6 million for the acquisition of PROSA and Prospectus. For the year ended December 31, 2008, net cash used for acquisitions included \$132.6 million for the acquisition of Pro Line and another smaller acquisition, offset by proceeds of \$10.5 million from purchase price adjustments related to previous acquisitions. The Company received proceeds from the sale of investments and other assets of \$2.2 million during 2009 compared to \$53.2 million during 2008, which included \$27.3 million of net proceeds from the sale of certain investment securities related to the planned liquidation of a captive insurance subsidiary. Capital expenditures were \$195.0 million, a decrease of \$127.9 million compared to 2008, reflecting lower spending on capacity growth due to the significant reduction in production volumes resulting from the global economic slowdown. The Company continues to fund capital expenditures primarily through cash provided by operations. The Company expects that capital expenditures for 2010 will be approximately \$200 million. Finally, the Company transferred \$43.7 million to restricted cash within other noncurrent assets on the Consolidated

Table of Contents

Balance Sheets related to a customer contract termination payment in 2009 and received transfers of \$40.6 million of restricted cash in 2008 primarily due to the release of excess funding from a trust associated with the Company's acquisition of Banta.

2008 compared to 2007

Net cash used in investing activities of continuing operations for the year ended December 31, 2008 was \$351.2 million compared to \$2,510.9 million for the year ended December 31, 2007. Net cash used for acquisition of businesses in the year ended December 31, 2008 included \$132.6 million for the acquisitions of Pro Line and another smaller acquisition, offset by proceeds of \$10.5 million from purchase price adjustments related to previous acquisitions. For the year ended December 31, 2007, net cash used for acquisitions included \$2,052.4 million for the acquisitions of Banta, Perry Judd's, Von Hoffmann and Cardinal Brands. The Company received proceeds from the sale of investments and other assets of \$53.2 million in 2008, which included \$27.3 million of net proceeds from the sale of certain investment securities related to the liquidation of a captive insurance subsidiary. The Company received transfers of \$40.6 million of restricted cash in 2008, of which \$31.7 million related to the release of excess funding from a trust associated with the Company's acquisition of Banta and \$8.9 million was reimbursements from the same trust for payroll tax payments made by the Company. Capital expenditures were \$322.9 million, a decrease of \$159.1 million compared to the year ended December 31, 2007, reflecting lower spending on U.S. capacity growth due to the impact of acquisitions completed in 2007 and lower spending internationally in the Europe, Asia and business process outsourcing platforms. The Company continued to fund capital expenditures primarily through cash provided by operations.

Cash Flows From Financing Activities

2009 compared to 2008

Net cash used in financing activities of continuing operations for the year ended December 31, 2009 was \$1,028.0 million compared to \$678.9 million in 2008. During 2009, the Company received proceeds from the issuance of \$750.0 million of long-term senior notes and repaid \$400.0 million in senior notes that matured April 1, 2009. In addition, the Company repurchased \$466.4 million and \$174.2 million of senior notes maturing January 15, 2012 and May 15, 2010, respectively. Net repayments under the Company's revolving credit facility (the Facility) were \$200.0 million for each of the years ended December 31, 2009 and 2008. The net change in other short-term debt was a cash outflow of \$305.6 million during 2009 primarily due to the pay down of commercial paper. The net change in other short-term debt for the year ended December 31, 2008 was a cash inflow of \$6.8 million due to borrowings under international credit facilities, partially offset by the repayment of commercial paper. Additionally, \$278.8 million was utilized during the year ended December 31, 2008 to acquire 10.0 million shares of common stock under the Company's share repurchase program.

2008 compared to 2007

Net cash used in financing activities of continuing operations for the year ended December 31, 2008 was \$678.9 million compared to net cash provided by financing activities of \$1,471.3 million in 2007. During the year ended December 31, 2007, the Company received proceeds of \$1,244.2 million from an issuance of long-term debt in order to fund a portion of the acquisitions of Banta and Perry Judd's. In 2008, \$1,275.0 million was borrowed under the Facility, while \$1,475.0 million was used to pay down borrowings under the Facility. The net change in short-term debt was a cash inflow of \$6.8 million in the year ended December 31, 2008 due to borrowings under international credit facilities, partially offset by the repayment of commercial paper. The net change in other short-term debt for the year ended December 31, 2007 was a cash inflow of \$282.1 million due to borrowings under the Facility and the issuance of commercial paper related to Banta, Perry Judd's and Von Hoffmann acquisitions. Additionally, \$278.8 million was utilized during the year ended December 31, 2008 to acquire 10.0 million shares of common stock under the Company's share repurchase program, compared to \$309.5 million to acquire approximately 7.7 million shares of common stock in 2007. In the year ended December 31, 2007, the Company received proceeds of \$105.1 million for the exercise of stock options, including excess tax benefits of \$9.6 million.

Table of Contents**Other**

The Company's cash balances are held in numerous locations throughout the world, including substantial amounts held outside of the United States. Most of the amounts held outside of the United States could be repatriated to the United States but, under current law, would be subject to additional United States federal income taxes and in some cases to local country taxes. Repatriation of some foreign balances is restricted by local laws. The Company has no plans to repatriate funds in the near future.

Included in cash and cash equivalents of \$499.2 million at December 31, 2009 were short-term investments in the amount of \$113.3 million, which primarily consist of certificate and short-term deposits and money market funds. These investments are with institutions with sound credit ratings and are believed to be highly liquid.

Dividends

Cash dividends paid to shareholders totaled \$213.6 million, \$219.2 million and \$226.8 million in 2009, 2008 and 2007, respectively. The Company has consistently paid a dividend since becoming a public company in 1956 and currently has no plans to cease or reduce its dividend payments in 2010. The Company believes it will continue to generate sufficient cash flows from operations to pay future dividends that may be approved by the Company's Board of Directors. On January 7, 2010, the Board of Directors of the Company declared a quarterly cash dividend of \$0.26 per common share, payable on March 1, 2010 to shareholders of record on January 22, 2010.

Contractual Cash Obligations and Other Commitments and Contingencies

The following table quantifies our future contractual obligations as of December 31, 2009:

	Total	2010	Payments Due In				Thereafter
			2011	2012	2013	2014	
			(in millions)				
Total debt (1)	\$ 4,977.4	\$ 540.4	\$ 194.0	\$ 348.0	\$ 184.2	\$ 769.5	\$ 2,941.3
Operating leases	625.6	137.4	108.8	84.5	66.5	53.1	175.3
Other (2)	401.1	246.0	116.3	26.0	7.0	5.5	0.3
Total as of December 31, 2009	\$ 6,004.1	\$ 923.8	\$ 419.1	\$ 458.5	\$ 257.7	\$ 828.1	\$ 3,116.9

- (1) Total debt includes \$1,644.4 million of scheduled interest payments, of which the Company expects to pay \$200.5 million in 2010.
- (2) Other represents contractual obligations for outsourced services (\$215.3 million), contract termination payments (\$99.0 million), purchases of property, plant and equipment (\$49.5 million), restructuring-related severance payments (\$20.4 million) and purchases of natural gas (\$12.3 million). The Company has included \$4.6 million of uncertain tax liabilities that are classified as current liabilities on the Consolidated Balance Sheets. Excluded from the table are \$171.8 million of uncertain tax liabilities, as the Company is unable to reasonably estimate the ultimate amount or timing of settlement.
- The Company expects to make cash contributions of approximately \$21.8 million to its pension plans and approximately \$10.5 million to its postretirement benefit plans in 2010, which are not reflected above.

As of December 31, 2009, the Company is authorized under the terms of its share repurchase program to repurchase 10.0 million shares. Such purchases may be made from time to time and discontinued at any time.

Table of Contents**LIQUIDITY**

The Company believes it has sufficient liquidity to support its ongoing operations and to invest in future growth to create value for its shareholders. Operating cash flows are the Company's primary source of liquidity and are expected to be used for, among other things, interest and principal on the Company's debt obligations, capital expenditures as necessary to support productivity improvement and growth, completion of restructuring programs, dividend payments that may be approved by the Board of Directors, additional acquisitions and future common stock or debt repurchases based upon market conditions. As further discussed below, the severe credit crisis has increased the Company's borrowing costs.

Cash and cash equivalents of \$499.2 million as of December 31, 2009 included \$87.3 million that were readily available in the U.S. and \$411.9 million that were available at international locations, most of which is subject to U.S. federal income taxes and some of which is subject to local country taxes if repatriated to the U.S. In addition, repatriation of some foreign cash is further restricted by local laws. The Company maintains a cash pooling structure that enables several participating international locations to draw on the Company's overseas cash resources to meet local liquidity needs. In addition, foreign cash balances may be loaned to U.S. operating entities on a temporary basis in order to reduce the Company's short-term borrowing costs or for other purposes.

The Company has a \$2.0 billion committed revolving credit facility (the Facility) that can be used for general corporate purposes, including letters of credit and as a backstop for the Company's commercial paper program. The Facility is subject to a number of restrictive covenants that, in part, limit the ability of the Company to create liens on assets, engage in mergers and consolidations, or dispose of assets. The financial covenants require a minimum interest coverage ratio and a maximum leverage ratio. Based on the Company's results of operations for the twelve months ended December 31, 2009 and existing term debt structure, as shown in the table below, the Company could utilize approximately \$1.4 billion of the \$2.0 billion Facility and not be in violation of those financial covenants. A further reduction in earnings year over year in 2010 would likely further decrease the amount available under the Facility. However, the Company does not expect the reduction in availability on the Facility to impact its ability to meet its liquidity requirements. In addition, borrowings under the Facility are subject to certain conditions, all of which were met at December 31, 2009. The Company pays an annual commitment fee of 0.10%, and LIBOR plus a spread on borrowings under the Facility. The Facility has a maturity date of January 6, 2012. As of December 31, 2009, there were no borrowings outstanding under the Facility. The Company also has \$138.7 million in credit facilities outside of the U.S., most of which are uncommitted. As of December 31, 2009, the Company had \$44.1 million in outstanding letters of credit, of which \$35.9 million reduced availability under the Facility and \$1.9 million reduced availability under uncommitted facilities outside of the U.S. As of December 31, 2009, there were no borrowings outstanding under the Company's commercial paper program. The failure of a financial institution supporting the Facility would reduce the size of our committed facility unless a replacement institution were added. Currently, the Facility is supported by 17 U.S. and international financial institutions. The current availability on the Facility is shown in the following table:

	December 31, 2009 (in millions)
Availability	
Committed credit facility	\$ 2,000.0
Availability reduction from covenants	562.9
	1,437.1
Usage	
Borrowings	
Letters of credit outstanding	35.9
	35.9
Current availability at December 31, 2009	\$ 1,401.2

Table of Contents

The Company was in compliance with its debt covenants as of December 31, 2009, and is expected to remain in compliance based on management's estimates of operating and financial results for 2010 and the foreseeable future; however, as of December 31, 2009, as shown in the table above, the Company may borrow an additional \$1.4 billion of the \$2.0 billion currently not utilized under the Facility, as borrowings above \$1.4 billion would cause the Company to violate certain debt covenants in the Facility. In addition, the Company met all the conditions required to borrow under the Facility as of December 31, 2009 and management expects the Company to continue to meet the applicable borrowing conditions.

While the credit markets were volatile during the first nine months of 2009, conditions have stabilized during recent months. At times during the year, volatility in the capital markets increased costs associated with issuing commercial paper or other debt instruments due to increased spreads over relevant interest rate benchmarks, or affected the Company's ability to access the credit markets. Despite these adverse market conditions, we believe that current cash balances and cash generated by operations, together with access to external sources of funds described previously, will be sufficient to meet our operating and capital needs in the foreseeable future.

On March 13, 2009, Standard & Poor's Ratings Services lowered the Company's long-term corporate credit and senior unsecured debt ratings to BBB from BBB+ and lowered the Company's short-term credit rating to A-3 from A-2. On April 8, 2009, Moody's Investors Service downgraded the Company's senior unsecured debt ratings to Baa3 from Baa2 while also downgrading the Company's short-term credit rating to P-3 from P-2. The interest margin and the annual commitment fee under the Facility increased by 8 basis points and 2 basis points, respectively, following the downgrade. The downgrades limited the Company's capacity in the commercial paper market, but they did not affect our ability to borrow amounts under the Facility.

On January 14, 2009, the Company issued \$400 million of 11.25% senior notes due February 1, 2019. The Company used the net proceeds to pay down commercial paper and borrowings under the Facility. If the Company experiences a downgrade in its credit ratings below investment grade, these senior notes are subject to an increase from the 11.25% interest rate. The downgrades of the Company's debt ratings described above did not result in an increase in the interest rate for these senior notes. The Company borrowed \$400.0 million in March 2009 under the Facility to repay the April 1, 2009 maturity of \$400 million in senior notes. During the second quarter 2009, the Company repaid the \$400 million of Facility borrowings.

On August 26, 2009, the Company issued \$350 million of 8.60% senior notes due August 15, 2016. The Company used the net proceeds, along with borrowings under the Facility and cash on hand, to repurchase \$466.4 million of the 5.625% senior notes due January 15, 2012 and \$174.2 million of the 4.95% senior notes due May 15, 2010.

In the third quarter of 2009, the Company terminated a significant long-term customer contract in the business process outsourcing reporting unit within the International segment. The Company expects to pay approximately \$121.3 million in related restructuring costs, of which \$22.2 million was paid in the third quarter of 2009, \$57.5 million was paid in January 2010 and \$43.7 million was transferred to restricted cash within other noncurrent assets on the Consolidated Balance Sheets in December 2009 for payment in January of 2011. The January 2011 payment, projected to be \$41.6 million as of December 31, 2009, is subject to changes in foreign exchange rates.

On January 2, 2009, the Company acquired the assets of PROSA, for a purchase price of approximately \$24 million. The Company financed this acquisition with cash on hand.

On March 14, 2008, the Company acquired Pro Line, for a purchase price of approximately \$122 million. The Company financed this acquisition with cash on hand and through issuances of commercial paper.

Table of Contents

For the year ended December 31, 2008, the Company purchased in the open market 10.0 million shares of its common stock at a total cost of \$278.8 million. All of these repurchases were funded with cash on hand and through issuances of commercial paper. As of December 31, 2009, the Company is authorized, under the terms of a share repurchase program approved by the Board of Directors, to repurchase up to 10.0 million shares.

Risk Management

The Company is exposed to interest rate risk on its variable debt and price risk on its fixed-rate debt. As of December 31, 2009, approximately 99.5% of the Company's outstanding term debt was comprised of fixed-rate debt. At December 31, 2009, the Company's exposure to rate fluctuations on variable-interest borrowings was limited to \$15.7 million, most of which were borrowings under international credit facilities.

The Company is exposed to the impact of foreign currency fluctuations in certain countries in which it operates. The exposure to foreign currency movements is limited in most countries because the operating revenues and expenses of its various subsidiaries and business units are substantially in the local currency of the country in which they operate. To the extent that borrowings, sales, purchases, revenues, expenses or other transactions are not in the local currency of the operating unit, the Company is exposed to currency risk and may enter into foreign currency forward contracts to hedge the currency risk. As of December 31, 2009, the aggregate notional amount of outstanding forward contracts was approximately \$437.0 million. Net unrealized losses from these foreign currency contracts were \$5.5 million at December 31, 2009. The Company does not use derivative financial instruments for trading or speculative purposes.

OTHER INFORMATION

Environmental, Health and Safety

For a discussion of certain environmental, health and safety issues involving the Company, see Note 10, *Commitments and Contingencies*, to the Consolidated Financial Statements.

Litigation and Contingent Liabilities

For a discussion of certain litigation involving the Company, see Note 10, *Commitments and Contingencies*, to the Consolidated Financial Statements.

New Accounting Pronouncements and Pending Accounting Standards

During 2009, 2008 and 2007, the Company adopted various accounting standards as described in Note 21, *New Accounting Pronouncements*, to the Consolidated Financial Statements.

Pending standards and their estimated effect on the Company's consolidated financial statements are described in Note 21, *New Accounting Pronouncements*, to the Consolidated Financial Statements.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is exposed to interest rate risk on its variable-rate debt and price risk on its fixed-rate debt. As of December 31, 2009, approximately 99.5% of the Company's outstanding term debt was comprised of fixed-rate debt. At December 31, 2009, the Company's exposure to rate fluctuations on variable-interest borrowings is limited to \$15.7 million.

The Company is exposed to the impact of foreign currency fluctuations in certain countries in which it operates. The exposure to foreign currency movements is limited in most countries because the operating revenues and expenses of its various subsidiaries and business units are substantially in the local currency of the country in which they operate. To the extent borrowings, sales, purchases, revenues, expenses or other

Table of Contents

transactions are not in the local currency of the operating units, the Company is exposed to currency risk and may enter into foreign currency forward contracts to hedge the currency risk. As of December 31, 2009 and 2008, the aggregate notional amount of outstanding forward contracts was approximately \$437.0 million and \$299.4 million, respectively.

As of December 31, 2009, the three-year cumulative inflation for Venezuela using the blended Consumer Price Index and National Consumer Price Index exceeded 100%. As a result, as of January 1, 2010, Venezuela's economy is considered to be highly inflationary and the financial statements of the Company's Venezuelan entity will be remeasured as if the functional currency were the U.S. Dollar. Consistent with historical practices and the Company's future intent, the financial statements will be remeasured based on the official rate. On January 8, 2010, the government of Venezuela changed its primary fixed exchange rate from 2.15 Bolivars per U.S. Dollar to 4.3 Bolivars per U.S. Dollar, devaluing the Bolivar by 50%. This devaluation will result in an estimated pre-tax loss of \$11.1 million and a reduction in income attributable to noncontrolling interests of \$4.7 million. Further devaluations of Venezuela's Bolívar could increase the significance of the remeasurement.

The Company assesses market risk based on changes in interest rates and foreign currency rates utilizing a sensitivity analysis that measures the potential loss in earnings, fair values and cash flows based on a hypothetical 10% change in interest and foreign currency rates. Using this sensitivity analysis, such changes would have an effect of \$3.1 million on foreign currency gains and losses, but would not have a material effect on interest income or expense and cash flows; and would change the fair values of fixed-rate debt at December 31, 2009 and 2008 by approximately \$101.0 million and \$151.9 million, respectively.

Credit Risk

The Company is exposed to credit risk on accounts receivable balances. This risk is mitigated due to the Company's large, diverse customer base, dispersed over various geographic regions and industrial sectors. No single customer comprised more than 10% of the Company's consolidated net sales in 2009, 2008 or 2007. The Company maintains provisions for potential credit losses and any such losses to date have normally been within the Company's expectations. However, as a result of the unprecedented credit crisis and economic downturn in 2008 and 2009, more of the Company's customers experienced liquidity issues during the year, while bankruptcy filings also increased. As a result of these conditions, the Company's bad debt expense increased by \$40.9 million in 2008 compared to 2007; however, bad debt expense decreased \$32.4 million in 2009 compared to 2008, as economic conditions began to stabilize. The Company evaluates the solvency of its customers on an ongoing basis to determine if additional allowances for doubtful accounts need to be recorded, and additional economic disruptions or a further slowdown in the economy could result in significant additional charges.

Commodities

The primary raw materials used by the Company are paper and ink. To reduce price risk caused by market fluctuations, the Company has incorporated price adjustment clauses in certain sales contracts. Management believes a hypothetical 10% change in the price of paper and other raw materials would not have a significant effect on the Company's consolidated annual results of operations or cash flows because these costs are generally passed through to its customers.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The financial information required by Item 8 is contained in Item 15 of Part IV.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

As required by Rule 13a-15(b) and Rule 15d-15(e) of the Securities Exchange Act of 1934, the Company's management, including the Chief Executive Officer and Chief Financial Officer, is responsible for establishing and maintaining effective disclosure controls and procedures, as defined under Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934. As of December 31, 2009, an evaluation was performed under the supervision and with the participation of management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that disclosure controls and procedures as of December 31, 2009 were effective in ensuring information required to be disclosed in this Annual Report on Form 10-K was recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that such information was accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There have not been any changes in the Company's internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934) that occurred during the quarter ended December 31, 2009 that has materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Report of Management on Internal Control Over Financial Reporting

The management of the Company, including the Company's Chief Executive Officer and Chief Financial Officer, is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934).

Management of the Company, including the Company's Chief Executive Officer and Chief Financial Officer, assessed the effectiveness of the Company's internal control over financial reporting as of December 31, 2009. Management based this assessment on criteria for effective internal control over financial reporting described in "Internal Control - Integrated Framework" issued by the Committee of Sponsoring Organizations of the Treadway Commission.

Based on this assessment, management determined that, as of December 31, 2009, the Company maintained effective internal control over financial reporting.

Deloitte & Touche LLP, an independent registered public accounting firm, who audited the consolidated financial statements of the Company included in this Annual Report on Form 10-K, has also audited the effectiveness of the Company's internal control over financial reporting as stated in its report appearing below.

February 24, 2010

Table of Contents

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of

R.R. Donnelley & Sons Company

Chicago, Illinois

We have audited the internal control over financial reporting of R.R. Donnelley & Sons Company and subsidiaries (the Company) as of December 31, 2009, based on criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Report of Management on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2009, based on the criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements as of and for the year ended December 31, 2009 of the Company and our report dated February 24, 2010 expressed an unqualified opinion on those financial statements.

Edgar Filing: RR Donnelley & Sons Co - Form 10-K

- (1) Upon the acquisition of Moore Wallace on February 27, 2004, stock options and units outstanding under certain Moore Wallace plans were exchanged for or converted into stock options and units with respect to

Table of Contents

- common stock of the Company. As of December 31, 2009, 182,200 shares were issuable upon the exercise of stock options with a weighted average exercise price per share of \$12.31. Information regarding these awards is not included in the table.
- (2) Includes 5,408,628 shares issuable upon the vesting of restricted stock units. The performance period for the performance share units previously issued under the Company's 2004 Performance Incentive Plan ended December 31, 2009 and the minimum performance targets for these awards were not reached. Therefore, no shares were awarded pursuant to these units and the units expired per the terms of the awards.
 - (3) Represents the 2000 Broad-Based Incentive Plan and the Moore Wallace 2003 Long-Term Incentive Plan. Includes 266,625 shares issuable upon the vesting of restricted stock units issued under the Moore Wallace 2003 Long-Term Incentive Plan.
 - (4) Restricted stock units were excluded when determining the weighted-average exercise price of outstanding options, warrants and rights.
 - (5) All of these shares are available for issuance under the 2004 Performance Incentive Plan. The 2004 Performance Incentive Plan allows grants in the form of cash or bonus awards, stock options, stock appreciation rights, restricted stock, stock units or combinations thereof. The maximum number of shares of common stock that may be granted with respect to bonus awards, including performance awards or fixed awards in the form of restricted stock or other form, is 10,000,000 in the aggregate, excluding any such awards made pursuant to an employment agreement with a newly-hired Chief Executive Officer of the Company, of which 3,848,895 remain available for issuance.

Moore Wallace 2003 Long-Term Incentive Plan

Upon acquiring Moore Wallace, the Company assumed the Moore Wallace 2003 Long-Term Incentive Plan (2003 LTIP). The shareholders of Moore Wallace previously had approved the 2003 LTIP. Under the 2003 LTIP, all employees of Moore Wallace and its subsidiaries who demonstrated significant management potential or who had the capacity for contributing in a substantial measure to the successful performance of Moore Wallace were eligible to participate in the plan. Awards under the 2003 LTIP consisted of restricted stock or restricted stock units, and also pursuant to the plan, a one-time grant of 85,000 options to purchase common shares of Moore Wallace was issued to a particular employee. The 2003 LTIP is administered by the Board of Directors of the Company which may delegate any or all of its responsibilities to the human resources committee of the Board of Directors. In April 2008, the 2003 LTIP was frozen and no new awards may be made under the plan.

There were 6,300,000 shares of common stock of the Company reserved and authorized for issuance under the 2003 LTIP (as adjusted to reflect the conversion ratio used in the acquisition of Moore Wallace). As of December 31, 2009, there were 266,625 restricted stock units outstanding under the 2003 LTIP. The restricted stock units generally vest equally over a period of four years and are forfeited upon termination of employment prior to vesting (subject in some cases to early vesting upon specified events, including death or permanent disability of the grantee, termination of the grantee's employment under certain circumstances or a change in control).

2000 Broad-Based Stock Incentive Plan

In 2000, the Board of Directors approved the adoption of the 2000 Broad-Based Stock Incentive Plan (2000 Broad-Based Plan) to provide incentives to key employees of the Company and its subsidiaries. Awards under the 2000 Broad-Based Plan were generally not restricted to any specific form or structure and could include, without limitation, stock options, stock units, restricted stock awards, cash or stock bonuses and stock appreciation rights. The 2000 Broad-Based Plan is administered by the human resources committee of the Board of Directors, which may delegate its responsibilities to the chief executive officer or another executive officer. The 2000 Broad-Based Plan was terminated in February 2004 and no new awards may be made under the plan.

Originally, 2,000,000 shares of RR Donnelley common stock were reserved and authorized for issuance under the 2000 Broad-Based Plan. An additional 3,000,000 shares (for an aggregate of 5,000,000 shares) were

Table of Contents

subsequently reserved and authorized for issuance under the 2000 Broad-Based Plan. As of December 31, 2009, options to purchase 666,130 shares of common stock were outstanding under the 2000 Broad-Based Plan. These options have a purchase price equal to the fair market value of a share of common stock at the time of the grant. All of the outstanding options generally vest over a period of three years, are not exercisable unless vested (subject in some cases to early vesting and exercisability upon specified events, including the death or permanent disability of the optionee, termination of the optionee's employment under specified circumstances or a change in control) and generally expire 10 years after the date of grant. No awards other than options were made under the 2000 Broad-Based Plan.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS AND DIRECTOR INDEPENDENCE

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(In millions, except per share data and unless otherwise indicated)

Note 1. Basis of Presentation and Summary of Significant Accounting Policies

Basis of Presentation The accompanying consolidated financial statements include the accounts of R.R. Donnelley & Sons Company and its subsidiaries (the Company or RR Donnelley) and have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). All intercompany transactions have been eliminated in consolidation. The accounts of businesses acquired during 2009, 2008 and 2007 are included in the consolidated financial statements from the dates of acquisition (see Note 2).

Nature of Operations The Company is a global provider of integrated communications which works collaboratively with more than 60,000 customers worldwide to develop custom communications solutions that reduce costs, enhance return on investment and ensure compliance. Drawing on a range of proprietary and commercially available digital and conventional technologies deployed across four continents, the Company employs a suite of leading Internet-based capabilities and other resources to provide premedia, printing, logistics and business process outsourcing products and services to leading clients in virtually every private and public sector.

Use of Estimates The preparation of consolidated financial statements, in conformity with GAAP, requires the extensive use of management s estimates and assumptions that affect the reported assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting periods. Actual results could differ from these estimates. Estimates are used when accounting for items and matters including, but not limited to, allowance for uncollectible accounts receivable, inventory obsolescence, asset valuations and useful lives, employee benefits, self-insurance reserves, taxes, restructuring and other provisions and contingencies.

Foreign Operations Assets and liabilities denominated in foreign currencies are translated into U.S. dollars at the exchange rate existing at the respective balance sheet dates. Income and expense items are translated at the average rates during the respective periods. Translation adjustments resulting from fluctuations in exchange rates are recorded as a separate component of other comprehensive income (loss) within shareholders equity while transaction gains and losses are recorded in net income (loss).

Fair Value Measurements Certain assets and liabilities are required to be recorded at fair value on a recurring basis, while other assets and liabilities are recorded at fair value on a nonrecurring basis, generally as a result of impairment charges. Fair value is determined based on the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. The Company records the fair value of its forward contracts, pension plans and other postretirement plans on a recurring basis. Assets measured at fair value on a nonrecurring basis include long-lived assets held and used, long-lived assets held for sale, goodwill and other intangible assets. The fair value of cash and cash equivalents, accounts receivable, short-term debt and accounts payable approximate their carrying values. The three-tier value hierarchy, which prioritizes the inputs used in the valuation methodologies, is:

Level 1 Valuations based on quoted prices for identical assets and liabilities in active markets.

Level 2 Valuations based on observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data.

Level 3 Valuations based on unobservable inputs reflecting the Company s own assumptions, consistent with reasonably available assumptions made by other market participants.

Revenue Recognition The Company recognizes revenue for the majority of its products upon transfer of title and the passage of the risk of loss, which is generally upon shipment to the customer. Contracts generally

Table of Contents

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(In millions, except per share data and unless otherwise indicated) (Continued)

specify F.O.B. shipping point terms. Under agreements with certain customers, custom products may be stored by the Company for future delivery. In these situations, the Company may receive a logistics or warehouse management fee for the services it provides. In certain of these cases, delivery and billing schedules are outlined in the customer agreement and product revenue is recognized when manufacturing is complete, title and risk of loss transfer to the customer, and there is a reasonable assurance as to collectability. Because the majority of products are customized, product returns are not significant; however, the Company accrues for the estimated amount of customer credits at the time of sale.

Revenue from services is recognized as services are performed. Within the Company's financial print operations, which serve the global financial services end market, the Company produces highly customized materials such as regulatory S-filings, initial public offerings and EDGAR-related services. Revenue is recognized for these services following final delivery of the printed product or upon completion of the service performed. Revenues related to the Company's premedia operations, which include digital content management, photography, color services and page production, are recognized in accordance with the terms of the contract, typically upon completion of the performed service and acceptance by the customer. With respect to the Company's logistics operations, whose operations include the delivery of printed material, the Company recognizes revenue upon completion of the delivery of services. For each of the years ended December 31, 2009, 2008 and 2007, revenue from services was below 10% of the Company's consolidated net sales.

The Company records deferred revenue in situations where amounts are invoiced but the revenue recognition criteria outlined above are not met. Such revenue is recognized when all criteria are subsequently met.

Certain revenues earned by the Company require judgment to determine if revenue should be recorded gross as a principal or net of related costs as an agent. Billings for third-party shipping and handling costs, primarily in the Company's logistics operations, and out-of-pocket expenses are recorded gross. In the Company's Global Turnkey Solutions operations, each contract is evaluated using various criteria to determine if revenue for components and other materials should be recognized on a gross or net basis. In general, these revenues are recognized on a gross basis if the Company has control over selecting vendors and pricing, is the primary obligor in the arrangement, bears all credit risk and bears the risk of loss for inventory in its possession. Revenue from contracts that do not meet these criteria is recognized on a net basis. Many of the Company's operations process materials, primarily paper, that may be supplied directly by customers or may be purchased by the Company and sold to customers. No revenue is recognized for customer-supplied paper, but revenues for Company-supplied paper are recognized on a gross basis.

The Company records taxes collected from customers and remitted to governmental authorities on a net basis.

By-Product Recoveries The Company records the sale of by-products as a reduction of cost of sales.

Cash and cash equivalents and restricted cash equivalents The Company considers all highly liquid investments with original maturities of three months or less to be cash equivalents. Short-term securities consist of investment grade instruments of governments, financial institutions and corporations.

Long-term restricted cash equivalents As of December 31, 2009, \$41.6 million of restricted cash equivalents was held in trust to cover the January 2011 payment related to the termination of a significant long-term customer contract in the business process outsourcing reporting unit within the International segment. The long-term restricted cash equivalent is classified within other noncurrent assets in the Consolidated Balance Sheets.

Table of Contents

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(In millions, except per share data and unless otherwise indicated) (Continued)

Receivables Receivables are stated net of allowances for doubtful accounts and primarily include trade receivables, notes receivable and miscellaneous receivables from suppliers. No single customer comprised more than 10% of the Company's consolidated net sales in 2009, 2008 or 2007. Specific customer provisions are made when a review of significant outstanding amounts, utilizing information about customer creditworthiness and current economic trends, indicates that collection is doubtful. In addition, provisions are made at differing rates, based upon the age of the receivable and the Company's historical collection experience. See Note 5 for details of activity affecting the allowance for doubtful accounts.

Inventories Inventories include material, labor and factory overhead and are stated at the lower of cost or market. The cost of approximately 70.4% and 76.5% of the inventories at December 31, 2009 and 2008, respectively, has been determined using the Last-In, First-Out (LIFO) method. The decrease in this percentage from 2008 is primarily related to inventory reductions in the U.S. This method reflects the effect of inventory replacement costs within results of operations; accordingly, charges to cost of sales reflect recent costs of material, labor and factory overhead. The Company uses an external-index method of valuing LIFO inventories. The remaining inventories, primarily related to certain acquired and international operations, are valued using the First-In, First-Out (FIFO) or specific identification methods.

Long-lived Assets The Company assesses potential impairments to its long-lived assets if events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Indefinite-lived intangible assets are reviewed annually for impairment, or more frequently, if events or changes in circumstances indicate that the carrying value may not be recoverable. An impaired asset is written down to its estimated fair value based upon the most recent information available. Estimated fair market value is generally measured by discounting estimated future cash flows. Long-lived assets, other than goodwill and intangible assets, that are held for sale are recorded at the lower of the carrying value or the fair market value less the estimated cost to sell.

Property, plant and equipment Property, plant and equipment are recorded at cost and depreciated on a straight-line basis over their estimated useful lives. Useful lives range from 15 to 40 years for buildings and from 3 to 15 years for machinery and equipment. Maintenance and repair costs are charged to expense as incurred. Major overhauls that extend the useful lives of existing assets are capitalized. When properties are retired or disposed, the costs and accumulated depreciation are eliminated and the resulting profit or loss is recognized in the results of operations.

Goodwill Goodwill is reviewed annually for impairment as of October 31 or more frequently if events or changes in circumstances indicate that it is more likely than not that the fair value of a reporting unit is below its carrying value. In performing this analysis, the Company compares each reporting unit's fair value, estimated based on comparable company market valuations and expected future discounted cash flows to be generated by the reporting unit, to its carrying value. If the carrying value exceeds the reporting unit's fair value, the Company performs an additional fair value measurement calculation to determine the impairment loss, which is charged to operations in the period identified (see Note 3).

Amortization Certain costs to acquire and develop internal-use computer software are amortized over their estimated useful life using the straight-line method, up to a maximum of five years. Amortization expense related to internally-developed software was \$18.0 million, \$23.5 million and \$27.5 million for the years ended December 31, 2009, 2008 and 2007, respectively. Deferred debt issue costs are amortized over the term of the related debt. Identifiable intangible assets, except for those intangible assets with indefinite lives, are recognized apart from goodwill and are amortized over their estimated useful lives. Identifiable intangible assets with indefinite lives are not amortized.

Financial Instruments The Company uses derivative financial instruments to hedge exposures to interest rate and foreign exchange fluctuations in the ordinary course of business.

Table of Contents

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(In millions, except per share data and unless otherwise indicated) (Continued)

All derivatives are recorded as other assets or other liabilities on the balance sheet at their respective fair values with unrealized gains and losses recorded in comprehensive income (loss), net of applicable income taxes, or in the results of operations, depending on the purpose for which the derivative is held. Changes in the fair value of derivatives that do not meet the criteria for designation as a hedge at inception, or fail to meet the criteria thereafter, are recognized currently in results of operations. At inception of a hedge transaction, the Company formally documents the hedge relationship and the risk management objective for undertaking the hedge. In addition, the Company assesses, both at inception of the hedge and on an ongoing basis, whether the derivative in the hedging transaction has been highly effective in offsetting changes in fair value or cash flows of the hedged item and whether the derivative is expected to continue to be highly effective. The impact of any ineffectiveness is recognized currently in results of operations.

Share-Based Compensation The Company recognizes share-based compensation expense based on estimated fair values for all share-based awards made to employees and directors, including stock options, restricted stock units and performance share units. The Company recognizes compensation expense for share-based awards expected to vest on a straight-line basis over the requisite service period of the award based on their grant date fair value.

Pension and Postretirement Plans The Company records annual income and expense amounts relating to its pension and postretirement plans based on calculations which include various actuarial assumptions, including discount rates, mortality, assumed rates of return, compensation increases, turnover rates and healthcare cost trend rates. The Company reviews its actuarial assumptions on an annual basis and makes modifications to the assumptions based on current rates and trends when it is deemed appropriate to do so. The effect of modifications on the value of plan obligations and assets is recognized immediately within other comprehensive income (loss) and amortized into operating earnings over future periods. The Company believes that the assumptions utilized in recording its obligations under its plans are reasonable based on its experience, market conditions and input from its actuaries and investment advisors. See Note 11 for further discussion.

Taxes on Income Deferred taxes are provided on an asset and liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss carryforwards and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax basis. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. The Company recognizes, as an adjustment to income tax expense, changes in the valuation allowance for acquired deferred tax assets after expiration of the measurement period. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment. The Company is regularly audited by foreign and domestic tax authorities. These audits occasionally result in proposed assessments where the ultimate resolution might result in the Company owing additional taxes, including in some cases, penalties and interest. The Company recognizes a tax position in its financial statements when it is more likely than not (i.e., a likelihood of more than fifty percent) that the position would be sustained upon examination by tax authorities. This recognized tax position is then measured at the largest amount of benefit that is greater than fifty percent likely of being realized upon ultimate settlement. Although management believes that its estimates are reasonable, the final outcome of uncertain tax positions may be materially different from that which is reflected in the Company's financial statements. The Company adjusts such reserves upon changes in circumstances that would cause a change to the estimate of the ultimate liability, upon effective settlement or upon the expiration of the statute of limitations, in the period in which such event occurs. See Note 12 for further discussion.

Comprehensive Income (Loss) Comprehensive income (loss) for the Company consists of net earnings (loss), unrecognized actuarial gains and losses and prior service cost for pension and postretirement benefit plans,

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(In millions, except per share data and unless otherwise indicated) (Continued)**

changes in the fair value of certain derivative financial instruments and foreign currency translation adjustments and is presented in the Consolidated Statements of Shareholders' Equity.

Note 2. Acquisitions**2009 Acquisitions**

On June 18, 2009, the Company acquired Prospectus Central, LLC (Prospectus), an e-delivery company located in Fitzgerald, Georgia. The purchase price for Prospectus was \$3.0 million. Prospectus' s operations are included in the U.S. Print and Related Services segment.

On January 2, 2009, the Company acquired the assets of PROSA, a web printing company located in Santiago, Chile. The purchase price for PROSA was approximately \$23.6 million. PROSA' s operations are included in the International segment.

The operations of these acquired businesses are complementary to the Company' s existing products and services. As a result, the addition of these businesses is expected to improve the Company' s ability to serve customers, increase capacity utilization, and reduce management, procurement and manufacturing costs.

The PROSA and Prospectus acquisitions were recorded by allocating the cost of the acquisitions to the assets acquired, including intangible assets, based on their estimated fair values at the acquisition date. The excess of the cost of the acquisitions over the net amounts assigned to the fair value of the assets acquired was recorded as goodwill, none of which is tax deductible. Based on the valuations, the final purchase price allocations for these 2009 acquisitions are as follows:

Accounts receivable	\$ 2.4
Property, plant and equipment	9.2
Amortizable intangible assets	11.6
Goodwill	6.5
Accounts payable and accrued liabilities	(2.5)
Deferred taxes - net	(0.6)
Net cash paid	\$ 26.6

The fair values of property, plant and equipment, goodwill and intangible assets associated with the acquisitions of PROSA and Prospectus were determined to be Level 3 under the fair value hierarchy. Property, plant and equipment values were estimated based on discussions with machinery and equipment brokers, dealer quotes, and internal expertise related to the equipment and current marketplace conditions. Intangible asset values, including customer relationships and a non-compete agreement, were estimated based on future cash flows and customer attrition rates discounted using an estimated weighted-average cost of capital.

2008 Acquisitions

On March 14, 2008, the Company acquired Pro Line Printing, Inc. (Pro Line), a multi-facility, privately held producer of newspaper inserts headquartered in Irving, Texas. The purchase price for Pro Line was approximately \$122.2 million, net of cash acquired of \$1.7 million and including acquisition costs of \$4.3 million. Pro Line' s operations are included in the U.S. Print and Related Services segment.

The operations of Pro Line are complementary to the Company' s existing retail insert product line. As a result, this acquisition is expected to improve the Company' s ability to serve customers, increase capacity utilization, and reduce management, procurement and manufacturing costs.

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(In millions, except per share data and unless otherwise indicated) (Continued)**

The Pro Line and another immaterial printing-company acquisition were recorded by allocating the cost of the acquisitions to the assets acquired, including intangible assets and liabilities assumed, based on their estimated fair values at acquisition date. The excess of the cost of the acquisitions over the net amounts assigned to the fair value of the assets acquired and the liabilities assumed was recorded as goodwill, none of which is tax deductible. Based on these valuations, the final purchase price allocations are as follows:

Accounts receivable	\$ 17.4
Inventories	7.0
Other current assets	0.7
Property, plant and equipment and other long-term assets	101.8
Amortizable intangible assets	15.5
Goodwill	33.0
Accounts payable and accrued liabilities	(29.9)
Deferred taxes net	(7.0)
Total purchase price net of cash acquired	138.5
Less: debt assumed and not repaid	5.9
Net cash paid	\$ 132.6

2007 Acquisitions

On January 9, 2007, the Company acquired Banta Corporation (Banta), a provider of comprehensive printing and digital imaging solutions to publishers and direct marketers, including digital content management and e-business services. Additionally, Banta provided a wide range of procurement management and other outsourcing capabilities to technology companies. The purchase price for Banta was approximately \$1,352.7 million, net of cash acquired of \$72.9 million and including \$13.9 million of acquisition costs and the assumption of \$17.6 million of Banta's debt. Banta's operations are included in the U.S. Print and Related Services segment, with the exception of its Global Turnkey Solutions operations, which are included in the International segment.

On January 24, 2007, the Company acquired Perry Judd's Holdings Incorporated (Perry Judd's), a provider of consumer and business-to-business catalogs, as well as consumer, trade, and association magazines. The purchase price for Perry Judd's was approximately \$181.5 million, net of cash acquired of \$0.3 million and including acquisition costs of \$2.6 million. Perry Judd's operations are included in the U.S. Print and Related Services segment.

On May 16, 2007, the Company acquired Von Hoffmann, a U.S.-based printer of books and other products that serve primarily the education, trade and business-to-business catalog sectors. The purchase price for Von Hoffmann was approximately \$412.5 million, including acquisition costs of \$7.5 million. Von Hoffmann's operations are included in the U.S. Print and Related Services segment.

On December 27, 2007, the Company acquired Cardinal Brands, Inc. (Cardinal Brands), a designer, developer and manufacturer of document-related business, consumer and hobby products. The purchase price for Cardinal Brands was approximately \$121.6 million, net of cash acquired of \$2.5 million and including acquisition costs of \$3.9 million. Cardinal Brands' operations are included in the U.S. Print and Related Services segment.

The operations of these acquired businesses were complementary to the Company's existing products and services. As a result, the addition of these businesses improved the Company's ability to serve customers, increased capacity utilization and reduced management, procurement and manufacturing costs. These

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(In millions, except per share data and unless otherwise indicated) (Continued)**

acquisitions were recorded by allocating the cost of the assets acquired, including intangible assets and liabilities assumed, based on their estimated fair values at the acquisition dates. The excess of the cost of each acquisition over the net amounts assigned to the fair value of the assets acquired and the liabilities assumed was recorded as goodwill, none of which is tax deductible. Based on these valuations, the final purchase price allocations for all of the businesses acquired in 2007 are as follows:

Restricted cash equivalents	\$ 102.5
Accounts receivable	424.3
Inventories	178.0
Other current assets	11.2
Property, plant and equipment and other long-term assets	586.0
Amortizable and non-amortizable intangible assets	621.1
Goodwill	790.4
Accounts payable and accrued liabilities	(328.5)
Postretirement and pension benefits and other long-term liabilities	(50.2)
Deferred taxes net	(266.5)
Total purchase price net of cash acquired	2,068.3
Less: debt assumed and not repaid	17.6
Net cash paid	\$ 2,050.7

At December 31, 2007, restricted cash equivalents of \$69.9 million, of which \$6.0 million was classified in other noncurrent assets, were held in a trust to cover payments, both current and long-term, due to certain current employees of RR Donnelley and retired and former employees of Banta Corporation. This trust was funded by Banta in October 2006 after Banta received an unsolicited proposal from a third party, other than the Company, to acquire Banta. This unsolicited proposal automatically triggered a requirement for Banta to fund the trust to cover such payments. The trust was originally adopted by the Board of Directors of Banta in 1991.

Pro forma results

The unaudited pro forma financial information for the year ended December 31, 2008 presents the combined results of operations of the Company, PROSA, Prospectus, Pro Line and another immaterial acquisition as if each acquisition had occurred at January 1, 2008. For the year ended December 31, 2009, there was no material impact from pro forma adjustments on net sales or net loss attributable to RR Donnelley common shareholders.

The unaudited pro forma financial information is not intended to represent or be indicative of the Company's consolidated results of operations or financial condition that would have been reported had these acquisitions been completed as of the beginning of the periods presented and should not be taken as indicative of the Company's future consolidated results of operations or financial condition. Pro forma adjustments are tax-effected at the applicable statutory tax rates.

	2008
Net sales	\$ 11,627.2

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(In millions, except per share data and unless otherwise indicated) (Continued)**

The unaudited pro forma financial information for 2008 includes \$125.7 million for the amortization of purchased intangibles and \$1,184.7 million for restructuring and impairment charges.

Note 3. Restructuring and Impairment

The Company recorded restructuring and impairment charges of \$382.7 million, \$1,184.7 million and \$839.0 million in the years ended December 31, 2009, 2008 and 2007, respectively. The charges in 2009 included \$128.5 million for the impairment of goodwill, as well as charges, discounted for future cash payments, of \$118.6 million for the termination of a significant long-term customer contract in the business process outsourcing reporting unit within the International segment, of which \$117.2 million, \$0.8 million and \$0.6 million are reflected in other charges, impairment and employee terminations, respectively. Additionally in 2009, the Company recorded restructuring charges of \$78.8 million for employee termination costs, other restructuring charges, including lease termination and other facility closure costs, of \$32.1 million and \$24.7 million of impairment charges for other long-lived assets. The charges in 2008 included \$1,125.4 million for the impairment of goodwill and intangible assets, as well as \$44.1 million for employee termination costs. Additionally, in 2008, the Company incurred other restructuring charges, including lease termination and other facility closure costs of \$10.6 million, as well as \$4.6 million of impairment charges for other long-lived assets. The charges in 2007 included \$316.1 million for the write-off of the Moore Wallace, OfficeTiger and other trade names associated with the Company's decision in June 2007 to unify most of its printing and related service offerings under the single RR Donnelley brand. In addition, the 2007 charges included \$436.1 million for the impairment of goodwill associated with the business process outsourcing reporting unit within the International segment.

The restructuring charges recorded are based on restructuring plans that have been committed to by management and are, in part, based upon management's best estimates of future events. Changes to the estimates may require future adjustments to the restructuring liabilities.

Restructuring and Impairment Costs Charged to Results of Operations

	Employee Terminations	Other Charges	Total Restructuring	Impairment	Total
2009					
U.S. Print and Related Services	\$ 36.5	\$ 19.2	\$ 55.7	\$ 108.1	\$ 163.8
International	40.5	124.3	164.8	45.9	210.7
Corporate	2.4	5.8	8.2		8.2
	\$ 79.4	\$ 149.3	\$ 228.7	\$ 154.0	\$ 382.7

In the fourth quarter of 2009, the Company recorded a non-cash charge of \$128.5 million to reflect the impairment of goodwill, of which \$93.8 million and \$34.7 million are reflected in the U.S. Print and Related Services and International segments, respectively. The goodwill impairment charges of \$93.8 million and \$34.7 million resulted from reductions in the estimated fair value of the forms and labels and Canada reporting units, respectively, based on lower expectations for revenue due to declines in business and consumer spending and continued price pressure. Because the fair value of these reporting units was below their carrying amounts including goodwill, the Company performed an additional fair value measurement calculation to determine the amount of impairment loss. As part of this impairment calculation, the Company also estimated the fair value of the significant tangible and intangible long-lived assets of each reporting unit.

For the year ended December 31, 2009, the Company also recorded net restructuring and impairment charges, discounted for future cash payments, of \$118.6 million for the termination of a significant long-term

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(In millions, except per share data and unless otherwise indicated) (Continued)**

customer contract in the business process outsourcing reporting unit within the International segment, of which \$117.2 million, \$0.8 million and \$0.6 million are reflected in other charges, impairment and employee terminations, respectively. In addition, for the year ended December 31, 2009, the Company recorded net restructuring charges of \$78.8 million for employee termination costs for 4,043 employees, of whom 3,779 were terminated as of December 31, 2009, associated with actions resulting from the reorganization of certain operations. These actions included the closings of two magazine, catalog and retail insert manufacturing facilities, two book manufacturing facilities and one premedia facility within the U.S. Print and Related Services segment and the closing of two Global Turnkey Solutions manufacturing facilities, one business process outsourcing facility, one Latin America manufacturing facility and one European manufacturing facility within the International segment. Additionally, the Company incurred other restructuring charges, including lease termination and other facility closure costs, of \$32.1 million for the year ended December 31, 2009. Finally, for the year ended December 31, 2009, the Company recorded \$24.7 million of impairment charges primarily for machinery and equipment associated with the facility closings. The fair values of the machinery and equipment were determined to be Level 3 under the fair value hierarchy and were estimated based on discussions with machinery and equipment brokers, dealer quotes, internal expertise related to the equipment and current marketplace conditions.

	Employee Terminations	Other Charges	Total Restructuring	Impairment	Total
2008					
U.S. Print and Related Services	\$ 22.1	\$ 3.7	\$ 25.8	\$ 380.0	\$ 405.8
International	21.6	3.4	25.0	749.7	774.7
Corporate	0.4	3.5	3.9	0.3	4.2
	\$ 44.1	\$ 10.6	\$ 54.7	\$ 1,130.0	\$ 1,184.7

In the fourth quarter of 2008, the Company recorded a non-cash charge of \$1,125.4 million to reflect the impairment of goodwill and intangible assets, of which \$749.0 million and \$376.4 million are reflected in the International and U.S. Print and Related Services segments, respectively. The goodwill impairment charges of \$297.8 million, \$249.4 million, \$152.0 million, \$78.6 million and \$22.3 million resulted from reductions in the estimated fair value of the forms and labels, business process outsourcing, Canada, office products and Global Turnkey Solutions reporting units, respectively, based on lower expectations for revenue, profitability and cash flows resulting primarily from the impacts of the global economic downturn and resultant impacts on the Company's customers. In addition, these reporting units were valued using a higher discount rate applied to estimated future cash flows. The higher discount rates reflect increases in borrowing rates and equity risk premiums implied by market conditions as of October 31, 2008 compared to October 31, 2007. Because the fair values of these reporting units were below their carrying amounts including goodwill, the Company performed an additional fair value measurement calculation to determine the amount of impairment loss. As part of this impairment calculation, the Company also estimated the fair value of the significant tangible and intangible long-lived assets of each reporting unit.

The Company also recorded a non-cash charge of \$325.3 million for the impairment of acquired customer relationships in the business process outsourcing reporting unit. The impairment of these intangible assets resulted from overall declines in contract renewal rates, net sales growth and profit margins compared to prior estimates. These factors were also reflected in the overall decline in value of the reporting unit that caused impairment of its goodwill. After recording the goodwill and intangible asset impairment charges, remaining intangible assets in the business process outsourcing reporting unit were \$24.3 million as of December 31, 2008.

For the year ended December 31, 2008, the Company also recorded net restructuring charges of \$44.1 million, for employee termination costs for 2,245 employees, all of whom were terminated as of December 31, 2009, associated with actions resulting from the reorganization of certain operations and the exiting of certain

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(In millions, except per share data and unless otherwise indicated) (Continued)**

business activities. These actions included the realignment and consolidation of the Canadian organization, management reorganization within Latin America, the closing of two Global Turnkey Solutions manufacturing facilities within the International segment and the realignment and consolidation of financial print organizations in the U.S. Print and Related Services and International segments. Additionally, the Company incurred other restructuring charges, including lease termination and other facility closure costs of \$10.6 million for the year ended December 31, 2008. Finally, for the year ended December 31, 2008, the Company recorded \$4.6 million of impairment charges for other long-lived assets.

	Employee Terminations	Other Charges	Total Restructuring	Impairment	Total
2007					
U.S. Print and Related Services	\$ 21.0	\$ 2.5	\$ 23.5	\$ 261.6	\$ 285.1
International	20.3	3.8	24.1	514.6	538.7
Corporate	8.0	4.8	12.8	2.4	15.2
	\$ 49.3	\$ 11.1	\$ 60.4	\$ 778.6	\$ 839.0

In the fourth quarter of 2007, the Company recorded a non-cash charge of \$436.1 million to reflect impairment of goodwill in the business process outsourcing reporting unit within the International segment. As part of its annual impairment analysis for this reporting unit, the Company determined the fair value of the unit, in part based on estimates of future cash flows. The estimated future cash flows of this reporting unit reflected a reduction in the fair value of the business based on lower expectations for growth and profitability, resulting primarily from increased price competition for significant new contracts. Because the fair value of the reporting unit was below its carrying amount including goodwill, the Company performed an additional fair value measurement calculation to determine the amount of impairment loss. As part of this impairment calculation, the Company also estimated the fair value of the significant tangible and intangible long-lived assets of the reporting unit.

For the year ended December 31, 2007, the Company also recorded \$342.5 million for impairment of other assets, of which \$316.1 million reflects the write-off of the Moore Wallace, OfficeTiger and other trade names associated with the Company's decision in June 2007 to unify most of its printing and related service offerings under the single RR Donnelley brand. Additionally, \$26.4 million relates to the impairment of other long-lived assets, of which \$19.1 million relates to the write-off of capitalized customer contract set-up costs in the business process outsourcing reporting unit. In addition, charges of \$49.3 million were recorded related to workforce reductions of 1,169 employees (all of whom were terminated as of December 31, 2009), associated with actions resulting from the reorganization of certain operations and the exiting of certain business activities. These actions include management changes to simplify the management reporting structure and cost structure reductions including the closing of two manufacturing facilities within the U.S. Print and Related Services segment and two manufacturing facilities within the International segment. In addition, \$11.1 million of other restructuring costs, which included lease terminations in exited facilities, were recorded for the year ended December 31, 2007.

Restructuring Costs Capitalized as a Cost of Acquisition

During 2008 and 2007, the Company recorded \$2.1 million and \$63.7 million, respectively of restructuring costs related to employee terminations and other costs in connection with the acquisitions of Pro Line, Cardinal Brands, Banta, Perry Judd's and Von Hoffman.

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(In millions, except per share data and unless otherwise indicated) (Continued)*****Restructuring Reserve***

Activity impacting the Company's restructuring reserve for the year ended December 31, 2009 is as follows:

	December 31, 2008	Restructuring Costs Charged to Results of Operations	Foreign Exchange and Other	Cash Paid	December 31, 2009
Employee terminations	\$ 23.5	\$ 79.4	\$ 0.5	\$ 83.0	\$ 20.4
Other	11.1	149.3	3.5	43.4	120.5
Total	\$ 34.6	\$ 228.7	\$ 4.0	\$ 126.4	\$ 140.9

\$92.2 million of the restructuring reserve is current and included in accrued liabilities at December 31, 2009, while the long-term portion of \$48.7 million, primarily related to the termination of the significant long-term customer contract referred to above and lease termination costs, is included in other noncurrent liabilities at December 31, 2009.

The Company anticipates payments associated with employee terminations will be substantially completed by the end of 2010.

The restructuring liabilities classified as "other" consist of the estimated remaining payments related to the termination of the significant long-term customer contract referred to above, lease termination costs and other facility closing costs. The Company paid \$57.5 million in January 2010 and expects to pay approximately \$41.6 million as of December 31, 2009, subject to changes in foreign exchange rates, in January 2011, related to the termination of the significant long-term customer contract. The Company transferred funds to long-term restricted cash within other noncurrent assets in December 2009 for the January 2011 payment. Payments on certain lease obligations are scheduled to continue until 2017. Market conditions and the Company's ability to sublease these properties could affect the ultimate charge related to these lease obligations. Any potential recoveries or additional charges could affect amounts reported in the Consolidated Financial Statements of future periods.

(In millions, except per share data and unless otherwise indicated) (Continued)

Note 4. Goodwill and Other Intangible Assets

The changes in the carrying amount of goodwill for the year ended December 31, 2009 and 2008 was as follows:

	U.S. Print and Related Services	International	Total
Net book value at January 1, 2008			
Goodwill	\$ 2,952.5	\$ 1,317.2	\$ 4,269.7
Accumulated impairment losses	(408.0)	(596.8)	(1,004.8)
Total	2,544.5	720.4	3,264.9
Acquisitions	33.1		33.1
Foreign exchange and other adjustments	(7.8)	(64.2)	(72.0)
Impairment charge	(376.4)	(423.7)	(800.1)
Net book value at December 31, 2008			
Goodwill	2,977.8	1,253.0	4,230.8
Accumulated impairment losses	(784.4)	(1,020.5)	(1,804.9)
Total	2,193.4	232.5	2,425.9
Acquisitions		6.5	6.5
Foreign exchange and other adjustments	(0.2)	29.6	29.4
Impairment charges	(93.8)	(34.7)	(128.5)
Net book value at December 31, 2009			
Goodwill	2,977.6	1,289.1	4,266.7
Accumulated impairment losses	(878.2)	(1,055.2)	(1,933.4)
Total	\$ 2,099.4	\$ 233.9	\$ 2,333.3

In the fourth quarters of 2009 and 2008, the Company recorded non-cash charges of \$128.5 million and \$800.1 million, respectively, to reflect impairment of goodwill. See Note 3 for further discussion regarding these impairment charges. Also, during the third quarter of 2008, the Company finalized its valuation of certain tax contingencies related to the 2006 acquisition of OfficeTiger. As a result, the Company recorded reductions of \$15.0 million to goodwill and accrued liabilities. OfficeTiger's operations are included in the International segment.

The components of other intangible assets at December 31, 2009 and 2008 were as follows:

	December 31, 2009			December 31, 2008		
	Gross Carrying Amount(1)	Accumulated Amortization(1)	Net Book Value	Gross Carrying Amount(1)	Accumulated Amortization(1)	Net Book Value

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(In millions, except per share data and unless otherwise indicated) (Continued)**

(1) Includes foreign exchange. Certain prior year amounts have been reclassified to reflect the Company's current presentation of intangible assets.

In the fourth quarter of 2008, the Company recorded a non-cash charge of \$325.3 million to reflect impairment of customer relationship intangible assets in the business process outsourcing reporting unit.

During the years ended December 31, 2009 and 2008, the Company recorded additions to intangible assets of \$11.6 million and \$17.3 million, respectively. The components of other intangible assets acquired during 2009 and 2008 were as follows:

	December 31, 2009		December 31, 2008	
	Amount	Weighted Average Amortization Period	Amount	Weighted Average Amortization Period
Trademarks, licenses and agreements	\$ 3.6	5.5	\$	
Customer relationship intangibles	8.0	8.0	15.6	6.4
Indefinite-lived trade names			1.7	
Total additions	\$ 11.6		\$ 17.3	

Amortization expense for other intangibles was \$99.1 million, \$123.3 million and \$119.7 million for the years ended December 31, 2009, 2008 and 2007, respectively. The following table outlines the estimated future amortization expense related to intangible assets as of December 31, 2009:

	Amount
2010	\$ 99.0
2011	98.1
2012	85.4
2013	83.1
2014	80.6
2015 and thereafter	283.1
Total	\$ 729.3

Note 5. Accounts Receivable

Transactions affecting the allowance for doubtful accounts during the years ended December 31, 2009, 2008 and 2007 were as follows:

	2009	2008	2007
Balance, beginning of year	\$ 80.5	\$ 63.6	\$ 79.8
Provisions charged to expense	19.7	52.1	11.2
Write-offs and other	(29.9)	(35.2)	(27.4)

Edgar Filing: RR Donnelley & Sons Co - Form 10-K

Balance, end of year	\$ 70.3	\$ 80.5	\$ 63.6
----------------------	---------	---------	---------

F-18

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(In millions, except per share data and unless otherwise indicated) (Continued)****Note 6. Inventories**

The components of the Company's inventories at December 31, 2009 and 2008 were as follows:

	2009	2008
Raw materials and manufacturing supplies	\$ 229.9	\$ 311.3
Work in process	190.1	183.2
Finished goods	219.6	296.6
LIFO reserve	(77.8)	(95.4)
Total	\$ 561.8	\$ 695.7

The Company recognized a LIFO benefit of \$17.6 million in 2009 and LIFO expense of \$30.6 million and \$0.4 million in 2008 and 2007, respectively.

Note 7. Property, Plant and Equipment

The components of the Company's property, plant and equipment at December 31, 2009 and 2008 were as follows:

	2009	2008
Land	\$ 89.6	\$ 91.6
Buildings	1,140.0	1,143.1
Machinery and equipment	6,001.7	5,935.3
	7,231.3	7,170.0
Less: Accumulated depreciation	(4,959.9)	(4,606.0)
Total	\$ 2,271.4	\$ 2,564.0

During the years ended December 31, 2009, 2008 and 2007, depreciation expense was \$461.6 million, \$493.8 million and \$451.1 million, respectively.

Assets Held for Sale

Primarily as a result of restructuring actions, certain facilities and equipment are considered held for sale. The net book value of assets held for sale was \$8.7 million and \$5.9 million at December 31, 2009 and 2008, respectively, which were included in current assets in the Consolidated Balance Sheets at December 31, 2009 and 2008 at the lower of their historical net book value or their estimated fair value, less estimated costs to sell.

Note 8. Fair Value Measurement

Certain assets and liabilities are required to be recorded at fair value on a recurring basis. The Company's only assets and liabilities adjusted to fair value on a recurring basis are forward contracts which are valued using market exchange rates. See Note 14 for further discussion on the fair value of the Company's forward contracts as of December 31, 2009 and 2008.

Edgar Filing: RR Donnelley & Sons Co - Form 10-K

In addition to assets and liabilities that are recorded at fair value on a recurring basis, the Company is required to record certain assets and liabilities at fair value on a nonrecurring basis, generally as a result of acquisitions or impairment charges. See Note 2 for further discussion on the fair value of assets and liabilities

F-19

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(In millions, except per share data and unless otherwise indicated) (Continued)**

associated with acquisitions. Assets measured at fair value on a nonrecurring basis subsequent to initial recognition and still held at December 31, 2009 are summarized below:

	Impairment charge	Fair value measurement (Level 3)	December 31, 2009 net book value
Long-lived assets held and used(1)	\$ 20.2	\$ 4.0	\$ 3.8
Long-lived assets held for sale(2)	5.0	6.5	6.1
Goodwill(3)	128.5	184.2	184.9
Total	\$ 153.7	\$ 194.7	\$ 194.8

- (1) Long-lived assets held and used with a carrying amount of \$24.2 million were written down to their fair value of \$4.0 million, resulting in an impairment charge of \$20.2 million for the year. The fair values of machinery and equipment, used for measuring impairment, were determined using Level 3 inputs and were estimated based on discussions with machinery and equipment brokers, dealer quotes and internal expertise related to equipment and current marketplace conditions.
- (2) Long-lived assets held for sale with a carrying amount of \$11.1 million were written down to their fair value of \$6.5 million, less costs to sell of \$0.4 million, resulting in an impairment charge of \$5.0 million and a net book value of \$6.1 million. The fair values of the land and buildings classified as held for sale were determined using Level 3 inputs and were estimated based on discussions with real estate brokers, review of comparable properties, if available, and internal expertise related to the current marketplace conditions.
- (3) Goodwill for the forms and labels and Canada reporting units with a carrying amount of \$257.4 million and \$55.3 million, respectively, was written down to its implied fair value of \$163.6 million and \$20.6 million, respectively, resulting in a combined impairment charge of \$128.5 million for the year. The determination of the goodwill impairment was based on Level 3 inputs, which included discounted cash flow analyses, comparable marketplace fair value data, as well as management's assumptions in valuing significant tangible and intangible assets. See Note 3 for further discussion on the factors leading to the recognition of the impairment.

See Note 11 for the fair value of the Company's pension and other postretirement plan assets and Note 13 for the fair value of the Company's debt.

Note 9. Accrued Liabilities

The components of the Company's accrued liabilities at December 31, 2009 and 2008 were as follows:

	2009	2008
Employee-related liabilities	\$ 202.7	\$ 231.6
Restructuring liabilities	92.2	30.0
Deferred revenue	151.4	153.5
Other	367.1	380.6
Total accrued liabilities	\$ 813.4	\$ 795.7

Employee-related liabilities consist primarily of payroll, incentive compensation, sales commission and employee benefit accruals. Other accrued liabilities include income and other tax liabilities, interest expense accruals and miscellaneous operating accruals. The increase in restructuring liabilities is related to the termination of the long-term customer contract. The Company paid \$57.5 million of this liability in

January 2010.

F-20

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(In millions, except per share data and unless otherwise indicated) (Continued)****Note 10. Commitments and Contingencies**

As of December 31, 2009, authorized expenditures on incomplete projects for the purchase of property, plant and equipment totaled approximately \$54.5 million. Of this total, approximately \$49.5 million has been committed. In addition, as of December 31, 2009, the Company has a commitment of \$20.4 million for severance payments related to restructuring activities and \$99.0 million for the termination of the long-term customer contract, of which \$57.5 million was paid in January 2010 and \$41.6 million, subject to changes in foreign exchange rates, will be paid in January 2011. The Company transferred \$43.7 million to restricted cash within other noncurrent assets on the Consolidated Balance Sheets in December 2009 for the January 2011 payment. The Company also has contractual commitments of approximately \$215.3 million for outsourced services, including technology, professional, maintenance and other services. The Company has a variety of contracts with suppliers for the purchase of paper, ink and other commodities for delivery in future years at prevailing market prices. As of December 31, 2009, the Company was committed to purchase \$12.3 million of natural gas under these contracts.

Future minimum rental commitments under non-cancelable operating leases are as follows:

Year Ended December 31	Amount
2010	\$ 137.4
2011	108.8
2012	84.5
2013	66.5
2014 and thereafter	228.4
	\$ 625.6

The Company has non-cancelable operating lease commitments totaling \$625.6 million extending through various periods to 2052. Rent expense was \$215.0 million, \$219.8 million and \$219.3 million in the years ended December 31, 2009, 2008 and 2007, respectively.

Litigation

The Company is subject to laws and regulations relating to the protection of the environment. The Company provides for expenses associated with environmental remediation obligations when such amounts are probable and can be reasonably estimated. Such accruals are adjusted as new information develops or circumstances change and are not discounted. The Company has been designated as a potentially responsible party in twelve federal and state Superfund sites. In addition to the Superfund sites, the Company may also have the obligation to remediate five other previously owned facilities and three other currently owned facilities. At the Superfund sites, the Comprehensive Environmental Response, Compensation and Liability Act provides that the Company's liability could be joint and several, meaning that the Company could be required to pay an amount in excess of its proportionate share of the remediation costs. The Company's understanding of the financial strength of other potentially responsible parties at the Superfund sites and of other liable parties at the previously owned facilities has been considered, where appropriate, in the determination of the Company's estimated liability. The Company established reserves, recorded in accrued liabilities and other noncurrent liabilities, that it believes are adequate to cover its share of the potential costs of remediation at each of the Superfund sites and the previously and currently owned facilities. While it is not possible to quantify with certainty the potential impact of actions regarding environmental matters, particularly remediation and other compliance efforts that the Company may undertake in the future, in the opinion of management, compliance with the present environmental protection laws, before taking into account estimated recoveries from third parties, will not have a material adverse effect on the Company's consolidated annual results of operations, financial position or cash flows.

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(In millions, except per share data and unless otherwise indicated) (Continued)**

From time to time, the Company's customers and others file voluntary petitions for reorganization under United States bankruptcy laws. In such cases, certain pre-petition payments received by the Company could be considered preference items and subject to return. In addition, the Company may be party to certain litigation arising in the ordinary course of business. Management believes that the final resolution of these preference items and litigation will not have a material adverse effect on the Company's consolidated annual results of operations, financial position or cash flows.

Note 11. Retirement Plans

The Company sponsors various funded and unfunded pension plans for most of its full-time employees in the U.S., Canada and certain international locations. The Company also participates in various multi-employer pension plans. Benefits are generally based upon years of service and compensation. These plans are funded in conformity with the applicable government regulations. The Company funds at least the minimum amount required for all qualified plans using actuarial cost methods and assumptions acceptable under government regulations. Most of the Company's regular full-time U.S. employees become eligible for these benefits at or after reaching age 50 while working for the Company and having 5 years of vested service.

In addition to pension benefits, the Company provides certain healthcare and life insurance benefits for retired employees. Most of the Company's regular full-time U.S. employees become eligible for these benefits at or after reaching age 55 if working for the Company and having 10 years of continuous service. For employees who began employment with the Company prior to January 1, 2002, the Company subsidizes coverage and funds liabilities associated with these plans through a tax-exempt trust. The assets of the trust are invested in trust-owned life insurance policies covering certain employees of the Company. The underlying assets of the policies are invested primarily in marketable equity, corporate fixed income and government securities.

The pension and postretirement obligations are calculated using generally accepted actuarial methods and are measured as of December 31. Actuarial gains and losses are amortized using the corridor method over the average remaining service life of active plan participants.

The components of the net periodic benefit expense (income) and total expense (income) are as follows:

	Pension Benefits			Postretirement Benefits		
	2009	2008	2007	2009	2008	2007
Service cost	\$ 70.1	\$ 86.3	\$ 93.1	\$ 10.3	\$ 12.4	\$ 12.6
Interest cost	177.6	168.8	153.2	31.0	30.3	29.1
Expected return on plan assets	(256.2)	(267.3)	(243.4)	(15.5)	(16.3)	(15.2)
Amortization of prior service credit	(5.3)	(5.2)	(7.3)	(14.6)	(14.6)	(14.6)
Amortization of actuarial loss	8.9	0.6	3.8	(2.6)	0.1	5.5
Net periodic benefit expense (income)	(4.9)	(16.8)	(0.6)	8.6	11.9	17.4
Curtailments		(0.1)	(5.2)			
Special termination benefit cost			0.6			
Total expense (income)	\$ (4.9)	\$ (16.9)	\$ (5.2)	\$ 8.6	\$ 11.9	\$ 17.4

Weighted average assumption used to calculate net periodic benefit expense:

Discount rate	6.8%	6.4%	5.7%	6.9%	6.3%	5.8%
Rate of compensation increase	4.0%	4.0%	4.0%	4.0%	4.0%	4.0%
Expected return on plan assets	8.3%	8.3%	8.4%	8.0%	8.0%	7.6%

The following provides a reconciliation of the benefit obligation, plan assets and the funded status of the pension and postretirement plans as of December 31, 2009 and 2008:

	Pension Benefits		Postretirement Benefits	
	2009	2008	2009	2008
Benefit obligation at beginning of year	\$ 2,672.8	\$ 2,702.4	\$ 466.9	\$ 500.2
Service cost	70.1	86.3	10.3	12.4
Interest cost	177.6	168.8	31.0	30.3
Plan participants' contributions	1.3	1.8	19.5	22.0
Medicare reimbursements			3.0	3.3
Acquisitions and other		40.2		
Actuarial loss (gain)	348.9	(64.8)	24.8	(46.7)
Curtailments and settlements		(17.4)		
Foreign currency translation	39.8	(85.1)	3.9	(5.2)
Benefits paid	(142.4)	(159.4)	(45.7)	(49.4)
Benefit obligation at end of year	\$ 3,168.1	\$ 2,672.8	\$ 513.7	\$ 466.9
Fair value of plan assets at beginning of year	\$ 2,191.4	\$ 3,384.6	\$ 160.2	\$ 232.0
Actual return on assets	548.6	(1,031.4)	20.7	(65.8)
Acquisitions and other	(0.3)	41.7		
Employer contributions	22.2	39.8	24.9	21.4
Plan participants' contributions	1.3	1.8	22.5	22.0
Settlements		(17.4)		
Foreign currency translation	33.6	(68.3)		
Benefits paid	(142.4)	(159.4)	(45.7)	(49.4)
Fair value of plan assets at end of year	\$ 2,654.4	\$ 2,191.4	\$ 182.6	\$ 160.2
Funded status at end of year	\$ (513.7)	\$ (481.4)	\$ (331.1)	\$ (306.7)

The accumulated benefit obligation for all defined benefit pension plans was \$3,091.3 million and \$2,616.7 million at December 31, 2009 and December 31, 2008, respectively.

Amounts recognized on the Consolidated Balance Sheets as of December 31, 2009 and 2008 are reflected in the following table.

	Pension Benefits		Postretirement Benefits	
	2009	2008	2009	2008
Prepaid pension cost (included in other noncurrent assets)	\$ 1.8	\$ 15.6	\$	\$
Accrued benefit cost (included in accrued liabilities)	(5.7)	(5.5)	(6.6)	(14.8)
Pension liability	(509.8)	(491.5)		
Postretirement benefits			(324.5)	(291.9)
Net liability recognized in the consolidated balance sheets	\$ (513.7)	\$ (481.4)	\$ (331.1)	\$ (306.7)

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(In millions, except per share data and unless otherwise indicated) (Continued)**

The amounts in accumulated other comprehensive loss on the Consolidated Balance Sheets, excluding tax effects, that have not yet been recognized as components of net periodic benefit cost at December 31, 2009 and 2008 are as follows:

	Pension Benefits		Postretirement Benefits	
	2009	2008	2009	2008
Accumulated other comprehensive (income) loss				
Net actuarial loss	\$ 1,102.8	\$ 1,046.3	\$ 46.8	\$ 25.5
Net transition obligation	0.3	0.2		
Net prior service credit	(48.3)	(53.6)	(38.6)	(53.2)
Total	\$ 1,054.8	\$ 992.9	\$ 8.2	\$ (27.7)

The amounts recognized in other comprehensive income in 2009 as components of net periodic benefit costs are as follows:

	Pension Benefits	Postretirement Benefits
Amortization of:		
Net actuarial (gain) loss	\$ (8.9)	\$ 2.6
Net prior service credit	5.3	14.6
Amounts arising during the period:		
Net actuarial loss	55.4	19.6
Foreign currency loss (gain)	10.1	(0.9)
Total	\$ 61.9	\$ 35.9

Actuarial gains and losses in excess of 10% of the greater of the projected benefit obligation or the market-related value of plan assets are recognized as a component of net periodic benefit costs over the average remaining service period of a plan's active employees. Unrecognized prior service costs or credit are also recognized as a component of net periodic benefit cost over the average remaining service period of a plan's active employees. The amounts in accumulated other comprehensive income that are expected to be recognized as components of net periodic benefit costs over the next year are shown below:

	Pension Benefits	Postretirement Benefits
Amortization of:		
Net actuarial loss	\$ 30.8	\$ 1.3
Net prior service credit	(5.3)	(10.8)
Total	\$ 25.5	\$ (9.5)
