PROXY STATEMENT

Annual Meeting of Shareholders

to be held May 17, 2010

Date, Time, Place and Purpose of Annual Meeting

This 2010 Proxy Statement (the "Proxy Statement") is furnished in connection with the solicitation of proxies by the Board of Directors of Northwest Bancorporation, Inc. (the "Company") for use at the Annual Meeting of Shareholders of the Company to be held on Monday, May 17, 2010, at 5:30 p.m. (local time), at the facilities of Inland Northwest Bank situated at 421 West Riverside Avenue, Spokane, Washington, or any adjournments or postponements thereof. At the meeting, shareholders will be asked to elect each of the nominees for the Board of Directors, to ratify the appointment of Moss Adams, LLP ("Moss Adams") as the independent registered public accounting firm for the Company for 2010 and to consider and approve an advisory resolution approving the Company's executive compensation.

Record Date; Outstanding Shares; Shares Entitled to Vote

The Board of Directors is sending this Proxy Statement and the enclosed proxy card on or about April 16, 2010, to shareholders of record as of the close of business on March 31, 2010 (the "Record Date"). Shareholders as of the Record Date are entitled to notice of, and to vote at, the Annual Meeting or any adjournments or postponements thereof. As of March 31, 2010, the Company had 2,380,793 shares of common stock issued and outstanding, held by 573 shareholders of record, including shares held for 159 beneficial shareholders by 29 non-affiliated depositories. Each share of common stock outstanding on the Record Date for the Annual Meeting entitles the holder thereof to one vote on each matter to be voted on at the Annual Meeting (in the case of the election of directors, one vote for each director position up for election). Shareholders of the Company are not entitled to exercise cumulative voting rights in the election of directors.

Voting of Proxies; Quorum

The enclosed proxy, if properly signed and returned, will be voted in accordance with the instructions specified thereon. If no instructions are specified, the enclosed proxy will be voted FOR (1) the five nominees for director, (2) the ratification of the appointment of Moss Adams, LLP as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2010, and (3) the non-binding resolution approving the Company's executive compensation. A shareholder who has delivered a proxy may revoke it at any time before it is exercised by filing an instrument of revocation with the Secretary of the Company or by delivering a duly signed proxy bearing a later date. A proxy may also be revoked by attending the Annual Meeting and notifying the Secretary that the shareholder intends to vote in person. Attendance at the Annual Meeting without requesting the opportunity to vote in person will not constitute the revocation of a proxy.

The holders of a majority of the shares outstanding on the Record Date for the Annual Meeting, present in person or represented by proxy, will constitute a quorum for the transaction of business at the Annual Meeting. The favorable vote of a majority of the votes cast at the Annual Meeting is necessary for the election of the five persons as directors, the ratification of the appointment of the independent accounting firm and

Edgar Filing: NORTHWEST BANCORPORATION INC - Form DEF 14A

approval of the advisory resolution approving the Company's executive compensation. Abstentions and broker non-votes will be counted as shares that are present at the Annual Meeting for purposes of determining a quorum. Abstentions and broker non-votes, however, will not be counted as either votes for or against any item. There are no dissenters' rights applicable to any matters to be considered at the Annual Meeting.

Table of Contents

Effect of Not Casting Your Vote

If you hold your shares in street name, it is critical that you cast your vote if you want it to count for the election of directors as described in Proposal 1 of this proxy statement. In the past, if you held your shares in street name and you did not indicate how you wanted your shares voted in the election of directors, your bank or broker was allowed to vote those shares on your behalf in the election of directors as they felt appropriate. Recent regulatory changes take away the ability of your bank or broker to vote your uninstructed shares in the election of directors on a discretionary basis. Therefore, if you hold your shares in street name and you do not instruct your bank or broker how to vote in the election of directors, no votes will be cast on your behalf for the election of directors.

Voting Electronically via Internet or Telephone

A large number of banks and brokerage firms provide shareholders whose shares are registered in the name of such firms the opportunity to vote via the Internet or by telephone. The voting form sent to a beneficial owner will provide instructions if such options are available.

Expenses of Proxy Solicitation

The expense of preparing, printing and mailing this proxy statement and the proxies solicited hereby will be borne by the Company. Proxies will be solicited on behalf of the Company by mail and may also be solicited by directors, officers and other employees of the Company or the Company's bank subsidiary, Inland Northwest Bank (the Bank), without additional remuneration, in person or by telephone or facsimile transmission. The Company will also request brokerage firms, banks, nominees, custodians and fiduciaries to forward proxy materials to the beneficial owners of shares of common stock as of the Record Date and will reimburse such persons for the cost of forwarding the proxy materials in accordance with customary practice. Your cooperation in promptly voting your shares and submitting your proxy by completing and returning the enclosed proxy card will help to avoid additional expense.

Important Notice Regarding the Availability of Proxy Materials for the Shareholder Meeting To Be Held on May 17, 2010. The 2010 Proxy Statement, 2010 Proxy Card and Annual Report to Shareholders for the year ended December 31, 2009 are also available at www.inb.com.

Shareholders of record as of the Record Date are encouraged and cordially invited to attend the 2010 Annual Meeting of Shareholders. Please call Lisa A. Sanborn, Secretary of the Company, at (509) 456-8888 for directions to attend the Annual Meeting in person.

Table of Contents**PROPOSAL 1. ELECTION OF DIRECTORS****Composition of Board of Directors and Staggered Terms**

Director Independence

The Board has analyzed the independence of each director and nominee and has determined that each of the members of the Board listed below is an independent director as that term is defined by the rules of the NASDAQ Stock Market (NASDAQ) and the SEC, and that each director is free of relationships that would interfere with the individual exercise of independent judgment. In determining the independence of each director, the Board of Directors considered many factors, including any loans made to a director, each of which were made on the same terms as comparable lending transactions with other persons. Such arrangements are discussed in detail in the section entitled *Transactions with Management and Others*.

Based on these standards, the Board determined that each of the following non-employee directors, including nominated and continuing directors, is independent and has no relationship with the Company, except as a director and shareholder:

Dwight B. Aden, Jr.

Anthony D. Bonanzino

Katie Brodie

Harlan D. Douglass

Freeman B. Duncan

Donald A. Ellingsen

Clark H. Gemmill

Bryan S. Norby

Frederick M. Schunter

William E. Shelby

Jennifer P. West

Board Leadership Structure and Risk Oversight Role

The role of Chairman of the Board and President/Chief Executive Officer of the Company are not currently held by the same person. The Chairman has never been an officer or employee of the Company or the Bank and is considered an independent director as defined by the rules of NASDAQ. A separation of the Chairman of the Board and President/Chief Executive Officer roles is not mandated by any provision of law or our Articles of Incorporation or Bylaws, but the Board of Directors currently believes that this structure provides for an appropriate balance of authority between management and the Board. The Board of Directors reserves the right to establish a different structure in the future.

The Board of Directors of the Company, all of the members of which are also members of the Board of Directors of the Bank, is actively involved in the Company and the Bank's risk oversight activities, through the work of numerous committees of the Company and the Bank, and the policy approval function of the Board of Directors of the Bank.

Table of Contents

Director Qualifications, Experience and Diversity

The Nominating and Corporate Governance Committee reviews certain attributes such as experience, qualifications, and skills of nominee directors. Although the Company does not have a formal policy with regard to the diversity of the Board of Directors, the Company does seek to ensure that candidates reflect a variety of professional experience, education, skills, regional business connections, differences of viewpoint, and other individual qualities. The table below identifies the attributes that resulted in the Committee's decision to appoint and nominate the respective directors to the Company's Board of Directors. The absence of a particular attribute should not be construed to be a determination that the director lacks such attribute and should be read in conjunction with each director's biographical information provided above.

Meetings and Attendance of the Board of Directors

During 2009, the Company's Board of Directors held eleven meetings. Each director attended at least 75% of the meetings of the Board and the committees on which they served, except: Mr. Douglass, who attended 50% of Compensation Committee meetings and 0% of Nominating and Corporate Governance Committee meetings; Mr. Ellingsen, who attended 0% of Nominating and Corporate Governance Committee meetings; and Ms. West, who attended 50% of Compensation Committee meetings. Board members are encouraged to attend the Annual Meeting of Shareholders; eleven directors attended the Company's 2009 Annual Meeting of Shareholders.

Each current member of the Nominating and Corporate Governance Committee is independent as defined by the NASDAQ listing standards, except for Mr. Fewel. The Nominating and Corporate Governance Committee does not have a charter. The Nominating and Corporate Governance Committee will consider director candidates recommended by security holders so long as candidates are nominated pursuant to Article I, Section 9 of the Company's Bylaws as follows:

Only persons who are nominated in accordance with the procedures set forth in the Bylaws shall be eligible for election as Directors. Nominations of persons for election to the Board of Directors of the Corporation may be made at a meeting of shareholders (a) by or at the direction of the Board of Directors or (b) by any shareholder of the Corporation entitled to vote for the election of Directors at the meeting who complies with the notice procedures set forth in this Article I, Section 9. Such nominations, other than those made by or at the direction of the Board of Directors, shall be made pursuant to timely notice in writing to the Secretary of the Corporation. To be timely, a shareholder's notice shall be delivered to or mailed and received at the principal executive offices of the Corporation not less than sixty (60) days prior to the meeting; provided, however, that in the event that less than forty (40) days' notice or prior public disclosure of the date of the meeting is given or made to shareholders, notice by the shareholder to be timely must be so received not later than the close of business on the 10th day following the date on which such notice of the date of the meeting was mailed or such public disclosure was made. Such shareholder's notice shall set forth (a) as to each person whom the shareholder proposes to nominate for election or re-election as a Director, all information relating to such person that is required to be disclosed in solicitations of proxies for election of Directors, or is otherwise required, in each case pursuant to Regulation 14A under the Securities Exchange Act of 1934, as amended (including such person's written consent to be named in the proxy statement as a nominee and to serving as a Director if elected); and (b) as to the shareholder giving the notice (i) the name and address, as they appear on the Corporation's books, of such shareholder and (ii) the class and number of shares of the Corporation which are beneficially owned by such shareholder. At the request of the Board of Directors, any person nominated by the Board of Directors for election as a Director

Table of Contents

shall furnish to the Secretary of the Corporation that information required to be set forth in a shareholder's notice of nomination which pertains to the nominee. No person shall be eligible for election as a Director of the Corporation unless nominated in accordance with the procedures set forth in the Bylaws. The Chairman of the meeting shall, if the facts warrant, determine and declare to the meeting that a nomination was not made in accordance with the procedures prescribed by the Bylaws, and if he should so determine, he shall so declare to the meeting and the defective nomination shall be disregarded.

The Nominating and Corporate Governance Committee has not determined whether it is necessary to adopt any additional criteria or procedures. The Nominating and Corporate Governance Committee will consider director candidates recommended by shareholders and use the same qualifications for consideration of those candidates as it would for candidates recommended by members of the Nominating and Corporate Governance Committee.

Compensation Committee

The Board of Directors has established a Compensation Committee, which is responsible for establishing and administering the Bank's executive and director compensation. The Compensation Committee met twice during 2009 and consists only of independent non-employee directors. It does not operate under a formal written charter. The members of the Compensation Committee during the fiscal year ended December 31, 2009 were Mr. Aden (who acts as Chairman), Ms. Brodie, Mr. Douglass, Mr. Duncan, Mr. Norby, Mr. Schunter, Mr. Shelby, and Ms. West. No members of this Committee were officers or employees of the Company during the year or had any relationship otherwise requiring disclosure.

Audit Committee

The Audit Committee held four meetings during 2009. During 2009, members of the Audit Committee were Mr. Norby (who acts as Chairman), Mr. Aden, Mr. Bonanzino, Mr. Duncan, Mr. Ellingsen, and Mr. Schunter. Each current committee member is considered independent as defined by NASDAQ listing standards. The Committee operates under a formal written charter approved by the Committee and adopted by the Board of Directors. The Board of Directors has determined that director Bryan S. Norby meets the definition of audit committee financial expert as defined by the SEC. Responsibilities of the Audit Committee include monitoring compliance with Company policies and applicable laws and regulations, holding periodic meetings with the Bank's internal and external auditors and with the Bank's examiners to receive reports and discuss findings, making recommendations to the full Board of Directors concerning the adequacy and accuracy of internal systems and controls, the appointment of auditors and the acceptance of audits, and monitoring management's efforts to correct any deficiencies discovered in an audit or supervisory examination.

The following is a report of the Audit Committee of the Board of Directors, which is responsible for establishing and administering the Company's internal controls.

The Audit Committee of the Board of Directors is composed of six directors. The Board of Directors has adopted a written charter for the Audit Committee; a copy of the Charter as revised and adopted on September 20, 2005 was included as Appendix A to the Company's Proxy Statement filed with the SEC on April 11, 2006. The Board of Directors has determined that all of the members of the Audit Committee meet the independence requirements as defined under the NASDAQ listing standards and reaffirmed that each member has no material relationship with the Company that would jeopardize the director's ability to exercise independent judgment. The Board of Directors has determined that director Bryan S. Norby meets the definition of "audit committee financial expert" as defined by the rules of the SEC; Mr. Norby has accepted this designation.

The responsibilities of the Audit Committee include recommending to the Board of Directors an accounting firm to be engaged as the Company's independent registered public accountants. Management is responsible for the Company's financial statements and the financial reporting process, including the system of internal controls. The independent registered public accountants are responsible for expressing an opinion on the conformity of those audited financial statements with accounting principles generally accepted in the United States. The Audit Committee's responsibility is to oversee these processes and the activities of the Company's internal audit department.

In this context, the Audit Committee has met and held discussions with management and the independent registered public accountants. Management represented to the Audit Committee that the Company's consolidated financial statements were prepared in accordance with generally accepted accounting principles, and the Audit Committee has reviewed and discussed the consolidated financial statements with management and the independent registered public accountants. The Audit Committee discussed with the independent registered public accountants matters required to be discussed by Statement On Auditing Standards No. 61, "Communication with Audit Committees," as amended.

The Company's independent registered public accountants also provided to the Audit Committee the written disclosures and the letter required by Rule 3526, "Communication with Audit Committees Concerning Independence," of the Public Company Accounting Oversight Board. The Audit Committee also considered the compatibilities of non-audit services with the accountants' independence.

Table of Contents

The Audit Committee discussed with the Company's independent registered public accountants the overall scope and plans for their audit. The Audit Committee meets with the internal and independent registered public accountants when appropriate, with and without management present, to discuss the results of their examinations, their evaluations of the Company's internal controls and the overall quality of the Company's financial reporting.

In fulfilling its oversight responsibilities, the Audit Committee has reviewed and discussed with management and the independent registered public accountants the Company's audited consolidated financial statements contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2009. The Audit Committee recommended that the Board of Directors include the audited consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2009, as filed with the SEC.

PRE-APPROVAL OF AUDIT AND NON-AUDIT SERVICES

It is the responsibility of the Company's Audit Committee to pre-approve all audit and non-audit services provided by Moss Adams LLP. The Audit Committee has adopted a policy authorizing certain permissible audit and non-audit services to be performed by Moss Adams LLP with subsequent reporting and oversight required by the Audit Committee. Permissible services, not pre-approved pursuant to this policy, require specific review and approval prior to the engagement by the Audit Committee, or a designated member. Specific pre-approval of such permissible services with estimated fees of \$2,500 or less may be waived via the de minimis exception rule. Procedures are in place to ensure the Audit Committee chairman is notified in the event the de minimis rule is used. All services rendered by and fees paid to Moss Adams LLP are reported to and monitored quarterly by the Audit Committee. The Audit Committee considers whether the provision of related audit services are compatible with maintaining the independent registered public accounting firm's independence. To assist the Audit Committee in its oversight responsibilities, the pre-approval policy identifies the three basic principles of independence with respect to services provided by the independent registered public accounting firm, as well as the non-audit services the independent registered public accounting firm is prohibited from providing. One hundred percent of all services provided by Moss Adams LLP in each of the last two fiscal years were pre-approved by the Audit Committee.

Compensation Discussion and Analysis

General Philosophy

The Compensation Committee's compensation objective is designed to attract and retain the best available talent while efficiently utilizing available resources. The Compensation Committee seeks to compensate employees with a complete and competitive package while maintaining internal and external equality. The Compensation Committee compensates executive and senior-level management with a mix of base salary, incentive bonus, and equity compensation designed to be competitive with comparable employers in the financial services industry and to align senior management's compensation with the long-term interests of shareholders. The process for establishing compensation consists of targeting overall compensation for each senior manager and allocating that compensation among base salary and incentive compensation. The Compensation Committee believes that a meaningful portion of total compensation should be earned through incentive compensation.

Regulatory Compliance

TARP Compensation Standards. The Emergency Economic Stabilization Act (EESA) of 2008, enacted on October 3, 2008, authorized the Secretary of the Treasury to establish the Troubled Asset Relief Program (TARP) to purchase, and to make and fund commitments to purchase, troubled assets or preferred equity from any financial institution in accordance with EESA and those policies and procedures developed and published by the Secretary of the Treasury.

On February 13, 2009, the Company sold to the United States Department of the Treasury (the Treasury Department), pursuant to the TARP Capital Purchase Program (CPP), 10,500 shares of the Company's Series A Preferred Stock, and 525 shares of the Company's Series B Preferred Stock, for an aggregate purchase price of \$10.5 million.

As a result of the Company's participation in the TARP CPP, in accordance with EESA, as amended by the American Recovery and Reinvestment Act (ARRA), enacted February 17, 2009, the Company is required to comply with a number of executive compensation standards during the period of time that the Treasury Department holds an equity position in the Company.

Table of Contents

On March 17, 2009, the Company held a regular meeting of the Board of Directors, in which they reviewed the restrictions imposed under EESA, as amended by ARRA, and determined to implement appropriate changes to the Company's compensation policies and procedures during 2009 to ensure compliance with the following limitations:

No unnecessary and excessive risk. The Compensation Committee is required to review the Company's senior executive officer compensation programs with the Company's senior risk officers and certify that the Company has made reasonable efforts to ensure that the incentive compensation arrangements do not encourage unnecessary risks that threaten the Company's value.

Limited deductible compensation. The Company is prohibited from taking a tax deduction for annual compensation over \$500,000, as provided under Internal Revenue Code Section 162(m), as amended by EESA.

Prohibition on severance. The Company is prohibited from making severance payments to the senior executive officers and the next five most highly-compensated employees, other than payments for services performed or benefits accrued.

Prohibition on bonuses, retention awards, and other incentive compensation. The Company is prohibited from paying or accruing any bonus, retention award or incentive compensation to their most highly-compensated employee subject to certain exemptions. The exceptions are limited, although the Company will be permitted to award long-term restricted stock that has a value not exceeding one-third of the employee's total annual compensation, so long as such restricted stock does not fully vest during the period the Company participates in the CPP.

Clawback. The Company must recover bonuses, retention awards and incentive compensation paid to the senior executive officers and the next 20 most highly-compensated employees if they were based on materially inaccurate financial statements or any other materially inaccurate performance metric criteria (whether or not the executive was at fault, any misconduct occurred, or the financial statements were restated).

Prohibition on compensation plans that encourage earnings manipulation. The Company is prohibited from implementing any compensation plan that would encourage manipulation of the Company's reported earnings in order to enhance the compensation of any of its employees.

Shareholder say-on-pay vote required. The Company must permit a non-binding shareholder vote to approve the compensation of executives as disclosed in the Company's proxy statement.

Luxury expenditure policy. The Company must adopt a company-wide policy regarding excessive or luxury expenditures.

Chief Executive Officer/Chief Financial Officer certifications. The Chief Executive Officer and Chief Financial Officer of the Company must both file a written certification of compliance with the executive compensation section of EESA, as amended by ARRA, as Exhibit 99.1 to the Company's Annual Report on Form 10-K.

Board compensation committee required. The Company must have a compensation committee that is comprised entirely of independent directors and meets at least semiannually to discuss and evaluate the Company's employee compensation plans to assess any risk to the Company posed by such plans.

Edgar Filing: NORTHWEST BANCORPORATION INC - Form DEF 14A

Treasury review of prior payments. ARRA directs the Treasury Department to review bonuses, retention awards and other compensation paid to the senior executive officers and the next 20 most highly-compensated employees of each company receiving CPP assistance before ARRA was enacted, and to seek to negotiate with the CPP recipient and affected employees for reimbursement if it finds any such payments were inconsistent with CPP or otherwise in conflict with the public interest.

On June 10, 2009, the Treasury Department issued an Interim Final Rule (the IFR), which became effective June 15, 2009, to provide guidance on the executive compensation and corporate governance provisions

Table of Contents

under EESA, as amended by ARRA. The Company has taken and will continue to take necessary steps to ensure compliance with the IFR, including providing the Company's primary regulator and the Treasury Department with a certification of the Compensation Committee that the Company has made reasonable efforts to ensure that the Company's compensation arrangements do not encourage unnecessary risks that threaten the Company's value. As additional rules and regulations are promulgated under Section 111 of EESA, as amended by ARRA, the Compensation Committee will consider them and make appropriate changes to the Company's executive compensation programs.

Targeted Overall Compensation

To assist the Compensation Committee in establishing targeted aggregate levels of compensation that will be paid if performance goals are fully met, the Compensation Committee reviews information made available to it through various industry sources, including: the *Northwest Financial Industry Salary Survey*, a detailed salary survey report published by Milliman Consultants and Actuaries; the *Moss Adams Bankers Compensation Survey* published by Moss Adams LLP; information provided by the Federal Financial Institutions Examination Council (FFIEC) for banks between \$300 million and \$1 billion in assets nationwide; and public information filed with the SEC. These resources detail executive and senior-level management compensation paid by financial institutions located in the Bank's general market area, throughout the Northwest, and nationally.

To the extent possible, the Compensation Committee reviews compensation paid by companies of approximately the same asset size as the Bank, which are located as geographically close to the Bank's market area as possible. The review is expanded, as necessary, to obtain enough comparisons to make meaningful conclusions. The Compensation Committee takes into consideration both the Bank's financial performance compared to the performance of the similar banks and the Bank's budget for the prior year. The Compensation Committee does not limit its review to specific geographic regions or a specific group of publicly traded companies. The Bank's financial performance does not compare favorably to national peers reported by the FFIEC and is likely to underperform these banks until such time as asset growth results in the Bank more closely approaching the average size of the institutions within the group. Performance compared to more local competitors was mixed.

The Compensation Committee looked extensively at a number of factors, particularly the estimated total compensation for company executives. The Compensation Committee also considered the specific performance of similar banks in the various surveys and the anticipated difficulty of replacing key members of executive management. The Compensation Committee concluded that the top officers at the Bank are compensated at a level that is competitive, but that is neither especially high nor especially low when compared to compensation paid by similar institutions.

Based on its analysis, the Compensation Committee determined that no significant change to executive compensation was warranted and that changes to base pay should be nominal, if any. The Compensation Committee felt that, over time, there should be increased reliance on bonus or incentive pay related to meeting budgeted goals; however, no change was proposed to the existing incentive plan.

Allocation Among Components

The Compensation Committee has generally sought to establish a compensation mix of base salary, cash bonus, and equity compensation that varies depending upon an officer's employment level. In allocating compensation among these elements, the Compensation Committee generally seeks to ensure that the compensation will be meaningfully performance-based. However, the Compensation Committee also recognizes that, to the extent that a greater portion of total compensation is in the form of base salary, sound judgment in business decisions will not be influenced by incentive payouts.

Executive officers and officers designated as part of senior management have historically been eligible to participate in the Executive Incentive Plan administered by the Compensation Committee. These officers, along

Table of Contents

with other Bank officers, would be granted equity-based awards from time to time with a goal of providing between 20% and 25% of the officers cash compensation in the form of incentive compensation. During 2009, four officers, the President and Chief Executive Officer, the Chief Financial Officer, the Cashier and the Chief Credit Officer would have been eligible for incentive payments through the Executive Incentive Plan. However, as a CPP participant, the Company is currently prohibited from paying or accruing any bonus, retention award or incentive compensation to its most highly paid employee. Mr. Fewel, the Company's President and Chief Executive Officer, was determined to be the most highly compensated employee for 2009. In addition, the Compensation Committee decided not to award any of the officers Executive Incentive Plan payments because of the disappointing performance of the Company during 2008.

The Bank currently offers a separate incentive program for three officers whose primary responsibility is loan and deposit production. This program is intended to compensate them based on their level of production and is intended to range between 10-50% of base salary dependent upon production levels. Another officer oversees Bank branch managers and receives a performance bonus based on production goals achieved by the branch managers, primarily in the areas of deposit production and account service charge income. This incentive is intended to range between 5-25% of base salary dependent upon production levels. If any of these officers is determined to be the highest paid employee of the Company during the period that the Company is a CPP participant, then that employee would be subject to the regulatory restrictions that would prohibit the Company from paying or accruing any bonus, retention award or incentive compensation.

Base Salaries

The Compensation Committee provides its executive management with a level of assured cash compensation in the form of base salary, based upon the experience level of the individual executive. When setting the level of base salary for each officer, the Compensation Committee seeks to be competitive in the market and offer compensation that is comparable to compensation paid to officers with similar responsibilities at other companies with performance characteristics similar to the Company. As discussed in more detail above, the Compensation Committee looks at various industry sources to determine executive compensation levels with the intent that an executive's compensation be in the fiftieth percentile after approximately five years of service in their respective position; longer tenured employees are targeted to be in the seventy-fifth percentile. The base salary is also intended to promote sound judgment in daily decision making. In 2009, Mr. Fewel's base salary was \$178,255, which will be the same base salary for 2010. Mr. Fewel's current base salary is in the twenty-fifth percentile due primarily to two factors: (1) the existence of a supplemental executive retirement plan for Mr. Fewel, and (2) the Company's lack of profitability over the past two years. The Chief Executive Officer recommends salary levels for other executive and senior officers based upon his determination of what the appropriate compensation level is for their relative performance, responsibilities and years of experience. Occasionally salary adjustments are made as defensive measures to retain key executives. The Compensation Committee concluded that the proposed salaries for other executive and senior officers were appropriate for 2009 and has determined that nominal cost of living increases are appropriate for 2010.

Incentive Bonuses

The Compensation Committee's practice has been to award incentive cash bonuses based upon performance objectives established for the Bank, not for the combined results of the Bank and Company. Historically, the Company has set specific performance objectives and then weighted the achievement of actual results according to the weighting of each objective. Although the Compensation Committee establishes metrics for the calculation of incentive bonuses, the Compensation Committee reserves the authority to adjust the computation to reflect unusual circumstances or exceptional performance.

With respect to meeting objectives, the Compensation Committee has established a scaled performance range with threshold and maximum limits. Achieving the threshold, which is set at 90% of the targeted goal, results in payment of 50% of the targeted payout. Achieving the maximum, which is set at 120% of the targeted

Table of Contents

goal, results in payment of 150% of the targeted payout. Other levels of goal achievement, between 90% and 120% of the targeted goal, result in payments between 50% and 150% of the targeted payout.

For 2009, the Bank did not pay incentive cash bonus compensation under the incentive plan due to disappointing financial performance during 2008. In addition, the Company will continue to be subject to restrictions prohibiting it from paying its most highly compensated employee any bonus, retention award or incentive compensation so long as the Company remains a CPP participant. For 2008, incentive payouts to eligible participants in the plan were 1.9% of base salary, excluding the Chief Executive Officer who elected to receive no incentive under the plan.

Equity Compensation

Historically, the primary form of equity compensation consisted of non-qualified stock options to various employees. Prior to May 2006, non-qualified stock options were the only form of equity compensation approved by the Board of Directors that could be awarded to employees. The Board of Directors and the Compensation Committee selected this form of equity compensation because it aligned the interests of employees to those of the shareholders and also because of accounting and tax treatments of such awards. Beginning in 2006, the accounting treatment for stock options changed as a result of Statement of Financial Accounting Standards No. 123(R), making the accounting treatment of stock options somewhat less attractive. As a result, at the Annual Meeting of Shareholders held May 15, 2006, shareholders approved the Inland Northwest Bank 2006 Share Incentive Plan, which permits the issuance of restricted stock in addition to non-qualified stock options.

The Compensation Committee determined that equity compensation awards to executives should be considered part of the Company's overall compensation program. Currently, the Compensation Committee has not set a target as to the percentage of total compensation that equity-based compensation should represent for the Chief Executive Officer or for any other employee. The decision as to whether to award restricted stock grants or options may vary from time-to-time or from employee to employee, at the discretion of the Compensation Committee. However, it is anticipated that, subject to regulatory restrictions, restricted stock will be awarded, primarily, to promote the long-term interests of the Company by retaining key Bank employees and stock options will be awarded, primarily, to attract key Bank employees. The maximum number of shares of common stock subject to stock options and restricted shares that may be awarded under the Plan, as adjusted for stock dividends, is 384,912. At December 31, 2009, 219,019 shares and/or options were available for award to employees.

The Compensation Committee's practice is to annually award equity compensation during the December meeting of the Board of Directors. Equity awards totaling 10,250 shares, with a grant date fair value of \$42,025, were made to named executive officers during 2009 and are detailed in the "Grants of Plan Based Awards" table below. Specific awards were determined based on the Chief Executive Officer's recommendations in light of a subjective analysis of relative contribution to the Company in 2009.

Deferred Compensation Plan

The Executive Deferred Compensation Plan (the "Plan") is a non-qualified deferred compensation plan, maintained by the Bank, under which eligible participants may elect to defer a portion of their compensation, with prior annual approval of the Board of Directors. The Bank does not match contributions to this Plan, but does credit interest on amounts deferred based on the tax-equivalent rate earned on its bank-owned life insurance products. As of December 31, 2009 there were seven participants in the Plan.

Distributions are made under the Plan following an eligible participant's death, disability, retirement or termination of employment, payable in either a lump sum or equal monthly installments, as elected by the participant. Unless otherwise identified, any payment event triggered by a termination of employment of a specified employee shall not commence prior to the first day of the month following the date which is six months after the date of the termination of employment.

Table of Contents

Expenses associated with the Plan were \$11,711 and \$14,741 for the years ended December 31, 2009 and 2008, respectively. Liabilities associated with the Plan were \$213,608 and \$272,952 for December 31, 2009 and 2008, respectively. To fund benefits under this Plan, the Bank is the owner and beneficiary of single premium life insurance policies on certain current and past employees. At December 31, 2009 and 2008, the cash value of these policies was \$3,670,185 and \$3,692,689, respectively.

Supplemental Executive Retirement Plan

The Bank maintains Supplemental Executive Retirement Plan Agreements (the SERP Agreements) for certain of its current and retired senior executives, which are unfunded, non-qualified executive income and retirement plans. The individual SERP Agreements provide for benefits paid out over a period of years following retirement or as of a specified date, as provided in the individual agreements. The executives who have not reached normal retirement age and are employed past the specified date for benefit payments, if applicable, are eligible for a lump sum early retirement benefit in an amount equal to their accrued balance as of the end of the month preceding their early retirement.

Expenses associated with the SERP Agreements were \$122,785 and \$87,368 for the years ended December 31, 2009 and 2008, respectively. Liabilities associated with these plans were \$392,756 and \$294,609 for December 31, 2009 and 2008, respectively.

Employment and Change of Control Agreements

The employment agreements described below reflect the current terms of the Named Executive Officers' contracts with the Company. However, these agreements are subject to the executive compensation restrictions applicable to CPP participants under EESA, as amended by ARRA. Specifically, the Company is subject to, among other things, restrictions from paying any bonus, retention award, or incentive compensation, other than certain awards of restricted stock, to the institution's most-highly compensated employee; restrictions from making payments to a senior executive officer or any of the next five most-highly compensated employees for departure from the Company for any reason, except for payments for services performed or benefits accrued; and the required clawback provision, which allows the recovery of any bonus or other incentive payment paid to a senior executive officer or any of the next 20 most-highly compensated employees on the basis of materially inaccurate financial information. For more information on the provisions imposed on the Company while it participates in the Treasury Department's CPP, see, Regulatory Compliance TARP Compensation Standards.

The Bank previously entered into an employment agreement with Mr. Fewel, dated January 8, 2003. The employment agreement provides for a continuous employment term until such time as the Bank notifies him that the Bank will establish an employment term of one-year, commencing with the date of receipt of such notice by him. Upon receiving such notice Mr. Fewel could resign and continue to receive payment of his fixed-salary and certain benefits for a period of one-year. The agreement provides that, during the term of the agreement, he will remain employed in an executive position, with no reduction in his fixed-salary should his position change and that his fixed-salary will be adjusted annually at the discretion of the Board. The fixed-salary will not be decreased from year-to-year; however, incentive payments, if any, and other benefits may be more or less than received in prior years. The Bank may terminate Mr. Fewel's employment without cause; however, in that case, he would continue to receive payment of his fixed salary and certain benefits for a period of one-year.

Table of Contents

In the event of a change in control of the Company, the agreement provides for a severance payment to Mr. Fewel for certain terminations during a thirty-six month period following the date of the change in control. Any severance payment made to him will be reduced to the extent necessary to meet the requirements of Internal Revenue Service regulations then in effect, as well as the rules, regulations or lawful directives of other agencies with regulatory or supervisory authority over the Company or the Bank.

Under the current agreement, the Bank's obligation for payment to Mr. Fewel under any of the above-described circumstances may be reduced, in part or in full, if he receives compensation from a successor employer or from self-employment while the Bank is making payment to him. If the successor employer is a financial institution located within the Bank's market area, and if he has not obtained prior approval from the Bank's Board of Directors, the Bank is under no obligation to continue any severance payment or benefits.

As a Named Executive Officer of the Company and the most-highly compensated employee for 2009, Mr. Fewel is subject to many of the restrictions on executive compensation under EESA and ARRA. Pursuant to EESA and ARRA, the Company will restrict Mr. Fewel's receipt of any bonus, retention award, or incentive compensation, prohibit severance payments, and implement the clawback provision, as required, during the period which the Treasury Department holds an equity interest in the Company.

The Bank previously entered into similar employment agreements with Ms. Poquette, Mr. Dresback and Mr. Jacobson; however, in the event of a change in control, the period considered for severance payments is twelve months. As Named Executive Officers of the Company, Ms. Poquette, Mr. Dresback and Mr. Jacobson are also subject to many of the restrictions on executive compensation under EESA and ARRA. Pursuant to EESA and ARRA, the Company will prohibit severance payments, and implement the clawback provision, as required, during the period which the Treasury Department holds an equity interest in the Company.

Incentive Plan for Senior Management

The purpose of the Executive Incentive Plan (the "EIP") is to reward senior Bank management for its efforts in meeting or exceeding the annual goals approved by the Board of Directors during the annual budgeting process. The EIP defines a number of factors that are considered to be of importance by the Board in enhancing the long-term viability of the Bank and return to shareholders. A portion of each officer's total compensation is dependent upon performance in relation to the budget, adjusted to reflect the Bank's overall performance in comparison to that of similar financial institutions. Incentive payments made to named executives under the EIP are disclosed in the Summary Compensation Table. As a result of the Bank's performance during 2008 and 2009 the EIP was suspended for 2009. Whether or not the EIP will be reinstated in future years will be based upon the Bank and the Company's future performance.

Profit Sharing Plan

The Bank maintains a 401(k) profit sharing plan covering all employees who meet certain eligibility requirements. The plan allows employees to elect up to 50% of their compensation to be paid into the plan. The Bank's policy is to match contributions equal to 50% of the participant's contribution, not to exceed 3.0% of the participant's compensation. Vesting occurs over a six-year graded vesting schedule. Expenses associated with the plan were \$134,881 and \$140,047 for the years ended December 31, 2009 and 2008, respectively.

TRANSACTIONS WITH MANAGEMENT AND OTHERS

The Company, through its Bank subsidiary, has had, and may be expected to have in the future, banking transactions in the ordinary course of business with directors, principal officers, their immediate families, and affiliated companies in which they are principal shareholders. Aggregate loan balances with related parties at December 31, 2009 and 2008, were \$300,321 and \$326,586, respectively. During the years ended December 31, 2009 and 2008, total principal additions were \$66,459 and \$188,221 and total principal payments were \$92,814

Table of Contents

and \$1,572,130, respectively. Aggregate deposit balances with related parties at December 31, 2009 and 2008, were \$1,645,199 and \$1,465,196, respectively. All related party loans and deposits which have been made, in the opinion of management, are on the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with others. These transactions did not involve more than the normal risk of collectibility or present other unfavorable features.

During 2006, the Bank entered into an agreement to lease property owned by Harlan D. and Maxine H. Douglass. Mr. Douglass is a director of the Bank and the Company. The property is located in the northwest section of the city of Spokane, WA. The initial term of the lease is twenty years. The Bank has the right to extend the lease for four additional five-year periods. The approximate aggregate value of the lease over the twenty-year term is \$1.8 million. The Bank received regulatory approval and established a branch at this location which opened in May 2008. It is the policy of the Board of Directors to review and approve transactions with related parties. Disinterested Board members reviewed and approved this transaction and found the terms and conditions of the lease to be an arm's length transaction consistent with those offered on similar properties by non-affiliated parties. The lease was filed as Exhibit 10.1.11 to the Company's second quarter report for 2006 on Form 10QSB, filed with the SEC on August 4, 2006.

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's directors, executive officers, and persons who beneficially own more than 10% of a registered class of the Company's equity securities (collectively, Reporting Persons), to file reports of ownership of, and transactions in, the Company's equity securities with the SEC. Based solely on a review of the copies of such reports received by the Company and on written representations from such reporting persons, the Company believes that all Reporting Persons complied with the Section 16(a) filing requirements during 2009, except that director William E. Shelby filed one late Form 4 reporting one purchase.

Table of Contents**PROPOSAL 2. RATIFICATION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

The Board of Directors has appointed Moss Adams, LLP, 601 West Riverside Avenue, Suite 1800, Spokane, Washington 99201, (509) 747-2600, as the independent registered public accounting firm to examine the consolidated financial statements of the Company and its subsidiary for the fiscal year ending December 31, 2010. The shareholders are asked to consider and vote upon the ratification of this appointment.

The Board of Directors recommends that the shareholders ratify the appointment of Moss Adams, LLP as the independent registered public accounting firm.

Moss Adams, LLP and its predecessor, McFarland & Alton, P.S., have examined the financial statements of the Bank since the Bank's organization in 1989 and the consolidated financial statements of the Company and its subsidiaries since the Company became a holding company for the Bank in 1993. Moss Adams, LLP has advised the Company that one or more representatives of that accounting firm will be present at the Annual Meeting and available to respond to appropriate questions. Such representatives will have an opportunity to make a statement at the Annual Meeting if they desire to do so.

The following table summarizes the fees that Moss Adams, LLP charged the Company for the listed services during 2009 and 2008:

Type of fee	2009	2008	Description

PROPOSAL 3. ADVISORY VOTE ON EXECUTIVE COMPENSATION

The American Recovery and Reinvestment Act of 2009, signed into law on February 17, 2009, includes a provision requiring CPP participants, during the period in which any obligation arising from assistance provided under the CPP remains outstanding, to permit a separate shareholder vote to approve the compensation of executives as disclosed pursuant to the compensation rules of the SEC. As a CPP participant, this requirement applies to any proxy, consent, or authorization for an annual or other meeting of the Company's shareholders. Under this legislation, the shareholder vote is not binding on the Company's Board of Directors and may not be construed as overruling any decision by the Company's Board of Directors.

Therefore, shareholders are being given the opportunity to vote on an advisory (non-binding) resolution at the Annual Meeting to approve the Company's executive compensation policies and procedures as described above in the Compensation Discussion and Analysis, the compensation tables, and related discussion in the Company's 2010 Proxy Statement. This proposal, commonly known as a "say-on-pay" proposal, gives shareholders the opportunity to endorse or not endorse the Company's executive pay program.

The purpose of the Company's compensation policies and procedures is to attract and retain experienced, highly qualified executives critical to the Company's long-term success and enhancement of shareholder value. The Board of Directors believes the Company's compensation policies and procedures achieve this objective, and therefore recommends shareholders vote **FOR** the proposal through the following resolution:

RESOLVED, that the shareholders approve the compensation of the Company's executive officers, as described in the Compensation Discussion and Analysis and the tabular disclosure and accompanying narrative disclosure regarding named executive compensation in the Company's 2010 Proxy Statement.

Because your vote is advisory, it will not be binding upon the Board. However, the Company's Compensation Committee will take into account the outcome of the vote when considering future executive compensation arrangements.

The Board of Directors unanimously recommends that shareholders vote **FOR this Proposal.**

OTHER BUSINESS

No other business is intended to be brought before the Annual Meeting by the Board of Directors, nor is the Board of Directors aware of any other business to be brought before the Annual Meeting by others. If, however, any other business properly comes before the Annual Meeting, the enclosed proxy authorizes the persons named in the proxy to vote on such other business in their discretion.

Information Concerning Shareholder Proposals and Director Nominations

Under the SEC rules, for shareholder proposals to be considered for inclusion in next year's proxy statement, they must be submitted in writing to Lisa A. Sanborn, Secretary, Northwest Bancorporation, Inc., 421 West Riverside Avenue, Spokane, Washington 99201 on or before December 17, 2010, unless our 2011 Annual Meeting is not held within 30 calendar days before or after May 16, 2011, in which case the deadline for shareholder proposals to be considered for inclusion in next year's proxy statement would be a reasonable time before the Company begins to print and send its proxy materials.

Pursuant to the Company's bylaws, for shareholder nominations of directors to be properly presented at a shareholders meeting, we must receive notice of any such nomination on or before March 16, 2011, unless notice of the Annual Meeting is provided less than 40 days prior to the date of the meeting, in which case the notice by

the shareholder nominating directors must be received not later than the close of business on the tenth day following the day on which the first public announcement of the date of the Annual Meeting was made or the notice of the meeting was mailed, whichever occurs first. For any other shareholder proposals to be properly presented at a shareholders meeting, we must receive notice of any such proposal by shareholders on or before December 17, 2010.

Directors, officers, and employees of the Company and the Bank may also solicit proxies by mail, telephone and personal contact, but they will not receive any additional compensation for these activities.
