Item 8.01. Other Events

On May 17, 2010, the Company issued a press release announcing the pricing of a public offering of \$300 million aggregate principal amount of its 2.000% Notes due 2013 at an issue price of 99.823%, \$250 million aggregate principal amount of its 3.125% Notes due 2015 at an issue price of 99.890% and \$350 million aggregate principal amount of its 4.625% Notes due 2020 at an issue price of 99.889%. A copy of the press release is attached hereto as Exhibit 99.1 and is incorporated herein by reference.

Additionally, the Company has a \$420.0 million five-year revolving credit facility with certain banks and financial institutions that expires on June 9, 2010. There are currently no amounts outstanding, and the Company has never borrowed under this facility. The Company has decided, at present, not to renew this facility after considering the costs relative to the potential benefits of maintaining such a facility. The Company believes that it has sufficient sources of liquidity, including its existing cash and investments, the proceeds of the offering of the notes, its operating cash flow, commercial paper program, existing lines of credit, and possible future capital markets transactions, to fund its liquidity needs.
