Subject Company: Eclipsys Corporation

Commission File No.: 000-24539

**The following was posted on the [www.OneAllscriptsEclipsys.com](http://www.OneAllscriptsEclipsys.com) microsite on June 9, 2010:**

*We are at the beginning of what we believe will be the single fastest transformation of any industry in US history, and the combination of Eclipsys' s market-leading hospital enterprise solution with the Allscripts Electronic Health Record portfolio in the physician office and our leadership in the post-acute care market, creates the one company uniquely positioned to execute on this enormous opportunity.*

Allscripts and Eclipsys, leading providers of software and information solutions in the ambulatory and acute markets respectively, will merge to form one company. With the industry' s largest network of clients on the most advanced product platform, we will be able to deliver a single patient record and a seamless patient experience.

**Today: Leaders in the Physician, Post-Acute and Hospital Markets**

**Allscripts:** The market leader in physician-office and post-acute care solutions.

**Eclipsys:** The leading provider of inpatient enterprise and performance management solutions.

**Tomorrow: One Network. One Platform. One Patient.**

The combined company will bring to market a unique platform of clinical, financial and connectivity solutions to satisfy the needs of every healthcare organization, from the smallest physician practice or homecare agency to the largest health system. The delivery of this integrated hospital and physician practice offering will be accelerated by the use of common platforms, including Microsoft.NET and other advanced technologies, in use today by both companies. Allscripts and Eclipsys also share an open architecture approach, simplifying the connection to third-party applications across every care setting, resulting in a single patient record. No other company will be better positioned for the future of healthcare, which will favor connected communities of care providing shared access to patient information across every setting.

**Combined Organization**

Employees: 5,500

Primary Locations: Atlanta, Chicago, Raleigh, NC

Locations: 44 facilities in 24 states, Canada, India, the Middle East and The Philippines [Executive leadership](#)

**Combined Client Base**

Physicians: 180,000

Physician practices: 50,000

Hospitals: 1,500 (including 17 of the 21 Honor Roll hospitals on the *US News & World Reports America's Best Hospitals* 2009-10 list)

Hospital users: More than 1.5 million providers and staff

Post-acute organizations: 10,000 (including nine of the 10 largest nursing home chains)

*We are at the beginning of what we believe will be the single fastest transformation of any industry in US history, and the combination of Eclipsys' s market-leading hospital enterprise solution with the Allscripts Electronic Health Record portfolio in the physician office and our leadership in the post-acute care market, creates the one company uniquely positioned to execute on this enormous opportunity.*

Allscripts and Eclipsys, leading providers of software and information solutions in the ambulatory and acute markets, respectively, will merge to form one company with the industry' s largest network of clients on the most advanced product platform resulting in a single patient record and a seamless patient experience.

#### **Strategic Rationale**

Combines the utilization leaders in the hospital and physician markets

Addresses the market demand for a true end-to-end integrated solution

Positions company for the \$16 billion integrated healthcare market

Expands client footprint to connect communities

Sets foundation for next wave of information and connectivity products (medical home)

#### **Financial Rationale**

Transaction valued at \$1.3 billion

Accretive to non-GAAP earnings starting in calendar 2011

Significant cost and revenue synergies

Strong free cash flow generation with 60% recurring revenue

Flexible capital structure from reduction of Misys ownership

Clients of both companies, investors and patients all stand to benefit from the merger.

**Clients** In addition to connecting our own solutions, our open architecture approach will simplify our clients' ability to connect with third-party applications. The merger will provide a complete and enhanced portfolio of clinical, financial, connectivity, and information solutions. And it will accelerate a rapid implementation approach that both companies share, enabling our clients to quickly attain Meaningful Use. We will continue our shared track record of innovation to deliver future state clinical and financial informatics capabilities that will enable clients to provide higher quality care and operate more efficiently.

## Edgar Filing: ECLIPSYS CORP - Form 425

**Investors** The combined company creates a new industry leader with a comprehensive portfolio to address a significantly larger market than either company could address alone. The combination diversifies and strengthens the company's product and client mix. It presents a \$1.5 billion opportunity to sell products into each other's client bases, and to compete for 35 percent of the healthcare IT market more effectively. Moreover, the transaction is expected to be accretive to Allscripts earnings beginning in calendar 2011.

**Patients** When patients receive more coordinated and better-informed care, the result is both higher quality *and* lower costs. The merger of Allscripts and Eclipsys will help on both fronts by enabling 180,000 physicians, 1,500 hospitals and 10,000 post-acute organizations to develop connected communities of care. Using our solutions, communities will have access to a single patient record that delivers up-to-date information to all providers, giving them the answers they need, when they need them, to provide better patient care.

**More than one company:**

One Network

One Platform

One Patient

## One Company

Allscripts and Eclipsys have agreed to merge to create one company with the industry's largest network of clients on the most advanced product platform resulting in a single patient record.

## Forward-Looking Statements

This communication contains forward-looking statements within the meaning of the federal securities laws. Statements regarding the benefits of the proposed transaction, including future financial and operating results, the combined company's plans, objectives, expectations and intentions, platform and product integration, the connection and movement of data among hospitals, physicians, patients and others, merger synergies and cost savings, client attainment of meaningful use and accessibility of federal stimulus payments, enhanced competitiveness and accessing new client opportunities, market evolution, the benefits of the combined companies' products and services, the availability of financing, future events, developments, future performance, as well as management's expectations, beliefs, intentions, plans, estimates or projections relating to the future are forward-looking statements within the meaning of these laws. These forward-looking statements are subject to a number of risks and uncertainties, some of which are outlined below. As a result, no assurances can be given that any of the events anticipated by the forward-looking statements will transpire or occur, or if any of them do so, what impact they will have on the results of operations or financial condition of Allscripts, Eclipsys or the combined company or the proposed transaction.

Such risks, uncertainties and other factors include, among other things: the ability to obtain governmental approvals of the merger on the proposed terms and schedule contemplated by the parties; the failure of Eclipsys' stockholders to approve the Merger Agreement; the failure of Allscripts' stockholders to approve the issuance of shares in the merger; the possibility that the proposed transaction does not close, including due to the failure to satisfy the closing conditions; the possibility that the expected synergies, efficiencies and cost savings of the proposed transaction will not be realized, or will not be realized within the expected time period; potential difficulties or delays in achieving platform and product integration and the connection and movement of data among hospitals, physicians, patients and others; the risk that the contemplated financing is unavailable; the risk that the Allscripts and Eclipsys businesses will not be integrated successfully; disruption from the proposed transaction making it more difficult to maintain business and operational relationships; competition within the industries in which Allscripts and Eclipsys operate; failure to achieve certification under the Health Information Technology for Economic and Clinical Health Act could result in increased development costs, a breach of some customer obligations and could put Allscripts and Eclipsys at a competitive disadvantage in the marketplace; unexpected requirements to achieve interoperability certification pursuant to the Certification Commission for Healthcare Information Technology could result in increased development and other costs for Allscripts and Eclipsys; the volume and timing of systems sales and installations, the length of sales cycles and the installation process and the possibility that Allscripts' and Eclipsys' products will not achieve or sustain market acceptance; the timing, cost and success or failure of new product and service introductions, development and product upgrade releases; competitive pressures including product offerings, pricing and promotional activities; Allscripts' and Eclipsys' ability to establish and maintain strategic relationships; undetected errors or similar problems in Allscripts' and Eclipsys' software products; the outcome of any legal proceeding that has been or may be instituted against Allscripts, Misys plc or Eclipsys and others; compliance with existing laws, regulations and industry initiatives and future changes in laws or regulations in the healthcare industry, including possible regulation of Allscripts' and Eclipsys' software by the U.S. Food and Drug Administration; the possibility of product-related liabilities; Allscripts' and Eclipsys' ability to attract and retain qualified personnel; the implementation and speed of acceptance of the electronic record provisions of the American Recovery and Reinvestment Act of 2009; maintaining Allscripts' and Eclipsys' intellectual property rights and litigation involving intellectual property rights; risks related to third-party suppliers and Allscripts' and Eclipsys' ability to obtain, use or successfully integrate third-party licensed technology; and breach of Allscripts' or Eclipsys' security by third parties. See Allscripts' and Eclipsys' Annual Reports on Form 10-K and Annual Reports to Stockholders for the fiscal years ended May 31, 2009 and December 31, 2009, respectively, and other public filings with the SEC for a further discussion of these and other risks and uncertainties applicable to Allscripts' and Eclipsys' respective businesses. The statements herein speak only as of their date and neither Allscripts nor Eclipsys undertakes any duty to update any forward-looking statement whether as a result of new information, future events or changes in their respective expectations.
