2. CURRENT ACCOUNTING PRONOUNCEMENTS

The Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2010-06, Improving Disclosures about Fair Value Measurements (ASU 2010-06) which requires new disclosures about recurring or nonrecurring fair-value measurements including significant transfers into and out of Level 1 and Level 2 fair value measurements and information on purchases, sales, issuances, and settlements on a gross basis in the reconciliation of Level 3 fair value measurements. The FASB also clarified existing fair value measurement disclosure guidance about the level of disaggregation, inputs, and valuation techniques. ASU 2010-06 is effective for fiscal years beginning after December 15, 2009. The adoption of this accounting guidance did not have any impact on the Company's disclosures.

3. FAIR VALUE MEASUREMENTS

Fair Value of Financial Instruments The carrying values of the Company s financial instruments, with the exception of debt instruments, reasonably estimate the related fair values as of September 30, 2010 and December 31, 2009 due to the short maturity of those instruments.

The Company determines fair value of its debt instruments utilizing various sources including quoted prices and indicative quotes (that is non-binding quotes) from brokers that require judgment to interpret market information including implied credit spreads for similar borrowings on recent trades or bid/ask prices. The following table reflects fair values, principal values and carrying values of the Company s debt instruments (see Note 9).
