SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended February 26, 2011

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ To _____

Commission File Number: 0-12906

RICHARDSON ELECTRONICS, LTD.

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

36-2096643
(I.R.S. Employer
Identification No.)

40W267 Keslinger Road, P.O. Box 393 LaFox, Illinois 60147-0393
(Address of principal executive offices)
Registrant's telephone number, including area code: (630) 208-2200

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one):

Large Accelerated Filer Accelerated Filer
Non-Accelerated Filer (Do not check if a smaller reporting company) Smaller Reporting Company
Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of April 4, 2011, there were outstanding 15,278,354 shares of Common Stock, \$0.05 par value and 3,001,961 shares of Class B Common Stock, \$0.05 par value, which are convertible into Common Stock of the registrant on a share for share basis.

RICHARDSON ELECTRONICS, LTD.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. DESCRIPTION OF THE COMPANY

Richardson Electronics, Ltd. (we , us , the Company , and our) was originally incorporated in the state of Illinois in 1947 and is currently incorporated in the state of Delaware. We are a global provider of engineered solutions, a global distributor of electronic components to the electron device markets, and a global provider of display solutions to the display systems markets. Utilizing our core engineering and manufacturing capabilities, our strategy is to provide specialized technical expertise and value-add, or engineered solutions. We provide solutions and add value through design-in support, systems integration, prototype design and manufacturing, testing, and logistics for end products of our customers.

Our products include power semiconductors, electron tubes, microwave generators, and visual technology solutions. These products are used to control, switch or amplify electrical power signals, or are used as display devices in a variety of industrial, commercial, and communication applications.

As previously reported, on October 1, 2010, we entered into an agreement with Arrow Electronics, Inc. (Arrow) where Arrow agreed to acquire all of the assets primarily used or held for use in, and certain liabilities of, our Radio Frequency (RF), Wireless & Power Division (RFPD), as well as certain other Company assets, including our information technology assets (the Transaction) in exchange for \$210.0 million, subsequently re-negotiated to \$211.8 million.

On March 1, 2011, we successfully completed the closing of the Transaction. The total consideration paid by Arrow at the closing of the Transaction was \$238.8 million which included an estimated pre-closing working capital adjustment. The final purchase price is subject to a post-closing working capital adjustment.

We have two continuing operating segments which we define as follows:

Electron Device Group (EDG) provides engineered solutions and distributes electronic components to customers in diverse markets including the steel, automotive, textile, plastics, semiconductor manufacturing, and broadcast industries.

Canvys provides global integrated display solutions serving the financial, corporate enterprise, healthcare, and industrial markets.

We currently have operations in the following major geographic regions:

North America;

Asia/Pacific;

Europe; and

Latin America.

2. BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with United States Generally Accepted Accounting Principles (GAAP) for interim financial information and the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all the information and notes required by GAAP for complete financial statements.

Edgar Filing: RICHARDSON ELECTRONICS LTD/DE - Form 10-Q

The audited condensed consolidated balance sheet for the fiscal year ended May 29, 2010, and our unaudited condensed consolidated statements of income for the three and nine months ended February 27, 2010, have been restated to reflect the Transaction. Refer to Note 4 Discontinued Operations of our notes to our unaudited condensed consolidated financial statements for additional discussion on the sale of RFPD.

Our fiscal quarter ends on the Saturday nearest the end of the quarter ending month. The first nine months of fiscal 2011 and 2010 each contained 39 weeks.

Table of Contents

In the opinion of management, all adjustments, which are of a normal and recurring nature, necessary for a fair presentation of the results of interim periods have been made. All inter-company transactions and balances have been eliminated. The unaudited condensed consolidated financial statements presented herein include the accounts of our wholly owned subsidiaries. The results of our operations for the three and nine months ended February 26, 2011, are not necessarily indicative of the results that may be expected for the fiscal year ending May 28, 2011.

The financial information contained in this report should be read in conjunction with our Annual Report on Form 10-K for the fiscal year ended May 29, 2010.

3. UPDATES TO CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Inventories: Our worldwide inventories are stated at the lower of cost or market, generally using a weighted-average cost method. Inventories include material, labor, and overhead associated with such inventories.

At this time, we do not anticipate any material risks or uncertainties related to possible inventory write-downs for the remainder of our fiscal 2011, ending May 28, 2011.

Revenue Recognition: Our product sales are recognized as revenue upon shipment, when title passes to the customer, when delivery has occurred or services have been rendered, and when collectability is reasonably assured. Our sales are recorded net of discounts and returns based on our historical experience. Our products are often manufactured to meet the specific design needs of our customers' applications. Our engineers work closely with customers to ensure that our products will meet their needs. Our customers are under no obligation to compensate us for designing the products we sell.

In a limited number of cases, we provide and bill our customers with non-product related services, such as testing, calibration, non-recurring engineering, tooling, and installation services. We have concluded that the service revenue should not be considered a separate unit of accounting from the product sale as we have determined there is no objective and reliable evidence of the fair value of the undelivered items.

We have also concluded that, in the limited cases where remaining obligations exist after delivery of the product, the obligation relative to the unit of accounting is inconsequential or perfunctory. This conclusion was reached based on the following facts: the timing of any remaining obligation is agreed upon with the customer, which in most cases, is performed immediately after the delivery of the product; the cost and time involved to complete the remaining obligation is minimal, and the costs and time do not vary significantly; we have a demonstrated history of completing the remaining obligations timely; and finally, failure to complete the remaining obligation does not enable the customer to receive a full or partial refund of the product or the service.

Discontinued Operations: In accordance with ASC 205-20, *Presentation of Financial Statements- Discontinued Operations* (ASC 205-20), we reported the financial results of RFPD as a discontinued operation. Refer to Note 4 *Discontinued Operations* of our notes to our unaudited condensed consolidated financial statements for additional discussion on the sale of RFPD.

Loss Contingencies: We accrue a liability for loss contingencies when it is probable that a liability has been incurred and the amount can be reasonably estimated. When only a range of possible loss can be established, the most probable amount in the range is accrued. If no amount within this range is a better estimate than any other amount within the range, the minimum amount in the range is accrued. If we determine that there is at least a reasonable possibility that a loss may have been incurred, we will include a disclosure describing the contingency.

Table of Contents

4. DISCONTINUED OPERATIONS

Arrow Transaction

As previously reported, on October 1, 2010, we entered into an agreement with Arrow, where Arrow agreed to acquire all of the assets primarily used or held for use in, and certain liabilities of RFPD, as well as certain other Company assets, including our information technology assets, in exchange for \$210.0 million, which was subsequently re-negotiated to \$211.8 million.

On March 1, 2011, we successfully completed the closing of the Transaction. The total consideration paid by Arrow at the closing of the Transaction was \$238.8 million which included an estimated pre-closing working capital adjustment. The final purchase price is subject to a post-closing working capital adjustment.

On March 18, 2011, the Compensation Committee of our Board of Directors granted cash bonus compensation to certain executive officers in recognition of their efforts on successfully completing the Transaction. The cash bonus compensation amount awarded was approximately \$0.9 million and will be recorded as expense from discontinued operations during the fourth quarter of fiscal 2011.

To help facilitate the transition of RFPD to Arrow, we agreed to provide certain transitional services to Arrow such as financial support services, warehouse services, and access to facilities in accordance with the terms of the Transition Services Agreement. The duration of the transitional services are less than one year from March 1, 2011. Arrow also agreed to provide certain transitional services such as information technology services, warehouse services, and access to facilities and equipment in accordance with the terms of the Transition Services Agreement. The duration of these transitional services are also less than one year from March 1, 2011, except for the information technology services which is three years. In addition, we entered into a Manufacturing Agreement with Arrow, in connection with the Transaction, for a term of three years. Pursuant to the Manufacturing Agreement, we agreed to manufacture certain products for Arrow.

The Transition Services Agreement, which commenced on March 1, 2011, will allow us to exert very limited influence over Arrow's operating and financial policies. Also, the continuing cash flows related to our Transition Services Agreement as well as the Manufacturing Agreement, are insignificant. We believe it is appropriate to include the fees and associated costs with the Transition Services Agreement that relate to financial support, certain facilities, and certain warehouse services in discontinued operations as they relate specifically to RFPD. We further believe it is appropriate to treat the revenue and costs associated with the Manufacturing Agreement in discontinued operations as it also relates specifically to RFPD.

Honeywell Transaction

On May 31, 2007, we completed the sale of the Security Systems Division/Burtek Systems (SSD/Burtek) to Honeywell International Inc. (Honeywell). The sale agreement of SSD/Burtek to Honeywell contemplated a post-closing working capital-based purchase price adjustment. During the third quarter of fiscal 2008, we received notification from Honeywell seeking a purchase price adjustment and we issued a dispute notice in a timely manner. On December 18, 2009, we reached an agreement with Honeywell to settle the pending working capital disputes as well as other related claims. As a result, we recorded \$1.2 million of expense, net of zero tax effect, as a loss from discontinued operations during the nine months ended February 27, 2010.

Table of Contents**Financial Summary**

Net sales, gross profit, selling, general, and administrative expenses, interest expense, investment income, income tax provision (benefit), and income from discontinued operations, net of tax, for the three and nine month periods ended February 26, 2011, and February 27, 2010, are presented in the following table (*in thousands*):

	Three Months		Nine Months	
	Feb 26, 2011	Feb 27, 2010	Feb 26, 2011	Feb 27, 2010
Net sales	\$ 104,593	\$ 87,922	\$ 313,013	\$ 250,218
Gross profit	22,836	19,032	67,156	54,575
Selling, general, and administrative expenses	14,119	13,081	41,883	39,873
Interest expense	119	692	387	2,272
Investment income		(13)		(55)
Income tax provision (benefit)	611	101	1,684	(265)
Income from discontinued operations, net of tax	7,987	5,171	23,202	12,750

In accordance with ASC 205-20, the allocation of interest expense to discontinued operations of other consolidated interest that is not directly attributable to, or related to, other operations of the entity is permitted but not required. The consolidated interest that cannot be attributable to other operations of the entity is allocated based on the ratio of net assets to be sold or discontinued to the total consolidated net assets. We appropriately allocated approximately \$0.1 million and \$0.7 million of interest expense to discontinued operations for the three months ended February 26, 2011, and February 27, 2010, respectively, using the ratio of net assets to be sold or discontinued to the total consolidated net assets. We allocated approximately \$0.4 million and \$2.3 million of interest expense to discontinued operations for the nine months ended February 26, 2011, and February 27, 2010, respectively, using the same allocation methodology.

Assets and liabilities classified as discontinued operations on our unaudited condensed consolidated balance sheets as of February 26, 2011, and May 29, 2010, include the following (*in thousands*):

	Feb 26, 2011	May 29, 2010
Accounts receivable	\$ 98,814	\$ 78,929
Inventories	72,271	51,933

Discontinued Operations - Liabilities	\$ 65,893	\$ 56,587

Table of Contents

Included in discontinued operations above are assets and liabilities held for sale in connection with the sale of RFPD to Arrow as follows (*in thousands*):

	Feb 26, 2011	May 29, 2010
Accounts receivable	\$ 87,850	\$ 70,605
Inventories	71,281	50,923
Property, plant and equipment, net	10,123	10,114
Total assets held for sale	\$ 169,254	\$ 131,642
Accounts payable	\$ 49,758	\$ 41,877
Total liabilities held for sale	\$ 49,758	\$ 41,877

In accordance with ASC 230, *Statement of Cash Flows*, entities are permitted but not required to separately disclose, either in the statement of cash flows or footnotes to the financial statements, cash flows pertaining to discontinued operations. Entities that do not present separate operating cash flows information related to discontinued operations must do so consistently for all periods presented, which may include periods long after the sale or liquidation of the operation. We currently do not have cash balances that are specific to RFPD and as a result, we believe that the appropriate presentation would be to not separate cash flows from discontinued operations on our statement of cash flows.

5. INVESTMENT IN MARKETABLE EQUITY SECURITIES

Our investments are primarily equity securities, all of which are classified as available-for-sale and are carried at their fair value based on the quoted market prices. Our investments, which are included in other non-current assets, had a carrying amount of \$0.4 million and \$0.3 million as of February 26, 2011, and May 29, 2010, respectively. Proceeds from the sale of securities were less than \$0.1 million during the third quarter of fiscal 2011 and fiscal 2010. Proceeds from the sale of securities were \$0.1 million during the first nine months of fiscal 2011 and fiscal 2010. Gross realized gains and losses on those sales were less than \$0.1 million during the third quarter and first nine months of fiscal 2011 and fiscal 2010. Net unrealized holding gains of less than \$0.1 million during the third quarter of fiscal 2011 and fiscal 2010, have been included in accumulated other comprehensive income. Net unrealized holding gains of \$0.1 million and less than \$0.1 million during the first nine months of fiscal 2011 and fiscal 2010, respectively, have been included in accumulated other comprehensive income.

The following table presents the disclosure as required by ASC 320-10, *Investments - Debt and Equity Securities*, for the investment in marketable equity securities with fair values less than cost basis (*in thousands*):

Description of Securities	Marketable Security Holding Length				Total	
	Less Than 12 Months		More Than 12 Months		Fair Value	Unrealized Losses
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses		
February 26, 2011						
Common Stock	\$ 33	\$ 2	\$ 6	\$ 1	\$ 39	\$ 3
May 29, 2010						
Common Stock	\$ 60	\$ 8	\$ 17	\$ 2	\$ 77	\$ 10

6. WARRANTIES

We offer warranties for the limited number of specific products we manufacture. We also provide extended warranties for some products we sell that lengthen the period of coverage specified in the manufacturer's original warranty. Our warranty terms generally range from one to three years.

Warranty reserves are established for costs that are expected to be incurred after the sale and delivery of products under warranty. The warranty reserves are determined based on known product failures, historical experience, and other available evidence. Warranty reserves, which are included in accrued liabilities on our unaudited condensed consolidated balance sheets, were approximately \$0.1 million as of February 26,

2011, and May 29, 2010, respectively.

Table of Contents

7. DEBT

Credit Agreement

On May 28, 2010, we entered into a ninth amendment (*Credit Agreement Amendment*) to the revolving credit agreement (*Credit Agreement*) by and among us, certain of our subsidiaries, the lenders party thereto, and JP Morgan Bank, N.A., as administrative agent. The *Credit Agreement Amendment* increased the aggregate commitment for the revolving credit facility under the *Credit Agreement* from \$20.0 million to \$40.0 million and extended the termination date of the *Credit Agreement* from October 31, 2010, to May 31, 2013, or any earlier day on which the aggregate commitment is reduced to zero or the *Credit Agreement* is otherwise terminated pursuant to its terms. The *Credit Agreement Amendment* also requires us to maintain a leverage ratio of less than 2.5 to 1.0 at all times after March 1, 2008. The *Credit Agreement Amendment* permitted us to redeem all of our outstanding 7^{3/4}% convertible senior subordinated notes (*7^{3/4}% Notes*), provided that no default or un-matured default under the *Credit Agreement* has occurred and continued on the date of the redemption and provided further that the representations and warranties contained in the *Credit Agreement* were true and correct on the date of the redemption and remain true and correct after giving effect to the redemption. We used borrowings from the *Credit Agreement* to redeem the *7^{3/4}% Notes*.

On August 26, 2010, we notified JP Morgan Bank, N.A., to reduce our aggregate commitment on our revolving credit line from \$40.0 million to \$36.0 million.

On November 10, 2010, we notified JP Morgan Bank, N.A., to reduce our aggregate commitment on our revolving credit line from \$36.0 million to \$32.0 million.

As of February 26, 2011, there was \$22.0 million outstanding under the revolving credit agreement. There were no amounts outstanding under the reserve for usage on our commercial credit card program and outstanding letters of credit were approximately \$0.1 million, leaving an unused line of \$9.9 million. Based on our loan covenant, actual available credit as of February 26, 2011, was \$9.9 million. We were in compliance with our loan covenant as of February 26, 2011.

In connection with the closing of the Transaction, on March 1, 2011, the \$22.0 million outstanding under the revolving credit agreement was paid and we terminated our revolving credit agreement.

7^{3/4}% Convertible Senior Subordinated Notes

On June 1, 2010, we notified the holders of our *7^{3/4}% Notes* that we elected to redeem all \$19.5 million of the aggregate outstanding principal amount. We redeemed the *7^{3/4}% Notes* on June 11, 2010, at a redemption price equal to 100% of the principal amount thereof, plus accrued and unpaid interest.

Table of Contents**8. LEASE OBLIGATIONS, OTHER COMMITMENTS, AND CONTINGENCIES**

We lease certain warehouse and office facilities and office equipment under non-cancelable operating leases. Rent expense from continuing operations during the first nine months of fiscal 2011 was \$2.3 million. Under the terms of the Transaction, Arrow will be assuming many of our facility leases and we will sub-lease space from Arrow. Our future lease commitments for minimum rentals, including common area maintenance charges and property taxes during the remainder of fiscal 2011 and the next four years have been adjusted to reflect the Transaction as follows (*in thousands*):

Fiscal Year	Payments
Remaining Fiscal 2011	\$ 367
2012	\$ 1,295
2013	\$ 480
2014	\$ 153
2015	\$ 149
Thereafter	\$ 318

9. INCOME TAXES

The effective income tax rate from continuing operations during the third quarter and first nine months of fiscal 2011 was a tax provision of 69.5% and 52.3%, respectively, as compared to a tax provision of 47.1% and a tax benefit of 9.5% for the third quarter and first nine months of fiscal 2010, respectively. The effective tax rate as compared to the U.S. federal statutory rate of 35.0% and 34.0% during the third quarter of fiscal 2011 and fiscal 2010 resulted from our geographical distribution of taxable income, valuation allowances in the U.S. and several foreign jurisdictions, the use of net operating losses (NOL) that had a valuation allowance, and changes in foreign tax reserves from both new tax reserves and the release of tax reserves due to expiring statute of limitations. Additionally, our rate was impacted by the retroactive disallowance of our NOL carryforwards for Illinois state tax liabilities as well as the allocation of the various components of the tax provision between continuing and discontinued operations. There were no changes in judgment during the third quarter regarding the beginning-of-year valuation allowance which would require a benefit to be excluded from the annual effective tax rate and allocated to the interim period.

In the normal course of business, we are subject to examination by taxing authorities throughout the world. We are no longer subject to either U.S. federal, state, or local tax examinations by tax authorities for years prior to fiscal 2004. With few exceptions, we are no longer subject to non-U.S. income tax examinations by tax authorities for years prior to fiscal 2004. Our primary foreign tax jurisdictions are China, Japan, Germany, Singapore, and the Netherlands. We have tax years open in Singapore beginning in fiscal 2004; in Japan beginning in fiscal 2005, the Netherlands and Germany beginning in fiscal 2006; and in China beginning in calendar year 2005.

As a result of the Transaction, we no longer consider approximately \$22.5 million of undistributed foreign earnings to be permanently reinvested in our non-U.S. subsidiaries. We have not provided for U.S. deferred income taxes or foreign withholding tax on the remainder of undistributed earnings from our non-U.S. subsidiaries because such earnings are considered to be permanently reinvested and we are not able to estimate the amount of tax that may be payable upon distribution. We currently have a valuation allowance against substantially all of our U.S. deferred tax assets.

As of February 26, 2011, our worldwide liability for uncertain tax positions, excluding interest and penalties, was \$2.3 million as compared to \$3.3 million as of May 29, 2010. This reduction in the amount of our worldwide liability for uncertain tax positions was the result of the Company's re-evaluating its potential liabilities. Also, the reduction in the amount of the liability was in lieu of a valuation allowance against the Company's deferred tax assets and has no impact to the earnings of the Company. We record penalties and interest relating to uncertain tax positions in the income tax expense line item within the unaudited condensed consolidated statements of income and comprehensive income (loss).

It is reasonably possible that there will be a change in the unrecognized tax benefits, excluding interest and penalties, in the range of \$0 to approximately \$0.3 million due to the expiration of various statutes of limitations and uncertain tax positions being effectively settled with taxing authorities within the next 12 months.

Table of Contents

10. CALCULATION OF EARNINGS PER SHARE

We have authorized 30,000,000 shares of common stock, 10,000,000 shares of Class B common stock, and 5,000,000 shares of preferred stock. The Class B common stock has 10 votes per share and has transferability restrictions; however, Class B common stock may be converted into common stock on a share-for-share basis at any time. With respect to dividends and distributions, shares of common stock and Class B common stock rank equally and have the same rights, except that Class B common stock cash dividends are limited to 90% of the amount of Class A common stock cash dividends.

In accordance with ASC 260-10, *Earnings Per Share* (ASC 260), our Class B common stock is considered a participating security requiring the use of the two-class method for the computation of basic and diluted earnings per share. The two-class computation method for each period reflects the cash dividends paid per share for each class of stock, plus the amount of allocated undistributed earnings per share computed using the participation percentage which reflects the dividend rights of each class of stock. Basic and diluted earnings per share were computed using the two-class method as prescribed in ASC 260. The shares of Class B common stock are considered to be participating convertible securities since the shares of Class B common stock are convertible on a share-for-share basis into shares of common stock and may participate in dividends with common stock according to a predetermined formula which is 90% of the amount of Class A common stock cash dividends.

Diluted earnings per share is calculated by dividing net income, adjusted for interest savings, net of tax, on assumed conversion of convertible debentures and notes, by the actual shares outstanding and share equivalents that would arise from the exercise of stock options, certain restricted stock awards, and the assumed conversion of convertible debentures and notes when dilutive. For the third quarter and first nine months of fiscal 2011, our 7³/₄% Notes were repurchased, thus eliminating any effect from the dilutive calculation. For the third quarter and first nine months of fiscal 2010, the assumed conversion and the effect of the interest savings of our 7³/₄% Notes were excluded because their inclusion would have been anti-dilutive.

For the third quarter and first nine months of fiscal 2010, the weighted-average number of shares used to calculate diluted earnings per share is equal to the basic weighted average shares due to the loss from continuing operations during these periods.

Table of Contents

The earnings per share (EPS) presented in our unaudited condensed consolidated statements of income and comprehensive income (loss) are based on the following amounts (in thousands, except per share amounts):

	Three Months Ended			
	February 26, 2011		February 27, 2010	
	Basic	Diluted	Basic	Diluted
<i>Numerator for Basic and Diluted EPS:</i>				
Income (loss) from continuing operations	\$ 230	\$ 230	\$ (703)	\$ (703)
Less dividends:

Table of Contents**11. SEGMENT REPORTING**

In accordance with ASC 280-10, *Segment Reporting*, we have identified two reportable segments: EDG and Canvys.

EDG provides engineered solutions and distributes electronic components to customers in diverse markets including the steel, automotive, textile, plastics, semiconductor manufacturing, and broadcast industries.

Canvys provides global integrated display solutions serving the financial, corporate enterprise, healthcare, and industrial markets.

The CEO evaluates performance and allocates resources primarily based on the gross profit of each segment.

Operating results by segment are summarized in the following table (*in thousands*):

	Three Months Ended		Nine Months Ended	
	February 26, 2011	February 27, 2010	February 26, 2011	February 27, 2010
EDG				
Net Sales	\$ 28,002	\$ 21,229	\$ 84,150	\$ 60,146
Gross Profit	\$ 8,412	\$ 7,062	\$ 26,411	\$ 20,694
Canvys				
Net Sales	\$ 11,651	\$ 12,179	\$ 33,993	\$ 36,392
Gross Profit	\$ 3,145	\$ 3,314	\$ 8,332	\$ 9,649

A reconciliation of assets to the relevant consolidated amount is as follows (*in thousands*):

	February 26, 2011	May 29, 2010
Segment assets	\$ 46,905	\$ 45,627
Cash and cash equivalents	29,863	29,038
Other current assets (1)	7,462	2,687
Net property	5,521	6,561
Other assets (2)	2,138	2,733
Assets of discontinued operations (3)	187,941	148,169
Total assets	\$ 279,830	\$ 234,815

- (1) Other current assets include miscellaneous receivables, prepaid expenses, and current deferred income taxes.
- (2) Other assets include investments, notes receivable, non-current deferred income taxes and other assets.
- (3) See Footnote 4 - Discontinued Operations.

Table of Contents

Geographic net sales information is primarily grouped by customer destination into five areas: North America; Asia/Pacific; Europe; Latin America; and Other.

Net sales and gross profit by geographic region are summarized in the following table (*in thousands*):

	Three Months Ended		Nine Months Ended	
	February 26, 2011	February 27, 2010	February 26, 2011	February 27, 2010
Net Sales				
North America	\$ 17,715	\$ 16,145	\$ 50,962	\$ 45,639
Asia/Pacific	6,042	4,900	19,717	14,795
Europe	12,694	10,355	38,103	29,596
Latin America	2,432	1,988	7,825	6,479
Other	770	20	1,536	29
Total	\$ 39,653	\$ 33,408	\$ 118,143	\$ 96,538
Gross Profit				
North America	\$ 5,136	\$ 4,781	\$ 15,559	\$ 13,405
Asia/Pacific	2,119	1,785	6,954	5,418
Europe	3,683	3,300	10,586	9,299
Latin America	936	797	3,099	2,558
Other	(317)	(287)	(1,455)	(337)
Total	\$ 11,557	\$ 10,376	\$ 34,743	\$ 30,343

We sell our products to customers in diversified industries and perform periodic credit evaluations of our customers' financial condition. Terms are generally on open account, payable net 30 days in North America, and vary throughout Asia/Pacific, Europe, and Latin America. Estimates of credit losses are recorded in the financial statements based on monthly reviews of outstanding accounts. Other primarily includes net sales not allocated to a specific geographical region, unabsorbed value-add costs, and other unallocated expenses.

12. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures* (ASC 820), defines fair value, establishes a framework for measuring fair value in accordance with accounting principles generally accepted in the United States, and expands disclosures about fair value measurements.

ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exists; therefore requiring an entity to develop its own assumptions.

As of February 26, 2011, we held investments that are required to be measured at fair value on a recurring basis. Our investments primarily consist of equity securities of publicly traded companies for which market prices are readily available.

Investments measured at fair value on a recurring basis subject to the disclosure requirements of ASC 820 as of February 26, 2011, were as follows (*in thousands*):

	Level 1	Level 2	Level 3
Equity securities	\$ 397	\$	\$

Table of Contents

13. LITIGATION

We are involved in several pending judicial proceedings concerning matters arising in the ordinary course of business. While the outcome of litigation is subject to uncertainties, based on information available at the time the financial statements were issued, we determined disclosure of contingencies relating to any of our pending judicial proceedings was not necessary because there was less than a reasonable possibility that a material loss had been incurred.

14. SHARE REPURCHASE AUTHORIZATION

On April 5, 2011, the Company's Board of Directors authorized an initial share repurchase of \$25 million to repurchase outstanding shares of the Company's common stock. Share repurchases may be made on the open market or in privately negotiated transactions from time to time, subject to market conditions and trading restrictions. This authorization has no expiration and can be cancelled at any time.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Certain statements in this report may constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. The terms may, should, could, anticipate, believe, continues, estimate, expect, intend, objective, plan, potential, project and similar expressions are intended to identify forward-looking statements. These statements are not guarantees of future performance and involve risks, uncertainties and assumptions that are difficult to predict. These statements are based on management's current expectations, intentions or beliefs and are subject to a number of factors, assumptions and uncertainties that could cause actual results to differ materially from those described in the forward-looking statements. Factors that could cause or contribute to such differences or that might otherwise impact the business include the risk factors set forth in Item 1A of this Quarterly Report on Form 10-Q. We undertake no obligation to update any such factor or to publicly announce the results of any revisions to any forward-looking statements contained herein whether as a result of new information, future events or otherwise.

In addition, while we do, from time to time, communicate with securities analysts, it is against our policy to disclose to them any material non-public information or other confidential commercial information. Accordingly, stockholders should not assume that we agree with any statement or report issued by any analyst irrespective of the content of the statement or report. Thus, to the extent that reports issued by securities analysts contain any projections, forecasts, or opinions, such reports are not our responsibility.

INTRODUCTION

Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) is intended to assist the reader in better understanding our business, results of operations, financial condition, changes in financial condition, critical accounting policies and estimates, and significant developments. MD&A is provided as a supplement to, and should be read in conjunction with, our unaudited condensed consolidated financial statements and the accompanying notes thereto appearing elsewhere herein. This section is organized as follows:

Business Overview

Results of Operations an analysis and comparison of our consolidated results of operations for the three and nine month periods ended February 26, 2011, and February 27, 2010, as reflected in our unaudited condensed consolidated statements of income and comprehensive income (loss).

Liquidity, Financial Position, and Capital Resources a discussion of our primary sources and uses of cash for the nine month periods ended February 26, 2011, and February 27, 2010, and a discussion of changes in our financial position.

BUSINESS OVERVIEW

Richardson Electronics, Ltd. (we , us , the Company , and our) was originally incorporated in the state of Illinois in 1947 and is currently incorporated in the state of Delaware. We are a global provider of engineered solutions, a global distributor of electronic components to the electron device markets, and a global provider of display solutions to the display systems markets. Utilizing our core engineering and manufacturing capabilities, our strategy is to provide specialized technical expertise and value-add, or engineered solutions. We provide solutions and add value through design-in support, systems integration, prototype design and manufacturing, testing, and logistics for end products of our customers.

Our products include power semiconductors, electron tubes, microwave generators, and visual technology solutions. These products are used to control, switch or amplify electrical power signals, or are used as display devices in a variety of industrial, commercial, and communication applications.

As previously reported, on October 1, 2010, we entered into an agreement with Arrow Electronics, Inc. (Arrow) where Arrow agreed to acquire all of the assets primarily used or held for use in, and certain liabilities of, our Radio Frequency

Table of Contents

(RF), Wireless & Power Division (RFPD), as well as certain other Company assets, including our information technology assets (the Transaction) in exchange for \$210.0 million, which was subsequently re-negotiated to \$211.8 million.

On March 1, 2011, we successfully completed the closing of the Transaction. The total consideration paid by Arrow at the closing of the Transaction was \$238.8 million which included an estimated pre-closing working capital adjustment. The final purchase price is subject to a post-closing working capital adjustment.

On March 18, 2011, the Compensation Committee of our Board of Directors granted cash bonus compensation to certain executive officers in recognition of their efforts on successfully completing the Transaction. The cash bonus compensation amount awarded was approximately \$0.9 million and will be recorded as expense from discontinued operations during the fourth quarter of fiscal 2011.

On April 5, 2011, our Board of Directors authorized an initial share repurchase of \$25 million to repurchase outstanding shares of the Company s common stock. Share repurchases may be made on the open market or in privately negotiated transactions from time to time, subject to market conditions and trading restrictions. This authorization has no expiration and can be cancelled at any time.

On April 5, 2011, our Board of Directors voted to increase the quarterly cash dividend and declared a \$.05 dividend per share to all holders of common stock and a \$.045 cash dividend per share to all holders of Class B common stock.

We have not yet made any decisions regarding any acquisitions, however, we may pursue strategic acquisitions that include technology related to the engineering and manufacturing of components, including components used in the alternative energy markets.

We are implementing a plan to align our cost structure for our remaining businesses with the near term goal of achieving a 5% operating margin.

We have two continuing operating segments which we define as follows:

Electron Device Group (EDG) provides engineered solutions and distributes electronic components to customers in diverse markets including the steel, automotive, textile, plastics, semiconductor manufacturing, and broadcast industries.

Canvys provides global integrated display solutions serving the financial, corporate enterprise, healthcare, and industrial markets.

We currently have operations in the following major geographic regions:

North America;

Asia/Pacific;

Europe; and

Latin America.

RESULTS OF CONTINUING OPERATIONS

Financial Summary Three Months Ended February 26, 2011

Net sales for the third quarter of fiscal 2011 were \$39.7 million, up 18.7%, compared to net sales of \$33.4 million during the third quarter of last year.

Edgar Filing: RICHARDSON ELECTRONICS LTD/DE - Form 10-Q

Gross margin as a percentage of net sales decreased to 29.1% during the third quarter of fiscal 2011 compared to 31.1% during the third quarter of last year.

SG&A expenses during the third quarter of fiscal 2011 were \$10.7 million, or 27.1% of net sales, compared to \$10.6 million, or 31.8% of net sales, during the third quarter of last year.

Table of Contents

Operating income during the third quarter of fiscal 2011 was \$0.8 million, or 2.1% of net sales, compared to a loss of \$0.3 million, for the third quarter last year.

Income from continuing operations during the third quarter of fiscal 2011 was \$0.2 million, compared to a loss from continuing operations of \$0.7 million during the third quarter of last year.

Income from discontinued operations, net of tax, was \$8.0 million, or \$0.43 per diluted common share, during the third quarter of fiscal 2011 compared to \$5.2 million, or \$0.30 per diluted common share, during the third quarter of fiscal 2010.

Net income during the third quarter of fiscal 2011 was \$8.2 million, or \$0.44 per diluted common share, compared to net income of \$4.5 million, or \$0.26 per diluted common share, in the prior year's third quarter.

Financial Summary Nine Months Ended February 26, 2011

Net sales for the first nine months of fiscal 2011 were \$118.1 million, up 22.4%, compared to net sales of \$96.5 million during the first nine months of last year.

Gross margin as a percentage of net sales decreased to 29.4% during the first nine months of fiscal 2011 compared to 31.4% during the first nine months of last year.

SG&A expenses during the first nine months of fiscal 2011 were \$32.5 million, or 27.5% of net sales, compared to \$31.6 million, or 32.8% of net sales, during the first nine months of last year.

Operating income during the first nine months of fiscal 2011 was \$2.3 million, or 1.9% of net sales, compared to a loss of \$1.3 million for the first nine months of last year.

Income from continuing operations during the first nine months of fiscal 2011 was \$0.9 million, or \$0.05 per diluted common share, compared to a loss from continuing operations of \$3.2 million, during the first nine months of last year.

Income from discontinued operations, net of tax, was \$23.2 million, or \$1.28 per diluted common share, during the first nine months of fiscal 2011 compared to \$12.8 million, or \$0.73 per diluted common share, during the first nine months of the prior year.

Net income during the first nine months of fiscal 2011 was \$24.1 million, or \$1.33 per diluted common share, compared to net income of \$9.5 million, or \$0.55 per diluted common share, during the first nine months of the prior year.

Net Sales and Gross Profit Analysis

During the third quarter of fiscal 2011, consolidated net sales increased 18.7% compared to the third quarter of fiscal 2010. Sales for EDG grew by 31.9%, offset by a 4.3% decline in sales for Canvys. During the first nine months of fiscal 2011, consolidated net sales increased 22.4% compared to the first nine months of fiscal 2010, reflecting a 39.9% sales growth in EDG, offset by a 6.6% decline in sales for Canvys.

Table of Contents

Net sales by segment and percent change during the third quarter and first nine months of fiscal 2011 and 2010 were as follows (*in thousands*):

Net Sales

	FY 2011	FY 2010	% Change
Third Quarter			
EDG	28,002	21,229	31.9%
Canvys	11,651	12,179	(4.3%)
Total	\$ 39,653	\$ 33,408	18.7%
First Nine Months			
EDG	84,150	60,146	39.9%
Canvys	33,993	36,392	(6.6%)
Total	\$ 118,143	\$ 96,538	22.4%

Consolidated gross profit as a percentage of net sales decreased to 29.1% during the third quarter of fiscal 2011, as compared to 31.1% during the third quarter of fiscal 2010 and to 29.4% during the first nine months of fiscal 2011, as compared to 31.4% during the first nine months of fiscal 2010. The decrease primarily reflects a distribution agreement that requires us to maintain customer price commitments.

Gross profit reflects the distribution and manufacturing product margin less manufacturing variances, inventory obsolescence charges, customer returns, scrap and cycle count adjustments, engineering costs, and other provisions.

Gross profit by segment and percent of segment net sales during the third quarter and first nine months of fiscal 2011 and 2010 were as follows (*in thousands*):

Gross Profit

	FY 2011	% of Net Sales	FY 2010	% of Net Sales
Third Quarter				
EDG	8,412	30.0%	7,062	33.3%
Canvys	3,145	27.0%	3,314	27.2%
Total	\$ 11,557	29.1%	\$ 10,376	31.1%
First Nine Months				
EDG	26,411	31.4%	20,694	34.4%
Canvys	8,332	24.5%	9,649	26.5%
Total	\$ 34,743	29.4%	\$ 30,343	31.4%

Electron Device Group

Edgar Filing: RICHARDSON ELECTRONICS LTD/DE - Form 10-Q

Net sales for EDG were \$28.0 million, up 31.9%, during the third quarter of fiscal 2011 compared to \$21.2 million during the third quarter of fiscal 2010. This increase reflects incremental sales volume from a distribution agreement and growing demand as our customers benefit from improving economic conditions. Our products support the industrial power grid, the semiconductor wafer fabrication equipment, and the broadcast industries. Gross margin as a percentage of net sales

Table of Contents

decreased to 30.0% during the third quarter of fiscal 2011, as compared to 33.3% during the third quarter of fiscal 2010. This significant decline in gross margin percentage primarily reflects the lower-margin business under the terms of a distribution agreement which began in March 2010. As the terms of the pricing commitments included in the distribution agreement expire, we expect EDG's gross margin percentage to improve.

Net sales for EDG were \$84.2 million, up 39.9% during the first nine months of fiscal 2011, from \$60.1 million during the first nine months of fiscal 2010. This increase reflects incremental sales volume from the major distribution agreement that began in March 2010 as well as increased demand reflecting improving economic conditions. Overall demand for tubes continues to show tremendous growth across all EDG product lines. As equipment is returned to active production, we are experiencing growing demand for our products that support this equipment. Gross margin as a percentage of net sales decreased to 31.4% during the first nine months of fiscal 2011, as compared to 34.4% during the first nine months of fiscal 2010. The decline in our gross margin percentage primarily reflects the lower-margin business under the terms of the distribution agreement, which began in March 2010. As these pricing commitments included in the distribution agreement expire, we expect EDG's gross margin percentage to improve.

Canvys

Net sales for Canvys were \$11.7 million, down 4.3%, during the third quarter of fiscal 2011 compared to \$12.2 million during the third quarter of fiscal 2010. Sales to Original Equipment Manufacturers (OEM) were down in both North America and Europe while sales to healthcare customers were up over prior year quarter. Gross margin as a percentage of net sales for the third quarter of fiscal 2011 decreased slightly to 27.0%, compared to 27.2% in the prior year's quarter.

Net sales for Canvys were \$34.0 million for the first nine months of fiscal 2011, compared to \$36.4 million during the first nine months of fiscal 2010. Sales in the North America OEM segment of the business improved over prior year while sales in Europe were down slightly. The most significant contributor to the decline was a single, non-recurring healthcare project that occurred in the prior year. Gross margin as a percentage of net sales decreased to 24.5% during the first nine months of fiscal 2011 as compared to 26.5% during the first nine months of fiscal 2010 due primarily to increasing competitive pressures and rising inbound freight cost.

Selling, General, and Administrative Expenses

Selling, general and administrative expenses (SG&A) were \$10.7 million for the third quarter of fiscal 2011 compared to \$10.6 million during the third quarter of fiscal 2010. The \$10.7 million and \$10.6 million during the third quarter of fiscal 2011 and fiscal 2010, respectively, reflect the SG&A from our continuing operations. The \$0.1 million increase in SG&A during the third quarter of fiscal 2011 relates to an increase of \$0.3 million for EDG, primarily related to incremental costs associated with a strategic distribution agreement for EDG and a \$0.2 million increase in support functions costs, offset by a decrease of \$0.4 million, primarily related to a reduction in headcount for Canvys.

Other (Income) Expense

Other (income) expense was \$0.1 million of expense during the third quarter of fiscal 2011, as compared to \$0.2 million of expense during the third quarter of fiscal 2010. The decrease in expense during the third quarter of fiscal 2011 from the third quarter of fiscal 2010 was due primarily to changes in foreign currency exchange rates relative to the U.S. dollar and a reduction of interest expense related to the redemption of our 7^{3/4}% Notes. Other (income) expense included a foreign exchange loss of less than \$0.1 million during the third quarter of fiscal 2011, as compared to a foreign exchange gain of \$0.2 million during the third quarter of fiscal 2010. Our foreign exchange gains and losses are primarily due to the translation of our U.S. currency we have in non-U.S. entities. We currently do not utilize derivative instruments to manage our exposure to foreign currency. The third quarter of fiscal 2011 included interest expense of less than \$0.1 million, as compared to interest expense of \$0.3 million during the third quarter of fiscal 2010.

Other (income) expense was \$0.5 million of expense during the first nine months of fiscal 2011, as compared to \$2.3 million of expense during the first nine months of fiscal 2010. The decrease in expense during the first nine months of fiscal 2011 from the first nine months of fiscal 2010 was due primarily to changes in foreign currency exchange rates relative to the U.S. dollar and a reduction of interest expense related to the redemption of our 7^{3/4}% Notes. Other (income) expense included a foreign exchange loss of \$0.3 million during the first nine months of fiscal 2011, as compared to a foreign

Table of Contents

exchange loss of \$1.3 million during the first nine months of fiscal 2010. Our foreign exchange gains and losses are primarily due to the translation of our U.S. currency we have in non-U.S. entities. We currently do not utilize derivative instruments to manage our exposure to foreign currency. The first nine months of fiscal 2011 included interest expense of \$0.1 million, as compared to interest expense of \$1.0 million during the first nine months of fiscal 2010.

Income Tax Provision

The effective income tax rate from continuing operations during the third quarter and first nine months of fiscal 2011 was a tax provision of 69.5% and 52.3%, respectively, as compared to a tax provision of 47.1% and a tax benefit of 9.5% for the third quarter and first nine months of fiscal 2010, respectively. The effective tax rate as compared to the U.S. federal statutory rate of 35.0% and 34.0% during the third quarter of fiscal 2011 and fiscal 2010 resulted from our geographical distribution of taxable income, valuation allowances in the U.S. and several foreign jurisdictions, the use of net operating losses (NOL) that had a valuation allowance, and changes in foreign tax reserves from both new tax reserves and the release of tax reserves due to expiring statute of limitations. Additionally, our rate was impacted by the retroactive disallowance of our NOL carryforwards for Illinois state tax liabilities as well as the allocation of the various components of the tax provision between continuing and discontinued operations. There were no changes in judgment during the third quarter regarding the beginning-of-year valuation allowance which would require a benefit to be excluded from the annual effective tax rate and allocated to the interim period.

In the normal course of business, we are subject to examination by taxing authorities throughout the world. We are no longer subject to either U.S. federal, state, or local tax examinations by tax authorities for years prior to fiscal 2004. With few exceptions, we are no longer subject to non-U.S. income tax examinations by tax authorities for years prior to fiscal 2004. Our primary foreign tax jurisdictions are China, Japan, Germany, Singapore, and the Netherlands. We have tax years open in Singapore beginning in fiscal 2004; in Japan beginning in fiscal 2005, the Netherlands and Germany beginning in fiscal 2006; and in China beginning in calendar year 2005.

As a result of the Transaction, we no longer consider approximately \$22.5 million of undistributed foreign earnings to be permanently reinvested in our non-U.S. subsidiaries. We have not provided for U.S. deferred income taxes or foreign withholding tax on the remainder of undistributed earnings from our non-U.S. subsidiaries because such earnings are considered to be permanently reinvested and we are not able to estimate the amount of tax that may be payable upon distribution. We currently have a valuation allowance against substantially all of our U.S. deferred tax assets.

As of February 26, 2011, our worldwide liability for uncertain tax positions, excluding interest and penalties, was \$2.3 million as compared to \$3.3 million as of May 29, 2010. This reduction in the amount of our worldwide liability for uncertain tax positions was the result of the Company's re-evaluating its potential liabilities. Also, the reduction in the amount of the liability was in lieu of a valuation allowance against the Company's deferred tax assets and has no impact to the earnings of the Company. We record penalties and interest relating to uncertain tax positions in the income tax expense line item within the unaudited condensed consolidated statements of income and comprehensive income (loss).

It is reasonably possible that there will be a change in the unrecognized tax benefits, excluding interest and penalties, in the range of \$0 to approximately \$0.3 million due to the expiration of various statutes of limitations and uncertain tax positions being effectively settled with taxing authorities within the next 12 months.

Discontinued Operations

Arrow Transaction

As previously reported, on October 1, 2010, we entered into an agreement with Arrow, where Arrow agreed to acquire all of the assets primarily used or held for use in, and certain liabilities of RFPD, as well as certain other Company assets, including our information technology assets in exchange for \$210.0 million, subsequently re-negotiated to \$211.8 million.

On March 1, 2011, we successfully completed the closing of the Transaction. The total consideration paid by Arrow at the closing of the Transaction was \$238.8 million which included an estimated pre-closing working capital adjustment. The final purchase price is subject to a post-closing working capital adjustment.

Table of Contents

On March 18, 2011, the Compensation Committee of our Board of Directors granted cash bonus compensation to certain executive officers in recognition of their efforts on successfully completing the Transaction. The cash bonus compensation amount awarded was approximately \$0.9 million and will be recorded as expense from discontinued operations during the fourth quarter of fiscal 2011.

To help facilitate the transition of RFPD to Arrow, we agreed to provide certain transitional services to Arrow such as financial support services, warehouse services, and access to facilities in accordance with the terms of the Transition Services Agreement. The duration of the transitional services are less than one year from March 1, 2011. Arrow also agreed to provide certain transitional services such as information technology services, warehouse services, and access to facilities and equipment in accordance with the terms of the Transition Services Agreement. The duration of these transitional services are also less than one year from March 1, 2011, except for the information technology services which is three years. In addition, we entered into a Manufacturing Agreement with Arrow, in connection with the Transaction, for a term of three years. Pursuant to the Manufacturing Agreement, we agreed to manufacture certain products for Arrow.

The Transition Services Agreement, which commenced on March 1, 2011, will allow us to exert very limited influence over Arrow's operating and financial policies. Also, the continuing cash flows related to our Transition Services Agreement as well as the Manufacturing Agreement, are insignificant. We believe it is appropriate to include fees and associated costs with the Transition Services Agreement that relate to financial support, certain facilities, and certain warehouse services in discontinued operations as they relate specifically to RFPD. We further believe it is appropriate to treat the revenue and costs associated with the Manufacturing Agreement in discontinued operations as it also relates specifically to RFPD.

Honeywell Transaction

On May 31, 2007, we completed the sale of the Security Systems Division/Burtek Systems (SSD/Burtek) to Honeywell International Inc. (Honeywell). The sale agreement of SSD/Burtek to Honeywell contemplated a post-closing working capital-based purchase price adjustment. During the third quarter of fiscal 2008, we received notification from Honeywell seeking a purchase price adjustment and we issued a dispute notice in a timely manner. On December 18, 2009, we reached an agreement with Honeywell to settle the pending working capital disputes as well as other related claims. As a result, we recorded \$1.2 million of expense, net of zero tax effect, as a loss from discontinued operations during the nine months ended February 27, 2010.

Financial Summary

Net sales, gross profit, selling, general, and administrative expenses, interest expense, investment income, income tax provision (benefit), and income from discontinued operations, net of tax, for the three and nine month periods ended February 26, 2011, and February 27, 2010, are presented in the following table (*in thousands*):

	Three Months		Nine Months	
	Feb 26, 2011	Feb 27, 2010	Feb 26, 2011	Feb 27, 2010
Net sales	\$ 104,593	\$ 87,922	\$ 313,013	\$ 250,218
Gross profit	22,836	19,032	67,156	54,575
Selling, general, and administrative expenses	14,119	13,081	41,883	39,873
Interest expense	119	692	387	2,272
Investment income		(13)		(55)
Income tax provision (benefit)	611	101	1,684	(265)
Income from discontinued operations, net of tax	7,987	5,171	23,202	12,750

In accordance with ASC 205-20, the allocation of interest expense to discontinued operations of other consolidated interest that is not directly attributable to or related to other operations of the entity is permitted but not required. The consolidated interest that cannot be attributable to other operations of the entity is allocated based on the ratio of net assets to be sold or discontinued to the total consolidated net assets. We appropriately allocated approximately \$0.1 million and \$0.7 million of interest expense to discontinued operations for the three months ended February 26, 2011, and February 27, 2010, respectively, using the ratio of net assets that we are selling or that become discontinued. We allocated approximately \$0.4 million and \$2.3 million of interest expense to discontinued operations for the nine months ended February 26, 2011, and February 27, 2010, respectively, using the same allocation methodology.

Table of Contents

Assets and liabilities classified as discontinued operations on our unaudited condensed consolidated balance sheets as of February 26, 2011, and May 29, 2010, include the following (*in thousands*):

	Feb 26, 2011	May 29, 2010
Accounts receivable	\$ 98,814	\$ 78,929
Inventories	72,271	51,933
Prepaid expenses	3,794	3,076
Current deferred income taxes	2,385	2,087
Property, plant, and equipment, net	10,123	10,114
Non-current deferred income taxes	554	2,030
Discontinued Operations - Assets	\$ 187,941	\$ 148,169
Accounts payable	\$ 53,242	\$ 43,549
Accrued liabilities	9,924	8,770
Other non-current liabilities	1,049	1,047
Long-term income tax liabilities	1,678	3,221
Discontinued Operations - Liabilities	\$ 65,893	\$ 56,587

Included in discontinued operations above are assets and liabilities held for sale in connection with the sale of RFPD to Arrow as follows (*in thousands*):

	Feb 26, 2011	May 29, 2010
Accounts receivable	\$ 87,850	\$ 70,605
Inventories	71,281	50,923
Property, plant and equipment, net	10,123	10,114
Total assets held for sale	\$ 169,254	\$ 131,642
Accounts payable	\$ 49,758	\$ 41,877
Total liabilities held for sale	\$ 49,758	\$ 41,877

In accordance with ASC 230, *Statement of Cash Flows*, entities are permitted but not required to separately disclose, either in the statement of cash flows or footnotes to the financial statements, cash flows pertaining to discontinued operations. Entities that do not present separate operating cash flows information related to discontinued operations must do so consistently for all periods presented, which may include periods long after the sale or liquidation of the operation. We currently do not have cash balances that are specific to RFPD and as a result, we believe that the appropriate presentation would be to not separate cash flows from discontinued operations on our statement of cash flows.

Net Income and Per Share Data

Net income during the third quarter of fiscal 2011 was \$8.2 million, or \$0.44 per diluted common share and \$0.41 per Class B diluted common share, as compared to net income of \$4.5 million during the third quarter of fiscal 2010, or \$0.26 per diluted common share and \$0.23 per Class B diluted common share.

Net income during the first nine months of fiscal 2011 was \$24.1 million, or \$1.33 per diluted common share and \$1.21 per Class B diluted common share, as compared to net income of \$9.5 million during the first nine months of fiscal 2010, or \$0.55 per diluted common share and \$0.48 per Class B diluted common share.

Table of Contents**LIQUIDITY, FINANCIAL POSITION, AND CAPITAL RESOURCES**

Our growth and cash needs have been primarily financed through income from operations and borrowings under our revolving credit facility. Cash and cash equivalents for the third quarter ended February 26, 2011, were \$29.9 million and our borrowings under our credit facility were \$22.0 million. This compares to cash and cash equivalents of \$29.0 million and borrowings of \$19.5 million as of May 29, 2010. Liquidity under our revolving credit facility is primarily available to fund our working capital requirements and support capital expenditures. As a result of accounting for RFPD as a discontinued operation, we anticipate that cash flow from operating activities will continue to be a source of cash. While net income will significantly decline as a result of the sale, our working capital investment and capital spending requirements will also significantly decline.

Cash Flows from Discontinued Operations

In accordance with ASC 230, *Statement of Cash Flows*, entities are permitted but not required to separately disclose, either in the statement of cash flows or footnotes to the financial statements, cash flows pertaining to discontinued operations. Entities that do not present separate operating cash flows information related to discontinued operations must do so consistently for all periods presented, which may include periods long after the sale or liquidation of the operation. We currently do not have cash balances that are specific to RFPD and as a result, we believe that the appropriate presentation would be to not separate cash flows from discontinued operations on our statement of cash flows.

Upon the closing of the Transaction, we received \$238.8 million which included an estimated pre-closing working capital adjustment. The final purchase price is subject to a post-close working capital adjustment. We believe we will continue to have sufficient liquidity to fund our future growth strategies for our remaining business.

Cash Flows from Operating Activities

Cash used in operating activities, including our discontinued operations, during the first nine months of fiscal 2011 was \$6.5 million. The \$6.5 million of cash used in operating activities reflects increases in accounts receivable and inventory, partially offset by increases in accounts payable. The increase in accounts receivable of \$19.9 million, excluding the impact of foreign exchange of \$5.3 million, was due primarily to increased sales volume during the first nine months of fiscal 2011. The increase in inventory of \$20.3 million, excluding the impact of foreign currency exchange of \$1.2 million, during the first nine months of fiscal 2011 was due primarily to increased purchasing to support future sales growth. The increase in accounts payable balances of \$8.7 million, excluding the impact of foreign currency exchange of \$0.7 million, during the first nine months of fiscal 2011 was due primarily to the timing of payments as well as the increase in inventory purchases.

Cash provided by operating activities, including our discontinued operations, during the first nine months of fiscal 2010 was \$20.7 million. The \$20.7 million of cash provided by operating activities reflects a decrease in inventory and higher accounts payable, partially offset by higher accounts receivable balances. The decline in inventory of \$1.9 million, excluding the impact of foreign currency exchange of \$0.3 million, during the first nine months of fiscal 2010 was due primarily to increased sales volume and a higher rate of inventory turns. The increase in accounts payable balances of \$7.0 million, excluding the impact of foreign currency exchange of \$0.1 million, during the first nine months of fiscal 2010, was due primarily to the timing of payments. The increase in accounts receivable balances of \$0.4 million, excluding the impact of foreign currency exchange of \$0.6 million, during the first nine months of fiscal 2010 was due primarily to higher sales volume during the third quarter.

Cash Flows from Investing Activities

Net cash used in investing activities, including our discontinued operations, of less than \$0.6 million during the first nine months of fiscal 2011 was due primarily to \$0.5 million of capital expenditures. Net cash used in investing activities, including our discontinued operations, of \$1.7 million during the first nine months of fiscal 2010 was due primarily to a \$1.0 million settlement payment related to a prior year divestiture and \$0.7 million of capital expenditures.

Cash Flows from Financing Activities

Net cash provided by financing activities, including discontinued operations, of \$5.3 million during the first nine months of fiscal 2011 was due primarily to borrowings on our credit agreement and proceeds from the issuance of common stock,

Table of Contents

partially offset by the redemption of our 7³/₄% Notes and cash dividends paid. Net cash used in financing activities, including discontinued operations, of \$11.6 million during the first nine months of fiscal 2010 was due primarily to cash dividends paid, the repurchase of our 8% convertible senior subordinated notes and repurchases of our common stock.

Dividend payments for the first nine months of fiscal 2011 were approximately \$1.1 million. All future payments of dividends are at the discretion of the Board of Directors. Dividend payments will depend on earnings, capital requirements, operating conditions, and such other factors that the Board may deem relevant.

As of February 26, 2011, we maintained \$22.0 million of short term debt on our credit agreement. On June 11, 2010, we redeemed all \$19.5 million of the aggregate outstanding principal amount of our 7³/₄% Notes, at a redemption price equal to 100% of the principal amount thereof, plus accrued and unpaid interest. See Note 7 Debt of our unaudited condensed consolidated financial statements for further discussion on the redemption.

In connection with the closing of the Transaction, on March 1, 2011, the \$22.0 million outstanding under the revolving credit agreement was paid and we terminated our revolving credit agreement.

We believe that the existing sources of liquidity, including current cash, will provide sufficient resources to meet known capital requirements and working capital needs for the fiscal year ending May 28, 2011.

UPDATES TO CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Inventories: Our worldwide inventories are stated at the lower of cost or market, generally using a weighted-average cost method. Inventories include material, labor, and overhead associated with such inventories.

We do not anticipate any material risks or uncertainties related to possible inventory write-downs for the remainder of our fiscal 2011, ending May 28, 2011.

Revenue Recognition: Our product sales are recognized as revenue upon shipment, when title passes to the customer, when delivery has occurred or services have been rendered, and when collectability is reasonably assured. Our sales are recorded net of discounts and returns based on our historical experience. Our products are often manufactured to meet the specific design needs of our customers' applications. Our engineers work closely with customers to ensure that our products will meet their needs. Our customers are under no obligation to compensate us for designing the products we sell.

In a limited number of cases, we provide and bill our customers with non-product related services, such as testing, calibration, non-recurring engineering, tooling, and installation services. We have concluded that the service revenue should not be considered a separate unit of accounting from the product sale as we have determined there is no objective and reliable evidence of the fair value of the undelivered items.

We have also concluded that, in the limited cases where remaining obligations exist after delivery of the product, the obligation relative to the unit of accounting is inconsequential or perfunctory. This conclusion was reached based on the following facts: the timing of any remaining obligation is agreed upon with the customer, which in most cases, is performed immediately after the delivery of the product; the cost and time involved to complete the remaining obligation is minimal, the costs and time do not vary significantly; we have a demonstrated history of completing the remaining obligations timely; and finally, failure to complete the remaining obligation does not enable the customer to receive a full or partial refund of the product or the service.

Discontinued Operations: In accordance with ASC 205-20, *Presentation of Financial Statements- Discontinued Operations* (ASC 205-20), we reported the results of RFPD as a discontinued operation. The application of ASC 205-20 is discussed in Note 4 Discontinued Operations of our notes to unaudited condensed consolidated financial statements for additional discussion on the sale of our RFPD segment.

Loss Contingencies: We accrue a liability for loss contingencies when it is probable that a liability has been incurred and the amount can be reasonably estimated. When only a range of possible loss can be established, the most probable amount in the range is accrued. If no amount within this range is a better estimate than any other amount within the range, the minimum amount in the range is accrued. If we determine that there is at least a reasonable possibility that a loss may have been incurred, we will include a disclosure describing the contingency.

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Risk Management and Market Sensitive Financial Instruments

We are exposed to various market risks. The primary financial risks include foreign currency exchange risks, as certain operations, assets, and liabilities of ours are denominated in foreign currencies, and fluctuations in interest rates, as some of our debt financing varies with market rates. We manage these risks through normal operating and financing activities.

The interpretation and analysis of these disclosures should not be considered in isolation since such variances in exchange rates and interest rates would likely influence other economic factors. Such factors, which are not readily quantifiable, would likely also affect our operations. Additional disclosure regarding various market risks are set forth in Part I, Item 1A, Risk Factors of our Annual Report on Form 10-K for the year ended May 29, 2010.

Foreign Currency Exposure

Even though we take into account current foreign currency exchange rates at the time an order is taken, our financial statements denominated in a non-U.S. functional currency are subject to foreign exchange rate fluctuations.

Our foreign denominated assets and liabilities are cash, accounts receivable, inventory, accounts payable, and intercompany receivables and payables, as we conduct business in countries of the European Union, Asia/Pacific and, to a lesser extent, Canada and Latin America. We could manage foreign exchange exposures by using currency clauses in sales contracts, local debt to offset asset exposures, and forward contracts to hedge significant transactions. We have not entered into any forward contracts in fiscal 2011 or fiscal 2010.

Interest Expense Exposure

Our credit agreement's interest rates varied based on market interest rates. Our interest expense was \$0.1 million as of February 26, 2011. We have an immaterial risk related to varying market rates.

In connection with the closing of the Transaction, on March 1, 2011, the \$22.0 million outstanding under the revolving credit agreement was paid and we terminated our revolving credit agreement.

ITEM 4. CONTROLS AND PROCEDURES

(a) Evaluation of Disclosure Controls and Procedures

Management of the Company, with the participation of the Chief Executive Officer and the Chief Financial Officer, evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the Exchange Act)) as of February 26, 2011.

Disclosure controls and procedures are intended to provide reasonable assurance that information required to be disclosed in the Company's Exchange Act reports is recorded, processed, summarized, and reported within the time periods specified by the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to management, including the Company's Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. Based on this evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this report.

(b) Changes in Internal Control over Financial Reporting

There were no changes in the Company's internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Exchange Act Rules 13a-15 or 15d-15 that occurred during the third quarter of fiscal 2011 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Table of Contents

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

On March 31, 2011, Kyocera International, Inc. filed a complaint against us, Richardson RFPD, Inc., Arrow Electronics Inc. and Fractus, S.A., in the United States District Court for the Southern District of California. The complaint alleges, among other things, that certain products manufactured by Fractus, S.A., and offered for sale by our former RFPD division, infringe two patents owned by Kyocera Corporation and exclusively licensed to Kyocera International, Inc.. The complaint seeks monetary damages, injunctive relief, and costs.

By letter dated March 28, 2011, we were notified by 3M Company that a complaint had been filed against it on March 16, 2011, by Ogma, LLC in the Eastern District of Texas. The complaint alleges that several of 3M's products infringe U.S. Patent No. 5,825,427 owned by Ogma. Our Canvys division supplies at least one of the products at issue to 3M pursuant to a Product Supply Agreement, and 3M has asserted a claim for indemnity against us pursuant to the terms of the Product Supply Agreement.

From time to time we or our subsidiaries are involved in legal actions that arise in the ordinary course of our business. While the outcome of these matters cannot be predicted with certainty, we do not believe that the outcome of any current claims, including the above-mentioned legal matters, will have a material adverse effect on our consolidated financial position, results of operations or cash flows.

ITEM 1A. RISK FACTORS

Investors should consider carefully the following risk factors in addition to the other information included and incorporated by reference in this Quarterly Report on Form 10-Q. While we believe we have identified the key risk factors affecting our business, there may be additional risks and uncertainties that are not presently known or that are not currently believed to be significant that may adversely affect our results of operations.

We must continue to reduce costs to improve our profitability.

Our EDG and Canvys businesses have generated only modest operating gains for the first nine months of fiscal 2011. With the closing of the Arrow Transaction, we are taking actions to re-align our cost structure to fit the remaining businesses. Our ability to complete these actions and the impact of such actions on our business may be limited by a variety of factors. The cost-reduction actions, in turn, could have the effect of reducing our talent pool and available resources and, consequently, could have long-term effects on our business by affecting our ability to respond to customers and limiting our ability to hire and retain key personnel. These circumstances could negatively affect our financial performance, whether or not the cost reduction initiatives prove successful, and, as a result, adversely affect our stock price.

We maintain a significant investment in inventory. We have also incurred significant charges for inventory obsolescence, and may incur similar charges in the future.

We maintain significant inventories in an effort to ensure that customers have a reliable source of supply. The market for many of our products is characterized by rapid change as a result of the development of new technologies, evolving industry standards, and frequent new product introductions by some of our customers. We do not have many long-term supply contracts with our customers. If we fail to anticipate the changing needs of our customers and accurately forecast our customer demands, our customers may not continue to place orders with us, and we may accumulate significant inventories of products which we will be unable to sell or return to our vendors. This may result in a significant decline in the value of our inventory.

We face competitive pressure in the markets we serve and, if we do not compete effectively, we could significantly harm our operating results.

We face many competitors, both global and local, in the markets we serve. Our overall competitive position depends on a number of factors including price, engineering capability, vendor representation, product diversity, lead times and the level of customer service. Our competition includes hundreds of electronic component distributors of various sizes, locations, and market focuses, as well as original equipment manufacturers and refurbishers. Some of our competitors have greater resources and broader name recognition than we do. As a result, these competitors may be able to better withstand changing

Table of Contents

conditions within our markets and throughout the economy as a whole. Increased competition may result in price reductions, reduced margins, or a loss of market share, any of which could materially and adversely affect our business, operating results, and financial condition.

EDG is dependent on a limited number of vendors to supply it with essential products.

Electron tubes and certain other products supplied by EDG are currently produced by a relatively small number of manufacturers. Our future success will depend, in large part, on maintaining current vendor relationships and developing new relationships. We believe that vendors supplying products to some of the product lines of EDG are consolidating their distribution relationships or exiting the business. To the extent that our significant suppliers reduce the amount of products they sell through distribution, or are unwilling to continue to do business with us, or are unable to continue to meet or significantly alter their obligations, our business could be materially adversely affected. In addition, to the extent that our suppliers modify the terms of their contracts with us, or extend lead times, limit supplies due to capacity constraints, or other factors, there could be a material adverse effect on our business.

We derive a significant portion of our revenue by distributing products designed and manufactured by third parties and, as a result, may be unable to anticipate changes in the marketplace which could adversely affect our sales.

Our business is driven primarily by customers' needs and demands for new products and/or enhanced performance, and by products developed and manufactured by third parties. Because we distribute products developed and manufactured by third parties, our business would be adversely affected if our suppliers fail to anticipate which products or technologies will gain market acceptance or if we cannot sell these products at competitive prices. We cannot be certain that our suppliers will permit us to distribute their newly developed products, or that such products will meet our customers' needs and demands. Additionally, because some of our principal competitors design and manufacture new technology, those competitors may have a competitive advantage over us. To successfully compete, we must maintain an efficient cost structure, an effective sales and marketing team and offer additional services that distinguish us from our competitors. Failure to execute these strategies successfully could harm our results of operations.

Economic, political, and other risks associated with international sales and operations could adversely affect our results of operations.

Because we sell and source our products worldwide, our business is subject to risks associated with doing business internationally. During the first nine months of fiscal year 2011 and during fiscal year 2010, and 2009, approximately 47.5%, 50.5% and 50.7%, respectively, of our sales came from our operations outside the United States. We anticipate that revenue from international operations will continue to represent a majority of our total revenue. In addition, many of our employees, suppliers, and warehouse facilities are located outside the United States. Accordingly, our future results could be harmed by a variety of factors including:

interruption to transportation flows for delivery of products to us and to our customers;

changes in foreign currency exchange rates;

changes in a specific country's or region's political or economic conditions;

trade protection measures and import or export licensing requirements;

negative consequences from changes in tax laws;

difficulty in staffing and managing global operations;

differing labor regulations;

difficulty collecting accounts receivable;

unexpected changes in regulatory requirements; and

geopolitical turmoil, including terrorism, war, or natural disasters, may negatively affect our results from operations

Table of Contents

While the impact of these factors is difficult to predict, any one or more of these factors could adversely affect our operations and financial results in the future.

Our products may be found to be defective and, as a result, warranty and/or product liability claims may be asserted against us, which may have a material adverse effect on us.

We sell many of our components at prices that are significantly lower than the cost of the equipment or other goods in which they are incorporated. Since a defect or failure in a product could give rise to failures in the end products that incorporate them, we may face claims for damages that are disproportionate to the revenues and profits we receive from the components involved in the claims. While we typically have provisions in our agreements with our suppliers that hold the supplier accountable for defective products, and we and our suppliers generally exclude consequential damages in our standard terms and conditions, our ability to avoid such liabilities may be limited as a result of various factors, including the inability to exclude such damages due to the laws of some of the countries where we do business. Our business could be materially adversely affected as a result of a significant quality or performance issue in the components sold by us if we are required to pay for the damages that result. Although we have product liability insurance, such insurance is limited in coverage and amount.

A single stockholder has voting control over us.

As of February 26, 2011, Edward J. Richardson, our Chairman, Chief Executive Officer and President, beneficially owned approximately 99% of the outstanding shares of our Class B common stock, representing approximately 66% of the voting power of the outstanding common stock. This share ownership permits Mr. Richardson to exert control over the outcome of most stockholder votes, including votes concerning the election of directors, by-law amendments, possible mergers, corporate control contests, and other significant corporate transactions.

Foreign currency exchange rates may adversely affect our results.

Since a significant portion of our business is conducted outside the U.S., we face exposure to movements in non-U.S. currency exchange rates, which may harm our results of operations. Price increases caused by currency exchange rate fluctuations may make our products less competitive or have an adverse effect on our margins. Our international revenues and expenses generally are derived from sales and operations in currencies other than the U.S. dollar. Accordingly, when the U.S. dollar strengthens in relation to the currencies of the countries in which we sell our products, our U.S. dollar reported net revenue and income will decrease. We currently do not engage in any currency hedging transactions. We cannot predict whether foreign currency exchange risks inherent in doing business in foreign countries will have a material adverse effect on our operations and financial results in the future.

Substantial defaults by our customers on our accounts receivable or the loss of significant customers could have a significant negative impact on our business.

A significant portion of our working capital consists of accounts receivable from customers. If customers responsible for a significant amount of accounts receivable were to become insolvent or otherwise unable to pay for products and services, or were to become unwilling or unable to make payments in a timely manner, our business, results of operations, financial condition, or liquidity could be adversely affected.

Future acquisitions are subject to integration and other risks.

We anticipate that we may, from time to time, selectively acquire additional businesses or assets. Acquisitions are accompanied by risks, such as potential exposure to unknown liabilities of acquired companies and the possible loss of key employees and customers of the acquired business. In addition, we may not obtain the expected benefits or cost savings from acquisitions. Acquisitions are subject to risks associated with financing the acquisition and integrating the operations and personnel of the acquired businesses or assets. If any of these risks materialize, they may result in disruptions to our business and the diversion of management time and attention, which could increase the costs of operating our existing or acquired businesses or negate the expected benefits of the acquisitions.

Table of Contents

If we fail to maintain an effective system of internal controls or discover material weaknesses in our internal controls over financial reporting, we may not be able to detect fraud or report our financial results accurately or timely, which could have a material adverse effect on our business.

An effective internal control environment is necessary for us to produce reliable financial reports and is an important part of our effort to prevent financial fraud. We are required to periodically evaluate the effectiveness of the design and operation of our internal controls over financial reporting. Based on these evaluations, we may conclude that enhancements, modifications or changes to internal controls are necessary or desirable. While management evaluates the effectiveness of our internal controls on a regular basis, these controls may not always be effective. There are inherent limitations on the effectiveness of internal controls, including collusion, management override, and failure in human judgment. In addition, control procedures are designed to reduce rather than eliminate business risks.

If we fail to maintain an effective system of internal controls, or if management or our independent registered public accounting firm discovers material weaknesses in our internal controls, we may be unable to produce reliable financial reports or prevent fraud, which could have a material adverse effect on our business. In addition, we may be subject to sanctions or investigation by regulatory authorities, such as the Securities and Exchange Commission or NASDAQ Global Select Market. Any such actions could result in an adverse reaction in the financial markets due to a loss of confidence in the reliability of our financial statements, which could cause the market price of our common stock to decline.

We may be subject to intellectual property rights claims, which are costly to defend, could require payment of damages or licensing fees and could limit our ability to use certain technologies in the future.

Substantial litigation and threats of litigation regarding intellectual property rights exist in the display systems and electronics industries. From time to time, third parties (including certain companies in the business of acquiring patents not for the purpose of developing technology but with the intention of aggressively seeking licensing revenue from purported infringers) may assert patent and/or other intellectual property rights to technologies that are important to our business. In any dispute involving products that we have sold, our customers could also become the target of litigation. We are obligated in many instances to indemnify and defend our customers if the products we sell are alleged to infringe any third party's intellectual property rights. In some cases, depending on the nature of the claim, we may be able to seek indemnification from our suppliers for our self and our customers against such claims, but there is no assurance that we will be successful in obtaining such indemnification or that we are fully protected against such claims. Any infringement claim brought against us, regardless of the duration, outcome or size of damage award, could:

result in substantial cost to us;

divert management's attention and resources;

be time consuming to defend;

result in substantial damage awards;

cause product shipment delays; or

require us to seek to enter into royalty or other licensing agreements.

Additionally, if an infringement claim is successful we may be required to pay damages or seek royalty or license arrangements, which may not be available on commercially reasonable terms. The payment of any such damages or royalties may significantly increase our operating expenses and harm our operating results and financial condition. Also, royalty or license arrangements may not be available at all. We may have to stop selling certain products or using technologies, which could affect our ability to compete effectively.

Edgar Filing: RICHARDSON ELECTRONICS LTD/DE - Form 10-Q

We are currently a defendant in two patent infringement lawsuits, and have received a claim for indemnification from a customer who is a defendant in a third patent infringement lawsuit. Any of these suits could have a material adverse effect on our business.

In March 2011, Kyocera International, Inc. filed a complaint against us, Richardson RFPD, Inc., Arrow Electronics Inc. and Fractus, S.A., in the United States District Court for the Southern District of California. The complaint alleges, among other things, that certain products manufactured by Fractus, S.A., and offered for sale by our former RFPD division, infringe two patents owned by Kyocera Corporation and exclusively licensed to Kyocera International, Inc.. The complaint seeks monetary damages, injunctive relief, and costs. We sold the products at issue under the terms of a Distribution Agreement with Fractus pursuant to which Fractus agreed to indemnify us from any losses, costs, liabilities, damages or expenses arising from infringement or alleged infringement of intellectual property rights in connection with our sale of Fractus products.

Table of Contents

In November 2010, Minkus Electronic Display Systems Inc. filed a patent infringement complaint in the United States District Court for the District of Delaware against us. There are approximately 50 other defendants in the lawsuit. The complaint alleges that digital signage systems sold by our Canvys division infringe U.S. Patent No. 5,309,174 owned by Minkus Electronic Display Systems Inc.. It also accuses us of inducing infringement and contributory infringement. The complaint seeks monetary damages, injunctive relief, costs and attorneys fees. We dispute the allegations of wrongdoing and intend to vigorously defend ourselves in this matter.

In March 2011, we were notified by 3M Company that a complaint had been filed against it on March 16, 2011, by Ogma, LLC in the Eastern District of Texas. The complaint alleges that several of 3M's products infringe U.S. Patent No. 5,825,427 owned by Ogma. Our Canvys division supplies at least one of the products at issue to 3M pursuant to a Product Supply Agreement, and 3M has asserted a claim for indemnity against us pursuant to the terms of the Product Supply Agreement.

These lawsuits, with or without merit, may divert our management's attention, and we may incur significant expenses in our defense. In addition, we may be required to pay damage awards or settlements, become subject to injunctions or other equitable remedies, or determine to abandon certain lines of business, that may cause a material adverse effect on our results of operations, financial position, and cash flows.

We depend on key management and employees, the loss of whom may prevent us from implementing our business plans, limit our profitability and decrease the value of our common stock.

We are dependent on the talent and resources of our key executives and employees. In particular, the success of our business depends to a great extent on Edward J. Richardson, our President, Chief Executive Officer and the Chairman of our Board of Directors. Mr. Richardson has extensive experience in the electron device industry, and his services are critical to our success. We have not obtained key man insurance with respect to Mr. Richardson or any of our executive officers. The loss of Mr. Richardson may prevent us from implementing our business plan, which may limit our profitability and decrease the value of our common stock.

If we are deemed to be an investment company, we will be required to meet burdensome compliance requirements and restrictions on our activities.

As a result of the closing of the Arrow Transaction, we have significant cash reserves. If we are deemed to be an investment company as defined under the Investment Company Act of 1940 (the Investment Company Act), the nature of our investments may be subject to various restrictions. In addition, we may be subject to burdensome compliance requirements and may have to:

register as an investment company;

adopt a specific form of corporate structure; and

report, maintain records and adhere to voting, proxy, disclosure and other requirements.

We do not believe that our principal activities subject us to the Investment Company Act. If we are deemed to be subject to the Investment Company Act, compliance with these additional regulatory burdens would increase our operating expenses.

The Acquisition Agreement exposes us to contingent liabilities that could have a material adverse effect on our financial condition.

We have agreed to indemnify Arrow Electronics for breaches of any representation, warranty, or covenant made by us in the Acquisition Agreement, for losses arising out of or in connection with excluded assets or excluded liabilities, and for certain other matters. Significant indemnification claims by Arrow Electronics could have a material adverse effect on our financial condition. We are not obligated to indemnify Arrow Electronics for any breach of the representations, warranties or covenants made by us under the Acquisition Agreement unless any individual claim for indemnification exceeds \$10,000 and the aggregate amount of all such claims for indemnification exceed \$2.1 million. In the event that claims for indemnification for breach of most of the representations and warranties made by us under the Acquisition Agreement exceed this threshold, we will be obligated to indemnify Arrow Electronics for any damages or loss resulting from such breach in excess of

Table of Contents

\$2.1 million up to \$42 million. Claims for indemnification for breaches of covenants made by us under the Acquisition Agreement and for breaches of representations and warranties related to authorization, taxes and brokers will not be subject to the deductible or aggregate liability cap described above. Claims for indemnification for losses by Arrow Electronics arising out of or in connection with excluded assets or excluded liabilities and certain other matters are not subject to any of the individual limit, the deductible or the aggregate liability cap described above.

If the information technology services that are to be rendered to us pursuant to the Transition Services Agreement with Arrow Electronics are not adequately provided to us, our business may suffer.

Pursuant to the Acquisition Agreement with Arrow Electronics, Arrow Electronics purchased our entire IT operations, and pursuant to the Transition Services Agreement it provides IT services to us consistent with those services provided to us by our IT operations prior to the Transaction. We rely on these information systems to process, analyze, and manage data to facilitate the purchase and distribution of our products. We also rely on these systems to receive, process, bill, and ship orders on a timely basis. If the IT services provided by Arrow Electronics are not provided to us in an adequate manner, we may be unable to find an alternative means of obtaining such IT services in a timely manner, which could significantly impair our ability to effectively serve our customers and perform other vital company functions. In such event, our results of operations could suffer.

ITEM 5. OTHER INFORMATION

Results of Operation and Financial Condition and Declaration of Dividend

On April 6, 2011, we issued a press release reporting results for our third quarter and first nine months ended February 26, 2011, an increase in the cash dividend, and announced a share repurchase authorization. A copy of the press release is furnished as Exhibit 99.1 to this Form 10-Q and incorporated by reference herein.
