Information regarding audit

This consolidated financial results report is not subject to an audit stipulated under the Financial Instruments and Exchange Act. As of the release date of this document, the audit under the Financial Instruments and Exchange Act has not been completed.

Explanation regarding proper use of business forecasts, and other significant matters

1. Regarding the assumptions for the forecasts and other matters, refer to 1. Operating results (2) Outlook for the year ending March 31, 2012, on page 4. The financial forecasts given above are based on information as available at the present time, and include potential risks and uncertainties. As a consequence of various factors above and other, actual results may vary from the forecasts provided above.
2. Makita's basic policy on the distribution of profits is to maintain a consolidated dividend payout ratio of 30% or greater, with a lower limit on annual cash dividends of 18 yen per share. However, in the event special circumstances arise, computation of the amount of dividends will be based on consolidated net income attributable to Makita Corporation after certain adjustments.

The Board of Directors plans to meet in April 2012 for a report on earnings for the year ending March 31, 2012. At the time, in accordance with the basic policy regarding profit distribution mentioned above, the Board of Directors plans to propose a dividend equivalent to at least 30% of net income attributable to Makita Corporation. The Board of Directors will submit this proposal to the General Meeting of Shareholders scheduled for June 2012.

The consolidated dividend payout ratio is calculated as annual dividends per share divided by consolidated net income attributable to Makita Corporation per share (after adjustments for special circumstances) and multiplied by 100.

1. OPERATING RESULTS

1. Operating results

(1) Outline of operations results for the year ended March 31, 2011

In the year ended March 31, 2011, economic conditions in major countries in Western Europe have shown a recovery trend, including Germany that has enjoyed favorable exports due to the depreciation of the euro. Russian economy has also been in good condition thanks to a rise in crude oil prices. In the United States, although investments in building-related businesses such as housing remained sluggish, economy has shown moderate signs of recovery, as exemplified by a gradual improvement in consumer spending. In Asia and Latin America, favorable exports and rising domestic demands have ensured continuing robust economic growth. In Japan, while housing starts exceeded the previous year's level, public investment has remained on a weak note, falling short of bringing about full-fledged recovery. Moreover, the Great Eastern Japan Earthquake that hit our country in March, 2011, has inflicted enormous damage, profoundly affecting the Japanese economy.

Against the backdrop of these economic conditions, the global demand for power tools grew robustly in emerging countries and recovered to the level before the recent worldwide recession in many developed countries, bringing about an overall steady increase in demands.

Under these circumstances, in development side, Makita continuously expanded its product lines, including those of power tools, rechargeable tools and gardening equipment through the development of smaller and lighter tools or tools with lower noise and vibration. In production side, we strengthened our quality control system to continuously produce high-quality brands, while responding to a rapid recovery in demand in a prompt and flexible manner. In sales side, we started full-scale sales operation in Portugal in October 2010. We also built new buildings of our subsidiaries in Germany and Switzerland, thereby enhancing their customer service function such as a training space. Through these steps, we strove to maintain and improve our system of providing sales and after-sales services from immediate proximity to the customers, which had already been our forte.

Meanwhile, to strengthen our global production structure, we established Makita Manufacturing (Thailand) Co., Ltd. in March 2011, which is to become our second Asian plant next to that in China. With the aim of intensifying Makita's supply capacities to the Southeast Asian market where demand is growing, the construction of the Thai plant is scheduled to begin in June this year to start production by July 2012.

Our consolidated net sales for this year increased by 10.9% from the previous year to 272,630 million yen. This was because the global demand for power tools has been on a recovery track, although the stronger yen against other major currencies resulted in a decline in sales. Operating income increased 37.9% to 41,909 million yen (operating income ratio: 15.4%). This increase was mainly due to the increased sales and the decreased selling, general, administrative and others, net. Income before income taxes increased by 27.5% to 42,730 million yen (income before income taxes ratio: 15.7%). Net income attributable to Makita Corporation increased by 34.4% to 29,905 million yen (net income attributable to Makita Corporation ratio: 11.0%).

Net Sales results by region were as follows:

Net sales in Japan increased by 7.9% from the previous year to 46,065 million yen. This was because of the favorable sales of such expanded product lines as lithium-ion battery products and high-pressure pneumatic tools.

Net sales in Europe increased by 6.3% from the previous year to 115,977 million yen. This was due to steady demands in Western countries such as Germany and the U.K. as well as the recovery of sales in Russia.

Net sales in North America increased by 7.5% from the previous year to 37,111 million yen. This was primarily because of boosted sales in the United States during the Christmas selling season.

Net sales in Asia increased by 25.6% from the previous year to 23,073 million yen, supported by the steady recovery of demands in China and Southeast Asian countries.

Net sales in other regions grew strongly mainly due to economic recovery resulting from the increased natural resource prices. Net sales in Central and South America increased by 33.3% to 20,295 million yen; sales in Oceania increased by 17.3% to 15,383 million yen; and sales in the Middle East and Africa increased by 15.1% to 14,726 million yen.

(2) Outlook for the year ending March 31, 2012

Regarding the future forecast, competition among companies is expected to intensify due to modest recovery of demand in developed countries. In emerging countries in Asia and other regions where construction demands are continuously expected in housing and others, markets with a strong orientation toward low-price products are likely to emerge. With trends in raw material prices and the foreign exchange market being unpredictable, Makita is expected to continue facing a challenging business environment.

Based on these forecasts, Makita will strive to reinforce its R&D and product development activities to deliver more user-friendly, earth-conscious power tools and gardening equipment. It will also strengthen the technical development of compact engines. The global production organizations will be strengthened to respond to changes in demand conditions. Sales activities to professional users will be promoted. In addition, aggressive activities will be pursued to maintain and improve our No. 1 sales and after-sales service system in the industry.

English Translation of KESSAN TANSHIN originally issued in Japanese

4

Makita will strive to maintain a solid financial position enabling it to implement these measures, which, we believe, will lead to enhancing customer satisfaction and raising Makita's position in the industry, resulting, in turn, in the improvement of its corporate value.

In projecting the operational results for the next year, we use the following assumptions:

- Recovery in developed countries will remain moderate.
- The potential demand is strong and growth is expected in emerging markets.
- Raw material prices will become higher compared with the current year.

To cope with these assumed conditions, Makita will:

- Strengthen its R&D and product development capabilities with respect to environmentally friendly power tools and gardening equipment;
- Continue expanding and rolling out each product line as a series;
- Implement production cost-saving measures, taking advantage of its global production organizations; and
- Strive to improve its marketing and brand power by fine-tuned response to customer needs and further improved after-sales service.

On the basis of above measures, Makita forecasts the following performance for the year ending March 31, 2012.

Consolidated Financial Performance Forecast for the Year Ending March 31, 2012

	Yen (million)	
	For the six months ending September 30, 2011	For the year ending March 31, 2012
Net sales	141,900	285,000
Operating income	23,000	45,000
Income before income taxes	23,400	45,800
Net income attributable to Makita Corporation	16,400	31,900
Assumption:		

The above forecast is based on the assumption of exchange rates of 83 yen to U.S. dollar and 118 yen to the euro.

(Reference):

The actual exchange rate for the year ended March 31, 2011 was 85.7 yen to the U.S. dollar and 113.1 yen to the euro.

FORWARD-LOOKING STATEMENTS

This document contains forward-looking statements based on Makita's own projections and estimates. The power tools market, where Makita is mainly active, is subject to the effects of rapid shifts in economic conditions, demand for housing, currency exchange rates, changes in competitiveness, and other factors. Due to the risks and uncertainties involved, actual results could differ substantially from the content of these statements. Therefore, these statements should not be interpreted as representation where such objectives will be achieved.

2. Financial position

(1) Analysis on assets, liabilities and total assets

Total assets as of the end of the year increased by 22,668 million yen compared to the previous year to 372,507 million yen. This is mainly because of an increase in inventories resulting from a production increase in response to the recovery of demand.

Total liabilities at the end of the year increased by 12,663 million yen compared to the previous year to 62,829 million yen. This is mainly because of an increase in trade notes and accounts payable resulting from an increased purchase of raw materials, etc.

Edgar Filing: MAKITA CORP - Form 6-K

Shareholders' equity at the end of the year increased by 10,005 million yen compared to the previous year to 309,678 million yen. The principal factor for this increase was an increase in retained earnings.

English Translation of KESSAN TANSHIN originally issued in Japanese

5

(2) Analysis on cash flows and financial ratios

Total cash and cash equivalents at the end of the year amounted to 51,833 million yen, decreased by 10,457 million yen compared to the end of the previous year.

(Net Cash Provided by Operating Activities)

Cash collected from customers increased due to an increase in sales. However, net cash provided by operating activities was 19,617 million yen (57,126 million yen for the previous year) because cash paid for purchases of parts and raw materials increased as a result of production increase.

(Net Cash Used in Investing Activities)

Net cash used in investing activities was 19,334 million yen (17,668 million yen for the previous year) due to capital expenditures, purchases of marketable securities and other factors.

(Net Cash Used in Financing Activities)

Net cash used in financing activities totaled 7,355 million yen (9,114 million yen for the previous year). Cash was used mainly for payments of dividends to shareholders.

(Reference)**Trend information of financial ratios**

	As of (year ended) March 31,				
	2007	2008	2009	2010	2011
Ratio of operating income to net sales	17.2%	19.6%	17.0%	12.4%	15.4%
Equity ratio	82.1%	81.9%	84.2%	85.0%	82.5%
Equity ratio based on a current market price	170.4%	116.4%	90.0%	121.3%	143.1%
Interest-bearing liabilities to net cash provided by operating activities (years)	0.1	0.1	0.0	0.0	0.0
Interest coverage ratio (times)	102.4	108.8	95.6	984.9	400.3

Definitions:

Operating income to net sales ratio: operating income/net sales

Equity ratio: shareholders' equity/total assets

Equity ratio based on a current market price: total current market value of outstanding shares/total assets

Interest-bearing liabilities to net cash provided by operating activities

: interest-bearing liabilities /net cash inflow from operating activities

Interest coverage ratio: net cash inflow from operating activities/interest expense

Notes:

- All figures are calculated based on a consolidated basis.
- The total current market value of outstanding shares is calculated by multiplying the closing market price at the period end by the number of outstanding shares (after deducting the number of treasury stock.)
- Interest-bearing debt includes all consolidated balance-sheet debt on which interest payments are made.

English Translation of KESSAN TANSHIN originally issued in Japanese

3. Basic policy regarding profit distribution and cash dividend for the fiscal 2011 and 2012

Makita's basic policy on the distribution of profits is to maintain a consolidated dividend payout ratio of 30% or greater, with a lower limit on annual cash dividends of 18 yen per share. However, in the event special circumstances arise, computation of the amount of dividends will be based on consolidated net income attributable to Makita Corporation after certain adjustments. With respect to repurchases of its outstanding shares, Makita aims to implement a flexible capital policy, augment the efficiency of its capital employment, and thereby boost shareholder profit. Also Makita continues to consider execution of own share repurchases in light of trends in stock prices.

Makita intends to maintain a financial position strong enough to withstand the challenges associated with changes in its operating environment and other changes and allocate funds for strategic investments aimed at expanding its global operations.

Our forecast for dividends is as follows;

	For the year ended March 31, 2011 (Result and Forecast)	For the year ending March 31, 2012 (Forecast)
Cash dividend per share:		
Interim	15.00 yen	15.00 yen
Year-end	51.00 yen	(Note)
Total	66.00 yen	(Note)

Notes: The Board of Directors plans to meet in April 2012 for a report on earnings for the year ending March 31, 2012. At such time, in accordance with the basic policy regarding profit distribution mentioned above, the Board of Directors plans to propose a dividend equivalent to at least 30% of net income attributable to Makita Corporation. The Board of Directors will submit this proposal to the General Meeting of Shareholders scheduled for June 2012. However, if certain special circumstances arise, computation of the amount of dividends will be based on consolidated net income attributable to Makita Corporation after certain adjustments.

The consolidated dividend payout ratio is calculated as annual dividends per share divided by consolidated net income attributable to Makita Corporation per share (after adjustments for special circumstances) and multiplied by 100.

2. GROUP STRUCTURE

Makita Corporation (the Company) and its consolidated subsidiaries (collectively Makita) mainly manufacture and sell portable electric power tools. Makita is comprised of the Company and 49 consolidated subsidiaries.

Group Structure of Makita is outlined as follows;

English Translation of KESSAN TANSHIN originally issued in Japanese

8

3. MANAGEMENT POLICIES

1. Basic Policies

Makita has set itself the goal of consolidating a strong position in the global power tool industry as a global supplier of a comprehensive range of power tools that assist people in creating homes and living environments. In order to achieve this, Makita has established strategic business approaches and quality policies such as A management approach in symbiosis with society Managing to take good care of our customers, Proactive, sound management and Emphasis on trustworthy and reliable corporate culture as well as management to draw out the capabilities of each employee. Makita aims to generate solid profitability so that Makita can promote its sustained corporate development and meet the needs of its shareholders, customers, and employees as well as regional societies where Makita operates.

2. Target Management Indicators

Makita believes that attaining sustained growth and maintaining high profitability are the ways to increase corporate value. Makita's specific numerical target is to maintain a stable ratio of operating income to net sales on a consolidated basis of 10% or more.

3. Medium-to-Long-Term Management Strategy

Makita aims to establish high brand recognition and become a Strong Company capable of acquiring and maintaining the top market share as an international total supplier of power tools for professional use, pneumatic tools, gardening equipment and other tools in each international region. To achieve these objectives, we will put focus on maintaining and expanding our efforts to develop new products that guarantee great satisfaction to professional users, our global production structure realizing both high quality and cost competitiveness at the same time, and the best marketing and after-sale service structure of the power tools industry in Japan and in international regions.

In order to carry out this management strategy, Makita is focusing its management resources on the professional-use tool category, while maintaining its strong financial position that can withstand any unpredictable changes in the operational environment including those related to foreign exchange risk and country risk.

4. Preparing for the Future

Makita will strive to reinforce its R&D and product development activities to deliver more user-friendly and earth-conscious power tools and gardening equipment. It will also strengthen the technical development of compact engines. The global production organizations will be strengthened to respond to changes in demand conditions. Sales activities to professional users will be promoted. In addition, activities to maintain and improve our No. 1 sales and after-sales service system in the industry will be aggressively promoted. We strive to improve our corporate value.

5. Notes on the preconditions for a going concern: None**6. Significant Accounting Policies****(1) Scope of consolidation and equity method**

Number of consolidated subsidiaries: 49

Major subsidiaries are as follows;

Makita U.S.A. Inc., Makita (U.K.) Ltd.,

Makita France SAS, Makita Werkzeug GmbH (Germany), Makita Oy (Finland), Makita Gulf FZE (UAE),

Makita (China) Co., Ltd., Makita (Kunshan) Co., Ltd., Makita (Australia) Pty. Ltd.

(2) Significant Accounting Policies (Summary)

Consolidated financial statements are prepared in conformity with accounting principles generally accepted in the United States of America.

1. Short-term investments and Investments

Makita classifies investments in debt and marketable equity securities as available-for-sale or held-to-maturity securities. Makita does not hold any marketable or investment securities that are bought and held primarily for the purpose of sale in the near term.

2. Inventories

Inventory costs include raw materials, labor and manufacturing overheads. Inventories are valued at the lower of cost or market price, with cost determined principally based on the average cost method.

3. Property, Plant and Equipment and Depreciation

Edgar Filing: MAKITA CORP - Form 6-K

Property, plant and equipment is stated at cost. For the Company, depreciation is computed principally by using the declining-balance method over the estimated useful lives. Most of the subsidiaries have adopted the straight-line method for computing depreciation.

4. Income Taxes

Deferred income tax assets and liabilities are recognized for the future tax consequences attributable to temporary differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. The effect on deferred income tax assets and liabilities of a change in tax rates or laws is recognized in income in the period that includes the enactment date.

5. Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

6. Revenue Recognition

Makita recognizes revenue at the time of delivery or shipment when all of the following conditions are met. (1) The sales price is fixed or determinable, (2) Collectibility is reasonably assured, (3) The title and risk of loss pass to the customer, and (4) Payment terms are established consistent with Makita's normal payment terms.
