NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Unless the context requires otherwise, we, us or our refers to Stericycle, Inc. and its subsidiaries on a consolidated basis.

NOTE 1 BASIS OF PRESENTATION

The accompanying condensed consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in annual consolidated financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations. However, the Company believes the disclosures included in the accompanying condensed consolidated financial statements are adequate to make the information presented not misleading. In our opinion, all adjustments necessary for a fair presentation for the periods presented have been reflected and are of a normal recurring nature. These condensed consolidated financial statements should be read in conjunction with the Stericycle, Inc. and Subsidiaries Consolidated Financial Statements and notes thereto for the year ended December 31, 2010, as filed with our Annual Report on Form 10-K for the year ended December 31, 2010. The results of operations for the three months ended March 31, 2011 are not necessarily indicative of the results that may be achieved for the entire year ending December 31, 2011.

There were no material changes in the Company's critical accounting policies since the filing of its 2010 Form 10-K. As discussed in the 2010 Form 10-K, the preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make certain estimates and assumptions that affect the amount of reported assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and revenues and expenses during the periods reported. Actual results may differ from those estimates.

NOTE 2 ACQUISITIONS AND DIVESTITURES

During the quarter ended March 31, 2011, we completed nine acquisitions. Domestically, we acquired selected assets of three regulated waste businesses. Internationally, we acquired 100% of the stock of two regulated waste businesses in the UK and two regulated waste businesses in Romania, selected assets of a regulated waste business in Ireland, and 80% of the stock of a regulated waste business in Chile.

The following table summarizes the aggregate purchase price paid for acquisitions and other adjustments of consideration to be paid on acquisitions during the quarter ended March 31, 2011:

During the quarter ended March 31, 2011, we recognized \$10.8 million in goodwill of which \$7.8 million was assigned to our United States reporting segment and \$3.0 million to our Foreign Countries reporting segment. Approximately \$5.6 million of the good will recognized during the quarter will be deductible for income taxes. During the quarter ended March 31, 2011, we recognized \$11.9 million in intangible assets of which \$11.8 million represents the estimated fair value of acquired customer relationships with amortizable lives of 15-40 years. The allocation of the acquisition price paid is preliminary pending completion of certain intangible asset valuations and completion accounts.

The following table summarizes the preliminary purchase price allocation for current period acquisitions and other adjustments to purchase price allocations during the quarter ended March 31, 2011:

Net deferred tax liabilities	(2,642)
Noncontrolling interests	211

\$ 20,273

For financial reporting purposes, our 2011 and 2010 acquisitions were accounted for using the acquisition method of accounting. These acquisitions resulted in recognition of goodwill in our financial statements reflecting the premium paid to acquire businesses that we believe are complementary to our existing operations and fit our strategy. During the quarters ended March 31, 2011 and 2010, the Company incurred \$3.8 million and \$0.8 million, respectively, of acquisition related expenses. These expenses are identified on our Condensed Consolidated Statements of Income as acquisition expenses. The purchase prices in excess of acquired tangible assets for these acquisitions have been primarily allocated to goodwill and other intangibles and are preliminary pending completion of certain intangible asset valuations.

On April 18, 2011, we completed our acquisition of Healthcare Waste Solutions, Inc., a Delaware corporation (HWS). The total merger consideration was \$237 million in cash, subject to the various adjustments provided for in the merger agreement. See Note 16 Subsequent Events.

Table of Contents**NOTE 3 NEW ACCOUNTING STANDARDS****Accounting Standards Recently Adopted****Revenue Recognition**

On January 1, 2011, Stericycle adopted changes issued by the FASB to guidance on revenue recognition for arrangements with multiple deliverables. This update allows companies to allocate consideration received for qualified separate deliverables using estimated selling price for both delivered and undelivered items when vendor-specific objective evidence or third-party evidence is unavailable. Additional disclosures discussing the nature of multiple element arrangements, the types of deliverables under the arrangements, the general timing of their delivery, and significant factors and estimates used to determine estimated selling prices are required. We do not generally have arrangements with multiple deliverables and therefore this new guidance did not have a material impact to our financial statements.

NOTE 4 FAIR VALUE MEASUREMENTS

Fair value is the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is estimated by applying the following hierarchy, which prioritizes the inputs used to measure fair value into three levels and bases the categorization within the hierarchy upon the lowest level of input that is available and significant to the fair value measurement:

Level 1 Quoted prices in active markets for identical assets or liabilities.

Level 2 Observable inputs other than quoted prices in active markets for identical assets and liabilities, quoted prices for identical or similar assets or liabilities in inactive markets, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 Inputs that are generally unobservable and typically reflect management's estimate of assumptions that market participants would use in pricing the asset or liability.

Table of Contents

Level 1: At March 31, 2011, we have \$24.7 million in cash and cash equivalents, \$15.8 million in certificates of deposit, and \$4.0 million in money market accounts, that we recorded at fair value using Level 1 inputs. At December 31, 2010, we had \$77.1 million in cash and cash equivalents, \$15.8 million in certificates of deposit, and \$2.7 million in money market accounts. In 2010, we financed a portion of our Japan acquisition through local borrowings of ¥1.2 billion which required us to deposit the equivalent USD amount of \$15.8 million in one year certificates of deposit with an affiliated bank located in the United States.

Level 2: We had no assets or liabilities measured at fair value using Level 2 inputs at March 31, 2011 or December 31, 2010.

Level 3: We had no assets or liabilities measured at fair value using Level 3 inputs at March 31, 2011 or December 31, 2010.

Fair Value of Debt: At March 31, 2011, the fair value of the Company's debt obligations was estimated at \$999.9 million, compared to a carrying amount of \$1.105 billion. At December 31, 2010, the fair value of the Company's debt obligations was estimated at \$1.105 billion, compared to a carrying amount of \$1.103 billion. The fair values were estimated using market interest rates for comparable instruments. The Company has no current plans to retire a significant amount of its debt prior to maturity.

There were no movements of items between fair value hierarchies.

NOTE 5 DERIVATIVE INSTRUMENTS

At March 31, 2011, we had no derivative instruments.

NOTE 6 INCOME TAXES

We and our subsidiaries file U.S. federal income tax returns and income tax returns in various states and foreign jurisdictions. With a few exceptions, we are no longer subject to U.S. federal, state, local, or non-U.S. income tax examinations by tax authorities for years before 2005.

The Company has recorded accruals to cover uncertain tax positions taken on previously filed tax returns. Such liabilities relate to additional taxes, interest and penalties the Company may be required to pay in various tax jurisdictions. During the course of examinations by various taxing authorities, proposed adjustments may be asserted. The Company evaluates such items on a case-by-case basis and adjusts the accrual for uncertain tax positions.

Table of Contents

The total amount of unrecognized tax positions as of March 31, 2011 was \$11.8 million, which includes interest and penalties and is reflected as a liability on the balance sheet. The amount of unrecognized tax positions that, if recognized, would affect the effective tax rate is approximately \$11.8 million. We recognize interest and penalties accrued related to income tax reserves in income tax expense.

The following table summarizes the changes in unrecognized tax positions during the quarter ended March 31, 2011:

As of March 31, 2011, there was \$35.9 million of total unrecognized compensation expense, related to non-vested stock options, which is expected to be recognized over a weighted-average period of 2.08 years.

The following table sets forth the tax benefits related to stock compensation:

The Black-Scholes option-pricing model is used in determining the fair value of each option grant using the assumptions noted in the table below. The expected term of options granted is based on historical experience and represents the period of time that awards granted are expected to be outstanding. Expected volatility is based upon historical volatility of the company's stock. The expected dividend yield is zero. The risk-free interest rate is based upon the U.S. Treasury yield rates of a comparable period.

The assumptions that we used in the Black-Scholes model are as follows:

	Three Months Ended March 31,	
	2011	2010
Expected term (in years)	5.75	5.75
Expected volatility	26.88%	28.32%
Expected dividend yield	0.00%	0.00%
Risk free interest rate	2.28%	2.46%

The weighted average grant date fair value of the stock options granted during the three months ended March 31, 2011 and 2010 was as follows:

	Three Months Ended March 31,	
	2011	2010

NOTE 11 GOODWILL AND OTHER INTANGIBLE ASSETS

Goodwill and identifiable indefinite lived intangible assets are not amortized, but are subject to an annual impairment test. Other intangible assets are amortized over their useful lives. We have determined that our customer relationships have useful lives from 15 to 40 years based upon the type of customer, with a weighted average remaining useful life of 30.1 years. We have covenants not-to-compete intangibles with useful lives from two to ten years, with a weighted average remaining useful life of 6.0 years. We have tradename intangibles with useful lives from 20 to 40 years, with a weighted average remaining useful life of 30.5 years. We have determined that our permits have indefinite lives due to our ability to renew these permits with minimal additional cost, and therefore they are not amortized.

Table of Contents

We have two geographical reporting segments, United States and Foreign Countries, both of which have goodwill. The changes in the carrying amount of goodwill since December 31, 2010 were as follows by reporting segment:

JPMorganChase and our associated guarantee is in the process of being extended beyond May 2011. We also have extended notes receivable to Shiraishi for approximately \$15.2 million in support of its medical waste business. These amounts are collateralized with the assets of Shiraishi and related companies.

NOTE 13 GEOGRAPHIC INFORMATION

Management has determined that we have two reportable segments, United States (which includes Puerto Rico) and Foreign Countries. Revenues are attributed to countries based on the location of customers. Inter-company revenues recorded by the United States for work performed in Canada, which are immaterial, are eliminated prior to reporting United States revenues. The same accounting principles and critical accounting policies are used in the preparation of the financial statements for both reporting segments.

NOTE 15 RESTRUCTURING CHARGES

In December of 2009, we announced the consolidation of operations within our returns and recall management services (RMS) business. This consolidation resulted in the closure of our facilities in Boynton Beach, Florida and Conyers, Georgia. The operations of those facilities have been moved to our Indianapolis, Indiana location. We have recognized expense of \$0.1 million during the first quarter of 2011. We estimate immaterial additional expense during 2011. We believe this restructuring will allow us to maximize the efficiency of our RMS business at a single location and management infrastructure

In December 2010, we reorganized the structure of our international management group in order to leverage strong local management, resulting in employee severance and other charges. We recognized \$0.1 million in expense related to this restructuring in the first quarter of 2011. We had \$0.9 million accrual remaining related to this reorganization at March 31, 2011, which will be paid primarily during 2011 with some additional disbursements in 2012.

The following tables below highlight the pre-tax charges and changes in the reserves for the quarter ended March 31, 2011 and for the year ended December 31, 2010. All charges related to these costs are reflected on our Consolidated Statement of Income within Restructuring costs for both costs of revenue and selling, general, and administrative expenses.

NOTE 16 SUBSEQUENT EVENT

On April 18, 2011, we completed the acquisition of HWS pursuant to the merger agreement, dated as of September 24, 2010, as amended. Completion of the merger followed our agreement with the U.S. Department of Justice and the State of New York providing for clearance of the transaction under the Hart-Scott-Rodino Antitrust Improvements Act of 1976.

The total merger consideration was \$237 million in cash, subject to the various adjustments provided for in the merger agreement, including a reduction for HWS's indebtedness as of the closing date. In addition, \$10 million of the merger consideration was deposited into escrow to cover indemnification obligations of the HWS shareholders and in-the-money option holders under the merger agreement.

These services also include advanced notification technology that is used to communicate specific instructions to the users of the product. Our waste treatment technologies include autoclaving, incineration, chemical treatment, and our proprietary electro-thermal-deactivation system. In addition, we have technology licensing agreements with companies located in Japan, Brazil, and South Africa.

There were no material changes in the Company's critical accounting policies since the filing of its 2010 Form 10-K. As discussed in the 2010 Form 10-K, the preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make certain estimates and assumptions that affect the amount of reported assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and revenues and expenses during the periods reported. Actual results may differ from those estimates.

Revenues: Our revenues increased \$62.9 million, or 18.8%, to \$398.1 million in 2011 from \$335.2 million in 2010. Domestic revenues increased \$35.2 million or 13.8% to \$290.6 million from \$255.4 million in 2010 as internal revenue growth for domestic small account customers increased by \$10.9 million, or approximately 8%, and internal

revenue growth for large quantity customers increased by \$4.0 million, or approximately 5%. Internal revenue growth for returns management increased by \$8.7 million, and domestic acquisitions less than one year old contributed approximately \$11.6 million to the increase in domestic revenues.

International revenues increased \$27.7 million, or 34.7%, to \$107.5 million from \$79.8 million in 2010. Internal growth in the international segment contributed \$6.5 million, or over 8%, to the increase in international revenues, before taking into consideration the effect of exchange rates and acquisitions. The effect of exchange rate fluctuations favorably impacted international revenues approximately \$2.3 million while acquisitions less than one year old contributed \$18.9 million in international revenues.

Cost of Revenues: Our cost of revenues increased \$35.8 million, or 19.9%, to \$215.7 million during 2011 from \$179.9 million during 2010. Our domestic cost of revenues increased \$17.4 million, or 13.5%, to \$146.4 million from \$129.0 million in 2010 as a result of costs related to a proportional increase in revenues from acquisitions and internal growth. Our international cost of revenues increased \$18.4 million, or 36.1%, to \$69.3 million from \$50.9 million in 2010 primarily driven by the impact of exchange rates and impact from integration and acquisitions. Our company wide gross margin percentage decreased to 45.8% during 2011 from 46.3% during 2010 due to higher fuel and energy costs as well as integration of lower margin newly acquired revenues and higher Regulated Returns Management revenues.

Selling, General and Administrative Expenses: Selling, general and administrative (SG&A) expenses increased \$9.3 million, or 14.0%, to \$75.3 million, for the quarter ended March 31, 2011 from \$66.0 million for the comparable quarter in 2010. As a percentage of revenue, these costs decreased 0.8% for the quarter ended March 31, 2011 compared to the same period in 2010. Depreciation expense as a percentage of revenue was 0.5% in both 2011 and 2010. Amortization expense, as a percentage of revenue, increased to 0.8% in the first quarter of 2011 from 0.6% in the same period in 2010 due to additional acquisitions, and related increase in intangibles and related amortization.

Domestically, our first quarter 2011 SG&A increased \$5.1 million to \$56.5 million from \$51.4 million in the same period last year. As percentage of revenues, SG&A was lower at 19.4% in the first quarter of 2011 compared to 20.1% in the same period in 2010.

Internationally, our first quarter 2011 SG&A increased \$4.2 million to \$18.8 million from \$14.6 million during the same period in 2010, mostly due to acquisitions and related higher expenses. As a percentage of revenues, SG&A was lower at 17.4% in the first quarter of 2011 compared to 18.3% in the same period in 2010.

Income from Operations: Income from operations increased \$15.3 million to \$102.4 million for the quarter ended March 31, 2011 from \$87.1 million for the comparable quarter in 2010, an increase of 17.5%. During the quarter ended March 31, 2011, we recognized \$3.8 million in acquisition expenses, \$0.8 million expenses related to the integration of new acquisitions, and \$0.3 million of restructuring costs. Internationally, our income from operations increased \$6.6 million, or 48.5%, to \$20.2 million during the quarter ended March 31, 2011 from \$13.6 million during the same period in 2010.

Net Interest Expense: Net interest expense increased to \$11.2 million during the quarter ended March 31, 2011 from \$8.9 million during the comparable quarter in 2010 due to higher interest rates.

Income Tax Expense: Income tax expense increased to \$34.4 million for the quarter ended March 31, 2011 from \$28.6 million for the comparable quarter in 2010. The increase was primarily due to higher taxable income. The effective tax rates for the quarters ended March 31, 2011 and 2010 were 37.8% and 37.0%, respectively.

LIQUIDITY AND CAPITAL RESOURCES

Our \$850.0 million senior credit facility maturing in August 2012, our \$76.9 million term loan maturing in June 2012, our \$100.0 million private placement notes maturing April 2015, our \$175.0 million private placement note maturing in October 2017 and our \$225.0 million private placement notes maturing in October 2020, all require us to comply with various financial, reporting and other covenants and restrictions, including a restriction on dividend payments. The financial debt covenants are the same for the senior credit facility, the term loan credit agreement and the private placement notes. At March 31, 2011, we were in compliance with all of our financial debt covenants.

As of March 31, 2011, we had \$96.8 million of borrowings outstanding under our \$850 million senior unsecured credit facility, which includes foreign currency borrowings of \$51.3 million. We also had \$173.9 million committed to outstanding letters of credit under this facility. The unused portion of the revolving credit facility as of March 31, 2011 was \$579.2 million. At March 31, 2011, our interest rates on borrowings under our revolving credit facility were as follows:

For short-term borrowing (less than one month): Federal funds rate plus 0.5% or prime rate, whichever is higher; and

For borrowing greater than one month: LIBOR plus 0.75%.

The weighted average rate of interest on the unsecured revolving credit facility was 1.6% per annum.

As of March 31, 2011, we had \$76.9 million term loan debt outstanding which was entered into during 2009 with several lenders maturing in June 2012. Term loans

Table of Contents

under the term loan credit agreement bear interest at fluctuating interest rates determined, for any one-month or other applicable interest period, by reference to LIBOR plus the applicable margin provided in the term loan agreement. The applicable margin is based on our consolidated leverage ratio and ranges from 2.75% to 3.50%. As of March 31, 2011, the applicable margin was 3.0%. The weighted average rate of interest on the term loan was 3.25% per annum which includes the amounts under our interest rate hedge. After the first year, we are required to make quarterly principal payments of 2.5% of the principal amount of the outstanding term loans, and the remainder at maturity.

As of March 31, 2011, we had \$100 million outstanding 5.64% private placement notes which we entered into on April 15, 2008 with nine institutional purchasers. The notes bear interest at the fixed rate of 5.64% per annum. Interest is payable in arrears semi-annually on April 15 and October 15 beginning on October 15, 2009, and principal is payable at the maturity of the notes on April 15, 2015.

As of March 31, 2011, we had \$175.0 million of 3.89% seven-year unsecured senior notes and \$225.0 million of 10-year 4.47% unsecured senior notes.

At March 31, 2011, we had \$331.3 million in other debt outstanding, which includes promissory notes issued in connection with acquisitions during 2004 through 2011, other foreign subsidiary bank debt, and capital leases.

Working Capital: At March 31, 2011, our working capital decreased \$14.8 million to \$45.4 million compared to \$60.2 million at December 31, 2010. Cash and cash equivalents at December 31, 2010 included \$23.0 million that was used for recalled product reimbursement, offset by an equivalent amount in accrued liabilities. Approximately \$16.9 million of those amounts were paid during the first quarter of 2011 and we used excess cash to pay down debt. Our receivables increased in the first quarter of 2011 by \$15.8 million due to incremental revenues and acquisitions. Accrued liabilities decreased by \$7.1 million, primarily due to compensation expense accruals and short term deferred acquisition payment accruals, in the form of notes and deferred consideration, which decreased by \$10.2 million.

Net Cash Provided or Used: Net cash provided by operating activities decreased \$15.5 million, or 19.1%, to \$65.6 million during the quarter ended March 31, 2011 compared to \$81.1 million for the comparable period in 2010. In 2011, we had \$16.9 million decrease in the cash used for recalled product reimbursements.

Net cash used in investing activities for the quarter ended March 31, 2011 was \$32.1 million compared to \$63.7 million in the comparable period in 2010. The difference is mainly due to a decrease of \$30.9 million spent on acquisitions and international investments in the first quarter of 2011 as compared to the same period in the prior year.

Net cash used in financing activities was \$87.7 million during the quarter ended March 31, 2011 compared to \$7.9 million for the comparable period in 2010. During the three months ended March 31, 2011, we repaid \$86.0 million in borrowings on our senior credit facility. We had no repurchases of our common stock during the three months ended March 31, 2011.

Guarantees: We have guaranteed a loan to JPMorganChase Bank N.A. on behalf of Shiraishi-Sogyo Co. Ltd (Shiraishi). Shiraishi is a customer in Japan that is expanding its medical waste management business and has a one year loan with a current balance of \$6.0 million with JPMorganChase Bank N.A. that matures on May 2011. The loan with JPMorganChase and our associated guarantee is in the process of being extended beyond May 2011. We also have extended notes receivable to Shiraishi for approximately \$15.2 million in support of its medical waste business. These amounts are collateralized with the assets of Shiraishi and related companies.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are subject to market risks arising from changes in interest rates. Our potential additional interest expense over one year that would result from a hypothetical, instantaneous and unfavorable change of 100 basis points in the interest rate on all of our variable rate obligations would be approximately \$2.4 million on a pre-tax basis.

We have exposure to foreign currency fluctuations. We have subsidiaries in nine foreign countries whose functional currency is the local currency. Changes in foreign currency exchange rates could unfavorably impact our consolidated results of operations.

We have exposure to commodity pricing for gas and diesel fuel for our trucks and for the purchase of containers and boxes. We do not hedge these items to manage the exposure.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

Our management, with the participation of our Chairman and Chief Executive Officer and our Chief Financial Officer, conducted an evaluation of the effectiveness of our disclosure controls and procedures as of the end of the fiscal quarter covered by this Report. On the basis of this evaluation, our Chairman and Chief Executive Officer and our Chief Financial Officer each concluded that our disclosure controls and procedures were effective.

The term disclosure controls and procedures is defined in Rule 13a-14(e) of the Securities Exchange Act of 1934 as controls and other procedures designed to ensure that information required to be disclosed by the issuer in the reports, files or submits under the Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. Our disclosure controls and procedures are designed to ensure that material information relating to us and our consolidated subsidiaries is accumulated and communicated to our management, including our Chairman and Chief Executive Officer and our Chief Financial Officer, as appropriate to allow timely decisions regarding our required disclosures.

Internal Control Over Financial Reporting

The term internal control over financial reporting is defined as a process designed by, or under the supervision of, the issuer's principal executive and principal financial officers, and effected by the issuer's Board of Directors, management, and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles (added this). During the quarter ended March 31, 2011, there were no changes in our internal controls over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

FROM TIME TO TIME WE ISSUE FORWARD-LOOKING STATEMENTS RELATING TO SUCH THINGS AS ANTICIPATED FINANCIAL PERFORMANCE, BUSINESS PROSPECTS, ACQUISITION ACTIVITIES AND SIMILAR MATTERS.

THESE FORWARD-LOOKING STATEMENTS MAY INVOLVE RISKS AND UNCERTAINTIES, SOME OF WHICH ARE BEYOND OUR CONTROL (FOR EXAMPLE, GENERAL ECONOMIC CONDITIONS). OUR ACTUAL RESULTS COULD DIFFER SIGNIFICANTLY FROM THE RESULTS DESCRIBED IN THE FORWARD-LOOKING STATEMENTS. FACTORS THAT COULD CAUSE SUCH DIFFERENCES INCLUDE DIFFICULTIES IN COMPLETING THE INTEGRATION OF ACQUIRED BUSINESSES, CHANGES IN GOVERNMENTAL REGULATION OF MEDICAL WASTE COLLECTION AND TREATMENT, AND INCREASES IN TRANSPORTATION AND OTHER OPERATING COSTS, AS WELL AS VARIOUS OTHER FACTORS.
