Table of Contents

The Company

Consolidated-Tomoka Land Co. (which is referred to as the Company, we, our, or us) is primarily engaged in real estate, income properties, and golf operations through its wholly owned subsidiaries. Real estate operations include land sales and development, agricultural operations, and leasing properties for oil and mineral exploration. Income properties primarily consist of the ownership of properties leased on a triple-net and double-net basis. Golf operations consist of the operation of two golf courses, a clubhouse facility, and food and beverage activities. These operations are predominantly located in Volusia County, Florida, with various income properties located in Florida, Georgia, and North Carolina.

Forward-Looking Statements

Certain statements contained in this prospectus (other than statements of historical fact) are forward-looking statements. The words believe, estimate, expect, intend, anticipate, will, could, may, should, plan, potential, predict, forecast, foresee, project, and variations thereof identify certain of such forward-looking statements, which speak only as of the dates on which they were made. Forward-looking statements are made based upon management's expectations and beliefs concerning future developments and their potential effect upon the Company. There can be no assurance that future developments will be in accordance with management's expectations or that the effect of future developments on the Company will be those anticipated by management.

Risk Factors

The Company wishes to caution readers that the assumptions which form the basis for forward-looking statements include many factors that are beyond the Company's ability to control or estimate precisely. These risks and uncertainties include the risk factors set forth below. While the Company periodically reassesses material trends and uncertainties affecting its results of operations and financial condition, the Company does not intend to review or revise any particular forward-looking statement referenced herein in light of future events.

Our business is subject to a number of significant risks. The risks described below may not be the only risks which potentially could impact our business. These additional risks include those which are unknown at this time or that are currently considered immaterial. If any of the circumstances described below actually occur to a significant degree, our business, financial condition, and/or results of operations could suffer, and the trading price of our common stock could decline.

Future changes in the real estate market could affect the value of our properties and business.

We have extensive real estate holdings in the City of Daytona Beach in Volusia County, Florida. The economic growth of Daytona Beach, Florida, where the majority of our land is located, is an important factor in creating demand for our products and services. The creation of new jobs is an important factor in the economic growth of the region. The value of the real property and the revenue from related sale and/or development activities may be adversely affected by a number of factors, including:

national, regional, and local economic climate;

local real estate market conditions (such as an oversupply of land or a reduction in demand for real estate in an area);

competition from other available property;

availability of roads and utilities;

unexpected construction costs or delays;

Edgar Filing: CONSOLIDATED TOMOKA LAND CO - Form S-8

government regulations and changes in real estate, zoning, land use, environmental or tax laws;

interest rate levels and the availability of financing; and

Table of Contents

potential liabilities under environmental and other laws.

A further downturn in national or regional economic conditions, especially in Florida, could continue to adversely impact our business.

The collapse of the housing market, together with the crisis in the credit markets, resulted in a recession in the national economy with rising unemployment, shrinking gross domestic product and drastically reduced consumer spending. At such times, potential customers often defer or avoid real estate purchases due to the substantial costs involved.

Our business is especially sensitive to economic conditions in Florida, where our real estate (other than certain income properties) and self-developed properties are located. Florida is currently experiencing continuing weak economic conditions. There is no consensus as to when the economy will improve significantly, and Florida, as one of the hardest hit states, could take longer to recover than the rest of the nation. A prolonged economic downturn could have a material adverse effect on our business, results of operations, and financial condition.

Our future success will depend on our ability to successfully execute acquisition or development strategies.

There is no assurance that we will be able to continue to implement our strategy of investing in income properties successfully. Additionally, there is no assurance that the income property portfolio will expand at all, or if it will expand at any specified rate or to any specified size. In addition, investment in additional real estate assets is subject to a number of risks. As we expect to invest in markets other than the ones in which currently owned properties are located, we will be subject to risks associated with investment in new markets that may be relatively unfamiliar to us.

Development activities are subject to the risks normally associated with these activities. These risks include those relating to the availability and timely receipt of zoning and other regulatory approvals, the cost and timely completion of construction (including risks from factors beyond our control, such as weather, labor conditions, or material shortages), and the ability to obtain both construction and permanent financing on favorable terms. These risks could result in substantial unanticipated delays or expenses and, under certain circumstances, could prevent completion of development activities once undertaken or provide a tenant the opportunity to terminate a lease. Any of these situations may delay or eliminate proceeds or cash flows expected from these projects, which could have an adverse effect on our financial condition and results of operations.

Our operations could be negatively impacted by the loss of key management personnel.

John P. Albright became our President and Chief Executive Officer of the Company on August 1, 2011. Our future success depends, to a significant degree, on the efforts of each member of senior management. Replacement of any member of senior management could adversely affect our operations and our ability to execute business strategies. We do not have key man life insurance policies on members of senior management.

Changes in local, regional, and national economic conditions could adversely affect our business.

The real estate development industry is cyclical in nature and is particularly vulnerable to shifts in local, regional, and national economic conditions outside of our control, such as:

short and long-term interest rates;

housing demand;

population growth;

employment levels and job growth;

Table of Contents

property taxes; and

property and casualty insurance.

The real estate business is subject to a number of economic factors including the impact of rising and falling interest rates, which can affect the ability of purchasers to obtain financing, and population growth, which impacts supply and demand for new homes, as well as goods and services; and hence, land to meet those needs.

In addition, weather conditions and natural disasters such as hurricanes, tornadoes, floods, droughts, fires, and other environmental conditions can adversely affect our business.

The real estate business is subject to environmental and land use regulations.

We are subject to a wide variety of federal, state, and local laws and regulations relating to land use and development and to environmental compliance and permitting obligations, including those related to the use, storage, discharge, emission, and disposal of hazardous materials. Any failure to comply with these laws could result in capital or operating expenditures or the imposition of severe penalties or restrictions on operations that could adversely effect present and future operations.

Municipalities may restrict or place moratoriums on the availability of utilities, such as water and sewer taps. Additionally, development moratoriums may be imposed due to traffic over capacity on roads. In some areas, municipalities may enact growth control initiatives, which will restrict the number of building permits available in a given year. If municipalities in which we own land and operate take actions like these, it could have an adverse effect by causing delays, increasing costs, or limiting the ability to operate in those municipalities.

We sell property in a highly competitive market, which could affect future business.

Our competitors are primarily other landowners in the Volusia County area. These competitive conditions can make it difficult to sell land at desirable prices and can adversely affect operations, financial condition, or results of operations.

Our quarterly results are subject to variability.

We have historically derived a substantial portion of our income from land sales. The timing of commercial land sales activity is not predictable and is generally subject to the purchaser's ability to obtain acceptable financing and approvals from the city, county and regulatory agencies for its intended use of the land on a timely basis. As these approvals are subject to third party responses, it is not uncommon for delays to occur, which affect the timing of sales closings. These timing issues have caused, and may continue to cause, our operating results to vary significantly from quarter to quarter and year to year.

Loss of revenues from major tenants would reduce cash flow.

Our two largest income property tenants – CVS and Walgreen – accounted for in excess of 16% of consolidated revenues individually and in the aggregate approximately 36% of consolidated revenues for the year ended December 31, 2010. The default, financial distress, or bankruptcy of one or both of these tenants could cause substantial vacancies. Vacancies reduce revenues until the affected properties can be re-leased and could decrease the ultimate sale value of each such vacant property. Upon the expiration of the leases that are currently in place, we may not be able to re-lease a vacant property at a comparable lease rate or without incurring additional expenditures in connection with such re-leasing.

There are a number of risks inherent in owning income properties.

Factors beyond our control can affect the performance and value of the income properties' portfolio. Changes in national, regional, and local economic and market conditions may affect the performance of the income properties and their value. Local real estate market conditions may include excess supply and intense competition for tenants, including competition based on:

Table of Contents

rental rates;

attractiveness and location of the property; and

quality of maintenance, insurance, and management services.

In addition, other factors may adversely affect the performance and value of the income properties, including changes in laws and governmental regulations, changes in interest rates, and the availability of financing.

In addition, because real estate investments are relatively illiquid, the ability to adjust the portfolio of income properties promptly in response to economic or other conditions is limited. Certain significant expenditures generally do not change in response to economic or other conditions, including debt service (if any), insurance, real estate taxes, and operating and maintenance costs.

As of December 31, 2010, the Company owned two self-developed flex-space income properties, which total approximately 31,000 square feet. These properties were over 80% leased at December 31, 2010. The Company is actively marketing these properties for lease but may not be able to lease these properties on favorable terms or at all. In addition, the lost revenues and increased property expenses resulting from the rejection by any bankrupt tenant of any of their respective leases with the Company could have a material adverse effect on the liquidity and results of operations of the Company if the Company is unable to re-lease the income properties at comparable rental rates and in a timely manner.

During early 2010, our Lakeland property was vacated by Barnes & Noble upon expiration of its lease. The Company is exploring all strategic alternatives on this 18,150 square-foot property.

Future growth and real estate development requires additional capital, the availability of which is not assured.

We expect to continue making investments in real estate development. Based on the status of several specific real estate projects, we will continue to invest significant amounts in real estate over the next several years. We could finance future expenditures from any of the following sources:

cash flow from operations;

bank borrowings;

non-recourse, sale leaseback, or other financing;

public offerings of debt or equity;

private placement of debt or equity; or

some combination of the above.

Financing for future expenditures may not be available on favorable terms or at all.

Competition and market conditions relating to golf operations could adversely affect operating results.

Golf operations face competition from similar nearby golf operations. Any new competitive golf operations that are developed close to our existing golf operations also may adversely impact results of operations. We have no intention at this time to allow golf course development on

Edgar Filing: CONSOLIDATED TOMOKA LAND CO - Form S-8

our adjoining property. Golf operations are also subject to adverse market conditions such as population trends and changing demographics, any of which could adversely affect results of operations. In addition, the golf operations may suffer if the economy weakens, if the popularity of golf decreases, or if unusual weather conditions or other factors cause a reduction in rounds played. Our golf operations are seasonal, primarily due to the impact of the winter tourist season and summer Florida heat and rain.

Our common stock is thinly traded, and therefore, the stock price may fluctuate more than the stock market as a whole.

As a result of the thin trading market for our stock, its market price may fluctuate significantly more than the stock market as a whole or the stock prices of similar companies. Without a larger float, common stock will be less liquid than the stock of companies with broader public ownership, and as a result, the trading prices for our common stock may be more volatile. Among other things, trading of a relatively small volume of common stock may have a greater impact on the trading price than would be the case if our public float were larger.

Our largest shareholder's interests may conflict with the interests of other investors, the board of directors, and management.

Our largest shareholder, Wintergreen Advisers, LLC, which owns more than 25% of our outstanding shares, has expressed support for pursuing business strategies which conflict with our current business plan. In addition, this shareholder has presented and obtained approval of certain corporate governance policies which affect operation of the Board of Directors. The effects of these changes on our profitability and operations are unknown.

We are currently involved in litigation that could be costly and divert management's attention from operating our business.

We are currently involved in litigation with our largest shareholder, Wintergreen Advisers, LLC, relating to the inspection of certain corporate records. We are vigorously defending this action. We cannot, however, determine with certainty the outcome or resolution of this litigation or the timing of its resolution. Litigation can be expensive, lengthy, and disruptive to normal business operations.

In addition to the expense and burden incurred in defending this litigation, management's efforts and attention may be diverted from ordinary business operations in order to address these claims.

Plan of Distribution

Sales of shares may be effected by the selling shareholder from time to time in one or more types of transactions (which may include block transactions) on the NYSE Amex, in the over-the-counter market, in any other stock exchange, market or trading facility on which the shares are traded, in negotiated transactions, through put or call options transactions relating to the shares, through short sales of shares, or a combination of such methods of sale, at market prices prevailing at the time of sale, or at negotiated prices. Such transactions may or may not involve brokers or dealers. As used herein, selling shareholder includes donees, pledges, assignees, transferees or other successors-in-interest selling shares received from a selling shareholder as a gift, pledge, partnership distribution or other non-sale related transfer after the date of this prospectus.

All costs, expenses and fees in connection with the registration of the shares offered hereby will be borne by the Company. Brokerage commissions and similar selling expenses, if any, attributable to the sale of shares will be borne by the selling shareholder. To our knowledge the selling shareholder has not entered into any agreements, understandings or arrangements with any underwriters or broker-dealers regarding the sale of its shares.

The selling shareholder may effect such transactions by selling shares directly to purchasers or to or through broker-dealers, which may act as agents or principals. Such broker-dealers may receive compensation in the form of discounts, concessions, or commissions from the selling shareholder and/or the purchasers of shares for whom such broker-dealers may act as agents or to whom they sell as principal, or both (which compensation as to a particular broker-dealer might be in excess of customary commissions).

In connection with the sale of the shares, the selling shareholder may enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of the shares in the course of hedging the positions they assume. The selling shareholder may also sell shares short and deliver these shares to close out the short positions, or loan or pledge the shares to broker-dealers that in turn may sell these shares. The selling shareholder may also enter into option or other transactions with broker-dealers or other financial institutions or create one or more derivative securities which require the delivery to such broker-dealer or other financial institution of shares offered by this prospectus.

The selling shareholder and any broker-dealers that act in connection with the sale of shares might be deemed to be underwriters within the meaning of the Securities Act, and any commissions received by such broker-dealers and any profit on the resale of the shares sold by them while acting as principals might be deemed to be underwriting discounts or commissions under the Securities Act. The selling shareholder may agree to indemnify any agent, dealer or broker-dealer that participates in transactions involving sales of the shares against certain liabilities, including liabilities arising under the Securities Act.

Because the selling shareholder may be deemed to be an underwriter within the meaning of the Securities Act, the selling shareholder will be subject to the prospectus delivery requirements of the Securities Act. The anti-manipulative provisions of Regulation M promulgated under the Exchange Act may apply to the selling shareholder's sales in the market.

The selling shareholder also may resell all or a portion of the shares in open market transactions in reliance upon Rule 144 under the Securities Act, provided it meets the criteria and conforms to the requirements of such Rule.

To the extent required under the Securities Act, the aggregate amount of the selling stockholder's shares being offered and the terms of the offering, the names of any agents, brokers, dealers or underwriters, any applicable commission and other material facts with respect to a particular offer will be set forth in an accompanying prospectus supplement or a post-effective amendment to the registration statement of which this prospectus is a part, as appropriate.

We cannot assure you that the selling shareholder will sell all or any portion of the shares offered hereby.

Item 6. Indemnification of Directors and Officers.

The Company is a Florida corporation. Section 607.0850 of the Florida Business Corporation Act, as amended (the "FBCA") grants a corporation the power to indemnify its directors, officers, employees, and agents for various expenses incurred resulting from various actions taken by its directors, officers, employees, or agents on behalf of the corporation. In general, if an individual acted in good faith and in a manner he reasonably believed to be in, or not opposed to, the best interests of the corporation and, with respect to any criminal action or proceeding, had no reasonable cause to believe the action was unlawful, then the corporation has the power to indemnify said individual who was or is a party to any proceeding (including, in the absence of an adjudication of liability (unless the court otherwise determines), any proceeding by or in the right of the corporation) against liability expenses, including counsel fees, incurred in connection with such proceeding, including any appeal thereof (and, as to actions by or in the right of the corporation, against expenses and amounts paid in settlement not exceeding, in the judgment of the board of directors, the estimated expense of litigating the proceeding to conclusion, actually and reasonably incurred in connection with the defense or settlement of such proceeding, including any appeal thereof). To the extent that a director, officer, employee, or agent has been successful on the merits or otherwise in defense of any proceeding, he shall be indemnified against expenses actually and reasonably incurred by him in connection therewith. The term "proceeding" includes any threatened, pending, or completed action, suit, or other type of proceeding, whether civil, criminal, administrative, or investigative and whether formal or informal.

Any indemnification in connection with the foregoing, unless pursuant to a determination by a court, shall be made by the corporation upon a determination that indemnification is proper in the circumstances because the individual has met the applicable standard of conduct. The determination shall be made (i) by the board of directors by a majority vote of a quorum consisting of directors who are not parties to such proceeding; (ii) by majority vote of a committee duly designated by the board of directors consisting solely of two or more directors not at the time parties to the proceeding; (iii) by independent legal counsel selected by the board of directors or such committee; or (iv) by the shareholders by a majority vote of a quorum consisting of shareholders who are not parties to such proceeding. Evaluation of the reasonableness of expenses and authorization of indemnification shall be made in the same manner as the determination that indemnification is permissible. However, if the determination of permissibility is made by independent legal counsel, then the directors or the committee shall evaluate the reasonableness of expenses and may authorize indemnification. Expenses incurred by an officer or director in defending a civil or criminal proceeding may be paid by the corporation in advance of the final disposition of the proceeding upon receipt of an undertaking by or on behalf of the director or officer to repay such amount if he is ultimately found not to be entitled to indemnification by the corporation. Expenses incurred by other employees and agents may be paid in advance upon such terms or conditions that the board of directors deems appropriate.

Section 607.0850 also provides that the indemnification and advancement of expenses provided pursuant to that Section are not exclusive, and a corporation may make any other or further indemnification or advancement of expenses of any of its directors, officers, employees, or agents, under any bylaw, agreement, vote of shareholders or disinterested directors, or otherwise, both as to action in his official capacity and as to action in another capacity while holding such office. However, indemnification or advancement of expenses may not be made if a judgment or other final adjudication established that the individual's actions, or omissions to act, were material to the cause of action so adjudicated and constitute (1) a violation of the criminal law (unless the individual had reasonable cause to believe his conduct was lawful or had no reasonable cause to believe his conduct was unlawful); (2) a transaction from which the individual derived an improper personal benefit; (3) in the case of a director, a circumstance under which the liability provisions of Section 607.0834 of the FBCA are applicable; or (4) willful misconduct or a conscious disregard for the best interests of the corporation in a proceeding by or in the right of the corporation to procure a judgment in its favor in a proceeding by or in the right of a shareholder. Indemnification and advancement of expenses shall continue as, unless otherwise provided when authorized or ratified, to a person who has ceased to be a director, officer, employee, or agent and shall inure to the benefit of the heirs, executors, and administrators of such person, unless otherwise provided when authorized or ratified.

Section 607.0850 further provides that unless the corporation's articles of incorporation provide otherwise, then notwithstanding the failure of a corporation to provide indemnification, and despite any contrary determination of the board or of the shareholders in the specific case, a director, officer, employee, or agent of the corporation who is or was a party to a proceeding may apply for indemnification or advancement of expenses, or both, to the court conducting the proceeding, to the circuit court, or to another court of competent jurisdiction. On receipt of an application, the court, after giving any notice that it considers necessary, may order indemnification and advancement of expenses, including expenses incurred in seeking court-ordered indemnification or advancement of expenses, if it determines that (1) the individual is entitled to mandatory indemnification under Section 607.0850 (in which case the court shall also order the corporation to pay the director reasonable expenses incurred in obtaining court-ordered indemnification or advancement of expenses); (2) the individual is entitled to indemnification or advancement of expenses, or both, by virtue of the exercise by the corporation of its power under Section 607.0850; or (3) the individual is fairly and reasonably entitled to indemnification or advancement of expenses, or both, in view of all the relevant circumstances, regardless of whether the person met the standard of conduct set forth in Section 607.0850. Further, a corporation is granted the power to purchase and maintain indemnification insurance.

The Company's Amended and Restated Articles of Incorporation (the "Articles") and Amended and Restated Bylaws (the "Bylaws") provide that the Company will indemnify any director, officer, employee or agent of the Company and each person who serves or served as a director, officer, employee or agent at the request of the Company to the fullest extent authorized by law, provided that the Articles and Bylaws shall not apply to any proceeding brought by or on behalf of a director, officer, employee or agent without prior approval of the Company's board of directors. The foregoing summaries are subject to the complete text of the FBCA and the Articles and Bylaws and are qualified in their entirety by reference thereto.

Item 9. Undertakings.

The undersigned Company hereby undertakes:

- (1) To file, during any period in which offers or sales are being made, a post-effective amendment to this Registration Statement:
 - (i) To include any prospectus required by Section 10(a)(3) of the Securities Act;
 - (ii) To reflect in the prospectus any facts or events arising after the effective date of this Registration Statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in this Registration Statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in

- (iii) To include any material information with respect to the plan of distribution not previously disclosed in this Registration Statement or any material change to such information in this Registration Statement;

- (3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.
- (4) That, for purposes of determining any liability under the Securities Act, each filing of the Company's annual report pursuant to Section 13(a) or Section 15(d) of the Exchange Act that is incorporated by reference in this Registration Statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the Company pursuant to the foregoing provisions, or otherwise, the Company has been advised that in the opinion of the Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Company of expenses incurred or paid by a director, officer or controlling person of the Company in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the Company will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.
