QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2011

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from to

Commission File No. 001-10362

MGM Resorts International

(Exact name of registrant as specified in its charter)

Edgar Filing: MGM Resorts International - Form 10-Q

Delaware **88-0215232**
(State or other jurisdiction of **(I.R.S. Employer**
incorporation or organization) **Identification No.)**
3600 Las Vegas Boulevard South, Las Vegas, Nevada 89109
(Address of principal executive offices)
(702) 693-7120
(Registrant's telephone number, including area code)
(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days: Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act:

Large accelerated filer Accelerated filer

Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act): Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date:

Class	Outstanding at October 31, 2011
Common Stock, \$.01 par value	488,830,987 shares

Table of Contents**MGM RESORTS INTERNATIONAL AND SUBSIDIARIES****CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)****NOTE 1 ORGANIZATION**

Organization. MGM Resorts International (the Company) is a Delaware corporation that acts largely as a holding company and, through wholly owned subsidiaries, owns and/or operates casino resorts. As of September 30, 2011, approximately 23% of the outstanding shares of the Company's common stock were owned by Tracinda Corporation, a Nevada corporation wholly owned by Kirk Kerkorian. Tracinda Corporation has significant influence with respect to the election of directors and other matters, but it does not have the power to solely determine these matters.

The Company owns and operates the following casino resorts in Las Vegas, Nevada: Bellagio, MGM Grand Las Vegas, The Mirage, Mandalay Bay, Luxor, New York-New York, Monte Carlo, Excalibur, and Circus Circus Las Vegas. Operations at MGM Grand Las Vegas include management of The Signature at MGM Grand Las Vegas, a condominium-hotel consisting of three towers. Other Nevada operations include Circus Circus Reno, Gold Strike in Jean, and Railroad Pass in Henderson. The Company and its local partners own and operate MGM Grand Detroit in Detroit, Michigan. The Company owns and operates two resorts in Mississippi: Beau Rivage in Biloxi and Gold Strike Tunica. The Company also owns Shadow Creek, an exclusive world-class golf course located approximately ten miles north of its Las Vegas Strip resorts, Primm Valley Golf Club at the California/Nevada state line and Fallen Oak golf course in Saucier, Mississippi.

The Company owns 51% and has a controlling interest in MGM China Holdings Limited (MGM China), which owns MGM Grand Paradise, S.A. (MGM Grand Paradise), the Macau company that owns the MGM Macau resort and casino and the related gaming subconcession and land concession. MGM Macau is a five-star integrated resort located on the Macau Peninsula, with a 587-room hotel, over 1,000 slot machines and over 400 table games. See Note 3 for additional information related to MGM China.

The Company owns 50% of CityCenter, located between Bellagio and Monte Carlo. The other 50% of CityCenter is owned by Infinity World Development Corp (Infinity World), a wholly owned subsidiary of Dubai World, a Dubai, United Arab Emirates government decree entity. CityCenter consists of Aria, a casino resort; Mandarin Oriental Las Vegas, a non-gaming boutique hotel; Crystals, a retail, dining and entertainment district; and Vdara, a luxury condominium-hotel. In addition, CityCenter features residential units in the Residences at Mandarin Oriental and Veer. The Company receives a management fee of 2% of revenues for the management of Aria and Vdara, and 5% of EBITDA (as defined in the agreements governing the Company's management of Aria and Vdara). In addition, the Company receives an annual fee of \$3 million for the management of Crystals.

The Company has 50% interests in Grand Victoria and Silver Legacy. Grand Victoria is a riverboat casino in Elgin, Illinois; an affiliate of Hyatt Gaming owns the other 50% of Grand Victoria and also operates the resort. Silver Legacy is located in Reno, adjacent to Circus Circus Reno, and the other 50% is owned by Eldorado LLC. See Note 5 for additional information related to Silver Legacy.

MGM Hospitality seeks to leverage the Company's management expertise and well-recognized brands through strategic partnerships and international expansion opportunities. The Company has entered into management agreements for hotels in the Middle East, North Africa, India and China.

Borgata. The Company has a 50% economic interest in Borgata Hotel Casino & Spa (Borgata) located on Renaissance Pointe in the Marina area of Atlantic City, New Jersey. Boyd Gaming Corporation (Boyd) owns the other 50% of Borgata and also operates the resort. The Company's interest is held in trust and currently offered for sale pursuant to the Company's settlement agreement with New Jersey Department of Gaming Enforcement (DGE). In March 2010, the New Jersey Casino Control Commission (CCC) approved the Company's settlement agreement with the DGE pursuant to which the Company placed its 50% ownership interest in Borgata and related leased land in Atlantic City into a divestiture trust. The settlement agreement was amended on July 22, 2011 with the approval of the CCC on August 8, 2011. Following the transfer of these interests into trust, the Company ceased to be regulated by the CCC or the DGE, except as otherwise provided by the trust agreement and the settlement agreement. Boyd's 50% interest is not affected by the settlement.

The terms of the settlement agreement, as amended, mandate the sale of the trust property by March 2014, which represents an 18-month extension compared to the original agreement. During the period ending in March 2013, which also represents an 18-month extension compared to the original agreement, the Company has the right to direct the trustee to sell the trust property, subject to approval of the CCC. If a sale is not concluded by that time, the trustee is responsible for selling the trust property during the following 12-month period. Prior to the consummation of the sale, the divestiture trust will retain any cash flows received in respect of the trust property, but will pay property taxes and other costs attributable to the trust property. The Company is the sole economic beneficiary of the trust and will be permitted to

reapply for a New Jersey gaming license

Table of Contents

beginning 30 months after the completion of the sale of the trust assets. As of September 30, 2011, the trust had \$188 million of cash and investments, of which \$150 million is held in U.S. treasury securities with maturities greater than three months but less than one year, and is recorded within Prepaid expenses and other.

As a result of the Company's ownership interest in Borgata being placed into a trust, the Company no longer has significant influence over Borgata; therefore, the Company discontinued the equity method of accounting for Borgata at the point the assets were placed in the trust in March 2010, and accounts for its investment in Borgata under the cost method of accounting. The carrying value of the investment related to Borgata is included in Other long-term assets, net. Earnings and losses that relate to the investment that were previously accrued remain as a part of the carrying amount of the investment. Distributions received by the trust that do not exceed the Company's share of earnings are recognized currently in earnings. However, distributions received by the trust that exceed the Company's share of earnings for such periods are applied to reduce the carrying amount of its investment. The Company consolidates the trust as it is the sole economic beneficiary. The trust did not receive distributions from Borgata during the three and nine months ended September 30, 2011. In the three and nine months ended September 30, 2010, the trust received distributions from the joint venture of \$105 million and \$120 million, of which \$10 million was paid to Boyd in accordance with the joint venture agreement, as amended. The Company recorded \$88 million and \$94 million as a reduction in the carrying value and \$7 million and \$16 million was recorded as Other, net non-operating income in the three and nine months ended September 30, 2010, respectively.

In July 2010, the Company entered into an agreement to sell four long-term ground leases and their respective underlying real property parcels, approximately 11.3 acres, underlying the Borgata for \$73 million. The Company closed the transaction in November 2010.

The Company recorded a pre-tax impairment charge of approximately \$128 million at September 30, 2010 which decreased the carrying value of its investment in Borgata to approximately \$250 million. The impairment charge was based on an offer received from a potential buyer at that time. The Company ultimately did not reach final agreement with such buyer. The Company continues to negotiate with other parties who have expressed interest in the asset, but can provide no assurance that a transaction will be completed.

NOTE 2 BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation. As permitted by the rules and regulations of the Securities and Exchange Commission, certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. These consolidated financial statements should be read in conjunction with the Company's 2010 annual consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2010.

In the opinion of management, the accompanying unaudited consolidated financial statements contain all adjustments which include only normal recurring adjustments necessary to present fairly the Company's financial position as of September 30, 2011 and the results of its operations and cash flows for the three and nine months ended September 30, 2011 and 2010. The results of operations for such periods are not necessarily indicative of the results to be expected for the full year.

As further discussed in Note 3, the Company began consolidating the results of MGM China on June 3, 2011 and ceased recording the results of MGM Macau as an equity method investment.

Certain reclassifications, which have no effect on previously reported net income, have been made to the 2010 financial statements to conform to the 2011 presentation. The Company reclassified hotel resort fees to rooms revenue from other revenue. The total amounts reclassified to rooms revenue for the three and nine months ended September 30, 2010 were \$21 million and \$49 million, respectively. Pursuant to the guidance in the recently issued AICPA Audit and Accounting Guide *Gaming*, the Company has also reclassified certain amounts paid under slot participation agreements from a reduction in casino revenue to casino expense. Slot participation fees were \$9 million and \$25 million in the three and nine months ended September 30, 2011, respectively, and \$9 million and \$28 million in the three and nine months ended September 30, 2010, respectively. Subsequent to the issuance of the Company's September 30, 2010 financial statements, CityCenter Holdings corrected its September 30, 2010 standalone financial statements pertaining to the allocation of construction costs to residential real estate which subsequently resulted in the reversal of \$17 million in residential impairment charges for the period ending September 30, 2010. The Company recorded 50% of the impairment charge calculated prior to this adjustment in its equity method accounting in

Table of Contents

its financial statements for the period ended September 30, 2010. This adjustment had no impact on the Company's reported net income because it had an offsetting effect on the Company's impairment charge related to its investment in CityCenter at September 30, 2010. The Company has reclassified approximately \$9 million related to its share of the adjustment from income (loss) from unconsolidated affiliates to property transactions, net for the three and nine month periods ending September 30, 2010.

Investments in and advances to unconsolidated affiliates. The Company has investments in unconsolidated affiliates accounted for under the equity method. Under the equity method, carrying value is adjusted for the Company's share of the investees' earnings and losses, as well as capital contributions to and distributions from these companies. Distributions in excess of equity method earnings are recognized as a return of investment and recorded as investing cash inflows in the accompanying consolidated statements of cash flows. The Company classifies operating income and losses as well as gains and impairments related to its investments in unconsolidated affiliates as a component of operating income or loss, as the Company's investments in such unconsolidated affiliates are an extension of the Company's core business operations.

The Company evaluates its investments in unconsolidated affiliates for impairment whenever events or changes in circumstances indicate that the carrying value of its investment may have experienced an other-than-temporary decline in value. If such conditions exist, the Company compares the estimated fair value of the investment to its carrying value to determine if an impairment is indicated and determines whether the impairment is other-than-temporary based on its assessment of all relevant factors, including consideration of the Company's intent and ability to retain its investment. The Company estimates fair value using a discounted cash flow analysis based on estimated future results of the investee and market indicators of terminal year capitalization rates.

Fair value measurement. Fair value measurements affect the Company's accounting and impairment assessments of its long-lived assets, investments in unconsolidated affiliates, cost method investments, assets acquired and liabilities assumed in an acquisition, goodwill, and other intangible assets. Fair value measurements also affect the Company's accounting for certain of its financial assets and liabilities. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and is measured according to a hierarchy that includes: Level 1 inputs, such as quoted prices in an active market; Level 2 inputs, which are observable inputs for similar assets; or Level 3 inputs, which are unobservable inputs.

The Company assessed the fair value of Circus Circus Reno using Level 3 inputs. See Note 13 for additional information related to the impairment of Circus Circus Reno. When assessing the impairment of its investment in CityCenter at June 30, 2010 and at September 30, 2010, the Company estimated fair value utilizing Level 3 inputs. See Note 5 for additional discussion. At September 30, 2011, the fair value of the Company's treasury securities held by the Borgata trust was \$150 million, measured using Level 1 inputs. See Note 1 for additional information related to the Borgata trust. The Company's \$300 million 4.25% convertible senior notes due 2015 issued in June 2011 were recorded at fair value on the issue date, measured using Level 1 inputs. See Note 8 for further discussion of the convertible senior note issuance.

Property and equipment. The Company evaluates its property and equipment and other long-lived assets for impairment based on its classification as a) held for sale or b) to be held and used. Several criteria must be met before an asset is classified as held for sale, including that management with the appropriate authority commits to a plan to sell the asset at a reasonable price in relation to its fair value and is actively seeking a buyer. For assets held for sale, the Company recognizes the asset at the lower of carrying value or fair market value less costs to sell, as estimated based on comparable asset sales, offers received, or a discounted cash flow model. For assets to be held and used, the Company reviews for impairment whenever indicators of impairment exist. The Company then compares the estimated future cash flows of the asset, on an undiscounted basis, to the carrying value of the asset. If the undiscounted cash flows exceed the carrying value, no impairment is indicated. If the undiscounted cash flows do not exceed the carrying value, then an impairment is recorded based on the fair value of the asset, typically measured using a discounted cash flow model. If an asset is still under development, future cash flows include remaining construction costs. All recognized impairment losses, whether for assets held for sale or assets to be held and used, are recorded as operating expenses. As discussed above, the Company recorded an impairment on Circus Circus Reno in the quarter ended September 30, 2011.

Gaming promoters. A significant portion of the high-end (VIP) gaming volume at MGM Macau is generated through the use of gaming promoters, also known as junket operators. These operators introduce high-end gaming players to MGM Macau, assist these customers with travel arrangements, and extend gaming credit to these players. VIP gaming at MGM Macau is conducted by the use of special purpose nonnegotiable gaming chips called rolling chips. Gaming promoters purchase these rolling chips from

Table of Contents

MGM Macau and in turn they sell these chips to their players. The rolling chips allow MGM Macau to track the amount of wagering conducted by each gaming promoters' clients in order to determine VIP gaming play. In exchange for the gaming promoters' services, MGM Macau pays them either through rolling chip turnover-based commissions or through revenue-sharing arrangements. The estimated portion of the gaming promoter payments that represent amounts passed through to VIP customers is recorded net against casino revenue, and the estimated portion retained by the gaming promoter for its compensation is recorded to casino expense.

Currency translation. The Company translates the financial statements of foreign subsidiaries that are not denominated in U.S. dollars. Balance sheet accounts are translated at the exchange rate in effect at each balance sheet date. Income statement accounts are translated at the average rate of exchange prevailing during the period. Translation adjustments resulting from this process are charged or credited to other comprehensive income (loss).

Recently issued accounting standards. Certain amendments to Accounting Standards Codification (ASC) 820, Fair Value Measurements, become effective for the Company for fiscal years beginning after December 15, 2011. Such amendments include a consistent definition of fair value, enhanced disclosure requirements for Level 3 fair value adjustments and other changes to required disclosures. The Company does not expect this amendment to have a material effect on its financial statements and will comply with the disclosure enhancements of this amendment when the amendment is effective.

In June 2011, ASC 220, Comprehensive Income, was amended and will become effective for the Company for fiscal years beginning after December 15, 2011, including retrospective adjustment. Such amendments allow the Company two options for the presentation of comprehensive income. Under either option, the Company is required to present each component of net income along with total net income, each component of other comprehensive income along with a total for other comprehensive income, and a total amount for comprehensive income. As a result of the amendment, the option to present the components of other comprehensive income as part of the statement of changes in stockholders' equity is eliminated. The Company does not expect this amendment to have a material effect on its financial statements and will comply with the disclosure enhancements of this amendment when the amendment is effective.

In September 2011, ASC 350, Intangibles-Goodwill and Others, was amended to simplify the assessment of goodwill impairment and will become effective for the Company for fiscal years beginning after December 15, 2011. The amended guidance allows the Company to do an initial qualitative assessment of relative events and circumstances to determine if fair value of a reporting unit is more likely than not less than its carrying value, prior to performing the two-step quantitative goodwill impairment test. The Company does not expect this amendment to have a material effect on its financial statements and will comply with the disclosure enhancements of this amendment when the amendment is effective.

NOTE 3 MGM CHINA ACQUISITION

On June 3, 2011, the Company and Ms. Ho, Pansy Catilina Chiu King (Ms. Pansy Ho) completed a reorganization of the capital structure of MGM China and the initial public offering of 760 million shares of MGM China on The Stock Exchange of Hong Kong Limited (the IPO), representing 20% of the post issuance capital stock of MGM China, at an offer price of HKD 15.34 per share. Pursuant to this reorganization, the Company, through a wholly owned subsidiary, acquired an additional 1% of the overall capital stock of MGM China for HKD 15.34 per share, or approximately \$75 million, and thereby became the indirect owner of 51% of MGM China. Following the IPO, Ms. Pansy Ho sold an additional 59 million shares of MGM China pursuant to the underwriters' overallotment option.

Through the acquisition of its additional 1% interest of MGM China, the Company obtained a controlling interest and was required to consolidate MGM China as of June 3, 2011. Prior to the IPO, the Company held a 50% interest in MGM Grand Paradise, which was accounted for under the equity method as discussed in Note 5. The acquisition of the controlling financial interest was accounted for as a business combination and the Company recognized 100% of the assets, liabilities, and noncontrolling interests of MGM China at fair value at the date of acquisition. The fair value of the equity interests of MGM China was determined by the IPO transaction price and equaled approximately \$7.5 billion. The carrying value of the Company's equity method investment was significantly less than its share of the fair value of MGM China at the acquisition date, resulting in a \$3.5 billion gain on the acquisition. Under the acquisition method, the fair value was allocated to the assets acquired, liabilities assumed and noncontrolling interests recorded in the transaction. The allocation of fair value for substantially all of the assets and liabilities is preliminary and may be adjusted up

Table of Contents

to one year after the acquisition date. The following table sets forth the preliminary allocation at June 3, 2011 (in thousands):

Current assets	\$ 558,037
Property and equipment and other long-term assets	704,823
Goodwill	2,821,589
Gaming subconcession	4,499,727
Land concession	84,466
Customer lists	128,564
Gaming promoter relationships	179,989
Current liabilities, excluding long-term debt	(459,518)
Long-term debt	(642,818)
Deferred taxes	(380,628)
	\$ 7,494,231
Noncontrolling interests	\$ (3,672,173)

As discussed above, the Company recognized the identifiable intangible assets of MGM China at fair value. The gaming subconcession and land concession had historical cost bases which were being amortized by MGM Macau. The customer relationship intangible assets did not have historical cost bases at MGM Macau. The estimated fair values of the intangible assets acquired were primarily determined using the income approach based on significant inputs that were not observable. The gaming subconcession was valued using an excess earnings model based on estimated future cash flows of MGM Macau. All of the recognized intangible assets were determined to have finite lives and are being amortized over their estimated useful lives as discussed below.

Gaming subconcession. Pursuant to the agreement dated June 19, 2004 between MGM Grand Paradise and Sociedade de Jogos de Macau, S.A. (SJM), a gaming subconcession was acquired by MGM Grand Paradise for the right to operate casino games of chance and other casino games for a period of 15 years commencing on April 20, 2005. The Company cannot provide any assurance that the gaming subconcession will be extended beyond the original terms of the agreement; however, management believes that the gaming subconcession will be extended, given that the land concession agreement with the government extends significantly beyond the gaming subconcession. In addition, management believes that the fair value of MGM China reflected in the IPO pricing suggests that market participants have assumed the gaming subconcession will be extended beyond its initial term. As such, the Company has determined that the gaming subconcession intangible asset should be amortized on a straight-line basis over the initial term of the land concession through April 2031.

Land concession. MGM Grand Paradise entered into a contract with the Macau government to use the land under MGM Macau commencing from April 6, 2006. The land use right has an initial term through April 6, 2031, subject to renewal for additional periods. The land concession intangible asset will be amortized on a straight-line basis over the remaining initial contractual term.

Customer lists. The Company recognized an intangible asset related to customer lists with an estimated value of \$129 million, which will be amortized on an accelerated basis over its estimated useful life of five years.

Gaming promoter relationships. The Company recognized an intangible asset related to its relationships with gaming promoters, which will be amortized on a straight-line basis over its estimated useful life of four years.

Deferred taxes. The Company recorded a net deferred tax liability of \$381 million for the acquisition of the controlling financial interest in MGM China and a corresponding increase to goodwill. The net deferred tax liability represents the excess of the financial reporting amounts of the net assets of MGM China over their respective bases under Macau tax law measured at the enacted tax rates expected to apply to taxable income in the periods such differences are expected to be realized, net of a valuation allowance of \$72 million. The tax-effected components of the net deferred tax liability at June 3, 2011 are as follows (in thousands):

Deferred tax assets- foreign	
Accruals, reserves and other	\$ 121

Edgar Filing: MGM Resorts International - Form 10-Q

Bad debt reserve	3,161
Long-term debt	2,816
Net operating loss carryforward	58,781
Preopening and start-up expenses	3,838
Property and equipment	7,822
	76,539
Less: Valuation allowance	(71,670)
	4,869
Deferred tax liabilities- foreign	
Intangible assets	(385,497)
Net deferred tax liability	\$ (380,628)

Table of Contents

Income generated from gaming operations of MGM Grand Paradise is exempted from Macau's 12% complementary tax through the period ending December 31, 2016 pursuant to approval from the Macau government granted on September 22, 2011. Non-gaming operations remain subject to the complementary tax. MGM Grand Paradise has a complementary tax net operating loss carryforward of \$490 million resulting from non-gaming operations that will expire if not utilized against non-gaming income in years 2011 through 2013. The Macanese net operating loss carryforwards are fully offset by a valuation allowance.

MGM Grand Paradise's exemption from the Macau 12% complementary tax on gaming profits does not apply to dividend distributions of such profits to MGM China, its sole shareholder. The complementary tax would be levied on MGM China at the time such profits are distributed. MGM Grand Paradise has submitted a request to the Macau government to settle the complementary tax that would be due on such distributions by paying a flat annual fee regardless of the amount of distributable dividends. MGM China would not be subject to the complementary tax on such distributions if such an arrangement were in place.

At June 3, 2011, the Company had an excess amount for financial reporting over the U.S. tax basis of its investment in MGM China of \$3.6 billion that management does not consider to be essentially permanent in duration. The Company expects this basis difference to resolve through repatriations of future MGM China earnings. The Company has not provided deferred taxes for such excess financial reporting basis because there would be sufficient foreign tax credits to offset all U.S. income tax that would result from the future repatriation of such earnings.

Consolidated results. MGM China's net revenue for the three months ended September 30, 2011 was \$623 million, operating income was \$41 million and net income was \$30 million. Net revenue for the period from June 3, 2011 through September 30, 2011 was \$816 million, operating income was \$60 million and net income was \$45 million.

Pro forma information. The operating results for MGM China and its subsidiaries are included in the accompanying consolidated statements of income from the date of acquisition. The following unaudited pro forma consolidated financial information for the Company has been prepared assuming the Company's acquisition of its controlling financial interest had occurred as of January 1, 2010 and does not include the gain recognized by the Company:

	Nine Months Ended September 30,

Borgata

As discussed in Note 1, the Company discontinued the equity method of accounting for Borgata in March 2010 at the point the assets were placed in the trust, and accounts for its rights under the trust arrangement under the cost method of accounting.

Silver Legacy

Silver Legacy has approximately \$143 million of outstanding senior notes due in March 2012. Silver Legacy is exploring various alternatives for refinancing or restructuring its obligations under the notes. There can be no assurance, however, that it will be able to refinance or restructure the notes on acceptable terms, or at all. If Silver Legacy is unable to refinance or restructure its obligations with respect to the mortgage notes, the holders of the notes will be entitled to exercise the remedies provided in the indenture governing the notes, including foreclosing on the assets securing the mortgage notes.

MGM Macau

As discussed in Note 3, the Company obtained a controlling financial interest in MGM China as of June 3, 2011 and therefore was required to consolidate MGM China beginning on that date. Prior thereto, the Company's investment in MGM Grand Paradise was accounted for under the equity method. Prior to the transaction the Company received distributions from MGM Macau of approximately \$192 million in the fourth quarter of 2010 and \$31 million in the first quarter of 2011. No distributions have been received from MGM China subsequent to June 3, 2011.

CityCenter

January 2011 debt restructuring transactions. In January 2011, CityCenter completed a series of transactions including the issuance of \$900 million in aggregate principal amount of 7.625% senior secured first lien notes due 2016 and \$600 million in aggregate principal amount of

Edgar Filing: MGM Resorts International - Form 10-Q

10.75%/11.50% senior secured second lien PIK toggle notes due 2017 in a private placement. The interest rate on the second lien notes is 10.75% for interest paid in cash, and 11.50% if CityCenter pays interest in the form of additional debt. CityCenter received net proceeds from the offering of the notes of \$1.46 billion after initial purchaser's discounts and commissions but before other offering expenses.

Effective concurrently with the notes offering, CityCenter's senior credit facility was amended and restated which extended the maturity of \$500 million of the \$1.85 billion outstanding loans until January 21,

Table of Contents

2015. The restated senior credit facility does not include a revolving loan component. All borrowings under the senior credit facility in excess of \$500 million were repaid using the proceeds of the first lien notes and the second lien notes. In addition, net proceeds from the note offerings, together with equity contributions of \$73 million from the members, were used to fund the interest escrow account of \$159 million for the benefit of the holders of the first lien notes and the lenders under the restated senior credit facility. The restated senior credit facility is secured, on a pari passu basis with the first lien notes, by a first priority lien on substantially all of CityCenter's assets and those of its subsidiaries, except that any proceeds generated by the sale of Crystals outside of bankruptcy or foreclosure proceedings will be paid first to the lenders under the restated senior credit facility. CityCenter recorded a loss on the debt modification of \$24 million in the first quarter of 2011 related to the above transactions.

Completion guarantee. The Company entered into an amended completion and cost overrun guarantee in connection with CityCenter's restated senior credit facility agreement and issuance of \$1.5 billion of senior secured first lien notes and senior secured second lien notes, as discussed in Note 9.

Investment impairment. At June 30, 2010, the Company reviewed its CityCenter investment for impairment using revised operating forecasts developed by CityCenter management late in the second quarter. Based on the then current and forecasted market conditions and because CityCenter's results of operations through June 30, 2010 were below previous forecasts, and the revised operating forecasts were lower than previous forecasts, management concluded it should review the carrying value of its investment. Based on its analysis, the Company determined that the carrying value of its investment exceeded its fair value and therefore an impairment was indicated. The Company intends to and believes it will be able to retain its investment in CityCenter; however, due to the extent of the shortfall and the Company's assessment of the uncertainty of fully recovering its investment, the Company determined that the impairment was other-than-temporary and recorded an impairment charge of \$1.12 billion included in Property transactions, net.

At September 30, 2010, the Company recognized an increase of \$232 million in its total net obligation under its CityCenter completion guarantee, and a corresponding increase in its investment in CityCenter. The increase primarily reflects revisions to prior estimates based on the Company's assessment of the most current information derived from the CityCenter close-out and litigation processes and does not reflect certain potential recoveries that are being pursued as part of the litigation process. The Company completed an impairment review as of September 30, 2010 and as a result recorded an additional other-than-temporary impairment of \$191 million in the third quarter of 2010, included in Property transactions, net.

The Company's discounted cash flow analysis for CityCenter included future cash inflows from operations, including residential sales, and estimated future cash outflows for capital expenditures. Both analyses used an 11% discount rate and a long-term growth rate of 4% related to forecasted cash flows for CityCenter's operating assets.

Residential inventory impairment. Upon substantial completion of construction of the Mandarin Oriental residential inventory in the first quarter of 2010 and the Veer residential inventory in the second quarter of 2010, CityCenter is required to carry its residential inventory at the lower of its carrying value or fair value less costs to sell. Fair value of the residential inventory is determined using a discounted cash flow analysis based on management's current expectations of future cash flows. The key inputs in the discounted cash flow analysis include estimated sales prices of units currently under contract and new unit sales, the absorption rate over the sell-out period, and the discount rate.

CityCenter recorded a residential impairment charge of \$53 million in the second quarter of 2011. The Company recognized 50% of such impairment charge, resulting in a pre-tax charge of approximately \$26 million.

In the three and nine months ended September 30, 2010, CityCenter recorded residential impairment charges of \$76 million and \$304 million, respectively. The Company recognized 50% of such impairment charges, resulting in pre-tax charges of approximately \$38 million and \$152 million in the three and nine months ended September 30, 2010, respectively.

Harmon. During the third quarter of 2010, CityCenter management determined that it was unlikely that the Harmon Hotel & Spa (Harmon) would be completed using the building as it stood. As a result, CityCenter recorded an impairment charge of \$279 million in the third quarter of 2010 related to construction in progress assets. The impairment of Harmon did not affect the Company's loss from unconsolidated affiliates in the third quarter of 2010, because the Company's 50% share of the impairment charge had previously been recognized by the Company in connection with prior impairments of its investment balance. See Note 9 for additional information about Harmon.

Table of Contents

CityCenter summary financial information. Summarized balance sheet information of the CityCenter joint venture is as follows:

	September 30, 2011	December 31, 2010

Less: Current portion	(351,608)	
	\$ 13,099,074	\$ 12,047,698

In September 2011, the Company borrowed an additional \$879 million under its senior credit facility to increase its capacity for issuing additional secured indebtedness; these borrowings were repaid immediately after quarter end. As a result, outstanding senior notes due within one year of the balance sheet date in excess of the available capacity under the Company's senior credit facility were classified as current obligations at September 30, 2011. Amounts outstanding under the MGM Grand Paradise credit facility were classified as long-term as MGM Grand Paradise has both the intent and ability to repay amortization payments under the term loan due within one year of the balance sheet date with available borrowings under the revolving loan.

Table of Contents

At December 31, 2010, long-term debt due within one year of the balance sheet date was classified as long-term because the Company had both the intent and ability to repay these amounts with available borrowings under the senior credit facility. The Company did not capitalize interest in the three and nine months ending September 30, 2011 and 2010.

Senior credit facility. The Company's senior credit facility matures in February 2014 and consists of approximately \$1.8 billion in term loans and a \$1.7 billion revolving loan. Giving effect to the subsequent repayment discussed above, the Company would have had approximately \$1.2 billion of available borrowing capacity under its senior credit facility at September 30, 2011. Substantially all of the assets of MGM Grand Detroit serve as collateral to secure its \$450 million obligation outstanding as a co-borrower under the Company's senior credit facility. In addition, substantially all of the assets of Gold Strike Tunica and certain land across from the Luxor serve as collateral to secure up to \$300 million of obligations outstanding under the Company's senior credit facility.

Interest on the senior credit facility is based on a LIBOR margin of 5.00%, with a LIBOR floor of 2.00%, and a base rate margin of 4.00%, with a base rate floor of 4.00%. The interest rate on outstanding borrowings under the senior credit facility at September 30, 2011 and December 31, 2010 was 7.0%.

At September 30, 2011, the Company and its restricted subsidiaries were required under the senior credit facility to maintain a minimum trailing annual EBITDA (as defined in the agreement governing the Company's senior credit facility) of \$1.15 billion, which increases to \$1.2 billion as of December 31, 2011, with periodic increases thereafter. EBITDA for the trailing twelve months ended September 30, 2011 calculated in accordance with the terms of the senior credit facility was \$1.26 billion. Additionally, the Company and its restricted subsidiaries are limited to \$500 million of annual capital expenditures (as defined) during 2011; the Company was in compliance with the maximum capital expenditures covenants at September 30, 2011.

MGM Grand Paradise credit facility. MGM Grand Paradise's credit facility is comprised of approximately \$551 million in term loans and a \$400 million revolving loan. The outstanding balance of MGM Grand Paradise's credit facility at September 30, 2011 is comprised solely of term loans. Based on exchange rates at that date, the outstanding balance is equivalent to approximately \$551 million. Scheduled amortization on the term loan begins in July 2012 with a lump sum payment of approximately \$276 million upon final maturity in July 2015. The revolving loan may be redrawn, but is required to be repaid in full on the last date of the respective term loan, no later than July 2015. Interest on the term loan facility is based on HIBOR plus a margin ranging between 3% and 4.5%, based on MGM Grand Paradise's adjusted leverage ratio, as defined in its credit facility agreement. Interest on the revolving facility can be denominated in either Hong Kong dollars or U.S. dollars and is based on the same margin range, plus HIBOR or LIBOR, as appropriate. As of September 30, 2011, the credit facility is denominated entirely in Hong Kong dollars and interest is based on the margin range of 3%, plus HIBOR. Substantially all of the assets of MGM Grand Paradise serve as collateral for the MGM Grand Paradise credit facility, which is guaranteed by MGM China and certain of its direct and indirect subsidiaries.

At September 30, 2011, MGM Grand Paradise was required to maintain a specified adjusted leverage ratio, as defined, at the end of each quarter while the loans are outstanding. The adjusted leverage ratio is required to be no greater than 4.00 to 1.00 for each quarter during 2011 and no greater than 3.50 to 1.00 thereafter. In addition, MGM Grand Paradise is required to maintain a debt service coverage ratio, as defined of no less than 1.50 to 1.00 at each quarter end. At September 30, 2011, MGM Grand Paradise was in compliance with its adjusted leverage ratio and debt service coverage ratios.

Convertible notes. In June 2011, the Company sold \$300 million in aggregate principal amount of the Company's 4.25% convertible senior notes due 2015 (the "Notes") on terms that were consistent with those governing the Company's existing convertible senior notes due 2015 for a purchase price of 103.805% of the principal amount to an indirect wholly owned subsidiary of Ms. Pansy Ho in a transaction exempt from registration under the Securities Act of 1933, as amended. The Notes are convertible at an initial conversion rate, subject to adjustment under certain circumstances, of approximately 53.83 shares of the Company's common stock per \$1,000 principal amount of the Notes. The Company received approximately \$311 million in proceeds related to this transaction.

The initial agreement to sell the Notes occurred in April 2011, and the Notes were not sold until June 2011. The agreement to issue the Notes at a later date based on the fixed terms described above constituted a derivative instrument. At issuance, the fair value of the derivative instrument was equal to the difference between the fair value of the Notes and the Notes' issuance price. The Notes were recorded at fair value determined by the trading price (105.872%) of the Company's existing convertible notes on the date of

Table of Contents

issuance of the Notes, with the difference recorded as a premium to be recognized over the term of the Notes. The Company recorded a loss of \$6 million related to the change in fair value of the derivative in Other, net non-operating income (expense) during the second quarter of 2011.

Senior and senior secured notes. In February 2011, the Company repaid the \$325 million of outstanding principal amount of its 8.375% senior subordinated notes due 2011 at maturity.

During the three months ended September 30, 2011, the Company repurchased \$10 million principal amount of its 6.75% senior notes due 2012 and \$22 million principal amount of its 6.75% senior notes due 2013 in open market repurchases and recognized a gain of approximately \$1 million in Other, net related to these transactions.

Substantially all of the assets of New York-New York serve as collateral for the Company's 13% senior secured notes due 2013, substantially all of the assets of Bellagio and The Mirage serve as collateral for the Company's 10.375% senior secured notes due 2014 and the 11.125% senior secured notes due 2017, and substantially all of the assets of MGM Grand serve as collateral for the Company's 9.00% senior secured notes due 2020. Upon the issuance of the 10.375%, 11.125% and 9.00% notes, the holders of the Company's 13% senior secured notes due 2013 obtained an equal and ratable lien in all collateral securing these notes.

Fair value of long-term debt. The estimated fair value of the Company's long-term debt at September 30, 2011 was approximately \$13.0 billion. Fair value was estimated using quoted market prices for the Company's senior notes, senior subordinated notes and senior credit facility. Carrying value of the MGM Grand Paradise credit facility approximates fair value. At December 31, 2010, the estimated fair value of the Company's long-term debt was approximately \$12.4 billion, and was based on quoted market prices.

NOTE 9 COMMITMENTS AND CONTINGENCIES

CityCenter completion guarantee. In January 2011, the Company entered into an amended completion and cost overrun guarantee in connection with CityCenter's restated senior credit facility agreement and issuance of \$1.5 billion of senior secured first lien notes and senior secured second lien toggle notes, as previously discussed. Consistent with the terms of the previous completion guarantee, the terms of the amended completion guarantee provide for the ability to utilize the then remaining \$124 million of net residential proceeds to fund construction costs, or to reimburse the Company for construction costs previously expended, though the timing of receipt of such proceeds is uncertain. The completion guarantee is collateralized by substantially all of the assets of Circus Circus Las Vegas, as well as certain undeveloped land adjacent to that property.

As of September 30, 2011, the Company has funded \$624 million under the completion guarantee. The Company has recorded a receivable from CityCenter of \$108 million related to these amounts, which represents amounts reimbursable to the Company from CityCenter from future residential proceeds. The Company has a remaining estimated net obligation under the completion guarantee of \$14 million which includes estimated litigation costs related to the resolution of disputes with contractors as to the final construction costs and estimated amounts to be paid to contractors either through the joint venture's extra-judicial settlement process or through the legal process related to the Perini litigation. The Company's accrual also reflects certain estimated offsets to the amounts claimed by the contractors. CityCenter has reached, or expects to reach, settlement agreements with most of the construction subcontractors. However, significant disputes remain with the general contractor and certain subcontractors. Amounts claimed by such parties exceed amounts included in the Company's completion guarantee accrual by approximately \$200 million, as such amounts exceed the Company's best estimate of its liability. Moreover, the Company has not accrued for any contingent payments to CityCenter related to the Harmon Hotel & Spa component, which is unlikely to be completed using the building as it now stands. The Clark County Building Division (the Building Division) requested that CityCenter conduct an analysis, based on all available information, as to the structural stability of the Harmon under building-code-specified load combinations. On July 11, 2011 a consulting engineer engaged by CityCenter for this review submitted the results of his analysis of the Harmon tower and podium in its current as-built condition. The engineer opined, among other things, that [i]n a code-level earthquake, using either the permitted or current code specified loads, it is likely that critical structural members in the tower will fail and become incapable of supporting gravity loads, leading to a partial or complete collapse of the tower. There is missing or misplaced reinforcing steel in columns, beams, shear walls, and transfer walls throughout the structure of the tower below the twenty-first floor. In response to this opinion, on July 12, 2011 the Building Division required CityCenter, no later than August 15, 2011, to provide a plan of action that will abate the potential for structural collapse and protect impacted uses and occupancies. Under the relevant building code provision, abate means repair, rehabilitation, demolition or removal of the subject building.

Table of Contents

On August 15, 2011, after expert consultation, CityCenter submitted its reply to the Building Division. CityCenter informed the Building Division that it has decided to abate the potential for structural collapse of the Harmon in the event of a code-level earthquake by demolishing the building, and enclosed a plan of action for demolition by implosion prepared by LVI Environmental Services of Nevada, Inc. CityCenter also advised that prior to undertaking the demolition plan of action, it will seek relief from a standing order of the District Court judge presiding over the Perini litigation that prohibits alteration or destruction of the building without court approval. In addition, CityCenter supplied the foundational data for the engineering conclusions stated in the July 11, 2011 letter declaring the Harmon's structural instability in the event of a code-level earthquake.

The Building Division advised CityCenter that the Building Division's staff will review CityCenter's August 15, 2011 submission and then issue its conclusions to CityCenter, but the Building Division did not specify a date for such guidance. By letter dated August 18, 2011, the Building Division requested further information from, and a meeting with, CityCenter's retained engineering firm concerning the latter's data, computations and conclusions regarding the Harmon's as-built condition. Pursuant to this request by the Building Division, representatives from CityCenter's retained engineering firm have met with the Building Division and directly responded to the Building Division's inquiries.

CityCenter's restated senior credit facility provides that certain demolition expenses may be funded only by equity contributions from the members of the CityCenter venture or certain specified extraordinary receipts (which include any proceeds from the Perini litigation).

CityCenter construction litigation. In March 2010, Perini Building Company, Inc. (Perini), general contractor for the CityCenter development project (the Project), filed a lawsuit in the Eighth Judicial District Court for Clark County, State of Nevada, against MGM MIRAGE Design Group (a wholly owned subsidiary of the Company which was the original party to the Perini construction agreement) and certain direct or indirect subsidiaries of CityCenter Holdings, LLC (the CityCenter Owners). Perini asserts that the Project was substantially completed, but the defendants failed to pay Perini approximately \$490 million allegedly due and owing under the construction agreement for labor, equipment and materials expended on the Project. The complaint further charges the defendants with failure to provide timely and complete design documents, late delivery to Perini of design changes, mismanagement of the change order process, obstruction of Perini's ability to complete the Harmon Hotel & Spa component, and fraudulent inducement of Perini to compromise significantly amounts due for its general conditions. The complaint advances claims for breach of contract, breach of the implied covenant of good faith and fair dealing, tortious breach of the implied covenant of good faith and fair dealing, unjust enrichment and promissory estoppel, and fraud and intentional misrepresentation. Perini seeks compensatory damages, punitive damages, attorneys' fees and costs.

In April 2010, Perini served an amended complaint in this case which joins as defendants many owners of CityCenter residential condominium units (the Condo Owner Defendants), adds a count for foreclosure of Perini's recorded master mechanic's lien against the CityCenter property in the amount of approximately \$491 million, and asserts the priority of this mechanic's lien over the interests of the CityCenter Owners, the Condo Owner Defendants and the Project lenders in the CityCenter property.

The CityCenter Owners and the other defendants dispute Perini's allegations, and contend that the defendants are entitled to substantial amounts from Perini, including offsets against amounts claimed to be owed to Perini and its subcontractors and damages based on breach of their contractual and other duties to CityCenter, duplicative payment requests, non-conforming work, lack of proof of alleged work performance, defective work related to the Harmon Hotel & Spa component, property damage and Perini's failure to perform its obligations to pay Project subcontractors and to prevent filing of liens against the Project. Parallel to the court litigation CityCenter management conducted an extra-judicial program for settlement of Project subcontractor claims. CityCenter has resolved the claims of the majority of the 223 first-tier subcontractors, with only several remaining for further proceedings along with trial of Perini's claims and CityCenter's Harmon-related counterclaim and other claims by CityCenter against Perini and its parent guarantor, Tutor Perini. In December 2010, Perini recorded an amended notice of lien reducing its lien to approximately \$313 million.

The CityCenter Owners and the other defendants will continue to vigorously assert and protect their interests in the lawsuit. The Company believes that a loss with respect to Perini's punitive damages claim is neither probable nor reasonably possible. Please refer to the disclosure above for further discussion on the Company's completion guarantee obligation which may be impacted by the outcome of the above litigation and the joint venture's extra-judicial settlement process.

Table of Contents

Call center litigation. Lori Zaragoza v. MGM MIRAGE, Inc. and MGM Resorts International, Case No. BC 461912, Los Angeles County Superior Court, filed May 18, 2011. This putative class action complaint alleges that during the one year prior to the filing defendant's call center reservation agents monitored and recorded consumer telephone calls for hotel room and other hospitality-related bookings, without prior notice to plaintiff and other California consumers in violation of various provisions of the California Penal Code. The plaintiff seeks certification of a class action, compensatory damages including consequential or statutory damages pursuant to California Penal Code §637.2, whichever is greater, injunctive relief, prejudgment interest and costs of suit. The case is in its early stages and the Company cannot reasonably estimate a possible range of loss at this time. The Company contests that the complaint has merit and will vigorously defend itself against the claims in this lawsuit. Based on fact investigation conducted to date in this case, defendant does not expect to incur a material loss with respect to this case.

Other guarantees. The Company is party to various guarantee contracts in the normal course of business, which are generally supported by letters of credit issued by financial institutions. The Company's senior credit facility limits the amount of letters of credit that can be issued to \$250 million, and the amount of available borrowings under the senior credit facility is reduced by any outstanding letters of credit. At September 30, 2011, the Company had provided \$37 million of total letters of credit.

Other litigation. The Company is a party to various legal proceedings, most of which relate to routine matters incidental to its business. Management does not believe that the outcome of such proceedings will have a material adverse effect on the Company's financial position, results of operations or cash flows.

NOTE 10 INCOME (LOSS) PER SHARE OF COMMON STOCK

The weighted-average number of common and common equivalent shares used in the calculation of basic and diluted income (loss) per share consisted of the following:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2011	2010	2011	2010
	<i>(In thousands)</i>			
Numerator:				
Net income (loss) attributable to MGM Resorts International - basic	\$ (123,786)	\$ (317,991)	\$ 3,228,328	\$ (1,298,208)
Interest on convertible debt, net of tax			28,141

Weighted-average common and common equivalent shares-diluted	488,636	441,328	558,544	441,289
Anti-dilutive share-based awards excluded from the calculation of diluted earnings per share	28,791	26,008	19,900	26,008

NOTE 11 STOCKHOLDERS EQUITY, NONCONTROLLING INTERESTS AND COMPREHENSIVE INCOME (LOSS)

Authorized common stock. In June 2011, the stockholders of the Company approved a proposal to amend and restate the Amended and Restated Certificate of Incorporation of the Company to increase the Company's number of authorized shares of common stock to 1,000,000,000 shares.

Noncontrolling interests. As discussed in Note 3, the Company became the controlling shareholder of MGM China and began consolidating the financial position of MGM China in its financial statements as of June 3, 2011. The noncontrolling interests in MGM China and other minor subsidiaries are presented as a separate component of stockholders' equity in the Company's consolidated balance sheets, and the net income attributable to noncontrolling interests is presented on the Company's consolidated statements of operations.

Table of Contents

Net income attributable to noncontrolling interests was \$17 million and \$26 million for the three and nine months ended September 30, 2011, respectively.

Supplemental equity information. The following table presents the Company's changes in equity and accumulated other comprehensive income (loss) for the nine months ended September 30, 2011:

	Common Stock	Capital in Excess of Par Value	Retained Earnings (Accumulated Deficit)	Accumulated Other Comprehensive Loss <i>(In thousands)</i>	Total MGM Resorts International Stockholders Equity	Noncontrolling Interests	Total Stockholders Equity

NOTE 12 STOCK-BASED COMPENSATION

2005 Omnibus Incentive Plan. The Company's omnibus incentive plan, as amended (Omnibus Plan), allows it to grant stock options, stock appreciation rights (SARs), restricted stock, restricted stock units (RSUs), and other stock-based awards to eligible directors, officers and employees of the Company and its subsidiaries. The plans are administered by the Compensation Committee (the Committee) of the Board of

Edgar Filing: MGM Resorts International - Form 10-Q

Directors. The Committee has discretion under the omnibus plan regarding which type of awards to grant, the vesting and service requirements, exercise price and other conditions, in all cases subject to certain limits, including:

As amended, the omnibus plan allows for the issuance of up to 35 million shares or share-based awards; and

For stock options and SARs, the exercise price of the award must be at least equal to the fair market value of the stock on the date of grant and the maximum term of such an award is 10 years.

Table of Contents

Stock options and SARs granted under all plans generally have terms of either seven or ten years, and in most cases vest in either four or five equal annual installments. RSUs granted vest ratably over four years.

As of September 30, 2011, the Company had an aggregate of approximately 11 million shares of common stock available for grant as share-based awards under the Company's omnibus incentive plan. A summary of activity under the Company's share-based payment plans for the nine months ended September 30, 2011 is presented below:

Stock options and stock appreciation rights (SARs)

	Shares (000 s)	Weighted Average Exercise Price
Outstanding at January 1, 2011	28,129	\$ 21.73
Granted	785	11.56
Exercised	(268)	10.38
Forfeited or expired	(809)	27.04
Outstanding at September 30, 2011	27,837	21.40
Exercisable at September 30, 2011	18,907	25.44

As of September 30, 2011, there was a total of \$45 million of unamortized compensation related to stock options and stock appreciation rights expected to vest, which is expected to be recognized over a weighted-average period of 1.7 years.

Restricted stock units (RSUs)

	Shares (000 s)	Weighted Average Grant-Date Fair Value
Nonvested at January 1, 2011	1,144	\$ 13.90
Granted		
Vested	(104)	18.76
Forfeited	(86)	13.98
Nonvested at September 30, 2011	954	13.36

As of September 30, 2011, there was a total of \$21 million of unamortized compensation related to RSUs which is expected to be recognized over a weighted-average period of 1.2 years.

The following table includes additional information related to stock options, SARs and RSUs:

	Nine Months Ended September 30, 2011 2010 (In thousands)	
Intrinsic value of share-based awards exercised or RSUs vested	\$ 2,485	\$ 2,125
Income tax benefit from share-based awards exercised or RSUs vested	863	739

Edgar Filing: MGM Resorts International - Form 10-Q

The Company net settles stock option exercises, whereby shares of common stock are issued equivalent to the intrinsic value of the option less applicable taxes. Accordingly, the Company does not receive proceeds from the exercise of stock options.

MGM China Share Option Plan. The Company's subsidiary, MGM China, adopted an equity award plan in 2011 for grants of stock options to purchase ordinary shares of MGM China to eligible directors, employees and non-employees of MGM China and its subsidiaries (MGM China Plan). The MGM China

Table of Contents

Plan is administered by MGM China's Board of Directors, which has the discretion to determine the exercise price and term of the award, as well as other conditions, in all cases subject to certain limits, including:

The current MGM China Plan allows for a maximum of 30% of the total number of shares of MGM China in issue at the date of approval of the MGM China Plan to be issued upon exercise; and

The exercise price of the award must be the higher of the closing price of the stock on the offer date, or the average of the closing price for the five business days immediately preceding the offer date, and the maximum term of the award must not exceed ten years. Stock options currently granted under the MGM China Plan have a term of ten years, and vest in four equal annual installments. Expense is recognized on a straight-line basis over the vesting period of the awards net of estimated forfeitures. Forfeitures are estimated at the time of grant, with such estimate updated periodically and with actual forfeitures recognized currently to the extent they differ from the estimate. The Company estimates the fair value of stock options granted under the MGM China Plan using the Black-Scholes model. Expected volatilities are based on historical volatility from a selection of companies in MGM China's peer group due to MGM China's lack of historical information. The Company determined expected term based on a binomial model. The risk-free interest rate was based on rates in effect at the grant date for the Hong Kong Exchange Fund Note with maturities matching the relevant expected term of the award.

As of September 30, 2011, MGM China had an aggregate of approximately 1.1 billion shares of options available for grant as share-based awards. A summary of activity under the MGM China Plan for the nine months ended September 30, 2011 is presented below:

Stock options

	Shares (000 s)	Weighted Average Exercise Price
Outstanding at January 1, 2011		\$
Granted	19,100	2.00
Outstanding at September 30, 2011	19,100	2.00

Exercisable at September 30, 2011

As of September 30, 2011, there was a total of \$21 million of unamortized compensation related to stock options expected to vest, which is expected to be recognized over a weighted-average period of 4.0 years.

Recognition of compensation cost. Compensation cost for both the Omnibus Plan and MGM China Plan was recognized as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2011	2010	2011	2010
	<i>(In thousands)</i>			
Omnibus Plan:				
Stock options and SARS	\$ 5,650	\$ 4,951	\$ 17,307	\$ 14,971
RSUs	4,148	4,870	12,906	14,996
MGM China Plan	1,347		1,748	
Total compensation cost	11,145	9,821	31,961	29,967
Less: CityCenter reimbursed costs	(1,091)	(1,222)	(3,300)	(3,811)

Edgar Filing: MGM Resorts International - Form 10-Q

Compensation cost recognized as expense	10,054	8,599	28,661	26,156
Less: Related tax benefit	(3,031)	(2,996)	(9,368)	(9,102)
Compensation expense, net of tax benefit	\$ 7,023	\$ 5,603	\$ 19,293	\$ 17,054

Compensation cost for SARs granted under the 2005 Omnibus Plan is based on the fair value of each award, measured by applying the Black-Scholes model on the date of grant, using the following weighted-average assumptions:

Table of Contents

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2011	2010	2011	2010
Expected volatility	69 %	74 %	68 %	74 %
Expected term	4.9 yrs.	4.8 yrs.	4.9 yrs.	4.8 yrs.
Expected dividend yield	0%	0%	0%	0%
Risk-free interest rate	1.0 %	1.2 %	1.3 %	1.6 %
Forfeiture rate	6.1 %	4.8 %	6.1 %	4.8 %
Weighted-average fair value of options granted	\$ 5.91	\$ 6.24	\$ 6.51	\$ 7.32

Expected volatility is based in part on historical volatility and in part on implied volatility based on traded options on the Company's stock. The expected term considers the contractual term of the option as well as historical exercise and forfeiture behavior. The risk-free interest rate is based on the rates in effect on the grant date for U.S. Treasury instruments with maturities matching the relevant expected term of the award.

Compensation cost for stock options granted under the MGM China Plan is based on the fair value of each award, measured by applying the Black-Scholes model on the date of grant, using the following weighted-average assumptions:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2011	2010	2011	2010
Expected volatility	60 %	NA	60 %	NA
Expected term	8.0 yrs.	NA	8.0 yrs.	NA
Expected dividend yield	0%	NA	0%	NA
Risk-free interest rate	1.6 %	NA	1.6 %	NA
Weighted-average fair value of options granted	\$ 1.10	NA	\$ 1.26	NA

Other property transactions, net	2,179	7,523	3,170	12,038
	\$ 81,837	\$ 326,681	\$ 82,828	\$ 1,453,652

See Note 5 for discussion of the CityCenter investment impairment charge and the Borgata impairment charge.

At September 30, 2011 the Company reviewed the carrying value of its Circus Circus Reno long-lived assets for impairment using revised operating forecasts developed by management for that resort in the third quarter of 2011. Due to current and forecasted market conditions and results of operations through September 30, 2011 being lower than previous forecasts, the Company recorded a non-cash impairment charge of \$80 million in the third quarter of 2011 in Property transactions, net, related to a writedown of Circus Circus Reno's long-lived assets. The Company's discounted cash flow analysis for Circus Circus Reno included estimated future cash inflows from operations and estimated future cash outflows for capital expenditures utilizing an estimated discount rate and terminal year capitalization rate.

Table of Contents**NOTE 14 SEGMENT INFORMATION**

The Company's management views each of its casino resorts as an operating segment. Operating segments are aggregated based on their similar economic characteristics, types of customers, types of services and products provided, the regulatory environments in which they operate, and their management and reporting structure. The Company's principal operating activities occur in two geographic regions: the United States and Macau S.A.R. The Company has aggregated its operations into two reportable segments based on the similar characteristics of the operating segments within the regions in which they operate: wholly owned domestic resorts and MGM China. The Company's operations related to investments in unconsolidated affiliates, MGM Hospitality, and certain other corporate and management operations have not been identified as separate reportable segments; therefore, these operations are included in corporate and other in the following segment disclosures to reconcile to consolidated results.

The Company's management utilizes Adjusted Property EBITDA as the primary profit measure for its reportable segments. Adjusted Property EBITDA is a non-GAAP measure defined as Adjusted EBITDA before corporate expense and stock compensation expense related to the MGM Resorts stock option plan, which are not allocated to the reportable segments. MGM China recognizes stock compensation expense related to its stock compensation plan which is included in the calculation of Adjusted Property EBITDA for MGM China. Adjusted EBITDA is a non-GAAP measure defined as earnings before interest and other non-operating income (expense), taxes, depreciation and amortization, preopening and start-up expenses, and property transactions, net.

NOTE 15 RELATED PARTY TRANSACTIONS

MGM China. Ms. Pansy Ho is member of the board of directors of, and holds a minority ownership interest in, MGM China. Ms. Pansy Ho is also the managing director of Shun Tak Holdings Limited (together with its subsidiaries Shun Tak), a leading conglomerate in Hong Kong with core businesses in transportation, property, hospitality and investments. Shun Tak provides various services and products, including ferry tickets, travel products, rental of hotel rooms, laundry services, advertising services and property cleaning services to MGM China and MGM China provides rental of hotel rooms at wholesale room rates to Shun Tak and receives rebates for ferry tickets from Shun Tak. For the period from June 3, 2011 through September 30, 2011, MGM China incurred expenses of \$4 million related to such services and recorded revenue of less than \$1 million related to hotel rooms provided to Shun Tak. As of September 30, 2011, MGM China did not have a material payable to or receivable from Shun Tak.

In connection with the MGM China IPO, MGM Branding and Development Holdings, Ltd., an entity included in the Company's consolidated financial statements in which Ms. Pansy Ho indirectly holds a noncontrolling interest, entered into a brand license agreement with MGM China. MGM China pays a license fee to MGM Branding and Development Holdings, Ltd. equal to 1.75% of MGM China's consolidated net revenue, subject to an annual cap of \$25 million for the initial year of the agreement, prorated to \$14.5 million for the portion of 2011 subsequent to the date of the IPO. The annual cap will increase by 20% per annum for each subsequent calendar year during the term of the agreement. During the period from June 3, 2011 through September 30, 2011, total license fees of \$14 million were incurred by MGM China. Such amounts have been eliminated in consolidation. An entity owned by Ms. Pansy Ho received a distribution of \$3 million during the three and nine months ended September 30, 2011 in connection with the ownership of a noncontrolling interest in MGM Branding and Development Holdings, Ltd.

In June 2011, the Company sold \$300 million in aggregate principal amount of the Company's 4.25% convertible senior notes due 2015 to an indirect wholly owned subsidiary of Ms. Pansy Ho. See Note 8 for additional information related to the convertible notes.

Table of Contents**NOTE 16 CONSOLIDATING CONDENSED FINANCIAL INFORMATION**

Excluding MGM Grand Detroit, LLC, MGM China and certain minor subsidiaries, the Company's subsidiaries that are 100% directly or indirectly owned have fully and unconditionally guaranteed, on a joint and several basis, payment of the senior credit facility, the senior notes, senior secured notes and the senior subordinated notes. Separate condensed financial statement information for the subsidiary guarantors and non-guarantors as of September 30, 2011 and December 31, 2010 and for the three and nine month periods ended September 30, 2011 and 2010 is as follows:

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This management's discussion and analysis of financial condition and results of operations (MD&A) contains forward-looking statements that involve risks and uncertainties. Please see Forward-Looking Statements for a discussion of the uncertainties, risks and assumptions that may cause our actual results to differ materially from those discussed in the forward-looking statements. This discussion should be read in conjunction with our historical financial statements and related notes thereto and the other disclosures contained elsewhere in this Quarterly Report on Form 10-Q, and the audited consolidated financial statements and notes for the fiscal year ended December 31, 2010, which were included in our Form 10-K, filed with the SEC on February 28, 2011. The results of operations for the periods reflected herein are not necessarily indicative of results that may be expected for future periods. MGM Resorts International together with its subsidiaries may be referred to as we, us or our. MGM China Holdings Limited together with its subsidiaries is referred to as MGM China.

Executive Overview

Our primary business is the ownership and operation of casino resorts, which includes offering gaming, hotel, dining, entertainment, retail and other resort amenities. Most of our revenue is cash-based, through customers wagering with cash or paying for non-gaming services with cash or credit cards.

Our industry is capital intensive and we rely heavily on the ability of our resorts to generate operating cash flow to repay debt financing, fund maintenance capital expenditures and provide excess cash for future development. We believe that we own several of the premier casino resorts in the world and have continually reinvested in our resorts to maintain our competitive advantage.

Our results of operations are affected by decisions we make related to our capital allocation, our access to capital, and our cost of capital. Our general cost of debt has increased over the past few years due to the global recession and instability in the capital markets. We have been able to access the capital markets to meet our near term liquidity needs but our ability to refinance our debt at more favorable rates depends on the future state of the economy and credit markets.

Our results of operations do not tend to be seasonal in nature, though a variety of factors may affect the results of any interim period, including the timing of major conventions, the amount and timing of marketing and special events for our high-end gaming customers, and the level of play during major holidays, including New Year and Chinese New Year. Our results do not depend on key individual customers, although our success in marketing to customer groups, such as convention customers, and the financial health of customer segments, such as business travelers or high-end gaming customers from a particular country or region, can affect our results. We are also exposed to risks related to tourism and the general economy, including national and global economic conditions and terrorist attacks or other global events.

We have two reportable segments that are based on the regions in which we operate: wholly owned domestic resorts and MGM China. We currently operate 15 wholly owned resorts in the United States. MGM China's operations currently consist of the MGM Macau resort and casino. We have additional business activities including our investments in unconsolidated affiliates, our MGM Hospitality operations, and certain other corporate and management operations. CityCenter is our most significant unconsolidated affiliate, which we also manage for a fee. Our operations which have not been segregated into separate reportable segments are reported as corporate and other operations in our reconciliations of segment results to consolidated results.

Wholly Owned Domestic Resorts

Historically, over half of our net revenue from our wholly owned domestic resorts is derived from non-gaming activities, as our operating philosophy is to provide a complete resort experience for our guests, including non-gaming amenities for which our guests are willing to pay a premium. Our significant convention and meeting facilities allow us to maximize hotel occupancy and customer volumes during off-peak times such as mid-week or during traditionally slower leisure travel periods, which also leads to better labor utilization. Our operating results are highly dependent on the volume of customers at our resorts, which in turn affects the price we can charge for our hotel rooms and other amenities. We market to different customer segments to manage our hotel occupancy, such as targeting large conventions to increase mid-week occupancy.

Table of Contents

A significant portion of our operating results for our wholly owned domestic resorts is dependent upon the high-end gaming business, which can be a cause for variability in our results. Key performance indicators related to gaming and hotel revenue at our wholly owned domestic resorts are:

Gaming revenue indicators table games drop and slots handle (volume indicators); win or hold percentage, which is not fully controllable by us. Our normal table games hold percentage is in the range of 19% to 23% of table games drop and our normal slots hold percentage is in the range of 7.5% to 8.5% of slots handle;

Hotel revenue indicators hotel occupancy (a volume indicator); average daily rate (ADR, a price indicator); and revenue per available room (REVPAR, a summary measure of hotel results, combining ADR and occupancy rate).

We generate a significant portion of our revenue from our wholly owned domestic resorts in Las Vegas, Nevada, which exposes us to certain risks, such as increased competition from new or expanded Las Vegas resorts, and from the expansion of gaming in California.

The state of the U.S. economy has negatively affected the results of our wholly owned domestic resorts over the past several years, and we expect these operations to continue to be sensitive to certain aspects of the current economic conditions, such as weaknesses in employment and the housing market as well as constrained consumer spending. While we have begun to see a rebound in our U.S. customer groups, including convention business, and we have achieved increases in REVPAR throughout 2011, we expect adverse conditions currently or recently present in the economic environment to continue to negatively affect our operating results.

MGM China

On June 3, 2011, we and Ms. Ho, Pansy Catilina Chiu King (Ms. Pansy Ho) completed a reorganization of the capital structure and the initial public offering of 760 million shares of MGM China on The Stock Exchange of Hong Kong Limited (the IPO), representing 20% of the post issuance base capital stock of MGM China, at an offer price of HKD 15.34 per share. Pursuant to this reorganization, we acquired, through a wholly owned subsidiary, an additional 1% of the overall capital stock of MGM China for HKD 15.34 per share, or approximately \$75 million, and thereby became the owner of 51% of MGM China. Following the IPO, the underwriters partially exercised their overallotment option and Ms. Pansy Ho sold an additional 59 million shares of MGM China.

Through the acquisition of the additional 1% interest of MGM China, we obtained a controlling interest and were required to consolidate MGM China as of June 3, 2011. Prior to the IPO, we held a 50% interest in MGM Grand Paradise, which was accounted for under the equity method. The acquisition of the controlling financial interest was accounted for as a business combination and we recognized 100% of the assets, liabilities, and noncontrolling interests of MGM China at fair value at the date of acquisition. The fair value of the equity of MGM China was determined by the IPO transaction price and equaled approximately \$7.5 billion. The carrying value of our equity method investment was significantly less than our share of the fair value of MGM China, resulting in a \$3.5 billion gain on the acquisition.

We believe this acquisition plays an important role in extending our reach internationally and will foster future growth and profitability. Asia is the fastest-growing gaming market in the world and Macau is the world's largest gaming destination in terms of revenue and has continued to grow over the past few years despite the global economic downturn.

Our MGM China operations primarily relate to operations at MGM Macau resort and casino. Revenues at MGM Macau are generated primarily from gaming operations made up of two distinct market segments: main floor and high-end (VIP). MGM China main floor operations consist of both table games and slot machines on the main gaming floors for the public, which usually consists of walk-in and day trip visitors. VIP players play mostly in dedicated VIP rooms or designated gaming areas. VIP customers can be further divided into customers sourced by in-house VIP programs and those sourced through gaming promoters.

A significant portion of our VIP volume is generated through the use of gaming promoters, also known as junket operators. These operators introduce high-end gaming players to MGM Macau, assist these customers with travel arrangements, and extend gaming credit to these players. VIP gaming at MGM Macau is conducted by the use of special purpose nonnegotiable gaming chips called rolling chips. Gaming

Table of Contents

promoters purchase these rolling chips from MGM Macau and in turn they sell these chips to their players. The rolling chips allow MGM Macau to track the amount of wagering conducted by each gaming promoters clients in order to determine VIP gaming play. In exchange for the gaming promoters services, MGM Macau pays them either through rolling chip turnover-based commissions or through revenue-sharing arrangements. The estimated portion of the gaming promoter payments that represent amounts passed through to VIP customers is recorded net against casino revenue, and the estimated portion retained by the gaming promoter for its compensation is recorded to casino expense.

In addition to the key performance indicators used by our wholly owned domestic resorts, MGM Macau utilizes turnover which is the sum of rolling chip wagers won by MGM Macau (rolling chips purchased plus rolling chips exchanged less rolling chips returned). Turnover provides a basis for measuring VIP casino win percentage. Normal win for VIP gaming operations at MGM Macau is in the range of 2.7% to 3.0% of turnover. MGM Macau's main floor historical table games hold percentage is in the range of 20% to 26% of table games drop. Normal slots hold percentage at MGM Macau is in the range of 5.5% to 7.5% of slots handle.

Other Executive Overview Items

Borgata. We have a 50% economic interest in Borgata Hotel Casino & Spa (Borgata) located on Renaissance Pointe in the Marina area of Atlantic City, New Jersey. Boyd Gaming Corporation (Boyd) owns the other 50% of Borgata and also operates the resort. Our interest is held in trust and currently offered for sale pursuant to our settlement agreement with New Jersey Department of Gaming Enforcement (DGE). In March 2010, the New Jersey Casino Control Commission (CCC) approved the settlement agreement with the DGE pursuant to which we placed our 50% ownership interest in Borgata and related leased land in Atlantic City into a divestiture trust. The settlement agreement was amended on July 22, 2011 with the approval of the CCC on August 8, 2011. Following the transfer of these interests into trust, we ceased to be regulated by the CCC or the DGE, except as otherwise provided by the trust agreement and the settlement agreement. Boyd's 50% interest is not affected by the settlement.

The terms of the settlement agreement, as amended, mandate the sale of the trust property by March 2014, which represents an 18-month extension compared to the original agreement. During the period ending in March 2013, which also represents an 18-month extension compared to the original agreement we have the right to direct the trustee to sell the trust property, subject to approval of the CCC. If a sale is not concluded by that time, the trustee is responsible for selling the trust property during the following 12-month period. Prior to the consummation of the sale, the divestiture trust will retain any cash flows received in respect of the trust property, but will pay property taxes and other costs attributable to the trust property. We are the sole economic beneficiary of the trust and will be permitted to reapply for a New Jersey gaming license beginning 30 months after the completion of the sale of the trust assets. As of September 30, 2011, the trust had \$188 million of cash and investments, of which \$150 million is held in U.S. treasury securities with maturities greater than three months but less than one year, and is recorded within Prepaid expenses and other.

As a result of our ownership interest in Borgata being placed into a trust, we no longer have significant influence over Borgata; therefore, we discontinued the equity method of accounting for Borgata at the point the assets were placed in the trust in March 2010, and account for our investment in Borgata under the cost method of accounting. The carrying value of the investment related to Borgata is included in Other long-term assets, net. Earnings and losses that relate to the investment that were previously accrued remain as a part of the carrying amount of the investment. Distributions received by the trust that do not exceed our share of earnings are recognized currently in earnings. However, distributions received by the trust that exceed our share of earnings for such periods are applied to reduce the carrying amount of its investment. We consolidate the trust as we are the sole economic beneficiary. The trust did not receive distributions from Borgata during the three and nine months ended September 30, 2011. In the three and nine months ended September 30, 2010, the trust received distributions from the joint venture of \$105 million and \$120 million, of which \$10 million was paid to Boyd in accordance with the joint venture agreement, as amended. We recorded \$88 million and \$94 million as a reduction in the carrying value and \$7 million and \$16 million was recorded as Other, net non-operating income in the three and nine months ended September 30, 2010, respectively.

In July 2010, we entered into an agreement to sell four long-term ground leases and their respective underlying real property parcels, approximately 11.3 acres, underlying the Borgata for \$73 million. We closed the transaction in November 2010.

Table of Contents

We recorded a pre-tax impairment charge of approximately \$128 million at September 30, 2010 which decreased the carrying value of our investment in Borgata to approximately \$250 million. The impairment charge was based on an offer received from a potential buyer at that time. We ultimately did not reach final agreement with such buyer. We continue to negotiate with other parties who have expressed interest in the asset, but can provide no assurance that a transaction will be completed.

Gold Strike Tunica. On May 2, 2011, the Mississippi Gaming Commission mandated the closure of Gold Strike Tunica along with eight other Tunica area casino resorts. The property reopened on May 18, 2011. We recorded \$8 million in General and administrative expense during the second quarter of 2011 related to costs associated with flood prevention and other costs incurred during the time the property was closed. We carry flood and business interruption insurance, but we cannot determine the amount or timing of any reimbursements until we submit our claims and receive notice of approval from our insurers.

Impairments. A complete discussion of our critical accounting policies related to impairments of long-lived assets and investments in unconsolidated affiliates is included in our Form 10-K for the period ending December 31, 2010. We reviewed the carrying value of our Circus Circus Reno long-lived assets at September 30, 2011 and our investment in CityCenter and the carrying value of our Borgata asset at September 30, 2010 as further discussed in Operating Results Details of Certain Charges. Other than as noted above, we did not identify circumstances that existed that would indicate the carrying value of our long-lived assets may not be recoverable; therefore, we did not review any of our other wholly owned long-lived asset groups generally our operating resorts for impairment as of September 30, 2011. Historically, the undiscounted cash flows of our significant long-lived assets have exceeded their carrying values by a substantial margin.

Results of Operations

The following discussion is based on our consolidated financial statements for the three and nine months ended September 30, 2011 and 2010.

Summary Financial Results

The following table presents selected summary consolidated financial results:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2011	2010	2011	2010
	<i>(In thousands)</i>			
Net revenues	\$ 2,233,587	\$ 1,567,117	\$ 5,552,423	\$ 4,580,699
Operating income (loss)	112,574	(205,901)	3,966,039	(1,266,141)
Net income (loss)	(106,575)	(317,991)	3,254,245	(1,298,208)
Net income (loss) attributable to MGM Resorts International	(123,786)	(317,991)	3,228,328	(1,298,208)

Our results of operations for the three and nine months ending September 30, 2011 include the results of MGM China from June 3, 2011 on a consolidated basis. Prior thereto, results of operations of MGM China were reflected under the equity method of accounting see Operating Results Income from Unconsolidated Affiliates. Net revenue and operating income attributable to MGM China for the quarter ended September 30, 2011 were \$623 million and \$41 million, respectively. Net revenue and operating income attributable to MGM China for the period from June 3, 2011 through September 30, 2011 were \$816 million and \$60 million, respectively. Operating income benefited from improved performance at each of MGM Macau, CityCenter resort operations and our wholly owned domestic resorts.

The following items also affected comparability in our operating results:

A gain of \$3.5 billion related to the MGM China transaction during the second quarter of 2011;

An \$80 million impairment of Circus Circus Reno in the third quarter of 2011;

Edgar Filing: MGM Resorts International - Form 10-Q

Our share of CityCenter residential inventory impairment charges of \$26 million in the nine months ended September 30, 2011, \$38 million in the three months ended September 30, 2010, and \$152 million in the nine months ended September 30, 2010;

Our share of CityCenter forfeited residential deposits income of \$14 million and \$54 million in the three and nine month periods of 2010, respectively; and

A \$191 million and a \$1.3 billion impairment on our investment in CityCenter in the three and nine months ended September 30, 2010.

Table of Contents*Operating Results Detailed Segment Information*

The following table presents net revenue and Adjusted EBITDA by reportable segment. Management uses Adjusted Property EBITDA as the primary profit measure for our reportable segments. See Non-GAAP measures for additional Adjusted EBITDA information:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2011	2010	2011	2010
	<i>(In thousands)</i>			
Net revenue:				
Wholly owned domestic resorts	\$ 1,509,375	\$ 1,460,467	\$ 4,421,113	\$ 4,264,608
MGM China	623,050		816,034	
Reportable segment net revenue	2,132,425	1,460,467	5,237,147	4,264,608
Corporate and other	101,162	106,650	315,276	316,091
	\$ 2,233,587	\$ 1,567,117	\$ 5,552,423	\$ 4,580,699
Adjusted EBITDA:				
Wholly owned domestic resorts	\$ 347,594	\$ 315,387	\$ 978,942	\$ 895,472
MGM China	139,326		185,748	
Reportable segment Adjusted Property EBITDA	486,920	315,387	1,164,690	895,472
Corporate and other	(42,989)	(35,720)	(32,760)	(217,143)
	\$ 443,931	\$ 279,667	\$ 1,131,930	\$ 678,329

Net revenue related to wholly owned domestic resorts increased 3% for the third quarter primarily driven by a 13% increase in REVPAR at our Las Vegas Strip resorts offset by a 2% decrease in gaming revenue. Corporate and other revenue includes revenues from MGM Hospitality and management operations and reimbursed revenue primarily related to our CityCenter management agreement. Consolidated Adjusted EBITDA was \$444 million in the 2011 quarter, a 59% increase compared to \$280 million in the 2010 quarter, primarily due to strong performances at our Las Vegas resorts and MGM Macau.

Net revenue related to wholly owned domestic operations increased 4% for the year-to-date period primarily as a result of a 13% increase in REVPAR at our Las Vegas Strip resorts offset by a 2% decrease in gaming revenue. Consolidated Adjusted EBITDA was \$1.1 billion in the nine months of 2011, compared to \$678 million in the nine months of 2010, as a result of improved operating performances across our wholly owned domestic properties and MGM Macau.

Wholly owned domestic operations. The following table presents detailed net revenue at our wholly owned domestic resorts:

	Three Months Ended September 30,			Nine Months Ended September 30,

Table of Contents

Table games revenue decreased 12% for the third quarter and was negatively affected by a lower table games hold percentage. Table games hold percentage was near the low end of our normal range in the current year quarter and near the midpoint of the range in the prior year quarter. Total table games revenue was also affected by table games volume decreasing 6% compared to the prior year quarter mainly as a result of lower baccarat volume. Slots revenue increased 4% in the third quarter with a 6% increase at our Las Vegas Strip resorts.

For the nine month period, table games revenue decreased 10%. Hold percentage was below our normal range in the 2011 period and near the midpoint of our normal range in the 2010 period. Total table games revenue was also affected by a decrease in baccarat volume, which led to a 5% decrease in total table games volume compared to the year-to-date period in 2010. Slots revenue increased 3%, with a 5% increase at our Las Vegas Strip resorts.

Rooms revenue in the third quarter increased 11%, with a 13% increase in Las Vegas Strip REVPAR. Rooms revenue for the nine month period also increased 11% with an increase in Las Vegas Strip REVPAR of 13%. The following table shows key hotel statistics for our Las Vegas Strip resorts:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2011	2010	2011	2010
Occupancy	95%	93%	92%	90%
Average Daily Rate (ADR)	\$ 124	\$ 111	\$ 126	\$ 114
Revenue per Available Room (REVPAR)	117	104	116	103

Adjusted Property EBITDA for wholly owned domestic resorts increased 10% compared to the third quarter of 2010. Adjusted Property EBITDA for our wholly owned domestic resorts increased 9% on a year-to-date basis.

MGM China. Net revenue for MGM China was \$623 million for the three months ending September 30, 2011. Adjusted Property EBITDA was \$139 million for the same period. Net revenue for MGM China was \$816 million for the period from June 3, 2011 through September 30, 2011. Adjusted Property EBITDA was \$186 million for the same period.

The following table presents certain supplemental pro forma information for MGM China for the three and nine month periods ended September 30, 2011 and 2010 as if the transaction had occurred as of January 1, 2010. This information includes the impact of certain purchase accounting adjustments. This supplemental pro forma information is provided solely for comparative purposes and does not presume to be indicative of what actual results would have been if the acquisition of the controlling financial interest had been completed as of January 1, 2010, nor indicative of future results:

Other property transactions, net	2,179	7,523	3,170	12,038
	\$ 81,837	\$ 326,681	\$ 82,828	\$ 1,453,652

CityCenter. At June 30, 2010 we reviewed our CityCenter investment for impairment using revised operating forecasts developed by CityCenter management late in the second quarter. Based on the then current and forecasted market conditions and because CityCenter's results of operations through June 30, 2010 were below previous forecasts, and the revised operating forecasts were lower than previous forecasts, we concluded that we should review the carrying value of our investment. We determined that the carrying value of our investment exceeded our fair value determined using a discounted cash flow analysis and therefore an impairment was indicated. We intend to and believe we will be able to retain our investment in CityCenter; however, due to the extent of the shortfall and our assessment of the uncertainty of fully recovering our investment, we determined that the impairment was other-than-temporary and recorded an impairment charge of \$1.12 billion included in Property transactions, net.

At September 30, 2010, we recognized an increase of \$232 million in our total net obligation under our CityCenter completion guarantee, and a corresponding increase in our investment in CityCenter. The increase primarily reflects revision to prior estimates based on our assessment of the most current information derived from our close-out and litigation processes and does not reflect certain potential recoveries that CityCenter is pursuing as part of the litigation process. We completed an impairment review as of September 30, 2010 and as a result recorded an additional other-than-temporary impairment of \$191 million in the third quarter of 2010.

Our discounted cash flow analyses for CityCenter as of June 30, 2010 and September 30, 2010 included future cash inflows from operations, including residential sales, and estimated future cash outflows for capital expenditures. Both analyses used an 11% discount rate and a long-term growth rate of 4% related to forecasted cash flows for CityCenter's operating assets.

Borgata. We recorded a pre-tax impairment charge of approximately \$128 million at September 30, 2010 recorded in Property transactions, net which decreased the carrying value of our investment in Borgata to approximately \$250 million. The impairment charge was based on an offer received from a potential buyer at that time.

Circus Circus Reno. At September 30, 2011 we reviewed the carrying value of our Circus Circus Reno long-lived assets for impairment using revised operating forecasts developed by management for that resort in the third quarter of 2011. Due to current and forecasted market conditions and results of operations through September 30, 2011 being lower than previous forecasts, we recorded a non-cash impairment charge of \$80 million in the third quarter of 2011 in Property transactions, net, related to a writedown of Circus Circus Reno's long-lived assets. Our discounted cash flow analysis for Circus Circus Reno included estimated future cash inflows from operations and estimated future cash outflows for capital expenditures utilizing an estimated discount rate and terminal year capitalization rate.

Table of Contents*Operating Results Income (loss) from Unconsolidated Affiliates*

The following table summarizes information related to our income (loss) from unconsolidated affiliates:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2011	2010	2011	2010
	<i>(In thousands)</i>			
CityCenter	\$ (7,723)	\$ (37,893)	\$ (46,029)	\$ (212,066)
MGM Macau		29,372	115,219	71,165
Borgata				6,971
Other	8,262	9,924	26,719	28,221
	\$ 539	\$ 1,403	\$ 95,909	\$ (105,709)

We ceased recording Borgata operating results as income from unconsolidated affiliates in March 2010.

We ceased recording MGM Macau operating results as income from unconsolidated affiliates under the equity method of accounting in June 2011. Our share of operating income for MGM Macau for the 2011 nine month period accounted for under the equity method was \$115 million compared to \$71 million for the nine months of 2010. As previously discussed, MGM Macau has achieved a significant increase in gaming volumes over the past twelve months.

Our share of losses from CityCenter has decreased for the three and nine month periods in 2011 compared to 2010 due to improved results at CityCenter's resort operations. Our share of operating losses for CityCenter was negatively affected by our share of residential inventory impairment charges, as further described below, and the loss on debt retirement in the first quarter of 2011, offset by a decrease in forfeited residential deposit income.

Upon substantial completion of construction of the Mandarin Oriental residential inventory in the first quarter of 2010 and the Veer residential inventory in the second quarter of 2010, CityCenter is required to carry its residential inventory at the lower of its carrying value or fair value less costs to sell. Fair value of the residential inventory is determined using a discounted cash flow analysis based on management's current expectations of future cash flows. The key inputs in the discounted cash flow analysis include estimated sales prices of units currently under contract and new unit sales, the absorption rate over the sell-out period, and the discount rate.

CityCenter recorded a residential impairment charge of \$53 million in the second quarter of 2011. We recognized 50% of such impairment charge, resulting in a pre-tax charge of approximately \$26 million. In the three and nine months ended September 30, 2010, CityCenter recorded residential impairment charges of \$76 million and \$304 million, respectively. We recognized 50% of such impairment charges, resulting in pre-tax charges of approximately \$38 million and \$152 million in the three and nine months ended September 30, 2010, respectively.

Non-operating Results

Interest expense decreased to \$273 million in the third quarter compared to \$285 million in the prior year quarter. Interest expense for the nine months of 2011 was \$813 million compared to \$840 million in the nine months of 2010. Lower interest expense was a result of lower average debt outstanding during the current year three and nine month periods. We did not capitalize interest expense in 2011 or 2010.

Non-operating items from unconsolidated affiliates decreased for the three months ended September 30, 2011 as a result of MGM Macau ceasing to be recorded as an equity method investment in the 2011 quarter.

Non-operating items from unconsolidated affiliates for the nine month period increased due to our share of \$23 million in non-operating expense at CityCenter related to certain costs incurred to restructure its debt and the write-off of debt issuance costs. Additionally, net interest expense increased at CityCenter as a result of ceasing capitalization of interest in early 2010 and higher interest rates in 2011 as a result of the January 2011 debt issuance.

Edgar Filing: MGM Resorts International - Form 10-Q

We did not record income from our investment in Borgata in 2011. Subsequent to ceasing equity method accounting, we recorded \$7 million and \$16 million, respectively, in *Other, net* related to income from Borgata in the three and nine months ended September 30, 2010. In addition, *Other, net* included a \$141 million gain on debt redemption in 2010 related to amending and restating our senior credit facility.

We recognized a tax benefit of \$212 million for the nine months ended September 30, 2011 despite having positive pre-tax income as no income taxes were provided on the \$3.5 billion MGM China transaction gain. In addition, we recorded a \$14 million income tax benefit during the second quarter to reflect the impact of a change in tax law in Michigan. Absent this benefit, we would have recorded income tax benefit on pre-tax losses exclusive of the MGM China gain at a 45% effective tax rate for the nine month period.

Table of Contents*Non-GAAP Measures*

Adjusted EBITDA is earnings before interest and other non-operating income (expense), taxes, depreciation and amortization, preopening and start-up expenses, and property transactions, net, and the gain on the MGM China transaction. Adjusted Property EBITDA is Adjusted EBITDA before corporate expense and stock compensation expense related to the MGM Resorts stock option plan, which is not allocated to each property. MGM China recognizes stock compensation expense related to its stock compensation plan which is included in the calculation of Adjusted Property EBITDA for MGM China. Adjusted EBITDA information is presented solely as a supplemental disclosure to reported GAAP measures because management believes these measures are 1) widely used measures of operating performance in the gaming industry, and 2) a principal basis for valuation of gaming companies.

We believe that while items excluded from Adjusted EBITDA and Adjusted Property EBITDA may be recurring in nature and should not be disregarded in evaluation of our earnings performance, it is useful to exclude such items when analyzing current results and trends compared to other periods because these items can vary significantly depending on specific underlying transactions or events that may not be comparable between the periods being presented. Also, we believe excluded items may not relate specifically to current operating trends or be indicative of future results. For example, preopening and start-up expenses will be significantly different in periods when we are developing and constructing a major expansion project and dependent on where the current period lies within the development cycle, as well as the size and scope of the project(s). Property transactions, net includes normal recurring disposals and gains and losses on sales of assets related to specific assets within our resorts, but also includes gains or losses on sales of an entire operating resort or a group of resorts and impairment charges on entire asset groups or investments in unconsolidated affiliates, which may not be comparable period over period. In addition, capital allocation, tax planning, financing and stock compensation awards are all managed at the corporate level. Therefore, we use Adjusted Property EBITDA as the primary measure of our operating resorts performance.

Adjusted EBITDA or Adjusted Property EBITDA should not be construed as an alternative to operating income or net income, as an indicator of our performance; or as an alternative to cash flows from operating activities, as a measure of liquidity; or as any other measure determined in accordance with generally accepted accounting principles. We have significant uses of cash flows, including capital expenditures, interest payments, taxes and debt principal repayments, which are not reflected in Adjusted EBITDA. Also, other companies in the gaming and hospitality industries that report Adjusted EBITDA information may calculate Adjusted EBITDA in a different manner.

The following table presents a reconciliation of Adjusted EBITDA to net loss:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2011	2010	2011	2010

Table of Contents

Liquidity and Capital Resources

Cash Flows

Our consolidated cash flows include the results of MGM China beginning on June 3, 2011. At September 30, 2011, we held cash and cash equivalents of \$1.8 billion, of which \$494 million related to MGM China.

Operating Activities. Trends in our operating cash flows tend to follow trends in operating income, excluding non-cash charges, but can be affected by the timing of significant tax payments or refunds and distributions from unconsolidated affiliates. Cash provided by operating activities was \$481 million for the nine months ended September 30, 2011, compared to cash provided by operating activities of \$380 million in the prior year period. The current period included \$118 million in cash provided by operating activities related to MGM China. In addition, increased cash flows at our resorts were offset by lower tax refunds received in the current year period compared to the prior year period. We received net tax refunds of approximately \$171 million in the nine months ended September 30, 2011 and net tax refunds of approximately \$331 million in the nine months ended September 30, 2010.

Investing Activities. In the nine months ended September 30, 2011, we made investments and advances of \$108 million to CityCenter, of which \$37 million related to a required equity contribution in connection with CityCenter's first quarter 2011 financing transactions and \$71 million related to payments made pursuant to our completion guarantee. In the nine months ended September 30, 2010, we made \$408 million in payments to CityCenter pursuant to our completion guarantee.

We had capital expenditures of \$176 million in 2011, including \$14 million at MGM China, related mainly to capital expenditures at various resorts; including room remodels at Bellagio and MGM Grand, restaurant remodels, theater renovations, slot machines and a remodel of the high limit slots area at Bellagio. Most of the costs capitalized related to furniture and fixtures, materials, and external labor costs. Capital expenditures of \$129 million in 2010 mainly related to the purchase of an aircraft and various capital projects at our resorts.

Our capital expenditures fluctuate from year to year depending on our decisions with respect to strategic capital investments in new or existing resorts and the timing of more regular capital investments to maintain the quality of our resorts; the amounts of which can vary depending on timing of larger remodel projects related to our public spaces and hotel rooms. Expected capital expenditures during the remainder of 2011 include slot machine purchases and the continued room remodel projects at Bellagio and MGM Grand. In accordance with our senior credit facility covenants, we and our restricted subsidiaries are limited to \$500 million of annual capital expenditures (as defined in the agreement governing our senior credit facility) in 2011 and currently expect to spend approximately \$275 million on capital expenditures in 2011.

During the nine months of 2011, we paid approximately \$75 million to acquire an additional 1% interest in MGM China and acquired cash of \$482 million. During the nine months of 2010, our New Jersey trust account received \$110 million of net distributions from Borgata. All amounts in the trust account, including the proceeds from the sale of our Borgata interest and underlying land parcels, will be distributed to us upon consummation of the sale of our Borgata interest.

During the nine months of 2011, the trust holding our 50% ownership interest in Borgata received proceeds of \$240 million from treasury securities with maturities greater than 90 days and reinvested \$240 million in treasury securities with maturities greater than 90 days.

Financing Activities. In late September 2011, we borrowed \$879 million under our senior credit facility to increase our capacity for issuing additional secured indebtedness; these borrowings were repaid immediately after quarter end. Excluding such borrowing, we repaid \$20 million under the senior credit facility for the nine months ended September 30, 2011. MGM China repaid \$91 million under its senior credit facility for the period from June 3, 2011 through September 30, 2011. In addition, we repaid the \$325 million outstanding principal amount of our 8.375% senior subordinated notes due 2011 at maturity. During 2011, we issued \$300 million of 4.25% convertible senior notes due 2015 for net proceeds of \$311 million, which were used to pay down borrowings under our senior credit facility.

In the nine months ended September 30, 2010, excluding the \$1.6 billion we repaid immediately after year end on our senior credit facility, we borrowed net debt of \$302 million. During 2010 we issued \$1.15 billion of 4.25% convertible senior notes due 2015 for net proceeds of \$1.12 billion and issued \$845 million of 9% senior secured notes due 2020 for net proceeds of \$826 million. We paid \$81 million for capped call transactions entered into in connection with the issuance of our convertible senior notes.

Table of Contents

We repaid the following principal amounts of senior and senior subordinated notes during 2010:

\$75 million 8.375% senior subordinated notes (redeemed prior to maturity essentially at par);

\$297 million 9.375% senior notes (repaid at maturity); and

\$782 million of our 8.5% senior notes (redeemed \$136 million prior to maturity essentially at par and repaid \$646 million at maturity).

Other Factors Affecting Liquidity

Borgata settlement. As discussed in Executive Overview, we entered into a settlement agreement with the DGE under which we will sell our 50% ownership interest in Borgata and related leased land in Atlantic City. Prior to the consummation of the sale, the divestiture trust will retain any cash flows received in respect of the trust property, but will pay property taxes and other costs attributable to the trust property to the extent that minimum trust cash balances are maintained. Prior to the settlement agreement, we had received significant distributions from Borgata, and not receiving such distributions until the ultimate sale could negatively affect our liquidity in interim periods.

CityCenter completion guarantee. In January 2011, we entered into an amended completion and cost overrun guarantee in connection with CityCenter's restated senior credit facility agreement and issuance of \$1.5 billion of senior secured first lien notes and senior secured second lien notes. Consistent with the previous completion guarantee, the terms of the amended completion guarantee provide for the application of the then remaining \$124 million of net residential proceeds from sales of condominium properties at CityCenter to fund construction costs, or to reimburse us for construction costs previously expended; however, the timing of receipt of such proceeds is uncertain.

As of September 30, 2011, we had funded \$624 million under the completion guarantee. We have recorded a receivable from CityCenter of \$108 million related to these amounts, which represents amounts reimbursable to us from CityCenter from future residential proceeds. We had a remaining estimated net obligation under the completion guarantee of \$14 million which includes estimated litigation costs related to the resolution of disputes with contractors as to the final construction costs and estimated amounts to be paid to contractors either through the joint venture's extra-judicial settlement process or through the legal process related to the Perini litigation. Our accrual also reflects certain estimated offsets to the amounts claimed by the contractors. CityCenter has reached, or expects to reach, settlement agreements with most of the construction subcontractors. However, significant disputes remain with the general contractor and certain subcontractors. Amounts claimed by such parties exceed amounts included in our completion guarantee accrual by approximately \$200 million, as such amounts exceed our best estimate of our liability. Moreover, we have not accrued for any contingent payments to CityCenter related to the Harmon Hotel & Spa component, which is unlikely to be completed using the building as it now stands. The Clark County Building Division (Building Division) requested that CityCenter conduct an analysis, based on all available information, as to whether the current structure of the Harmon building complies with applicable building codes. On July 11, 2011 a consulting engineer engaged by CityCenter for this review submitted the results of his analysis of the Harmon tower and podium in its current as-built condition. The engineer opined, among other things, that [i]n a code-level earthquake, using either the permitted or current code specified loads, it is likely that critical structural members in the tower will fail and become incapable of supporting gravity loads, leading to a partial or complete collapse of the tower. There is missing or misplaced reinforcing steel in columns, beams, shear walls, and transfer walls throughout the structure of the tower below the twenty-first floor. In response to this opinion, the Building Division required CityCenter, no later than August 15, 2011, to provide a plan of action that will abate the potential for structural collapse and protect impacted uses and occupancies. Under the relevant building code provision, abate means repair, rehabilitation, demolition or removal of the subject building.

On August 15, 2011, after expert consultation, CityCenter submitted its reply to the Building Division. CityCenter informed the Building Division that it has decided to abate the potential for structural collapse of the Harmon in the event of a code-level earthquake by demolishing the building, and enclosed a plan of action for demolition by implosion prepared by LVI Environmental Services of Nevada, Inc. CityCenter also advised that prior to undertaking the demolition plan of action, it will seek relief from a standing order of the District Court judge presiding over the Perini litigation that prohibits alteration or destruction of the building without court approval. In addition, CityCenter supplied the foundational data for the engineering conclusions stated in the July 11, 2011 letter declaring the Harmon's structural instability in the event of a code-level earthquake.

The Building Division advised CityCenter that the Building Division's staff will review CityCenter's August 15, 2011 submission and then issue its conclusions to CityCenter, but the Building Division did not specify a date for such guidance. By letter dated August 18, 2011, the Building

Edgar Filing: MGM Resorts International - Form 10-Q

Division requested further information from, and a meeting with, CityCenter's retained engineering firm concerning the latter's data, computations and conclusions regarding the Harmon's as-built condition. Pursuant to this request by the Building Division, representatives from CityCenter's retained engineering firm have met with the Building Division and directly responded to the Building Division's inquiries.

We do not believe we would be responsible for funding under the completion guarantee any additional remediation efforts that might be required with respect to the Harmon; however, our view is based on a number of developing factors, including with respect

to on-going litigation with CityCenter's contractors, actions by local officials and other developments related to the CityCenter venture, that are subject to change.

Silver Legacy. Silver Legacy has approximately \$143 million of outstanding senior notes due in March 2012. Silver Legacy is exploring various alternatives for refinancing its obligations under the notes. There can be no assurance, however, that it will be able to refinance the notes on acceptable terms, or at all. If Silver Legacy is unable to refinance its obligations with respect to the mortgage notes, the holders of the notes will be entitled to exercise the remedies provided in the indenture governing the notes, including foreclosing on the assets securing the mortgage notes.

Table of Contents

Principal Debt Arrangements

Our long-term debt consists of publicly held senior, senior secured, senior subordinated, convertible senior notes and our senior credit facility. A detailed description is provided in our Annual Report on Form 10-K for the period ended December 31, 2010.

In addition, MGM Grand Paradise's credit facility is equivalent to approximately \$551 million in term loans at September 30, 2011 based on exchange rates at that date. Scheduled amortization on the term loan begins in July 2012 with a lump sum payment of \$276 million upon final maturity in July 2015. The revolving loan may be redrawn, but is required to be repaid in full on the last date of the respective term loan, no later than July 2015. Interest on the term loan facility is based on HIBOR plus a margin ranging between 3% and 4.5%, based on MGM Grand Paradise's adjusted leverage ratio, as defined in its credit facility agreement. Interest on the revolving facility can be denominated in either Hong Kong dollars or U.S. dollars and is based on the same margin range, plus HIBOR or LIBOR, as appropriate. As of September 30, 2011, the revolving facility is denominated entirely in Hong Kong dollars and interest is based on the margin range of 3%, plus HIBOR.

At September 30, 2011, MGM Grand Paradise was required to maintain a specified adjusted leverage ratio, as defined, at the end of each quarter while the loans are outstanding. The adjusted leverage ratio is required to be no greater than 4.00 to 1.00 for each quarter during 2011 and no greater than 3.50 to 1.00 thereafter. In addition, MGM Grand Paradise is required to maintain a debt service coverage ratio, as defined of no less than 1.50 to 1.00 at each quarter end. At September 30, 2011, MGM Grand Paradise was in compliance with its adjusted leverage ratio and debt service coverage ratios.

Commitments and Contractual Obligations

A detailed description of our commitments and contractual obligations is provided in our Annual Report on Form 10-K for the period ended December 31, 2010. There have been no significant updates other than scheduled payments and the effect of the MGM China transaction.

As discussed above under Principal debt arrangements, MGM Grand Paradise has approximately \$551 million outstanding under its credit facility at September 30, 2011, which matures on a quarterly basis beginning in July 2012 and the revolving loan is required to be repaid in full on the last date of the respective term loan, but no later than July 2015. Estimated interest payable in future periods related to the MGM Grand Paradise credit facility is approximately \$90 million.

Market Risk

In addition to the inherent risks associated with our normal operations, we are also exposed to additional market risks. Market risk is the risk of loss arising from adverse changes in market rates and prices, such as interest rates and foreign currency exchange rates. Our primary exposure to market risk is interest rate risk associated with our variable rate long-term debt. We attempt to limit our exposure to interest rate risk by managing the mix of our long-term fixed rate borrowings and short-term borrowings under our bank credit facilities. A change in interest rates generally does not have an impact upon our future earnings and cash flow for fixed-rate debt instruments. As fixed-rate debt matures, however, and if additional debt is acquired to fund the debt repayment, future earnings and cash flow may be affected by changes in interest rates. This effect would be realized in the periods subsequent to the periods when the debt matures.

As of September 30, 2011, variable rate borrowings represented approximately 27% of our total borrowings. Assuming a 100 basis-point increase in LIBOR over the 2% floor specified in our senior credit facility, our annual interest cost would change by approximately \$32 million based on gross amounts outstanding at September 30, 2011. Assuming a 100 basis-point increase in HIBOR for the MGM Grand Paradise credit facility, our annual interest cost would change by approximately \$6 million based on amounts outstanding at September 30, 2011. The following table provides additional information about our gross long-term debt subject to changes in interest rates:

	2011	2012	2013	Debt maturing in,		Thereafter	Total	Fair Value September 30, 2011
				2014	2015			
				<i>(In millions)</i>				
Fixed rate	\$ 130	\$ 535	\$ 1,362	\$ 1,159	\$ 2,325	\$ 4,394	\$ 9,904	\$ 9,549
Average interest rate	6.4%	6.8%	10.3%	8.4%	5.1%	9.2%	8.1%	
Variable rate	\$	\$ 28	\$ 83	\$ 3,273	\$ 331	\$	\$ 3,715	\$ 3,498
Average interest rate	N/A	3.2%	3.2%	6.9%	3.2%	N/A	6.4%	

Table of Contents

In addition to the risk associated with our variable interest rate debt, we are also exposed to risks related to changes in foreign currency exchange rates, mainly related to MGM China and to our operations at MGM Macau. While recent fluctuations in exchange rates have been minimal, potential changes in policy by governments or fluctuations in the economies of the U.S., Macau, or Hong Kong could cause variability in these exchange rates.

Cautionary Statement Concerning Forward-Looking Statements

This Form 10-Q contains forward-looking statements within the meaning of Section 21E of the Exchange Act. Forward-looking statements can be identified by words such as anticipates, intends, plans, seeks, believes, estimates, expects, will, may and similar references to the future. Examples of forward-looking statements include, but are not limited to, statements we make regarding our ability to generate significant cash flow, and amounts that we expect to receive in federal tax refunds, amounts we will invest in capital expenditures, amounts we will pay under the CityCenter completion guarantee and our ability to complete a sale of our interest in Borgata. The foregoing is not a complete list of all forward-looking statements we make.

Forward-looking statements are based on our current expectations and assumptions regarding our business, the economy and other future conditions. Because forward-looking statements relate to the future, they are subject to inherent uncertainties, risks, and changes in circumstances that are difficult to predict. Our actual results may differ materially from those contemplated by the forward-looking statements. They are neither statements of historical fact nor guarantees or assurances of future performance. Therefore, we caution you against relying on any of these forward-looking statements. Important factors that could cause actual results to differ materially from those in the forward-looking statements include, but are not limited to, regional, national or global political, economic, business, competitive, market, and regulatory conditions and the following:

our substantial indebtedness and significant financial commitments and our ability to satisfy our obligations;

current and future economic and credit market conditions and our ability to service or refinance our indebtedness and to make planned expenditures;

restrictions and limitations in the agreements governing our senior credit facility and other senior indebtedness;

significant competition with respect to destination travel locations generally and with respect to our peers in the industries in which we compete;

the fact that we are subject to extensive regulation and the related cost of compliance or failure to comply with such regulations;

economic and market conditions in the markets in which we operate and in the locations in which our customers reside;

MGM Grand Paradise's gaming subconcession could be terminated by the Macau government under certain circumstances;

extreme weather conditions or climate change may cause property damage or interrupt business;

the concentration of our major gaming resorts on the Las Vegas Strip;

Edgar Filing: MGM Resorts International - Form 10-Q

investing through partnerships or joint ventures including CityCenter decreases our ability to manage risk;

our business is particularly sensitive to energy prices and a rise in energy prices;

leisure and business travel, especially travel by air, are particularly susceptible to global geopolitical events, such as terrorist attacks or acts of war or hostility;

we extend credit to a significant portion of our customers and we may not be able to collect gaming receivables from our credit players;

conflicts of interest could arise because certain of our directors and officers are also directors of MGM China;

our insurance coverage may not be adequate to cover all possible losses that our properties could suffer. In addition, our insurance costs may increase and we may not be able to obtain similar insurance coverage in the future;

plans for future construction can be affected by a number of factors, including timing delays and legal challenges;

Table of Contents

the outcome of pending and potential future litigation claims against us;

the fact that Tracinda Corporation owns a significant amount of our common stock and may have interests that differ from the interests of other holders of our stock;

a significant portion of our labor force is covered by collective bargaining agreements; and

risks associated with doing business outside of the United States.

Any forward-looking statement made by us in this Form 10-Q speaks only as of the date on which it is made. Other factors or events that could cause our actual results to differ may emerge from time to time, and it is not possible for us to predict or identify all such factors. Consequently, you should not consider the following to be a complete discussion of all potential risks or uncertainties. We undertake no obligation to publicly update any forward-looking statement, whether as a result of new information, future developments or otherwise, except as may be required by law. You are advised, however, to consult any further disclosures we make on related subjects in our Forms 10-K, 10-Q and 8-K reports and our other filings with the Securities and Exchange Commission. This discussion is provided as permitted by the Private Securities Litigation Reform Act of 1995.

You should also be aware that while we from time to time communicate with securities analysts, we do not disclose to them any material non-public information, internal forecasts or other confidential business information. Therefore, you should not assume that we agree with any statement or report issued by any analyst, irrespective of the content of the statement or report. To the extent that reports issued by securities analysts contain projections, forecasts or opinions, those reports are not our responsibility and are not endorsed by us.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We incorporate by reference the information appearing under "Market Risk" in Part I, Item 2 of this Form 10-Q.

Item 4. Controls and Procedures

Our Chief Executive Officer (principal executive officer) and Chief Financial Officer (principal financial officer) have concluded that our disclosure controls and procedures were effective as of September 30, 2011 to provide reasonable assurance that information required to be disclosed in the Company's reports under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and regulations and to provide that such information is accumulated and communicated to management to allow timely decisions regarding required disclosures. This conclusion is based on an evaluation as required by Rule 13a-15(e) under the Exchange Act conducted under the supervision and participation of the principal executive officer and principal financial officer along with company management.

Except as noted below, during the quarter ended September 30, 2011, there were no changes in our internal control over financial reporting that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

During the quarter ended September 30, 2011, we began transitioning certain information technology processes and controls to a third-party service provider. The outsourced processes and controls primarily include the monitoring of database and system performance, servers, networks, and storage. In addition, the third party is providing help desk support, system access and security and disaster recovery services. The transition of such processes and controls was substantially completed subsequent to quarter end.

In making our assessment of changes in internal control over financial reporting as of September 30, 2011, we have excluded the MGM China operations because these operations were acquired in a business combination on June 3, 2011. These operations represent approximately 32% of our total assets at September 30, 2011 and approximately 28% of our total net revenues for the quarter ended September 30, 2011. We intend to disclose any material changes in internal control over financial reporting with respect to the MGM China operations in the first annual assessment of internal control over financial reporting in which we are required to include MGM China.

Table of Contents**Part II. OTHER INFORMATION****Item 1. Legal Proceedings**

For a complete description of the facts and circumstances surrounding material litigation we are a party to, see our Annual Report on Form 10-K for the year ended December 31, 2010. There have been no significant developments in any of the cases disclosed in our Form 10-K in the nine months ended September 30, 2011, except as follows:

CityCenter construction litigation. In March 2010, Perini Building Company, Inc., general contractor for the CityCenter development project (the Project), filed a lawsuit in the Eighth Judicial District Court for Clark County, State of Nevada, against MGM MIRAGE Design Group (a wholly-owned subsidiary of the Company which was the original party to the Perini construction agreement) and certain direct or indirect subsidiaries of CityCenter Holdings, LLC (the CityCenter Owners). Perini asserts that the Project was substantially completed, but the defendants failed to pay Perini approximately \$490 million allegedly due and owing under the construction agreement for labor, equipment and materials expended on the Project. The complaint further charges the defendants with failure to provide timely and complete design documents, late delivery to Perini of design changes, mismanagement of the change order process, obstruction of Perini's ability to complete the Harmon Hotel & Spa component, and fraudulent inducement of Perini to compromise significantly amounts due for its general conditions. The complaint advances claims for breach of contract, breach of the implied covenant of good faith and fair dealing, tortious breach of the implied covenant of good faith and fair dealing, unjust enrichment and promissory estoppel, and fraud and intentional misrepresentation. Perini seeks compensatory damages, punitive damages, attorneys' fees and costs.

In April 2010, Perini served an amended complaint in this case which joins as defendants many owners of CityCenter residential condominium units (the Condo Owner Defendants), adds a count for foreclosure of Perini's recorded master mechanic's lien against the CityCenter property in the amount of approximately \$491 million, and asserts the priority of this mechanic's lien over the interests of the CityCenter Owners, the Condo Owner Defendants and the Project lenders in the CityCenter property.

The CityCenter Owners and the other defendants dispute Perini's allegations, and contend that the defendants are entitled to substantial amounts from Perini, including offsets against amounts claimed to be owed to Perini and its subcontractors and damages based on breach of their contractual and other duties to CityCenter, duplicative payment requests, non-conforming work, lack of proof of alleged work performance, defective work related to the Harmon Hotel & Spa component, property damage and Perini's failure to perform its obligations to pay Project subcontractors and to prevent filing of liens against the Project. Parallel to the court litigation CityCenter management conducted an extra-judicial program for settlement of Project subcontractor claims. CityCenter has resolved the claims of the majority of the 223 first-tier subcontractors, with only several remaining for further proceedings along with trial of Perini's claims and CityCenter's Harmon-related counterclaim and other claims by CityCenter against Perini and its parent guarantor, Tutor Perini. In December 2010, Perini recorded an amended notice of lien reducing its lien to approximately \$313 million.

The CityCenter Owners and the other defendants will continue to vigorously assert and protect their interests in the lawsuit. The Company believes that a loss with respect to Perini's punitive damages claim is neither probable nor reasonably possible. Please refer to Note 9 in the accompanying consolidated financial statements for further discussion on the Company's completion guarantee obligation which may be impacted by the outcome of the above litigation and the joint venture's extra-judicial settlement process.

Securities and derivative litigation. On July 6, 2011 the Eighth Judicial District Court (Clark County) issued a decision that granted all defendants' motions to dismiss the shareholder derivative complaint filed on March 25, 2011 in the consolidated cases Charles Kim v. James J. Murren, et al., Case No. A-09-599937-C, filed September 23, 2009) and Sanjay Israni v. Robert H. Baldwin, et al. (Case No. A-10-619411-C, transferred from the Second Judicial District Court (Washoe County) on May 10, 2010). The bases for the court's ruling were that plaintiffs failed to serve a pre-suit demand upon the Company's independently controlled Board of Directors, and the complaint failed to make allegations with sufficient particularity that such a demand would have been futile. An order based on the court's decision is pending. The Company will continue to vigorously defend itself against these claims.

Table of Contents

Call center litigation. Lori Zaragoza v. MGM MIRAGE, Inc. and MGM Resorts International, Case No. BC 461912, Los Angeles County Superior Court, filed May 18, 2011. This putative class action complaint alleges that during the one year prior to the filing defendant's call center reservation agents monitored and recorded consumer telephone calls for hotel room and other hospitality-related bookings, without prior notice to plaintiff and other California consumers in violation of various provisions of the California Penal Code. The plaintiff seeks certification of a class action, compensatory damages including consequential or statutory damages pursuant to California Penal Code §637.2, whichever is greater, injunctive relief, prejudgment interest and costs of suit. The case is in its early stages. The Company contests that the complaint has merit and will vigorously defend itself against the claims in this lawsuit. Based on fact investigation conducted to date in this case, defendant does not expect to incur a material loss with respect to this case.

Email Link Corp. v. Treasure Island, LLC; Wynn Resorts, Limited; Las Vegas Sands Corporation; Cosmopolitan Hotels & Resorts Inc.; MGM Resorts International; Caesars Entertainment Corporation; Hard Rock Hotel Holdings, LLC; and Hilton Worldwide, Inc. United States District Court District of Nevada, Case No. 2:11-cv-1433. Filed September 7, 2011. Email Link, assignee of U.S. Patent No. 7,840,176 (Patent 176), alleges that all defendants are infringing one or more claims of Patent 176 by transmitting email communications to customers, directly or through third parties, that contain links to data comprising website pages owned and operated by the defendants, and providing portions of defendants' website pages that contain links to other data. Plaintiff further alleges that defendants are indirectly infringing the subject patent by inducing their customers to use defendants' provided links to respond to defendants' emails, which plaintiff contends constitutes customer infringement of this patent. The complaint seeks unspecified patent damages, which may consist of royalties based on a percentage of defendants' revenues earned by use of the asserted patent infringement for the period of the patent, treble damages for the period of asserted willful infringement, pre- and post-judgment interest and reasonable attorneys' fees and costs. The Company challenges the validity of the allegations in this complaint and will vigorously defend itself against plaintiff's claims.

Item 1A. Risk Factors

A description of certain factors that may affect our future results and risk factors is set forth in our Annual Report on Form 10-K for the year ended December 31, 2010. There have been no material changes to those factors for the nine months ended September 30, 2011, except as discussed below. The following updates primarily relate to our acquisition of a controlling financial interest in MGM China.

Our substantial indebtedness and significant financial commitments could adversely affect our operations and financial results and impact our ability to satisfy our obligations. As of September 30, 2011, we had approximately \$13.6 billion of indebtedness, including \$3.2 billion of borrowings outstanding under our senior credit facility. In September 2011, we borrowed an additional \$879 million under our senior credit facility to increase our capacity for issuing additional secured indebtedness; these borrowings were repaid immediately after quarter end. Giving effect to the subsequent repayment, we would have had approximately \$1.2 billion of available borrowing capacity under our senior credit facility at September 30, 2011. We have no other existing sources of borrowing availability, except to the extent we pay down further amounts outstanding under the senior credit facility. Any increase in the interest rates applicable to our existing or future borrowings would increase the cost of our indebtedness and reduce the cash flow available to fund our other liquidity needs. In addition, as of September 30, 2011, MGM Grand Paradise, S.A. (MGM Grand Paradise), the company that owns and operates MGM Macau, had approximately \$551 million of debt outstanding under its term loan credit facility. We do not guarantee MGM Grand Paradise's obligations under its credit agreement and, to the extent MGM Macau were to cease to produce cash flow sufficient to service its indebtedness, our ability to make additional investments into that entity is limited by the negative covenants in our existing debt instruments. See Management's Discussion and Analysis of Financial Condition and Results of Operations for discussion of our liquidity and financial position. In addition, our substantial indebtedness and significant financial commitments could have important negative consequences, including:

increasing our exposure to general adverse economic and industry conditions;

limiting our flexibility to plan for, or react to, changes in our business and industry;

limiting our ability to borrow additional funds;

making it more difficult for us to make payments on our indebtedness; and

placing us at a competitive disadvantage compared to other less leveraged competitors.

Moreover, our businesses are capital intensive. For our owned and managed properties to remain attractive and competitive we must periodically invest significant capital to keep the properties well-maintained, modernized and refurbished, which requires an ongoing supply of cash and, to the extent that we cannot fund expenditures from cash generated by operations, funds must be borrowed or otherwise obtained. Similarly, future development projects and acquisitions could require significant capital commitments, the incurrence of additional debt, guarantees of third-party debt, or the incurrence of contingent liabilities, which could have an adverse effect on our business, financial condition and results of operations. Events over the past several years, including the failures and near failures of financial services companies and the decrease in liquidity and available capital, have negatively affected the capital markets.

The agreements governing our senior credit facility and other senior indebtedness contain restrictions and limitations that could significantly affect our ability to operate our business, as well as significantly affect our liquidity and therefore could adversely affect our results of operations. Covenants governing our senior credit facility and certain of our debt securities restrict, among other things, our ability to:

pay dividends or distributions, repurchase or issue equity, prepay debt or make certain investments;

incur additional debt or issue certain disqualified stock and preferred stock;

Table of Contents

incur liens on assets;

pledge or sell assets or consolidate with another company or sell all or substantially all assets;

enter into transactions with affiliates;

allow certain subsidiaries to transfer assets; and

enter into sale and lease-back transactions.

Our ability to comply with these provisions may be affected by events beyond our control. The breach of any such covenants or obligations not otherwise waived or cured could result in a default under the applicable debt obligations and could trigger acceleration of those obligations, which in turn could trigger cross defaults under other agreements governing our long-term indebtedness. Any default under the senior credit facility or the indentures governing our other debt could adversely affect our growth, our financial condition, our results of operations and our ability to make payments on our debt, and could force us to seek protection under the bankruptcy laws.

In addition, MGM Grand Paradise's credit facility contains covenants that restrict its ability to engage in certain transactions. In particular, the MGM Grand Paradise credit facility requires MGM Grand Paradise and certain of its subsidiaries to satisfy various financial covenants, including a maximum adjusted leverage ratio and minimum debt service ratio, and imposes certain operating and financial restrictions on MGM Grand Paradise and its subsidiaries, including, among other things, limitations on its ability to pay dividends or distributions to us, incur additional debt, make investments or engage in other businesses; merge or consolidate with other companies, or transfer and sell assets.

We face significant competition with respect to destination travel locations generally and with respect to our peers in the industries in which we compete, and failure to effectively compete could materially adversely affect our business, financial condition results of operations and cash flow. The hotel, resort and casino industries are highly competitive. We do not believe that our competition is limited to a particular geographic area, and hotel, resort and gaming operations in other states or countries could attract our customers. To the extent that new casinos enter our markets or hotel room capacity is expanded by others in major destination locations, competition will increase. Major competitors, including new entrants, have either recently expanded their hotel room capacity or are currently expanding their capacity or constructing new resorts in Las Vegas and Macau. Also, the growth of gaming in areas outside Las Vegas, including California, has increased the competition faced by our operations in Las Vegas and elsewhere. In particular, as large scale gaming operations in Native American tribal lands has increased, particularly in California, competition has increased. In addition, competition could increase if changes in gaming restrictions in the U.S. and elsewhere result in the addition of new gaming establishments located closer to our customers than our casinos, such as has happened in California. For example, while our Macau operations compete to some extent with casinos located elsewhere in Asia, including Singapore, Australia and New Zealand, certain countries in the region have legalized casino gaming (including Malaysia, Vietnam and Cambodia), and others (such as Japan, Taiwan and Thailand) may legalize casino gaming in the future. Furthermore, currently MGM Grand Paradise holds a subconcession under one of only three gaming concessions authorized by the Macau government to operate casinos in Macau. If the Macau government were to allow additional competitors to operate in Macau through the grant of additional concessions or subconcessions, we would face increased competition. In addition to competition with other hotels, resorts, and casinos, we compete with destination travel locations outside of the markets in which we operate. Our failure to compete successfully in our various markets and to continue to attract customers could adversely affect our business, financial condition, results of operations and cash flow.

In addition, in connection with the initial public offering of MGM China Holdings Limited (MGM China), the holding company that indirectly owns and operates MGM Macau, we entered into a Deed of Non-compete Undertakings with MGM China and Ms. Pansy Ho pursuant to which we are restricted from having any interest or involvement in gaming businesses in China, Macau, Hong Kong and Taiwan other than through MGM China. While gaming is currently prohibited in China, Hong Kong and Taiwan, if it is legalized in the future our ability to compete with our competitors in these locations would be limited until the earlier of (i) March 31, 2020 or (ii) the date MGM China's ordinary shares cease to be listed on The Stock Exchange of Hong Kong Limited.

Table of Contents

Our businesses are subject to extensive regulation and the cost of compliance or failure to comply with such regulations may adversely affect our business and results of operations. Our ownership and operation of gaming facilities is subject to extensive regulation by the countries, states, and provinces in which we operate. These laws, regulations and ordinances vary from jurisdiction to jurisdiction, but generally concern the responsibility, financial stability and character of the owners and managers of gaming operations as well as persons financially interested or involved in gaming operations. As such, our gaming regulators can require us to disassociate ourselves from suppliers or business partners found unsuitable by the regulators or, alternatively, cease operations in that jurisdiction. In addition, unsuitable activity on our part or on the part of our domestic or foreign unconsolidated affiliates in any jurisdiction could have a negative effect on our ability to continue operating in other jurisdictions. For a summary of gaming and other regulations that affect our business, see Regulation and Licensing. The regulatory environment in any particular jurisdiction may change in the future and any such change could have a material adverse effect on our results of operations. In addition, we are subject to various gaming taxes, which are subject to possible increase at any time. Increases in gaming taxation could also adversely affect our results.

Further, our directors, officers, key employees and joint venture partners must meet approval standards of certain state and foreign regulatory authorities. If state regulatory authorities were to find a person occupying any such position or a joint venture partner unsuitable, we would be required to sever our relationship with that person or the joint venture partner may be required to dispose of their interest in the joint venture. State regulatory agencies may conduct investigations into the conduct or associations of our directors, officers, key employees or joint venture partners to ensure compliance with applicable standards. For example, as a result of the New Jersey Division of Gaming Enforcement (the DGE) investigation of our relationship with our joint venture partner in Macau we entered into a settlement agreement with the DGE under which we were required to sell our 50% ownership interest in Borgata and related leased land in Atlantic City. Certain public and private issuances of securities and other transactions that we are party to also require the approval of some state regulatory authorities.

In Macau, current laws and regulations concerning gaming and gaming concessions are, for the most part, fairly recent and there is little precedent on the interpretation of these laws and regulations. These laws and regulations are complex, and a court or administrative or regulatory body may in the future render an interpretation of these laws and regulations, or issue new or modified regulations, that differ from MGM China's interpretation, which could have a material adverse effect on its business, financial condition and results of operations. In addition, MGM China's activities in Macau are subject to administrative review and approval by various government agencies. We cannot assure you that MGM China will be able to obtain all necessary approvals, which may materially affect its long-term business strategy and operations. Macau laws permit redress to the courts with respect to administrative actions; however, such redress is largely untested in relation to gaming issues.

In addition to gaming regulations, we are also subject to various federal, state, local and foreign laws and regulations affecting businesses in general. These laws and regulations include, but are not limited to, restrictions and conditions concerning alcoholic beverages, environmental matters, smoking, employees, currency transactions, taxation, zoning and building codes, and marketing and advertising. Such laws and regulations could change or could be interpreted differently in the future, or new laws and regulations could be enacted. For example, Illinois has enacted a ban on smoking in nearly all public places, including bars, restaurants, work places, schools and casinos. The likelihood or outcome of similar legislation in other jurisdictions and referendums in the future cannot be predicted, though any smoking ban would be expected to negatively impact our financial performance.

Our business is affected by economic and market conditions in the markets in which we operate and in the locations in which our customers reside. Our business is particularly sensitive to reductions in discretionary consumer spending and corporate spending on conventions and business development. Economic contraction, economic uncertainty or the perception by our customers of weak or weakening economic conditions may

Table of Contents

cause a decline in demand for hotel and casino resorts, trade shows and conventions, and for the type of luxury amenities we offer. In addition, changes in discretionary consumer spending or consumer preferences could be driven by factors such as the increased cost of travel, an unstable job market, perceived or actual disposable consumer income and wealth, or fears of war and future acts of terrorism. Aria, Bellagio, MGM Grand Las Vegas and The Mirage in particular may be affected by economic conditions in the Far East, and all of our Nevada resorts are affected by economic conditions in the United States, and California in particular. A recession, economic slowdown or any other significant economic condition affecting consumers or corporations generally is likely to cause a reduction in visitation to our resorts, which would adversely affect our operating results. For example, the recent recession and downturn in consumer and corporate spending has had a negative impact on our results of operations. In addition, the weak housing and real estate market both generally and in Nevada particularly has negatively impacted CityCenter's ability to sell residential units. In addition, since we expect a significant number of customers to come to MGM Macau from mainland China, general economic and market conditions in China could impact our financial prospects. Any slowdown in economic growth or changes to China's current restrictions on travel and currency movements could disrupt the number of visitors from mainland China to MGM Macau as well as the amounts they are willing to spend in the casino. For example, in May and July 2008, China readjusted its visa policy toward Macau and limited the number of visits that some mainland Chinese citizens may make to Macau in a given time period. In September 2008, it was publicly announced that mainland Chinese citizens with a Hong Kong visa (but not a Macau visa) could no longer enter Macau from Hong Kong. In addition, in May 2009, China also began to restrict the operation of below-cost tour groups involving low up-front payments and compulsory shopping, which were popular among visitors to Macau from mainland China. It is unclear whether these and other measures will continue to be in effect, or become more restrictive, in the future. These developments have, and any future policy developments that may be implemented may have, the effect of reducing the number of visitors to Macau from mainland China, which could adversely impact tourism and the gaming industry in Macau.

The Macau Government can terminate MGM Grand Paradise's subconcession under certain circumstances without compensating MGM Grand Paradise, can exercise its redemption right with respect to the subconcession in 2017 or can refuse to grant MGM Grand Paradise an extension of the subconcession in 2020, any of which would have a material adverse effect on our business, financial condition, results of operations and cash flows. The Macau government has the right to unilaterally terminate the subconcession in the event of fundamental non-compliance by MGM Grand Paradise with applicable Macau laws or MGM Grand Paradise's basic obligations under the subconcession contract. MGM Grand Paradise has the opportunity to remedy any such non-compliance with its fundamental obligations under the subconcession contract within a period to be stipulated by the Macau Government. Upon such termination, all of MGM Grand Paradise's casino area premises and gaming-related equipment would be automatically transferred to the Macau government without compensation to MGM Grand Paradise, and we would cease to generate any revenues from these operations. We cannot assure you that MGM Grand Paradise will perform all of its obligations under the subconcession contract in a way that satisfies the requirements of the Macau Government.

Furthermore, under the subconcession contract, MGM Grand Paradise is obligated to comply with any laws and regulations that the Macau Government might promulgate in the future. We cannot assure you that MGM Grand Paradise will be able to comply with these laws and regulations or that these laws and regulations would not adversely affect our ability to construct or operate our Macau businesses. If any disagreement arises between MGM Grand Paradise and the Macau Government regarding the interpretation of, or MGM Grand Paradise's compliance with, a provision of the subconcession contract, we will be relying on the consultation process with the Macau government as described above. During any consultation, MGM Grand Paradise will be obligated to comply with the terms of the subconcession contract as interpreted by the Macau Government. Currently, there is no precedent concerning how the Macau Government will treat the termination of a concession or subconcession upon the occurrence of any of the circumstances mentioned above. The loss of the subconcession would require us to cease conducting gaming operations in Macau, which would have a material adverse effect on our business, financial condition, results of operations and cash flows.

Table of Contents

In addition, the subconcession contract expires on March 31, 2020. Unless the subconcession is extended, or legislation with regard to reversion of casino premises is amended, all of MGM Grand Paradise's casino premises and gaming-related equipment will automatically be transferred to the Macau government on that date without compensation to us, and we will cease to generate any revenues from such gaming operations. Beginning on March 31, 2017, the Macau government may redeem the subconcession contract by providing us at least one year's prior notice. In the event the Macau government exercises this redemption right, MGM Grand Paradise is entitled to fair compensation or indemnity. The amount of such compensation or indemnity will be determined based on the amount of gaming and non-gaming revenue generated by MGM Macau, excluding the convention and exhibition facilities, during the taxable year prior to the redemption, before deducting interest, depreciation and amortization, multiplied by the number of remaining years before expiration of the subconcession. We cannot assure you that MGM Grand Paradise will be able to renew or extend the subconcession contract on terms favorable to MGM Grand Paradise or at all. We also cannot assure you that if the subconcession is redeemed, the compensation paid to MGM Grand Paradise will be adequate to compensate for the loss of future revenues.

Extreme weather conditions or climate change may cause property damage or interrupt business, which could harm our business and results of operations. Certain of our casino properties are located in areas that may be subject to extreme weather conditions, including, but not limited to, hurricanes in the United States and severe typhoons in Macau. Such extreme weather conditions may interrupt our operations, damage our properties, and reduce the number of customers who visit our facilities in such areas. Although we maintain both property and business interruption insurance coverage for certain extreme weather conditions, such coverage is subject to deductibles and limits on maximum benefits, including limitation on the coverage period for business interruption, and we cannot assure you that we will be able to fully insure such losses or fully collect, if at all, on claims resulting from such extreme weather conditions. Furthermore, such extreme weather conditions may interrupt or impede access to our affected properties and may cause visits to our affected properties to decrease for an indefinite period.

We extend credit to a large portion of our customers and we may not be able to collect gaming receivables. We conduct our gaming activities on a credit and cash basis. Any such credit we extend is unsecured. Table games players typically are extended more credit than slot players, and high-stakes players typically are extended more credit than patrons who tend to wager lower amounts. High-end gaming is more volatile than other forms of gaming, and variances in win-loss results attributable to high-end gaming may have a significant positive or negative impact on cash flow and earnings in a particular quarter. We extend credit to those customers whose level of play and financial resources warrant, in the opinion of management, an extension of credit. In addition, MGM Grand Paradise extends credit to certain gaming promoters and those promoters can extend credit to their customers. Receivables from high-end customers and gaming promoters could have a significant impact on our results of operations if deemed uncollectible.

While gaming debts evidenced by a credit instrument, including what is commonly referred to as a marker, and judgments on gaming debts are enforceable under the current laws of Nevada, and Nevada judgments on gaming debts are enforceable in all states under the Full Faith and Credit Clause of the U.S. Constitution, other jurisdictions may determine that enforcement of gaming debts is against public policy. Although courts of some foreign nations will enforce gaming debts directly and the assets in the U.S. of foreign debtors may be reached to satisfy a judgment, judgments on gaming debts from U.S. courts are not binding on the courts of many foreign nations.

Furthermore, we expect that MGM Grand Paradise will be able to enforce its credit obligations only in a limited number of jurisdictions, including Macau. To the extent MGM Grand Paradise gaming customers and gaming promoters are from other jurisdictions, MGM Grand Paradise may not have access to a forum in which it will be able to collect all of its gaming receivables because, among other reasons, courts of many jurisdictions do not enforce gaming debts and MGM Grand Paradise may encounter forums that will refuse to enforce such debts. Moreover, under applicable law, MGM Grand Paradise remains obligated to pay taxes on uncollectible winnings from customers.

Table of Contents

Even where gaming debts are enforceable, they may not be collectible. Our inability to collect gaming debts could have a significant negative impact on our operating results.

Conflicts of interest may arise because certain of our directors and officers are also directors of MGM China, the holding company for MGM Grand Paradise which owns and operates MGM Macau. As a result of the initial public offering of shares MGM China common stock, MGM China now has stockholders who are not affiliated with us, and we and certain of our officers and directors who also serve as officers and/or directors of MGM China may have conflicting fiduciary obligations to our stockholders and to the minority stockholders of MGM China. Decisions that could have different implications for us and MGM China, including contractual arrangements that we have entered into or may in the future enter into with MGM China, may give rise to the appearance of a potential conflict of interest or an actual conflict of interest.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Our share repurchases are only conducted under repurchase programs approved by our Board of Directors and publicly announced. We did not repurchase shares of our common stock during the quarter ended September 30, 2011. The maximum number of shares available for repurchase under our May 2008 repurchase program was 20 million as of September 30, 2011.

Item 6. Exhibits

- 10.1 Subconcession Contract for the Exploitation of Games Fortune and Chance or Other Games in Casino in the Special Administrative Region of Macau, dated April 19, 2005, between Sociedade de Jogos de Macau, S.A., as concessionaire, and MGM Grand Paradise S.A., as subconcessionaire.
- 10.2 Amendment No. 1, dated July 22, 2011 to Stipulation of Settlement in the Matter of the Reopened 2005 Casino License Hearing of Marina District Development Company, LLC (MDDC) dated March 11, 2010, by and among the Company, the State of New Jersey Department of Law and Public Safety Division of Gaming Enforcement, Boyd Gaming Corporation and MDDC.
- 10.3 Form of Freestanding Stock Appreciation Right Agreement of the Company (non-employee director).
- 10.4 Form of Freestanding Stock Appreciation Right Agreement of the Company (employee).
