Announcement of LM Ericsson Telephone Company, dated January 23, 2012 regarding ST-Ericsson reports fourth quarter 2011 financial results

**ST-Ericsson reports fourth quarter 2011 financial results****Net sales \$409 million****Adjusted operating loss<sup>1)</sup> \$207 million****Key priorities for 2012: enhanced focus on execution and a clear roadmap to sustainable profitability**

**Geneva, Switzerland, January 23, 2012** - ST-Ericsson, a joint venture of STMicroelectronics (NYSE:STM) and Ericsson (NASDAQ:ERIC), reported financial results for the fourth fiscal quarter ending December 31, 2011.

Sales in the fourth quarter, excluding IP licensing to a third party, grew 1.3% over prior quarter. The operating loss reported for the fourth quarter was higher than the previous quarter.

Didier Lamouche, President and CEO, commented: As the recently appointed CEO of ST-Ericsson, my aim, and that of the entire organization, will be to ensure that we meet all of our stakeholders' expectations. As we ramp up our new product portfolio and build a strong roadmap towards sustainable profitability, our focus is to effectively deliver on timely execution of our strategic programs and continue to proliferate design wins.

From a financial perspective, it is clear that both sales and operating results will continue to be challenging over the coming quarters, due to the reduction in the short term of new product sales with one of our largest customers. That is why our immediate priority is to build a strong roadmap to profitability based on enhancing execution, delivering in volume our leading products and lowering the break-even point.

<b>Cash flow from operations</b>	(182)	(149)	(101)

**Additional financial information**

The net financial position<sup>2)</sup> at the end of the fourth quarter was negative \$798 million. The sequential decrease was mainly a consequence of the operating loss, partially mitigated by the reduction of working capital. Our shareholders will continue to support funding our transitional financial needs.

During the fourth quarter the company sold trade receivables without recourse, of which \$144 million were outstanding at the end of the quarter, representing a sequential decline of \$18 million.

Inventory decreased by \$58 million reaching \$223 million at the end of the fourth quarter.

**Outlook**

For the first quarter 2012, ST-Ericsson expects a very significant sequential decline in net sales, resulting from a combination of higher inventory at some of our customers, further weakening of legacy product sales, the effect of first quarter seasonality as well as the reduction, in the short term, of new product sales with one of our largest customers.

**Highlights products, technology and wins announced in fourth quarter 2011****Products**

The ST-Ericsson Thor M7400 modem was selected as a Consumer Electronics Show Innovations 2012 Design and Engineering Awards honoree in the Embedded Technologies product category.

**Customers**

Sharp announced three new smartphones in Japan that are based on the ST-Ericsson Thor HSPA+ 21 Mbps thin modem.

Nokia has selected the ST-Ericsson NovaThor platform for future devices it plans to introduce based on the Windows Phone mobile platform.

The Motorola Atrix 2, launched in October, uses the ST-Ericsson Thor HSPA+ 21 Mbps thin modem.

#### Partners/technology

ST-Ericsson, in conjunction with STMicroelectronics, announced their involvement in the European VENTURI Project, a group of companies that will work together to develop mobile device platforms and applications that deliver fully-immersive mobile Augmented Reality experiences.

ST-Ericsson and CEA-Leti, working with STMicroelectronics and Cadence Design Systems, have developed WIOMING, a three layer stack of multi-core system on chip (SoC) devices connected by the same network on chip (NoC). A proof of concept for a 3D multiprocessor architecture, the WIOMING 3D stack uses Wide I/Os to connect the SoC devices and a DRAM memory chip.
