Entergy Forward-Looking Information
Entergy Forward-Looking Information
In this communication, and from time to time, Entergy makes certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Except to the extent required by the federal securities laws, Entergy undertakes no obligation to

publicly update or revise any forward-
looking statements, whether as a result of new information, future events, or otherwise. Forward-looking statements involve a number of risks and uncertainties. There are factors that could cause actual results to differ materially from those expressed or implied in the forward-looking statements, including (i) those factors discussed in Entergy s Annual Report on Form 10-K for the year ended December 31, 2011 and other filings made by Entergy with the Securities and Exchange Commission; (ii) the following transactional factors (in addition to others described elsewhere in this presentation and in subsequent securities filings) involving risks inherent in the contemplated transaction, including: (1) failure to obtain ITC shareholder approval, (2) failure of Entergy and its shareholders to recognize the expected benefits of the transaction, (3) failure to obtain regulatory approvals necessary to consummate the transaction or to obtain regulatory approvals on favorable terms, (4) the ability of Entergy, Transco and ITC to obtain the required financings, (5) delays in consummating the transaction or the failure to consummate the transaction, (6) exceeding the expected costs of the transaction, and (7) the failure to receive an IRS ruling approving the tax-free status of the transaction; (iii) legislative and regulatory actions; and (iv) conditions of the capital markets during the periods covered by the forward-looking statements. The transaction is subject to certain conditions precedent, including regulatory approvals, approval of ITC s shareholders and the availability of financing. Entergy cannot provide any assurance that the transaction or any
of the proposed transactions related
thereto will be completed, nor can it give assurances as to the terms on which such transactions will be consummated.

2
2
Additional Information and Where to Find It
Additional Information and Where to Find It
ITC and Transco will file registration statements with the Securities and Exchange Commission (SEC) registering shares of ITC common stock and Transco common units to be issued to Entergy shareholders in connection with the proposed transactions. ITC will also file a proxy statement with the

SEC that will be sent to the shareholders of ITC. Entergy shareholders are urged to read the prospectus and/or information statement that will be included in the registration statements and any other relevant documents, because they contain important information about ITC, Transco and the proposed transactions. ITC shareholders are urged to read the proxy statement and any other relevant documents because they contain important information about Transco and the proposed transactions. The proxy statement, prospectus and/or information statement, and other documents relating to the proposed transactions (when they are available) can be obtained free of charge from the SEC s website at www.sec.gov**. The documents, when available, can also be obtained free of charge from Entergy upon** written request to Entergy Corporation, Investor Relations, P.O. Box 61000, New Orleans, LA 70161 or by calling Entergy s Investor Relations information line at 1-888-ENTERGY (368-3749), or from ITC upon written request to ITC Holdings Corp., Investor Relations, 27175 Energy Way, Novi, MI 48377 or by calling 248-946-3000.

Challenges facing the electric utilities industry
Addressing challenges

"a sustained, collaborative and open working relationship among the principal vested

interests will be critical to the execution of corporate, environmental and public policy initiatives"

"we view most favorably those commissions that establish rates that reasonably reflect the costs incurred by a utility, including a return on equity, and where timely adjustments to these rates are made to recognize changes in costs"

"public service commissions continue to be reasonably supportive despite frequently lower authorized returns."

"a preference for expense deferrals may develop, and a proclivity for less competitive authorized returns will almost certainly prevail. Such a turn of events would likely result in a shift of our stable outlook on overall U.S. electric utility credit quality to negative."
