BUSINESS REPORT

(From April 1, 2011 to March 31, 2012)

1. Matters on the Current Status of Makita

(1) Progress and Results of Operations

In the term ended March 31, 2012, the economy in Western Europe, which was once on a recovery trend, slowed down due to the effects of financial crisis etc. However, German economy grew steadily, supported by strong exports due to the depreciation of the euro. The Russian economy continued to be in good condition thanks to rising crude oil prices. In the United States, the economy remained sluggish because the housing market was still weak, though consumer spending showed some signs of recovery. In Asia and Central and South America, robust capital investments and favorable exports kept the economy growing, but the growth pace slowed due to credit tightening in China and Brazil and the flooding in Thailand. In Japan, the economy didn't attain the full-scale recovery because exports remained weak due to the yen's unprecedented appreciation against the Euro and the U.S. dollar, though consumer spending gradually recovered after the Great East Japan Earthquake in March 2011.

Under these circumstances, in development side, Makita Corporation (the Company) and its consolidated subsidiaries (collectively Makita) continuously expanded its product lines, including those of power tools, rechargeable tools and gardening equipment through the development of smaller and lighter tools or tools with lower noise and vibration. In addition, we set up a development and experimental center for gardening equipment at Nisshin Office (Aichi) in October 2011 to upgrade and extend the product line-ups of engine-powered gardening equipment. In production side, we strengthened our quality control system to continuously produce high-quality brands, while improving a production system so that we could flexibly respond to a change in demand. In sales side, we improved the sales network in China and set up a subsidiary in Slovenia to strengthen its sales system in Balkan countries. Through these steps, we strove to maintain and improve our system of providing sales and after-sales services from immediate proximity to the customers, which had already been our forte.

Our consolidated net sales for this year increased by 8.5% to 295,711 million yen compared to the same period of the previous year. This was because of the rollout of attractive new products as well as the success in expanding sales by making the most of our sales and after-sales service structures that have always been our strong point, although the yen's appreciation resulted in a decline in our overseas sales. Operating income increased by 15.8% to 48,516 million yen (operating income ratio: 16.4%). This was mainly because of a leap in capacity utilization at the plant as well as an increase in net sales. Meanwhile, because of an increase in non-operating expenses, such as foreign exchange losses of 2,150 million yen due to a drastic appreciation of the yen and realized losses on securities of 652 million yen due to a fall in share prices, income before income taxes and net income attributable to Makita Corporation increased by 9.9% to 46,963 million yen (income before income taxes ratio: 15.9%) and by 8.7% to 32,497 million yen (net income attributable to Makita Corporation ratio: 11.0%), respectively.

Net sales results by region were as follows:

Net sales in Japan increased by 15.4% to 53,175 million yen compared to the same period of the previous year, a record amount. This was because of the favorable sales of lithium-ion battery products, the best product line-ups in the industry, and increased demand from post-quake restoration and reconstruction efforts.

Net sales in Europe increased by 6.3% to 123,251 million yen compared to the same period of the previous year. This was due to steady sales in Russia, though demand in Western countries, such as Germany and the U.K., slowed down in the latter half of the current year.

Net sales in North America increased by 1.0% to 37,475 million yen compared to the same period of the previous year. This was primarily because our sales, mainly lithium-ion battery products, remained robust amid sluggish housing market, though our sales suffered a decline in value due to the yen's appreciation.

Net sales in Asia increased by 12.7% to 26,013 million yen compared to the same period of the previous year. This was because demand steadily recovered in Southeast Asian countries, though China's tight credit policy and Thailand's flooding affected our sales.

Sales situation in other regions are as follows. Net sales in Central and South America and Oceania increased by 15.2% to 23,370 million yen and by 15.6% to 17,780 million yen, respectively, compared to the same period of the previous year, because demand was strong in both regions. Net sales in the Middle East and Africa decreased by 0.5% to 14,647 million yen, because economic activities stagnated due to political uncertainty.

Overall, overseas sales accounted for 82.0% of total sales.

(2) Management Challenges

In developed countries, competition among companies is expected to intensify further because recovery of demand will remain moderate. In emerging countries including Asia where construction demand is expected to expand continuously, markets with a strong orientation toward low-price products are likely to emerge. With trends in crude oil prices and the foreign exchange rates being unpredictable, Makita is expected to continue facing a challenging business environment.

Based on these situations, Makita aims to build a strong brand equity and to become a Strong Company, in other words, to become a company that can obtain and maintain worldwide market leadership as a global total supplier of power tools for professional use, pneumatic tools, and gardening equipment etc. through actively making the following efforts:

- (i) Developing new products that fully satisfy professional users by reinforcing its R&D and product development activities to deliver more user-friendly and earth-conscious power tools and gardening equipment.
- (ii) Upgrading global production organizations, which would enable Makita to respond to changing demand conditions and to achieve high quality and price competitiveness of its products; and
- (iii) Strengthening sales activities to professional users and maintaining and improving its sales and after-sales service systems, which hold leading positions in the industry.

Makita will strive to maintain a solid financial position enabling it to implement these measures, which, we believe, will lead to enhancing customer satisfaction and raising Makita's position in the industry, resulting, in turn, in the improvement of its corporate value.

In closing, we would like to thank you for your ongoing support and ask you for continued backing.

(3) Capital Expenditures

During the term, Makita allocated 13,481 million yen for its capital expenditures. These funds used by the Company amounted to 3,865 million yen. This reflected mainly capital expenditures for set up a development and experimental center for gardening equipment, and metal molds for new products. These funds also used by subsidiaries amounted to 9,616 million yen. This reflected mainly capital expenditures for buildings, machinery equipments and metal molds of China plant, and for land and buildings of Thai plant.

(2) Total Amounts of Compensation and Bonus to Directors and Statutory Auditors

Classification	Total amounts of each type of Compensation				
	Total amounts of Compensation Base Compensation (Millions of Yen)	and Number of payment recipients		Bonuses (Millions of Yen)	Number of payment recipients
Directors	284	156	11	128	10
Statutory Auditors	41	41	4	-	-
Total	325	197	15	128	10

- Notes:
1. The aggregate amount of base compensation includes the amount of 31 million yen paid to Outside Executives (1 Outside Director and 3 Outside Statutory Auditors).
 2. Other than the above, the amount of 85 million yen was paid to 6 Directors who concurrently serve as employees as employee salaries (including bonuses).
 3. The maximum amounts of annual compensation for all Directors and Statutory Auditors, each of which was approved by a resolution passed at the Ordinary General Meeting of Shareholders held in May 1989, is 240 million yen (excluding bonuses and the amounts paid to Directors who concurrently serve as employees as employee salaries) and 60 million yen, respectively.

(3) Decision-Making Policy on Compensation for Directors and Statutory Auditors

Monthly compensation for the Directors is in the form of fixed compensation, as the consideration for each Director's performance of business in charge and responsibility therefor. After the termination of the retirement allowance plan for Directors and Statutory Auditors by resolution of the General Meeting of Shareholders held on June 29, 2006, the compensation program linked to the Company stock price was introduced as part of director's compensation. The Directors acquire the Company stock by making contributions to the Executive Stock Ownership Plan in an amount equal to the retirement bonuses added to Directors' monthly compensation. Acquired stock for this purpose is retained by the Directors during their tenure. The introduction of this system effectively links a part of director's compensation to the Company stock price, providing further transparency of Directors' managerial responsibility to improve the Company's enterprise value.

For the purpose of enhancing corporate governance, the bonuses to Directors are to be paid to the Directors who are responsible for the consolidated business results, other than the Outside Directors, and are linked to consolidated business results so that the relevant Directors share the risks and returns with the shareholders.

Full amount of the compensation to Statutory Auditors is fixed so that the independence of the Statutory Auditors from the management can be secured and the specific amount for each Statutory Auditor is decided through discussions among Statutory Auditors.

(4) Outside Director and Statutory Auditors

1. Director, Motohiko Yokoyama

(i) Relation between important organization of concurrent post and the Company

Makita purchases parts, machinery and equipment, and accepts seconded employees from JTEKT Corporation and its group companies, but the amount of purchase during the term was 633 million yen, which is insubstantial in that it constitutes approximately 0.2% of Makita's consolidated net sales and less than 0.1% of JTEKT Group's consolidated net sales.

(ii) Major activities during the term

Mr. Yokoyama attended 9 of 13 meetings of the Board of Directors (attendance rate: 69%) during the term. At the attended meetings, he expressed his opinions as necessary from the top management perspective of the core company of Toyota Group which is a world's leading corporate group.

(iii) Outline of Liability Limitation Agreement

Edgar Filing: MAKITA CORP - Form 6-K

With respect to liabilities set forth in Article 423, Paragraph 1 of the Companies Act, the Company has entered into a liability limitation agreement with Mr. Yokoyama which limits the maximum amount of his liabilities to the total amount provided for in each of the items of Article 425, Paragraph 1 of the Companies Act.

2. Statutory Auditor, Haruhito Hisatsune

Notes to Consolidated Financial Statements

Notes to Important Basic Matters for Preparation of Consolidated Financial Statements

1. Basis of presentation

The consolidated financial statements are prepared in accordance with United States Generally Accepted Accounting Principles (US GAAP) pursuant to the provision of Article 120-2, paragraph 1 of the Ordinance on Accounting of Companies. However, certain disclosures required under US GAAP are omitted pursuant to the second sentence of said paragraph.

2. Scope of consolidation

Number of consolidated subsidiaries: 50

Major subsidiaries are as follows:

Makita U.S.A. Inc., Makita (U.K.) Ltd., Makita France SAS,

Makita Werkzeug G.m.b.H (Germany), Makita Oy (Finland),

Makita Gulf FZE (U.A.E.), Makita (China) Co., Ltd.,

Makita (Kunshan) Co., Ltd., Makita (Australia) Pty. Ltd.,

Makita do Brasil Ferramentas Elébricas Ltda. etc.

3. Valuation of Short-term investments and Investments

The Company conforms to Accounting Standards Codification (ASC) 320, Investments-Debt and Equity Securities

Held-to-maturity securities:

Amortized cost

Available-for-sale securities:

Evaluation by the fair value

All valuation allowances are reported in Accumulated other comprehensive income (loss).

The cost of securities sold is based on the moving-average method.

4. Valuation of inventories

Inventories are valued at the lower of cost or market price, with cost determined principally based on the average method. Inventory costs include raw materials, labor and manufacturing overheads.

5. Depreciation method of fixed assets

Tangible fixed assets:

Depreciation of tangible fixed assets of the Company is computed by using the declining-balance method over the estimated useful lives. Most of the consolidated subsidiaries have adopted the straight-line method for computing depreciation.

Goodwill and other intangible assets, net:

With respect to goodwill, in compliance with ASC 350, Intangibles-Goodwill and Other , amortization is not performed, but impairment testing is carried out at least once a year in principle. Amortization is performed using the straight-line method with regard to other intangible fixed assets that have clearly established years of service.

6. Allowances

Allowance for doubtful receivables:

The allowance is determined based on, but is not limited to, historical collection experience adjusted for the effects of the current economic environment, assessment of inherent risks, aging and financial performance. Allowance for doubtful receivables represents the Makita's best estimate of the amount of probable credit losses in its existing receivables.

Retirement and termination allowances:

In accordance with ASC 715, Compensation-Retirement Benefits, pension and severance cost is accrued based on the projected benefit obligations and the fair value of plan assets at the balance sheet date. Each overfunded plans and postretirement plans are recognized as an asset and each underfunded plan and postretirement plans are recognized as a liability.

Unrecognized prior service cost is amortized by the straight-line method over the average remaining service period of employees.

Unrecognized actuarial difference is recognized by amortizing a portion in excess of 10% of the greater of the projected benefit obligations or the fair value of plan assets at the beginning of the term by the straight-line method over the average remaining service period of employees.

7. Consumption tax is accounted for by allocation separately from related sales and purchase accounts.

8. Restatement/ reclassification

To increase the transparency in the disclosure of the status of liabilities, the total amount of Other payables, Accrued expenses and Other liabilities that has been presented as accrued expenses and other (17,694 million yen in the previous term) for the previous term is reported in separate lines from the current term.

Notes to Consolidated Balance Sheet

Guarantee (contingent liabilities): 3 million yen

(Reasons for the change)

The reasons for the increase are as follows:

Purchases of treasury stock:	2,000,000 shares
Purchase of shares constituting less than a full unit:	7,907 shares

The reason for the decrease is as follows:

Sales of shares constituting less than a full unit:	726 shares
-----------------------------------------------------	------------

Notes to Financial Instruments

1. Matter regarding status of financial instruments

Makita carries out short-term and other investments in order to secure profits on a stable basis. Short-term investment consists primarily of MMF (Money Management Fund) and FFF (Free Financial Fund). Other investment is made mainly in marketable shares (shares other than those purely for investment purpose). Long-term liabilities comprise long-term loans from banks and capital-lease obligations. Forward exchange

contracts were entered into with the aim of reducing such market risks as foreign exchange rate fluctuations.

2. Matter regarding such as market value of financial instruments

The following methods and significant assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate a fair value:

- (1) Cash and Cash Equivalents, Time Deposits, Trade Notes and Accounts Receivable, Short-term Borrowings, Trade Notes and Accounts Payable, Other payables, and Accrued expenses

The carrying amounts approximate fair value because of the short maturities of those instruments.

- (2) Long-term Time Deposits

The fair value is estimated by discounting future cash flows using the current rates that Makita would be offered for deposits with similar terms and remaining maturities.

- (3) Short-term investments and Investments

The fair value of marketable and investment securities is estimated based on quoted market prices. For certain investments such as non-marketable securities, since there are no quoted market prices existing, a reasonable estimation of a fair value could not be made without incurring excessive cost, and such securities have been excluded from fair value disclosure. The fair value of such securities is estimated if and when there are indications that the investment may be impaired. Non-marketable securities amounted to 387 million yen as of March 31, 2012.

- (4) Long-term Indebtedness

The fair value of long-term indebtedness is a present value of future cash flows associated with each instrument discounted using Makita's current borrowing rates for similar debt instruments of comparable maturities.

- (5) Other Derivative Financial Instruments

The fair values of other derivative financial instruments, composed by foreign currency contracts, which are used for hedging purposes, are estimated by obtaining quotes and other relevant information from brokers.

The estimated fair value of the financial instruments was as follows:

	(Millions of Yen)		
	Carrying Amount	Fair Value	Amount of difference
Short-term investments	25,125	25,122	(3)
Investments	18,767	18,764	(3)
Long-term time deposits	15	15	-
Long-term indebtedness including current maturities	(28)	(28)	-
Foreign currency contracts:			
Assets	129	129	-
Liabilities	(281)	(281)	-

- (6) Limitation

Edgar Filing: MAKITA CORP - Form 6-K

The fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instrument.

These estimates are subjective in nature and involve uncertainties and are matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

Notes to Non-consolidated Financial Statements

Notes to Significant Accounting Policies

1. Valuation of securities

Held-to-maturity securities:	Amortized cost (straight-line method)
Stocks of subsidiaries:	At moving-average cost
Available-for-sale securities	
Those having fair market value:	Fair market value as of term-end
	All valuation allowances are credited to shareholders' equity.
	The cost of securities sold is based on the moving-average method.
Those having no fair market value:	At moving-average cost

2. Valuation of net assets and liabilities accrued from derivative transactions:

Fair market value as of term-end

3. Valuation of inventories

Inventories are valued at the lower of cost or market price.

Finished goods, merchandise, work in process, and raw materials:

At the lower of average cost or market

Supplies:

At the lower of latest purchase cost or market

4. Depreciation method of fixed assets

Tangible fixed assets:

(Excluding lease assets)

Declining-balance method

However, buildings acquired on or after April 1, 1998, (excluding fixtures) are depreciated on the straight-line method.

Estimated life:

Buildings: 38 to 50 years

Machinery and equipment: 7 to 10 years

Intangible fixed assets:

(Excluding lease assets)

Straight-line method

Software for internal use is depreciated on the straight-line method over its estimated useful life (5 years).

Industrial property rights are depreciated on the straight-line method over 8 to 14 year period.

Lease assets:

Lease assets relating to finance lease transactions, excluding those whose ownership is transferred to the lessee upon lease expiration, are depreciated by the straight-line method over the lease term with no residual value, the lease term being regarded as the estimated asset service life.

5. Allowances

Allowance for doubtful accounts:	The allowance for doubtful accounts is reserved based on the historical write-off ratio for accounts receivable. For accounts receivable that are difficult to collect, individually estimated write-off amounts are reserved.
Allowance for Directors' bonuses:	In preparation for the anticipated payment of Directors' bonuses, we appropriated the amount estimated to pay for the term.
Allowance for product warranties:	In preparation for the payment of product after-service and free post-sale repair services, we appropriated the projected amount based on actual payment in the past.
Retirement and termination allowances:	To be prepared for employee retirement, retirement and termination allowances and prepaid pension expenses are reserved based on projected benefit obligations and plan assets at the balance sheet date. Past service liabilities are amortized by the straight-line method over the average remaining employment period. Actuarial differences are amortized starting immediately after the year of accrual by the straight-line method over the average remaining employment period.
Estimated retirement allowances for Directors and Statutory Auditors:	The Company terminated the retirement allowance plan for Directors and Statutory Auditors as of the end of the Ordinary General Meeting of Shareholders held on June 29, 2006. The balance of the term end is the amount of the reserve for the period of office served until abolition of the plan by those current Directors (excluding Outside Director) and Statutory Auditors who served until June 29, 2006.

6. Consumption tax is accounted for by allocation separately from related sales and purchase accounts.

7. Additional information

The Company adopted the Accounting Standard for Accounting Changes and Error Corrections (ASBJ Statement No. 24, as of December 4, 2009) and the Guidance on Accounting Standard for Accounting Changes and Error Corrections (ASBJ Guidance No. 24, as of December 4, 2009) for the accounting changes and the correction of the past errors conducted after the beginning of the current term.

3. Changing of the amount of deferred income tax assets and liabilities due to a change in the statutory effective tax rate

Along with the promulgation of the Law to Revise the Income Tax, etc., in Order to Construct a Tax System Addressing Changes in the Socio-Economic Structure (Act No. 114 of 2011) and the Act on Special Measures for Securing Financial Resources Necessary for Reconstruction from the Great East Japan Earthquake (Act No. 117 of 2011), each being effective on December 2, 2011, the statutory effective tax rate used for the calculation of the deferred income tax assets and liabilities for the current term was changed from 40.0% in the previous term to 37.4%, with respect to the period when the reversal of temporary difference was expected to be from April 1, 2012 through March 31, 2015, and 35.1% with respect to the period when the reversal of temporary difference was expected to be after April 1, 2015, respectively.

As a result, the amount of deferred income tax assets (net of the amount of the deferred income tax liabilities) decreased by 121 million yen, and the tax provision, deferred and the net unrealized gains on securities accrued for the current term increased by 367 million yen and 246 million yen, respectively.

We have audited the consolidated financial statements, comprising the consolidated balance sheet, the consolidated statement of income, the consolidated statement of shareholders' equity and comprehensive income (loss) and the notes to consolidated financial statements of Makita Corporation as at March 31, 2012 and for the year from April 1, 2011 to March 31, 2012 in accordance with Article 444-4 of the Companies Act.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the provision of the second sentence of Article 120-2-1 of the Ordinance of Companies Accounting that prescribes some omissions of disclosure items required under accounting principles generally accepted in the United States of America, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the consolidated financial statements based on our audit as independent auditor. We conducted our audit in accordance with auditing standards generally accepted in Japan. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

Edgar Filing: MAKITA CORP - Form 6-K

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, while the objective of the financial statement audit is not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

- 32 -

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above, which were prepared in accordance with the second sentence of Article 120-2-1 of the Ordinance of Companies Accounting that prescribes some omissions of disclosure items required under accounting principles generally accepted in the United States of America, present fairly, in all material respects, the financial position and the results of operations of Makita Corporation and its subsidiaries for the period, for which the consolidated financial statements were prepared.

Other Matter

Our firm and engagement partners have no interest in the Company which should be disclosed pursuant to the provisions of the Certified Public Accountants Law of Japan.

English Translation of the Audit Report of Board of Statutory Auditors Originally Issued in Japanese Language

AUDIT REPORT

The Board of Statutory Auditors, having discussed with each other based on the audit reports prepared by each Statutory Auditor regarding the performance of duties of Directors during the 100th term, from April 1, 2011 to March 31, 2012, does hereby report the results of their audit as follows:

I. Auditing Method Employed by Statutory Auditors and Board of Statutory Auditors and Details Thereof

The Board of Statutory Auditors established the audit policy and duties of each Statutory Auditor, received reports from each Statutory Auditor on the execution of audits and results thereof and received reports from Directors and other related persons and Accounting Auditors on the performance of their duties, and, when necessary, requested explanations.

In conformity with the auditing standards for the Statutory Auditors established by the Board of Statutory Auditors and in accordance with the audit policy and the duties assigned to each Statutory Auditor by the Board of Statutory Auditors, each Statutory Auditor has had communication with Directors, employees such as a staff of Internal Auditing Office and other related persons and endeavored to gather information and create an improved environment for auditing. Each Statutory Auditor also attended meetings of the Board of Directors and other important meetings, received from Directors, employees and other related persons reports on the performance of their duties, and, when necessary, requested explanations. Each Statutory Auditor also inspected the important documents and examined the status of operations and properties at the head office and the principal offices of the Company. The Statutory Auditors regularly received from Directors, employees and other related persons reports and, when necessary, requested explanations and expressed opinions with respect to the status of establishment and operation of systems to ensure that the Directors perform their duties stated in the Business Report in compliance with applicable laws and regulations and the Articles of Incorporation, the content of a resolution of the Board of Directors concerning the establishment of other systems necessary to ensure the propriety of company's operations as provided for in Article 100, Paragraphs 1 and 3 of the Ordinance for Enforcement of the Companies Act (internal control system), and the systems established based on said resolution. As for the subsidiaries of the Company, the Statutory Auditors, having communication with the directors and statutory auditors and other related persons of the subsidiaries and sharing information among them, received reports from such subsidiaries as necessary. According to the foregoing method, we examined the business report and the accompanying supplemental schedules for this term.

In addition, the Statutory Auditors also monitored and examined whether the Accounting Auditors maintain their independence and conduct their audits in an appropriate manner. The Statutory Auditors received reports from the Accounting Auditors on the performance of their duties and, when necessary, requested their explanations. The Statutory Auditors also received notification from the Accounting Auditors that they have taken steps to improve the system for ensuring appropriate execution of the duties of the accounting auditors (as set forth in Items of Article 131 of the Ordinance on Corporate Accounting) in compliance with the Quality Control Standard for Auditing (adopted by the Business Accounting Council on October 28, 2005). The Statutory Auditors requested explanations on such notifications as necessary. According to the foregoing method, the Statutory Auditors reviewed the financial statements for this term (balance sheet, statement of income, statement of changes in net assets and notes to non-consolidated financial statements) and the accompanying supplemental schedules and the consolidated financial statements (consolidated balance sheet, consolidated statement of income, consolidated statement of shareholders' equity and comprehensive income (loss) and notes to consolidated financial statements).

2. Results of Audit

(1) Results of Audit of the Business Report and Others

- A. We confirm that the business report and the accompanying supplemental schedules present fairly the status of the Company in conformity with the applicable laws and regulations of Japan as well as the Articles of Incorporation of the Company.
- B. We confirm that there are no fraudulent acts or material facts that violated the applicable laws and regulations of Japan or the Articles of Incorporation of the Company in the course of the performance of the duties of the Directors.
- C. We confirm that the substance of the resolutions by the Board of Directors regarding establishment of Internal Control System is appropriate. We do not see anything to be pointed out on the description of the business report, and the performance of the Directors regarding the Internal Control System.

(2) Results of Audit of the Financial Statements and the Accompanying Supplemental Schedules

We confirm that the method and the results of the audit conducted by KPMG AZSA LLC, the Accounting Auditors, are appropriate.

(3) Results of Audit of the Consolidated Financial Statements

We confirm that the method and the results of the audit conducted by KPMG AZSA LLC, the Accounting Auditors, are appropriate.

REFERENCE DOCUMENT

Propositions and Explanatory Information

Agenda Item No. 1: Appropriations of Surplus

The Company makes it its basic policy for profit distribution to propose the dividends with a target consolidated dividend payout ratio of at least 30% of net income, with a minimum amount for annual total dividends at 18 yen per share; provided, however, that if special circumstances arise, the amount of dividends will be determined based on Net income attributable to Makita Corporation after certain adjustments reflecting such circumstances.

Taking into consideration this basic policy, the future business environment and the business strategy, it is proposed that the surplus be appropriated as follows. As this appropriation, the total dividends for the term under review shall amount to 72 yen per share that include interim dividends in the amount of 15 yen per share.

1. Matters on allocation of dividends to shareholders and total amount of allocation

57 yen per share of common stock

Total amount: 7,737,779,526 yen

2. Effective date of dividend payment

June 27, 2012
