Item 7.01 Regulation FD Disclosure.

On April 23, 2013, Quidel Corporation announced that its board of directors has authorized an amendment to the Company's previously announced stock repurchase program to extend the program through April 22, 2015 and increase the amount available for purchase under the program. Under the amended program, the Company may repurchase up to \$50 million in shares of its common stock, inclusive of the approximately \$22.1 million available for repurchase under the stock repurchase program prior to the new authorization. The Company's board of directors initially authorized the stock repurchase program in May 2005 and has extended and replenished the amount available under the program through additional authorizations from time to time.

The timing and pace of the Company's stock repurchase activity, if any, will depend on several factors such as the amount of cash generation from operations, cash required to execute strategic growth initiatives and current stock price. Under the stock repurchase program, shares of the Company's common stock may be repurchased from time to time in both privately negotiated and open market transactions, including pursuant to Rule 10b5-1 plans, in each case, subject to management's evaluation of market conditions, applicable legal requirements and other factors. The program authorizes the Company to repurchase shares, but does not require the Company to repurchase shares and may be modified, suspended or terminated at any time without prior notice.
