**iShares® Gold Trust**

**Notes to Financial Statements (Unaudited)**

June 30, 2013

**1 - Organization**

The iShares® Gold Trust (the Trust) was organized on January 21, 2005 as a New York trust. The trustee is The Bank of New York Mellon (the Trustee), which is responsible for the day to day administration of the Trust. The Trust's sponsor is iShares Delaware Trust Sponsor LLC, a Delaware limited liability company (the Sponsor). The Trust is governed by the Third Amended and Restated Depositary Trust Agreement (the Trust Agreement) executed by the Trustee and the Sponsor as of February 28, 2013. The Trust issues units of beneficial interest (or Shares) representing fractional undivided beneficial interests in its net assets.

The objective of the Trust is for the value of its Shares to reflect, at any given time, the price of gold owned by the Trust at that time, less the Trust's expenses and liabilities. The Trust is designed to provide a vehicle for investors to own interests in gold bullion.

The accompanying unaudited financial statements were prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) for interim financial information and with the instructions for Form 10-Q and the rules and regulations of the U.S. Securities and Exchange Commission (the SEC). In the opinion of management, all material adjustments, consisting only of normal recurring adjustments considered necessary for a fair statement of the interim period financial statements have been made. Interim period results are not necessarily indicative of results for a full-year period. These financial statements and the notes thereto should be read in conjunction with the Trust's financial statements included in its Annual Report on Form 10-K for the year ended December 31, 2012, as filed with the SEC on February 28, 2013.

The Trust is not an investment company registered under the Investment Company Act of 1940, as amended.

**2 - Summary of Significant Accounting Policies**

*A. Basis of Accounting*

The following is a summary of significant accounting policies consistently followed by the Trust in the preparation of its financial statements in conformity with U.S. GAAP. The preparation of financial statements in conformity with U.S. GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates and these differences could be material.

*B. Gold Bullion*

JPMorgan Chase Bank N.A., London branch (the Custodian), is responsible for the safekeeping of gold bullion owned by the Trust.

For financial statement purposes, the gold bullion held by the Trust is valued at the lower of cost or market, using the average cost method. Should the market value of the gold bullion held be lower than its average cost during the interim periods, an adjustment (market value reserve) to cost may be recorded by the Trust to reflect market value. At the end of the Trust's fiscal year, management will make a determination on whether the reserve is recovered or whether the cost basis of gold should be written down. Gain or loss on sales of gold bullion is calculated on a trade date basis. Fair value of the gold bullion is based on the price of gold fixed in the afternoon of each working day (London time) by the London Gold Market Fixing Ltd. (London PM Fix). If there is no announced London PM Fix on a business day, the Trustee is authorized to use the most recently announced price fixed by the London Gold Market Fixing Ltd. in the morning (London time) of the day the valuation takes place (such price, the London AM Fix).

**Table of Contents**

The following table summarizes activity in gold bullion for the three months ended June 30, 2013 (all balances in 000 s):

	Ounces	Average Cost	Fair Value	Realized Gain (Loss)
Beginning balance	6,821.0	\$ 9,190,784	\$ 10,901,704	\$
Gold contributed				
Gold distributed	(1,060.7)	(1,429,134)	(1,483,453)	54,319
Gold sold	(4.1)	(5,627)	(6,195)	568
Adjustment for realized gain			54,887	
Adjustment for unrealized loss on gold bullion			(2,605,548)	
Market value reserve		(894,628)		
Ending balance	5,756.2	\$ 6,861,395	\$ 6,861,395	\$ 54,887

The following table summarizes activity in gold bullion for the six months ended June 30, 2013 (all balances in 000 s):

	Ounces	Average Cost	Fair Value	Realized Gain (Loss)
Beginning balance	6,999.9	\$ 9,315,055	\$ 11,647,783	\$
Gold contributed	415.6	672,521	672,521	
Gold distributed	(1,650.8)	(2,220,107)	(2,425,068)	204,961
Gold sold	(8.5)	(11,446)	(13,384)	1,938
Adjustment for realized gain			206,899	
Adjustment for unrealized loss on gold bullion			(3,227,356)	
Market value reserve		(894,628)		
Ending balance	5,756.2	\$ 6,861,395	\$ 6,861,395	\$ 206,899

**C. Redeemable Capital Shares**

Shares of the Trust are classified as redeemable for balance sheet purposes, since they are subject to redemption. Trust Shares are issued and redeemed continuously in aggregations of 50,000 Shares in exchange for gold bullion rather than cash. Individual investors cannot purchase or redeem Shares in direct transactions with the Trust. The Trust only transacts with registered broker-dealers that are eligible to settle securities transactions through the book-entry facilities of the Depository Trust Company and that have entered into a contractual arrangement with the Trust and the Sponsor governing, among other matters, the creation and redemption of Shares (such broker-dealers, the Authorized Participants). Holders of Shares of the Trust may redeem their Shares at any time acting through an Authorized Participant and in the prescribed aggregations of 50,000 Shares; *provided*, that redemptions of Shares may be suspended during any period while regular trading on NYSE Arca, Inc. ( NYSE Arca ) is suspended or restricted, or in which an emergency exists as a result of which delivery, disposal or evaluation of gold is not reasonably practicable.

The per Share amount of gold exchanged for a purchase or redemption is calculated daily by the Trustee, using the London PM Fix to calculate the gold amount in respect of any liabilities for which covering gold sales have not yet been made, and represents the per Share amount of gold held by the Trust, after giving effect to its liabilities, sales to cover expenses and liabilities and any losses that may have occurred. If there is no announced London PM Fix on a business day, the Trustee is authorized to use the most recently announced London AM Fix.

When gold is exchanged in settlement of a redemption, it is considered a sale of gold for financial statement purposes.

Due to the expected continuing sales and redemption of capital stock and the three-day period for Share settlement, the Trust reflects capital Shares sold as a receivable, rather than as contra equity. Shares redeemed are reflected as a contra asset on the trade date. Outstanding Trust Shares are reflected at redemption value, which is the net asset value per Share at the period ended date. Adjustments to redemption value are

## Edgar Filing: ISHARES GOLD TRUST - Form 10-Q

reflected in shareholders' equity.

Net asset value is computed by deducting all accrued fees, expenses and other liabilities of the Trust, including the Sponsor's fees, from the fair value of the gold bullion held by the Trust.

**Table of Contents**

Activity in redeemable capital Shares was as follows (all balances in 000 s):

	Three Months Ended June 30, 2013		Six Months Ended June 30, 2013	
	Shares	Amount	Shares	Amount
Beginning balance	701,600	\$ 10,899,390	719,550	\$ 11,645,298
Shares issued			42,750	672,521
Shares redeemed	(109,150)	(1,483,453)	(169,850)	(2,425,068)
Redemption value adjustment		(2,556,187)		(3,033,001)
Ending balance	592,450	\$ 6,859,750	592,450	\$ 6,859,750

**D. Federal Income Taxes**

The Trust is treated as a grantor trust for federal income tax purposes and, therefore, no provision for federal income taxes is required. Any interest, expenses, gains and losses are passed through to the holders of Shares of the Trust.

The Sponsor has reviewed the tax positions as of June 30, 2013 and has determined that no provision for income tax is required in the Trust's financial statements.

**E. Recent Accounting Standard**

In June 2013, the Financial Accounting Standards Board issued Accounting Standards Update 2013-08, *Amendments to the Scope, Measurement, and Disclosure Requirements* (ASU 2013-08). ASU 2013-08 provides guidance to assess whether an entity is an investment company, and gives additional measurement and disclosure requirements for an investment company. ASU 2013-08 is effective for the Trust for fiscal years beginning after December 15, 2013, and interim periods within those fiscal years. Management is evaluating the impact of this guidance on the Trust's financial statements.

**3 - Trust Expenses**

The Trust pays to the Sponsor a Sponsor's fee that accrues daily at an annualized rate equal to 0.25% of the net asset value of the Trust, paid monthly in arrears. The Sponsor has agreed to assume the following administrative and marketing expenses incurred by the Trust: the Trustee's fee, the Custodian's fee, NYSE Arca listing fees, SEC registration fees, printing and mailing costs, audit fees and expenses, and up to \$100,000 per annum in legal fees and expenses.

**4 - Related Parties**

The Sponsor and the Trustee are considered to be related parties to the Trust. The Trustee's fee is paid by the Sponsor and is not a separate expense of the Trust.

**5 - Indemnification**

Under the Trust's organizational documents, the Sponsor is indemnified against liabilities or expenses it incurs without negligence, bad faith or willful misconduct on its part. The Trust's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Trust that have not yet occurred.

**6 - Concentration Risk**

Substantially all of the Trust's assets are holdings of gold bullion, which creates a concentration risk associated with fluctuations in the price of gold. Accordingly, a decline in the price of gold will have an adverse effect on the value of the Shares of the Trust. Factors that may have the

## Edgar Filing: ISHARES GOLD TRUST - Form 10-Q

effect of causing a decline in the price of gold include large sales by the official sector (governments, central banks, and related institutions), an increase in the hedging activities of gold producers, and changes in the attitude towards gold of speculators, investors and other market participants.

---

## **Table of Contents**

### **Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

*This information should be read in conjunction with the financial statements and notes to financial statements included in Item 1 of Part I of this Form 10-Q. The discussion and analysis that follows may contain statements that relate to future events or future performance. In some cases, such forward-looking statements can be identified by terminology such as may, should, expect, plan, anticipate, believe, estimate, predict, potential or the negative of these terms or other comparable terminology. Neither the Sponsor, nor any other person assumes responsibility for the accuracy or completeness of any forward-looking statements. Neither the Trust nor the Sponsor is under a duty to update any of the forward-looking statements to conform such statements to actual results or to a change in the Sponsor's expectations or predictions.*

#### **Introduction**

The iShares® Gold Trust (the Trust) is a grantor trust formed under the laws of the State of New York. The Trust does not have any officers, directors, or employees, and is administered by The Bank of New York Mellon (the Trustee) acting as trustee pursuant to the Third Amended and Restated Depositary Trust Agreement (the Trust Agreement) between the Trustee and iShares Delaware Trust Sponsor LLC, the sponsor of the Trust (the Sponsor). The Trust issues units of beneficial interest (or Shares) representing fractional undivided beneficial interests in its net assets. The assets of the Trust consist primarily of gold bullion held by a custodian as an agent of the Trust responsible only to the Trustee.

The Trust is a passive investment vehicle and the objective of the Trust is for the value of each Share to approximately reflect, at any given time, the price of gold owned by the Trust less the Trust's expenses and liabilities divided by the number of outstanding Shares. The Trust does not engage in any activities designed to obtain a profit from, or ameliorate losses caused by, changes in the price of gold.

The Trust issues and redeems Shares only in exchange for gold, only in aggregations of 50,000 Shares or integral multiples thereof (each, a Basket), and only in transactions with registered broker-dealers that have previously entered into an agreement with the Trust governing the terms and conditions of such issuance (such broker-dealers, the Authorized Participants). A list of current Authorized Participants is available from the Sponsor or the Trustee.

Shares of the Trust trade on NYSE Arca, Inc. under the symbol IAU.

#### **Valuation of Gold; Computation of Net Asset Value**

On each business day, as soon as practicable after 4:00 p.m. (New York time), the Trustee evaluates the gold held by the Trust and determines the net asset value of the Trust and the net asset value per Share. The Trustee values the gold held by the Trust using the price fixed by the London Gold Market Fixing Ltd. in the afternoon (London time) of the day the valuation takes place (such price, the London PM Fix). If there is no announced London PM Fix on a business day, the Trustee is authorized to use the most recently announced price fixed by the London Gold Market Fixing Ltd. in the morning (London time) of the day the valuation takes place (such price, the London AM Fix). Having valued the gold held by the Trust, the Trustee then subtracts all accrued fees, expenses and other liabilities of the Trust from the value of the gold and other assets of the Trust. The result is the net asset value of the Trust. The Trustee computes the net asset value per Share by dividing the net asset value of the Trust by the number of Shares outstanding on the date the computation is made.

#### **Liquidity**

The Trust is not aware of any trends, demands, conditions or events that are reasonably likely to result in material changes to its liquidity needs. In exchange for a fee, the Sponsor has agreed to assume most of the expenses incurred by the Trust. As a result, the only ordinary expense of the Trust during the period covered by this report was the Sponsor's fee. The Trust's only source of liquidity is its sales of gold.

---

## **Table of Contents**

### **Critical Accounting Policies**

The financial statements and accompanying notes are prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements relies on estimates and assumptions that impact the Trust's financial position and results of operations. These estimates and assumptions affect the Trust's application of accounting policies. Below we describe the valuation of gold bullion, a critical accounting policy that we believe is important to understanding our results of operations and financial position. In addition, please refer to Note 2 to the financial statements for further discussion of the Trust's accounting policies.

### **Valuation of Gold Bullion**

Gold bullion held by the Trust is recorded at the lower of cost or market. For purposes of this calculation, market values are based on the London PM Fix. Should the market value of the gold bullion held be lower than its average cost during the interim periods, an adjustment (market value reserve) to cost may be recorded by the Trust to reflect market value. At the end of the Trust's fiscal year, management will make a determination on whether the reserve is recovered or whether the cost basis of gold should be written down. As indicated above, the London PM Fix is also used to value gold bullion held for purposes of calculating the net asset value of the Trust, which in turn is used for the calculation of the redemption value of outstanding Trust Shares. If there is no announced London PM Fix on a business day, the Trustee is authorized to use the most recently announced London AM Fix.

There are other indicators of the value of gold bullion that are available that could be different than that chosen by the Trust. The London PM Fix is used by the Trust because it is commonly used by the U.S. gold market as an indicator of the value of gold, and is permitted to be used under the Trust Agreement. The use of an indicator of the value of gold bullion other than the London PM Fix could result in materially different fair value pricing of the gold in the Trust, and as such, could result in different lower of cost or market adjustments or in different redemption value adjustments of the outstanding redeemable capital Shares.

### **Results of Operations**

#### *The Quarter Ended June 30, 2013*

The Trust's net asset value fell from \$10,899,389,705 at March 31, 2013 to \$6,859,750,291 at June 30, 2013, a 37.06% decrease. The decrease in the Trust's net asset value resulted primarily from a decline in the London PM Fix price, which fell 25.42% from \$1,598.25 at March 31, 2013 to \$1,192.00 at June 30, 2013. The Trust's net asset value was also affected by a decrease in outstanding Shares, which fell from 701,600,000 Shares at March 31, 2013 to 592,450,000 Shares at June 30, 2013, a consequence of 109,150,000 Shares (2,183 Baskets) being redeemed during the quarter.

The 25.48% decline in the Trust's net asset value per Share from \$15.54 at March 31, 2013 to \$11.58 at June 30, 2013 is directly related to the 25.42% decrease in the London PM Fix price.

The Trust's net asset value per Share decreased slightly more than the price of gold on a percentage basis due to the Sponsor's fees, which were \$5,525,598 for the quarter, or 0.06% of the Trust's average weighted assets of \$8,819,825,041 during the quarter. The net asset value per Share of \$15.53 on April 1, 2013 was the highest during the quarter, compared with a low during the quarter of \$11.58 on June 28, 2013. The net asset value of the Trust is obtained by subtracting the Trust's expenses and liabilities on any day from the value of the gold owned by the Trust on that day; the net asset value per Share is obtained by dividing the net asset value of the Trust on a given day by the number of Shares outstanding on that day.

Net loss for the quarter ended June 30, 2013 was \$845,266,971, resulting from a net gain of \$567,517 on the sales of gold to pay expenses and a net gain of \$54,319,126 on gold distributed for the redemption of Shares, offset by Sponsor's fees of \$5,525,598 and the market value reserve of \$894,628,016. Other than the Sponsor's fees and market value reserve, the Trust had no expenses during the quarter.

## **Table of Contents**

### *The Six Months Ended June 30, 2013*

The Trust's net asset value fell from \$11,645,298,468 at December 31, 2012 to \$6,859,750,291 at June 30, 2013, a 41.09% decrease. The decrease in the Trust's net asset value resulted primarily from a decline in the London PM Fix price, which fell 28.37% from \$1,664.00 at December 31, 2012 to \$1,192.00 at June 30, 2013. The Trust's net asset value was also affected by a decrease in outstanding Shares, which fell from 719,550,000 Shares at December 31, 2012 to 592,450,000 Shares at June 30, 2013, a consequence of 42,750,000 Shares (855 Baskets) being created and 169,850,000 Shares (3,397 Baskets) being redeemed during the period.

The 28.43% decline in the Trust's net asset value per Share from \$16.18 at December 31, 2012 to \$11.58 at June 30, 2013 is directly related to the 28.37% decrease in the London PM Fix price.

The Trust's net asset value per Share decreased slightly more than the price of gold on a percentage basis due to the Sponsor's fees, which were \$12,543,853 for the period, or 0.12% of the Trust's average weighted assets of \$10,091,286,783 during the period. The net asset value per Share of \$16.47 on January 2, 2013 was the highest during the period, compared with a low during the period of \$11.58 on June 28, 2013. The net asset value of the Trust is obtained by subtracting the Trust's expenses and liabilities on any day from the value of the gold owned by the Trust on that day; the net asset value per Share is obtained by dividing the net asset value of the Trust on a given day by the number of Shares outstanding on that day.

Net loss for the six months ended June 30, 2013 was \$700,273,317, resulting from a net gain of \$1,937,592 on the sales of gold to pay expenses and a net gain of \$204,960,960 on gold distributed for the redemption of Shares, offset by Sponsor's fees of \$12,543,853 and the market value reserve of \$894,628,016. Other than the Sponsor's fees and market value reserve, the Trust had no expenses during the period.

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

Not applicable.

### **Item 4. Controls and Procedures**

The duly authorized officers of the Sponsor performing functions equivalent to those a principal executive officer and principal financial officer of the Trust would perform if the Trust had any officers, and with the participation of the Trustee, have evaluated the effectiveness of the Trust's disclosure controls and procedures, and have concluded that the disclosure controls and procedures of the Trust have been effective as of the end of the period covered by this report to provide reasonable assurance that information required to be disclosed in the reports that the Trust files or submits under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported, within the time periods specified in the applicable rules and forms, and that it is accumulated and communicated to the duly authorized officers of the Sponsor performing functions equivalent to those a principal executive officer and principal financial officer of the Trust would perform if the Trust had any officers, as appropriate to allow timely decisions regarding required disclosure.

There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures.

There were no changes in the Trust's internal control over financial reporting that occurred during the period covered by this report that have materially affected, or are reasonably likely to materially affect, the Trust's internal control over financial reporting.
