Notes to Interim Condensed Consolidated Financial Statements

June 30, 2013

(In US dollars, tabular amounts in thousands, except as otherwise noted)

1 - GENERAL BUSINESS DESCRIPTION

Intertape Polymer Group Inc. (the Parent Company), incorporated under the *Canada Business Corporations Act*, has its principal administrative offices in Montreal, Quebec, Canada and in Sarasota-Bradenton, Florida, U.S.A. The address of the Parent Company's registered office is 1250 René-Lévesque Blvd. West, Suite 2500, Montreal, Quebec, Canada H3B 4Y1, c/o Heenan Blaikie LLP. The Parent Company's common shares are listed on the Toronto Stock Exchange (TSX) in Canada.

The Parent Company and its subsidiaries (together referred to as the Company), develop, manufacture and sell a variety of paper and film based pressure sensitive and water activated tapes, specialized polyolefin films, woven fabrics and complementary packaging systems for industrial and retail use.

Intertape Polymer Group Inc. is the group's ultimate parent.

2 - ACCOUNTING POLICIES

Basis of Presentation and Statement of Compliance

The unaudited interim condensed consolidated financial statements (financial statements) present the Company's consolidated balance sheets as of June 30, 2013 and December 31, 2012, as well as its interim consolidated earnings (loss), comprehensive income (loss) and cash flows for the three and six months ended June 30, 2013 and 2012, and the changes in shareholders' equity for the six months ended June 30, 2013 and 2012. These financial statements have been prepared in accordance with International Accounting Standard (IAS) 34 *Interim Financial Reporting* and are expressed in US dollars. Accordingly, certain information and footnote disclosures normally included in annual financial statements prepared in accordance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB), have been omitted or condensed.

Estimates

When preparing the financial statements, management undertakes a number of judgments, estimates and assumptions about recognition and measurement of assets, liabilities, income and expenses. The actual results may differ from the judgments, estimates and assumptions made by management, and will seldom equal the estimated results. The judgments, estimates and assumptions applied in the financial statements, including the key sources of estimation uncertainty, were the same as those applied in the Company's most recent annual audited consolidated financial statements. The only exceptions are the estimate of the provision for income taxes which is determined in the financial statements using the estimated weighted average annual effective income tax rate applied to the pre-tax income of the interim period and the item discussed in Note 3. These financial statements and notes should be read in conjunction with the Company's most recent annual audited consolidated financial statements.

Presentation of items of other comprehensive income (loss)

Edgar Filing: INTERTAPE POLYMER GROUP INC - Form 6-K

Amended IAS 1 *Presentation of Financial Statements*: requires entities to group items presented in other comprehensive income (loss) (OCI) into those that, in accordance with other IFRS, will be reclassified subsequently to earnings or loss and those that will not be reclassified subsequently to earnings or loss when specific conditions are met. The existing option to present items of OCI either before tax or net of tax remains unchanged: however, if the items are presented before tax then amended IAS 1 requires the tax related to each of the two groups of OCI to be shown separately.

Table of Contents

These financial statements reflect all adjustments which are, in the opinion of management, necessary to a fair statement of the results for the interim periods presented. These adjustments are of a normal recurring nature.

These financial statements were authorized for issuance by the Company's Board of Directors on August 14, 2013.

New Standards and Interpretations Issued But Not Yet Effective

Certain new standards, amendments and interpretations, and improvements to existing standards have been issued by the IASB but are not yet effective, and have not been adopted by the Company. Management anticipates that all of the relevant pronouncements will be adopted by the first period beginning the date of the pronouncement. Information on new standards, amendments and interpretations, and improvements to existing standards, which could potentially impact the Company's financial statements are detailed as follows:

IFRS 9 Financial Instruments and *IFRS 7 Financial Instruments: Disclosures*: The IASB intends to replace *IAS 39 Financial Instruments: Recognition and Measurement* in its entirety. The replacement standard (IFRS 9) is being issued in phases. To date, the chapters dealing with recognition, classification, measurement and derecognition of financial assets and liabilities have been issued. These chapters are effective for annual periods beginning on or after January 1, 2015. Further chapters dealing with impairment methodology and hedge accounting are still being developed. *IFRS 7* has been amended to require disclosures that are either permitted or required on the basis of the entity's date of adoption of *IFRS 9* and whether the entity elects to restate prior periods under *IFRS 9* and is effective for annual periods beginning on or after January 1, 2015. Management has yet to assess the impact that these amendments are likely to have on the financial statements of the Company.

Certain other new standards and interpretations have been issued but are not expected to have a material impact on the Company's financial statements.

3 - PENSION AND OTHER POST-RETIREMENT BENEFIT PLANS

As noted in the March 31, 2013 Interim Condensed Consolidated Financial Statements, the Company adopted Amended *IAS 19 Employee Benefits* on January 1, 2013.

Amended IAS 19 Employee Benefits: Amended for annual periods beginning on or after January 1, 2013 with retrospective application, introduced a measure of net interest income (expense) computed on the net pension asset (obligation) that replaced separate measurement of the expected return on plan assets and interest expense on the benefit obligation. The amended standard also required immediate recognition of past service costs associated with benefit plan changes; eliminating the requirement to recognize over the vesting period.

Upon retrospective application of the amended standard, the Company's net earnings for 2012 were lower than originally reported. The decrease arose primarily because net interest income (expense) was calculated using the discount rate used to value the benefit obligation, which is lower than the expected rate of return on assets previously used to measure interest attributable to plan assets. On a quarterly basis, this also resulted in an income tax benefit and an increase to the net pension liability.

Table of Contents

The impact of these changes for the three and six month periods ended June 30, 2012 is summarized as follows:

For the years ended December 31, 2012 and 2011, the impact of adoption is a decrease to earnings before income tax benefit of \$2.3 million and \$1.7 million, respectively and an income tax benefit of \$0.2 million for each of these years. This impact also results in an equivalent net increase to other comprehensive income and deficit. As such, the retrospective application did not result in an impact to the Company's balance sheets as of January 1, 2012 and December 31, 2012.

The Company's interim consolidated cash flows were not significantly impacted.

During the three and six months ended June 30, 2013, the net book value of property, plant and equipment disposals amounted to less than \$0.1 million and \$1.5 million, respectively (\$0.1 million and \$0.3 million for the three and six months ended June 30, 2012, respectively) and the loss on those disposals amounted to less than \$0.1 million (\$0.1 million and \$0.3 million loss for the three and six months ended June 30, 2012, respectively).

On June 28, 2013, in connection with the relocation of the Columbia, South Carolina manufacturing facility, the Company purchased real estate including land and building of \$11.3 million in Blythewood, South Carolina. The purchase is included under the caption property, plant and equipment in construction in progress as the real estate is being prepared for its intended use and is expected to be placed into service in a future period.

8 - INCOME TAXES

Income tax expense (benefit) is recognized in each interim period based on the best estimate of the weighted average annual income tax rate expected for the full financial year. Amounts accrued for income tax expense (benefit) in one interim period may have to be adjusted in a subsequent interim period of the financial year if the estimate of the annual income tax rate changes. The effective tax rate for the three and six months ended June 30, 2013 was approximately 12.4% and 136.4%, respectively (11.3% and negative 1.7% for the three and six months ended June 30, 2012, respectively). The increase in effective tax rate between the three months ended June 30, 2013 and the three months ended June 30, 2012 is primarily due to income tax expense recorded for stock options exercised, the impact of the nonrecurrence of US alternative minimum tax recorded on losses before income tax expense due to the

Table of Contents

ability in the second quarter of 2013 to utilize certain US alternative minimum tax net operating losses without limitation, an increase in the state effective tax rate due to the combination of higher earnings before income tax expense in the second quarter of 2013 resulting from lower manufacturing rationalization charges and an increase in state income taxes due to a decrease in the amount of state net operating loss carryforwards available in certain states; and the expected change in the apportionment of taxable income by province in Canada. These increases to the effective tax rate were offset by a significant change in earnings before income tax expense in a jurisdiction for which the Company does not record deferred tax assets. The increase in effective tax rate between the six months ended June 30, 2013 and the six months ended June 30, 2012 is primarily due to income tax expense recorded for stock options exercised, an increase in state income taxes resulting from a decrease in the amount of state net operating loss carryforwards available in certain states and the combination of an increase in state taxable income with a reduction in earnings before income tax expense due to higher manufacturing rationalization charges; and the expected change in the apportionment of taxable income by province in Canada. These increases were offset by the benefit received from the ability in the first six months of 2013 to utilize certain US alternative minimum tax net operating losses without limitation.

The maturity of the loan may be accelerated if the ABL facility is not extended, refinanced with a credit facility acceptable to Wells Fargo Bank, National Association (Wells Fargo), or if Wells Fargo ceases to be an ABL lender by reason of the action of the Company.
