***Note:** An explanation of the significance of securities ratings may be obtained from the assigning rating agencies. Generally, rating agencies base their ratings on such material and information, and such of their own investigations, studies and assumptions, as they deem appropriate. The rating of the 2018 Notes and the 2023 Notes should be evaluated independently from similar ratings of other securities. A securities rating is not a recommendation to buy, sell or hold securities and may be subject to review, revision, suspension, reduction or withdrawal at any time by the assigning rating agency.

We expect that delivery of the notes will be made to investors on or about October 8, 2013, which will be the fifth business day following the date of the prospectus supplement (such settlement being referred to as T+5). Under Rule 15c6-1 under the Securities Exchange Act of 1934, trades in the secondary market are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade notes prior to the delivery of the notes will be required, by virtue of the fact that the notes initially settle in T+5, to specify an alternate settlement arrangement at the time of any such trade to prevent a failed settlement. Purchasers of the notes who wish to trade the notes prior to their date of delivery should consult their advisors.
