Item 7.01 Regulation FD Disclosure.

On November 12, 2013, the Registrant intends to make a slide presentation at the *Credit Suisse Health Care Conference*, a copy of which is furnished herewith as Exhibit 99.1 and is incorporated herein by reference.

This slide presentation includes financial measures that are not in conformity with accounting principles generally accepted in the United States. We refer to these as non-GAAP financial measures. Specifically, the presentation refers to adjusted diluted earnings per share.

The adjusted diluted earnings per share are non-GAAP financial measures. These non-GAAP financial measures are not prepared in accordance with accounting principles generally accepted in the United States and may be different from non-GAAP financial measures used by other companies. Endo refers to these non-GAAP financial measures in making operating decisions because it believes they provide meaningful supplemental information regarding the company's operational performance. For instance, Endo believes that these non-GAAP financial measures facilitate its internal comparisons to its historical operating results and comparisons to competitors' results. The company includes these non-GAAP financial measures because it believes they are useful to investors in allowing for greater transparency related to supplemental information used by Endo in its financial and operational decision-making. In addition, Endo has historically reported similar non-GAAP financial measures to its investors and believes that the inclusion of comparative numbers provides consistency in its financial reporting at this time. Further, Endo believes that these non-GAAP financial measures may be useful to investors as it is aware that certain of its significant stockholders utilize these measures to evaluate its financial performance. Finally, these measures are considered by the Compensation Committee of Endo's Board of Directors in assessing the performance and compensation of substantially all of its employees, including its executive officers.

Investors are encouraged to review the reconciliation of the non-GAAP financial measures used in the slide presentation to their most directly comparable GAAP financial measures as provided within this slide presentation.

However, with the exception of projected adjusted diluted earnings per share, we have not provided a quantitative reconciliation of projected non-GAAP measures including adjusted gross margin, adjusted operating expenses and adjusted effective tax rate. Not all of the information necessary for quantitative reconciliation is available to us at this time without unreasonable efforts. This is due primarily to variability and difficulty in making accurate detailed forecasts and projections. Accordingly, we do not believe that reconciling information for such projected figures would be meaningful.

Safe Harbor Statement

This communication contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Statements including words such as believes, expects, anticipates, intends, estimates, may, look forward, intend, guidance, future or similar expressions are forward-looking statements. These forward-looking statements may include, without limitation, statements regarding the completion of the proposed transaction and other statements that are not historical facts. Although Endo and Paladin each believe its forward-looking statements are reasonable, they are subject to important risks and uncertainties. Those include, without limitation, the failure to receive, on a timely basis or otherwise, the required approvals by Endo and Paladin shareholders, the Superior Court of Québec and applicable government and regulatory authorities, the terms of those approvals, the risk that a condition to closing contemplated by the arrangement agreement may not be satisfied or waived, the inability to realize expected synergies or cost savings or difficulties related to the integration of Endo and Paladin operations, the ability of the combined company to retain and hire key personnel and maintain relationships with customers, suppliers or other business partners, or other adverse events, changes in applicable laws or regulations, competition from other pharmaceutical companies, and other risks disclosed in Endo and Paladin's public filings, any or all of which could cause actual results to differ materially from future results expressed, projected or implied by the forward-looking statements. The forward-looking statements in this communication are qualified by these risk factors. As a result of these risks and uncertainties, the proposed transaction could be modified, restructured or not be completed, and actual results and events may differ materially from the results and events contemplated in these forward-looking statements and from historical results. Neither Endo nor Paladin assumes any obligation to publicly update any forward-looking statements, except as may be required under applicable securities laws, or to comment on expectations of, or statements made by the other party or third parties in respect of the proposed transaction. These forward-looking statements are not guarantees of future performance, given that they involve risks and uncertainties. Investors should not assume that any lack of update to previously issued forward-looking statement constitutes a reaffirmation of that statement. Continued reliance on forward-looking statements is at investors' own risk.
