## EXECUTIVE COMPENSATION

### COMPENSATION DISCUSSION AND ANALYSIS

#### Background

This Compensation Discussion and Analysis explains our compensation philosophy, policies and practices for the following current and former executives, who are referred to in this Compensation Discussion and Analysis and in the following tables as our named executive officers:

Matthew J. Desch, chief executive officer;

Thomas J. Fitzpatrick, chief financial officer and chief administrative officer;

S. Scott Smith, chief operating officer;

Thomas D. Hickey, chief legal officer;

Bryan J. Hartin, executive vice president, sales & marketing; and

John M. Roddy, former executive vice president, quality and global operations, Iridium Satellite.

#### Executive Summary

Our executive compensation program is designed to attract, reward and retain a talented, innovative and entrepreneurial team of executives. To do so, we believe that a majority of their target compensation should be based on performance, both of the individual and of the business. We structure our variable compensation programs to recognize both short-term and long-term contributions.

*2013 Say-on-Pay Vote.* We conducted our third advisory vote on executive compensation, or say-on-pay vote, at our annual meeting of stockholders in 2013. Approximately 90.9% of the votes cast on the say-on-pay proposal supported the proposal. Our Board and our Compensation Committee value the opinions of our stockholders, and we believe that it is important for our stockholders to have an opportunity to vote on this proposal annually, which is consistent with the frequency preferred by our stockholders. Our Compensation Committee's decisions regarding compensation for 2013 reflected our say-on-pay vote in 2012, which was supported by approximately 91.5% of the votes cast on the proposal. In addition to our annual advisory vote on executive compensation, we are committed to ongoing engagement with our stockholders on executive compensation and corporate governance issues.

While our 2013 say-on-pay vote was advisory only, our Compensation Committee has considered the results of the vote in the context of our overall compensation philosophy, policies and decisions. Our Compensation Committee believes that, similar to our 2012 say-on-pay vote, this 2013 stockholder vote strongly endorsed our compensation philosophy and the decisions we made for 2012. After discussing the levels of support in each of the three years in favor of the proposals, and considering the Compensation Committee's activity in 2012 to adopt additional measures, including stock ownership guidelines and a new performance-based restricted stock unit program to further align

management and stockholder interests, our Compensation Committee decided to generally maintain a consistent course for 2013 compensation decisions.

*Important Features of our Executive Compensation Program.* The important features of our executive compensation program include:

Our executive compensation is heavily weighted toward at-risk, performance-based compensation in the form of an incentive cash bonus opportunity that is based on achievement of revenue, operational EBITDA, and sales and other strategic and financial goals selected annually by our Compensation Committee, and an equity compensation opportunity in the form of stock options, performance-based restricted stock units and time-based restricted stock units that provide incentives for our executives to meet certain performance goals and increase the market value of our common stock. In 2013, these forms of at-risk, performance-based compensation represented approximately 63% of our chief executive officer's target total direct compensation, and an average of 54% of our other executives' target total direct compensation.

Fifty percent of the value of annual equity awards vest based on the achievement of performance criteria.

The cash severance benefits that we offer to our executives do not exceed three times base salary and annual bonus.

We do not provide our executive officers with any excise tax or other tax gross ups.

We do not provide any defined benefit pension plans or supplemental employee retirement plans to our executive officers.

As further described below, our executives are required to comply with our stock ownership guidelines, which we adopted in February 2012. Under these guidelines, our chief executive officer is required to accumulate shares of our common stock with a value equal to four times his annual base salary and our executive vice presidents, including our chief financial officer, chief operating officer and chief legal officer, are required to accumulate shares of our common stock with a value equal to two times their annual base salaries.

Our insider trading policy prohibits our employees, including our executives, directors and consultants, from hedging the economic interest in the Iridium shares they hold, and no pledges of stock occurred during 2013.

Our Compensation Committee has retained an independent third-party compensation consultant for guidance in making compensation decisions.

Our Compensation Committee reviews market practices and makes internal comparisons among our executives when making compensation decisions.

We structure our executive compensation programs to try to minimize the risk of inappropriate risk-taking by our executives.

*Pay for Performance.* Our chief executive officer and our other executive officers received a payout of approximately 66% of target from our 2013 cash incentive bonus plan. The below target payout was the result of our revenue, operational EBITDA and certain net subscriber activations falling short of the threshold targets for payout under the plan, while we achieved payout targets for a successful renewal of our contract with our government customer, achievement of milestones for the construction of our Iridium NEXT satellite constellation and targets relating to our joint venture, Aireon LLC. This payout underscores the strong role that at-risk, performance-based compensation plays in our executive compensation program.

In February 2012, we adopted a new performance-based restricted stock unit program for senior executives to further link compensation received from equity-based awards to achievement of specific company performance targets. The performance-based restricted stock units granted in 2012 did not vest because the performance targets applicable to these grants were not achieved in the measurement period of 2012 and 2013. The performance-based restricted stock units granted in 2013 that are scheduled to vest based on the measurement period of 2013 and 2014 are also not expected to vest based on the performance results from 2013 and our projected 2014 results. The forfeiture of these performance-based restricted stock units underscores the emphasis on and the linkage of this program to rewarding our executive officers based on performance. We continued to grant awards under this program in 2013 and 2014 because we believe performance-based equity contributes to our goal of heavily weighting executive compensation

toward performance-based compensation.

We also grant long-term incentives in the form of options to purchase shares of our common stock and we have periodically granted restricted stock units subject to time-based vesting to align the interests of our executives with those of our stockholders and promote long-term decision making. The value, if any, that may be realized from these equity awards is directly tied to our stock price performance over a multi-year period, during which time a named executive officer must continue to provide effective and satisfactory services to us for his equity awards to vest.

*Chief Executive Officer's Realized Equity Compensation.* The following chart illustrates the difference between the compensation reported in the 2013 Summary Compensation Table and compensation actually realized by our chief executive officer for 2013 related to his stock options, performance-based restricted stock units and restricted stock unit awards subject to time-based vesting granted during 2013, 2012 and 2011. We believe this supplemental information is important because a significant portion of our chief executive officer's compensation reported in the Summary Compensation Table is an incentive for future performance, which, with respect to the stock options, will provide an economic benefit to him only if the market price for our common stock is greater than the exercise price of the options at the time of exercise. Similarly, performance-based restricted stock unit awards only provide an economic benefit if the applicable long-term performance goals are achieved.

As can be seen, the economic value realized during 2013 from the equity awards granted to our chief executive officer during 2013 and all 2012 restricted stock unit awards differs significantly from the amounts required to be reported in the 2013 Summary Compensation Table for these equity awards. This reflects the consequence of our effective pay-for-performance program.

**2013 CEO Total Reported Compensation for Equity Awards(1)**

**Versus Total Realized Compensation for Equity Awards(2)**

- (1) Total reported equity compensation is defined as the grant date value of stock awards and option awards as reported in the 2013 Summary Compensation Table.
- (2) Total realized equity compensation is defined as the sum of (i) the intrinsic value of stock options granted during each year, (ii) the payout value of any restricted stock unit awards that vested during each year, (iii) the payout value of performance-based restricted stock unit awards that vested during each year for performance periods that started and ended during such year and (iv) the expected value of performance-based restricted stock unit awards for performance periods that remained outstanding at the end of the year, in each of (i) through (iv) valued as of December 31, 2013.

**Objectives of Our Compensation Programs**

We design our executive compensation programs to:

provide a competitive compensation package to attract and retain talented individuals to manage and operate all aspects of our business;

motivate our executives to achieve corporate and individual objectives that promote the growth and profitability of our business, as measured by objective goals; and

align the interests of our executive officers with those of our stockholders.

To meet these objectives, we provide base salary, performance-based annual cash incentives, performance-based and time-based equity incentive awards, broad-based employee benefits with limited perquisites, and responsible severance benefits. We do not have formal policies for allocating compensation between long-term and currently paid-out

compensation, between cash and non-cash compensation, or among different forms of cash compensation and non-cash compensation, but rather, the Compensation Committee makes determinations regarding the allocation of compensation based on the best interests of our company with the goal of encouraging and rewarding performance.

### **Role of the Compensation Committee**

Our Compensation Committee is generally responsible for reviewing, modifying, approving and otherwise overseeing the compensation policies and practices applicable to all of our employees, including the administration of our equity plans and employee benefit plans. As part of this responsibility, the Compensation Committee establishes, reviews and modifies the compensation structure for our named executive officers. However, the Compensation Committee may, at its discretion and in accordance with the philosophy of making all information available to our Board, present executive compensation matters to the entire Board for its review and approval.

The Compensation Committee has the authority to delegate some or all of its duties to a subcommittee of its own members. In 2010, the Compensation Committee made a non-exclusive delegation of limited authority to a subcommittee tasked with approving both cash and equity compensation that may qualify as performance-based compensation under Section 162(m) of the Code. Approval of compensation by the subcommittee is not a guarantee of deductibility, and the Compensation Committee and the subcommittee reserve the right to structure compensation in a manner that may not meet the standards for performance-based compensation. When we refer to the Compensation Committee in this Compensation Discussion and Analysis, we mean the Compensation Committee or its subcommittee, as applicable.

As part of its deliberations, in any given year, the Compensation Committee may review and consider materials such as company compensation and studies and reports prepared by a compensation consultant, financial reports and projections, operational data, tax and accounting information that set forth the total compensation that may become payable to executives in various hypothetical scenarios, executive and director stock ownership information, our common stock performance data, analyses of historical executive compensation levels and current company-wide compensation levels, and the recommendations of our chief executive officer and the Compensation Committee's independent compensation consultant.

### **Role of Management**

Our Compensation Committee solicits and considers the performance evaluations and compensation recommendations for our named executive officers submitted by our chief executive officer. However, our Compensation Committee retains the final authority to make all compensation decisions. No executive officer participated directly in the final determinations of the Compensation Committee regarding the amount of any component of his own 2013 compensation package.

Our human resources, finance and legal departments work with our chief executive officer to design and develop recommended compensation programs for our named executive officers and other senior executives, to recommend changes to existing compensation programs, to recommend financial and other performance targets to be achieved under those programs, to prepare analyses of financial data, to prepare peer data comparisons and other briefing materials, and ultimately to implement the decisions of the Compensation Committee. Members of our legal department also meet separately with the Compensation Committee's independent compensation consultant to convey information on proposals that management may make to the Compensation Committee, as well as to allow the consultant to collect information about our company to develop its own proposals.

### **Use of Compensation Consultant**

Our Compensation Committee decided to continue its engagement of Frederic W. Cook & Co., Inc., or F.W. Cook, as its independent compensation consultant for compensation decisions in 2013. The Compensation Committee originally retained F.W. Cook in 2009 after considering a number of other national compensation consulting firms. The Compensation Committee selected F.W. Cook for its expertise in the telecommunications industry, the recommendations of other clients of F.W. Cook, and the availability of the consultant to attend meetings.

F.W. Cook provided the Compensation Committee with the following services in relation to compensation decisions for 2013:

reviewed and provided recommendations on the compensation program for our non-employee directors;

advised on the design and structure of our cash and equity incentive compensation programs;

prepared an analysis of our share usage under our equity incentive plan;

conducted a risk analysis of our compensation programs;

updated the Compensation Committee on emerging trends and best practices in the area of executive and Board compensation;

reviewed and provided recommendations on the composition of our 2013 peer group of companies;

provided compensation data for similarly situated executive officers at companies in our peer group; and

reviewed the compensation arrangements for all of our named executive officers, including the design and structure of our annual cash incentive bonus plan and equity-based incentive compensation program.

In addition, in the fall of 2013, the Compensation Committee engaged F.W. Cook to conduct an in-depth review of the design and competitive positioning of our compensation programs for our executive officers and non-employee directors. F.W. Cook provided analyses of the compensation levels and opportunities, incentive plan design, aggregate long-term incentive practices, stock ownership guidelines and perquisites for our executive officers. F.W. Cook also provided an analysis of the structure and amount of compensation received by our non-employee directors in relation to the compensation received by non-employee directors of companies in our peer group.

The Compensation Committee has the authority to hire and terminate its compensation consultant. The company pays the cost for the consultant's services. F.W. Cook attends meetings of the Compensation Committee at the request of the Compensation Committee. The Chairman of the Compensation Committee also may communicate separately with F.W. Cook. If and as requested by the Compensation Committee, F.W. Cook gathers information from management necessary to perform its duties to the Compensation Committee. F.W. Cook did not provide any services directly to management or to the company.

The Compensation Committee regularly reviews the performance and independence of F.W. Cook and of each individual employee of the consulting firm who directly provides services to the company. In March 2014, the Compensation Committee considered whether F.W. Cook should continue to serve as an independent adviser to the Compensation Committee. The Compensation Committee requested information from F.W. Cook about potential conflicts of interest, and in particular, considered the fact that F.W. Cook provides no other services to the company, that the individual representative of F.W. Cook who works directly with the Compensation Committee has no other business or personal relationships with the Board, management or the company, F.W. Cook's own policies on ethics,

stock ownership, and conflicts of interest, and that the total revenue F.W. Cook received from the company in 2011, 2012 and 2013 did not exceed 0.5% of F.W. Cook's gross revenues. In particular, the total fees paid to F.W. Cook in respect of 2013 did not exceed \$60,000. As a result, the Compensation Committee concluded that there were no conflicts of interest with respect to F.W. Cook providing services to the Compensation Committee.

#### **Use of Peer Data**

In the summer of 2011, the Compensation Committee engaged F.W. Cook to review and provide recommendations on the composition of our peer group of companies and, after the Compensation Committee approved a final list of peers, to provide compensation data for similarly situated executive officers at this new peer group based on proxy filings made by those companies in the spring of 2011. The Compensation Committee selected public companies in the telecommunications industry with revenues, operating income, total assets, market capitalization and number of employees generally comparable to those of Iridium. The Compensation Committee chose companies with respect to which Iridium was positioned between the 25th percentile and the median in all but one size measure (Iridium was below the 25th percentile for number of employees). The selected companies were:

**Peer Group Companies (2012-2013)**

DigitalGlobe	Hughes Communications	NeuStar
EMS Technologies	Inmarsat	ORBCOMM
GeoEye	Intelsat	PAETEC Holding Corp
GlobalStar	j2 Global Communications	Premier Global Services
Globecomm Systems	Loral Space & Communications	ViaSat

This peer group was very similar to a prior year peer group developed for us by F.W. Cook, reflecting the addition of DigitalGlobe (which became publicly traded in May 2009), and the removal of Broadview Networks (due to poor data), SkyTerra Communications (which became privately held in 2010) and tw telecom (as it was no longer considered an appropriate peer due to size and line of business). Data from this peer group was reviewed when making decisions regarding executive compensation for both 2012 and 2013.

In the fall of 2013, in connection with F.W. Cook's review of our compensation programs, the Compensation Committee engaged F.W. Cook to conduct a study to review and update our peer group in preparation for compensation decisions made for 2014. Based on F.W. Cook's recommendations our revised peer group includes fourteen public companies in the telecommunications industry with revenues, operating income, total assets, market capitalization and number of employees generally comparable to those of Iridium. This peer group is very similar to the 2011 peer group developed for us by F.W. Cook that was used when making 2012 and 2013 executive compensation decisions. The selected companies were:

**2014 Peer Group Companies**

Aviat Networks	Globecomm Systems	NeuStar
Comtech	Inmarsat	ORBCOMM
Consolidated Communications	Intelsat	Premier Global Services
DigitalGlobe	j2 Global Communications	ViaSat
Globalstar	Loral Space & Communications	

The revised group reflects the addition of Aviat Networks, Comtech, Consolidated Communications and Intelsat to enhance the statistical validity of the sample as several former companies in the peer group were no longer publicly traded, and the removal of EMS Technologies, GeoEye (which was acquired by DigitalGlobe), Hughes Communications and PAETEC Holding Corp because public compensation data was no longer available for such companies.

Our Compensation Committee does not make decisions solely based on peer data, but refers to peer data to help ensure that target compensation amounts do not materially deviate from market practices (as reflected by the 25th percentile, median and 75th percentile of peer group) and that target amounts provide fair compensation given individual and company performance. In particular, the Compensation Committee requested data from F.W. Cook at the 25th percentile, median and 75th percentile of the peer group for base salary, target cash bonus, actual cash bonus, aggregate equity award value, total target compensation and total actual compensation. However, individual compensation decisions may deviate from the peer data, as our Compensation Committee discussed the peer data and made the 2013 compensation decisions in the context of:

the differences in our executives' responsibilities and tenure, as compared to the executives in our peer group, as title is not always determinative of the comparability of role from one organization to another;

the experiences, knowledge and business judgment of each member;

corporate and individual performance, which includes setting target compensation opportunities after taking into account, in a subjective fashion, performance in the prior year, as well as the anticipated demands on the executive in the coming year;

the desire to maintain target pay opportunities and allocations between cash and equity at levels that were consistent with historical pay levels for each of our executives, given the positive responses to our past say-on-pay proposals;

our 3% company-wide corporate merit increase budget for base salaries in 2013, reflecting our desire to maintain a responsible human capital cost structure; and

internal pay equity, which we view from the perspective that (1) the target total compensation of our executive officers, other than our chief executive officer, should be within a relatively narrow range, and (2) the target total compensation of our chief executive officer should be meaningfully higher than that of our other officers, in each case, given the relative weight of their responsibilities and ability to impact our corporate performance.

### Reasons for Providing, and Manner of Structuring, the Key Compensation Elements in 2013

#### *Base Salary*

We provide base salary as a fixed source of compensation for our executives for the services they provide to us during the year and to balance the impact of having a significant portion of their compensation at risk in the form of annual cash incentive bonuses and long-term equity-based incentive compensation. Our Compensation Committee recognizes the importance of a competitive base salary as an element of compensation that helps to attract and retain our executive officers.

In February 2013, the Compensation Committee reviewed the base salaries for our executive officers. The Compensation Committee considered each officer's 2012 base salary level, the updated peer data from F.W. Cook for our chief executive officer, our 3% company-wide corporate merit increase budget for base salaries, the scope of each executive's responsibilities for 2013, and internal pay equity. The Compensation Committee also considered the recommendations of our chief executive officer for base salary increases for officers other than himself. The Compensation Committee set the 2013 base salaries of each of the named executive officers as follows:

Name	2012 Base Salary	2013 Base Salary	% Merit Increase
Matthew J. Desch	\$ 749,240*	\$ 771,718	3.0%
Thomas J. Fitzpatrick	\$ 424,360	\$ 437,091**	3.0%
S. Scott Smith	\$ 334,400	\$ 351,120***	5.0%
Thomas D. Hickey	\$ 303,850	\$ 312,966	3.0%
Bryan J. Hartin	\$ 300,000	\$ 300,000****	0.0%
John M. Roddy	\$ 341,136	\$ 346,253	1.5%

\* Includes an additional 2.4% salary increase for Mr. Desch in November 2012 pursuant to the terms of his previously negotiated employment agreement to coincide with the termination of a company car perquisite. Mr. Desch's actual salary received in 2012 was \$731,521.

\*\* In August 2013, Mr. Fitzpatrick's annual base salary was increased to \$480,000 in connection with his appointment as our chief administrative officer, in addition to his continuing role as our chief financial officer.

\*\*\* In February 2013, the Compensation Committee determined it was appropriate to provide a larger salary increase to Mr. Smith to reflect his increased level of responsibility in the organization and to further our goal of internal pay equity. In August 2013, Mr. Smith's annual base salary was increased to \$420,000 in connection with his

appointment as our chief operating officer.

\*\*\*\* Mr. Hartin joined the company in December 2012 and was not eligible for a salary increase for 2013.

**2013 Bonuses**

*2013 Bonus Plan.* In March 2013, the Compensation Committee approved our 2013 executive cash performance bonus plan, or our 2013 bonus plan, which operated under the terms of our Iridium Communications Inc. 2012 Equity Incentive Plan, or our 2012 Plan. Our 2012 Plan was approved by our Board and our stockholders in 2012, and allows for the granting of performance-based compensation opportunities that may be deductible by us under Section 162(m) of the

Code as amounts paid contingent upon the achievement of pre-established stockholder-approved performance goals. Our 2013 bonus plan provided cash compensation opportunities to our named executive officers based on our achievement of pre-established performance goals derived from our Board-approved operating plan for 2013. The Compensation Committee has the discretion to reduce the amount of any bonus award payable to any participant in the 2013 bonus plan.

*Target Bonus Levels.* In March 2013, the Compensation Committee approved a target cash incentive bonus award for each executive, and capped the maximum bonus award at twice the target level in the event that stretch performance goals were achieved. These levels were consistent with our philosophy that a significant portion of each executive's total target cash compensation should be performance-based, and reflected the Compensation Committee's review of internal pay equity and its conclusion that, except for Mr. Smith, no extraordinary factors created a need to modify the 2012 target bonus levels. Mr. Smith's target bonus was increased effective as of January 1, 2013 from 60% to 70% to reflect his changing role and increased level of responsibility at our organization. The Compensation Committee also considered the recommendation of our chief executive officer that target levels for the other officers generally not change from 2012 levels. The respective target amounts for 2013 for our named executive officers were:

Name	2013 Target Bonus	% of 2013 Base Salary
Matthew J. Desch	\$ 694,546	90%
Thomas J. Fitzpatrick	\$ 340,496	75%
S. Scott Smith	\$ 264,779	70%*
Thomas D. Hickey	\$ 187,780	60%
Bryan J. Hartin	\$ 180,000	60%
John M. Roddy	\$ 207,752	60%

\* In August 2013, Mr. Smith's annual bonus target was increased to 75% effective January 1, 2014 in connection with his appointment as our chief operating officer.

*2013 Bonus Plan Structure and Metrics.* The actual bonus award for each executive under the 2013 bonus plan was calculated by multiplying the executive's target bonus amount by a corporate performance factor determined by the Compensation Committee, which could range from 0% to 200% based on the achievement of the corporate performance goals discussed below. The resulting amount could then be reduced but not increased by the Compensation Committee based on a personal performance factor ranging from 0% to 100%. In March 2013, the Compensation Committee determined that the corporate performance factor would be determined based upon the level of achievement of four financial and three strategic performance goals, with the corporate performance factor being the sum of the achievement levels of each performance goal. The bonus amounts would then be determined based on a sliding scale up to 200% of target based upon the corporate performance factor. The Compensation Committee would then use negative discretion to determine the actual bonus awards, which could be lower, but not greater, than 200% of the target bonus amount for each participant, based on individual performance. To be eligible for a bonus for 2013, the executive was required to remain employed by us through the date the bonus was to be paid, except as otherwise provided in an executive's employment agreement in connection with a termination of employment.

For 2013, the corporate performance factor was the sum of the achievement levels of the following corporate goals, as further described below:

Performance Goal	Target Performance Weighting	Potential Excess Achievement
Operational EBITDA	25%	0% to 35% on a sliding scale
Adjusted Revenue	10%	0% to 15% on a sliding scale
EMSS contract renegotiation	20%	0% to 20% on a sliding scale
Iridium NEXT milestone achievement	15%	None
Aireon milestone achievement	15%	15%
Short-Burst Data subscriber additions	7.5%	0% to 7.5% on a sliding scale
Iridium OpenPort® subscriber additions	7.5%	0% to 7.5% on a sliding scale
<b>Total of Target Weightings</b>	<b>100%</b>	
<b>Total of Excess Potential Achievement Weightings</b>		<b>100%</b>
<b>Maximum Possible Award</b>		<b>200%</b>

an Operational EBITDA target, weighted at 25%, with a scale of potential payouts ranging from a maximum of 60% credit for performance at or above 104.5% of target to a minimum of 0% credit for performance below 95.0% of target;

an adjusted revenue target (revenue calculated in accordance with generally accepted accounting principles, or GAAP, but excluding purchase accounting adjustments), weighted at 10%, with a scale of potential payouts ranging from a maximum of 25% credit for performance at or above 102.4% of target to a minimum of 0% credit for performance of less than 97.6% of target;

successful renegotiation of a new EMSS contract or contract extension that would support a targeted amount of revenue in 2014, weighted at 20%, with a scale of potential payouts ranging from a maximum of 40% credit for performance at or above 105% of targeted revenue to a minimum of 0% credit for performance below 95.0% of targeted revenue;

a target to stay substantially on schedule for planned 2015 Iridium NEXT satellite launches and stay substantially on budget for the overall program, weighted at 15%, with no potential stretch payout;

achievement of development milestones to keep Aireon<sup>SM</sup> on schedule for launch, weighted at 15%, with a potential stretch payout of an additional 15% for achievement of commercial goals related to air navigation service providers;

a target level for short-burst data net subscriber additions or short-burst data service revenue, weighted at 7.5%, with a scale of potential payouts ranging from a maximum of 15% credit for net subscriber additions at or above 110.7% of target to a minimum of 0% credit for net subscriber additions below 48.1% of target; and

a target level for Iridium OpenPort<sup>®</sup> net subscriber activations or Iridium OpenPort service revenue, weighted at 7.5% for target achievement, with a scale of potential payouts ranging from a maximum of 15% credit for net subscriber additions at or above 112.5% of target to a minimum of 0% credit for net subscriber additions below 66.7% of target.

Operational EBITDA was defined as earnings before interest, income taxes, depreciation and amortization, Iridium NEXT revenue and expenses, stock-based compensation expenses and the impact of purchase accounting adjustments.

At the time the Compensation Committee set our goals for 2013, the Compensation Committee believed that the 2013 bonus plan goals were achievable, but only with significant effort. Our revenue and Operational EBITDA targets reflected an approximately 9.5% and 6.9% increase over our actual results for 2012, respectively. The EMSS contract renegotiation goal was intended to reward performance based upon the level of revenue generated directly by the contract but subject to a minimum revenue threshold. The Compensation Committee set high targets for net subscriber additions and revenue for short-burst data and Iridium OpenPort to encourage management to aggressively pursue growth in these areas, and high targets for the Aireon milestones to recognize the achievement of a difficult goal and encourage the aggressive pursuit of a long-term benefit to the company. The Compensation Committee set a fixed goal based upon achievement of certain milestones for the Iridium NEXT program with respect to launch schedules to reward employees for staying on plan with respect to meeting a very aggressive time frame for completing this critical program.

Edgar Filing: Iridium Communications Inc. - Form 10-K/A

*2013 Performance and Bonus Payouts under 2013 Bonus Plan.* In 2013, we delivered performance against our corporate performance goals resulting in an aggregate corporate performance factor under our 2013 bonus plan of 66%, based upon achievement of our performance goals as follows and as further described below:

<b>Performance Goal</b>	<b>Achievement</b>
Operational EBITDA	0%
Adjusted Revenue	0%
EMSS Contract Renegotiation	21% for performance in excess of target
Iridium NEXT milestone achievement	15% for target performance
Aireon milestone achievement	30% for performance in excess of target
Short-Burst Data subscriber additions	0%
Iridium OpenPort subscriber additions	<u>0%</u>
<b>Total</b>	<b><u>66%</u></b>

Specifically:

We successfully renegotiated our EMSS contract resulting in expected 2014 revenue of \$65.5 million, which was 101% of target, yielding 21% credit under the 2013 bonus plan;

We successfully stayed substantially on plan with respect to targeted launches of Iridium NEXT satellites and program budget, yielding 15% credit under the 2013 bonus plan; and

We exceeded our Aireon development milestones, yielding 30% credit under the 2013 bonus plan. The levels of GAAP revenue, Operational EBITDA and net subscriber activations and revenue in short-burst data and Iridium OpenPort achieved in 2013 did not reach the targets and no credit was awarded under the 2013 bonus plan for these remaining performance goals.

In February 2013, our chief executive officer shared his evaluations of the individual performance of each of our other named executive officers with the Compensation Committee. Based upon our chief executive officer's recommendations, and based upon a review of our chief executive officer's performance, the Compensation Committee concluded that each executive was performing at or above expected individual performance levels, and the Compensation Committee did not reduce any executive's bonus based on individual performance. As a result, the named executive officers earned the following bonus amounts for 2013:

<b>Name</b>	<b>Target Bonus Level</b>	<b>Corporate Performance</b>	<b>Individual Performance</b>	<b>Actual Bonus</b>
	<b>(\$)</b>	<b>(%)</b>	<b>(%)</b>	<b>Earned (\$)</b>
Matthew J. Desch	694,546	66	100	458,400
Thomas J. Fitzpatrick	340,496	66	100	224,728
S. Scott Smith	264,779	66	100	174,754
Thomas D. Hickey	187,780	66	100	123,935
Bryan J. Hartin	180,000	66	100	118,800
John M. Roddy	207,752	66	100	121,234*

\* Mr. Roddy's 2013 bonus was prorated in connection with his termination of employment in November 2013, pursuant to the terms of his employment agreement.

#### ***Equity-Based Incentive Compensation***

The Compensation Committee believes that properly structured equity compensation works to align the long-term interests of stockholders and employees by creating a strong, direct link between employee compensation and stock price appreciation. We have historically awarded equity in the form of options, which have an exercise price equal to the fair market value of a share of our common stock on the date of grant, and vest based on continued service over a specified period (typically, four years). As a result of the way we structure our option awards, options provide a return to the executive only if such officer remains employed by us, and then only if the market price of our common stock appreciates over the term of the option. In certain cases, we have also granted restricted stock units subject to time-based vesting.

We also have a performance share program, which provides for the grant of performance-based restricted stock units. The Compensation Committee established this program to (i) focus key employees on achieving specific performance targets, (ii) reinforce a team-oriented approach, (iii) provide significant award potential for achieving outstanding performance and (iv) enhance our ability to attract and retain highly talented individuals. Under this program, the Compensation Committee granted awards to designated key employees in 2013, with each award representing a specified maximum number of shares of common stock that may ultimately be earned under each award. The maximum award is calculated by reference to the target award value. The number of shares ultimately paid under the award is determined based on achievement of performance goals over a two-year performance period, and is subject to additional time-based vesting thereafter. These performance shares provide a return to the executive if the executive both remains employed by us and our company achieves specific performance targets from 2013 through 2014.

The Compensation Committee determined an aggregate target award size for each executive based on the peer data provided by F.W. Cook, our internal equity budget for grants for 2013, internal pay equity, and the recommendations of our chief executive officer. Based on the recommendations of F.W. Cook, the Compensation Committee decided to allocate 50% of the target value of each award in the form of stock options subject to a four-year vesting schedule, and 50% in the form of performance-based share awards. The Compensation Committee felt that this mix of stock options and performance-based share awards was necessary to promote our retention, motivation and stockholder alignment goals.

*Stock Option Grants in 2013.* In February 2013, the Compensation Committee approved the grant of new stock options to each of our executive officers, effective March 1, 2013, that would be subject to vesting based on continued service over four years, with one-quarter vesting on March 1, 2014, and the remainder vesting thereafter in twelve equal quarterly installments. Each option has an exercise price equal to the fair market value of a share of our common stock on the date of grant. The number of shares subject to each grant was equal to the number of shares having a grant date fair value equal to the target option value.

The option grants to our executive officers in 2013 were as follows:

<b>Name</b>	<b>Date of Grant</b>	<b>Target Option Value</b>	<b>Number of Shares</b>
Matthew J. Desch	March 1, 2013	\$ 448,800	178,804
Thomas J. Fitzpatrick	March 1, 2013	\$ 200,000	79,681
S. Scott Smith	March 1, 2013	\$ 187,500	74,701
Thomas D. Hickey	March 1, 2013	\$ 165,000	65,737
Bryan J. Hartin*	January 1, 2013	\$ 376,650	135,000
John M. Roddy	March 1, 2013	\$ 165,000	65,737

\* Mr. Hartin was granted stock options effective on January 1, 2013 in connection with the commencement of his employment with us in December 2012, and he was not granted additional stock options on March 1, 2013.

In addition, in December 2013, the Compensation Committee approved the grant of stock options under our 2012 Plan to Messrs. Fitzpatrick and Smith in the amount of \$250,000 each, for a total of 90,909 shares each, effective as of January 1, 2014 in connection with their promotions to chief administrative officer and chief operating officer, respectively. The stock options will vest over four years, with one-quarter vesting on January 1, 2015, and the remainder vesting thereafter in twelve equal quarterly installments.

*Performance-Based Share Grants in 2013.* In February 2013, the Compensation Committee approved target performance-based share awards for our executive officers, effective March 1, 2013. The number of shares subject to the target performance-based share awards was equal to the target grant value divided by the closing price of our stock on the date of grant.

<b>Name</b>	<b>Target Value</b>	<b>Number of Shares</b>
Matthew J. Desch	\$ 448,800	73,815
Thomas J. Fitzpatrick	\$ 200,000	32,894
S. Scott Smith	\$ 187,500	30,838
Thomas D. Hickey	\$ 165,000	27,138
John M. Roddy	\$ 165,000	27,138

Mr. Hartin was not granted any performance-based shares in 2013 due to his date of hire.

The actual awards to be earned by each executive will be determined based on the growth of our average GAAP service revenue for 2013 and 2014, over our 2012 GAAP service revenue. We must achieve at least a 6% average increase in GAAP service revenue during 2013 and 2014 over the GAAP service revenue in 2012 for any award to be earned. The

number of shares earned would increase based on the average growth in GAAP service revenue over such period above 6%, up to the maximum award of 150% of the target number of shares for an average rate of growth equal to or greater than 10%. In addition, the actual awards would be reduced to zero if we fail to achieve an average OEBITDA margin for 2013 and 2014 that exceeds our OEBITDA margin for 2011. OEBITDA margin is defined as Operational EBITDA expressed as a percentage of adjusted revenue. Adjusted revenue is defined as our reported GAAP revenue excluding the impact of purchase accounting and Iridium NEXT revenue.

The actual awards earned are also subject to time-based vesting, with 50% of the earned shares vesting when the Compensation Committee determines our level of achievement of the performance goals, which would occur in the first quarter of 2015, and the remaining 50% vesting on March 1, 2016, subject to continuous employment of the participant with us or our subsidiaries through such dates. In addition, if a change in control occurs before the date the Compensation Committee determines our level of achievement of the performance goals, the executive officers would be awarded, effective as of immediately prior to the change in control, an actual award equal to the target award, subject to the same vesting schedule, with the first vesting date being March 1, 2015.

The Compensation Committee's practice when determining the achievement of a scaled target is to use linear extrapolation between points, and to round to the nearest increment in the scale or whole percentage point, depending on the target. At the time the Compensation Committee set our goals for the performance units granted in 2013, the Compensation Committee believed that the goals were achievable, but only with significant effort, as illustrated by the lack of vesting of earlier performance unit grants. The performance units granted in 2012 did not vest in 2014 because the performance targets applicable to these grants were not achieved in the measurement period of 2012 and 2013, and the performance units granted in 2013, which are scheduled to vest based on the measurement period of 2013 and 2014, are not expected to vest based on the performance results from 2013 and our projected 2014 results.

*Restricted Stock Unit Grants.* In addition, in December 2013, the Compensation Committee approved the grant of restricted stock units under our 2012 Plan to Messrs. Fitzpatrick and Smith in the amount of \$250,000 each, for a total of 40,000 shares each, effective as of January 1, 2014 in connection with their promotions to chief administrative officer and chief operating officer, respectively. The restricted stock units will vest over four years, with one-quarter vesting on January 1, 2015, and the remainder vesting thereafter in twelve equal quarterly installments.

### ***Equity Compensation Policies***

In February 2012, the Compensation Committee decided that as a general matter, the Compensation Committee would plan to make compensatory equity grants a maximum of four times a year on January 1, March 1, June 1 and September 1. As necessary to meet business needs, the Compensation Committee or the Board may grant equity awards outside of these regularly scheduled dates. The Compensation Committee followed this schedule in 2013 and only made equity grants to our named executive officers effective on January 1 and March 1, 2013.

We have a policy that prohibits our executive officers, directors and other members of management from engaging in short sales, transactions in put or call options, hedging transactions or other inherently speculative transactions with respect to our stock. In addition, none of our executive officers or directors pledged any shares of our stock during 2013.

### ***Stock Ownership and Holding Guidelines***

In February 2012, our Compensation Committee adopted stock ownership guidelines for our executives at the level of vice president and above and for our directors. Our Compensation Committee, in consultation with F.W. Cook, determined that stock ownership guidelines are common among large public companies and are increasing in prevalence among mid-sized and smaller companies. The Compensation Committee also determined that stock ownership guidelines help align the interests of our executives with those of our stockholders and may act as a risk

mitigation device.

The stock ownership guidelines are based on a multiple of base salary or annual cash retainer. Under the guidelines, our chief executive officer is required to own shares of our common stock with a value at least equal to four times his annual base salary. Each of our executive vice presidents (including our chief financial officer, chief operating officer and chief legal officer), senior vice presidents and vice presidents are required to own shares of our common stock with a value at least equal to two times, one times and one-half times such vice president's annual base salary, respectively. Each non-employee director is required to own shares of our common stock with a value equal to four times his or her annual base cash retainer for Board service (not including amounts received for service on Board committees).

For purposes of these guidelines, ownership includes: (1) shares directly (not beneficially) owned; (2) shares directly (not beneficially) owned jointly by the individual and his or her spouse; (3) shares held in trust or other estate planning vehicle (e.g., family limited partnership) for the benefit of the individual and/or his or her family members; (4) shares equal to the number of vested deferred stock units credited to the individual under a deferred compensation arrangement; and (5) shares credited to the individual's 401(k) plan account.

There is no specific time period within which the individual must attain the applicable stock ownership targets under the guidelines. Rather, starting on February 1, 2012, and until an individual comes into compliance with the guidelines, he or she is required to retain 50% percent of Net Profit Shares from each stock award on exercise, vesting or earn-out. Net Profit Shares means: (1) shares received on the vesting or issuance (as applicable) of full value stock awards (e.g., restricted stock, restricted stock units, performance shares) granted after these guidelines were adopted, net of the actual number of shares withheld or sold at vesting or issuance to cover taxes; and (2) shares received on the exercise of stock options granted after these guidelines were adopted, net of the actual number of shares tendered or sold at exercise to cover the exercise price and taxes related to exercise.

### ***Change in Control and Severance Benefits***

Under the terms of the employment agreements with each of our executive officers, either we or the executive may terminate the executive's employment at any time. Each of our named executive officers is eligible, under the terms of his respective employment agreement, to receive, in exchange for a release of claims, severance benefits upon the termination of his employment either by us without cause or by him for good reason, with additional severance benefits provided in the event the termination is in connection with a change in control. The terms and conditions of severance provisions are discussed more fully in the section below under the heading Potential Payments upon Termination or Change in Control. We do not provide any excise tax gross ups on change-in-control benefits.

These agreements reflect the negotiations with our named executive officers at the time we entered into the agreements, as well as our desire to have a consistent set of benefits across the executive team. Our Compensation Committee considers these severance benefits critical to attracting and retaining high-caliber executives. Additionally, our Compensation Committee believes that additional change-in-control severance benefits minimize the distractions to an executive in connection with a corporate transaction and reduce the risk that an executive officer departs our company before a transaction is completed. We believe that our existing arrangements allow our executive officers to focus on continuing normal business operations and, in the case of change-in-control benefits, on the success of a potential business combination, rather than worry about how business decisions that may be in our best interest will impact their own financial security. These existing arrangements help ensure stability among our executive officer ranks, and will help enable our executives to maintain a balanced perspective in making overall business decisions during periods of uncertainty.

Mr. Roddy's employment with us terminated effective November 7, 2013. For a description of the terms of Mr. Roddy's separation and severance benefits, see the heading Severance Payments to Mr. Roddy below.

### ***Employee Benefits***

We provide broad-based medical insurance, dental insurance, vision coverage, life insurance and accidental death and dismemberment insurance benefits to our employees, including our named executive officers. We also provide our employees, including our named executive officers, with the opportunity to participate in our 401(k) plan. We match all eligible employee contributions dollar for dollar up to 5% of an employee's salary, with a maximum match per employee of \$12,750 in each calendar year. We believe these insurance and retirement savings benefits are consistent with practices of similarly sized companies and help to recruit and retain key talent at a minimal cost to us.

Our executive officers generally do not receive any supplemental retirement benefits or perquisites, except for limited perquisites provided on a case-by-case basis. In considering potential perquisites, the Compensation Committee compares the cost to the value of providing these benefits.

We have agreed to purchase and maintain a term life insurance policy in the face amount of \$400,000 for Mr. Desch. These benefits are provided as a result of negotiations with Mr. Desch when his employment commenced with our subsidiary Iridium Holdings in 2006. With respect to the term life insurance policy, the Compensation Committee decided that rather than paying Mr. Desch this amount as severance upon death out of our general assets, it was more cost-effective to provide for these payments through insurance. This limited perquisite helped us to recruit Mr. Desch, and now it helps us to retain his services, at what the Compensation Committee believes is a minimal cost to us.

### **Deductibility of Executive Compensation Under Code Section 162(m)**

Section 162(m) of the Code limits the amount that a public company may deduct from federal income taxes for remuneration paid to the chief executive officer and the three other most highly paid executive officers, other than the chief financial officer, up to \$1.0 million per executive per year, unless certain requirements are met. While our Compensation Committee is mindful of the benefit to us of the full deductibility of compensation, our Compensation Committee believes that it should not be constrained by the requirements of Section 162(m) where those requirements would impair flexibility in compensating our executive officers in a manner that can best promote our corporate objectives. We intend to continue to compensate our executive officers in a manner consistent with the best interests of our company and our stockholders.

### **Accounting Considerations**

The accounting impact of our executive compensation program is one of many factors that the Compensation Committee considers in determining the size and structure of that program.

### **Compensation Recovery Policy**

Amounts paid and awards granted under our 2013 executive cash performance bonus plans, our 2013 employee cash performance bonus plan, our 2013 performance share program and our 2012 Plan, are subject to recoupment in accordance with the Dodd-Frank Wall Street Reform and Consumer Protection Act and any applicable regulations under the Act, any clawback policy the company adopts or as is required by applicable law. In addition, as a public company subject to the provisions of Section 304 of the Sarbanes-Oxley Act of 2002, if we are required as a result of misconduct to restate our financial results due to our material noncompliance with any financial reporting requirements under the federal securities laws, our chief executive officer and chief financial officer may be legally required to reimburse us for any bonus or other incentive-based or equity-based compensation they receive.

### **Risk Analysis of Our Compensation Plans**

In early 2014, F.W. Cook conducted a risk assessment of our compensation policies in effect for 2013, and delivered a report to the Compensation Committee summarizing the results of their risk assessment. The Compensation Committee has reviewed the report and considered our compensation policies as generally applicable to our employees and believes that our policies do not encourage excessive or unnecessary risk-taking, and that the level of risk that they do encourage is not reasonably likely to have a material adverse effect on our company. We design our compensation policies and programs to encourage our employees to remain focused on both our short- and long-term goals. For example, while our cash bonus plans measure performance on an annual basis, our equity awards typically vest over a number of years, which we believe encourages our employees to focus on sustained stock price appreciation, thus limiting the potential value of excessive risk-taking.

#### Employment Agreements

**Matthew J. Desch.** We entered into an employment agreement with Mr. Desch in September 2010 to replace his expiring employment agreement, pursuant to which he serves as our chief executive officer and a member of our Board. This agreement was immaterially amended in December 2010 to clarify certain terms of the agreement, including, among other reasons, for compliance with tax laws, and was further amended and restated in March 2011. The agreement, as amended, had an initial term through September 18, 2013 and automatically renews for successive one-year periods unless we or Mr. Desch give written notice of intent not to renew the agreement not less than six months prior to the renewal date. The employment agreement provided for an initial annual base salary with a required increase of \$17,719 effective November 1, 2012, which is subject to further increase by the Board or Compensation Committee. Pursuant to his employment agreement, Mr. Desch is eligible to earn an annual incentive cash bonus, with a target bonus equal to 90% of his then-current base salary, with the actual amount of the bonus determined by our Compensation Committee and based upon performance goals set by such committee for the year.

Mr. Desch is eligible to participate in employee benefit plans made available to other senior executives. We were required to provide him with use of an automobile or a cash car allowance at our expense through November 1, 2012. In addition, we are required to purchase and maintain a term life insurance policy in the face amount of \$400,000 for Mr. Desch.

In his employment agreement, Mr. Desch has agreed not to compete with us or solicit our employees for alternative employment during his employment with us and for a period of one year after termination of his employment for any reason.

#### **Potential Payments upon Termination or Change in Control**

The section below describes the payments that may be made to the named executive officers in connection with a change in control or pursuant to specified termination events, pursuant to the terms of the employment agreements between us and them.

**Matthew J. Desch.** Mr. Desch's employment agreement, described above, provides that he may be terminated by us for any reason upon written notice. However, the employment agreement provides for payments to him in the event of the termination of his employment in specified termination situations.

Termination by reason of death or disability. If Mr. Desch's employment is terminated due to his death or disability (as defined in his employment agreement), he will receive a bonus based on the amount he would have been entitled to receive if he had remained employed by us throughout the applicable fiscal year but pro-rated for the number of days he was employed during such year.

Termination without cause, for good reason or in connection with a change in control. In the event that we terminate Mr. Desch's employment without cause, or Mr. Desch terminates his employment for good reason (as these terms are defined in his employment agreement), he will be entitled to receive a sum equal to (i) 18 months of his then-current base salary and (ii) an amount equal to his bonus for the year in which his employment is terminated, based on the actual achievement of the performance goals, pro-rated for the portion of the year that he was employed by us. He also will receive payment of his COBRA premiums (or, if required for us to comply with nondiscrimination rules, a taxable cash payment equal to the amount of his COBRA premiums) until the earlier of (a) 12 months from separation, (b) the expiration of COBRA eligibility or (c) the date he or his dependents become eligible for substantially equivalent health insurance coverage through new employment or self-employment. In the event that such termination occurs within the 12-month period commencing on a change in control (as defined in our 2009 stock incentive plan), then the cash severance amounts described above shall be paid to him in a single lump sum and in addition to such cash severance payment, 100% of his then-outstanding stock options and other equity awards will become vested and exercisable, as applicable, pursuant to the terms of the applicable equity award agreements.

These severance payments and benefits are subject to Mr. Desch executing, delivering and not revoking a release of claims in favor of our company.

**Thomas J. Fitzpatrick.** Mr. Fitzpatrick's employment agreement, described above, provides that he may be terminated by us for any reason upon written notice. However, the employment agreement provides for payments to him in the event of the termination of his employment in specified termination situations.

Termination without cause, for good reason or in connection with a change in control. In the event that we terminate Mr. Fitzpatrick's employment without cause, or Mr. Fitzpatrick terminates his employment for good reason (as these terms are defined in his employment agreement), he will be entitled to receive a sum equal to (i) one times his then-current base salary and (ii) one times his then-current target bonus, such sum payable in equal installments over a period of 12 months. He will also receive payment of his COBRA premiums (or, if required for us to comply with nondiscrimination rules, a taxable cash payment equal to the amount of his COBRA premiums) until the earlier of (a) 12 months from separation, (b) the expiration of COBRA eligibility or (c) the date he or his dependents become eligible for substantially equivalent health insurance coverage through new employment or self-employment. In the event that such termination occurs within the 12-month period commencing on a change in control (as defined in the 2009 Plan), then the cash severance amounts described above shall be paid to him in a single lump sum, and in addition to such cash severance payment, 100% of his then-outstanding stock options and other equity awards will become vested and exercisable, as applicable, pursuant to the terms of the applicable equity award agreements.

These severance payments and benefits are subject to Mr. Fitzpatrick executing, delivering and not revoking a release of claims in favor of our company.

**S. Scott Smith.** Mr. Smith's employment agreement, described above, provides that he may be terminated by us for any reason upon written notice. However, the employment agreement provides for payments to him in the event of the termination of his employment in specified termination situations.

Termination without cause, for good reason or in connection with a change in control. He will also receive payment of his COBRA premiums (or, if required for the company to comply with nondiscrimination rules, a taxable cash payment equal to the amount of his COBRA premiums) until the earlier of (a) 12 months from separation, (b) the expiration of COBRA eligibility or (c) the date he or his dependents become eligible for substantially equivalent health insurance coverage through new employment or self employment. In the event that such termination occurs within the 12-month period commencing on a change in control (as defined in the company's 2009 stock incentive plan), then the base salary amount described above shall be paid to him in a single lump sum, the bonus amount described above shall not be pro-rated, and in addition to such cash severance payment, 100% of his then-outstanding stock options and other equity awards will become vested and exercisable, as applicable, pursuant to the terms of the applicable equity award agreements.

These severance payments and benefits are subject to Mr. Hartin executing, delivering and not revoking a release of claims in favor of our company.

**Thomas D. Hickey.** Mr. Hickey's employment agreement, described above, provides that he may be terminated by us for any reason upon written notice. However, the employment agreement provides for payments to him in the event of the termination of his employment in specified termination situations.

Termination without cause, for good reason or in connection with a change in control. In the event that we terminate Mr. Hickey's employment without cause, or Mr. Hickey terminates his employment for good reason (as these terms are

defined in his employment agreement), he will be entitled to receive a sum equal to (i) one times his then-current base salary and (ii) an amount equal to his bonus for the year in which his employment is terminated, based on the actual achievement of the performance goals, pro-rated for the portion of the year that he was employed by us, paid in equal installments on our company's normal payroll schedule over the remainder of the 12-month severance period after the date we determine actual performance and the amount of bonus that would have been earned based on such performance. He will also receive payment of his COBRA premiums (or, if required for the company to comply with nondiscrimination rules, a taxable cash payment equal to the amount of his COBRA premiums) until the earlier of (a) 12 months from separation, (b) the expiration of COBRA eligibility or (c) the date he or his dependents become eligible for substantially equivalent health insurance coverage through new employment or self employment. In the event that such termination occurs within the 12-month period commencing on a change in control (as defined in our 2009 stock incentive plan), then the base salary amount described above shall be paid to him in a single lump sum, the bonus amount described above shall not be pro-rated, and in addition to such cash severance payment, 100% of his then-outstanding stock options and other equity awards will become vested and exercisable, as applicable, pursuant to the terms of the applicable equity award agreements.

### **Director Compensation**

The table below provides summary information concerning compensation paid or accrued by us during 2013 to or on behalf of our directors for services rendered during 2013. Messrs. Desch, Fitzpatrick and Smith, who are named executive officers in addition to being directors, did not receive any separate compensation for service in their capacity as a director, and accordingly they are not included in this table.

In late 2009 and again in 2011, the Compensation Committee engaged F.W. Cook to conduct a review of non-employee director compensation programs among our peer companies and make recommendations for our director compensation program. F.W. Cook's report provided competitive analyses of director compensation programs using our peer group, a discussion of emerging trends in director compensation and recommendations for our program. F.W. Cook updated this study in the fall of 2013 for compensation decisions with respect to 2014 in connection with its review of the design and competitive positioning of our compensation programs for our executive officers and non-employee directors.

Based on F.W. Cook's 2009 report, we adopted a compensation policy for non-employee directors effective January 1, 2010 that has been reapproved annually by our Board. Under this policy, each non-employee director is eligible to receive an annual retainer of \$140,000 for serving on the Board. In addition, an annual retainer of \$50,000 is awarded for serving as the Chairman of the Board, an annual retainer of \$20,000 is awarded for serving as the Chairman of the Audit Committee, an annual retainer of \$15,000 is awarded for serving as the Chairman of the Compensation Committee, and an annual retainer of \$7,500 is awarded for serving as the Chairman of the Nominating and Corporate Governance Committee.

At the annual election of each non-employee director, the \$140,000 retainer for serving on the Board may be paid entirely in stock options, RSUs or some combination of these instruments and up to \$50,000 in cash. In addition, at the election of the non-employee director, the retainers for serving as Chairman of the Board or chairman of a committee may be paid in either RSUs, cash or a combination of both. Any cash component of the compensation is paid, and any equity component vests, on a quarterly basis. Until six months after the termination of the director's service or upon a specified change in control of our company, if it occurs earlier, the directors may not sell any of these shares of restricted stock or stock acquired upon the exercise of these options and may not settle any of these RSUs.

The following table sets forth summary information concerning compensation paid or accrued by us during 2013 to or on behalf of our non-employee directors for services rendered during 2013.

- (1) Consists of a single grant to each director on January 4, 2013. These amounts represent the aggregate grant date fair values, computed in accordance with FASB ASC Topic 718 but excluding estimated forfeitures, of restricted stock unit and option awards issued pursuant to the non-employee director compensation policy. The grant date fair value of these awards was calculated using the closing price of our common stock of \$6.86 on the grant date of January 4, 2013 multiplied by the applicable number of shares granted to each non-employee director. Assumptions used in the calculation of those amounts are included in Note 2 to our consolidated financial statements included in our annual report on Form 10-K for the year ended December 31, 2013. These amounts do not correspond to the actual value that may be realized by the director upon vesting of such awards. Such awards vested in four equal quarterly installments on the last day of each calendar quarter during 2013.
- (2) The aggregate number of option awards outstanding at December 31, 2013 and held by each non-employee director was as follows: 0 shares for Messrs. **Item 13. Certain Relationships and Related Transactions, and Director Independence**

**RELATED-PERSON TRANSACTIONS POLICY AND PROCEDURES**

In 2009, we adopted a written Related-Person Transactions Policy that sets forth our policies and procedures regarding the identification, review, consideration and approval or ratification of related-persons transactions. For purposes of our policy only, a related-person transaction is a transaction, arrangement or relationship, or any series of similar transactions, arrangements or

relationships, in which we and any related person are participants involving an amount that exceeds \$120,000. Transactions involving compensation for services provided to us as an employee, director, consultant or similar capacity by a related person are not covered by this policy. A related person is any executive officer, director, or more than 5% stockholder of us, including any of their immediate family members, and any entity owned or controlled by such persons.

Under the policy, where a transaction has been identified as a related-person transaction, management must present information regarding the proposed related-person transaction to the Audit Committee (or, where Audit Committee approval would be inappropriate, to another independent body of the Board) for consideration and approval or ratification. The presentation must include a description of, among other things, the material facts, the interests, direct and indirect, of the related persons, the benefits to us of the transaction and whether any alternative transactions were available. To identify related-person transactions in advance, we rely on information supplied by our executive officers, directors and certain significant stockholders. In considering related-person transactions, the Audit Committee takes into account the relevant available facts and circumstances including, but not limited to (a) the risks, costs and benefits to us, (b) the impact on a director's independence in the event the related person is a director, immediate family member of a director or an entity with which a director is affiliated, (c) the terms of the transaction, (d) the availability of other sources for comparable services or products and (e) the terms available to or from, as the case may be, unrelated third parties or to or from employees generally. The policy requires that, in determining whether to approve, ratify or reject a related-person transaction, the Audit Committee consider, in light of known circumstances, whether the transaction is in, or is not inconsistent with, the best interests of us and our stockholders, as the Audit Committee determines in the good faith exercise of its discretion.

#### **DIRECTOR INDEPENDENCE**

As required under NASDAQ listing standards, a majority of the members of a listed company's board of directors must qualify as independent, as affirmatively determined by its board of directors. Consistent with these considerations, after review of all relevant identified transactions or relationships between each of our directors and the new director nominee, or any of their respective family members, and us, our senior management and our independent registered public accounting firm, the Board has affirmatively determined that the following eight currently serving directors are independent directors within the meaning of the applicable NASDAQ listing standards: Messrs. Barros, Canfield, Dawkins, Krongard, Niehaus, Olson, Pfeiffer and Rush. In making this determination, the Board found that none of these directors or the new director nominee had a material or other disqualifying relationship with us. Messrs. Desch, Fitzpatrick and Smith are not independent directors by virtue of their positions as executive officers of our company.

#### **Item 14. Principal Accountant Fees and Services**

##### **INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FEES**

The following table represents aggregate fees billed to us for the fiscal years ended December 31, 2013 and December 31, 2012 by Ernst & Young LLP, or EY, our principal accountant.

	<b>Year Ended December 31,</b>	
	<b>2013</b>	<b>2012</b>
Audit fees(1)	\$ 956,984	\$ 1,026,457
Audit-related fees		
Tax fees(2)	63,949	78,287
All other fees		

Total fees	\$ 1,020,933	\$ 1,104,744
------------	--------------	--------------

- (1) Fees for audit services included fees associated with the annual audit, the reviews of our quarterly reports on Form 10-Q, statutory audits required internationally, and fees related to registration statements.
  - (2) Tax fees included fees for tax compliance, tax advice and tax planning.
- All fees described above were pre-approved by the Audit Committee.

**PRE-APPROVAL POLICY AND PROCEDURES**

The Audit Committee has adopted a policy and procedures for the pre-approval of audit and non-audit services rendered by our independent registered public accounting firm. The policy generally requires pre-approval of specified services in the defined categories of audit services, audit-related services and tax services up to specified amounts. Pre-approval may also be given as part of the Audit Committee's approval of the scope of the engagement of the independent registered public accounting firm or on an individual, explicit, case-by-case basis before the independent registered public accounting firm is engaged to provide each service. The pre-approval of services may be delegated to one or more of the Audit Committee's members, but the decision must be reported to the full Audit Committee at its next scheduled meeting.

The Audit Committee has determined that the rendering of the services other than audit services by EY is compatible with maintaining the principal accountant's independence.
