**(Former Name, Former Address and Former Fiscal Year, if Changed Since Last Report)**

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer  Accelerated filer   
Non-accelerated filer  Smaller reporting company

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).  
Yes  No

The Registrant had 20,444,701 shares of common stock, par value \$0.30, outstanding as of April 1, 2014.

**TEAM, INC. AND SUBSIDIARIES**

**NOTES TO UNAUDITED CONDENSED CONSOLIDATED**

**FINANCIAL STATEMENTS**

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND PRACTICES**

**Introduction.** Unless otherwise indicated, the terms Team, Inc., Team, the Company, we, our and us are used in this report to refer to Team, Inc., to one or more of our consolidated subsidiaries or to all of them taken as a whole. We are incorporated in the State of Delaware and our company website can be found at [www.teamindustrialservices.com](http://www.teamindustrialservices.com). Our corporate headquarters is located at 13131 Dairy Ashford, Suite 600, Sugar Land, Texas, 77478 and our telephone number is (281) 331-6154. Our stock is traded on the New York Stock Exchange ( NYSE ) under the symbol TISI and our fiscal year ends on May 31 of each calendar year.

We are a leading provider of specialty industrial services, including inspection and assessment, required in maintaining high temperature and high pressure piping systems and vessels that are utilized extensively in the refining, petrochemical, power, pipeline and other heavy industries. Through fiscal year 2013, we operated in only one segment the industrial services segment (see Note 14). Within the industrial services segment, we were organized as two divisions. Our TCM division provided the services of inspection and assessment and field heat treating. Our TMS division provided the mechanical services described below.

Effective July 1, 2013, we implemented a reorganization of our business divisions to conduct operations in three segments: Inspection and Heat Treating Services ( IHT ) Group, Mechanical Services ( MS ) Group and Quest Integrity ( Quest ) Group. While our services have been realigned in three business groups, we believe our services broadly fall into three different classifications that have unique customer demand drivers: inspection and assessment services, turnaround services, and on-stream services.

Inspection and assessment services are offered in both the IHT Group and Quest Group. The IHT Group provides basic and advanced non-destructive testing services for the process, pipeline and power sectors, pipeline integrity management services, as well as associated engineering and assessment services. These services can be offered while facilities are running (on-stream), during facility turnarounds or during new construction or expansion activities. The Quest Group provides integrity and reliability management solutions for the process, pipeline and power sectors. These solutions encompass two broadly-defined disciplines: (1) highly specialized in-line inspection services for unpiggable process piping and pipelines using proprietary in-line inspection tools and analytical software; and (2) advanced condition assessment services through a multi-disciplined engineering team. We believe there is a general growth in market demand for inspection and assessment services as improved inspection technologies enable better information about asset reliability to be available to facility owners and operators.

Turnaround services are offered in both the IHT Group and in the MS Group. These services are project-related and demand is a function of the number and scope of scheduled and unscheduled facility turnarounds as well as new industrial facility construction or expansion. Turnaround services include the field machining, technical bolting, field valve repair, heat exchanger repair, and isolation test plugging services that are part of the MS Group and the field heat treating services that are part of the IHT Group.

On-stream services are offered by the MS Group and represent the services offered while plants are operating and under pressure. These services include leak repair, fugitive emissions control and hot tapping. We believe demand for on-stream services is a function of the population of the existing infrastructure of operating industrial facilities.

We offer these services in over 125 locations throughout the world. Our industrial services are available 24 hours a day, 7 days a week, 365 days a year. We market our services to companies in a diverse array of heavy industries which include the petrochemical, refining, power, pipeline, steel, pulp and paper industries, as well as municipalities, shipbuilding, original equipment manufacturers ( OEMs ), distributors, and some of the world's largest engineering and construction firms. Our services are also provided across a broad geographic reach.

**Table of Contents**

**Basis for presentation.** These interim financial statements are unaudited, but in the opinion of our management, reflect all adjustments, consisting of normal recurring adjustments necessary for a fair presentation of results for such periods. The consolidated condensed balance sheet at May 31, 2013 is derived from the May 31, 2013 audited consolidated financial statements. The results of operations for any interim period are not necessarily indicative of results for the full year. These financial statements should be read in conjunction with the financial statements and notes thereto contained in our annual report on Form 10-K for the fiscal year ended May 31, 2013.

**Consolidation.** The consolidated financial statements include the accounts of Team, Inc. and our majority-owned subsidiaries where we have control over operating and financial policies. Investments in affiliates in which we have the ability to exert significant influence over operating and financial policies, but where we do not control the operating and financial policies, are accounted for using the equity method. All material intercompany accounts and transactions have been eliminated in consolidation.

**Use of estimates.** Our accounting policies conform to Generally Accepted Accounting Principles in the U.S. ( GAAP ). Our most significant accounting policies are described below. The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and judgments that affect our reported financial position and results of operations. We review significant estimates and judgments affecting our consolidated financial statements on a recurring basis and record the effect of any necessary adjustments prior to their publication. Estimates and judgments are based on information available at the time such estimates and judgments are made. Adjustments made with respect to the use of these estimates and judgments often relate to information not previously available. Uncertainties with respect to such estimates and judgments are inherent in the preparation of financial statements. Estimates and judgments are used in, among other things, (1) aspects of revenue recognition, (2) valuation of tangible and intangible assets and subsequent assessments for possible impairment, (3) the fair value of the non-controlling interest in subsidiaries that are not wholly-owned, (4) estimating various factors used to accrue liabilities for workers' compensation, auto, medical and general liability, (5) establishing an allowance for uncollectible accounts receivable, (6) estimating the useful lives of our assets and (7) assessing future tax exposure and the realization of tax assets.

**Fair value of financial instruments.** Our financial instruments consist primarily of cash, cash equivalents, accounts receivable, accounts payable and debt obligations. The carrying amount of cash, cash equivalents, trade accounts receivable and trade accounts payable are representative of their respective fair values due to the short-term maturity of these instruments. The fair value of our banking facility is representative of the carrying value based upon the variable terms and management's opinion that the current rates available to us with the same maturity and security structure are equivalent to that of the banking facility.

**Cash and cash equivalents.** Cash and cash equivalents consist of all demand deposits and funds invested in highly liquid short-term investments with original maturities of three months or less.

**Inventory.** Inventory is stated at the lower of cost (first-in, first-out method) or market. Inventory includes material, labor and certain fixed overhead costs.

**Property, plant and equipment.** Property, plant and equipment are stated at cost less accumulated depreciation and amortization. Leasehold improvements are amortized over the shorter of their respective useful life or the lease term. Depreciation and amortization of assets are computed by the straight-line method over the following estimated useful lives of the assets:

Classification	Useful Life
Buildings	20-40 years
Leasehold improvements	2-15 years
Machinery and equipment	2-12 years
Furniture and fixtures	2-10 years
Computers and computer software	2-5 years
Automobiles	2-5 years

**Table of Contents**

**Goodwill, intangible assets, and non-controlling interest.** Goodwill represents the excess of costs over fair value of assets of businesses acquired. Goodwill and intangible assets acquired in a purchase business combination and determined to have an indefinite useful life are not amortized, but are instead tested for impairment at least annually in accordance with the provisions of the Financial Accounting Standards Board ( FASB ) Accounting Standards Codification ( ASC ) 350, *Intangibles Goodwill and Other*. Intangible assets with estimated useful lives are amortized over their respective estimated useful lives to their estimated residual values and reviewed for impairment in accordance with ASC 350.

Effective July 1, 2013, we implemented a reorganization of our business divisions and now conduct operations in three segments: IHT Group, MS Group and Quest Group. Each operating segment has goodwill relating to past acquisitions and we now assess goodwill for impairment at the operating segment level. Due to the changes in the underlying assumptions surrounding our goodwill testing, during the first quarter of fiscal year 2014, we performed a quantitative analysis of goodwill to test for impairment. The test for impairment is performed at the reporting unit level which is deemed to be at the operating segment level. The test was a two-step process that involved comparing the estimated fair value of each reporting unit to the reporting unit's carrying value, including goodwill. If the fair value of a reporting unit exceeded its carrying amount, the goodwill of the reporting unit was not considered impaired; therefore, the second step of the impairment test would not be deemed necessary. If the carrying amount of the reporting unit exceeded its fair value, we would then perform a second step to the goodwill impairment test to measure the amount of goodwill impairment loss to be recorded.

The fair value of the reporting units at July 1, 2013 were determined using a method based on discounted cash flow models with estimated cash flows based on internal forecasts of revenue and expenses over a four year period plus a terminal value period (the income approach). The income approach estimated fair value by discounting each reporting unit's estimated future cash flows using a discount rate that approximated our weighted-average cost of capital. The fair value derived from the income approach, in the aggregate, approximated our market capitalization. At July 1, 2013, our market capitalization exceeded the carrying value of our consolidated net assets by approximately \$500 million or 170%, and the fair value of each operating segment significantly exceeded their respective carrying amounts as of that date.

There was \$114.1 million and \$103.5 million of goodwill at February 28, 2014 and May 31, 2013, respectively. A summary of goodwill is as follows (in thousands):

	MS	Nine Months Ended February 28, 2014		Total
		IHT	Quest	
Balance at May 31, 2013	\$ 19,130	\$ 53,800	\$ 30,536	\$ 103,466
Acquisitions		11,336		11,336
Foreign currency adjustments	611	(1,448)	149	(688)
Balance at February 28, 2014	\$ 19,741	\$ 63,688	\$ 30,685	\$ 114,114

In November 2010, we purchased 95% of Quest Integrity Group, LLC, a leading provider of proprietary in-line inspection and advanced engineering and assessment services. We expect to purchase the remaining 5% interest (the Non-Controlling Interests) at the end of fiscal 2015 based upon a valuation methodology as specified in the purchase agreement.

Information regarding the change in carrying value of the non-controlling interest is set forth below (in thousands):

Fair value of non-controlling interest at November 3, 2010	\$ 4,917
Income attributable to non-controlling interest	652
Other comprehensive income attributable to non-controlling interest	(12)
Carrying value of non-controlling interest at February 28, 2014	\$ 5,557

---

**Table of Contents**

**Income taxes.** We follow the guidance of the ASC 740, *Income Taxes*, which requires that we use the asset and liability method of accounting for deferred income taxes and provide deferred income taxes for all significant temporary differences. As part of the process of preparing our consolidated financial statements, we are required to estimate our income taxes in each of the jurisdictions in which we operate. This process involves estimating our actual current tax payable and related tax expense together with assessing temporary differences resulting from differing treatment of certain items, such as depreciation, for tax and accounting purposes. These differences can result in deferred tax assets and liabilities, which are included within our consolidated balance sheets. We must then assess the likelihood that our deferred tax assets will be recovered from future taxable income and, to the extent we believe that it is more likely than not (a likelihood of more than 50%) that some portion or all of the deferred tax assets will not be realized, we must establish a valuation allowance. We consider all available evidence to determine whether, based on the weight of the evidence, a valuation allowance is needed. Evidence used includes information about our current financial position and our results of operations for the current and preceding years, as well as all currently available information about future years, including our anticipated future performance, future reversals of existing taxable temporary differences, and tax planning strategies.

**Workers' compensation, auto, medical and general liability accruals.** In accordance with ASC 450, *Contingencies*, we record a loss contingency when it is probable that a liability has been incurred and the amount of the loss can be reasonably estimated. We review our loss contingencies on an ongoing basis to ensure that we have appropriate reserves recorded on our balance sheet. These reserves are based on historical experience with claims incurred but not received, estimates and judgments made by management, applicable insurance coverage for litigation matters, and are adjusted as circumstances warrant. For workers' compensation, our self-insured retention is \$1.0 million and our automobile liability self-insured retention is currently \$500,000 per occurrence. For general liability claims we have an effective self-insured retention of \$3.0 million per occurrence. For medical claims, our self-insured retention is \$175,000 per individual claimant determined on an annual basis. For environmental liability claims, our self-insured retention is \$500,000 per occurrence. We maintain insurance for claims that exceed such self-retention limits. The insurance is subject to terms, conditions, limitations and exclusions that may not fully compensate us for all losses. Our estimates and judgments could change based on new information, changes in laws or regulations, changes in management's plans or intentions, or the outcome of legal proceedings, settlements or other factors. If different estimates and judgments were applied with respect to these matters, it is likely that reserves would be recorded for different amounts.

**Revenue recognition.** We determine our revenue recognition guidelines for our operations based on guidance provided in applicable accounting standards and positions adopted by the FASB and the Securities and Exchange Commission (the "SEC"). Most of our projects are short-term in nature and we predominantly derive revenues by providing a variety of industrial services on a time and material basis. For all of these services our revenues are recognized when services are rendered or when product is shipped to the job site and risk of ownership passes to the customer. However, due to various contractual terms with our customers, at the end of any reporting period, there may be earned but unbilled revenue that is accrued to properly match revenues with related costs. At February 28, 2014 and May 31, 2013, the amount of earned but unbilled revenue included in accounts receivable was \$28.2 million and \$25.5 million, respectively.

**Allowance for doubtful accounts.** In the ordinary course of business, a percentage of our accounts receivable are not collected due to billing disputes, customer bankruptcies, dissatisfaction with the services we performed and other various reasons. We establish an allowance to account for those accounts receivable that will eventually be deemed uncollectible. The allowance for doubtful accounts is based on a combination of our historical experience and management's review of long outstanding accounts receivable.

**Concentration of credit risk.** No single customer accounts for more than 10% of consolidated revenues.

**Earnings per share.** Basic earnings per share is computed by dividing net income available to Team shareholders by the weighted-average number of shares of common stock outstanding during the year. Diluted earnings per share is computed by dividing net income available to Team shareholders, less income or loss for

**Table of Contents**

the period attributable to the non-controlling interest, by the sum of (1) the weighted-average number of shares of common stock, outstanding during the period, (2) the dilutive effect of the assumed exercise of share-based compensation using the treasury stock method and (3) the dilutive effect of the assumed conversion of our non-controlling interest to our common stock (see Note 2).

Amounts used in basic and diluted earnings per share, for the three and nine months ended February 28, 2014 and 2013, are as follows (in thousands):

	Three Months Ended February 28,		Nine Months Ended February 28,	
	2014 (unaudited)	2013 (unaudited)	2014 (unaudited)	2013 (unaudited)
Weighted-average number of basic shares outstanding	20,384	20,387	20,432	20,104
Stock options, stock units and performance awards	614	753	643	770
Assumed conversion of non-controlling interest	195	171	209	204
Total shares and dilutive securities	21,193	21,311	21,284	21,078

There were no stock options outstanding during the three months ended February 28, 2014 and 2013 excluded from the computation of diluted earnings per share because the options' exercise prices were greater than the average market price of common shares during the periods. There were zero and 1,000 stock options to purchase shares of common stock outstanding during the nine months ended February 28, 2014 and 2013, respectively, excluded from the computation of diluted earnings per share because the options' exercise prices were greater than the average market price of common shares during the periods.

**Foreign currency.** For subsidiaries whose functional currency is not the U.S. Dollar, assets and liabilities are translated at period ending rates of exchange and revenues and expenses are translated at period average exchange rates. Translation adjustments for the asset and liability accounts are included as a separate component of accumulated other comprehensive income in shareholders' equity. Foreign currency transaction gains and losses are included in our statement of income. Effective December 1, 2009, we began to account for Venezuela as a highly-inflationary economy and the effect of all subsequent currency fluctuations between the Bolivar and the U.S. Dollar are recorded in our statement of income (see Note 16).

**Newly Adopted Accounting Principles**

**ASU 2011-04.** In May 2011, an update regarding fair value measurement was issued to conform the definition of fair value and common requirements for measurement of and disclosure about fair value under U.S. GAAP and International Financial Reporting Standards. The standard also clarifies the application of existing fair value measurement requirements and expands the disclosure requirements for fair value measurements that are estimated using significant unobservable Level 3 inputs. The standard update is effective for interim and annual periods beginning after December 15, 2011. The adoption of this standard did not have a material impact on our results of operations, financial position or cash flows.

**ASU 2011-05.** In June 2011, the FASB issued an update to existing guidance on the presentation of comprehensive income. This update requires the presentation of the components of net income and other comprehensive income either in a single continuous statement or in two separate but consecutive statements. In addition, companies are also required to present reclassification adjustments for items that are reclassified from other comprehensive income to net income on the face of the financial statements. In December 2011, the FASB issued an accounting update to defer the effective date for presentation of reclassification of items out of accumulated other comprehensive income to net income. These updates are effective for fiscal years and interim periods beginning after December 15, 2011 with early adoption permitted. This update was adopted by Team on June 1, 2012. The adoption of this standard did not have a material effect on our results of operations, financial position or cash flows.

**Table of Contents**

**ASU 2011-11.** In December 2011, an update was issued related to new disclosures on offsetting assets and liabilities of financial and derivative instruments. The amendments require the disclosure of gross asset and liability amounts, amounts offset on the balance sheet and amounts subject to the offsetting requirements, but not offset on the balance sheet. This standard does not amend the existing guidance on when it is appropriate to offset. The standard update is effective for annual periods beginning after January 1, 2013. The adoption of this standard did not have a material impact on our results of operations, financial position or cash flows.

**ASU 2013-02.** In February 2013, an update regarding other comprehensive income was issued to require entities to provide information about the amounts reclassified out of accumulated other comprehensive income by component. In addition, it requires entities to present, either on the face of the statement where net income is presented or in the notes, significant amounts reclassified out of other comprehensive income by the respective line items of net income but only if the amount reclassified is required under GAAP to be reclassified to net income in its entirety in the same reporting period. The update is effective for fiscal years beginning after December 15, 2012. This update was adopted by Team on June 1, 2013. The adoption of this update did not have a material impact on our results of operations, financial position or cash flows.

**2. ACQUISITIONS**

In July 2013, we purchased a leading provider of industrial rope access services, for a total consideration of approximately \$13.8 million including \$12.6 million allocated to goodwill and intangible assets. In September 2012, we purchased TCI Services, Inc. ( TCI ), a leading provider of inspection and repair services of above ground storage tanks. The TCI acquisition included total consideration of approximately \$21.2 million, including \$16.4 million allocated to goodwill and intangible assets. The purchase price included contingent consideration which we revalued during the second quarter of fiscal year 2014, resulting in the recognition of a non-cash gain of \$2.1 million.

In the fiscal year ended May 31, 2013, we also purchased a specialty remote digital video inspection company in New Zealand for approximately \$3.0 million in cash.

**3. RECEIVABLES**

A summary of accounts receivable as of February 28, 2014 and May 31, 2013 is as follows (in thousands):

	<b>February 28, 2014</b>	<b>May 31, 2013</b>
	<b>(unaudited)</b>	
Trade accounts receivable	\$ 135,145	\$ 152,030
Unbilled revenues	28,186	25,516
Allowance for doubtful accounts	(5,343)	(5,438)
Total	\$ 157,988	\$ 172,108

**4. INVENTORY**

A summary of inventory as of February 28, 2014 and May 31, 2013 is as follows (in thousands):

	<b>February 28, 2014</b>	<b>May 31, 2013</b>
	<b>(unaudited)</b>	
Raw materials	\$ 3,056	\$ 3,460
Work in progress	893	845
Finished goods	22,355	22,202
Total	\$ 26,304	\$ 26,507

**Table of Contents****5. PROPERTY, PLANT AND EQUIPMENT**

A summary of property, plant and equipment as of February 28, 2014 and May 31, 2013 is as follows (in thousands):

	February 28, 2014 (unaudited)	May 31, 2013
Land	\$ 3,067	\$ 3,108
Buildings and leasehold improvements	19,345	18,445
Machinery and equipment	148,120	137,439
Furniture and fixtures	4,809	4,469
Capitalized ERP system development costs	2,677	
Computers and computer software	9,581	8,871
Automobiles	3,660	3,842
Construction in progress	11,196	3,816
<b>Total</b>	<b>202,455</b>	<b>179,990</b>
Accumulated depreciation and amortization	(117,063)	(105,051)
<b>Property, plant, and equipment, net</b>	<b>\$ 85,392</b>	<b>\$ 74,939</b>

In the second quarter of 2013, we initiated the design and implementation of a new ERP system, which is expected to be fully installed during fiscal year 2016. Total future capital costs associated with the implementation are expected to be in the range of \$10 to \$12 million over the next two years.

Included in construction in progress are costs of approximately \$7.4 million associated with the re-development of Team's former headquarters in Alvin, Texas as an equipment, training and technical center for operations support. The Alvin project is expected to be completed in the spring of 2014 at a total cost of approximately \$9.0 million.

**6. ASSETS HELD FOR SALE**

Assets held for sale consists of \$5.2 million related to approximately 50 acres of undeveloped land in Pearland, Texas.

**7. INTANGIBLE ASSETS**

A summary of intangible assets as of February 28, 2014 and May 31, 2013 is as follows (in thousands):

	February 28, 2014 (unaudited)			May 31, 2013		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Customer relationships	\$ 22,355	\$ (6,059)	\$ 16,296	\$ 21,418	\$ (4,168)	\$ 17,250
Non-compete agreements	3,630	(3,352)	278	3,701	(3,232)	469
Trade names	4,325	(641)	3,684	4,075	(424)	3,651
Technology	5,112	(1,565)	3,547	5,112	(1,166)	3,946
Licenses	683	(98)	585	683	(49)	634
<b>Total</b>	<b>\$ 36,105</b>	<b>\$ (11,715)</b>	<b>\$ 24,390</b>	<b>\$ 34,989</b>	<b>\$ (9,039)</b>	<b>\$ 25,950</b>

Amortization expense for the three months ended February 28, 2014 and 2013 was \$0.9 million and \$0.8 million, respectively. Amortization expense for the nine months ended February 28, 2014 and 2013 was \$2.8 million and \$2.5 million, respectively.

**Table of Contents****8. OTHER ACCRUED LIABILITIES**

A summary of other accrued liabilities as of February 28, 2014 and May 31, 2013 is as follows (in thousands):

	February 28, 2014 (unaudited)	May 31, 2013
Payroll and other compensation expenses	\$ 22,806	\$ 32,093
Insurance accruals	5,330	5,385
Property, sales and other non-income related taxes	1,650	2,385
Other	9,474	9,302
<b>Total</b>	<b>\$ 39,260</b>	<b>\$ 49,165</b>

**9. LONG-TERM DEBT, DERIVATIVES AND LETTERS OF CREDIT**

Our banking credit facility ( Credit Facility ) with our banking syndicate has borrowing capacity of up to \$150 million in multiple currencies, is secured by virtually all of our domestic assets and a majority of the stock of our foreign subsidiaries and matures in July 2016. In connection with a prior renewal of the Credit Facility, we are amortizing \$0.8 million of associated debt issuance costs over the life of the Credit Facility. The Credit Facility bears interest based on a variable Eurodollar rate option (LIBOR plus 1.75% margin at February 28, 2014) and has commitment fees of 0.30% on unused borrowing capacity.

In order to secure our casualty insurance programs we are required to post letters of credit generally issued by a bank as collateral. A letter of credit commits the issuer to remit specified amounts to the holder, if the holder demonstrates that we failed to meet our obligations under the letter of credit. If this were to occur, we would be obligated to reimburse the issuer for any payments the issuer was required to remit to the holder of the letter of credit. We were contingently liable for outstanding stand-by letters of credit totaling \$13.6 million at February 28, 2014 and \$13.1 million at May 31, 2013. Outstanding letters of credit reduce amounts available under our Credit Facility and are considered as having been funded for purposes of calculating our financial covenants under the Credit Facility.

ASC 815, *Derivatives and Hedging*, established accounting and reporting standards requiring that derivative instruments be recorded at fair value and included in the balance sheet as assets or liabilities. The accounting for changes in the fair value of a derivative instrument depends on the intended use of the derivative and the resulting designation, which is established at the inception date of a derivative. Special accounting for derivatives qualifying as fair value hedges allows derivatives gains and losses to offset related results on the hedged item in the statement of income. For derivative instruments designated as cash flow hedges, changes in fair value, to the extent the hedge is effective, are recognized in other comprehensive income until the hedged item is recognized in earnings. Hedge effectiveness is measured at least quarterly based on the relative cumulative changes in fair value between the derivative contract and the hedged item over time. Credit risks related to derivatives include the possibility that the counter-party will not fulfill the terms of the contract. We considered counter-party credit risk to our derivative contracts when valuing our derivative instruments.

Our borrowing of 12.3 million under the Credit Facility serves as an economic hedge of our net investment in our European operations as fluctuations in the fair value of the borrowing attributable to the U.S. Dollar/Euro spot rate will offset translation gains or losses attributable to our investment in our European operations. At February 28, 2014 the 12.3 million borrowing had a U.S. Dollar value of \$16.9 million.

For derivative instruments that are designated and qualify as cash flow hedges, the effective portion of the gain or loss on the derivative is reported as a component of other comprehensive income and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings. Gains and losses on the derivative representing either hedge ineffectiveness or hedge components excluded from the assessment of effectiveness are recognized in current earnings. Any ineffectiveness related to our hedges was not material for any of the periods presented.

**Table of Contents**

The amounts recognized in other comprehensive income, and reclassified into income, for the three and nine months ended February 28, 2014 and 2013, are as follows (in thousands):

	Gain (Loss) Recognized in Other Comprehensive Income Three Months Ended February 28, (unaudited)		Gain (Loss) Reclassified from Other Comprehensive Income to Earnings Three Months Ended February 28, (unaudited)		Gain (Loss) Recognized in Other Comprehensive Income Nine Months Ended February 28, (unaudited)		Gain (Loss) Reclassified from Other Comprehensive Income to Earnings Nine Months Ended February 28, (unaudited)	
	2014	2013	2014	2013	2014	2013	2014	2013
Euro denominated long-term debt	\$ (94)	\$ (143)	\$	\$	\$ (856)	\$ (791)	\$	\$

The following table presents the fair value totals and balance sheet classification for derivatives designated as hedges under ASC 815 (in thousands):

	February 28, 2014 (unaudited)			May 31, 2013		
	Classification	Balance Sheet Location	Fair Value	Classification	Balance Sheet Location	Fair Value
Euro denominated long-term debt	Liability	Long-term debt	\$ 1,148	Liability	Long-term debt	\$ 2,004

**10. FAIR VALUE MEASUREMENTS**

Effective June 1, 2008, we adopted the provisions of ASC 820, *Fair Value Measurements and Disclosures* (ASC 820), which among other things, requires enhanced disclosures about assets and liabilities carried at fair value.

As defined in ASC 820, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. We utilize market data or assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable. We primarily apply the market approach for recurring fair value measurements and endeavor to utilize the best information available. Accordingly, we utilize valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. The use of unobservable inputs is intended to allow for fair value determinations in situations in which there is little, if any, market activity for the asset or liability at the measurement date. We are able to classify fair value balances based on the observability of those inputs. ASC 820 establishes a fair value hierarchy such that Level 1 measurements include unadjusted quoted market prices for identical assets or liabilities in an active market, Level 2 measurements include quoted market prices for identical assets or liabilities in an active market which have been adjusted for items such as effects of restrictions for transferability and those that are not quoted but are observable through corroboration with observable market data, including quoted market prices for similar assets, and Level 3 measurements include those that are unobservable and of a highly subjective measure.

**Table of Contents**

The following table sets forth, by level within the fair value hierarchy, our financial assets and liabilities that are accounted for at fair value on a recurring basis as of February 28, 2014. As required by ASC 820, financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement (in thousands):

	February 28, 2014 (unaudited)			Total
	Quoted Prices in Active Markets for Identical Items (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
<b>Liabilities:</b>				
Contingent consideration	\$	\$	\$ 2,982	\$ 2,982
Euro denominated long-term debt		1,148		1,148
Total liabilities	\$	\$ 1,148	\$ 2,982	\$ 4,130

	May 31, 2013			Total
	Quoted Prices in Active Markets for Identical Items (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
<b>Liabilities:</b>				
Contingent consideration	\$	\$	\$ 2,047	\$ 2,047
Euro denominated long-term debt		2,004		2,004
Total liabilities	\$	\$ 2,004	\$ 2,047	\$ 4,051

The fair value of contingent consideration liabilities that was classified as Level 3 in the table above was estimated using a discounted cash flow technique with significant inputs that are not observable in the market and thus represents a Level 3 fair value measurement as defined in ASC 820. The significant inputs in the Level 3 measurement not supported by market activity include a combination of actual cash flows and probability-weighted assessments of expected future cash flows related to the acquired businesses, appropriately discounted considering the uncertainties associated with the obligation, and as calculated in accordance with the terms of the acquisition agreement.

**11. SHARE-BASED COMPENSATION**

We have adopted stock incentive plans and other arrangements pursuant to which our Board of Directors (the Board) may grant stock options, restricted stock, stock units, stock appreciation rights, common stock or performance awards to officers, directors and key employees. At February 28, 2014, there were approximately 1.2 million stock options, restricted stock units and performance awards outstanding to officers, directors and key employees. The exercise price, terms and other conditions applicable to each form of share-based compensation under our plans are generally determined by the Compensation Committee of our Board at the time of grant and may vary.

Our share-based payments consist primarily of stock options, stock units, common stock and performance awards. The governance of our share-based compensation does not directly limit the number of future awards. However, the total number of shares ultimately issued may not exceed the total number of shares cumulatively authorized, which is 7,120,000 at February 28, 2014. Shares issued in connection with our share-based compensation are issued out of authorized but unissued common stock. Compensation expense related to share-based compensation totaled \$3.2 million and \$3.0 million for the nine months ended February 28, 2014 and 2013, respectively. At February 28, 2014, \$9.7 million of unrecognized compensation expense related to share-based compensation is expected to be recognized over a remaining weighted-average period of 2.9 years. The tax benefit derived when share-based awards result in a tax deduction for the company was \$1.1 million and \$3.0 million for the nine months ended February 28, 2014 and 2013, respectively.

**Table of Contents**

We determine the fair value of each stock option at the grant date using a Black-Scholes model and recognize the resulting expense of our stock option awards over the period during which an employee is required to provide services in exchange for the awards, usually the vesting period. There was no compensation expense related to stock options for the nine months ended February 28, 2014 and 2013. Our options typically vest in equal annual installments over a four year service period. Expense related to an option grant is recognized on a straight line basis over the specified vesting period for those options. Stock options generally have a ten year term. Transactions involving our stock options during the nine months ended February 28, 2014 and 2013 are summarized below:

	Nine Months Ended February 28, 2014 (unaudited)		Nine Months Ended February 28, 2013 (unaudited)	
	No. of Options (in thousands)	Weighted Average Exercise Price	No. of Options (in thousands)	Weighted Average Exercise Price
Shares under option, beginning of period	1,052	\$ 20.24	1,562	\$ 18.95
Changes during the period:				
Granted		\$		\$
Exercised	(195)	\$ 24.48	(508)	\$ 16.23
Cancelled		\$		\$
Expired		\$		\$
Shares under option, end of period	857	\$ 19.28	1,054	\$ 20.25
Exercisable at end of period	857	\$ 19.28	1,054	\$ 20.25

Options exercisable at February 28, 2014 had a weighted-average remaining contractual life of 2.6 years. For total options outstanding at February 28, 2014, the range of exercise prices and remaining contractual lives are as follows:

Range of Prices	No. of Options (in thousands)	Weighted Average Exercise Price	Weighted Average Remaining Life (in years)
\$6.42 to \$9.62	105	\$ 9.00	1.2
\$9.63 to \$12.82	152	\$ 11.11	1.9
\$12.83 to \$16.03	264	\$ 14.51	2.3
\$16.04 to \$32.05	336	\$ 29.94	3.6
	857	\$ 19.28	2.6

**Table of Contents**

Performance awards are settled with common stock upon vesting unless it is not legally feasible to issue shares, in which case the value of the award is settled in cash. We determine the fair value of each performance award based on the market price on the date of grant. Performance awards granted to our Chairman of our Board vest over the longer of four years or the achievement of performance goals based upon our future results of operations. Compensation expense related to performance awards totaled \$0.4 million for the nine months ended February 28, 2014 and 2013. Transactions involving our performance awards during the nine months ended February 28, 2014 and 2013 are summarized below:

	Nine Months Ended February 28, 2014 (unaudited)		Nine Months Ended February 28, 2013 (unaudited)	
	No. of Performance Awards (in thousands)	Weighted Average Fair Value	No. of Performance Awards (in thousands)	Weighted Average Fair Value
Performance awards, beginning of period	57	\$ 25.45	65	\$ 21.86
Changes during the period:				
Granted	17	\$ 36.40	19	\$ 32.89
Vested and settled	(24)	\$ 22.65	(27)	\$ 22.04
Cancelled		\$		\$
Performance awards, end of period	50	\$ 30.63	57	\$ 25.45

Stock units are settled with common stock upon vesting unless it is not legally feasible to issue shares, in which case the value of the award is settled in cash. We determine the fair value of each stock unit based on the market price on the date of grant. Stock units generally vest in annual installments over four years and the expense associated with the units is recognized over the same vesting period. We also grant common stock to our directors which typically vest immediately. Compensation expense related to stock units and director stock grants totaled \$2.8 million for the nine months ended February 28, 2014 and \$2.6 for the nine months ended February 28, 2013. Transactions involving our stock units and director stock grants during the nine months ended February 28, 2014 and 2013 are summarized below:

	Nine Months Ended February 28, 2014 (unaudited)		Nine Months Ended February 28, 2013 (unaudited)	
	No. of Stock Units (in thousands)	Weighted Average Fair Value	No. of Stock Units (in thousands)	Weighted Average Fair Value
Stock and stock units, beginning of period	329	\$ 26.07	342	\$ 21.73
Changes during the period:				
Granted	136	\$ 36.71	141	\$ 32.81
Vested and settled	(138)	\$ 24.34	(142)	\$ 22.54
Cancelled	(16)	\$ 27.94	(8)	\$ 22.40
Stock and stock units, end of period	311	\$ 31.39	333	\$ 26.07

**Table of Contents****12. OTHER COMPREHENSIVE INCOME**

A summary of changes in other comprehensive income included within shareholders' equity is as follows (in thousands):

	Nine Months Ended February 28, 2014 (unaudited)				Nine Months Ended February 28, 2013 (unaudited)			
	Foreign Currency Translation Adjustments	Foreign Currency Hedge	Tax Provision	Total	Foreign Currency Translation Adjustments	Foreign Currency Hedge	Tax Provision	Total

Total	\$ (3,781)	\$ 1,944	\$ (1,837)	\$ 1,514	\$ 218	\$ 1,732

**13. COMMITMENTS AND CONTINGENCIES**

*Con Ed Matter* We have, from time to time, provided temporary leak repair services for the steam operations of Consolidated Edison Company of New York (Con Ed) located in New York City. In July 2007, a Con Ed steam main located in midtown Manhattan ruptured causing one death and other injuries and property damage. As of February 28, 2014, ninety-five lawsuits have been filed against Con Ed, the City of New York and Team in the Supreme Courts of New York located in Kings, New York and Bronx County, alleging that our temporary leak repair services may have contributed to the cause of the rupture. The lawsuits seek generally unspecified compensatory damages for personal injury, property damage and business interruption. Additionally, on March 31, 2008, we received a letter from Con Ed alleging that our contract with Con Ed requires us to indemnify and defend Con Ed for additional claims filed against Con Ed as a result of the rupture. Con Ed filed an action to join Team and the City of New York as defendants in all lawsuits filed against Con Ed that did not include Team and the City of New York as direct defendants. We are vigorously defending the lawsuits and Con Ed's claim for indemnification. We are unable to estimate the amount of liability to us, if any, associated with these lawsuits and the claim for indemnification. We maintain insurance coverage, subject to a deductible limit of \$250,000, which we believe should cover these claims. We have not accrued any liability in excess of the deductible limit for the lawsuits. We do not believe the ultimate outcome of these matters will have a material adverse effect on our financial position, results of operations or cash flows.

We are involved in various other lawsuits and are subject to various claims and proceedings encountered in the normal conduct of business. In our opinion, any uninsured losses that might arise from these lawsuits and proceedings will not have a materially adverse effect on our consolidated financial statements.

**Table of Contents****14. ENTITY WIDE DISCLOSURES**

ASC 280, *Segment Reporting*, requires we disclose certain information about our operating segments where operating segments are defined as components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance. Through July 1, 2013, we operated in only one segment the industrial services segment. Within the industrial services segment, we were organized as two divisions. Our TCM division provided the services of inspection and assessment and field heat treating. Our TMS division provided the services of leak repair, fugitive emissions control, hot tapping, field machining, technical bolting and field valve repair.

Effective July 1, 2013, we implemented a reorganization of our business divisions to conduct operations in three segments: IHT Group, MS Group and Quest Group. All three operating segments operate under a business segment manager who reports directly to Team's Chief Executive Officer who operates as the chief operating decision maker. Segment data for our three operating segments are as follows (in thousands):

	Three Months Ended		Nine Months Ended	
	February 28, 2014 (unaudited)	February 28, 2013 (unaudited)	February 28, 2014 (unaudited)	February 28, 2013 (unaudited)
Revenues:

**15. UNCONSOLIDATED SUBSIDIARIES**

Our earnings from unconsolidated affiliates consisted entirely of our joint venture (50% ownership) to perform non-destructive testing and inspection services in Alaska. At December 31, 2013 the joint venture was dissolved and the net assets were liquidated resulting in no material gain or loss. However, the operations of the joint venture have been continued by our IHT division. Our investment in the net assets of the joint venture, accounted for using the equity method of accounting, was zero at February 28, 2014 and \$1.8 million at May 31, 2013. Revenues from the joint venture not reflected in our consolidated revenues were \$8.5 million and \$11.0 million for the nine months ended February 28, 2014 and 2013, respectively.

**16. VENEZUELA'S HIGHLY INFLATIONARY ECONOMY**

We operate a small service location in Punta Fijo, Venezuela, whose annual revenues have historically been less than one percent of our consolidated revenues for all periods presented. Because of the uncertain political environment in Venezuela, starting in the third quarter of fiscal year 2010, we began to account for Venezuelan operations pursuant to accounting guidance for hyperinflationary economies. Following

the designation of the Venezuelan economy as hyperinflationary, we ceased taking the effects of currency fluctuations to accumulated

**Table of Contents**

other comprehensive income and began reflecting all effects as a component of other income in our statement of operations. Prior to February 2013, we were using the Venezuelan central bank's official published rate (5.3 Bolivars per U.S. Dollar) to translate Venezuelan assets into U.S. Dollars as no other legal rate was readily available. In February 2013, the Venezuelan government announced a devaluation in its currency and created a new official exchange rate of 6.3 Bolivars per U.S. Dollar. As a result of the currency devaluation, we recognized a \$0.6 million pre-tax foreign currency loss in the third quarter of fiscal year 2013.

In the third quarter of fiscal year 2014, we began using an alternative Venezuelan, state-run exchange rate, commonly referred to as SICAD-1, to translate local currency financial statements. We believe using the SICAD-1 rate of 11.8 Bolivars per Dollar is more economically representative of what we might expect to receive in a dividend transaction than the official exchange rate of 6.3 Bolivars per Dollar because any dividend payments that would have been approved by the Central Bank of Venezuela prior to March 2014 would likely have been converted to U.S. Dollars at the SICAD-1 rate. As a result of the revaluation, we recognized a \$1.9 million foreign currency loss in the third quarter of fiscal 2014.

In March 2014, a market-based, state-run exchange, commonly referred to as SICAD-2, was initiated by the Central Bank of Venezuela. The nascent exchange system reported early exchange rates of about 50 Bolivars per U.S. Dollar. Management is closely monitoring the applicability and viability of this new exchange system. We have not yet determined whether we will utilize SICAD-1 or SICAD-2 exchange rates in the future for translation of local financial statements into U.S. Dollars.

At February 28, 2014, after giving effect to the revaluation in the third quarter of fiscal 2014, our Venezuelan subsidiary had net assets of \$2.4 million, consisting primarily of Bolivars denominated accounts receivable. If SICAD-2 rates are used to translate local currency financial statements to U.S. Dollars in the future, a further significant revaluation of our net assets in Venezuela can be expected in the fourth quarter of fiscal year 2014.

**17. REPURCHASE OF COMMON STOCK**

On October 1, 2013, our Board approved an initial \$25 million stock repurchase plan, superseding and replacing our previous stock repurchase plan. During our second quarter, we repurchased 369,900 shares for a total cost of \$13.3 million. These shares, along with 89,569 shares purchased in a prior period at a cost of \$1.3 million, were retired and are not included in common stock issued and outstanding as of February 28, 2014. The retirement of the shares purchased resulted in a reduction in common stock of \$0.1 million, a reduction of \$2.2 million to additional paid-in capital, and a \$12.3 million reduction in retained earnings. No shares were repurchased in the third quarter.

---

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

**Overview**

The following discussion should be read in conjunction with the unaudited condensed consolidated financial statements and the notes thereto included in Item 1 of this report, and the consolidated financial statements and Management's Discussion and Analysis of Financial Condition and Results of Operations, including Critical Accounting Policies, included in our Annual Report on Form 10-K for the year ended May 31, 2013.

We based our forward-looking statements on our reasonable beliefs and assumptions, and our current expectations, estimates and projections about ourselves and our industry. We caution that these statements are not guarantees of future performance and involve risks, uncertainties and assumptions that we cannot predict. In addition, we based many of these forward-looking statements on assumptions about future events that may prove to be inaccurate. We wish to ensure that such statements are accompanied by meaningful cautionary statements, so as to obtain the protections of the safe harbor established in the Private Securities Litigation Reform Act of 1995. New risk factors emerge from time to time and it is not possible for us to predict all such risk factors, nor can we assess the impact of all such risk factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. Accordingly, forward-looking statements cannot be relied upon as a guarantee of future results and involve a number of risks and uncertainties that could cause actual results to differ materially from those projected in the statements, including, but not limited to the statements under Risk Factors. We undertake no obligation to update publicly any forward-looking statements, whether as a result of new information, future events or otherwise. Differences between actual results and any future performance suggested in these forward-looking statements could result from a variety of factors, including those listed beginning on page 7 of our Annual Report on Form 10-K for the year ended May 31, 2013.

**General Description of Business**

We are a leading provider of specialty industrial services, including inspection and assessment, required in maintaining high temperature and high pressure piping systems and vessels that are utilized extensively in the refining, petrochemical, power, pipeline and other heavy industries. Through fiscal year 2013, we operated in only one segment—the industrial services segment (see Note 14). Within the industrial services segment, we were organized as two divisions. Our TCM division provided the services of inspection and assessment and field heat treating. Our TMS division provided the mechanical services described below.

Effective July 1, 2013, we implemented a reorganization of our business divisions to conduct operations in three segments: IHT Group, MS Group and Quest Group. While our services have been realigned in three business groups, we believe our services broadly fall into three different classifications that have unique customer demand drivers: inspection and assessment services, turnaround services, and on-stream services.

Inspection and assessment services are offered in both the IHT Group and Quest Group. The IHT Group provides basic and advanced non-destructive testing services for the process, pipeline and power sectors, pipeline integrity management services, as well as associated engineering and assessment services. These services can be offered while facilities are running (on-stream) or during facility turnarounds or during new construction or expansion activities. The Quest Group provides integrity and reliability management solutions for the process, pipeline and power sectors. These solutions encompass two broadly-defined disciplines: (1) highly specialized in-line inspection services for unpiggable process piping and pipelines using proprietary in-line inspection tools and analytical software; and (2) advanced condition assessment services through a multi-disciplined engineering team. We believe there is a general growth in market demand for inspection and assessment services as improved inspection technologies enable better information about asset reliability to be available to facility owners and operators.

**Table of Contents**

Turnaround services are offered in both the IHT Group and in the MS Group. These services are project-related and demand is a function of the number and scope of scheduled and unscheduled facility turnarounds and as well as new industrial facility construction or expansion.

Turnaround services include the field machining, technical bolting, field valve repair, heat exchanger repair, and isolation test plugging services that are part of the MS Group and the field heat treating services that are part of the IHT Group.

On-stream services are offered by the MS Group and represent the services offered while plants are operating and under pressure. These services include leak repair, fugitive emissions control and hot tapping. We believe demand for on-stream services is a function of the population of the existing infrastructure of operating industrial facilities.

We offer these services in over 125 locations throughout the world. Our industrial services are available 24 hours a day, 7 days a week, 365 days a year. We market our services to companies in a diverse array of heavy industries which include the petrochemical, refining, power, pipeline, steel, pulp and paper industries, as well as municipalities, shipbuilding, OEMs, distributors, and some of the world's largest engineering and construction firms. Our services are also provided across a broad geographic reach.

**Three Months Ended February 28, 2014 Compared to Three Months Ended February 28, 2013**

The following table sets forth the components of revenue and operating income from our operations for the three months ending February 28, 2014 and 2013:

	Three Months Ended February 28,		Increase (Decrease)	
	2014	2013	\$	%
<b>Revenues by business segment:</b>				
IHT	\$ 85,149	\$ 81,227	\$ 3,922	5%
MS	63,440	59,513	3,927	7%
Quest	14,647	10,235	4,412	43%
<b>Total</b>	<b>\$ 163,236</b>	<b>\$ 150,975</b>	<b>\$ 12,261</b>	<b>8%</b>
<b>Revenues by service type:</b>				
Inspection and assessment	\$ 76,752	\$ 71,347	\$ 5,405	8%
Turnaround	48,150	41,869	6,281	15%
On-stream services	38,334	37,759	575	2%
<b>Total</b>	<b>\$ 163,236</b>	<b>\$ 150,975</b>	<b>\$ 12,261</b>	<b>8%</b>
<b>Operating income:</b>				
IHT	\$ 3,783	\$ 4,439	\$ (656)	(15)%
MS	2,939	3,346	(407)	(12)%
Quest	1,170	(62)	1,232	100%
Corporate and shared support	(6,892)	(7,114)	222	(3)%
<b>Total</b>	<b>\$ 1,000</b>	<b>\$ 609</b>	<b>\$ 391</b>	<b>64%</b>

**Revenues.** While overall revenues grew modestly from the prior year quarter, the components of our revenue shifted significantly in the current year quarter. Quest revenues grew 43% reflecting strong growth in process industry services. Revenue growth for both the IHT and MS business units were negatively impacted by significant disruptions in business activity due to the uncharacteristically adverse and prolonged winter weather across the United States and Canada. We believe we lost about \$6 million of revenue in the quarter associated with project delays and deferrals.

**Table of Contents**

**Operating Income.** Overall operating income was up \$0.4 million versus the prior year quarter. Quest's operating income improved \$1.2 million over the prior year quarter due to its significant revenue growth in the quarter. MS and IHT operating income declined by \$1.1 million in total. We believe operating income was negatively impacted by \$3-4 million due to the lost revenue associated with the significant weather related disruptions in business activity mentioned above.

**Nine Months Ended February 28, 2014 Compared to Nine Months Ended February 28, 2013**

The following table sets forth the components of revenue and operating income from our operations for the nine months ending February 28, 2014 and 2013:

	Nine Months Ended February 28,		Increase (Decrease)	
	2014	2013	\$	%
<b>Revenues by business segment:</b>				
IHT	\$ 290,409	\$ 272,372	\$ 18,037	7%
MS	200,196	201,011	(815)	(0)%
Quest	47,435	39,732	7,703	19%
<b>Total</b>	<b>\$ 538,040</b>	<b>\$ 513,115</b>	<b>\$ 24,925</b>	<b>5%</b>
<b>Revenues by service type:</b>				
Inspection and assessment	\$ 274,821	\$ 247,664	\$ 27,157	11%
Turnaround	144,354	157,877	(13,523)	(9)%
On-stream services	118,865	107,574	11,291	10%
<b>Total</b>	<b>\$ 538,040</b>	<b>\$ 513,115</b>	<b>\$ 24,925</b>	<b>5%</b>
<b>Operating income:</b>				
IHT	\$ 31,666	\$ 30,411	\$ 1,255	4%
MS	17,120	21,049	(3,929)	(19)%
Quest	5,986	5,944	42	1%
Corporate and shared support	(21,786)	(20,931)	(855)	4%
<b>Total</b>	<b>\$ 32,986</b>	<b>\$ 36,473</b>	<b>\$ (3,487)</b>	<b>(10)%</b>

**Revenues.** For the nine months ended February 28, 2014, overall revenues increased \$24.9 million over the prior year-to-date period, including \$10.8 million associated with business acquisitions (all in IHT). Quest revenues were up 19% over the prior year-to-date period, reflecting a slow start in the first quarter of the fiscal year followed by a very strong second and third quarter. The current year-to-date period was impacted by significantly fewer large turnaround projects in the first half of the year compared to the prior year period as well as the adverse weather conditions discussed above.

**Operating income.** Overall operating income was down \$3.5 million from the first nine months of last year. Without regard to the \$2.1 million non-cash gain from the revaluation of contingent consideration recognized in the second quarter (included in IHT) and \$0.7 million of severance costs in the first quarter (included in corporate and shared support costs), operating income would have declined by \$4.9 million. \$3.9 million of the decline in operating income is attributable to the MS Group, reflecting the severe weather conditions in the third quarter and fewer number of large projects in the first nine months of the current year compared to last year. Quest's operating income was flat when comparing the current year and last year due to the slow start by Quest in the first quarter of the year.

**Liquidity and Capital Resources**

Financing for our operations consists primarily of vendor financing and leasing arrangements, our Credit Facility and cash flows attributable to our operations, which we believe are sufficient to fund our business needs.

---

**Table of Contents**

The Credit Facility has borrowing capacity of up to \$150 million in multiple currencies, bears interest based on a variable Eurodollar rate option (LIBOR plus 1.75% margin at February 28, 2014) with the margin based on financial covenants set forth in the Credit Facility. In connection with a prior renewal of the Credit Facility, we are amortizing \$0.8 million of associated debt issuance costs which are being amortized over the life of the Credit Facility. At February 28, 2014, we had \$39.5 million of cash on hand and approximately \$53 million of available borrowing capacity through our Credit Facility. Our Credit Facility does not mature until July 2016 and there are no mandatory payments before the maturity date. At that time, we expect to be able to renew the facility based upon our long-term relationships with each member bank of our Credit Facility and the relatively low credit leverage defined as our debt to EBITDA ratio.

In the second quarter of 2013, we initiated the design and implementation of a new ERP system, which is expected to be fully installed by the end of fiscal 2016. Total future capital costs associated with the implementation are expected to be in the range of \$10 to \$12 million over the next two years.

Additionally, we are redeveloping Team's former headquarters in Alvin, Texas as an equipment, training and technical center for operations support. The Alvin project is expected to be completed in the spring of 2014 at a total cost of approximately \$9 million.

On October 1, 2013, our Board approved an initial \$25 million stock repurchase plan, superseding and replacing our previous stock repurchase plan. During our second quarter, we repurchased 369,900 shares for a total cost of \$13.3 million. These shares, along with 89,569 shares purchased in a prior period at a cost of \$1.3 million, were retired and are not included in common stock issued and outstanding as of February 28, 2014. The retirement of the shares purchased resulted in a reduction in common stock of \$0.1 million, a reduction of \$2.2 million to additional paid-in capital, and a \$12.3 million reduction in retained earnings. No shares were repurchased in the third quarter.

**Restrictions on cash.** Included in our cash and cash equivalents at February 28, 2014, is cash in certain foreign subsidiaries where earnings are considered by the Company to be permanently reinvested. In the event that some or all of this cash were to be repatriated, we would be required to accrue and pay additional taxes. While not legally restricted from repatriating this cash, we consider all undistributed earnings of these foreign subsidiaries to be indefinitely reinvested and access to cash to be limited. Similarly, the uncertain economic and political environment in Venezuela makes it very difficult to repatriate the cash of our Venezuelan subsidiary. Due to the official devaluation of the Venezuelan currency, the Bolivar, in February 2013 we recorded a devaluation loss of \$0.6 million in the year ended May 31, 2013.

In the third quarter of fiscal year 2014, we began using an alternative Venezuelan, state-run exchange rate, commonly referred to as SICAD-1, to translate local currency financial statements. We believe the SICAD-1 rate of 11.8 Bolivars per Dollar is more economically representative of what we might expect to receive in a dividend transaction than the official rate of 6.3 Bolivars per Dollar because any dividend payments that would have been approved by the Central Bank of Venezuela prior to March 2014 would likely have been converted to U.S. Dollars at the SICAD-1 rate. As a result of the revaluation, we recognized a \$1.9 million foreign currency loss in the third quarter of fiscal 2014.

In March 2014, a market-based, state-run exchange, commonly referred to as SICAD-2, was initiated by the Central Bank of Venezuela. The nascent exchange system reported early exchange rates of about 50 Bolivars per U.S. Dollar. Management is closely monitoring the applicability and viability of this new exchange system. We have not yet determined whether we will utilize SICAD-1 or SICAD-2 exchange rates in the future for translation of local financial statements into U.S. Dollars.

At February 28, 2014, after giving effect to the revaluation in the third quarter of fiscal 2014, our Venezuelan subsidiary had net assets of \$2.4 million, consisting primarily of Bolivar denominated accounts

---

**Table of Contents**

receivable. If SICAD-2 rates are used to translate local currency financial statements to U.S. Dollars in the future, a further significant revaluation of our net assets in Venezuela can be expected in the fourth quarter of fiscal year 2014.

***Cash flows attributable to our operating activities.*** For the nine months ended February 28, 2014, net cash provided by operating activities was \$39.5 million. Net income of \$18.1 million, depreciation and amortization of \$16.0 million, foreign currency loss of \$2.4 million, a decrease in working capital of \$2.5 million, and non-cash compensation cost of \$3.2 million were offset by a contingent consideration revaluation of \$2.1 million.

***Cash flows attributable to our investing activities.*** For the nine months ended February 28, 2014, net cash used in investing activities was \$33.6 million, consisting primarily of \$23.8 million of capital expenditures and \$10.2 million for business acquisitions. Capital expenditures can vary depending upon specific customer needs that may arise unexpectedly.

***Cash flows attributable to our financing activities.*** For the nine months ended February 28, 2014, net cash provided by financing activities was \$0.6 million consisting primarily of \$9.8 million of net borrowings related to our Credit Facility and \$4.8 million through the issuance of common stock from share-based payment arrangements. This increase was offset by \$13.3 million of payments related to the purchase of stock pursuant to our stock repurchase plan.

***Effect of exchange rate changes on cash.*** For the nine months ended February 28, 2014, the effect of exchange rate changes on cash was a negative \$1.3 million. We have significant operations in Europe and Canada, as well as operations in Venezuela which is considered a hyperinflationary economy. The impact of foreign currency exchange rates on cash in the current year is primarily attributable to changes in U.S. Dollar exchange rates with Canada, Europe and Venezuela.

**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

We have operations in foreign countries with a functional currency that is not the U.S. Dollar. We are exposed to market risk, primarily related to foreign currency fluctuations related to these operations. A significant part of these assets relate to our operations in Europe and Canada. During the nine months ended February 28, 2014, the exchange rate with the Euro increased from \$1.30 per Euro to \$1.37 per Euro, an increase of 5%. During the same period, the exchange rate with the Canadian Dollar decreased from \$0.97 per Canadian Dollar to \$0.90 per Canadian Dollar, a decrease of 7%. For foreign subsidiaries with a functional currency that is not the U.S. Dollar, such as our operations in Europe and Canada, assets and liabilities are translated at period ending exchange rates. Translation adjustments for the assets and liability accounts are included as a separate component of accumulated other comprehensive income in shareholders' equity. Foreign currency translation losses in other comprehensive income were \$2.9 million for the nine months ended February 28, 2014.

We carry Euro based debt to serve as a hedge of our net investment in our European operations as fluctuations in the fair value of the borrowing attributable to the U.S. Dollar/Euro spot rate will offset translation gains or losses attributable to our investment in our European operations. We are exposed to market risk, primarily related to foreign currency fluctuations related to the unhedged portion of our investment in our European operations.

At February 28, 2014, our Venezuelan subsidiary had \$2.4 million of net assets denominated in Venezuelan Bolivars and translated into U.S. Dollars. We account for Venezuelan operations pursuant to accounting guidance for hyperinflationary economies. Following the designation of the Venezuelan economy as hyperinflationary, we ceased recording the effects of currency fluctuations to accumulated other comprehensive income and began reflecting all effects as a component of other income in our statement of operations. As discussed above, there was an official devaluation of the Venezuelan currency, the Bolivar, in February 2013 which resulted in the recognition of a devaluation loss of \$0.6 million in the year ended May 31, 2013.

In the third quarter of fiscal year 2014, we began using an alternative Venezuelan, state-run exchange rate, commonly referred to as SICAD-1, to translate local currency financial statements. We believe the SICAD-1 rate

---

**Table of Contents**

of 11.8 Bolivars per Dollar is more economically representative of what we might expect to receive in a dividend transaction than the official rate of 6.3 Bolivars per Dollar because any dividend payments that would have been approved by the Central Bank of Venezuela prior to March 2014 would likely have been converted to U.S. Dollars at the SICAD-1 rate. As a result of the revaluation, we recognized a \$1.9 million foreign currency loss in the third quarter of fiscal 2014.

In March 2014, a market-based, state-run exchange, commonly referred to as SICAD-2, was initiated by the Central Bank of Venezuela. The nascent exchange system reported early exchange rates of about 50 Bolivars per U.S. Dollar. Management is closely monitoring the applicability and viability of this new exchange system. We have not yet determined whether we will utilize SICAD-1 or SICAD-2 exchange rates in the future for translation of local financial statements into U.S. Dollars.

At February 28, 2014, after giving effect to the revaluation in the third quarter of fiscal 2014, our Venezuelan subsidiary had net assets of \$2.4 million, consisting primarily of Bolivars denominated accounts receivable. If SICAD-2 rates are used to translate local currency financial statements to U.S. Dollars in the future, a further significant revaluation of our net assets in Venezuela can be expected in the fourth quarter of fiscal year 2014.

We hold certain floating-rate obligations. We are exposed to market risk primarily related to potential increases in interest rates related to our debt.

**ITEM 4. CONTROLS AND PROCEDURES**

***Limitations on effectiveness of control.*** Our management, including the principal executive and financial officer, does not expect that our disclosure controls and procedures or our internal control over financial reporting will prevent or detect all errors and all fraud. A control system, no matter how well designed or operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. The design of our control system reflects the fact that there are resource constraints and the benefits of such controls must be considered relative to their costs. Further, because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control failures and instances of fraud, if any, have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts, by collusion of two or more people, or by management override of the

controls. The design of any system of controls is also based in part on certain assumptions about the likelihood of future events and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Projections of management's assessments of the current effectiveness of our disclosure controls and procedures and its internal control over financial reporting are subject to risks. However, our disclosure controls and procedures are designed to provide reasonable assurance that the objectives of our control system are met.

***Evaluation of disclosure controls and procedures.*** As of the end of the period covered by this report, an evaluation was carried out under the supervision and with the participation of our management, including our Chief Executive Officer ( CEO ) and our Chief Financial Officer ( CFO ), of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended ( Exchange Act )). This evaluation included consideration of the various processes carried out under the direction of our disclosure committee in an effort to ensure that information required to be disclosed in our SEC reports is recorded, processed, summarized and reported within the time periods specified by the SEC. This evaluation also considered the work completed relating to our compliance with Section 404 of the Sarbanes-Oxley Act of 2002.

Based on this evaluation, our CEO and CFO concluded that, as of February 28, 2014, our disclosure controls and procedures were operating effectively to ensure that the information required to be disclosed in our SEC

**Table of Contents**

reports is recorded, processed, summarized and reported within the requisite time periods and that such information is accumulated and communicated to management, including our CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure.

***Changes in internal control over financial reporting.*** There were no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) that have materially affected or are reasonably likely to materially affect our internal control over financial reporting during the third quarter of our fiscal year ending May 31, 2014.

**Table of Contents****PART II OTHER INFORMATION****ITEM 1. LEGAL PROCEEDINGS**

*Con Ed Matter* We have, from time to time, provided temporary leak repair services for the steam operations of Consolidated Edison Company of New York ( Con Ed ) located in New York City. In July 2007, a Con Ed steam main located in midtown Manhattan ruptured causing one death and other injuries and property damage. As of February 28, 2014, ninety-five lawsuits have been filed against Con Ed, the City of New York and Team in the Supreme Courts of New York located in Kings, New York and Bronx County, alleging that our temporary leak repair services may have contributed to the cause of the rupture. The lawsuits seek generally unspecified compensatory damages for personal injury, property damage and business interruption. Additionally, on March 31, 2008, we received a letter from Con Ed alleging that our contract with Con Ed requires us to indemnify and defend Con Ed for additional claims filed against Con Ed as a result of the rupture. Con Ed filed an action to join Team and the City of New York as defendants in all lawsuits filed against Con Ed that did not include Team and the City of New York as direct defendants. We are vigorously defending the lawsuits and Con Ed's claim for indemnification. We are unable to estimate the amount of liability to us, if any, associated with these lawsuits and the claim for indemnification. We maintain insurance coverage, subject to a deductible limit of \$250,000, which we believe should cover these claims. We have not accrued any liability in excess of the deductible limit for the lawsuits. We do not believe the ultimate outcome of these matters will have a material adverse effect on our financial position, results of operations or cash flows.

We are involved in various other lawsuits and are subject to various claims and proceedings encountered in the normal conduct of business. In our opinion, any uninsured losses that might arise from these lawsuits and proceedings will not have a materially adverse effect on our consolidated financial statements.

**ITEM 1A. RISK FACTORS**

See page 7 of our Annual Report on Form 10-K for the year ended May 31, 2013 for a detailed discussion of our risk factors.

**ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**

On October 1, 2013, our Board approved an initial \$25 million stock repurchase plan, superseding and replacing our previous stock repurchase plan. Concurrently, our Credit Facility was amended to exclude the first \$25 million of stock repurchases from the definition of fixed charges for purposes of calculating the fixed charge coverage ratio under the Credit Facility. Through November 30, 2013, we repurchased a total of 369,900 shares under this program for an aggregate cost of \$13.3 million, or an average price of \$36.05 per share.

Repurchases during the first half of fiscal year 2014 were as follows:

Period	(a) Total number of Shares (or Units) Purchased		(b) Average Price Paid per Share (or Unit)	(c) Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	(d) Maximum Number (or Appropriate Dollar Value) of Shares (or Units) that May Yet be Purchased Under the Plan or Program
June 1 - August 31, 2013					
September 1 - September 30, 2013					
October 1 - November 30, 2013	369,900	\$	36.05	369,900	\$ 11,666,511
Total	369,900	\$	36.05	369,900	\$ 11,666,511

No further share repurchases were made in the third quarter of fiscal year 2014.
