Louis M. Cosso

Jin Chul Jhung

Kevin S. Kim

Peter Y.S. Kim

Sang Hoon Kim

Chung Hyun Lee

David P. Malone

Scott Yoon-Suk Whang

Dale S. Zuehls

In accordance with the Company's Corporate Governance Guidelines requiring all nominees who are aged 75 or older at the time of the Annual Meeting of Stockholders to retire, Messrs. Steven D. The nominees: Louis M. Cosso, Jin Chul Jhung, Kevin S. Kim, Peter Y.S. Kim, Sang Hoon Kim, Chung Hyun Lee and Scott Yoon-Suk Whang are currently directors of the Company who were previously elected by the stockholders at the 2013 Annual Meeting of Stockholders. Nominees David P. Malone and Dale S. Zuehls, who were each recommended for nomination by non-management directors, were appointed to the board of directors effective May 20, 2014 and March 20, 2014, respectively. It is the Company's policy to encourage its directors and nominees for election as directors to attend our Annual Meeting of Stockholders. All of the director nominees, with the exception of Messrs. Malone and Zuehls, attended our 2013 Annual Meeting of Stockholders.

The Nasdaq Stock Market listing standards require that a majority of the members of a listed company's board of directors qualify as independent, as affirmatively determined by the board of directors. The board of directors consults with the Company's counsel to ensure that the board of directors' determinations of independence are consistent with all relevant securities and other laws and regulations regarding the definition of independent, including those set forth

in pertinent listing standards of the Nasdaq Stock Market, as in effect from time to time.

Consistent with these considerations, after review of all relevant transactions or relationships between each director, or any of his or her family members, and the Company, its senior management and KPMG, the board of directors affirmatively has determined that all of our directors, other than Kevin S. Kim, our Chairman and Chief Executive Officer, are independent directors within the meaning of the applicable Nasdaq Stock Market listing standards.

The following is a brief description of our current directors, each of whom has been nominated by the board of directors for election as a director at our 2014 Annual Meeting of Stockholders. The Company knows of no arrangements, including any pledge by any person of the Company's securities, the operation of which may, at a subsequent date, result in a change in control of the Company. There are no arrangements or understandings by which any of the directors or nominees for director of the Company were selected. There is no family relationship between any of the directors, nominees or executive officers.

Item 11. EXECUTIVE COMPENSATION COMPENSATION DISCUSSION AND ANALYSIS

Overview

The success of our Company has substantially depended, and will continue to depend, on our ability to attract and retain talented employees, including the Named Executive Officers identified in the Summary Compensation Table below, whose compensation is the subject of this Compensation Discussion and Analysis, or CD&A. Overall, our executive compensation is used to attract and retain key executive officers and to reward exceptional job performance by such executive officers.

Compensation Philosophy and Objectives

We believe that the most effective executive compensation programs are those that align the interests of our executive officers with those of our stockholders. A properly structured compensation program will reinforce and support the development of a strong performance-oriented culture within the Company to achieve specific short and long-term strategic objectives while taking into consideration potential risk implications, such as not encouraging imprudent risk-taking that threatens the long-term value of the Company. Although we believe that a significant percentage of executive compensation should be based on the principles of pay for performance, we also recognize that we must have the ability to attract and retain highly talented executive officers by offering competitive base salaries. An important objective of the Company and its Human Resources and Compensation Committee is to ensure that the compensation programs for our employees at the Executive Vice President level and above are competitive with those at our peer group companies.

Table of Contents

The Company's executive compensation programs are designed to provide:

levels of base salary that are competitive with companies in our peer group;

annual cash incentive bonuses under the Company's Performance Incentive Plan, or PIP, that are tied to our financial results, achievement of our yearly strategic goals and achievement of individual performance objectives; and

long-term incentive equity awards, including equity-based awards under the 2007 Plan and 2006 Plan, and long-term incentive cash awards under the Company's Long Term Incentive Plan, or LTIP, that are designed to encourage executive officers to focus their efforts on building stockholder value by meeting longer-term financial and strategic goals.

The Compensation Committee attempts to strike a balance among these elements, each of which is discussed in greater detail below, in designing and administering the Company's executive compensation programs. With respect to performance-based compensation, the Compensation Committee believes that executive compensation should be closely tied to the financial and operational performance of the Company, individual performance and the level of responsibility of the officer, as well as risk management. The Compensation Committee believes that the equity-based portion of our management compensation should include meaningful features that encourage key employees to remain in the employment of the Company. In making compensation decisions, the Compensation Committee considers such factors as fairness to employees, retention of talented executive officers and fostering improvement in the Company's performance, which will ultimately benefit the Company's stockholders.

Roles and Responsibilities of the Human Resources and Compensation Committee

The Compensation Committee of the board of directors has strategic and oversight responsibility for the compensation and benefits programs of the Company. The Compensation Committee reviews the compensation recommendations made by the Chief Executive Officer for employees at the Executive Vice President level and any other Chief Officers who are not Executive Vice Presidents (the Chief Internal Auditor is a Senior Vice President) to determine whether the compensation paid to such employees is reasonable and competitive and whether such compensation serves the interests of the Company's stockholders. The Chief Risk Officer reports directly to the Board Risk and Compliance Committee (BRCC) and the Chief Internal Auditor reports directly to the Audit Committee. The Chairs of the BRCC and Audit Committee provide input on compensation decisions for the Chief Risk Officer and Chief Internal Auditor, respectively, in conjunction with the Compensation Committee. The Compensation Committee is also responsible for establishing, implementing, and monitoring the compensation structure, policies, and programs of the Company subject to the overall authority of the board of directors, including assessment of the risk profile of each compensation policy and practice, and for assessing and recommending to the board for approval of the total compensation paid to the Chief Executive Officer and Executive Vice Presidents of the Company. The Compensation Committee periodically reviews the pay practices of companies in our peer group to determine the appropriate compensation mix and levels for our executive officers. It is the policy of the Company to only engage compensation consultants who are independent, and only provide services related to the form and amount of executive and director compensation.

The Compensation Committee meets at least four times a year and also holds special meetings and telephonic meetings to discuss extraordinary items, such as the hiring or dismissal of employees at the Executive Vice President level or above. For fiscal year 2013, the Compensation Committee met a total of eight times, including regularly

scheduled Compensation Committee meetings, special meetings and telephonic meetings. The Chair of the Compensation Committee regularly reports to the board of directors on the Compensation Committee's actions and recommendations. The Compensation Committee has authority to retain outside counsel, compensation consultants and other advisors to assist as needed. A copy of the Compensation Committee's charter can be found in the corporate governance section of our website at www.BBCNbank.com.

Table of Contents

Elements of Compensation

Total direct compensation is mainly comprised of a base salary, annual cash incentive bonus and long-term equity or cash incentive awards, as discussed in more detail below. To determine the appropriate mix among these elements, the Compensation Committee evaluates the pay practices of a select group of comparable banking institutions identified by the Company.

In 2012, the Company completed an internal analysis of our pay standards, for our CEO, CFO and COO with a peer group made up of U.S. public commercial banks with total assets within plus or minus 30% of the Bank's total assets, with a deposit to asset ratio of greater than 50%, brokered deposits to deposit ratio of less than 33%, CRE loans to total loans ratio of greater than 33% and total assets of the parent corporation of less than 150% of BBCN Bancorp. The peer group consisted of: Park National Bank, Citizens Business Bank, First Financial Bank NA, Boston Private Bank and Trust Company, First Commonwealth Bank, Santa Barbara Bank & Trust NA, BancFirst, Pacific Western Bank, WestAmerica Bank, Rockland Trust Company, Columbia State Bank, Pinnacle National Bank, Cole Taylor Bank, 1st Source Bank, TowneBank, Centennial Bank, Union First Market Bank and Bank of the Ozarks. The internal analysis found that in performance the Company ranked above the 75th percentile, but in pay for the CEO, CFO and COO the Company ranked at the 25th percentile. No comparable peer analysis was completed by the Company in 2013.

The following describes in greater detail the objectives and policies underlying the elements of our compensation structure and the methodology we use for establishing the amount of each element for our NEOs:

Base Salary

We believe that our employees should be paid a base salary that is competitive with the salaries paid by companies in our peer group based on each employee's experience, performance, and geographic location.

Each year, the Compensation Committee determines the target level of total annual cash compensation (salary and non-equity incentive compensation) for each Named Executive Officer. The Compensation Committee considers a wide variety of factors in determining compensation levels, including the individual executive officer's performance, the Company's performance, the business or corporate function for which the executive is responsible, the nature and importance of the executive officer's position and role within the Company, the scope of the executive officer's responsibility or internal relationships and the current compensation package in place for the executive officer, including the executive officer's current annual base salary and potential bonus incentive awards under the Company's Performance Incentive Plan.

Annual Cash Incentive Bonus

Annual cash incentive bonuses are paid under the Company's Performance Incentive Plan. The PIP was developed to recognize and reward senior officers, including NEOs but excluding the Chief Executive Officer, who help enhance stockholder value, profitability and customer satisfaction and help meet the strategic goals of the Company. The PIP defines corporate and individual goals and establishes incentive award ranges for each level of management. The PIP also measures performance against agreed-upon goals in determining an incentive award. The PIP is administered by the Chief Executive Officer, and approved by the Compensation Committee. Annual cash incentive awards for the Chief Executive Officer are determined by the Compensation Committee based on achievement of strategic plan goals and performance against budget, both of which are approved by the board of directors. The CEO's goals are 100% based on the Bancorp Performance Goals, as defined below.

We intend to continue our strategy of compensating NEOs and executives through programs that emphasize performance-based incentive compensation, with incentive criteria primarily tied to the Company's performance. In 2013, individual PIP goals were created for each qualified employee and focused on achieving established Company and Bank performance goals.

The goals for employees of BBCN Bancorp included the following Company performance goals: 1) ensure that BBCN is well positioned to capitalize on merger and acquisition opportunities as they arise in the markets (12.5%); 2) launch a new line of business and complete business plans and risk assessments for two additional lines of business (12.5%); 3) complete the organizational development of the holding company structure (10%); 4) successfully close the Foster Bankshares acquisition (7.5%); and 5) successfully achieve all Bank goals (7.5%) (the Bancorp Performance Goals).

Table of Contents

The goals for employees of the Bank included the following Bank performance goals: 1) complete all significant merger integration steps in all closed acquisitions (10%); 2) meet or exceed the budgeted loan and deposit goals (10%); 3) meet or exceed the budgeted net income (10%); 4) meet or exceed the customer service satisfactory level from the annual survey (10%); and 5) complete a satisfactory regulatory examination (10%) (Bank Performance Goals).

All employees with a title of First Vice President and above were entitled to participate in the PIP, and each had both an individual and Company or Bank goals assigned. The front office staff, who have primary responsibility for maintaining existing and generating new loan and deposit customers had a higher percentage of their goals based on individual performance and unit profitability while the back office staff, who focus their time on the administrative functions and supporting the front office staff, had goals which were more heavily weighed on the achievement of risk management or efficiency goals. Most senior and mid-level managers were paid a PIP bonus in March of 2014, for the work performed in 2013.

For 2013, the goals for all employees, except for Executive Officers, were based 50% on the achievement of Bancorp Performance Goals or Bank Performance Goals, as applicable, and 50% on individual goals. For the NEOs and other Executive Vice Presidents, other than Kevin S. Kim, the goals were based 75% on the achievement of Bank Performance Goals and 25% on individual goals. This 75% was broken down equally between the five Bancorp Performance Goals or Bank Performance Goals, as applicable. The Company met 100% of the Bancorp Performance Goals relating to the successful closing of the Foster Bankshares acquisition, 85% of its performance goals relating to new business lines, 80% of its performance goals relating to capitalizing on merger and acquisition opportunities and completing the organizational development of the holding company structure, and 70% of its performance goal relating to the achievement of all Bank goals. The Bank met 100% of the Bank Performance Goals relating to completing significant merger integration steps and achieving loan and deposit goals, met 90% of its performance goal relating to achieving budgeted net income and improving customer service, and met 80% of its performance goal relating to a satisfactory completion of a regulatory examination.

Following is a summary of the individual goals of each of the NEOs, other than Kevin S. Kim, which related to strategic plan objectives and improving their areas of responsibility, comprising 25% of their total performance goals:

Kyu S. Kim: 1) meet deposit budget goals (5%); 2) meet loan budget goals (5%); 3) meet new key customers, strategic market growth and new product development goals (5%); and 4) retain critical employees (10%). Ms. Kim met 85% of her individual goals.

Douglas J. Goddard: 1) provide financial analysis, modeling and due diligence support for the Bank's merger opportunities (5%); 2) enhance and make more efficient the Finance department's organizational structure (5%); 3) satisfactory rating for any applicable internal audits and regulatory examinations (5%); and 4) develop next generation of leaders (10%). Mr. Goddard met 92% of his individual goals.

Mark H. Lee: 1) meet strategic plan initiatives for which he has responsibility (5%); 2) achieve nonperforming loan and nonperforming asset targets, excluding Foster acquired assets (5%); 3) satisfactory rating for any applicable internal audits, regulatory examinations, compliance/code of ethics related subjects, minimized losses (5%); and 4) develop next generation of leaders (10%). Mr. Lee met 80% of his individual goals.

Jason K. Kim: 1) meet strategic plan initiatives for which he has responsibility (5%); 2) meet targeted goals to increase and enhance revenue, production, efficiencies (5%); 3) satisfactory rating for any applicable internal audits, regulatory examinations, compliance/code of ethics related subjects, minimized losses (5%); and 4) develop next generation of leaders (10%). Mr. Kim met 86% of his individual goals.

The determination of how incentive payments are allocated and paid to each NEO is recommended by the Chief Executive Officer to the Compensation Committee and reviewed by the board of directors. The Chief Executive Officer makes his recommendation after the completion of each NEO's annual PIP evaluation. The allocation of each year's PIP accrual, to be paid in the following year, is determined by the relative performance and contribution to the financial results of the Company by each NEO and achievement of individual performance goals under each NEO's Performance Incentive Plan.

Table of Contents

In December 2013, all employees were paid a holiday bonus. Employees at levels up to and including Vice President were paid an individual holiday bonus equivalent to 100% of their monthly salary. Employees at levels First Vice President and above were paid a flat amount of \$1,000. All part-time employees were paid a flat \$300. For employees hired in 2013, a pro-ration was calculated based on weeks worked in 2013.

Long-Term Equity Incentive Awards

Long-term incentive equity awards are an additional component of the Company's total compensation package for retaining and motivating executive officers. The Compensation Committee believes that equity-based compensation, including stock options and performance units, ensures that the Company's officers have a personal stake in the long-term success of the Company without encouraging such officers to take inappropriate or unnecessary risks. During the Company's history, long-term incentive equity awards have been granted every few years to help retain officers and secure their ongoing commitment to the Company. These long-term incentive awards have been granted under the 2000 Plan, the 2006 Plan and the 2007 Plan described below. The Company will continue to review best practices periodically and reevaluate the frequency of grants in light of practices by peer group companies in a manner that is consistent with the compensation philosophy of the Company and stockholders' interests.

The Company has granted long-term equity incentive awards under the Nara Bancorp, Inc. 2001 Nara Bank 2000 Continuation Long Term Incentive Plan (the 2000 Plan), which was subsequently replaced by the Nara Bancorp, Inc. 2007 Equity Incentive Plan, and renamed as the BBCN Bancorp, Inc. 2007 Equity Incentive Plan (the 2007 Plan). Under the 2000 Plan, the Company granted options to purchase the Company's common stock and restricted units, which typically vested over a three-year or five-year period in equal installments on the anniversary dates of the grant and were granted with a ten-year term. The options have an exercise price equal to the fair market value of the Company's common stock on the date of the grant. With the adoption of the 2007 Plan, the 2000 Plan was terminated, except with respect to outstanding awards.

Options and performance units granted under the 2007 Plan typically vest over a three-year or five-year period in equal installments on the anniversary date of the grant and are granted with a ten-year term. Options have an exercise price equal to the fair market value of the Company's common stock on the date of the grant. Performance unit grants will result in the issuance of the Company's common stock upon vesting and achievement of specified performance criteria.

BBCN assumed the outstanding stock option awards that had been made under the 2006 Center Stock Incentive Plan (the 2006 Plan). Options and restricted stock issued under the 2006 Plan typically vest over a three-year or five-year period in equal installments on the anniversary date of the grant and are granted with a ten-year term. Options have an exercise price equal to the fair market value of the Company's common stock on the date of the grant. Restricted stock grants will result in the issuance of the Company's common stock upon vesting.

On February 10, 2012, the executive officers of the Company, including the NEOs, were granted performance units worth approximately 45% of their base salary in 2011. The performance units vested one-half effective on the two-year anniversary at February 10, 2014. The remaining two quarters will vest on the third and fourth anniversaries of the grant date, subject to attainment of satisfactory individual performance reviews in each year of the vesting period.

On March 6, 2013, Kevin S. Kim was granted 20,000 performance units in conjunction with his appointment as President and Chief Executive Officer of BBCN Bancorp. One-third of the performance units vested on March 6, 2014. The remaining two thirds will vest on the second and third anniversaries of the grant date, subject to attainment of satisfactory individual performance reviews in each year of the vesting period.

Table of Contents

On June 26, 2013, Kyu S. Kim was granted 4,000 performance units. The performance units vest 20% each on the anniversary of the grant date years one through five, subject to attainment of satisfactory individual performance reviews in each year of the vesting period.

Long Term Cash Incentive Plan

The Company has a Long Term Incentive Plan (LTIP) for NEOs, which is intended to incentivize executive officers to remain employed by the Bank for the long term and to provide a vehicle for NEOs to build a retirement fund beyond the Company s 401(k) plan. We believe that stability of our executive management team is a key component to the Company s future success and growth.

The LTIP provides for vesting of the contribution portion accrued for an executive officer s deferred compensation account upon the occurrence of a double trigger, which is both a change in control of the Company and a separation from service for good cause within twelve months of the change in control event. The LTIP requires the satisfaction of certain performance criteria by each participating NEO each year in order for the NEO to receive full credit for his or her potential yearly contribution. Performance criteria are determined in advance by the board of directors each year. For 2008, the performance criteria were that the Company must meet at least 80% of its return on assets and return on equity targets to be eligible for any contribution to an NEO s LTIP account. The same performance criteria remained in effect through 2013.

The Company did not meet the performance criteria in 2008, 2009 and 2010, and thus, no amounts were accrued on or placed in any of the participating NEO s LTIP accounts. In 2011, 2012 and 2013, the Company met its performance criterion, and contributions were made to the LTIP accounts of qualified participants.

Kyu S. Kim became an LTIP participant in 2008. According to the terms of her individual LTIP agreement, Kyu S. Kim is entitled to have contributions up to \$30,000 per year, for ten-year period beginning in 2008, placed in a deferred compensation account which accrues interest at an annual rate of 6.25%, to be paid out starting when she reaches 65 years of age. The agreement has a five-year cliff vesting of up to 50% of her total potential contribution amounts plus accrued interest in her deferred compensation account, with an additional 10% vesting of the total potential contributions plus accrued interest in each of years six through ten. Company contributions to date to Kyu S. Kim s LTIP account include \$30,000 each for 2011, 2012 and 2013.

Long-Term Equity Incentive Awards

Directors may be granted equity awards upon their appointment to the board of directors. Periodically, the Company reevaluates board compensation, including the grant of new stock options and performance units. In setting director compensation, the Company considers the amount of time that directors expend in fulfilling their duties to the Company as well as the skill level and experience required by the board of directors. The Company also considers board compensation practices at similarly situated banks, while keeping in mind the compensation philosophy of the Company and the stockholders' interests. Item 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

Policies and Procedures for Approving Related Party Transactions

We conduct a review of all related party transactions for potential conflict of interest situations on an ongoing basis, and all such transactions must be reviewed by the Nomination and Governance Committee and ultimately reviewed and approved by the Company's board of directors. As required under its charter, the Nomination and Governance Committee is responsible for reviewing each director's independence (according to the Nasdaq Stock Market and the SEC standards) and for making recommendations to the full board based on its findings. The Nomination and Governance Committee has determined that each of the directors, other than Kevin S. Kim, is independent in accordance with such standards. The Nomination and Governance Committee charter can be found in the corporate governance section of our website at www.BBCNbank.com.

Our Code of Ethics and Business Conduct for employees requires employees who may have a potential or apparent conflict of interest to notify their supervisor or the Ethics Officer. Our Director Code of Ethics and Business Conduct requires directors to notify the chair of the Nomination and Governance Committee. A potential conflict is considered to exist whenever an individual has an outside interest direct or indirect which conflicts with the individual's duty to the Company or adversely affects the individual's judgment in the discharge of his or her responsibilities at the Company. Prior to consideration of a related party transaction, our board of directors requires full disclosure of all material facts concerning the relationship and financial interest of the relevant individuals in the transaction. The board then determines whether the terms and conditions of the transaction are more or less favorable to the Company than those offered by unrelated third parties. Once the board determines that the terms and conditions are substantially similar to those offered by unrelated parties, the transaction may be permitted if it is approved by a majority of the independent

directors entitled to vote on the matter with the interested director abstaining.

All of the transactions reported below were approved by our board of directors in accordance with these policies and procedures, and we believe that the terms of these transactions were not less favorable to us as those we could have obtained from unrelated third parties. The employee and director Code of Ethics and Business Conduct can be found in the corporate governance section of our website at www.BBCNbank.com.

Table of Contents

To identify related party transactions, each year we require our directors and executive officers to complete director and officer questionnaires identifying any transaction with us or any of our subsidiaries in which the officer or director or their family members have an interest. In addition, director independence is discussed on a regular basis at the Nomination and Governance Committee, and the Bank tracks all deposit accounts on a daily basis and loan accounts on a quarterly basis. Directors and executive officers are required to notify the Legal Department of any updates to the information supplied in the questionnaire occurring after the date of its completion.

There are no existing or proposed material transactions between the Company or BBCN Bank and any of our officers, directors, nominees or principal stockholders or the immediate family or associates of the foregoing persons, except as indicated below.

Transactions Considered

Some of the directors and officers of the Company and/or the Bank and the immediate families and the business organizations with which they are associated, are customers of, and have had banking transactions with, BBCN Bank in the ordinary course of our business and we expect to have banking transactions with such persons in the future. All loans made to such persons have been made in the ordinary course of business on substantially the same terms, including interest rate and collateral, as those prevailing at the time for comparable loans to persons not related to the Bank and do not involve more than a normal risk of collectability or present other unfavorable features.

Item 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

The Audit Committee of the board of directors has selected KPMG LLP as our independent registered public accounting firm for the year ending December 31, 2014 and has further directed that the selection of KPMG be submitted for ratification by the stockholders at the 2014 Annual Meeting of Stockholders. KPMG became our independent registered public accounting firm on March 15, 2012, replacing Crowe Horwath, LLP who had acted as our independent registered public accounting firm since September 17, 2004. KPMG acted as Center Financial Corporation's independent registered public accounting firm prior to its merger with and into the Company.

Following a competitive request for proposal process undertaken by the Audit Committee, the Company engaged KPMG effective March 15, 2012 as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2012 and dismissed its prior audit firm, Crowe Horwath LLP (Crowe Horwath). The change in accountants was not a result of any dissatisfaction with the quality of professional services rendered by Crowe Horwath. Crowe Horwath was the independent registered public accounting firm for the former Nara Bancorp, Inc., and KPMG was the independent registered public accounting firm for the former Center Financial Corporation. The audited financial statements for the fiscal years ended December 31, 2010 and December 31, 2011 did not contain an adverse opinion or a disclaimer of opinion and was not qualified as to uncertainty in audit scope or accounting principles. The decision to change registered public accounting firms and the appointment of the new registered public accounting firm was made by the Audit Committee.

In the two fiscal years ended December 31, 2011 and 2010, and for the periods through the date of the dismissal, March 15, 2012, there have been no disagreements between the Company and Crowe Horwath on any matter of

accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which, if not resolved to Crowe Horwath's satisfaction, would have caused Crowe Horwath to make reference to the subject matter of the disagreement in connection with its opinion on the Company's consolidated financial statements for such year, and there were no reportable events as defined in Item 304(a)(1)(v) of Regulation S-K.

Table of Contents

The following table provides a summary of the various fees paid to Crowe Horwath and KPMG in 2012 and 2013:

	2012 (Crowe)	2012 (KPMG)	2013
Audit Fees	\$	\$ 609,500	\$ 800,000
Audit Related Fees	\$ 41,825	\$	\$
Tax Fees	\$	\$	\$
All Other Fees	\$	\$	\$
Total Fees	\$ 41,825	\$ 609,500	\$ 800,000

Audit Fees. The audit fees include only fees that are customary under generally accepted auditing standards and are the aggregate fees that we incurred for professional services rendered for the audit of our annual consolidated financial statements for fiscal years 2012 and 2013. KPMG's audit fees include the fees for the audit of the consolidated financial statements and internal control over financial reporting and review of our quarterly consolidated financial statements included in our quarterly Form 10-Q filings for 2012 and 2013. KPMG's 2013 audit fees also reflect the completion of two acquisitions during the year.

Audit Related Fees. Crowe Horwath's audit related fees were for the issuance of consents for the Company's Form 10-K and Form S-4 filings in 2012.

Tax Fees. No tax fees were incurred in 2012 and 2013.

All Other Fees. No Other Fees were incurred in 2012 and 2013.

Pre-Approval Policies and Procedures.

The Audit Committee has adopted policies and procedures for the approval in advance of audit and non-audit services rendered by our independent auditor. The policy requires advance approval of all services before the independent auditor is engaged to provide such services. The advance approval of services may be delegated to the Chair of the Audit Committee who has authority to approve up to \$25,000 of services, which must be ratified at the next scheduled Audit Committee meeting.

The Company anticipates that a representative of KPMG will be present at the 2014 Annual Meeting of Stockholders and will be available to respond to your appropriate questions and make such statements as the representative may desire.

Neither our Bylaws nor other governing documents or law require stockholder ratification of the selection of KPMG as the Company's independent registered public accounting firm. However, we are submitting the selection of KPMG to the stockholders for ratification to obtain our stockholders' views. If the stockholders do not ratify the selection of KPMG, the Audit Committee will reconsider whether or not to retain that firm. Even if the selection is ratified, the Audit Committee of the board of directors in its discretion may direct the appointment of a different independent registered public accounting firm at any time during the year if the Audit Committee of the board of directors determines that such a change would be in our best interests and the best interests of our stockholders.
