**Item 7.01 Regulation FD Disclosure**

On September 2, 2014, Newfield Exploration Company (the Company) released a presentation in conjunction with the upcoming Barclays Energy Conference (the Conference), which is being held this week in New York City. A copy of the slide presentation is furnished herewith as Exhibit 99.1. Highlights from the presentation include the following:

The Company has successfully installed the topsides and drilling module for its Pearl oil development, located in the South China Sea. The Company plans to commence drilling field development wells from the platform in the near future and currently expects first oil production during the fourth quarter of 2014. In line with its strategic plan, the Company continues to intend to monetize its business in China and to work with potential purchasers.

The Company announced production results on five new wells in the STACK play and two multi-well development pads in the SCOOP play, which are set forth in the presentation.

The information in Item 7.01 of this Current Report, including the exhibit attached hereto as Exhibit 99.1, is being furnished and shall not be deemed filed for the purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to the liabilities of that Section. The information in Item 7.01 of this Current Report shall not be incorporated by reference into any registration statement or other document pursuant to the Securities Act of 1933, as amended, except as otherwise expressly stated in such filing.
