P. H. GLATFELTER COMPANY AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

1. ORGANIZATION

P. H. Glatfelter Company and subsidiaries (Glatfelter) is a manufacturer of specialty papers and fiber-based engineered materials. Headquartered in York, Pennsylvania, our manufacturing facilities are located in Spring Grove, Pennsylvania; Chillicothe and Freemont, Ohio; Gatineau, Quebec, Canada; Lydney, England; Caerphilly, Wales; Gernsbach, Falkenhagen and Heidenau, Germany; Scaër, France; and the Philippines. Our products are marketed worldwide, either through wholesale paper merchants, brokers and agents, or directly to customers.

2. ACCOUNTING POLICIES

Basis of Presentation The unaudited condensed consolidated financial statements (financial statements) include the accounts of Glatfelter and its wholly owned subsidiaries. All intercompany balances and transactions have been eliminated.

We prepared these financial statements in accordance with accounting principles generally accepted in the United States of America (generally accepted accounting principles or GAAP) and pursuant to the rules and regulations of the Securities and Exchange Commission pertaining to interim financial statements. In our opinion, the financial statements reflect all normal, recurring adjustments needed to present fairly our results for the interim periods. When preparing these financial statements, we have assumed that you have read the audited consolidated financial statements included in our 2013 Annual Report on Form 10-K.

Accounting Estimates The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingencies as of the balance sheet date and the reported amounts of revenues and expenses during the reporting period. Management believes the estimates and assumptions used in the preparation of these financial statements are reasonable, based upon currently available facts and known circumstances, but recognizes that actual results may differ from those estimates and assumptions.

Recently Issued Accounting Pronouncements In May 2014, the Financial Accounting Standards Board issued Accounting Standards Update No. 2014-09 - *Revenue from Contracts with Customers* which clarifies the principles for recognizing revenue and develops a common revenue standard for GAAP and International Financial Reporting Standards. The new standard is required to be adopted for fiscal years beginning after December 15, 2016 and early adoption is not permitted. We are in the process of evaluating the impact this standard may have, if any, on our reported results of operations or financial position.

3. ACQUISITION

On April 30, 2013, we completed the acquisition of all outstanding shares of Dresden Papier GmbH (Dresden) from Fortress Paper Ltd. for \$211 million, net of cash acquired. Dresden, based in Heidenau, Germany, is the leading global supplier of nonwoven wallpaper base materials, and is a major supplier to most of the world's largest wallpaper manufacturers. Dresden's revenue for the full year 2013 was \$158.6 million and it employed approximately 146 people at its state-of-the-art, 72,800 short-ton-capacity manufacturing facility. We financed the acquisition through a combination of cash on hand and borrowings under our Revolving Credit Facility.

The acquisition of Dresden added another industry-leading nonwovens product line to our Composite Fibers business, and broadens our relationship with leading producers of consumer and industrial products. The Dresden acquisition also provided additional operational leverage and growth opportunities for Glatfelter globally, particularly in large markets such as Russia and China, and other developing markets in Eastern Europe and Asia.

Dresden now operates as part of our Composite Fibers business unit which manufactures fiber-based products for growing global niche markets including filtration papers for tea and single serve coffee applications, metallized papers, and technical specialties.

Edgar Filing: GLATFELTER P H CO - Form 10-Q

The share purchase agreement provides for, among other terms, indemnification provisions for claims that may arise, including among others, uncertain tax positions and other third party claims. The allocation of the purchase price to assets acquired and liabilities assumed is as follows:

- 6 -

GLATFELTER

9.30.14 Form 10-Q

Table of Contents

<i>In thousands</i>	As originally presented	Cumulative adjustments	Adjusted
Assets			
Cash and cash equivalents	\$ 12,227	\$	\$ 12,227
Accounts receivable	23,870		23,870
Inventory	13,864		13,864
Prepaid and other current assets	6,674	1,386	8,060
Plant, equipment and timberlands	60,951		60,951
Intangible assets	87,596		87,596
Goodwill	76,256	(1,386)	74,870
Total assets	281,438		281,438
Liabilities			
Accounts payable	20,360	(107)	20,253
Deferred tax liabilities	36,120		36,120
Other long term liabilities	1,820	107	1,927
Total liabilities	58,300		58,300
Total	223,138		223,138
less cash acquired	(12,227)		(12,227)
Total purchase price	\$ 210,911	\$	\$ 210,911

The adjustments set forth above primarily relate to the recognition of additional indemnification receivable from the seller associated with certain tax matters. Such adjustments were recorded in the third quarter of 2013 and did not impact previously reported results of operations, earnings per share, or cash flows.

For purposes of allocating the total purchase price, assets acquired and liabilities assumed are recorded at their estimated fair market value. The allocation set forth above is based on management's estimate of the fair value using valuation techniques such as discounted cash flow models, appraisals and similar methodologies. The amount allocated to intangible assets represents the estimated value of customer relationships, technological know-how and trade name.

Acquired property, plant and equipment are being depreciated on a straight-line basis with estimated remaining lives ranging from 5 years to 30 years. Intangible assets are being amortized on a straight-line basis over an average estimated remaining life of 17 years reflecting the expected future value.

In connection with the Dresden acquisition we recorded \$74.9 million of goodwill and \$87.6 million of intangible assets. The goodwill arising from the acquisition largely relates to strategic benefits, product and market diversification, assembled workforce, and similar factors. For tax purposes, none of the goodwill is deductible. Intangible assets consisted of \$9.8 million of non-amortizing tradename, and the remainder consists of technology and customer relationships.

Our results of operations include the results of Dresden prospectively since the acquisition was completed on April 30, 2013. All such results reported herein are included as part of the Composite Fibers business unit. Revenue of Dresden included in our consolidated results of operations for the third quarter and first nine months of 2014 totaled \$38.8 million and \$118.4 million, respectively, and operating income for the same periods of 2014 totaled \$6.5 million and \$23.6 million, respectively.

The table below summarizes pro forma financial information as if the acquisition and related financing transaction occurred as of January 1, 2013:

This unaudited pro forma financial information above is not necessarily indicative of what the operating results would have been had the acquisition been completed at the beginning of the respective period nor is it indicative of future results.

	(22)	(29)	(66)	(87)	Income tax provision
Net of tax	35	48	105	144	
Total reclassifications, net of tax	\$ 2,494	\$ 4,074	\$ 8,075	\$ 11,861	

7. INCOME TAXES

Income taxes are recognized for the amount of taxes payable or refundable for the current year and deferred tax liabilities and assets for the future tax consequences of events that have been recognized in our consolidated financial statements or tax returns. The effects of income taxes are measured based on enacted tax laws and rates.

As of September 30, 2014 and December 31, 2013, we had \$13.7 million and \$14.9 million of gross unrecognized tax benefits. As of September 30, 2014, if such benefits were to be recognized, approximately \$13.7 million would be recorded as a component of income tax expense, thereby affecting our effective tax rate.

We, or one of our subsidiaries, file income tax returns with the United States Internal Revenue Service, as well as various state and foreign authorities.

The following table summarizes, by major jurisdiction, tax years that remain subject to examination:

Edgar Filing: GLATFELTER P H CO - Form 10-Q

Jurisdiction	Open Tax Years	
	Examinations not yet initiated	Examination in progress
United States		
Federal	2013	2011 - 2012
State	2009 - 2013	2011 - 2012
Canada (1)	2010 - 2013	2009
Germany (1)	2012 - 2013	2007 - 2011
France	2010, 2013	2011 - 2012
United Kingdom	2010 - 2013	N/A
Philippines	2012 - 2013	2011

(1) includes provincial or similar local jurisdictions, as applicable

GLATFELTER

9.30.14 Form 10-Q

Table of Contents

The amount of income taxes we pay is subject to ongoing audits by federal, state and foreign tax authorities, which often result in proposed assessments. Management performs a comprehensive review of its global tax positions on a quarterly basis and accrues amounts for uncertain tax positions. Based on these reviews and the result of discussions and resolutions of matters with certain tax authorities and the closure of tax years subject to tax audit, reserves are adjusted as necessary. However, future results may include favorable or unfavorable adjustments to our estimated tax liabilities in the period the assessments are determined or resolved or as such statutes are closed. Due to potential for resolution of federal, state and foreign examinations, and the lapse of various statutes of limitation, it is reasonably possible our gross unrecognized tax benefits balance may decrease within the next twelve months by a range of zero to \$3.5 million. Substantially all of this range relates to tax positions taken in the U.S. and Germany.

We recognize interest and penalties related to uncertain tax positions as income tax expense. The following table summarizes information related to interest and penalties on uncertain tax positions:

<i>In millions</i>	2014	<i>Nine months ended September 30</i>	2013
Interest expense	\$ 0.1		\$ (0.1)
Penalties			
		September 30	December 31
		2014	2013
Accrued interest payable		\$ 0.7	\$ 0.6

8. STOCK-BASED COMPENSATION

The P. H. Glatfelter Amended and Restated Long Term Incentive Plan (the "LTIP") provides for the issuance of Glatfelter common stock to eligible participants in the form of restricted stock units, restricted stock awards, non-qualified stock options, performance shares, incentive stock options and performance units.

Pursuant to terms of the LTIP, we have issued to eligible participants restricted stock units, performance share awards and stock only stock appreciation rights.

Restricted Stock Units (RSU) and Performance Share Awards (PSAs) Awards of RSUs and PSAs are made under our LTIP. The RSUs vest on the passage of time, generally on a graded scale over a three, four, and five-year period, or in certain instances the RSUs were issued with five year cliff vesting. PSAs are issued annually to members of management and each respective grant cliff vests each December 31 of the third year following the grant, assuming the achievement of predetermined, three-year cumulative performance targets. The performance measures include a minimum, target and maximum performance level providing the grantees an opportunity to receive more or less shares than targeted depending on actual financial performance. For both RSUs and PSAs, the grant date fair value of the awards, which is equal to the closing price per common share on the date of the award, is used to determine the amount of expense to be recognized over the applicable service period. Settlement of RSUs and PSAs will be made in shares of our common stock currently held in treasury.

The following table summarizes RSU and PSA activity during periods indicated:

<i>Units</i>	2014	2013
Balance at January 1,	1,001,814	847,679
Granted	173,206	210,856
Forfeited	(45,355)	(40,991)
Shares delivered	(239,394)	(113,230)
Balance at September 30,	890,271	904,314

The amount granted in 2014 and 2013 includes PSAs of 95,691 and 181,670, respectively, exclusive of reinvested dividends.

Edgar Filing: GLATFELTER P H CO - Form 10-Q

The following table sets forth aggregate RSU and PSA compensation expense for the periods indicated:

<i>In thousands</i>	September 30	
	2014	2013
Three months ended	\$ 854	\$ 892
Nine months ended	1,874	2,216

Stock Only Stock Appreciation Rights (SOSARs) Under terms of the SOSAR, a recipient receives the right to a payment in the form of shares of common stock equal to the difference, if any, in the fair market value of one share of common stock at the time of exercising the SOSAR and the exercise price. The SOSARs vest ratably over a three year period and have a term of ten years.

GLATFELTER

9.30.14 Form 10-Q

Table of Contents**10. ASSET IMPAIRMENT CHARGE**

During the third quarter of 2014, in connection with our annual test of potential impairment of indefinite lived intangible assets, we recorded a \$3.3 million non-cash asset impairment charge related to a trade name intangible asset acquired in connection with the 2013 Dresden acquisition. The charge was due to a change in the estimated fair value of the trade name, primarily driven by a substantial increase in discount rates related to Dresden's business in Russia and Ukraine and this region's political instability. The charge is recorded in the accompanying condensed consolidated statements of income under the caption selling, general and administrative expenses.

11. INVENTORIES

Inventories, net of reserves, were as follows:

<i>In thousands</i>	September 30 2014	December 31 2013
Raw materials	\$ 59,410	\$ 59,440
In-process and finished	118,620	109,578
Supplies	70,025	67,292
Total	\$ 248,055	\$ 236,310

12. LONG-TERM DEBT

Long-term debt is summarized as follows:

<i>In thousands</i>	September 30 2014	December 31 2013
Revolving credit facility, due Nov. 2016	\$ 93,810	\$ 133,540
5.375% Notes, due Oct. 2020	250,000	250,000
2.40% Term Loan, due Jun. 2022	12,592	
2.05% Term Loan, due Mar. 2023	53,768	58,785
Total long-term debt	410,170	442,325
Less current portion	(3,810)	
Long-term debt, net of current portion	\$ 406,360	\$ 442,325

On November 21, 2011, we entered into an amendment to our revolving credit agreement with a consortium of banks (the Revolving Credit Facility) which increased the amount available for borrowing to \$350 million, extended the maturity of the facility to November 21, 2016, and instituted a lower interest rate pricing grid.

For all U.S. dollar denominated borrowings under the Revolving Credit Facility, the borrowing rate is, at our option, (a) the bank's base rate which is equal to the greater of i) the prime rate; ii) the federal funds rate plus

50 basis points plus an applicable spread ranging from 25 basis points to 125 basis points based on our corporate credit ratings determined by Standard & Poor's Rating Services and Moody's Investor Service, Inc. (the Corporate Credit Rating); or iii) the daily Euro-rate plus 100 basis points; or (b) the daily Euro-rate plus an applicable margin ranging from 125 basis points to 225 basis points based on the Corporate Credit Rating. For non-US dollar denominated borrowings, interest is based on (b) above.

The Revolving Credit Facility contains a number of customary covenants for financings of this type that, among other things, restrict our ability to dispose of or create liens on assets, incur additional indebtedness, repay other indebtedness, limits certain intercompany financing

Edgar Filing: GLATFELTER P H CO - Form 10-Q

arrangements, make acquisitions and engage in mergers or consolidations. We are also required to comply with specified financial tests and ratios including: i) maximum net debt to earnings before interest, taxes, depreciation and amortization (EBITDA) ratio (the leverage ratio); ii) a consolidated EBITDA to interest expense ratio; and iii) beginning December 31, 2015, a minimum liquidity ratio. The most restrictive of our covenants is a maximum leverage ratio of 3.5x. As of September 30, 2014, the leverage ratio, as calculated in accordance with the definition in our credit agreement, was 2.3x, within the limits set forth in our credit agreement. A breach of these requirements would give rise to certain remedies under the Revolving Credit Facility, among which are the termination of the agreement and accelerated repayment of the outstanding borrowings plus accrued and unpaid interest under the credit facility.

On October 3, 2012, we completed a private placement offering of \$250.0 million aggregate principal amount of 5.375% Senior Notes due 2020 (the 5.375% Notes). The 5.375% Notes are fully and unconditionally guaranteed, jointly and severally, by PHG Tea Leaves, Inc., Mollanvick, Inc., and Glatfelter Holdings, LLC (the Guarantors).

Interest on the 5.375% Notes is payable semiannually in arrears on April 15 and October 15, commencing on April 15, 2013.

The 5.375% Notes are redeemable, in whole or in part, at anytime on or after October 15, 2016 at the redemption prices specified in the applicable Indenture. Prior to October 15, 2016, we may redeem some or all of the Notes at a make-whole premium as specified in the Indenture. These Notes and the guarantees of the notes are senior obligations of the Company and the Guarantors, respectively, rank equally in right of payment with future senior indebtedness of the Company and the Guarantors and will mature on October 15, 2020.

- 13 -

GLATFELTER

9.30.14 Form 10-Q

Table of Contents

The 5.375% Notes contain various covenants customary to indebtedness of this nature including limitations on i) the amount of indebtedness that may be incurred; ii) certain restricted payments including common stock dividends; iii) distributions from certain subsidiaries; iv) sales of assets; v) transactions amongst subsidiaries; and vi) incurrence of liens on assets. In addition, the 5.375% Notes contain cross default provisions that could result in all such notes becoming due and payable in the event of a failure to repay debt outstanding under the Revolving Credit Agreement at maturity or a default under the Revolving Credit Agreement that accelerates the debt outstanding thereunder. As of September 30, 2014, we met all of the requirements of our debt covenants.

Glatfelter Gernsbach GmbH & Co. KG (Gernsbach), a wholly-owned subsidiary of ours, entered into two separate agreements with IKB Deutsche Industriebank AG, Düsseldorf (IKB). Pursuant to the first agreement, dated April 11, 2013, Gernsbach borrowed approximately 42.7 million (or \$57.6 million) aggregate principal amount (the 2013 IKB Loan). The 2013 IKB Loan is repayable in 32 quarterly installments beginning on June 30, 2015 and ending on March 31, 2023 and bears interest at a rate of 2.05% per annum.

Pursuant to the second agreement with IKB dated September 4, 2014, Gernsbach borrowed 10.0 million (or \$12.6 million) aggregate principal amount (the 2014 IKB Loan). The 2014 IKB Loan is repayable in 27 quarterly installments beginning on September 30, 2015 and ending on June 30, 2022 and bears interest at a rate of 2.40% per annum. Interest on the IKB Loan or portion thereof is payable quarterly in each year of the term of the loan with interest accruing from the date the loan or portion thereof is drawn.

The IKB loans provide for representations, warranties and covenants customary for financings of these types. The financial covenants contained in each of the IKB loans, which relate to the minimum ratio of consolidated EBITDA to consolidated interest expense and the maximum ratio of consolidated total net debt to consolidated adjusted EBITDA, will be calculated by reference to our Amended and Restated Credit Agreement, dated November 21, 2011.

P. H. Glatfelter Company guarantees all debt obligations of its subsidiaries, including each of the IKB loans. All such obligations are recorded in these condensed consolidated financial statements.

As of September 30, 2014 and December 31, 2013, we had \$5.2 million of letters of credit issued to us by certain financial institutions. The letters of credit, which reduce amounts available under our revolving credit

facility, primarily provide financial assurances for the benefit of certain state workers compensation insurance agencies in conjunction with our self-insurance program. We bear the credit risk on this amount to the extent that we do not comply with the provisions of certain agreements. No amounts are outstanding under the letters of credit.

13. ASSET RETIREMENT OBLIGATION

During 2008, we recorded \$11.5 million, net present value, of asset retirement obligations related to the legal requirement to close several lagoons at the Spring Grove, PA facility. Historically, lagoons were used to dispose of residual waste material. Closure of the lagoons is expected to be completed in 2016 and will be accomplished by filling the lagoons, installing a non-permeable liner which will be covered with soil to construct the required cap over the lagoons. The retirement obligation was accrued with a corresponding increase in the carrying value of the property, equipment and timberlands captioned on the consolidated balance sheet. The amount capitalized is being amortized as a charge to operations on the straight-line basis in relation to the expected closure period. Following is a summary of activity recorded during the first nine months of 2014 and 2013:

<i>In thousands</i>	2014	2013
Balance at January 1,	\$ 5,032	\$ 8,882
Accretion	115	234
Payments	(767)	(2,719)
Gain	(128)	(1,255)
Balance at September 30,	\$ 4,252	\$ 5,142

The following table summarizes the line items in the accompanying condensed consolidated balance sheets where the asset retirement obligations are recorded:

Edgar Filing: GLATFELTER P H CO - Form 10-Q

<i>In thousands</i>	September 30 2014	December 31 2013
Other current liabilities	\$ 2,905	\$ 915
Other long-term liabilities	1,347	4,117
Total	\$ 4,252	\$ 5,032

- 14 -

GLATFELTER

9.30.14 Form 10-Q

Table of Contents**14. FAIR VALUE OF FINANCIAL INSTRUMENTS**

The amounts reported on the condensed consolidated balance sheets for cash and cash equivalents and accounts receivable approximate fair value. The following table sets forth carrying value and fair value of long-term debt:

<i>In thousands</i>	September 30, 2014		December 31, 2013	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Fixed-rate bonds	\$ 250,000	\$ 257,033	\$ 250,000	\$ 254,533
2.40% Term loan	\$ 12,592	\$ 12,910		
2.05% Term loan	53,768	54,025	58,785	57,952
Variable rate debt	93,810	93,810	133,540	133,540
Total	\$ 410,170	\$ 417,778	\$ 442,325	\$ 446,025

As of September 30, 2014, and December 31, 2013, we had \$250.0 million of 5.375% fixed rate bonds. These bonds are publicly registered, but thinly traded. Accordingly, the values set forth above for the bonds, as well as our other debt instruments, are based on observable inputs and other relevant market data (Level 2). The fair value of financial derivatives is set forth below in Note 15.

15. FINANCIAL DERIVATIVES AND HEDGING ACTIVITIES

As part of our overall risk management practices, we enter into financial derivatives primarily designed to either i) hedge foreign currency risks associated with forecasted transactions – cash flow hedges ; or ii) mitigate the impact that changes in currency exchange rates have on intercompany financing transactions and foreign currency denominated receivables and payables – foreign currency hedges.

Derivatives Designated as Hedging Instruments – Cash Flow Hedges We use currency forward contracts as cash flow hedges to manage our exposure to fluctuations in the currency exchange rates on certain forecasted production costs expected to be incurred over a maximum of twelve months. Currency forward contracts involve fixing the exchange for delivery of a specified amount of foreign currency on a specified date.

We designate certain currency forward contracts as cash flow hedges of forecasted raw material purchases or certain production costs with exposure to changes in foreign currency exchange rates. The effective portion of changes in the fair value of derivatives designated and that qualify as cash flow hedges of foreign exchange risk is deferred as a component of

accumulated other comprehensive income in the accompanying condensed consolidated balance sheets and is subsequently reclassified into costs of products sold in the period that inventory produced using the hedged transaction affects earnings. The ineffective portion of the change in fair value of the derivative is recognized directly to earnings and reflected in the accompanying condensed consolidated statements of income as non-operating income (expense) under the caption Other-net.

We had the following outstanding derivatives that were used to hedge foreign exchange risks associated with forecasted transactions and designated as hedging instruments:

<i>In thousands</i>	September 30	December 31
	2014	2013
	Buy Notional	
Derivative		
Sell / Buy		
Euro / U.S. dollar	22,631	27,105
U.S. dollar / Canadian dollar	8,124	13,077
Euro / Philippine peso	439,675	
British Pound / Philippine peso	243,310	
Euro / British Pound	3,358	

These contracts have maturities of twelve months or less.

Edgar Filing: GLATFELTER P H CO - Form 10-Q

Derivatives Not Designated as Hedging Instruments - Foreign Currency Hedges We also enter into forward foreign exchange contracts to mitigate the impact changes in currency exchange rates have on balance sheet monetary assets and liabilities. None of these contracts are designated as hedges for financial accounting purposes and, accordingly, changes in value of the foreign exchange forward contracts and in the offsetting underlying on-balance-sheet transactions are reflected in the accompanying condensed consolidated statements of income under the caption Other net.

The following sets forth derivatives used to mitigate the impact changes in currency exchange rates have on balance sheet monetary assets and liabilities:

<i>In thousands</i>	September 30	December 31
Derivative	2014	2013
Sell / Buy	Sell (Buy) Notional	
U.S. dollar / British Pound	11,000	6,000
Euro / British Pound	(9,000)	(8,000)
Euro / British Pound	2,000	5,000
Canadian dollar / U.S. dollar	2,000	2,000
U.S. dollar / Euro		2,000
Euro / U.S. dollar		9,000

These contracts have maturities of one month from the date originally entered into.

- 15 -

GLATFELTER

9.30.14 Form 10-Q

Table of Contents

Fair Value Measurements The following table summarizes the fair values of derivative instruments for the period indicated and the line items in the accompanying condensed consolidated balance sheets where the instruments are recorded:

<i>In thousands</i>	September 30	December 31	September 30	December 31
	2014	2013	2014	2013
Balance sheet caption	Prepaid Expenses and Other Current Assets		Other Current Liabilities	
Designated as hedging:				
Forward foreign currency exchange contracts	\$ 2,106	\$	\$ 166	\$ 1,163
Not designated as hedging:				
Forward foreign currency exchange contracts	\$ 10	\$ 36	\$ 73	\$ 46

The amounts set forth in the table above represent the net asset or liability giving effect to rights of offset with each counterparty. The effect of netting the amounts presented above did not have a material effect on our consolidated financial position.

The following table summarizes the amount of income or (loss) from derivative instruments recognized in our results of operations for the periods indicated and the line items in the accompanying condensed consolidated statements of income where the results are recorded:

<i>In thousands</i>	Three months ended		Nine months ended	
	September 30	2013	September 30	2013
Designated as hedging:				
Forward foreign currency exchange contracts:				
Effective portion cost of products sold	\$ (137)	\$ (384)	\$ (1,227)	\$ (641)
Ineffective portion other net	81	49	181	74
Not designated as hedging:				
Forward foreign currency exchange contracts:				
Other net	\$ 595	\$ (348)	\$ 1,792	\$ (794)

The impact of activity not designated as hedging was substantially all offset by the remeasurement of the underlying on-balance sheet item.

The fair value hierarchy consists of three broad levels, which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The fair values of the foreign exchange forward contracts are considered to be Level 2. Foreign currency forward contracts are valued using foreign currency forward and interest rate curves. The fair value of each contract is determined by comparing the contract rate to the forward rate and discounting to present value. Contracts in a gain position are recorded in the condensed consolidated balance sheets under the caption

Prepaid expenses and other current assets and the value of contracts in a loss position is recorded under the caption Other current liabilities.

Table of Contents

A rollforward of fair value amounts recorded as a component of accumulated other comprehensive income is as follows:

<i>In thousands</i>	2014	2013
Balance at January 1,	\$ (1,296)	\$ (599)
Deferred (losses) gains on cash flow hedges	2,223	(778)
Reclassified to earnings	1,227	641
Balance at September 30,	\$ 2,154	\$ (736)

We expect substantially all of the amounts recorded as a component of accumulated other comprehensive income will be realized in results of operations within the next twelve months and the amount ultimately recognized will vary depending on actual market rates.

Credit risk related to derivative activity arises in the event the counterparty fails to meet its obligations to us. This exposure is generally limited to the amounts, if any, by which the counterparty's obligations exceed our obligation to them. Our policy is to enter into contracts only with financial institutions which meet certain minimum credit ratings.

16. SHARE REPURCHASES

The following table summarizes share repurchases made pursuant to a \$50 million share repurchase program which expires in May 2016:

	shares	(thousands)
Authorized amount	n/a	\$ 50,000
Repurchases	755,310	(16,627)
Remaining authorization		\$ 33,373

The amounts set forth above include 464,190 shares at a cost of \$12.2 million of repurchases completed in 2014.

17. COMMITMENTS, CONTINGENCIES AND LEGAL PROCEEDINGS**Fox River Neenah, Wisconsin**

Background. We have significant uncertainties associated with environmental claims arising out of the presence of polychlorinated biphenyls (PCBs) in sediments in the lower Fox River, on which our former Neenah facility was located, and in the Bay of Green Bay Wisconsin (collectively, the Site). Since the early 1990s, the United States, the State of Wisconsin and two Indian tribes (collectively, the Governments) have pursued a cleanup of a 39-mile stretch of river from Little Lake Butte des Morts into Green Bay and natural resource damages (NRDs).

After giving effect to settlements reached with the Governments, the remaining potentially responsible parties (PRPs) consist of us, Georgia-Pacific Consumer Products, L.P. (formerly known as Fort James Operating Company), and NCR Corporation (NCR).

The United States Environmental Protection Agency (EPA) has divided the Site into five operable units, including the most upstream and portion of the site on which our facility was located (OU1) and four downstream reaches of the river and bay (OU2-5).

The Site has been subject to certain studies and the parties conducted certain demonstration projects and completed certain interim cleanups. The permanent cleanup, known as a remedial action under the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA or Superfund), consists of sediment dredging, installation of engineered caps, and placement of sand covers in various areas in the bed of the river.

Edgar Filing: GLATFELTER P H CO - Form 10-Q

We and WTM I Company implemented the remedial action in OU1 under a consent decree with the Governments; Menasha Corporation made a financial contribution to that work. That project began in 2004 and the work is complete other than on-going monitoring and maintenance.

For the downstream portion of the Site, referred to as OU2-5, work has proceeded primarily under a Unilateral Administrative Order (UAO) issued in November 2007 by the EPA to us and seven other respondents. The remedial actions have been funded, to date, primarily by NCR and its indemnitors, including Appvion, Inc. (formerly known as Appleton Papers Inc.). Work is scheduled to continue in OU2-5 through 2017, with monitoring and maintenance to follow.

Although we have not contributed funds towards remedial actions other than in OU1, as more fully discussed below, significant uncertainties exist pertaining to the ultimate allocation of OU2-5 remediation costs as well as the shorter term funding of the remedial actions for OU2-5.

Cost estimates. Estimates of the Site remediation change over time as we, or others, gain additional data and experience at the Site. In addition, disagreement exists over the likely costs for some of this work. On October 14, 2014, the Governments represented to the United States District Court in Green Bay that \$1.1 billion provided an upper end estimate of total past and future response costs including a \$100 million uncertainty premium for future response costs. Based upon estimates made by the Governments and independent estimates commissioned by various potentially responsible parties, we have no reason to disagree with the Governments' assertion. Much of that amount has already been incurred, including approximately \$100 million for OU1 and what we believe to be approximately \$500 million for OU2-5.

- 17 -

GLATFELTER

9.30.14 Form 10-Q

Table of Contents

The Governments previously indicated their expectation to have work in OU2-5 completed at a rate estimated to cost at least \$70 million in 2015 and 2016 and at lower rates thereafter. We understand the cost for the 2015 dredging season may total nearly \$90 million.

As the result of a partial settlement, Georgia-Pacific has no obligation to pay for work upstream of a line near Georgia-Pacific's Green Bay West Mill located in OU4. We believe substantially all in-water work upstream of this line has been completed as of the end of the 2014 dredging season.

NRDs. The Governments' NRD assessment documents originally claimed we are jointly and severally responsible for NRDs with a value between \$176 million and \$333 million. The Governments claimed this range should be inflated to current dollars and then certain unreimbursed past assessment costs should be added, so the range of their claim was \$287 million to \$423 million in 2009.

However, on October 14, 2014, the Governments represented to the district court that if certain settlements providing \$45.9 million toward compensation of NRDs were approved the total NRD recovery would amount to \$105 million. The Governments would consider those recoveries adequate and they would withdraw their claims against us and NCR for additional compensation of NRDs. Some of the settling parties, including all of the settling parties contributing the \$45.9 million, have waived their rights to seek contribution from us of the settlement amounts. We previously paid a portion of the other \$59 million in earlier settlements.

Allocation Litigation. In January 2008, NCR and Appvion brought an action in the federal district court in Green Bay to allocate among all of the parties responsible for this Site all of the costs incurred by the Governments, all of the costs incurred by the parties, and all of the NRDs owed to the Natural Resource Trustees. We have previously referred to this case as the Whiting Litigation. After several summary judgment rulings and a trial, the trial court entered judgment in the Whiting Litigation, allocating to NCR 100 percent of the costs (a) of the OU2-5 cleanup, (b) NRDs, (c) past and future costs incurred by the Governments in OU2-5, and (d) past and future costs incurred by any of the other parties net of an appropriate equitable adjustment for insurance recoveries. As to Glatfelter, NCR was judged liable to us for \$4.28 million and any future costs or damages we may incur. NCR was held not responsible for costs incurred in OU1.

All parties appealed the Whiting Litigation judgment to the United States Court of Appeals for the Seventh Circuit. On September 25, 2014, that court affirmed, holding that if knowledge and fault were the only equitable factors governing allocation of costs and NRDs at the Site, NCR would owe 100% of all costs and damages in OU2-5, but would not have a share of costs in OU1, which is upstream of the outfall of the facilities for which NCR is responsible. However, the court of appeals vacated the judgment and remanded the case for the district court's further consideration of whether any other equitable factors might cause the district court to alter its allocation. We contend the district court should, after further consideration, reinstate the 100%, or some similar very high, allocation to NCR of all the costs, and we should bear no share or a very small share.

However, in the interim NCR may take a contrary position and seek contributions from others for future work until all allocation issues are resolved. In order to ensure compliance with the UAO and to ensure work continues in OU2-5, in the absence of an agreement amongst us, NCR and Georgia-Pacific, it is possible the Governments may attempt to force the funding while a final allocation in the Whiting Litigation is pursued. We cannot predict the outcome of any such actions or any possible resulting litigation. Therefore, in the interim it is conceivable we may be required to contribute resources to fund a portion of the annual cost of remedial actions in OU2-5. Although we are unable to determine with any degree of certainty the amount we may fund, such amounts could be significant. Any amounts we pay or any other party pays in the interim are likely to be subject to reallocation when the Whiting Litigation is resolved. We do not know the timing of further proceedings in the Whiting Litigation, nor can we predict when it will be finally resolved.

Appvion and NCR have had a cost-sharing agreement since at least 1998. The court of appeals held if Appvion incurred any recoverable costs because the Governments had named Appvion as a potentially responsible party rather than as a consequence of Appvion's obligations to NCR, then Appvion may have a right to recover those costs under CERCLA. We contend Appvion has no such costs, and if it did, we would have a right to contribution of any recovery against NCR and others.

Enforcement Litigation. In October 2010, the United States and the State of Wisconsin brought an action (Government Action) in the federal district court in Green Bay against us and 13 other defendants seeking (a) to recover all of their unreimbursed past costs, (b) a declaration of joint and several liability for all of their future costs, (c) NRDs, and (d) a declaration of liability of all of the respondents on the UAO to perform the remedy

Edgar Filing: GLATFELTER P H CO - Form 10-Q

GLATFELTER

9.30.14 Form 10-Q

Table of Contents

in OU2-5 as required by the UAO and a mandatory permanent injunction to the same effect. The last of these claims was tried in 2012, and in May 2013, the district court enjoined us, NCR, WTM I, and Menasha Corp. to perform the work under the UAO. As the result of partial settlements, U.S. Paper Mills Corp. and Georgia-Pacific Consumer Products L.P. agreed to joint and several liability for some of the work. Appvion was held not liable for this Site under CERCLA.

All other potentially responsible parties, including the United States and the State of Wisconsin, have either settled with the Governments or entered into a consent decree that awaits approval from the United States and then the district court. As a result, the remaining defendants consist of us, NCR, and Georgia-Pacific.

We appealed the injunction to the United States Court of Appeals for the Seventh Circuit, as did NCR, WTM I, and Menasha. On September 25, 2014, the court of appeals decided our and NCR's appeals; the others' appeals were not decided because they have entered into a settlement that awaits approval. The court of appeals vacated the injunction as to us and NCR. However, it affirmed the district court's ruling that we are liable for response actions in OU2-5 and for complying with the UAO.

Except as described above with respect to the claim for NRDs, we do not know the Governments' intentions concerning further litigation of the Government Action, nor do we know the schedule for any further proceedings. We cannot now predict when it will be resolved.

Reserves for the Site. As of September 30, 2014, our reserve for the Site totaled \$16.3 million, including our remediation and ongoing monitoring obligations in OU1, our share of remediation of the rest of the Site, NRDs and all pending, threatened or asserted and unasserted claims against us relating to PCB contamination at the Site. Of our total reserve for the Fox River, \$0.1 million is recorded in the accompanying condensed consolidated balance sheets under the caption "Environmental liabilities" and the remainder is recorded under the caption "Other long term liabilities." In the event we are required to fund remediation activities in OU2-5, such developments would affect the classification of the current portion of our reserve.

As described above, the appellate court vacated and remanded for reconsideration the district court's ruling in the Whiting Litigation that NCR would bear 100% of costs for the downstream portion of the Site. We continue to believe we will not be allocated a significant share of liability in any final equitable allocation of the response costs for OU2-5 or for NRDs. The accompanying condensed consolidated financial statements do not include reserves for any future defense costs, which could be significant, related to our involvement at the Site.

In setting our reserve for the Site, we have assessed our legal defenses, including our successful defenses to the allegations made in the Whiting Litigation and the original determination in the Whiting Litigation that NCR owes us full contribution for response costs and for NRDs that we may become obligated to pay except in OU1. We assume we will not bear the entire cost of remediation or damages to the exclusion of other known parties at the Site, who are also jointly and severally liable. The existence and ability of other parties to participate has also been taken into account in setting our reserve, and setting our reserve is generally based on our evaluation of recent publicly available financial information on certain of the responsible parties and any known insurance, indemnity or cost sharing agreements between responsible parties and third parties. In addition, we have considered the magnitude, nature, location and circumstances associated with the various discharges of PCBs to the river and the relationship of those discharges to identified contamination. We will continue to evaluate our exposure and the level of our reserves, including, but not limited to, our potential share of the costs and NRDs, if any, associated with the Site.

Other Information. The Governments have published studies estimating the amount of PCBs discharged by each identified potentially responsible party to the lower Fox River and Green Bay. These reports estimate our Neenah mill's share of the mass of PCBs discharged to be as high as 27 percent. The district court has found the discharge mass estimates used in these studies not to be accurate. We believe the Neenah mill's absolute and relative contribution of PCB mass is significantly lower than the estimates set forth in these studies. The trial court in the Government Action has found that the Neenah mill discharged an unknown amount of PCBs.

Based upon the rulings in the Whiting Litigation and the Government Action, neither of which endorsed an equitable allocation in proportion to the mass of PCBs discharged, we continue to believe an allocation in proportion to mass of PCBs discharged would not constitute an equitable allocation of the potential liability for the contamination at the Fox River. We contend other factors, such as a party's role in causing costs, the location of discharge, and the location of contamination must be considered in order for the allocation to be equitable.

Table of Contents

Range of Reasonably Possible Outcomes. Our analysis of the range of reasonably possible outcomes is derived from all available information, including but not limited to decisions of the courts, official documents such as records of decision, discussions with the United States and other parties, as well as legal counsel and engineering consultants. Based on our analysis of the current records of decision and cost estimates for work to be performed at the Site, and substantially dependent on the resolution of the allocation arguments discussed above, we believe it is reasonably possible that our costs associated with the Fox River matter could exceed the aggregate amounts accrued for the Fox River matter by amounts ranging from insignificant to \$185 million.

We expect remediation costs to be incurred primarily over the next two to three years, although we are unable to determine with any degree of certainty whether we will be required to share in the funding of the downstream remediation. We believe the likelihood of an outcome in the upper end of the monetary range is significantly less than other possible outcomes within the range and the possibility of an outcome in excess of the upper end of the monetary range is remote.

However, we cannot predict the outcome of any actions related to interim funding. To the extent we are required to provide any such interim funding, we contend that NCR or another party would be required to reimburse us once the final allocation is determined.

Summary. Our current assessment is we will be able to manage this environmental matter without a long-term, material adverse impact on the Company. This matter could, however, at any particular time or for any particular year or years, have a material adverse effect on our consolidated financial position, liquidity and/or results of operations or could result in a default under our debt covenants. Moreover, there can be no assurance our reserves will be adequate to provide for future obligations related to this matter, or our share of costs and/or damages will not exceed our available resources, or those obligations will not have a long-term, material adverse effect on our consolidated financial position, liquidity or results of operations. Should a court grant the United States or the State of Wisconsin relief requiring us individually either to perform directly or to contribute significant amounts towards remedial action downstream of Little Lake Butte des Morts those developments could have a material adverse effect on our consolidated financial position, liquidity and results of operations and might result in a default under our loan covenants.

Table of Contents**19. CONDENSED CONSOLIDATING FINANCIAL STATEMENTS**

Our 5.375% Notes issued by P. H. Glatfelter Company (the Parent) are fully and unconditionally guaranteed, on a joint and several basis, by certain of our 100%-owned domestic subsidiaries, PHG Tea Leaves, Inc., Mollanvick, Inc., and Glatfelter Holdings, LLC. The guarantees are subject to certain customary release provisions including i) the designation of such subsidiary as an unrestricted or excluded subsidiary; (ii) in connection with any sale or disposition of the capital stock of the subsidiary guarantor; and (iii) upon our exercise of our legal defeasance option or our covenant defeasance option, all of which are more fully described in the Indenture dated as of October 3, 2012 among us, the Guarantors and US Bank National Association, as Trustee, relating to the 5.375% Notes. The following presents our condensed consolidating statements of income, including comprehensive income for the three months and nine months ended September 30, 2014 and 2013, our condensed consolidating balance sheets as of September 30, 2014 and December 31, 2013 and condensed consolidating cash flows for the nine months ended September 30, 2014 and 2013. These financial statements reflect the parent, the guarantor subsidiaries (on a combined basis), the non-guarantor subsidiaries (on a combined basis) and elimination entries necessary to combine such entities on a consolidated basis. Effective December 31, 2013, Glatfelter Pulpwood Company, previously a guarantor, was merged with and into the parent. Accordingly, all condensed consolidating financial statements have been restated to give effect to this merger as of the earliest period presented. In addition, the amounts of intercompany investing and financing activities and the related interest expense and interest income previously presented net for the nine months ended September 30, 2013 have been presented on a gross basis to conform to the current year's presentation.

20. SUBSEQUENT EVENT

On October 1, 2014, we completed the acquisition of all of the outstanding equity of Spezialpapierfabrik Oberschmitt GmbH (SPO) from FINSPO Beteiligungs-GmbH for \$10.7 million in cash. SPO has annual sales of approximately \$33 million. SPO, located near Frankfurt, Germany, produces primarily electrical products and applications include highly technical papers for a wide range of capacitors used in consumer and industrial products; insulation papers for cables

and transformers; and materials for industrial power inverters, electromagnetic current filters and electric rail traction. SPO also produces glassine products, which are used in cosmetics packaging, food packaging, and pharmaceutical dosage bags. SPO will become part of the Composite Fibers business unit, and complements other technical specialties such as the electrical products sector.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the information in the unaudited condensed consolidated financial statements and notes thereto included herein and Glatfelter's Financial Statements and Management's Discussion and Analysis of Financial Condition and Results of Operations included in our 2013 Annual Report on Form 10-K.

Forward-Looking Statements This Quarterly Report on Form 10-Q includes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical fact, including statements regarding industry prospects and future consolidated financial position or results of operations, made in this Report on Form 10-Q are forward looking. We use words such as anticipates, believes, expects, future, intends and similar expressions to identify forward-looking statements. Forward-looking statements reflect management's current expectations and are inherently uncertain. Our actual results may differ significantly from such expectations. The following discussion includes forward-looking statements regarding expectations of, among others, shipping volumes, selling prices, input costs, non-cash pension expense, environmental costs, capital expenditures and liquidity, all of which are inherently difficult to predict. Although we make such statements based on assumptions that we believe to be reasonable, there can be no assurance that actual results will not differ materially from our expectations. Accordingly, we identify the following important factors, among others, which could cause our results to differ from any results that might be projected, forecasted or estimated in any such forward-looking statements:

- i. variations in demand for our products including the impact of any unplanned market-related downtime, or variations in product pricing;
- ii. changes in the cost or availability of raw materials we use, in particular pulpwood, pulp, pulp substitutes, caustic soda, and abaca fiber;
- iii. changes in energy-related costs and commodity raw materials with an energy component;
- iv. our ability to develop new, high value-added products;
- v. the impact of exposure to volatile market-based pricing for sales of excess electricity;
- vi. the impact of competition, both domestic and international, changes in industry production capacity, including the construction of new mills or new machines, the closing of mills and incremental changes due to capital expenditures or productivity increases;
- vii. the gain or loss of significant customers and/or on-going viability of such customers;
- viii. cost and other effects of environmental compliance, cleanup, damages, remediation or restoration, or personal injury or property damages related thereto, such as the costs of natural resource restoration or damages related to the presence of polychlorinated biphenyls (PCBs) in the lower Fox River on which our former Neenah mill was located;
- ix. adverse results in litigation in the Fox River matter;
- x. risks associated with our international operations, including local economic and political environments and fluctuations in currency exchange rates;
- xi. geopolitical events, including war and terrorism;

Edgar Filing: GLATFELTER P H CO - Form 10-Q

- xii. disruptions in production and/or increased costs due to labor disputes;
- xiii. the impact of unfavorable outcomes of audits by various state, federal or international tax authorities;
- xiv. enactment of adverse state, federal or foreign tax or other legislation or changes in government policy or regulation; and
- xv. our ability to finance, consummate and integrate acquisitions.

We manufacture a wide array of specialty papers and fiber-based engineered materials. We manage our company along three business units:

Composite Fibers with revenue from the sale of single-serve coffee and tea filtration papers, non-woven wall covering, metallized papers, composite laminates, and other technical specialty papers;

Advanced Airlaid Materials with revenue from the sale of airlaid non-woven fabric like materials used in feminine hygiene products, adult incontinence products, cleaning pads, food pads, napkins, tablecloths, and baby wipes; and

Specialty Papers with revenue from the sale of carbonless papers, forms, book publishing, envelope & converting papers, and fiber-based engineered products.

GLATFELTER

9.30.14 Form 10-Q

Table of Contents**RESULTS OF OPERATIONS***Nine months ended September 30, 2014 versus the nine months ended September 30, 2013*

Overview For the first nine months of 2014, net income was \$49.7 million, or \$1.13 per diluted share, compared with \$50.7 million, or \$1.15 per diluted share, in the same period of 2013. On an adjusted earnings basis, a non-GAAP measure that excludes non-core business items discussed below, earnings per share increased to \$1.11 compared with \$1.06 in 2013. The year-over-year comparison of results of operations reflects the adverse impact, primarily in the first quarter of 2014, of significant additional costs related to poor pulp mill performance issues in Ohio, severe weather conditions and, during the second quarter, higher planned costs related to annual maintenance outages which led to unfavorable results compared to the prior year.

The following table sets forth summarized results of operations:

<i>In thousands, except per share</i>	Nine months ended September 30	
	2014	2013
Net sales	\$ 1,366,154	\$ 1,287,804
Gross profit	176,990	164,254
Operating income	77,120	62,133
Net income	49,689	50,681
Earnings per diluted share	1.13	1.15

Our results reflect benefits from our two growth businesses as they delivered a combined 11% increase in net sales. Composite Fibers, driven by the previously acquired Dresden business, and Advanced Airlaid Materials reported improved operating profit of 16% and 42%, respectively, over the prior year period. In addition, our results benefited from the release of tax reserves related to alternative fuel mixture credits of \$1.0 million in the first nine months of 2014 and \$9.9 million in the same period of 2013.

Effective April 30, 2013, we completed the acquisition of Dresden Papier GmbH (Dresden) for approximately \$211 million, net of cash acquired. Our reported results include Dresden prospectively from the acquisition date, including \$118.4 million of net sales and \$23.6 million of operating profit for the first nine months of 2014. The comparable amounts for the year earlier period were \$67.8 million and \$12.3 million, respectively.

In addition to the results reported in accordance with GAAP, we evaluate our performance using adjusted net income and adjusted earnings per diluted share. We disclose this information to allow investors to evaluate our performance exclusive of certain items that impact the comparability of results from period to period and that it is helpful in understanding underlying operating trends and cash flow generation. Adjusted net income consists of net income determined in accordance with GAAP adjusted to exclude the impact of the following:

Timberland sales and related costs. These adjustments exclude gains from the sales of timberlands as these items are not considered to be part of our core business, ongoing results of operations or cash flows. These adjustments are irregular in timing and amount and may significantly impact our operating performance. As such, these items may not be indicative of past and future performance of the Company and therefore are excluded for comparability purposes.

Alternative fuel mixture/Cellulosic biofuel credits. These adjustments reflect the release of reserves for uncertain tax position due to the lapse of statutes of limitation.

Asset impairment charge. This adjustment represents a non-cash charge required to adjust to its estimated fair value the carrying value of a trade name intangible asset. Charges of this nature are irregular in timing and as such may not be indicative of our past and future performance.

Acquisition and integration related costs. These adjustments include costs directly related to the consummation of the acquisition process and those related to integrating recently acquired businesses. These costs are irregular in timing and as such may not be indicative of our past and future performance.

International legal entity restructuring costs. These adjustments include costs that are directly related to actions undertaken to improve the flexibility of the organizational structure to support our growth initiatives. As such, these items are considered to be unusual in nature and not indicative of our past and future and are therefore excluded for the purpose of understanding underlying operating trends.

GLATFELTER

9.30.14 Form 10-Q

Table of Contents

Adjusted earnings per diluted share is calculated by dividing adjusted net income by diluted weighted-average shares outstanding. Adjusted earnings and adjusted earnings per diluted share are considered measures not calculated in accordance with GAAP, and therefore are non-GAAP measures. These non-GAAP measures may differ from other companies. The non-GAAP financial information should not be considered in isolation from, or as a substitute for, measures of financial performance prepared in accordance with GAAP. The following table sets for the reconciliation of net income to adjusted earnings for the nine months ended September 30, 2014 and 2013:

<i>In thousands, except per share</i>	After-tax amounts	Diluted EPS
2014		
Net income	\$ 49,689	\$ 1.13
Timberland sales and related costs	(2,381)	(0.05)
Alternative fuel mixture/ Cellulosic biofuel credits	(1,032)	(0.02)
Asset impairment charge	2,356	0.05
Acquisition and integration related costs	115	
Adjusted earnings (non-GAAP)	\$ 48,747	\$ 1.11
2013		
Net income	\$ 50,681	\$ 1.15
Timberland sales and related costs	(424)	(0.01)
Alternative fuel mixture/Cellulosic biofuel credits	(9,866)	(0.22)
Acquisition and integration related costs	5,884	0.13
International legal entity restructuring costs	570	0.01
Adjusted earnings (non-GAAP)	\$ 46,845	\$ 1.06

Our growth-oriented fiber-based materials businesses reported improved results evidenced by a \$13.5 million increase in operating profit. However, Specialty Papers operating income declined \$9.5 million reflecting the impact of the operational issues and higher costs of maintenance outages.

Composite Fibers' operating income increased to \$54.6 million from \$46.9 million in the first nine months of 2013 primarily due to the inclusion of Dresden. Excluding Dresden, shipping volumes declined 2.7% although the mix improved. This unit's results were adversely impacted by softness in certain markets or regions it sells to such as Russia and Ukraine.

Advanced Airlaid Materials' operating income increased to \$19.5 million compared with \$13.7 million for the first nine months of 2013. The improved performance was largely driven by a 5.0% increase in shipping volumes.

Specialty Papers' operating profit for the first nine months of 2014 totaled \$23.0 million compared with \$32.5 million in the same period of 2013. Volumes shipped were essentially unchanged in the comparison, although selling prices increased.

Business Units Results of individual business units are presented based on our management accounting practices and management structure. There is no comprehensive, authoritative body of guidance for management accounting equivalent to accounting principles generally accepted in the United States of America; therefore, the financial results of individual business units are not necessarily comparable with similar information for any other company. The management accounting process uses assumptions and allocations to measure performance of the business units. Methodologies are refined from time to time as management accounting practices are enhanced and businesses change. The costs incurred by support areas not directly aligned with the business unit are allocated primarily based on an estimated utilization of support area services or are included in Other and Unallocated in the Business Unit Performance table.

Management evaluates results of operations of the business units before pension expense, certain corporate level costs, and the effects of certain gains or losses not considered to be related to the core business operations. Management believes that this is a more meaningful representation of the operating performance of its core businesses, the profitability of business units and the extent of cash flow generated from these core operations. Such amounts are presented under the caption Other and Unallocated. This presentation is aligned with the management and operating structure of our company. It is also on this basis that the Company's performance is evaluated internally and by the Company's Board of Directors.

Table of Contents**Sales and Costs of Products Sold**

<i>In thousands</i>	Nine months ended September 30		Change
	2014	2013	
Net sales	\$ 1,366,154	\$ 1,287,804	\$ 78,350
Energy and related sales net	6,912	2,721	4,191
Total revenues	1,373,066	1,290,525	82,541
Costs of products sold	1,196,076	1,126,271	69,805
Gross profit	\$ 176,990	\$ 164,254	\$ 12,736

Gross profit as a percent of Net sales 13.0% 12.8%

The following table sets forth the contribution to consolidated net sales by each business unit:

<i>Percent of Total Business Unit</i>	Nine months ended September 30	
	2014	2013
Composite Fibers	34.4%	32.3%
Advanced Airlaid Material	15.8	15.7
Specialty Papers	49.8	52.0
Total	100.0%	100.0%

Net sales for the first nine months of 2014 totaled \$1,366.2 million, a 6.1% increase compared with the same period of 2013. Excluding the Dresden acquisition, organic growth totaled 2.2%.

Composite Fibers net sales totaled \$470.1 million in the first nine months of 2014, an increase of \$54.2 million compared to the same period of 2013, of which the Dresden acquisition accounted for \$50.6 million. The translation of foreign currencies benefited the comparison by \$10.9 million; however, lower selling prices adversely impacted the comparison by \$8.3 million. On an organic basis, shipping volumes declined 2.7% although the mix was favorable.

Operating income for the first nine months of 2014 increased \$7.7 million compared to the year-ago period due to the Dresden acquisition, operating efficiencies and lower raw material and energy costs, partially offset by lower selling prices.

In Advanced Airlaid Materials, net sales increased \$14.0 million, or 6.9%, primarily due to a 5.0% increase in shipping volumes. Foreign currency translation favorably impacted the year-over-year net sales comparison by \$3.5 million.

Advanced Airlaid Material's operating income for the first nine months of 2014 increased \$5.8 million, or 42.3%, compared with the year-ago period, primarily due to higher shipping volumes and foreign currency translation.

In the Specialty Papers business unit, net sales in the first nine months of 2014 increased \$10.1 million compared with the same period of 2013 due to higher selling prices. Higher selling prices favorably affected the comparison by \$16.0 million.

Specialty Papers reported operating income for the first nine months of 2014 was \$9.5 million lower than the same period of 2013. The decline was primarily due to \$9.4 million of costs related to pulp mill performance issues at its Ohio facility resulting in higher per ton pulp production costs as well as increased use of higher cost purchased pulp. These performance issues have since been resolved. In addition, the 2014 results were adversely impacted by \$6.6 million of costs related to severe weather conditions as well as \$6.5 million of higher costs related to the annual maintenance outages. These negative factors were partially offset by higher selling prices and sales of excess power. Energy and related sales

Edgar Filing: GLATFELTER P H CO - Form 10-Q

increased \$4.2 million in the year-over-year comparison as severe weather conditions early in 2014 resulted in higher selling prices for excess power.

We sell excess power generated by the Spring Grove, PA facility. The following table summarizes this activity for the first nine months of 2014 and 2013:

<i>In thousands</i>	Nine months ended		Change
	September 30		
	2014	2013	
Energy sales	\$ 10,714	\$ 6,379	\$ 4,335
Costs to produce	(5,288)	(5,235)	(53)
Net	5,426	1,144	4,282
Renewable energy credits	1,486	1,577	(91)
Total	\$ 6,912	\$ 2,721	\$ 4,191

Renewable energy credits (RECs) represent sales of certified credits earned related to burning renewable sources of energy such as black liquor and wood waste. We sell RECs into an emerging and illiquid market. The extent and value of future revenues from REC sales is dependent on many factors outside of management 's control. Therefore, we may not be able to generate consistent additional sales of RECs in future periods.

Table of Contents

Asset impairment charge During the third quarter of 2014, we recorded a \$3.3 million non-cash asset impairment charge related to a trade name intangible asset acquired in connection with the 2013 Dresden acquisition. The charge was due to a change in the trade name's estimated fair value, primarily driven by a substantial increase in discount rates related to Dresden's business in Russia and Ukraine and this region's political instability. The charge is reflected in the accompanying condensed consolidated statements of income under the caption "selling, general and administrative expenses."

Other and Unallocated The amount of net operating expenses not allocated to a business unit and reported as "Other and Unallocated" in our table of *Business Unit Performance*, totaled \$20.0 million in the first nine months of 2014 compared with \$31.0 million in the first nine months of 2013. Excluding the gains from sales of timberlands in the comparison, unallocated net operating expenses decreased \$7.5 million primarily due to lower acquisition related costs and lower pension expense, partially offset by the asset impairment charge.

Pension Expense The following table summarizes the amounts of pension expense recognized for the periods indicated:

<i>In thousands</i>	Nine months ended September 30		Change
	2014	2013	
<i>Recorded as:</i>			
Costs of products sold	\$ 4,957	\$ 9,274	\$ (4,317)
SG&A expense	55	1,385	(1,330)
Total	\$ 5,012	\$ 10,659	\$ (5,647)

The amount of pension expense recognized each year is dependent on various actuarial assumptions and certain other factors, including discount rates and the fair value of our pension assets. Pension expense for the full year of 2014 is expected to be approximately \$6.7 million compared with \$14.2 million in 2013. The decrease is primarily due to higher discount rates and the impact of amortizing deferred actuarial gains from higher returns on assets in 2013.

Income taxes For the first nine months of 2014, we recorded a provision for income taxes of \$13.4 million on pretax income of \$63.1 million, the comparable amounts in the first nine months of 2013 were income tax benefits of \$1.1 million on \$49.6 million of pretax income. The amount of taxes recorded in 2014 and 2013 include benefits of \$1.0 million and \$9.9 million, respectively, from the release of tax reserves related to alternative fuel mixture credits earned in 2009, due to the lapse of the applicable statutes of limitation.

Foreign Currency We own and operate facilities in Canada, Germany, France, the United Kingdom and the Philippines. The functional currency of our Canadian operations is the U.S. dollar. However, in Germany and France it is the Euro, in the UK, it is the British Pound Sterling, and in the Philippines the functional currency is the Peso. During the first nine months of 2014, Euro functional currency operations generated approximately 33.1% of our sales and 30.4% of operating expenses and British Pound Sterling operations represented 5.9% of net sales and 5.6% of operating expenses. The translation of the results from international operations into U.S. dollars is subject to changes in foreign currency exchange rates.

The table below summarizes the translation impact on reported results that changes in currency exchange rates had on our non-U.S. based operations from the conversion of these operations' results for the first nine months of 2014

<i>In thousands</i>	Nine months ended September 30, 2014 Favorable (unfavorable)
Net sales	\$ 14,345
Costs of products sold	(9,909)
SG&A expenses	(1,077)
Income taxes and other	(408)
Net income	\$ 2,951

Edgar Filing: GLATFELTER P H CO - Form 10-Q

The above table only presents the financial reporting impact of foreign currency translations assuming currency exchange rates in 2014 were the same as 2013. It does not present the impact of certain competitive advantages or disadvantages of operating or competing in multi-currency markets.

GLATFELTER

9.30.14 Form 10-Q

Table of Contents*Three months ended September 30, 2014 versus the three months ended September 30, 2013*

Overview For the third quarter of 2014, net income was \$30.4 million, or \$0.69 per diluted share, compared with \$34.1 million, or \$0.77 per diluted share in the third quarter of 2013.

The following table sets forth summarized results of operations:

<i>In thousands, except per share</i>	Three months ended September 30	
	2014	2013
Net sales	\$ 465,092	\$ 456,648
Gross profit	80,513	66,039
Operating income	44,217	31,841
Net income	30,372	34,119
Earnings per diluted share	0.69	0.77

Adjusted earnings, a non-GAAP financial measure, is set forth in the following table for the third quarters of 2014 and 2013:

<i>In thousands, except per share</i>	After-tax amounts	Diluted EPS
2014		
Net income	\$ 30,372	\$ 0.69
Timberland sales and related costs	(1,004)	(0.02)
Alternative fuel mixture/ Cellulosic biofuel credits	(1,032)	(0.02)
Acquisition and integration related costs	115	
Asset impairment charge	2,356	0.05
Adjusted earnings (non-GAAP)	\$ 30,807	\$ 0.70
2013		
Net income	\$ 34,119	\$ 0.77
Acquisition and integration related costs	154	
International legal entity restructuring costs	117	
Timberland sales and related costs	(142)	
Alternative fuel mixture/ Cellulosic biofuel credits	(9,866)	(0.22)
Adjusted earnings (non-GAAP)	\$ 24,382	\$ 0.55

GLATFELTER

9.30.14 Form 10-Q

Table of Contents**Sales and Costs of Products Sold**

<i>In thousands</i>	Three months ended		Change
	2014	September 30	
Net sales	\$ 465,092		\$ 8,444
Energy and related sales net	860		(336)
Total revenues	465,952		8,108
Costs of products sold	385,439		(6,366)
Gross profit	\$ 80,513		\$ 14,474
Gross profit as a percent of Net sales	17.3%		14.5%

The following table sets forth the contribution to consolidated net sales by each business unit:

<i>Percent of Total</i>	Three months ended		
	2014	September 30	2013
Business Unit			
Composite Fibers	33.2%		35.4%
Advanced Airlaid Material	16.0		15.2
Specialty Papers	50.8		49.4
Total	100.0%		100.0%

Net sales totaled \$465.1 million in the third quarter of 2014, a 1.8% increase compared with the third quarter of 2013.

Composite Fibers net sales for the third quarter of 2014 declined \$6.9 million or 4.3% compared to the same quarter of 2013 primarily due to the \$4.9 million impact of lower selling prices. Shipping volumes declined less than 1% and foreign currency translation favorably impacted the year-over-year net sales comparison by \$1.2 million.

Composite Fibers third-quarter 2014 operating income decreased \$0.8 million to \$18.1 million. The adverse impact from lower selling prices was substantially offset by improved operating performance including the impact of market related downtime taken to reduce inventories.

Advanced Airlaid Materials net sales increased \$4.9 million or 7.0% in the quarter-over-quarter comparison primarily due to a 5.9% increase in shipping volumes.

Third-quarter 2014 operating income increased \$3.6 million, nearly double the year-ago quarter. The third-quarter 2013 results were adversely impacted by \$1.7 million of costs, net of insurance, related to fires at this business unit's facilities. Excluding these costs from the comparison, 2014 operating income increased \$1.9 million primarily due to higher shipping volumes and slightly lower raw material and energy costs.

Specialty Papers net sales increased \$10.5 million or 4.7% primarily due to an \$8.3 million benefit from higher average selling prices together with 2.4% increase in shipping volumes.

Operating income in this business unit increased \$9.7 million, or 53.6% primarily due to higher selling prices together with significant improvements in operating performance, including record quarterly pulp production, partially offset by higher incentive compensation and normal cost inflation.

We sell excess power generated by the Spring Grove, PA facility. The following table summarizes this activity for the third quarters of 2014 and 2013:

Edgar Filing: GLATFELTER P H CO - Form 10-Q

<i>In thousands</i>	Three months ended		Change
	September 30		
	2014	2013	
Energy sales	\$ 1,513	\$ 2,722	\$ (1,209)
Costs to produce	(1,268)	(1,941)	673
Net	245	781	(536)
Renewable energy credits	615	415	200
Total	\$ 860	\$ 1,196	\$ (336)

Other and Unallocated The amount of net operating expenses not allocated to a business unit and reported as Other and Unallocated in our table of *Business Unit Performance*, totaled \$9.2 million in the third quarters of 2014 and 2013. Excluding the impact of sales of timberlands in the comparison, unallocated net operating expenses increased \$1.3 million primarily due the asset impairment partially offset by lower acquisition related costs and lower pension expense.

Pension Expense The following table summarizes the amounts of pension expense recognized for the periods indicated:

<i>In thousands</i>	Three months ended		Change
	September 30		
	2014	2013	
<i>Recorded as:</i>			
Costs of products sold	\$ 1,650	\$ 3,092	\$ (1,442)
SG&A expense	3	462	(459)
Total	\$ 1,653	\$ 3,554	\$ (1,901)

The amount of pension expense recognized each year is dependent on various actuarial assumptions and certain other factors, including discount rates and the fair value of our pension assets. Pension expense in 2014 is expected to be approximately \$6.7 million compared with \$14.2 million in 2013. The decrease is primarily due to higher discount rates and the impact of amortizing deferred actuarial gains from higher returns on assets in 2013.

Table of Contents

Income taxes For the third quarter of 2014, we recorded a provision for income taxes of \$9.0 million on pretax income of \$39.4 million. The comparable amounts in the third quarter of 2013 were income tax benefit of \$7.0 million on \$27.1 million of pretax income. In the third quarters of 2014 and 2013 we recorded benefits of \$1.0 million and \$9.9 million, respectively, from the release of tax reserves related to alternative fuel mixture credits earned in 2009, due to the lapse of the applicable statutes of limitation. In addition, the effective tax rate was lower in 2013 primarily due to changes in valuation allowances and the reduction of statutory tax rates in a foreign jurisdiction.

Foreign Currency We own and operate facilities in Canada, Germany, France, the United Kingdom and the Philippines. The functional currency of our Canadian operations is the U.S. dollar. However, in Germany and France it is the Euro, in the UK, it is the British Pound Sterling, and in the Philippines the functional currency is the Peso. During the third quarter of 2014, Euro functional currency operations generated approximately 32.5% of our sales and 31.2% of operating expenses and British Pound Sterling operations represented 5.6% of net sales and 5.7% of operating expenses. The translation of the results from international operations into U.S. dollars is subject to changes in foreign currency exchange rates.

The table below summarizes the translation impact on reported results that changes in currency exchange rates had on our non-U.S. based operations from the conversion of these operations results for the third quarter of 2014 compared to the third quarter of 2013:

<i>In thousands</i>	Three months ended September 30, 2014 Favorable
	(unfavorable)
Net sales	\$ 1,186
Costs of products sold	(757)
SG&A expenses	(123)
Income taxes and other	123
Net income	\$ 429

The above table only presents the financial reporting impact of foreign currency translations assuming currency exchange rates in 2014 were the same as 2013. It does not present the impact of certain competitive advantages or disadvantages of operating or competing in multi-currency markets.

LIQUIDITY AND CAPITAL RESOURCES

Our business is capital intensive and requires significant expenditures for new or enhanced equipment, to support our research and development efforts, for environmental compliance matters including, but not limited to, the Clean Air Act, and to support our business strategy. In addition, we have mandatory debt service requirements of both principal and interest. The following table summarizes cash flow information for each of the periods presented:

<i>In thousands</i>	Nine months ended September 30	
	2014	2013
Cash and cash equivalents at beginning of period	\$ 122,882	\$ 97,679
Cash provided (used) by		
Operating activities	21,380	95,693
Investing activities	(43,585)	(296,946)
Financing activities	(46,007)	166,876
Effect of exchange rate changes on cash	(1,015)	333
Net cash used	(69,227)	(34,044)
Cash and cash equivalents at end of period	\$ 53,655	\$ 63,635

Edgar Filing: GLATFELTER P H CO - Form 10-Q

At September 30, 2014, we had \$53.7 million in cash and cash equivalents held by both domestic and foreign subsidiaries. Although unremitted earnings of our foreign subsidiaries are deemed to be permanently reinvested, all of the cash and cash equivalents are available for use domestically. In addition to our cash and cash equivalents, \$218.1 million is available under our revolving credit agreement, which matures in November 2016.

Cash provided by operating activities totaled \$21.4 million in the first nine months of 2014 compared with \$95.7 million in the same period a year ago. The decrease in cash from operations reflects an increase in working capital usage, primarily related to an increase in inventory and reduction of accounts payable, higher tax payments and payment of customer incentives earned at Dresden.

Net cash used by investing activities declined by \$253.4 million in the year-to-date comparison of 2014 to 2013. Excluding \$210.9 million of cash used in 2013 to acquire Dresden, cash used for investing activities declined in the comparison by \$42.5 million due to lower capital expenditures. The prior year amount included \$31.5 million related to the Composite Fibers capacity expansion project. Capital expenditures for all of 2014 are expected to be approximately \$75 million to \$80 million compared to \$103.0 million for the year ended December 31, 2013.

- 37 -

GLATFELTER

9.30.14 Form 10-Q

Table of Contents

Net cash used by financing activities totaled \$46.0 million in the first nine months of 2014 reflecting net cash used to reduce revolving credit facility borrowings, complete common stock repurchases and pay dividends. In the same period of 2013, \$166.9 million of cash was provided by financing activities primarily reflecting borrowings to fund the Dresden acquisition partially offset by dividends paid on common stock.

The following table sets forth our outstanding long-term indebtedness:

<i>In thousands</i>	September 30 2014	December 31 2013
Revolving credit facility, due Nov. 2016	\$ 93,810	\$ 133,540
5.375% Notes, due Oct. 2020	250,000	250,000
2.40% Term Loan, due Jun. 2022	12,592	
2.05% Term Loan, due Mar. 2023	53,768	58,785
Total long-term debt	410,170	442,325
Less current portion	(3,810)	
Long-term debt, net of current portion	\$ 406,360	\$ 442,325

Our revolving credit facility contains a number of customary compliance covenants, the most restrictive of which is a maximum leverage ratio of 3.5x. As of September 30, 2014, the leverage ratio, as calculated in accordance with the definition in our credit agreement, was 2.3x, within the limits set forth in our credit agreement. Based on our expectations of future results of operations and capital needs, we do not believe the debt covenants will impact our operations or limit our ability to undertake financings that may be necessary to meet our capital needs.

The 5.375% Notes contain cross default provisions that could result in all such notes becoming due and payable in the event of a failure to repay debt outstanding under the credit agreement at maturity, or a default under the credit agreement that accelerates the debt outstanding thereunder. As of September 30, 2014, we met all of the requirements of our debt covenants. The significant terms of the debt instruments are more fully discussed in Item 1 Financial Statements Note 12.

Cash used for financing activities includes cash used for common stock dividends and to repurchase stock. In 2014, our Board of Directors authorized a 10% increase in our quarterly cash dividend. In the first nine months of 2014, we used \$13.9 million of cash for dividends on our common stock compared with \$12.6 million in the same period of 2013. The Board of Directors determines what, if any, dividends will be paid to our shareholders. Dividend payment decisions are based upon then-existing factors and conditions and, therefore, historical trends of dividend payments are not necessarily indicative of future payments.

Cash used for common share repurchases totaled \$12.2 million in the first nine months of 2014. On May 1, 2014, the Company announced that its Board of Directors approved a \$25 million increase to the share repurchase program and extended the expiration date to May 1, 2016. Under the revised program, the Company may repurchase up to \$50 million of its outstanding common stock. The following table summarizes share repurchases made under this program through September 30, 2014:

	shares	(thousands)
Authorized amount	n/a	\$ 50,000
Repurchases	755,310	(16,627)
Remaining authorization		\$ 33,373

The total repurchases set forth above includes 464,190 shares at a cost of \$12.2 million completed through September 30 2014. No shares were repurchased in the first nine months of 2013.

We are subject to various federal, state and local laws and regulations intended to protect the environment as well as human health and safety. At various times, we have incurred significant costs to comply with these regulations and we could incur additional costs as new regulations are developed or regulatory priorities change. As a result of new air quality regulations including the U.S. EPA Best Available Retrofit Technology

Edgar Filing: GLATFELTER P H CO - Form 10-Q

rule (BART; otherwise known as the Regional Haze Rule) and the Boiler Maximum Achievable Control Technology rule (Boiler MACT), we anticipate that we could incur material capital and operating costs. Recently issued rules will require process modifications and/or installation of air pollution controls on boilers at two of our facilities. The cost of compliance is likely to be significant. Our current estimate to implement viable options could result in capital spending of between \$85 million to \$90 million. However, the amount of capital spending ultimately incurred may differ, and the difference could be material. In addition, the timing of such capital spending is uncertain, although we expect to incur the majority of expenditures generally in 2015 and 2016. Enactment of new environmental laws or regulations or changes in existing laws or regulations could significantly change our estimates.

- 38 -

GLATFELTER

9.30.14 Form 10-Q

Table of Contents

In addition, as more fully discussed in Note 17 Commitments, Contingencies and Legal Proceedings, it is conceivable we will need to fund a portion of the on-going costs to remediate a portion of the Lower Fox River in Wisconsin (the Fox River), an EPA Superfund site. Although we are unable to determine with any degree of certainty the amount we may fund, such amounts could be significant. The ultimate allocation of such costs is the subject of extensive ongoing litigation amongst three potentially responsible parties. See Item 1 Financial Statements Note 17 for a summary of significant environmental matters.

We expect to meet all of our near- and longer-term cash needs from a combination of operating cash flow, cash and cash equivalents, our credit facility or other bank lines of credit and other long-term debt. However, as discussed in Item 1 Financial Statements Note 17, an unfavorable outcome of the Fox River matters could have a material adverse impact on our consolidated financial position, liquidity and/or results of operations.

Off-Balance-Sheet Arrangements As of September 30, 2014 and December 31, 2013, we had not entered into any off-balance-sheet arrangements. Financial derivative instruments, to which we are a party, and guarantees of indebtedness, which solely consist of obligations of subsidiaries and a partnership, are reflected in the condensed consolidated balance sheets included herein in Item 1 Financial Statements.

Outlook In the fourth quarter of 2014, Composite Fibers shipping volumes are expected to be approximately 5% lower than the third quarter of 2014 primarily due to seasonality. Selling prices and raw material and energy costs are expected to be in-line with the third quarter. The impact of downtime to reduce inventory levels in the fourth quarter is estimated to be \$1 million to \$2 million higher compared to the third quarter.

Shipping volumes for Advanced Airlaid Materials in the fourth quarter of 2014 are expected to decline by approximately 5% compared with the third quarter due to seasonality. Average raw material prices are expected to be slightly higher than the third quarter of 2014 resulting in higher selling prices consistent with our pass-through arrangements. In order to increase the production capacity of a line in Falkenhagen, we expect to incur approximately \$1 million of costs related to lost production time from temporarily taking the line down.

For Specialty Papers, we expect shipping volumes in the fourth quarter of 2014 to decline by approximately 5% compared to the third quarter due to seasonality. Overall selling prices are expected to be slightly lower than the third quarter of 2014 and input costs are expected to increase slightly. Maintenance costs are expected to be approximately \$2 million higher in the fourth quarter compared with the third quarter due to normal variations in the timing of certain work.

GLATFELTER

9.30.14 Form 10-Q

Table of Contents**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISKS**

<i>Dollars in thousands</i>	Year Ended December 31					September 30, 2014	
	2014	2015	2016	2017	2018	Carrying Value	Fair Value
Long-term debt							
Average principal outstanding							
At fixed interest rates Bond	\$ 250,000	\$ 250,000	\$ 250,000	\$ 250,000	\$ 250,000	\$ 250,000	\$ 257,033
At fixed interest rates Term Loans	66,360	65,352	58,740	50,220	41,700	66,360	66,935
At variable interest rates	93,810	93,810	83,529			93,810	93,810
						\$ 410,170	\$ 417,778
Weighted-average interest rate							
On fixed rate debt Bond	5.375%	5.375%	5.375%	5.375%	5.375%		
On fixed rate debt Term Loans	2.12%	2.12%	2.12%	2.12%	2.12%		
On variable rate debt	1.76%	1.76%	1.76%				

The table above presents the average principal outstanding and related interest rates for the next five years for debt outstanding as of September 30, 2014. Fair values included herein have been determined based upon rates currently available to us for debt with similar terms and remaining maturities.

Our market risk exposure primarily results from changes in interest rates and currency exchange rates. At September 30, 2014, we had \$410.2 million of long-term debt, of which 22.9% was at variable interest rates. Variable-rate debt outstanding represents borrowings under our revolving credit agreement that accrues interest based on one month LIBOR plus a margin. At September 30, 2014, the interest rate paid was approximately 1.76%. A hypothetical 100 basis point increase or decrease in the interest rate on variable rate debt would increase or decrease annual interest expense by \$0.9 million.

As part of our overall risk management practices, we enter into financial derivatives primarily designed to either i) hedge foreign currency risks associated with forecasted transactions cash flow hedges ; or ii) mitigate the impact that changes in currency exchange rates have on intercompany financing transactions and foreign currency denominated receivables and payables foreign currency hedges. For a more complete discussion of this activity, refer to Item 1 Financial Statements Note 15.

We are subject to certain risks associated with changes in foreign currency exchange rates to the extent our operations are conducted in currencies other than the U.S. Dollar. During the first nine months of 2014, Euro functional currency operations generated approximately 33.1% of our sales and 30.4% of operating expenses and British Pound Sterling operations represented 5.9% of net sales and 5.6% of operating expenses.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures Our chief executive officer and our principal financial officer, after evaluating the effectiveness of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of September 30, 2014, have concluded that, as of the evaluation date, our disclosure controls and procedures are effective.

Changes in Internal Controls There were no changes in our internal control over financial reporting during the three months ended September 30, 2014, that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.
