NEWS RELEASE

**ACE Reports Second Quarter Operating Income of \$788 Million or
\$2.40 per Share, P&C Combined Ratio of 87.7% and Operating
Return on Equity of 11.4%**

Net income of \$942 million, up 21%

Global P&C net premiums written, which exclude Agriculture, up 6.4% or 13.2% in constant dollars

P&C underwriting income of \$478 million, up 5.5% in constant dollars

Net investment income of \$562 million, up 3.1% in constant dollars

Operating cash flow of \$816 million

Unfavorable foreign currency movement, compared with the prior year, negatively impacted operating income by \$29 million, or \$0.09 per share, and reduced Global P&C net premiums written growth by seven percentage points

The transfer of the Fireman's Fund in-force business contributed \$15 million of operating income that is non-recurring in 2016

Zurich July 21, 2015 ACE Limited (NYSE: ACE) today reported net income for the quarter ended June 30, 2015, of \$2.86 per share, compared with \$2.28 per share for the same quarter last year.⁽¹⁾ Operating income was \$2.40 per share, compared with \$2.42 per share for the same quarter last year. Operating return on equity for the quarter was 11.4%. The property and casualty (P&C) combined ratio for the quarter was 87.7%. Book value per share increased 0.5% from March 31, 2015, to \$91.27. Book value per share growth was primarily impacted by rising interest rates that resulted in unrealized losses of \$672 million, after-tax, in the company's investment portfolio, which are recorded in other comprehensive income on the balance sheet. The unrealized losses were partially offset by favorable foreign currency movement in the quarter and realized gains related to the company's variable annuity reinsurance business, which together amounted to \$205 million, after-tax. Tangible book value per share decreased 1.5% from March 31, 2015, to \$72.84, compared with the prior year, and was impacted by goodwill and intangibles related to the Fireman's Fund acquisition that closed during the quarter. Excluding the impact of the acquisition, tangible book value per share increased 0.5%.

Evan G. Greenberg, Chairman and Chief Executive Officer of ACE Limited, commented: ACE had an excellent second quarter with earnings per share essentially flat with prior year as a strong dollar impacted both revenue and earnings. After-tax operating income was \$788 million, or \$2.40 per share, leading to an operating ROE of 11.4%. We produced strong underwriting results marked by a P&C combined ratio of 87.7% and underwriting income that was flat with prior year and up 5.5% in constant dollars. Investment income was up 3% in constant currency a terrific

result given the interest rate environment. Global P&C net premiums written grew about 6.5%, or over 13% when adjusted for foreign exchange, as we took advantage of growth opportunities in the U.S., Asia and Latin America.

The highlight of the quarter was our announced agreement to acquire Chubb. We are moving quickly and the senior leadership of both companies has formed teams that are already engaged in integration planning. The sense of excitement and energy from the leadership of both companies is inspiring. We

ACE LIMITED NEWS RELEASE

P&C net premiums earned increased 0.8%, or 7% in constant dollars. Global P&C net premiums earned increased 1.2%, or 8% in constant dollars.

Underwriting income included a \$49 million benefit related to the transfer of the Fireman's Fund in-force business at the time of the transaction and will be non-recurring in 2016. This benefit was partially offset by purchase accounting intangible amortization of \$29 million, included in other income, resulting in a net \$20 million pre-tax, or \$15 million after-tax, increase in operating income which will not recur in 2016.

The P&C expense ratio for the quarter was 28.8%, compared with 29.3% last year. The Global P&C expense ratio, which excludes Agriculture, was 30.6% compared with 31.4% last year. The Agriculture expense ratio for the quarter was 8.3% compared with 7.4% last year.

Total pre-tax and after-tax catastrophe losses including reinstatement premiums were \$124 million (3.2 percentage points of the combined ratio) and \$106 million, respectively, compared with \$80 million (2.1 percentage points of the combined ratio) and \$67 million, respectively, last year.

Favorable prior period development pre-tax and after-tax for the quarter were \$153 million (3.9 percentage points of the combined ratio) and \$128 million, respectively, compared with \$126 million (3.3 percentage points of the combined ratio) and \$106 million, respectively, last year.

Operating cash flow was \$816 million for the quarter.

Net loss reserves increased \$717 million in the quarter, principally reflecting the acquisition of Fireman's Fund and favorable foreign currency movement since March 31, 2015. Net loss reserves increased \$132 million for the year.

Net investment income was \$562 million compared with \$556 million last year. This quarter was negatively impacted by foreign currency movement of \$11 million.

Net realized and unrealized losses pre-tax totaled \$559 million for the quarter. Net realized gains of \$161 million included a gain of \$102 million from derivative accounting related to variable annuity reinsurance. Net unrealized losses of \$720 million included an unrealized loss of \$850 million in the investment portfolio, primarily due to rising interest rates, partially offset by an unrealized foreign exchange gain of \$136 million.

Operating return on equity was 11.4% for the quarter and 11.0% year to date. Return on equity computed using net income was 12.7% for the quarter and 11.0% year to date.

Share repurchases totaled \$394 million, or approximately 3.7 million shares, during the quarter. The company has repurchased approximately 6.7 million shares for \$734 million through June 30, 2015. The company has discontinued its share repurchase program in connection with the announced planned acquisition of Chubb.

Book value per share increased 0.5% to \$91.27 from \$90.81 at March 31, 2015, and increased 1.4% from \$90.02 at December 31, 2014. For the year, book value per share, excluding foreign currency movement, increased 2.5% from December 31, 2014.

Tangible book value per share decreased 1.5% to \$72.84 from \$73.94 at March 31, 2015, and increased 0.3% from \$72.61 at December 31, 2014. For the year, tangible book value per share, excluding foreign currency movement and the impact of goodwill and intangibles related to the acquisition of Fireman's Fund, increased 3.2%.

Details of financial results by business segment are available in the ACE Limited Financial Supplement. Key segment items for the quarter ended June 30, 2015, include:

Insurance – North American P&C: Net premiums written increased 20.8%. Gross premiums written and net premiums written included \$428 million and \$252 million, respectively, from the transfer of the Fireman's Fund in-force business at the time of the transaction and will be non-recurring in 2016. Excluding the transfer, net premiums written increased 6% on a constant-dollar basis. The combined ratio was 85.2% compared with 87.1%. Excluding the transfer, the combined ratio was 88.1%. The current accident year combined ratio excluding catastrophe losses was 85.0% compared with 87.3%.

ACE LIMITED NEWS RELEASE

(1) All comparisons are with the same period last year unless specifically stated.

Regulation G Non-GAAP Financial Measures

In presenting our results, we included and discussed certain non-GAAP measures. These non-GAAP measures, which may be defined differently by other companies, are important for an understanding of our overall results of operations and financial condition. However, they should not be viewed as a substitute for measures determined in accordance with generally accepted accounting principles (GAAP).

Throughout this document there are various measures presented on a constant-dollar basis (i.e., excludes the impact of foreign exchange). We believe it is useful to evaluate the trends in our results, exclusive of the effect of fluctuations in exchange rates between the U.S. dollar and the currencies in which our international business is transacted, as these exchange rates could fluctuate significantly between periods and distort the analysis of trends. The impact is determined by assuming constant foreign exchange rates between periods by translating prior period results using the same local currency exchange rates as the comparable current period.

Adjusted net realized gains (losses), net of tax, includes net realized gains (losses) and net realized gains (losses) recorded in other income (expense) related to unconsolidated subsidiaries, and excludes realized gains and losses on crop derivatives. These derivatives were purchased to provide economic benefit, in a manner similar to reinsurance protection, in the event that a significant decline in commodity pricing impacts underwriting results. We view gains and losses on these derivatives as part of the results of our underwriting operations, and therefore realized gains and losses from these derivatives are reclassified to adjusted losses and loss expenses. The P&C combined ratio includes adjusted losses and loss expenses in the ratio numerator.

Underwriting income, P&C underwriting income, and Global P&C underwriting income are calculated by subtracting losses and loss expenses, policy benefits, policy acquisition costs and administrative expenses from net premiums earned. P&C underwriting income also includes gains (losses) on crop derivatives. We use underwriting income and operating ratios to monitor the results of our operations without the impact of certain factors, including net investment income, other income (expense), interest and income tax expense and adjusted net realized gains (losses). Current accident year underwriting income excluding catastrophe losses is underwriting income adjusted to exclude catastrophe losses and prior period development (PPD). We believe it is useful to exclude catastrophe losses, as they are not predictable as to timing and amount, and PPD as these unexpected loss developments on historical reserves are not indicative of our current underwriting performance. We believe the use of these measures enhances the understanding of our results of operations by highlighting the underlying profitability of our insurance business.

Operating income or income excluding adjusted net realized gains (losses), net of tax is a common performance measurement for insurance companies. We believe this presentation enhances the understanding of our results of operations by highlighting the underlying profitability of our insurance business. We exclude adjusted net realized gains (losses) because the amount of these gains (losses) is heavily influenced by the availability of market opportunities. In addition, we disclose operating income excluding the impact of foreign exchange in order to adjust for the distortive effects of fluctuations in exchange rates.

P&C combined ratio excluding catastrophe losses and PPD and current accident year P&C combined ratio excluding catastrophe losses exclude impacts of catastrophe losses and PPD. We believe this measure provides a better evaluation of our core underwriting performance and enhances the understanding of the trends in our property and

casualty business that may be obscured by these items.

ACE LIMITED NEWS RELEASE

Global P&C performance metrics comprise consolidated operating results (including corporate) and exclude the operating results of the company's Life and Insurance North American Agriculture segments. We believe that these measures are useful and meaningful to investors as they are used by management to assess the company's global P&C operations which are the most economically similar. We exclude the Insurance North American Agriculture and Life segments because the results of these businesses do not always correlate with the results of our global P&C operations.

International life net premiums written and deposits collected, is adjusted to include deposits collected on universal life and investment contracts (life deposits). Life deposits are not reflected as revenues in our consolidated statements of operations in accordance with GAAP. However, we include life deposits in presenting growth in our life insurance business because new life deposits are an important component of production and key to our efforts to grow our business.

Operating return on equity (ROE) or ROE calculated using operating income is an annualized financial measure. The ROE numerator includes income adjusted to exclude adjusted net realized gains (losses), net of tax. The ROE denominator includes the average shareholders' equity for the period adjusted to exclude unrealized gains (losses) on investments, net of tax. To annualize a quarterly rate, multiply by four. Annualized ROE calculated using operating income is a useful measure as it enhances the understanding of the return on shareholders' equity by highlighting the underlying profitability relative to shareholders' equity excluding the effect of unrealized gains and losses on our investments.

Tangible book value per common share is shareholders' equity less goodwill and other intangible assets divided by the shares outstanding. We believe that goodwill and other intangible assets are not indicative of our underlying insurance results or trends and make book value comparisons to less acquisitive peer companies less meaningful. In addition, we disclose per share measures for book value and tangible book value that exclude the impact of foreign currency fluctuations during 2015 in order to adjust for the distortive effects of fluctuations in exchange rates.

Tangible book value per common share excluding 2015 acquisitions is shareholders' equity less goodwill and other intangible assets divided by the shares outstanding. The numerator adds back the goodwill and other intangible assets related to the acquisition of the Fireman's Fund high net worth personal lines business in order to control for the distortive effect of acquisitions.

Other income (expense) — operating excludes from consolidated Other income (expense) the portion of net realized gains and losses related to unconsolidated entities and gains and losses from fair value changes in separate account assets that do not qualify for separate account reporting under GAAP. Net realized gains (losses) related to unconsolidated entities is excluded from operating income in order to enhance the understanding of our core results of operations as they are heavily influenced by, and fluctuate in part according to market conditions.

See reconciliation of Non-GAAP Financial Measures on pages 22-24 in the Financial Supplement. These measures should not be viewed as a substitute for net income, return on equity, or effective tax rate determined in accordance with GAAP.

NM — not meaningful comparison
