**Item 4.02 Non-Reliance on Previously Issued Financials Statements or a Related Audit Report or Completed Interim Review.**

(a) As previously disclosed, the Company has been engaged in a comment letter process with the Staff of the U.S. Securities and Exchange Commission relating to an ongoing review of the Company's Form 10-K for the year ended December 31, 2014. The Company has, as of the date hereof, responded to the Staff with a Confirming Letter on all of the questions the Staff has raised. As a result of the comment letter process, the Company's management team, Audit Committee (the "Audit Committee") and the Board of Directors (the "Board") have reviewed the Company's financial statements and assessed the accounting treatment applied by the Company to its joint ventures and other sales of intellectual property.

Based on this review and assessment, the Board, the Audit Committee and the Company's management team, on February 11, 2016, concluded that the Company will restate its historical financial statements (the "Restatement") to address the following accounting matters for the periods noted below.

With respect to the Company's Iconix Canada, Iconix Israel, Iconix Southeast Asia, Iconix MENA and LC Partners US joint ventures, the Company will revise its historical accounting treatment to consolidate the financial statements of these entities with the Company's financial statements, and will eliminate the previously reported gains on sale which were recorded at the time these transactions were consummated (including the subsequent June 2014 and September 2014 transactions with respect to Iconix Southeast Asia). The Company's financial results will also be impacted by reflecting the historic operating results of these entities as part of the Company's consolidated operating results, with approximately 50% of the income from these entities being attributed to the non-controlling interest holders.

The Company's historical equity method of accounting will continue to be used for the Iconix China, Iconix Latin America, Iconix Europe, Iconix India and Iconix Australia joint ventures, and the Company will recalculate the cost basis of the trademarks contributed to each such joint venture to determine the amount of the gain that should have been recorded at the time of consummation of these transactions.

With respect to the Company's sale of the trademarks relating to the Umbro brand in the territory of Korea (which closed in December 2013) and the e-commerce and U.S. catalog rights in respect of the Sharper Image brand (which closed in June 2014), the Company will recalculate the cost basis of the trademarks sold to determine the amount of the gain that should have been recorded at the time of the sale.

The Company will reclassify the presentation of its income statement to reflect gains on sales of trademarks (to joint ventures or third parties) as a separate line item above the Operating Income line, and not as revenue as historically reflected.

The Company will also reclassify the Equity Earnings on Joint Ventures line to above the Operating Income line, from its previous location within the Other Expenses section.

Consolidation of the joint ventures referred to above, and the resulting gain reversal, relate principally to joint ventures in which a portion of the purchase price payable by the Company's joint venture partner for its interest was payable in installments following closing. The installment payments result in these joint ventures meeting the definition of a variable interest entity (VIE) and the Company being the primary beneficiary of the VIEs. At the time such payment obligation matures and is satisfied there would be a reconsideration event under the VIE rules, which, depending on the facts and circumstances that exist at that time, may result in deconsolidation of the joint venture and the recognition of a gain at such time (which may be different than the amounts reversed).

Accordingly, investors should no longer rely upon the Company's previously filed financial statements and other financial disclosures in respect of (i) the fiscal years ended December 31, 2013 and 2014 and (ii) the first three quarters of 2015, or any prior press releases or other communications that relate thereto. The Company will file a

comprehensive Form 10-K for the year ended December 31, 2015 showing restated financial statements for the years ended December 31, 2013 and 2014 and selected financial data tables (including 2011 and 2012) to effect the changes in accounting discussed above. The Company will restate the related interim periods either by filing amended reports on Form 10-Q on a standalone basis or by including the interim periods in such Form 10-K.

The Board, Audit Committee and management team have discussed the matters disclosed in this Item 4.02(a) of this Current Report on Form 8-K with the Company's independent registered accounting firm.

**Expected Impact of the Restatement**

**The Company has not yet completed its final determination and review of the items listed below, and therefore the listed amounts are unaudited, preliminary and subject to change. There can be no assurance that the final adjustments will not differ materially from the estimated amounts discussed herein, or that additional adjustments will not be identified.**

Based on its review to date, the Company preliminarily anticipates that the Restatement will result in the estimated adjustments identified in the tables below:
