(1) Amount Previously Paid:

(2) Form, Schedule or Registration Statement No.:

(3) Filing Party:

(4) Date Filed:

**New FAQs made available to Questar Corporation employees by Dominion Resources, Inc. regarding the merger transaction**

**March 11, 2016**

**Benefits at Dominion (Pension)**

**(New) If I retire as a Dominion Questar employee in several years, will I still be able to take the lump sum option for money I earned within my pension while I was a Questar employee?**

Yes. You will continue to have the lump sum option for the benefits earned under the Questar Pension Plan before the merger no matter when you retire.

**Compensation at Dominion**

**(New) What is a Target Award Percentage in the AIP calculation?**

Dominion's non-union employees are assigned a target award percentage based on their job title. Employee target awards vary between 8.5% and 25% based on job title.

**(New) Can you provide some examples of the AIP payouts?**

The payout calculation is based on the following formula:

$$(\text{Plan Compensation}) \times (\text{Target Award \%}) \times (\text{Plan Funding \%}) \times (\text{Goal Package Score}) = \text{Award Payout}$$

Let's take a non-exempt employee who has a base pay of \$40,000 and has a target award percentage of 8.5% in two situations:

In example 1, the non-exempt employee earns \$3,000 additional compensation from overtime, but the plan funding is only 20%. His department met all of their goals including financial, safety, diversity, and other operating & stewardship goals. Therefore, the goal package receives a 100% score.

In example 2, the non-exempt employee does not work overtime during the year. The plan funding is 100%, but the department misses a goal and only receives a 90% goal package score.

	Plan		Target		Plan		Goal		
	Compensation		Award		Funding		Package		
			%		%		Score	=	Payout
Example 1	\$43,000	x	8.5%	x	20%	x	100%	=	\$731
Example 2	\$40,000	x	8.5%	x	100%	x	90%	=	\$3,060

Now, let's look at an exempt salaried employee (not eligible for overtime). Her base salary is \$80,000 and she has a target award percentage of 15%. The plan funding is 90% and her department met all of their goals including financial, safety, diversity, and other operating & stewardship goals. Therefore, the goal package receives a 100% score.

	Plan		Target		Plan		Goal		
	Compensation		Award		Funding		Package		
			%		%		Score	=	Payout
Plan Compensation	\$80,000	x	15%	x	90%	x	100%	=	\$10,800
