Voluntary Announcement

Clarification Relating to Media Reports

This is a voluntary announcement by Sinopec Shanghai Petrochemical Company Limited (the Company or Shanghai Petrochemical)

1. Media Reports in Brief

Shanghai Petrochemical has recently learned that some media reported on the Notice Regarding Listed Supervision of Environmental Issue around Sinopec Shanghai Petrochemical Company Limited (the Notice) issued by the Chinese Ministry of Environmental Protection (MEP). The Notice, which was issued on 11 April 2016, pointed out the presence of residences within a one-kilometer restricted zone around the Company's major chemical production area. It also noted the absence of a cross-district environmental emergency response plan. Upon consideration, MEP decided to supervise and resolve this issue.

Requirements of MEP:

(1) The Shanghai Jinshan District People's Government, Shanghai Petrochemical and the Zhejiang Jiaying Municipal People's government are to set up a coordination mechanism for the relocation of residents living within the one-kilometer restricted zone around the major chemical production area of Shanghai Petrochemical and to complete the relocation before the deadline.

(2) The Shanghai Jinshan District People's Government and the Zhejiang Jiaying Municipal People's Government shall establish and implement a cross-district environmental emergency response mechanism to prevent and manage the potential environmental and safety hazard around Shanghai Petrochemical.

(3) The Company will prepare a cross-district environmental emergency response plan, carry out periodic drills and actively prevent and react to environmental emergencies.

Completion deadlines:

Item (1) to be completed by the end of April 2017 and items (2) and (3) by the end of September 2016.

2. Current Situation

So far, the Shanghai municipal government has completed the relocation of residents living within the one-kilometer restricted zone in Jinshan District. However, the relocation of residences living within the one-kilometer restricted zone in Jinqiao Village of Dushangang County in Pinghu City, Jiaxing Municipal, Zhejiang Province, has not been completed yet.

The Company had prepared an environmental emergency response plan and conducted periodic drills.

3. Measures to be taken by the Company and the Impact

The Company will take the initiative to communicate with the Shanghai Jinshan District People's Government and the Zhejiang Jiaxing Municipal People's Government, and actively cooperate with them to achieve the requirements of MEP.

Based on the established environmental emergency response plan and periodic drills conducted, the Company will further promote the cross-district emergency response plan.

The Company is currently assessing the impact of this issue on its operations. It will closely follow the development of the issue and fulfill the disclosure obligation on a timely basis.

Sinopec Shanghai Petrochemical Company Limited
