YPF SOCIEDAD ANONIMA AND CONTROLLED COMPANIES

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

AS OF MARCH 31, 2016 AND COMPARATIVE INFORMATION

(amounts expressed in millions of Argentine Pesos, except shares and per share amounts expressed in Argentine Pesos, and as otherwise indicated Note 1.b)

1. BASIS OF PREPARATION OF THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

1.a) Basis of preparation

The condensed interim consolidated financial statements of YPF S.A. (hereinafter YPF or the Company) and its controlled companies (hereinafter and all together, the Group) for the three-month period ended March 31, 2016, are presented in accordance with International Accounting Standards (IAS) No. 34 Interim Financial Reporting . The adoption of the International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB) was determined by the Technical Resolution No. 26 (ordered text) issued by Argentine Federation of Professional Councils in Economic Sciences (FACPCE) and the Regulations of the Argentine Securities Commission (CNV).

Also, some additional information required by the Law 19,550 of Argentine Corporations and its amendments and/or regulations of the CNV, was included. Such information was included in the Notes to the mentioned condensed interim consolidated financial statements only to comply with regulatory requirements.

These condensed interim consolidated financial statements should be read in conjunction with the Annual Consolidated Financial Statements of the Group as of December 31, 2015 (the Annual Consolidated Financial Statements) prepared in accordance with IFRS.

These condensed interim consolidated financial statements were approved by the Board of Directors meeting and authorized to be issued on May 10, 2016.

These condensed interim consolidated financial statements corresponding to the three-month period ended on March 31, 2016 are unaudited. Management believes they include all necessary adjustments to fairly present the results of each period on a consistent basis with the Annual Consolidated Financial Statements. Results for the three-month period ended on March 31, 2016 do not necessarily reflect the proportion of the Group s full-year results.

1.b) Significant Accounting Policies

The accounting policies adopted in the preparation of these condensed interim consolidated financial statements are consistent with those used in the preparation of the Annual Consolidated Financial Statements, except for the valuation policy for Income Tax detailed in Note 7.i). The most significant accounting policies are described in Note 1.b) to such Annual Consolidated Financial Statements.

Functional and reporting currency

As mentioned in Note 1.b.1 to the Annual Consolidated Financial Statements YPF has defined the U.S. dollar as its functional currency. In addition, according to General Resolution No. 562 of the CNV, YPF shall submit its financial statements in Argentine Pesos.

1.c) Accounting Estimates and Judgments

The preparation of financial statements at a certain date requires Management to make estimates and assessments affecting the amount of assets and liabilities recorded, contingent assets and liabilities disclosed at such date, as well as income and expenses recorded during the period. Actual future results might differ from the estimates and assessments made as of the date of preparation of these condensed interim consolidated financial statements.

Table of Contents

In preparing these condensed interim consolidated financial statements, significant judgments made by Management in applying the Group's accounting policies and the main sources of uncertainty were the same as those applied by the Group in the preparation of the Annual Consolidated Financial Statements, which are disclosed in Note 1.c) related to accounting estimates and judgments to those financial statements.

1.d) Comparative information

Amounts and other information corresponding to the year ended on December 31, 2015 and to the three-month period ended on March 31, 2015, are an integral part of the condensed interim consolidated financial statements previously mentioned and are intended to be read only in relation to these statements. Certain reclassifications have been made in order to present amounts comparatively with the current period.

2. SEASONALITY OF OPERATIONS

Historically, the Group's results have been subject to seasonal fluctuations during the year, particularly as a result of the increase in natural gas sales during the winter. After the 2002 devaluation of the Argentine Peso, and as a consequence of the natural gas price freeze imposed by the Argentine government, the use of natural gas has been diversified, generating an increase in demand throughout the entire year. However, sales of natural gas are still typically higher in the winter to the residential sector of the Argentine domestic market, which has lower prices than other sectors of the Argentine market. Notwithstanding the foregoing, under the Additional Injection Stimulus Program regulation (see Note 11.d) to the Annual Consolidated Financial Statements), gas producing companies were invited to file with the Ministry of Energy and Mining (MINEM) before June 30th, 2013 projects to increase natural gas injection, in order to receive an increased price of US\$ 7.50/MMBTU for all additional natural gas injected. These projects shall comply with the minimum requirements established in the aforementioned Program, and will be subject to approval by the MINEM, including a maximum term of five years, renewable at the request of the beneficiary, upon decision of the MINEM. If the beneficiary company in a given month does not reach the committed production increase, it will have to make up for such volumes not produced. The natural gas pricing program was incorporated into the Hydrocarbons Law, as modified by Law No. 27,007.

In view of the foregoing, seasonality of the Group operations is not significant.

3. ACQUISITIONS AND DISPOSALS

During the three-month period ended March 31, 2016, there have been no significant acquisitions or disposals.

4. FINANCIAL RISK MANAGEMENT AND FAIR VALUE MEASUREMENTS

4.a) Financial Risk

The Group's activities are exposed to a variety of financial risk: market risk (including foreign currency risk, interest rate risk and price risk), credit risk, liquidity risk and capital risk. The Group maintains an organizational structure and systems that allow the identification, measurement and control of the risks to which it is exposed.

The condensed interim consolidated financial statements do not include all the information and disclosures on financial risk management; therefore, they should be read in conjunction with the Group's Annual Consolidated

Financial Statements.

There have been no changes in the risk management or risk management policies applied by the Group since the end of last year.

Table of Contents**4.b) Fair value measurements**

Fair value measurements are described in Note 5 to the Annual Consolidated Financial Statements.

Between December 31, 2015 and March 31, 2016, there have been no significant changes in business or economic circumstances affecting the fair value of the Group's financial assets and liabilities, either measured at fair value or amortized cost.

In addition, no transfer has occurred among the different hierarchies used to determine the fair value of the Group's financial instruments.

8. INVESTMENTS IN COMPANIES AND JOINT OPERATIONS

The Group does not participate in subsidiaries with a significant non-controlling interest. Furthermore, no investments in companies or joint operations are deemed individually material.

The following table shows in aggregate, considering that none of the companies are individually material, the amount of investments in companies and joint ventures as of March 31, 2016 and December 31, 2015:

	March 31, 2016	December 31, 2015

Table of Contents

The following table shows the main magnitudes of net results from the Group's investments in companies, calculated according to the equity method, for the three-month periods ended on March 31, 2016 and 2015. YPF has made adjustments, where applicable, to the amounts reported by such companies in order to conform the accounting principles used by such companies to those used by the Group:

	Affiliated companies		Joint ventures	
	2016	2015	2016	2015
Net income (loss)	91	24	6	(62)
Other comprehensive income	19	3	351	56
Comprehensive income for the period	110	27	357	(6)

Additionally, the Group participates in joint operations and other agreements which give the Group a contractually established percentage of the rights to the assets and obligations governed by the contracts. Interests in such joint operations have been consolidated line by line on the basis of the mentioned interest over the assets, liabilities, income and expenses related to each contract. Interests in joint operations have been calculated based upon the latest available financial statements as of the end of each year, taking into consideration significant subsequent events and transactions as well as available management information.

The exploration and production joint operations and other agreements in which YPF participates allocate hydrocarbon production to each partner based on its ownership interest, consequently such hydrocarbons are commercialized directly by the partners recognizing each of them the corresponding economic effects.

The assets and liabilities as of March 31, 2016 and December 31, 2015, and main magnitude of results for the three-month periods ended on March 31, 2016 and 2015 of the joint operations and other agreements are detailed below:

Basic and diluted earnings per share are calculated as shown in Note 1.b.13 to the Annual Consolidated Financial Statements.

11. PROVISIONS FOR PENDING LAWSUITS, CLAIMS AND ENVIRONMENTAL LIABILITES

Provisions for pending lawsuits, claims and environmental liabilities are described in Note 10 to the Annual Consolidated Financial Statements.

As of March 31, 2016, the Group has accrued pending lawsuits, claims and contingencies which are probable and can be reasonably estimated, amounting to 11,610.

In relation to environmental obligations, and in addition to the hydrocarbon wells abandonment legal obligations for 31,959, as of March 31, 2016, the Group has accrued 3,260 corresponding to environmental remediation, which evaluations and/or remediation works are probable and can also be reasonably estimated, based on the Group s existing remediation program.

Developments during the three-month period ended March 31, 2016, concerning the most significant pending lawsuits and contingencies are described below.

Edgar Filing: YPF SOCIEDAD ANONIMA - Form 6-K

With respect to the AES Uruguaiana Emprendimientos S.A. (AESU) and Transportadora Gas del Mercosur S.A. (TGM) arbitration proceedings and the writ of nullity filed on February 2, 2016 by AESU and Companhia do Gas do Estado do Rio Grande do Sul (SULGAS), on February 23, 2016, the Court of Appeals denied the motion in limine . AESU and SULGAS filed a motion before the Supreme Court against this denial, which was communicated to YPF on March 31, 2016. On the same date, the Court of Appeals rejected the motion to appeal before the Supreme Court filed by TGM on February 2, 2016.

Table of Contents

On April 26, 2016, Division IV of the Court of Appeals denied the motion filed by AESU and SULGAS and passed a new resolution declaring the nullity and ineffectiveness of all proceedings filed by the parties until then and by the Arbitration Tribunal regarding the second stage of the Arbitration, on the basis that they lacked legal grounds. In turn, the resolution recalls the legal order arising from Section 34, subsection 5, paragraph b, of the Argentine Civil and Commercial Code of Procedures (CPCCN), by its acronym in Spanish), advising the Arbitration Tribunal that it may not issue any resolution regarding the second stage of the arbitration, including a final award on damages, and also advising AESU, SULGAS and TGM that any of their respective acts to that end or any act of the Arbitration Tribunal that might involve them, in violation of the above referred judgment, shall be evaluated by such Court Division in the exercise of the powers vested on it by the CPCCN as process manager (section 45 and related sections). In addition, this Division ordered to notify the Arbitration Tribunal and the International Arbitration Secretary's Office for the International Chamber of Commerce (ICC), advising them that the Arbitration Tribunal is not in a position to issue an award in accordance with applicable law.

This resolution was communicated by YPF to the Arbitration Tribunal, the parties and the ICC. On the same date but following this notification, YPF was given notice of the damages arbitration award issued by a majority of the Arbitration Tribunal, whereby the Company was ordered to pay damages of US\$185 million to AESU, for the early termination of the gas export contract in 2009, and on account of the delivery or pay penalty, and of US\$ 319 million to TGM on account of the principal invoices amount, irrevocable contributions and damages for the early termination of the transportation contract.

On May, 2, 2016, YPF filed with the ICC and the Arbitration Tribunal the relevant writ of nullity against the said arbitration award. On the same date, it also filed a writ of nullity before Division IV of the Federal Contentious Administrative Tribunal, and in an auxiliary manner filed a reconsideration motion from denial of appeal.

On May 4, 2016, the Arbitration Tribunal passed a resolution resolving that it would refrain from issuing a decision regarding the writ of nullity filed by YPF. Considering this resolution a dismissal of the writ of nullity, on May 5, 2016, YPF filed before Division IV of the Federal Contentious Administrative Tribunal a motion for reconsideration against the decision rendered by the Arbitration Tribunal to deny the writ of nullity filed by the Company.

In connection with the complaint filed by Asociación Unión de Usuarios y Consumidores against YPF, the Company filed an appeal against the relevant judgment, which was admitted with staying effect. Plaintiff also filed an appeal against the judgment and both parties filed their respective appellate briefs, which were answered. On April 4, 2016, the file was raised to the Court of Appeals. The updated judgement amount as of the date of these consolidated condensed interim financial statements amounts to approximately 536 plus legal costs.

As to the administrative environmental issues related to the lower 8 miles of the Passaic River, on March 4, 2016, the U.S. Environmental Protection Agency (EPA) issued the Record of Decision (ROD) for the lower 8.3 miles of the Passaic River, which is a part of the Diamond Alkali Superfund Site - Essex and Hudson Counties, New Jersey. The ROD selects the so-called Alternative 3 as the remedy for the removal of contaminated sediments with an estimated cost of US\$1.382 billion (net present value at a 7% rate).

The ROD requires the removal of 3.5 million cubic yards of sediment from the lower 8.3 miles of the Passaic River by bank-to-bank dredging, to a depth of approximately 5 to 30 feet in the federal navigation channel from mile 0 to mile 1.7, and approximately 2.5 feet in the remaining areas of the lower 8.3 miles of the Passaic River. A two-foot thick cap will be installed over the dredged areas. Contaminated segments will be transported to disposal sites outside the state. The EPA estimates the whole project will take approximately 11 years, including one year for negotiations

among potentially responsible parties, three to four years for project design and six years for its implementation.

On March 31, 2016, the EPA notified all potentially responsible parties, including Occidental Chemical Corporation (OCC), of the liabilities relating to the 8.3 miles area of the Passaic River relating to the ROD. In the same notice, the EPA stated that it expected OCC (against whom Maxus is litigating a dispute over indemnity) to prepare the remediation plan design and that it would send a second letter with an administrative proposal to this end, which was received by counsel to OCC, Maxus Energy Corporation (Maxus) and Tierra Solutions Inc. (TS) on April 26, 2016.

OCC, Maxus and TS are holding discussions with EPA to define their participation in a potential negotiation aimed at taking part in the design of EPA's proposed remediation plan, taking into account that the ROD has identified over one hundred potentially responsible parties and eight contaminants of concern, many of which have not been generated at the Lister Site. Currently, Maxus is evaluating the situation resulting from the issuance of the ROD by the EPA, as well as its subsequent associated letters. Therefore, as of the date of issuance of these consolidated condensed interim financial statements, the conclusion stated in the consolidated annual financial statements as of December 31, 2015 has not been modified.

In connection with the Passaic River litigation, in which the New Jersey Department of Environmental Protection (DEP) holds with YPF, YPF Holdings Inc. and other controlled companies, with respect to the contamination of the lower Passaic River with dioxin and other hazardous substances discharged by the Newark plant, the parties appealed the recommendations of the Special Judge to Judge Furnari (presiding Judge of the legal proceedings) on February 16, 2016, who, nevertheless, adopted the Special Masters' recommendations in their entirety. In addition, discovery of all relevant evidence having been completed, the acting Judge issued Case Management Order XXVIII, which sets forth, among other procedural deadlines, June 20, 2016 as the date for the commencement of the trial.

On April 25, 2016, all the parties moved to request permission to file interlocutory appeals and a stay of the litigation during the appellate proceedings. Maxus filed a motion requesting permission to appeal the ruling granting summary judgment to OCC against Maxus, which held that Maxus is liable under the stock purchase and sale agreement for all obligations under, or arising from, the Lister Site, even if attributable to OCC's own acts. YPF filed a motion requesting permission to appeal the ruling denying its motion for summary judgment seeking a decision indicating that OCC may not use allegedly fraudulent transfers which are prescribed as a basis for its alter ego claims against YPF. OCC filed only one motion, appealing the ruling that granted to Repsol the motion for summary judgment, whereby all claims against Repsol were dismissed. OCC did not appeal the rulings that (a) denied OCC's motion to file additional cross claims; (b) denied OCC's motion for a declaratory judgment regarding future costs; and (c) denied OCC's motion for summary judgment seeking a dismissal of Repsol's Spill Act contribution claim against OCC (all of the foregoing without prejudice to reserving the right to file post-trial motions of appeal on these issues).

12. CONTINGENT LIABILITIES, CONTINGENT ASSETS, CONTRACTUAL COMMITMENTS, MAIN REGULATIONS AND OTHERS

Contingent liabilities, contingent assets, contractual commitments, main regulations and others are described in Note 11 to the Annual Consolidated Financial Statements.

Developments during the three-month period ended March 31, 2016 concerning the above are detailed below.

a) Contingent Liabilities

No new significant contingent liabilities have been identified for the three-month period ended March 31, 2016 and no changes in valuations of contingent liabilities existing as of December 31, 2015 have been made.

Table of Contents

b) Contingent Assets

Cerro Divisadero:

Concerning the fire that damaged the facilities of the Crude Oil Treatment Plant of Cerro Divisadero in Mendoza, as of December 31, 2015 the claim settlement proceedings were concluded, with the final settlement amount agreed at US\$ 122 million, of which US\$ 45 million was related to property damage and US\$ 77 million was related to production losses, for which a US\$ 60 million advance had already been received as of such date. During the three-month period ended March 31, 2016, the Company received the second and final payment of US\$ 62 million.

c) Contractual commitments

Agreements for project investments

With respect to the Investment Project Agreement executed by and between the Company and subsidiaries of Chevron Corporation with the objective of the joint exploitation of unconventional hydrocarbons in the province of Neuquén, in the Loma Campana area, during the three-month period ended March 31, 2016, the Company and Compañía de Hidrocarburo No Convencional S.R.L. (CHNC) have completed transactions, including the purchases of gas and crude oil by YPF for 1,531. These transactions were completed under general and regulatory market conditions. The net balance payable to CHNC as of March 31, 2016 amounts to 808.

d) Main regulations and others

Natural gas regulatory requirements

YPF previously appealed ENARGAS Resolution No. 1410/2010, approving the Procedure for Gas Requests Confirmations and Control . On December 9, 2015 ENARGAS rejected YPF 's challenge to such resolution. YPF is now evaluating its future course of action.

On April 1, 2016 the following resolutions were issued:

- (1) Resolution No. 28/2016 passed by the Ministry of Energy and Mining, which, among other things:

Sets the new prices for natural gas at the Transportation System Entry Points (TSEPs), broken up by basin and user category, and provides discounts to those Residential Users reducing their consumption by fifteen percent (15%) or more as compared to the same period of the previous year, taking effect for consumption starting from April 1, 2016.

Sets the new Propane Gas Prices for Undiluted Propane Gas distribution, as well as provides discounts to those Residential Users recording a savings in their consumption equal to or higher than fifteen percent (15%) compared to the same period of the previous year.

Instructs the ENARGAS to adapt the Registry of Persons Exempt from the Argentine Government Policy of Subsidy Reallocation through which ENARGAS adopts for Residential Users the Eligibility Criteria to benefit from a Social Tariff , with a one hundred percent (100%) discount on the Natural Gas price or the Propane Gas price consumed by such users.

Revokes resolutions passed by the former Ministry of Federal Planning, Public Investment and Services under Section 6 of Executive Order No. 2.067/2008 and Section 7 of Resolution No. 1.451/2008 of the Ministry, related to the assessment of tariff charges, to which end it instructs ENARGAS to take the necessary measures to cease applying those charges in the bills issued to users.

- (2) Resolution No. 34/2016 passed by the Ministry of Energy and Mining, which, among other things:

Sets the new prices at TSEPs for natural gas supply to Compressed Natural Gas (CNG) stations, taking effect for consumption starting from April 1.

Provides that from May 1, natural gas for CNG supply stations will be acquired by distributors.

Main rules applicable to the activities of Metrogas:

On February 24, 2016, within the framework of the process for renegotiating public services contracts provided by Law No. 25,561 and supplementary regulations, Metrogas entered into a Temporary Agreement with the Ministry of Energy and Mining and the Ministry of Economy and Public Finance whereby a provisional tariff regime is established for the collection of higher revenues than those collected under the Temporary Agreement of 2014 and ENARGAS Resolution No. I/2407/2012 issued on November 27, 2012.

The new Temporary Agreement establishes an interim tariff regime effective from April 1, 2016, consisting of the readjustment of tariffs with due regard to the necessary guidelines for service continuity and common criteria with the other distribution licensees, and to the tariff regulations, including changes in the gas price at the transportation entry point.

The Temporary Agreement further provides that, between its execution date and December 31, 2016, the parties shall reach an agreement related to the modalities, time periods and timing for the execution of the Memorandum of Agreement for Comprehensive Contractual Renegotiations.

In addition, Resolution No. 31/2016 issued by the Ministry of Energy and Mining orders ENARGAS to conduct a Comprehensive Tariff Review which shall be concluded within a maximum term of one year from March 29, 2016.

On April 4, 2016, ENARGAS Resolution No. 3726/2016 was published in the Argentine Official Gazette whereby a new tariff scheme applicable to Metrogas users was approved, effective from April 1, 2016. Under ENARGAS Resolution No. 3726/2016, new tariffs are additionally established for residential users recording a saving in their consumption equal to or higher than fifteen percent (15%) compared to the same period of the previous year and also tariffs applicable to users registered with the registry established under ENARGAS Resolution No. I-2.905/2015 as amended by section 5 of Resolution No. 28/2016 issued by the Ministry of Energy and Mining (social tariff).

As to the social tariff set out in Resolution No. 28/2016 issued by the Ministry of Energy and Mining, as of the date of these financial statements, the Registry of Persons Exempt from the Argentine Government Policy of Subsidy Reallocation has not been adapted.

Finally, Resolution No. 3726/2016 issued by ENARGAS establishes that Metrogas may not distribute dividends without previously providing evidence to ENARGAS of full compliance with the Mandatory Investment Plan, which concerning Metrogas amounts to 715.

In addition, Metrogas anticipates an agreement with the Argentine Government concerning the guidelines contained in the Annex to the 2016 Temporary Agreement related to the modalities, time periods and timelines of the execution of the Memorandum of Agreement for Comprehensive Contractual Renegotiations, so as to facilitate the restructuring of the economic-financial standing.

Regulatory framework for the electric power industry:

Law No. 27,191, amending Law No. 26,190 on Argentina's Scheme for Promotion of Use of Energy Renewable Sources intended for Electricity Production, binds Large Users to incorporate at least 8% of energy from renewable sources into their electric power usage by December 31, 2017.

Federal Executive Order No. 531/2016 (Regulations of Law No. 27,191), dated March 31, 2016. Among other things, this Executive Order establishes that before December 31, 2017, users shall provide evidence of execution of self and joint generation contracts or projects. Upon examining compliance with the purposes of the Law, should there be energy shortage, a penalty shall be imposed, but no further details are provided.

Resolution No. 22/2016 issued by the Energy Secretariat dated March 30, 2016. Pursuant to this Resolution, the Energy Secretariat amended SE Resolution 482/2015 and adjusted tariff components collected by generators who have adhered to SE Resolutions Nos. 95/2013, 529/14 and 482/2015. The resolution modifies remunerative components of financial transactions reattractively to February 2016.

Table of Contents

Resolution No. 41/2016 issued by the Ministry of Energy and Mining dated April 13, 2016. It was published to update seasonal reference prices of power and energy recognized by CAMMESA for electricity generation from economic transactions starting from May 2016.

Resolution No. 21/2016 issued by the Energy Secretariat published on March 22. This resolution calls generators, self-generators and joint generators interested in bidding on a new capacity of thermal power generation and associated electricity production, undertaking to be available in the Wholesale Electricity Market during summer (2016/2017 and 2017/2018) and winter 2017.
