OUTSTANDING VOTING SECURITIES AND QUORUM

Stockholders of record as of the close of business on July 11, 2016, are entitled to one vote at the Annual Meeting for each share of common stock, par value \$0.001 per share (Common Stock), of the Company then held by each stockholder. As of that date, the Company had _____ shares of Common Stock issued and outstanding. The presence, in person or by proxy, of at least a majority of the total number of outstanding shares of Common Stock entitled to vote constitutes a quorum at the Annual Meeting. Abstentions and broker non-votes, if any, will be considered present for purposes of determining the presence of a quorum.

VOTES REQUIRED

Pursuant to the Delaware General Corporation Law and the Company's Bylaws, the seven nominees for election as directors at the Annual Meeting who receive the highest number of affirmative votes will be elected, provided that a quorum is present at the Annual Meeting. Pursuant to the Delaware General Corporation Law Proposals 2 and 3 must be approved by a majority of the outstanding shares of stock of the Company entitled to vote on the Proposal, and Proposals 4 and 5 will be approved if a quorum exists and the votes cast favoring the Proposal exceed the votes cast opposing the Proposal.

SUMMARY TERM SHEET

The following is only a summary of certain material information contained in this document. You should carefully review this entire document along with the exhibits attached hereto to understand the proposals fully.

Time and Place of Annual Meeting (See cover page, Notice of Annual Meeting of Stockholders):

Thursday, August 24, 2016 at 9:00 a.m., Pacific Time, at the Hilton Vancouver Washington, 301 W. 6th Street, Vancouver, Washington 98660.

Record Date (See page 21): You can vote at the Annual Meeting if you owned Common Stock of CytoDyn Inc. at the close of business on July 11, 2016.

Proposals to be Voted on (See Notice of Annual Meeting of Stockholders): Matters to be presented for action at the meeting include the election of directors, a proposal to increase the total number of authorized shares of Common Stock from 250,000,000 shares to 350,000,000 shares, a proposal to authorize the Board to effect a reverse stock split at its discretion, as further described in this proxy statement, ratification of the selection of the Company's auditors, and a non-binding advisory vote to approve executive compensation as described in this proxy statement.

Reasons for the Increase in Authorized Shares (See page 16): The primary reason for the increase in authorized shares is to have additional authorized shares of Common Stock available for possible future financings, acquisition transactions, joint ventures and other general corporate purposes as further described in this proxy statement.

Effect of Approving the Increase in Authorized Shares (See page 16): If the increase in authorized shares of Common Stock is approved, the authorized shares of the Company will be increased from 250,000,000 shares to 350,000,000 shares.

Effect of Not Approving the Increase in Authorized Shares (See page 17): If the increase to authorized shares proposal fails to obtain the vote required for approval, the number of shares authorized for issuance by the Company will remain at 250,000,000 shares of Common Stock and the Company will be limited in its ability to issue shares of its Common Stock to complete future financings, acquisition transactions, joint ventures and other general corporate purposes.

Reasons For The reverse stock split (See pages 18-20): The Board believes that it is in the best interests of the Company and its stockholders to approve a reverse stock split of the Company's outstanding Common Stock in order to grant the Board the discretionary authority to effect a reverse stock split within the ratios described herein if the Board determines it to be appropriate, in order to support a potential listing on of the Common Stock a national securities exchange and for the reasons described in this proxy statement.

Pursuant to a proposal that was previously approved by the Company's stockholders at the 2015 annual meeting, the Board currently has the authority to complete a reverse stock split at the same range of ratios as would be applicable for the reverse stock split under this proposal. However, the authority previously granted to the Board is scheduled to

expire on August 27, 2016. By this proposal, therefore, the Board is effectively requesting an extension of its previously granted authority, to complete the reverse stock split through August 24, 2017.

Other Proposals: At the Annual Meeting you will also be asked to consider proposals to elect directors, ratify the selection of the Company's auditors and approve, on an advisory basis, executive compensation.

Recommendation of the Board (See pages 17, 23-25): The Board recommends that you vote FOR the election of all nominees for director, as well as FOR Proposals 2, 3, 4 and 5.

Vote Required (See page 5): Pursuant to the Delaware General Corporation Law and the Company's Bylaws, the seven nominees for election as directors at the Annual Meeting who receive the highest

number of affirmative votes will be elected, provided that a quorum is present at the Annual Meeting. Pursuant to the Delaware General Corporation Law, Proposals 2 and 3 must be approved by a majority the outstanding shares of stock of the Company entitled to vote on the Proposal, and Proposals 4 and 5 will be approved if a quorum exists and the votes cast favoring the Proposal exceed the votes cast opposing the Proposal.

How to Vote Your Shares (See page 1): Complete, date and sign the enclosed proxy card and mail it in the enclosed return envelope, or submit your proxy by telephone or the Internet as instructed on the enclosed proxy card, as soon as possible, so that your shares may be represented at the Annual Meeting. In order to assure that your vote is obtained, please submit your proxy even if you currently plan to attend the Annual Meeting in person.

How to Revoke Your Proxy (See page 2): You may revoke your proxy either by delivering to the Secretary of CytoDyn Inc. a signed notice of revocation or a later dated and properly executed proxy, or by attending the meeting and voting in person.

Voting of Shares Held in Street Name (See page 1): Your broker will not be permitted, without your instructions, to vote your shares held in street name on any proposal that is deemed non-routine, with respect to which brokers and other nominees will not have discretionary voting power. As a result, you should be sure to provide your broker with instructions on how to vote your shares. Failure to vote, or to instruct your broker how to vote any shares held for you in your broker's name, may have the same effect as a vote against the increase in authorized shares and the reverse stock split. Because Proposal 4 is deemed routine, your broker will be permitted to vote your shares held in street name on Proposal 4.

Whom You Should Call with Questions: If you have further questions, you may contact the Company's proxy solicitor, Alliance Advisors LLC. at:

MEETINGS AND COMMITTEES OF THE BOARD OF DIRECTORS

The Board held 17 meetings in fiscal 2016. During fiscal 2016, each current director attended at least 75 percent of the total number of the meetings of the Board and the meetings held by each committee of the Board on which he served during his tenure on such committee or the Board.

Board Leadership Structure

The Board believes that the Board leadership structure, which reflects the separation of the Chairman and Chief Executive Officer positions, serves the best interests of the Company and its stockholders by giving an independent director a direct and significant role in establishing priorities and the strategic direction and oversight of the Company. The Board believes that the manner in which it oversees risk management at the Company has not affected its leadership structure.

The Board's Role in Risk Oversight

The Company's management is responsible for identifying, assessing and managing the material risks facing the Company. The Board generally oversees risk management practices and processes and, either as a whole or through the Audit Committee and other board committees, periodically discusses with management strategic and financial risks associated with the Company's operations, their potential impact on the Company, and the steps taken to manage these risks.

While the Board is ultimately responsible for risk oversight, the Board's committees assist the Board in fulfilling its oversight responsibilities in certain areas of risk. In particular, the Audit Committee focuses on financial and enterprise risk and discusses with management and the Company's independent registered public accounting firm the Company's policies and practices with respect to risk and particular areas of risk exposure. The Nominating and Governance Committee oversees recruitment of potential director nominees and succession planning for the Company's executive positions. The Compensation Committee monitors the Company's incentive compensation programs to assure that management is not encouraged to take actions involving excessive risk.

Code of Ethics

The Company has adopted a Code of Ethics for its executive officers (the Chief Executive Officer and Chief Financial Officer), as well as a Code of Business Conduct and an Insider Trading Policy for the Company. Copies of these governing documents, as well as the committee charters described below, are available on the Company's website at www.cytodyn.com.

Director Independence

In determining director independence, the Company uses the definition of independence in Rule 5605(a)(2) of the listing standards of The Nasdaq Stock Market (the "NASDAQ Rules"). The Board has determined that Messrs. Caracciolo, Dockery, Gould, and Naydenov and Dr. Montgomery are independent under the NASDAQ Rules in that each is not, and has not been, an executive officer or employee and does not otherwise have a relationship which, in the opinion of the Board, would interfere with his exercise of independent judgment in carrying out the responsibilities of a director.

The Company is not a "listed issuer" as that term is used in Regulation S-K Item 407 adopted by the Securities and Exchange Commission (the "SEC").

Audit Committee

The Audit Committee Charter was adopted by the Board and became effective on November 2, 2011. The primary role of the Audit Committee is to oversee the financial reporting and disclosure process. The Audit Committee is responsible for overseeing the work done by the Company's independent auditors and reviewing and discussing with management and the independent auditors the adequacy and effectiveness of the Company's financial reporting process, the annual audited financial statements, and the results of the annual audit. The Audit Committee is also responsible for reviewing and approving in advance all contemplated related-party transactions such as those described under "Related Person Transactions" below. The Audit Committee held six meetings during fiscal 2016 to review the Company's financial statements with the auditors following the end of each fiscal quarter prior to their inclusion in reports filed with the SEC.

The Audit Committee is presently composed of Mr. Gould (chair), Mr. Caracciolo and Dr. Montgomery. Mr. Gould is a "financial expert" as defined in Regulation S-K Item 407(d)(5)(ii) adopted by the SEC. During fiscal 2016, Mr. Caracciolo, Mr. Gould and Dr. Montgomery also met the additional independence and experience requirements of

the SEC applicable specifically to members of the Audit Committee.

Compensation Committee

The Compensation Committee Charter was adopted by the Board in October 2012 and was updated on May 29, 2014. The Compensation Committee reviews and approves the Company's overall compensation philosophy and determines base salaries and other forms of compensation to be paid to executive officers, including decisions as to cash incentive compensation, grants of options and other stock-based awards. The Compensation Committee is also responsible for making recommendations to the Board with respect to new compensation plans, including incentive compensation plans and equity-based plans. The Compensation Committee held seven meetings during fiscal 2016. During fiscal 2016, the members of the Compensation Committee were Messrs. Caracciolo (chair), Dockery, Gould, and Naydenov.

Nominating and Governance Committee

The Company's Nominating and Governance Committee Charter was adopted by the Board on October 26, 2012. The Nominating and Governance Committee identifies individuals qualified to become members of the Board, makes recommendations to the Board with regard to the size and composition of the Board and committees thereof, and evaluates the Board and its members. The Nominating and Governance Committee also assists the Board in developing succession and continuity plans for principal officer positions. The Nominating and Governance Committee held two meetings during fiscal 2016. During fiscal 2016, the members of the Nominating and Governance Committee were Messrs. Dockery (chair), Caracciolo, Gould, and Naydenov and Dr. Montgomery.

The Nominating and Governance Committee does not have any specific, minimum qualifications for director candidates. In evaluating potential director nominees, the committee will consider:

Demonstration of ethical behavior;

Positions of leadership that demonstrate the ability to exercise sound judgment in a wide variety of matters;

The candidate's ability to commit sufficient time to the position;

The candidate's understanding of the Company's business and operations; and

The need to satisfy independence requirements relating to Board composition.

The Nominating and Governance Committee relies on its annual evaluations of the Board in determining whether to recommend nomination of current directors for re-election. The Nominating and Governance Committee has not hired a third-party search firm to date, but has the authority to do so if it deems such action to be appropriate. It does not have a policy in place for considering diversity in identifying nominees for director.

PROPOSAL 2

PROPOSAL TO INCREASE THE COMPANY'S AUTHORIZED CAPITAL TO 350,000,000 SHARES OF COMMON STOCK

The Board believes it is in the best interest of the Company to increase the number of shares of Common Stock authorized for issuance by 100,000,000 shares of Common Stock, bringing the total number of shares of Common Stock authorized to 350,000,000 shares. These shares do not offer any preemptive rights. The text of the proposed amendment to the Certificate of Incorporation is attached hereto as Exhibit A. This proposal to increase the number of shares of Common Stock authorized for issuance, if approved at the Annual Meeting, will become effective and the Company's number of shares of authorized Common Stock will be increased to 350,000,000 shares upon the filing of the certificate of amendment with the Secretary of State of Delaware. The following discussion is qualified in its entirety by the full text of the certificate of amendment, which is incorporated herein by reference.

Reasons for the Increase

The Board believes that it is desirable to have additional authorized shares of Common Stock available for possible future financings, acquisition transactions, joint ventures and other general corporate purposes. The Board believes that having such additional authorized shares of Common Stock available for issuance in the future will give the Company greater flexibility and may allow such shares to be issued without the expense and delay of a special stockholders' meeting unless such approval is expressly required by applicable law. Although such issuance of additional shares with respect to future financings and acquisitions would dilute existing stockholders, management believes that such transactions would increase the overall value of the Company to its stockholders. There are certain advantages and disadvantages of an increase in authorized Common Stock. The advantages include:

The ability to raise capital by issuing capital stock under the type of transactions described above, or other financing transactions.

To have shares of Common Stock available to pursue business expansion opportunities, if any.
The disadvantages include:

The issuance of authorized but unissued stock could be used to deter a potential takeover of the Company that may otherwise be beneficial to stockholders by diluting the shares held by a potential suitor or issuing shares to a stockholder that will vote in accordance with the Board's desires. A takeover may be beneficial to independent stockholders because, among other reasons, a potential suitor may offer such stockholders a premium for their shares of stock compared to the then-existing market price. The Company does not have any plans or proposals to adopt provisions or enter into agreements that may have material anti-takeover consequences.

Stockholders do not have any preemptive or similar rights to subscribe for or purchase any additional shares of Common Stock that may be issued in the future, and therefore, future issuances of Common Stock may, depending on the circumstances, have a dilutive effect on the earnings per share, voting power and other interests of existing stockholders of the Company.

The additional shares of Common Stock for which authorization is sought in this proposal would be part of the existing class of Common Stock and, if and when issued, would have the same rights and privileges as the shares of Common Stock presently outstanding.

The Company intends to use the proceeds from any future capital raises for general corporate purposes. However, the Company has no arrangements, agreements, or understandings in place at the present time for the issuance or use of the additional shares of Common Stock to be authorized by the proposed Certificate Amendment. The Board does not intend to issue any Common Stock or securities convertible into Common Stock except on terms that the Board deems to be in the best interests of the Company and its stockholders.

Although an increase in the authorized shares of Common Stock could, under certain circumstances, have an anti-takeover effect, this proposal to adopt the amendment is not in response to any effort of which the Company is aware to accumulate Common Stock or obtain control of the Company. Nor is it part of a plan by management to recommend a series of similar amendments to the Board and stockholders.

If the Company's stockholders do not approve the increase in authorized shares of Common Stock, then the Company will not be able to increase the total number of authorized shares of Common Stock from 250,000,000 to 350,000,000, and therefore, the Company will be limited in its ability to use shares of Common Stock for financing, acquisitions or other general corporate purposes. As of June 30, 2016, the Company only had 59,185,163 shares of Common Stock authorized and unreserved for issuance, which would be available for such purposes.

Concurrent Approval of Reverse Stock Split

Concurrently with the approval of the increase in authorized shares of Common Stock, the Company's stockholders are also being asked to approve a reverse stock split at a ratio of any whole number between one-for-two and one-for-eight, as determined by the Board, and an amendment to the Company's Certificate of Incorporation to implement the reverse stock split at any time before August 24, 2017, if and as determined by the Board (see Proposal 3).

If effectuated, a reverse stock split would reduce, on a proportionate basis for each stockholder, the aggregate number of shares of Common Stock outstanding without reducing the total number of shares of Common Stock authorized for issuance, whether or not such number remains at 250,000,000 or is increased to 350,000,000 by this proposal. As a result, if a reverse stock split were effectuated, the Company would have additional authorized shares available for future issuance without stockholder approval. Any such future issuance of Common Stock could, depending on the circumstances, be used to deter a potential takeover or have a further dilutive effect on the earnings per share, voting power and other interests of existing stockholders.

The current proposal to increase the number of authorized shares of Common Stock to 350,000,000 has no bearing on the Board's ability to effect a reverse stock split, if concurrently authorized by stockholders pursuant to Proposal 3 below. The Board's determination as to whether to effect a reverse stock split and, if so, at what ratio, would be based on the same factors reported in Proposal 3 below.

Approval Required

Pursuant to the Delaware General Corporation Law, this proposal must be approved by the affirmative vote of a majority of the outstanding shares of Common Stock of the Company entitled to vote on the proposal. Abstentions and broker non-votes with respect to this proposal will be counted for purposes of establishing a quorum and, if a quorum is present, will have the same practical effect as a vote against this proposal.

The Board recommends that the stockholders vote FOR the proposal to increase in the Company's authorized capital to 350,000,000 shares of Common Stock.

PROPOSAL 3

APPROVAL OF A REVERSE STOCK SPLIT

General

The Board has adopted a resolution approving and recommending to the Company's stockholders for their approval a proposal to amend its certificate of incorporation to effect a reverse split of outstanding shares of Common Stock within the ranges described below, with the exact reverse split ratio to be decided and publicly announced by the Board prior to the effective time of the amendment to the Company's Certificate of Incorporation. If the stockholders approve this Proposal 3, the Board will have the authority to decide, at any time prior August 24, 2017, whether to implement the reverse stock split and the precise ratio of the reverse stock split within the ranges described below.

The Board is asking stockholders to approve a reverse split of the Company's Common Stock and grant to the Board the authority to set the ratio for the reverse split at either one-for-two, one-for-three, one-for-four, one-for-five, one-for-six, one-for-seven or one-for-eight (the Reverse Stock Split), or not to complete the Reverse Stock Split, as determined in the discretion of the Board at any time before August 24, 2017. If the proposal is approved by stockholders, the Board will have authority to effect the Reverse Stock Split if and at such time as it determines to be appropriate. The principal effect of the Reverse Stock Split would be to decrease the outstanding number of shares of Common Stock, while maintaining the authorized number of shares at its current level.

Pursuant to a proposal that was previously approved by the Company's stockholders at the 2015 annual meeting, the Board currently has the authority to complete a reverse stock split at the same range of ratios as would be applicable for the Reverse Stock Split under this proposal. However, the authority previously granted to the Board is scheduled to expire on August 27, 2016. By this proposal, therefore, the Board is effectively requesting an extension of its previously granted authority, to complete the Reverse Stock Split through August 24, 2017.

The Board is asking that stockholders approve a range of exchange ratios for the Reverse Stock Split because it is not possible at this time to predict market conditions at the time the split would be implemented. If stockholders approve the proposal for the Reverse Stock Split at the Annual Meeting, the Board will be authorized to implement a reverse stock split at a ratio of any whole number between one-for-two and one-for-eight, or to abandon the split, as determined at the discretion of the Board. The Board will set the ratio for the Reverse Stock Split or abandon the Reverse Stock Split as it determines is advisable considering relevant market conditions at the time the reverse split is to be implemented or abandoned.

To implement the Reverse Stock Split, the Company would, at a meeting of the Board or by written consent in lieu of a meeting, resolve to effect the Reverse Stock Split, and the number of issued and outstanding shares of Common Stock would thereby be reduced by a ratio of one share for every two, three, four, five, six, seven or eight shares outstanding, depending on the ratio chosen by the Board. If the Board decides to implement the reverse stock split, the reverse stock split will become effective upon the filing of an amendment to the Company's Certificate of Incorporation with the Secretary of State of the State of Delaware. The form of the certificate of amendment to accomplish the reverse stock split is attached to this proxy statement as **Exhibit B**. The following discussion is qualified in its entirety by the full text of the certificate of amendment, which is incorporated herein by reference.

Purpose

The Board is proposing the Reverse Stock Split in an effort to decrease the number of shares of Common Stock outstanding and increase the market price of its shares, in anticipation of a potential listing of the Common Stock on a national securities exchange. The Board is also seeking to reduce certain administrative burdens and costs relating to the large number of shares that are currently issued and outstanding.

The primary reason for seeking to effect the Reverse Stock Split is that the Reverse Stock Split could better enable the Company to move toward an eventual listing of our stock on the NYSE MKT, the Nasdaq Capital Market or another national securities exchange. The Company's Common Stock is currently quoted on the OTCQB market. Alternative markets like the OTCQB market are generally considered to be less efficient and not as widely followed as other national securities exchanges, and the Board believes listing on a national securities exchange will help support and maintain stock liquidity and company recognition for its stockholders. The Board believes that the Reverse Stock Split will enhance the Company's ability to obtain an initial listing on such a national securities exchange. The NYSE MKT requires, among other items, an initial bid price of at least \$2.00 per share. The NASDAQ Capital Market requires, among other items, an initial bid price of at least \$4.00 per share and, following initial listing, maintenance of a continued price of at least \$1.00 per share. As of June 30, 2016, the closing stock price of Common Stock was \$1.06 per share, and the 52-week high price was \$1.57. Reducing the number of outstanding shares of the Common Stock should, absent other factors, increase the per share market price of the Common Stock, helping the Company move toward satisfying the minimum bid price listing standards of such national securities exchanges; although the Company cannot provide any assurance that the minimum bid price would continue to be achieved following any Reverse Stock Split.

The SEC has rules governing penny stock that impose additional burdens on broker-dealers trading in stock priced at or below \$5.00 per share, unless listed on certain securities exchanges. These rules require that any broker-dealer who recommends our securities to persons other than prior customers and accredited investors must, prior to the sale, make a special written suitability determination for the purchaser and receive the purchaser's written agreement to execute the transaction. Unless an exception is available, the regulations require the delivery, prior to any transaction involving a penny stock, of a disclosure schedule explaining the penny stock market and the risks associated with trading in the penny stock market. In addition, broker-dealers must disclose commissions payable to both the broker-dealer and the registered representative and current quotations for the securities they offer. The additional burdens imposed upon broker-dealers by such requirements may discourage broker-dealers from effecting transactions in our securities, which could be limiting the market price and liquidity of the Common Stock.

In addition, certain brokerage firms have internal practices and policies that discourage individual brokers from dealing in stocks trading below a particular dollar level. Further, since the brokerage commissions on stock with a low trading price generally represent a higher percentage of the stock price than commissions on higher priced stock, investors in stocks with a low trading price pay transaction costs (commissions, markups, or markdowns) at a higher percentage of their total share value, which may limit the willingness of individual investors and institutions to purchase Common Stock. The Board also believes that certain institutional investors, such as mutual funds or pension plans, have policies or procedures that discourage or prohibit acquisitions of shares priced at less than \$5.00 per share, making shares of Common Stock less attractive. Each of these factors could weaken the market for the Company's Common Stock.

Reducing the number of outstanding shares of Common Stock through the Reverse Stock Split is intended, absent other factors, to increase the per share market price of Common Stock. However, other factors, such as financial results and market conditions, may adversely affect the market price of Common Stock. As a result, there can be no assurance that the Reverse Stock Split, if completed, will result in the intended benefits described above, that the market price of Common Stock will increase proportionately following the Reverse Stock Split, or that the market price of Common Stock will not decrease in the future. Accordingly, the total market capitalization of Common Stock after the Reverse Stock Split may be lower than the total market capitalization before the Reverse Stock Split. Additionally, if implemented, the Reverse Stock Split may result in some stockholders owning odd-lots of less than 100 shares of Common Stock, particularly as the ratio for the Reverse Stock Split increases. Brokerage commissions and other costs of transactions in odd-lots may be higher, particularly on a per-share basis, than the cost of transactions in even multiples of 100 shares.

The Board will not decrease the authorized Common Stock in connection with the Reverse Stock Split, which will result in a significant increase in the availability of authorized shares of Common Stock. Any additional Common Stock so authorized will be available for issuance by the Board for stock splits or stock

dividends, acquisitions, raising additional capital, conversion of debt into equity, exercise of stock options or other corporate purposes, and any such issuances may be dilutive to current stockholders.

Other than as disclosed in this proxy statement, the Company has no other specific plans, arrangements or understandings regarding the issuance of shares of Common Stock that may become available for issuance as a result of implementation of the Reverse Stock Split if Proposal 3 is approved by the Company's stockholders at the Annual Meeting.

Effects of the Reverse Stock Split

To implement the Reverse Stock Split, the Company would, at a meeting of the Board or by written consent in lieu of a meeting, resolve to effect the Reverse Stock Split. Upon such resolution and without further action on the part of the Company's stockholders, the shares of Common Stock held by stockholders of record as of the effective time of such resolution would be converted into the number of shares of Common Stock (the New Common Stock) calculated based on the reverse split ratio determined and approved by the Board pursuant to such resolution. The Company will issue cash in lieu of any fractional shares left after the Reverse Stock Split has been effected.

For example, if a stockholder presently holds 100 shares of Common Stock, he or she would hold 50 shares following a one-for-two split, 33 shares following a one-for-three split, 25 shares following a one-for-four split, 20 shares following a one-for-five split, 16 shares following a one-for-six split, 14 shares following a one-for-seven split, or 12 shares following a one-for-eight split. No fractional shares or script would be issued. Each stockholder who would otherwise be entitled to a fraction of a share would receive a cash payment for such share based on the average closing price of a share of Common Stock on the OTCQB of the OTC Markets marketplace or other securities trading market on which it is traded for the five trading days immediately preceding the effective date of the Reverse Stock Split.

The following table contains approximate information relating to the Company's Common Stock if (i) the Reverse Stock Split is implemented at a ratio of (i) one-for-two, (ii) one-for-five and (iii) one-for-eight, in each case based on share information as of close of business on June 30, 2016, excluding the potential effects of any increase in the authorized shares of Common Stock from 250,000,000 to 350,000,000 pursuant to Proposal 2 above:

	Shares Issued and Outstanding(1)	Shares Authorized and Reserved for Issuance(1)(2)	Shares Authorized and Unreserved for Issuance(1)	Total Authorized(1)
As of June 30, 2016	124,534,105	66,280,732	59,185,163	250,000,000
1-for-2 Reverse Split	62,267,052	33,140,366	154,592,582	250,000,000
1-for-5 Reverse Split	24,906,821	13,256,146	211,837,033	250,000,000
1-for-8 Reverse Split	15,566,763	8,285,091	226,148,146	250,000,000

- (1) These estimates do not reflect the potential effects of (i) any increase in the authorized shares of Common Stock from 250,000,000 to 350,000,000, pursuant to Proposal 2 above or (ii) rounding down for fractional shares that may result from the reverse stock split.
- (2) Includes (i) 55,775,496 shares issuable upon the exercise of outstanding warrants at a weighted average exercise price of \$0.80, as of June 30, 2016; (ii) 8,495,158 shares issuable upon the exercise of outstanding options under the 2004 Stock Incentive Plan and under the 2012 Equity Incentive Plan, at a weighted average exercise price of \$1.10, as of June 30, 2016; (iii) 750,930 shares reserved for future issuance under the 2012 Equity Incentive Plan; and (iv) 1,259,148 shares reserved for future issuance upon the conversion of 95,100 shares outstanding of Series

B Convertible Preferred Stock, with a conversion ratio of one share of Series B for 10 shares of Common Stock, plus undeclared dividends thereon in the form of Common Stock. Does not include any shares issued in private transactions and currently outstanding, or any shares of common stock issuable upon the exercise of warrants issued in private transactions, since June 30, 2016.

All outstanding stock options, warrants and convertible securities will be adjusted to reduce the number of shares to be issued upon exercise or conversion of such options, warrants or convertible securities, and increase the exercise or conversion price thereof, proportionately. Accordingly, following the Reverse Stock Split, the outstanding Series B Convertible Preferred Stock will be convertible into a proportionately fewer number of shares of Common Stock. Also, the Company has a total of 7,000,000 shares authorized for issuance under its 2012 Equity Incentive Plan (the Plan), of which 750,930 shares remain available for future awards. When the

reverse split becomes effective, the number of shares reserved for issuance under the Plan will be proportionately decreased as well.

As of June 30, 2016, there were approximately 570 holders of record of Common Stock (although there are significantly more beneficial holders). The Company does not expect the Reverse Stock Split to result in a significant reduction in the number of record holders.

Board Discretion to Implement the Reverse Stock Split

If this proposal is approved by the stockholders, the Reverse Stock Split will be effected, if at all, only upon a determination by the Board that a reverse stock split (at a ratio determined by the Board as described above) is in the best interests of the Company and its stockholders. The Board's determination as to whether the Reverse Stock Split will be effected and, if so, at what ratio, will be based upon certain factors, including existing and expected marketability and liquidity of the Company's Common Stock, prevailing market conditions, and the likely effect on the market price of the Common Stock. If the Board determines to effect the Reverse Stock Split, the Board will consider various factors in selecting the ratio, including the overall market conditions at the time, the effect of a particular ratio on the market for the Company's Common Stock, the Company's ability to obtain an initial listing on a national securities exchange and the recent trading history of the Common Stock.

Exchange of Stock Certificates; Fractional Shares

As soon as practicable after the effective time of the Reverse Stock Split, the Company, or its transfer agent, will send a letter to each stockholder of record for use in transmitting certificates representing shares of Common Stock (Old Certificates) to the Company's transfer agent, Computershare (the Exchange Agent). The letter of transmittal will contain instructions for the surrender of Old Certificates to the Exchange Agent in exchange for certificates representing the appropriate number of whole shares of New Common Stock and a cash payment in lieu of any fractional share. No new certificates will be issued to a stockholder until such Old Certificates are surrendered, together with a properly completed and executed letter of transmittal, to the Exchange Agent.

Stockholders will then receive a new certificate or certificates representing the number of whole shares of New Common Stock into which their shares of Common Stock have been converted as a result of the Reverse Stock Split. Until surrendered, outstanding stock certificates held by stockholders will be deemed for all purposes to represent the number of whole shares of New Common Stock to which such stockholders are entitled as a result of the Reverse Stock Split. Stockholders should not send their Old Certificates to the Exchange Agent until they have received the letter of transmittal. All expenses of the exchange of certificates will be borne by the Company.

The Company intends to treat shares held by stockholders in street name, through a bank, broker or other nominee, in the same manner as stockholders whose shares are registered in their names. Banks, brokers or other nominees will be instructed to effect the Reverse Stock Split for their beneficial or street name holders. However, these banks, brokers or other nominees may have different procedures for processing the Reverse Stock Split and making payment for fractional shares. Stockholders holding shares of Common Stock with a bank, broker or other nominee should contact their bank, broker or other nominee with any questions in this regard.

No Appraisal Rights

Under the Delaware General Corporation Law, stockholders are not entitled to dissenters' rights with respect to the proposed amendment to the Company's Certificate of Incorporation to effect the Reverse Stock Split, and the Company will not independently provide stockholders with any such right.

No Going Private Transaction

Notwithstanding the change in the number of outstanding shares following the Reverse Stock Split, the Board does not intend for this transaction to be the first step in a series of plans or proposals of a going private transaction within the meaning of Rule 13e-3 of the Exchange Act.

Interests of Certain Persons in the Proposal

Certain of the Company's officers and directors have an interest in Proposal No. 3 as a result of their ownership of shares of Common Stock. However, we do not believe that such officers or directors have interests in Proposal No. 3 that are different from or greater than those of any other stockholders.

Certain U.S. Federal Income Tax Consequences of the Reverse Stock Split

The following discussion is a general summary of material U.S. federal income tax consequences of the Reverse Stock Split that may be relevant to U.S. Holders (as defined below) of Common Stock, but does not purport to be a complete analysis of all potential tax effects. The effects of other U.S. federal tax laws, such as estate and gift tax laws, and any applicable state, local or non-U.S. tax laws are not discussed. This discussion is based on currently existing provisions of the Internal Revenue Code of 1986, as amended (the "Code"), its legislative history, existing and proposed federal income tax regulations, judicial decisions, and published rulings and administrative pronouncements of the U.S. Internal Revenue Service (the "IRS"), in each case in effect as of the date hereof. These authorities may change or be subject to differing interpretations. Any such change or differing interpretation may be applied retroactively in a manner that could adversely affect a holder of Common Stock. The Company has not sought and will not seek an opinion of counsel or any rulings from the IRS regarding the matters discussed below. There can be no assurance the IRS or a court will not take a contrary position to that discussed below regarding the tax consequences of the Reverse Stock Split.

This discussion is limited to holders that hold Common Stock as "capital assets" within the meaning of Section 1221 of the Code (generally, property held for investment). This discussion does not address all U.S. federal income tax consequences that may be applicable to holders in light of their particular circumstances or to holders subject to special treatment under U.S. federal income tax law, including, without limitation:

persons that are not U.S. Holders (as defined below);

persons subject to the alternative minimum tax;

U.S. Holders (as defined below) whose functional currency is not the U.S. dollar;

persons holding Common Stock as part of a hedge, straddle or other risk reduction strategy or as part of a conversion transaction or other integrated investment;

banks, insurance companies, and other financial institutions;

real estate investment trusts or regulated investment companies;

brokers, dealers or traders in securities;

corporations that accumulate earnings to avoid U.S. federal income tax;

S corporations, partnerships or other entities or arrangements treated as partnerships for U.S. federal income tax purposes (and investors therein);

tax-exempt organizations or governmental organizations;

persons deemed to sell Common Stock under the constructive sale provisions of the Code;

persons who hold or receive Common Stock pursuant to the exercise of any employee stock option or otherwise as compensation; and

tax-qualified retirement plans.

THIS DISCUSSION IS PROVIDED FOR GENERAL INFORMATION ONLY AND DOES NOT CONSTITUTE LEGAL ADVICE TO ANY HOLDER. HOLDERS OF COMMON STOCK ARE STRONGLY URGED TO CONSULT ITS OWN TAX ADVISORS CONCERNING THE U.S. FEDERAL INCOME TAX CONSEQUENCES RELATING TO THE REVERSE STOCK SPLIT IN LIGHT OF ITS

PARTICULAR CIRCUMSTANCES AND ANY CONSEQUENCES ARISING UNDER STATE, LOCAL, OR FOREIGN INCOME OR OTHER TAX LAW.

For purposes of this discussion, a U.S. Holder is a beneficial owner of shares of Common Stock that for U.S. federal income tax purposes is or is treated as: (1) an individual who is a citizen or resident of the United States; (2) a corporation (or other entity taxable as a corporation) created or organized under the laws of the United States, any state thereof, or the District of Columbia; (3) an estate the income of which is subject to U.S. federal income tax regardless of its source; or (4) a trust that (a) is subject to the primary supervision of a U.S. court and the control of one or more United States persons (within the meaning of Section 7701(a)(30) of the Code), or (b) has a valid election in effect under applicable Treasury Regulations to be treated as a United States person.

The Reverse Stock Split should constitute a recapitalization for U.S. federal income tax purposes. As a result, a U.S. Holder generally should not recognize gain or loss upon the Reverse Stock Split, except with respect to cash received in lieu of a fractional share of Common Stock, as discussed below. A U.S. Holder's aggregate tax basis in the shares of Common Stock received pursuant to the Reverse Stock Split should equal the aggregate tax basis of the shares of Common Stock surrendered and such U.S. Holder's holding period in the shares of Common Stock received should include the holding period in the shares of Common Stock surrendered. Treasury Regulations provide detailed rules for allocating the tax basis and holding period of the shares of Common Stock surrendered to the shares of Common Stock received pursuant to the Reverse Stock Split. Holders of shares of Common Stock acquired on different dates and at different prices should consult their tax advisors regarding the allocation of the tax basis and holding period of such shares.

In general, a U.S. Holder that receives cash in lieu of a fractional share of Common Stock pursuant to the Reverse Stock Split will recognize gain or loss based upon the difference between the amount of cash received and the U.S. Holder's adjusted tax basis in the shares of Common Stock surrendered that is allocated to such fractional share as set forth above, as if such fractional shares were distributed as part of the Reverse Stock Split and then redeemed, subject to the provisions and limitations of section 302 of the Code (including, without limitation, certain attribution rules that could result in the cash payment being treated as a dividend). The gain or loss will constitute a capital gain or loss and will constitute long-term capital gain or loss if the U.S. Holder's holding period is greater than one year as of the effective time of the Reverse Stock Split.

Information Reporting and Backup Withholding

Information reporting and backup withholding (at a rate of 28%) may apply to holders who receive cash in lieu of a fractional share of Common Stock pursuant to the Reverse Stock Split. Backup withholding generally will not apply to (1) a U.S. Holder that furnishes a correct taxpayer identification number and certifies that such holder is not subject to backup withholding on IRS Form W-9 or (2) any holder that otherwise establishes an exemption from backup withholding. Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be refunded or allowed as a credit against the U.S. Holder's federal income tax liability, if any, provided the required information is timely furnished to the IRS. U.S. Holders should consult their tax advisors regarding their qualification for an exemption from backup withholding and the procedures for obtaining such an exemption Approval Required.

Pursuant to the Delaware General Corporation Law, this proposal must be approved by the affirmative vote of a majority of the outstanding shares of Common Stock of the Company entitled to vote on the proposal. Abstentions and broker non-votes with respect to this proposal will be counted for purposes of establishing a quorum and, if a quorum is present, will have the same practical effect as a vote against this proposal.

The Board recommends that stockholders vote FOR the proposal to approve the Reverse Stock Split at a ratio of any whole number between one-for-two and one-for-eight, as determined by the Board, at any time before

August 24, 2017, if and as determined by the Board.

PROPOSAL 4

RATIFICATION OF SELECTION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee has selected Warren Averett, LLC as the Company's independent registered public accounting firm to examine the financial statements of the Company for the fiscal year ending May 31, 2017. Although the selection of independent auditors is not required to be submitted to a stockholder vote by the Company's governance documents or applicable law, the Board has decided to ask the stockholders to ratify the selection. If the stockholders do not approve the selection of Warren Averett, the Audit Committee will reconsider its selection.

Provided that a quorum is present, this proposal will be approved if the number of shares voted in favor of the proposal exceeds the number of shares voted against. Shares that are not represented at the Annual Meeting, shares that abstain from voting on this proposal, and broker non-votes will have no effect on the outcome of the voting on this proposal.

The Board recommends that stockholders vote FOR ratification of the selection of Warren Averett, LLC as the Company's independent registered public accounting firm for fiscal 2017.

PROPOSAL 5

ADVISORY VOTE ON EXECUTIVE COMPENSATION

The Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the Dodd-Frank Act) included a provision that requires public companies to hold an advisory stockholder vote to approve or disapprove the compensation of their named executive officers. The Dodd-Frank Act also included a provision providing stockholders of a public company the opportunity to vote, on an advisory basis, on how frequently they would like the company to hold an advisory vote on the compensation of executive officers. At the 2013 annual meeting, the Company s stockholders approved the Board s recommendation that an advisory vote on executive compensation be conducted annually. Accordingly, the Company is conducting an advisory vote to approve the compensation of the Company s executive officers again this year.

A detailed description of the compensation paid to executive officers is included in this proxy statement under the heading Executive Compensation in accordance with the SEC s rules.

The Company s philosophy is that executive compensation should align with stockholders interests, without encouraging excessive and unnecessary risk. During fiscal 2016, the main components of executive compensation, as shown in the Summary Compensation Table in this proxy statement, included (i) base salary, (ii) bonus based on the Compensation Committee s assessment of each executive officer s performance in achieving corporate and individual goals, and (iii) employee stock options. This vote is intended to consider the overall compensation of executive officers and the policies and practices described in this proxy statement.

This vote is advisory and therefore not binding on the Company, the Compensation Committee, or the Board. The Board and the Compensation Committee value the opinions of stockholders and will take into account the outcome of the vote when considering future executive compensation arrangements.

The Board unanimously recommends that you vote, on an advisory basis, **FOR** the following resolution:

RESOLVED, that the compensation paid to named executive officers, as disclosed in this proxy statement pursuant to Item 402 of Regulation S-K adopted by the SEC, including the executive compensation tables and accompanying footnotes and narrative discussion, is hereby approved.

The above-referenced disclosures appear under the heading Executive Compensation in this proxy statement.

Provided that a quorum is present, this proposal will be approved if the number of shares voted in favor of the proposal exceeds the number of shares voted against. Shares that are not represented at the Annual Meeting, shares that abstain from voting on this proposal, and broker non-votes will have no effect on the outcome of the voting on this proposal.
