(a) Returns represent past performance and do not guarantee future results. Investment returns and the principal value of an investment will fluctuate. When shares are sold, they may be worth more or less than their original cost. Current performance may be lower or higher than the performance data presented. Visit www.gabelli.com for performance information as of the most recent month end. Performance returns for periods of less than one year are not annualized. Investors should carefully consider the investment objectives, risks, charges, and expenses of the Fund before investing. The Standard & Poor 's 500 and MSCI World Indices are unmanaged indicators of stock market performance. Dividends are considered reinvested except for the MSCI World Index. You cannot invest directly in an index.

(b) Total returns and average annual returns reflect changes in the NAV per share, reinvestment of distributions at NAV on the ex-dividend date, and adjustments for rights offerings and are net of expenses. Since inception return is based on an initial NAV of \$7.50.

(c) Total returns and average annual returns reflect changes in closing market values on the NYSE, reinvestment of distributions, and adjustments for rights offerings. Since inception return is based on an initial offering price of

\$7.50.

(d) From November 30, 1994, the date closest to the Fund's inception for which data are available.

For the six months ended June 30, 2017, and the years ended December 31, 2016, 2015, 2014, and 2013 based on net asset value per share, adjusted for reinvestment of distributions of net asset value on the ex-dividend date. The

year ended 2012, was based on net asset value per share, adjusted for reinvestment of distributions at prices determined under the Fund's dividend reinvestment plan including the effect of shares issued pursuant to the 2014 rights offering, assuming full subscription by shareholders.

Based on market value per share, adjusted for reinvestment of distributions at prices determined under the Fund's dividend reinvestment plan including the effect of shares issued pursuant to the 2014 rights offering, assuming full subscription by shareholders.

* Based on year to date book income. Amounts are subject to change and recharacterization at year end.

(a) Calculated based on average common shares outstanding on the record dates throughout the periods.

(b) Amount represents less than \$0.005 per share.

(c) Annualized.

(d) The Fund received credits from a designated broker who agreed to pay certain Fund operating expenses. For the six months ended June 30, 2017 and the years ended December 31, 2016 and 2015, there was no impact on the expense ratios.

(e) During the year ended December 31, 2016, the fund received a one time reimbursement of custody expenses paid in prior years. Had such reimbursement been included in this period, the annualized expense ratios would have been 1.32% attributable to common shares before fees waived, 1.32% attributable to common shares net of advisory fee reduction, 1.13% including liquidation value of preferred shares before fees waived, and 1.13% including liquidation value of preferred shares net of advisory fee reduction.

(f) These ratios do not include a reduction for insurance recovery of \$300,000 and the prior period adjustment to legal expenses of \$227,762. Had these amounts been included, the ratios for the year ended December 31, 2012 would have been 1.47%.

(g) These ratios do not include a reduction for insurance recovery of \$300,000 and the prior period adjustment to legal expenses of \$227,762. Had these amounts been included, the ratios for the year ended December 31, 2012 would have been 1.18%.

(h) Based on weekly prices.

(i) Asset coverage per share is calculated by combining all series of preferred shares.

(j) Actual number of shares outstanding is 10.

(k) Since February 2008, the weekly auctions have failed. Holders that have submitted orders have not been able to sell any or all of their shares in the auction.

(l) Asset coverage is calculated by combining all series of preferred shares.

Notes to Financial Statements (Unaudited)

1. Organization. The Gabelli Multimedia Trust Inc. (the Fund) is a non-diversified closed-end management investment company organized as a Maryland corporation on March 31, 1994 and registered under the Investment Company Act of 1940, as amended (the 1940 Act). The Fund commenced investment operations on November 15, 1994.

The Fund's investment objective is long term growth of capital. The Fund will invest at least 80% of its assets, under normal market conditions, in common stock and other securities, including convertible securities, preferred stock, options, and warrants of companies in the telecommunications, media, publishing, and entertainment industries (the 80% Policy). The 80% Policy may be changed without shareholder approval. The Fund will provide shareholders with notice at least sixty days prior to the implementation of any change in the 80% Policy.

2. Significant Accounting Policies. As an investment company, the Fund follows the investment company accounting and reporting guidance, which is part of U.S. generally accepted accounting principles (GAAP) that may require the use of management estimates and assumptions in the preparation of its financial statements. Actual results could differ from those estimates. The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

Security Valuation. Portfolio securities listed or traded on a nationally recognized securities exchange or traded in the U.S. over-the-counter market for which market quotations are readily available are valued at the last quoted sale price or a market's official closing price as of the close of business on the day the securities are being valued. If there were no sales that day, the security is valued at the average of the closing bid and asked prices or, if there were no asked prices quoted on that day, then the security is valued at the closing bid price on that day. If no bid or asked prices are quoted on such day, the security is valued at the most recently available price or, if the Board of Directors (the Board) so determines, by such other method as the Board shall determine in good faith to reflect its fair market value. Portfolio securities traded on more than one national securities exchange or market are valued according to the broadest and most representative market, as determined by Gabelli Funds, LLC (the Adviser).

Portfolio securities primarily traded on a foreign market are generally valued at the preceding closing values of such securities on the relevant market, but may be fair valued pursuant to procedures established by the Board if market conditions change significantly after the close of the foreign market, but prior to the close of business on the day the securities are being valued. Debt obligations for which market quotations are readily available are valued at the average of the latest bid and asked prices. If there were no asked prices quoted on such day, the security is valued using the closing bid price, unless the Board determines such amount does not reflect the securities' fair value, in which case these securities will be fair valued as determined by the Board. Certain securities are valued principally using dealer quotations. Futures contracts are valued at the closing settlement price of the exchange or board of trade on which the applicable contract is traded. OTC futures and options on futures for which market quotations are readily available will be valued by quotations received from a pricing service or, if no quotations are available from a pricing service, by quotations obtained from one or more dealers in the instrument in question by the Adviser.

Securities and assets for which market quotations are not readily available are fair valued as determined by the Board. Fair valuation methodologies and procedures may include, but are not limited to: analysis and review of available financial and non-financial information about the company; comparisons with the valuation and changes in valuation

of similar securities, including a comparison of foreign securities with the equivalent U.S.

The Gabelli Multimedia Trust Inc.**Notes to Financial Statements (Unaudited) (Continued)**

dollar value American Depositary Receipt securities at the close of the U.S. exchange; and evaluation of any other information that could be indicative of the value of the security.

The inputs and valuation techniques used to measure fair value of the Fund's investments are summarized into three levels as described in the hierarchy below:

Level 1 quoted prices in active markets for identical securities;

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.); and

Level 3 significant unobservable inputs (including the Board's determinations as to the fair value of investments).

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input both individually and in the aggregate that is significant to the fair value measurement. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The summary of the Fund's investments in securities by inputs used to value the Fund's investments as of June 30, 2017 is as follows:

Additional Information to Evaluate Qualitative Information.

General. The Fund uses recognized industry pricing services approved by the Board and unaffiliated with the Adviser to value most of its securities, and uses broker quotes provided by market makers of securities

The Gabelli Multimedia Trust Inc.

Notes to Financial Statements (Unaudited) (Continued)

not valued by these and other recognized pricing sources. Several different pricing feeds are received to value domestic equity securities, international equity securities, preferred equity securities, and fixed income securities. The data within these feeds are ultimately sourced from major stock exchanges and trading systems where these securities trade. The prices supplied by external sources are checked by obtaining quotations or actual transaction prices from market participants. If a price obtained from the pricing source is deemed unreliable, prices will be sought from another pricing service or from a broker/dealer that trades that security or similar securities.

Fair Valuation. Fair valued securities may be common or preferred equities, warrants, options, rights, or fixed income obligations. Where appropriate, Level 3 securities are those for which market quotations are not available, such as securities not traded for several days, or for which current bids are not available, or which are restricted as to transfer. When fair valuing a security, factors to consider include recent prices of comparable securities that are publicly traded, reliable prices of securities not publicly traded, the use of valuation models, current analyst reports, valuing the income or cash flow of the issuer, or cost if the preceding factors do not apply. A significant change in the unobservable inputs could result in a lower or higher value in Level 3 securities. The circumstances of Level 3 securities are frequently monitored to determine if fair valuation measures continue to apply.

The Adviser reports quarterly to the Board the results of the application of fair valuation policies and procedures. These may include backtesting the prices realized in subsequent trades of these fair valued securities to fair values previously recognized.

Derivative Financial Instruments. The Fund may engage in various portfolio investment strategies by investing in derivative financial instruments for the purposes of increasing the income of the Fund, hedging against changes in the value of its portfolio securities and in the value of securities it intends to purchase, or hedging against a specific transaction with respect to either the currency in which the transaction is denominated or another currency. Investing in certain derivative financial instruments, including participation in the options, futures, or swap markets, entails certain execution, liquidity, hedging, tax, and securities, interest, credit, or currency market risks. Losses may arise if the Adviser's prediction of movements in the direction of the securities, foreign currency, and interest rate markets is inaccurate. Losses may also arise if the counterparty does not perform its duties under a contract, or, in the event of default, the Fund may be delayed in or prevented from obtaining payments or other contractual remedies owed to it under derivative contracts. The creditworthiness of the counterparties is closely monitored in order to minimize these risks. Participation in derivative transactions involves investment risks, transaction costs, and potential losses to which the Fund would not be subject absent the use of these strategies. The consequences of these risks, transaction costs, and losses may have a negative impact on the Fund's ability to pay distributions.

Collateral requirements differ by type of derivative. Collateral requirements are set by the broker or exchange clearing house for exchange traded derivatives, while collateral terms are contract specific for derivatives traded over-the-counter. Securities pledged to cover obligations of the Fund under derivative contracts are noted in the Schedule of Investments. Cash collateral, if any, pledged for the same purpose will be reported separately in the Statement of Assets and Liabilities.

The Fund's policy with respect to offsetting is that, absent an event of default by the counterparty or a termination of the agreement, the master agreement does not result in an offset of reported amounts of financial assets

The Gabelli Multimedia Trust Inc.

Notes to Financial Statements (Unaudited) (Continued)

and financial liabilities in the Statement of Assets and Liabilities across transactions between the Fund and the applicable counterparty. The enforceability of the right to offset may vary by jurisdiction.

The Fund's derivative contracts held at June 30, 2017, if any, are not accounted for as hedging instruments under GAAP and are disclosed in the Schedule of Investments together with the related counterparty.

Limitations on the Purchase and Sale of Futures Contracts, Certain Options, and Swaps. Subject to the guidelines of the Board, the Fund may engage in commodity interest transactions (generally, transactions in futures, certain options, certain currency transactions, and certain types of swaps) only for bona fide hedging or other permissible transactions in accordance with the rules and regulations of the Commodity Futures Trading Commission (CFTC). Pursuant to amendments by the CFTC to Rule 4.5 under the Commodity Exchange Act (CEA), the Adviser has filed a notice of exemption from registration as a commodity pool operator with respect to the Fund. The Fund and the Adviser are therefore not subject to registration or regulation as a commodity pool operator under the CEA. In addition, certain trading restrictions are now applicable to the Fund as of January 1, 2013. These trading restrictions permit the Fund to engage in commodity interest transactions that include (i) bona fide hedging transactions, as that term is defined and interpreted by the CFTC and its staff, without regard to the percentage of the Fund's assets committed to margin and options premiums and (ii) non-bona fide hedging transactions, provided that the Fund does not enter into such non-bona fide hedging transactions if, immediately thereafter, either (a) the sum of the amount of initial margin deposits on the Fund's existing futures positions or swaps positions and option or swaption premiums would exceed 5% of the market value of the Fund's liquidating value, after taking into account unrealized profits and unrealized losses on any such transactions, or (b) the aggregate net notional value of the Fund's commodity interest transactions would not exceed 100% of the market value of the Fund's liquidating value, after taking into account unrealized profits and unrealized losses on any such transactions. Therefore, in order to claim the Rule 4.5 exemption, the Fund is limited in its ability to invest in commodity futures, options, and certain types of swaps (including securities futures, broad based stock index futures, and financial futures contracts). As a result, in the future the Fund will be more limited in its ability to use these instruments than in the past, and these limitations may have a negative impact on the ability of the Adviser to manage the Fund, and on the Fund's performance.

Foreign Currency Translations. The books and records of the Fund are maintained in U.S. dollars. Foreign currencies, investments, and other assets and liabilities are translated into U.S. dollars at current exchange rates. Purchases and sales of investment securities, income, and expenses are translated at the exchange rate prevailing on the respective dates of such transactions. Unrealized gains and losses that result from changes in foreign exchange rates and/or changes in market prices of securities have been included in unrealized appreciation/depreciation on investments and foreign currency translations. Net realized foreign currency gains and losses resulting from changes in exchange rates include foreign currency gains and losses between trade date and settlement date on investment securities transactions, foreign currency transactions, and the difference between the amounts of interest and dividends recorded on the books of the Fund and the amounts actually received. The portion of foreign currency gains and losses related to fluctuation in exchange rates between the initial purchase trade date and subsequent sale trade date is included in realized gain/(loss) on investments.

Foreign Securities. The Fund may directly purchase securities of foreign issuers. Investing in securities of foreign issuers involves special risks not typically associated with investing in securities of U.S. issuers. The risks include possible revaluation of currencies, the inability to repatriate funds, less complete financial information

The Gabelli Multimedia Trust Inc.**Notes to Financial Statements (Unaudited) (Continued)**

about companies, and possible future adverse political and economic developments. Moreover, securities of many foreign issuers and their markets may be less liquid and their prices more volatile than securities of comparable U.S. issuers.

Foreign Taxes. The Fund may be subject to foreign taxes on income, gains on investments, or currency repatriation, a portion of which may be recoverable. The Fund will accrue such taxes and recoveries as applicable, based upon its current interpretation of tax rules and regulations that exist in the markets in which it invests.

Restricted Securities. The Fund may invest up to 15% of its net assets in securities for which the markets are restricted. Restricted securities include securities whose disposition is subject to substantial legal or contractual restrictions. The sale of restricted securities often requires more time and results in higher brokerage charges or dealer discounts and other selling expenses than the sale of securities eligible for trading on national securities exchanges or in the over-the-counter markets. Restricted securities may sell at a price lower than similar securities that are not subject to restrictions on resale. Securities freely saleable among qualified institutional investors under special rules adopted by the SEC may be treated as liquid if they satisfy liquidity standards established by the Board. The continued liquidity of such securities is not as well assured as that of publicly traded securities, and, accordingly, the Board will monitor their liquidity. At June 30, 2017, the Fund held no restricted securities.

Securities Transactions and Investment Income. Securities transactions are accounted for on the trade date with realized gain/(loss) on investments determined by using the identified cost method. Interest income (including amortization of premium and accretion of discount) is recorded on the accrual basis. Premiums and discounts on debt securities are amortized using the effective yield to maturity method. Dividend income is recorded on the ex-dividend date, except for certain dividends from foreign securities that are recorded as soon after the ex-dividend date as the Fund becomes aware of such dividends.

Distributions to Shareholders. Distributions to common shareholders are recorded on the ex-dividend date. Distributions to shareholders are based on income and capital gains as determined in accordance with federal income tax regulations, which may differ from income and capital gains as determined under GAAP. These differences are primarily due to differing treatments of income and gains on various investment securities and foreign currency transactions held by the Fund, timing differences, and differing characterizations of distributions made by the Fund. Distributions from net investment income for federal income tax purposes include net realized gains on foreign currency transactions. These book/tax differences are either temporary or permanent in nature. To the extent these differences are permanent, adjustments are made to the appropriate capital accounts in the period when the differences arise. These reclassifications have no impact on the NAV of the Fund.

Distributions to shareholders of the Fund's 6.00% Series B Cumulative Preferred Stock (Series B Preferred) and Series C Preferred (Series C Preferred), and, together with Series B Preferred, Preferred Stock) are accrued on a daily basis and are determined as described in Note 5.

Under the Fund's current distribution policy related to common shares, the Fund declares and pays quarterly distributions from net investment income, capital gains, and paid-in capital. The actual source of the distribution is determined after the end of the calendar year. Pursuant to this policy, distributions during the year may be made in

excess of required distributions. To the extent such distributions are made from current earnings and profits, they are considered ordinary income or long term capital gains. The Fund's current distribution policy may restrict the Fund's ability to payout all of its net realized long term capital gains as a Capital Gain Dividend.

The Gabelli Multimedia Trust Inc.**Notes to Financial Statements (Unaudited) (Continued)**

Distributions sourced from paid-in capital should not be considered the current yield or the total return from an investment in the Fund.

The tax character of distributions paid during the year ended December 31, 2016 was as follows:

	Common	Preferred
Distributions paid from:		
Ordinary income (inclusive of short term capital gains)	\$ 1,572,229	\$ 104,374
Long term capital gains	17,924,470	1,189,939
Return of capital	679,117	
Total distributions paid	\$ 20,175,816	\$ 1,294,313

Provision for Income Taxes. The Fund intends to continue to qualify as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended (the Code). It is the policy of the Fund to comply with the requirements of the Code applicable to regulated investment companies and to distribute substantially all of its net investment company taxable income and net capital gains. Therefore, no provision for federal income taxes is required.

As of December 31, 2016, the components of accumulated earnings/losses on a tax basis were as follows:

Net unrealized appreciation on investments and foreign currency translations	\$ 54,157,521
Other temporary differences*	(18,404)
Total	\$ 54,139,117

* Other temporary differences are primarily due to adjustments on preferred share class distribution payables. The following summarizes the tax cost of investments and the related net unrealized appreciation at June 30, 2017:

	Cost	Gross Unrealized Appreciation	Gross Unrealized Depreciation	Net Unrealized Appreciation
Investments	\$157,112,054	\$91,726,564	\$(6,812,778)	\$84,913,786

The Fund is required to evaluate tax positions taken or expected to be taken in the course of preparing the Fund's tax returns to determine whether the tax positions are more-likely-than-not of being sustained by the applicable tax authority. Income tax and related interest and penalties would be recognized by the Fund as tax expense in the Statement of Operations if the tax positions were deemed not to meet the more-likely-than-not threshold. For the six months ended June 30, 2017, the Fund did not incur any income tax, interest, or penalties. As of June 30, 2017, the Adviser has reviewed all open tax years and concluded that there was no impact to the Fund's net assets or results of operations. The Fund's federal and state tax returns for the prior three fiscal years remain open, subject to examination. On an ongoing basis, the Adviser will monitor the Fund's tax positions to determine if adjustments to this conclusion are necessary.

3. Investment Advisory Agreement and Other Transactions. The Fund has entered into an investment advisory agreement (the Advisory Agreement) with the Adviser which provides that the Fund will pay the Adviser a fee, computed weekly and paid monthly, equal on an annual basis to 1.00% of the value of the Fund's average weekly net assets including the liquidation value of preferred stock. In accordance with the Advisory Agreement, the Adviser provides a continuous investment program for the Fund's portfolio and oversees the administration of all aspects of the Fund's business and affairs.

The Gabelli Multimedia Trust Inc.

Notes to Financial Statements (Unaudited) (Continued)

The Adviser has agreed to reduce the management fee on the incremental assets attributable to the Preferred Stock if the total return of the NAV of the common shares of the Fund, including distributions and advisory fee subject to reduction, does not exceed the stated dividend rate on each particular series of the Preferred Stock for the year. For the six months ended June 30, 2017, the Fund's total return on the NAV of the common shares exceeded the stated dividend rates of the Preferred Stock. Thus, advisory fees with respect to the liquidation value of the Preferred Stock assets were accrued.

During the six months ended June 30, 2017, the Fund paid \$6,151 in brokerage commissions on security trades to G.research, LLC, an affiliate of the Adviser.

During the six months ended June 30, 2017, the Fund received credits from a designated broker who agreed to pay certain Fund operating expenses. The amount of such expenses paid through this directed brokerage arrangement during this period was \$1,253.

The cost of calculating the Fund's NAV per share is a Fund expense pursuant to the Advisory Agreement. During the six months ended June 30, 2017, the Fund paid or accrued \$22,500 to the Adviser in connection with the cost of computing the Fund's NAV.

As per the approval of the Board, the Fund compensates officers of the Fund, who are employed by the Fund and are not employed by the Adviser (although officers may receive incentive based variable compensation from affiliates of the Adviser). For the six months ended June 30, 2017 the Fund paid or accrued \$38,751 in payroll expenses in the Statement of Operations.

The Fund pays each Director who is not considered an affiliated person an annual retainer of \$6,000 plus \$500 for each Board meeting attended and each Director is reimbursed by the Fund for any out of pocket expenses incurred in attending meetings. All Board committee members receive \$1,000 per meeting attended. The Audit Committee Chairman receives an annual fee of \$3,000, the Nominating Committee Chairman and the Lead Director each receive an annual fee of \$2,000. A Director may receive a single meeting fee, allocated among the participating funds, for participation in certain meetings held on behalf of multiple funds. Directors who are directors or employees of the Adviser or an affiliated company receive no compensation or expense reimbursement from the Fund.

4. Portfolio Securities. Purchases and sales of securities during the six months ended June 30, 2017, other than short term securities and U.S. Government obligations, aggregated \$11,432,931 and \$14,962,404 respectively.

5. Capital. The charter permits the Fund to issue 196,750,000 shares of common stock (par value \$0.001). The Board has authorized the repurchase of up to 1,950,000 shares on the open market when the shares are trading at a discount of 5% or more (or such other percentage as the Board may determine from time to time) from the NAV of the shares. During the six months ended June 30, 2017, the Fund repurchased and retired 27,910 of its common shares at an investment of \$222,538 and an average discount of approximately 15.07% from its NAV. During the year ended December 31, 2016, the Fund did not repurchase any common stock in the open market.

The Fund's Articles of Incorporation authorize the issuance of up to 2,000,000 shares of \$0.001 par value Preferred Stock. The Preferred Stock is senior to the common stock and results in the financial leveraging of the common stock. Such leveraging tends to magnify both the risks and opportunities to common shareholders. Dividends on shares of the Preferred Stock are cumulative. The Fund is required by the 1940 Act and by the Articles Supplementary to meet certain asset coverage tests with respect to the Preferred Stock. If the Fund fails to meet these requirements and does not correct such failure, the Fund may be required to redeem, in part or in full, the Series B and Series C Preferred at redemption prices of \$25.00 and \$25,000, respectively, per share plus an amount equal to the accumulated and unpaid dividends whether or not declared on such shares in order to meet these requirements. Additionally, failure to meet the foregoing asset coverage requirements could restrict the Fund's ability to pay dividends to common shareholders and could lead to sales of portfolio securities at inopportune times. The income received on the Fund's assets may vary in a manner unrelated to the fixed and variable rates, which could have either a beneficial or detrimental impact on net investment income and gains available to common shareholders.

On June 17, 2014, the Fund distributed one transferable right for each of the 18,166,980 common shares outstanding on that date. Three rights were required to purchase one additional common share at the subscription price of \$9.00 per share. On July 25, 2014, the Fund issued 6,055,660 common shares receiving net proceeds of \$54,282,653, after the deduction of offering expenses of \$218,287. The NAV per share of the Fund was reduced by approximately \$0.44 per share on the day the additional shares were issued. The additional shares were issued below NAV.

The Fund has the authority to purchase its auction rate preferred shares through negotiated private transactions. The Fund is not obligated to purchase any dollar amount or number of auction rate preferred shares, and the timing and amount of any auction rate preferred shares purchased will depend on market conditions, share price, capital availability, and other factors. The Fund is not soliciting holders to sell these shares nor recommending that holders offer them to the Fund. Any offers can be accepted or rejected in the Fund's discretion.

For Series C Preferred Stock, the dividend rates, as set by the auction process that is generally held every seven days, are expected to vary with short term interest rates. Since February 2008, the number of shares of Series C Preferred Stock subject to bid orders by potential holders has been less than the number of shares of Series C Preferred Stock subject to sell orders. Holders that have submitted sell orders have not been able to sell any or all of the Series C Preferred Stock for which they have submitted sell orders. Therefore the weekly auctions have failed, and the dividend rate has been the maximum rate, which is 175% of the AA Financial Composite Commercial Paper Rate on the day of such auction. Existing Series C shareholders may submit an order to hold, bid, or sell such shares on each auction date, or trade their shares in the secondary market.

The Fund may redeem at any time, in whole or in part, the Series B and Series C Preferred Stock at their respective redemption prices. In addition, the Board has authorized the repurchase of Series B Preferred Stock in the open market at prices less than the \$25 liquidation value per share. During the six months ended June 30, 2017,

The Gabelli Multimedia Trust Inc.**Notes to Financial Statements (Unaudited) (Continued)**

the Fund redeemed and retired 590 shares of the Series C Preferred Stock. During the year ended December 31, 2016, the Fund did not repurchase or redeem any shares of Series C Preferred Stock. During the six months ended June 30, 2017 and the year ended December 31, 2016, the Fund did not repurchase or redeem any shares of Series B Preferred Stock.

The following table summarizes Cumulative Preferred Stock information:

The holders of Preferred Stock generally are entitled to one vote per share held on each matter submitted to a vote of shareholders of the Fund and will vote together with holders of common stock as a single class. The holders of Preferred Stock voting together as a single class also have the right currently to elect two Directors and under certain circumstances are entitled to elect a majority of the Board. In addition, the affirmative vote of a majority of the votes entitled to be cast by holders of all outstanding shares of the preferred stock, voting as a single class, will be required to approve any plan of reorganization adversely affecting the preferred stock, and the approval of two-thirds of each class, voting separately, of the Fund's outstanding voting stock must approve the conversion of the Fund from a closed-end to an open-end investment company. The approval of a majority (as defined in the 1940 Act) of the outstanding preferred stock and a majority (as defined in the 1940 Act) of the Fund's outstanding voting securities are required to approve certain other actions, including changes in the Fund's investment objectives or fundamental investment policies.

6. Industry Concentration. Because the Fund primarily invests in common stocks and other securities of foreign and domestic companies in the telecommunications, media, publishing, and entertainment industries, its portfolio may be subject to greater risk and market fluctuations than a portfolio of securities representing a broad range of investments.

7. Indemnifications. The Fund enters into contracts that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these contracts. Management has reviewed the Fund's existing contracts and expects the risk of loss to be remote.

8. Subsequent Events. Management has evaluated the impact on the Fund of all subsequent events occurring through the date the financial statements were issued and has determined that there were no subsequent events requiring recognition or disclosure in the financial statements.

Board Consideration and Re-Approval of Advisory Agreement (Unaudited)

Section 15(c) of the Investment Company Act of 1940, as amended (the 1940 Act), contemplates that the Board of Directors (the Board) of The Gabelli Multimedia Trust Inc. (the Fund), including a majority of the Directors who have no direct or indirect interest in the investment advisory agreement and are not interested persons of the Fund, as defined in the 1940 Act (the Independent Board Members), are required to annually review and re-approve the terms of the Fund's existing investment advisory agreement and approve any newly proposed terms therein. In this regard, the Board reviewed and re-approved, during the most recent six month period covered by this report, the Advisory Agreement (the Advisory Agreement) with Gabelli Funds, LLC (the Adviser) for the Fund.

More specifically, at a meeting held on May 16, 2017, the Board, including the Independent Board Members meeting in executive session with their counsel, considered the factors and reached the conclusions described below relating to the selection of the Adviser and the re-approval of the Advisory Agreement.

1. The nature, extent, and quality of services provided by the Adviser.

The Board Members reviewed in detail the nature and extent of the services provided by the Adviser under the Advisory Agreement and the quality of those services over the past year. The Board Members noted that these services included managing the investment program of the Fund, including the purchase and sale of portfolio securities, as well as the provision of general corporate services. The Board Members considered that the Adviser also provided, at its expense, office facilities for use by the Fund and supervisory personnel responsible for supervising the performance of administrative, accounting, and related services for the Fund, including monitoring to assure compliance with stated investment policies and restrictions under the 1940 Act and related securities regulation. The Board Members noted that, in addition to managing the investment program for the Fund, the Adviser provided certain non-advisory and compliance services, including services for the Fund's Rule 38a-1 compliance program..

The Board Members noted that the Adviser had engaged, at its expense, BNY Mellon Investment Servicing (US) Inc. (BNY) to assist it in performing certain of its administrative functions. The Board Members concluded that the nature and extent of the services provided was reasonable and appropriate in relation to the advisory fee, that the level of services provided by the Adviser, either directly or through BNY, had not diminished over the past year, and that the quality of service continued to be high.

The Board Members reviewed the personnel responsible for providing services to the Fund and concluded, based on their experience and interaction with the Adviser, that (i) the Adviser was able to retain quality personnel, (ii) the Adviser and its agents exhibited a high level of diligence and attention to detail in carrying out their advisory and administrative responsibilities under the Advisory Agreement, (iii) the Adviser was responsive to requests of the Board, (iv) the scope and depth of the Adviser's resources was adequate, and (v) the Adviser had kept the Board apprised of developments relating to the Fund and the industry in general. The Board Members also focused on the Adviser's reputation and long standing relationship with the Fund. The Board Members also believed that the Adviser had devoted substantial resources and made substantial commitments to address new regulatory compliance requirements applicable to the Fund.

2. The performance of the Fund and the Adviser.

The Board Members reviewed the investment performance of the Fund, on an absolute basis, as compared with its Broadridge peer group of other SEC registered open-end and closed-end funds. The Board Members

The Gabelli Multimedia Trust Inc.

Board Consideration and Re-Approval of Advisory Agreement (Unaudited) (Continued)

considered the Fund's one, three, five, and ten year average annual total return for the periods ended March 31, 2017, but placed greater emphasis on the Fund's longer term performance. The peer group considered by the Board Members was developed by Broadridge and was comprised of other selected closed-end core, growth and value equity funds (the Performance Peer Group). The Board Members considered these comparisons helpful in their assessment as to whether the Adviser was obtaining for the Fund's shareholders the total return performance that was available in the marketplace, given the Fund's objectives, strategies, limitations, and restrictions. In reviewing the performance of the Fund, the Board Members noted that the Fund's performance was above the median for the one year and five year periods, and below the median for the three and ten year periods. The Board Members concluded that the Fund's performance was reasonable in comparison with that of the Performance Peer Group.

In connection with its assessment of the performance of the Adviser, the Board Members considered the Adviser's financial condition and whether it had the resources necessary to continue to carry out its functions under the Advisory Agreement. The Board Members concluded that the Adviser had the financial resources necessary to continue to perform its obligations under the Advisory Agreement and to continue to provide the high quality services that it has provided to the Fund to date.

3. The cost of the advisory services and the profits to the Adviser and its affiliates from the relationship with the Fund.

In connection with the Board Members' consideration of the cost of the advisory services and the profits to the Adviser and its affiliates from the relationship with the Fund, the Board Members considered a number of factors. First, the Board Members compared the level of the advisory fee for the Fund against a comparative Broadridge expense peer group comprised of other selected closed-end core, growth and value equity funds (Expense Peer Group). The Board Members also considered comparative non-management fee expenses and comparative total fund expenses of the Fund and the Expense Peer Group. The Board Members considered this information as useful in assessing whether the Adviser was providing services at a cost that was competitive with other similar funds. In assessing this information, the Board Members considered the comparative contract rates. The Board Members noted that the Fund's advisory fee and total expense ratios were higher than average when compared with those of the Expense Peer Group.

The Board Members also reviewed the fees charged by the Adviser to provide similar advisory services to other registered investment companies or accounts with similar investment objectives, noting that in some cases the fees charged by the Adviser were the same, or lower, than the fees charged to the Fund.

The Board Members also considered an analysis prepared by the Adviser of the estimated profitability to the Adviser of its relationship with the Fund and reviewed with the Adviser its cost allocation methodology in connection with its profitability. In this regard, the Board Members reviewed Pro-forma Income Statements of the Adviser for the year ended December 31, 2016. The Board Members considered one analysis for the Adviser as a whole, and a second analysis for the Adviser with respect to the Fund. With respect to the Fund analysis, the Board Members received an analysis based on the Fund's average net assets during the period as well as a pro-forma analysis of profitability at higher and lower asset levels. The Board Members concluded that the profitability of the Fund to the Adviser under either analysis was not excessive.

The Gabelli Multimedia Trust Inc.

Board Consideration and Re-Approval of Advisory Agreement (Unaudited) (Continued)

4. The extent to which economies of scale will be realized as the Fund grows and whether fee levels reflect those economies of scale.

With respect to the Board Members' consideration of economies of scale, the Board Members discussed whether economies of scale would be realized by the Fund at higher asset levels. The Board Members also reviewed data from the Expense Peer Group to assess whether the Expense Peer Group funds had advisory fee breakpoints and, if so, at what asset levels. The Board Members also assessed whether certain of the Adviser's costs would increase if asset levels rise. The Board Members noted the Fund's current size and concluded that under foreseeable conditions, they were unable to assess at this time whether economies of scale would be realized by the Fund if it were to experience significant asset growth. In the event there were to be significant asset growth in the Fund, the Board Members determined to reassess whether the advisory fee appropriately took into account any economies of scale that had been realized as a result of that growth.

5. Other Factors.

In addition to the above factors, the Board Members also discussed other benefits received by the Adviser from their management of the Fund. The Board Members considered that the Adviser does use soft dollars in connection with its management of the Fund.

Based on a consideration of all these factors in their totality, the Board Members, including all of the Independent Board Members, determined that the Fund's advisory fee was fair and reasonable with respect to the quality of services provided and in light of other factors described above that the Board Members deemed relevant. Accordingly, the Board Members determined to approve the continuation of the Fund's Advisory Agreement. The Board Members based their decision on the evaluation of all these factors and did not consider any one factor as all important or controlling.

**AUTOMATIC DIVIDEND REINVESTMENT
AND VOLUNTARY CASH PURCHASE PLANS**

Enrollment in the Plan

It is the policy of The Gabelli Multimedia Trust Inc. (the Fund) to automatically reinvest dividends payable to common shareholders. As a registered shareholder, you automatically become a participant in the Fund's Automatic Dividend Reinvestment Plan (the Plan). The Plan authorizes the Fund to credit shares of common stock to participants upon an income dividend or a capital gains distribution regardless of whether the shares are trading at a discount or a premium to net asset value. All distributions to shareholders whose shares are registered in their own names will be automatically reinvested pursuant to the Plan in additional shares of the Fund. Plan participants may send their stock certificates to Computershare Trust Company, N.A. (Computershare) to be held in their dividend reinvestment account. Registered shareholders wishing to receive their distribution in cash must submit this request in writing to:

The Gabelli Multimedia Trust Inc.

c/o Computershare

P.O. Box 30170

College Station, TX 77842-3170

Shareholders requesting this cash election must include the shareholder's name and address as they appear on the share certificate. Shareholders with additional questions regarding the Plan or requesting a copy of the terms of the Plan may contact Computershare at (800) 336-6983.

If your shares are held in the name of a broker, bank, or nominee, you should contact such institution. If such institution is not participating in the Plan, your account will be credited with a cash dividend. In order to participate in the Plan through such institution, it may be necessary for you to have your shares taken out of street name and re-registered in your own name. Once registered in your own name, your dividends will be automatically reinvested. Certain brokers participate in the Plan. Shareholders holding shares in street name at participating institutions will have dividends automatically reinvested. Shareholders wishing a cash dividend at such institution must contact their broker to make this change.

The number of shares of common stock distributed to participants in the Plan in lieu of cash dividends is determined in the following manner. Under the Plan, whenever the market price of the Fund's common stock is equal to or exceeds net asset value at the time shares are valued for purposes of determining the number of shares equivalent to the cash dividends or capital gains distribution, participants are issued shares of common stock valued at the greater of (i) the net asset value as most recently determined or (ii) 95% of the then current market price of the Fund's common stock. The valuation date is the dividend or distribution payment date or, if that date is not a New York Stock Exchange (NYSE) trading day, the next trading day. If the net asset value of the common stock at the time of valuation exceeds the market price of the common stock, participants will receive shares from the Fund valued at market price. If the Fund should declare a dividend or capital gains distribution payable only in cash, Computershare will buy common stock in the open market, or on the NYSE or elsewhere, for the participants' accounts, except that Computershare will endeavor to terminate purchases in the open market and cause the Fund to issue shares at net asset value if, following the commencement of such purchases, the market value of the common stock exceeds the then current net asset value.

The automatic reinvestment of dividends and capital gains distributions will not relieve participants of any income tax which may be payable on such distributions. A participant in the Plan will be treated for federal income tax purposes

as having received, on a dividend payment date, a dividend or distribution in an amount equal to the cash the participant could have received instead of shares.

Voluntary Cash Purchase Plan

The Voluntary Cash Purchase Plan is yet another vehicle for our shareholders to increase their investment in the Fund. In order to participate in the Voluntary Cash Purchase Plan, shareholders must have their shares registered in their own name.

Participants in the Voluntary Cash Purchase Plan have the option of making additional cash payments to Computershare for investments in the Fund's shares at the then current market price. Shareholders may send an amount from \$250 to \$10,000. Computershare will use these funds to purchase shares in the open market on or about the 1st and 15th of each month. Computershare will charge each shareholder who participates \$0.75, plus a pro rata share of the brokerage commissions. Brokerage charges for such purchases are expected to be less than the usual brokerage charge for such transactions. It is suggested that any voluntary cash payments be sent to Computershare, P.O. Box 30170, College Station, TX 77842-3170 such that Computershare receives such payments approximately 10 days before the 1st and 15th of the month. Funds not received at least five days before the investment date shall be held for investment until the next purchase date. A payment may be withdrawn without charge if notice is received by Computershare at least 48 hours before such payment is to be invested.

Shareholders wishing to liquidate shares held at Computershare must do so in writing or by telephone. Please submit your request to the above mentioned address or telephone number. Include in your request your name, address, and account number. The cost to liquidate shares is \$2.50 per transaction as well as the brokerage commission incurred. Brokerage charges are expected to be less than the usual brokerage charge for such transactions.

For more information regarding the Dividend Reinvestment Plan and Voluntary Cash Purchase Plan, brochures are available by calling (914) 921-5070 or by writing directly to the Fund.

The Fund reserves the right to amend or terminate the Plan as applied to any voluntary cash payments made and any dividend or distribution paid subsequent to written notice of the change sent to the members of the Plan at least 90 days before the record date for such dividend or distribution. The Plan also may be amended or terminated by Computershare on at least 90 days written notice to participants in the Plan.
