**Notes to Unaudited Interim Condensed Consolidated Financial Statements**

(In thousands of Mexican pesos [Ps.] and thousands of

U.S. dollars [US\$], unless otherwise indicated)

**1. Description of the Business and Relevant Events**

**I. Corporate Information**

América Móvil, S.A.B. de C.V. and subsidiaries (hereinafter, the Company, América Móvil or AMX ) was incorporated under laws of Mexico on September 25, 2000. The Company provides telecommunications services in 25 countries throughout the United States, Latin America, the Caribbean and Europe. These telecommunications services include mobile and fixed-line voice services, wireless and fixed data services, internet access and Pay TV, sales of equipment, accessories, computers as well as other related services and over the top services.

The voice services provided by the Company, both wireless and fixed, mainly include the following: airtime, local, domestic and international long-distance services, and network interconnection services.

The data services provided by the Company include the following: value added, corporate networks, data and Internet services.

Pay TV represents basic services, as well as pay per view and additional programming and advertising services.

Equipment, accessories and computer sales.

Other related revenues from advertising in telephone directories, publishing and call center services.

Sell video, audio and other media content that is delivered through the internet directly from the content provider to the viewer or end user.

In order to provide these services, América Móvil has licenses, permits and concessions (collectively referred to herein as licenses ) to build, install, operate and exploit public and/or private telecommunications networks and provide miscellaneous telecommunications services (mostly mobile and fixed telephony services), as well as to operate frequency bands in the radio-electric spectrum to be able to provide fixed wireless telephony and to operate frequency bands in the radio-electric spectrum for point-to-point and point-to-multipoint microwave links. The Company holds licenses in the 24 countries where it has a presence, and such licenses have different dates of expiration through 2046.

Edgar Filing: AMERICA MOVIL SAB DE CV/ - Form 6-K

Certain licenses require the payment to the respective governments of a share in sales determined as a percentage of revenues from services under concession. The percentage is set as either a fixed rate or in some cases based on certain size of the infrastructure in operation.

The corporate offices of América Móvil are located in Mexico City, Mexico, at Lago Zurich 245, Colonia Ampliación Granada, Delegación Miguel Hidalgo, 11529, Mexico City, México.

The accompanying condensed consolidated financial statements were approved for their issuance by the Company's Chief Financial Officer on September 22, 2017, and subsequent events have been considered through that date.

**Table of Contents**

**II. Relevant events in 2017**

On June 27, 2017 the Company announced that a business unit dedicated to out-of-home advertising belonging to CMI, AMX's advertising division, entered into a joint venture with JCDecaux by merging their respective out-of-home advertising operations in Mexico. Upon the closing of the transaction JCDecaux will own 60% of the joint venture shares and the remaining 40% shares will be owned by AMX. The transaction is subject to the satisfaction of certain conditions, and is expected to close later this year.

On June 30, 2017 the Company notified our shareholders that the dividend corresponding to the 2016 results would be Ps. 0.30 per share, to be paid in two installments of Ps. 0.15 each in cash, series L shares or a combination thereof, according to the election of each shareholder. On July 17, we made the first partial dividend payment that included 4.9 billion pesos paid in cash to the holders of 51.52% of the eligible shares and 325.3 million AMX Series L shares.

**2. Basis of Preparation of the Consolidated Financial Statements and Summary of Significant Accounting Policies and Practices**

**a) Basis of preparation**

The accompanying unaudited interim condensed consolidated financial statements have been prepared in conformity with the International Accounting Standard No. 34, Interim Financial Reporting (IAS 34), and using the same accounting policies applied in preparing the annual financial statements, except as explained below.

The unaudited interim condensed consolidated financial statements do not include all the information and disclosures required in the annual consolidated financial statements, and should be read in conjunction with the Company's audited annual consolidated financial statements as of December 31, 2015 and 2016, and for the three-year period ended December 31, 2016, as included in the Company's Annual Report on Form 20-F for the year ended December 31, 2016 (the 2016 Form 20-F).

The preparation of these unaudited interim condensed consolidated financial statements in accordance with IAS 34 requires the use of critical estimates and assumptions that affect the amounts reported for certain assets and liabilities, as well as certain income and expenses. It also requires that management exercise judgment in the application of the Company's accounting policies.

The Mexican peso is the functional and reporting currency of the Company and the ones used in these unaudited interim condensed consolidated financial statements.

**3. Marketable securities and other short-term investments**

As of June 30, 2017 and December 31, 2016, marketable securities and other short-term investments includes an available for sale investment in KPN for Ps. 38,709,386 and Ps. 41,463,511, respectively, and other short-term investments for Ps. 10,711,767 and

Ps. 13,393,646, respectively.

As of June 30, 2017 and 2016, the Company has recognized changes in fair value of the investment of Ps. (280,326) and Ps. (2,238,657), respectively, net of deferred taxes, through other comprehensive loss (equity).

At June 30, 2017, the Company has not observed an objective measure of impairment on its available for sale securities, nor have unrealized losses on its available for sale securities been considered either significant or prolonged.

During the six month periods ended June 30, 2017 and 2016, the Company received dividends from KPN for an amount of Ps. 1,546,258 and Ps. 5,597,816, respectively; which are included within Valuation of derivatives, interest cost from labor obligations, and other financial items, net in the consolidated statements of comprehensive income. The other short-term investments of Ps. 10,711,767 and Ps.13,393,646, as of June 30, 2017 and December 31, 2016, respectively, represents a cash deposit used to guarantee a short term obligation for one of the Company's foreign subsidiaries and are presented at their carrying value, which approximates fair value.

In May 2015, the Company placed 5 year bonds for an amount of EUR \$3,000 million which may be exchanged for ordinary shares of KPN, at an exercise price of 4.9007, 45% higher than the reference price on the date of issuance. In December 31, 2015, the closing price of the stock of KPN was 3.4920. Given the terms of the bond, we have

identified an embedded option with a fair value of EUR \$51.3 million reflected as a liability within derivative financial instruments on the Consolidated Statement of Financial Position as of June 30, 2017. Under the terms of the exchangeable bond agreement, none of the exchanged property (specifically, the KPN shares) has been or will be charged or otherwise placed in custody or set aside to secure or satisfy the Company's obligations. At any time, the Company may or may not be the owner of the whole or any part of this property and may sell or otherwise dispose of the same or take any action or exercise any rights or options in respect of the same at any time.

In September 2015, the Company completed the placement of EUR \$750 million principal amount of exchangeable bonds that will be mandatorily exchangeable into ordinary shares of KPN at maturity. The bonds have a maturity of 3 years and will pay a coupon of 5.5% per year payable quarterly in arrears, as well as the corresponding cash dividends paid by KPN net of withholding taxes. The reference price of the KPN shares for its exchange was set at 3.3374 but could be as high as 4.2552 (reference price plus 27.5%). As a result of the Company's mandatory exchangeable bond, the Company placed 224.7 million of ordinary shares of KPN in a trust in favor of the bond trustee and the bond holders. The aforementioned conditions allowed the Company to derecognize a portion of its investment in shares in KPN corresponding to the 224.7 million of ordinary shares on its Consolidated Statement of Financial Position as of December 31, 2015.

The exchangeable bonds described above have provisions that will allow for their settlement in cash if AMX wishes to retain ownership of the shares.

## **Table of Contents**

In March 2016, AMX placed an international bond for a total amount of EUR \$1,500 million divided in two tranches, the first one for EUR \$850 million with a coupon of 1.5% and maturity in 2024, and a second one for EUR \$650 million with a coupon of 2.125% and maturity in 2028.

In December 2016, Telekom Austria placed an international bond for a total amount of EUR \$500 million with a coupon of 1.5% and maturity in 2026, issued to cover a bond amortization in January 2017.

### **(ii) Domestic Senior Notes**

At June 30, 2017, and December 31, 2016, debt under Domestic Senior Notes aggregated to Ps. \$21,186.2 million and Ps. \$21,043.9 million, respectively. In general these issues bear a fixed-rate or floating rate determined as a differential on the THIE rate.

### **(iii) Lines of credit**

At June 30, 2017, and December 31, 2016, debt under lines of credit aggregated to Ps. \$28,014.8 million and Ps. \$33,999.1 million, respectively.

The Company has two undrawn revolving syndicated facilities – one for the Euro equivalent of U.S. \$2,000 million and the other for U.S. \$2,500 million maturing in 2021 and 2019, respectively. These loans bear interest at variable rates based on LIBOR and EURIBOR. Telekom Austria has also an undrawn revolving syndicated facility in Euros for \$1,000 million at a variable rate based on EURIBOR.

### **(iv) Hybrid Notes**

The Company issued three series of Capital Securities (hybrid notes) maturing in 2073: two series denominated in Euros for 1,450 million with a coupon of 5.125% and 6.375% respectively, and one series denominated in sterling pounds in the amount of £550 million with a coupon of 6.375%. The Capital Securities are deeply subordinated, and when they were issued the principal rating agencies stated that they would treat only half of the principal amount as indebtedness for purposes of evaluating our leverage (an analysis referred to as 50.0% equity credit). The Capital Securities are subject to redemption at our option at varying dates beginning in 2018 and 2023, respectively, for the euro-denominated series and beginning in 2020 for the sterling-denominated series.

### **(v) Commercial Paper**

At June 30, 2017, debt under commercial paper aggregated to Ps. \$2,453.9 million.

## **Restrictions**

A portion of the debt is subject to certain restrictions with respect to maintaining certain financial ratios, as well as restrictions on selling a significant portion of groups of assets, among others. At June 30, 2017, the Company was in compliance with all these requirements.

A portion of the debt is also subject to early maturity or repurchase at the option of the holders in the event of a change in control of the Company, as defined in each instrument. The definition of change in control varies from instrument to instrument; however, as of June 30, 2017 no change in control is considered to have occurred.

## **Covenants**

In conformity with the credit agreements, the Company is obliged to comply with certain financial and operating commitments. Such covenants limit in certain cases, the ability of the Company or the guarantor to: pledge assets, carry out certain types of mergers, sell all or substantially all of its assets, and sell control of Telcel.

Such covenants do not restrict the ability of AMX's subsidiaries to pay dividends or other payment distributions to AMX. The more restrictive financial covenants require the Company to maintain a consolidated ratio of debt to EBITDA (defined as operating income plus depreciation and amortization) that does not exceed 4 to 1, and a consolidated ratio of EBITDA to interest paid that is not below 2.5 to 1 (in accordance with the clauses included in the credit agreements).

Several of the financing instruments of the Company may be accelerated, at the option of the debt holder in the case that a change in control occurs.

## **Table of Contents**

At June 30, 2017, the Company was in compliance with all the covenants.

### **9. Contingencies**

Included in Note 16 on pages F-65 to F-75 of the Company's 2016 Form 20-F is a disclosure of material contingencies outstanding as of December 31, 2016. As of June 30, 2017, and other than in connection with the following matters, there has not been any other material change in the status of such contingencies:

#### **I. Colombia Comcel**

##### *Local Arbitration Proceedings (Bogotá Chamber of Commerce)*

In 2013, the Constitutional Court (*Corte Constitucional*) ruled that certain laws eliminating the reversion of telecommunication assets do not apply to concessions granted prior to 1998, including Comcel's concessions. Following the termination of Comcel's concession contracts, Comcel and the Ministry of Information Technology and Communications (*Ministerio de Tecnologías de la Información y las Comunicaciones*) (ITC Ministry) initiated discussions with respect to the liquidation of such concessions. However, the ITC Ministry took the position that pursuant to the Constitutional Court decision assets under Comcel's concession contracts should revert to the Colombian government and in February 2016, initiated a local arbitration claim against Comcel before the Bogotá Chamber of Commerce pursuant to the concession contracts.

On July 25, 2017, Comcel was notified of an award issued by the arbitral tribunal convened to resolve such claim declaring the validity of the reversion clause in the concessions contracts and ordering Comcel to pay Ps.18,327,087 (approximately COP\$3.155.432 million). Comcel has challenged the award in accordance with Colombian legislation and on August 29, 2017, fulfilled its obligations, as required by the ITC Ministry, under protest reserving all of its rights and those of its shareholders.

#### **II. Mexico AMX**

##### *ICSID (Additional Facility) Arbitration Proceeding*

In July 2017, the tribunal was constituted in the arbitration claim initiated in August 2016 by AMX against the Republic of Colombia on behalf of itself and its subsidiary Comcel under the ICSID Additional Facility Rules and pursuant to the investment chapter of the Mexico-Colombia Free Trade Agreement (the Mexico-Colombia FTA). AMX has requested compensation on the basis of Colombia's breach of the Mexico-Colombia FTA in connection with certain measures adopted by Colombia since August 2013, including the Constitutional Court's decision of 2013 regarding the non-applicability of certain laws eliminating the reversion of telecommunication assets to concessions granted prior to 1998, and the obligatory payment by Comcel to the ITC Ministry of the amounts established by the local arbitration proceeding previously initiated by the ITC Ministry pursuant to the concession contracts.

On September 13, 2017, the tribunal issued the first procedural order setting out the procedural calendar.

**Fair value hierarchy**

The Company's valuation techniques used to determine and disclose the fair value of its financial instruments are based on the following hierarchy:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: Variables other than quoted prices in Level 1 that are observable for the asset or liability, either directly (prices) or indirectly (derived from prices); and

Level 3: Variables used for the asset or liability that are not based on any observable market data (non-observable variables).

The fair value for the financial assets (excluding cash and cash equivalents) and financial liabilities shown in the consolidated statements of financial position at June 30, 2017 and December 31, 2016 is as follows:

Fair value of derivative financial instruments is valued using valuation techniques with market observable inputs. To determine its Level 2 fair value, the Company applies different valuation techniques including forward pricing and swaps models, using present value calculations. The models incorporate various inputs including credit quality of counterparties, foreign exchange spot and forward rates and interest rate curves. Fair value of debt Level 2 has been determined using a model based on present value calculation incorporating credit quality of AMX. The Company's investment in available for sale securities, specifically the investment in KPN, is valued using the quoted prices (unadjusted) in active markets for identical assets. The net realized gains (losses) related to derivative financial instruments for the periods ended June 30, 2017 and 2016 was Ps. 2,141,643, and Ps. ( 28,713,685), respectively.

For the periods ended June 30, 2016 and 2017, no transfers were made between Level 1 and Level 2 fair value measurement hierarchies.

### **15. Future Impact of Recently Issued Accounting Standards not yet in Effect**

The Company has not adopted the following standards and interpretations that have been issued, but are not effective, up to the date of issuance of the Company's financial statements. The Company intends to adopt these standards, if applicable, when they become effective.

#### ***IFRS 15 Revenue from Contracts with Customers***

In May 2014, the IASB issued the new standard IFRS 15 Revenue from Contracts with Customers. The new standard for revenue recognition aims at standardizing the multitude of regulations previously included in various standards, and may require more judgment and estimates than with the revenue recognition processes that are required under the existing revenue recognition standards. The amount of revenue recognized and its timing is determined based on a five-step model. IFRS 15 contains additional qualitative and quantitative disclosure obligations. These are aimed at enabling users of the financial statements to understand the nature, amount, timing and uncertainties of revenue and the resulting cash flows arising from contracts with customers. Under IFRS 15, revenue is recognized for an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or providing services to a customer. The principles in IFRS 15 provide a more structured approach to measuring and recognizing revenue.

IFRS allows two adoption methods under IFRS 15: retrospectively to each reporting period presented (full retrospective method), or retrospectively with the cumulative effect of initially applying the standard in beginning retained earnings. The Company currently plans to adopt the standard using the modified retrospective method. Under that method, it expects to apply the rules to all contracts existing as of January 1, 2018, recognizing in retained earnings an adjustment for the cumulative effect of the change and providing additional disclosures comparing results to previously recorded revenue.

IFRS 15 provides presentation and disclosure requirements which are more detailed than under current IFRS. The presentation requirements represent a significant change from current practice and increases the volume of disclosures required in Company's financial statements. Many of the disclosure requirements in IFRS 15 are completely new.

The Company initiated a group wide two-phase project for the implementation of IFRS 15. In phase I, certain employees were first trained, then deviations in revenue recognition, based on contractual agreements, were identified for individual business transactions and the possibility of establishing portfolios was assessed. In phase II, the analysis of contracts will be continued with a special focus on the adaptation of IT and system processes.

Based on work performed to date, we believe the key changes in the standard that may impact our revenue recognition relate to the allocation of contract revenue services between various services and equipment and the timing when such revenues are recorded. We also expect a change in the timing of the recognition of the commissions we pay which were approximately Ps.35,141,660 in 2016 and were expensed when paid and may be deferred and amortized over future periods under the new standard. Additionally, the requirement to defer incremental contract acquisition costs and recognize them over the contract period or expected customer life may result in an amortizable deferred asset on the Company's consolidated statement of financial position.

#### ***IFRS 16, Leases***

In January 2016, the IASB issued the new accounting standard, IFRS 16 Leases. The fundamental changes in this new standard affect the lessees' recognition of leases in the financial statements. Generally, all leases have to be recognized based on the right of use approach.

The new standard is effective for fiscal years beginning on or after January 1, 2019, with early adoption permitted. The standard includes two recognition exemptions for lessees: leases of low-value assets (e.g., personal computers) and short-term leases (i.e., leases with a lease term of 12 months or less). At the commencement date of a lease, a lessee will recognize a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). Lessees will be required to separately recognize the interest expense on the lease liability and the depreciation expense on the right-of-use asset.

Lessees will be also required to remeasure the lease liability upon the occurrence of certain events (e.g., a change in the lease term, a change in future lease payments resulting from a change in an index or rate used to determine those payments). The lessee will generally recognize the amount of the remeasurement of the lease liability as an adjustment to the right-of-use asset.

IFRS 16 also requires lessees to make more extensive disclosures than under IAS 17.

---

## **Table of Contents**

According to the initial assessment made by the Company, the primary effect of the new standard will be to require the Company to establish a liability and a right of use asset equal to the value of most of the Company's leases that are currently accounted for as operating leases.

### ***IFRS 9, Financial Instruments***

IFRS 9, Financial Instruments, was issued in July 2014 and relates to the classification and measurement of financial assets and financial liabilities, hedge accounting and impairment of financial assets. The new standard is effective on or after January 1, 2018, with early adoption permitted. The Company does not expect significant changes to its existing accounting policies surrounding classification and measurement for available-for-sale securities as they are currently recognized at fair value on the consolidated statement of financial condition with changes in fair value recognized in other comprehensive income. As for the recognition of impairment of financial assets as they would relate to accounts receivable trade, the Company currently expects to adopt the simplified approach of IFRS 9. Although management does not expect major measurement changes in financial instruments, the possible impact on the consolidated financial statements of the Company from the initial adoption of IFRS 9 cannot currently be estimated.

### **16. Subsequent Events**

On July 2017, Radiomóvil Dipsa, S.A. de C.V.(Telcel) acquired the right to use and exploit approximately 60 MHz of spectrum in the 2.5 GHz band, in different regions of the country, pursuant to the November, 2016 agreement between Telcel and Grupo MVS.

On July 2017, as a result of the spectrum auction carried by Superintendencia of Telecommunications (SUTEL) in Costa Rica, its subsidiary Claro CR Telecomunicaciones, S.A. (Claro) gained a total of 20MHz in the 1800 MHz band and 10 MHz in the 1900/2100 MHz (AWS) band. The concessions will expire on 2032. These concessions will be granted upon compliance of certain requirements provided under the auction rules issued by SUTEL.

On August 16, 2017, the Second Chamber (*Sala Segunda*) of the Mexican Supreme Court of Justice (*Suprema Corte de Justicia de la Nación*), resolved to grant an injunction (*amparo*) to Telcel against a series of provisions of the Federal Telecommunications and Broadcasting Law (*Ley Federal de Telecomunicaciones* or Implementing Legislation) in relation to the prohibition imposed on Telcel to charge other carriers for termination services on its network, commonly referred to as the *Zero Rate*. The Supreme Court ruling restored the authority of the Federal Telecommunications Institute (*Instituto Federal de Telecomunicaciones* or IFT) to determine the interconnection rate that other carriers shall pay Telcel for the termination of services on its network, which shall be based on international best practices, cost oriented methodologies, transparency and rationality.

Notwithstanding the unconstitutionality of the *Zero Rate*, the Second Chamber of the Supreme Court resolved (i) that other carriers shall not restore Telcel for the adverse effects caused by the *Zero Rate* since August 2014; and (ii) that the interconnection rate that other carriers shall pay Telcel for termination services on its network as established by the IFT shall be effective on January 1, 2018.
