NOTE 1 ORGANIZATION

Installed Building Products, Inc. (IBP), a Delaware corporation formed on October 28, 2011, and its wholly-owned subsidiaries (collectively referred to as the Company and we, us and our) primarily install insulation, waterproofing, fire-stopping, fireproofing, garage doors, rain gutters, shower doors, closet shelving and mirrors and other products for residential and commercial builders located in the continental United States. The Company operates in over 125 locations and its corporate office is located in Columbus, Ohio.

We have one operating segment and a single reportable segment. We offer our portfolio of services for new and existing single-family and multi-family residential and commercial building projects from our national network of branch locations. Each of our branches has the capacity to serve all of our end markets. See Note 3, Revenue Recognition, for information on our revenues by product and end market.

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation and Principles of Consolidation

The accompanying Condensed Consolidated Financial Statements include all of our wholly-owned subsidiaries. All intercompany accounts and transactions have been eliminated.

The information furnished in the Condensed Consolidated Financial Statements includes normal recurring adjustments and reflects all adjustments which are, in the opinion of management, necessary for a fair presentation of the results of operations and statements of financial position for the interim periods presented. Certain information and footnote disclosures normally included in the consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) and the rules and regulations of the Securities and Exchange Commission (the SEC) have been omitted pursuant to such rules and regulations. We believe that the disclosures are adequate to prevent the information presented from being misleading when read in conjunction with our audited consolidated financial statements and the notes thereto included in Part II, Item 8, Financial Statements and Supplementary Data, of our Annual Report on Form 10-K for the fiscal year ended December 31, 2017 (the 2017 Form 10-K), as filed with the SEC on February 28, 2018. The December 31, 2017 condensed consolidated balance sheet data herein was derived from the audited consolidated financial statements but does not include all disclosures required by U.S. GAAP.

Our interim operating results for the three and nine months ended September 30, 2018 are not necessarily indicative of the results to be expected in future operating quarters. See Item 1A, Risk Factors, in our 2017 Form 10-K for additional information regarding risk factors that may impact our results.

Note 2 to the audited consolidated financial statements in our 2017 Form 10-K describes the significant accounting policies and estimates used in preparation of the audited consolidated financial statements. During the nine months ended September 30, 2018, we changed certain of our critical accounting policies and estimates from those previously disclosed in our 2017 Form 10-K, in relation to our revenue recognition and our hedge accounting policies as a result of the adoption of new accounting standards on January 1, 2018. Our revenue recognition accounting policy is

described in Note 3, Revenue Recognition, and our hedge accounting policy is described in Note 8, Derivatives and Hedging Activities.

Recently Adopted Accounting Pronouncements

Standard	Adoption
ASU 2014-09, <i>Revenue from Contracts with Customers (Topic 606)</i>	ASC 606 sets forth a new revenue recognition model that requires identifying the contract(s) with a customer, identifying the performance obligations in the contract, determining the transaction price, allocating the transaction price to the performance obligations and recognizing the revenue upon satisfaction of performance obligations. We adopted the provisions of ASU 2014-09 and related subsequently-issued amendments beginning on January 1, 2018 using the modified retrospective approach and, as such, recognized a \$2.1 million cumulative effect, net of tax, of initially applying the standard as an increase to the opening balance of retained earnings on January 1, 2018. See Note 3, Revenue Recognition, for further information regarding our revenue recognition policies and the revisions to correct certain immaterial misstatements.
ASU 2017-12, <i>Derivatives and Hedging (Topic 815): Targeted Improvements to accounting for Hedging Activities</i>	ASU 2017-12 better aligns a company's risk management activities and financial reporting for hedging relationships and makes certain improvements to simplify the application of hedge accounting guidance. For public business entities, this update is effective for financial statements issued for fiscal years beginning after December 15, 2018 and interim periods within those fiscal years, with early adoption permitted. We elected to early adopt this ASU effective January 1, 2018 and, as such, recognized a \$0.1 million adjustment to our opening retained earnings and accumulated other comprehensive income as of January 1, 2018 to reclassify the cash flow hedge ineffectiveness previously recorded in net income in the fourth quarter of 2017 to accumulated other comprehensive income.
ASU 2018-05, <i>Income Taxes (Topic 740): Amendments to SEC Paragraphs Pursuant to SEC Staff Accounting Bulletin No. 118</i>	In March 2018, the Financial Accounting Standards Board issued ASU 2018-05, which became effective immediately. ASU 2018-05 adds various SEC paragraphs pursuant to the issuance of the December 2017 SEC Staff Accounting Bulletin No. 118, Income Tax Accounting Implications of the Tax Cuts and Jobs Act (SAB 118). See Note 11, Income Taxes, for additional information regarding the adoption of ASU 2018-05.
ASU 2018-15, <i>Intangibles Goodwill and Other Internal-Use Software (Subtopic 350-40): Customer's Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That Is a Service</i>	ASU 2018-15 amends the existing accounting standards for capitalizing implementation costs of internal-use software by including service contracts in a cloud computing arrangement. For public business entities, this update is effective for financial statements issued for fiscal years beginning after December 15, 2019 and interim periods therein, with early adoption permitted. We elected to early adopt this ASU using the prospective approach effective July 1, 2018 and, as such, have capitalized certain implementation costs associated with service contracts in a cloud computing arrangement. The effects of adoption were not significant.

Recently Issued Accounting Pronouncements Not Yet Adopted

We are currently evaluating the impact of certain ASUs on our Condensed Consolidated Financial Statements or Notes to Consolidated Financial Statements, which are described below:

Standard	Description	Effective Date	Effect on the financial statements or other significant matters
ASU 2016-02, <i>Leases (Topic 842)</i>	This pronouncement and related subsequently-issued amendments change the existing accounting standards for lease accounting, including requiring lessees to recognize most leases on their balance sheets and making targeted changes to lessor accounting. ASC 842 requires a modified retrospective transition approach for all leases existing at, or entered into after, the date of initial application, with an option to use certain transition relief.	Annual periods beginning after December 15, 2018, including interim periods therein. Early adoption is permitted.	This ASU requires substantially all leases, with the exception of leases with a term of one year or less, to be recorded on the balance sheet as a lease liability measured as the present value of the future lease payments with a corresponding right-of-use asset. This ASU also requires disclosures designed to give financial statement users information on the amount, timing and uncertainty of cash flows. We anticipate taking advantage of the practical expedient options which allow an entity to not reassess whether any existing or expired contracts contain leases, not reassess lease classifications for existing or expired leases and not reassess initial direct costs for an existing lease. We are also evaluating other optional practical expedients and policy elections. The cumulative effect of adoption will be recorded to retained earnings in the period of adoption. We have completed the design phase of our implementation of this standard

and are in the process of implementing changes to our systems and processes in conjunction with a review of existing lease agreements. Based on a preliminary assessment, we expect that substantially all of our operating lease commitments will be subject to the new guidance and recognized as operating lease liabilities and right-of-use assets upon adoption. We will adopt these standards effective January 1, 2019.

NOTE 3 REVENUE RECOGNITION*Adoption of ASC Topic 606, Revenue from Contracts with Customers*

On January 1, 2018, we adopted the new accounting standard ASC 606, Revenue from Contracts with Customers using the modified retrospective method applied to those contracts that were not completed as of January 1, 2018. Results for reporting periods beginning after January 1, 2018 are presented under Topic 606, while prior period amounts are not adjusted and continue to be reported in accordance with our historic accounting under Topic 605.

We recorded a \$2.1 million cumulative effect adjustment as an increase to opening retained earnings, a \$2.8 million increase to other current assets and a \$0.7 million increase to deferred income taxes, respectively, on January 1, 2018 due to the impact of adopting Topic 606, with the impact primarily related to the change in accounting for certain of our short-term contracts that were previously accounted for on a completed contract basis, whereas, under ASC 606, we now recognize revenue associated with these contracts over time as service is performed and the transfer of control occurs, based on a percentage-of-completion method using cost-to-cost input methods as a measure of progress. The comparative information has not been restated and continues to be reported under the accounting standards in effect for those periods. The cumulative effect adjustment has been revised from the amount previously disclosed in our interim financial statements filed on Form 10-Q for the quarterly periods ended March 31, 2018 and June 30, 2018 to correct certain immaterial misstatements. The result of correcting these misstatements was an \$0.8 million decrease to opening retained earnings, a \$1.0 million decrease to other current assets and a \$0.2 million decrease to deferred income taxes recorded in the three months ended September 30, 2018.

Impact of New Revenue Recognition Standard on Financial Statement Line Items

Revenue Recognition

Our revenues are derived primarily through contracts with customers whereby we install insulation and other complementary building products and are recognized when control of the promised goods or services is transferred to our customers, in an amount that reflects the consideration we expect to be entitled to in exchange for those goods or services. We account for a contract when it has approval and commitment from both parties, the rights of the parties are identified, payment terms are identified, the contract has commercial substance and collectability of consideration is probable. We recognize revenue using the percentage-of-completion method of accounting, utilizing a cost-to-cost input approach as we believe this represents the best measure of when goods and services are transferred to the customer. An insignificant portion of our sales, primarily retail sales, is accounted for on a point-in-time basis when the sale occurs, adjusted accordingly for any return provisions. We do offer assurance-type warranties on certain of our installed products and services that do not represent a separate performance obligation and, as such, do not impact the timing or extent of revenue recognition.

When the percentage-of-completion method is used, we estimate the costs to complete individual contracts and record as revenue that portion of the total contract price that is considered complete based on the relationship of costs incurred to date to total anticipated costs (the cost-to-cost approach). Under the cost-to-cost approach, the use of estimated costs to complete each contract is a significant variable in the process of determining recognized revenue, requires significant judgment and can change throughout the duration of a contract due to contract modifications and other factors impacting job completion. The costs of earned revenue include all direct material and labor costs and those indirect costs related to contract performance, such as indirect labor, supplies, tools and repairs. Provisions for estimated losses on uncompleted contracts are made in the period in which such losses are determined.

Our long-term contracts can be subject to modification to account for changes in contract specifications and requirements. We consider contract modifications to exist when the modification either creates new, or changes the existing, enforceable rights and obligations. Most of our contract modifications are for goods or services that are not distinct from the existing contract due to the significant integration service provided in the context of the contract and are accounted for as if they were part of that existing contract. The effect of a contract modification on the transaction

price and our measure of progress for the performance obligation to which it relates, is recognized as an adjustment to revenue (either as an increase in or a reduction of revenue) on a cumulative catch-up basis.

Billing on our long-term contracts occurs primarily on a monthly basis throughout the contract period whereby we submit invoices for customer payment based on actual or estimated costs incurred during the billing period. On certain of our long-term contracts the customer may withhold payment on an invoice equal to a percentage of the invoice amount, which will be subsequently paid after satisfactory completion of each installation project. This amount is referred to as retainage and is common practice in the construction industry, as it allows for customers to ensure the quality of the service performed prior to full payment. Retainage receivables are classified as current or long-term assets based on the expected time to project completion.

Contract Assets and Liabilities

Our contract assets consist of unbilled amounts typically resulting from sales under contracts when the cost-to-cost method of revenue recognition is utilized and revenue recognized, based on costs incurred, exceeds the amount billed to the customer. Our contract assets are recorded in other current assets in our Consolidated Balance Sheets. Our contract liabilities consist of customer deposits and billings in excess of revenue recognized, based on costs incurred and is included in other current liabilities in our Consolidated Balance Sheets. For presentation purposes, uncompleted contracts as of December 31, 2017 have been restated to reflect the adoption of ASC 606 on January 1, 2018.

During the three and nine months ended September 30, 2018, we recognized \$0.1 and \$7.0 million of revenue, respectively, that was included in the contract liability balance at December 31, 2017. We did not recognize any impairment losses on our receivables and contract assets during the three and nine months ended September 30, 2018.

Remaining performance obligations represent the transaction price of contracts for which work has not been performed and excludes unexercised contract options and potential modifications. As of September 30, 2018, the aggregate amount of the transaction price allocated to remaining uncompleted contracts was \$87.1 million. We expect to recognize revenue on substantially all of these uncompleted contracts over the next 18 months.

Practical Expedients and Exemptions

We generally expense sales commissions and other incremental costs of obtaining a contract when incurred because the amortization period is usually one year or less. Sales commissions are recorded within selling expenses on the Condensed Consolidated Statements of Operations and Comprehensive Income.

We do not disclose the value of unsatisfied performance obligations for contracts with an original expected length of one year or less.

NOTE 4 INVESTMENTS

Cash and cash equivalents includes investments in money market funds that are valued based on the net asset value of the funds. The investments in these funds were \$117.7 million and \$55.6 million as of September 30, 2018 and December 31, 2017, respectively. The increase from December 31, 2017 primarily stems from an additional \$100.0 million in loan proceeds received in connection with our term loan amendment that took place on June 19, 2018. See Note 6, Long-Term Debt, for additional information.

All other investments are classified as held-to-maturity and consist of highly liquid instruments, primarily including corporate bonds and commercial paper. As of September 30, 2018 and December 31, 2017, the amortized cost of these investments equaled the net carrying value, which was \$15.4 million and \$30.1 million, respectively. All held-to-maturity securities as of September 30, 2018 mature in one year or less. See Note 7, Fair Value Measurements, for additional information.

On April 13, 2017, we entered into, and subsequently amended on November 30, 2017, a term loan credit agreement (the *Term Loan Agreement*) which provided for a seven-year \$300.0 million term loan facility (the *Term Loan*) and an asset-based lending credit agreement (the *ABL Credit Agreement*) which provided for up to approximately \$100.0 million with a sublimit up to \$50.0 million for the issuance of letters of credit (the *ABL Revolver*), which may be reduced or increased pursuant to the *ABL Credit Agreement*.

On June 19, 2018, we entered into a second amendment to the *Term Loan Agreement* (the *Term Loan Second Amendment*) to (i) extend the maturity date from April 15, 2024 to April 15, 2025 and (ii) increase the aggregate principal amount of the facility from \$297.8 million to \$397.8 million. In conjunction with the *Term Loan Second Amendment*, we wrote off fees of \$1.1 million. All other provisions of the *Term Loan Agreement* were unchanged.

Also on June 19, 2018, we entered into a third amendment to the *ABL Credit Agreement* (the *ABL Third Amendment*) to (i) extend the maturity date from April 13, 2022 to June 19, 2023, (ii) increase the aggregate

revolving loan commitments from \$100.0 million to \$150.0 million and (iii) provide enhanced borrowing availability against certain types of accounts receivable.

NOTE 7 FAIR VALUE MEASUREMENTS**Assets and Liabilities Measured at Fair Value on a Recurring Basis**

In many cases, a valuation technique used to measure fair value includes inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy. During the periods presented, there were no transfers between fair value hierarchical levels.

Assets Measured at Fair Value on a Nonrecurring Basis

Certain assets, specifically other intangible and long-lived assets, are measured at fair value on a nonrecurring basis in periods subsequent to initial recognition. Assets measured at fair value on a nonrecurring basis as of September 30, 2018 and December 31, 2017 are categorized based on the lowest level of significant input to the valuation. The assets are measured at fair value when our impairment assessment indicates a carrying value for each of the assets in excess of the asset's estimated fair value. Undiscounted cash flows, a Level 3 input, are utilized in determining estimated fair values. During each of the three and nine months ended September 30, 2018 and 2017, we did not record any impairments on these assets required to be measured at fair value on a nonrecurring basis.

Estimated Fair Value of Financial Instruments

Accounts receivable, accounts payable and accrued liabilities as of September 30, 2018 and December 31, 2017 approximate fair value due to the short-term maturities of these financial instruments. The carrying amounts of our long-term debt, including the Term Loan and ABL Revolver as of September 30, 2018 and December 31, 2017, approximate fair value due to the variable rate nature of the agreements. The carrying amounts of the obligations associated with our capital leases and vehicle and equipment notes approximate fair value as of September 30, 2018 and December 31, 2017. All debt classifications represent Level 2 fair value measurements.

Derivative financial instruments are measured at fair value based on observable market information and appropriate valuation methods. Contingent consideration liabilities arise from future earnout payments to the sellers associated with certain acquisitions and are based on predetermined calculations of certain future results. These future payments are estimated by considering various factors, including business risk and projections. The contingent consideration liabilities are measured at fair value by discounting estimated future payments to their net present value using the appropriate weighted average cost of capital (WACC). The fair values of financial assets and liabilities that are recorded at fair value in the Condensed Consolidated Balance Sheets and not described above were as follows (in thousands):

NOTE 8 DERIVATIVES AND HEDGING ACTIVITIES**Cash Flow Hedges of Interest Rate Risk**

Our purpose for using interest rate derivatives is to add stability to interest expense and to manage our exposure to interest rate movements. During the first nine months of 2018, such derivatives were used to hedge the variable cash flows associated with existing variable-rate debt. To accomplish these objectives, we primarily use interest rate swaps as part of our interest rate risk management strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable amounts from a counterparty in exchange for making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount. As of September 30, 2018, we had two interest rate swaps, each with an associated floor, with a total beginning notional of \$200.0 million, one that amortizes quarterly to \$95.3 million at a maturity date of May 31, 2022 and one that amortizes quarterly to \$93.3 million at a maturity date of April 15, 2025. We also had a forward interest rate swap with an associated floor beginning May 31, 2022 with a beginning notional of \$100.0 million that amortizes quarterly to \$97.0 million at a maturity date of April 15, 2025.

Combined, these three swaps serve to hedge \$200.0 million of the variable cash flows on our Term Loan until maturity. As of December 31, 2017, we had one interest rate swap with an associated floor with a beginning notional of \$100.0 million that amortizes quarterly to \$95.3 million at a maturity date of May 31, 2022.

The changes in the fair value of derivatives designated and that qualify as cash flow hedges are recorded in accumulated other comprehensive income and subsequently reclassified into earnings in the period that the hedged forecasted transaction affects earnings. We had no such changes during the nine months ended September 30, 2018.

Table of Contents

INSTALLED BUILDING PRODUCTS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Amounts reported in accumulated other comprehensive income related to derivatives will be reclassified to interest expense, net as interest payments are made on our variable-rate debt. Over the next twelve months, we estimate that an additional \$0.4 million will be reclassified as a decrease to interest expense, net.

Additionally, we do not use derivatives for trading or speculative purposes and we currently do not have any derivatives that are not designated as hedges. As of September 30, 2018, the Company has not posted any collateral related to these agreements.

We elected to early adopt ASU 2017-12, Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities. As of January 1, 2018 and, as such, recognized a \$0.1 million adjustment to our opening retained earnings and accumulated other comprehensive income as of January 1, 2018 to reclassify the cash flow hedge ineffectiveness previously recorded in net income in the fourth quarter of 2017 to accumulated other comprehensive income.

NOTE 9 STOCKHOLDERS EQUITY

As of September 30, 2018, we had \$3.1 million in accumulated other comprehensive income on our Condensed Consolidated Balance Sheet, which represents the unrealized gain on our derivative instruments. For additional information, see Note 8, Derivatives and Hedging Activities.

On February 28, 2018, we announced that our Board of Directors authorized a \$50.0 million stock repurchase program effective March 2, 2018 through February 28, 2019, unless extended by the Board of Directors. See Note 16, Subsequent Events, for information regarding an additional stock repurchase program authorized by the Board of Directors effective November 5, 2018. During the three and nine months ended September 30, 2018, we repurchased approximately 380 thousand and 793 thousand shares of our common stock, respectively. The aggregate purchase price of our 2018 stock repurchase plan was approximately \$18.2 million and \$42.8 million, or \$47.75 and \$53.96 average price per share, for the three and nine months ended September 30, 2018, respectively. The effect of these treasury shares reducing the number of common shares outstanding is reflected in our earnings per share calculation.

NOTE 10 EMPLOYEE BENEFITS

Healthcare

Our healthcare benefit expense (net of employee contributions) for all plans was approximately \$4.5 million and \$4.1 million for the three months ended September 30, 2018 and 2017, respectively, and \$13.3 million and \$12.4 million for the nine months ended September 30, 2018 and 2017, respectively. An accrual for estimated healthcare claims incurred but not reported (IBNR) is included within accrued compensation on the Condensed Consolidated Balance Sheets and was \$2.1 million and \$1.9 million as of September 30, 2018 and December 31, 2017, respectively.

Workers Compensation

Workers' compensation expense totaled \$4.4 million and \$3.1 million for the three months ended September 30, 2018 and 2017, respectively, and \$9.7 million and \$9.8 million for the nine months ended September 30, 2018 and 2017, respectively. Workers' compensation known claims and IBNR reserves included on the Condensed Consolidated Balance Sheets were as follows (in thousands):

Retirement Plans

We participate in multiple 401(k) plans, whereby we provide a matching contribution of wages deferred by employees and can also make discretionary contributions to each plan. Certain plans allow for discretionary employer contributions only. These plans cover substantially all our eligible employees. We recognized 401(k) plan expenses of \$0.3 million and \$1.2 million during the three and nine months ended September 30, 2018 and \$0.4 million and \$1.3 million during the three and nine months ended September 30, 2017, respectively. These expenses are included in administrative expenses on the accompanying Condensed Consolidated Statements of Operations and Comprehensive Income.

Share-Based Compensation*Common Stock Awards*

During the nine months ended September 30, 2018 and 2017, we granted approximately five thousand and six thousand shares of our common stock on June 1, respectively, under our 2014 Omnibus Incentive Plan to non-employee members of our Board of Directors. The stock issued to the Board of Directors on June 1, 2017 vested immediately, whereas the stock issued on June 1, 2018 will vest over a one year service term. Accordingly, for the nine months ended September 30, 2017, we recorded approximately \$0.3 million in compensation expense within administrative expenses on the Condensed Consolidated Statements of Operations and Comprehensive Income at the time of the grant, while \$25 thousand and \$0.1 million of compensation expense was recorded during the three and nine months ending September 30, 2018.

In addition, during each of the nine months ended September 30, 2018 and 2017, we granted approximately 0.1 million shares of our common stock under our 2014 Omnibus Incentive Plan to our employees. The shares granted during each of the nine months ended September 30, 2018 and 2017 vest in three equal installments (rounded to the

nearest whole share) annually on April 20th through 2021.

During the nine months ended September 30, 2018 and 2017, our employees surrendered approximately forty-one thousand shares and ten thousand shares, respectively, of our common stock to satisfy tax withholding obligations arising in connection with the vesting of common stock awards issued under our 2014 Omnibus Incentive Plan. Share-based compensation expense associated with non-performance-based awards issued to employees was \$1.0 million and \$2.9 million for the three and nine months ended

September 30, 2018, respectively, and \$0.8 million and \$1.9 million for the three and nine months ended September 30, 2017, respectively. We recognized excess tax benefits of \$0.5 million and \$0.6 million within the income tax provision in the Condensed Consolidated Statements of Operations and Comprehensive Income for the nine months ended September 30, 2018 and 2017, respectively. We did not recognize any such excess tax benefits in the three months ended September 30, 2018 or 2017.

As of September 30, 2018, we had \$6.1 million of unrecognized compensation expense related to these nonvested common stock awards issued to the Board of Directors and our employees. This expense is subject to future adjustments for forfeitures and is expected to be recognized on a straight-line basis over the remaining weighted-average period of 1.9 years. Shares forfeited are returned as treasury shares and available for future issuances. See the table below for changes in shares and related weighted average fair market value per share.

Employees Performance-Based Stock Awards

During the nine months ended September 30, 2018, we granted under our 2014 Omnibus Incentive Plan approximately 0.1 million shares of our common stock to certain officers, which vest in two equal installments on each of April 20, 2019 and April 20, 2020. These shares were issued in connection with the performance-based targets established in 2017. In addition, during the nine months ended September 30, 2018, we established, and our Board of Directors approved, performance-based targets in connection with common stock awards to be issued to certain officers in 2019 contingent upon achievement of these 2018 targets. Share-based compensation expense associated with these performance-based awards was \$0.6 million and \$1.6 million for the three and nine months ended September 30, 2018, respectively, and \$0.3 million and \$0.7 million for the three and nine months ended September 30, 2017, respectively.

As of September 30, 2018, we had \$3.6 million of unrecognized compensation expense related to nonvested performance-based common stock awards. This expense is subject to future adjustments for forfeitures and is expected to be recognized over the remaining weighted-average period of 1.8 years using the graded-vesting method. See the table below for changes in shares and related weighted average fair market value per share.

Employees Performance-Based Restricted Stock Units

During the nine months ended September 30, 2017, we established, and our Board of Directors approved, performance-based restricted stock units in connection with common stock awards which we issued to certain employees during the nine months ended September 30, 2018. In addition, during the nine months ended September 30, 2018, we established, and our Board of Directors approved, performance-based restricted stock units in connection with common stock awards to be issued to certain employees in 2019 based upon achievement of a performance target. Share-based compensation expense associated with these performance-based awards was \$0.3 million and \$1.5 million for the three and nine months ended September 30, 2018, respectively, and \$1.0 million and \$1.7 million for the three and nine months ended September 30, 2017, respectively. All restricted stock units are accounted for as equity-based awards that are settled with a fixed number of common shares.

As of September 30, 2018, we had \$0.4 million of unrecognized compensation expense related to nonvested performance-based common stock units. This expense is subject to future adjustments for forfeitures and is expected to be recognized on a straight-line basis over the remaining weighted-average period of 0.5 years. See the table below for changes in shares and related weighted average fair market value per share.

	\$ 1,893	\$ 2,179	\$ 6,089	\$ 4,749

Administrative stock compensation expense includes all stock compensation earned by our administrative personnel, while cost of sales and selling stock compensation represents all stock compensation earned by our installation and sales employees, respectively.

NOTE 11 INCOME TAXES

Our provision for income taxes as a percentage of pretax earnings is based on a current estimate of the annual effective income tax rate adjusted to reflect the impact of discrete items.

During the three and nine months ended September 30, 2018, our effective tax rate was 25.6% and 25.0%, respectively. This rate was favorably impacted primarily by the enactment of Pub.L. 115 97, an Act to provide for reconciliation pursuant to titles II and V of the concurrent resolution on the budget for fiscal year 2018 (the Tax Act). The Tax Act reduced the U.S federal corporate tax rate from 35% to 21% effective January 1, 2018, among other changes. ASC Topic 740, *Accounting for Income Taxes*, requires companies to recognize the effect of tax law changes in the period of enactment. Pursuant to ASU 2018-05 and Staff Accounting Bulletin No. 118 (SAB 118) issued by the Securities and Exchange Commission, a company is expected to record a provisional amount when it does not have the necessary information available, prepared, or analyzed (including computations) in reasonable detail to complete the accounting for certain tax effects of the Tax Act, but a reasonable estimate can be determined. A provisional amount is not required to be recorded if a reasonable estimate cannot be determined.

We have recognized the provisional tax impacts of the Tax Act in our consolidated financial statements for the year ended December 31, 2017 included within our 2017 Form 10-K. Based on a review of the guidance issued by the Internal Revenue Service in the first, second and third quarters of 2018, no

adjustment to the provisional amount recorded in the Condensed Consolidated Financial Statements for the year ended December 31, 2017 was deemed necessary. We continue to assess new guidance and refine our computation of these provisional amounts and will complete our analysis within the one-year measurement period ending December 22, 2018.

NOTE 12 RELATED PARTY TRANSACTIONS

We sell installation services to other companies related to us through common or affiliated ownership and/or Board of Directors and/or management relationships. We also purchase services and materials and pay rent to companies with common or affiliated ownership.

We lease our headquarters and certain other facilities from related parties. See Note 13, Commitments and Contingencies, for future minimum lease payments to be paid to these related parties.

For the three and nine months ended September 30, 2018 and 2017, the amount of sales to related parties as well as the purchases from and rent expense paid to related parties were as follows (in thousands):

	Three months ended September 30,		Nine months ended September 30,	
	2018	2017	2018	2017
Sales	\$ 3,259	\$ 2,641	\$ 9,361	\$ 7,363
Purchases	372	302	1,207	901
Rent	257	290	829	875

As of September 30, 2018 and December 31, 2017, we had related party balances of approximately \$2.4 million and \$2.0 million, respectively, included in accounts receivable on our Condensed Consolidated Balance Sheets. These balances primarily represent trade accounts receivable arising during the normal course of business with various related parties. M/I Homes, Inc., a customer whose Chairman, President and Chief Executive Officer is a member of our Board of Directors, accounted for \$1.4 million and \$1.0 million of these balances as of each of September 30, 2018 and December 31, 2017, respectively.

NOTE 13 COMMITMENTS AND CONTINGENCIES**Accrued General Liability**

Accrued general insurance reserves included on the Condensed Consolidated Balance Sheets were as follows (in thousands):

Leases

We are obligated under capital leases covering vehicles and certain equipment. The vehicle and equipment leases generally have initial terms ranging from four to six years. Total gross assets relating to capital leases were approximately \$60.9 million and \$63.4 million as of September 30, 2018 and December 31, 2017, respectively, and a total of approximately \$32.3 million and \$26.8 million were fully depreciated as of September 30, 2018 and December 31, 2017, respectively. The net book value of assets under capital leases was approximately \$9.7 million and \$13.0 million as of September 30, 2018 and December 31, 2017, respectively. Amortization of assets held under capital leases is included within cost of sales on the Condensed Consolidated Statements of Operations and Comprehensive Income.

We also have several noncancellable operating leases, primarily for buildings, improvements, equipment and certain vehicles. These leases generally contain renewal options for periods ranging from one to five years and require us to pay all executory costs such as property taxes, maintenance and insurance.

Future minimum lease payments under noncancellable operating leases (with initial or remaining lease terms in excess of one year) with related parties as of September 30, 2018 are as follows (in thousands):

Remainder of 2018	\$ 294
2019	1,249
2020	1,277
2021	1,154
2022	1,073

Other Commitments and Contingencies

From time to time, various claims and litigation are asserted or commenced against us principally arising from contractual matters and personnel and employment disputes. In determining loss contingencies, management considers the likelihood of loss as well as the ability to reasonably estimate the amount of such loss or liability. An estimated loss is recorded when it is considered probable that such a liability has been incurred and when the amount of loss can be reasonably estimated. As litigation is subject to inherent uncertainties, we cannot be certain that we will prevail in these matters. However, we do not believe that the ultimate outcome of any pending matters will have a material adverse effect on our consolidated financial position, results of operations or cash flows.

During the nine months ended September 30, 2018, we entered into an agreement with one of our suppliers to purchase a portion of the insulation materials we utilize across our business. This agreement is effective January 1, 2019 through December 31, 2021 with a purchase obligation of \$25.8 million for 2019, \$20.8 million for 2020 and \$14.6 million for 2021.

NOTE 14 BUSINESS COMBINATIONS

As part of our ongoing strategy to expand geographically and increase market share in certain markets, we completed eight business combinations and one minor acquisition merged into existing operations during the nine months ended September 30, 2018 and seven business combinations and two minor acquisitions merged into existing operations during the nine months ended September 30, 2017, respectively, in which we acquired 100% of the ownership interests in each.

The largest of these acquisitions were Custom Overhead Door, LLC dba Custom Door & Gate (collectively, CDG) in March 2018, Trilok Industries, Inc., Alpha Insulation and Waterproofing Inc. and Alpha Insulation and Waterproofing Company (collectively, Alpha) in January 2017, Columbia Shelving & Mirror, Inc. and Charleston Shelving & Mirror, Inc. (collectively, Columbia) in June 2017, and All In Insulation, LLC d/b/a/ Astro Insulation (collectively, Astro) in September 2017. The remaining acquisitions were individually insignificant, but material in the aggregate, and are included in Other within each table below. Net Income, as noted below, includes amortization, taxes and interest allocations when appropriate.

- (1) The cash paid included \$21.7 million in contingent consideration to satisfy purchase price adjustments related to cash and net working capital requirements, earnout consideration based on Alpha's change in EBITDA from 2015 and a customary holdback. These payments were based on fair value of each contingent payment at the time of acquisition and subsequently adjusted during the measurement period. We issued 282,577 shares of our common stock with a fair value of \$10.9 million.

Acquisition-related costs recorded within administrative expenses on the Condensed Consolidated Statements of Operations and Comprehensive Income amounted to \$0.7 million and \$1.9 million for the three and nine months ended September 30, 2018, respectively, and \$0.9 million and \$2.3 million for the three and nine months ended September 30, 2017, respectively. The goodwill recognized in conjunction with these business combinations represents the excess cost of the acquired entity over the net amount assigned to assets acquired and liabilities assumed. We expect to deduct approximately \$12.4 million of goodwill for tax purposes as a result of 2018 acquisitions.

Purchase Price Allocations

The estimated fair values of the assets acquired and liabilities assumed for the acquisitions, as well as total purchase prices and cash paid, approximated the following as of September 30 (in thousands):

Contingent consideration is included as seller obligations in the above table or within fair value of assets acquired if subsequently paid during the period presented. These contingent payments consist primarily of earnouts based on performance that are recorded at fair value at the time of acquisition, and/or non-complete agreements and amounts based on working capital calculations. When these payments are expected to be made over one year from the acquisition date, the contingent consideration is discounted to net present value using our weighted average cost of capital (WACC), when appropriate.

Further adjustments to the allocation for each acquisition still under its measurement period are expected as third-party and internal valuations are finalized, certain tax aspects of the transaction are completed and customary post-closing reviews are concluded during the measurement period attributable to each individual business combination. As a result, insignificant adjustments to the fair value of assets acquired, and in some cases total purchase price, have been made to certain business combinations since the date of acquisition and future adjustments may be made through the end of each measurement period. Goodwill and intangibles per the above table do not agree to the total gross increases of these assets as shown in Note 5, Goodwill and Intangibles, during each of the nine months ended September 30, 2018 and 2017 due to minor adjustments to goodwill for the allocation of certain acquisitions still under measurement. In addition, goodwill and intangibles increased during each of the nine months ended September 30, 2018 and 2017 due to small acquisitions merged into existing operations that do not appear in the above table.

The provisional amounts for Alpha originally reported in our Condensed Consolidated Balance Sheets included in our Quarterly Report on Form 10-Q for the period ended March 31, 2017 were adjusted during the measurement period to reflect the review and ongoing analysis of the fair value measurements. As a result of our continued evaluation during the measurement period, during the twelve months ended December 31, 2017, we increased goodwill by approximately \$2.1 million, offset by a corresponding net reduction in various working capital accounts.

The provisional amounts for Columbia originally reported in our Condensed Consolidated Balance Sheets included in our Quarterly Report on Form 10-Q for the period ended June 30, 2017 were adjusted to reflect the review and ongoing analysis of the fair value measurements. As a result of our continued evaluation during the measurement period, we increased goodwill by approximately \$0.5 million and our seller obligations by approximately \$0.4 million for an adjustment to the fair value of a working capital contingent liability. These adjustments, as well as various other insignificant adjustments, resulted in a total purchase price increase for Columbia of approximately \$0.6 million as reflected within the above table and were within applicable measurement period guidelines.

Unaudited pro forma net income reflects additional intangible asset amortization expense of \$0.2 million and \$1.2 million for the three and nine months ended September 30, 2018 and \$0.9 million and \$3.2 million for the three and nine months ended September 30, 2017, respectively, as well as additional income tax expense of \$0.2 million and \$0.7 million for the three and nine months ended September 30, 2018 and \$0.5 million and \$2.0 million for the three and nine months ended September 30, 2017, respectively, that would have been recorded had the 2018 acquisitions taken place on January 1, 2017 and the 2017 acquisitions taken place on January 1, 2016.

NOTE 15 INCOME PER COMMON SHARE

Basic net income per common share is calculated by dividing net income by the weighted average shares outstanding during the period, without consideration for common stock equivalents.

Diluted net income per common share is calculated by adjusting weighted average shares outstanding for the dilutive effect of common stock equivalents outstanding for the period, determined using the treasury stock method. Potential common stock is included in the diluted income per common share calculation when dilutive. The dilutive effect of outstanding restricted stock awards after application of the treasury stock method was 84 thousand and 138 thousand shares for the three and nine months ended September 30, 2018, respectively, and 107 thousand and 80 thousand shares for the three and nine months ended September 30, 2017, respectively.

NOTE 16 SUBSEQUENT EVENTS

On October 31, 2018, we acquired substantially all of the assets of Advanced Fiber Technology, a manufacturer of cellulose, asphalt and industrial fibers. The initial accounting for the business combination was not complete at the time the financial statements were issued due to the timing of the acquisition and the filing of this Quarterly Report on Form 10-Q. As a result, disclosures required under ASC 805-10-50, Business Combinations, cannot be made at this time.

On October 31, 2018, IBP's Board of Directors approved an additional stock repurchase program, effective November 5, 2018, pursuant to which we may purchase up to an additional \$100 million of our outstanding common stock. The program will remain in effect until February 28, 2020, unless extended by the Board of Directors.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with our consolidated financial statements and related notes in Item 1. Financial Statements of this Form 10-Q, as well as our 2017 Form 10-K.

OVERVIEW

We are one of the nation's largest insulation installers for the residential new construction market and are also a diversified installer of complementary building products, including waterproofing, fire-stopping and fireproofing, garage doors, rain gutters, shower doors, closet shelving, mirrors and other products throughout the United States. We offer our portfolio of services for new and existing single-family and multi-family residential and commercial building projects in all 48 continental states and the District of Columbia from our national network of over 125 branch locations. Substantially all of our net revenue comes from service-based installation of these products in the residential new construction, repair and remodel and commercial construction end markets. We believe our business is well positioned to continue to profitably grow due to our strong balance sheet, liquidity and our continuing acquisition strategy.

A large portion of our net revenue comes from the U.S. residential new construction market, which depends upon a number of economic factors including demographic trends, interest rates, consumer confidence, employment rates, housing inventory levels, foreclosure rates, the health of the economy and availability of mortgage financing.

The recently passed Tax Act has added additional momentum to the economic landscape surrounding our business. While there have been concerns about the impact of the new tax law on housing, initial analyses are suggesting that it is generally stimulative to the economy. Sentiment continues to materialize that state and local tax deductibility changes have caused negative impacts in certain areas of the country where housing affordability has contributed to slowing demand during the first nine months of 2018. We may adjust our strategies based on housing demand and our performance in each of our markets.

2018 Third Quarter Highlights

Net revenue increased 18.2% or \$53.8 million to \$349.0 million, while gross profit increased 13.7% or \$11.8 million, during the three months ended September 30, 2018 compared to 2017. The increase in net revenue and gross profit was primarily driven by the continued recovery of the housing markets, the contribution of our recent acquisitions and growth across our end markets and products, with the increase in gross margin being partially offset by material inflation and labor related expenses.

During the third quarter of 2018, we entered into a seven-year interest rate swap with a beginning notional of \$100.0 million that serves to hedge the variable cash flows associated with existing variable-rate debt on the incremental \$100.0 million principal borrowings and one-year extension added to our Term Loan during the second quarter of 2018. We also entered into a forward interest rate swap beginning May 31, 2022 with a beginning notional of \$100.0 million. Including our pre-existing interest rate swap, these three swaps serve to hedge \$200.0 million of the variable cash flows on our Term Loan until maturity.

We believe there are several trends that should drive long-term growth in the housing market. These trends include an aging housing stock, population growth and household formation growth. These positive trends are reflected in Blue Chip Economic Indicators' October 2018 consensus forecast, which projects housing starts to increase from approximately 1.2 million in 2017 to approximately 1.3 million in 2019. We expect that our net revenue, gross profit and operating income will benefit from this growth. While we are actively increasing pricing with our customers, we

have realized selling price increases at a slower rate than the increase in material costs. We have been successful negotiating better pricing with our customers and experienced solid price increase momentum during the first nine months of 2018.

Table of Contents

While we continue to proactively work with customers and suppliers to mitigate these cost impacts, we continue to experience inflation on our materials and it may take a few quarters for us to fully address the current material price environment.

Sales performance

Net revenues increased during the third quarter and first nine months of 2018 compared to 2017, primarily driven by acquisitions, organic growth from our existing branches and increased selling prices. For the three and nine months ended September 30, 2018, on a same branch basis, net revenue improved 12.2% and 11.6%, respectively, with slightly more than half of the increase for both periods attributable to growth in the number of completed jobs with the rest attributable to price gains and more favorable customer and product mix. We also saw organic growth in our large commercial construction end market of 15.8% and 11.0% during the three and nine months ended, September 30, 2018, respectively, while same branch new residential sales increased 11.3% and 11.6%, compared to growth in U.S. housing completions of 9.6% and 8.7% for the three and nine months ended September 30, 2018, respectively. Net revenue for the three and nine months ended September 30 was as follows (in thousands):

	Three months ended September 30,			Nine months ended September 30,		
	2018	Change	2017	2018	Change	2017
Same branch ⁽¹⁾	\$ 331,205	34.4%	\$ 246,486	\$ 929,752	34.5%	\$ 691,290

Total net revenues	\$ 348,999	18.2%	\$ 295,193	\$ 983,311	18.0%	\$ 833,058

(1) Represents sales for branch locations owned for greater than 12 months as of the financial statement date.

(2) Represents sales for branch locations owned for less than 12 months as of the financial statement date.

Cost of sales and gross profit

Gross profit for the three and nine months ended September 30 was as follows (dollars in thousands):

	Three months ended September 30,			Nine months ended September 30,		
	2018	Change	2017	2018	Change	2017
Net revenues	\$ 348,999	18.2%	\$ 295,193	\$ 983,311	18.0%	\$ 833,058
Cost of sales	251,665	20.1%	209,612	710,358	20.3%	590,377
Gross profit	\$ 97,334	13.7%	\$ 85,581	\$ 272,953	12.5%	\$ 242,681

Gross profit percentage 27.9% 29.0% 27.8% 29.1%

As a percentage of net revenue, gross profit decreased during the three and nine months ended September 30, 2018 compared to 2017 attributable primarily to industry-wide material cost increases beginning in January of this year as well as the impacts of our financial wellness plan, stock compensation plan for installers and branch start-up costs,

partially offset by improvements in labor utilization.

Operating expenses

Operating expenses for the three and nine months ended September 30 were as follows (dollars in thousands):

Selling

The dollar increases in selling expenses for the three and nine months ended September 30, 2018 were primarily driven by increased selling wages, commissions and bonuses on an increased sales base. Selling expense, as a percentage of sales, decreased slightly for the nine months ended September 30, 2018 compared to 2017 primarily due to lower bad debt expense.

Administrative

The increase in administrative expenses for the three and nine months ended September 30, 2018 was primarily due to an increase in wages, benefits and facility costs attributable to both acquisitions and organic growth, as well as legal expenses as a result of a legal settlement in the state of California amounting to \$0.8 million. Administrative expense decreased as a percentage of sales for the three and nine months ended September 30, 2018 compared to 2017 primarily due to lower bonus expense, as well as lower liability and medical insurance expense.

Other expense

Other expense, net for the three and nine months ended September 30 was as follows (dollars in thousands):

	Three months ended September 30,			Nine months ended September 30,		
	2018	Change	2017	2018	Change	2017
Interest expense, net	\$ 5,282	19.5%	\$ 4,421	\$ 15,013	31.0%	\$ 11,456
Other	132	59.0%	83	417	13.9%	366
Total other expense	\$ 5,414	20.2%	\$ 4,504	\$ 15,430	30.5%	\$ 11,822

The increase in interest expense during the three and nine months ended September 30, 2018 compared to 2017 was due to increased debt balances associated with our borrowings to support acquisition-related growth.

Income tax provision

Income tax provision and effective tax rates for the three and nine months ended September 30 were as follows (dollars in thousands):

	Three months ended September 30,	Nine months ended September 30,
	2018	2017
	2018	2017

Edgar Filing: Installed Building Products, Inc. - Form 10-Q

Income tax provision	\$ 5,358	\$ 5,721	\$ 12,762	\$ 15,502
Effective tax rate	25.6%	32.3%	25.0%	33.8%

During the three and nine months ended September 30, 2018, our tax rate was favorably impacted primarily by the effects of the Tax Act, which reduced the U.S federal corporate tax rate from 35% to 21%, usage of net operating losses for a tax filing entity which previously had a full valuation allowance and excess tax benefits from share-based compensation arrangements. This favorability was partially offset by separate tax filing entities in a loss position for which a full valuation allowance will be accounted for against the losses, causing no tax benefit to be recognized on the losses, as well as the loss of the domestic production activities deduction resulting from the enactment of the Tax Act.

Table of Contents

The ultimate impact of the Tax Act may differ from these provisional amounts, possibly materially, due to, among other things, additional analysis, changes in interpretations and assumptions we have made, additional regulatory guidance that may be issued and actions we may take as a result of the Tax Act. We have recognized the provisional tax impacts of the Tax Act in our Condensed Consolidated Financial Statements for the year ended December 31, 2017 included within our 2017 Form 10-K. Based on a review of the guidance issued by the Internal Revenue Service in the first nine months of 2018, no adjustment to the provisional amount recorded in the Condensed Consolidated Financial Statements for the year ended December 31, 2017 was deemed necessary. We continue to assess new guidance and refine our computation of these provisional amounts and will complete our analysis within the one-year measurement period ending December 22, 2018.

KEY FACTORS AFFECTING OUR OPERATING RESULTS

Cost of materials

We purchase the materials that we install primarily from manufacturers. The industry supply of materials we install was disrupted due to a catastrophic failure at a manufacturer's facility during the fourth quarter of 2017, resulting in insulation material allocation throughout the industry and, as a result, increased market pricing in 2018. Increased market pricing, regardless of the catalyst, has and could continue to impact our results of operations, to the extent that price increases cannot be passed on to our customers. See Management's Discussion and Analysis of Financial Conditions and Results of Operations Overview 2018 Third Quarter Highlights.

Liquidity and capital resources

Our capital resources primarily consist of cash from operations and borrowings under our credit agreement and capital equipment leases and loans. Our primary capital requirements are to fund working capital needs, operating expenses, acquisitions and capital expenditures and meet required principal and interest payments. We also use our resources to fund our stock repurchase program. Our investments consist of highly liquid instruments primarily including corporate bonds and commercial paper. As of September 30, 2018, we had no outstanding borrowings under our ABL Revolver.

On June 19, 2018, we entered into a second amendment to the Term Loan Agreement (the Term Loan Second Amendment) to (i) extend the maturity date from April 15, 2024 to April 15, 2025 and (ii) increase the aggregate principal amount of the facility from \$297.8 million to \$397.8 million. In conjunction with the Term Loan Second Amendment, we wrote off fees of \$1.2 million. All other provisions of the Term Loan Agreement were unchanged.

Also on June 19, 2018, we entered into a third amendment to the ABL Credit Agreement (the ABL Third Amendment) to (i) extend the maturity date from April 13, 2022 to June 19, 2023, (ii) increase the aggregate revolving loan commitments from \$100.0 million to \$150.0 million and (iii) provide enhanced borrowing availability against certain types of accounts receivable.

Furthermore, on July 16, 2018, we entered into a seven-year interest rate swap with a beginning notional of \$100.0 million, as well as a forward interest rate swap beginning May 31, 2022 with a beginning notional of \$100.0 million. These derivatives serve to hedge the variable cash flows associated with existing variable-rate debt on the incremental \$100.0 million principal borrowings and one-year extension added to our Term Loan during the second quarter of 2018. Combined with our pre-existing interest rate swap, these three swaps serve to hedge \$200.0 million of the variable cash flows on our Term Loan until maturity.

Table of Contents

Our acquisition of Alpha, which was completed on January 5, 2017, required us to commit significant resources to the acquisition and ongoing support of Alpha's business. This acquisition was funded by drawing on the credit facility in existence at that time.

We believe that our cash flows from operations, combined with our current cash levels and available borrowing capacity, will be adequate to support our ongoing operations and to fund our debt service requirements, capital expenditures and working capital for at least the next 12 months as evidenced by our net positive cash flows from operations for each of the nine months ended September 30, 2018 and 2017. At September 30, 2018, we were in compliance with all applicable covenants under our borrowing agreements.

The following table summarizes our liquidity (in thousands):

	As of September 30, 2018	As of December 31, 2017
Cash and cash equivalents	\$ 139,089	\$ 62,510
Short-term investments	15,358	30,053
ABL Revolver ⁽¹⁾	150,000	100,000
Less: outstanding letters of credit and cash-collateral	(28,537)	(17,902)
Total liquidity	\$ 275,910	\$ 174,661

⁽¹⁾ Liquidity under our ABL Revolver is currently capped by our borrowing base availability. As such, our actual liquidity from this instrument as of September 30, 2018, is less than the amount shown in the above table.

Letters of Credit and Bonds

We may use performance bonds to ensure completion of our work on certain larger customer contracts that can span multiple accounting periods. Performance bonds generally do not have stated expiration dates; rather, we are released from the bonds as the contractual performance is completed. In addition, we occasionally use letters of credit and cash to secure our performance under our general liability and workers' compensation insurance programs. Permit and license bonds are typically issued for one year and are required by certain municipalities when we obtain licenses and permits to perform work in their jurisdictions. The following table summarizes our outstanding bonds, letters of credit and cash-collateral as of September 30, 2018 (in thousands):

	2018
Performance bonds	\$ 36,785
Insurance letters of credit and cash-collateral	28,537
Permit and license bonds	6,749
Total bonds and letters of credit	\$ 72,071

In January 2018, we posted \$10.0 million into a trust to serve as additional collateral for our workers' compensation and general liability policies. This \$10.0 million can be converted to a letter of credit at our discretion and is therefore not considered to be restricted cash.

Historical cash flow information

Cash flows from operating activities

Net cash provided by operating activities was \$68.8 million and \$53.3 million for the nine months ended September 30, 2018 and 2017, respectively. Generally, the primary driver of our cash flows from

Table of Contents

operating activities is operating income adjusted for certain non-cash items, offset by cash payments for taxes and interest on our outstanding debt. Our cash flows from operations can be impacted by the timing of our cash collections on sales and collection of retainage amounts. In addition, cash flows are seasonally stronger in the third and fourth quarters as a result of increased construction activity.

Cash flows from investing activities

Business Combinations. During the nine months ended September 30, 2018 and 2017, we made cash payments, net of cash acquired, of \$34.7 million and \$131.0 million, respectively, on business combinations. Our acquisition of Alpha in January 2017 required an investing cash outlay of \$103.8 million.

Capital Expenditures. Total cash paid for property and equipment was \$27.1 million and \$22.9 million for the nine months ended September 30, 2018 and 2017, respectively, and was primarily related to purchases of vehicles and various equipment to support our growing operations. We expect to continue to support any increases in 2018 net revenue through further capital expenditures.

Other. During the nine months ended September 30, 2018 and 2017, we invested \$22.8 million and \$25.2 million, respectively, in short-term investments consisting primarily of corporate bonds and commercial paper and had \$37.5 million in short-term investments that matured during the nine months ended September 30, 2018.

Cash flows from financing activities

We utilize our credit facilities to support our operations and continuing acquisitions, fund our stock repurchase program and finance our fleet expansion. During the nine months ended September 30, 2018 and 2017, we had cash inflows from our credit facilities, net of payments on these instruments and other long-term debt, amounting to \$88.9 million and \$183.3 million, respectively, to support those initiatives. In addition, we made \$4.3 million and \$5.6 million in principal payments on our capital leases during the nine months ended September 30, 2018 and 2017, respectively, and received proceeds of \$20.7 million and \$15.8 million during the nine months ended September 30, 2018 and 2017, respectively, from our fixed asset loans, which serve to offset a significant portion of the capital expenditures included in cash flows from investing activities as described above. Lastly, we repurchased approximately 793 thousand shares of our common stock for \$42.8 million during the nine months ended September 30, 2018 as part of our 2018 stock repurchase plan. See Note 9, Stockholders' Equity for more information surrounding our stock repurchase plan.

Capped Call Agreement

Certain of our stockholders entered into a capped call agreement with the underwriters of the secondary offering of our common stock completed on June 17, 2014. This agreement provided these stockholders with an option to call from the underwriters a total of approximately 1.0 million shares of our common stock at a capped price, with settlement required to be made in cash. During 2016, these stockholders exercised the call option with respect to approximately 0.7 million of the shares. In addition, in the fourth quarter of 2016, these stockholders simultaneously cancelled the remaining portion of the call option and purchased a new call option from the underwriters. This new capped call agreement provided these stockholders with the option to call from the underwriters a total of approximately 0.4 million shares of our common stock at a capped price. The option was exercised on April 16, 2018 and was settled in cash. The capped call agreement is between these stockholders and the underwriters and does not represent compensation to the stockholders for services rendered to us. The price paid for the option represents the fair value of that transaction and we are not a party to the agreement. Accordingly, we have not recorded any expense related to this transaction.

Table of Contents**Contractual Obligations**

During the nine months ended September 30, 2018, we entered into an agreement with one of our suppliers to purchase a portion of the insulation materials we utilize across our business. The intention of this agreement, in part, is to purchase a minimum quantity of materials at a set price, ensuring supply and locking in prices at agreed-upon rates. This agreement is effective January 1, 2019 through December 31, 2021 with a purchase obligation of \$25.8 million for 2019, \$20.8 million for 2020 and \$14.6 million for 2021.

Critical Accounting Policies and Estimates

During the nine months ended September 30, 2018, we changed certain of our critical accounting policies and estimates, from those previously disclosed in our 2017 Form 10-K, in relation to our revenue recognition and our hedge accounting, as a result of the adoption of new accounting standards on January 1, 2018.

Recently Adopted Accounting Pronouncements

Standard	Adoption
ASU 2014-09, <i>Revenue from Contracts with Customers (Topic 606)</i>	ASC 606 sets forth a new revenue recognition model that requires identifying the contract(s) with a customer, identifying the performance obligations in the contract, determining the transaction price, allocating the transaction price to the performance obligations and recognizing the revenue upon satisfaction of performance obligations. We adopted the provisions of ASU 2014-09 and related subsequently-issued amendments beginning on January 1, 2018 using the modified retrospective approach and, as such, recognized a \$2.1 million cumulative effect, net of tax, of initially applying the standard as an increase to the opening balance of retained earnings on January 1, 2018. See Note 3, Revenue Recognition, for further information regarding our revenue recognition policies and the revisions to correct certain immaterial misstatements.
ASU 2017-12, <i>Derivatives and Hedging (Topic 815): Targeted Improvements to accounting for Hedging Activities</i>	ASU 2017-12 better aligns a company's risk management activities and financial reporting for hedging relationships and makes certain improvements to simplify the application of hedge accounting guidance. For public business entities, this update is effective for financial statements issued for fiscal years beginning after December 15, 2018 and interim periods within those fiscal years, with early adoption permitted. We elected to early adopt this ASU effective January 1, 2018 and, as such, recognized a \$0.1 million adjustment to our opening retained earnings and accumulated other comprehensive income as of January 1, 2018 to reclassify the cash flow hedge ineffectiveness previously recorded in net income in the fourth quarter of 2017 to accumulated other comprehensive income.
ASU 2018-05, <i>Income Taxes (Topic 740): Amendments to SEC Paragraphs Pursuant to SEC Staff</i>	In March 2018, the Financial Accounting Standards Board issued ASU 2018-05, which became effective immediately. ASU 2018-05 adds various SEC paragraphs pursuant to the issuance of the December 2017 SEC Staff Accounting Bulletin No. 118, Income Tax Accounting Implications of the Tax Cuts and Jobs Act (SAB 118). See Note 11, Income Taxes, for additional information regarding the adoption of ASU 2018-05.

ASU 2018-15 amends the existing accounting standards for capitalizing implementation costs of internal-use software by including service contracts in a cloud computing arrangement. For public business entities, this update is effective for financial statements issued for fiscal years beginning after December 15, 2019 and interim periods therein, with early adoption permitted. We elected to early adopt this ASU using the prospective approach effective July 1, 2018 and, as such, have capitalized certain implementation costs associated with service contracts in a cloud computing arrangement. The effects of adoption were not significant.

Forward-Looking Statements

This report contains forward-looking statements within the meaning of the federal securities laws, including with respect to the housing market, our financial and business model, our efforts to navigate the material pricing environment, our ability to increase selling prices, our material and labor costs, demand for our services and product offerings, expansion of our national footprint and diversification, our ability to capitalize on the new home and commercial construction recovery, our ability to grow and strengthen our market position, our ability to pursue and integrate value-enhancing acquisitions, our ability to improve sales and profitability, expectations for demand for our services and our earnings in 2018 and expectations for 2019. Forward-looking statements may generally be identified by the use of words such as anticipate, believe, estimate, project, predict, possible, forecast, may, could, should, expect, intends, plan, and will or, in each case, their negative, or other variations or comparable terminology. These forward-looking statements include all matters that are not historical facts. By their nature, forward-looking statements involve risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. Any forward-looking statements that we make herein and in any future reports and statements are not guarantees of future performance, and actual results may differ materially from those expressed in or suggested by such forward-looking statements as a result of various factors, including, without limitation, general economic and industry conditions, the material price environment, and the factors discussed in the Risk Factors section of our 2017 Form 10-K, as the same may be updated from time to time in our subsequent filings with the SEC. Any forward-looking statement made by the Company in this report speaks only as of the date hereof. New risks and uncertainties arise from time to time and it is impossible for the Company to predict these events or how they may affect it. The Company has no obligation, and does not intend, to update any forward-looking statements after the date hereof, except as required by federal securities laws.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to market risks related to fluctuations in interest rates on our outstanding variable rate debt. Upon entering the Term Loan Second Amendment during the nine months ended September 30, 2018, we increased the aggregate principal amount of our debt by \$100.0 million. On July 16, 2018, we entered a seven-year interest rate swap with a beginning notional of \$100.0 million that serves to hedge the additional \$100.0 million term loan. We also entered into a forward interest rate swap beginning May 31, 2022 with beginning notional of \$100.0 million. All of our derivatives combine to reduce our variable rate debt by \$200.0 million, resulting in total variable rate debt exposed to market risks of \$198.3 million as of September 30, 2018. A hypothetical one percentage point increase (decrease) in interest rates on our variable rate debt would increase (decrease) our annual interest expense by

approximately \$2.0 million.

Table of Contents**Item 4. Controls and Procedures****Evaluation of Disclosure Controls and Procedures**

We have evaluated the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report with the participation of our Chief Executive Officer (CEO) and Chief Financial Officer (CFO) as required by Exchange Act Rules 13a-15(e) and 15d-15(e). Based on that evaluation, our CEO and CFO concluded that our disclosure controls and procedures were effective as of September 30, 2018.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the three months ended September 30, 2018 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

	380,694	\$ 47.75	380,694	\$ 7.2 million

- (1) On February 28, 2018, we announced that our Board of Directors authorized a \$50 million stock repurchase program effective March 2, 2018 through February 28, 2019, unless extended by the Board of Directors. We repurchased 380,694 shares for \$18.2 million during the three months ended September 30, 2018 under this stock repurchase program. We repurchased 412,717 shares for \$24.6 million in the first quarter of 2018 under this stock repurchase program and did not repurchase any shares in the second quarter of 2018.
