The Fund invests primarily in debt securities issued by California municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at December 31, 2018, 14.2% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution or financial guaranty assurance agency ranged from 0.9% to 7.8% of total investments.

(1) Security represents the municipal bond held by a trust that issues residual interest bonds.

The Fund did not have any open derivative instruments at December 31, 2018.

Under generally accepted accounting principles for fair value measurements, a three-tier hierarchy to prioritize the assumptions, referred to as inputs, is used in valuation techniques to measure fair value. The three-tier hierarchy of inputs is summarized in the three broad levels listed below.

Level 1 quoted prices in active markets for identical investments

Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including a fund's own assumptions in determining the fair value of investments)

In cases where the inputs used to measure fair value fall in different levels of the fair value hierarchy, the level disclosed is determined based on the lowest level input that is significant to the fair value measurement in its entirety. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

At December 31, 2018, the hierarchy of inputs used in valuing the Fund's investments, which are carried at value, were as follows:

Asset Description	Level 1	Level 2	Level 3	Total
Tax-Exempt Investments	\$	\$ 526,457,116	\$	\$ 526,457,116
Total Investments	\$	\$ 526,457,116	\$	\$ 526,457,116

For information on the Fund's policy regarding the valuation of investments and other significant accounting policies, please refer to the Fund's most recent financial statements included in its semiannual or annual report to shareholders.

Reorganization

As of the close of business on December 14, 2018, the Fund acquired the net assets of Eaton Vance California Municipal Bond Fund II (California Fund II), pursuant to a plan of reorganization approved by the shareholders of California Fund II. The investment portfolio of California Fund II, with a fair value of \$79,072,648 and identified cost of \$76,841,447 was the principal asset acquired by the Fund. For financial reporting purposes, assets received and shares issued by the Fund were recorded at fair value; however, the identified cost of the investments received from California Fund II was carried forward to align ongoing reporting of the Fund's realized and unrealized gains and losses with amounts distributable to shareholders for tax purposes. The aggregate net assets of the Fund immediately before the acquisition were \$251,386,702. The net assets of California Fund II at that date of \$46,853,792 were combined with those of the Fund, resulting in combined net assets of \$298,240,494.
