Item 1. Report to Shareholders.

DECEMBER 31

ANNUAL REPORT

TCW Strategic Income Fund, Inc.

Beginning on January 1, 2021, as permitted by regulations adopted by the Securities and Exchange Commission, paper copies of the Funds annual and semi-annual shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports. Instead, the reports will be made available on the Funds website (www.tcw.com), and you will be notified by mail each time a report is posted and provided with a website link to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. You may elect to receive shareholder reports and other communications from the Funds or your financial intermediary electronically by contacting your financial intermediary (such as a broker-dealer or bank) if you invest through a financial intermediary, or by calling 1-800-FUND-TCW (1-800-386-3829) if you invest directly with the Funds.

Beginning on January 1, 2019, you may elect to receive all future reports in paper free of charge. You can call 1-800-FUND-TCW (1-800-386-3829), if you invest directly with the Funds, or contact your financial intermediary, if you invest though a financial intermediary, to inform the Funds or the financial intermediary that you wish to continue receiving paper copies of your shareholder reports. Your election to receive reports in paper will apply to all Funds held directly with TCW or through your financial intermediary.

To Our Valued Shareholders

David S. DeVito

President, Chief Executive Officer and Director

Dear Valued Shareholder:

TCW is pleased to present the 2018 annual report for the TCW Strategic Income Fund (TSI or the Fund). TSI is a multi-asset class closed-end fund managed by TCW Investment Management Company and is listed on the New York Stock Exchange under the ticker TSI. For 2018, shares of TSI experienced a negative 3.88% return while the Fund s net asset value (i.e., returns of the underlying assets) actually increased by 1.86%. For reference, TSI s customized benchmark fell by 1.00%. Although the underlying assets outperformed its benchmark, the Fund s year-to-date price based return was lower than the NAV based return due to an increase in the discount between NAV and share price from 0.68% at the beginning of the year to 6.73% at December 31, 2018. Annualized price based performance over most longer periods generally remained ahead of the Fund s benchmark.

In 2018, the Fund paid quarterly dividends of 6.65 cents per share in the first quarter, 6.98 cents per share in the second quarter, 7.74 cents per share in the third quarter, and 12.90 cents per share in the fourth quarter, as well as a short and a long term capital gains distribution of 0.70 cents per share and 2.30 cents per share, respectively. This represents an annualized rate of approximately 34 cents per share, contributing to a realized 12-month trailing yield of 7.07%, as of 12/31/2018. Of course, since yield is a function of a number of parameters, the go-forward yield of TSI will likely differ from the trailing figure.

Fund Performance

| | Annualized Total Return as of December 31, 2018 | | | | | | |
|---------------------------------|---|--------|--------|--------|---------|-----------------------------|-----------------------------|
| | YTD | 1 Year | 3 Year | 5 Year | 10 Year | Since 3/1/06 ⁽²⁾ | Since 3/5/87 ⁽³⁾ |
| Price Based Return | -3.88% | -3.88% | +6.02% | +5.10% | +14.90% | +9.92% | +8.06% |
| NAV Based Return | +1.86% | +1.86% | +4.50% | +4.34% | +13.16% | +8.89% | +8.42% |
| Custom Benchmark ⁽¹⁾ | -1.00% | -1.00% | +5.38% | +4.26% | +8.08% | +5.79% | N/A |

- (1) Custom Benchmark Index: 15% S&P 500 with Income, 15% Merrill Lynch Convertible Index, 45% Barclays Capital Aggregate Bond Index, 25% Citi High Yield Cash Pay Index. Past performance is no guarantee of future results. Current performance may be lower or higher than that quoted. The market value and net asset value of the Fund's shares will fluctuate with market conditions. Returns shown do not reflect the deduction of taxes that a shareholder would pay on the Fund's distributions. You should not draw any conclusions about the Fund's performance from the amount of the quarterly distribution or from the terms of the Fund's distribution policy.
- (2) The date on which the Fund's investment objective changed to a multi-asset class fund. Prior to this date, the Fund primarily invested in convertible securities.
- (3) Inception date of the Fund.

Management Commentary

TCW manages the portfolio of securities according to a full cycle discipline. Effectively, this means that our management style opportunistically increases the level of risk taking with respect to the assets in the early years of an asset price/credit cycle. In the latter stages of the cycle, our proclivity is to reduce risk, which naturally also has the tendency to pull down the overall yield of the portfolio. TCW does judge the credit cycle

to be in its closing stage, as evidenced by high leverage, deteriorating underwriting standards, undisciplined investing, and until late 2018, insufficient yield premiums for underwriting risk. Given this view, portfolio positioning entered 2018 defensively to 1) protect the capital position and (2) provide liquidity for opportunistic deployment. As such, we were prepared to take advantage of the sudden spread widening in December that was a consequence of tight liquidity conditions and fears of slowing growth. Positions were added in ABS such as AAA-rated collateralized loan obligations (CLOs), and in both investment grade and high yield credit where we found value in excess of price levels, with selective buys in several sectors including manufacturing, financials, communications, and energy. Positions were trimmed in some of the structured product holdings that have held up well, including agency CMBS.

Even with the fourth quarter s spread widening and recalibration of investor sentiment, we do not believe that valuations have fully priced in long-term fundamental risks yet. As such, we remain steadfast in the opinion that the time to prepare for adverse outcomes is always before the bear market, and are positioned accordingly in anticipation of further volatility. Overall sector positioning remains defensive, with corporate credit emphasizing regulated financials and defensive sectors like pharmaceuticals, communications and non-profit hospitals, and we will continue to look for opportunities to

1

add exposure as spreads widen toward median levels. Outside of corporates, securitized products exposure remains high quality, with a focus on attractive legacy non-agency MBS issues. Agency MBS exhibit strong liquidity characteristics and are high quality, but uncertainty remains as the Fed shrinks its position; and therefore exposure is minimal. Within CMBS, the emphasis remains on agency-backed issues, while the non-agency CMBS allocation continues to emphasize seasoned issues at the top of the capital structure and single-asset/single-borrower deals to avoid the underwriting challenges faced by current vintage non-agency CMBS. ABS bonds held in the Fund favor federally guaranteed student loans, with an additional focus on AAA-rated CLOs that offer value.

Modest leverage can be utilized by the TSI Fund through a Line of Credit facility, though the Fund does not currently use any of the available \$70 million commitment. Leverage may return to the Fund when market opportunity is more abundant and management deems the use of

| leverage is accretive to returns. |
|--|
| We greatly appreciate your investment in the Fund and your continuing support of TCW. If you have any additional questions or comments, we invite you to visit our web site at www.tcw.com or contact our shareholder services department at 1-866-227-8179, or contact@tcw.com. |
| Sincerely, |
| |
| David S. DeVito |

Schedule of Investments (Continued)

Notes to Schedule of Investments:

- (1) Security exempt from registration under Rule 144A of the Securities Act of 1933, as amended. These securities may be resold, normally only to qualified institutional buyers. At December 31, 2018, the value of these securities amounted to \$69,812,477 or 25.9% of net assets. These securities are determined to be liquid by the Advisor, unless otherwise noted, under procedures established by and under the general supervision of the Fund s Board of Directors.
- (2) Floating or variable rate security. The interest shown reflects the rate in effect at December 31, 2018.
- (3) For fair value measurement disclosure purposes, security is categorized as Level 3.
- (4) Variable rate security. Interest rate disclosed is as of the most recent information available. Certain variable rate securities are not based on a published reference rate and spread but are determined by the issuer or agent and are based on current market conditions. These securities do not indicate a reference rate and spread in their description above.
- (5) Security is not accruing interest.
- (6) Restricted security (Note 9).
- (7) A portion of the principal balance has been written-off during the period due to defaults in the underlying loans. Cost basis has been adjusted.
- (8) Investments issued under Regulation S of the Securities Act of 1933, as amended, may not be offered, sold, or delivered within the United States except under special exemptions. At December 31, 2018, the value of these securities amounted to \$2,230,439 or 0.8% of net assets.
- (9) Rate disclosed is the 7-day net yield as of December 31, 2018.
- (10) Rate shown represents yield-to-maturity.
- (11) All or a portion of this security is held as collateral for open futures contracts.
- (12) This instrument has a forward starting effective date. See Note 3, Portfolio Investments in the Notes to Financial Statements for further information.
- ABS Asset-Backed Securities.
- ACES Alternative Credit Enhancement Securities.
- CLO Collateralized Loan Obligation.
- EETC Enhanced Equipment Trust Certificate.
- I/F Inverse Floating rate security whose interest rate moves in the opposite direction of prevailing interest rates.
- I/O Interest Only Security.
- PAC Planned Amortization Class.
- TAC Target Amortization Class.

⁽¹⁾ For the year ended December 31, 2017, the Fund distributed to shareholders \$13,423,879 from net investment income and \$1,573,670 from net realized gains. The Securities Exchange Commission eliminated the requirement to disclose distributions to shareholders from each component in 2018.

Notes to Financial Statements

December 31, 2018

Note 1 Organization

TCW Strategic Income Fund, Inc. (the Fund) was incorporated in Maryland on January 13, 1987 as a diversified, closed-end investment management company and is registered under the Investment Company Act of 1940, as amended (the 1940 Act). Its shares are traded on the New York Stock Exchange under the symbol TSI. The Fund commenced operations on March 5, 1987. The Fund s investment objective is to seek a total return comprised of current income and capital appreciation, and it seeks to achieve its investment objective by investing in a wide range of securities including convertible securities, marketable equity securities, investment-grade debt securities, high-yield debt securities, securities issued or guaranteed by the U.S. Government, its agencies and instrumentalities (U.S. Government Securities), repurchase agreements, mortgage related securities, asset-backed securities, money market securities, other securities and derivative instruments without limit believed by the Fund s investment advisor to be consistent with the Fund s investment objective. TCW Investment Management Company LLC (the Advisor) is the investment advisor to the Fund and is registered under the Investment Advisers Act of 1940, as amended.

Note 2 Significant Accounting Policies

The following is a summary of significant accounting policies, which are in conformity with accounting principles generally accepted in the United States of America (GAAP) and which are consistently followed by the Fund in the preparation of its financial statements. The Fund is considered an investment company under the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) No. 946, Financial Services Investment Companies.

Principles of Accounting: The Fund uses the accrual method of accounting for financial reporting purposes.

Security Valuation: Securities traded on national exchanges are valued at the last reported sales prices. Securities traded on the NASDAQ stock market (NASDAQ) are valued using the official closing prices as reported by NASDAQ, which may not be the last sale price. Other securities, including short-term investments, swap agreements and forward currency contracts, which are traded over-the-counter (OTC), are valued at the mean of the current bid and asked prices as furnished by independent pricing services or by dealer quotations. Futures contracts are valued at the official settlement prices of the exchanges on which they are traded.

Securities for which market quotations are not readily available, including as a result of circumstances under which it is determined by the Advisor that prices received are not reflective of their market values, are valued by the Advisor s Pricing Committee in accordance with the guidelines established by the Valuation Committee of the Board of Directors of the Fund (the Board) and under the general oversight of the Board.

Fair value is defined as the price that the Fund would receive upon selling an investment in a timely transaction to an independent buyer in the principal or most advantageous market for the investment. In accordance with the authoritative guidance on fair value measurements and disclosures under GAAP, the Fund discloses investments in a three-tier hierarchy. This hierarchy is utilized to establish classification of fair

value measurement broadly based on inputs that market participants would use in pricing the asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity sown assumptions about the inputs market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

December 31, 2018

Note 2 Significant Accounting Policies (Continued)

The three-tier hierarchy of inputs is summarized in the three broad levels listed below.

Level 1 quoted prices in active markets for identical investments.

Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit

risk, etc.).

Level 3 significant unobservable inputs (including the Fund s own assumptions in determining the fair value of investments).

Changes in valuation techniques may result in transfers in or out of an investment s assigned level within the hierarchy. The inputs or methodologies used for valuing investments are not necessarily an indication of the risk associated with investing in those investments and the determination of the significance of a particular input to the fair value measurement in its entirety requires judgment and consideration of factors specific to each security.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

In periods of market dislocation, the observability of prices and inputs may be reduced for many instruments. This condition, as well as changes related to liquidity of investments, could cause a security to be reclassified between Level 1, Level 2, or Level 3.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy is determined based on the lowest level input that is significant to the fair value measurement.

Fair Value Measurements: Descriptions of the valuation techniques applied to the Fund s major categories of assets and liabilities on a recurring basis are as follows:

Asset-backed securities (ABS) and mortgage-backed securities (MBS). The fair value of ABS and MBS is estimated based on pricing models that consider the estimated cash flows of each debt tranche of the issuer, establish a benchmark yield, and develop an estimated tranche specific spread to the benchmark yield based on the unique attributes of the tranche including, but not limited to, the prepayment speed assumptions and attributes of the collateral. To the extent the inputs are observable and timely, the values would be categorized in Level 2 of the fair value hierarchy; otherwise, they would be categorized in Level 3.

Corporate bonds. The fair value of corporate bonds is estimated using recently executed transactions, market price quotations (where observable), bond spreads, or credit default swap spreads adjusted for any basis difference between cash and derivative instruments. Corporate bonds are generally categorized in Level 2 of the fair value hierarchy.

Futures contracts. Futures contracts are generally valued at the settlement price established at the close of business each day by the exchange on which they are traded. As such, they are categorized in Level 1.

Government and agency securities. Government and agency securities are normally valued using a model that incorporates market observable data such as reported sales of similar securities, broker quotes, yields,

Notes to Financial Statements (Continued)

Note 2 Significant Accounting Policies (Continued)

bids, offers, quoted market prices, and reference data. Accordingly, government and agency securities are normally categorized in Level 1 or 2 of the fair value hierarchy depending on the liquidity and transparency of the market.

Money market funds. Money market funds are open-end mutual funds that invest in short-term debt securities. To the extent that these funds are valued based upon the reported net asset value (NAV), they are categorized in Level 1 of the fair value hierarchy.

Municipal bonds. Municipal bonds are fair valued based on pricing models that take into account, among other factors, information received from market makers and broker-dealers, current trades, bid want lists, offerings, market movements, the callability of the bond, state of issuance, benchmark yield curves, and bond insurance. To the extent that these inputs are observable and timely, the fair values of municipal bonds are categorized in Level 2; otherwise, the fair values are categorized in Level 3.

Restricted securities. Restricted securities, including illiquid Rule 144A securities, issued by non-public entities are included in Level 3 of the fair value hierarchy because they trade infrequently, and therefore, the inputs are unobservable. Any other restricted securities valued similar to publicly traded securities are categorized in Level 2 or 3 of the fair value hierarchy depending on whether a discount is applied and significant to the fair value.

Short-term investments. Short-term investments are valued using market price quotations, and are reflected in Level 2 of the fair value hierarchy.

The summary of the inputs used as of December 31, 2018 is listed after the Investments by Sector or Industry table.

The Fund did not have any transfers in and out of Level 1 and Level 2 of the fair value hierarchy during the year ended December 31, 2018.

The following is a reconciliation of investments in which significant unobservable inputs (Level 3) were used in determining value:

Asset-Backed Securities Commercial Mortgage-Backed Securities Residential Mortgage-Backed Securities Total

| | | | Non | n-Agency | No | n-Agency | |

| Balance as of December 31, 2018 | \$ 400,3 | 385 | \$ | | \$ | 5,016,324 | \$ 5,416,709 |
| Change in Unrealized Appreciation (Depreciation) from Investments Still Held at December 31, 2018 | \$ (72,7 | 787) | \$ | | \$ | (195,944) | \$ (268,731) |

⁽¹⁾ The Fund recognizes transfers in and out at the beginning of the period.

⁽²⁾ Financial assets transferred between Level 2 and Level 3 were due to a change in observable and/or unobservable inputs.

December 31, 2018

Note 2 Significant Accounting Policies (Continued)

Significant unobservable valuation inputs of Level 3 investments as of December 31, 2018 were as follows:

| Description | Fair Value at December 31, 2018 | Valuation Techniques* | Unobservable Input | Price or Price Range | Weighted Average Price |
|---|---------------------------------------|--------------------------|-----------------------|-------------------------|---------------------------|
| Asset-Backed Securities | \$ 400,385 | Third-party Broker | Broker Quotes | \$29.00 to \$33.00 | \$30.623 |
| Residential Mortgage-Backed Securities Non-Agency (Interest Only Collateral | | | | | |
| Strip Rate Securities) | 1,202,929 | Third-party Vendor | Vendor Prices | \$0.28 to \$2.58 | \$1.093 |
| Residential Mortgage-Backed Securities Non-Agency (Interest Only Securities) | 3,813,395 | Third-party Vendor | Vendor Prices | \$2.73 to \$15.95 | \$6.307 |

^{*} The valuation technique employed on the Level 3 securities involves the use of third-party broker quotes and vendor prices. The Advisor monitors the effectiveness of third-party brokers and vendor prices using the Advisor s own model and inputs.

Security Transactions and Related Investment Income: Security transactions are recorded as of the trade date. Dividend income is recorded on the ex-dividend date. Interest income is recognized on an accrual basis. Realized gains and losses on investments are recorded on the basis of specific identification.

Foreign Currency Translation: The books and records of the Fund are maintained in U.S. dollars as follows: (1) the foreign currency denominated securities and other assets and liabilities stated in foreign currencies are translated using the daily spot rate; and (2) purchases, sales, income and expenses are translated at the rate of exchange prevailing on the respective dates of such transactions. The resultant exchange gains and losses are included in net realized or net unrealized gain (loss) in the Statement of Operations. Pursuant to U.S. federal income tax regulations, certain foreign exchange gains and losses included in realized and unrealized gains and losses are included in, or are a reduction of, ordinary income for U.S. federal income tax purposes.

Distributions: Distributions to shareholders are recorded on each ex-dividend date. The Fund declared and paid or reinvested dividends quarterly under an income-based distribution policy. The income-based distribution policy has a stated goal of providing quarterly distributions out of the Fund s accumulated undistributed net investment income and/or other sources subject to the requirements of the 1940 Act and Sub-chapter M of the Internal Revenue Code (the Code). The source for the dividend can come from net investment income and net realized capital gains measured on a fiscal year basis. Any portion of the distribution that exceeds income and capital gains will be treated as a return of capital. Under certain conditions, U.S. federal tax regulations cause some or all of the return of capital to be taxed as ordinary income. Income and capital gain distributions are determined in accordance with income tax regulations which may differ from GAAP. These differences may be primarily due to differing treatments for market discount and premium, losses recognized on structured debt, losses deferred due to wash sales,

foreign currency gains and losses, and spillover distributions. Permanent book and tax basis differences relating to shareholder distributions will result in reclassifications to paid-in capital and may affect net investment income per share.

Derivative Instruments: Derivatives are financial instruments whose values are based on the values of one or more indicators, such as a security, asset, currency, interest rate, or index. Derivative transactions can create investment leverage and may be highly volatile. It is possible that a derivative transaction will result in a loss greater than the principal amount invested. The Fund may not be able to close out a derivative transaction at a favorable time or price.

Notes to Financial Statements (Continued)

Note 2 Significant Accounting Policies (Continued)

For the year ended December 31, 2018, the Fund had derivatives and transactions in derivatives, grouped in the following risk categories (amounts in thousands except notional amounts or number of contracts):

| | Equity Risk | Foreign Currency Risk | Interest Rate Risk | Total |
|---|--------------|-----------------------------|--------------------------|--------------|
| Asset Derivatives | | | | |
| Futures Contracts (1) | \$ | \$ | \$ 71,260 | \$ 71,260 |
| Swaps Agreements (2) | | | 155,836 | 155,836 |
| Total Value | \$ | \$ | \$ 227,096 | \$ 227,096 |
| Liability Derivatives | | | | |
| Futures Contracts (1) | \$ (286,711) | \$ | \$ (555,379) | \$ (842,090) |
| Swaps Agreements (2) | + (===,,==) | _ · | (145,321) | (145,321) |
| 5 waps rigicoments | | | (143,321) | (143,321) |
| Total Value | \$ (286,711) | \$ | \$ (700,700) | \$ (987,411) |
| Statement of Operations: | | | | |
| Realized Gain (Loss) | | | | |
| Forward Contracts | \$ | \$ (101,401) | \$ | \$ (101,401) |
| Futures Contracts | (3,006) | | 722,787 | 719,781 |
| Swaps Agreements | | | (298) | (298) |

| Total Change in Appreciation (Depreciation) | \$ (299,850) | \$ (26,770) | \$ (527,103) | \$ (853,723) |
| Number of Contracts or Notional Amounts (3) | | | | |
| Forward Contracts | \$ | \$5,579,261 | \$ | \$5,579,261 |
| Swaps Agreements | \$ | \$ | \$21,205,000 | \$21,205,000 |
| Futures Contracts | 32 | | 111 | 143 |

- (1) Represents appreciation (depreciation) of futures contracts as reported in the Schedule of Investments as of December 31, 2018. Only the variation margin is reported within the Statement of Assets and Liabilities.
- (2) Represents appreciation (depreciation) on swap agreements as reported in the Schedule of Investments as of December 31, 2018. Only the variation margin is reported within the Statement of Assets and Liabilities.
- (3) Amount disclosed represents average number of contracts or notional amounts, which are representative of the volume traded for the year ended December 31, 2018.

Counterparty Credit Risk: Derivative contracts may expose the Fund to counterparty risk. Losses can occur if the counterparty does not perform under the contract.

With exchange traded futures and centrally cleared swaps, there is less counterparty credit risk to the Fund since the exchange or clearinghouse, as counterparty to such instruments, guarantees against a possible default. The clearinghouse stands between the buyer and the seller of the contract; therefore, the counterparty credit risk is limited to failure of the clearinghouse. While offset rights may exist under applicable law, the Fund does not have a contractual right of offset against a clearing broker or clearinghouse in the event of a default (including the bankruptcy or insolvency) of the clearing broker or clearinghouse. Additionally, credit risk exists in exchange traded futures and centrally cleared swaps with respect to initial and variation margin that is held in a clearing broker s customer accounts. While clearing brokers are required to segregate customer margin from their own assets, in the event that a clearing broker becomes insolvent or goes into bankruptcy and at that time there is a shortfall in the aggregate

December 31, 2018

Note 2 Significant Accounting Policies (Continued)

amount of margin held by the clearing broker for all its clients, typically the shortfall would be allocated on a pro rata basis across all the clearing broker s customers, potentially resulting in losses to the Fund.

The Fund s risk of loss from counterparty credit risk on OTC derivatives is generally limited to the aggregate unrealized gain netted against any collateral held by the Fund. For OTC derivatives, the Fund entered into an International Swaps and Derivatives Association, Inc. Master Agreement (ISDA Master Agreement) with each counterparty. An ISDA Master Agreement is a bilateral agreement between the Fund and a counterparty that governs OTC derivatives and typically contains, among other things, collateral posting terms and netting provisions in the event of a default and/or termination event. Under an ISDA Master Agreement, the Fund may, under certain circumstances, offset with the counterparty certain derivative financial instruments payables and/or receivables with collateral held and/or posted and create one single net payment. The provisions of the ISDA Master Agreement typically permit a single net payment in the event of default including the bankruptcy or insolvency of the counterparty. However, bankruptcy or insolvency laws of a particular jurisdiction may impose restrictions on or prohibitions against the right of offset in bankruptcy, insolvency or other events. In addition, certain ISDA Master Agreements allow counterparties to OTC derivatives to terminate derivative contracts prior to maturity in the event the Fund s net assets decline by a stated percentage or the Fund fails to meet the terms of its ISDA Master Agreements, which would cause the Fund to accelerate payment of any net liability owed to the counterparty.

Collateral Requirements: For derivatives traded under an ISDA Master Agreement, the collateral requirements are typically calculated by netting the mark to market amount for each transaction under such agreement and comparing that amount to the value of any collateral pledged or received by the Fund.

Cash collateral that has been pledged to cover obligations of the Fund is reported separately on the Statement of Assets and Liabilities. Non-cash collateral pledged by the Fund, if any, is noted in the Schedule of Investments. Generally, the amount of collateral due from or to a party has to exceed a minimum transfer amount threshold, typically \$250,000 or \$500,000, before a transfer is required, which is determined at the close of each business day and the collateral is transferred on the next business day. To the extent amounts due to the Fund from its counterparties are not fully collateralized, contractually or otherwise, the Fund bears the risk of loss from counterparty non-performance. The Fund attempts to mitigate counterparty risk by entering into agreements only with counterparties that the Advisor believes have the financial resources to honor their obligations and by monitoring the financial stability of those counterparties. For financial reporting purposes, the Fund does not offset derivative assets and derivative liabilities that are subject to netting arrangements in the Statement of Assets and Liabilities. The Fund has implemented the disclosure requirements pursuant to FASB ASU No. 2013-01, Disclosures about Offsetting Assets and Liabilities that requires disclosures to make financial statements that are prepared under GAAP more comparable to those prepared under International Financial Reporting Standards.

The Fund had no OTC derivatives for offset under an ISDA Master Agreement as of December 31, 2018.

Note 3 Portfolio Investments

Forward Foreign Currency Contracts: The Fund enters into forward foreign currency contracts as a hedge against fluctuations in foreign exchange rates. Forward foreign currency contracts are marked to market daily and the change in market value is recorded by the Fund as unrealized gains or losses in the Statement of Assets and Liabilities. When a contract is closed or delivery is taken, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the

Notes to Financial Statements (Continued)

Note 3 Portfolio Investments (Continued)

time it was closed. Risks may arise upon entering into these contracts from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of the foreign currency relative to the U.S. dollar. There were no outstanding foreign currency forward contracts as of December 31, 2018.

Futures Contracts: The Fund seeks to manage a variety of different risks or obtain exposure through the use of futures contracts. The Fund may use index futures to hedge against broad market risks to its portfolio or to gain broad market exposure when it holds uninvested cash or as an inexpensive substitute for cash investments directly in securities or other assets. Securities index futures contracts are contracts to buy or sell units of a securities index at a specified future date at a price agreed upon when the contract is made and are settled in cash. Positions in futures may be closed out only on an exchange or board of trade which provides a secondary market for such futures. Because futures contracts are exchange-traded, they typically have minimal exposure to counterparty risk. Parties to a futures contract are not required to post the entire notional amount of the contract, but rather a small percentage of that amount (by way of margin), both at the time they enter into futures transactions, and then on a daily basis if their positions decline in value; as a result, futures contracts are highly leveraged. Such payments are known as variation margin and are recorded by the Fund as unrealized gains or losses. Because futures markets are highly leveraged, they can be extremely volatile, and there can be no assurance that the pricing of a futures contract will correlate precisely with the pricing of the asset or index underlying it or the asset or liability of the Fund that is the subject of the hedge. It may not always be possible for the Fund to enter into a closing transaction with respect to a futures contract it has entered into at a favorable time or price. When the Fund enters into a futures transaction, it is subject to the risk that the value of the futures contract will move in a direction unfavorable to it.

When the Fund uses futures contracts for hedging purposes, it is likely that the Fund will have an asset or liability that will offset any loss (or gain) on the transactions, at least in part. When a futures contract is closed, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed. During the year ended December 31, 2018, the Fund used S&P 500 Index futures to gain exposure to the equity market. The Fund also utilized treasury futures and other bond futures to help manage interest rate duration and credit market exposure. Futures contracts outstanding at December 31, 2018 are listed in the Fund s Schedule of Investments.

Swap Agreements: The Fund may enter into swap agreements. Swap agreements are typically two-party contracts entered into primarily by institutional investors. In a standard swap transaction, two parties agree to exchange the returns (or differentials in rates of return) earned or realized on particular predetermined investments or instruments, which may be adjusted for an interest factor. The gross returns to be exchanged or swapped between the parties are generally calculated with respect to a notional amount (i.e., the return on or increase in value of a particular dollar amount invested at a particular interest rate or in a basket of securities representing a particular index).

Interest rate swaps are agreements in which one party pays a floating rate of interest on a notional principal amount and receives a fixed rate of interest on the same notional principal amount for a specified period of time. Alternatively, a party may pay a fixed rate and receive a floating rate. In more complex swaps, the notional principal amount may decline (or amortize) over time. The Fund s maximum risk of loss due to counterparty default is the discounted NAV of the cash flows paid to/received from the counterparty over the interest rate swap s remaining life.

December 31, 2018

Note 3 Portfolio Investments (Continued)

During the term of a swap transaction, changes in the value of the swap are recognized as unrealized gains or losses by marking to market to reflect the market value of the swap. When the swap is terminated, the Fund will record a realized gain or loss equal to the difference, if any, between the proceeds from (or cost of) the closing transaction and the Fund s basis in the agreement. Upfront swap premium payments paid or received by the Fund, if any, are recorded within the value of the open swap agreement on the Fund s Statement of Assets and Liabilities and represent payments paid or received upon entering into the swap agreement to compensate for differences between stated terms of the swap agreement and prevailing market conditions (credit spreads, currency exchange rates, and other relevant factors). These upfront payments are recorded as realized gain or loss on the Fund s Statement of Operations upon termination or maturity of the swap agreement.

During the term of a swap transaction, the periodic net payments can be made for a set period of time or may be triggered by a predetermined credit event. The net periodic payments may be based on a fixed or variable interest rate, the change in market value of a specified security, basket of securities or index, or the return generated by a security. These periodic payments received or made by the Fund are recorded as realized gains and losses, respectively. During the year ended December 31, 2018, the Fund entered into interest rate swaps to manage duration, the yield curve or interest rate risk by economically hedging the value of the fixed-rate bonds which may decrease when interest rates rise (interest rate risk). Swap agreements outstanding at December 31, 2018 are listed in the Fund s Schedule of Investments.

Mortgage-Backed and Other Asset-Backed Securities: The Fund may invest in mortgage pass-through securities, which represent interests in pools of mortgages. Payments of both principal and interest on the securities are generally made monthly, in effect passing through monthly payments made by borrowers on the residential or commercial mortgage loans that underlie the securities (net of any fees paid to the issuer or guarantor of the securities). Mortgage pass-through securities differ from other forms of debt securities, which normally provide for periodic payment of interest in fixed amounts with principal payments at maturity or specified call dates. The Fund may also invest in collateralized mortgage obligations (CMOs). CMOs are debt obligations collateralized by residential or commercial mortgage loans or residential or commercial mortgage pass-through securities. Interest and principal are generally paid monthly. CMOs may be collateralized by whole mortgage loans or private mortgage pass-through securities but are more typically collateralized by portfolios of mortgage pass-through securities guaranteed by the Government National Mortgage Association (Ginnie Mae), Federal Home Loan Mortgage Corporation (Freddie Mac) Federal National Mortgage Corporation (Fannie Mae). The issuer of a series of CMOs may elect to be treated for tax purposes as a Real Estate Mortgage Investment Conduit. CMOs are structured into multiple classes, each bearing a different stated maturity. Monthly payment of principal received from the pool of underlying mortgages, including prepayments, is first returned to investors holding the shortest maturity class. Investors holding the longer maturity classes usually receive principal only after shorter classes have been retired. An investor may be partially protected against a sooner than desired return of principal because of the sequential payments. The Fund may invest in stripped MBS. Stripped MBS are usually structured with two classes that receive different proportions of the interest and principal distributions on a pool of mortgage assets. In certain cases, one class will receive all of the interest (the interest only or IO class), while the other class will receive all of the principal (the principal-only or PO class). The yield to maturity on IOs is sensitive to the rate of principal prepayments (including prepayments) on the related underlying mortgage assets, and principal payments may have a material effect on yield to maturity. If the underlying mortgage assets experience greater than anticipated

Notes to Financial Statements (Continued)

Note 3 Portfolio Investments (Continued)

prepayments of principal, the Fund may not fully recoup its initial investment in IOs. Mortgage-backed and other asset-backed securities held by the Fund at December 31, 2018 are listed in the Fund s Schedule of Investment.

Repurchase Agreements: The Fund may enter into repurchase agreements under the terms of a Master Repurchase Agreement (MRA). In a repurchase agreement transaction, the Fund will purchase a security from a counterparty who agrees to repurchase the same security at a mutually agreed upon date and price. The MRA permits the Fund, under certain circumstances, including an event of default (such as bankruptcy or insolvency), to offset payables and/or receivables under the MRA with collateral held and/or posted to the counterparty and create one single net payment due to or from the Fund. However, bankruptcy or insolvency laws of a particular jurisdiction may impose restrictions on or prohibitions against such a right of offset in the event of the MRA counterparty s bankruptcy or insolvency. Pursuant to the terms of the MRA, the Fund receives securities as collateral with a market value in excess of the repurchase price. Upon a bankruptcy or insolvency of the MRA counterparty, the Fund recognizes a liability with respect to such excess collateral to reflect the Fund s obligation under bankruptcy law to return the excess to the counterparty. The Fund had no repurchase agreements outstanding at December 31, 2018.

When-Issued, Delayed-Delivery, and Forward Commitment Transactions: The Fund may enter into when issued, delayed-delivery or forward commitment transactions in order to lock in the purchase price of the underlying security or to adjust the interest rate exposure of the Fund s existing portfolio. In when-issued, delayed-delivery, or forward commitment transactions, the Fund commits to purchase particular securities, with payment and delivery to take place at a future date. Although the Fund does not pay for the securities or start earning interest on them until they are delivered, it immediately assumes the risks of ownership, including the risk of price fluctuation. If the Fund s counterparty fails to deliver a security purchased on a when issued, delayed-delivery or forward commitment basis, there may be a loss, and the Fund may have missed an opportunity to make an alternative investment.

Prior to settlement of these transactions, the value of the subject securities will fluctuate. In addition, because the Fund is not required to pay for when-issued, delayed-delivery or forward commitment securities until the delivery date, they may result in a form of leverage. To guard against this deemed leverage, the Fund monitors the obligations under these transactions and ensures that the Fund has sufficient liquid assets to cover them.

Security Lending: The Fund may lend its securities to qualified brokers. The loans must be collateralized at all times primarily with cash although the Fund can accept money market instruments or U.S. government securities with a market value at least equal to the market value of the securities on loan. As with any extensions of credit, the Fund may bear the risk of delay in recovery or even loss of rights in the collateral if the borrowers of the securities fail financially. The Fund earns additional income for lending its securities by investing the cash collateral in short-term investments. The Fund did not lend any securities during the year ended December 31, 2018.

Use of Estimates: The preparation of the accompanying financial statements requires management to make estimates and assumptions that affect the reported amount of assets and liabilities at the date of the financial statements and the reported amounts of income and expenses

during the reporting period. Actual results could differ from these estimates.

December 31, 2018

Note 4 Risk Considerations

Market Risk: The Fund s investments will fluctuate with market conditions, and so will the value of your investment in the Fund. You could lose money on your investment in the Fund or the Fund could underperform other investments.

Liquidity Risk: The Fund s investments in illiquid securities may reduce the returns of the Fund because it may not be able to sell the illiquid securities at an advantageous time or price. Investments in high yield securities, foreign securities, derivatives or other securities with substantial market and/or credit risk tend to have the greatest exposure to liquidity risk. Certain investments in private placements and Rule 144A securities may be considered illiquid investments. The Fund may invest in private placements and Rule 144A securities.

Interest Rate Risk: The values of the Fund s investments fluctuate in response to movements in interest rates. If rates rise, the values of debt securities generally fall. The longer the average duration of a Fund s investment portfolio, the greater the change in value.

Mortgage-Backed and Other Asset-Backed Securities Risk: The Fund may invest in MBS or other ABS. The values of some mortgage-backed securities or other asset backed securities may expose the Fund to a lower rate of return upon reinvestment of principal. When interest rates rise, the value of mortgage-related securities generally will decline; however, when interest rates are declining, the value of mortgage related-securities with prepayment features may not increase as much as other fixed-income securities. The rate of prepayments on underlying mortgages will affect the price and volatility of a mortgage related security, and may shorten or extend the effective maturity of the security beyond what was anticipated at the time of purchase. The value of these securities may fluctuate in response to the market s perception of the creditworthiness of the issuers. Additionally, although mortgages and mortgage-related securities are generally supported by some form of government or private guarantee and/or insurance, there is no assurance that private guarantors or insurers will meet their obligations.

Derivatives Risk: Use of derivatives, which at times is an important part of the Fund s investment strategy, involves risks different from, or possibly greater than, the risks associated with investing directly in securities and other traditional investments. Investments in derivatives could cause the Fund to lose more than the principal amount invested. Also, suitable derivative transactions may not be available in all circumstances and there can be no assurance that the Fund will achieve its objective with these transactions to reduce exposure to other risks when that would be beneficial.

Credit Risk: The values of any of the Fund s investments may also decline in response to events affecting the issuer or its credit rating. The lower rated debt securities in which the Fund may invest are considered speculative and are subject to greater volatility and risk of loss than investment-grade securities, particularly in deteriorating economic conditions. The value of some mortgage-related securities in which the Fund invests also may fall because of unanticipated levels of principal prepayments that can occur when interest rates decline. The Fund invests a material portion of its assets in securities of issuers that hold mortgage- and asset-backed securities and direct investments in securities backed by commercial and residential mortgage loans and other financial assets. The value and related income of these securities are sensitive to

changes in economic conditions, including delinquencies and/or defaults. Continuing shifts in the market s perception of credit quality on securities backed by commercial and residential mortgage loans and other financial assets may result in increased volatility of market prices and periods of illiquidity, which negatively impact the valuation of certain issuers held by the Fund.

MBS and ABS are characterized and classified in a variety of different ways. These classifications include a view of the securities cash flow structure (pass through, sequential pay, prepayment-protected, interest only, principal-only, etc.), the security of the claim on the underlying assets (senior, mezzanine and

Notes to Financial Statements (Continued)

Note 4 Risk Considerations (Continued)

subordinated), as well as types of underlying collateral (prime conforming loans, prime non-conforming loans, Alt-A loans, subprime loans, commercial loans, etc.). In many cases, the classification incorporates a degree of subjectivity—a particular loan might be categorized as—prime—by the underwriting standards of one mortgage issuer while another might classify the loan as—subprime. The level of risk associated with an investment in a mortgage loan can be impacted by, among other factors, the nature of the collateral, the form and the level of credit enhancement, the vintage of the loan, the geography of the loan, the purpose of the loan (e.g. refinance versus purchase versus equity take-out), the borrower—s credit quality (e.g., FICO score), and whether the loan is a first trust deed or a second lien.

Counterparty Risk: The Fund may be exposed to counterparty risk, or the risk that an entity with which the Fund has unsettled or open transactions may not fulfill its obligations.

Note 5 Federal Income Taxes

It is the policy of the Fund to comply with the requirements of the Code applicable to regulated investment companies and distribute all of its net taxable income, including any net realized gains on investments, to its shareholders. Therefore, no federal income tax provision is required.

The following table shows character of distributed and undistributed amounts on a tax basis.

| | | Amount Distributed During the Year | | |
|-----------------|------------------------------------|------------------------------------|----------------------|----------------------|
| | Year Ended December 31, 2018 | Year Ended December 31, 2017 | December 31, 2018 | December 31, 2017 |
| Ordinary Income | \$ 17,346,285 | \$ 13,423,879 | \$ 10,517 | \$ |
| Capital Gain | 426,643 | 1,573,670 | | 258,408 |
| | \$ 17,772,928 | \$ 14,997,549 | \$ 10,517 | \$ 258,408 |

At December 31, 2018, net unrealized appreciation for federal income tax purposes is comprised of the following components:

Unrealized appreciation \$ 17,678,922

Unrealized (depreciation) (16,246,001)

| Net unrealized appreciation | \$ 1,432,921 |
|---|-------------------|
| Cost of Investments for Federal Income Tax Purposes | \$ 274,214,277 |

The following reclassifications have been made for the permanent difference between book and tax accounting as of December 31, 2018:

| | Increase |
|--|----------------|
| | (Decrease) |
| Distributions in Excess of Net Investment Income | \$ 1,059,586 |
| Accumulated Net Realized Loss on Investments | \$ (1,059,586) |
| Paid in Capital | \$ |

The Fund did not have any unrecognized tax benefits at December 31, 2018, nor were there any increases or decreases in unrecognized tax benefits for the period then ended; and therefore no interest or penalties were accrued. The Fund is subject to examination by U.S. federal and state tax authorities for returns filed for the prior three and four fiscal years, respectively.

Note 6 Investment Advisory and Service Fees

As compensation for the investment advisory services rendered, facilities provided, and expenses borne, the Advisor is paid a monthly fee by the Fund computed at the annual rate of 0.75% of the first \$100 million of the Fund s average managed assets and 0.50% of the Fund s average managed assets in excess of \$100 million.

December 31, 2018

Note 7 Purchases and Sales of Securities

For the year ended December 31, 2018, purchases and sales or maturities of investment securities (excluding short-term investments) aggregated to \$79,886,493 and \$73,326,925, respectively, for non-U.S. Government securities, and aggregated to \$18,596,372 and \$11,160,575, respectively, for U.S. Government securities.

Purchases during the year ended December 31, 2018 include the Fund s purchase of a security from an affiliated investment account for a total of \$790,542 in accordance with the provisions set forth in 17(a)-7 of the 1940 Act.

Note 8 Directors Fees

Directors who are not affiliated with the Advisor received, as a group, fees and expenses of \$62,590 from the Fund for the year ended December 31, 2018. Directors may elect to defer receipt of their fees in accordance with the terms of a Non-Qualified Deferred Compensation Plan. Deferred compensation is included within Accrued Directors Fees and Expenses in the Statement of Assets and Liabilities. Certain Officers and/or Directors of the Fund are also Officers and/or Directors of the Advisor but do not receive any compensation from the Fund.

Note 9 Restricted Securities

The Fund is permitted to invest in securities that have legal or contractual restrictions on resale. These securities may be sold privately, but are required to be registered before being sold to the public (exemption rules apply). Private placement securities are generally considered to be restricted except for those securities traded between qualified institutional investors under the provisions of Rule 144A of the Securities Act of 1933, as amended (the Securities Act). However, the Fund considers 144A securities to be restricted if those securities have been deemed illiquid by the Advisor. Disposal of these securities may involve time consuming negotiations and expense, and prompt sale at an acceptable price may be difficult. Restricted securities held by the Fund at December 31, 2018 are listed below:

| Issuer Description | Acquisition Date | Acquisition Cost | Aggregate Value | Percentage of Net Assets |
|--|---------------------|---------------------|--------------------|--------------------------|
| Citigroup Commercial Mortgage Trust (12-GC8-XA), | | | | |
| 1.80%, due 09/10/45 | 2/13/2015-2/26/2015 | \$ 345,658 | \$ 174,798 | 0.1% |

Notes to Financial Statements (Continued)

Note 10 Loan Outstanding

The Fund is permitted to have borrowings for investment purposes. The Fund has entered into a line of credit agreement, renewed annually, with The Bank of New York Mellon which permits the Fund to borrow up to \$70 million at a rate, per annum, equal to the Federal Funds Rate plus 1.00%. There is also an annual facility fee of \$56,000 for the contract period. The Fund did not have any borrowings during the year ended December 31, 2018.

Note 11 Indemnifications

Under the Fund s organizational documents, its Officers and Directors may be indemnified against certain liabilities and expenses arising out of the performance of their duties to the Fund. In addition, the Fund entered into an agreement with each of the Directors which provides that the Fund will indemnify and hold harmless each Director against any expenses actually and reasonably incurred by such Director in any proceeding arising out of or in connection with the Director s services to the Fund, to the fullest extent permitted by the Fund s Articles of Incorporation and By-Laws, the Maryland General Corporation Law, the Securities Act, and the 1940 Act, each as now or hereinafter in force. Additionally, in the normal course of business, the Fund enters into agreements with service providers that may contain indemnification clauses. The Fund s maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote. The Fund has not accrued any liability in connection with such indemnification.

Note 12 SEC Simplification

In August 2018, the Securities and Exchange Commission adopted the Disclosure Update and Simplification rule, which amends certain disclosure requirements. The amendment requires presentation of the total, rather than the components, of accumulated or undistributed earnings on the Statements of Assets and Liabilities; the amendment also provides the presentation of the distributions on the Statements of Changes in Net Assets at the total level rather than components and removes the requirement for disclosure of undistributed net investment income on a book basis. This amendment facilitates compliance of the disclosure of information without significantly altering the information provided to investors.

Note 13 New Accounting Pronouncement

In August 2018, the FASB released an accounting standards update (ASU) 2018-13, which changes the fair value measurement disclosure requirements of Topic 820. The amendments in this ASU are the result of a broader disclosure project called FASB Concept Statement, Conceptual Framework for Financial Reporting Chapter 8: Notes to Financial Statements. The objective and primary focus of the project are to improve the effectiveness of disclosures in the notes to the financial statements by facilitating clear communication of the information required by GAAP that is most important to users of the financial statements. This ASU will go effective for all entities for fiscal years beginning after December 15, 2019, including interim periods therein. Early adoption is permitted for any eliminated or modified disclosures upon issuance of this ASU. Management is currently evaluating the impact of this ASU to the Fund s financial statements.

In March 2017, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2017-08, Receivables Nonrefundable Fees and Other Costs (Subtopic 310-20): Premium Amortization on Purchased Callable Debt Securities. The amendments in the ASU shorten the amortization period for certain callable debt securities, held at a premium, to be amortized to the earliest call date. The ASU does not require an accounting change for securities held at a discount; which continues to be amortized to maturity. The ASU is effective for fiscal years and interim periods within those fiscal years beginning after December 15, 2018. Management is currently evaluating the impact of this ASU to the Fund s financial statements.

Report of Independent Registered Public Accounting Firm

To the Shareholders and the Board of Directors of

TCW Strategic Income Fund, Inc.

Opinion on the Financial Statements and Financial Highlights

We have audited the accompanying statement of assets and liabilities of TCW Strategic Income Fund, Inc. (the Fund), including the schedule of investments, as of December 31, 2018, the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended, and the related notes. In our opinion, the financial statements and financial highlights present fairly, in all material respects, the financial position of the Fund as of December 31, 2018, and the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements and financial highlights are the responsibility of the Fund s management. Our responsibility is to express an opinion on the Fund s financial statements and financial highlights based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement, whether due to error or fraud. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Fund s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements and financial highlights, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements and financial highlights. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements and financial highlights. Our procedures included confirmation of securities owned as of December 31, 2018, by correspondence with the custodian and brokers; when replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

February 20, 2019

We have served as the auditor of one or more TCW/Metropolitan West Funds investment companies since 1990.

What You Should Know

At TCW, we recognize the importance of keeping information about you secure and confidential. We do not sell or share your nonpublic personal and financial information with marketers or others outside our affiliated group of companies.

We carefully manage information among our affiliated group of companies to safeguard your privacy and to provide you with consistently excellent service.

We are providing this notice to you to comply with the requirements of Regulation S-P, Privacy of Consumer Financial Information, issued by the United States Securities and Exchange Commission.

Our Privacy Policy

We, The TCW Group, Inc. and its subsidiaries, the TCW Funds, Inc., TCW Strategic Income Fund, Inc., the Metropolitan West Funds, Sepulveda Management LLC and TCW Direct Lending (collectively, TCW) are committed to protecting the nonpublic personal and financial information of our customers and consumers who obtain or seek to obtain financial products or services primarily for personal, family or household purposes. We fulfill our commitment by establishing and implementing policies and systems to protect the security and confidentiality of this information.

In our offices, we limit access to nonpublic personal and financial information about you to those TCW personnel who need to know the information in order to provide products or services to you. We maintain physical, electronic and procedural safeguards to protect your nonpublic personal and financial information.

Categories of Information We Collect

We may collect the following types of nonpublic personal and financial information about you from the following sources:

Your name, address and identifying numbers, and other personal and financial information, from you and from identification cards and papers you submit to us, on applications, subscription agreements or other forms or communications.

Information about your account balances and financial transactions with us, our affiliated entities, or nonaffiliated third parties, from our internal sources, from affiliated entities and from nonaffiliated third parties.

Privacy Policy (Continued)

Information about your account balances and financial transactions and other personal and financial information, from consumer credit reporting agencies or other nonaffiliated third parties, to verify information received from you or others.

Categories of Information We Disclose to Nonaffiliated Third Parties

We may disclose your name, address and account and other identifying numbers, as well as information about your pending or past transactions and other personal financial information, to nonaffiliated third parties, for our everyday business purposes such as necessary to execute, process, service and confirm your securities transactions and mutual fund transactions, to administer and service your account and commingled investment vehicles in which you are invested, to market our products and services through joint marketing arrangements or to respond to court orders and legal investigations.

We may disclose nonpublic personal and financial information concerning you to law enforcement agencies, federal regulatory agencies, self-regulatory organizations or other nonaffiliated third parties, if required or requested to do so by a court order, judicial subpoena or regulatory inquiry.

We do not otherwise disclose your nonpublic personal and financial information to nonaffiliated third parties, except where we believe in good faith that disclosure is required or permitted by law. Because we do not disclose your nonpublic personal and financial information to nonaffiliated third parties, our Customer Privacy Policy does not contain opt-out provisions.

Categories of Information We Disclose to Our Affiliated Entities

We may disclose your name, address and account and other identifying numbers, account balances, information about your pending or past transactions and other personal financial information to our affiliated entities for any purpose.

We regularly disclose your name, address and account and other identifying numbers, account balances and information about your pending or past transactions to our affiliates to execute, process and confirm securities transactions or mutual fund transactions for you, to administer and service your account and commingled investment vehicles in which you are invested, or to market our products and services to you.

Information About Former Customers

We do not disclose nonpublic personal and financial information about former customers to nonaffiliated third parties unless required or requested to do so by a court order, judicial subpoena or regulatory inquiry, or otherwise where we believe in good faith that disclosure is

required or permitted by law.

Questions

Should you have any questions about our Customer Privacy Policy, please contact us by email or by regular mail at the address at the end of this policy.

Renewal of Investment Management and Advisory Agreement

TCW Strategic Income Fund, Inc. (the Fund) and TCW Investment Management Company LLC (the Advisor) are parties to an Investment Advisory and Management Agreement (Agreement), pursuant to which the Advisor is responsible for managing the investments of the Fund. Unless terminated by either party, the Agreement continues in effect from year to year provided that the continuance is specifically approved at least annually by the vote of the holders of at least a majority of the outstanding shares of the Fund, or by the Board of Directors of the Fund (the Board), and, in either event, by a majority of the Directors who are not interested persons of the Fund as such term is defined in Section 2(a)(19) of the Investment Company Act of 1940, as amended (the Independent Directors), casting votes in person at a meeting called for that purpose.

On September 24, 2018, the Board approved the renewal of the Agreement for an additional one-year term from February 6, 2019 through February 5, 2020. The renewal of the Agreement was approved by the Board (including by a majority of the Independent Directors) upon the recommendation of the Independent Directors. The Independent Directors met separately by telephone on August 28, 2018, and in person on September 24, 2018, with their independent legal counsel to review and discuss the information that had been requested on their behalf by their independent legal counsel and presented by the Advisor for their consideration. The information, material facts, and conclusions that formed the basis for the Independent Directors recommendation and the Board s subsequent approval are described below.

Information received

Materials reviewed During the course of each year, the Directors receive a wide variety of materials relating to the services provided by the Advisor, including reports on the Advisor s investment processes, as well as on the Fund s investment results, portfolio composition, portfolio trading practices, compliance monitoring, shareholder services, and other information relating to the nature, extent, and quality of services provided by the Advisor to the Fund. In addition, the Board reviewed information furnished to the Independent Directors in response to a detailed request sent to the Advisor on their behalf. The information in the Advisor's responses included extensive materials regarding the Fund s investment results, advisory fee comparisons to advisory fees charged by the Advisor to its institutional clients, financial and profitability information regarding the Advisor, descriptions of various services provided to the Fund and to other advisory and sub-advisory clients, descriptions of functions such as compliance monitoring and portfolio trading practices, and information about the personnel providing investment management services to the Fund. The Directors also considered information provided by an independent data provider, Broadridge, comparing the investment performance and the fee and expense levels of the Fund to those of appropriate peer groups of funds selected by Broadridge. After reviewing this information, the Directors requested additional information from the Advisor, which the Advisor provided and the Directors considered.

Review process The Directors determinations were made on the basis of each Director s business judgment after consideration of all the information presented. The Independent Directors were advised by their independent legal counsel throughout the renewal process and received and reviewed advice from their independent legal counsel regarding legal and industry standards applicable to the renewal of the Agreement, including a legal memorandum from their independent legal counsel discussing their fiduciary duties related to their approval of the continuation of the Agreement. The Independent Directors also discussed the renewal of the Agreement with the Advisor s representatives and in private sessions at which no representatives of the Advisor were present. In deciding to recommend the renewal of the Agreement

with respect to the Fund, the Independent Directors did not identify any single piece of information or particular factor that, in isolation, was the controlling factor. Each Independent Director may also have weighed factors differently. This summary describes the most important, but not all, of the factors considered by the Board and the Independent Directors.

2. Nature, extent, and quality of services provided by the Advisor

The Board and the Independent Directors considered the depth and quality of the Advisor s investment management process, including its research and strong analytical capabilities; the experience, capability, and integrity of its senior management and other personnel; the relatively low turnover rates of its key personnel; the overall resources available to the Advisor; and the ability of its organizational structure to address the growth in assets over the past several years and withstand the recent decline in assets. The Board and the Independent Directors considered the ability of the Advisor to attract and retain well-qualified investment professionals, noting in particular the Advisor s hiring of professionals in various areas over the past several years, continued upgrading of resources in its middle office and back office operations and other areas, as well as a continuing and extensive program of infrastructure and systems enhancements. The Board and the Independent Directors also considered that the Advisor made available to its investment professionals a variety of resources and systems relating to investment management, compliance, trading, operations, administration, research, portfolio accounting and legal matters. They noted the substantial additional resources made available by The TCW Group, Inc., as the parent company of the Advisor. The Board and the Independent Directors examined and discussed a detailed description of the extensive additional services provided to the Fund to support its operations and compliance, as compared to the much narrower range of services provided to the Advisor s institutional and sub-advised clients, as well as the Advisor s oversight and coordination of numerous outside service providers to the Fund. They further noted the high level of regular communication between the Advisor and the Independent Directors. The Advisor explained its responsibility to supervise the activities of the Fund s various service providers, as well as supporting the Independent Directors and their meetings, regulatory filings, and various operational personnel, and the related costs.

The Board and the Independent Directors concluded that the nature, extent, and quality of the services provided by the Advisor are of a high quality and have benefited and should continue to benefit the Fund and its shareholders.

3. Investment results

The Board and the Independent Directors considered the investment results of the Fund in light of its investment objective and principal strategies. They compared the Fund s total returns with the total returns of other funds in peer group reports prepared by Broadridge with respect to various longer and more recent periods all ended May 31, 2018. The Board and the Independent Directors reviewed information as to a peer group selection presented by Broadridge and discussed the methodology for the selection with Broadridge. In reviewing the Fund s relative performance, the Board and the Independent Directors took into account the Fund s investment strategies, distinct characteristics, asset size and diversification.

The Independent Directors noted that the Fund s performance (based on net asset value rather than stock price) exceeded the median performance of its peer group for the one-year and ten-year periods, but fell below that median for the three-year and five-year periods. The Board recognized that the peer group included many funds that were not considered to be sufficiently comparable in strategy or characteristics. The Board discussed the Advisor s explanation about the lower risk and volatility profile for the Fund

Renewal of Investment Management and Advisory Agreement (Continued)

compared to its peers, as shown by the information from Broadridge. The Board noted the Fund s wider discount of the market price of its stock compared to its net asset value over the most recent one-year period but that the discount was not excessive by historical standards.

The Board and the Independent Directors concluded that the Advisor was implementing the Fund s investment objective and that the Advisor s record in managing the Fund indicated that its continued management should benefit the Fund and its shareholders over the long term.

4. Advisory fees and total expenses

The Board and the Independent Directors compared the management fees (which Broadridge defines to include the advisory fee and the administrative fee) and total expenses of the Fund (as a percentage of average net assets) with the median management fee and operating expense level of the other funds in the Broadridge peer group. These comparisons assisted the Board and the Independent Directors by providing a reasonable statistical measure to assess the Fund s fees relative to its relevant peers. The Board and the Independent Directors observed that the Fund s management fee and total expenses were below the median of the peer group funds. The Board concluded that the competitive fee charged by the Advisor, and competitive expense ratio, should continue to benefit the Fund and its shareholders.

The Board and the Independent Directors also reviewed information regarding the advisory fees charged by the Advisor to its institutional and sub-advisory clients with similar investment mandates. The Board and the Independent Directors concluded that, although the fees paid by those clients generally were lower than advisory fees paid by the Fund, the differences appropriately reflected the more extensive services provided by the Advisor to the Fund and the Advisor's significantly greater responsibilities and expenses with respect to the Fund, including the additional risks of managing a pool of assets for public investors, administrative burdens, daily pricing and valuation responsibilities, the supervision of vendors and service providers, and the costs of additional infrastructure and operational resources and personnel and of complying with and supporting the more comprehensive regulatory and governance regime applicable to registered investment companies with shares listed on a stock exchange.

5. The Advisor s costs, level of profits, and economies of scale

The Board and the Independent Directors reviewed information regarding the Advisor s costs of providing services to the Fund, as well as the resulting level of profits to the Advisor. They reviewed the Advisor s stated assumptions and methods of allocating certain costs, such as personnel costs, which constitute the Advisor s largest operating cost. The Board and the Independent Directors recognized that the Advisor should be entitled to earn a reasonable level of profits for the services that it provides to the Fund. The Board and the Independent Directors also reviewed a comparison of the Advisor s profitability with respect to the Fund to the profitability of certain unaffiliated publicly traded asset managers, which the Advisor believed supported its view that the Advisor s profitability was reasonable. Based on their review, the Board and the Independent Directors concluded that they were satisfied that the Advisor s level of profitability from its relationship with the Fund was not unreasonable or excessive.

The Board and the Independent Directors considered the extent to which potential economies of scale could be realized as the Fund grows and whether the advisory fee reflects those potential economies of scale. They noted the breakpoint under the Agreement, which results in a lower

advisory fee rate as the Fund grows larger. They also recognized the Advisor s view that the advisory fee compares favorably to peer group fees, and that expenses remain competitive even at higher asset levels and that the relatively low

advisory fees reflect the potential economies of scale. The Board and the Independent Directors recognized the benefits of the Adviser's substantial past and on-going investment in the advisory business, such as successfully recruiting and retaining key professional talent, systems and technology upgrades, added resources dedicated to legal and compliance programs, and improvements to the overall firm infrastructure, as well as the financial pressures of competing against much larger firms and passive investment products. The Board and the Independent Directors also recognized that the Fund benefits from receiving investment advice from an organization with other types of advisory clients in addition to investment companies. The Board and the Independent Directors concluded that the Advisor was satisfactorily sharing potential economies of scale with the Fund through low fees and expenses, and through reinvesting in its capabilities for serving the Fund and its shareholders.

Ancillary benefits

The Board and the Independent Directors also considered ancillary benefits received or to be received by the Advisor and its affiliates as a result of the relationship of the Advisor with the Fund, including compensation for certain compliance support services. The Board and the Independent Directors concluded that any potential benefits to be received or to be derived by the Advisor from its relationships with the Fund are reasonably related to the services provided by the Advisor to the Fund.

7. Conclusions

Based on their overall review, including their consideration of each of the factors referred to above (and others), the Board and the Independent Directors concluded that the Agreement is fair and reasonable to the Fund and its shareholders, that the Fund shareholders received reasonable value in return for the advisory fees and other amounts paid to the Advisor by the Fund, and that the renewal of the Agreement was in the best interests of the Fund and its shareholders.

Supplemental Information

Proxy Voting Guidelines

The policies and procedures that the Fund uses to determine how to vote proxies are available without charge. The Board has delegated the Fund s proxy voting authority to the Advisor.

Disclosure of Proxy Voting Guidelines

The proxy voting guidelines of the Advisor are available:

- 1. By calling 1-(877) 829-4768 to obtain a hard copy; or
- 2. By going to the Securities and Exchange Commission s (the SEC) website at www.sec.gov.

When the Fund receives a request for a description of the Advisor s proxy voting guidelines, it will deliver the description that is disclosed in the Fund s Statement of Additional Information. This information will be sent out via first class mail (or other means designed to ensure equally prompt delivery) within three business days of receiving the request.

The Advisor, on behalf of the Fund, must prepare and file Form N-PX with the SEC not later than August 31 of each year, which must include the Fund s proxy voting record for the most recent twelve-month period ended June 30 of that year. The Fund s proxy voting record for the most recent twelve-month period ended June 30 is available without charge:

- 1. By calling 1-(877) 829-4768 to obtain a hard copy; or
- 2. By going to the SEC website at http://www.sec.gov.

When the Fund receives a request for the Fund s proxy voting record, it will send the information disclosed in the Fund s most recently filed report on Form N-PX via first class mail (or other means designed to ensure equally prompt delivery) within three business days of receiving the request.

The Fund also discloses its proxy voting record on its website as soon as is reasonably practicable after its report on Form N-PX is filed with the SEC.

Availability of Quarterly Portfolio Schedule

The Fund files a complete schedule of its portfolio holdings with the SEC for the first and third quarters of its fiscal year on Form N-Q. You may obtain the Fund s Forms N-Q by calling 1-(877) 829-4768 to obtain a hard copy. You may also obtain the Fund s Forms N-Q by going to the SEC website at http://www.sec.gov.

Corporate Governance Listing Standards

In accordance with Section 303A.12 (a) of the New York Stock Exchange Listed Company Manual, the Fund s Annual CEO Certification certifying compliance with NYSE s Corporate Governance Listing Standards was submitted to the Exchange on October 19, 2018 as part of its Annual Written Affirmation. Also in accordance with Section 303A.12 of the New York Stock Exchange Listed Company Manual, the Fund submitted an Interim Written Affirmation on March 28, 2018 and December 19, 2018.

Report of Annual Meeting and Special Meeting of Shareholders

The annual meeting of shareholders (the Annual Meeting) of the Fund was held on September 25, 2018. At the Annual Meeting, the following matters were submitted to a shareholder vote:

1) *Election of Directors* the shareholders of the Fund elected the following Directors to serve on the Board of Directors until their successors have been duly elected and qualified.

| Director | Votes Cast For | Withheld |
|--------------------|-----------------------|-----------|
| Samuel P. Bell | 42,432,395 | 2,065,896 |
| David S. DeVito | 42,545,914 | 1,952,377 |
| Patrick C. Haden | 41,058,995 | 3,439,296 |
| David Lippman | 42,544,851 | 1,953,440 |
| Peter McMillan | 41,086,079 | 3,412,212 |

Dividend Reinvestment Plan

Shareholders who wish to add to their investment may do so by making an election to participate in the Dividend Reinvestment Plan (the Plan). Under the Plan, your dividend is used to purchase Fund shares on the open market whenever shares, including the related sales commission, are selling below the Fund s net asset value per share. You will be charged a pro-rata portion of brokerage commissions on open-market purchases under the Plan. If the market price, including commission, of Fund shares is above the Fund s net asset value per share, you will receive shares at a price equal to the higher of the Fund s net asset value per share on the payment date or 95% of the closing market price of Fund shares on the payment date. Generally, for tax purposes, shareholders participating in the Plan will be treated as having received a distribution from the Fund in cash equal to the value of the shares purchased from them under the Plan.

To enroll in the Plan, if your shares are registered in your name, write to Computershare, P.O. Box #50500, Louisville, KY 40233, or call toll free at (866) 227-8179. If your shares are held by a brokerage firm, please call your broker. If you participate in the Plan through a broker, you may not be able to transfer your shares to another broker and continue to participate in the Plan if your new broker does not permit such participation. If you no longer want to participate in the Plan, please contact Computershare or your broker. You may elect to continue to hold shares previously purchased on your behalf or to sell your shares and receive the proceeds, net of any brokerage commissions. If you need additional information or assistance, please call our investor relations department at (877) 829-4768 or visit our website at www.tcw.com. As always, we would be pleased to accommodate your investment needs.

Distribution Policy

The Fund has a net investment income-based distribution policy. The policy is to pay quarterly distributions out of the Fund s accumulated undistributed net investment income and/or other sources subject to the requirements of the 1940 Act and Sub-chapter M of the Code.

Distribution policies are a matter of Board discretion and may be modified or terminated at any time without prior notice. Any such change or termination may have an adverse effect on the market price for the Fund s shares.

You should not draw any conclusions about the Fund s investment performance from the amount of the quarterly distribution or from the terms of the Fund s distribution policy.

Tax Information Notice (Unaudited)

On account of the year ended December 31, 2018, the Fund paid a capital gain distribution of \$0.009 per

share within the meaning 852 (b) (3) (c) of the Code.

This information is given to meet certain requirements of the Code and should not be used by shareholders for preparing their income tax returns. Shareholders should refer to the Form 1099-DIV provided by Computershare or your broker for tax filing purposes. Shareholders are advised to check with their tax advisors for information on the treatment of these amounts on their individual tax returns.

Directors and Officers

A board of seven directors is responsible for overseeing the operations of the TCW Strategic Income Fund, Inc. (the Fund). The directors of the Fund, and their business addresses, their principal occupations for the last five years and other directorships held by them, are set forth below.

Independent Directors

Item 2. Code of Ethics.

- (a) The Registrant has adopted a code of ethics that applies to its principal executive officer and principal financial officer or persons performing similar functions.
- (b) No disclosures are required by this Item 2(b).
- (c) The Registrant has made no material changes to its code of ethics.
- (d) The Registrant has not granted any waivers from any provisions of its code of ethics during the period covered by this Form N-CSR.
- (e) Not applicable.
- (f) A copy of the Registrant s code of ethics is filed as Exhibit 13(a)(1) to this Form N-CSR.

Item 3. Audit Committee Financial Expert.

- (a)(1) The Registrant s Board of Directors (the Board) has determined that the Registrant has two members serving on the Registrant s Audit Committee that possess the attributes identified in Form N-CSR to qualify as an audit committee financial expert.
- (a)(2) The audit committee financial experts are Samuel P. Bell and Victoria B. Rogers. Each has been deemed to be independent as that term is defined in Form N-CSR.
- (a)(3) Not applicable.

Item 4. Principal Accountant Fees and Services.

The firm of Deloitte & Touche LLP (Deloitte) serves as the independent registered public accounting firm for the Registrant.

(a) Audit Fees

For the fiscal years ended December 31, 2018 and December 31, 2017, the aggregate fees billed for professional services rendered by Deloitte for the audit of the Registrant s annual financial statements or for services that are normally provided by Deloitte in connection with statutory and regulatory filings or engagements were:

| 2018 | 2017 | | | | |
|--------------|--------------|--|--|--|--|
| \$ 77,000 | \$ 75,000 | | | | |

(b) Audit-Related Fees

For the fiscal years December 31, 2018 and December 31, 2017, the aggregate fees billed for assurance and related services rendered by Deloitte that are reasonably related to the performance of the audit or review of the Registrant s financial statements and that are not reported under Audit Fees above were:

(c) Tax Fees

For the fiscal years ended December 31, 2018 and December 31, 2017, the aggregate fees billed for tax compliance, tax advice and tax planning by Deloitte were:

Fees were for the preparation and filing of the Registrant s corporate returns.

(d) All Other Fees

For the fiscal years ended December 31, 2018 and December 31, 2017, the aggregate fees billed by Deloitte to the Registrant for all services other than services reported under Audit Fees, Audit-Related Fees, and Tax Fees were:

| 2018 | 2017 |
|------|------|
| \$ 0 | \$ 0 |

- (e)(1) The Registrant s Audit Committee approves each specific service the auditor will perform for the Registrant. Accordingly, the Audit Committee has not established pre-approval policies or procedures for services that the auditor may perform for the Registrant.
- (e)(2) None of the services described in each of paragraphs (b) through (d) of this Item were approved by the Registrant s Audit Committee pursuant to paragraph (c)(7)(i)(C) of Rule 2-01 of Regulation S-X.
- (f) Not applicable.
- (g) No non-audit fees except as disclosed in Item 4(c) above were billed by the Registrant s accountant for services rendered to the Registrant, or rendered to the Registrant s investment adviser and any entity controlling, controlled by, or under common control with the investment adviser that provides ongoing services to the Registrant for each of the last two fiscal years of the Registrant.

(h) Not applicable.

Item 5. Audit Committee of Listed Registrants.

(a) The Registrant has a separately-designated standing Audit Committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended. The Registrant s Audit Committee members, consisting solely of independent directors, are:

Samuel P. Bell

Patrick C. Haden

Peter McMillan

Victoria B. Rogers

Andrew Tarica

(b) Not applicable.

Item 6. Investments.

- (a) The Schedule of Investments is included as part of the Report to Shareholders filed under Item 1 of this Form N-CSR.
- (b) Not applicable.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.

Attached to this Form N-CSR as Exhibit 13(c) is a copy of the proxy voting policies and procedures of the Registrant.

Item 8. Portfolio Managers of Closed-End Management Investment Companies.

(a)(1) Portfolio Managers*

Mitch Flack Portfolio Manager and Managing Director, TCW Investment Management Company LLC,

and TCW LLC since December 2009, and Metropolitan West Asset Management, LLC since

March 2001.

Stephen Kane Portfolio Manager and Group Managing Director, TCW Investment Management Company

LLC, TCW Asset Management Company LLC, and TCW LLC since December 2009, and

Metropolitan West Asset Management, LLC since August 1996.

Laird R. Landmann

President, Metropolitan West Asset Management, LLC since August 1996; Portfolio Manager and Group Managing Director, TCW Investment Management Company LLC, TCW Asset Management Company LLC, TCW LLC, and The TCW Group, Inc. since December 2009.

| Tad Rivelle | Portfolio Manager, Group Managing Director, and Chief Investment Officer - Fixed Income, TCW Investment Management Company LLC, TCW Asset Management Company LLC, and TCW LLC since December 2009, and Metropolitan West Asset Management, LLC since August 1996. |
|--------------|---|
| Bryan Whalen | Portfolio Manager and Group Managing Director, TCW Investment Management Company LLC, TCW Asset Management Company LLC, and TCW LLC since December 2009, and Metropolitan West Asset Management, LLC since 2004. |

^{*} The foregoing information regarding the Registrant s portfolio managers is as of February 27, 2019. (Positions with TCW and its affiliates may have changed over time.)

The TCW Group, Inc. and its subsidiaries, the Registrant, TCW Funds, Inc., TCW Alternative Funds, and the Metropolitan West Funds (collectively, TCW) has policies and controls to avoid and/or mitigate conflicts of interest across its businesses. The policies and procedures in TCW s Code of Ethics (the Code) serve to address or mitigate both conflicts of interest and the appearance of any conflict of interest. The Code contains several restrictions and procedures designed to eliminate conflicts of interest relating to personal investment transactions, including (i) reporting account openings, changes, or closings (including accounts in which an Access Person has a beneficial interest), (ii) pre-clearance of non-exempt personal investment transactions (make a personal trade request for Securities) and (iii) the completion of timely required reporting (Initial Holdings Report, Quarterly Transactions Report, Annual Holdings Report and Annual Certificate of Compliance).

In addition, the Code addresses potential conflicts of interest through its policies on insider trading, anti-corruption, an employee s outside business activities, political activities and contributions, confidentiality and whistleblower provisions.

⁽a)(2) Other Accounts Managed as of December 31, 2018 in millions

Conflicts of interest may also arise in the management of accounts and investment vehicles. These conflicts may raise questions that would allow TCW to allocate investment opportunities in a way that favors certain accounts or investment vehicles over other accounts or investment vehicles, or incentivize a TCW portfolio manager to receive greater compensation with regard to the management of certain account or investment vehicles. TCW may give advice or take action with certain accounts or investment vehicles that could differ from the advice given or action taken on other accounts or

investment vehicles. When an investment opportunity is suitable for more than one account or investment vehicle, such investments will be allocated in a manner that is fair and equitable under the circumstances to all TCW clients. As such, TCW has adopted compliance policies and procedures in its Portfolio Management Policy that helps to identify a conflict of interest and then specifies how a conflict of interest is managed. TCW s Trading and Brokerage Policy also discusses the process of timing and method of allocations, and addresses how the firm handles affiliate transactions.

The respective Equity and Fixed Income Trading and Allocation Committees review trading activities on behalf of client accounts, including the allocation of investment opportunities and address any issues with regard to side-by-side management in order to ensure that all of TCW s clients are treated on a fair and equitable basis. Further, the Portfolio Analytics Committee reviews TCW s investment strategies, evaluates various analytics to facilitate risk assessment, changes to performance composites and benchmarks and monitors the implementation and maintenance of the Global Investment Performance Standards or GIPS® compliance.

TCW s approach to handling conflicts of interest is multi-layered starting with its policies and procedures, reporting and pre-clearance processes and oversight by various committees.

(a)(3) Portfolio Manager Compensation

The overall objective of TCW Investment Management Company LLC s (Advisor) compensation program for portfolio managers is to attract experienced and expert investment professionals and to retain them over the long-term. Compensation is comprised of several components which, in the aggregate, are designed to achieve these objectives and to reward the portfolio managers for their contributions to the successful performance of the accounts they manage. Portfolio managers are compensated through a combination of base salary, fee sharing based compensation (fee sharing), bonus and equity incentive participation in the Advisor s parent company (equity incentives). Fee sharing and equity incentives generally represent most of the portfolio managers compensation. In some cases, portfolio managers are eligible for discretionary bonuses.

Salary. Salary is agreed to with portfolio managers at the time of employment and is reviewed from time to time. It does not change significantly and often does not constitute a significant part of a portfolio manager s compensation.

Fee Sharing. Fee sharing for investment professionals is based on revenues generated by accounts in the investment strategy area for which the investment professionals are responsible. In most cases, revenues are allocated to a pool and fee sharing compensation is allocated among members of the investment team after the deduction of certain expenses (including compensation over a threshold level) related to the strategy group. The allocations are based on the investment professionals—contributions to TCW and its clients, including qualitative and quantitative contributions.

In general, the same fee sharing percentage is used to compensate a portfolio manager for investment services related to the Registrant as that used to compensate portfolio managers for other client accounts in the same strategy managed by the Advisor or an affiliate of the Advisor (collectively, the TCW Advisors). In some cases, the fee sharing pool includes revenues related to more than one product, in which case each participant in the pool is entitled to fee sharing derived from his or her contributions to all the included products.

Investment professionals are not directly compensated for generating performance fees. In some cases, the overall fee sharing pool is subject to fluctuation based on the relative pre-tax performance of the investment strategy composite returns, net of fees and expenses, to that of the benchmark. The measurement of performance relative to the benchmark can be based on single year or multiple year metrics, or a combination thereof. The benchmark used is the one associated with the Registrant managed by the portfolio manager as disclosed in the prospectus. Benchmarks vary from strategy to strategy but, within a given strategy, the same benchmark applies to all accounts, including the Registrant.

Discretionary Bonus/Guaranteed Minimums. Discretionary bonuses may be paid out of an investment team s fee sharing pool, as determined by the supervisor(s) in the department. In other cases where portfolio managers do not receive fee sharing or where it is determined that the combination of salary and fee sharing does not adequately compensate the portfolio manager, discretionary bonuses may be paid by the applicable TCW Advisor. Also, pursuant to contractual arrangements, some portfolio managers received minimum bonuses.

Equity Incentives. Management believes that equity ownership aligns the interests of portfolio managers with the interests of the firm and its clients. Accordingly, TCW s key investment professionals participate in equity incentives through ownership or participation in restricted unit plans that vest over time or unit appreciation plans of the Advisor s parent company. The plans include the Fixed Income Retention Plan, Restricted Unit Plan and 2013 Equity Unit Incentive Plan.

Under the Fixed Income Retention Plan, certain portfolio managers in the fixed income area were awarded cash and/or partnership units in the Advisor s parent company, either on a contractually-determined basis or on a discretionary basis. Awards under this plan were made in 2010 that vest over time.

Under the Restricted Unit Plan, certain portfolio managers in the fixed income and equity areas may be awarded partnership units in the Advisor s parent company. Awards under this plan have vested over time, subject to satisfaction of performance criteria.

Under the 2013 Equity Unit Incentive Plan, certain portfolio managers in the fixed income and equity areas may be awarded options to acquire partnership units in the Advisor s parent company with a strike price equal to the fair market value of the option at the date of grant. The options granted under this plan are subject to vesting and other conditions.

Other Plans and Compensation Vehicles. Portfolio managers may also elect to participate in the applicable TCW Advisor s 401(k) plan, to which they may contribute a portion of their pre- and post-tax compensation to the plan for investment on a tax-deferred basis.

(a)(4) Share Ownership in Registrant as of December 31, 2018

(b) Not applicable.

Item 9. Purchases of Equity Securities by Closed-End Management Investment Company and Affiliated Purchasers.

None.

Item 10. Submission of Matters to a Vote of Security Holders.

There have been no material changes to the procedures by which shareholders may recommend nominees to the Registrant s Board of Directors.

Item 11. Controls and Procedures.

- (a) The Chief Executive Officer and Principal Financial and Accounting Officer have concluded that the Registrant s disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the 1940 Act)) provide reasonable assurances that material information relating to the Registrant is made known to them by the appropriate persons as of a date within 90 days of the filing date of this report, based on their evaluation of these controls and procedures required by Rule 30a-3(b) under the 1940 Act and 15d-15(b) under the Securities Exchange Act of 1934, as amended.
- (b) There were no changes in the Registrant s internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act) that occurred during the period covered by this report that have materially affected, or are reasonably likely to materially affect, the Registrant s internal control over financial reporting.

Item 12. Disclosure of Securities Lending Activities for Closed-End Management Investment Companies. Not applicable.

Item 13. Exhibits.

- (a)(1) EX-99.CODE Code of Ethics referred to in Item 2 is filed herewith.
