PART I**Item 1. Description of Business****OVERVIEW**

Rhino Outdoor International, Inc., a Nevada corporation ("RHOI" or the "Company"), was organized on August 30, 2006 by way of a name change from CyberAds Inc. CyberAds, Inc., a Florida corporation ("CYAD" or the "Company"), was organized on April 12, 2000, under the laws of the State of Florida. On August 10, 2005 the Company changed domiciles to Nevada. During 2005 and 2006, we focused our efforts on reviewing potential business models for acquisition, and merger in the outdoor lifestyle and extreme sports and marketing sectors. During 2005 we suspended marketing the XBoard product due to a delay in production by the manufacturer. We continue to hold distribution rights for the XBoard product in the Western United States, and anticipate marketing the product and supporting distribution growth when it becomes available.

During 2005, we expanded our involvement with extreme sports products and secured a relationship with Rhino Off Road Industries, whom we subsequently acquired through a share exchange agreement and plan of reorganization effective June 21, 2006. On June 21, 2006, the Company entered into a share exchange agreement and plan of reorganization with Rhino Off Road Industries, Inc. Under this agreement and plan of reorganization, the Company acquired 100 percent of the outstanding common stock of Rhino in exchange for 1,650,000 shares of the Company's Series C convertible preferred stock. Furthermore, the Company issued another 600,000 shares of Series C convertible preferred stock for the retention of the subsidiary's officers and agreed to issue 400,000 shares of Series C convertible preferred stock for loan guarantees. As of December 31, 2006, the 400,000 shares had not yet been issued. Currently our focus is on developing Rhino Off Road and it's product the "Rough Terrain Vehicle". Rhino Off-Road Industries is the manufacturer of the innovative Rhino Off-Road Rough Terrain Vehicle (RTV). The RTV was designed for active, outdoor oriented families and individuals wanting to experience off-road adventure in virtually any off-road terrain. The Rhino RTV has added a new dimension to wilderness adventure tours and created a new category in the growing off-road rental industry. The dependable and affordable Rhino Off-Road RTV is manufactured in Henderson, NV in our approximately 12,000 square feet facility. The facility serves as our administrative offices and corporate headquarters. During 2006 we identified a market for the Rhino RTV specific to government agencies for search and rescue, first responder, and also border patrol. The RTV's have been in testing with government agencies during 2006 and recently we've announced an agreement with AEP (Arizona Emergency Products) whereby AEP will become our exclusive distributor to government agencies. AEP and Rhino have collaborated on developing the new Rapid Response Rough Terrain Vehicle (RR/RTV).

There are approximately 1,000,000 (million) ATV's sold worldwide in 2005 according to Powersports Business/Annual forecast, it is Rhino's ambition to carve out 1 % of ATV users, which would represent 1,000 RTV's for the consumer only market. Rhino believes the special equipped Rapid Response RTV opportunity is nearly 500 vehicles per year.

The Rhino RTV MSRP is \$34,999 before customization, and the Rapid Response RTV is not yet priced as development and specifications are currently underway.

In 2006 Rhino Outdoor International, Inc. executed a letter of intent with Great West Vans (GWV). At this time we have not concluded on this acquisition and there is no guarantee that we will raise the capital required to fund this specific acquisition.

OVERVIEW

Rhino Outdoor International, Inc. (ROI) did not record revenues during 2005. We discontinued the third party affiliate sales of Cellular phones and services during 2004, and discontinued all cellular sales in 2005 due to the financial losses inherent with the commission structure paid to third party affiliates. The affiliate commissions were earned on "leads" provided, rather than on sales made, therefore the cancellations and returns on cellular phones were not recouped from the third party affiliate and the losses became ROI expense. During 2006 and 2005, we focused on developing a new business plan in the extreme sports sector and marketing of its lifestyle. We engaged with three primary products during 2005, XBoard, Rhino, and Planet X TV.

In 2006, we focused 100% of our efforts on Rhino Off Road Industries, and it's product the RTV. On June 21, 2006 we acquired by share exchange agreement and plan of reorganization all the outstanding shares of capital stock of Rhino in exchange for shares of capital stock of ROI, formerly known as CyberAds. On August 30, 2006 the company was renamed Rhino Outdoor International, Inc, to reflect a more accurate brand name for our business model. During 2006, we implemented sales and marketing strategies for the Rhino Off Road RTV, and invested in further development of new models which are designed to increase sales to consumers, and potentially to government agencies for the Search and Rescue requirements.

RELATED PARTIES AND RELIANCE ON CERTAIN PROVIDERS

We rely on the manufacturers of XBoard, and the suppliers of inventory to Rhino, for production of products specific to our reselling, or direct selling rights.

RECENT EVENTS

As noted above we entered into relationships with Aqua Xtremes, Inc., and its products XBoard, whereby the company was provided exclusive rights to resell distribution and dealers within a defined territory. During 2005, we developed a resell relationship with Rhino Off Road Industries whereby the company would recruit and demonstrate

the Rhino product line to Distributors, Dealers, and consumers. During 2005, we developed a relationship with Planet X TV whereby the company would be compensated for recruiting advertisers and sponsors for the Planet X TV shows.

During 2006, we did not focus on either Planet X or XBoard as we put all our efforts towards Rhino and the acquisition and subsequent development of the RTV and potential government Search and Rescue opportunities. In 2006, we entered into an LOI with Great West Vans (GWV), at this time we have not concluded on the transaction and there is no guarantee that the company will raise the capital required to complete this specific transaction.

Table of Contents

During 2006, we engaged in multiple negotiations with outdoor lifestyle companies on merger and acquisition discussions, as of December 31, 2006 we were not party to any binding letter of intents. During 2006 we announced our intention by LOI to acquire Great West Vans, a Canadian company which produces Class B Motorhomes. At this time, we have not completed the acquisition due to financial requirements, and have been actively working with a 3rd party who may acquire GWV at which time Rhino Outdoor International is contemplated to be a minority equity owner with a management agreement in place to manage the sales and marketing of the GWV product.

PATENTS AND PROPRIETARY RIGHTS

We do not hold any trademark, copyright or patent protection.

RESULTS OF OPERATIONS**YEARS ENDED DECEMBER 31, 2006 AND 2005**

We reported revenues of \$77,093 and \$0 for the years ending December 31, 2006 and 2005, respectively, losses of \$9,610,545 and \$7,783,970 during the years ended December 31, 2006 and 2005, respectively. The increase in revenue from 2006 to 2005 is attributed to the change in business plan, acquisition of Rhino Off Road effective June 21, 2006 and our effort to develop into an extreme sports and lifestyle sector company. The Increase in losses was due to the developmental stage of the company, and the delay in delivering XBoard to the market in 2005 and 2006, and our investment in developing the sales and marketing plan for Rhino Off Road.

Net stockholders' deficit in the Company was \$1,506,168 at December 31, 2006. The Company's current assets are insufficient to conduct our plan of operation over the next twelve (12) months and we will have to seek debt or equity financing to fund operations. The Company has no current commitments or arrangements with respect to, or immediate sources of funding. Further, no assurances can be given that funding, if needed, would be available or available to the Company on acceptable terms. The Company's shareholders would be the most likely source of new funding in the form of loans or equity placements though none have made any commitment for future investment and we have no agreement formal or otherwise. The Company's inability to obtain funding would have a material adverse affect on our plan of operation.

Further, there can be no assurance offered to the public by these disclosures, or otherwise, that the Company will be successful, or that we will ultimately succeed as a going concern. To the extent that existing resources and any future earnings prove insufficient to fund our activities, we will need to raise additional funds through debt or equity financing. The Company cannot provide any assurance that such additional financing will be available or that, if available, it can be obtained on terms favorable to us and our shareholders. In addition, any equity financing would result in dilution to the Company shareholders and any debt financing could involve restrictive covenants with respect to future capital raising activities or other financial or operational matters. The Company's inability to obtain adequate funds will adversely affect its operations and the ability to implement its plan of operation.

INCENTIVE AND NON-QUALIFIED STOCK OPTION PLAN

On November 1, 2001, we adopted a 2001 Incentive and Non-Qualified Stock Option Plan. We have reserved 500,000 shares of our common stock for issuance under the Plan. The Plan authorizes the granting of awards of up to 500,000 shares of common stock to our key employees, officers, directors and consultants. Awards consist of stock options (both nonqualified options and options intended to qualify as incentive stock options under Section 422 of the Internal Revenue Code of 1986), restricted stock awards, deferred stock awards, stock appreciation rights and other stock-based awards, as described in the Plan. No stock options are outstanding under the Plan at this time. The plan is administered by our board of directors which determines the persons to whom awards will be granted, the number of awards to be granted and the specific terms of each grant, including their vesting schedule, subject to the provisions of the plan. In connection with incentive stock options, the exercise price of each option may not be less than 100% of the fair market value of the common stock on the date of grant (or 110% of the fair market value in the case of a grantee holding more than 10% of our outstanding stock). The aggregate fair market value of shares for which incentive stock options are exercisable for the first time by an employee during any calendar year may not exceed \$100,000. Nonqualified stock options granted under the plan may be granted at a price determined by the board of directors, not to be less than the fair market value of the common stock on the date of grant.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

We have audited the accompanying consolidated balance sheets of Rhino Outdoor International, Inc. (a development stage company) as of December 31, 2006 and 2005 and the related consolidated statements of operations, stockholders' deficit and cash flows for the years then ended and for the period from January 1, 2005 (inception of the current development stage) through December 31, 2006. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Rhino Outdoor International, Inc., as of December 31, 2006 and 2005 and the results of its operations, stockholders' deficit and cash flows for the years then ended and for the period from January 1, 2005 (inception of the current development stage) through December 31, 2006 in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 2 to the financial statements, the Company has limited cash resources, has suffered recurring losses, and has an accumulated deficit at December 31, 2006. These factors raise substantial doubt about its ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 2. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

RHINO OUTDOOR INTERNATIONAL, INC.
(A Development Stage Company)
NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2006

NOTE 1 - BASIS OF PRESENTATION AND DESCRIPTION OF THE BUSINESS

Rhino Outdoor International, Inc. (fka Cyberads, Inc), was incorporated on April 12, 2000 in the State of Florida. On August 10, 2005, the Company changed domicile from Florida to Nevada. The principal business of the Company is the design, manufacturing and sale of off road vehicles and related parts. The Company's operations are located in Henderson, Nevada.

The Company's year-end is December 31.

As of January 1, 2005, the Company abandoned its previous business plan of marketing cellular phone services and began a new development stage where it intends to provide management and sales support to businesses focused in the Extreme Sports/Lifestyle market segment.

On June 21, 2006, the Company entered into a share exchange agreement and plan of reorganization with Rhino Off Road Industries, Inc. Under this agreement and plan of reorganization, the Company acquired all of the outstanding common stock of Rhino in exchange for 1,650,000 shares of the Company's Series C convertible preferred stock. Additionally, the Company issued another 600,000 shares of Series C convertible preferred stock for the retention of the subsidiary's officers and agreed to issue 400,000 shares of Series C convertible preferred stock for loan guarantees. As of December 31, 2006, the 400,000 shares had not yet been issued and the Company has accrued a liability related to this issuance. Rhino Off Road Industries, Inc. was incorporated on September 25, 2003 in the State of Nevada.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of significant accounting policies of Rhino Outdoor International, Inc. is presented to assist in understanding the Company's financial statements. The financial statements and notes are representations of the Company's management, which is responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America, and have been consistently applied in the preparation of the financial statements.

Accounting Method

The Company's financial statements are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Accounts Receivable

The Company carries its accounts receivable at cost less an allowance for doubtful accounts. On a periodic basis, the Company evaluates its accounts receivable and establishes an allowance for doubtful accounts, based on a history of past write-offs and collections and current credit conditions.

The Company's policy is to accrue interest on trade receivables 90 days after invoice date. A receivable is considered past due if payments have not been received by the Company for 90 days. At that time, the Company will discontinue accruing interest and turn the account over for collection. If a payment is made after it has been turned over for collection, the Company will apply the payment to the outstanding principal first and resume accruing interest. Accounts are written off as uncollectible if no payments are received 180 days after they have been turned over for collection.

RHINO OUTDOOR INTERNATIONAL, INC.
(A Development Stage Company)
NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2006

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Company considers all highly liquid investments and short-term debt instruments with original maturities of three months or less to be cash equivalents.

Compensated Absences

Employees of the Company are entitled to paid vacation, and sick days, depending on job classification, length of service, and other factors. Management has deemed that any liability arising from this policy would be immaterial and has accrued no compensated absences liabilities for the period ended December 31, 2006.

Cost of Sales

Cost of sales consists of the purchase price of materials and supplies, shipping, labor and benefits, and other overhead costs associated with production.

Deferred Revenues

The Company received deferred revenues which consisted of the resale of X-Board dealership for approximately \$174,453, net of commissions. The X-Board product has not yet come to market. Accordingly, the Company has not recorded the sales as revenue. In 2006, the Company also received customer deposits of \$39,199 for vehicle purchases that had not been delivered as of December 31, 2006. The Company also received deferred revenues from a sponsorship agreement with Luvoo, Inc. where the Company received stock in exchange for advertising. The deferred revenue received from this sponsorship is being amortized over a one year period at a rate of \$46,875 per month as other income. As of December 31, 2006, the Company had amortized \$328,125 of other income from sponsorships. Deferred revenues remaining from this sponsorship agreement was \$234,375.

Development Stage Activities

Since the inception of the current development stage (which began January 1, 2005), the Company has realized minimal revenue from operations. It expects to be engaged to provide management and sales support to businesses focused in the Extreme Sports/Lifestyle market segment.

Going Concern

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. As shown in the financial statements, the Company has limited cash and revenues, has negative working capital and substantial debt, has incurred a net loss for the year ended December 31, 2006, and has an accumulated deficit since the inception of the Company. These factors indicate that the Company may be unable to continue in existence. The Company is currently putting business plans in place which will, if successful, mitigate these factors which raise substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments related to the recoverability and classification of recorded assets, or the amounts and classification of liabilities that might be necessary in the event the Company cannot continue existence.

Management has established plans designed to increase the sales of the Company's products and services and decrease debt. These plans will include providing management and sales support to businesses focused in the Extreme/Lifestyle market segment where the Company anticipates earning commissions/fees on securing distribution from business and products it represents.

An estimated \$2 million is believed necessary to continue operations and increase development through the next fiscal year. The timing and amount of capital requirements will depend on a number of factors, including demand for products and services and the availability of opportunities for international expansion through affiliations and other business relationships. Management intends to seek new capital from new equity securities issuances to provide funds needed to increase liquidity, fund internal growth, and fully implement its business plan.

F-7

RHINO OUTDOOR INTERNATIONAL, INC.**(A Development Stage Company)****NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS****DECEMBER 31, 2006****Goodwill**

Goodwill represents the excess of the purchase price and related direct costs over the fair value of net assets acquired as of the date of the acquisition of Rhino Off Road Industries, Inc. The Company reviews periodically its goodwill to assess recoverability based on projected undiscounted cash flows from operations. Impairments are recognized in operating results when a permanent diminution in value occurs. At December 31, 2006, no impairment was deemed necessary for the Company's goodwill.

Impaired Asset Policy

The Company adopted Statement of Financial Accounting Standards No. 144, "Accounting for Impairment or Disposal of Long-Lived Assets." In complying with this standard, the Company reviews its long-lived assets quarterly to determine if any events or changes in circumstances have transpired which indicate that the carrying value of its assets may not be recoverable. The Company determines impairment by comparing the undiscounted future cash flows estimated to be generated by its assets to their respective carrying amount whenever events or changes in circumstances indicate that an asset may not be recoverable.

Inventories

The Company records inventories at the lower of cost or market on a first-in, first-out basis.

	December 31, 2006	December 31, 2005
Raw materials and work-in-process	\$ 57,954	\$ -
Finished goods	65,536	-
Total Inventory	\$ 123,490	\$ -

Long-lived Assets

The Company accounts for its long-lived assets in accordance with Statement of Financial Accounting Standards No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets". This standard establishes a single accounting model for long-lived assets to be disposed of by sale, including discontinued operations, and requires that these long-lived assets be measured at the lower of carrying amount or fair value less cost to sell, whether reported in continuing operations or discontinued operations. Accordingly, the Company reviews the carrying amount of long-lived assets for impairment annually and when events or changes in circumstances indicate that the carrying amount may not be recoverable. The determination of any impairment would include a comparison of estimated future cash flows anticipated to be generated during the remaining life of the assets to the net carrying value of the assets.

Marketable Securities

The Company's investments in securities are classified as either trading, held to maturity, or available-for-sale in accordance with Statement of Financial Accounting Standards No. 115. Available-for-sale securities consist of equity securities not classified as trading securities or as securities to be held to maturity. Unrealized holding gains and losses, net of tax, on available-for-sale securities are reported as a net amount in a separate component of other comprehensive income. Gains and losses on the sale of available-for-sale securities are determined using the average cost method and are included in earnings. The Company determines the gain or loss on investment securities held as available-for-sale, based upon the accumulated cost basis of specific investment accounts. On the Company's balance sheet, short-term available for sale securities are classified as "marketable securities." See Note 14.

Property and Equipment

Property and equipment are stated at cost. Depreciation of property and equipment is calculated using the straight-line method over the estimated useful lives of the assets, which range from three to seven years. See Note 5.

NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS

DECEMBER 31, 2006

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of Rhino Outdoor International, Inc. and its wholly owned subsidiaries: IDS Cellular, Inc. (“IDS”) and Rhino Off Road Industries, Inc. All significant transactions and balances among the companies included in the consolidated financial statements have been eliminated. The operations of IDS are currently idle.

Provision for Taxes

Income taxes are provided based upon the liability method of accounting pursuant to Statement of Financial Accounting Standards No. 109, “Accounting for Income Taxes” (hereinafter “SFAS No. 109”). Under this approach, deferred income taxes are recorded to reflect the tax consequences in future years of differences between the tax basis of assets and liabilities and their financial reporting amounts at each year-end. A valuation allowance is recorded against deferred tax assets if management does not believe the Company has met the “more likely than not” standard imposed by SFAS No. 109 to allow recognition of such an asset.

Recent Accounting Pronouncements

In September, 2006, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 158, “Employers’ Accounting for Defined Benefit Pension and Other Postretirement Plans - an amendment of FASB Statements No. 87,88,106, and 132(R)”. This statement requires an employer to recognize the overfunded or underfunded status of a defined benefit postretirement plan (other than a multiemployer plan) as an asset or liability in its statement of financial position and to recognize changes in that funded status in the year in which the changes occur through comprehensive income of a business entity or changes in unrestricted net assets of a not for profit organization. This statement also requires an employer to measure the funded status of a plan as of the date of its year end statement of financial position, with limited exceptions. The adoption of this statement had no immediate material effect on the Company’s financial condition or results of operations.

In September 2006, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 157, “Fair Value Measurements” (hereinafter “SFAS No. 157”), which defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles (GAAP), and expands disclosures about fair value measurements. Where applicable, SFAS No. 157 simplifies and codifies related guidance within GAAP and does not require any new fair value measurements. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. Earlier adoption is encouraged. The Company does not expect the adoption of SFAS No. 157 to have a significant effect on its financial position or results of operations.

In June 2006, the Financial Accounting Standards Board issued FASB Interpretation No. 48, “Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109” (hereinafter “FIN 48”), which prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. FIN 48 is effective for fiscal years beginning after December 15, 2006. The Company does not expect the adoption of FIN 48 to have an immediate material impact on its financial reporting, and the Company is currently evaluating the impact, if any, the adoption of FIN 48 will have on its disclosure requirements.

In March 2006, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 156, "Accounting for Servicing of Financial Assets—an amendment of FASB Statement No. 140." This statement requires an entity to recognize a servicing asset or servicing liability each time it undertakes an obligation to service a financial asset by entering into a servicing contract in any of the following situations: a transfer of the servicer's financial assets that meets the requirements for sale accounting; a transfer of the servicer's financial assets to a qualifying special-purpose entity in a guaranteed mortgage securitization in which the transferor retains all of the resulting securities and classifies them as

F-9

RHINO OUTDOOR INTERNATIONAL, INC.**(A Development Stage Company)****NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS****DECEMBER 31, 2006**

either available-for-sale securities or trading securities; or an acquisition or assumption of an obligation to service a financial asset that does not relate to financial assets of the servicer or its consolidated affiliates. The statement also requires all separately recognized servicing assets and servicing liabilities to be initially measured at fair value, if practicable and permits an entity to choose either the amortization or fair value method for subsequent measurement of each class of servicing assets and liabilities. The statement further permits, at its initial adoption, a one-time reclassification of available for sale securities to trading securities by entities with recognized servicing rights, without calling into question the treatment of other available for sale securities under Statement 115, provided that the available for sale securities are identified in some manner as offsetting the entity's exposure to changes in fair value of servicing assets or servicing liabilities that a servicer elects to subsequently measure at fair value and requires separate presentation of servicing assets and servicing liabilities subsequently measured at fair value in the statement of financial position and additional disclosures for all separately recognized servicing assets and servicing liabilities. This statement is effective for fiscal years beginning after September 15, 2006, with early adoption permitted as of the beginning of an entity's fiscal year. Management believes the adoption of this statement will have no impact on the Company's financial condition or results of operations.

In February 2006, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 155, "Accounting for Certain Hybrid Financial Instruments, an Amendment of FASB Standards No. 133 and 140" (hereinafter "SFAS No. 155"). This statement established the accounting for certain derivatives embedded in other instruments. It simplifies accounting for certain hybrid financial instruments by permitting fair value remeasurement for any hybrid instrument that contains an embedded derivative that otherwise would require bifurcation under SFAS No. 133 as well as eliminating a restriction on the passive derivative instruments that a qualifying special-purpose entity ("SPE") may hold under SFAS No. 140. This statement allows a public entity to irrevocably elect to initially and subsequently measure a hybrid instrument that would be required to be separated into a host contract and derivative in its entirety at fair value (with changes in fair value recognized in earnings) so long as that instrument is not designated as a hedging instrument pursuant to the statement. SFAS No. 140 previously prohibited a qualifying special-purpose entity from holding a derivative financial instrument that pertains to a beneficial interest other than another derivative financial instrument. This statement is effective for fiscal years beginning after September 15, 2006, with early adoption permitted as of the beginning of an entity's fiscal year. Management believes the adoption of this statement will have no impact on the Company's financial condition or results of operations.

Reclassifications

Certain amounts from prior periods have been reclassified to conform to the current period presentation. This reclassification has resulted in no changes to the Company's accumulated deficit or net losses presented.

Revenue Recognition

The Company recognizes revenue for product sales when there is a mutually executed sales contract, when the products are shipped and title passes to customers, when the contract price and terms are fixed, and when collectibility is reasonably assured.

Use of Estimates

The process of preparing financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues, and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

RHINO OUTDOOR INTERNATIONAL, INC.**(A Development Stage Company)****NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS****DECEMBER 31, 2006****NOTE 3 - BANK OVERDRAFTS**

Bank overdrafts consist of checks written in excess of funds on deposit. The underlying bank is used as an imprest account with automatic transfers from the Company's general account as checks are presented.

NOTE 4 - PROPERTY AND EQUIPMENT

Property and equipment are stated at cost less depreciation taken. Depreciation is provided using the straight-line method over the estimated useful lives of the assets. The useful lives of property, plant and equipment for purposes of computing depreciation are five to forty years. The following is a summary of property, equipment, and accumulated depreciation:

	December 31, 2006	December 31, 2005
Plant assets	\$ 120,234	\$ -
Office furniture	4,858	-
Leasehold improvements	1,146	-
	126,238	-
Less accumulated depreciation	(18,284)	-
Net, property and equipment	\$ 107,954	\$ -

Depreciation expense for the year ended December 31, 2006 and 2005 was \$18,284 and \$0, respectively. The Company evaluates the recoverability of property and equipment when events and circumstances indicate that such assets might be impaired. The Company determines impairment by comparing the undiscounted future cash flows estimated to be generated by these assets to their respective carrying amounts. Maintenance and repairs are expensed as incurred. Replacements and betterments are capitalized. The cost and related reserves of assets sold or retired are removed from the accounts, and any resulting gain or loss is reflected in results of operations.

NOTE 5 - INCOME TAXES

At December 31, 2006, the Company had deferred tax assets calculated at an expected rate of 34% of approximately \$12,450,000 principally arising from net operating loss carryforwards for income tax purposes. As management of the Company cannot determine that it is more likely than not that the Company will realize the benefit of the its deferred tax asset, a valuation allowance equal to the deferred tax asset was recorded at December 31, 2006. The significant components of the deferred tax asset at December 31, 2006 and December 31, 2005 were as follows:

	December 31, 2006	December 31, 2005
Net operating loss carryforward:	\$ 36,600,000	\$ 27,018,000
Deferred tax asset	\$ 12,450,000	\$ 9,148,000
Deferred tax asset valuation allowance	(12,450,000)	(9,148,000)
Net deferred tax asset	\$ -	\$ -

At December 31, 2006 and 2005, the Company has net operating loss carryforwards of approximately \$36,600,000 and \$27,018,000, respectively, which begin to expire in the year 2020. The change in the allowance account from December 31, 2005 to December 31, 2006 was \$3,302,000.
