Information Regarding Forward-Looking Statements

In addition to historical information, this report contains predictions, estimates and other forward-looking statements that relate to future events or our future financial performance. These statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by the forward-looking statements. These risks and other factors include those listed under Risk Factors and elsewhere in this report, and some of which we may not know. In some cases, you can identify forward-looking statements by terminology such as may, will, should, expects, plans, anticipates, believes, estimates, predicts, potential, continue or the negative of the comparable terminology.

Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from any future results, performances or achievements expressed or implied by the forward-looking statements. We discuss many of these risks in this report in greater detail under the heading Risk Factors. Given these uncertainties, you should not place undue reliance on these forward-looking statements. Also, forward-looking statements represent our management's beliefs and assumptions only as of the date of this report. You should read this annual report on Form 10-KSB and the documents that we have filed as exhibits to this annual report completely and with the understanding that our actual future results may be materially different from what we expect.

Except as required by law, we assume no obligation to update these forward-looking statements publicly, or to update the reasons actual results could differ materially from those anticipated in these forward-looking statements, even if new information becomes available in the future.

PART I

ITEM 1 DESCRIPTION OF BUSINESS.

OVERVIEW

We were incorporated in the State of Nevada on August 20, 1999 under the name Draco Holding Corporation. On March 29, 2004, we executed an Agreement for Share Exchange with Hong Xiang Petroleum Group Limited, a corporation organized and existing under the laws of the British Virgin Islands (Hong Xiang), and the individual shareholders owning 100% of the outstanding common shares of Hong Xiang (the Hong Xiang Shareholders). Pursuant to the Agreement for Share Exchange, we issued 18,700,000 shares of our common stock to the Hong Xiang Shareholders in exchange for all of the shares of capital stock of Hong Xiang owned by the Hong Xiang Shareholders at closing, and Hong Xiang became our wholly-owned subsidiary.

On June 28, 2004, we changed our name to China North East Petroleum Holdings Ltd.

DESCRIPTION OF BUSINESS

The Company is engaged in the extraction and production of crude oil in Jilin Province, People's Republic of China (PRC or ~~China~~ through Songyuan City Yu Qiao Qianan Hong Xiang Oil and Gas Development Co., Ltd. (Hong Xiang Oil Development), a wholly-owned subsidiary of the Company's subsidiary Hong Xiang Technical Services Co., Ltd. (Hong Xiang Technical). Hong Xiang Technical, a 100% owned subsidiary of Hong Xiang, was incorporated in the PRC to provide technical advisory services to oil and gas companies in the PRC. Hong Xiang Oil Development is a 100% owned subsidiary of Hong Xiang Technical.

The Company's area of operations is Jilin Qian'an Oil Field Zone 112 (Qian'an 112), located 9 kilometers southwest of Qian'an City. Qian'an 112 has a total exploration area of 20.7 square kilometers.

Pursuant to a 20-year exclusive Cooperative Exploration Contract (the Oil Lease) among PetroChina Group, a corporation organized and existing under the laws of PRC (PetroChina), Song Yuan City Yu Qiao Oil and Gas Exploration Limited Corp., a corporation organized and existing under the laws of the PRC (Yu Qiao) and the Company entered into in May 2002, the Company has the right to explore, develop and pump oil at Qian'an 112. Pursuant to the Oil Lease, (i) PetroChina is entitled to 20% of the Company's oil production for the first ten years of the Oil Lease term and 40% of the Company's oil production for the remaining ten years of the Oil Lease term; and (ii) Yu Qiao is entitled to 2% of the Company's oil production as a management fee.

Song Yuan Technical Joint Venture

On July 26, 2006, the Company entered into a joint venture agreement with Wang Hong Jung (Mr. Wang), the president and a stockholder of the Company and Ju Guizhi (Ms. Ju), mother of Mr. Wang, to contribute to the increased registered capital of a limited liability company under the

Edgar Filing: CHINA NORTH EAST PETROLEUM HOLDINGS LTD - Form 10KSB

Laws of the PRC, named Song Yuan North East Petroleum Technical Service Co., Ltd. (Song Yuan Technical). The purpose of Song Yuan Technical is to acquire oil and gas properties and to engage in the exploration of crude oil in the PRC. The Company owns a 90% membership interest in Song Yuan Technical, and Ms. Ju owns the remaining 10% membership interest in Song Yuan Technical.

Song Yuan Technical owned a 100% equity interest in Chang Ling LongDe Oil & Gas Development Co. Limited. (LongDe). LongDe is a party to a 20-year Exploration Contract with PetroChina entered into in May 2003, pursuant to which LongDe has the right to explore, develop and pump oil at Hetingbao Oilfield 301 Area in the PRC (Hetingbao 301). Pursuant to the Exploration Contract, PetroChina is entitled to 20% of LongDe s output in the first ten years and 40% of LongDe s output thereafter until the end of the Exploration Contract. The acquisition of LongDe was made pursuant to the laws of the PRC. As a 90% owner of Song Yuan Technical, the Company has the controlling interest of LongDe.

Acquisition of Yu Qiao

Subsequent to the 2006 fiscal year end, on January 26, 2007, the Company's 90% owned joint venture, Song Yuan Technical, completed the acquisition of 100% of the equity interests of Yu Qiao. In consideration for this acquisition, the Company will issue to the three former shareholders of Yu Qiao (one of whom is Ju Guizhi, who owns 70% equity interest of Yu Qiao) an aggregate of ten million (10,000,000) shares of the Company's unregistered common stock in exchange for their equity interests. Such shares have a market value of approximately US\$3.1 million based on the preceding 30-day average of the high bid and the low ask price for Registrant's common stock as quoted on the Over-the-Counter Bulletin Board as of the Closing. As a result of this acquisition, the Company controls 90% ownership of Yu Qiao, through its 90% owned joint venture, Song Yuan Technical. The Board of Directors of the Registrant will retain an investment bank or financial advisor doing business in the PRC to prepare and deliver an opinion as to the fairness of the transaction and the Stock Purchase Price to the Registrant and its shareholders within 90 days after the Closing date.

In order to comply with certain PRC laws relating to foreign entities' ownership of oil and gas company in the PRC, the former owners of Yu Qiao, Wang Pingwu and Meng Xiangyun, hold 20%, and 10% of the equity interests, respectively, in Yu Qiao in trust for the benefit of Song Yuan Technical and Ms. Ju. The law of the PRC governs the agreements by which the Company acquired Yu Qiao and by which the former owners of Yu Qiao hold an equity interest in trust. See "Regulations Affecting Our Business" under "Risk Factors."

The Company, as the 90% owner of Song Yuan Technical, indirectly owns 63% of the equity securities of Yu Qiao and Ms. Ju indirectly owns 7% of the equity securities of Yu Qiao. In addition, the Company and Ms. Ju are the indirect beneficiaries of the Trust Agreements with respect to 27% and 3%, respectively, of the equity securities of Yu Qiao. As the majority shareholder of Yu Qiao, the Company now has the rights to extract and develop Qian'an 112 under the Exploration Contract through Yu Qiao and other oil fields under three different Exploration Contracts that Yu Qiao entered into with PetroChina. These oil fields include Da 34 oilfield and Gu 31 oilfield in Jilin province and cover a total of 3,207 acres and consist of approximately 227 oil wells.

As a result of the Yu Qiao acquisition, the Oil Lease became unnecessary, because the Company became, effectively, both the lessor and lessee under the lease agreement pertaining to the Qian'an 112 oil fields. In particular, the management fee paid by Hong Xiang Oil Development to Yu Qiao became redundant as both entities are controlled by the Company. In addition, all operations, assets and liabilities of Hong Xiang Oil Development will be transferred to Yu Qiao. As such, on March 19, 2007, the Company dissolved Hong Xiang Oil Development and Hong Xiang Technical as both subsidiaries have no assets other than the lease agreement, and are no longer necessary elements of its corporate structure. The Company did not incur any material costs in connection to the closure of Hong Xiang Technical and Hong Xiang Oil Development.

Oil and Gas Properties and Activities

During 2006, the Company had a total of 44 producing wells, including 38 producing wells at Qian'an 112 and 6 producing wells at Hetingbao 301. There are 34 traditional sucker-rod pumping machines in operation.

Crude oil production in Qian'an 112 is sold to the Jilin Refinery of PetroChina, which is approximately four kilometers from the pumping site at Qian'an 112. PetroChina pays the Company a price per barrel equal to the Singapore crude oil spot market price on the first day of every month. The price is FOB the Jilin Refinery.

Crude oil production in Hetingbao Oilfield 301 is also sold to Jilin Refinery of PetroChina, which is approximately three kilometers from the pumping site at Hetingbao 301. PetroChina pays the Company a price per barrel equal to the Singapore crude oil spot market price on the first day of every month. The price is FOB the Jilin Refinery.

Sales Volumes and Prices

The following table shows the Company's annual sales volumes of crude oil for the last three fiscal years.

	2006	2005	2004
China	(m bbl)		
Crude Oil	41,204.02	27,536.26	40,725.79

Proved Reserves

As of December 31, 2006, Qian an 112 had proved reserves of approximately 826,926 barrels of crude oil attributable to the Company; Hetingbao Oilfield 301 had proved reserved of approximately 641,945 barrels of crude oil attributable to the Company.

Proved reserve estimates were made as of December 31, 2006 by R.A. Lenser & Associates, an independent worldwide petroleum consultant. R.A. Lenser & Associates conducted a reserve study of Qian an 112 in accordance with generally accepted petroleum engineering and evaluation principles in conformity with SEC definitions and guidelines.

The Company's estimates of proved reserves, proved developed reserves and proved undeveloped reserves at December 31, 2006 and 2005 (restated) are contained in the *Supplemental Information on Oil and Gas Exploration and Production Disclosures - Unaudited (Supplemental Information)* in the CNEH Consolidated Financial Statements (Consolidated Financial Statements) under Item -- 7 of this Form 10-KSB.

Also contained in the *Supplemental Information* in the Consolidated Financial Statements are the Company's estimates of future net cash flows and discounted future net cash flows from proved reserves. See *Operating Results* and *Critical Accounting Policies and Estimates* under Item 7 of this Form 10-KSB for additional information on the Company's proved reserves.

The following table shows the Company's annual average sales prices and average production costs. Production costs are costs incurred to operate and maintain the Company's wells and related equipment and include cost of labor, well service and repair, location maintenance, power and fuel, transportation, cost of product, property taxes, production and severance taxes and production related general and administrative costs. Additional detail of production costs is contained in the Supplemental Information under Item 7 of this Form 10-KSB.

	2006	2005	2004
Qian an 112			
Average annual sales price per barrel	\$64.20	\$61.81	\$35.13
Aggregate annual sales	2,219,019	\$1,412,232	\$1,430,680
Average annual production cost per			
barrel equivalent	\$9.91	\$8.84	\$9.29

	2006	2005	2004
Hetingbao Oilfield 301			
Average annual sales price per barrel	\$66.61	N/A	N/A
Aggregate annual sales	\$442,466	N/A	N/A
Average annual production cost per			
barrel equivalent	\$9.32	N/A	N/A

Drilling Programs

During 2006, the Company drilled 17 new productive wells in Qian 112 area and 1 new productive well in Hetingbao 301 area.

Drilling Statistics

The following table shows the results of the oil and gas wells drilled and tested:

	Net Exploratory			Net Development			Total
	Productive	Dry Holes	Total	Productive	Dry Holes	Total	
2006	0	0	0	44	0	0	44
2005	0	0	0	21	0	0	21
2004	0	0	0	21	0	0	21

Properties and Leases

The following schedule shows the number of developed leases, undeveloped lease and fee mineral acres in which the Company held interests at December 31, 2006:

Property	Developed Lease		Undeveloped Lease	
	Gross	Net	Gross	Net
Qian an 112	821	657	475	380
Hetingbao 301	130	104	497	397

- (1) Developed Proved Acres means the acres assigned to each existing well. Each of the Company's 38 wells is assigned to approximately 300 square meters or 21.6 acres.
- (2) Undeveloped Proved Acres means the acres assigned to each proved undeveloped location. Each of the Company's 22 proved undeveloped locations is assigned to approximately 300 square meters or 21.6 acres.
- (3) Remaining Undeveloped Acres means the remaining undeveloped acres in the oil tract.

Marketing and Sales

Currently, all of the Company's crude oil production is sold to PetroChina's Jilin Refinery. We do not expect that the Company will have any other customers during the next twelve months. (actually, restricted by the contract we could not sell any crude oil to any other dealer rather than PetroChina. PetroChina pays the Company the Singapore spot price as of the first day of each calendar month.

Employees

We currently employ 78 people, of which 18 are in management and 60 are site workers. All employees are located in Northern China. Most of them are highly educated, including senior engineers and specialists with bachelors or masters degrees. None of our employees belong to a union nor are any employed pursuant to any collective bargaining agreement or similar agreement. We believe that relationships with our employees are satisfactory.

Regulations

Restrictions on Foreign Ownership in the Oil and Gas Industry

The principal regulation governing foreign ownership of oil and gas companies in China is the Regulations of the Foreign Investor Merges the Domestic Enterprises issued by Department of Commerce, Foreign Investment Administration, Stock Exchange Committee (September 2006). Currently, qualified foreign investors cannot own 100% of an oil and gas company in China. The foreign investors' equity holding ratios are subject to the approval of relevant government authorities.

Edgar Filing: CHINA NORTH EAST PETROLEUM HOLDINGS LTD - Form 10KSB

As we understand that any foreign investment in China should be subject to the approval of the Ministry of Commerce and approvals of other authorities (if applicable).

As a result of the rules and regulations described above, we conduct our businesses in China through Yu Qiao and Wang Pingwu and Meng Xiangyun, who holds the equity interests of Yu Qiao in trust for the Company. We have entered into contractual arrangements with Wang Pingwu and Meng Xiangyun pursuant to which we believe, based on the advice of PRC legal counsel, that:

we are able to exert effective control over Yu Qiao;
substantially all of the economic benefits of Yu Qiao will be transferred to us; and
our 90% owned joint venture, Song Yuan Technical, has an exclusive option to purchase all or part of the equity interests in Yu Qiao to the extent permitted by PRC law.

The Company further believes, based on the advice of PRC legal counsel who, that:

the ownership structure of Yu Qiao is in compliance with existing PRC laws and regulations; the contractual arrangements among Song Yuan Technical, Yu Qiao Wang Pingwu and Meng Xiangyun are valid, binding and enforceable, and will not result in any violation of PRC laws or regulations currently in effect; and the PRC business operations of Song Yuan Technical and Yu Qiao as described in this annual report, are in compliance with existing PRC laws and regulations in all material respects.

We have been further advised, however, that there are substantial uncertainties regarding the interpretation and application of current and future PRC laws and regulations. Accordingly, there can be no assurance that the PRC regulatory authorities will not in the future take a view that is contrary to the above opinion of our PRC legal counsel.

Environmental Regulations

We are subject to the environmental laws and regulations of the jurisdictions in which we carry on our business. Existing or future laws and regulations could have a significant impact on the exploration and development of natural resources by us. However, to date, we have not been required to spend any material amounts for environmental control facilities. The Chinese government strictly monitors compliance with these laws but compliance therewith has not had any adverse impact on our operations or our financial resources.

Special Oil Fees

In June 2006, the PRC government imposed a new regulation on all oil and gas producers. Under this new regulation, all oil and gas producers are subject to a mandatory special oil fee. The fee is calculated based on the per barrel selling price of crude oil received by the producer. If the selling price of crude oil received by the producer exceeds \$40 per barrel, the special oil fee is 20% of that portion of the selling price that exceeds \$40 per barrel. If the selling price of the crude oil exceeds \$60 per barrel, the special oil fee is 40% of the portion of the selling price that exceeds \$60 per barrel. As a result of this new regulation, the Company paid additional special oil fees of \$190,934 to the PRC government during 2006. The Company will be required to continue to pay these special oil fees to the PRC government if the selling price of crude oil remains above \$40 per barrel and these special oil fees will increase to the extent that crude oil prices continue to rise.

RISK FACTORS

Our business is subject to certain risks, and we want you to review these risks while you are evaluating our business and our historical results. Please keep in mind that any of the following risks discussed below and elsewhere in this Annual Report could materially and adversely affect us, our operating results, our financial condition and our projections and beliefs as to our future performance. As such, our results could differ materially from those projected in our forward-looking statements. Additional risks and uncertainties not currently known to us or those we currently deem to be immaterial may also materially and adversely affect our business.

RISKS RELATED TO OUR BUSINESS

Oil prices fluctuate significantly, and lower prices for an extended period of time are likely to have a material adverse impact on our business.

Our revenues, profitability and future growth depend substantially on prevailing prices for crude oil. We sell to one customer, PetroChina, and we are paid a price per barrel equal to the Singapore crude oil spot market price on the first day of every month. These prices also affect the amount of cash flow available for capital expenditures and our ability to borrow and raise additional capital. The lower prices may reduce the amount of crude oil that we can economically produce.

Among the factors that can cause fluctuations are:

the price and availability of alternative fuels;
disruptions in supply and changes in demand caused by weather conditions;
changes in demand as a result of changes in price;
political conditions in oil and gas producing regions; and
domestic governmental regulations.

Our future success depends on our ability to find, develop and acquire oil and gas reserves.

To maintain production levels, we must locate and develop or acquire new crude oil reserves to replace those depleted by production. Without successful exploration or acquisition activities, our reserves, production and revenues will decline rapidly. We may be unable to find and develop or acquire additional reserves at an acceptable cost. In addition, substantial capital is required to replace and grow reserves. If lower crude oil price or operating constraints or production difficulties result in our cash flow from operations being less than expected, we may be unable to expend the capital necessary to locate and develop or acquire new crude oil reserves.

We may need to raise substantial additional capital, which may result in substantial dilution to existing stockholders.

In order to fully develop and exploit the Company's oil reserves and to execute on our business plan, the Company may need substantial additional capital. The Company is currently considering possible sources of this additional capital, including raising capital through the issuance of debt or equity securities. There can be no assurance that we will be able to raise sufficient additional capital at all or on terms favorable to our stockholders or us. If we issue equity securities in order to raise additional capital in the amounts currently contemplated, the stockholders will experience immediate and substantial dilution in their ownership percentage of the combined company. In addition, to raise the capital we need, we may need to issue additional shares at a discount to the current market price. If the terms of such financing are unfavorable to us or our stockholders, the stockholders may experience substantial dilution in the net tangible book value of their stock. In addition, any new equity securities may have rights, preferences or privileges senior to those of existing holders of common stock. If we cannot raise funds on acceptable terms, we may not be able to fully develop or exploit our existing oil reserves, take advantage of future opportunities or respond to competitive pressures or unanticipated requirements all of which could have a material adverse effect on us.

Environmental and regulatory factors

The oil drilling industry in China to date has not been subject to the type and scope of regulation seen in Europe and the United States. However, the possibility exists that new legislation or regulations may be adopted or that the enforcement of existing laws could become more stringent, either of which may have a significant impact on our mining operations or our customers' ability to use oil and may require us or our customers to significantly change operations or to incur substantial costs. We believe that our operations in China are in compliance with China's applicable legal and regulatory requirements. However, there can be no assurance that China's central or local governments will not impose new, stricter regulations or interpretations of existing regulations that would require additional expenditures.

Reserve degradation and depletion

Our profitability depends substantially on our ability to exploit our oil reserves at competitive costs. Replacement reserves may not be available when required or, if available, may not be capable of being drilled at costs comparable to those characteristics of the depleting oil field. We may in the future acquire oil reserves from third parties. We may not be able to accurately assess the geological characteristics of any reserves that we acquire, which may adversely affect our profitability and financial condition. Exhaustion of reserves at Qian'an 112, Hetingbao 301 and at oil

fields that we may acquire in the future can also have an adverse effect on operating results that is disproportionate to the percentage of overall production represented by such mines.

Reserves title; leasehold interests

Our proved reserves are estimates. Any material inaccuracies in our reserve estimates or assumptions underlying our reserve estimates could cause the quantities and net present value of our reserves to be overstated or understated.

There are numerous uncertainties inherent in estimating quantities of proved reserves, including many factors beyond our control that could cause the quantities and net present value of our reserves to be overstated. The reserve information included or incorporated by reference in this report represents estimates prepared by our internal engineers and examined by independent petroleum consultants. Estimation of reserves is not an exact science. Estimates of economically recoverable oil and natural gas reserves and of future net cash flows necessarily depend upon a number of variable factors and assumptions, any of which may cause these estimates to vary considerably from actual results, such as:

historical production from an area compared with production from similar producing areas;

assumed effects of regulation by governmental agencies;

assumptions concerning future oil and natural gas prices, future operating costs and capital expenditures; and

estimates of future severance and excise taxes, workover and remedial costs.

Estimates of reserves based on risk of recovery and estimates of expected future net cash flows prepared or audited by different engineers, or by the same engineers at different times, may vary substantially. Actual production, revenues and expenditures with respect to our reserves will likely vary from estimates, and the variance may be material. The net present values referred to in this report should not be construed as the current market value of the estimated oil reserves attributable to our properties. In accordance with SEC requirements, the estimated discounted net cash flows from proved reserves are generally based on prices and costs as of the date of the estimate, whereas actual future prices and costs may be materially higher or lower.

Acquisitions

We are seeking to expand our operations and oil reserves in the regions in which we operate through acquisitions of businesses and assets, including leases of oil reserves. Acquisition transactions involve inherent risks, such as:

uncertainties in assessing the value, strengths, weaknesses, contingent and other liabilities and potential profitability of acquisition or other transaction candidates;

the potential loss of key personnel of an acquired business;

the ability to achieve identified operating and financial synergies anticipated to result from an acquisition or other transaction;

problems that could arise from the integration of the acquired business;

unanticipated changes in business, industry or general economic conditions that affect the assumptions underlying the acquisition or other transaction rationale; and

unexpected development costs, that adversely affect our profitability.

Any one or more of these factors could cause us not to realize the benefits anticipated to result from the acquisition of businesses or assets.

RISKS RELATED TO DOING BUSINESS IN CHINA

Our operations are primarily located in China and may be adversely affected by changes in the policies of the Chinese government.

The political environment in the PRC may adversely affect the Company's business operations. The PRC has operated as a socialist state since 1949 and is controlled by the Communist Party of China. In recent years, however, the government has introduced reforms aimed at creating a socialist market economy and policies have been implemented to allow business enterprises greater autonomy in their operations. Changes in the political leadership of the PRC may have a significant effect on laws and policies related to the current economic reforms program, other policies affecting business and the general political, economic and social environment in the PRC, including the introduction of measures to control inflation, changes in the rate or method of taxation, the imposition of additional restrictions on currency conversion and remittances abroad, and foreign investment. These effects could substantially impair the Company's business, profits or prospects in China. Moreover, economic reforms and growth in the PRC have been more successful in certain provinces than in others, and the continuation or increases of such disparities could affect the political or social stability of the PRC.

The PRC's economic, political and social conditions, as well as governmental policies, could affect the financial markets in China and our liquidity and access to capital and our ability to operate our business.

The PRC economy differs from the economies of most developed countries in many respects, including the amount of government involvement, level of development, growth rate, control of foreign exchange and allocation of resources. While the PRC economy has experienced significant growth over the past, growth has been uneven, both geographically and among various sectors of the economy. The PRC government has implemented various measures to encourage economic growth and guide the allocation of resources. Some of these measures benefit the overall PRC economy, but may also have a negative effect on us. The PRC economy has been transitioning from a planned economy to a more market-oriented economy. Although the PRC government has implemented measures since the late 1970s emphasizing the utilization of market forces for economic reform, the reduction of state ownership of productive assets and the establishment of improved corporate governance in business enterprises, a substantial portion of productive assets in China is still owned by the PRC government. In addition, the PRC government continues to play a significant role in regulating industry development by imposing industrial policies. The PRC government also exercises significant control over China's economic growth through the allocation of resources, controlling payment of foreign currency-denominated obligations, setting monetary policy and providing preferential treatment to particular industries or companies. Since late 2003, the PRC government implemented a number of measures, such as raising bank reserves against deposit rates to place additional limitations on the ability of commercial banks to make loans and raise interest rates, in order to slow down specific segments of China's economy which it believed to be overheating. These actions, as well as future actions and policies of the PRC government, could materially affect our liquidity and access to capital and our ability to operate our business.

The Chinese government exerts substantial influence over the manner in which the Company must conduct its business activities.

The PRC only recently has permitted greater provincial and local economic autonomy and private economic activities. The government of the PRC has exercised and continues to exercise substantial control over virtually every sector of the Chinese economy through regulation and state ownership. Accordingly, government actions in the future, including any decision not to continue to support recent economic reforms and to return to a more centrally planned economy or regional or local variations in the implementation of economic policies, could have a significant effect on economic conditions in the PRC or particular regions thereof, and could require the Company to divest the interests it then holds in Chinese properties or joint ventures. Any such developments could have a material adverse effect on the business, operations, financial condition and prospects of the Company.

Future inflation in China may inhibit economic activity and adversely affect the Company's operations.

In recent years, the Chinese economy has experienced periods of rapid expansion and within which some years with high rates of inflation and deflation, which have led to the adoption by the PRC government, from time to time, of various corrective measures designed to restrict the availability of credit or regulate growth and contain inflation. While inflation has moderated since 1995, high inflation may in the future cause the PRC government to impose controls on credit and/or prices, or to take other action, which could inhibit economic activity in China, and thereby adversely affect the Company's business operations and prospects in the PRC.

We may be restricted from freely converting the Renminbi to other currencies in a timely manner.

The Renminbi is not a freely convertible currency at present. The Company receives all of its revenue in Renminbi, which may need to be converted to other currencies, primarily U.S. dollars, and remitted outside of the PRC. Effective July 1, 1996, foreign currency current account transactions by foreign investment enterprises, including Sino-foreign joint ventures, are no longer subject to the approval of State Administration of Foreign Exchange (SAFE, formerly, State Administration of Exchange Control), but need only a ministerial review, according to the Administration of the Settlement, Sale and Payment of Foreign Exchange Provisions promulgated in 1996 (the FX regulations). Current account items include international commercial transactions, which occur on a regular basis, such as those relating to trade and provision of services. Distributions to joint venture parties also are considered a current account transaction. Other non-current account items, known as capital account items, remain subject to SAFE approval. Under current regulations, the Company can obtain foreign currency in exchange for Renminbi from swap centers authorized by the government. The Company does not anticipate problems in obtaining foreign currency to satisfy its requirements; however, there is no assurance that foreign currency shortages or changes in currency exchange laws and regulations by the Chinese government will not restrict the Company from freely converting Renminbi in a timely manner. If such shortages or change in laws and regulations occur, the Company may accept Renminbi, which can be held or re-invested in other projects.

We may suffer from exchange rate risks that could result in foreign currency exchange loss.

Because our business transactions are denominated in RMB and our funding and result of operations will be denominated in USD, fluctuations in exchange rates between USD and RMB will affect our balance sheet and financial results. Since July 2005, RMB is no longer solely pegged with USD but is pegged against a basket of currencies as a whole in order to keep a more stable exchange rate for international trading. With the very strong economic growth in China in the last few years, RMB is facing a very high pressure to appreciate against USD. Such pressure would result more fluctuations in exchange rates and in turn our business would be suffered from higher exchange rate risk.

There are very limited hedging tools available in China to hedge our exposure in exchange rate fluctuations. They are also ineffective in the sense that these hedges cannot be freely preformed in the PRC financial market, and more important, the frequent changes in PRC exchange control regulations would limit our hedging ability for RMB.

We may be unable to enforce our rights due to policies regarding the regulation of foreign investments in China.

The PRC's legal system is a civil law system based on written statutes in which decided legal cases have little value as precedents, unlike the common law system prevalent in the United States. The PRC does not have a well-developed, consolidated body of laws governing foreign investment enterprises. As a result, the administration of laws and regulations by government agencies may be subject to considerable discretion and variation, and may be subject to influence by external forces unrelated to the legal merits of a particular matter. China's regulations and policies with respect to foreign investments are evolving. Definitive regulations and policies with respect to such matters as the permissible percentage of foreign investment and permissible rates of equity returns have not yet been published. Statements regarding these evolving policies have been conflicting and any such policies, as administered, are likely to be subject to broad interpretation and discretion and to be modified, perhaps on a case-by-case basis. The uncertainties regarding such regulations and policies present risks that the Company will not be able to achieve its business objectives. There can be no assurance that the Company will be able to enforce any legal rights it may have under its contracts or otherwise.

Because our assets are located overseas, stockholders may not receive distributions that they would otherwise be entitled to if we were declared bankrupt or insolvent.

Our assets are, for the most part, located in the PRC. Because the Company's assets are located overseas, the assets of the Company may be outside of the jurisdiction of U.S. courts to administer if the Company was the subject of an insolvency or bankruptcy proceeding. As a result, if the Company was declared bankrupt or insolvent, the Company's stockholders may not receive the distributions on liquidation that they are otherwise entitled to under U.S. bankruptcy law.

Our acquisitions of LongDe and Yu Qiao (after our fiscal year) were structured to attempt to fully comply with PRC rules and regulations. However, such arrangements may be adjudicated by relevant PRC government agencies as not being in compliance with PRC governmental regulations on foreign investment in oil and gas industries and such structures may limit our control with respect to such entities.

PRC rules and regulations do not allow foreign investors to directly own 100% of a domestic oil and gas business. As such, we are ineligible to own directly 100% a domestic oil and gas business in China. We acquired Hong Xiang Oil Development through Hong Xiang Technical, our 100% owned subsidiary. We acquired a majority interest of LongDe and Yu Qiao through Song Yuan Technical, our 90% owned joint venture incorporated in the PRC. Our acquisition of Yu Qiao subsequent to our fiscal year is currently provided through a trust arrangement with two PRC citizens designated by PetroChina, a government owned entity; pursuant to which they agree to hold 30% securities of Yu Qiao for the benefit of Song Yuan Technical in compliance with the applicable law of the PRC. However, pursuant to the trust agreement, they agree, among other things, to (i) vote the securities as directed by Song Yuan technical, (ii) deliver all payments, distributions and other economic benefits received with respect to the securities to Song Yuan Technical, (iii) not transfer or encumber the securities without the consent of Song Yuan Technical and (iv) to transfer the securities to Song Yuan Technical as soon as permissible under the laws of the PRC.

Although we have been advised by our PRC counsel that our arrangements with our affiliated Chinese entities are valid under current PRC laws and regulations, we cannot assure you that we will not be required to restructure our organization structure and operations in China to comply with changing and new PRC laws and regulations. Restructuring of our operations may result in disruption of our business, diversion of management attention and the incurrence of substantial costs.

Recent PRC regulations relating to offshore investment activities by PRC residents may increase our administrative burden and restrict our overseas and cross-border investment activities. If our shareholders who are PRC residents fail to make any required applications and filings under such regulations, we may be unable to distribute profits and may become subject to liability under PRC laws.

The PRC National Development and Reform Commission, or NDRC, and SAFE recently promulgated regulations that require PRC residents and PRC corporate entities to register with and obtain approvals from relevant PRC government authorities in connection with their direct or indirect offshore investment activities. These regulations apply to our shareholders who are PRC residents and may apply to any offshore acquisitions that we make in the future.

Under the SAFE regulations, PRC residents who make, or have previously made, direct or indirect investments in offshore companies will be required to register those investments. In addition, any PRC resident who is a direct or indirect shareholder of an offshore company is required to file with the local branch of SAFE, with respect to that offshore company, any material change involving capital variation, such as an increase or decrease in capital, transfer or swap of shares, merger, division, long-term equity or debt investment or creation of any security interest over the assets located in China. If any PRC shareholder fails to make the required SAFE registration, the PRC subsidiaries of that offshore parent company may be prohibited from distributing their profits and the proceeds from any reduction in capital, share transfer or liquidation, to their offshore parent company, and the offshore parent company may also be prohibited from injecting additional capital into their PRC subsidiaries. Moreover, failure to comply with the various SAFE registration requirements described above could result in liability under PRC laws for evasion of applicable foreign exchange restrictions.

We cannot assure you that all of our shareholders who are PRC residents will comply with our request to make or obtain any registrations or approvals required under these regulations or other related legislation. Furthermore, as the regulations are relatively new, the PRC government has yet to publish implementing rules, and much uncertainty remains concerning the reconciliation of the new regulations with other approval requirements. It is unclear how these regulations, and any future legislation concerning offshore or cross-border transactions, will be interpreted, amended and implemented by the relevant government authorities. The failure or inability of our PRC resident shareholders to comply with these regulations may subject us to fines and legal sanctions, restrict our overseas or cross-border investment activities, limit our ability to inject additional capital into our PRC subsidiaries, and the ability of our PRC subsidiaries to make distributions or pay dividends, or materially and adversely affect our ownership structure. If any of the foregoing events occur, our acquisition strategy, business operations and ability to distribute profits to you could be materially and adversely affected.

PRC regulation of loans and direct investment by offshore holding companies to PRC entities may delay or prevent us from raising finance to make loans or additional capital contributions to our PRC operating subsidiaries and affiliates.

As an offshore holding company of our PRC operating subsidiaries and affiliates, we may make loans to our PRC subsidiaries and consolidated PRC affiliated entities, or we may make additional capital contributions to our PRC subsidiaries. Any loans to our PRC subsidiaries or consolidated PRC affiliated entities are subject to PRC regulations and approvals.

We may also determine to finance Song Yuan Technical, by means of capital contributions. These capital contributions to Song Yuan Technical must be approved by the PRC Ministry of Commerce or its local counterpart. We cannot assure you that we can obtain these government registrations or approvals on a timely basis, if at all, with respect to future loans or capital contributions by us to our operating subsidiaries. If we fail to receive such registrations or approvals, our ability to capitalize our PRC operations would be negatively affected which would adversely and materially affect our liquidity and our ability to expand our business.

RISKS RELATED TO CORPORATE AND STOCK MATTERS

Our authorized preferred stock exposes stockholders to certain risks.

Edgar Filing: CHINA NORTH EAST PETROLEUM HOLDINGS LTD - Form 10KSB

Our Articles of Incorporation authorizes the issuance of up to 50,000,000 shares of preferred stock, par value \$.001 per share. To date, no shares of preferred stock have been issued. The authorized preferred stock constitutes what is commonly referred to as "blank check" preferred stock. This type of preferred stock allows

the Board of Directors to divide the preferred stock into series, to designate each series, to fix and determine separately for each series any one or more relative rights and preferences and to issue shares of any series without further stockholder approval. Preferred stock authorized in series allows our Board of Directors to hinder or discourage an attempt to gain control of us by a merger, tender offer at a control premium price, proxy contest or otherwise. Consequently, the preferred stock could entrench our management. In addition, the market price of our common stock could be materially and adversely affected by the existence of the preferred stock.

The market for the Company's common stock is illiquid.

The Company's common stock is traded on the Over-the-Counter Bulletin Board. It is thinly traded compared to larger more widely known companies in its industry. Thinly traded common stock can be more volatile than stock trading in an active public market. The Company cannot predict the extent to which an active public market for its common stock will develop or be sustained.

Our stock is a penny stock. Trading of our stock may be restricted by the SEC's penny stock regulations which may limit a stockholder's ability to buy and sell our stock.

Our stock is a penny stock. The SEC has adopted Rule 15c-9 which generally defines "penny stock" to be any equity security that has a market price (as defined) less than \$5.00 per share or an exercise price of less than \$5.00 per share, subject to certain exceptions. Our securities are covered by the penny stock rules, which impose additional sales practice requirements on broker-dealers who sell to persons other than established customers and accredited investors. The term "accredited investor" refers generally to institutions with assets in excess of \$5,000,000 or individuals with a net worth in excess of \$1,000,000 or annual income exceeding \$200,000 or \$300,000 jointly with their spouse. The penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from the rules, to deliver a standardized risk disclosure document in a form prepared by the SEC which provides information about penny stocks and the nature and level of risks in the penny stock market. The broker-dealer also must provide the customer with current bid and offer quotations for the penny stock, the compensation of the broker-dealer and its salesperson in the transaction and monthly account statements showing the market value of each penny stock held in the customer's account. The bid and offer quotations, and the broker-dealer and salesperson compensation information, must be given to the customer orally or in writing prior to effecting the transaction and must be given to the customer in writing before or with the customer's confirmation. In addition, the penny stock rules require that prior to a transaction in a penny stock not otherwise exempt from these rules, the broker-dealer must make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written agreement to the transaction. These disclosure requirements may have the effect of reducing the level of trading activity in the secondary market for the stock that is subject to these penny stock rules. Consequently, these penny stock rules may affect the ability of broker-dealers to trade our securities. We believe that the penny stock rules discourage investor interest in and limit the marketability of our common stock.

NASD sales practice requirements may also limit a stockholder's ability to buy and sell our stock.

In addition to the "penny stock" rules described above, the NASD has adopted rules that require that in recommending an investment to a customer, a broker-dealer must have reasonable grounds for believing that the investment is suitable for that customer. Prior to recommending speculative low priced securities to their non-institutional customers, broker-dealers must make reasonable efforts to obtain information about the customer's financial status, tax status, investment objectives and other information. Under interpretations of these rules, the NASD believes that there is a high probability that speculative low priced securities will not be suitable for at least some customers. The NASD requirements make it more difficult for broker-dealers to recommend that their customers buy our common stock, which may limit your ability to buy and sell our stock and have an adverse effect on the market for our shares.

Stockholders should have no expectation of any dividends.

The holders of our common stock are entitled to receive dividends when, as and if declared by the board of directors out of funds legally available therefore. To date, we have not declared nor paid any cash dividends. The board of directors does not intend to declare any dividends in the foreseeable future, but instead intends to retain all earnings, if any, for use in our business operations.

All of our directors and officers are outside the United States, with the result that it may be difficult for investors to enforce within the United States any judgments obtained against us or any of our directors or officers.

All of our directors and officers are nationals and/or residents of countries other than the United States, and all or a substantial portion of such persons' assets are located outside the United States. As a result, it may be difficult for investors to effect service of process on our directors or officers, or enforce within the United States or Canada any judgments obtained against us or our officers or directors, including judgments predicated upon the civil liability provisions of the securities laws of the United States or any state thereof. Consequently, you may be effectively prevented from pursuing remedies under U.S. federal securities laws against them. In addition, investors may not be able to commence an action in a Canadian court predicated upon the civil liability provisions of the securities laws of the United States.

If we or our independent registered public accountants cannot attest our adequacy in the internal control measures over our financial reporting, as required by Section 404 of the U.S. Sarbanes-Oxley Act, for the fiscal year ending December 31, 2007, we may be adversely affected.

As a public company, we are subject to report our internal control structure and procedures for financial reporting in our annual reports on Form 10-KSB, as a requirement of Section 404 of the U.S. Sarbanes-Oxley Act of 2002 by the U.S. Securities and Exchange Commission (the "SEC"). The report must contain an assessment by management about the effectiveness of our internal controls over financial reporting. Moreover, the independent registered public accountants of our company must attest to and report on management's assessment of the same. Even if our management attests to our internal control measure to be effective, our independent registered public accountants may not satisfy with our internal control structure and procedures. We cannot assure possible outcomes about the conclusion of the report and it could result in an adverse impact on us in the financial marketplace due to the loss of investor confidence in the reliability of our financial statements, which could negatively impact to our stock market price.

ITEM 2 DESCRIPTION OF PROPERTY

China North East Petroleum's principle headquarters are located in Song Yuan City, in the People's Republic of China. The Company leases an approximately 7,747 square foot facility for approximately \$12,294 per year that expires in June 30, 2015. These headquarters house all of our administrative and clerical staff. The Company also leases an approximately 26,910 square foot facility as its production base for \$160 per year that expires in September 20, 2023.

The Company's crude oil exploration and production operations are conducted on property which is located in the Jilin Oil Region and designated as Qian'an Oil Field Zone 112 (Qian'an 112) and Hetingbao Oil Field Zone 301.

The Company also has an office located at Qian'an 112. The Company owns the buildings although the land is leased pursuant to the Oil Lease. Actual oil exploration and production operations are controlled from this office and housing is provided for up to 60 workers. The Company pays no rent for use of this space. In addition the Company has no written agreement or formal arrangement pertaining to the use of this space. No other businesses operate from this office.

In addition, the Company s, through its joint venture, Song Yuan Technical, conducted crude oil exploration and production operations on property which is located in the Jilin Oil Region and designated as Hetingbao Oil Field Zone 301 (Hetingbao 301). Song Yuan Technical owns 100% of LongDe Oil and Gas Development, which is a party to a 20 year Exploration Contract with PetroChina, pursuant to which LongDe has the right to explore, develop and pump oil at Hetingbao Oilfield 301 Area.

Edgar Filing: CHINA NORTH EAST PETROLEUM HOLDINGS LTD - Form 10KSB

The Company does not have an office located in Hetingbao 301.

The Company has no current plans to occupy any additional office space.

ITEM 3. LEGAL PROCEEDINGS

We know of no material, active or pending legal proceedings against our company, nor are we involved as a plaintiff in any material proceeding or pending litigation. There are no proceedings in which any of our directors, officers or affiliates, or any registered or beneficial shareholder, is an adverse party or has a material interest adverse to our interest.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

There were no matters submitted to a vote of security holders during the fourth quarter of 2006.

PART II

ITEM 5. MARKET FOR THE REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND SMALL BUSINESS ISSUER PURCHASES OF EQUITY SECURITIES.

CNEH common stock is quoted on the Over-the-Counter Electronic Bulletin Board under the symbol CNEH.OB. As of March 23, 2007, CNEH had approximately 102 holders of record. Presented below is the high and low bid information of CNEH's common stock for the periods indicated. The source of the following information is Merrill Lynch. These quotations reflect inter-dealer prices, without retail mark-up, mark-down or commission and may not represent actual transactions.

	<u>CNEH COMMON STOCK</u>	
	HIGH	LOW
FISCAL YEAR ENDING DECEMBER 31, 2006:		
First Quarter	\$.84	\$.20
Second Quarter	\$.55	\$.35

Third Quarter	\$0.45	\$0.25
Fourth Quarter	\$0.51	\$0.22
FISCAL YEAR ENDING DECEMBER 31, 2005:		
First Quarter	\$1.08	\$3.0
Second Quarter	\$0.58	\$0.23
Third Quarter	\$0.45	\$0.25
Fourth Quarter	\$0.51	\$0.22

EQUITY COMPENSATION PLAN INFORMATION

The Company issued no options, warrants or other rights to acquire the Company's securities during 2006.

Edgar Filing: CHINA NORTH EAST PETROLEUM HOLDINGS LTD - Form 10KSB

Our common shares are issued in registered form. Interwest Transfer Co. Inc. (Telephone: 801-272-9294; Facsimile: 801-277-3147) is the registrar and transfer agent for our common shares.

We have not declared any dividends since incorporation and do not anticipate that we will do so in the foreseeable future. Although there are no restrictions that limit the ability to pay dividends on our common shares, our intention is to retain future earnings for use in our operations and the expansion of our business.

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following discussion and analysis of financial condition and results of operations should be read in conjunction with our financial statements and related notes included elsewhere in this report. This discussion contains forward-looking statements that involve risks, uncertainties and assumptions. Forward-looking statements can be identified by the fact that they do not relate strictly to historic or current facts. They use words such as anticipate, estimate, project, intend, plan, believe and other words and terms of similar meaning in connection with any discussion of future operating or financial performance. In particular, these include statements relating to:

	Our expectation of continued growth in the demand for our oil;
	Our expectation that we will continue to have adequate liquidity from cash flows from operations;
	A variety of market, operational, geologic, permitting, labor and weather related factors; and
	The other risks and uncertainties which are described below under RISK FACTORS, including, but not limited to, the following:
	Unanticipated conditions may cause profitability to fluctuate.
	Decreases in purchases of oil by our customer will adversely affect our revenues.

Overview

We are engaged in the extraction and production of crude oil in Jilin Province, PRC, through Songyuan City Yu Qiao Qianan Hong Xiang Oil and Gas Development Co., Ltd. (Hong Xiang Oil Development), a wholly-owned subsidiary of the Company's 100% owned subsidiary Hong Xiang Technical Services Co., Ltd. (Hong Xiang Technical) organized and existing under the laws of PRC. The oil field is called Jilin Qian'an Oil Field Zone 112 (Qian'an 112), located approximately 9 kilometers southwest of Qian'an City with a total exploration area of 20.7 square kilometers. Pursuant to a 20-year exclusive Cooperative Exploration Contract (the Contract) among PetroChina Group, a corporation organized and existing under the laws of the People's Republic of China (PetroChina), Song Yuan City Yu Qiao Oil and Gas Exploration Limited Corp., a corporation organized and existing under the laws of the People's Republic of China (Yu Qiao) and the Company, we have the right to explore, develop (including well logging, drill-stem testing and core sampling) and pump oil at Qian'an 112. Pursuant to the Contract, PetroChina is entitled to 20% of our output in the first ten years and 40% of our output thereafter until the end of the Contract; and Yu Qiao is entitled to 2% of our output as a management fee for managing the process of oil production. The Company sells all of its current oil production to PetroChina.

Pursuant to the terms of the Exploration Contract, all payments by PetroChina for sales of the Company's crude oil are paid to Yu Qiao, who forwards the payment to the Company after deduction of its management fee. On April 12, 2006, the Company and Yu Qiao entered into a settlement agreement pursuant to which Yu Qiao agreed to pay to the Company all amounts that Yu Qiao currently owed to the Company by May 30, 2006. In the event that Yu Qiao breaches its agreement, a related party has guaranteed Yu Qiao's payment. As of September 30, 2006, Yu Qiao owed the Company \$1,734,150 in payments that it has yet to forward to the Company.

Edgar Filing: CHINA NORTH EAST PETROLEUM HOLDINGS LTD - Form 10KSB

In September, 2006, the related party who guaranteed Yu Qiao's payment acquired 100% of the equity interest in Yu Qiao. As of September 30, 2006, the Company owed this related party \$485,221 and owed another approximately \$1.25 million to a company controlled by this related party for a total of approximately \$1.74 million. The Company and this related party have agreed to offset the \$1,734,150 owed by Yu Qiao and guaranteed by this related party against the approximately \$1.74 million owed directly and indirectly to this related party by the Company. As of December 31, 2006, debt owed by Yu Qiao has been settled.

On July 26, 2006, the Company entered into a joint venture agreement with a stockholder of the Company and a related party to contribute to the increased registered capital of a limited liability company under the Laws of the People's Republic of China (PRC), named Song Yuan North East Petroleum Technical Service Co., Ltd. (Song Yuan Technical). The purpose of Song Yuan Technical is to acquire oil and gas properties and to engage in the exploration of crude oil in the PRC. The Company owns 90% membership interest in Song Yuan Technical, the related party owns the remaining 10% membership interest in Song Yuan Technical.

Song Yuan Technical owned 100% equity interest of LongDe Oil & Gas Development Co. Ltd. (LongDe). LongDe was incorporated in May, 2003 under the PRC laws and is a party to a 20 year Exploration Contract with PetroChina, pursuant to which LongDe has the right to explore, develop and pump oil at Hetingbao Oilfield 301 Area in the PRC (Hetingbao 301). Pursuant to the Exploration Contract, PetroChina is entitled to 20% of LongDe's output in the first ten years and 40% of LongDe's output thereafter until the end of the Exploration Contract.

Subsequent to the fiscal year end, on January 26, 2007, Song Yuan Technical, the Company's, 90% owned joint venture, completed the acquisition of 100% of the equity interests of Yu Qiao. In consideration for this acquisition, the Company, as the 90% owner of Song Yuan Technical, will issue to the three former shareholders of Yu Qiao (one of whom is Ms. Ju, who owns 70% equity interest of Yu Qiao) an aggregate of ten million (10,000,000) shares of the Company's unregistered common stock, in exchange for their equity interests. Such shares have a market value of approximately US\$3.1 million based on the preceding 30-day average of the high bid and the low ask price for Registrant's common stock as quoted on the Over-the-Counter Bulletin Board as of the Closing. As a result of this acquisition, the Company controls 90% ownership of Yu Qiao, through its 90% owned joint venture, Song Yuan Technical. As the majority shareholder of Yu Qiao, the Company may exploit the rights to extract and develop Qian'an 112 under the Exploration Contract through Yu Qiao and other oil fields under Exploration Contracts that Yu Qiao entered into with PetroChina in May 2003. These oil fields include Da 34 oilfield and Gu 31 oilfield in Jilin province and cover a total of 3,207 acres and consist of approximately 227 oil wells.

As a result of Yu Qiao acquisition, the Oil Lease became unnecessary, as the Company became, effectively, both the lessor and lessee under the lease agreement pertaining to the Qian'an 112 oil fields. In particular, the management fee paid by Hong Xiang Oil Development to Yu Qiao became redundant as both entities are controlled by the Company. In addition, all operations, assets and liabilities of Hong Xiang Oil Development will be transferred to Yu Qiao. As such, on March 19, 2007, the Company dissolved Hong Xiang Oil Development and Hong Xiang Technical as both subsidiaries have no assets other than the lease agreement, are no longer necessary elements of its corporate structure. The Company did not incur any material costs in connection to the closure of Hong Xiang Technical and Hong Xiang Oil Development.

As the majority shareholder of Yu Qiao, the Company now has the rights to extract and develop Qian'an 112 under the Exploration Contract through Yu Qiao and oil fields under three different Exploration Contracts that Yu Qiao entered into with PetroChina in May 2003. These oil fields include Da 34 oilfield and Gu 31 oilfield in Jilin province and cover a total of 3,207 acres and consist of approximately 227 oil wells.

The Company is paid the FOB price on the first day of each month established by the Singapore crude oil spot market. Prices in 2006 averaged 3,782 RMB per ton or approximately \$64.2 per barrel, which represents an increase of 4% over 2005.

Our cost of net revenues consists of cost of labor, well service and repair, location maintenance, power and fuel, transportation, cost of product, property taxes, production and severance taxes and production related general and administrative costs.

General and administrative expenses consist primarily of salaries and related expenses for executive, finance, accounting, information technology, facilities and human resources personnel, recruiting expenses, professional fees and costs associated with expanding our information systems.

CONSOLIDATED RESULTS OF OPERATIONS

Comparing Fiscal Years Ended December 31, 2006 and 2005:

The following table presents certain consolidated statement of operations information. Financial information is presented for the 12-month period ending as of December 31, 2006 and December 31, 2005.

	2006	2005
Revenues, net	\$2,661,485	\$1,550,236
Cost and Expenses	1,423,960	1,780,320
Income (Loss) from Operations	1,237,525	(\$230,084)

Revenues.

Revenues for 2006 increased to \$2,661,485 from \$1,550,236 in 2005 as a result of the increase in oil production and higher oil price. During the fourth quarter, the Company drilled 17 new oil wells in Qian 112 area. Total number of producing wells increase from 26 in 2005 to 44 in 2006, a total increase of 70%. These new wells double the production in November 2006 and December 2006 compared with the same periods in 2005. The addition of LongDe acquired in 2006 contributed an additional 17% in total oil production. Total oil production for November 2006 and December 2006 was 1,388.8 tons, or approximately a 117% increase, as compared to 639 tons in the same period in 2005. Oil production in 2006 was 5,583.20 tons as compared to 4,180.80 tons in 2005. Oil prices in 2006 averaged 3782 RMB per ton or approximately \$64.2 per barrel, which represents an increase of 4% over 2005

Cost of sales. Cost of sales increased by 50% from \$441,771 for the year ended December 31, 2005 to \$662,825 for the year ended December 31, 2006. The increase in cost of sales resulted primarily from higher production in 2006. During 2006, with the addition of LongDe, our total number of producing wells increased from 26 in 2005 to 44 in 2006, a total increase of 70%.

Operating Expenses. Operating expenses decreased by 43% from \$1,338,549 for the year ended December 31, 2005 to \$761,135 for the year ended December 31, 2006. The decrease in operating expenses resulted primarily from the decline in consulting fees. During 2005, the Company paid approximately \$948,000 for consulting service in connection with its first full year as a U.S. public traded company, where no such fee was paid in the same fiscal year in 2006.

General and administrative expenses increased 131% or \$249,164 to \$439,743 for the 2006 period verses the comparable 2005 period. The increase in general and administrative expenses was due to the increase in our overall production activity during the year. Salaries and administrative costs increased during the year ended December 31, 2006, in order to support growth in production and as a result of LongDe acquisition. In addition, the increase in general and administrative expenses was attributed from the payment of special oil fees charged by the PRC government. The increase in special oil fees was due to increased production. During 2006, the Company paid additional special oil fees of \$190,934 to the PRC government as a result of the increase in average selling price of crude oil, where no such fee was paid in the same fiscal year in 2005. We expect the general and administrative expense will continue to grow in year 2007, as we continue to increase our production with the acquisition of Yu Qiao and engage in more financing activities.

Edgar Filing: CHINA NORTH EAST PETROLEUM HOLDINGS LTD - Form 10KSB

Net Income. The Company's net income increased by \$1,582,301 to \$925,613 for the year ended December 31, 2006, compared to a net loss of \$656,688 for the year ended December 31, 2005. The increase in net income was primarily due to the increase in revenues and higher crude oil price.

LIQUIDITY AND CAPITAL RESOURCES

We must find new and develop existing reserves to maintain and grow production and cash flow. We accomplish this through developing new wells by leasing properties through our subsidiaries. These activities require substantial capital expenditures. Over the last year, we have successfully grown our reserve base and production, resulting in growth in our net cash flow from operating activities. Cash flow provided by operating activities was \$7,951,847 for the year ended December 31, 2006, compared to \$976,287 for the year ended December 31, 2005. The increase in cash flow from operating activities was primarily due to the increase in accounts payable from \$183,272 in 2005 to \$6,849,747 in 2006.

The increase in accounts payable was primarily due to the drilling expenditure to a drilling company named Songyuan First Drilling Services Limited (Songyuan Service), a subsidiary of PetroChina, for the drilling of thirty two (32) wells in the Qian'an 112 oilfield. As of December 31, 2006, the company has drilled 12 new wells in Qian'an 112 area, and the remaining 20 wells have not been in production as of December 31, 2006. After the completion of drilling the 12 new wells, the company is obligated to pay Songyuan Service a total of 44,386,900 RMB or approximately US\$ 5,684,288 in cash in 24 equal monthly installments.

In addition, net income contributed \$1.5 million our operating cash flow as a result of the higher production and higher oil price as discussed above.

Cash flow used in investing activities was \$10,534,463 for the year ended December 31, 2006, compared to \$540,601 in cash flow used in investing activities for December 31, 2005. Capital expenditures have consisted principally of strategic asset acquisition related to the purchase of oil and gas equipments and exploitation and development of oil and gas properties. During 2006, we invested \$4,502,198 in the purchase of oil and gas equipments, including well and \$5,682,384 in exploitation and development of Qian 112 and Hetingbao 301. As a result of the Yu Qiao acquisition, we may need to devote additional capital for exploitation and development activities on the properties owned by Yu Qiao. Additional capital may be obtained through financing or borrowing from a third party.

Cash flow provided by financing activities was \$2,445,191 for the year ended December 31, 2006, compared to \$152,293 in cash flow used in financing activities for the same period in 2005. as a result of the additional advances made by a shareholder and related parties.

In addition, the company secured two bank loans in the amount of \$128,062 and \$256,125, respectively. These loans are due and payable in full in June 2007 and July 2008, respectively. We currently anticipate repaying these loans with our operating cash flow. In the event we do not have available cash flows from our operation to repay these loans, we will refinance the loans upon maturities. These credit facilities do not have restrictive covenants.

Management believes the Company will be able to meet its current operating needs through internally generated cash from operations, including Yu Qiao. Management believes that oil property investing activities in 2007 can be financed through operating cash flow (installment). In order to develop additional wells, the Company may also consider a number of different financing opportunities. Adequate funds may not be available on terms acceptable to us. If additional funds are raised through the issuance of equity securities, dilution to existing stockholders may result. If funding is insufficient at any time in the future, we may be unable to develop additional oil wells, take advantage of other business opportunities or respond to competitive pressures, any of which could have a material adverse effect on our financial position, results of operations and cash flows.

Capital Commitment

Pursuant to the Joint Venture Agreement, the Company is obligated to contribute \$1 million as registered capital of Song Yuan Technical. On October 8, 2006, the Company made a capital contribution of \$490,000 to Song Yuan Technical and received 90% of Song Yuan Technical's membership and profit interests. The Company remains obligated to contribute an additional \$510,000 in capital to Song Yuan Technical. The Company will contribute the remaining \$510,000 during the second quarter of 2007.

Material Subsequent Events

Subsequent to the 2006 fiscal year end, on January 26, 2007, the Company's 90% owned joint venture, Song Yuan Technical, completed the acquisition of 100% of the equity interests of Yu Qiao. In consideration for this acquisition, the Company will issue to three former shareholders of Yu Qiao (one of whom is Ju Guizhi, who owns 70% equity interest of Yu Qiao) an aggregate of ten million (10,000,000) shares of the Company's unregistered common stock in exchange for their equity interests. Such shares have a market value of approximately US\$3.1 million based on the preceding 30-day average of the high bid and the low ask price for Registrant's common stock as quoted on the Over-the-Counter Bulletin Board as of the Closing. As a result of this acquisition, the Company controls 90% ownership of Yu Qiao, through its 90% owned joint venture, Song Yuan Technical. The Board of Directors of the Registrant will retain an investment bank or financial advisor doing business in the PRC to prepare and deliver an opinion as to the fairness of the transaction and the Stock Purchase Price to the Registrant and its shareholders within 90 days after the Closing date.

In order to comply with certain PRC laws relating to foreign entities' ownership of oil and gas company in the PRC, the former owners of Yu Qiao, Wang Pingwu and Meng Xiangyun, hold 20%, and 10% of the equity interests, respectively, in Yu Qiao in trust for the benefit of Song Yuan Technical and Ms. Ju. The law of the PRC governs the agreements by which the Company acquired Yu Qiao and by which the former owners of Yu Qiao hold an equity interest in trust. See "Regulations Affecting Our Business" under "Risk Factors."

The Company, as the 90% owner of Song Yuan Technical, indirectly owns 63% of the equity securities of Yu Qiao and Ms. Ju indirectly owns 7% of the equity securities of Yu Qiao. In addition, the Company and Ms. Ju are the indirect beneficiaries of the Trust Agreements with respect to 27% and 3%, respectively, of the equity securities of Yu Qiao. As the majority shareholder of Yu Qiao, the Company may exploit the rights to extract and develop Qian'an 112 under the Exploration Contract through Yu Qiao and other oil fields under Exploration Contracts that Yu Qiao entered into with PetroChina in May 2003. These oil fields include Da 34 oilfield and Gu 31 oilfield in Jilin province and cover a total of 3,207 acres and consist of approximately 227 oil wells.

As a result of the Yu Qiao acquisition, the Oil Lease became unnecessary, because the Company became, effectively, both the lessor and lessee under the lease agreement pertaining to the Qian'an 112 oil fields. In particular, the management fee paid by Hong Xiang Oil Development to Yu Qiao became redundant as both entities are controlled by the Company. In addition, all operations, assets and liabilities of Hong Xiang Oil Development will be transferred to Yu Qiao. As such, on March 19, 2007, the Company dissolved Hong Xiang Oil Development and Hong Xiang Technical as both subsidiaries have no assets other than the lease agreement, are no longer necessary elements of its corporate structure. The Company did not incur any material costs in connection to the closure of Hong Xiang Technical and Hong Xiang Oil Development.

CRITICAL ACCOUNTING POLICIES

Proved Reserves. Proved oil and gas reserves, as defined by SEC Regulation S-X Rule 4-10(a) (2i), (2ii), (2iii), (3) and (4), are the estimated quantities of crude oil that geological and engineering data demonstrate with reasonable certainty to be recoverable in future years from known reservoirs under existing economic and operating conditions, i.e., prices and costs as of the date the estimate is made. Prices include consideration of changes in existing prices provided only by contractual arrangements, but not on escalations based upon future conditions.

The Company's estimates of proved reserves are made using available geological and reservoir data as well as production performance data. These estimates, made by the Company's engineers, are reviewed annually and revised, either upward or downward, as warranted by additional data. Revisions are necessary due to changes in, among other things, reservoir performance, prices, economic conditions and governmental restrictions. Decreases in prices, for example, may cause a reduction in some proved reserves due to reaching economic limits sooner.

Properties and Equipment. The Company uses the full cost method of accounting for exploration and development activities as defined by the SEC. Under this method of accounting, the costs of unsuccessful, as well as successful, exploration and development activities are capitalized as properties and equipment. This includes any internal costs that are directly related to exploration and development activities but does not include any costs related to production, general corporate overhead or similar activities. Gain or loss on the sale or other disposition of oil and gas properties is not recognized, unless the gain or loss would significantly alter the relationship between capitalized costs and proved reserves of oil and natural gas attributable to a country. The application of the full cost method of accounting for oil and gas properties generally results in higher capitalized costs and higher DD&A rates compared to the successful efforts method of accounting for oil and gas properties.

OFF-BALANCE SHEET ARRANGEMENTS

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to our investors.

RECENT ACCOUNTING PRONOUNCEMENTS

Effective January 1, 2006, we adopted the SEC issued Staff Accounting Bulletin No. 108, *Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements* ("SAB 108"). SAB 108 requires companies to evaluate the materiality of identified unadjusted errors on each financial statement and related financial statement disclosure using both the rollover approach and the iron curtain approach. The rollover approach quantifies misstatements based on the effects of correcting the misstatement existing in the balance sheet at the end of the current year, irrespective of the misstatement's year(s) of origin. Financial statements would require adjustment when either approach results in quantifying a misstatement that is material. Correcting prior year financial statements for immaterial errors would not require previously filed reports to be amended. The adoption of SAB 108 did not have a material impact on our consolidated financial statements.

In February 2006, the FASB issued SFAS No. 155, *Accounting for Certain Hybrid Financial Instruments* (SFAS 155), which amends SFAS No. 133, *Accounting for Derivatives Instruments and Hedging Activities* (SFAS 133) and SFAS No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishment of Liabilities* (SFAS 140). SFAS 155 amends SFAS 133 to narrow the scope exception for interest-only and principal-only strips on debt instruments to include only such strips representing rights to receive a specified portion of the contractual interest or principle cash flows. SFAS 155 also amends SFAS 140 to allow qualifying special-purpose entities to hold a passive derivative financial instrument pertaining to beneficial interests that itself is a derivative instrument. The Company is currently evaluating the impact this new Standard, but believes that it will not have a material impact on the Company's financial position.

In March 2006, the FASB issued SFAS No. 156, *Accounting for Servicing of Financial Assets - an amendment to FASB Statement No. 40* (SFAS 156). SFAS 156 requires that all separately recognized servicing rights be initially measured at fair value, if practicable. In addition, this statement permits an entity to choose between two measurement methods (amortization method or fair value measurement method) for each class of separately recognized servicing assets and liabilities. This new accounting standard is effective January 1, 2007. We do not expect the adoption of SFAS 156 to have an impact on our results of operations or financial condition.

Edgar Filing: CHINA NORTH EAST PETROLEUM HOLDINGS LTD - Form 10KSB

In July 2006, the FASB issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes – an Interpretation of FASB Statement 109* (FIN 48), which clarifies the accounting for uncertainty in tax positions. This Interpretation provides that the tax effects from an uncertain tax position can be recognized in the Company’s financial statements, only if the position is more likely than not of being sustained on audit, based on the technical merits of the position. The provisions of FIN 48 are effective as of the beginning of fiscal 2007, with the cumulative effect of the change in accounting principle recorded as an adjustment to opening retained earnings. The Company is currently evaluating the impact this new Standard, but believes that it will not have a material impact on the Company’s financial position.

Edgar Filing: CHINA NORTH EAST PETROLEUM HOLDINGS LTD - Form 10KSB

In September 2006, FASB issued Statement 157, *Fair Value measurements*. This statement defines fair value and establishes a framework for measuring fair value in generally accepted accounting principles (GAAP). More precisely, this statement sets forth a standard definition of fair value as it applies to assets or liabilities, the principal market (or most advantageous market) for determining fair value (price), the market participants, inputs and the application of the derived fair value to those assets and liabilities. The effective date of this pronouncement is for all full fiscal and interim periods beginning after November 15, 2007. The Company is currently evaluating the impact this new Standard, but believes that it will not have a material impact on the Company's financial position.

In September 2006, FASB issued Statement 158, *Employers Accounting for Defined Benefit Pension and other Postretirement Plans, which amend FASB Statements No. 87, 88, 106 and 132(R)*. This statement requires employers to recognize the overfunded or underfunded status of a defined benefit postretirement plan as an asset or liability in its financial statements and to recognize changes in that funded status in the year in which the changes occur. The effective date for the Company would be for any full fiscal years ending after December 15, 2006. The Company is currently evaluating the impact this new Standard, but believes that it will not have a material impact on the Company's financial position.

ITEM 7. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA.

The financial statements are attached to this Annual Report on Form 10-KSB as Appendix A. The report of Company's Independent Auditor appears at Page F-1 through F-2 hereof, the Financial Statements of the Company appear at Page F-3 through F-24 hereof.

ITEM 8. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.

Not applicable.

ITEM 8A. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

As required by Rule 13a-15 under the Exchange Act, as of the end of the period covered by this annual report, being December 31, 2006, we evaluated the effectiveness of the design and operation of (i) our disclosure controls and procedures (Disclosure Controls), and (ii) our internal control over financial reporting (Internal Controls). This evaluation (Evaluation) was performed by our Chief Executive Officer and our Chief Financial Officer in consultation with our accounting personnel.

Based upon the Evaluation, our CEO and CFO have concluded that as of the end of the period covered by this report, our Disclosure Controls are effective to ensure that material information relating to us is made known to management, including the CEO and CFO, and that our Internal Controls are effective.. Additionally, there has been no change in our Internal Controls that occurred during our most recent fiscal quarter that has materially affected, or is reasonably likely to affect, our Internal Controls.

ITEM 8B. OTHER INFORMATION

None

PART III**ITEM 9. DIRECTORS, EXECUTIVE OFFICERS, PROMOTERS AND CONTROL PERSONS; COMPLIANCE WITH SECTION 16(A) OF THE EXCHANGE ACT**

The following table sets forth the names, ages and positions of our directors and executive officers:

Name	Age	Position
Wang Hong Jun	35	President and Chairman of the Board
Wei Guo Ping	39	Director
Yu Li Guo	34	Director
Zhang Yang	25	Chief Financial Officer
Jiang Chao	27	Secretary

Each Director will hold office until the next annual meeting of stockholders and until his successor has been elected and qualified.

WANG HONG JUN has served as Chairman and President of the Company since May 2004, following completion of the share exchange transaction with Hong Xiang. From 1985 to 1987, Mr. Wang was a Researcher for Tai Quin Petroleum Institute at Jilin Province, specializing in petroleum exploration and production matters. From 1989 to 1992, he was a researcher at the State Economy Faculty of Jilin University. From 1992 to 2003, Mr. Wang worked for Jilin Oil Field and Drilling Company as an Executive with the responsibility of overseeing operations and coordinating various projects.

WEI GUO PING has served as a Director of the Company since May 2004, following completion of the share exchange transaction with Hong Xiang. From April 1991 to March 1997, Mr. Wei was the Executive Officer for the Government Office of Heilongjiang Province where he was responsible for evaluation and approval of business projects. From March 1997 to March 2002, he was General Manager of Shui Tak Chemical Company Limited and was responsible for handling day-to-day operations and strategic planning. Mr. Wei received a bachelor degree from the Heilongjiang Petrochemical Institute.

ZHANG YANG has served as Chief Financial Officer of the Company since January 1, 2006. Mr. Zhang was previously employed by Gloria International Hotel Group, from October 2004 through October 2005, as controller of the Harbin Gloria Inn, where he gained experience devising fund plans, overseeing budget management, and realizing financial operation objectives. Mr. Zhang received a degree from London College of International Business Study and also a degree in accounting from London South Bank University. Mr. Zhang is a member under the Association of Chartered Certified Accountants (ACCA).

JIANG CHAO has served as Secretary of the Company since January 1, 2006. Mr. Jiang was previously employed by Songzai International Holding Group, Inc., a Nevada corporation engaged in the coal mining business in the People's Republic of China, where he served as assistant to the president from 2004 through 2005, and assisted executives with daily management operations. He received degrees from Heilongjiang University (Harbin, China) and University of Bradford (Bradford, UK), and a master degree in International Business Management from University of Surrey (London, UK).

YU LI GUO has served as Director of the Company since June 2004. In 2003, Mr Yu was elected a director of Harbin Hong Xiang Petroleum Services Limited, a wholly-owned subsidiary of the Registrant. From 2000 to 2003, Mr. Yu was employed by Jilin Yong Ji Wan Tong Tong Xun Hang as General Manager. Prior, Mr. Yu was employed by the Department of Industrial & Commercial Bank of China as Vice Manager of Human Resources from 1997 to 2000. Mr. Yu received a bachelor degree in International Finance from Jilin Financial College.

There are no family relationships, or other arrangements or understandings between or among any of the directors, executive officers or other person pursuant to which such person was selected to serve as a director or officer.

Involvement in Certain Legal Proceedings

Our directors, executive officers and control persons have not been involved in any of the following events during the past five years:

1. any bankruptcy petition filed by or against any business of which such person was a general partner or executive officer either at the time of the bankruptcy or within two years prior to that time;
2. any conviction in a criminal proceeding or being subject to a pending criminal proceeding (excluding traffic violations and other minor offenses);
3. being subject to any order, judgment, or decree, not subsequently reversed, suspended or vacated, of any court of competent jurisdiction, permanently or temporarily enjoining, barring, suspending or otherwise limiting his involvement in any type of business, securities or banking activities; or
4. being found by a court of competent jurisdiction (in a civil action), the Commission or the Commodity Futures Trading Commission to have violated a federal or state securities or commodities law, and the judgment has not been reversed, suspended, or vacated.

Our Board of Directors has determined that it does not have a member that qualifies as an financial expert as defined in Item 401(e) of Regulation S-B, and is independent as the term is used in Item 7(d)(3)(iv) of Schedule 14A under the Securities Exchange Act of 1934, as amended.

We believe that the members of our Board of Directors are collectively capable of analyzing and evaluating our financial statements and understanding internal controls and procedures for financial reporting. In addition, we believe that retaining an independent director who would qualify as an audit committee financial expert would be overly costly and burdensome and is not warranted in our circumstances given the early stages of our development and the fact that we have not generated significant revenues to date.

Corporate Governance Matters

Audit Committee. The Board of Directors has not yet established an audit committee, and the functions of the audit committee are currently performed by our Chief Financial Officer, with assistance by expert independent accounting personnel and oversight by the entire board of directors. We are not currently subject to any law, rule or regulation requiring that we establish or maintain an audit committee. We may establish an audit committee in the future if the board determines it to be advisable or we are otherwise required to do so by applicable law, rule or regulation.

Board of Directors Independence. Our Board of Directors consists of three members. We are not currently subject to any law, rule or regulation requiring that all or any portion of our board of directors include independent directors. None of the members of the board of directors is independent as defined under the rules of the NASDAQ Stock Market.

Edgar Filing: CHINA NORTH EAST PETROLEUM HOLDINGS LTD - Form 10KSB

Audit Committee Financial Expert. Our Board of Directors has determined that it does not have a member that qualifies as an audit committee financial expert as defined in Item 401(e) of Regulation S-B, and is independent as the term is used in Item 7(d)(3)(iv) of Schedule 14A under the Securities Exchange Act of 1934, as amended.

We believe that the members of our Board of Directors are collectively capable of analyzing and evaluating our financial statements and understanding internal controls and procedures for financial reporting. In addition, we believe that retaining an independent director who would qualify as an audit committee financial expert would be overly costly and burdensome and is not warranted in our circumstances given the early stages of our development and the fact that we have not generated revenues to date. Code of Ethics. A Code of Business Conduct and Ethics is a written standard designed to deter wrongdoing and to promote (a) honest and ethical conduct, (b) full, fair, accurate, timely and understandable disclosure in regulatory filings and public statements, (c) compliance with applicable laws, rules and regulations, (d) the prompt reporting violation of the code and

Edgar Filing: CHINA NORTH EAST PETROLEUM HOLDINGS LTD - Form 10KSB

(e) accountability for adherence to the Code. We are not currently subject to any law, rule or regulation requiring that we adopt a Code of Ethics, however, we have adopted a code of ethics that applies to our principal executive officer, chief financial officer, principal accounting officer or controller, or persons performing similar functions. Such code of ethics will be provided to any person without charge, upon request, a copy of such code of ethics by sending such request to us at our principal office.

Nominating Committee. We have not yet established a nominating committee. Our board of directors, sitting as a board, performs the role of a nominating committee. We are not currently subject to any law, rule or regulation requiring that we establish a nominating committee.

Compensation Committee. We have not yet established a compensation committee. Our board of directors, sitting as a board, performs the role of a compensation committee. We are not currently subject to any law, rule or regulation requiring that we establish a compensation committee.

At this stage of our development, we have elected not to expend our limited financial resources to implement these measures. It is possible that if we were to adopt some or all of the corporate governance measures described in this section, shareholders would benefit from somewhat greater assurances that internal corporate decisions were being made pursuant to objective criteria, by disinterested directors and that policies had been implemented to define responsible conduct.

COMPLIANCE WITH SECTION 16(a) OF THE EXCHANGE ACT OF 1934

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires our executive officers and directors and persons who own more than 10% of a registered class of our equity securities to file with the Securities and Exchange Commission initial statements of beneficial ownership, reports of changes in ownership and annual reports concerning their ownership of our common stock and other equity securities, on Forms 3, 4 and 5 respectively. Executive officers, directors and greater than 10% shareholders are required by the Securities and Exchange Commission regulations to furnish our company with copies of all Section 16(a) reports they file.

To the best of our knowledge, all executive officers, directors and greater than 10% shareholders filed the required reports in a timely manner.

ITEM 10. EXECUTIVE COMPENSATION.

The table below sets forth information concerning compensation paid to the chief executive officer and two of our most highly compensated officers of the Company. None of the Company's other executive officers currently serving as such had annual compensation exceeded \$100,000 (U.S.) in the last fiscal year.

Summary Compensation Table

Name and Principal Position	Year	Salary	Bonus	Stock Awards	Option Awards	Non-Equity Incentive Plan Compensation	Nonqualified Deferred Compensation Earnings	All Other Compensation	Total (\$)
		(\$)	(\$)	(\$)	(\$)	(\$)	(\$)	(\$)	(\$)

(1) All compensation is paid in RMB. The amounts in the foregoing table have been converted to U.S. dollars at the conversion rate of 0.1281 U.S. dollars to one RMB.

No deferred compensation or long-term incentive plan awards were issued or granted to the Company's officers and directors at the fiscal year end, December 31, 2006. No employee, director, or executive officer has been granted any option or stock appreciation rights, options awards and stock awards, accordingly, no tables relating to such items have been included within this Item.

Directors Compensation

The non-employee directors received compensation in cash in connection with their service on the Board of Directors during the years ended December 31, 2006. Yu Li Guo and Wei Guo Ping each received RMB 36,000 during 2006. Wang Hong Jun did not receive any compensation for his service on the Board during 2006. The only compensation received by Wang Hong Jun was his salary disclosed above.

DIRECTOR COMPENSATION TABLE

Name	Fees Earned or Paid in Cash (\$)	Stock Awards (\$)	Options Awards (\$)	Non-Equity Incentive Plan Compensation (\$)	Nonqualified Deferred Compensation Earnings (\$)	All Other Compensation (\$)	Total (\$)
Wang Hong Jun	\$0	0	0	0	0	0	RMB0

(1) All compensation is paid in RMB. The amounts in the foregoing table have been converted to U.S. dollars at the conversion rate of 0.1281 U.S. dollars to one RMB.

Employment Contracts and Termination of Employment and Change-In-Control Arrangements

There are no employment contracts, compensatory plans or arrangements, including payments to be received from the Company, with respect to any director or executive officer of the Company which would in any way result in payments to any such person because of his resignation, retirement or other termination of employment with the Company, any change in control of the Company, or a change in the person's responsibilities following a change in control of the Company.

ITEM 11. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following tables set forth information as of April 10, 2007 regarding the beneficial ownership of stock by (a) each stockholder who is known by the Company to own beneficially in excess of 5% of the Company's outstanding stock; (b) each director; (c) the Company's chief executive officer; and (v) the executive officers and directors as a group. Except as otherwise indicated, all persons listed below have (i) sole

Edgar Filing: CHINA NORTH EAST PETROLEUM HOLDINGS LTD - Form 10KSB

voting power and investment power with respect to their shares of common stock (the only class of outstanding stock), except to the extent that authority is shared by spouses under applicable law, and (ii) record and beneficial ownership with respect to their shares of stock. The percentage of beneficial ownership is based upon 19,224,080 shares of common stock outstanding, as of April 10, 2007.

Security Ownership Of Certain Beneficial Owners, Directors And Executive Officers In Common Stock

NAME AND ADDRESS OF BENEFICIAL OWNER(1)	AMOUNT OF BENEFICIAL OWNERSHIP	PERCENT OF CLASS OF STOCK OUTSTANDING
Officers and Directors		
Wang Hong Jun	6,732,000	35.02%

Jiang Chao	0	0.0%
All Officers and Directors as a Group (five persons)	6,734,000	35.03%
5% Beneficial Owners		
N/A		

- (1) Unless otherwise indicated, the address of the following stockholders is 20337 Rimview Place, Walnut, California, 91789.
- (2) Security ownership information for beneficial owners is taken from statements filed with the Securities and Exchange Commission pursuant to information made known by the Company. There are no shares issuable to any beneficial owner, director or executive officer pursuant to stock options that are/or will become exercisable within 60 days of April 10, 2007.

ITEM 12. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS.

During the last two fiscal years, we have not entered into any material transactions or series of transactions that would be considered material in which any officer, director or beneficial owner of 5% or more of any class of our capital stock, or any immediate family member of any of the preceding persons, had a direct or indirect material interest. There are transactions presently proposed, except as follows:

- a) In 2006, Yu Qiao owed the Company \$256,623 which is interest-free and repayable on demand.
- b) In 2006 and 2005, the Company owed Ms. Ju Guizhi, mother of Wang Hong Jung, the president of the Company, \$3,262,917 and \$1,418,814 respectively for advances without fixed repayment terms. Imputed interest expense is charged at 6% per annum on the amount due.
- c)

Edgar Filing: CHINA NORTH EAST PETROLEUM HOLDINGS LTD - Form 10KSB

In 2006 and 2005, the Company owed Wang Hong Jung, the Company's president, \$1,656,935 and \$1,106,363 respectively for short-term advances. Imputed interest expense is charged at 6% per annum on the amount due.

- d) On April 3, 2006, the Company issued 700,000 shares of common stock to Li Hong Jun, a shareholder of the Company, for consulting services. The stock was valued at the closing price on the date of grant of \$0.31 per share, yielding an aggregate value of \$217,000.

ITEM 13. EXHIBITS

Exhibit No.	Description
2.2	Distribution Agreement between Draco Holding Corporation and Jump n Jax, dated April 30, 2004, is incorporated herein by reference from Registrant's Current Report on Form 8-K filed with the SEC on May 14, 2004.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors of:

China North East Petroleum Holdings Limited

We have audited the accompanying consolidated balance sheets of China North East Petroleum Holdings Limited and subsidiaries as of December 31, 2006 and 2005 and the related consolidated statements of operations and comprehensive income, stockholders' equity and cash flows for the years ended December 31, 2006 and 2005. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits of the financial statements provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of China North East Petroleum Holdings Limited and subsidiaries as of December 31, 2006 and 2005, and the results of its operations and its cash flows for the years ended December 31, 2006 and 2005, in conformity with accounting principles generally accepted in the United States of America.

CHINA NORTH EAST PETROLEUM HOLDINGS LIMITED

AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2006 AND 2005

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION

(A) Organization

China North East Petroleum Holdings Limited (North East Petroleum) is a US listed company which was incorporated in Nevada on August 20, 1999 under the name of Draco Holding Corporation (Draco). Draco was authorized to issue 20,000,000 shares of common stock of \$0.001 par value per share.

Hong Xiang Petroleum Group Limited (Hong Xiang Petroleum Group) was incorporated in the British Virgin Islands (BVI) on August 28, 2003 as an investment holding company.

On December 5, 2003, Song Yuan City Hong Xiang Petroleum Technical Services Co., Ltd. (Hong Xiang Technical) was incorporated in the People s Republic of China (PRC) as a limited liability company with a registered capital of \$484,000. Hong Xiang Technical provides technical advisory services to oil and gas exploration companies in the PRC.

During 2004, Hong Xiang Petroleum Group acquired a 100% ownership of Hong Xiang Technical.

During 2004, Hong Xiang Technical acquired a 100% interest in Song Yuan City Yu Qiao Qianan Hong Xiang Oil and Gas Development Co., Ltd. (Hong Xiang Oil Development), a limited liability company incorporated on April 1, 2003 in the PRC with a registered capital of \$604,800. Hong Xiang Oil Development is engaged in the exploration and production of crude oil in the Jilin Oil Region, Jilin of the PRC.

In December 2002, the Company entered into a Co-operative Exploration Contract with a non-operating interest owner in respect of the development rights to the proven reserves in the Qian an Oil Field Zone 112 (Qian an 112) in Jilin Oil Region for 20 years (the Contract Period). The non-operating interest owner obtained the rights through a Co-operative Exploration Contract with Jilin Office, PetroChina Group (PetroChina) and is entitled to a management fee 2% on the net sales.

In accordance with the Co-operative Exploration Contract, the Company was responsible for providing working capital and developing Qian an 112. Production from Qian an 112 is shared in the following manner:-

Contract period

For PetroChina

For the Company First 10 years, commencing January 3, 2002 20% 80% Remaining 10 years 40% 60%

On March 29, 2004, Draco executed a Plan of Exchange (the Agreement) with all of the stockholders of Hong Xiang Petroleum Group pursuant to which Draco would issue 18,700,000 shares of its common stock in exchange for 100% of the outstanding shares of Hong Xiang Petroleum Group.

F-6

The transaction contemplated by the Agreement was consummated on April 30, 2004 and has been accounted for as a reverse acquisition under the purchase method of accounting since the stockholders of Hong Xiang Petroleum Group obtained control of the consolidated entity (North East Petroleum). Accordingly, the merger of North East Petroleum and Hong Xiang Petroleum Group has been recorded as a recapitalization by Hong Xiang Petroleum Group, with Hong Xiang Petroleum Group being treated as the continuing entity. The financial statements have been prepared as if the reorganization had occurred retroactively.

Accordingly, the financial statements include the following:

- a) The balance sheet consists of the net assets of the acquirer at historical cost and the net assets of the acquiree at historical cost; and
- b) The statements of operations include the operations of the acquirer for the years presented and the operations of the acquiree from the date of the merger.

1.
SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

(A)
Organization (Continued)

On June 28, 2004, the Articles of Incorporation of Draco were amended to change the Company's name to China North East Petroleum Holdings Limited and to increase its authorized shares of common stock from 20,000,000 to 50,000,000. On August 11, 2005, the Company's Articles of Incorporation were amended again to increase the Company's authorized shares of common stock from 50,000,000 shares to 150,000,000 shares.

On July 26, 2006, the Company entered into a Joint Venture Agreement (the "JV Agreement") with a principal stockholder and a related party, hereafter referred to as the "Related Parties," to acquire oil and gas properties for the exploration of crude oil in the PRC. Pursuant to the JV Agreement, the Company and the Related Parties are obligated to contribute \$1 million and \$121,000, respectively, to the registered capital of Song Yuan North East Petroleum Technical Service Co., Ltd. ("Song Yuan Technical"), and the Company and the Related Parties will each share 90% and 10% respectively of the equity and profit interests of Song Yuan Technical. On September 26, 2006, the Company made a capital contribution of \$490,000 to Song Yuan Technical and has an outstanding capital contribution of \$510,000 as of December 31, 2006. Song Yuan Technical was incorporated on May 27, 2005 as a limited liability company in the PRC with a registered capital of \$121,000. All the registered capital was fully paid in cash by the Related Parties. On October 8, 2006, Song Yuan Technical was approved as a sino-foreign equity joint venture and the registered capital was increased to \$1,121,000. As both companies are under common management, this joint venture arrangement has been accounted for as a reorganization of entities under common control and the financial statements have been prepared as if the reorganization had occurred retroactively. (see note 2)

On June 1, 2005, Song Yuan Technical acquired from third parties 100% equity interest of LongDe Oil & Gas Development Co. Ltd. ("LongDe") (see note 3). LongDe was incorporated on May 6, 2003 as a limited liability company in the PRC with a registered capital of \$120,773. LongDe is a party to a 20 year Co-operative Exploration Contract with PetroChina pursuant to which LongDe has the right to explore, develop and extract crude oil at Hetingbao Oilfield 301 Area in the PRC. Pursuant to the Co-operative Exploration Contract, PetroChina is entitled to 20 % of LongDe's output for the first ten years and 40% of LongDe's output thereafter until the end of the Co-operative Exploration Contract.

North East Petroleum, Hong Xiang Petroleum Group, Hong Xiang Technical, Hong Xiang Oil Development, Song Yuan Technical and LongDe are hereafter referred to as ("the Company").

Edgar Filing: CHINA NORTH EAST PETROLEUM HOLDINGS LTD - Form 10KSB

The accompanying consolidated financial statements include the financial statements of North East Petroleum and its wholly owned subsidiaries, Hong Xiang Petroleum Group, Hong Xiang Technical and Hong Xiang Oil Development and 90% equity interest owned subsidiaries, Song Yuan Technical and LongDe. The minority interests represent the minority shareholders' 10% share of the results of Song Yuan Technical and LongDe. All significant inter-company accounts and transactions have been eliminated in consolidation.

(C)

Use of estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The most significant assumptions are for estimated reserves of oil and gas. Oil and gas reserve estimates are developed from information provided by the Company to R.A. Lenser and Associates, Inc. of Houston, Texas for the years ended December 31, 2006 and 2005, respectively. In 2006, management's estimate of its proved reserves was revised downward from 1,752,986 to about 1,468,871 barrels of oil. This revision was based on the decline trend established by the application of appropriate decline curves, Iso-ultimate recovery curves, or other performance relationships for depletion-type reservoirs. While reserves are not reflected on the Company's Consolidated Balance Sheets, the revision in estimate has affected the depreciation expense associated with its oil and gas properties which is calculated on the basis of proved reserves. The change was accounted for as a revision in an estimate, and the effect on net income was approximately \$48,417.

F-8

CHINA NORTH EAST PETROLEUM HOLDINGS LIMITED

AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2006 AND 2005

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

(D) Cash and cash equivalents

For purpose of the statements of cash flows, cash and cash equivalents include cash on hand and demand deposits with a bank with a maturity of less than three months.

(E) Accounts receivable

The Company extends unsecured credit to its customers in the ordinary course of business but mitigates the associated risks by performing credit checks and actively pursuing past due accounts. An allowance for doubtful accounts is established and recorded based on managements assessment of the credit history with the customer and current relationships with them.

As of December 31, 2006 and 2005, the Company considers all its accounts receivable to be collectible and no provision for doubtful accounts has been made in the financial statements.

(F) Oil and gas properties

The Company follows the full cost method of accounting for oil and gas properties. Accordingly, all costs associated with the acquisition of development rights, and the development of oil reserves, including direct related overhead costs, are capitalized.

Depreciation, depletion and amortization of capitalized costs, excluding unproved properties, are based on the unit-of-production methods based on proved reserves. Investments in unproved properties and major development projects are not amortized until proved reserves associated with the projects can be determined or until impairment occurs. If the results of an assessment indicate that the properties are impaired, the amount of the impairment is added to the capitalized costs to be amortized.

In addition, the capitalized costs are subject to a ceiling test, which basically limits such costs to the aggregate of the estimated present value, discounted at a 10-percent interest rate of future net revenues from proved reserves, based on current economic and operating conditions, plus the lower of cost or fair market value of unproved properties.

Edgar Filing: CHINA NORTH EAST PETROLEUM HOLDINGS LTD - Form 10KSB

Sales of portion of development rights and other proved and unproved properties are accounted for as adjustments to capitalized costs with no gain or loss recognized, unless such adjustments would significantly alter the relationship between capitalized costs and proved reserves of oil and gas, in which case the gain or loss is recognized as income.

Abandonment of oil and gas properties other than the development rights are accounted for as adjustments of capitalized costs with no loss recognized.

(G) Fixed assets

Fixed assets are stated at cost, less accumulated depreciation. Expenditures for additions, major renewals and betterments are capitalized and expenditures for maintenance and repairs are charged to expense as incurred.

Depreciation is provided on a straight-line basis, less estimated residual value over the assets' estimated useful lives

. The estimated useful lives are as follows:

Buildings

20 Years

Furniture, fixtures and equipment

5 Years

Motor vehicles

5 Years

F-9

CHINA NORTH EAST PETROLEUM HOLDINGS LIMITED

AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2006 AND 2005

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

(H) Long-lived assets

The Company accounts for long-lived assets under the Statements of Financial Accounting Standards (SFAS) Nos. 142 and 144 Accounting for Goodwill and Other Intangible Assets and Accounting for Impairment or Disposal of Long-Lived Assets (SFAS No. 142 and 144). In accordance with SFAS No. 142 and 144, long-lived assets held and used by the Company are reviewed for impairment annually in the fourth quarter or more frequently if events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. For purposes of evaluating the recoverability of long-lived assets, when undiscounted future cash flows will not be sufficient to recover an asset's carrying amount, the asset is written down to its fair value. The long-lived assets of the Company, which are subject to evaluation, consist primarily of oil and gas properties. For the years ended December 31, 2006 and 2005, the Company has not recognized any allowances for impairment.

(I)

Fair value of financial instruments

SFAS No. 107, Disclosure About Fair Value of Financial Instruments, requires certain disclosures regarding the fair value of financial instruments. Fair value of financial instruments is made at a specific point in time, based on relevant information about financial markets and specific financial instruments. As these estimates are subjective in nature, involving uncertainties and matters of significant judgment, they cannot be determined with precision. Changes in assumptions can significantly affect estimated fair values.

The carrying value of cash and cash equivalents, accounts receivable (trade and others), accounts payable (trade and related party), accrued liabilities, notes payable and other loans payable approximate their fair values because of the short-term nature of these instruments. The management of the Company is of the opinion that the Company is not exposed to significant interest or credit risks arising from these financial instruments.

The Company's major operation is in the PRC, which may give rise to significant foreign currency risks from fluctuations and the degree of volatility of foreign exchange rates between the

United States dollars (US\$) and the Chinese Renminbi (RMB). On July 21, 2005, the PRC allowed the RMB to fluctuate ending its decade-old valuation peg to the US\$. The new RMB rate reflects an approximately 2% increase in value against the US\$. Historically, the PRC government has benchmarked the RMB exchange ratio against the US\$, thereby mitigating the associated foreign currency exchange rate fluctuation risk. The Company does not believe that its foreign currency exchange rate fluctuation risk is significant, especially if the PRC government continues to benchmark the RMB against the US\$.

(J)

Revenue recognition

The Company recognizes revenue upon the delivery of its share of crude oil extracted to PetroChina at which time title passes to the Sub-Owner; there are no uncertainties regarding customer acceptance; persuasive evidence of an arrangement exists; the sales price is fixed and determinable; and collectability is deemed probable.

(K) Management fee

In connection with the arrangement of production activities, the Company pays a management fee of 2 percent on sales to the non-operating interest owner, which is charged to income as incurred.

The management fee expense for 2006 and 2005 was \$18,678 and \$28,244 respectively.

F-10

CHINA NORTH EAST PETROLEUM HOLDINGS LIMITED

AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2006 AND 2005

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

(L) Income taxes

The Company accounts for income taxes under the SFAS No. 109, Accounting for Income Taxes (SFAS 109). Under SFAS 109, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Under SFAS 109, the effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that included the enactment date.

(M) Foreign currency translation

Except for North East Petroleum and Hong Xiang Petroleum Group, which maintain their accounting records in their functional currency in US\$, all other subsidiaries of the Company maintain their accounting records in their functional currency in RMB.

Foreign currency transactions during the year are translated to their functional currencies at the approximate rates of exchange on the dates of transactions. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated at the approximate rates of exchange at that date. No-monetary assets and liabilities are translated at the rates of exchange prevailing at the time the asset or liability was acquired. Exchange gains or losses are recorded in the statement of operations.

The financial statements of the subsidiaries whose functional currencies are RMB are translated into US\$ using the closing rate method. The balance sheet items are translated into US\$ using the exchange rates at the respective balance sheet dates. The capital and various reserves are translated at historical exchange rates prevailing at the time of the transactions while income and expenses items are translated at the average exchange rate for the year. All exchange differences are recorded within equity. A translation gain of \$240,201 was recorded for the year ended December 31, 2006 and a translation loss of \$80,831 was recorded for the year ended December 31, 2005.

(N) Comprehensive income (loss)

The foreign currency translation gain or loss resulting from the translation of the financial statements expressed in RMB to US\$ is reported as other comprehensive income (loss) in the statements of operations and stockholders' equity. Comprehensive income (loss) for the years ended December 31, 2006 and 2005 was income of \$240,201 and loss of \$80,831 respectively.

(O) Earnings per share

Basic earnings per share are computed by dividing income available to common stockholders by the weighted average number of common stocks outstanding during the year. Diluted income per share is computed similar to basic income per share except that the denominator is increased to include the number of additional common stocks that would have been outstanding if the potential common stocks had been issued and if the additional common stocks were diluted. There were no potentially dilutive securities for 2006 and 2005.

(P) Segments

The Company operates in only one segment. Thereafter segment disclosure is not presented.

CHINA NORTH EAST PETROLEUM HOLDINGS LIMITED

AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2006 AND 2005

1

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

(Q) Environmental costs

The PRC has adopted extensive environmental laws and regulations that affect the operations of the oil and gas industry. The outcome of environmental liabilities under proposed or future environmental legislation cannot be reasonably estimated at present, and could be material. Under existing legislation, however, the management believes that there are no probable liabilities that will have a material adverse effect on the financial position of the Company.

(R) Asset retirement obligations

Th

The Company adopts the provisions of SFAS No. 143, Accounting for Asset Retirement Obligations. This Statement generally applies to legal obligations associated with the retirement of long-lived assets that result from the acquisition, construction, development and/or the normal operation of a long-lived asset. SFAS No. 143 requires the Company to recognize the fair value of asset retirement obligations in the financial statements by capitalizing that cost as a part of the cost of the related asset. With regard to the Company, asset retirement obligations primarily relate to the abandonment of oil producing facilities. The Company did not incur and does not anticipate to incur any material dismantlement, restoration and abandonment costs given the nature of its producing activities and the current PRC regulations surrounding such activities.

(S) Recent accounting pronouncements

Ef

Effective January 1, 2006, we adopted the SEC issued Staff Accounting Bulletin No. 108, Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements (SAB 108). SAB 108 requires companies to evaluate the materiality of identified unadjusted errors on each financial statement and related financial statement disclosure using both the rollover approach and the iron curtain approach. The rollover approach quantifies misstatements based on the effects of correcting the misstatement existing in the balance sheet at the end of the current year, irrespective of the misstatement's year(s) of origin. Financial statements would require adjustment when either approach results in quantifying a misstatement that is material. Correcting prior year financial statements for immaterial errors would not require previously filed reports to be amended. The adoption of SAB 108 did not have a material impact on our consolidated financial statements.

In February 2006, the FASB issued SFAS No. 155, *Accounting for Certain Hybrid Financial Instruments* (SFAS 155), which amends SFAS No. 133, *Accounting for Derivatives Instruments and Hedging Activities* (SFAS 133) and SFAS No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishment of Liabilities* (SFAS 140). SFAS 155 amends SFAS 133 to narrow the scope exception for interest-only and principal-only strips on debt instruments to include only such strips representing rights to receive a specified portion of the contractual interest or principle cash flows. SFAS 155 also amends SFAS 140 to allow qualifying special-purpose entities to hold a passive derivative financial instrument pertaining to beneficial interests that itself is a derivative instruments. The Company is currently evaluating the impact this new Standard, but believes that it will not have a material impact on the Company's financial position.

In March 2006, the FASB issued SFAS No. 156, *Accounting for Servicing of Financial Assets* an amendment to FASB Statement No. 140 (SFAS 156). SFAS 156 requires that all separately recognized servicing rights be initially measured at fair value, if practicable. In addition, this statement permits an entity to choose between two measurement methods (amortization method or fair value measurement method) for each class of separately recognized servicing assets and liabilities. This new accounting standard is effective January 1, 2007. We do not expect the adoption of SFAS 156 to have an impact on our results of operations or financial condition.

CHINA NORTH EAST PETROLEUM HOLDINGS LIMITED

AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2006 AND 2005

1. **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)**

(S) Recent accounting pronouncements (Continued)

In July 2006, the FASB issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* an Interpretation of FASB Statement 109 (FIN 48), which clarifies the accounting for uncertainty in tax positions. This Interpretation provides that the tax effects from an uncertain tax position can be recognized in the Company's financial statements, only if the position is more likely than not of being sustained on audit, based on the technical merits of the position. The provisions of FIN 48 are effective as of the beginning of fiscal 2007, with the cumulative effect of the change in accounting principle recorded as an adjustment to opening retained earnings. The Company is currently evaluating the impact this new Standard, but believes that it will not have a material impact on the Company's financial position.

In September 2006, FASB issued Statement 157, *Fair Value measurements* . This statement defines fair value and establishes a framework for measuring fair value in generally accepted accounting principles (GAAP). More precisely, this statement sets forth a standard definition of fair value as it applies to assets or liabilities, the principal market (or most advantageous market) for determining fair value (price), the market participants, inputs and the application of the derived fair value to those assets and liabilities. The effective date of this pronouncement is for all full fiscal and interim periods beginning after November 15, 2007. The Company is currently evaluating the impact this new Standard, but believes that it will not have a material impact on the Company's financial position.

In September 2006, FASB issued Statement 158, *Employers' Accounting for Defined Benefit Pension and other Postretirement Plans*, which amend FASB Statements No. 87, 88, 106 and 132(R) . This statement requires employers to recognize the overfunded or underfunded status of a defined benefit postretirement plan as an asset or liability in its financial statements and to recognize changes in that funded status in the year in which the changes occur. The effective date for the Company would be for any full fiscal years ending after December 15, 2006. The Company is currently evaluating the impact this new Standard, but believes that it will not have a material impact on the Company's financial position.

2

BUSINESS COMBINATIONS BETWEEN ENTITIES UNDER COMMON CONTROL

The Company entered into a Joint Venture Agreement, dated June 26, 2006, with a related party and a principal stockholder of the Company to acquire oil and gas properties for the exploration of crude oil in the PRC through a limited liability company wholly owned by the related party and principal stockholder, Song Yuan Technical. Pursuant to the Joint Venture Agreement, Song Yuan Technical applied for registration with the PRC Government as a sino-foreign equity joint venture on October 8, 2006 with an increase in registered capital from \$121,000 to \$1,121,000; the increase of \$1,000,000 to be contributed by the Company. Under the Joint Venture Agreement, the Company will share 90% of the equity and profit interests of Song Yuan Technical with the remaining 10% shared by the related party and principal stockholder. As of

Edgar Filing: CHINA NORTH EAST PETROLEUM HOLDINGS LTD - Form 10KSB

October 8, 2006, Song Yuan Technical has become a 90% owned subsidiary of the Company.

This transaction was accounted for as a reorganization of entities under common control. Accordingly, the operations of Song Yuan Technical for the years ended December 31, 2006 and 2005 were included in the consolidated financial statements as if the transactions had occurred at the beginning of the first period presented, each account stated at its historical cost. In this regard, the prior year's financial statements and financial information have been restated to combine the previously separate entities to furnish comparative information. The results of the restatement were to increase the total assets, total liabilities and additional paid-in capital as of December 31, 2005 by \$1,054,747, \$792,251 and \$4,375 respectively, and to decrease the net loss for the year ended December 31, 2005 by \$13,363.

F-13

*CHINA NORTH EAST PETROLEUM HOLDINGS LIMITED**AND SUBSIDIARIES*

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2006 AND 20053.
BUSINESS COMBINATION

On June 1, 2005, Song Yuan Technical acquired all of the registered capital of LongDe from third parties for a total consideration of \$120,773 in cash. LongDe is a party to a 20 year Co-operative Exploration Contract with PetroChina pursuant to which LongDe has the right to explore, develop and extract crude oil at Hetingbao Oilfield 301 Area in the PRC. Pursuant to the Co-operative Exploration Contract, PetroChina is entitled to 20 % of LongDe's output for the first ten years and 40% of LongDe's output thereafter to the end of the Co-operative Exploration Contract.

The preliminary allocation of the net assets acquired is as follows:

Cash and cash equivalents	\$ 2,429	Accounts receivable	15,812	Other receivables and prepaid expenses	3,063	Due from stockholders	108,696	Total current assets	130,000	Oil and gas properties and fixed assets, net	367,544	Intangible mining right	13,445	Total assets	510,989	Less: Accounts payable and accrued liabilities	(388,217)	Other taxes payable	(1,999)	Total purchase price	\$ 120,773
---------------------------	----------	---------------------	--------	--	-------	-----------------------	---------	----------------------	---------	--	---------	-------------------------	--------	--------------	---------	--	-----------	---------------------	---------	----------------------	------------

Analysis of the net outflow of cash and cash equivalents in respect of the business combination is as follows:

Cash consideration paid	\$	120,773
Less: cash and cash equivalents acquired		(2,429)
Net cash outflow	\$	118,344

The acquisition of LongDe was accounted for as a purchase under SFAS No. 141, Business Combinations. Accordingly, the operating results of LongDe have been included in the consolidated statements of operation and comprehensive income after the effective date of the acquisition of June 1, 2005.

The following table reflects the unaudited pro forma combined results of operations for the year ended December 31, 2005, assuming the acquisition had occurred at the beginning of 2005.

Edgar Filing: CHINA NORTH EAST PETROLEUM HOLDINGS LTD - Form 10KSB

OIL AND GAS PROPERTIES

The following is a summary of oil and gas properties at December 31, 2006 and 2005:

		2006			2005	
Oil and gas properties, proven reserves	\$ 10,359,232	\$ 5,544,501	Intangible mining right	13,445	13,445	Less: accumulated
			depreciation	656,118	391,555	Oil and gas properties, net
						\$ 9,716,559
						\$ 5,166,391

Depreciation expense for the years ended December 31, 2006 and 2005 was \$235,837 and \$110,178 respectively.

5. **ACCOUNTS RECEIVABLE FROM A NON-OPERATING INTEREST OWNER**

Pursuant to a 20-year exclusive Exploration Contract among PetroChina, a non-operating interest owner Yu Qiao and the Company, the Company has the right to explore, develop (including well logging, drill-stem testing and core sampling) and pump crude oil at Qian'an 112 in Jilin Province, PRC. Pursuant to the Co-operative Exploration Contract, PetroChina is entitled to 20% of the output in the first ten years and 40% of the output thereafter until the end of the Co-operative Exploration Contract; and Yu Qiao is entitled to 2% of the output as a management fee for managing the process of oil production. The Company sells all of its current oil production to PetroChina. Pursuant to the terms of the Co-operative Exploration Contract, all payments by PetroChina for sales of the Company's crude oil are paid to Yu Qiao, who forwards the payment to the Company after deducting its management fee. No allowance for doubtful accounts has been recorded as of December 31, 2006 as the debt owed by Yu Qiao has been subsequently settled.

On January 26, 2007, Song Yuan Technical entered into an agreement with the stockholders of Yu Qiao to acquire 100% of the equity interests of Yu Qiao for a total consideration of \$3,100,000 by the issuance of 10,000,000 shares of the Company's common stock, having a value of \$3,100,000.

6. **ACCOUNTS RECEIVABLE FROM A THIRD PARTY**

Edgar Filing: CHINA NORTH EAST PETROLEUM HOLDINGS LTD - Form 10KSB

Accounts receivable from a third party at December 31, 2006 and 2005 consisted of the following:

	2006		Restated 2005	
Accounts receivable from PetroChina	\$	20,831	\$	55,871
Less: allowance for doubtful accounts		-		-
Accounts receivable, net	\$	20,831	\$	55,871

As of December 31, 2006 and 2005, the Company considered all accounts receivable collectable and has not recorded a provision for doubtful accounts.

2005

Interest expense paid for the years ended December 31, 2006 and 2005 was \$43,541 and \$13,867 respectively.

11. **OTHER LOANS PAYABLE**

The Company has two outstanding short-term loans in the amount of \$12,806 and \$12,806, which were borrowed from third parties in October 2005 without fixed repayment terms. Interest is charged at 36% per annum.

Interest expense for the years ended December 31, 2006 and 2005 was \$10,712 and \$390 respectively.

During the year, the Company borrowed a short term interest free loan of \$125,000 from a third party which was fully repaid in October 2006. Imputed interest expense on this loan for the year ended December 31, 2006 was \$1,879.

12. **COMMITMENTS AND CONTINGENCIES**

(A) Employee benefits

The full time employees of Hong Xiang Oil Development and LongDe are entitled to employee benefits including medical care, welfare subsidies, unemployment insurance and pension benefits through a Chinese government mandated multi-employer defined contribution plan. The Company is required to accrue for those benefits based on certain percentages of the employees' salaries and make contributions to the plans out of the amounts accrued for medical and pension benefits. The total provision and contributions made for such employee benefits for the years ended December 31, 2006 and 2005 was \$13,693 and \$7,364, respectively. The Chinese government is responsible for the medical benefits and the pension liability to be paid to these employees.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2006 AND 2005

12. COMMITMENTS AND CONTINGENCIES (CONTINUED)

(B) Commitments

The Company leases office spaces from a stockholder and land spaces from a third party under two operating leases which expire on June 30, 2015 and September 20, 2023 at annual rental of \$12,294 and \$160 respectively.

As at December 31, 2006, the Company has outstanding commitments with respect to the above non-cancelable operating leases, which are due as follows:

2007									\$	12,454
2008										
		12,454	2009	12,454	2010	12,454	Thereafter	57,355	\$	107,171

(C) Capital commitments

According to the amended Articles of Association of Song Yuan Technical, the Company has to fulfill registered capital contribution of \$1 million. As of December 31, 2006, the Company has fulfilled \$490,000 of the registered capital requirement and has outstanding capital contributions of \$510,000.

13. STOCKHOLDERS EQUITY

(A) Stock issuances

On March 6, 2006, the Company issued 250,000 shares of common stock for legal services. The stock was valued at the closing price on the date of grant of \$0.35 per share, yielding an aggregate fair value of \$87,500. The Company recognized expense of \$27,773 during the year ended December 31, 2006 and applied the balance of \$59,727 against accrued liabilities.

On April 3, 2006, the Company issued 700,000 shares of common stock to a consultant for consulting services for a period of two years. The stock was valued at the closing price on the date of grant of \$0.31 per share, yielding an aggregate value of \$217,000. The Company recognized expense of \$81,375 during the year ended December 31, 2006

and recorded deferred stock compensation of \$135,625 as of December 31, 2006 for these services.

On April 3, 2006, the Company issued 1,550,000 shares of common stock to a consultant for consulting services. These shares were subsequently returned to the Company upon the cancellation by mutual consent of the consulting agreement in August 2006.

(B)

Appropriated retained earnings

The Company's PRC subsidiaries are required to make appropriations to reserve funds, comprising the statutory surplus reserve, statutory public welfare fund and discretionary surplus reserve, based on the after-tax net income determined in accordance with the laws and regulations of the PRC. Prior to January 1, 2006 the appropriation to the statutory surplus reserve should be at least 10% of the after tax net income determined in accordance with the laws and regulations of the PRC until the reserve is equal to 50% of the entities' registered capital. Appropriations to the statutory public welfare fund are at 5% to 10% of the after tax net income determined by the Board of Directors. Effective January 1, 2006, the Company is only required to contribute to one statutory reserve fund at 10 percent of net income after tax per annum, such contributions not to exceed 50 percent of the respective companies' registered capital.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2006 AND 2005

13. **STOCKHOLDERS EQUITY (CONTINUED)**

(B)

Appropriated retained earnings (Continued)

Th

e statutory reserve funds are restricted for use to set off against prior period losses, expansion of production and operation or for the increase in the registered capital of the Company. The statutory public welfare fund is restricted for use in capital expenditures for the collective welfare of employees. These reserves are not transferable to the Company in the form of cash dividends, loans or advances. These reserves are therefore not available for distribution except in liquidation.

During 2006 and 2005, the Company appropriated \$142,107 and \$68,515 respectively to the reserves funds based on its net income in accordance with the laws and regulations of the PRC.

14.

RELATED PARTY TRANSACTIONS

a)

In 2006, the non-operating interest owner controlled by a related party owed the Company \$256,623 which is interest-free and repayable on demand.

b)

Edgar Filing: CHINA NORTH EAST PETROLEUM HOLDINGS LTD - Form 10KSB

In 2006 and 2005, the Company owed a related party \$3,262,917 and \$1,418,814 respectively for advances without fixed repayment terms. Imputed interest expense is charged at 6% per annum on the amount due.

c)

In 2006, the Company owed a related party \$12,806 for short-term advances. Imputed interest expense is charged at 6% per annum on the amount due.

d)

In 2006, the Company owed a related party \$43,029 for short-term advances. Interest is charged at 24% per annum.

e)

In 2006 and 2005, the Company owed a stockholder \$1,656,935 and \$1,106,363 respectively for short-term advances. Imputed interest expense is charged at 6% per annum on the amount due.

f)

Total interest expenses payable to a stockholder and related parties amounted to \$290,777 and \$142,591 for the years ended December 31, 2006 and 2005 respectively.

g)

The Company paid a stockholder \$12,027 and \$9,000 for leased office spaces for the years ended December 31, 2006 and 2005 respectively.

h)

In 2005, the Company issued 550,000 shares of common stock to a consultant for consulting services provided. The consultant was subsequently appointed a director of the Company. The stock was valued at the closing price on the date of grant, or at \$1.08 per share, yielding an aggregate fair value of \$594,000.

i)

On April 3, 2006, the Company issued 700,000 shares of common stock to a related party for consulting services. The stock was valued at the closing price on the date of grant of \$0.31 per share, yielding an aggregate value of \$217,000.

CHINA NORTH EAST PETROLEUM HOLDINGS LIMITED

AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2006 AND 2005

15. **INCOME TAX**

It

is management's intention to reinvest all the income attributable to the Company earned by its operations outside the US. Accordingly, no US corporate income taxes are provided for in these financial statements.

The Company is subject to income taxes on an entity basis on income arising in or derived from the tax jurisdiction in which each entity is domiciled.

North East Petroleum was incorporated in the United States and has incurred net operating loss as for income tax purposes for 2006 and 2005.

North East Petroleum has net operating loss carry forwards for income taxes amounting to approximately \$1,629,000 as at December 31, 2006 which may be available to reduce future years' taxable income. These carry forwards, will expire, if not utilized, commencing in 2024. Management believes that the realization of the benefits from these losses appears uncertain due to the Company's limited operating history and continuing losses. Accordingly, a full deferred tax asset valuation allowance has been provided and no deferred tax asset benefit has been recorded. The valuation allowances at December 31, 2006 and December 31, 2005 were \$553,815 and \$461,763 respectively. The net change in the valuation allowance was an increase of \$92,052.

Hong Xiang Petroleum Group was incorporated in the British Virgin Islands (the "BVI") and income earned is not subject to income tax.

Hong Xiang Technical, Hong Xiang Oil Development, Song Yuan Technical and LongDe were incorporated in the PRC and are subject to PRC income tax which is computed according to the relevant laws and regulations in the PRC. The applicable tax rate has been 33% and no tax benefit is expected from the tax credits in the future.

The income tax (benefits) expenses for 2006 and 2005 are summarized as follows:

Edgar Filing: CHINA NORTH EAST PETROLEUM HOLDINGS LTD - Form 10KSB

PRC Income Tax	2006	2005	Current year (benefits) expenses	
				\$
				(31,348)
				\$
			249,245	

16.

During 2006 and 2005, 100% of the Company's assets were located in the PRC and 100% of the Company's revenues were derived from one customer located in the PRC. The regulations governing oil and gas producing corporations in the PRC prohibits the sale of crude oil to other customers except PetroChina.

AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2006 AND 2005

17. **SUBSEQUENT EVENTS**

(A) Acquisition of the non-operating interest owner

On January 26, 2007, Song Yuan Technical entered into an agreement with the stockholders of Yu Qiao to acquire 100% of the equity interest of Yu Qiao. In consideration for the acquisition, the Company will issue to the stockholders of Yu Qiao an aggregate of 10,000,000 shares of the Company's common stock having a fair value of \$3,100,000 based on the preceding 30-day average of the high bid and the low ask price for the Company's common stock as quoted on the Over-the-Counter Bulletin Board as of the date of the closing of the transaction.

(B) Termination of subsidiaries

In March 2007, the Company consummated the closure of its wholly owned subsidiaries, Hong Xiang Technical and Hong Xiang Oil Development. Hong Xiang Oil Development, a wholly owned subsidiary of Hong Xiang Technical, leases the rights to explore, develop and extract oil in Qian'an 112 from Yu Qiao which holds a 20-year exclusive Cooperative Exploration Contract with PetroChina for the rights to explore, develop and extract oil in Qian'an 112. (see note 1)

On January 26, 2007, the Company's 90% owned subsidiary, Song Yuan Technical acquired 100% of the equity interests of Yu Qiao from the stockholders of Yu Qiao. As a result of the acquisition, the lease agreement became unnecessary, as the Company became, effectively, both the lessor and lessee under the lease agreement pertaining to Qian'an 112 and may now exploit the rights under the Exploration Contract through Yu Qiao. The Board of the Company therefore determined that Hong Xiang Technical and Hong Xiang Oil Development, are no longer necessary elements of its corporate structure and has consequently approved that such companies shall be liquidated and dissolved.

The Company does not expect to incur any material costs in connection with the dissolution of Hong Xiang Technical and Hong Xiang Oil Development nor does the Company expect the dissolution of Hong Xiang Technical and Hong Xiang Oil will have a significant financial impact on the Company's operations or financial condition as all the assets, liabilities, retained profit and operations of Hong Xiang Oil Development will be transferred to Yu Qiao upon Yu Qiao becoming a subsidiary of the Company.

18. **SUPPLEMENTAL OIL AND GAS DISCLOSURES (UNAUDITED)**

The accompanying table presents information concerning the Company's crude oil producing activities as required by SFAS No. 69, Disclosures about Oil and Gas Producing Activities.

A. Capitalized costs relating to oil and gas producing activities are as follows:

	2006	Restated 2005
Proved crude oil properties	\$ 10,359,232	\$ 5,544,501
Intangible mining right	13,445	13,445
Accumulated depreciation, depletion and amortization	(656,118)	(391,555)
Net capitalized costs	\$ 9,716,559	\$ 5,166,391

B.

Cost incurred in oil and gas property acquisitions, exploration and development activities are as follows:

	2006	Restated 2005
Property acquisition costs (net of costs of properties sold)		
Proved reserves	\$ 1,906,524	\$ 878,143
Property development costs	\$ 8,452,708	\$ 4,666,358

18. SUPPLEMENTAL OIL AND GAS DISCLOSURES (UNAUDITED) (CONTINUED)

C. The results of operations for oil and gas producing activities are as follows:

	2006	Restated 2005
Net sales	\$ 2,661,485	\$ 1,550,236
Production costs	(408,310)	(304,804)
Management fee	(18,678)	(28,244)
Depreciation, depletion and amortization	(311,277)	(154,921)
General and administrative expenses	(439,743)	(190,579)
Income tax benefits (expenses)	31,348	(267,997)
Results of operations from oil and gas producing (excluding corporate overhead and financing costs)	\$ 1,514,825	\$ 603,691

D.

Estimated quantities of proved oil and gas reserves

The following schedule estimates proved crude oil reserves attributable to the Company. Proved reserves are estimated quantities of oil which geological and engineering data demonstrate with reasonable certainty to be recoverable in future years from known reservoirs under existing economic and operating conditions. Proved developed reserves are those which are expected to be recovered through existing wells with existing equipment and operating methods. Reserves are stated in barrels of oil (Bbls). Geological and engineering estimates of proved oil and natural gas reserves at one point in time are highly interpretive, inherently imprecise and subject to ongoing revisions that may be substantial in amount. Although every reasonable effort is made to ensure that the reserve estimates reported represent the most accurate assessments possible, these estimates are by their nature generally less precise than other estimates presented in connection with financial statement disclosures.

	Bbls
Proved oil reserves	
Balance at December 31, 2003	1,885,878
Discoveries and extensions	-
Revisions of previous estimates	(36,059)
Production	(42,054)

Edgar Filing: CHINA NORTH EAST PETROLEUM HOLDINGS LTD - Form 10KSB

Balance at December 31, 2004	1,807,765
Discoveries and extensions	-
Revisions of previous estimates	(24,303)
Production	(30,476)
Balance at December 31, 2005	1,752,986
Discoveries and extensions	-
Revisions of previous estimates	(246,235)
Production	(37,880)
Balance at December 31, 2006	1,468,871
Proved developed producing reserves at December 31, 2006	394,006
Proved developed producing reserves at December 31, 2005	313,828

The following schedule presents the standardized measure of estimated discounted future net cash flows from the Company's proved developed reserves for the years ended December 31, 2006 and 2005. Estimated future cash flows were based on independent reserves evaluation from R.A. Lenser and Associates, Inc. for the years ended December 31, 2006 and 2005, respectively. Because the standardized measure of future net cash flows was prepared using the prevailing economic conditions existing at December 31, 2006 and 2005, it should be emphasized that such conditions continually change. Accordingly, such information should not serve as a basis in making any judgment on the potential value of the Company's recoverable reserves or in estimating future results of operations.

CHINA NORTH EAST PETROLEUM HOLDINGS LIMITED

AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2006 AND 2005

18. **SUPPLEMENTAL OIL AND GAS DISCLOSURES (UNAUDITED) (CONTINUED)**

D. Estimated quantities of proved oil and gas reserves (Continued)

Estimated future net cash flows represent an estimate of future net revenues from the production of proved reserves using current sales prices, along with estimates of the operating costs, production taxes and future development and abandonment costs (less salvage value) necessary to produce such reserves. The average prices per barrel used at December 31, 2006 were \$72.58 for Hong Xiang Oil Development and \$69.70 for LongDe and those at December 31, 2005 were \$55.00 for both Hong Xiang Oil Development and for LongDe. No deduction has been made for depreciation, depletion or any indirect costs such as general corporate overhead or interest expense.

Operating costs and production taxes are estimated based on current costs with respect to producing gas properties. Future development costs are based on the best estimate of such costs assuming current economic and operating conditions.

Income tax expense is computed based on applying the appropriate statutory tax rate to the excess of future cash inflows less future production and development costs over the current tax basis of the properties involved, less applicable carry forwards, for both regular and alternative minimum tax.

The future net revenue information assumes no escalation of costs or prices, except for gas sales made under terms of contracts which include fixed and determinable escalation. Future costs and prices could significantly vary from current amounts and, accordingly, revisions in the future could be significant.

Standardized measures of discounted future net cash flows relating to proved oil and gas reserves at December 31, 2006 and 2005 is as follows:

Restated	2006	2005	Future cash inflows	\$ 104,761,912	\$ 96,414,240	Future production costs and taxes	(25,711,029)		
			(29,632,261)	Future development costs	(7,180,000)	(9,840,000)	Future income tax expense	(20,365,341)	(17,298,263)
Future net cash flows	51,505,542	39,643,716	Discount at 10% for timing of cash flows	(29,048,577)	(23,232,085)	Standardized measure of discounted future net cash	related to proved reserves	\$ 22,456,965	\$ 16,411,631

Edgar Filing: CHINA NORTH EAST PETROLEUM HOLDINGS LTD - Form 10KSB

Of the Company's total proved reserves as of December 31, 2006 and 2005, 27% and 18% respectively were classified as proved developed producing. All of the Company's reserves are located in the PRC.
