PART I

Item 1 Business

The statements made in this Form 10-K that are not historical facts contain "forward-looking information" within the meaning of the Private Securities Litigation Reform Act of 1995, and Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, both as amended, which can be identified by the use of forward-looking terminology such as "may," "will," "anticipates," "expects," "projects," "estimates," "believes," "seeks," "could," "should," or "continue," the negative thereof, other variations or comparable terminology. Important factors, including certain risks and uncertainties, with respect to such forward-looking statements that could cause actual results to differ materially from those reflected in such forward-looking statements include, but are not limited to, the effect of economic and business conditions, including risks inherent in the Long Island, New York and Palm Beach County, Florida real estate markets, the ability to obtain additional capital in order to develop the existing real estate and other risks detailed from time to time in the Company's SEC reports. The Company assumes no obligation to update the information in this Form 10-K.

Business Development

Gyrodyne Company of America, Inc. (the "Company") was organized in 1946 as a corporation under the laws of the State of New York. The Company's headquarters are located at 1 Flowerfield, Suite 24, St. James, New York 11780. Its main phone number is (631) 584-5400. The Company maintains a website at www.gyrodyne.com.

The Company was, from its inception and for the next 25 years, engaged in design, testing, development, and production of coaxial helicopters primarily for the U.S. Navy. Following a sharp reduction in the Company's helicopter manufacturing business and its elimination by 1975, the Company began converting its vacant manufacturing facilities and established its rental property operation. The Company has since concentrated its efforts on the development of its real estate holdings in St. James, New York. The converted buildings consist of approximately 127,392 rentable square feet housing 48 tenants in space suitable for office, engineering, manufacturing, and warehouse use. The property, which is known as Flowerfield, consists of 68 acres. Approximately 10 acres are utilized for the rental property and the balance of 58 remains undeveloped.

In 1965, the Company acquired a 20% limited partnership interest in Callery-Judge Grove, L.P., a New York limited partnership, which owns a 3,500+ acre citrus grove located in Palm Beach County, Florida, for a purchase price of \$1.1 million. The Company's percentage interest has since been diluted to approximately 10.93%. The investment has yielded distributions of approximately \$5.5 million in the aggregate. Over the last several years, real estate values have escalated in Palm Beach County, Florida, and the property is the subject of a plan for a mixed use of residential, commercial, and industrial development which is under review by state and local municipal authorities.

On June 17, 2005, the Company retained the investment banking firm of Coady Diemar Partners to assist management and the Board of Directors in reviewing the Company's strategic options. On December 9, 2005, the Company presented at its 2005 annual shareholders meeting a strategic plan for the future direction of the Company. The objective of the plan is to position the Company so that it is best able to achieve one or more shareholder liquidity events in a reasonable period of time that would put the maximum amount of cash or marketable securities in the hands of the Company's shareholders in a tax efficient manner. The plan calls for achieving this objective by pursuing a conversion to a real

Edgar Filing: GYRODYNE CO OF AMERICA INC - Form 10-K

estate investment trust ("REIT"), disposition and redeployment of the assets of the Company in a tax efficient manner, maximization of the value for the remaining 68 acres at Flowerfield, and vigorous pursuit of maximum value from the State of New York for the portion of Flowerfield taken by eminent domain. If the Company converts to a REIT, the Company generally will not be subject to New York State and U.S. federal corporate income taxes on income and gain generated after the date May 1, 2006 from investments in real estate that the Company distributes to its shareholders, thereby reducing the Company's corporate-level taxes and substantially eliminating the double taxation on income and gain that usually results in the case of distributions under Gyrodyne's current status as a C corporation.

On November 2, 2005, the State University of New York at Stony Brook (the "University") filed an acquisition map with the Suffolk County Clerk's office and vested title in approximately 245.5 acres of the Flowerfield Property pursuant to the New York Eminent Domain Procedure Law (the "EDPL"). On March 27, 2006, the Company received payment from the State of New York in the amount of \$26,315,000, which the Company had previously elected under the EDPL to accept as an advance payment for the property. Under the EDPL, both the advance payment and any additional award from the Court of Claims bear interest at the current statutory rate of 9% simple interest from the date of the taking through the date of payment subject to the courts discretion.

3

On May 1, 2006, the Company filed a Notice of Claim with the Court of Claims of the State of New York seeking \$158 million in damages from the State of New York resulting from the eminent domain taking by the University of the 245.5 acres of the Flowerfield property. See "Legal Proceedings".

The Company invested \$26,315,000 in short term U.S. Government securities and interest bearing deposits which were valued at \$26,184,383 and \$238,593, respectively, as of April 30, 2006. Subsequently, upon maturity, approximately \$22,000,000 was invested in securitized U.S. Government Agency issues with an effective duration of between two and three years and are qualified REIT investments. The balance of the funds were placed in short term U.S. Government securities and interest bearing deposits.

Neither the Company nor any of its subsidiaries have ever been in any bankruptcy, receivership or similar proceeding.

References to the Company contained herein include its wholly owned subsidiaries, except where the context otherwise requires.

Description of the Company's Business

The Company manages its real estate operations and is a passive investor as a limited partner in the Callery Judge Grove, L.P., which owns a large citrus grove in Palm Beach County, Florida. The Company currently has a total of 8 full time employees involved in support of the real estate operation and development plans. Competition among industrial and office rental properties on Long Island is intense. There are numerous commercial properties that compete with the Company in attracting tenants, many of which are substantially larger than the Company. See Item 1A, "Risk Factors" for a discussion of risk factors, and Item 2, "Properties" for a discussion regarding dependence on major tenants.

Real Estate

Edgar Filing: GYRODYNE CO OF AMERICA INC - Form 10-K

Gyrodyne owns a 68 acre site, primarily zoned for light industry, which is located approximately 50 miles east of New York City on the north shore of Long Island. Flowerfield's location also places it in hydrological zone VIII, one of the most liberal with respect to effluent discharge rates.

The Company currently has 127,392 square feet of rentable space located on approximately 10 acres of developed property. As of April 30, 2006, there were 48 tenants renting space with an annual base rent of \$1,176,485. The majority of the Company's leases, 43 out of 48, are one year leases and represent approximately 66.5% of the total annual rent.

The Flowerfield property is located in Smithtown Township. Environmental studies have been updated and numerous other studies including archeological, ecological, and traffic have been conducted in connection with development plans -- all with no significant adverse findings. The Company believes that it does not incur material costs in connection with compliance with environmental laws. During the fiscal year ended April 30, 2006 ("Fiscal Year 2006"), the Company had no material expenses related to environmental issues.

Limited Partnership Investment in Callery-Judge Grove, L.P. (the "Grove")

The Company's initial participation in the Grove through its wholly owned subsidiary, Flowerfield Properties, Inc., represented a 20% limited partner's interest in the Grove. Based on three subsequent capital infusions in which the Company did not participate, the Company's share is now approximately 10.93%.

The original limited partner investment of \$1.1 million, which was made in 1965, has since yielded distributions of approximately \$5.5 million in the aggregate. Due to recurring losses of the Grove, the investment is carried on the books of the Company at \$0 as a result of recording the Company's pro-rata share of losses under the equity method of accounting. In fiscal 2000, when the Company's share of losses equaled the carrying value of the investment, the equity method of accounting was suspended, and no additional losses have been charged to operations.

Competition

All of the rental properties owned by the Company are located in St. James, New York on the North Shore of Long Island in Smithtown Township. The Company competes in the leasing of office, engineering, manufacturing and warehouse space with a considerable number of other real estate companies, some of which may have greater marketing and financial resources than the Company. Principal factors of competition in the Company's rental property business are: the quality of properties, leasing terms (including rent and other charges and allowances for tenant improvements), attractiveness and convenience of location, the quality and breadth of tenant services provided and reputation as an owner

and operator of quality office properties in its relevant market. Additionally, the Company's ability to compete depends upon, among other factors, trends in the national and local economies, investment alternatives, financial condition and operating results of current and prospective tenants, availability and cost of capital, construction and renovation costs, taxes, governmental regulations, legislation and population trends. The Company believes that the attractive location of its rental properties in St. James, New York gives it a competitive advantage.

Edgar Filing: GYRODYNE CO OF AMERICA INC - Form 10-K

Environmental Matters

The Company believes that each of its properties is in compliance, in all material respects, with federal, state and local regulations regarding hazardous waste and other environmental matters and is not aware of any environmental contamination at any of its properties that would require any material capital expenditure by the Company for the remediation thereof. No assurance can be given, however, that environmental regulations will not in the future have a materially adverse effect on the Company's operations.

Insurance

The Company carries comprehensive liability, property and umbrella insurance coverage which includes fire and business interruption insurance and covers all of its rental properties. The Company believes the policy specifications, insurance limits and deductibles are appropriate given the relative risk of loss, the cost of the coverage and industry practice and, in the opinion of the company's management, its rental properties are adequately insured.

Major Customers

For the year ended April 30, 2006, rental income from the three largest tenants represented 11%, 9% and 9% of total rental income. For the year ended April 30, 2005, rental income from the three largest tenants represented 14%, 13% and 10% of total rental income. For the year ended April 30, 2004, rental income from the three largest tenants represented 17%, 13% and 12% of total rental income.

Item 1A Risk Factors

An investment in the Company's common stock involves various risks. All investors should carefully consider the following risk factors in conjunction with the other information contained in this Annual Report before trading in the Company's securities. If any of these risks actually occur, the business, operating results, prospects and financial condition could be harmed.

RISKS ASSOCIATED WITH THE COMPANY'S REAL PROPERTY BUSINESS GENERALLY

The Company's real property business is subject to General Risks Associated With Ownership of Real Property for Investment

The Company is subject to all of the risks inherent in investing in real estate, which may include, without limitation, neighborhood property values, general and local economic and social conditions, financial resources of tenants, vacancies, rent strikes, changes in tax, zoning, building, environmental and other applicable laws, federal and local rent control laws, real property tax rates, changes in interest rates and the availability of mortgage funds which may render the sale of properties difficult or unattractive. Such risks also include fluctuations in occupancy rates, rent schedules and operating expenses which could adversely affect the value of our real property interests. There can be no assurance of profitable operations from the ownership and management of the Company's real property interests.

Illiquidity of real estate investments and the tax effect of dispositions could significantly impede the Company's ability to sell assets or to respond to favorable or adverse changes in the performance of its property.

Because real estate investments are relatively illiquid, the Company's ability to sell promptly all or any portion of its Flowerfield property in response to

Edgar Filing: GYRODYNE CO OF AMERICA INC - Form 10-K

changing economic, financial and investment conditions may be limited.

The Company may sell some of its properties from time to time in the future. However, the Company cannot predict whether it will be able to sell any property for the price or on the terms it sets, or whether any price or other terms offered by a prospective purchaser would be acceptable to the Company. The Company also cannot predict the length of time needed to find a willing purchaser and to close the sale of a property.

Certain of the Company's properties have low tax bases relative to their fair market value, and accordingly, the sale of such assets would generate significant gains which would generally be recognized for tax purposes unless the assets were sold under a non-recognition provision of the Code that allows a taxpayer, in effect, to defer the recognition of gain from a sale.

5

RISKS ASSOCIATED WITH THE COMPANY'S RENTAL PROPERTY OPERATIONS

Costs of operating the Company's properties can rise faster than its ability to increase rental income.

Costs of operating the Company's properties, such as real estate taxes, utilities, insurance, maintenance and other costs, can rise faster than its ability to increase rental income. While the Company does receive some additional rent from its tenants that is based on recovering a portion of the operating expenses, generally increased operating expenses will negatively impact the Company's net operating income from the properties. The Company's revenues and expense recoveries are subject to leases and may not be quickly increased sufficient to recover an increase in operating costs and expenses. As leases expire, the Company tries either to relet the space to the existing tenant or attract a new tenant to occupy the space. In either case, the Company likely will incur significant costs in the process, including potentially substantial tenant improvement expense or lease incentives. In addition, if market rents have declined since the time the expiring lease was executed, the terms of any new lease signed likely will not be as favorable to the Company as the terms of the expiring lease, thereby reducing the rental revenue earned from that space.

The profitability of the Company's rental operations could be materially impacted by the financial health of the regional economy generally.

All of the Company's rental properties are located on Long Island in St. James, New York. The concentration of all the Company's rental properties in one location exposes it to greater economic risks than if it owned properties in several geographic regions. The Company is susceptible to the potential for adverse developments in the Long Island economy (such as business layoffs or downsizing, industry slowdowns, relocations of businesses, changing demographics, increased telecommuting, infrastructure quality, New York state budgetary constraints and priorities, increases in real estate and other taxes, costs of complying with government regulations or increased regulation and other factors) and the national and New York regional office space market (such as oversupply of or reduced demand for office space). The State of New York in general, and Long Island in particular, is also generally regarded as more litigious and more highly regulated and taxed than many states, which may reduce demand for office space in New York. Long Island is also characterized by a recognized shortage of affordable workforce housing, which could adversely impact the location decisions of businesses. Any adverse economic or real estate developments on Long Island, or any decrease in demand for office space resulting from New York's regulatory environment or business climate, could

Edgar Filing: GYRODYNE CO OF AMERICA INC - Form 10-K

adversely impact the Company's financial condition, results of operations, cash flow, and the per share trading price of its common stock. The Company cannot assure you of the continued growth of the Long Island economy or the Company's future growth rate.

The Company is subject to Federal, state and local laws and regulations that could impact its operations and profitability.

There are a number of government regulations, including zoning, tax and accessibility laws that apply to the ownership and operation of real estate properties. Compliance with existing and newly adopted regulations may require the Company to incur significant costs on its properties. Federal, state and local laws and regulations relating to the protection of the environment may require an owner or operator of real property to investigate and clean up hazardous or toxic substances or petroleum product releases at the property. The clean up can be costly. The presence of or failure to clean up contamination may adversely affect the Company's ability to sell or lease a property or to borrow funds using a property as collateral.

The market for commercial rental space is highly competitive.

An oversupply of space in the Company's geographic market would typically cause rental rates and occupancies to decline, making it more difficult for the Company to lease space at attractive rental rates. In order to maintain the quality of its rental properties and successfully compete against other rental properties, the Company periodically spends money to maintain, repair and renovate its rental properties. If the Company's properties are not as attractive to tenants (in terms of rents, services, condition or location) as other properties that compete with it, the Company could lose tenants to those properties or receive lower rental rates.

RISKS ASSOCIATED WITH THE COMPANY'S INVESTMENT IN CALLERY-JUDGE GROVE, L.P.

The Company owns a 10.93% limited partnership interest in Callery-Judge Grove, L.P., a New York limited partnership (the "Partnership"), which owns a 3,500+ acre citrus grove located in Palm Beach County, Florida. The property is the subject of a plan for a mixed use of residential, commercial, and industrial development which is under review by state and local municipal authorities. The Company faces several risks inherent in ownership of a minority interest in a limited partnership.

6

The Company is limited in its ability to transfer its interest in the Partnership.

Interests in the Partnership are not freely transferable. They can only be assigned or transferred upon the terms and conditions set forth in the limited partnership agreement. Those restrictions may at times preclude a transfer of the Company's interest. The Company may not transfer its interest without prior written notice to, and receiving consent, in writing and at the sole discretion, of the Partnership's managing partner. The transferee must also provide the Partnership's general partner with an opinion of counsel that the transfer will not violate any securities, tax or other laws or rules and will not affect the tax status or treatment of the Partnership. No public market for the Partnership's interests exists or is contemplated in the foreseeable future.

Since limited partners do not participate in management of the Partnership's business, the Company must rely on the Managing Partner to adequately manage the Partnership's affairs.

Edgar Filing: GYRODYNE CO OF AMERICA INC - Form 10-K

The Company does not participate in the management or control of the Partnership or the conduct of its business. The Company has only limited voting rights with respect to the Partnership's affairs. The Company must rely upon the fiduciary responsibility and judgment of the managing partner of the Partnership to manage the Partnership's affairs in the best interests of the limited partners.

The Partnership may terminate early, which could disrupt the Company's overall investment portfolio plan.

Unforeseen circumstances, including withdrawal of the Partnership's general partner, could cause the Partnership to terminate prior to its stated termination date of October 14, 2019. Early termination of the Partnership could disrupt the Company's overall investment portfolio plan.

RISKS ASSOCIATED WITH THE COMPANY'S INVESTMENT IN AGENCY HYBRID MORTGAGE-BACKED SECURITIES

Changes in interest rates could negatively affect the value of the Company's mortgage-backed securities, which could result in reduced earnings or losses and negatively affect the cash available for distribution to the Company's shareholders under a REIT structure.

The Company invests in agency hybrid mortgage-backed securities and it currently intends to continue this investment strategy. Under a normal yield curve, an investment in mortgage-backed securities will decline in value if long-term interest rates increase. Despite Fannie Mae, Freddie Mac or Ginnie Mae guarantees of the mortgage-backed securities the Company owns, those guarantees do not protect the Company from declines in market value caused by changes in interest rates. Declines in market value may ultimately reduce earnings or result in losses to the Company, which may negatively affect cash available for distribution to the shareholders under a REIT structure.

Market values of mortgage-backed securities may decline without any general increase in interest rates for a number of reasons, such as increases in defaults, increases in voluntary prepayments and widening of credit spreads.

Increased levels of prepayments from mortgage-backed securities may decrease the Company's net interest income.

Pools of mortgage loans underlie the mortgage-backed securities that the Company acquires. The Company generally receives payments from principal payments that are made on these underlying mortgage loans. When borrowers prepay their mortgage loans faster than expected, this results in repayments of principal that are faster than expected on the mortgage-backed securities. Faster than expected prepayments could harm the Company's profitability. Prepayment rates generally increase when interest rates fall and decrease when interest rates rise, but changes in prepayment rates are difficult to predict. Prepayment rates also may be affected by conditions in the housing and financial markets, general economic conditions and the relative interest rates on fixed-rate and adjustable-rate mortgage loans.

While the Company seeks to minimize prepayment risk to the extent practical, in selecting investments the Company must balance prepayment risk against other risks and the potential returns of each investment. No strategy can completely insulate the Company from prepayment risk.

RISKS RELATING TO THE COMPANY'S REAL ESTATE INVESTMENT TRUST (REIT) CONVERSION STRATEGY

If the Company fails to qualify as a REIT or fails to remain qualified as a REIT, it will have reduced funds available for distribution to its shareholders

Edgar Filing: GYRODYNE CO OF AMERICA INC - Form 10-K

and the Company's income will be subject to taxation at regular corporate rates.

7

The Company may be unsuccessful in its efforts to qualify as a REIT.

The Company's board of directors has authorized it to take the steps necessary to elect to be taxed as a REIT. Currently, the Company plans on electing REIT status on December 31, 2006, effective as of May 1, 2006. There can be no assurance that the Company will be organized in conformity with the requirements for qualification as a REIT under the Internal Revenue Code of 1986, as amended, or the Code, or that the Company's proposed method of operation will enable it to meet the requirements for qualification and taxation as a REIT. Given the highly complex nature of the rules governing REITs, the ongoing importance of factual determinations, and the possibility of future changes in the Company's circumstances, no assurance can be given that the Company will so qualify for any particular year. The Company does not intend to request a ruling from the Internal Revenue Service as to its qualification as a REIT.

Furthermore, the Company's qualification as a REIT will depend on its satisfaction of certain asset, income, organizational, distribution, shareholder ownership and other requirements on a continuing basis. The Company's ability to satisfy the asset tests will depend upon its analysis of the fair market values of its assets, some of which are not susceptible to a precise determination. The Company's compliance with the REIT income and quarterly asset requirements also depends upon its ability to manage successfully the composition of its income and assets on an ongoing basis.

The Company's management team has never operated a REIT, which may result in additional administrative costs.

Although the Company's management team has significant experience relating to the ownership and management of real property, no member of its management team has prior experience managing or operating a REIT. The federal income tax laws impose numerous constraints on the operations of REITs. The Company's management team's lack of experience in managing a portfolio of assets under such constraints may hinder its ability to manage the Company as a REIT successfully without the engagement of additional expertise. In addition, maintaining the REIT qualification will limit the types of investments or business expansions the Company will be able to make.

Legislative or other actions affecting REITs could have a negative effect on the Company's business and its stock price.

The rules dealing with federal income taxation are constantly under review by persons involved in the legislative process and by the IRS and the U.S. Department of the Treasury. Changes to the tax laws affecting REITs, which may have retroactive application, could adversely affect the Company's investors or the Company. The Company cannot predict how changes in the tax laws might affect its investors or the Company. Accordingly, the Company cannot assure you that new legislation, Treasury regulations, administrative interpretations or court decisions will not significantly affect the Company's ability to qualify as a REIT or the federal income tax consequences of such qualification.

Future acquisitions of properties may fail to perform in accordance with the Company's expectations and may require development and renovation costs exceeding its estimates.

On March 27, 2006, the Company received payment from the State of New York in the amount of \$26,315,000, which the Company had previously elected to accept as

Edgar Filing: GYRODYNE CO OF AMERICA INC - Form 10-K

an advance payment for property condemned by the State University of New York. See Note 18 to the consolidated financial statements. The Company plans to invest these proceeds in securities and other assets, including real estate, consistent with its objective of qualifying as a REIT under the Internal Revenue Code of 1986. Changing market conditions may diminish the Company's opportunities for making attractive investments. Once made, the Company's investments may fail to perform in accordance with its expectations.

RISKS ASSOCIATED WITH ANTITAKEOVER PROVISIONS

Because provisions contained in New York law, the Company's charter and shareholder rights plan may have an anti-takeover effect, investors may be prevented from receiving a "control premium" for their shares.

Provisions contained in the Company's charter and shareholder rights plan as well as under New York Business Corporation Law may have anti-takeover effects that delay, defer or prevent a takeover attempt, and thereby prevent shareholders from receiving a "control premium" for their shares. For example, these provisions may defer or prevent tender offers for the Company's Common Stock or purchases of large blocks of its Common Stock, thus limiting the opportunities for its shareholders to receive a premium for their Common Stock over then-prevailing market prices. These provisions include the following:

- o Staggered board. The Company's Board of Directors is divided into three classes. As a result, each director generally serves for a three-year term. This staggering of the Board may discourage offers for the Company or make an acquisition of the Company more difficult, even when an acquisition is in the best interest of its shareholders.

8

- o New York anti-takeover statute. Under New York's anti-takeover statute, any person who acquires 20% or more of the Company's common stock is prohibited from engaging in a business combination with the Company for five years unless the Board has approved (i) the particular business combination or (ii) the stock purchase that put the shareholder over the 20% threshold.
- o Dilutive effect of shareholder rights plan. The Company has in effect a shareholder rights plan, which is currently scheduled to expire on August 11, 2014, and is designed to deter a hostile takeover by increasing the takeover cost. As a result, the plan could discourage offers for the Company or make an acquisition of the Company more difficult, even when an acquisition is in the best interest of its shareholders. The rights plan should not interfere with any merger or other business combination the Board of Directors approves since the Company may generally terminate the plan at any time at nominal cost.

Item 2 Properties

The executive office of the Company is located at 1 Flowerfield, Suite 24, St. James, New York and consists of approximately 3,256 square feet.

The Company owns a 68 acre tract of land located on the north shore of Suffolk County, Long Island, New York. The Company currently has approximately 127,392 square feet of rental space and has 48 tenants.

Edgar Filing: GYRODYNE CO OF AMERICA INC - Form 10-K

The land is carried on the Company's balance sheet at cost in the amount of \$561,483 while the buildings and improvements are carried at a depreciated cost of \$493,498. The Company has a secured revolving line of credit in the amount of \$1,750,000. The outstanding balance was zero as of April 30, 2006 and 2005. Collateral for the credit line consists of Building #7 and the surrounding 6 1/2 acres.

The average age of all the buildings is approximately 46 years and the facilities continually undergo maintenance repair cycles for roofs, paved areas, and building exteriors. The general condition of internal infrastructure, HVAC, electrical, and plumbing is considered above average for facilities of this age. The grounds feature extensive landscaping, are neatly groomed and well maintained.

There are four main buildings with rental unit sizes ranging from 105 to 12,980 square feet. Given the location and size of rental units, the Flowerfield Industrial Park attracts many smaller companies that are not dependent on extensive material or product handling.

The Company currently maintains a \$100 million dollar liability umbrella policy and has insured certain buildings and rent receipts predicated on an analysis of risk, exposure, and loss history. It is Management's opinion that the premises are adequately insured.

The following table sets forth certain information as of April 30, 2006 for the total Company property:

Property	Rentable Square Feet	Percent Leased	Annual Base Rent	Annual Base Rent Per Leased SQ. FT.	Number Of Tenants	Number Of Tenants Who Occupy 10% Or More Of Rentable Sq. Ft.
-----	----	-----	----	-----	-----	-----
St. James, N.Y.	127,392	77%	\$1,176,485	\$12.07	48	1

The Company has one tenant with over 10% of the rentable square footage. The principal nature of this tenants business is providing day care for pre-school children. The principal provisions of their lease include the rental of 12,980 square feet of space with an annual base rent of \$181,720, expiring March 31, 2020.

The following table sets forth the Company's lease expiration table as of April 30, 2006:

Fiscal Year End	Number of Leases Expiring	Square Feet Expiring	Total Annual Rent	% of Gross Annual Rental Represented By Such Leases
-----	-----	-----	----	-----
2007	43	63,984	\$782,842	66.54%
2008	2	1,150	\$14,640	1.24%
2009	1	1,243	\$92,400	7.85%

The Company's property is primarily zoned for light industrial use and is located in the hamlet of St. James, New York.

Item 3 Legal Proceedings

On November 2, 2005, the State University of New York at Stony Brook (the "University") filed an acquisition map with the Suffolk County Clerk's office and vested title in approximately 245.5 acres of the Company's property known as Flowerfield (the "Property") pursuant to the New York Eminent Domain Procedure Law (the "EDPL"). On March 27, 2006, the Company received payment from the State of New York in the amount of \$26,315,000, which the Company had previously elected under the EDPL to accept as an advance payment for the Property. Under the EDPL, both the advance payment and any additional award from the Court of Claims bear interest at the current statutory rate of 9% simple interest from the date of the taking through the date of payment.

On May 1, 2006, the Company filed a Notice of Claim with the Court of Claims of the State of New York seeking \$158 million in damages from the University resulting from the condemnation of the Property. While the Company believes that a credible case for substantial additional compensation can be made, it is possible that the Company may be awarded a different amount than is being requested, including no compensation, or an amount that is substantially lower than the Company's claim for \$158 million. It is also possible that the Court of Claims could ultimately permit the State to recoup part of its advance payment to the Company.

In addition, in the normal course of business, the Company is a party to various legal proceedings. After reviewing all actions and proceedings pending against or involving the Company, Management considers the aggregate loss, if any, will not be material.

Item 4 Submission of Matters to a Vote of Security Holders

No matters were submitted to a vote of security holders during the fourth quarter of Fiscal Year 2006.

PART II

Item 5 Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

(a) Market information

The Company's Common Stock, \$1 Par Value (symbol: "GYRO") is traded in the NASDAQ Small-Cap Market. Since June 10, 1948, the NASDAQ Small-Cap Market has been the principal market in which the Company's stock is publicly traded. Set forth below are the high and low bid quotations for the Company's stock for each full quarter within the two most recent fiscal years:

Quarter Ended	Low	High
Fiscal 2005		
July 31, 2004	\$27.00	\$35.15

Common Stock, \$1.00 Par Value	833

- (c) There were no cash dividends declared on the Company's Common Stock in the fiscal years ended April 30, 2006 and April 30, 2005. On December 9, 2005, the Board of Directors of the Company announced a plan to convert the Company to a real estate investment trust or REIT. The advantage of operating as a REIT is that REITs generally will not be subject to New York State and U.S. federal corporate income taxes on income and gain from investments in real estate that it distributes to its shareholders, thereby reducing its corporate-level taxes and substantially eliminating the double taxation on income and gain that usually results in the case of a distribution by a C corporation. If the Company successfully converts to a REIT, it expects to pay dividends on most of its net income and gain from investments in real estate.

Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operation

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

The statements made in this Form 10-K that are not historical facts contain "forward-looking information" within the meaning of the Private Securities Litigation Reform Act of 1995, and Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, both as amended, which can be identified by the use of forward-looking terminology such as "may," "will," "anticipates," "expects," "projects," "estimates," "believes," "seeks," "could," "should," or "continue," the negative thereof, other variations or comparable terminology. Important factors, including certain risks and uncertainties, with respect to such forward-looking statements that could cause actual results to differ materially from those reflected in such forward-looking statements include, but are not limited to, the effect of economic and business conditions, including risks inherent in the Long Island, New York and Palm Beach County, Florida real estate markets, the ability to obtain additional capital in order to develop the existing real estate and other risks detailed from time to time in the Company's SEC reports. The Company assumes no obligation to update the information in this Form 10-K.

Critical Accounting Policies

The consolidated financial statements of the Company include accounts of the Company and all majority-owned and controlled subsidiaries. The preparation of financial statements in conformity with accounting principles generally accepted in the United States ("GAAP") requires management to make estimates and assumptions in certain circumstances that affect amounts reported in the Company's consolidated financial statements and related notes. In preparing these financial statements, management has utilized information available including its past history, industry standards and the current economic environment, among other factors, in forming its estimates and judgments of certain amounts included in the consolidated financial statements, giving due consideration to materiality. It is possible that the ultimate outcome as anticipated by management in formulating its estimates inherent in these financial statements might not materialize. However, application of the critical accounting policies below involves the exercise of judgment and use of assumptions as to future uncertainties and, as a result, actual results could differ from these estimates. In addition, other companies may utilize different estimates, which may impact comparability of the Company's results of operations to those of companies in similar businesses.

Edgar Filing: GYRODYNE CO OF AMERICA INC - Form 10-K

Revenue Recognition

Minimum revenues from rental property are recognized on a straight-line basis over the terms of the related leases. The excess of rents recognized over amounts contractually due, if any, are included in deferred rents receivable on the Company's balance sheets. Certain leases also provide for tenant reimbursements of common area maintenance and other operating expenses and real estate taxes. Ancillary and other property related income is recognized in the period earned.

Real Estate

Rental real estate assets, including land, buildings and improvements, furniture, fixtures and equipment, are recorded at cost and reported net of accumulated depreciation and amortization. Tenant improvements, which are included in buildings and improvements, are also stated at cost. Expenditures for ordinary maintenance and repairs are expensed to operations as they are incurred. Renovations and/or replacements, which improve or extend the life of the asset are capitalized and depreciated over their estimated useful lives.

Depreciation is computed utilizing the straight-line method over the estimated useful lives of ten to thirty years for buildings and improvements and three to twenty years for machinery and equipment.

The Company is required to make subjective assessments as to the useful lives of its properties for purposes of determining the amount of depreciation to reflect on an annual basis with respect to those properties. These assessments have a direct impact on the Company's net income. Should the Company lengthen the expected useful life of a particular asset, it would be depreciated over more years, and result in less depreciation expense and higher annual net income.

Real estate held for development is stated at the lower of cost or net realizable value.

Net realizable value represents estimates, based on management's present plans and intentions, of sale price less development and disposition cost, assuming that disposition occurs in the normal course of business.

13

Long Lived Assets

On a periodic basis, management assesses whether there are any indicators that the value of the real estate properties may be impaired. A property's value is impaired only if management's estimate of the aggregate future cash flows (undiscounted and without interest charges) to be generated by the property are less than the carrying value of the property. Such cash flows consider factors such as expected future operating income, trends and prospects, as well as the effects of demand, competition and other factors. To the extent impairment occurs, the loss will be measured as the excess of the carrying amount of the property over the fair value of the property.

The Company is required to make subjective assessments as to whether there are impairments in the value of its real estate properties and other investments. These assessments have a direct impact on the Company's net income, since an impairment charge results in an immediate negative adjustment to net income. In determining impairment, if any, the Company applies Financial Accounting

Edgar Filing: GYRODYNE CO OF AMERICA INC - Form 10-K

Standards Board ("FASB") Statement No. 144, "Accounting for the Impairment or Disposal of Long Lived Assets."

Stock-Based Compensation

The Company applies the intrinsic value-based method of accounting prescribed by Accounting Principles Board ("APB") Opinion No. 25, Accounting for Stock Issued to Employees, and related interpretations, to account for stock-based employee compensation plans and reports pro forma disclosures in its Form 10-K filings by estimating the fair value of options issued and the related expense in accordance with SFAS No. 123. Under this method, compensation cost is recognized for awards of shares of common stock or stock options to directors, officers and employees of the Company only if the quoted market price of the stock at the grant date (or other measurement date, if later) is greater than the amount the grantee must pay to acquire the stock.

In December 2004, the Financial Accounting Standards Board ("FASB") issued SFAS No. 123(R), "Accounting for Stock-Based Compensation" ("SFAS No. 123(R)"). SFAS No. 123(R) establishes standards for the accounting for transactions in which an entity exchanges its equity instruments for goods or services. This statement focuses primarily on accounting for transactions in which an entity obtains employee services in share-based payment transactions. SFAS No. 123(R) requires that the fair value of such equity instruments be recognized as an expense in the historical financial statements as services are performed. Prior to SFAS No. 123(R), only certain pro forma disclosures of fair value were required. The provisions of this statement are effective for the first annual reporting period that begins after June 15, 2005. On March 29, 2005, the SEC issued Staff Accounting Bulletin No. 107 ("SAB No. 107"), which provides the Staff's views regarding interactions between SFAS No. 123R and certain SEC rules and regulations and provides interpretations of the valuation of share-based payments for public companies. If the Company had included the cost of employee stock option compensation in its financial statements it would not have had a material effect on our net income for the years ended April 30, 2006 and 2005. There would have been a material effect on our net income for the year ended April 30, 2004. See Note 1 to the consolidated financial statements.

RESULTS OF OPERATIONS FOR THE YEAR ENDED APRIL 30, 2006 AS COMPARED TO THE YEAR ENDED APRIL 30, 2005

The Company is reporting net income of \$13,115,317 for the year ended April 30, 2006 compared to a net loss of \$137,648 for the prior year. Diluted per share earnings amounted to \$10.29 for the current year and a per share loss of \$0.12 for fiscal 2005.

The results for 2006 include two nonrecurring events which served to bolster the Company's earnings. The recognition of the deferred gain resulting from receipt of a final payment on a \$1.8 million mortgage which was due and payable in August 2005 and held in connection with the 2002 sale of certain land and buildings on the Flowerfield property. The second event impacting this year's result was the condemnation of 245.5 acres at Flowerfield by the State University of New York at Stony Brook. This taking of our property, which was executed under the authority of New York's Eminent Domain Procedural Law ("EDPL"), occurred in November 2005 and resulted in a payment of \$26,315,000 received by the Company in March 2006, which the Company had elected to treat as an Advance Payment for the property under the EDPL. A gain of \$20,710,339 was recognized as a result of the receipt of the Advance Payment. More detailed disclosure is included further on in this report.

Revenue from rental property declined significantly, amounting to \$1,626,651 for 2006. This represents a decrease of \$412,519 from the prior year when revenues amounted to \$2,039,170. The major contributing factor to this loss of revenue

Edgar Filing: GYRODYNE CO OF AMERICA INC - Form 10-K

was the aforementioned condemnation which included one of the larger buildings at Flowerfield, occupied by two major tenants. The total impact of the eminent domain taking resulted in a decrease of \$291,088 in rental income and accounts for 71% of the decline. The balance of the decline in rental revenues, \$121,431, is the net result of a number of terminated leases and new tenancies at Flowerfield. The largest termination accounted for \$93,347 of the variance.

14

Rental property expenses reflect a decrease of \$339,091 for the year, amounting to \$717,357 compared to \$1,056,448 for the prior year. While this reduction in expenses helped in offsetting a major portion of the lost revenue stream, several of the contributing factors are non-recurring in nature. Salaries and benefits decreased by \$105,965 as a result of our continuing efforts to shrink staffing levels. However, \$26,830 of the decrease is attributable to a severance payment during the prior year and will not be replicated going forward. Fees for outside services relating to storm drain improvements amounted to \$57,719 during the prior year and property and casualty insurance premiums were reduced by \$38,381; we do not anticipate similar reductions for the coming year. Property and casualty insurance reimbursements of \$61,338, which pertained to a prior period, were received from tenants pursuant to lease terms during this fiscal year. In addition to these non-recurring items, maintenance and repair expenses declined by \$28,409, plant security services decreased by \$33,820, and reflecting a milder winter climate, fuel oil expenses decreased by \$21,517. Interest expense was also reduced by \$35,217 as a direct result of the total pay down of borrowings on the Company's revolving credit line. Additionally, reflecting the fact that certain buildings and improvements were part of the condemnation, depreciation expense decreased by \$10,639. The only significant increase in expenses also resulted from the condemnation. As a result of our having filed development plans for Flowerfield in 2002, real estate taxes on the undeveloped acreage were capitalized. That accounting treatment is no longer applicable and the taxes on the balance of Gyrodyne's undeveloped property, from the date of the condemnation forward, increased over the prior year by \$52,908. Rental property expenses as a percentage of revenues amounted to 44% and 52% for 2006 and 2005, respectively, and we anticipate this ratio will approximate 51% for 2007.

As a result, income from rental property amounted to \$909,294, representing a \$73,428 or 7.5% decline from the prior year result which totaled \$982,722.

General and administrative expenses increased during the current reporting period, amounting to \$2,373,223. This represents an increase of \$609,040 or 35% over the 2005 total of \$1,764,183. Specifically, expenses associated with the condemnation accounted for \$235,108, legal and consulting fees increased by \$228,351, and costs attributable to developing the Company's strategic plan totaled \$150,242. Contributing factors to the increase in legal and consulting fees included \$82,864 in costs associated with the Company's decision to pursue conversion to a Real Estate Investment Trust (REIT), \$34,305 in fees to our investment bankers, \$64,987 in legal research on behalf of Board committees, \$35,268 in costs associated with the remaining Flowerfield acreage, and \$14,198 in connection with the Company's limited partnership investment in the Callery-Judge Grove. In addition, salaries and benefits increased by \$48,169 and Directors fees, which reflect both an expanded number of Board members and an increase in the frequency of meetings, increased by \$32,412. The Company also experienced an increase in insurance premiums of \$34,840. Bad debt and pension expense decreased by \$33,000 and \$110,080, respectively.

OTHER INCOME

As previously mentioned, the Company received the balance due on a \$1.8 million

Edgar Filing: GYRODYNE CO OF AMERICA INC - Form 10-K

mortgage and recognized a gain amounting to \$1,136,705 during the current reporting period. Also, the Company received during Fiscal Year 2006 proceeds from the condemnation of Flowerfield acreage totaling \$26,315,000, which the Company elected to treat as an advance payment pursuant to the EDPL (the Company has filed a Notice of Claim seeking additional compensation in the New York State Court of Claims).

In conjunction with that payment, interest at the current statutory rate of 9%, which totals \$921,385, has been accrued as of April 30, 2006. Thus far, the Company has received \$589,008 of the total accrual without explanation from the State of New York as to why the full amount was not processed. The receivable was subsequently reduced to \$332,377. The Company's attorneys are in active discussion with the attorney general's office to rectify this difference. An additional \$111,877 of interest was earned through April 30, 2006 from the investment of the advance payment proceeds. Based on the carrying value and accumulated capitalized expenses relating to the subject property, the Company is reporting a gain of \$20,710,339 from the condemnation. Other interest income amounts to \$50,844 and \$102,852 for fiscal 2006 and 2005, respectively. As a result, interest income totaled \$1,084,106 in 2006 compared to \$102,852 during the prior year.

RESULTS OF OPERATIONS FOR THE YEAR ENDED APRIL 30, 2005 AS COMPARED TO THE YEAR ENDED APRIL 30, 2004

The Company reported a net loss of \$137,648 for the year ended April 30, 2005 compared to a net loss of \$113,466 for the prior year. Diluted per share losses amounted to (\$0.12) and (\$ 0.10) for fiscal 2005 and 2004, respectively.

Revenue from rental property amounted to \$2,039,170, a 2% decline of \$47,517 to the \$2,086,687 posted during the prior year. Both periods were impacted by renegotiated terms with two major tenants. Those adjustments, which reduced the 2005 results by \$125,684, were partially mitigated by new tenant leases and annual incremental adjustments totaling \$78,167. Rental property expenses increased by \$228,688 or 28%, amounting to \$1,056,448 in fiscal 2005. The prior year expenses amounted to \$827,760. Of that total increase, \$225,799 is attributable to operating and maintenance costs. Salaries and benefits, including nonrecurring expenses of \$26,830 associated with an early retirement

15

package, increased by \$52,037. Real estate taxes and the cost of fuel oil increased by \$11,863 and \$22,910, respectively. In addition, the Company experienced a \$93,030 increase in property and casualty insurance premiums and a \$59,585 expense associated with remedial treatment of our septic and storm drainage systems. A number of other operating expenses, including utilities, building, grounds, and equipment maintenance, reflected decreases totaling \$11,567; the largest contributing factor was a decrease in utility expense of \$7,628 for the year.

As a result, income from rental property amounted to \$982,722, representing a \$276,205 or 22% decline when compared to the prior year total of \$1,258,927. Based on the fact that some of the contributing factors to the decline this year were nonrecurring in nature, we anticipate that income from our rental property operation will be restored to the fiscal 2004 levels.

General and administrative expenses reflect an increase of 12% for the current reporting period, amounting to \$1,764,183 compared to \$1,574,353 for the prior year; an increase of \$189,830. Corporate governance expenses, which totaled \$330,374 for the year, increased by \$208,833 for the reporting period. A major portion of this increase is attributable to the establishment of a Shareholders

Edgar Filing: GYRODYNE CO OF AMERICA INC - Form 10-K

Rights Plan which accounted for \$130,345. Other issues relating to shareholder filings and SEC requirements for publicly traded companies accounted for \$34,666 and \$43,822 of the increase, respectively. Other increases included Directors fees and bad debt expense which increased by \$9,794 and \$9,000, respectively. Finally, as activities surrounding the Company's investment in the Florida grove property increased, so too did our need to incur additional travel expense and make regular visits to the area. In an effort to keep abreast of developments in the industry, management also attended several corporate governance and real estate related seminars. The cost of all of these activities accounted for \$21,927 of the increased expenses. Offsetting some of the increase in general and administrative expenses was an overall decrease in salaries and benefits and costs associated with the Company's pension plan. Salaries and benefits decreased by \$46,620, reflecting the fact that there was no stock option expense in the current period; in fiscal 2004, that expense amounted to \$76,606. The Company's pension expense, which amounted to \$226,109 in fiscal 2005, decreased by \$10,761 when compared to the prior year. We anticipate that the cost associated with the plan will be reduced by an additional \$100,000 for the fiscal 2006 period.

Other income increased by \$440,326, amounting to \$552,047 and \$111,721 for fiscal 2005 and 2004, respectively. The major contributing factor to this increase was the recognition of principal prepayments to a \$1.8 million mortgage held by the Company which amounted to \$437,194. The balance of the mortgage, \$1.3 million as of April 30, 2005, matures in August 2005.

As a result of the foregoing, the Company experienced a loss before taxes of \$229,414 for the period ending April 30, 2005, compared to a loss of \$203,705 for the prior year.

LIQUIDITY AND CAPITAL RESOURCES

Net cash provided by operating activities was \$24,032,174 in fiscal 2006. This activity during the current fiscal year was primarily related to the receipt of condemnation proceeds of \$25,718,925, net of proceeds from the condemnation of the rental property of \$596,075. Net cash used in operating activities was \$1,130,127 and \$1,067,419 in fiscal 2005 and 2004, respectively. The principal use of cash in both periods was funds used in connection with planning and pre-construction costs associated with land development plans for the residential golf course community. The Company also incurred costs included in the capitalized land development costs pertaining to legal, and communication costs to shareholders and the community regarding the potential condemnation of the Company's property by the University.

Net cash provided by (used in) investing activities was \$1,817,091, \$449,042 and (\$29,754) in fiscal 2006, 2005 and 2004, respectively. The cash provided by investing activities in fiscal 2006 consisted of the receipt of \$1,300,000 on the Company's mortgage receivable as well as proceeds from the condemnation of rental property of \$596,075. Fiscal 2005 was primarily related to the receipt of the aforementioned mortgage receivable in the amount of \$500,000 as well as proceeds from the sale of heavy equipment for \$12,000. The use of cash in all three periods was for capital expenditures.

Net cash provided by (used in) financing activities was \$319,018, (\$37,153) and \$428,499 in fiscal 2006, 2005 and 2004, respectively. The net cash provided during the three year period was primarily the result of proceeds from the exercise of stock options. The fiscal 2004 period results also reflect the refinancing of mortgage debt on the Flowerfield property. The net cash (used in) all three periods were a result of the Company's repayment of loans payable. The Company has a \$1,750,000 revolving credit line with a bank, bearing interest at a rate of prime plus one percent which was 8.75% at April 30, 2006. The unused portion of the credit line, which is the total line of \$1,750,000, enhances the Company's financial position and liquidity and is available, if needed, to fund

any unforeseen expenses.

As of April 30, 2006, the Company had cash and cash equivalents of \$27,012,688 and anticipates having the capacity to fund normal operating and administrative expenses and its regular debt service requirements. Working capital, which is the total of current assets less current liabilities as shown in the

accompanying chart, amounted to \$27,219,392 at April 30, 2006. Net prepaid expenses and other assets shown in the accompanying chart does not include \$31,035 and \$76,657 of furniture and fixtures and loan origination fees for the twelve months ended April 30, 2006 and 2005, respectively.

The following table presents the Company's working capital for the fiscal years 2006 and 2005:

During fiscal 2004, the Company restructured an outstanding mortgage loan on the Flowerfield property. That loan was satisfied and incorporated into a newly established revolving credit line in the amount of \$1,750,000 at prime plus one percent. At April 30, 2006 and 2005, the Company had no outstanding indebtedness against this credit facility. Additionally, the Company held a \$1.8 million purchase money mortgage loan in connection with the sale of certain buildings and 12 acres during fiscal 2003. The mortgage loan accrued interest at a rate of 5% and was fully paid with interest in August, 2005.

LIMITED PARTNERSHIP INVESTMENT

The Company has a limited partnership investment in the Callery-Judge Grove located in Palm Beach County, Florida. The investment represents a 10.93% limited partnership interest in a limited partnership that owns a 3,500+ acre citrus grove. The property is the subject of a plan for a mixed use of residential, commercial, and industrial development which is under review by the local municipal and state authorities. The Company is accounting for the investment under the equity method. As of April 30, 2006, the carrying value of the Company's investment was \$0. Based upon the most recent independent third party appraisal, which was conducted by Pinel Appraisal Services, Inc. in June 2005, the Company's investment, strictly on a pro-rata basis, has a current estimated fair value of approximately \$18.0 million without adjustment for minority interest and lack of marketability discount. In the latter part of 2003, the Scripps Research Institute headquartered in La Jolla, California, announced that it would be developing a major east coast center on property located in the general vicinity of the Callery-Judge Grove. Although the Company believes, based on press reports, that this announcement has been the catalyst behind the

17

sale of thousands of acres of land to national developers in the general vicinity of the Grove, it has no current forecast of the likelihood of, or the timing required to achieve approvals for, the development of the Grove.

DEVELOPMENT OF FLOWERFIELD PROPERTY

The Company is a party to two contractual agreements dated April 9, 2002 with Landmark National ("Landmark") pursuant to which Landmark was to design and develop an 18 hole championship golf course community with 336 home sites on the Company's Flowerfield property located in Stony Brook / Saint James, New York, a substantial portion of which has since been condemned by the State University of New York (the "University"). Those contractual agreements were exhibited in the Company's April 30, 2002 10-KSB filing. The golf course agreement calls for monthly payments of \$5,000 with a maximum total of \$150,000. As of April 30, 2005, the Company had paid this obligation in full. Additionally, there is a one-time fee of \$100,000 for a grading report on the course layout, which was completed and paid during fiscal 2003. The residential land planning and design contract includes monthly payments of \$10,000 with a maximum payment totaling \$300,000. As of April 30, 2005, the Company had also paid this obligation in full. Landmark is also entitled to a construction management fee of 4.5% of construction costs. Inasmuch as the condemnation has negated the pursuit of a golf course community development, this management fee will not be payable. The balance of Landmark's compensation was an incentive fee of 10% of pre-tax net income from the residential golf course development. Additionally, in a separate agreement for the future, Landmark is under contract to manage the completed golf and clubhouse facilities under a long-term management agreement. The annual fee for such service is \$100,000 commencing upon completion of the golf and clubhouse facilities. The residential land planning and design contract also provides for a termination fee amounting to \$500,000, which is more clearly

Edgar Filing: GYRODYNE CO OF AMERICA INC - Form 10-K

defined in Note 12 to the consolidated financial statements. The Company has accrued a \$500,000 termination fee pursuant to the contract. Following the University's condemnation of the Flowerfield property, the Company was advised by Landmark that it believes it is entitled to 10% of all condemnation proceeds pursuant to the 10% incentive fee provision referred to above. The Company does not believe that the condemnation triggers the incentive fee and believes that Landmark's position is based upon an erroneous interpretation of the incentive fee provision.

OFF-BALANCE SHEET ARRANGEMENTS

The Company has no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on its financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.

Item 7A Quantitative and Qualitative Disclosures about Market Risk

Financial instruments, which potentially subject the Company to concentrations of credit risk, consist principally of cash and cash equivalents and longer-term investments. The Company places its temporary cash investments with high credit quality financial institutions and, by policy, limits the amount of credit exposure in any one financial institution. At times the Company maintains bank account balances, which exceed FDIC limits. The Company has not experienced any losses in such accounts and believes that it is not exposed to any significant credit risk on cash. Management does not believe significant credit risk exists at April 30, 2006, 2005 and 2004. As of April 30, 2006, the Company's investments in U.S. Government securities were considered cash equivalents because of the short term nature of the maturities. Subsequent to the close of fiscal 2006, the Company invested approximately \$22,000,000 in securitized U.S. Government Agencies with an effective duration of between two and three years. The potential risks associated with this type of investment are more fully discussed in Item 1A.

Item 9A Controls and Procedures

The Company's management, including the Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of the end of the period covered by this report. Based upon that evaluation, the Company's Chief Executive Officer and Chief Financial Officer has concluded that the disclosure controls and procedures as of April 30, 2006 are effective to ensure that information required to be disclosed in the reports the Company files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to the Company's management, including the Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding disclosure.

There have been no significant changes in the Company's internal control over financial reporting identified in connection with the evaluation that occurred during the Company's last fiscal quarter that have materially affected, or that are reasonably likely to materially affect, the Company's internal controls over financial reporting.

(b) Business Experience

Stephen V. Maroney, age 64, was initially engaged by the Company as an outside consultant in June 1996 and elected to the Board of Directors in July of that same year. Mr. Maroney is the former President of Extebank, a Long Island based commercial bank with a presence in Nassau and Suffolk Counties and New York City. Prior to that appointment, he served as Extebank's Chief Financial Officer. Mr. Maroney was appointed to the position of President, CEO and Treasurer by the Gyrodyne Board of Directors on March 14, 1999. His career on Long Island spans a period of over 40 years and includes involvement in numerous civic, charitable and professional organizations.

Peter Pitsiokos, age 47, joined the Company in July 1992 as its Assistant Secretary and General Counsel and has been the Company's Chief Operating Officer and Chief Compliance Officer since 2004. He has also been Secretary of the Company for over five years. Mr. Pitsiokos was formerly the Executive Assistant District Attorney in Suffolk County, New York. He also served as the Assistant Director of Economic Development and the Director of Water Resources in the Town of Brookhaven. He holds a Law degree from Villanova University and a BA degree from the State University of New York at Stony Brook.

Frank D'Alessandro, age 60, joined the Company in March 1997 as its Controller. Prior to joining the Company, he was Controller of Cornucopia Pet Foods Inc., a distributor of all natural pet foods. Previous to that he spent many years in various financial positions. Mr. D'Alessandro holds an MBA degree in Finance as well as a BBA in Accounting, both from Hofstra University.

Paul L. Lamb, age 60, has been a Director since 1997 and became Chairman of the Board on March 14, 1999. He is a founding partner in the law firm of Lamb & Barnosky, LLP; a past President of the Suffolk County Bar Association; and a Dean of the Suffolk Academy of Law. He holds a B.A. from Tulane University, a J.D. from the University of Kentucky and an LL.M. from the University of London, England.

Robert Beyer, age 73, has been a Director of the company since November 1977. He

Edgar Filing: GYRODYNE CO OF AMERICA INC - Form 10-K

is also a Director of the Company's subsidiaries. He retired from the United States Naval Reserve in 1993 with the rank of Captain. He retired from his position as Senior Inertial Systems Engineer with the Naval Air Systems Command in 1998. He has an electrical engineering degree from New York University and a graduate degree in International Business from Sophia University in Tokyo, Japan. Mr. Beyer was employed by Gyrodyne from 1962-1973. He was stationed in Japan as a Technical Representative for the Company's remotely piloted helicopters from 1963 to 1970.

Philip F. Palmedo, age 72, was appointed to the Board of Directors in July 1996. Mr. Palmedo is Chairman of International Resources Group and former President of the Long Island Research Institute. He has shepherded numerous fledgling businesses into the financial and technological markets completing several financing and joint venture technology agreements. He has M.S. and Ph.D. degrees from M.I.T.

20

Elliot H. Levine, age 53, was appointed to the Board of Directors in October 2004. Mr. Levine is a founding member of the accounting firm Levine & Seltzer, LLP Certified Public Accountants, a graduate (1975) of Queens College, City University of New York. He became a member of the American Institute of Certified Public Accountants in February, 1978. Mr. Levine's work experience includes five years at Arthur Young, ten and a half years as partner and director of taxes of Leslie Sufirin & Co. P.C., a one year tenure as senior tax manager at Margolin, Winer & Evans CPAs and 12 years as senior member of Levine & Seltzer.

Richard B. Smith, age 51, was appointed to the Board of Directors in November 2002. Mr. Smith is currently a Vice President in the Commercial Banking Division of the First National Bank of Long Island. He previously served as Senior Vice President for Private Banking at Suffolk County National Bank until February, 2005. Previously, he worked for 10 years at Key Bank (Dime Savings Bank) and for 3 years at L.I. Trust/Apple Bank. He received an MBA in Finance from SUNY Albany in 1983. Mr. Smith serves as the Mayor of the Incorporated Village of Nissequogue and as a Trustee of the Smithtown Historical Society and also serves as a Trustee for St. Catherine's Medical Center in Smithtown, NY.

Ronald J. Macklin, age 44, was appointed to the Board of Directors in June 2003. Mr. Macklin currently serves as Assistant General Counsel for KeySpan Corporate Services where he has held various positions within the Office of General Counsel from 1991 to present. Previously, he was associated with the law firms of Roseman & Colin and Cullen & Dykman. He received a B.A. degree from Stony Brook University and his Juris Doctorate from Union University's Albany Law School.

(c) Compliance with Section 16(a) of the Exchange Act

Section 16(a) of the Exchange Act requires that the Company directors, executive officers, and any person holding more than ten percent ("10% Holder") of Gyrodyne Common Stock, \$1.00 par value per share, file with the SEC reports of ownership changes, and that such individuals furnish the Company with copies of the reports.

Based solely on the Company's review of copies of Forms 3 and 4 and amendments thereto received by it during fiscal 2006 and Forms 5 and amendments thereto received by the Company with respect to fiscal 2006 and any written representations from certain reporting persons that no Form 5 is required, Gyrodyne believes that none of the Company's executive officers, directors or 10% Holders failed to file on a timely basis reports required by section 16(a)

Edgar Filing: GYRODYNE CO OF AMERICA INC - Form 10-K

of the Exchange Act during fiscal 2006 or prior fiscal years.

(d) Audit Committee Financial Expert

The Board of Directors has a separately-designated Audit Committee established in accordance with section 3(a)(58)(a) of the Exchange Act, which currently consists of Messrs. Smith, Levine and Macklin. All members are "financially literate" and have been determined to be "independent" within the meaning of SEC regulations and NASDAQ rules. The Board of Directors has determined that at least one member, Mr. Levine, a CPA, qualifies as an "audit committee financial expert" as a result of relevant experience as a partner in the accounting firm of Levine & Seltzer, LLP. In addition, Mr. Levine has 10.5 years of accounting experience as a partner and director of taxes at Leslie Sufrin & CO. P.C. as well as several other years of experience in the field of public accounting.

(e) Code of Ethics

The Company has adopted a written Code of Ethics that applies to all of its directors, officers and employees. It is available on the Company's website at www.gyrodyn.com and any person may obtain without charge a paper copy by writing to the Secretary at the address set forth on page 1. Any amendments to the Code of Ethics, or waiver thereof, will be disclosed on the website promptly after such amendment.

Item 11 Executive Compensation

(a) Executive Compensation

During the fiscal years ended April 30, 2006, April 30, 2005, and April 30, 2004, two directors or officers received remuneration in excess of \$100,000 in such capacity. The following table sets forth the total compensation paid or accrued by the Company for services rendered during the years ended April 30, 2006, 2005 and 2004 to each of the Company's Chief Executive Officer and Chief Operating Officer.

(b) Compensation of Directors

Each Director is entitled to receive a fee of \$12,000 a year, \$1,000 per Board meeting attended and \$500 for each Committee meeting attended and is reimbursed for travel and Company business related expenses. In addition, the Chairman of the Board is entitled to receive a Chairman's fee of \$24,000 a year which commenced in September, 2004. The Company continued its policy which states that Directors who are also employees of the Company do not receive any additional compensation for their services as Directors.

(c) Employment Contracts and Change-in-Control Arrangements

Effective January 23, 2003, the Company entered into an amended and restated employment agreement with Stephen V. Maroney as President, Chief Executive Officer, and Treasurer and Peter Pitsiokos as Executive Vice President, Secretary, and General Counsel. Their annual salaries are currently at \$220,000 and \$160,790, respectively. The terms of the agreements were extended from one to three years, contain evergreen provisions, and provide for a severance payment equivalent to three years salary in the event of a change in control. Both agreements were attached as Exhibit 10, Material Contracts, in the 10-QSB dated January 31, 2003.

Edgar Filing: GYRODYNE CO OF AMERICA INC - Form 10-K

The Company has an incentive compensation plan, which was established in 1999 and amended in 2004, for all full-time employees and members of the Board in order to promote shareholder value. The benefits of the incentive compensation plan are realized only upon a change in control of the Company. Change in

22

control is defined as the accumulation by any person, entity or group of 30% or more of the combined voting power of the Company's voting stock or the occurrence of certain other specified events. In the event of a change in control, the Company's plan provides for a cash payment equal to the difference between the plan's "establishment date" price of \$15.39 per share and the per share price of the Common Stock on the closing date, equivalent to 100,000 shares of Common Stock, such number of shares and "establishment date" price per share subject to adjustments to reflect changes in capitalization. The payment amount would be distributed to eligible participants based upon their respective weighted percentages (ranging from 0.5% to 18.5%).

(d) Compensation Committee Interlocks and Insider Participation

The Committee's members are currently Mr. Levine (Chairman), Mr. Palmedo and Mr. Macklin. No member of the Committee is or was formerly an officer or employee of the Company or any of its subsidiaries. No member of the Committee had any relationship requiring disclosure by the Company under any paragraph of Item 404 of Regulation S-K.

(e) Report of the Compensation Committee

The Compensation Committee of the Company's Board of Directors consists of directors Elliot Levine (Chairman), Ronald Macklin and Philip Palmedo, all of whom the Board has determined are independent pursuant to NASDAQ rules. This report shall not be deemed incorporated by reference into any filing under the Securities Act of 1933, as amended (the "Securities Act"), or the Securities Exchange Act of 1934, as amended (the "Exchange Act"), by virtue of any general statement in such filing incorporating this Form 10-K by reference, except to the extent that the Company specifically incorporates the information contained in this section by reference, and shall not otherwise be deemed filed under either the Securities Act or the Exchange Act.

The Compensation Committee oversees and administers the Company's executive compensation programs and is therefore responsible for establishing guidelines and approving all compensation paid to executive officers. The Company's compensation policies for executives are intended to further the interests of the Company and its shareholders by encouraging growth of its business through securing, retaining and motivating management employees of high caliber who possess the skills necessary for the development and growth of the Company.

The Company's executive compensation program consists of two principal elements: a base salary and the potential to earn a performance-based annual bonus. In the past, a third component included a stock option plan that expired in October 2003. The program is designed to motivate and retain key executives to manage the business affairs of the Company in the best long term interests of the Company and its shareholders.

The Committee recognizes that a variety of events and circumstances might influence an individual's performance or that of the Company itself. As a result, the Committee carefully considers all relevant events and circumstances in making its compensation decisions in order to ensure that the appropriate relationship exists between executive compensation and corporate performance.

Edgar Filing: GYRODYNE CO OF AMERICA INC - Form 10-K

The Committee also negotiates the terms of all employment contracts with executive officers which include compensation arrangements designed to reward management for achieving certain performance goals and which are revisited on an as needed basis.

In setting and adjusting base salary levels for each individual executive, the Compensation Committee considers factors such as the executive's scope of responsibility, the executive's performance, the performance of the Company, future potential, and benchmarks of comparable positions at other companies. In making salary decisions, the Compensation Committee exercises its best judgment using no specific weights for the previously discussed factors.

The Company maintains the option to supplement base compensation with awards of performance bonuses in the form of cash to reward efforts undertaken by its key executive officers which are extraordinary in nature.

In order to evaluate the appropriate levels of compensation for the Company's executive officers, the Committee reviews a number of factors, including performance and progress towards achieving established goals. The Committee also takes into consideration other contributing factors to the officers overall compensation which may include past performance, anticipated contributions to future success, additional responsibilities, and vulnerability to recruitment by other companies.

As of January 1, 2006, the Board approved, based primarily upon the recommendation of the Compensation Committee, base salary for the Company's two executive officers, Stephen Maroney and Peter Pitsiokos, in the amount of \$220,000 and \$160,262, respectively, and cash bonuses of \$11,000 and \$8,262 for Mr. Maroney and Mr. Pitsiokos, respectively, which were paid on or prior to February 15, 2006.

Item 13 Certain Relationships and Related Transactions

The Company had a mortgage receivable in the original amount of \$1,800,000 due from Sco Properties, Inc. which was paid in full in August, 2005. Mr. Scollan, president of Sco Properties, Inc., is considered a principal shareholder of the Company because he has beneficial ownership of 8.23% of the Company shares. The terms of the mortgage are described in greater detail in Note 3 of the consolidated financial statements. The Company believes that the terms of the mortgage were no less favorable to the Company than could have been obtained from an unaffiliated third party. The Company received \$15,459 in interest during fiscal 2006 and \$86,361 in the prior fiscal year. Interest payments received in fiscal 2006 were lower than in fiscal 2005 as the result of the prepayment of the remainder of the principal.

The Company had engaged the firm of Lamb & Barnosky, LLP as primary outside legal counsel until December 31, 2004. Director Lamb is a partner in the firm to which Gyrodyne incurred legal fees of \$7,309, \$109,550 and \$228,962 in FY 2006, FY 2005 and FY 2004, respectively. As of January 1, 2005 the aforementioned law firm is no longer primary outside legal counsel.

No loans were made to any officer, director, or any member of their immediate families during the fiscal year just ended, nor were any loan amounts due and owing the Company or its subsidiaries from those parties at fiscal year end.

Report of Independent Registered Public Accounting Firm

Board of Directors and Stockholders
Gyrodyne Company of America, Inc.
St. James, New York

We have audited the accompanying consolidated balance sheets of Gyrodyne Company of America, Inc. and Subsidiaries (the "Company") as of April 30, 2006 and 2005 and the related consolidated statements of operations, stockholders' equity and cash flows for the years ended April 30, 2006, 2005 and 2004. We have also audited the schedule listed in Item 8 (7) of this Form 10-K for the years ended April 30, 2006, 2005, and 2004. These consolidated financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Gyrodyne Company of America, Inc. and Subsidiaries as of April 30, 2006 and 2005 and the results of their operations and their cash flows for the years ended April 30, 2006, 2005 and 2004 in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, the related consolidated financial statement schedule for the years ended April 30, 2006, 2005 and 2004 when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

GYRODYNE COMPANY OF AMERICA, INC.
AND SUBSIDIARIES

Notes to Consolidated Financial Statements

Years Ended April 30, 2006, 2005 and 2004

1. Summary of Significant Accounting Policies

Organization and nature of operations - Gyrodyne Company of America, Inc. and Subsidiaries (the "Company") is primarily a lessor of industrial and commercial real estate to unrelated diversified entities located in Long Island, New York, and is also pursuing development plans of its real estate holdings.

The State University of New York at Stony Brook has acquired part of the Company's real estate property located in Stony Brook/St. James, New York through eminent domain. See Note 18.

Principles of consolidation - The accompanying consolidated financial statements include the accounts of Gyrodyne Company of America, Inc. ("GCA") and all majority owned subsidiaries. Investments in affiliates in which the Company has the ability to exercise significant influence, but not control, would be accounted for under the equity method. Investment interests in excess of 5% in limited partnerships are accounted for under the equity method.

All consolidated subsidiaries are wholly owned. All significant inter-company transactions have been eliminated.

Rental real estate - Rental real estate assets, including land, buildings and improvements, furniture, fixtures and equipment, are stated at cost, and reported net of accumulated depreciation and amortization. Tenant improvements, which are included in buildings and improvements, are also stated at cost. Expenditures for ordinary maintenance and repairs are expensed to operations as they are incurred. Renovations and or replacements, which improve or extend the life of the asset are capitalized and depreciated over their estimated useful lives.

Real estate held for development - Real estate held for development is stated at the lower of cost or net realizable value. In addition to land, land development and construction costs, real estate held for development includes interest, real estate taxes and related development and construction overhead costs which are capitalized during the development and construction period.

Net realizable value represents estimates, based on management's present plans and intentions, of sale price less development and disposition cost, assuming that disposition occurs in the normal course of business.

Long-lived assets - On a periodic basis, management assesses whether there are any indicators that the value of the real estate properties may be impaired. A property's value is impaired only if management's estimate of the aggregate future cash flows (undiscounted and without interest charges)

Edgar Filing: GYRODYNE CO OF AMERICA INC - Form 10-K

to be generated by the property are less than the carrying value of the property. Such cash flows consider factors such as expected future operating income, trends and prospects, as well as the effects of demand, competition and other factors. To the extent impairment occurs, the loss will be measured as the excess of the carrying amount of the property over the fair value of the property.

The Company is required to make subjective assessments as to whether there are impairments in the value of its real estate properties and other investments. These assessments have a direct impact on the Company's net income, since an impairment charge results in an immediate negative adjustment to net income.

Depreciation and amortization - Depreciation and amortization are provided on the straight-line method over the estimated useful lives of the assets, as follows:

Buildings and Improvements	10 to 30 years
Machinery and Equipment	3 to 20 years

F-6

GYRODYNE COMPANY OF AMERICA, INC.
AND SUBSIDIARIES

Notes to Consolidated Financial Statements

Years Ended April 30, 2006, 2005 and 2004

Expenditures for maintenance and repairs are charged to operations as incurred. Significant renovations are capitalized.

Revenue recognition - Minimum revenues from rental property are recognized on a straight-line basis over the terms of the related leases. The excess of rents recognized over amounts contractually due, if any, are included in deferred rents receivable on the Company's balance sheets. Certain leases also provide for tenant reimbursements of common area maintenance and other operating expenses and real estate taxes. Ancillary and other property related income is recognized in the period earned.

Allowance for doubtful accounts - Management must make estimates of the uncollectability of accounts receivable. Management specifically analyzes accounts receivable and analyzes historical bad debts, customer concentrations, customer credit-worthiness, current economic trends and changes in customer payment terms when evaluating the adequacy of the allowance for doubtful accounts.

Investments - The Company has a 10.93% limited partnership interest in Callery-Judge Grove, L.P. (the "Grove") that owns a 3500+ acre citrus grove in Palm Beach County, Florida. The Company is accounting for this investment under the equity method in accordance with Emerging Issue Task Force ("EITF") Topic D-46 "Accounting for Limited Partnership Investments" and the guidance in paragraph 8 of AICPA Statement of Position ("SOP") 78-9, "Accounting for Investments in Real Estate Ventures."

Cash equivalents - The Company considers all highly liquid debt instruments purchased with maturities of three months or less to be cash equivalents.

Net income (loss) per common share and per common equivalent share - The

Stock-based compensation - The Company applies Accounting Principles Board ("APB") Opinion No. 25 and related interpretations in accounting for stock-based compensation to employees. Stock compensation to non-employees is accounted for at fair value in accordance with Statement of Financial Accounting Standard ("SFAS") No. 123, "Accounting for Stock-Based Compensation."

In accordance with APB Opinion No. 25, no compensation expense has been recognized for the employee stock option plans. Had the Company recorded compensation expense for the employee stock options based on the fair value at the grant date for awards in the years ended April 30, 2006, 2005 and 2004 consistent with the provisions of SFAS No. 123, the Company's net

For the purposes of the pro forma presentation, the fair value of each option grant is estimated on the date of grant using the Black-Scholes option-pricing model. The following range of weighted-average assumptions were used for grants during the fiscal year ended April 30, 2004. There were no stock options granted during the fiscal years ended April 30, 2006 and 2005.

Use of estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The most significant assumptions and estimates relate to depreciable lives and the valuation of real estate.

New accounting pronouncements - In December 2004, the Financial Accounting Standards Board ("FASB") issued SFAS No. 123(R), ("SFAS 123(R)") "Share-Based Payment". This statement replaces SFAS No. 123, "Accounting for Stock-Based Compensation", and supersedes APB Opinion No. 25, "Accounting for Stock Issued to Employees". SFAS 123(R) establishes standards for the accounting for transactions in which an entity exchanges its equity instruments for goods or services. This statement focuses primarily on accounting for transactions in which an entity obtains employee services in share-based payment transactions. SFAS 123(R) requires that the fair value of such equity instruments be recognized as an expense in the historical financial statements as services are performed. Prior to SFAS 123(R), only certain pro forma disclosures of fair value were required. The provisions of this statement are effective for the first annual reporting period that begins after June 15, 2005.

Notes to Consolidated Financial Statements

Years Ended April 30, 2006, 2005 and 2004

On March 29, 2005, the SEC issued Staff Accounting Bulletin No. 107 ("SAB No. 107"), which provides the Staff's views regarding interactions between SFAS 123(R) and certain SEC rules and regulations and provides interpretations of the valuation of share-based payments for public companies. If the Company had included the cost of employee stock option compensation in its financial statements it would not have had a material effect on the net income for the years ended April 30, 2006 and 2005. There would have been a material effect on the Company's net income for the year ended April 30, 2004. The pro forma effect on net income is shown above.

In May 2005, the FASB issued SFAS No. 154, "Accounting Changes and Error Corrections - A Replacement of APB Opinion No. 20 and FASB Statement No. 3" ("SFAS No. 154"). SFAS No. 154 requires the retrospective application to prior periods' financial statements of changes in accounting principle, unless it is impracticable to determine either the period-specific effects or cumulative effect of the accounting change. SFAS No. 154 also requires that a change in depreciation, amortization, or depletion method for long-lived non-financial assets be accounted for as a change in accounting estimate affected by a change in accounting principle. SFAS No. 154 is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005.

In February 2006, the Financial Accounting Standards Board ("FASB") issued SFAS No. 155, Accounting for Certain Hybrid Financial Instruments - An Amendment of FASB No. 133 and 140. The purpose of SFAS Statement No. 155 is to simplify the accounting for certain hybrid financial instruments by permitting fair value re-measurement for any hybrid financial instrument that contains an embedded derivative that otherwise would require bifurcation. SFAS No. 155 also eliminates the restriction on passive derivative instruments that a qualifying special-purpose entity may hold. SFAS No. 155 is effective for all financial instruments acquired or issued after the beginning of any entity's first fiscal year beginning after September 15, 2006. The Company does not believe that the adoption of this standard on May 1, 2007 will have a material effect on its consolidated financial statements.

In March 2006, the FASB issued SFAS No. 156, Accounting for Servicing of Financial Assets, an Amendment of SFAS No. 140. SFAS No. 156 requires separate recognition of a servicing asset and a servicing liability each time an entity undertakes an obligation to service a financial asset by entering into a servicing contract. This statement also requires that servicing assets and liabilities be initially recorded at fair value and subsequently adjusted to the fair value at the end of each reporting period. This statement is effective in fiscal years beginning after September 15, 2006. The Company does not believe that the adoption of this standard on May 1, 2007 will have a material effect on its consolidated financial statements.

Reclassifications - Certain reclassifications have been made to the consolidated financial statements for the years ended April 30, 2005 and 2004 to conform to the classification used in the current fiscal year.

2. Interest Receivable

Edgar Filing: GYRODYNE CO OF AMERICA INC - Form 10-K

In connection with the condemnation of the Flowerfield property, the Company has accrued interest commencing with the date Stony Brook University took title to the property, in November 2005, until the time the Company received the advance payment, in March 2006. Pursuant to the New York State Eminent Domain Procedure Law, both the advance payment and any additional award from the Court of Claims bear interest at the current statutory rate of 9% simple interest from the date of the taking. See Note 18.

3. Mortgage Receivable

A mortgage receivable in the original principal amount of \$1,800,000 was due from a former tenant in connection with sale of real estate. See Note 9. The mortgage bore interest at 5% per annum with interest only payments due quarterly, commencing in November 2002. The remaining principal and any unpaid interest was paid in August 2005.

4. Investment in Grove Partnership

The Company has a 10.93% limited partnership interest in the Callery-Judge Grove, L.P. (the "Grove"). As of April 30, 2006, 2005 and 2004, the carrying value of the Company's investment was \$0.

The Grove has reported to its limited partners that in June 2005 it received an independent appraisal report of the citrus grove property, which is now the subject of development applications. Based upon the appraised value of the citrus grove operations and property, at April 30, 2006, strictly on a pro-rata basis, the estimated fair value of the Company's interest in the Grove would be approximately \$18,000,000 without adjustment for minority interest and lack of marketability discount. The Company cannot predict what, if any, value it will ultimately realize from this investment.

The fiscal year end of the Grove is June 30. Summarized financial information of the Grove as of June 30, 2005, 2004 and 2003 is as follows:

6. Retirement Plans

The Company has a noncontributory defined benefit pension plan covering substantially all of its employees. The benefits are based on annual average earnings for the highest sixty (60) months (whether or not continuous) immediately preceding the Participant's termination date. Annual contributions to the plan are at least equal to the minimum amount, if any, required by the Employee Retirement Income Security Act of 1974 but no greater than the maximum amount that can be deducted for federal income tax purposes. Contributions are intended to provide not only for benefits attributed to service to date but also those expected to be earned in the future. During the years ended April 30, 2006, 2005 and 2004, the Company made \$50,000, \$0 and \$0 contributions to the Plan, respectively. The Company has no minimum required contribution for the April 30, 2007 plan year.

The prior-service costs are amortized on a straight-line basis over the average remaining service period of active participants. Gains and losses in excess of 10% of the greater of the benefit obligation and the market-related value of assets are amortized over the average remaining service period of active participants.

The Plan's expected return on plan assets assumption is derived from a detailed periodic review conducted by the Plan's actuaries and the Plan's asset management group. The review includes an analysis of the asset allocation strategy, anticipated future long-term performance of individual asset classes, risks and correlations for each of the asset classes that comprise the funds' asset mix. While the review gives appropriate consideration to recent fund performance and historical returns, the assumption is primarily a long-term, prospective rate.

The assumptions used in the measurement of the Company's benefit obligation are shown in the following table:

7. Stock Option Plans

Incentive Stock Option Plan - The Company had a stock option plan (the "Plan") which expired in October 2003, under which participants were granted Incentive Stock Options ("ISOs"), Non-Qualified Stock Options ("NQSOS") or Stock Grants. The purpose of the Plan was to promote the overall financial objectives of the Company and its shareholders by motivating those persons selected to participate in the Plan to achieve long-term growth in shareholder equity in the Company and by retaining the association of those individuals who were instrumental in achieving this growth. Such options or grants became exercisable at various intervals based upon vesting schedules as determined by the Compensation Committee. The options expire between April 2007 and May 2008.

The ISOs were granted to employees and consultants of the Company at a price not less than the fair market value on the date of grant. All such options were authorized and approved by the Board of Directors, based on recommendations of the Compensation Committee.

ISOs were granted along with Stock Appreciation Rights, which permitted the holder to tender the option to the Company in exchange for stock, at no cost to the optionee, that represented the difference between the option price and the fair market value on date of exercise. NQSOS were issued with Limited Stock Appreciation Rights, which were exercisable, for cash, in the event of a change of control. In addition, an incentive kicker was provided for Stock Grants, ISOs and NQSOS, which increased the number of grants or options based on the market price of the shares at exercise versus the option price.

Non-Employee Director Stock Option Plan - The Company adopted a

non-qualified stock option plan for all non-employee Directors of the Company in October 1996. The plan expired in September 2000. Each non-employee Director was granted an initial 2,500 options on the date of adoption of the plan. These options are exercisable in three equal annual installments commencing on the first anniversary date subsequent to the grant. Additionally, each non-employee Director was granted 1,250 options on each January 1, 1997 through 2000, respectively. These additional options are exercisable in full on the first anniversary date subsequent to the date of grant. The options expire in January 2007.

Incentive Compensation Plan - The Company has an incentive compensation plan for all full-time employees and members of the Board in order to promote shareholder value. The benefits of the incentive compensation plan are realized only upon a change in control of the Company. Change in control is defined as the accumulation by any person, entity or group of 30% or more of the combined voting power of the Company's voting stock or the occurrence of certain other specified events. In the event of a change in control, the Company's plan provides for a cash payment equal to the difference between the plan's "establishment date" price of \$15.39 per share and the per share price of the Company's common stock on the closing date, equivalent to 100,000 shares of Company common stock, such number of

8. Revolving Credit Line

The Company's line of credit has a maximum borrowing limit of \$1,750,000, bears interest at the lending institution's prime-lending rate (7.75% at April 30, 2006) plus 1%, and is subject to certain financial covenants. The line is secured by certain real estate and expires on June 1, 2009. As of April 30, 2006 and 2005, \$1,750,000 was available under this agreement and the Company was in compliance with the financial covenants.

9. Sale of Real Estate

On August 8, 2002, the Company sold approximately twelve acres of property

Edgar Filing: GYRODYNE CO OF AMERICA INC - Form 10-K

and certain buildings with a carrying value of approximately \$559,000 to an existing tenant. The contract of sale amounted to \$5,370,000 under which the Company received a cash payment of approximately \$3,600,000 and a three-year mortgage for \$1,800,000 with interest at 5%. The profit on the sale of the land and buildings was \$4,700,000 net of transaction costs of approximately \$113,000. Pursuant to SFAS No. 66, approximately \$1,570,000 of the gain on this sale was deferred. The deferred gain was recognized upon collection of the entire related mortgage receivable in August 2005.

During the fiscal year ended April 30, 2006, the Company received cash payments from its mortgage receivable totaling \$1,300,000 and recognized a gain on the sale of real estate of approximately \$1,137,000.

10. Concentration of Credit Risk

Financial instruments, which potentially subject the Company to concentrations of credit risk, consist principally of cash and cash equivalents and U.S. Government securities. The Company places its temporary cash investments with high credit quality financial institutions and generally limits the amount of credit exposure in any one financial institution. At times the Company maintains bank account balances, which exceed FDIC limits. The Company has not experienced any losses in such accounts and believes that it is not exposed to any significant credit risk on cash. Management does not believe significant credit risk exists at April 30, 2006, 2005 and 2004.

12. Commitments

Lease commitments - The future minimum revenues from rental property under the terms of all noncancellable tenant leases, assuming no new or renegotiated leases are executed for such premises, for future years are approximately as follows:

Years Ending April 30,	Amount
2007	\$ 1,075,000

Edgar Filing: GYRODYNE CO OF AMERICA INC - Form 10-K

2008	458,000

	\$ 3,992,000
	=====

The Company was leasing office space in St. James, New York on a month-to-month basis through April 30, 2006. Rental expense approximated \$55,000, \$54,000 and \$57,000 for the years ended April 30, 2006, 2005 and 2004, respectively.

Employment agreements - Effective January 23, 2003, the Company amended the existing employment contracts with two officers, which provide for annual salaries aggregating approximately \$381,000. The terms of the agreements were extended from one to three years and provide for a severance payment equivalent to three years salary in the event of a change in control.

Land development contract - The Company entered into a Golf Operating and Asset Management Agreement (the "Agreement") with Landmark National ("Landmark") for the design and development of an 18-hole championship golf course community. As a result of the University's condemnation of the Flowerfield property, the Company has accrued a \$500,000 termination fee pursuant to the contract. The Company was advised by Landmark that it believes that it is entitled to 10% of all condemnation proceeds pursuant to the 10% incentive fee provision. The Company does not believe that the condemnation triggers the incentive fee and believes that Landmark's position is based upon an erroneous interpretation of the incentive fee provision.

13. Fair Value of Financial Instruments

The methods and assumptions used to estimate the fair value of the following classes of financial instruments were:

The carrying amount of cash, receivables and payables and certain other short-term financial instruments approximate their fair value.

The estimated fair value of the Company's investment in the Callery Judge Grove Partnership at April 30, 2006, based upon an independent third party appraisal report, is approximately \$18,000,000 without adjustment for minority and lack of marketability discount, based on the Company's ownership percentage.

14. Related Party Transactions

A law firm related to a director provided legal services to the Company for which it was compensated approximately \$7,000, \$110,000 and \$229,000 for the years ended April 30, 2006, 2005 and 2004, respectively. As of January 1, 2005, the aforementioned law firm is no longer primary outside legal counsel to the Company.

18. Contingencies

On November 2, 2005, the State University of New York at Stony Brook (the "University") filed an acquisition map with the Suffolk County Clerk's office and vested title in 245.5 acres of the Company's Flowerfield Property pursuant to the New York Eminent Domain Procedure Law (the "EDPL"). On March 27, 2006, the Company received payment from the State of New York in the amount of \$26,315,000, which the Company had previously elected under the EDPL to accept as an advance payment for the property. Under the EDPL, both the advance payment and any additional award from the Court of Claims bear interest at the current statutory rate of 9% simple interest from the date of the taking through the date of payment.

On May 1, 2006, the Company filed a Notice of Claim with the Court of Claims of the State of New York seeking \$158 million in damages from the University resulting from the condemnation of the 245.5 acres of the Company's Flowerfield property. While the Company believes that a credible case for substantial additional compensation can be made, it is possible that the Company may be awarded a different amount than is being requested, including no compensation, or an amount that is substantially lower than the Company's claim for \$158 million. It is also possible that the Court of Claims could ultimately permit the State to recoup part of its advance payment to the Company.
