Independent Accountants Special Review Report

To the Stockholders and Management of
Companhia Siderúrgica Nacional
Rio de Janeiro RJ

1. We have conducted a special review on the quarterly report (ITRs) of COMPANHIA SIDERÚRGICA NACIONAL (a Brazilian corporation), which includes the individual (Parent Company) and consolidated balance sheets as of June 30, 2004, the related statements of income for the quarter and the semester then ended, the performance report and the relevant information, presented in accordance with the accounting principles generally accepted in Brazil, prepared under the responsibility of the Company's management.
2. Except for the issue presented in paragraph (3), our review was conducted in accordance with specific standards established by the Brazilian Institute of Accountants - IBRACON, together with the Federal Accounting Council, and mainly comprised: (a) inquires and discussions with the Company's management responsible for the accounting, financial and operating areas as to the principal criteria adopted in the preparation of the quarterly information; and (b) review of the information and subsequent events that had or may have significant effects on the Company's and its subsidiaries financial position and operations.
3. As described in Note 14 to the quarterly financial information, the Company and its affiliate MRS Logística S.A. and its subsidiary GalvaSud S.A. elected to defer net losses arising from exchange variations in the year 2001, in conformity with Provisional Measure no.3/2001 and Deliberations no.404/2001 and 409/2001 from the Brazilian Securities Commission - CVM. The accounting practices adopted in Brazil require the recognition in income of the effects of exchange rate variations during the period in which they occurred. As a result, as of June 30, 2004 the stockholders' equity is overstated by approximately R\$36 million (R\$55 million as of March 31, 2004) and the net income for the quarter and semester ended June 30, 2004, is understated by approximately R\$19 million and R\$39 million respectively, net of fiscal effects.
4. Based on our special review, except for the effects of the matter mentioned in paragraph (3), we are not aware of any material modification that should be made to the quarterly report referred to in paragraph (1) above for it to be in accordance with the accounting practices adopted in Brazil, applied in compliance with the standards laid down by CVM (Brazilian Securities Commission), specifically applicable to the preparation of the quarterly information.
5. As described in Note 7 to the Quarterly Information, as of June 30, 2004, the Company and its subsidiaries had recorded in current assets, accounts receivable in the amount of R\$77 million, under the injunctions effect for payments suspension, related to the sale of energy in the Wholesale Electric Energy Market - MAE, for the period between September 2000 and September 2002. These amounts are subject to changes, depending on the decision on judicial process under-way filed by electric energy sector, related to the interpretation of market regulation in effect for that period.
6. The individual and consolidated financial statements as of March 31, 2004 presented for comparative purposes, were reviewed by us, and our report, dated April 30, 2004 included a qualification with respect to the deferral of net negative exchange variations for the year 2001 and an emphasis paragraph with respect to the realization of accounts receivable related to the sale of energy on the wholesale Electric Energy Market - MAE for the period September 2000 to September 2002. The individual and consolidated statements of income in the quarter and semester ended June 30, 2003, presented for comparative purposes, were reviewed by us, and our report, dated August 1st, 2003, contains a qualification with respect to the deferral of net negative exchange variations in the year 2001 and an emphasis paragraph with respect to the realization of accounts receivable related to the sale of energy on the MAE.
7. Our special review was conducted for the purpose of issuing a report on the Quarterly Information referred to in paragraph (1) above, taken as a whole. The Supplementary Information related to the Value-added Statement, presented in Note 24, the EBTIDA Statement included in Note 25, and the Statements of Changes in Financial Position and of Cash Flows presented in Attachment 16.01 to the Quarterly Information are presented for the purposes of allowing additional analyzes and are not required as part of the basic quarterly report. This information was reviewed according to the review procedures mentioned in paragraph (2) above, and based on our special review, except for the issue presented in paragraph (3), is fairly stated, in all material respects, in relation to the Quarterly Information taken as a whole.
8. The accompanying quarterly report have been translated into English for the convenience of readers outside Brazil.

QUARTERLY INFORMATION ITR
COMMERCIAL, INDUSTRY & OTHER TYPES OF COMPANY

CORPORATE LAW
Date 06/30/2004

00403-0 COMPANHIA SIDERÚRGICA NACIONAL

33.042.730/0001-04

04.01 NOTES TO THE QUARTERLY FINANCIAL INFORMATION

(In thousands of reais, except as otherwise indicated)

1. OPERATING CONTEXT

Companhia Siderúrgica Nacional ("CSN") is engaged in the production of flat steel products, its main industrial complexes being the Presidente Vargas Mill in the City of Volta Redonda, State of Rio de Janeiro, and the processing unit in the City of Araucaria, State of Paraná.

CSN is engaged in the mining of iron ore, limestone and dolomite in the State of Minas Gerais, to cater for the needs of the Presidente Vargas mill, and to improve their activities, the Company also maintains strategic investments in railroad, electricity and ports.

For the purpose of establishing a closer approach to its customers and winning additional markets on a global level, the Company has a steel distributor with service and distribution centers extending from the Northeast to the South of Brazil, a two-piece steel can plant geared to the Northeastern beverage industry, and also, a rolling mill in the United States and a 50% participation in another rolling mill in Portugal.

2. PRESENTATION OF THE FINANCIAL STATEMENTS

Hereunder the configuration of the Quarterly Information form, the Parent Company and Consolidated Statements of changes in Financial Position and Cash Flow are presented on table Other Information considered material by the Company .

3. SIGNIFICANT ACCOUNTING POLICIES

The Financial Statements were prepared in conformity with the accounting practices adopted in Brazil, as well as with the accounting standards and pronouncements established by CVM - the Brazilian Securities Commission and IBRACON - Brazilian Institute of Accountants

(a) Income statement

The results of operations are determined on an annual accrual basis. The Company decided to defer the net exchange variation incurred during fiscal year 2001, as detailed in Note 14.

(b) Marketable securities

Securities are recorded at cost plus yields accrued through the balance sheet date, and do not exceed the market value.

(c) Allowance for doubtful accounts

The allowance for doubtful accounts has been set up in an amount which, in the opinion of Management suffices to absorb any losses that might be incurred in realizing accounts receivable.

(d) Inventories

Inventories are stated at the lower of the average production/purchase cost and net realization value or replacement cost, except in the case of imports in process, which are stated at their identified cost.

(e) Other current and long-term assets

Edgar Filing: NATIONAL STEEL CO - Form 6-K

Other current and long-term assets are stated at their realization value, including, when applicable, yields accrued to the balance sheet date or, in the case of prepaid expenses, at cost.

(f) Investments

Investments in subsidiaries and jointly owned subsidiary companies are recorded by the equity accounting method, plus any amortizable goodwill and discount negative goodwill, if applicable.

The other permanent investments are recorded at acquisition cost.

(g) Property, plant and equipment

The property, plant and equipment of the Parent Company is presented at market or replacement values, based on appraisal reports (refer to note 13) conducted by independent expert appraisers firms, as permitted by Deliberation No. 288 issued by the Brazilian Securities Commission ("CVM") on December 3, 1998. Depreciation is computed by the straight-line method at the rates, shown in the same note, based on the remaining economic useful lives of the assets after revaluation. Iron mines Casa de Pedra depletion is calculated on the basis of the quantity of iron ore extracted. Interest charges related to capital funding for construction in progress are capitalized for as long as the projects remain uncompleted.

(h) Deferred charges

The deferred charges are basically comprised of expenses incurred for development and implantation of projects that should generate a payback to the Company in the next few years, being the amortization applied on a straight-line basis will follow the period foreseen for the economic return on the above projects. The charges also include the unamortized net of the foreign exchange variations related to the year 2001.

(i) Current and long-term liabilities

These are stated at their known or estimated values, including, when applicable, accrued charges, monetary and foreign exchange variation incurred through the balance sheet date.

(j) Employees Benefit

In accordance with Deliberation No. 371, issued by the Brazilian Securities Commission (CVM), of December 13, 2000, the Company decided to record the respective actuarial liabilities as from January 1, 2002, in accordance with the above as mentioned in reported deliberation and based on by independent actuarial studies (see note 26 item d).

(k) Income Tax and Social Contribution on Net Income

Income tax and social contribution on net income are calculated based at their effective tax rates and consider the tax loss absorption limited to 30%, to compute the tax liability. Tax credits are set up for deferred taxes on tax losses, negative basis of social contribution on net income and on temporary differences as well as income tax and social contribution on the 2001 deferred exchange variation and other temporary differences.

(l) Derivatives

The derivatives operations are recorded in accordance with the characteristics of the financial instruments.

The swaps operations are recorded based on the operations net results, which are booked monthly as for the contractual conditions.

(m) Treasury Shares

As established by CVM Instruction No. 10/80, treasury shares were recorded at the acquisition cost.

4. CONSOLIDATED FINANCIAL STATEMENTS

The consolidated financial statements as of June 30, 2004 and March 31, 2004 include the following direct and indirect subsidiaries and joint subsidiaries:

The Financial Statements prepared in US dollars and in Euros were translated at the exchange rate in effect on June 30, 2004 R\$/US\$3.1075 (R\$/US\$2.9086 on March 31, 2004) and EUR/US\$1.22131 (EUR/US\$1.23182 on March 31, 2004).

Edgar Filing: NATIONAL STEEL CO - Form 6-K

The gains/losses originated by this translation were accounted for in the income statements of the related periods, as equity accounting in the parent company and exchange variation in the consolidated. These Financial Statements were prepared applying the same accounting principles as those applied by the Parent Company.

All intercompany balances and transactions have been eliminated in the preparation of the consolidated Financial Statements.

The year-end closing dates for the consolidated subsidiaries and jointly owned subsidiaries coincide with those of the parent company.

Consistent with the Financial Statements for the year ended December 31, 2003, the Company did not consolidate the investee MRS Logística S.A., due to the fact that it does not represent any relevant change to the consolidated economic unit. As of June 30, 2004 and March 31, 2004, the Company holds 32.22% of participation in the total capital stock and 18.72% in the investee voting capital stock.

The participation in Itá Energética S.A. is shown, as investment available for sale in long-term assets, therefore, was not consolidated. (See note 11)

The reconciliation between shareholders' equity and net income for the year of the Parent Company and consolidated is as follows:

	Shareholder's equity		Net profit	
	6/30/2004	3/31/2004	6/30/2004	3/31/2004
Parent company	8,149,143	7,790,291	833,002	541,016
Elimination of gains on inventories	(101,690)	(39,558)	(78,130)	(28,079)
Other adjustments	(1)	1	1,924	5
Consolidated	8,047,452	7,750,734	756,796	512,942

MAE

The Company's subsidiary, CSN Energia, carries a balance receivable in respect of the sale and purchase of energy in the Wholesale Electric Energy Market MAE that, as of June 30, 2004 amounted to R\$111,228 (R\$114,635 on March 31, 2004).

From September 2000 to September 2002, the Company recorded the amounts determined in conformity with the statements provided by the MAE amounted to R\$482,937 and until June 30, 2004, CSN received the amount of R\$371,709 (R\$368,302 until March 31, 2004).

Further, with the respect to the balance receivable as of June 30, 2004, R\$77,496, it refers to amounts due by concessionaires and/or permissionaires under preliminary injunctions for suspending the corresponding payments. The Company's Management understands that it is not necessary to set up a provision for doubtful accounts in view of the actions being taken by the Company and by the official sector agencies.

Edgar Filing: NATIONAL STEEL CO - Form 6-K

Income tax and social contribution on revaluation reserve	93,000	1,729,605	33,480	622,658	93,000	1,752,850	33,480	631,026
Other	43,202	4,841	15,553	1,743	50,587	4,841	18,212	1,743
	148,736	1,734,446	53,545	624,401	162,507	1,757,691	58,503	632,769

The deferred assets related to income tax losses and social contribution negative basis were set up based on the history CSN's profitability and on projections of future profitability, which were approved by Company's Board of Directors. These credits are expected to be completely offset in up to 5 years.

In addition to the credits already recorded, the Company has filed a lawsuit related to the "Plano Verão", claiming the financial and fiscal effects related to the computation of the Consumer Price Index (IPC) of January 1989, in the calculation of corporate income tax (IRPJ) and social contribution ("CSL") (refer to note 19, item c).

Reconciliation between expenses and income of current income tax (IRPJ) and social contribution ("CSL") of the parent company and the application of the effective rate on net income before CSL and IRPJ is as follows:

	6/30/2004		3/31/2004	
	IRPJ	CSL	IRPJ	CSL
Net income (Loss) before CSL and IRPJ	1,052,172	1,052,172	866,131	866,131
- Rate	25%	9%	25%	9%
Total	(263,043)	(94,695)	(216,533)	(77,952)
Adjustments to reflect the effective rate:				
Equity Result	94,164	33,899	(44,937)	(16,177)
Relief of MAE Exposition	5,525	1,989	(20,009)	(7,203)
Earnings from foreign subsidiary	(43,202)	(15,553)	(40,967)	(14,748)
Reversal of part of "Plano Verão" provision	31,761		65,829	48,929
Temporary differences placed on deferred				
Other permanent addition (writte off)	29,976	9	(1,175)	(172)
Parent Company's current and deferred income tax and social contribution	(144,819)	(74,351)	(257,792)	(67,323)
Consolidated current and deferred income tax and social contribution	(129,722)	(68,516)	(258,271)	(67,815)

10. RECOVERABLE PIS/PASEP

As a result of a favorable final decision by the Federal Supreme Court of the unconstitutionality of the Decrees no. 2,445/88 and no. 2,449/88, by the Senate Resolution no. 49/95, and based on the legal counsel opinion, the Company states on June 30, 2004 the amount of R\$32,901 (R\$56,176 on March 31, 2004) in respect of this credit, which includes principal and legal charges.

11. INVESTMENTS AVAILABLE FOR SALE

The Board of Directors decided to sell the company's shareholding in Itá Energética and as a consequence, the investment balance was transferred to long term assets, not being part of this note equity accounting any more, although accounted by the same method, as determined by Instruction CVM No 247/96, art 7°.

As of June 30, 2004, total assets amounts to R\$257,437 (R\$253,021 on March 31, 2004) and the equity result for 2004 amounts to a gain of R\$8,746 (gain of R\$5,323 on the first quarter of 2003), being R\$4,416 on the second quarter (gain of R\$47,533 on the second quarter of 2003). The realization estimated value of such asset is higher than the accounted balance as of June 30, 2004.

Edgar Filing: NATIONAL STEEL CO - Form 6-K

The Company held 48.75% of the capital of its subsidiary as of June 30, 2004 and March 31, 2004.

12. INVESTMENTS

c) Additional Information about the Investees

GalvaSud S.A.

Incorporated on May 26, 1998, through a partnership between CSN (51,0%) and Thyssen-Krupp Stahl AG (49,0%), it initiated its operational activity in December 2000. it has as objective the operation of a galvanization line for hot immersion and weld laser lines to produce welded blanques directed to the automobile industry.

On June 22, 2004 CSN I S.A. became part of the investment through the acquisition of 8,262,865,920 common shares, paid with credits related to the full payment of all GalvaSud S.A. financial debts, and also acquired the shares held by Thyssen-Krupp Stahl AG.

After the acquisition, CSN became the holder of 15.29% of GalvaSud S.A. and CSN I S.A., CSN s full controlling company, of 84.71%.

Industria Nacional de Aços Laminados - INAL

As of April 30, 2003, in continuing the process of corporate reorganization, the merger of INAL into CISA, was approved, and followed by, the change of corporate name from CISA CSN Indústria de Aços Revestidos S.A. to Indústria Nacional de Aços Laminados INAL S.A.

The Company aims to be CSN s arm in the commercialization and reprocessing of steel products in terms of being a service and distribution center.

Edgar Filing: NATIONAL STEEL CO - Form 6-K

Cia Metalic Nordeste

The objective of Cia. Metalic Nordeste, Incorporated on November 27, 2002, based at Maracanaú, in the state of Ceará, it is the manufacture of packings in steel and interest in other companies.

The goodwill of R\$125,759, recorded upon acquisition of the investment, has its economical foundation based by the future rentability of the company's assets, as Metalic is the only manufacturer of two pieces steel can. Metalic has 5.5% of the market share. This material is an alternative to aluminum, because of its lower cost and better performance, both for the filling aspect as for lithography. To June 30, 2004, the Company amortized R\$19,913 of this goodwill, of which R\$6,288 in 2004 (R\$13,625 up to December 31, 2003).

FEM

The Company was incorporated on April 22, 1976 with the objective of rendering services on steel structure assembly and its aggregates.

On June 02, 2002, as a CSN decision, the Company closed down its activities.

MRS Logística S.A.

Incorporated on September 20, 1996, through a privatization auction. The Company's main objective is to explore and develop the inland transit's public service at the Southeastern network.

MRS transports the ore from Casa de Pedra to UPV Mill and the imported raw material through the Sepetiba Port. It also links the Presidente Vargas Mill to the Ports of Rio de Janeiro and Santos and also to the state of São Paulo, the principal CSN market.

CFN

Incorporated on July 18, 1997, through a privatization auction. It has as main objective, the exploration and development of the cargo railroad transport public service at the southeastern network.

Sepetiba Tecon S.A.

Investment made on September 3, 1998, through a privatization auction. The objective is to exploit the nº1 Containers Terminal of the Sepetiba Port, located in Sepetiba, state of Rio de Janeiro.

On November 7, 2003, CSN and Companhia Vale do Rio Doce - CVRD entered into a contract for the purchase and sale of investments that provided the Company with the full control of Sepetiba Tecon through the acquisition of 62,5% of the share participation of its controlling company CSN Aceros.

CSN Energia S.A.

Company incorporated on October 27, 1999, with the main objective of distributing and trading the excess of electric energy generated by CSN and by companies, consortiums or other entities in which CSN hold participation.

d) Goodwill, negative goodwill and other indirect participations

As of June 30, 2004, the Company and its subsidiaries maintained on their consolidated balance sheet the net amount of R\$170,439 of investment goodwill, negative goodwill and other indirect participation, as follows: Lusosider Projectos Sierúrgicos S.A. negative goodwill of R\$56,561 based on the expectation of future losses; GalvaSud S.A. goodwill of R\$139,205, based on the expectation of future gains with amortization defined for five years; Tangua Inc. goodwill of R\$81,078 based on the expectation of future profits with amortization defined for five years; Indústria Nacional de Aços Laminados INAL S.A. goodwill of R\$6,669 based on the expectation for future profits with the amortization defined for five years and R\$48 of other indirect participation.

e) Additional Information about indirect participation abroad.

CSN LLC

The Company was incorporated in 2001 with the assets and liabilities of the ex Heartland Steel Inc. located in Terre Haute, state of Indiana EUA and is a complex comprising cold rolling, hot coil seraping line and galvanization line.

Edgar Filing: NATIONAL STEEL CO - Form 6-K

On October 13, 2003, CSN through its subsidiary CSN Panamá, S.A., recorded an increase in the capital of Tangua Inc. with the capitalization of account receivables amounting to US\$175 million and became the holder of 100% of each capital share through its subsidiaries CSN LLC Holding and CSN LCC Partner is the holder of all shares of CSN LLC shares.

Lusosider

Lusosider Aços e Planos S.A. was incorporated in 1996 providing continuity to Siderurgia Nacional flat products company, privatized on that date by the Portuguese Government. The company is located in Seixal, Portugal and is engaged in a galvanization line and tin plates.

On June 18, 2003, the Company through its subsidiary CSN Steel Corp., acquired from Espírito Santo investment bank 912,500 shares issued by Lusosider Projectos Siderúrgicos S.A., holder of Lusosider Aços e Planos S.A., which represents 50% of the total capital of Lusosider's capital in the amount of EUR10,8 million (US\$11,8 million).

Consolidated		14,533,654	(1,425,442)	13,108,212	13,034,186

At the Extraordinary General Shareholders Meeting held December 19, 2002 the stockholders approved, based on paragraphs 15 and 17 of CVM Deliberation no 183, a revaluation report considering the fixed assets of thermal mill CTE - II, in the City of Volta Redonda, RJ. The report established an increase in the amount of R\$508,433 which composes a new amount of R\$970,332 for the assets, already net of the depreciation incurred.

At the Extraordinary General Shareholders Meeting held April 29, 2003 the stockholders approved, based on paragraphs 15 and 17 of CVM Deliberation no183, a revaluation report, considering land, equipment, installations and real estate property in the plants of the Presidente Vargas Mill, Itaguaí, Casa de Pedra and Arcos beside the iron ore mine in Casa de Pedra. The report established an increase in the amount of R\$4,068,559 which composes a new amount of R\$10,769,704 for the assets, already net of the depreciation.

As of June 30, 2004 and March 31, 2004, the assets provided as guarantee of financial operations amounted R\$1,775,695.

Depreciation, depletion and amortization for the first semester of 2004 amounted to R\$350,938 (R\$268,039 for the first semester of 2003), of which R\$344,037 (R\$260,140 for the first semester of 2003) charged to cost of production and R\$6,901 (R\$7,899 for the first semester of 2003) charged to selling, general and administrative expenses (amortization of deferred charges not included).

Edgar Filing: NATIONAL STEEL CO - Form 6-K

The amount of depreciation, depletion and write off of revalued assets of the controlling company charged to results for each year is transferred in the stockholders equity, in an equal amount from the revaluation reserve to retained earnings. During the first semester of 2004, this total net of the income tax and social contribution aggregated R\$122,876 (R\$79,080 for the first semester of 2003).

Construction in progress is mainly comprised of a set of investment plans aiming at the technological updating and development in order to maintain the company's competitiveness on the national and international markets. The main plans are geared to projects for protection of environment, cost reduction, infrastructure and automation and information technology. The total financial charges capitalized in the first semester of 2004 for construction in progress amounted to a net expenditure of R\$2,053 (net revenue of R\$27,890 in the first semester of 2003).

14. DEFERRED CHARGES

	Parent Company		Consolidated	
	6/30/2004	3/31/2004	6/30/2004	3/31/2004
Deferred exchange variation	1,360,636	1,360,636	1,376,338	1,368,644
(-) Accumulated amortization	(1,310,499)	(1,284,957)	(1,326,201)	(1,290,963)
Information technology projects	165,425	165,304	170,452	170,331

The Company carries out derivative operations, in accordance with Note 17, for the purpose of minimizing the risk of relevant oscillation in foreign currency parity.

The guarantees provided for the loans and financing amount to R\$4,475,614 as of June 30, 2004 (R\$3,855,220 on March 31, 2004), and comprise mainly fixed assets items, bank guarantees, prepayment operations and promissory notes. This amount does not take into consideration the guarantees provided to subsidiaries, joint subsidiaries and associated companies, as mentioned in Note 18.

Fund raisings made by the Company through its subsidiaries during the first semester of 2004 are as follows:

Subsidiary	Description	Principal (US\$ million)	Issuance	Term (year)	Maturity	Interest rate (p.y.)
CSN Islands VIII Corp.	<i>Notes</i>	200	January/2004	10	December/2013	9.75%
CSN Export Co.	Receivables securitization	162	June/2004	8	May/2012	7.427%

16. DEBENTURES

(a) First Issue

As approved at the Extraordinary Stockholders' General Meeting and ratified at the Board of Directors Meeting, held on January 10, 2002 and February 20, 2002, respectively, the Company issued on February 1st, 2002, 69,000 debentures nominatives and non convertible, with no guarantee or preference, with unit nominal value of R\$10. There have been issued 54,000 debentures from the first series and 15,000 from the second series with a total notional amount of R\$690,000. However, the credit from negotiation with financial institutions, occurred on March 01, 2002 in the amount of R\$699,227. The difference of R\$9,277, resulting from the unit price variation between the issued date and the transaction date, is recorded in the stockholders' equity as capital reserve.

The nominal unit value is being monetarily restated, added by the respective remuneration *pro-rata temporis*, being the first issue corrected by CDI plus 2.75% p.y and the second issue by IGPM plus 13.25% interest. The maturity is expected for 02/01/2005 (First Series) and 02/01/2006 (Second Series), with the option of advance redemption (total or partial) by the issuer s.

Edgar Filing: NATIONAL STEEL CO - Form 6-K

In conformity with the provisions of Private Deed for Issuance of Non-convertible unsecured Debentures of Companhia Siderúrgica Nacional's First Issuance of February 10, 2002, and in compliance with the provisions of CVM instruction n° 358, the Company's Board of Directors approved at the meeting held on January 7, 2004 the redemption of all debentures of second series, covered by the deed, representing a total of 15,000 (fifteen thousand) debentures, which was done on February 9, 2004.

On June 30, 2004 and March 31, 2004, the Company repurchased 2,345 debentures of the first series.

(b) Second Issue

As approved at the Board of Directors meeting held on October 21 and ratified at the meeting held on December 5, 2003, the Company issued, on December 1, 2003, 40,000 nominative, non convertible debentures, unsecured and without preference in one sole series, for the nominal unit value of R\$10. Such debentures were issued for the total amount of R\$400,000, being the credits arose from the negotiations with the financial institutions were received on December 09 and 10, 2003, amounting R\$401,805. The difference of R\$1,805, resulting from the unit price variation between the date of issue and of the effective negotiation is recorded in the stockholders investment as a capital reserve.

The unit notional amount is updated monetarily stated, plus the related remuneration calculated on a pro rata temporis basis, adjusted by 107% of the CDI Cetip. Maturity is foreseen for December 1, 2006.

c) Third issue

As approved at the Board of Directors meeting held on December 11, 2003 and ratified at the December 18, 2003 meeting, the Company issued on December 1, 2003, 50,000 nominative and non convertible debentures, unsecured and without preference in two series, at the unit notional amount of R\$10. Such debentures were issued for the total value of R\$500,000, being the credits arose from the negotiations with the financial institutions were received on December 22 and 23, 2003, amounting R\$505,029. The difference of R\$5,029, resulting from the variation of the unit price between the date of issue and of the effective negotiation is recorded in stockholders' investment as a Capital Reserve.

The notional amount of the 1st series is monetarily restated, plus the related pro rata temporis remuneration, adjusted by 106.5% of CDI Cetip and the 2nd series by the IGP-M plus 10% p.y. The maturity of the 1st series is foreseen for December 1, 2006 and of the 2nd series for December 1, 2008.

The deeds for the issue of these three series of debentures have certain restrictive covenants, which have been duly complied with.

17. FINANCIAL INSTRUMENTS

General Considerations

The Company's business includes specially flat steel products to supply domestic and foreign market and mining of iron ore, limestone and dolomite to supply the Presidente Vargas Mill needs. The main market risk factors that can affect the Company business are shown as follows:

(a) Exchange Rate Risk

Although most of the revenues of the Company are in Brazilian Reais, as of June 30, 2004, R\$6,919,952 of the Company's consolidated debt were denominated in foreign currency. (R\$6,508,688 as of March 31, 2004) As a consequence, the Company is subject to changes in exchange rates and manages the risk of these rates fluctuations, that affects the value in Brazilian Reais that will be necessary to pay the liabilities in foreign currency, using derivative financial instruments, mainly futures contracts, swaps and forward contracts, as well as investing of a great part of its cash and funds available in securities remunerated by exchange variation.

(b) Credit Risk

The credit risk exposure is managed through the restriction of subsidiaries in derivative instruments to large financial institutions with a high quality of credit. Thus, management believes that the risk of non-compliance by the counterparts is insignificant. The Company does not maintain or issue financial instruments with commercial aims. The selection of clients as well as the diversification of its accounts receivable and the control on sales financing terms by business segment are procedures that the Company adopts to minimize occasioned problems with its commercial partners.

Edgar Filing: NATIONAL STEEL CO - Form 6-K

The financial instruments recorded in the Parent Company's balance sheet accounts as of June 30, 2004, in which market value differs from the book value, are as follows:

	Book Value	Market Value
Investment and Goodwill in jointly owned subsidiary - INEPAR	3,727	1,076
Loans and financing (short and long term)	10,679,914	10,789,235

On June 30, 2004 the consolidated position of derivative agreements outstanding was as follows:

	Agreement			
	Date	Expiration date	Reference value	Market value
Foreign exchange Swap	Sundry	01/07/2004 a 12/01/2005	US\$ 521.202 mil	(R\$102,237)
Variable income Swap (*)	Sundry	5/2/2005	US\$ 49.223 mil	R\$199,150
"Cap" Interest Options (semestral Libor)	03/28/2001	12/31/2004	US\$ 100.000 mil	

(*) Refers to no cash swap that, at the end of the contract, the counterpart shall remunerate the variation of variable income assets, inasmuch the subsidiary of CSN Overseas undertake to remunerate the same notional updated value at the pre-fixed rate of 11.5% per annum.

Considering the loss position in the exchange and interest derivatives, the Company recorded the respective market values.

(c) Market Value

The amounts presented as market value were calculated according to the conditions that were used in local and foreign markets on June 30, 2004, for financial transactions with identical features, such as: volume and term of the transaction and maturity dates. Mathematical methods are used presuming there is no arbitrage between the markets and the financial assets. Finally, all transactions carried out in non-organized markets (over-the-counter market) are contracted with financial institutions previously approved by the Company's Board of Directors.

18. COLLATERAL SIGNATURE AND GUARANTEES

With respect to its wholly owned and joint subsidiaries, the Company has expressed in their original currency - the following responsibilities for guarantees provided (collateral signature and guarantees):

	In Million				
	Currency	6/30/04	3/31/04		
Cia. Metalic Nordeste	R\$	4.8	4.8	5/15/2008	Invoices/guarantee given to Banco Santos ref. contracts for the financing of equipment
Cia. Metalic Nordeste	R\$	7.2	7.2	1/27/2003 to 1/30/2006	Invoices/guarantee given to BEC and ABC Brasil ref. working capital contracts
Cia. Metalic Nordeste	R\$	20.1	20.1	1/15/2006	Guarantee given to the BNDES, for contracts ref. financing of machinery and equipment
CSN Cayman Ltd.	US\$	50.0		7/28/2004	Installment of guarantee for the CSN pre-payment operation
CSN Iron	US\$	79.3	79.3	6/1/2007	Promissory Note of Eurobond operation
CSN Islands III	US\$	75.0	75.0	4/21/2004	Installment of guarantee for the CSN emission of Bonds

Edgar Filing: NATIONAL STEEL CO - Form 6-K

CSN Islands V	US\$	150.0	150.0	7/7/2005	Installment of guarantee for the CSN emission of Bonds
CSN Islands VII	US\$	275.0	275.0	9/12/2008	Installment of guarantee for the CSN emission of Bonds
CSN Islands VIII	US\$	550.0	350.0	12/16/2013	Installment of guarantee for the CSN emission of Bonds
INAL S.A.	R\$	3.6	3.6	3/15 and 4/15/2006	Guarantee for equipment financing
INAL S.A.	US\$	1.4	1.4	3/26/2008	Guarantee for equipment financing
SePETiba Tecon S.A.	US\$	33.5	34.5	12/30/2004 to 09/15/2013	Guarantee for equipment implementation terminal financing

19. CONTINGENT LIABILITIES AND JUDICIAL DEPOSITS

The Company is currently party to several administrative and court proceedings involving different actions, claims and complaints, as shown below:

	6/30/2004		3/31/2004	
	Deposits	Contingent liability	Deposits	Contingent liability
Short Term:				
Labor		5,978		7,149
Civil		5,827		5,421
Parent Company		11,805		12,570
Consolidated		11,805		12,570
Long Term:				
Labor	17,949	55,456	17,669	57,150
Civil	4,076	48,093	3,606	40,511
Fiscal	279,118	1,039,339	280,100	1,053,192
Income Tax	125,271	19,634	125,271	18,825
Social Contribution	93,110	82,188	93,110	42,585
Parent Company	519,524	1,244,710	519,756	1,212,263
Consolidated	543,237	1,357,795	542,281	1,309,616

The provision for contingencies estimated by the Company's Management was substantially based on the appraisal of its tax and legal advisors. Such provision is only recorded for lawsuits classified as probable.

a) Labor litigation dispute:

As of June 30, 2004, CSN was the defendant in 4,189 labor claims (3,018 on March 31, 2004, which required a provision in the amount of R\$61,434 (R\$64,299 on March 31, 2004). Most of the lawsuits are related to solidary and/or subsidiary responsibility, wages equalization, additional payment for unhealthy and hazardous activities, overtime and differences related to the 40% fine over FGTS (severance pay), and due to government's economic policies.

Edgar Filing: NATIONAL STEEL CO - Form 6-K

The lawsuits related to subsidiary responsibility are originated from the non payment by the contracted companies of their labor obligations, which results in the inclusion of CSN in the lawsuits to honor, at a subsidiary level, the payment of such obligations.

The most recent lawsuits originated from subsidiary responsibility, which have been reducing over the time, tend to terminate in relation to CSN due to the procedures adopted by the Company in order to inspect and assure compliance with the wages and social charges payments, by the creation of the Contract Follow-up Centers since 2000.

The higher increase in labor claims has been originated from the demand for the difference between the 40% fine over FGTS and the deposited FGTS amount, due to government's economic policies. This is a still controversial issue, waiting for unified understanding.

b) Civil Actions:

These are, mainly, claims for indemnities among the civil judicial processes in, which the Company is involved. Such processes, in general, are originated from work related accident and occupational diseases related to industrial activities of the Company. For all these disputes, as of June 30, 2004 the Company accrued the amount of R\$53,920 (R\$45,932 on March 31, 2004).

c) Tax Litigation Dispute:

Income Tax and Social Contribution

The Company claims recognition of the financial and tax effects on the calculation of the income tax and social contribution on net income, related to computation of the Consumer Price Index - IPC, occurred in 1989, by a percentage of 51.87%.

In February 2003, part of a favorable final decision by the Federal Regional Court of the 1st Region was judged, granted to CSN the right to recognize part of its claim, by the percentage of 42.72%, deducting the monetary stated of 12.51% applied to the calculation of the income tax and social contribution. The Company continues to claim the unfavorable part.

As a consequence, in 2003 CSN recorded the amount of R\$161,789 for reversal of part of the relates provision for contingency and set up R\$207,390 of income tax (IRPJ) and social contribution (CSL) tax credits related to this claim.

As of June 30, 2004 and March 31, 2004, the Company has recorded R\$218,381 as judicial deposit and a provision of R\$101,822 (R\$61,410 on March 31, 2004).

In February 2003, the tax authorities assessed the Company for the calculation of prior years' IRPJ and CSL. On August 21, 2003 a decision was given by the 2nd Team of the Federal Revenue Agency that cancelled such tax assessment, being the Company assessed again, by the tax authorities, for the same matter, in November 2003. As of June 30, 2004, the Company set up the provision for contingencies in the amount of R\$377,195 (R\$413,437 as of March 31, 2004).

PIS/COFINS - Law 9,718/99

CSN is questioning the legality of Law 9,718/99, which increases the PIS and COFINS calculation basis, including, the financial revenue of the Company. As provision amounts to R\$245,138 as of June 30, 2004 (R\$256,747 on March 31, 2004), which includes legal charges.

The Company obtained a favorable sentence in the first stage of appeal and the process is going through compulsory re-examination by the 2nd Regional Federal Court of Appeals.

CPMF

The Company is questioning the CPMF (Provisional Contribution on Financial Activities) taxation since the promulgation of the Constitutional Amendment No. 21/99. The amount of this provision as of June 30, 2004 is R\$235,270 (R\$210,707 on March 31, 2004), which includes legal charges.

The sentence in the court first instance was favorable and the process is being judged by the 2nd Regional Federal Court of Appeals. However, we emphasize that the most recent precedent by the courts has not been favorable to the taxpayers.

CIDE - Contribution for Intervention in the economic domain

Edgar Filing: NATIONAL STEEL CO - Form 6-K

CSN disputes the legal validity of Law 10,168/00, which established the collection of the intervention contribution in the economic domain over the amounts paid, credited or remitted to beneficiaries that are not permanent residents of the country, as royalties or remuneration of supply contracts, technical assistance, trade mark license agreement and exploration of patents.

The Company recorded judicial deposits and its corresponding provision in the amount of R\$22,051 on June 30, 2004 (R\$21,497 on March 31, 2004), includes legal charges.

The first instance court decision was unfavorable and the process is currently sub judice in the 2nd Regional Federal Court of Appeals. However, there is not a legal precedent, due to the fact that the issue is very recent. According to the Company's lawyers, favorable outcome is considered possible. In any case, the Company decided to set-up the respective provision.

Educational Salary

The Company discusses the unconstitutionality of the Educational-Salary and the possible recovery of the amounts paid in the period from January 5, 1989 to October 16, 1996. The provision as of June 30, 2004 amounts to R\$33,145 (R\$31,283 on March 31, 2004), which include legal charges.

The sentence in the legal court first instance was unfavorable and the process is currently sub judice in the 2nd Regional Federal Court of Appeals. Recently, the Brazilian Supreme Court judged the subject against the taxpayer, which reduces the favorable outcome expectations in this process.

SAT Workers Compensation Insurance

The Company understands that it must pay the SAT at the rate of 1% in all of its establishments, and not 3%, as determined by the current law. The amounts of R\$49,489 (R\$45,854 on March 31, 2004) are being accrued as of June 30, 2004, including legal charges.

The sentence at the first stage of appeal was unfavorable and the process is currently in TRF of the 2nd Region. Although there was so far no judgment in the Brazilian Supreme Court, according to the Company's lawyers, favorable outcome is considered possible. In any case, the Company decided to set-up the respective provision.

Others

The Company also provided for several other lawsuits in respect of FGTS LC 110, Drawback and Freight Surcharge for Renovation of Merchant Marine (AFRMM), whose amount as of June 30, 2004 aggregated R\$77,051 (R\$73,667 on March 31, 2004) including legal additions.

20. STOCKHOLDERS EQUITY

	Paid in Capital	Reserves	Retained Earnings	Treasury Shares	Total Shareholders Equity
Balance 12/31/2003	1,680,947	5,761,985			7,442,932
Realization of revaluation net of income tax and social contribution		(61,509)	61,509

Interim dividends (R\$0.1228 per share)	(35,000)	(35,000)
Treasury share	(91,791)	(91,791)

Balance 6/30/2004

1,680,947	5,639,109	920,878	(91,791)	8,149,143
------------------	------------------	----------------	-----------------	------------------

(a) Capital stock

At the Ordinary/Extraordinary Shareholders' General Meetings held on April 29, 2004, CSN approved the proposal made by the Board of Directors on March 30, for splitting the shares whereby each share would be represented by 4 shares, followed by the reverse split of these shares in the proportion of 1,000 shares to 1 share, which will result in the reverse splitting of 250 shares into 1, as well as the change in the share-to-ADR ratio of 1 share to 1 ADR.

Consequently the Company's share capital on June 30, 2004 is comprised of 286,917,045 common shares (71,729,261,430 on March 31, 2004), all book shares and without par value. Each common share entitles the owner to one vote at the General Meetings of Stockholders.

(b) Treasury Shares

On April 27, 2004 the Board of Directors approved the purchase of up to 4,705,880 shares issued by the Company to be held in treasury and subsequent sale and/or cancellation. The period for acquisition is 3 months starting on April 28, 2004.

Treasury shares position as of June 30, 2004 is as follows:

Number of shares purchased until 6/30/2004 (in units)	Total value paid for shares	Share unit cost			Market value of shares in 6/30/2004
		Minimum	Maximum	Average	
2,513,200	91,791	33.30	38.05	36.52	94,119

While held in treasury, the shares will have no proprietorship or political rights.

(c) Revaluation reserve (Parent Company)

This heading covers revaluations of the Company's fixed assets approved by the Extraordinary General Stockholders' Meeting held December 19, 2002 and April 29, 2003, which were intended for determining adequate amounts for the Company's fixed assets at market value. The objective of such procedure is for the financial statements to reflect assets value at a value closer to their replacement value, in conformity with CVM Deliberation no 288 of December 3, 1998.

Pursuant to the dispositions of CVM Deliberation No. 273 of August 20, 1998, a provision for social contribution and income tax was set up on the balance of revaluation reserve (except land), classified as a long-term liability.

The realized portion of the revaluation reserve, net of income tax and social contribution, is included for purposes of calculating the mandatory minimum dividend.

(d) Capital composition

On June 30, 2004, the capital is comprised as follows:

Number of shares
(In thousand)

Edgar Filing: NATIONAL STEEL CO - Form 6-K

	Common	%
Vicunha Siderurgia S.A.	133,348	46.89%
Caixa Beneficente dos Empregados da CSN - CBS	10,420	3.66%
Several (ADR - NYSE)	49,413	17.37%
Other (Shares - approx. 10 thousand)	91,223	32.08%
Outstanding stocks	284,404	100.00%
Treasury shares	2,513	
Total stocks	286,917	

(e) Investment Policy and Payment of Interest on Stockholders Equity/Dividends

On December 13, 2000, the Board of Directors decided to adopt a policy of profit distribution, which, by observing the provision of law no. 6,404/76, altered by law no. 9,457/97 implies the distribution of all net profit to the stockholders, as long as the following priorities are preserved irrespective of their order: (i) corporate strategy, (ii) compliance with the obligations, (iii) making the necessary investments and (iv) maintenance of a good financial situation of the Company.

(f) Interim dividends

On June 14, 2004, CSN Board of Directors, in accordance with article 17, item VIII of the Company's by laws and article 204, paragraphs 1 and 2 of Law no. 6,404/76, approved the payment of interim dividends to shareholders, from the income of the year ended March 31, 2004, in the amount of R\$35,000, representing payments of R\$0,1228 per outstanding share, excluding those 2,087 thousand treasury shares at that date, and not requiring the withholding of income tax, as established by legislation in force.

26. EMPLOYEES PENSION FUND

(a) Private Pension Administration

The Company is the principal sponsor of the CSN Employees Pension Fund ("CBS"), a private non-profit pension fund established in July 1960, as legal entity of social security end, with no lucrative end and authorized to function by the deliberation nº1964, of December 28, 1979, from the Ministry of Social Security. CBS congregates CSN employees, of CSN related companies and entity itself, and provided they sign the assent agreement and its activities are conducted by the law nº109, of May29, 2001.

(b) Characteristics of the Plans

CBS has three benefit plans:

35% of Average Salary Plan

It is a defined benefit plan, which began on 02/01/1966, with the objective of paying retirements (related to length of service, special, invalidity or old-age) on a life long basis, equivalent to 35% of the participant's salaries for the 12 last salaries. The plan also guarantees the payment of sickness assistance to the licensed by the Oficial Pension Plan (Previdência Oficial). It also guarantees the payment of funeral grant and pension. The participants (active and retired) and the sponsors make 13 contributions per year, being the same number of benefits paid per year. This plan is in process of extinction, becoming inactive on 10/31/1977, when the new benefit plan began.

Supplementary Average Salary Plan

It is a defined benefit plan, which began on 01/11/1977. The purpose of this plan is to complement the difference between the 12 last average salaries and the Oficial Pension Plan (Previdência Oficial) benefit, to the retired, and also on a life long basis. As with the 35% Average Salary Plan, there is sickness assistance, funeral grant and pension coverage. Thirteen contributions and payment of benefits are made per year. It became inactive since 12/26/1995, because of the combined supplementary benefits plan creation.

Combined Supplementary Benefits Plan

This plan began in 12/27/1995. It is a mixed plan, being a defined contribution, related to the retirement and a defined benefit, in relation to other benefits (pension in activity, invalidity and sickness benefit). In this plan, the retirement benefit is calculated based on the sponsor and participants contributions, totaling 13 per year. Upon retirement of the participant, the plan becomes a defined benefit plan and 13 benefits are paid per year.

As of June 30, 2004 and March 31, 2004, the plans are presented as follows:

6/31/2004

30/3/2004

Members	18,713	18,819
In activity	7,399	7,454
Retired employees	11,314	11,365
Distribution of members by benefit plan:		
35% of Average Salary Plan	5,913	5,988
Active	21	46
Retired employees	5,892	5,942
Supplementary Average Salary Plan	5,170	5,557
Active	67	443
Retired employees	5,103	5,114
Combined Supplementary Benefits Plan	7,630	7,274
Active	7,311	6,965
Retired employees	319	309
Linked beneficiaries:	5,426	5,449
35% of average salary plan	4,212	4,251
Supplementary average salary plan	1,169	1,153
Combined supplementary benefits plan	45	45
Total of members / Beneficiaries	24,139	24,268

(c) Insufficiency of Reserve Equalization

On January 25, 1996, the Supplementary Social Security Secretariat SPC (Secretaria de Previdencia Complementar), through letter no. 55 SPC/CGOF/COJ approved a proposal to equalize the insufficiency of reserves based on value determined on September 30, 1995, monetarily update to December 31, 1995.

Through letter no. 1555/SPC/GAB/COA, of August 22, 2002, confirmed by letter no. 1598/SPC/GAB/COA of August 28, 2002 new proposal was approved for refinancing of reserves to amortize, the sponsors responsibility in 240 monthly and successive installments being the 1st to 12th in the amount of R\$958 and from 13th on R\$3,133, monetarily indexed (INPC + 6% p.y.), starting June 28, 2002. The contract also foresees the installments anticipation in case of cash necessity in defined benefit plan and the transfer of occasioned deficits/superavits for which the sponsors are responsible to the updated debtor balance, so as to preserve the plans balance without exceeding the maximum period of amortization.

(d) Actuarial Liabilities

As provided by CVM Deliberation No. 371, of December 13, 2000, approving the NPC 26 of IBRACON Employee s Benefit Accounting that established new calculation and disclosure accounting practices, the management of the Company, with its external actuaries, in conformity with the report dated January 30, 2004.

Actuarial Liability Recognition

The Administration decided to recognize the actuarial liability adjustment in the results for the period of five years, as from January 1, 2002, being appropriated to the first semester of 2004 the amount of R\$14,904,(R\$39,597 in the first semester of 2003) in accordance with paragraphs 83 and 84 of NPC 26 of IBRACON and CVM Deliberation No. 371/2000, which, added to related contribution private pension fund outlay, totaled R\$36,696(R\$56,614 in the first semester of 2003).

Edgar Filing: NATIONAL STEEL CO - Form 6-K

With respect to the recognition of the actuarial liability, the amortizing contribution related to the amount for the participants for determination of the reserve in sufficiency was deducted from the present value of total actuarial obligation of the respective plans. A number of participants are disputing in court this amortizing contribution; The Company, however, based on its legal and actuarial advice understands that such contribution was duly approved by the Complementary Social Security - SPC and consequently, is legally due by the participants.

In addition, in the case of Plano Milênio (Mixed Plan of Supplementary Benefit), of defined contribution, which shows net asset and where the sponsor's contribution corresponds to an equal counterpart of the participants' contribution, the understanding of the actuary is that up to 50% of the net actuarial asset may be used for reduction of the sponsor's contribution. As a result, the sponsor opted for recognizing 50% of such asset on its books, in the amount foreseen of R\$2,385 in 2004 (R\$1,455 in 2003).

Main actuarial assumptions adopted in the actuarial liability calculation

Methodology Used	Unit Methods of Projects Credits
Nominal discount Rate for actuarial obligation	13.4% a.y (8% real and 5% inflation)
Expected rate of return on plan assets	13.4% a.y (8% real and 5% inflation)
Index for estimated salary increase	INPC + 1% (6.05%)
Index for estimated benefits increase	INPC + 0% (5.00%)
Estimated long term inflation rate	INPC + 0% (5.00%)
Biometrical mortality table	UP84 with 3-year aggravation and segregated by sex
Biometrical invalidity table	Mercer Table for entering invalidity
Expected turnover rate	1% ao p.y
Probability of entering retirement	The first time the participant qualifies for a benefit

CSN do not have obligations on other after-employees benefit.

27.SUBSEQUENT EVENTS

- Debenture issuance

On July 27, 2004, the Board of Directors approved the issuance and subsequent sale of debentures, in the amount of up to R\$750 million at the issuance date, in order to raise resources for the constitution of a liquid reserve. Those will be registered, book-entry debentures, not convertible into shares, and will have a maturity of 5 years.

- Repurchase of shares

At the same date the Board of Directors approved a new purchase of up to 7,200,000 shares issued by the Company to be held in treasury and for subsequent sale and/or cancellation, in conformity with article 3 of CVM Instruction No. 10/80, through trading at the São Paulo Stock Market (Bovespa). The period for acquisition is of 3 months starting on August 2, 2004 and ending on November 1, 2004.

05.01 COMMENTS OF THE COMPANY S PERFORMANCE FOR THE QUARTER

Production and Production Costs

- Production

Output volumes in the second quarter of 2004 totaled 1.4 million tons of crude steel and 1.2 million tons of rolled finished products. In the first half of 2004, the production of crude steel reached 2.7 million tons, equivalent to a 4% increase, while rolled finished product also increased by 4%, reaching 2.4 million tons. These increases are the result of continuous efforts to improve productivity.

- Production Costs (Parent Company)

In 2004, total production costs were higher than in 2003 (38% when comparing quarters and 36% between semesters). This increase is explained mainly by the higher imported raw materials prices as a result of the supply and demand unbalance in the international market, driven by increased internal consumption in China.

In 1H04, coal and coke costs were R\$237 million higher, with the major effect impacting the second quarter. During the quarter, these costs represented 34% of the total - an 11 percentage points (p.p.) increase to 1Q04 and a 10 p.p. difference from 2Q03. Therefore, dollar-denominated or dollar-linked costs represented 47% of the cash costs in 2Q04.

Higher crude steel output in 2004 also contributed to an increase in the consumption of materials in general. However, our costs were also effected by the increase in electrical energy tariffs. The non-cash effect of higher depreciation (resulting from assets revaluation and CSN Paraná start-up) corresponded to an R\$82 million increase.

Net Revenues

Sales volumes of finished products and slabs reached 1.4 million tons in the quarter, up 20% compared to the same period of last year. In the domestic market, sales rose 11%, representing 63% of total Sales in the quarter. In the same comparison, export Sales increased by 40%. In 1H04, we highlight the 12% increase in total volume, and 19% higher export sales.

In 2Q04, consolidated net revenues grew 61% reaching R\$2,562 million, due to a better product mix, with higher participation of coated products, 34% increase in average prices and greater sales volume. Sales in the domestic market accounted for 62% of the net revenues in quarter, while domestic volume represented 63% of the total, this difference is a result of the effect of better international prices on export revenues. In 1H04, this situation is more balanced with both domestic revenues and volume representing 65%.

For the parent company, exports were largely to the United States of America and Europe, which represented 37% and 34% of total volume, respectively. This mainly reflects our operations with CSN LLC and Lusosider. Exports for Asia and Latin America were 15% and 10% of export volumes, respectively. Since CSN LLC and Lusosider sales are made in their respective regions, CSN consolidated sales showed substantially the same distribution worldwide.

Gross Profit, Operational Income and EBITDA

- Gross Profit

Gross profit for 2Q04 increased by R\$449 million when compared to 2Q03 and by R\$352 million compared to 1Q04. Gross margin was stable at 47%, as higher steel prices offset the increases in raw materials. In relation to the previous quarter, gross margin increased by 1.5 p.p. In 1H04, gross income increased by 30%, but the gross margin was 3.4 p.p. lower, given our new investments abroad, which are reflected in the consolidated figures as of the second half of 2003.

Edgar Filing: NATIONAL STEEL CO - Form 6-K

● Operational Income

In 2Q04, operational income reached R\$939 million, compared to R\$549 million in 2Q03. This R\$390 million increase reflects the higher gross profit, partially offset by greater operational expenses mostly due to higher sales expenses, as a consequence of higher export volumes and freight costs. Operational income in the first half of 2004 grew by 31%.

● EBITDA

EBITDA reached R\$1,180 million in the second quarter, a 61% increase compared to the R\$735 million registered in the same period of last year. Compared to 2Q03, EBITDA margin was stable at 46%, but it was 1.3 p.p. up first quarter margin. In 1H04, EBITDA was over R\$2 billion, with a 46% margin, representing a 32% increase.

Financial Results

Financial results (which include financial revenues and expenses as well as results from net exchange and monetary variation, but exclude amortization of deferred exchange losses) totaled negative R\$443 million in the quarter, compared to negative R\$265 million in the same period of last year, due to a higher cost of net debt in the period as explained below. For the same reason, the financial result in 1H04 was a negative R\$619 million, compared to a negative R\$315 million for the same period in 2003.

Deferred Exchange Losses: Total amortization of deferred exchanges losses due to the real devaluation in 2001 was R\$26 million in 2Q04, compared to R\$34 million in 2Q03. The balance to be amortized in 2004 is R\$50 million.

Net Income

As a consequence, consolidated net income was R\$424 million in the 2Q04, 264% higher than the net income of R\$116 million registered in the same period of 2003, and 27% higher than 1Q04. In 1H04, net income reached R\$757 million, a R\$244 million increase over 1H03.

Net Debt/EBITDA = 1.5 x

At June 30, 2004, consolidated net debt totaled R\$5,998 million, R\$1,269 higher than net debt on March 31, 2004. This increase is related to greater working capital (especially given the strategic increase in raw material inventories, in the amount of R\$371 million, and higher accounts receivable in the amount of R\$383 million, especially for exports), the payment of R\$752 million in dividends and interest on equity and to the increase to 100% interest in GalvaSud, an approximate impact of R\$300 million. Current net debt/annualized EBITDA ratio is 1.5x, in line with the expectations announced in the 2003 earnings release.

We seek to hedge our exposure net of financial assets and liabilities, accounts receivable and payable denominated in foreign currency and investments in offshore affiliates (registered in the Equity Results line), as a result of which the amount of the exposure hedged by currency swaps is approximately US\$1 billion. As a result, financial results on a standalone basis are partially exposed to the foreign rate.

For the full year 2004 the net debt cost is expected to remain at 100% of CDI, as previously disclosed.

Capex

At the first half of 2004, total capital expenditures were R\$521 million. The highlight, once more, was the capex related to CSN Paraná, besides projects related to maintaining the operating and technological excellence of the facilities and the remaining Galvasud's capital acquisition, which corresponded to R\$306 million.

Recent Events

On July 27, 2004, CSN's Board of Directors approved the following corporate and financial events:

- a new Share Buyback Program, for a 90-day period, as of August 2, of up to 7,200,000 shares, pursuant to the limits and provisions set on CVM Instruction # 10/80.
- approval to issue debentures in the domestic market, in the amount of up to R\$750 million for a 5 year period, at an indicated rate between 103% and 108% of CDI rate over extra group.

In June, CSN announced a number of corporate and financial events, as described below:

Edgar Filing: NATIONAL STEEL CO - Form 6-K

- Acquisition, through its 100% subsidiary CSN I S.A., of the 49% stake owned by ThyssenKrupp Stahl in GalvaSud S.A. for R\$89 million. In addition, as a part this transaction, debts in the amount of R\$425 million were paid in the same month.
- Approval to pay intermediate dividends of R\$35 million (R\$0.1228 per outstanding share) beginning on June 15.
- Issuance of US\$162 million in export receivables, with an 8-year maturity and interest rate of 7.427% p.a.
- Approval of an investment of approximately US\$43 million to build a plant aiming to processing slag and its by-product (cement), which shall use as principal raw material the slag produced in the Company's blast furnaces. Such investment aims to increase the level of use of its slag production and create better efficiency in the steel process. Such investment is still subject to the approval of an adequate financing structure.

Outlook

Despite the higher share of the international markets in 2Q04, we reiterate our estimate of a maximum 35% export mix. Our consolidated annual sales volume should be slightly above 2003 volumes, as the decision to outsource hot-rolled coils was revised and the supply of most of CSN LLC's and Lusosider's slabs and hot rolled needs was kept, which did not happen during 2003. We will lose in volume but gain in consolidated margins.

We have not witnessed any fall in international prices and believe that, given the continued high levels of global demand and unfavorable conditions to the expansion of the supply, international prices will remain favourable at least until the end of this year. The current lag between domestic and international prices is around US\$50 for less value-added products like hot and cold-rolled.

In terms of costs for the second half, we maintain the expectations for the previously announced increase in coal costs and, until the end of 3Q04, the high coke prices. Export freight, which had increased over 50% in 2003, has fallen, and returned to early 2003 levels. For the year, we expect to slightly increase our consolidated EBITDA margin compared to the 45.5% margin of the first half.

Regarding cash flow, the increase in strategic inventories of coal and the increased focus in the international market during this last quarter, led to a greater requirement of working capital. We are working for this to return to normal levels during the second half. Another factor that we do not expect again in 2004 is the intermediate distribution of dividends and interest on equity. Therefore, CSN's net debt should return, until the end of the year, to levels closer to a Net Debt/EBITDA ratio of 1x.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
