Yes No

Petrobras issues Yen-denominated bonds

(Rio de Janeiro, September 27, 2006). PETRÓLEO BRASILEIRO S/A - PETROBRAS, [Bovespa: PETR3/PETR4, NYSE: PBR/PBRA, Latibex: XPBR/XPBRA, BCBA: APBR/APBRA], a Brazilian international energy company, announces that through its wholly owned subsidiary, Petrobras International Finance Company (PIFCo), it concluded in the Japanese capital market today a private placement of securities (Shibosai) for a total of ¥ 35 billion (approximately US\$ 300 millions).

The Company's principal objectives were: to reinitiate a relationship with the Japanese market, access a new investor base and achieve a competitive cost in the light of its investment grade rating granted by Moody's Investor Services. This funding carries a semi-annual coupon of 2.15% p.a., a ten-year maturity (bullet repayment) and the partial guarantee of the JBIC (Japan Bank for International Cooperation).

The Company intends to use the financial resources raised from this issue to finance, either partially or in full, the construction of lines interconnecting the P-51, P-52 and P-53 production platforms to the PRA-1 autonomous repumping unit.

The operation was led by Mitsubishi UFJ Securities and Nomura Securities Co. Ltd. and marks Petrobras' return to the Japanese capital markets, from which the Company had been absent since 1997.

The securities were sold to various Japanese investors including insurance companies and financial institutions. The support of the JBIC guarantee provided additional support in accessing such investors in the process of reopening the market.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
