FOR IMMEDIATE RELEASE - São Paulo, August 09, 2013 – Gafisa S.A. (Bovespa: GFSA3; NYSE: GFA), Brazil's leading diversified national homebuilder, today reported financial results for the second quarter ended June 30, 2013.

Duilio Calciolari, Chief Executive Officer, said: "The agreement reached with private equity funds Blackstone and Pátria to sell the majority share marks the completion of the strategic review of Alphaville operations that began in September 2012.

Management went ahead with the transaction because we believe that the partial sale of Alphaville is the best strategy to unlock the significant value created by Gafisa since it acquired the community development company back in 2006. We are also confident that it is the approach that will generate the highest returns for shareholders over the long term.

The association with Blackstone and Pátria means a partnership with the biggest, and one of the best, real estate funds in the world. This partnership will realize Alphaville's full potential and also create opportunities for future collaboration.

Furthermore, by retaining a 30% stake in Alphaville, Gafisa will be engaged in the brand's business and share in profit generation. The structure agreed upon will enable Gafisa, after 4 years, to either remain a holder or sell its share in an eventual IPO.

Upon completion of the transaction, Gafisa's capital structure will be much stronger. This will not only reduce interest rates but also reinforce our balance sheet. The resources will be used to reduce indebtedness and to maintain liquidity at a level on par with the volume of current operations. The use of resources will in future reflect leverage levels considered healthy by the Company, considering its long business cycle.

In the last two years, the Group has undertaken a series of actions to simplify its operations, including reducing the geographic scope of Gafisa and Tenda and

revising processes. We will continue to restructure the Company's operations, maintaining our focus on the Gafisa brand's operations, while at the same time delivering legacy projects at Tenda and expanding the brand's profitability under its new business model.

Management's sharpened focus on these two business segments will result in much higher efficiencies, seeking to create future returns for shareholders.

The homebuilding sector possesses long business cycles, so changes take some time to be reflected in the financial results. However rather than pursue short term growth, we strongly believe that it is more important to build sustainable foundations that generate profit and value over the long term."

RECENT EVENTS

Updated Status of Alphaville

On June 7, Gafisa announced it had signed an agreement to sell a majority stake in Alphaville Urbanismo S.A., the leading urban community development company in Brazil, Gafisa will retain the remaining 30% ownership of the brand post the conclusion of the sale transaction expected until October, 2013. The nonrecurring expected inflow of R\$1.4 billion from the cash sale, effect on the equity and level of leverage are not reflected in the 2Q13 results. The transaction is expected to conclude until October. Thereafter, Gafisa's net debt to equity will decrease from the 96% reported at the end of the 2Q13 to approximately 54%, based on unaudited pro-forma data for the period.

On the same date, Gafisa entered into an agreement with Alphaville's founding partners to complete the purchase of the outstanding 20% stake in Alphaville, for a total consideration of R\$367 million, ending the arbitration process. Subsequently, on July 3rd, 2013, Gafisa announced the liquidation of the purchase of the remaining stake.

Completion of the sale to Blackstone and Pátria is subject to closing conditions customary for a transaction of this nature and is expected to occur in the second half of the year.

Classification of Assets as Held for Sale with the Retention of Associate Non-Controlling Interest

Given the impending sale of a 70% stake in Alphaville and associated transfer of operations to the buyer, these assets have been classified as held for sale. These adjustments are designed to bring Brazilian accounting standards in line with international practices. The effect of disposal transactions on the ongoing operations for the current and comparative prior periods are summarized below. The income statement for June 30, 2012 was restated considering the effects of deconsolidation of Alphaville. Alphaville's result were classified as "Results from discontinued operations". The financial statements of prior periods (1Q13, 2Q12 and 1H12) were disclosed on a comparable basis.

The sales speed for this inventory remains lower than that of sales within core markets, São Paulo and Rio de Janeiro, and the sale of non-core inventory is expected to be completed in 2014.

It is worth mentioning that, while the projects launched in Sao Paulo and Rio de Janeiro keep performing well, the segment's gross margin continues to be impacted by the resolution of legacy projects. During the 1H13, the contribution of legacy projects in total revenues for the segment Gafisa was 8% versus 18% in 2012 and 20% in 2011. This should result in more normalized profitability characteristics from 2014 onwards. Excluding these projects, the gross margin would have been 35%.

INCOME STATEMENT

As previously stated, Gafisa's 2Q13 consolidated results classify Alphaville assets as held for sale with the retention of associate non-controlling interest, given the impending sale of a 70% stake to Blackstone and Pátria. Alphaville's results for the quarter ended June 30, 2013 were reclassified to reflect this change. Thus, the consolidated statements for the quarters ending March 31st, 2013 and June 30, 2012 were reclassified for comparison purposes.

Revenues

On a consolidated basis, 2Q13 net revenues totaled R\$641 million, an increase of 26% from the R\$507 million posted in the 1Q13, due to fewer sales cancellations in the second quarter. The result represents a decrease of 18% from the R\$780 million posted in the 2Q12. During the 2Q13, the Gafisa brand accounted for 58% of net revenues and Tenda the remaining 42%. Gross Profit

Gross profit was R\$144 million compared to R\$78 million in the 1Q13 and R\$169 million in the 2Q12. Gross margin reached 22.4% in the 2Q13, compared with 15.4% in the first quarter and 21.7% in the 2Q12. The result was impacted by the poor performance of Tenda and Gafisa brand legacy projects launched in non-core markets. Excluding these legacy projects, the gross margin for Sao Paulo and Rio de Janeiro would have been 35%. During the 2Q13, the Gafisa brand accounted for 86% of consolidated gross profit (versus 68% a year ago) and Tenda the remaining 14% (versus 32% a year ago).

Selling, General, and Administrative Expenses (SG&A)

During the 2Q13, administrative expenses reached R\$50 million, a 6% decrease Q-o-Q, and 17% decrease over the R\$60 million posted in the 2Q12, mainly due to the reduction of the Tenda business. During 1H13, the expenses over launches were impacted by the lower level of launches in the 1H13. While, the expenses over net pre-sales were impacted by the sales cancellations in the 1H13. Selling expenses increased 9% Q-o-Q, as a result of expenses related to the sales of launches and up 8% on a Y-o-Y basis to R\$60 million given the marketing expenses related to the efforts to the sale of inventory, respectively. SG&A expenses totaled R\$110 million in the 2Q13, a 5% decrease on the R\$116 million posted in the 2Q12 and remained stable on a Q-o-Q basis. Selling expenses, general and administrative on launches and sales ratios were impacted by a lower concentration of launches in the 1H13 and a higher volume of sales cancellations, respectively.

We continue to seek opportunities to improve the efficient of our processes, reduce costs and increase productivity. In June 2013, we moved the headquarters of the Shared Services Center (CSC) to a location with costs 45% lower than the original one.

Depreciation And Amortization

Depreciation and amortization in the 2Q13 was stable at R\$11 million, when compared to the 2Q12.

Financial Results

Net financial expenses totaled R\$34 million in the 2Q13, compared to a net financial result of R\$56 million in the 2Q12. Financial revenues increased to R\$17 million from R\$19 million at the end of the 1Q13 and R\$16 million in the 2Q12, due to the stronger cash position. Financial expenses decreased to R\$50 million from R\$68 million at the end of the 1Q13 and R\$72 million in the 2Q12, given the lower securitization-related expenses and other financial expenses.

Taxes

Income taxes, social contribution and deferred taxes for the 2Q13 amounted to negative R\$7 million, compared to R\$4 million in the 2Q12.

Adjusted Net Income (Loss)

Gafisa Group reported a net loss of R\$14 million in the 2Q13, compared to net income of R\$1 million in the 2Q12 and R\$55 million posted in 1Q13. Net results were impacted by lower gross margins on Tenda projects coupled with higher financial expenses reported in the period. The anticipated nonrecurring after-tax gain on the sales of Alphaville to Blackstone and Pátria is not reflected in consolidated earnings.

Backlog of Revenues and Results

The backlog of results to be recognized under the PoC method was R\$709 million in the 2Q13. The consolidated margin for the quarter was 33%. The table below shows the backlog margin by segment:

The Company expects an adjusted EBITDA margin in the range of 12% - 14% in 2013, as margins continue to be impacted by (1) the resolution of Tenda legacy projects, including the delivery of around 7,000 units in 2013, and (2) the delivery of lower margin projects launched by Gafisa in non-core markets, expected to be substantially concluded in 2013.

GLOSSARY

Affordable Entry Level

Residential units targeted to the mid-low and low income segments with prices below R\$200 thousand per unit.

Backlog of Results

As a result of the Percentage of Completion Method of recognizing revenues, we recognize revenues and expenses over a multi-year period for each residential unit we sell. Our backlog of results represents revenues minus costs that will be incurred in future periods from past sales.

Backlog of Revenues

As a result of the Percentage of Completion Method of recognizing revenues, we recognize revenues over a multi-year period for each residential unit we sell. Our backlog represents revenues that will be incurred in future periods from past sales.

Backlog Margin

Equals to "Backlog of Results" divided "Backlog of Revenues" to be recognized in future periods.

Land Bank

Land that Gafisa holds for future development paid either in Cash or through swap agreements. Each decision to acquire land is analyzed by our investment committee and approved by our Board of Directors.

LOT (Urbanized Lots)

Land subdivisions, or lots, with prices ranging from R\$150 to R\$600 per square meter

PoC Method

Under Brazilian GAAP, real estate development revenues, costs and related expenses are recognized using the percentage-of-completion ("PoC") method of accounting by measuring progress towards completion in terms of actual costs incurred versus total budgeted expenditures for each stage of a development.

Pre-sales

Contracted pre-sales are the aggregate amount of sales resulting from all agreements for the sale of units entered into during a certain period, including new units and units in inventory. Contracted pre-sales will be recorded as revenue as construction progresses (PoC method). There is no definition of "contracted pre-sales" under Brazilian GAAP.

PSV

Potential Sales Value.

SFH Funds

Funds from SFH are originated from the Governance Severance Indemnity Fund for Employees (FGTS) and from savings accounts deposits. Banks are required to invest 65% of the total savings accounts balance in the housing sector, either to final customers or developers, at lower interest rates than the private market.

Swap Agreements

A system in which we grant the land-owner a certain number of units to be built on the land or a percentage of the proceeds from the sale of units in such development in exchange for the land. By acquiring land through this system, we intend to

reduce our cash requirements and increase our returns.
