**NOTICE TO THE MARKET****COMPANHIA SIDERÚRGICA NACIONAL**

Corporate Taxpayer's ID (CNPJ/MF): 33.042.730/0001-04

Publicly-held Company

Regarding a recent research report from a bank and a few press articles, which state that CSN has negative financials impacts with BRL depreciation for not having hedging instruments on its debt, we clarify that:

- CSN has part of its debt denominated in USD, which generates a short position in this currency. This exposure is completely offset by the use of the following instruments:
  - CSN's cash position in USD;
  - Namisa's cash position in USD;
  - Derivatives booked at CSN;
  - Hedge Accounting booked at CSN.
  
- The final balance of these items in 06/30/2015 is showed below:

**US Dollar Denominated Items Balance Sheet - 06/30/2015**

US\$ MM	CSN &		Pro forma
	Subsidiaries	Namisa 60%	
Cash	2,269	943	3,211
Trade Receivables	178	6	184
Other Assets	0	0	0
<b>Total Asset</b>	<b>2,446</b>	<b>949</b>	<b>3,395</b>
Borrowings and Financing	4,525	0	4,525
Trade Payables	150	16	165
Other Liabilities	18	0	18

<b>Total Liabilities</b>	<b>4,693</b>	<b>16</b>	<b>4,709</b>
<b>Foreign Exchange Exposure</b>	<b>-2,247</b>	<b>933</b>	<b>-1,314</b>
<b>Notional Amount of derivatives contracted<sup>2</sup></b>	<b>645</b>	<b>0</b>	<b>645</b>
<b>Hedge Accounting of exports<sup>3</sup></b>	<b>775</b>	<b>0</b>	<b>775</b>
<b>Net Foreign Exchange Exposure<sup>4</sup></b>	<b>-827</b>	<b>933</b>	<b>106</b>

1- We consider a pro forma consolidation for the FX exposure management, by adding to the balance sheet of CSN & Subsidiaries 60% of the balance sheet of the joint venture Namisa (CSN detains 60% of this company).

2- The indicated derivatives consist in a long USD position achieved via NDFs (Non-Deliverable Forwards).

3- The Hedge Accounting adopted by CSN correlates the projected exports flow in USD with part of the scheduled debt principal payments in the same currency. Therefore, the exchange rate variation of part of the USD denominated debt is temporarily booked on shareholder's equity, flowing through P&L in the future, when the revenues in USD from exports occur.

4- The net foreign exchange exposure is calculated by the sum of the following items: (i) Foreign Exchange Exposure, (ii) Notional Amount of Derivatives and (iii) Hedge Accounting.

São Paulo, September 23, 2015.

**FORWARD-LOOKING STATEMENTS**

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
