### Basis for presentation of results

Figures disclosed are subject to differences, due to rounding-up procedures. Information for 2008 was prepared in consolidation with the results of Telemig Celular Participações, except for 1Q08 (prepared on a combined basis), thus allowing comparison with the year-to-date results for 2009, in which Telemig data is already consolidated and, whenever applicable, re-classified. Worthy of mention that year-to-date figures for 2008 are positively impacted by the R\$240 million of ICMS tax reversal in Telemig.

Due to the effects of the adjustments provided for in Laws no. 11.638/07 and no. 11.941/09, some figures stated for the 2008 year-to-date, such as: Depreciation of the mercantile-financial lease of information technology equipment, pursuant to the CPC 06 standards; Financial revenue (expenses) arising out of adjustments to fair value of derivatives and loans transactions, when applicable, pursuant to the CPC 14 standards; Financial expenses arising out of adjustment to present value of the ICMS (CIAP) tax on acquisitions of fixed assets, using the Long Term Interest Rate (“TJLP”) and Income tax (25%) and social contribution on net income (9%), applied to all the above referred adjustments, were reclassified for purpose of comparison between periods.

**Investments (CAPEX)****Investments in the GSM and WCDMA networks.**

CAPEX in 3Q09 represents 13.4% of the net revenue. The expenditures continued to be intended for ensuring: increase in the coverage of the 2nd and 3rd generation networks, increase of capacity in regions where demand exists, especially the Northeast region, and achievement of goals set forth by Anatel, in addition to investments for increasing systems capacity, both in hardware and software and in the development of the own stores network. The year-to-date CAPEX amounted R\$ 1,696.8 million, lower than the amount recorded in the same period of previous year, due to investment in the licenses.

**Cash generation of R\$ 620 million, after the investment activities** In 3Q09 the Company generated R\$1,171.2 million of operating cash, part of which was used for payments arising out of investments effected (R\$ 550.9 million). The cash balance remaining after the investment activities (R\$620.3 million) together with the available cash was used to pay debts and the related hedge. In this quarter, due to the settlement of debts (R\$1,471.7 million), high disbursement was recorded in the financing activities. One of such disbursements was the prepayment of 88.8% of the 3G licenses, causing the consumption of the cash balance after the investment activities and of R\$851.4 million from the available cash.

In the comparison with 2Q09, a reduction of R\$444.8 million was recorded in cash generated from operating activities. This reduction is due to increased expenses with suppliers, additional inventory of handsets due to the change in the portfolio profile, occasioned by the campaigns relating to the high premium (smartphones) segment, and the increase in accounts receivable, due to the sales increase. Such reduction was partially offset by the investment activities, causing the Cash Flow After Investment Activities to decrease by R\$390.5 million.

In the comparison with 3Q08, an increase of R\$836.5 million was recorded in the cash flow after investment activities. This is basically due to the disbursement, in 3Q08, for the voluntary IPO referring to the acquisition of Telemig Participações S.A. As for the financing activities, there was more disbursement in 3Q09 (R\$1,061.6 million) than in 3Q08, due to the amortizations occurred in the period, especially the prepayment of the 3G licenses, as already mentioned.

The figures mentioned here are part of the “Statement of Indirect Cash Flow” presented on page 17.

### OPERATING HIGHLIGHTS

*Quality and differentiated offers contributed to increased stability in the customer base.*

- Vivo's customer base at the end of 3Q09 recorded **48,847 thousand customers**, of which more than 39.4 million in GSM/WCDMA technology. Differentiated offers and solutions, campaigns and actions towards valuing the customer base, quality leadership and the portfolio of plans and handsets contributed to such growth, keeping Vivo in a leadership position, increasing its general market share to 29.4% and its post-paid segment market share to 31.4% at the end of the quarter. In Minas Gerais, Vivo recovered the leadership position in terms of customers.
- **Net additions** in 3Q09 totaled **2,028 thousand new customers**, with a share of net additions of 31.2%, being the leader in number of acquisition. Activations in GSM and WCDMA technology represented 96.6% of total activations.
- Worthy of mention is the performance of the data segment with more than 9.1 million unique users of Internet, including WAP users, and use of mobile internet through smartphones and datacards, reflecting the company's strategy to seek leadership in this segment.
- Excellence in service rendering and larger coverage both in 2G and 3G networks, allowing Vivo to achieve a better competitive position.

*SAC stable YOY of R\$77.*

- **SAC** of R\$ 77 in 3Q09 increased by 1.3% in relation to 3Q08. In the comparison with 2Q09, SAC is 7.2% lower, reflecting our sustained rationality in the acquisition of clients. The growth in sales of SIM CARDS with GSM technology contributed to the above referred decrease.

*Churn of 2.5% in the quarter, lower than in 3Q08.*

- **Churn** of 2.5% in the quarter, with a reduction of 0.1 percentile point in relation to 3Q08, and of 0.2 percentile point in relation to 2Q09, remains relatively stable, reflecting Vivo's success in its efforts to retain customers. Vivo has managed to keep this indicator under control thanks to segmented actions.
- Vivo has strengthened its efforts for ensuring loyalty and retention of its customer base, seeking to minimize possible impacts arising out of the highly competitive scenario. The Reward Program has continued to be strongly used in the exchange of handsets and in the shielding of the customer base, being consolidated as the main relationship tool as regards post-paid customers. Additionally, communication actions have been developed for generating identification and proximity to the pre-paid potential customers, showing that Vivo offers plans, rates and promotions that meet their needs.

*ARPU grew 0,4% in 3Q09 in relation to the previous quarter.*

- The **ARPU** of R\$ 26.4 in the quarter recorded a reduction of 10.2% in relation to 3Q08. When compared to 2Q09, the ARPU grew 0,4%, even considering the growth in the number of accesses of more than 4%. Vivo is acting to stimulate

communication among its customers with offers of value-added services and, thus, neutralize the effects of the competitors' actions and of the multiple offers of SIM Cards, which dilute expenses for the users.

- The Outgoing ARPU in 3Q09 decreased by 6.1% in relation to 3Q08, while the Incoming ARPU decreased by 15.4% in the comparison with the same period of last year, mainly due to the migration from fixed-mobile traffic to mobile-mobile traffic, as well as to the increased penetration of the mobile telephone service in Brazil. It must be pointed out that, despite the ARPU drop, the customer base has recorded a sustainable growth, resulting in a positive impact on total revenue.
- The Outgoing ARPU has grown more than the Incoming ARPU, constantly decreasing the dependence on the interconnection traffic revenue.
- Worthy of mention is the data ARPU growth, which increased by 20,8% and by 7,4% in relation to 3Q08 and 2Q09, respectively.
- The **Blended MOU** in 3Q09 increased by 11.3% in relation to 2Q09, and remained stable in comparison with 3Q08. Worthy of mention is the increase of 15.1% and of 7.0% of the outgoing MOU in the comparison with 2Q09 and 3Q08, respectively. The growth in the Blended MOU in the quarter is a result of the campaigns for stimulating usage, with a growth in the number of minutes due to the beginning of the Recharge and Win campaign in September.
- The **total traffic recorded a 16.1% growth in 3Q09**, both in relation to 3Q08 and 2Q09, with emphasis to the 25.6% and 21.9% increase, respectively, in the outgoing traffic. Worthy of mention is the mobile-mobile on net outgoing traffic, which recorded a positive variation of 35.5% in relation to 3Q08. A growth of 26.1% was recorded in relation to 2Q09.

*Growth of the outgoing traffic due to the campaigns for stimulating usage*

### ***OPERATING REVENUE***

***Growth of 4.0% in the net service revenue in 3Q09 in relation to 3Q08.***

Total **net revenue** recorded a slight growth of 0.2% over 3Q08. Such stability was due to the growth in the access and usage revenue and in the data revenue and VAS revenue, which largely offset the reduction in the revenue from sales of handsets. In relation to 2Q09, the total net revenue grew 3.9%, with growth in almost all its components, exception for sales of handsets, which recorded a lower revenue because, in the expansion of the customer base, the acquisition of customers only with SIM Cards was more intense.

"**Access and usage revenue**" recorded an increase of 3.4% over 3Q08, mainly due to the increase in the customer base and to the campaigns to incentivize the usage. When compared to 2Q09, it increased by 1.8%, a reflex of the positive growth in the outgoing traffic.

***Growth of 40% in data revenues and of 76% in revenues from mobile internet services.***

**Data revenue plus VAS** grew 40.1% and 11.7% over 3Q08 and 2Q09, respectively, representing 13.5% of the Net Service Revenue. The main factors which contributed to this were: increase in the Vivo Internet service customer base, represented both by sales of Internet access modems and Smartphone, Blackberry and iPhone terminals with the corresponding data plans; continuous growth in the consumption of interactivity services via SMS; and launching of the *Torpedo Premiado* (Prize-winning SMS) campaign, on August 29, 2009.

Worthy of mention is the great increase in Mobile Internet revenues of 24% over 2Q09 and 76% over 3Q08, representing more than 46% of the data and VAS revenue, nearly the same share as the SMS and MMS revenues, which have grown 31% and 5% in

relation to 3Q08 and 2Q09, respectively.

### **OPERATING COSTS**

***Efficiency in control of costs contributes to Profitability increase.***

The total operating costs, excluding depreciation and amortization expenses, totaled R\$ 2,683.2 million in 3Q09, recording a reduction of 2.6% and of 2.0% in the comparison with 3Q08 and 2Q09, respectively. Such reduction shows the commercial and operational efficiency resulting from the processes improvement, contributing to profitability increase.

***Commercial and operational efficiency.***

The 11.5% increase in the **cost of the services rendered** in 3Q09, when compared with 3Q08, is the result of the 26.9% increase in the costs for the Fistel Fee due to the growth of the customer base and the increase in rent, insurance and condominium expenses. It should be pointed out that 3Q08 is positively impacted in R\$ 14.1 million referring to the reversal of the provision due to the renegotiation of costs with operators stated in the line of "Other Costs". In comparison with 2Q09, cost of services recorded a growth of 2.4% related to the increase in interconnection costs and third-party services.

The **cost of goods sold** recorded a reduction of 26.0% in comparison with 3Q09 and 3Q08, even considering the increase in the customer base between the periods. This is partially due to the increase in sales of SIM Cards. In comparison with 2Q09, there was a slight increase of 0.9%, as a result of higher sales activity.

In the 3Q09, the **selling expenses** increased by 4.9% in relation to 3Q08. This increase is related to higher expenses with third-party services, such as sales commissions and support, partially offset by the reduction in the provision for doubtful accounts (PDD).

When compared to 2Q09 selling expenses reduced by 5,0%, due to decreased PDD expenses and donations, partially offset by an increase in Third-party services, especially commissions and Sales support.

**PDD under control.** The **Provision for Doubtful Accounts (PDD)** in 3Q09 showed a reduction of 57.9% in relation to 3Q08. The amount of R\$ 30.2 million, positively affected by recovering, represents 0.5% of the total gross revenue, 0.7 percentile points down in relation to 3Q08 (1.2%). In comparison with 2Q09, the reduction was of 53.7%, also 0.7 percentile points lower. Vivo has continued with its collection actions and strict credit granting criteria, which have maintained this item under control.

The **general and administrative expenses** decreased by 5.9% in 3Q09 in relation to 3Q08, mainly due to the decrease in expenses with third-party services, especially technical assistance. In the comparison with 2Q09, there was an increase of 10.6%, reflecting higher expenses with third-party services, especially auditing, legal, data processing and technical services, in addition to plant maintenance, among others.

**Other Operating Revenue/Expenses** recorded revenue of R\$ 96.6 million. The comparison with 3Q08 and 2Q09 presents an increase in the revenue from recovered expenses, especially taxes. In 3Q09 there is a net increase of R\$46.3 million related, mainly, to the non recurring recovering of taxes among other effects. Due to the elimination of “Non-operating revenue/expenses” provided for in Law n° 11.941/09, the amount of R\$ 7.8 million was reclassified to “Other operating revenue (expenses)” in the 3Q08 Income Statement.

#### **EBITDA**

**EBITDA records an increase of 6.0% in 3Q09 in relation to 3Q08.** The **EBITDA** (earnings before interests, taxes, depreciation and amortization) in the 3Q09 was R\$ 1,404.3 million, an increase of 6.0% in relation to 3Q08, with an EBITDA Margin of 34.4%. The result recorded in 3Q09 reflects the continued growth in service revenue, combined with efficiency in the control of costs, mainly due to the continuous improvement of the operating processes.

#### **DEPRECIATION AND AMORTIZATION**

**Depreciation and amortization** expenses recorded an increase of 3.9% in relation to 3Q08, due, in part, to the accelerated depreciation of the CDMA technology and to the investments in the period. When compared to 2Q09, it recorded an increase of 3.0%, due to the investments made in the period.

***Drop of 53% in net financial expenses in comparison with 3Q08.***

Vivo's net financial expenses decreased by R\$ 19.6 million in the comparison of 3Q09 over 2Q09. This decrease is mainly explained by the drop in the financial expenses due to lower net indebtedness (R\$ 4,207.0 million in 3Q09 and R\$4,692.6 million in 2Q09), combined to the reduction in the effective interest rate in the period (2.15% in 3Q09 and 2.34% in 2Q09)..

When compared to 3Q08, Vivo's net financial expenses decreased by R\$ 101.3 million – mainly due to punctual effects, especially the “Adjustment to Present Value” (AVP) reported in 3Q08 and the drop in the effective interest rate in the period (2.15% in 3Q09 and 3.16% in 3Q08).

(\*) BNDES long term interest rate unit

(\*\*) UMBND - prepared by the BNDES, it is a basket of foreign currencies unit, US dollar predominant, considered as US\$ and its wholly-owned subsidiaries.

**Release of R\$ 178 million from the credit facility granted by the BNDES.** The Company closed September 2009 with a gross debt of R\$ 5,167.3 million (R\$ 5,849.8 million at September 30, 2008), of which 19.0% is denominated in foreign currency, 100% of which being hedged. The debt recorded in the 3Q09 was offset by cash and financial investments (R\$ 946.0 million) and by derivative assets and liabilities (R\$ 14.3 million receivable), resulting in a net debt of R\$4,207.0 million (R\$ 3,968.5 million at September 30, 2008). The last portion of the credit facility granted by the BNDES to the Company was released in this quarter, in the amount of R\$ 177.8 million. On July 24, the company carried out the 6th issue of commercial papers, in the amount of R\$ 500.0 million, used for settlement of the 4th issue of Commercial Papers, in the amount of R\$ 563.8 million (R\$ 500.0 million of principal and R\$ 63.8 million of interest). Also in 3Q09, due to market conditions, the Company decided to prepay R\$ 1,137.3 million, amount equivalent to 88.8% of the financing of the 3G licenses, improving third-party's capital cost.

**Drop of 10.3% in the net debt in relation to 2Q09.** In the 3Q09, the gross debt recorded a drop of 20.6% in relation to 2Q09, the main reason for this was the prepayment of the 3G licenses. The debt profile remained almost the same, being 68.2% at long term and 31.8% at short term (in the 2Q09, 72.1% was at long term and 27.9% was at short term). In the comparison of 3Q09 over 2Q09, Vivo's net debt dropped by R\$ 485.6 million, as a result of the strong operating cash generation in the period and a lower debt cost.

The increase in the net debt in 3Q09, when compared to 3Q08 (R\$ 4,207.0 million in and R\$ 3,968.5 million, respectively) is due to the financing of 3G licenses as from the 4Q08, partially offset by generation of cash in the period.

***Net Profit of R\$ 340.0 million.***

The Net Profit of R\$ 340.0 million in the quarter represents an increase of 153.9% and of 97.2% in relation to 3Q08 and 2Q09, respectively, reflecting the better operational and financial performance. In the year-to-date, the net profit recorded an increase of 72.7% in relation to the same period of the last year, reaching R\$635.9 million.

**Corporate  
Restructuring.**

The managements of Vivo Participações S.A. (“Vivo Part”), Telemig Celular Participações S.A. (“TCP”) and Telemig Celular S.A. (“TC”) (jointly referred to as “Companies”), in the form and for the purposes of CVM Instructions no. 319/99 and 358/02, have informed, by a Relevant Fact disclosed on 03/20/2009, that their respective Boards of Directors approved the proposal for a corporate restructuring aiming at the merger of TC’s shares into TCP and of TCP’s shares into Vivo Part, for conversion of TC into a wholly-owned subsidiary of TCP, and of TCP into a wholly-owned subsidiary of Vivo Part. On July 20, the “Effective Date” was granted by the SEC, which represented the approval for the next stages to be implemented.

At a Extraordinary Meeting held on July 27, 2009, the transaction was approved by the shareholders of the companies. A period of 30 days started being counted as from July 29th, for the withdrawal right to be exercised by dissenting shareholders. The unification of the shares became effective on September 8th, and share fractions resulting from the transaction were sold at the auctions held in BOVESPA on September 24 and 29, being 54,169 common shares and 42,595 preferred shares, representing a net value of R\$ 40.95218 per common share and R\$ 43.19525 per preferred share, to be paid pro-rata to the shares held by the shareholders and investors prior to the auctions.

Having in consideration that TC became a wholly-owned subsidiary of TCP and that TCP became a wholly-owned subsidiary of Vivo Part, a request for their respective registrations with CVM and BOVESPA to be cancelled was made, which were granted, respectively, on September 16 and October 19. The request for cancellation of the registration of TCP with the NYSE was filed by NYSE itself in “Form 25” on September 28, 2009. Pursuant to the Securities and Exchange Commission’s rules, the cancellation will become effective within 90 days from this date.
